THE
EXPERIENTIAL
NETWORK (XN)

FRESH PERSPECTIVES

MENTORSHIP OPPORTUNITIES

A WEALTH OF CRITICAL SKILLS & TALENT

What is the Experiential Network?

XN is a partnership branch of Northeastern University. We provide organizations the opportunity to work with talented students on projects embedded in their coursework with expert faculty oversight. This arrangement enables organizations to move forward on project-based work at no cost while giving students highly relevant work experience and real-world learning opportunities.

11,000+
Student Participants

3,000+
Projects

2,300
Employer Partners

How Does it Work?

Project work is done virtually over six-week sessions (with some flexibility), with sponsor-mentors dedicating about an hour per week to providing feedback. Projects are typically research based and conclude with an actionable deliverable that provides insight and recommendations to inform critical business decisions. Projects are embedded in students' coursework as assignments and/or capstone projects. Long-term engagements like co-ops and internships are also available.

Students Bring Proficiency in Many Domains

- Analytics and Business Intel
- Healthcare and Biotech
- Communications and Media
- Leadership and Project Management
- Manufacturing, Security, Global Ops, and more!

BENEFITS OF XN

- Receive insights from students who bring a fresh perspective to your organization

- Assess and engage rising student talent through project-based work

- Give new and rising managers opportunities to mentor and develop high-potential students

Project Title:

Project Description: In a paragraph or two, create a narrative around the project work. What purpose will the content serve within the company's context? What are the problems to be solved; it may help to define the scope of the project in a few questions.

Goal:
At a high level, what should be accomplished by this project? And more specifically, what is expected to be produced as a deliverable? (Address content, format, depth, and a clear measure of accomplishment.)
