

Northeastern University

# Undergraduate Catalog 2021-2022

*Full-Time Day Programs*

# Table of Contents

Admission .....	11	Student Evaluation of Courses (TRACE) .....	38
Admission Policy and Entrance Requirements .....	11	Student Records, Transcripts, and Related Policies .....	38
Conditional Admission .....	14	Student Right-to-Know Act .....	41
University Honors Program .....	14	University-Sponsored Travel .....	41
Specialized Entry Programs .....	15	University Academics .....	41
Foundation Year .....	15	Army, Air Force, and Navy Reserve Officers' Training Corps (ROTC) Programs .....	41
Merit Scholarships .....	16	Cooperative Education .....	42
Information for Entering Students .....	17	Education .....	43
Accommodations for Students with Disabilities .....	17	Experiential Learning .....	43
Health Requirements—University Health and Counseling Services (UHCS) .....	17	Explore Program .....	44
Information Technology Services .....	17	General Studies Program .....	44
Information for International Students .....	18	Global Experience .....	44
Parent/Family Programs .....	19	Living and Learning Communities .....	45
Public Safety .....	19	NUpath .....	46
Residential Life .....	20	Requirements .....	46
Student Orientation .....	20	Learning Goals .....	46
We Care .....	20	Writing-Intensive Courses .....	49
College Expenses .....	20	Additional Requirements for BA Students .....	49
Financial Aid .....	20	Premedical and Other Preprofessional Health Career Preparation .....	50
Bill Payment .....	21	Pre-Law Advising .....	51
Financing Options .....	23	Research and Creative Activity .....	51
Tuition, Room, Board, and Fees Per Semester .....	23	Service-Learning .....	51
Academic Policies and Procedures .....	26	Undergraduate Degrees .....	51
Academic Appeals Policies and Procedures .....	26	Undergraduate Internships .....	52
Academic Honors .....	26	University Honors Program .....	52
Academic Integrity Policy .....	27	University-Wide Requirements .....	52
Academic Progression Standards .....	27	World Languages Center .....	52
Accommodations for Students with Disabilities .....	27	College of Arts, Media and Design .....	52
Attendance Requirements .....	28	School of Architecture .....	53
Course Credit Guidelines .....	28	Architecture, BS .....	54
Degrees, Majors, and Minors .....	29	Architectural Studies, BS .....	56
Family Educational Rights and Privacy Act (FERPA) .....	31	Architectural Studies and Design, BS .....	58
Final Examinations and Related Policies on Other Exams and Final Term Papers/Projects .....	32	Architecture and English, BS .....	60
Graduation Requirements .....	32	Civil Engineering and Architectural Studies, BSCE .....	62
Leaves of Absence and University Withdrawal .....	32	Environmental and Sustainability Sciences and Landscape Architecture, BS .....	65
Personal Information .....	34	Environmental Engineering and Landscape Architecture, BSEnVE .....	67
Registration and Taking Courses .....	34	Landscape Architecture, BLA .....	70
Student Bill of Academic Rights and Responsibilities .....	36		

Architectural and Urban History, Minor .....	71	Communication Studies, BA .....	131
Architectural Design, Minor .....	71	Communication and Media Studies, BA .....	133
Architectural Science and Systems, Minor .....	72	Communication Studies and Graphic and Information Design, BA .....	100
Urban Landscape Studies, Minor .....	72	Communication Studies and Sociology, BA .....	135
Art + Design .....	72	Communication Studies and Theatre, BA .....	137
Art, BA .....	75	English and Communication Studies, BA .....	139
Design, BFA .....	77	Human Services and Communication Studies, BA .....	142
Game Design, BFA .....	81	Linguistics and Communication Studies, BA .....	143
Media Arts, BFA .....	82	Media Arts and Communication Studies, BA .....	114
Studio Art, BFA .....	87	Media and Screen Studies, BA .....	147
Behavioral Neuroscience and Design, BS .....	88	Media and Screen Studies and English, BA .....	149
Business Administration and Design, BS .....	91	Media and Screen Studies and History, BA .....	151
Computer Science and Design, BS .....	93	Media and Screen Studies and Journalism, BA .....	153
Computer Science and Game Development, BS .....	96	Media and Screen Studies and Media Arts, BA .....	113
Computer Science and Media Arts, BS .....	97	Media and Screen Studies and Philosophy, BA .....	156
Communication Studies and Graphic and Information Design, BA .....	100	Media and Screen Studies and Political Science, BA .....	157
English and Graphic and Information Design, BA .....	101	Media and Screen Studies and Sociology, BA .....	160
Game Art and Animation, BFA .....	104	Media and Screen Studies and Theatre, BA .....	162
Architectural Studies and Design, BS .....	58	Political Science and Communication Studies, BA .....	164
Game Design and Music with Concentration in Music Technology, BS .....	108	Business Administration and Communication Studies, BS .....	167
Graphic and Information Design and Mathematics, BS .....	109	Computer Science and Communication Studies, BS .....	169
Journalism and Interaction Design, BS .....	111	Communication Studies and Speech-Language Pathology and Audiology, BS .....	171
Media and Screen Studies and Media Arts, BA .....	113	Health Science and Communication Studies, BS .....	172
Media Arts and Communication Studies, BA .....	114	Media and Screen Studies and Theatre, BS .....	175
Theatre and Interaction Design, BA .....	116	Music and Communication Studies with Concentration in Music Industry, BS .....	176
Theatre and Interaction Design, BS .....	118	Political Science and Communication Studies, BS .....	179
Mechanical Engineering and Design, BSME .....	119	Argumentation and Law, Minor .....	182
Animation, Minor .....	123	Cinema Studies, Minor .....	182
Art, Minor .....	124	Communication Studies, Minor .....	182
Art History, Minor .....	125	Digital Communications, Minor .....	183
Creative Fabrication, Minor .....	125	Film Production, Minor .....	183
Experience Design, Minor .....	126	Human Communication, Minor .....	183
Game Art, Minor .....	126	Improvisation and Storytelling, Minor .....	184
Game Design, Minor .....	127	Media Screen Studies, Minor .....	184
Graphic and Information Design, Minor .....	127	Media Production, Minor .....	185
Immersive Media, Minor .....	128	Oratory and Public Speaking, Minor .....	185
Interaction Design, Minor .....	128	Political Communication, Minor .....	185
Photography, Minor .....	129	Rhetoric, Minor .....	186
Photojournalism, Minor .....	130	Social Activism, Minor .....	186
Video Arts, Minor .....	130	Sports, Media, Communication, Minor .....	186
Communication Studies .....	130		

School of Journalism .....	187	Computer Science and Theatre, BS .....	242
Journalism, BA .....	187	Cultural Anthropology and Theatre, BA .....	244
Journalism and English, BA .....	189	English and Theatre, BA .....	246
Journalism and Political Science, BA .....	191	Media and Screen Studies and Theatre, BA .....	162
Media and Screen Studies and Journalism, BA .....	153	Media and Screen Studies and Theatre, BS .....	175
Computer Science and Journalism, BS .....	195	Theatre and Interaction Design, BA .....	116
Criminal Justice and Journalism, BS .....	197	Theatre and Interaction Design, BS .....	118
Data Science and Journalism, BS .....	199	Global Fashion Studies, Minor .....	255
Journalism and Interaction Design, BS .....	111	Improvisation and Storytelling, Minor .....	184
Journalism Practice, Minor .....	203	Musical Theatre, Minor .....	232
Journalism Studies, Minor .....	204	Performing Arts Administration, Minor .....	233
Photojournalism, Minor .....	130	Playwriting, Minor .....	257
Public Relations, Minor .....	204	Theatre, Minor .....	258
Sports, Media, Communication, Minor .....	186	Theatre, Performance, and Social Change, Minor .....	258
Music .....	205	Theatrical Design, Minor .....	259
Music, BA .....	206	Interdisciplinary .....	259
Music with Concentration in Music Industry, BS .....	209	Creativity in Theory and Practice, Minor .....	259
Music with Concentration in Music Technology, BS .....	212	Accelerated Bachelor/Graduate Degree Programs .....	260
Computer Science and Music with Concentration in Music Technology, BS .....	215	D'Amore-McKim School of Business .....	260
Electrical Engineering and Music with concentration in Music Technology, BSEE .....	217	Bachelor of Science in Business Administration, BSBA .....	261
Game Design and Music with Concentration in Music Technology, BS .....	108	Bachelor of Science in International Business, BSIB .....	263
Music and Communication Studies with Concentration in Music Industry, BS .....	176	Combined Majors .....	266
Physics and Music with Concentration in Music Technology, BS .....	224	Business Administration and Communication Studies, BS .....	167
Psychology and Music, BS .....	226	Business Administration and Design, BS .....	91
Ethnomusicology, Minor .....	228	Business Administration and Psychology, BS .....	270
Music, Minor .....	229	Computer Science and Business Administration, BS .....	271
Music Composition, Minor .....	230	Cybersecurity and Business Administration, BS .....	274
Music Industry, Minor .....	230	Data Science and Business Administration, BS .....	277
Music Performance, Minor .....	230	Economics and Business Administration, BS .....	279
Music Recording, Minor .....	231	Health Science and Business Administration, BS .....	281
Music Technology, Minor .....	232	International Affairs and International Business, BS .....	283
Musical Theatre, Minor .....	232	Mathematics and Business Administration, BS .....	285
Performing Arts Administration, Minor .....	233	Political Science and Business Administration, BS .....	287
Songwriting, Minor .....	233	Concentrations .....	290
Theatre .....	234	Accounting .....	290
Theatre, BA .....	234	Brand Management .....	290
Theatre, BS .....	237	Business Analytics .....	291
American Sign Language and Theatre, BS .....	239	Corporate Innovation and Venture .....	291
Communication Studies and Theatre, BA .....	137	Entrepreneurial Startups .....	291
		Family Business .....	292
		Finance .....	292
		Fintech .....	293

Global Business and Strategy .....	293	Computer Science and Behavioral Neuroscience, BS .....	331
Healthcare Management and Consulting .....	293	Computer Science and Biology, BS .....	334
International Business .....	294	Computer Science and Business Administration, BS .....	271
Management .....	294	Computer Science and Cognitive Psychology, BS .....	341
Management Information Systems .....	295	Computer Science and Communication Studies, BS .....	169
Marketing .....	295	Computer Science and Criminal Justice, BS .....	346
Marketing Analytics .....	296	Computer Science and Design, BS .....	93
Social Innovation and Entrepreneurship .....	296	Computer Science and Economics, BS .....	351
Supply Chain Management .....	297	Computer Science and English, BS .....	353
Minors .....	297	Computer Science and Environmental and Sustainability Sciences, BS .....	357
Accounting and Advisory Services .....	297	Computer Science and Game Development, BS .....	96
Brand Management .....	298	Computer Science and History, BS .....	361
Business Administration .....	298	Computer Science and Journalism, BS .....	195
Business Analytics .....	299	Computer Science and Linguistics, BS .....	366
Consulting .....	299	Computer Science and Mathematics, BS .....	368
Corporate Innovation and Venture .....	300	Computer Science and Media Arts, BS .....	97
Emerging Markets .....	301	Computer Science and Music with Concentration in Music Technology, BS .....	215
Entrepreneurial Startups .....	301	Computer Science and Philosophy, BS .....	376
Family Business .....	301	Computer Science and Physics, BS .....	378
Leadership and Human Capital .....	302	Computer Science and Political Science, BS .....	381
Management Information Systems .....	302	Computer Science and Sociology, BS .....	385
Marketing .....	303	Computer Science and Theatre, BS .....	242
Marketing Analytics .....	303	Cybersecurity and Business Administration, BS .....	274
Social Innovation and Entrepreneurship .....	304	Cybersecurity and Criminal Justice, BS .....	392
Strategy .....	304	Cybersecurity and Economics, BS .....	394
Supply Chain Management .....	304	Data Science and Biochemistry, BS .....	396
Sustainable Business Practices .....	305	Data Science and Biology, BS .....	398
Accelerated Bachelor/Graduate Degree Programs .....	305	Data Science and Behavioral Neuroscience, BS .....	400
Khoury College of Computer Sciences .....	305	Data Science and Business Administration, BS .....	277
Computer Science .....	306	Data Science and Chemistry, BS .....	405
Computer Science, BSCS .....	307	Data Science and Ecology and Evolutionary Biology, BS .....	408
Computer Science, BACS .....	310	Data Science and Economics, BS .....	411
Computer Science, Minor .....	313	Data Science and Environmental and Sustainability Sciences, BS .....	413
Cybersecurity .....	315	Data Science and Health Science, BS .....	415
Cybersecurity, BS .....	315	Data Science and Journalism, BS .....	199
Data Science .....	318	Data Science and Linguistics, BS .....	419
Data Science, BS .....	318	Data Science and Mathematics, BS .....	422
Data Science, Minor .....	320	Data Science and Physics, BS .....	424
Khoury Combined Majors .....	321	Data Science and Psychology, BS .....	426
Chemical Engineering and Computer Science, BSChE .....	322	Accelerated Bachelor/Graduate Degree Programs .....	429
Civil Engineering and Computer Science, BSCE .....	324		
Computer Engineering and Computer Science, BSCmpE .....	327		

College of Engineering .....	429	Biomedical Engineering, Minor .....	513
First Year Engineering .....	430	Computer Engineering, Minor .....	514
Interdisciplinary Minors .....	430	Computational Data Analytics, Minor .....	514
Entrepreneurial Engineering, Minor .....	430	Electrical Engineering, Minor .....	515
Design and Innovation in Engineering, Minor .....	431	Robotics, Minor .....	515
Materials Science and Engineering, Minor .....	432	Mechanical and Industrial Engineering .....	516
Sustainable Energy Systems, Minor .....	433	Industrial Engineering, BSIE .....	517
Bioengineering .....	434	Mechanical Engineering, BSME .....	521
Bioengineering, BSBioE .....	434	Mechanical Engineering and Design, BSME .....	119
Bioengineering and Biochemistry, BSBioE .....	439	Mechanical Engineering and History, BSME .....	529
Chemical Engineering and Bioengineering, BSChE .....	443	Mechanical Engineering and Physics, BSME .....	532
Chemical Engineering .....	445	Aerospace, Minor .....	534
Chemical Engineering, BSChE .....	446	Biomechanical Engineering, Minor .....	535
Chemical Engineering and Biochemistry, BSChE .....	450	Healthcare System Operations, Minor .....	535
Chemical Engineering and Bioengineering, BSChE .....	443	Industrial Engineering, Minor .....	535
Chemical Engineering and Computer Science, BSChE .....	322	Mechanical Engineering, Minor .....	536
Chemical Engineering and Environmental Engineering, BSChE .....	457	Robotics, Minor .....	515
Chemical Engineering and Physics, BSChE .....	460	Accelerated Bachelor/Graduate Degree Programs .....	536
Biochemical Engineering, Minor .....	462	Bouvé College of Health Sciences .....	537
Civil and Environmental Engineering .....	463	Interdisciplinary .....	539
Civil Engineering, BSCE .....	464	Health, Humanities, and Society, Minor .....	539
Civil Engineering and Architectural Studies, BSCE .....	62	Healthcare System Operations, Minor .....	535
Civil Engineering and Computer Science, BSCE .....	324	Communication Studies and Speech-Language Pathology and Audiology, BS .....	171
Chemical Engineering and Environmental Engineering, BSChE .....	457	Data Science and Health Science, BS .....	415
Environmental Engineering, BSEnVE .....	476	Environmental Engineering and Health Science, BSEnVE .....	480
Environmental Engineering and Health Science, BSEnVE .....	480	Health Science and Business Administration, BS .....	281
Environmental Engineering and Landscape Architecture, BSEnVE .....	67	Health Science and Communication Studies, BS .....	172
Architectural Engineering, Minor .....	485	Health Science and Psychology, BS .....	550
Civil Engineering, Minor .....	486	Health Science and Sociology, BS .....	553
Environmental Chemistry, Minor .....	487	Linguistics and Speech-Language Pathology and Audiology, BS .....	555
Electrical and Computer Engineering .....	488	School of Clinical and Rehabilitation Sciences .....	556
Computer Engineering, BSCmpE .....	488	Speech-Language Pathology and Audiology, BS .....	558
Computer Engineering and Physics, BSCmpE .....	492	Communication Studies and Speech-Language Pathology and Audiology, BS .....	171
Computer Engineering and Computer Science, BSCmpE .....	327	Linguistics and Speech-Language Pathology and Audiology, BS .....	555
Electrical Engineering, BSEE .....	500	Communications Sciences and Disorders, Minor .....	563
Electrical Engineering and Physics, BSEE .....	504	Early Intervention, Minor .....	563
Electrical Engineering and Music with concentration in Music Technology, BSEE .....	217	Speech-Language Pathology and Audiology, Minor .....	564
Electrical and Computer Engineering, BSEE or BSCmpE .....	510	Human Movement Science, Minor .....	564
		School of Community Health and Behavioral Sciences .....	564

Public Health, BA .....	565	Biochemistry, Minor .....	641
Health Science, BS .....	569	Biology .....	642
Data Science and Health Science, BS .....	415	Biology, BS .....	642
Environmental Engineering and Health Science, BSEnvE .....	480	Cell and Molecular Biology, BS .....	646
Health Science and Business Administration, BS .....	281	Biology and English, BS .....	650
Health Science and Communication Studies, BS .....	172	Biology and Mathematics, BS .....	652
Health Science and Psychology, BS .....	550	Biology and Political Science, BS .....	653
Health Science and Sociology, BS .....	553	Computer Science and Biology, BS .....	334
Exercise Science, Minor .....	585	Data Science and Biology, BS .....	398
Global Health, Minor .....	585	Cell and Molecular Biology, Minor .....	661
Health Psychology, Minor .....	586	Biology, Minor .....	662
Health Research Methods, Minor .....	587	Chemistry and Chemical Biology .....	662
Health, Humanities, and Society, Minor .....	539	Chemistry, BS .....	663
Healthcare System Operations, Minor .....	535	Data Science and Chemistry, BS .....	405
Mindfulness Studies, Minor .....	589	Environmental and Sustainability Sciences and Chemistry, BS .....	667
Nutrition, Minor .....	589	Chemistry, Minor .....	669
Public Health, Minor .....	589	Environmental Chemistry, Minor .....	487
School of Nursing .....	590	Linguistics .....	670
Nursing, BSN .....	591	Linguistics, BS .....	671
Nursing, BSN—Accelerated Program for Second-Degree Students .....	598	American Sign Language and Linguistics, BS .....	673
Wellness Studies, Minor .....	601	Computer Science and Linguistics, BS .....	366
School of Pharmacy and Pharmaceutical Sciences .....	602	Data Science and Linguistics, BS .....	419
Pharmacy, PharmD .....	602	Linguistics and Cultural Anthropology, BS .....	679
Pharmacy Studies, BS .....	607	Linguistics and Psychology, BS .....	681
Pharmaceutical Sciences, BS .....	610	Linguistics and Speech-Language Pathology and Audiology, BS .....	555
Health Sciences Entrepreneurship, Minor .....	612	Linguistics and Communication Studies, BA .....	143
Pharmaceutical Sciences, Minor .....	612	Linguistics and English, BA .....	687
Accelerated Bachelor/Graduate Degree Programs .....	613	Linguistics, Minor .....	689
College of Science .....	613	Marine and Environmental Sciences .....	690
Behavioral Neuroscience .....	614	Ecology and Evolutionary Biology, BS .....	691
Behavioral Neuroscience, BS .....	614	Environmental and Sustainability Sciences, BS .....	694
Behavioral Neuroscience and Design, BS .....	88	Environmental Studies, BA .....	698
Behavioral Neuroscience and Philosophy, BS .....	619	Marine Biology, BS .....	700
Computer Science and Behavioral Neuroscience, BS .....	331	Computer Science and Environmental and Sustainability Sciences, BS .....	357
Data Science and Behavioral Neuroscience, BS .....	400	Data Science and Ecology and Evolutionary Biology, BS .....	408
Behavioral Neuroscience, Minor .....	627	Data Science and Environmental and Sustainability Sciences, BS .....	413
Biochemistry .....	628	Environmental and Sustainability Sciences and Chemistry, BS .....	667
Biochemistry, BS .....	628	Environmental and Sustainability Sciences and Economics, BS .....	713
Bioengineering and Biochemistry, BSBioE .....	439		
Chemical Engineering and Biochemistry, BSChE .....	450		
Data Science and Biochemistry, BS .....	396		

Environmental and Sustainability Sciences and Landscape Architecture, BS .....	65	Psychology, BS .....	783
Environmental Studies and History, BA .....	717	American Sign Language and Psychology, BS .....	788
Environmental Studies and International Affairs, BA .....	719	Business Administration and Psychology, BS .....	270
Environmental Studies and Philosophy, BA .....	723	Computer Science and Cognitive Psychology, BS .....	341
Environmental Studies and Political Science, BA .....	725	Criminal Justice and Psychology, BS .....	793
Sociology and Environmental Studies, BA .....	727	Data Science and Psychology, BS .....	426
Ecology and Evolutionary Biology, Minor .....	729	Economics and Psychology, BS .....	797
Environmental and Sustainability Sciences, Minor .....	730	Health Science and Psychology, BS .....	550
Environmental Studies, Minor .....	730	Linguistics and Psychology, BS .....	681
Geosciences, Minor .....	731	Mathematics and Psychology, BS .....	750
Marine Sciences, Minor .....	731	Psychology and Music, BS .....	226
Mathematics .....	732	Psychology, Minor .....	807
Mathematics, BA .....	732	Interdisciplinary .....	808
Mathematics, BS .....	734	Environmental Chemistry, Minor .....	487
Biology and Mathematics, BS .....	652	Scientific Commercialization, Minor .....	808
Computer Science and Mathematics, BS .....	368	Accelerated Bachelor/Graduate Degree Programs .....	809
Data Science and Mathematics, BS .....	422	College of Social Sciences and Humanities .....	809
Economics and Mathematics, BS .....	742	Interdisciplinary .....	810
Graphic and Information Design and Mathematics, BS .....	109	Africana Studies, BA .....	810
Mathematics and Business Administration, BS .....	285	Africana Studies, BS .....	813
Mathematics and Cultural Anthropology, BS .....	746	Africana Studies and Political Science, BA .....	815
Mathematics and Physics, BS .....	747	History, Culture, and Law, BA .....	818
Mathematics and Political Science, BS .....	748	Politics, Philosophy, and Economics, BS .....	821
Mathematics and Psychology, BS .....	750	Religious Studies and Africana Studies, BA .....	825
Mathematics and Sociology, BS .....	752	African American Studies, Minor .....	827
Mathematics, Minor .....	753	African Studies, Minor .....	827
Physics .....	753	Africana Studies, Minor .....	828
Physics, BS .....	754	Black Feminist Studies, Minor .....	828
Applied Physics, BS .....	756	Computational Social Science, Minor .....	828
Biomedical Physics, BS .....	758	Digital Methods in the Humanities, Minor .....	829
Mathematics and Physics, BS .....	747	Food Systems Sustainability, Health, and Equity, Minor .....	829
Computer Science and Physics, BS .....	378	Global Health, Minor .....	585
Data Science and Physics, BS .....	424	Health, Humanities, and Society, Minor .....	539
Physics and Music with Concentration in Music Technology, BS .....	224	Latino/a, Latin American, and Caribbean Studies, Minor .....	831
Physics and Philosophy, BS .....	769	Law and Public Policy, Minor .....	832
Chemical Engineering and Physics, BSChE .....	460	Urban Studies, Minor .....	834
Computer Engineering and Physics, BSCmpE .....	492	Women's, Gender, and Sexuality Studies, Minor .....	834
Electrical Engineering and Physics, BSEE .....	504	Asian Studies .....	835
Mechanical Engineering and Physics, BSME .....	532	Asian Studies, BA .....	835
Physics, Minor .....	782	History and Asian Studies, BA .....	837
Psychology .....	782	East Asian Studies, Minor .....	838

School of Criminology and Criminal Justice .....	839	Economics, BA .....	903
English and Criminal Justice, BA .....	840	History and Economics, BA .....	904
History and Criminal Justice, BA .....	842	International Affairs and Economics, BA .....	906
International Affairs and Criminal Justice, BA .....	844	Political Science and Economics, BA .....	910
Criminal Justice, BS .....	848	Economics, BS .....	913
Computer Science and Criminal Justice, BS .....	346	Computer Science and Economics, BS .....	351
Criminal Justice and Journalism, BS .....	197	Cybersecurity and Economics, BS .....	394
Criminal Justice and Philosophy, BS .....	855	Economics and Business Administration, BS .....	279
Criminal Justice and Political Science, BS .....	857	Economics and Human Services, BS .....	919
Criminal Justice and Psychology, BS .....	793	Economics and Mathematics, BS .....	742
Criminal Justice and Sociology, BS .....	861	Economics and Philosophy, BS .....	922
Cybersecurity and Criminal Justice, BS .....	392	Economics and Psychology, BS .....	797
Human Services and Criminal Justice, BS .....	866	Environmental and Sustainability Sciences and Economics, BS .....	713
Criminal Justice, Minor .....	868	History and Economics, BS .....	928
Cultures, Societies, and Global Studies .....	868	Political Science and Economics, BS .....	929
Africana Studies, BA .....	810	Politics, Philosophy, and Economics, BS .....	821
Africana Studies and Political Science, BA .....	815	Economics, Minor .....	935
History, Culture, and Law, BA .....	818	English .....	936
Religious Studies and Africana Studies, BA .....	825	English, BA .....	936
Spanish, BA .....	880	Computer Science and English, BS .....	353
Spanish and International Affairs, BA .....	881	English and Communication Studies, BA .....	139
Africana Studies, BS .....	813	English and Criminal Justice, BA .....	840
American Sign Language—English Interpreting, BS .....	887	English and Cultural Anthropology, BA .....	948
American Sign Language and Human Services, BS .....	889	English and Graphic and Information Design, BA .....	101
American Sign Language and Linguistics, BS .....	673	English and Philosophy, BA .....	952
American Sign Language and Psychology, BS .....	788	English and Political Science, BA .....	954
American Sign Language and Theatre, BS .....	239	English and Theatre, BA .....	246
African American Studies, Minor .....	827	History and English, BA .....	960
African Studies, Minor .....	827	Journalism and English, BA .....	189
Africana Studies, Minor .....	828	Linguistics and English, BA .....	687
American Sign Language, Minor .....	897	Media and Screen Studies and English, BA .....	149
Arabic, Minor .....	897	Architecture and English, BS .....	60
Black Feminist Studies, Minor .....	828	Biology and English, BS .....	650
Chinese, Minor .....	898	English, Minor .....	974
Film and International Cultures, Minor .....	898	Rhetoric, Minor .....	186
German, Minor .....	899	Writing, Minor .....	974
Italian, Minor .....	899	History .....	975
Japanese, Minor .....	900	History, BA .....	976
French, Minor .....	900	Environmental Studies and History, BA .....	717
Portuguese, Minor .....	901	History and Asian Studies, BA .....	837
Russian, Minor .....	901	History and Criminal Justice, BA .....	842
Spanish, Minor .....	901	History and Cultural Anthropology, BA .....	982
Economics .....	902		

History and Economics, BA .....	904	International Affairs and Religious Studies, BA .....	1074
History and English, BA .....	960	Political Science and International Affairs, BA .....	1079
History and Philosophy, BA .....	987	Sociology and International Affairs, BA .....	1084
History and Political Science, BA .....	989	Spanish and International Affairs, BA .....	881
History and Religious Studies, BA .....	992	International Affairs, Minor .....	1092
International Affairs and History, BA .....	994	Middle East and Mediterranean Studies, Minor .....	1094
Media and Screen Studies and History, BA .....	151	Jewish Studies .....	1095
History, BS .....	999	Jewish Studies and Religion, BA .....	1095
Computer Science and History, BS .....	361	Jewish Studies, Minor .....	1097
History and Economics, BS .....	928	Philosophy and Religion .....	1098
Mechanical Engineering and History, BSME .....	529	Philosophy, BA .....	1099
History, Minor .....	1008	Religious Studies, BA .....	1106
Human Services .....	1008	Cultural Anthropology and Philosophy, BA .....	1108
Human Services, BA .....	1009	Cultural Anthropology and Religious Studies, BA .....	1109
Human Services and International Affairs, BA .....	1010	English and Philosophy, BA .....	952
Political Science and Human Services, BA .....	1014	Environmental Studies and Philosophy, BA .....	723
Human Services and Sociology, BA .....	1017	History and Philosophy, BA .....	987
Human Services, BS .....	1019	History and Religious Studies, BA .....	992
American Sign Language and Human Services, BS .....	889	International Affairs and Religious Studies, BA .....	1074
Economics and Human Services, BS .....	919	Jewish Studies and Religion, BA .....	1095

## Admission

- Admission Policy and Entrance Requirements (p. 11)
- Conditional Admission (p. 14)
- University Honors Program (p. 14)
- Specialized Entry Programs (p. 15)
- Merit Scholarships (p. 16)

## Admission Policy and Entrance Requirements

Admission to Northeastern is highly selective. Applicants are admitted either as first-year or transfer students. Candidates who bring diverse experiences, perspectives, and interests to our community are identified by the Admissions Committee following a holistic application evaluation. Approximately 2,800 first-year students and an additional cohort of transfer students enroll each September; approximately 1,200 new first-year students will enroll in January through The N.U.*in* Program, a first-year global experience that requires enrolling students to begin their college studies by earning transfer credit in the fall semester<sup>1</sup> at one of our partner institutions and matriculating to our Boston-based undergraduate program in the spring semester. In addition to The N.U.*in* Program, first-year applicants may also be offered direct or conditional admission into other specialized entry programs. Additional information on specialized entry programs is available online (p. 15), and additional information about The N.U.*in* Program is available here.

In building a diverse and talented incoming class, the Admissions Committee seeks to enroll students who have been academically successful and who have been actively involved in their school and community.

When considering applicants for first-year admission, the committee considers whether the applicant's high school transcript reflects the various academic opportunities offered such as honors, Advanced Placement (AP), International Baccalaureate (IB), or college-level courses. Typically, students admitted to Northeastern have been extremely successful with a challenging course load.

When reviewing transfer students, the committee considers the candidate's college and high school transcripts, letters of recommendation, resumé, essay, academic preparation for major of choice, and contributions to the community. In certain cases, standardized test scores are required. Transfer applicants are encouraged to submit all supporting materials by the application deadline.

**Northeastern accepts both the Common Application and the Coalition Application.** Students may apply online via the Common Application or the Coalition Application. Northeastern does not have a preference for which application is submitted. Both the Common Application and the Coalition Application will be reviewed equally.

The committee will begin to evaluate an applicant's candidacy for admission when all application credentials have been received. Students are informed of their application information through the Application Status Check. Students are highly encouraged to verify that identification information (name, date of birth, and NU ID) is on every item submitted to ensure timely and accurate processing.

<sup>1</sup> Throughout this catalog, the word semester refers both to full semesters and to half semesters, except in cases where there is a cost or timeline difference. In such cases, the terms "full semester" and "half semester" are used.

## Application Programs

Northeastern offers the following application programs.

### Freshman Applicants:

- Early Decision I (binding enrollment for fall admission)
- Early Action (nonbinding)
- Early Decision II (binding enrollment for fall admission)
- Regular Decision (nonbinding)

### Transfer Applicants\*:

- Application for fall start (apply in spring)
- Application for spring start (apply in fall)

\*All transfer application options are dependent on space availability.

## Required Materials

The committee will evaluate an applicant's candidacy for admission when all application credentials have been received. Students are informed of their application information through the Application Status Check. Students are highly encouraged to verify that identification information (name, date of birth, and NU ID) is on every item submitted to ensure timely and accurate processing.

### FRESHMAN APPLICANTS

More than 75,000 students apply for a space in the freshman class. The committee is responsible for admitting applicants believed to be contributors to Northeastern's diverse and vibrant academic and social community. In particular, the committee is interested in applicants who have challenged themselves academically; are highly motivated; and who have demonstrated qualities of leadership, creativity, diversity, engagement, global perspective, adaptability, and resiliency. Our students exhibit a commitment to involvement and to being a positive influence in their community and in the world. We encourage applicants to spend time to thoughtfully prepare their application in order to make sure their strengths and qualities resonate with the Admissions Committee.

### Freshman applicants must submit the following:

- Completed Common Application or Coalition Application, including any Northeastern-specific questions. A complete application includes:
  - An application fee of \$75 (or request for fee waiver through application question).
  - The Early Decision Agreement for students applying under the binding Early Decision I or II application options.
- Secondary school counselor and teacher recommendations.
- Secondary school report and transcripts with final junior-year grades. First-semester or first-trimester grades should be submitted when they are available; first-quarter grades are not required.
  - General Equivalency Diploma (GED) recipients should provide their official GED score reports and their most complete high school transcript.
  - Home-schooled applicants should submit an academic portfolio/transcript consistent with their state guidelines. This should include grades for each course. They must also provide proof that they will have met by the end of May of the year of graduation

all requirements for an official high school diploma and submit a GED, or a certificate of completion from their local school district or state board of education, by the end of July of the year of matriculation. In addition to all other first-year requirements, home-schooled students must submit Northeastern's home-school supplement, which requires students to detail the rigor of their coursework.

- Early high school graduates: Northeastern will review applications from students who will complete high school in three years or less. Before enrolling at the university, all applicants for early admission must have completed all units required for high school graduation or must have earned the GED. In addition to the required materials for freshman applicants, early high school graduate applicants must provide statements of support from the school principal or guidance counselor and the student's parents. The endorsements should speak directly to the applicant's academic readiness and emotional maturity for college. Early high school graduates will only be considered at Regular Decision or Early Decision II so first-semester/trimester grades from the current academic year can be considered.
  - Nontraditional grading policies: Students who attend schools where narrative evaluations are used instead of traditional letter grades are required to submit the narratives to complete their applications.
  - 2021–22 policy on standardized tests:
    - **In the 2021–22 application cycle, Northeastern will be test optional and does not require applicants to submit standardized testing to be considered for admission.** (Please note English proficiency requirements).
    - Any student may choose to submit SAT or ACT scores for consideration.
    - Students who choose not to submit standardized test scores will not be disadvantaged in the process.
    - If an applicant self-reports their scores through the Application Status Check, official scores must be sent to Northeastern upon submitting their enrollment deposit.
  - English proficiency: As the primary instructional language at Northeastern is English, proficiency in English must be demonstrated in order to qualify for admission. Non-native English-speaking applicants, who were not educated entirely in English throughout the four consecutive academic years immediately prior to enrolling at Northeastern, will be required to submit valid and official results from an approved English Language Test. Please see the International Applicants (<https://www.northeastern.edu/admissions/application-information/international-student-admissions/>) page on the Undergraduate Admissions website for the most up-to-date information.
  - International students are required to submit Northeastern's Declaration and Certification of Finances (DCF), which can be accessed and submitted through the Application Status Check.
  - Portfolios are required for studio art and are highly encouraged for majors within the College of Arts, Media and Design. Northeastern uses SlideRoom (<http://www.northeastern.edu/admissions/application-information/>) for online portfolio submissions. See additional information (p. 11).
- Completed Common Application or Coalition Application.
  - Application fee of \$75.
  - Official college transcript(s) for all institutions you have attended.
  - College Report to be completed by the registrar's office or dean of your current/previous school.
  - Academic evaluation from an academic advisor, professor, or employer.
  - Final high school transcript or GED.
  - Joint Service Transcript (if you are a veteran).
  - 2021–22 policy on standardized tests:
    - **In the 2021–22 application cycle, Northeastern will be test optional and does not require applicants to submit standardized testing to be considered for admission.** (Please note English proficiency requirements).
    - Any student may choose to submit SAT or ACT scores for consideration.
    - Students who choose not to submit standardized test scores will not be disadvantaged in the process.
    - If an applicant self-reports their scores through the Application Status Check, official scores must be sent to Northeastern upon submitting their enrollment deposit.
  - English proficiency: As the primary instructional language at Northeastern is English, proficiency in English must be demonstrated in order to qualify for admission. Non-native English-speaking applicants, who were not educated entirely in English throughout the four consecutive academic years immediately prior to enrolling at Northeastern, will be required to submit valid and official results from an approved English Language Test. Please see the International Applicants (<https://www.northeastern.edu/admissions/application-information/international-student-admissions/>) page on the Undergraduate Admissions website for the most up-to-date information.
  - International students are required to submit Northeastern's Declaration and Certification of Finances (DCF), which can be accessed and submitted through the Application Status Check.
  - Portfolios are required for studio art and are highly encouraged for majors within the College of Arts, Media and Design. Northeastern uses SlideRoom (<http://www.northeastern.edu/admissions/application-information/>) for online portfolio submissions. See additional information (p. 14).

## Transfer Credit

Students may transfer up to 60 semester hours of credit from a two-year college, or up to 80 semester hours from a four-year college, or a combination of the two types of colleges. If you have been admitted to the D'Amore-McKim School of Business and your college or university is not AACSB-accredited, the maximum number of credits that you can transfer to Northeastern is 60. See also Residency Requirement (p. 32).

College courses completed with a grade of C or better are considered for transfer credit by faculty evaluators. Liberal arts coursework taken more than 10 years ago and math and science coursework completed more than 5 years ago cannot be considered.

All transfer-credit documents should be received prior to matriculation and *must* be received within one semester of matriculation. These documents include, but are not limited to, Advanced Placement (AP), International Baccalaureate (IB), and International Matriculation Exam scores and official transcripts from colleges and universities. These

## TRANSFER APPLICANTS

Each year we receive more than 4,000 applications for transfer admission. Our most competitive candidates for transfer admission typically have a grade-point average of 3.500 or higher.

**Transfer applicants must submit the following:**

documents should be submitted whether or not you wish to receive transfer credit from this work. Transfer credit *will not* be granted for work completed prior to matriculation if the official credential is received after the completion of the first semester. College coursework completed at an international institution must be translated into English and evaluated by a recognized credential agency.

### ADVANCED STANDING FOR FRESHMEN

Results from your AP exams, IB exams, and other international matriculation examinations (listed below) may enable you to receive advanced credits. You may also receive transfer credit if you successfully completed accredited college-level courses that were taken while you were in high school, before you enrolled at Northeastern. You may apply up to 32 semester hours of advanced credit toward your undergraduate degree. For consideration, you must submit official transcripts or test results before matriculation and must submit official score reports for credit.

Northeastern currently awards advanced credit for the following examinations:

- Advanced Placement (AP)
- International Baccalaureate (IB)
- Advanced Levels (A-Levels)
- Abitur (Germany)
- Baccalauréat (France)
- Cambridge Pre-University (Pre-U)
- Caribbean Advanced Proficiency Examinations (CAPE)
- Maturität/Maturité (Switzerland)
- All-India Senior School Certificate Examination (Standard XII)
- Indian School Certificate (ISC) Examinations (Standard XII)

#### Advanced Placement (AP) Examinations

- Credit is generally awarded for scores of 4 and 5.
- Visit the Transfer Equivalency Database (<https://ugadmissions.northeastern.edu/transfercredit/TransferCreditevaluatedstudent2.asp>) for an up-to-date listing.

#### International Baccalaureate (IB) Examinations

- Credit is generally awarded for scores of 5, 6, or 7 on Higher Level (HL) exams.
- No credit is awarded for Standard Level (SL) exams, the Extended Essay (EE), or Theory of Knowledge (TOK).
- Visit the Transfer Equivalency Database (<https://ugadmissions.northeastern.edu/transfercredit/TransferCreditevaluatedstudent2.asp>) for an up-to-date listing.

#### Advanced Level (A-Level) Examinations

- Credit is generally awarded for grades C or better on General Certificate of Education (GCE) Advanced Level (A-Level) examinations.
- No credit is awarded for Advanced Subsidiary (AS) Level exams, Ordinary Level (O-Level) exams, or the (International) General Certificate of Secondary Education (GCSE/IGCSE).
- For Singapore-Cambridge GCE Advanced Level exams, credit is awarded for H2 exams. No credit is awarded for H1 exams. H3 credit is subject to review and only awarded if the student is not receiving credit from the H2 exam in the same subject.
- Northeastern will only award credit for exams that were administered by AQA, Cambridge Assessment (including OCR), CCEA, Pearson Edexcel, WJEC, or any subsidiaries.

#### International Matriculation Examinations

- Abitur (Allgemeinen Hochschulreife): Credit is generally awarded for scores 7 (out of 15) and higher on written (schriftlich) final exams (Abiturprüfung). No credit is awarded for oral (mündlich) exams.
- Baccalauréat (Baccalauréat Général, Diplôme de Bachelier de l'Enseignement du Second Degré, or Option Internationale du Baccalauréat): Credit is generally awarded for scores 12 or higher (out of 20) on final written exams in subjects studied with coefficients 10 or higher. No credit is awarded for oral exams.
- Cambridge Pre-University (Pre-U): Credit is generally awarded for scores M3 or higher on Principal Subjects. No credit is awarded for Short Courses or Global Perspectives and Research.
- Caribbean Advanced Proficiency Examinations (CAPE): Credit is generally awarded for grades 3 or below (out of 7, with 1 being the highest) on two-unit subjects. No credit is awarded for one-unit courses.
- Maturität/Maturité: Credit is generally awarded for scores 4.5 or higher (out of 6) on the main subject (Schwerpunktfach) or complementary subject (Ergänzungsfach) on either the Swiss Federal Maturity Certificate or federally recognized cantonal maturity certificates.
- All-India Senior School Certificate Examination (Standard XII): Credit is generally awarded for scores of 81 or higher (out of 100) for subjects completed in the general academic track on the All-India Senior School Certificate Examination (AISSE) administered by the Central Board of Secondary Education (CBSE).
- Indian School Certificate (ISC) Examinations (Standard XII): Credit is generally awarded for scores of 80 or higher (out of 100) for subjects completed in the general academic track on the Indian School Certificate (ISC) examinations administered by the Council for the Indian School Certificate Examination (CISCE).

#### Additional Information for International Applicants

In order to enroll at Northeastern, enrolling international students may be required to apply for either F-1 (student) or J-1 (exchange visitor) nonimmigrant status. To begin the process, each student must first request their certificate of eligibility from the Office of Global Services (<https://international.northeastern.edu/ogs/>) (OGS). For the F-1 visa, students must request the Form I-20, while for the J-1 visa, students must request Form DS-2019. Both forms can be requested through myOGS, Northeastern's online portal for international students.

- Once an enrollment deposit is submitted, all international students will be able to access myOGS, Northeastern's online international student portal. (International students can access myOGS through their myNortheastern portal.)
- International students must submit the appropriate request form in myOGS ([https://myogs.northeastern.edu/istart/controllers/client/ClientEngine.cfm?serviceid=EFormGroupProvider&eformGroup=55#\\_ga=2.114820615.106419839](https://myogs.northeastern.edu/istart/controllers/client/ClientEngine.cfm?serviceid=EFormGroupProvider&eformGroup=55#_ga=2.114820615.106419839)) for either the Form I-20 or Form DS-2019.
- Once the student submits the request form and all required supporting documents (<https://international.northeastern.edu/ogs/new-students/i-20-ds-2019-application/applying-for-your-initial-i-20/>), the OGS team will review the request and generate the I-20 within 10 business days.
- Once students receive the I-20 or DS-2019, students can apply for the F-1 or J-1 visa at a nearby overseas U.S. embassy or consulate.

- If the visa is granted, students are permitted to enter the United States no more than 30 days before the start date of their academic program (which will be provided on the I-20 or DS-2019).

In order to maintain lawful student status in the United States, international students must be mindful of the rules and regulations that govern their nonimmigrant visa classification. Numerous U.S. federal mandates and regulations make it especially important for students with F-1 or J-1 visas to consult regularly with an international student advisor at the Office of Global Services (<https://international.northeastern.edu/ogs/>) (OGS) before taking any action that might affect their immigration status and educational endeavors in the United States. Please note the following:

- International students in F-1 and J-1 status must register as full-time students (minimum of 12 credits) and on time (within the appropriate registration period) each term during the regular academic year. Any exceptions to full-time registration requirements must be preapproved by OGS in accordance with specified federal regulations.
- International students must not begin, extend, or resume any type of employment without first obtaining proper employment authorization or verification from the OGS.
- Some international students must apply and be approved for a change of status (e.g., from F-2 to F-1 nonimmigrant status) before beginning their academic program at Northeastern.
- For information on nonimmigrant statutes other than F-1 and J-1 (including eligibility to work in the United States or participate in co-op and other forms of experiential learning), contact OGS ([ogs@northeastern.edu](mailto:ogs@northeastern.edu)). Note that some academic programs at Northeastern have experiential learning requirements (e.g., co-op or study abroad). Not all visa categories allow for internships, co-ops, international travel, or other experiential learning opportunities and may impede the successful completion of your program of study.

### Non-Native English-Speaking Applicants

All non-native English-speaking applicants, regardless of citizenship, must submit official results from one of the following proficiency tests: the Duolingo English Test (DET), C1 Advanced or C2 Proficiency (Cambridge English: Advanced or Proficiency), the International English Language Testing System (IELTS), the Pearson Test of English Academic (PTE Academic), or the Test of English as a Foreign Language (TOEFL). Applicants who will complete four or more consecutive academic years of high school or university where academic or native English was the primary instructional language may contact the Office of Undergraduate Admissions in order to request a waiver. English-language learners or students enrolled in ESL courses in the four years preceding their application are strongly recommended to submit IELTS. Based on IELTS, some undergraduate applicants with substantial English proficiency but insufficient proficiency for undertaking a full-time, degree-seeking academic program may instead be referred to NU Immerse, our structured English immersion program.

### College, Major, and Length of Program Selection

Applicants to Northeastern University apply to one of our seven undergraduate colleges or to the Explore Program for undeclared students.

We encourage students to select a major that reflects their current academic interests and aspirations; however, the Explore Program for undeclared students provides opportunities to explore our various disciplines and programs. Northeastern offers advisory programs for students interested in preprofessional programs, including medical, dental, law, and veterinary graduate school.

Northeastern University offers a broad and deep curriculum that is flexible, and the academic calendar allows students to maximize experiential learning opportunities, including research, study abroad, and our signature co-op program. Students become architects of their own paths, charting their unique course that determines their time to degree. Students can build a program that is four years or five years and gain up to 18 months of full-time experiential learning. Freshmen can participate in NUterm in Summer I of their freshman year, taking advantage of exciting and unique course offerings or regular classes during the May/June semester. By participating in NUterm, students take advantage of Northeastern's signature flexibility, beginning their sophomore year with an additional half term completed. Many colleges offer PlusOne programs, which link undergraduate work with graduate studies. See the detailed curricula in this catalog for more information.

### ADMISSION REQUIREMENTS FOR THE COLLEGE OF ARTS, MEDIA AND DESIGN

#### *Guidelines for Portfolio Submission*

All portfolios should be submitted electronically via SlideRoom. Hard-copy portfolios will not be accepted and cannot be reviewed.

#### *Studio Art*

Applicants for the studio art major, a joint program of Northeastern University and the School of the Museum of Fine Arts, Boston, are required to submit a portfolio through SlideRoom. This portfolio requires a minimum of 15 individual images of original artwork. The portfolio may include work in a variety of media; no particular subject matter or style is required. Rather, students should select work that best shows their personal style, creativity, and commitment to innovation. Check the Department of Art + Design website (<http://www.northeastern.edu/camd/artdesign/>) for more information.

#### *Music Composition and Technology*

Beginning in spring 2018, portfolios are no longer required for students applying to music composition and technology.

#### *Music Performance*

Once enrolled, students in any music concentration may also audition to pursue a minor in musical performance. This program is highly competitive and therefore requires evaluation by the Department of Music. Auditions are typically scheduled during a student's first semester at Northeastern. For specific questions regarding the program or audition requirements, please reference the CAMD website ([https://camd.northeastern.edu/music/academic-programs/minor-in-music-performance/#\\_ga=26162929219060109681522070914-16965839841517851807](https://camd.northeastern.edu/music/academic-programs/minor-in-music-performance/#_ga=26162929219060109681522070914-16965839841517851807)).

## Conditional Admission

### Conditional Admission

A student who has not provided required documentation for admission by the due date for final grades for the student's first academic term will not be permitted to register for a future term.

## University Honors Program

The University Honors Program values integrated, student-directed, and experiential learning that is personalized to meet students' individual goals and interests. Our community of intellectually engaged students, faculty, and advisors are committed to engagement in scholarship that will enable students to confront critical societal issues and make a difference at home and in the world. Students benefit from unique and enriched educational options that include stimulating courses, opportunities for research and creative endeavors, global experiences,

service-learning, mentoring, and the development of competencies that will position them for lifelong learning and personal and professional success. Throughout their undergraduate experience, Honors students are guided and supported as they chart their unique educational plans through personalized advising, engagement in diverse competency-based learning experiences, and participation in a set of networked communities that include Honors Living Learning Communities.

All applicants seeking freshman entry at Northeastern University (for fall semester entry) are considered for admission into the University Honors Program and are notified of their selection in their letter of admission. There is no separate application. Continuing students in their first, second, or third semesters who wish to be considered for entry may consult the University Honors Program's website (<https://undergraduate.northeastern.edu/honors/>) for application instructions.

## Specialized Entry Programs

Northeastern University offers admission and enrollment programs and opportunities that advance the university's mission and help meet students' needs. Students who apply for admission to Northeastern may be automatically offered direct entry into some of these programs or, in some cases, may be referred to other specialized entry programs. These selections are based on a holistic review of students' applications. Northeastern continually assesses our specialized entry programs and opportunities, and additional programs and opportunities may become available while existing programs and opportunities may be modified. For a complete list of our specialized programs and opportunities, visit the Specialized Entry Programs web (<https://www.northeastern.edu/admissions/academics/specialized-entry/>) site (<https://www.northeastern.edu/admissions/academics/specialized-entry/>).

### The N.U.*in* Program

Northeastern enrolls selected new students in the spring semester through the N.U.*in* Program. During the fall semester, N.U.*in* participants earn transfer credit at a partner institution and matriculate to the undergraduate program in Boston in the spring. *These transfer credits earned are guaranteed to be valid at Northeastern but may not be accepted by other institutions.* For the most up-to-date information regarding the N.U.*in* Program, please refer to the program website (<https://nuin.northeastern.edu/>).

### General Studies Program

General Studies is a first-year program designed to help students build skills for academic success in their freshman year and beyond. General Studies students spend their freshman year immersed in a combination of first-year requirements, NUpath courses, and introductory courses for their intended major. See additional information (p. 44).

### Foundation Year

An innovative, first-year college program, Foundation Year supports City of Boston students as they develop the skills to be successful in their entire Northeastern experience. During their first year of college, students receive rigorous academics, extensive support services, real-world experience, and the privileges that come with being a Northeastern University student. Foundation Year brings together the right resources for each student—maximizing the potential for success. Visit the Foundation Year page of this catalog (p. 15) for additional information.

### Torch Scholars Program

The Torch Scholars (<https://torch.northeastern.edu/>) is a comprehensive scholarship and support program for first-generation college students. Students selected into the program have demonstrated exceptional leadership and community service throughout high school but have not yet reached their full academic potential. After a holistic review, which includes a thorough interview process, selected Torch Scholars receive a full scholarship that covers tuition, room and board, books, and fees for eight semesters, as well as coverage for a four-week Summer Immersion program. Torch alumni have continued their education in PhD and master's programs, founded startups, and begun careers in major corporations.

### NU Bound

NU Bound is an academically rigorous one-year program for select students that is hosted by the New College of the Humanities (NCH) in London, England, and provides a pathway to transfer to Northeastern in the second year of university study. Please note, NU Bound provides a conditional offer of admission to undergraduate degree programs at Northeastern upon successful completion of the program.

### NU Immerse

NU Immerse is a transitional experience for non-native English-speaking students, which offers advanced English-language preparation and an introduction to college culture through a yearlong program in Boston through the College of Professional Studies, or London through the New College of the Humanities (NCH). Students will improve language and academic skills through a specially designed two-semester curriculum. Please note, NU Immerse provides a conditional offer of admission to undergraduate degree programs at Northeastern upon successful completion of the program.

## Foundation Year

### Overview

An innovative, first-year college program, Foundation Year supports City of Boston students as they develop the skills to be successful in their entire Northeastern experience. Launched in 2009, Foundation Year is designed for recent City of Boston high school graduates and GED/HiSET completers who desire and would benefit from a more structured learning environment during their first year of college. Featuring rigorous academics, extensive support services, real-world experience, and the privileges that come with being a Northeastern University student, Foundation Year brings together the right resources for each student—maximizing the potential for success.

Accepted students are enrolled in Northeastern University's College of Professional Studies where they may earn a full year of college credits upon graduation. To foster camaraderie and peer-to-peer learning, the program is built around the cohort model, in which Foundation Year students attend all classes and workshops together.

Upon graduation, students are eligible to:

- Transfer to another college at Northeastern if progression standards are met
- Continue at Northeastern University's College of Professional Studies in a bachelor's completion program

### Application

To be considered for Foundation Year, students must be:

- Boston residents
- High school graduates or students holding GED/HiSET completion certificates
- Motivated and willing to work hard to achieve their goals and earn a college degree

### PROCESS

1. Submit an application to Northeastern (<https://www.northeastern.edu/admissions/application-information/apply/>) using the Common Application or the Coalition Application.
2. Submit required materials (<https://www.northeastern.edu/admissions/application-information/apply/>).
3. Complete the Free Application for Federal Student Aid (FAFSA (<http://www.fafsa.ed.gov/>)) online.

### CONTACT INFORMATION

Fax: 617.373.8574

[foundationyear@northeastern.edu](mailto:foundationyear@northeastern.edu)

### Program Requirements

Designed with the student in mind, Foundation Year's intensive curriculum includes courses in English, sociology, mathematics, and history. Students can also focus their studies by choosing from electives in a business, science, or liberal arts track. Foundation Year students can earn up to 32 semester hours of credit—equivalent to one year of college credits.

To help facilitate learning, Foundation Year provides all students with textbooks and laptops to use for the entire school year.

Complete all courses below unless otherwise indicated.

### CORE COURSES

*Note:* Students are placed into math courses based on proficiency.

Code	Title	Hours
CDV 0220		1.2
CDV 0225		1.2
CMN 2310	Professional Speaking	3
ENG 1105	College Writing 1	3
ENG 1106	Lab for ENG 1105	1
ENG 1107	College Writing 2	3
ENG 1108	Lab for ENG 1107	1
SOC 1220	Engaging Difference and Diversity	3
Complete two of the following:		6
MTH 1100	College Algebra	
MTH 1200	Precalculus	
MTH 2100	Calculus 1	
MTH 2300	Business Statistics	

### ELECTIVES

Code	Title	Hours
<b>Liberal Arts Course Track</b>		
HST 2425	Coming to America: The American Immigrant Experience	3
PHL 1100	Social and Political Philosophy	3
POL 1300	American Government	3

MGT 2330	Business Law	3

## Merit Scholarships

Northeastern provides highly selective scholarship programs aimed at rewarding and recognizing outstanding academic achievement. All applicants who apply on time are considered for these scholarships and no additional applications are necessary. Please note that scholarship consideration is separate from the financial aid application process. International students are eligible for merit scholarship consideration, but Northeastern University does not offer need-based assistance to international students.

### National Merit Finalist and National Recognition Program Scholarships

**Award:** A scholarship for admitted freshman applicants who are designated National Merit Finalists or College Board National Recognition Program Scholars. National African American Recognition Scholars, National Hispanic Recognition Scholars, National Indigenous Recognition Scholars, or National Rural and Small Town Recognition Scholars must have been identified as such by the College Board or submit documentation to Northeastern to be eligible for the scholarship. National Merit Finalists must rank Northeastern as their school of choice with the National Merit Scholarship Corporation to be eligible for the scholarship. Recipients who maintain normal progress toward a degree, with the minimum 3.000 grade-point average, may renew the award for the full eight-semester program.

**Eligibility:** Admitted freshman applicants who have been designated National Merit Finalists by the National Merit Scholarship Corporation or students who are National African American Recognition Scholars, National Hispanic Recognition Scholars, National Indigenous Recognition Scholars, or National Rural and Small Town Recognition Scholars are eligible for a National Recognition Program Scholarship.

### Merit Scholarships

**Awards:** Students who are in the top 10 to 15 percent of our applicant pool are most competitive for merit scholarships, including Dean's, Connections, and International Scholarships. Recipients who maintain normal progress toward a degree, with a minimum grade-point average of 3.000, may renew these awards.

### Northeastern Honors Program

Each year, the admissions office selects a group of students to join the University Honors Program at Northeastern University. Those invited into the Honors Program are among our most highly accomplished admitted students. There is no separate application process for the Honors Program, and students are considered at all decision deadlines. Decisions are rendered based on the undergraduate admissions application submitted to the university. The invitation to join the

University Honors Program is included in the official admission letter. Visit the University Honors Program (<http://www.northeastern.edu/honors/community/honors-program-scholarships/>) for additional details regarding scholarships and grants for Honors Program students.

### Phi Theta Kappa Scholarships (Transfer Students Only)

**Award:** A grant recognizing high levels of academic achievement in the beginning years of college. Recipients who maintain normal progress toward a degree, with a minimum grade-point average of 3.000, may renew the award.

**Eligibility:** Applicants for fall transfer admission who have earned a 3.500 grade-point average in 32 semester hours or equivalent quarter hours or units of college-level coursework. For eligibility, you must be a U.S. citizen or a permanent resident enrolling directly from a two-year institution of higher education.

### Ujima Global Leaders Program

The Ujima Global Leaders Program is a scholarship program focused on developing leaders for tomorrow's diverse and complex world. Ujima Global Leaders from all academic disciplines will work collaboratively to develop intercultural competence and awareness by engaging with communities on campus, throughout Boston and the world. Working with staff and faculty, Ujima Global Leaders may choose to make an impact based on their interests and goals via community service involvement, experiential opportunities, and research and global experiences. Committed to excellence, academic achievement, service, and diversity, Ujima Global Leaders will be prepared to meet the challenges of tomorrow. The Ujima Global Leaders Program seeks to enroll academically talented first-year students with demonstrated leadership skills, community involvement, and/or an interest in issues related to serving underrepresented and underserved populations. Recipients receive a scholarship called the Ujima Global Leadership Award, and those with demonstrated financial need will have their full need met.

**Contact the Office of Undergraduate Admissions if you have any questions about the application process.** For more information, consult the admissions website (<https://www.northeastern.edu/admissions/>).

### Information for Entering Students

- Accommodations for Students with Disabilities (p. 17)
- Health Requirements—University Health and Counseling Services (UHCS) (p. 17)
- Information Technology Services (p. 17)
- Information for International Students (p. 18)
- Parent/Family Programs (p. 19)
- Public Safety (p. 19)
- Residential Life (p. 20)
- Student Orientation (p. 20)
- We Care (p. 20)

### Accommodations for Students with Disabilities

617.373.2675  
617.373.7800 (fax)  
Website (<http://www.northeastern.edu/drc/>)

Northeastern University and the Disability Resource Center (DRC) are committed to providing disability services that enable students who qualify under Section 504 of the Rehabilitation Act and the Americans with Disabilities Act Amendments Act (ADAAA) to participate fully in the activities of the university. To receive accommodations through the DRC, students must provide appropriate documentation that demonstrates a current substantially limiting disability. Accommodations are provided based on an evaluation of the information provided by students and their clinicians, on a case-by-case basis. These services are available for, but not limited to, students with the following diagnoses:

- Learning disabilities and/or AD(H)D
- Autism spectrum disorders
- Chronic or degenerative disorders
- Hearing loss
- Mobility impairments
- Psychiatric disorders
- Traumatic or acquired brain injury
- Vision impairments

Students should provide documentation to the DRC at their earliest convenience to allow for sufficient time for review. After the documentation has been reviewed, a disability specialist will contact the student regarding appropriate next steps. Visit the DRC website (<http://www.northeastern.edu/drc/>) for additional information or contact staff at 617.373.2675.

### Health Requirements—University Health and Counseling Services (UHCS)

Prior to entering Northeastern, all enrolled students must complete and submit a University Health Report (<https://www.northeastern.edu/uahcs/forms/university-health-report/>) to University Health and Counseling Services (UHCS). It must be completed and returned by the stated deadline. The required record of immunity section is necessary for compliance with the Massachusetts School Immunization Requirements for Post-Secondary Institutions. Failure to meet the requirement will prevent future course registration. All vaccination information will be entered into the Massachusetts Immunization and Information System (MIIS). This system allows immunization information to be portable between providers, accessible during an emergency, and allows the patient to access the information as needed. To learn more, visit the University Health Report (<https://www.northeastern.edu/uahcs/forms/university-health-report/>) information, including how to opt out of the MIIS reporting.

Further documentation of immunity is mandatory for students in Bouvé College of Health Sciences. For more information, health sciences students should check with their program advisor or placement supervisor.

Visit the UHCS website (<http://www.northeastern.edu/uahcs/>) to access the University Health Report requirements and more information.

### Information Technology Services

IT Services is the university's central group that provides technology services, solutions, and support to all Northeastern students. Visit the Connect To Tech guide ([https://connect-to-tech.northeastern.edu/students/?utm\\_source=fy22&utm\\_medium=catalog&utm\\_campaign=connect](https://connect-to-tech.northeastern.edu/students/?utm_source=fy22&utm_medium=catalog&utm_campaign=connect)) for key technology resources and information that are particularly

helpful to students, such as Northeastern accounts, email, laptop recommendations and discounts, software, and good-to-know websites and mobile apps.

## Technology Support and IT Service Desk

Tech Service Portal (<https://service.northeastern.edu/tech/>) (for self-service and live chat support)

617.373.HELP [4357]

[help@northeastern.edu](mailto:help@northeastern.edu)

The IT Service Desk is available 24 hours a day, 7 days a week, to assist you with your technology questions and issues—call or email anytime for support. Outside of the Boston area, i ([https://services.northeastern.edu/tech/?id=kb\\_article&sys\\_id=18ace88a1bd4b0100813a643b24bcb11](https://services.northeastern.edu/tech/?id=kb_article&sys_id=18ace88a1bd4b0100813a643b24bcb11)) international and toll-free calling options are available ([https://services.northeastern.edu/tech/?id=kb\\_article&sys\\_id=18ace88a1bd4b0100813a643b24bcb11](https://services.northeastern.edu/tech/?id=kb_article&sys_id=18ace88a1bd4b0100813a643b24bcb11)). Visit the Tech Service Portal (<https://services.northeastern.edu/tech/>) to search for how-tos and FAQs, borrow a laptop or other equipment, start a live chat, and search other resources. Occasionally, interruptions to university systems, services, and tools can happen for both expected and unexpected reasons—when they do, get updates about them through Northeastern's IT Status page (<https://northeastern.statuspage.io/>).

## Information for International Students

### Office of Global Services

Website (<http://www.northeastern.edu/ogs/>)

617.373.2310

617.373.8788 (fax)

The Office of Global Services (OGS) offers a vast array of programs and services to more than 18,000 international students and scholars who represent approximately 146 nations.

OGS also works to promote meaningful interaction and intercultural understanding among citizens of all countries and their peers from the United States, providing educational and cultural enrichment opportunities for all members of Northeastern and the community at large. OGS advances the international community of Northeastern by ensuring immigration compliance while providing transformational academic services and cultural experiences for student satisfaction and successful graduation.

OGS maintains the SEVIS (Student and Exchange Visitor Information System) records of nonimmigrant students and scholars at Northeastern, as mandated by the U.S. federal government. OGS provides information and services to ensure compliance with regulations and procedures affecting those international students and scholars in specified nonimmigrant visa classifications.

OGS serves as a "home away from home" for all international students. Affiliation with OGS begins with admission to the academic program and continues throughout the student life cycle at Northeastern and beyond for alumni who apply for Optional Practical Training (OPT). OGS offers academic support services; cultural acclimation support; and events and initiatives including the cultural festival "Carnevale" in the spring, which celebrates the cultural diversity of the entire university community. For a list of OGS services and programs, visit the OGS website. (<http://www.northeastern.edu/ogs/>)

International students must maintain full-time status at Northeastern to be in compliance with immigration and SEVIS regulations. Also, they

must not engage in any type of employment unless timely authorized by OGS. Note that timely registration for courses is especially important so that they may remain in compliance with current federal regulations. They should consult with OGS if they have questions about their individual status.

## Coming to Northeastern

Preparing to study at Northeastern University is exciting, and students have many things to do in preparation. Here are some of the key items students should do to prepare.

- **Obtain F-1 or J-1 visa** from the U.S. embassy or consulate in the home country to be eligible to study in the United States. An international student may attend Northeastern in a nonimmigrant status other than F-1 or J-1 only if U.S. immigration regulations allow for study in the United States under that specific visa classification. Some international students must apply and be approved for a change of status (e.g., from B-2 to F-1) before beginning the program at Northeastern. For detailed information/instructions specific to a student's current nonimmigrant status, eligibility to participate in co-op, or other forms of experiential learning, contact OGS (<http://www.northeastern.edu/ogs/>).
- **Acquire Student Health Insurance:** Since September 1989, Massachusetts law (M.G.L. c.15A, § 18) has required every full-time and part-time student enrolled in a certificate, diploma, or degree-granting program in a Massachusetts institution of higher learning to participate in a Student Health Insurance Program (SHIP) or in a health benefit plan with comparable coverage. The Student Health Program defines a part-time student as a student enrolled in at least 75 percent of the full-time curriculum (College of Professional Studies graduate students—7 credits, part-time graduate students—6 credits).
- **Complete health report:** Prior to entering Northeastern, all enrolled students must complete and submit a health report to University Health and Counseling Services (UHCS). It must be completed and returned by the stated deadline. The required record of immunity section is necessary for compliance with the Massachusetts immunization requirements for college-age students. Failure to meet the requirement will prevent future course registration. Additionally, further documentation of immunity is mandatory for students in Bouvé College of Health Sciences. Visit the UHCS webpage (<http://www.northeastern.edu/uahcs/>) to access the health report online.

## Planning Information

New international students are expected to arrive by the program start date stated on the I-20 issued by Northeastern or on the DS-2019 issued by Northeastern or by the sponsoring agency/government.

When making travel arrangements, students should seek admission to the United States no more than 30 days prior to the report date on the I-20 or DS-2019, and students should not arrive after the program start date on the I-20 or DS-2019.

All international students will need to attend the mandatory international student orientation program and complete the international student Online Immigration Clearance. For further details on the OGS international student orientation and online immigration clearance process, and for other information pertinent to international students, check the OGS website (<https://international.northeastern.edu/ogs/new-students/arrival/>).

## International Student Orientation and Cultural Events

OGS (<https://international.northeastern.edu/ogs/>) organizes a mandatory orientation for international students on an F-1 or J-1 visa. Students will

receive an overview of nonimmigrant visa compliance requirements along with information and resources to support academic success, student life, campus safety, and cultural adjustment.

International students on an F-1 or J-1 visa should plan to arrive on campus no more than 30 days prior to the program start date on the I-20 or DS-2019 in order to attend the International Student Orientation and complete the mandatory Online Immigration Clearance. International orientation dates will be listed on the OGS website.

Throughout the year, OGS hosts cocurricular events that celebrate cultures and the rich diversity of the campus. These events are encouraged as a way to gain familiarity with Northeastern in a cross-cultural context while also facilitating the formation of friendships across cultures.

U.S. citizens who have been living abroad are not required to complete OGS orientation sessions but are welcome to participate in cocurricular events. For more information and to register, check the schedule of events on the OGS website. (<https://international.northeastern.edu/ogs/>)

## SEVIS Compliance

OGS is required to comply with immigration regulations governing student status and must report information every semester as required by the Department of Homeland Security.

## OGS: Your Resource for SEVIS Advice and Assistance

OGS advises students on the complexities of immigration compliance and interfaces with various U.S. government agencies. OGS maintains and updates the SEVIS system and advises students on relevant issues related to nonimmigrant student status by individual appointments or through workshops and information sessions. Check the OGS website (<https://international.northeastern.edu/ogs/>) for important updates and/or contact OGS with questions relating to nonimmigrant student status or any aspect of SEVIS compliance.

## Family Programs

Website (<https://www.northeastern.edu/orientation/family-programs/>)

800.696.6516  
parents@northeastern.edu

The Office of Student Orientation and Family Programs connects families with university resources, helping you navigate and build networks within Northeastern's global community. We support families throughout their Northeastern experience—including academic, administrative, and personal matters.

Each year, the office hosts several programs for family engagement including Husky 101 Family Orientation, Family & Friends Weekend, and Tuesday Talks Family Panels, as well as timely communications on campus news and events through their website (<https://www.northeastern.edu/orientation/family-programs/>) and Facebook page (<https://www.facebook.com/nufamilyprograms/>).

## Public Safety

### Northeastern University Police Department

100 Columbus Place  
617.373.3333 (EMERGENCY—police, fire, medical)  
617.373.3934 (TTY emergency or nonemergency)  
617.373.2121 (nonemergency regular business)

Website (<https://nupd.northeastern.edu/>)

Public Safety Division Administrative Offices  
617.373.2696

Personal Safety  
617.373.2121

The Public Safety Division is committed to working with Northeastern faculty, students, staff, and neighbors to build relationships and keep our campus thriving. Our work extends far beyond Boston, as we support learners in their academic and experiential endeavors around the world. The Public Safety Division is comprised of three sections: Police Department, Emergency Management, and International Safety.

The Northeastern University Police Department (<https://nupd.northeastern.edu/>) (NUPD) is a full-service and accredited police agency that comprises patrol and investigative divisions providing 24-hour service. NUPD has developed robust crime-detection and prevention strategies centered on technology and campus community engagement. Our well-trained officers are ready and willing to assist all members of our community.

A personal safety escort (<https://nupd.northeastern.edu/our-services/safety-escort-services/>) can be provided from one on-campus location to another, any time of day, whenever personal safety is a concern. You'll need to provide your name, Northeastern ID number, and location.

Safety escorts usually arrive in 10 to 15 minutes. A special, nighttime off-campus escort service, called the RedEye, runs from dusk to dawn to transport students to their residence within two miles from the center of campus. Every night from 7 p.m. until 6 a.m., the RedEye van will pick students up at the Snell Library. In order to use this escort, you must book a ride in advance using the RedEye app, or you can book a ride at the RedEye dispatch center located at the Northeast Security office in the Ruggles Substation.

SafeZone (<https://nupd.northeastern.edu/safezone/>) is a mobile safety app that is unique to Northeastern University. SafeZone is a smartphone app that any student or staff member can download and use for free. This app will connect you directly to the Northeastern University Police Department should you need our assistance or emergency support while you are on campus.

NUPD encourages you to not only familiarize yourself with all of the services provided by NUPD but to also utilize the services and safety-related tips provided. If you see something that does not look or feel right, NUPD encourages you to say something by contacting NUPD at 617.373.2121 or utilizing the SafeZone app.

### LOST AND FOUND ([HTTPS://NUPD.NORTHEASTERN.EDU/OUR-SERVICES/LOST-AND-FOUND/](https://nupd.northeastern.edu/our-services/lost-and-found/))

If you have lost an item on Northeastern's Boston campus, call 617.373.3913. If your item has been turned in, we will contact you by telephone or email. If you have found an item on campus, return it to our headquarters located at 100 Columbus Place. If you suspect the item has been stolen, call the Northeastern University Police at 617.373.2121 to report the theft.

### UNIVERSITY EMERGENCY INFORMATION ([HTTP://WWW.NORTHEASTERN.EDU/EMERGENCY/](http://www.northeastern.edu/emergency/))

617.373.2000 (snow emergencies)  
617.373.3333 (police, medical, or fire emergencies)

Northeastern University is committed to providing members of its community with a safe and secure place in which to live, work, and study.

The university is prepared to respond to emergencies and urgent situations that require immediate action. A trained team of police officers, EMTs, health and counseling experts, student affairs and residential life staff, and other professionals form a coordinated group that is able to manage a wide range of potential situations.

NU ALERT, emergency broadcast communication messages, are sent to the email addresses and telephone numbers students, faculty, and staff have provided the university. For more information on NU ALERT and Emergency Planning, visit the NUPD website (<https://nupd.northeastern.edu/safety/emergency-planning/>).

## Housing and Residential Life

Website (<https://www.northeastern.edu/housing/>)  
617-373-2814  
[housing@northeastern.edu](mailto:housing@northeastern.edu)

Traditionally entering first- and second-year students are required to live in university housing. Housing and Residential Life is dedicated to working with Northeastern students to help build safe and inclusive living environments that support personal development and academic success. Our goal is to prepare students to become lifelong learners who are holistically formed, experience growth alongside others, and are responsible contributors to local and global communities. The Housing and Residential Life staff designs intentional experiences, programs, and activities to build a strong community environment that prioritizes this goal.

Each residential community is supervised by a professional building staff member and student resident assistants who work together to maintain close contact with students to help make their experience living in university housing a positive one. Housing and Residential Life staff are trained in facilities management, community engagement, crisis response, conflict resolution, and interpersonal communications.

A central component of the residential experience for first-year students is Living Learning Communities (LLCs). LLCs bring together students with a shared personal or academic interest to learn and grow as a community during their first year at Northeastern.

## Student Orientation

Website (<https://www.northeastern.edu/orientation/>)

800.696.6516  
[orientation@northeastern.edu](mailto:orientation@northeastern.edu)

Husky 101 Orientation (<https://www.northeastern.edu/orientation/>) hosted by the Office of Student Orientation and Family Programs is **mandatory for newly enrolled first-year and transfer undergraduate students** and highly encouraged for families.

Husky 101 connects students with classmates and their academic advising team, student clubs and organizations, and platforms to chart their Northeastern path with global, research, and experiential opportunities and programs.

Once a student officially commits to the university by paying the enrollment fee, they will receive communications to participate in Husky 101 Orientation.

## We Care

617.373.7591  
[wecare@northeastern.edu](mailto:wecare@northeastern.edu) ([we\\_care@northeastern.edu](mailto:we_care@northeastern.edu))

Website (<http://www.northeastern.edu/wecare/>)

We Care assists students who are experiencing unexpected challenges to maintain their academic progress. The staff works with students to coordinate among university offices, to offer appropriate referrals, and to help develop viable options to support their continued success at the university. We Care also provides guidance to faculty and staff in identifying Northeastern resources and policies to help students succeed.

## College Expenses

Student Financial Services is available to assist you in developing a plan for financing a Northeastern education. To learn more, visit the Student Financial Services website (<https://studentfinance.northeastern.edu/>).

- Financial Aid (p. 20)
- Bill Payment (p. 21)
- Financing Options (p. 23)
- Tuition, Room, Board, and Fees Per Semester (p. 23)

## Financial Aid

For many families, financial aid is a major element in making Northeastern University affordable. Student Financial Services provides a full range of options that help students establish a comprehensive plan to finance their education.

## How to Apply

To apply for federal financial aid, first-year and transfer students must submit the Free Application for Federal Student Aid (FAFSA) (<https://studentaid.gov/h/apply-for-aid/fafsa/>). Additionally, for institutional aid consideration, first-year and transfer students must also complete the CSS Profile (<https://cssprofile.collegeboard.org/>). Returning students must submit the FAFSA (<https://studentaid.gov/h/apply-for-aid/fafsa/>) each academic year.

Students are encouraged to submit their financial aid application materials by the priority filing deadline date to ensure that they are considered for all available financial aid programs for which they qualify. To view the priority filing deadline dates, visit the Student Financial Services website (<https://studentfinance.northeastern.edu/applying-for-aid/undergraduate/how-to-apply/>).

## Satisfactory Academic Progress (SAP)

### QUALITATIVE

Student grade-point averages (GPAs) are reviewed annually at the end of spring semester. First-year freshmen students must have at least a 1.800 GPA by the end of their first academic year and a 2.000 GPA or better thereafter to retain financial aid eligibility. For students completing their sophomore year and beyond, a GPA of 2.000 is required to retain eligibility.

### QUANTITATIVE

Students must also meet certain quantitative requirements. Completed credits are reviewed as a percentage of attempted credits after each academic year. Students must earn at least 67 percent of their

cumulative attempted credits to maintain satisfactory academic progress.

### APPEALS

Students who have lost their eligibility for financial aid due to failure to meet qualitative or quantitative SAP standards have the right to submit a letter of appeal to Student Financial Services. Approval of an appeal will be based on extenuating circumstances that had an impact on the student's ability to achieve the minimum standards of SAP and the assurance that these circumstances will not be present going forward. If approved, appeals require a contractual agreement that must be signed by the student and a Student Financial Services representative.

### Change in Enrollment Status

Students must notify Student Financial Services about any change in planned period of enrollment, whether due to withdrawal from a class, a leave of absence, a change in co-op or in class, an approved reduction in course load, or withdrawal from the university. Changes in enrollment may impact types and amounts of financial aid offered by Northeastern University.

It is highly recommended, whenever possible, that students discuss the impact of such changes with a Student Financial Services representative before making them.

### Outside Sources of Aid

Students must notify Student Financial Services of any aid received from outside sources, such as scholarships from outside organizations. A review and possible recalculation of a student's financial aid award will occur.

### Return of Title IV Aid

Northeastern is required by federal statute to recalculate federal financial aid eligibility for students who withdraw, drop out, are dismissed, or take a leave of absence prior to completing 60 percent of a term. Recalculation is based on the percentage of earned aid using the Federal Return of Title IV funds formula. Federal regulations require students to obtain at least an A, B, C, D, S, or F in at least one course for the term; students who receive all unsuccessful grades for a term (NE, W, I, U) will be considered unofficially withdrawn from the term. For unofficial withdrawals, the withdrawal date used for aid recalculation is the midpoint of the term.

### Verification

If a student is selected for verification, Student Financial Services may be required to collect additional financial documents, including tax returns and other financial documents, to verify the information provided on the FAFSA. Aid cannot be determined, finalized, or disbursed until this process is completed.

### Change in Circumstances

If a student believes that the aid process does not accurately reflect their financial situation, or if family circumstances change during the year, the student should notify Student Financial Services for further evaluation. For additional information, please refer to the Student Financial Services website (<https://studentfinance.northeastern.edu/policies-procedures/changes-in-financial-circumstances/>).

### Bill Payment

Full payment of tuition, residence hall fees, and other related charges are due prior to the start of the term as specified on the original bill. A past-due balance may result in late fees, prevention of registration, prevention

of grade release, prevention of participation in global study programs, or withdrawal from the university.

Tuition bills are only generated electronically and are available via the myNortheastern portal (<https://my.northeastern.edu/>). Paper bills are not generated. For additional information regarding the e-bill, please visit the Billing Frequently Asked Questions webpage (<https://studentfinance.northeastern.edu/billing-payments/billing-faq/>). For details on available payment methods, visit the Payment Methods webpage (<https://studentfinance.northeastern.edu/billing-payments/payment-methods/>).

### Payment of Tuition

Accepted methods of payment are:

- **Checks and e-checks:** Payments can be made online via NUPAY on the myNortheastern (<https://my.northeastern.edu/>) portal. Payments may also be sent by mail or you may pay in person at Student Financial Services. If you are paying with a check or money order, please ensure that it is made payable to Northeastern University.
- **International payments using Flywire:** Northeastern University has partnered with Flywire to streamline the international wire payment process to the university. This service provides students and their families a safe, cost-effective, and convenient method of making payments to Northeastern University in foreign currencies. To learn more about international payments through Flywire, visit the Student Financial Services website (<https://studentfinance.northeastern.edu/billing-payments/payment-methods/>).
- **Monthly payment plan:** For additional information regarding the monthly payment plan, which is administered through Nelnet Campus Commerce, visit the Student Financial Services website (<https://studentfinance.northeastern.edu/billing-payments/financing-options/>).
- **Supplemental student and parent loans:** There are a number of supplemental educational loan programs available to assist students and families in financing their education. Review options on the Student Financial Services website (<https://studentfinance.northeastern.edu/billing-payments/financing-options/>).

For additional information regarding available payment options, visit the Student Financial Services website (<https://studentfinance.northeastern.edu/billing-payments/payment-methods/>).

### Student Financial Responsibility Agreement

As compelled by federal law, all students who enroll in classes at Northeastern University are required to complete and accept the Student Financial Responsibility Agreement (SFRA) (<https://studentfinance.northeastern.edu/billing-payments/sfra/>). This agreement must be completed once per academic year and is located on the student's myNortheastern (<https://my.northeastern.edu/>) portal. Failure to complete the SFRA will result in a hold that prevents registration.

### VA Education Benefits

In accordance with Title 38 USC 3679 (e), covered individuals utilizing Chapter 31 or Chapter 33 education benefits at Northeastern University will not have any penalty imposed on their account nor will they be required to take out additional funding due to pending or late payments from the Department of Veterans Affairs as long as the Dolce Center for the Advancement of Veterans and Servicemembers (CAVS) has a current Certificate of Eligibility (COE) or VRE Authorization on file AND a Request

for VA Benefit Certification is submitted through the myNortheastern (<https://my.northeastern.edu/web/guest/>) portal.

COEs must be submitted before the start of the student's first term but do not need to be resubmitted unless entitlement information changes. Students are also required to complete the Request for VA Benefit Certification form through the myNortheastern (<https://my.northeastern.edu/web/guest/>) portal before the start of each term they wish to use VA benefits. Students may have a hold placed on the account if there is an outstanding balance after payment from the VA is received by Northeastern.

### Discrepancies in Your Bill

Discrepancies in billing statements should be addressed in writing by the student to the Office of Financial Services at [studentaccounts@northeastern.edu](mailto:studentaccounts@northeastern.edu). Include the student's name, NU ID, dollar amount in question, date of invoice, and any other information believed to be relevant.

Responses will be sent to the student's Northeastern email address. If there is a billing discrepancy, pay the undisputed portion of the bill to avoid responsibility for any late fees or financial holds.

### Overloads and Reduced Loads

Undergraduate day tuition is charged on a flat per-term basis that includes the cost of each student's normal academic curriculum requirements for that term.

Adjustments for reduced loads are made only when the Undergraduate Petition to Reduce Load is approved by the academic department and the Office of the University Registrar, usually only in the final term. International students who wish to drop below 12 credits during the semester must obtain authorization from the Office of Global Services (OGS) (<http://www.northeastern.edu/ogs/>). These students may be approved for a reduced course load of fewer than 12 credits but no fewer than 6 credits in accordance with federal regulations. Tuition adjustments will then be made if the course load falls below 12 credits during full semesters and 6 credits during summer half sessions (calculated at the per-credit-hour rate). To receive an adjustment, the Undergraduate Petition to Reduce Load must be submitted prior to the start of the term. No rebate or credit is granted when a student voluntarily drops a course.

Financial adjustments for coursework greater than the prescribed curriculum for the term is calculated at the per-credit hour rate for undergraduate full-time students. Students taking more than 8 credits (summer half session) or 16 credits (full semester) will be charged at the per-credit-hour rate.

Undergraduate full-time day students registered for co-op and taking a class will be billed at the per-credit-hour rate for the course. The flat undergraduate tuition rate will be charged for students on co-op enrolled in 12 credits or more.

Visit the Tuition and Fees webpage (<https://studentfinance.northeastern.edu/billing-payments/tuition-and-fees/>) for a full listing of tuition rates. Also see "Overload Policy (p. 35)" and "Reduced Load Policies (p. 35)."

### Delinquent Balances

In cases of student default on tuition payments, the student may be withdrawn from the university and is liable for the outstanding tuition, as well as for all reasonable collection costs and any legal fees incurred by the university during the collection process. Accounts may be subject to

monthly interest charges. *Transcripts and other academic records will not be released until all financial obligations to the university have been met.*

### Refunds on Credit Balances

To submit a request for a refund on a credit balance because of an overpayment, a Student Refund Request must be submitted. This form can be completed through the student's myNortheastern portal (<https://my.northeastern.edu/>), under "Services & Links."

Visit the Student Financial Services website (<https://studentfinance.northeastern.edu/policies-procedures/>) for additional information regarding Student Refund Requests.

### Refunds for Withdrawal from the University—General Information

Tuition refunds are granted based on the date of the official withdrawal processed by the Office of the University Registrar. Nonattendance does not constitute official withdrawal. Credit policies vary according to the duration of the course. Typical tuition adjustments are made according to the schedules shown below.

The first week of class is the week containing the "Classes Begin" date listed in the online academic calendar (<https://registrar.northeastern.edu/group/calendar/>).

Payment options and credit policies may vary for courses that follow a schedule different from the regular full or half-semester courses. If you are unsure about a course you are taking, contact the Office of Student Accounts.

Transcripts and other academic records will not be released until all financial obligations to the university have been met. All rates are subject to revision at the discretion of Northeastern University's Board of Trustees.

For information regarding policies that affect eligibility for federal grants and loans upon your withdrawal or adjustment to course enrollment, visit the Student Financial Services website (<https://studentfinance.northeastern.edu/>). Note that withdrawal policies vary for international study programs. For more information on study-abroad-related withdrawal policies, refer to the Global Experience webpage (<http://www.northeastern.edu/geo/studyabroad/>).

### Refunds for Course Withdrawals

Undergraduate day students should refer to the "Overload Policy (p. 35)" and "Reduced Load Policies (p. 35)" for information on adjustments for withdrawing from individual course(s). For withdrawals from a course after the third week of a full semester, contact [studentaccounts@northeastern.edu](mailto:studentaccounts@northeastern.edu).

### Refunds for Complete Withdrawal from the University

#### FULL SEMESTERS

Official withdrawal during the first week	100% refund
Official withdrawal during the second week	100% refund
Official withdrawal during the third week	100% refund
Official withdrawal during the fourth week	60% refund
Official withdrawal during the fifth week	40% refund

Official withdrawal after the fifth week	no refund
--	-----------

### SUMMER HALF SEMESTERS

Official withdrawal during the first week	100% refund
---	-------------

Official withdrawal during the second week	100% refund
--	-------------

Official withdrawal during the third week	50% refund
---	------------

Official withdrawal during the fourth week	25% refund
--	------------

Official withdrawal after the fourth week	no refund
---	-----------

### Disability Resource Center Adjustments

Students who are registered with Northeastern University's Disability Resource Center (<http://www.northeastern.edu/drc/>) are eligible to petition to the center for tuition adjustments directly related to their documented disability. Students who drop below 12 credit hours may be affected by the loss of full-time-student status. Further information is available from the Disability Resource Center.

## Financing Options

### Northeastern's Monthly Payment Plan

Northeastern University offers a monthly payment plan, administered through Nelnet Campus Commerce, which allows students and families to divide their educational costs each semester into smaller, more manageable installments. In using this plan, it can reduce your need to borrow, thereby reducing the overall cost of education. The monthly payment plan can be combined with awarded financial aid as well as other payment and financing options.

### Student and Parent Loans

There are a number of educational loan programs available to assist eligible students and families in covering expenses over and above any financial aid that may be awarded from Student Financial Services. Most private lenders have credit and income requirements that students and/or parents must meet before being approved for these programs. When researching the loan and lender that best meet your needs, make sure you take into consideration the interest rate; the quality of customer service; as well as any origination, disbursement, and/or repayment fees.

### Additional Information

To learn more about available financing options, including the monthly payment plan, the Federal Direct Parent PLUS Loan, and student or parent loans, visit the Student Financial Services website (<https://studentfinance.northeastern.edu/billing-payments/financing-options/>).

## Tuition, Room, Board, and Fees Per Semester

Annual costs for upperclass students participating in co-op vary depending on their pattern of attendance. See "Patterns of Attendance" section below. The number of semesters a transfer student spends in school depends on the curriculum of the student's college. You are advised to verify your curriculum with your academic advisor so that you may plan accordingly.

### Total Estimated Costs

The total, estimated costs for students living in university housing and enrolled in the 17-meal plan for the 2021–2022 academic year are as follows:

#### TUITION AND FEES

	Per Full Semester	Per Summer Half Semester
Tuition	\$28,250	\$14,125
Student Center Fee	\$70	\$35
Student Activity Fee	\$148	
Campus Recreation Fee	\$60	\$35
Undergraduate Student Fee	\$310	

#### ROOM, BOARD, AND FEES PER SEMESTER

	Per Full Semester	Per Summer Half Semester
Residential Student Fee	\$32	\$16
Housing	Rates begin at \$4,790 <sup>1</sup>	approximately 1/2 of semester rate <sup>1</sup>
17-Meal Plan <sup>2</sup>	\$3,955	\$1,978

<sup>1</sup> Rates vary depending on occupancy and assignment. Visit the Housing and Residential Life website (<http://www.northeastern.edu/housing/>) for a detailed list of housing rates.

<sup>2</sup> See "Dining Services" for additional meal plan options.

Undergraduate day students who take a graduate course as part of their undergraduate program will be charged the same rates that apply to undergraduate credits. (See "Overload Policy (p. 35)" and "Reduced Load Policies (p. 35).")

In addition to the expenses itemized above, families should plan on the normal costs of living that students incur for transportation, books, and personal expenses. While these expenses may vary, for the purpose of approximating a student budget, the university estimates these items at \$2,800 per year.

Tuition rates, room and board charges, and fees are subject to revision by the Northeastern University Board of Trustees at any time.

### Patterns of Attendance

To better plan for tuition and fees, students and parents should be aware that:

1. Tuition is charged when a student is taking classes/earning academic credit. Tuition is not charged for co-op; however, the student will pay room and board if they stay in a university residence hall while on co-op and will be assessed tuition if enrolled in a class.
2. Financial aid will be distributed to match the student's academic program and tuition bills.

Northeastern University's calendar enables students to participate in six-month co-op assignments. Each academic year has two full semesters (fall semester, September–December, and spring semester, January–April) and two half semesters of about seven weeks each (summer I, May–June, and summer II, July–August). The six-month co-op assignments generally span either the spring plus summer I terms or the summer II plus fall terms.

The co-op schedule is flexible, but generally, students alternate periods in class with periods on co-op. All students are required to complete

their program in the classroom, rather than on a co-op assignment, so their last semester will be in the classroom. For specific patterns of attendance for particular majors, consult the program plan for that major.

## Fees Required of All Students

The following fees are required of all students:

### APPLICATION FEE

A nonrefundable fee of \$75 must accompany an application for admission.

### ENROLLMENT DEPOSITS

A nonrefundable enrollment deposit, which is applicable toward the first semester's bill, is due by January 20, 2021, for students admitted for Early Decision I, by February 20, 2021, for students admitted for Early Decision II, and by May 1, 2021, from all other accepted freshman students entering the university in September 2021. Please note, enrollment deposit deadlines for students applying Early Decision I and Early Decision II may vary year to year. Students entering at other times of the year, and transfer students, should note the required deposit due date on their Application Status Check.

If you are an international student, your enrollment deposit includes a \$350 International Student Fee. This fee supports programs and services provided by the Office of Global Services (OGS) (<https://www.northeastern.edu/ogs/>) on campus.

### UNDERGRADUATE STUDENT FEE

The mandatory undergraduate student fee supports enrollment-related services throughout the student's first year, including new student orientation and welcome week activities. Beyond the first year, the fee supports enrollment services and costs related to ongoing communication to students and parents. The undergraduate student fee, in the amount of \$310 per full semester, is assessed each in-class or study-abroad term for undergraduate students. During the summer half semester, the fee is prorated.

### STUDENT FEES

Students pay a student center fee of \$70 per in-school full semester or \$35 per in-school summer half semester. This fee supports the Curry Student Center. An annual student activity fee of \$148 is charged to support student clubs.

### CAMPUS RECREATION FEE

All undergraduate students at Northeastern University will be assessed a campus recreation fee of \$60 per in-school full semester or \$35 per in-school summer half semester. This fee covers admission to home athletic events, use of the Marino Fitness Center, the SquashBusters athletic facility, and the Cabot Gym (fitness and pool). This fee will also support the future construction of athletic fields and facilities.

### HUSKY CARD (PHOTO-IDENTIFICATION CARD)

This card is issued to new students at orientation and registration. Students must have a valid Husky Card to use at most university facilities. A replacement card costs \$25.

## NORTHEASTERN UNIVERSITY STUDENT HEALTH PLAN (NUSHP)

### General Information

Since September 1989, Massachusetts law (M.G.L. c.15A, § 18) has required every full-time and part-time student enrolled in a certificate, diploma, or degree-granting program in a Massachusetts institution of higher learning to participate in a Student Health Plan or in a health benefit plan with comparable coverage.

The Student Health Plan defines a full-time student as having full-time student status and enrolled in any amount of credits of a full-time curriculum.

The Student Health Plan defines a part-time student as having part-time student status and enrolled in at least 75 percent of credits of the full-time curriculum (CPS undergraduate students 9 credits, CPS graduate students, 6 credits).

The health fee is assessed each term on a student's account based on these definitions unless the student has previously waived the health plan fee in the current academic year.

Students on co-op or on study abroad are considered active students and will be enrolled in and billed for NUSHP each year.

Students enrolled in online programs are not eligible for NUSHP. Courses that would normally be held in the classroom and are currently being offered online or remotely due to COVID-19 are considered in-classroom courses and may make students eligible for and assessed the NUSHP fee.

## Health Insurance Waiver

Eligible students are automatically enrolled in NUSHP each academic year and may waive NUSHP via myNortheastern once they have been billed for NUSHP. In addition, to be eligible to waive, comparable coverage must be effective from the beginning of the term the student meets Student Health Program requirements.

The burden of proof that the alternative insurance is adequate falls upon the student choosing to waive. By submitting the waiver form, the student will be accepting responsibility for all medical expenses incurred, and neither Northeastern University nor its Student Health Plan will be responsible for these expenses.

Northeastern University reserves the right to verify that the student's insurance meets the criteria indicated. Disciplinary action may be taken if a student knowingly waives NUSHP without comparable coverage.

Visit the NUSHP website (<https://www.northeastern.edu/nushp/>) for waiver deadlines.

## Additional Fees

Other fees may include the following:

### HOUSING APPLICATION/DEPOSIT

New students must submit a nonrefundable \$600 enrollment deposit along with a completed housing application form to complete the housing application process. University housing is required for all first- and second-year students entering as freshmen. The upperclass housing deposit is \$200 for each full semester and for each summer half semester.

### RESIDENCE HALL ACTIVITIES FEE

All students living in the residence hall system pay a full-semester \$32 fee or half-semester \$16 fee for activities sponsored by the Residence Student Association.

### LATE FEES

Late fees can be placed on accounts any time after the due date, if the account remains fully or partially unpaid. The university typically waits, however, until after the conclusion of the add/drop period, for

the specified semester, prior to assessment of late fees. These fees are based on the amount past due at the time of assessment and can range from \$75 to \$200. Late fees are assessed once per semester.

If a student or payer wishes to dispute a late fee assessment, they must do so, in writing, to [studentaccounts@northeastern.edu](mailto:studentaccounts@northeastern.edu). Please be sure to include the student's name, NU ID, and reason for the dispute in the email.

### INTERNATIONAL STUDENT FEE

A onetime fee of \$350 is charged to new undergraduate international students. The fee supports programs and services available at the Office of Global Services.

## Room and Board

### ROOM RATES PER SEMESTER

Visit the Housing and Residential Life website (<https://www.northeastern.edu/housing/>) for a complete display of room rates and residence halls.

Students are billed at the beginning of each term and must pay the full charge for the term in accordance with Student Financial Services policy.

The high demand for university housing makes it necessary for Housing and Residential Life to enforce its termination and cancellation policies strictly.

### TERMINATION CHARGE AND ROOM RATE ADJUSTMENTS

A student whose License Agreement is revoked due to a separation from the university is subject to the Termination Charge Policy and the financial assessments outlined below. All housing deposits on file will be forfeited. Students who are suspended or expelled from the university, or on a medical leave of absence or withdrawn from the university, will have their current and any active future License Agreements, as well as any housing applications, revoked. Upon reentry to the university, the student must reapply for housing and will be considered for housing accordingly, based upon eligibility and availability.

Students who withdraw from the university will have their meal plan charges prorated to the end of the week they complete the University Withdrawal form in the Office of the Registrar. Students must also remove all belongings from university housing and check out properly with Housing and Residential Life in order to be credited, if applicable.

#### Termination CHARGE Policy Fall and Spring Semesters

Official Withdrawal from University	Room Charge Credited
Week 1	100 percent <sup>1</sup>
Week 2	90 percent <sup>1</sup>
Week 3	80 percent <sup>1</sup>
Week 4	60 percent <sup>1</sup>
Week 5	40 percent <sup>1</sup>
After week 5 <sup>2</sup>	0 percent <sup>2</sup>

<sup>1</sup> This credit may be prorated based on the daily charges of time used.

<sup>2</sup> Students withdrawing after week 5 incur a 100 percent room charge for the term.

#### Summer Half Semesters

Official Withdrawal from University	Room Charge Credited
Week 1	100 percent <sup>1</sup>
Week 2	75 percent <sup>1</sup>
Week 3	50 percent <sup>1</sup>

Week 4	25 percent <sup>1</sup>
After week 4 <sup>2</sup>	0 percent <sup>2</sup>

<sup>1</sup> This credit may be prorated based on the daily charges of time used.

<sup>2</sup> Students withdrawing after week 4 incur a 100 percent room charge for the term.

### CANCELLATION Charge Policy

Cancellation charges apply if a student cancels or withdraws from a housing arrangement after the housing has been secured, as set forth in the tables below. Only students who are not required to live in university housing are permitted to cancel; first- and second-year students are required to live in university housing. Students who cancel because of co-op outside of the Boston area, study abroad, or a medical leave of absence can cancel housing without cancellation charges, subject to providing acceptable written verification; housing charges for time of occupancy may apply. If the cancellation deadline has passed, students who can demonstrate a significant change in academic, co-op, or financial circumstances may petition for a waiver of this charge. See the following cancellation charge schedule:

Amount Charged	For Fall Semester	For Spring Semester	For Summer 1	For Summer 2
Deposit refunded; no charge	Before 5/15/21	Before 10/1/21	Before 3/15/22	Before 4/15/22
\$1,000 (\$500 half summer) charge	After 5/15/21	After 10/1/21		After 4/15/22
\$2,000 (\$1,000 half summer) charge <sup>1</sup>	After 6/15/21	After 10/15/21	After 3/15/22	After 4/30/22
\$3,000 (\$1,500 half summer) charge <sup>1</sup>	After 7/15/21	After 11/1/21	After 4/1/22	After 5/15/22
100 percent of term room charge <sup>1</sup>	After 8/1/21	After 12/1/21	After 4/15/22	After 5/29/22

<sup>1</sup> The student's deposit for the term is applied to the cancellation charge assessed.

### DINING SERVICES

All students living in university meal-required residence halls are required to participate in the traditional Unlimited, 17-, or 12-meal plan operated by University Dining Services.

All freshmen living in university residence halls during their first two semesters as matriculated college students are required to have a traditional meal plan. They are required to have at least a 12-meal plan except for those living in university apartments with kitchen facilities. Freshmen living in university apartments with kitchen facilities are required to have at least a 7-meal plan.

Students living in a meal-required residence hall are automatically billed for the 17-meal plan but can increase to an Unlimited meal plan or decrease to a 12-meal plan. They will have until the second Friday of the semester to make any changes. All other students may choose to enroll in a meal plan via the "Services & Links" section on the (<http://www.myneu.neu.edu>)myNortheastern portal (<https://my.northeastern.edu/>).

Changes to the meal plan are made via the "Services & Links" section on the myNortheastern portal (<https://my.northeastern.edu/>). Deadlines apply. Visit the Husky Card website (<http://www.northeastern.edu/huskycard/>) for details.

For information about menus and dining locations, visit NU Dining Services (<http://www.nudining.com>).

The traditional meal plan rates for 2021–2022 are shown below. For more information about meal plan rates, visit the Tuition and Fees webpage (<https://studentfinance.northeastern.edu/billing-payments/tuition-and-fees/>).

Meals per Week	Full Semester	Summer Half Semester
Unlimited	\$4,245	\$2,123
17	\$3,955	\$1,978
12	\$3,470	\$1,735
7	\$2,330	\$1,165

### PROFILER MEAL PLANS

The nonrefundable profiler meal plan is a block of meals that are provided in lump sum and can be used at the student's discretion. Profiler options are available to all students. However, these plans cannot take the place of a required, traditional meal plan.

Profiler meal plans end in August at the end of summer 2 semester. Students are advised to pay close attention to the end dates, as unused meals do not roll over and will not be refunded. Please visit NU Dining Services (<http://www.nudining.com>) for the most up-to-date information as 2021–2022 dates and dining locations are to be determined.

*Note:* Dining locations are limited during the summer and during intersession breaks.

The profiler rates for 2021–2022 are shown below. For updated rates, visit the Tuition and Fees webpage (<https://studentfinance.northeastern.edu/billing-payments/tuition-and-fees/>).

Meals	Cost
25	\$475
50	\$920
86	\$1,555
110	\$1,955

**Profiler plans are nonrefundable and cannot be modified.**

### Husky Dollars

Students can deposit funds into a Husky Dollar account (<https://www.northeastern.edu/huskycard/husky-dollars/>) and access these funds using their Husky Card at many restaurants and retail locations on and off campus, including the university's bookstore.

## Academic Policies and Procedures

- Academic Appeals Policies and Procedures (p. 26)
- Academic Honors (p. 26)
- Academic Integrity Policy (p. 27)
- Academic Progression Standards (p. 27)
- Accommodations for Students with Disabilities (p. 27)
- Attendance Requirements (p. 28)
- Course Credit Guidelines (p. 28)
- Degrees, Majors, and Minors (p. 29)

- Family Educational Rights and Privacy Act (FERPA) (p. 31)
- Final Examinations and Related Policies on Other Exams and Final Term Papers/Projects (p. 32)
- Graduation Requirements (p. 32)
- Leaves of Absence and University Withdrawal (p. 32)
- Personal Information (p. 34)
- Registration and Taking Courses (p. 34)
- Student Bill of Academic Rights and Responsibilities (p. 36)
- Student Evaluation of Courses (TRACE) (p. 38)
- Student Records, Transcripts, and Related Policies (p. 38)
- Student Right-to-Know Act (p. 41)
- University-Sponsored Travel (p. 41)

## Academic Appeals Policies and Procedures

Appeals policies and procedures for undergraduates are found in the Undergraduate Student Handbook (<http://www.northeastern.edu/osccr/code-of-student-conduct/>), available on the Code of Conduct page (<http://www.northeastern.edu/osccr/code-of-student-conduct/>) at the Office of Student Conduct and Conflict Resolution.

## Academic Honors

### Dean's List

A dean's list, or honors list, is issued at the end of each fall and spring semester. Effective fall 2010, the requirements to be on the dean's list are a 3.500 grade-point average (GPA) or higher with no incomplete grade or grade below C-. Students who are on any form of probation, who are enrolled in a course on a pass/fail basis (except where there is no alternative or where required by the program), or who are not carrying a full load as determined by their undergraduate college are not eligible. With a few exceptions as approved by the respective colleges, a full load for fall and spring semesters is considered to be a minimum of four courses or 16 semester hours.

### Graduation with Honors

Graduation with honors and selection as the class marshal are reserved for undergraduates who have completed 64 semester hours in residence and meet the following GPA requirements to graduate with honors:

GPA	Honor Conferred
3.500–3.699	Graduate with honor (cum laude)
3.700–3.849	Graduate with high honor (magna cum laude)
3.850–4.000	Graduate with highest honor (summa cum laude)

*Note:* The university reserves the right to change these standards.

### Honors in the Discipline

Honors in the Discipline is earned by those students who successfully complete college-defined requirements, generally culminating in a junior/senior honors thesis or a junior/senior honors project. This distinction will appear on the transcript (for example, "Honors in Music" or "Honors in Chemistry"). Detailed information about Honors in the Discipline is provided under each college's website.

### University Honors Program Distinction

University Honors Program Distinction is earned by those students who have completed six honors courses, including an honors interdisciplinary

seminar, and who have maintained a cumulative GPA of 3.500. The honors course requirement is adjusted for students who join the University Honors Program as second-semester first-year students (five honors courses) or as rising/continuing sophomores (four honors courses). Entering first-year students are invited to join based on a combination of their high school academic preparation, SAT/ACT scores, and leadership/civic engagement record. Refer to the University Honors Program's website (<http://www.northeastern.edu/honors/>) to learn how continuing students may join.

### Academic Integrity Policy

*The following academic integrity policy was created in consultation with and approved by the Office of Student Conduct and Conflict Resolution, the Student Government Association, and the Faculty Senate.*

Visit the Office of Student Conduct and Conflict Resolution (<http://www.northeastern.edu/osccr/academic-integrity-policy/>) website's Academic Integrity Policy page for a full description of these policies and procedures.

### Honor Code

*The following honor code was designed and approved by the Student Government Association:*

On my honor, I pledge to uphold the values of honesty, integrity, and respect that are expected of me as a Northeastern student.

### Code of Student Conduct

The Code of Student Conduct (<http://www.northeastern.edu/osccr/code-of-student-conduct/>) is available online.

### Academic Progression Standards

#### Faculty Advisor Communication Tool (FACT)

FACT warns students and their advisors of difficulty in courses. This warning is important for students' success, especially for students with a cluster of academic problems. Faculty members are expected to submit warnings by the fifth week of the semester, early enough for correction of the performance or for withdrawal from the course, if appropriate. FACT warnings and/or progress reports for student-athletes are necessary for NCAA compliance.

#### Academic Status

Academic progress of all students is reviewed by academic advisors at the end of each semester. Students are notified soon after final grades are posted if there are concerns about academic progress in any or all of the following areas:

1. Overall grade-point average (GPA)
2. Semester hours successfully completed
3. Failing or near-failing grades in courses that are required for progress in the major

Students at Northeastern maintain good academic standing when they meet the following criteria:

1. Have an overall GPA of 1.800 at the end of each semester of their freshman year and a minimum cumulative GPA of 2.000 at the end of each semester thereafter
2. Earn at least 12 semester hours in the semester just completed

Individual colleges may have additional requirements that are specified in each college section that follows.

In addition, many programs require that specific courses be successfully completed to progress to the next year. Students who do not make satisfactory progress will not graduate with their class and may be withdrawn. For more information about additional academic progression standards for each college, program, or major, refer to the curriculum guidelines that can be found in the college sections of this catalog. See financial aid implications under Financial Aid (p. 20).

### Academic Probation

Full-time students who fail to meet the criteria for good standing described above will be placed on academic probation effective for the following semester. The action will appear on the internal record but not on the transcript.

### Academic Dismissal

Students who remain on probation after two full-term academic semesters may be dismissed from the university. This action may appear on the transcript at the end of the second probationary semester. In addition, students who have below a 1.000 GPA or fewer than 4 earned semester hours in any semester or cumulatively may be dismissed at the discretion of their college. Students may appeal this decision to the Academic Standing Committee of their college (see following section). International students must consult with an advisor in the Office of Global Services (OGS) (<http://www.northeastern.edu/ogs/>) to discuss the impact of an academic dismissal as it relates to nonimmigrant visa status.

### Academic Standing Appeals

Students may appeal academic standing status if they can provide evidence and/or reasons supporting an appeal. Generally, a student on probation may be granted no more than one additional full-term academic semester to meet the criteria for good academic standing. Students may appeal to the Academic Standing Committee of their college to review probation and dismissal cases.

### Academic Eligibility for Participating in Student Organizations and Athletics

All students must have a minimum 2.000 overall GPA to be eligible for an elected or appointed leadership position in any student organization. Athletes must adhere to NCAA standards.

### Repeating Courses to Clear Deficiencies

See Repeating Courses (p. 38) and Clearing an Academic Deficiency (p. 38)

### Definition of Freshman, Sophomore, Junior, and Senior

For undergraduate day students, freshman, sophomore, junior, and senior standing are determined by earned semester hours:

Freshman	Less than 32 semester hours
Sophomore	At least 32 but less than 64 semester hours
Junior	At least 64 but less than 96 semester hours
Senior	At least 96 semester hours

### Accommodations for Students with Disabilities

617.373.7800 (fax)

Website (<http://www.northeastern.edu/drc/>)

Northeastern University and the Disability Resource Center (DRC) are committed to providing disability services that enable students who qualify under Section 504 of the Rehabilitation Act and the Americans with Disabilities Act Amendments Act (ADAAA) to participate fully in the activities of the university. To receive accommodations through the DRC, students must provide appropriate documentation that demonstrates a current substantially limiting disability. Accommodations are provided based on an evaluation of the information provided by students and their clinicians, on a case-by-case basis. These services are available for, but not limited to, students with the following diagnoses:

- Learning disabilities and/or AD(H)D
- Autism spectrum disorders
- Chronic or degenerative disorders
- Hearing loss
- Mobility impairments
- Psychiatric disorders
- Traumatic or acquired brain injury
- Vision impairments

Students should provide documentation to the DRC at their earliest convenience to allow for sufficient time for review. After the documentation has been reviewed, a disability specialist will contact the student regarding appropriate next steps. Visit the DRC website (<http://www.northeastern.edu/drc/>) for additional information or contact staff at 617.373.2675.

## Attendance Requirements

Class participation is essential to success no matter the course format or its delivery; therefore, attendance is mandatory. Individual instructors may have additional, course-specific, attendance policies. It is the student's responsibility to ascertain what each instructor requires. Failure to meet attendance requirements may force a student to drop the applicable courses. Students should not make conflicting commitments until the class schedules for each semester are final. Permission to make up work may be granted by instructors for reasonable cause. Requests must be made immediately upon a student's return to class. Laboratory work can be made up only during the hours of regularly scheduled instruction.

### Absence Because of University-Sponsored Activities

Participation in university-sponsored activities, where the students are representing their university, college, or department, may cause absences from class that qualify as excused absences. Excused absences, with appropriate prior arrangement, are not subject to penalty, and missed work may be satisfied through agreement between the student and the instructor. University-sponsored activities that may justify excused absences include athletic competition, performing arts events, and research or other presentations.

Students must discuss absence(s) with instructors at least two weeks in advance of the university-sponsored activity, or as soon as possible if the activity is at the beginning of the term or is the result of an unforeseen circumstance. Instructors may require a written statement from the administrator in charge of the activity. Instructors are expected to make reasonable accommodations for these class absences, including administration of makeup assignments and exams whenever possible. It is expected that students seeking an excused absence will develop a plan and timetable to make up the missed coursework with their instructor(s).

Note, however, that the requirements of some courses or programs may preclude such accommodations.

### Absence Because of Religious Beliefs

Any student who is unable, because of his or her religious beliefs, to attend classes or to participate in any examination, study, or work requirement should be provided with an opportunity to make up such examination, study, or work requirement that he or she may have missed because of such absence on any particular day, provided that such makeup examination or work does not create an unreasonable burden upon the university. Students should make appropriate arrangements with the instructor in advance of the absence, preferably at least two weeks before the religious observance.

### Absence Because of Jury Duty

Members of the university community are expected to fulfill their obligations to serve on a jury if called upon. A student selected for jury duty should inform his or her instructors. They will provide a reasonable substitute or compensatory opportunities for any required work missed. A student with such an absence will not be penalized in any way.

### Absence Because of Military Deployment

See "Leave of Absence Due to Military Deployment (p.       )."

### Other Absences

Unforeseen events or circumstances, including illness, may cause a student to be absent from class. Students must notify their instructors and academic advisor, as appropriate, as soon as possible to apprise them of the circumstances leading to their absence, as well as how much time will be missed. Students must work with their instructors to develop a plan, with a timetable, to make up missed coursework. Students cannot be required to provide medical documentation. (Faculty and students should note that the University Health and Counseling Services does not provide sick notes or medical excuses except for long-term illness.) Instructors are expected to make reasonable accommodations for warranted class absences, including administration of makeup assignments and exams, whenever possible.

### Extended Absences

A student who is absent from school for an extended period of time must inform his or her academic advisor by letter, email, or telephone. The expected length of the absence may determine whether the student should apply for a medical or emergency leave of absence (p.       ). It is strongly recommended that the student contact his or her academic advisor to discuss potential next steps, which could include incomplete grades; withdrawal from classes; or, in the event of an extended absence due to a chronic medical condition or disability, consultation with the Disability Resource Center to explore potential accommodation.

### Nonattendance

Nonattendance does not constitute official course dropping or withdrawal, which means the student is fully responsible for the academic and financial consequences. Like all grades for courses attempted and/or completed, a grade earned due to nonattendance impacts a student's academic progression, an international student's visa eligibility, and a federal financial aid recipient's aid eligibility and award.

## Course Credit Guidelines

### Guidelines for Assigning Credit to Courses

The primary standard for establishing course credit at Northeastern is the semester/quarter hour, or Carnegie Unit, the standard used by the federal

government. One hour of credit is awarded for a lecture/seminar class meeting 50 minutes each week during a 15-week semester or 12-week quarter and also requiring a minimum of two hours of outside preparation each week by the student. An hour of contact time in the rest of the document is based on this 50-minute session.

- 2 semester/quarter hours (100 minutes per week of instruction plus 4–6 hours homework, or equivalent)
- 3 semester/quarter hours (150 minutes per week of instruction plus 6–9 hours homework, or equivalent)
- 4 semester/quarter hours (200 minutes per week of instruction plus 8–12 hours homework, or equivalent)

The Office of the Registrar, 271 Huntington Avenue, maintains the official record for all courses. In the event of error in any publication, the academic record will reflect the correct semester/quarter hours applicable to any degree requirement.

On occasion, course titles change, while the course number remains the same. Despite such title changes, the course is still considered to be the same course. Students who have taken the course under the old title and then take the course again under the new title are considered to have repeated the course.

#### **NOTE ABOUT HOMEWORK AND STUDENT PREPARATION FOR CLASS**

The credit hour assumes a set proportion of two hours of student preparation or homework for every hour spent in class. Northeastern wishes to emphasize that the federal government has established this as the minimum amount of work expected, and assigning more work does not in itself justify an increase in the credit value of the course. We also wish to note that there is great variation in the amount of time each student will need to devote to each course or to a specific form of study (e.g., reading, writing, completing problem sets), and, therefore, it is not possible to enforce any exact accounting of student work outside of class.

#### **CREDIT ASSIGNMENT PROCESS**

Northeastern University uses the Carnegie Unit to determine class meeting time requirements. The actual amount of academic work that goes into a single credit hour is calculated as follows:

- One lecture (taught) or seminar (discussion) credit hour represents one hour per week (50 minutes) of scheduled class/seminar time and two hours of student preparation time.
- One laboratory or studio credit hour represents one hour per week of lecture or discussion time plus one to two hours per week of scheduled supervised or independent work, or a total of three hours in the lab or studio.

#### **DEFINED INSTRUCTIONAL METHODS**

- Traditional: meets fully on ground in a physical location with instructor present
- Hybrid: meets majority on ground in a physical location with instructor present with some online instructional component
- Live cast: meets fully on ground in a physical location with the instructor in a different location teaching synchronously and supported by an instructional assistant in the physical location
- Online: meets fully online

#### **FULL-TIME AND HALF-TIME EXPERIENCES**

Academic experiences integral to curriculum and requiring registration (but not credit bearing) have the following required hours of participation:

- Full-time experiences: 32–40 hours per week in a semester for a minimum of 11 weeks or 55 days, or in a quarter for 9 weeks or 45 days
- Half-time experiences: 16–31.99 hours per week in a semester for a minimum of 11 weeks or 55 days, or in a quarter for 9 weeks or 45 days (to achieve full-time status, graduate students must take 3 or more academic credits and undergraduate students must take 4 or more academic credits)
- Summer 1 or Summer 2 semester: minimum of 5 weeks or 25 workdays
- Summer quarter: 6 weeks or 30 workdays

International students must confer with the Office of Global Services to determine CPT requirements as appropriate.

## **Degrees, Majors, and Minors**

### **Declaring Majors and Minors**

Undergraduate students may declare their majors upon admission to the university or may elect to join programs for undeclared students before declaring a major. Students must declare a major no later than the end of the sophomore year. Majors and concentrations are described under the various schools and colleges in this catalog.

Students should declare a minor as early as possible and no later than the end of the junior year. Completion of the requirements of a major, minor, or concentration is noted on the transcript.

### **Changing Majors**

Undergraduate students enrolled full-time in one or more of the university's undergraduate schools or colleges may change their major if they meet one of the following transfer criteria:

- The student meets the criteria for immediate entry as defined by the receiving major.
- The student has a cumulative grade-point average (GPA) of 2.000 or greater and satisfactorily completes the transition criteria as defined by the receiving major. For GPA below 2.000, change of major is at the discretion of the receiving major.

Students who are considering a major change must discuss their change in person with an advisor in the receiving major. See the online list of advising offices (<https://registrar.northeastern.edu/article/changing-majors/>). The advisor will certify that the student meets the criteria for immediate entry to the major or will set up a transition term for the student to satisfy the change-of-major criteria. Advisors will discuss the student's ability to succeed in the desired program given the current academic record as well as the influence of changing major on the student's ability to obtain a degree in the desired program within the traditional eight-academic-term time frame.

Transition criteria are designed to help ensure that students who change major have a reasonable chance of academic success and program completion. A list of school and college transition criteria is maintained at the website of the respective school or college. Students wishing to join some majors must also audition or submit a portfolio, as indicated on the aforementioned webpage. Note also that some colleges have deadlines for applications to change major, also indicated on the aforementioned webpage.

International students must inform the Office of Global Services (OGS) (<http://www.northeastern.edu/ogs/>) of any change of major.

### Northeastern Explore Program

The Northeastern Explore Program provides support and guidance to first-year students who have not yet decided upon or officially declared a major. All students must declare a major no later than the end of the sophomore year. Undeclared students are strongly encouraged to declare a major by the beginning of their sophomore year if they are interested in highly structured programs or in maximizing their number of co-op placements within such a major. Admission to a particular major is dependent on the transfer criteria described above.

The D'Amore-McKim School of Business, the College of Engineering, and the Khoury College of Computer Sciences also each provide resources to facilitate a major choice for students who enter their respective colleges with undeclared majors.

### Double Major

Students may earn a double major by gaining admission to the second major and by completing all requirements for both majors. Because some double majors will have a significant overlap in courses, all double-major proposals must be approved by the home college of each major in the proposed double major. Students completing a double major receive one degree and one diploma. The two majors appear on the transcript. If the two majors are in different colleges, the degree is associated with the major in the home college.

### Second Northeastern University Bachelor's Degree

To earn a second bachelor's degree after earning a first bachelor's degree from Northeastern, a student must be granted admission to the second program, enroll at Northeastern, and complete all requirements for the second major that are not already on the student's transcript. Outdated coursework may not be accepted. Students must earn a minimum of 32 semester hours beyond those earned toward the first degree. A second diploma will be awarded and the second degree will be noted on the transcript.

Students must complete an application with the home college of the intended degree. Some programs may require prerequisites prior to admission. Students should apply by the normal transfer deadline to ensure timely consideration. The college makes the determination on admission; notifies the student of this decision; and, if the student is admitted, provides the student with a program of study and reactivates the student's record. International students must consult with an advisor in the Office of Global Services to request updated documentation reflecting engagement in the second bachelor's degree program.

### Combined Majors

Students with academic interests spanning two disciplines may choose to pursue a combined major. A combined major is one major that includes at least nine courses from each of the two participating disciplines. No more than two courses may count for both disciplines, i.e., there must be at least 16 courses in the combined major. At least one of the courses is an integrative course that acts as a bridge between the two majors being combined. The combined major should be declared by the end of the first semester of the junior year. It is generally advantageous to declare the combined major as early as possible, especially when highly structured disciplinary components are involved.

See the online list of current combined major program options. (<https://registrar.northeastern.edu/article/combined-majors/>) Students may request admission to a combined major by following the standard procedure for changing majors. A home college is designated, in which

the student will be registered and from which he or she will be graduated. Many combined majors allow the student to choose the home college. Upon graduation, students receive one major, one degree, and one diploma. The combined major and home college will appear on the transcript and diploma.

### Independent Majors

In the rare cases when students have academic interests that fall within the expertise of Northeastern faculty members and are not available in the large number of existing majors and combined majors, they may propose an independent major. Independent majors form a cohesive program focusing on some issue, theme, or subject area not available within the context of existing curricula. These programs should be equivalent in depth and coherence to existing majors. No student with less than a 3.250 grade-point average will be approved for an independent major. The proposal must be approved by the end of the first semester of the junior year. Proposals will not be considered before the end of the freshman year. For initial information and advice, interested students should consult their academic advisor.

The student assumes the initiative in formulating an independent major. High degrees of student initiative and self-reliance are also necessary for completion of this type of major. The student is responsible for securing the advice and approval of faculty mentors, at least one from each of the disciplines. These faculty mentors will help the student design the curriculum. The faculty mentors will guide the student's academic progress through the major. The student should select one of the faculty mentors as the primary mentor.

If the disciplines partnering in the independent major are in different colleges, the college of the primary mentor will be designated as the home college, in which the student will be registered and from which the student will be graduated. The student will enroll in the Approved Independent Studies major. Students completing an independent major receive one degree and one diploma. Upon graduation, a comment will be added to the transcript to reflect the title indicated on the approved independent major proposal. When the components of the independent major individually offer different degree designations, the degree designation that will appear on the transcript and diploma will be designated during the approval process.

The student, with the assistance of the faculty mentors, must formulate in writing and submit to the home college curriculum committee an Independent Major Approval form (<https://registrar.northeastern.edu/article/independent-majors/>) bearing the signatures of all faculty mentors and a proposal containing the following items:

- A statement of the central concept around which the independent major is organized and a rationale for the major, including a discussion of why existing programs are inadequate to the student's purpose and how the proposed major meets the student's educational, professional, or personal goals
- A list of courses—including names, numbers, prerequisites, and frequency of offering (if known)—and a breakdown of the introductory, intermediate, and advanced courses included in this list
- A statement of the manner in which the requirements of the university core are fulfilled (and, if applicable, BA core requirements (p. 49))
- A list of courses—including numbers, names, and grades—already taken that will apply to the major or to the university core (and BA core, if applicable) requirements
- A student transcript
- A calendar for completion of the degree

A meeting of all faculty mentors and the student must be held before college approval of the major program. In accepting the proposal, the home college dean's office certifies that the rules established for the independent major have been followed, and it assumes administrative responsibility by assigning an academic advisor to monitor the student's progress and clear the student for graduation. Any changes in the curriculum must be approved by the primary faculty mentor, and the home college advisor must be informed. Final approval of independent majors is granted by the University Undergraduate Curriculum Committee.

### PlusOne Bachelor's/Master's Programs

Northeastern University offers a number of PlusOne bachelor's/master's degree programs that allow students to accelerate the completion of the bachelor's degree by applying graduate credits taken as an undergraduate toward both the undergraduate and graduate degrees. Generally, both degrees may be earned in one more year than is the normal time allotted for completion of the bachelor's degree. See additional information on PlusOne Bachelor's/Master's programs (<http://www.northeastern.edu/plusone/>). (<https://registrar.northeastern.edu/article/plusone-program-accelerated-bachelorgraduate-degree-programs/>)

Northeastern University School of Law also offers students a PlusJD program (<https://www.northeastern.edu/law/admission/jd/apply/plusjd/>) that allows students to count their first year of law school toward their undergraduate degree.

### Minors

Minors offer an opportunity for students to complement their major with intensive study in another area. A minor consists of a minimum of four courses defined by a department or an interdisciplinary program. In some cases, background courses are also required. Unless otherwise indicated, minors are generally open to all university students. Minors appear on the transcript only after completion of requirements has been certified and the degree has been awarded.

## Family Educational Rights and Privacy Act (FERPA)

### FERPA for Students—General Information

FERPA is a federal law that applies to educational institutions. Under FERPA, schools must allow students who are 18 years or over or attending a postsecondary institution:

- Access to their education records
- An opportunity to seek to have the records amended (see the *Student Handbook* for this procedure)
- Some control over the disclosure of information from the records

### FERPA General Guidance for Parental Disclosure

When a student turns 18 years of age or attends a postsecondary institution, the student, and not the parent, may access, seek to amend, and consent to disclosures of his or her education records.

If you are an undergraduate day student and you choose not to share information with your parents, Northeastern will, if asked, indicate that you have restricted access to your records.

### Release of Directory Information

The primary purpose of directory information is to allow Northeastern University to confirm attendance for employers, health insurance companies, and loan agencies. Northeastern may disclose appropriately designated "directory information" without written consent, unless

you have advised the university to the contrary in accordance with the procedures below. If you choose not to release directory information, all communications with all third parties and agencies will need to be done through your written request to the university or in person.

As of June 30, 2016, Northeastern directory information includes:

- Student name
- Home address (city, state, country only)
- Major field of study
- College
- Class year
- Enrollment status (e.g., undergraduate or graduate, full-time or part-time)
- Dates of attendance
- Degrees, honors, and awards received
- Most recent educational agency or institution attended
- Sports activity participation, showing weight/height of members of athletic teams
- Participation in officially recognized activities

If Northeastern currently has permission to release data and you do not want the university to disclose directory information without your prior written consent, you must notify the university by coming to the Office of the Registrar, 271 Huntington Avenue.

### Notification of Rights under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights are:

1. The right to inspect and review the student's education records within 45 days of the day the university receives a request for access. Students should submit to the registrar, dean, or head of the academic department (or appropriate official) written requests that identify the record(s) they wish to inspect. The university official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the university official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
2. The right to request the amendment of the student's education record that the student believes is inaccurate or misleading. Students may ask the university to amend a record that they believe is inaccurate or misleading. They should write the university official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the university decides not to amend the record as requested by the student, the university will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interest. A school official is defined as a person employed by the university in an administrative, supervisory, academic, or support staff position (including law enforcement unit and health staff); a person or company with whom the university has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a person assisting another school official

in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the university to comply with the requirements of FERPA. At Northeastern, the Office of the University Registrar, 271 Huntington Avenue, administers FERPA.

### Additional Information

Additional information can be obtained at the U.S. Department of Education's website (<http://www.ed.gov/policy/gen/guid/fpco/ferpa/>) or by writing to:

Family Policy Compliance Office  
U.S. Department of Education  
400 Maryland Avenue, SW  
Washington, D.C. 20202-5920

### Final Examinations and Related Policies on Other Exams and Final Term Papers/Projects

- Final examinations are normally two hours in length and must be held when and where scheduled. Final exams are held during a designated final exam period at the end of the semester. An examination schedule is posted at the beginning of each semester at the Final Exam Information webpage (<https://registrar.northeastern.edu/article/final-exams/>).
- Students are responsible for knowing the time and location of their examinations. Final exam schedules are available to students online via the myNortheastern web portal (<https://my.northeastern.edu/>) under "My Schedule" in the "Self-Service" tab approximately the fourth week of the term.
- Students who have two examinations scheduled at the same time or three exams on the same day may complete and submit the Final Exam Conflict form (<https://registrar.northeastern.edu/article/final-exams/>) by the posted deadline.
- Instructors may not give more than 30 total minutes of examinations during the eight calendar days prior to the start of the final exam period.
- Students who have concerns about exams scheduled during the eight calendar days prior to the start of the final exam period, rescheduling of final examinations, or conduct during an examination should report their concerns to their college academic student services office.
- All final examinations, term papers, or projects must be returned to the student or be retained by the department for a period of one year.

### Graduation Requirements

To be eligible to receive degrees, graduating seniors must meet all academic and residency requirements. They must also clear all financial, experiential education, and disciplinary deficiencies.

In addition, each program of study has specific academic requirements. These are specified for each program under the various schools and colleges in this catalog.

Once they matriculate, students are expected to complete all coursework for their degree at Northeastern; or an entity in a formal contractual, consortial, or partnership relationship with Northeastern; or at an approved Northeastern University study-abroad program. In some cases, in order to clear a deficiency, to permit students access to courses deemed by their respective advisors and colleges to be important for

their educations but unavailable to them at Northeastern, or to remain on track for graduation, a student may petition their college for permission to take a course at another accredited institution. See also "Residency Requirement," below.

Prior to completion of their program, students are expected to complete a graduation degree audit at their college's academic student services office.

*Note:* Participation in study abroad in a student's final semester may result in a delay in graduation due to calendar discrepancies across institutions.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Residency Requirement

In addition to meeting all degree and major requirements, students must earn a minimum of 64 Northeastern University semester hours to receive a bachelor's degree. Established exchange programs, where students are earning two degrees, one from Northeastern University and one from another institution, require students to earn a minimum number of Northeastern University semester hours as specified by the exchange program. Specialized programs for students with preexisting credentials have specific residency requirements.

### Commencement

Attendance at Commencement is optional. Information concerning Commencement is provided to all graduating seniors during the spring semester. Seniors who have been removed from the graduation list are notified if they fail to qualify for their degrees. No special notice is sent to students who do qualify.

### Leaves of Absence and University Withdrawal

Students may request to take the following types of leaves of absence:

- Personal or Academic
- Medical or Emergency
- Military Deployment or Missionary Service

*Students in Pre-Matriculation and Pathway programs (including N.U.in, Foundation Year, NU Immerse, NU Bound) do not fall under the leave of absence policy below. Students in these programs with emergent, medical, or personal circumstances that require a conversation about their ability to continue with their program of study should reach out to We Care ([https://studentlife.northeastern.edu/we-care/#\\_ga=2260687946268200191621858812-17152695181613325628](https://studentlife.northeastern.edu/we-care/#_ga=2260687946268200191621858812-17152695181613325628)) for further guidance.*

### General Leave of Absence Policy

Students who wish to take a leave of absence should complete a request through the Student Hub web portal (or via University Health and Counseling Services (UHCS (<https://www.northeastern.edu/uhcs/forms/medical-leave-of-absence/>)) for a medical leave of absence, as described below) before the last day to drop without a W in a term. Please consult the Academic

Calendar ([https://registrar.northeastern.edu/group/calendar/#\\_ga=222318140315109033061621260160-17152695181613325628](https://registrar.northeastern.edu/group/calendar/#_ga=222318140315109033061621260160-17152695181613325628)) for the last day to drop without a W in the term.

Students can request a leave until the last day to drop with a W in a term but should review the financial implications of withdrawing from courses on the Student Financial Services website (<https://studentfinance.northeastern.edu/policies-procedures/withdrawalleave-of-absence/>).

Students can take up to one year of leave.

Any leave of absence type, if approved, is subject to the following conditions:

- International students must make an appointment with the Office of Global Services (OGS) (<https://international.northeastern.edu/ogs/>) to discuss leave of absence procedures in accordance with federal regulations.
- Students who do not return at the end of the leave will be withdrawn and must contact their college for reentry prior to the term start.
- Students must return to classes, not to co-op.
- Students must be currently enrolled in academic classes or co-op. If a student is withdrawn for personal reasons, the withdrawal can be reversed and a request for a leave of absence can only be processed if it is before the last day to drop without a W in a term. If the student has been administratively withdrawn, a request for leave of absence cannot be considered until the withdrawal is resolved.
- Students who receive financial aid should meet with a financial aid counselor before going on a leave. Please see Return of Title IV Aid (p. 20) for the possible financial aid impact of a leave of absence.
- Students in university housing should refer to the Office of Housing and Residential Life for policy information.
- A student's enrollment status cannot include more than one academic year of consecutive nonclass enrollments. Students on leave for more than one year will be withdrawn from the university.
- If a student has taken multiple leaves equating to one year, the next leave request will be processed as a withdrawal.
- Students are not allowed to take classes for credit toward their degree at Northeastern while on a leave of absence.

Students on a leave of absence are considered active students and are able to register for classes in an upcoming term in a leave status. If a student is unable to register because they are inactive, the student should contact their college for reentry at the time of registration for the return term. Students are expected to register for classes upon returning from a leave of absence.

### LEAVE OF ABSENCE FOR INTERNATIONAL STUDENTS

International students must discuss maintenance of U.S. immigration status with an advisor at OGS before requesting any type of leave of absence.

### PERSONAL OR ACADEMIC LEAVE OF ABSENCE

Personal leaves of absence are general leaves of absence that do not meet the criteria of more specific leaves outlined in the catalog. Academic leaves are applied to a student record in the rare cases when a student has fulfilled the last remaining requirements abroad, but final grades have been yet to be received at Northeastern; or are taking a leave of absence from Northeastern to pursue other academic work. A student interested in requesting a personal or academic leave of absence should speak with an academic advisor.

### MEDICAL OR EMERGENCY LEAVE OF ABSENCE

Medical leave is an option available to those Northeastern students who develop a major medical condition that precludes class attendance, completion of requirements, and/or participation in co-op. Medical leave requests must be initiated at UHCS (<https://www.northeastern.edu/uhcs/forms/medical-leave-of-absence/>). Students can request from their college an exception to take classes elsewhere while on a medical leave of absence based on extenuating circumstances.

Emergency leaves may be granted when a student cannot continue attending class after the start of the term due to life-changing situations beyond the student's control. Students interested in requesting emergency leave are encouraged to contact We Care (<https://studentlife.northeastern.edu/wecare/>). Students can request an Emergency Leave of Absence via the Student Hub.

Please consult Refunds for Withdrawal from the University—General Information (p. 21) concerning tuition charged for the term in which the leave has been granted. The student may appeal for consideration of their financial circumstances; appeal information can be found at Student Financial Services (<https://studentfinance.northeastern.edu/policies-procedures/withdrawalleave-of-absence/>). If the appeal is approved, housing and other fees will not be included in the appeal decision; please refer to the Residence Hall and Dining License Agreement (<https://www.northeastern.edu/housing/license-agreement/>). Outstanding balances (including unpaid balances) for the academic term in which the leave is taken are still due the university.

Financial aid recipients must contact their financial aid counselor to understand the effects on aid received.

If the leave extends more than six months, students who have taken loans for education expenses may be required to start repayment of those loans.

Students enrolled in the Northeastern University Student Health Plan (NUSHP) will remain enrolled in the plan for the plan year, ending August 31.

### LEAVE OF ABSENCE DUE TO MILITARY DEPLOYMENT OR MISSIONARY SERVICE

When a student is called to active duty or missionary service, they must request the leave by filling out the proper request form through the Student Hub. Proof of official deployment or call to service paperwork will be required as an attachment when filling out the leave of absence request.

When a student is called during the term, the university will:

- Excuse tuition for that term. Any payment made will be credited to the student's account.
- Post a leave of absence for the term to hold a place for the student when he or she returns.

If a student is called near the end of the term, the student and faculty members may determine that incomplete (I) grades are more appropriate. In this case, tuition will not be waived.

When a student returns to the university after completion, he or she will notify the college academic student services office if the leave was longer than one year; that office will in turn notify the Registrar's Office. The college academic student services office will assist the student with reentry and registration. If the leave was less than one year, the student should register for classes for the upcoming term prior to returning to campus.

International students who must take a leave of absence to engage in military service in their home country must also complete a form for leave of absence with OGS.

### RETURNING FROM A LEAVE OF ABSENCE

Students on a leave of absence are considered active students and are able to register for classes in an upcoming term in a leave status. If a student is unable to register because they are inactive, they should contact their college for reentry at the time of registration for the return term. Students are expected to register for classes upon returning from a leave of absence.

Students who are withdrawn and are applying for Commencement may be reentered on a leave of absence, pending the college's approval, prior to the term in which they will graduate. International students returning from a leave of absence should contact OGS regarding the Student and Exchange Visitor Information System (SEVIS) procedures three to four months prior to anticipated return date.

Students who wish to reenter the university following a medical leave must contact UHCS. Reentry from a medical leave requires receipt of all documentation delivered to UHCS on or around one month prior to the planned reentry to classes. Once all documentation is received by UHCS, it will be reviewed and the student will be notified of the decision. Students must be enrolled in Northeastern University classes for the term in which they wish to return from their medical leave of absence. More specific information about the reentry process can be found at the UHCS website (<https://www.northeastern.edu/uahcs/forms/medical-leave-of-absence/>).

### University Withdrawal

Students seeking to withdraw from the university for any reason should meet with their academic advisor before completing the university withdrawal form online. Students should review the financial implications of withdrawing from all classes on the Student Financial Services website.

Students may be withdrawn from the university for financial, disciplinary, or academic reasons. Students looking to withdraw for medical reasons, should reach out to UHCS ([mloa@northeastern.edu](mailto:mloa@northeastern.edu)) to review medical leave of absence.

## Personal Information

### Change of Name

Report all name changes to the Office of the Registrar immediately. Official documentation of the name change is required.

### Change of Address

Report all address changes via the myNortheastern web portal (<https://my.northeastern.edu/>) or in person at the Office of the Registrar or Office of Student Accounts. Both the permanent home address and the local address are required. International students must report any changes of address or phone number via the myNortheastern web portal (<https://my.northeastern.edu/>) within 10 days in order to ensure compliance with Student and Exchange Visitor Information System (SEVIS) requirements.

## Registration and Taking Courses

Students are expected to register for classes during the published registration times in the academic calendar. Freshmen may be preregistered for some or all of the courses they need. Most registration after the freshman year is accomplished through the myNortheastern

web portal (<https://my.northeastern.edu/>). Students must complete "I Am Here" registration just prior to the start of classes to remain enrolled. Class adds must be registered by the end of the seventh class day.

## Class Schedule

All classes start promptly according to the class schedule shown. Most classes at Northeastern are scheduled in the time periods listed.

Students are expected to be punctual. Students who are late for classes should attend for the balance of the class period. Instructors will not tolerate habitual tardiness.

Students may leave 15 minutes past the scheduled opening of class if the instructor is not present. In such cases, students should notify the department in which the course is offered that the instructor was not present.

Any change of regularly scheduled classes or examinations must have the unanimous consent of the students involved unless other mutually acceptable arrangements for students to attend the alternative class or examination are worked out between the faculty member and the student(s) involved. Final exams must be held during the final exam time period and may not be negotiated in accordance with the official policy.

During the terms when they are teaching, faculty members are expected to provide sufficient conference time to meet the instructional and advising needs of their students.

## Fall and Spring Schedule

Sequence 1	MWTh	8:00–9:05
Sequence 2	MWTh	9:15–10:20
Sequence 3	MWTh	10:30–11:35
Sequence 4	MWTh	1:35–2:40
Sequence 5	MWTh	4:35–5:40
Sequence 6	TuThF	11:45–12:50
Sequence 7	TuWF	3:25–4:30
Sequence A	MTh	11:45–1:25
Sequence B	MW	2:50–4:30
Sequence C	TuF	8:00–9:40
Sequence D	TuF	9:50–11:30
Sequence E	WF	11:45–1:25
Sequence F	TuF	1:35–3:15
Sequence G	TuF	3:25–5:05
Sequence H	Tu	11:45–1:25
	and Th	2:50–4:30
Sequence L	MWTh	8:00–11:35
Sequence M	MWTh	11:45–2:40
Sequence N	MWTh	2:50–5:40
Sequence P	MWTh	8:00–10:20
Sequence Q	MWTh	10:30–1:25
Sequence R	MWTh	1:35–5:40
Sequence S	MWTh	1:35–4:30
Sequence T	TuF	8:00–11:30
Sequence U	TuF	11:45–3:15
Sequence V	TuF	3:25–5:25
Sequence W	TuF	1:35–5:05

## Summer Schedule

Sequence 1	MTuWTh	8:00–9:40
Sequence 2	MTuWTh	9:50–11:30
Sequence 3	MTuWTh	1:30–3:10
Sequence 4	MTuWTh	3:20–5:00
Sequence 5	MTuWTh	11:40–1:20
Sequence A	MW	8:00–11:30
Sequence B	MW	1:30–5:00
Sequence C	TuTh	8:00–11:30
Sequence D	TuTh	1:30–5:00

## Course Syllabus

Faculty members are expected to distribute a syllabus at the start of each course. The syllabus should also be placed on the course Canvas site. The syllabus should include a schedule of topics, exam and assignment due dates, information on how to contact the faculty member, process for conference time, grading and attendance policies, and a reminder of the university's Academic Integrity Policy.

## Course Prerequisites

Students are expected to meet prerequisites as listed in the course description of each course in which they enroll. Grades of F, U, I, or W in prerequisite courses do not normally fulfill requirements. Exceptions must be authorized by the instructor teaching the course.

## Overload Policy

An overload occurs when a student is enrolled in more courses than prescribed by the program's curriculum. To register for an overload, students are advised to consult their academic advisor. Students who enroll in overload courses will be billed at the per-credit-hour rate, 1/16<sup>th</sup> of the full-semester tuition for that semester per semester hour. Undergraduate full-time day students may register for an additional music ensemble course from the list of courses without added charge as long as they are registered for a full course load.

## Reduced Load Policies

Undergraduate full-time student adjustments for reduced loads are made only when the Undergraduate Petition to Reduce Load is approved by the academic advisor and by the Office of the Registrar. Adjustments will then be made if the course load falls below 12 semester hours during full semesters and 6 semester hours during summer half semesters (calculated at the per-credit-hour rate). To receive an adjustment, the Undergraduate Petition to Reduce Load must be submitted prior to the start of the term.

No rebate or credit is granted when a student voluntarily drops a course. A reduced load may impact the student's housing, financial aid, visa status, and health insurance. Students should consult applicable departments before committing to a reduced load. Students who take a reduced load will be billed at the per-credit-hour rate, 1/16<sup>th</sup> of the full-semester tuition for that semester per semester hour.

International students must speak with an advisor at the Office of Global Services (OGS) (<http://www.northeastern.edu/ogs/>) prior to dropping a course. Permission to drop below full-time status is restricted according to federal regulations.

## Audit Policy

Full-time Northeastern students (16 credits at the undergraduate level and 8 credits at the graduate level, before the audit registration) may audit one class per term as an overload with no additional charge. Students are permitted to register from the end of the course-add period

to the end of the third week of classes. Registration is based on the availability of a seat in the class. Students must obtain advisor approval and meet the prerequisites and any other required approvals for the class. Instructor permission as well as approval by the associate dean of the college offering the course is required. The coursework required is at the discretion of the instructor. Once a student opts to audit a course, the audit status of the course cannot be changed. First-year students may not audit classes. A signed Petition to Audit (<http://www.northeastern.edu/registrar/form-petition-to-audit.pdf>) must be presented to the Office of the Registrar during the designated audit-add period. Excluded courses are co-op, labs, language courses, any off-campus course, any online course, and any course required for the major or degree. Audits carry no academic credit.

## Pass/Fail (S/U) System

The individual schools and colleges state how and when the pass/fail system may be used. An outline of the general system follows.

- Any student not on academic probation may register for one pass/fail course per semester if permission is granted by the college in which the student is enrolled and if the course is offered on a pass/fail basis.
- Pass/fail courses are normally restricted to electives outside the major, minor, or NUPATH requirements. The college faculty, however, may choose to adopt the pass/fail system of grading when it appears pedagogically sound for required courses within a major or minor.
- Before requesting a pass/fail grade from an instructor, students should meet with their academic advisor to determine whether doing so will disqualify the course from satisfying a program requirement or elective. In general, courses taken on a pass/fail basis can be used only to satisfy open electives.
- Individual faculty members may decide whether any of their courses may be taken on the pass/fail system of grading, except when uniformity is necessary. In such cases, the department and/or college faculty offering the course determine whether the pass/fail system is used.
- Grades recorded on the basis of the pass/fail system do not figure in the computation of the grade-point average. Satisfactory completion of all courses taken on the pass/fail system is designated on the student's permanent record by the letter S. Unsatisfactory work is designated by the letter U. Any unsatisfactory grade must be handled according to the existing policy of the college but must never be cleared through the election of the same course pass/fail, except when this system is the only one used by the college for grading the course.
- To use the pass/fail system, students must meet all prerequisites for the course and declare by the end of the second week of the semester their intention to receive a pass/fail grade. This deadline may be extended to the end of the eighth week of a full semester or the end of the fifth week of summer half semester at the option of the instructor.
- Students must submit a Petition to Elect Pass/Fail Grade (<http://www.northeastern.edu/registrar/form-passfail.pdf>), signed by the faculty member.

## Taking Courses while on Co-op

Students who wish to take more than 4 credits while on full-time co-op must complete the petition registration form with their college academic advising office before the term begins. Students who do not receive the approval of their academic advisor and co-op coordinator will be dropped from their preregistered courses. Students who take a course while on

co-op will be billed the per-credit-hour tuition rate. (See “Reduced Load Policies” above.)

### Transfer Credits for Current Students

Once they matriculate, students are expected to complete all coursework for their degree at Northeastern; or an entity in a formal contractual, consortial, or partnership relationship with Northeastern; or at an approved study-abroad program. In some cases, in order to clear a deficiency, to permit students access to courses deemed by their respective advisors and colleges to be important for their education but unavailable to them at Northeastern, or to remain on track for graduation, a student may petition their college for permission to take a course at another accredited institution.

With the approval of the college academic advisor and the graduate school offering the courses, students may take courses in Northeastern's graduate schools.

Students who wish to take courses at another institution and transfer the credit to Northeastern must obtain *prior* approval from the college academic advisor. The Office of the Registrar validates accredited institutions to ensure credit transferability. The student must earn a C (2.000) or better for a course to be considered for transfer. Students are responsible for providing documentation on the institution's accreditation, course grading, and course descriptions prior to approval.

### Special Students

Students who are not enrolled at Northeastern University may petition the college academic advising office to take courses on a semester-by-semester basis. Approval is based on the student's academic qualifications and on the availability of class space. The maximum cumulative credit hours for which a special student may register is 20 (not including related labs). Tuition is billed at the undergraduate per-credit-hour rate. If the college academic advising office approves the course enrollment, the student pays the bill and then returns the completed forms to the Office of the Registrar.

### Dropping Courses

Not attending class does not constitute withdrawal. Students receiving a grade of W or NE in any course are responsible for the costs associated with that course. Students must drop courses using processes described below:

#### IN FALL AND SPRING SEMESTERS

- Through the third week of the semester, students may withdraw without any grade being posted to the transcript. Courses may be dropped via the myNortheastern web portal (<https://my.northeastern.edu/>).
- Between the fourth week and the last day of classes, course withdrawals are indicated by a W on the student's record. Courses may be dropped via the myNortheastern web portal (<https://my.northeastern.edu/>). No financial adjustment is made for courses receiving a W grade.
- After the last day of classes, no withdrawals are accepted for any reason. A letter grade for the course will be posted on the transcript.
- Dropping below full-time enrollment (12 semester hours for fall and spring semesters) may affect financial aid, health insurance eligibility, and the maintenance of proper nonimmigrant visa status.

#### IN SUMMER HALF SEMESTERS

- Through the second week of the half semester, students may withdraw without any grade being posted to the transcript. Courses may be dropped via the myNortheastern web portal (<https://my.northeastern.edu/>).

- Between the third week and the last day of classes, course withdrawals are indicated by a W on the student's record. Courses may be dropped via the myNortheastern web portal (<https://my.northeastern.edu/>). No financial adjustment is made for courses receiving a W grade.
- After the last day of classes, no withdrawals are accepted for any reason. A letter grade for the course will be posted on the transcript.
- Dropping below full-time enrollment (8 semester hours for summer half semesters) may affect financial aid.

### Late Admission to a Course

Students may petition to register for a course after the normal “class add” period, seven class days. Permission may be granted if seats are available and at the discretion of the instructor. If students are not already registered for a full course load, late admissions may jeopardize full-time status.

The Late Course Registration form (<https://registrar.northeastern.edu/article/late-course-registration/>) is available online.

## Student Bill of Academic Rights and Responsibilities

*This bill was drafted by the Student Senate, the Vice President for Student Affairs, and members of the Faculty Senate. It was passed in the spring of 1992. It was then updated by the Student Body President, Vice President for Academic Affairs, and passed by the Student Senate in the Fall of 2017 and Faculty Senate in the Spring of 2018 for adoption in the Undergraduate Student Handbook (<http://www.northeastern.edu/osccr/code-of-student-conduct/>) for the 2018–2019 academic year.*

We, the students of Northeastern University, believe that a quality education is the paramount goal of all students. In order to fulfill this goal, the university recognizes certain rights and responsibilities, which follow below.<sup>1</sup> Northeastern University students recognize and accept that redress of complaints arising from these rights is limited to the procedures specified in “Student Academic Appeals Procedures”.<sup>2</sup>

### Course-Related Rights

#### Article 1

Students have the right to instructors who attend classes on time.

#### Article 2

Students have the right to receive grades and feedback in a timely manner, particularly in the case of sequentially related assignments. At least one summative assessment should be given and returned a week prior to the end of the withdrawal period. Students also have the right to view work they submit to satisfy course requirements after it is graded and receive their instructor's rationale for grades received on said work.

#### Article 3

Students have the right to adequate access to instructors. This includes instructors replying to communications from students in a timely manner, suggested to be within two business days, with the exception of during university recesses, as well as maintaining consistent office hours for in-person courses, occurring at the same time at least once a week. Instructors may change office hours by notifying students in a timely manner, suggested to be within two business days, barring extenuating circumstances.

#### Article 4

Students have the right to receive a course outline, which includes a fair and explicit grading policy, at the beginning of each course. Changes to the course outline that result in a deadline, assignment, major exam, or similar course event being introduced to or moved earlier in the schedule shall be communicated to students in a timely manner, suggested to be at least 10 business days prior to the new deadline.

#### Article 5

Students have the right to instructors who communicate the material pertaining to the course effectively in the English language except in the case of foreign language instruction.

#### Article 6

Students have the right to participate in and have access to Student Government Association teacher/course evaluations.

#### Article 7

Students have the right to have a list of all course materials that must be purchased. Possible substitutions for said course materials, (i.e., acceptable previous editions of textbooks, digital versions, library owned resources, etc.) should be made available to students at least a week prior to the start of the academic term.

#### Article 8

Students have the right to alternative grading arrangements if they are unable to attend a graded activity that takes place outside the scheduled class time.

### **Rights to University Academic Services**

#### Article 9

Students have the right to adequate access to effective academic services, including academic and co-op advising, as described in the student handbook and other university publications, provided by the university.

#### Article 10

Students have the right<sup>3</sup> to an environment conducive to learning and to faculty who respect students' academic freedom<sup>4</sup> in the classroom. When exercising academic freedom, students are expected to comply with all applicable university ethics, anti-harassment, and nondiscrimination policies.

#### Article 11

Students have the right to access university health resources provided by University Health and Counseling Services (<https://www.northeastern.edu/uahcs/>) (UHCS), and in accordance to Massachusetts State Law, to have access to a medical plan that they can purchase (Northeastern University Student Health Plan (<http://www.northeastern.edu/nushp/>)).

#### Article 12

Students have the right to access university resources provided by the university's Disability Resource Center in accordance with the Policy on Equal Opportunity ([http://www.northeastern.edu/policies/pdfs/Policy\\_on\\_Equal\\_Opportunity.pdf](http://www.northeastern.edu/policies/pdfs/Policy_on_Equal_Opportunity.pdf)). Students have the right to pursue informal and formal grievances through the procedures (<http://www.northeastern.edu/drc/getting-started-with-the-drc/grievance-procedure/>) outlined by the Disability Resource Center.

### **Scheduling Rights**

#### Article 13

Students have the right to final exam schedules in accordance with established university policy, including non-conflicting final exam schedules.

#### Article 14

Students have the right to attend any course session held prior to the end of the add/drop period so long as permission from the instructor is obtained in advance and all duly registered students have proper access to seating and other course resources.

#### Article 15

Students will not be penalized for excused absences, with the understanding that students may need to make up for the academic commitment from which they were excused. Reasons for an excused absence include religious, medical issues, jury duty, bereavement, and military service. See the course catalog (p. 28) and other applicable policies ([http://gonu.com/sports/2013/7/15/SASS\\_0715134535.aspx?path=sass](http://gonu.com/sports/2013/7/15/SASS_0715134535.aspx?path=sass)) for the full attendance and excusal policy.

### **General Academic Rights**

#### Article 16

Students have the right to be informed, in a timely fashion, of proposed action to be taken against them.

#### Article 17

Students have the right to the redress of academic grievances through the processes provided by the university.

#### Article 18

Students have the right to university support and resources, such as the Office of Global Services (<https://www.northeastern.edu/ogs/>), with regard to their visa status.

#### Article 19

In accordance with the Northeastern University's Nondiscrimination Policy ([https://www.northeastern.edu/policies/pdfs/Policy\\_on\\_Equal\\_Opportunity.pdf](https://www.northeastern.edu/policies/pdfs/Policy_on_Equal_Opportunity.pdf)), students have the right to a learning environment free of discrimination or harassment, including as provided for in Northeastern University's Title IX Policy (<http://www.northeastern.edu/titleix/title-ix-policy-2/>).

#### Article 20

Northeastern University's policy on student produced intellectual property can be found on page 54 under *Copyrightable Materials* of the *Undergraduate Student Handbook*.

#### Article 21

Students have the right of access to their academic and financial aid records and maintenance of the privacy of these records, as provided by the Family Educational Rights and Privacy Act.

### **Student Responsibilities**

#### Article 1

Contribute to a climate of open inquiry and honesty in all aspects of the university's academic life. This includes reviewing, and

becoming familiar with, the Academic Integrity Policy on the OSCCR website.

#### Article 2

Commit sufficient time and effort for study and for use of library, studio, laboratory, and computational facilities, as appropriate for each course.

#### Article 3

Contribute to the classroom/laboratory/studio learning environment through discussion and active participation.

#### Article 4

Acquire the necessary prerequisites for full participation in each academic course.

#### Article 5

Attend scheduled classes regularly and on time, and arrive to class prepared, having completed all the readings and other assignments.

#### Article 6

Seek out faculty and teaching assistants outside of class time, to obtain help with problems encountered in a given course.

#### Article 7

Respect the academic freedom<sup>4</sup> of each faculty member and student.

#### Article 8

Assist the university in its various self-evaluations (e.g., TRACE, surveys) by responding honestly and conscientiously.

#### Article 9

Maintain effective communication with the university by providing permanent and local address information to the university through a system designated by the university, and by reading university email on a frequent and consistent basis.

#### Article 10

Act as positive representatives and genuine ambassadors of the university when studying and working in domestic and international settings associated with Northeastern University.

#### Article 11

Complete an entry (including itinerary, accommodation information, and contact information) using 'My Travel Plans,' located on the Services and Links tab in the myNortheastern Student Portal, or other system as required by the university, prior to all university-sponsored travel outside of Massachusetts, including but not limited to: Study Abroad, Dialogues of Civilization, Foreign Exchange Programs like BSIB, Alternative Spring Break, Engineers without Borders, Co-op Placements outside of Massachusetts, etc.

#### Article 12

Complete all required activities prior to attending classes for their entrance date (including alcohol education, violence prevention programming, required reading, etc.).

#### Article 13

Have in their possession at all times the officially approved and properly validated photo identification card.

Students who fail to comply with these responsibilities could lose certain student privileges as well as face possible disciplinary sanctions under the Code of Student Conduct.

<sup>1</sup> The student rights, through their representatives in the Student Government Association (SGA), described in these sections arise from faculty and staff employment responsibilities and obligations to the university. Northeastern University students recognize and accept that it is the sole prerogative of the university to enforce these obligations and responsibilities and to determine whether and to what extent they are being carried out or violated in specific instances. Northeastern University students recognize and accept that their ability to effect redress of complaints arising from these rights is limited to the procedures specified in the current *Undergraduate Student Handbook*.

<sup>2</sup> The articles shall be interpreted by the Office of the Provost in conjunction with the Office of the Vice President for Student Affairs, and shall be monitored by the Student Government Association. Further, should any student discover that they have been subject to any violation of the principles stated herein, the student should follow the appropriate complaint resolution procedure in the *Undergraduate Student Handbook* (<http://www.northeastern.edu/osccr/code-of-student-conduct/>). The Student Government Association, if requested by the student, will monitor the progress of any student academic grievances.

<sup>3</sup> Because the university operates on a twelve-month calendar in an urban environment, many construction, remodeling, renovation, and repair projects must take place while the university is in session, and other potential distractions from the learning process arise from the surrounding urban environment on which it is dependent but over which it exerts little or no control. Thus, though the university is committed to maintaining an appropriate learning environment for its students, Northeastern University students recognize and accept, as part of their relationship with the university, that the conditions described above may cause occasional disturbances to that environment.

<sup>4</sup> For more on academic freedom, please refer to the AAUP's definition (<https://www.aaup.org/report/1940-statement-principles-academic-freedom-and-tenure/>).

### Student Evaluation of Courses (TRACE)

Students play a critical role in the university's commitment to quality teaching and academic excellence when they participate in the evaluation of courses through TRACE (Teacher Rating And Course Evaluation), a survey developed collaboratively by the Student Government Association and the Faculty Senate. TRACE data are important in the process of course design and improvement, as well as in the process of faculty evaluation. Students are expected to participate in TRACE with constructive feedback that is relevant to teaching and course content. TRACE results from previous terms can be found on the myNortheastern web portal (<https://my.northeastern.edu/>).

### Student Records, Transcripts, and Related Policies

#### Grade Table

Grades are officially recorded by letters, evaluated as follows:

Letter Grade	Numerical Equivalent	Explanation
A	4.000	Outstanding achievement
A–	3.667	
B+	3.333	
B	3.000	Good achievement
B–	2.667	
C+	2.333	
C	2.000	Satisfactory achievement
C–	1.667	
D+	1.333	Undergraduate only
D	1.000	Undergraduate only/ Poor achievement
D–	0.667	Undergraduate only
F	0.000	Failure
I		Incomplete
IP		In progress
CR		Credit (School of Law only)
HH		High Honor (School of Law only)
H		Honor (School of Law only)
P		Pass (School of Law only)
NE		Not enrolled
NG		Grade not reported by faculty
S		Satisfactory (pass/fail basis; counts toward total degree requirements)
U		Unsatisfactory (pass/fail basis)
X		Incomplete (pass/fail basis)
L		Audit (no credit given)
T		Transfer
W		Course withdrawal

An I, IP, or X grade shows that the student has not completed the course requirements.

The IP grade is intended for courses that extend over several terms. The time restrictions on the incomplete grade do not apply to the IP grade. While the IP grade is left unchanged, it is not included in computing the grade-point average. If the IP grade is never changed, the course does not count toward graduation requirements.

### Course Comments

The following notations may also appear on the student's transcript:

E	Course excluded from GPA
HON	Honors-level course
I	Course included in GPA

## Northeastern University Course Numbering

0001–0999	<b>Orientation and basic</b>
	No degree credit
<b>UNDERGRADUATE</b>	
1000–1999	<b>Introductory level (first year)</b>
	Survey, foundation, and introductory courses, normally with no prerequisites and designed primarily for students with no prior background
2000–2999	<b>Intermediate level (sophomore/junior year)</b>
	Normally designed for sophomores and above but in some cases open to freshman majors in the department
3000–3999	<b>Upper-intermediate level (junior year)</b>
	Designed primarily as courses for juniors; prerequisites are normally required, and these courses are prerequisites for advanced courses
4000–4999	<b>Advanced level (senior year)</b>
	Designed primarily for juniors and seniors; also includes specialized courses such as research, capstone, and thesis
<b>GRADUATE</b>	
5000–5999	<b>First-level graduate</b>
	Courses primarily for graduate students and qualified undergraduate students with permission
6000–6999	<b>Second-level graduate</b>
	Generally for master's and clinical doctorate only
7000–7999	<b>Third-level graduate</b>
	Master's- and doctoral-level courses; includes master's thesis
8000–8999	<b>Clinical/research/readings</b>
	Includes comprehensive exam preparation
9000–9999	<b>Doctoral research and dissertation</b>

### Clearing an Incomplete or Changing Other Grades

The period for clearing an incomplete grade or for changing a grade other than an incomplete or failure (F or U) is restricted to one calendar year from the date it is first recorded on the student's permanent record. An incomplete grade may be reported by the instructor when a student has failed to complete a major component of a required course, such as homework, a quiz or final examination, a term paper, or a laboratory project. Students may make up an incomplete grade by satisfying the requirements of the instructor or, if the instructor is absent, the chair of the department. Be aware that instructors' policies on the granting of incomplete grades may vary and that the final decision on an incomplete grade is up to the instructor.

To request an incomplete grade, the student must obtain and complete in consultation with the instructor an Incomplete-Grade Contract (<https://>

registrar.northeastern.edu/article/incomplete-grade-contract/) on which the precise agreement for clearing an incomplete grade is specified and which is signed by the student and the instructor. Copies of the form are kept by the student, the instructor, and the Office of the Dean of the college in which the course is offered. Any exception to this policy on change of grades must be recommended by the Academic Standing Committee (ASC) of the college in which the course was offered and must be forwarded in writing by the ASC to the registrar for implementation. (Finishing the agreed-upon coursework must be completed within one calendar year from the end of the term in which the course was offered.)

University policy states that any grade outstanding for 12 or more months cannot be changed. Any exception to this policy on change of grades must be recommended by the ASC of the college in which the course was offered and must be forwarded in writing by the dean to the Office of the Registrar for implementation.

## Repeating Courses

When the appropriate course is available, students may repeat a course to earn a better grade. In all cases, the most recent grade earned in a course is the one used in calculating the overall grade-point average; however, previous grades remain on the transcript followed by the word "Repeat." Consult your academic advisor before repeating a course. Students are required to pay normal tuition for all repeated coursework.

## Substituting Courses

In some cases, it may not be possible to repeat a course if a student wishes to do so. In unusual circumstances, students may petition to substitute one course for another they have already taken, as long as the subject matter of both courses is substantially alike. With the approval of the student's academic advisor and the agreement of the department that offered the first course taken, a grade received in the new course will be labeled "Substitute" on the transcript and will be treated in the grade-point-average calculation as a "repeat" grade, as described above. The original grade will remain on the student's Northeastern transcript. Students should consult with their academic advisor before enrolling in any proposed substitute course. Students are required to pay normal tuition charges for all substitute coursework.

## Clearing an Academic Deficiency

An academic deficiency occurs when a student fails to complete a course with a satisfactory grade. The deficiency may occur because the student has failed the course or because the student has passed the course but with a grade that does not meet the minimum required by the student's program.

Students who have academic deficiencies may be required to clear them before progressing within the curriculum, especially if a given course is a prerequisite for future coursework. Deficiencies may affect the student's expected year of graduation.

With the approval of the appropriate program faculty and/or academic advisor, students can clear deficiencies in the following ways:

1. Repeat the same course at one of Northeastern's colleges, which will result in a "repeat" grade (see "Repeating Courses" policy above).
2. Substitute a comparable course at one of Northeastern's colleges, which will result in a "repeat" grade (see "Substituting Courses" policy above).
3. Under special circumstances, if the course is not currently offered at Northeastern University, a student may be advised to take a preapproved course at another institution outside Northeastern University. The original grade will remain on the student's

Northeastern transcript and will still be used in the calculation of the grade-point average.

## Appeal of Final Grades

Under certain circumstances, students have the right to appeal final grades given by either academic faculty or cooperative education coordinators. Criteria and procedures for such appeals are available as follows:

- For undergraduate day students: the *Undergraduate Student Handbook* (available at this site (<http://www.northeastern.edu/osccr/code-of-student-conduct/>))
- For College of Professional Studies undergraduate students: the Student Academic Appeals Procedures page (<http://catalog.northeastern.edu/professional-studies/academic-policies-procedures/student-appeals/>) within the CPS Undergraduate section of this catalog
- For graduate students: the Academic Appeals Policies and Procedures page (<http://catalog.northeastern.edu/graduate/academic-policies-procedures/appeals/>) within the graduate section of this catalog.

## Grade-Point Average (GPA)

Numerical equivalents for scholastic averages are weighted according to the number of hours the course carries. For example, suppose a student receives a grade of B in a course carrying 4 semester hours and a grade of A in a course carrying 1 semester hour. The weightings for these example courses are as follows:

Grade	Numerical Equivalent	Semester Hours	Weight
B	3.000	4	12
A	4.000	1	4
Totals:		5	16

The GPA for both courses would then be the total weight (16) divided by the total semester hours (5), or 3.200. Grades of I, IP, S, U, and X are not included in the calculation of the GPA. See Grade Table (p. 38) for a complete list of grades and numerical equivalents.

## Grade Reports

Grades are available to students approximately three days after the end of each term via the myNortheastern web portal (<https://my.northeastern.edu/>). A missing grade means that none was received from the instructor. Grades received late from faculty are processed as they are received.

## Transcripts

Currently enrolled students may obtain unofficial transcripts from the myNortheastern web portal (<https://my.northeastern.edu/>) and may also order official transcripts through myNortheastern. For further information on transcript requests, visit the transcript request webpage ([http://www.northeastern.edu/registrar/trans\\_request.html](http://www.northeastern.edu/registrar/trans_request.html)). All questions concerning transcript requests should be directed to 617.373.2300,

TTY 617.373.5360

## Pass/Fail System

The individual schools and colleges state how and when the pass/fail system may be used. An outline of the general system follows.

- Any student not on academic probation may register for one pass/fail course per semester if permission is granted by the college in

which the student is enrolled and if the course is offered on a pass/fail basis.

- Pass/fail courses are normally restricted to electives outside the major, minor, or NUPath requirements. The college faculty, however, may choose to adopt the pass/fail system of grading when it appears pedagogically sound for required courses within a major or minor.
- Before requesting a pass/fail grade from an instructor, students should meet with their academic advisor to determine whether doing so will disqualify the course from satisfying a program requirement or elective. In general, courses taken on a pass/fail basis can be used only to satisfy open electives.
- Individual faculty members may decide whether any of their courses may be taken on the pass/fail system of grading, except when uniformity is necessary. In such cases, the department and/or college faculty offering the course determine whether the pass/fail system is used.
- Grades recorded on the basis of the pass/fail system do not figure in the computation of the grade-point average. Satisfactory completion of all courses taken on the pass/fail system is designated on the student's permanent record by the letter S. Unsatisfactory work is designated by the letter U. Any unsatisfactory grade must be handled according to the existing policy of the college but must never be cleared through the election of the same course pass/fail, except when this system is the only one used by the college for grading the course.
- To use the pass/fail system, students must meet all prerequisites for the course and declare by the end of the second week of the semester their intention to receive a pass/fail grade. This deadline may be extended to the end of the eighth week of a full semester or the end of the fifth week of summer half semester at the option of the instructor.
- Students must submit a Petition to Elect Pass/Fail Grade (<http://www.northeastern.edu/registrar/form-passfail.pdf>), signed by the faculty member.

### Student Right-to-Know Act

For information about the Student Right-to-Know Act, visit the Office of the University Registrar's website. (<https://registrar.northeastern.edu/article/student-right-to-know-act/>)

### University-Sponsored Travel

#### University Travel

Northeastern University is committed to the health, safety, and security of its students and all other members of the university community. As a global institution, our university members undertake university travel around the world in pursuit of teaching, research, consulting, service, cocurricular activities, and work intended to advance learning and the interests of the university. The university supports standards and expectations associated with travel that are designed to reduce personal and university risk.

To enhance the health and safety of our students, you are required to comply with the university travel policies when undertaking university travel.

In order to provide assistance and support to you while traveling abroad, the university maintains a travel registry. In advance of planned university travel, students are required to enter their travel plans along with other requested information into the travel registry. To access the registry, go

to the myNortheastern web portal (<http://myneu.neu.edu/>), "Services and Links," and navigate to My Travel Plans to register your travel.

Students are responsible for familiarizing themselves with the university travel policies and are encouraged to visit the university's travel support website for guidance. If you have questions related to travel or travel support, please email [mytravelplans@northeastern.edu](mailto:mytravelplans@northeastern.edu). If you need assistance during university travel, please call the university's 24-hour travel assistant line at +1.857.214.5332.

### Army, Air Force, and Navy Reserve Officers' Training Corps (ROTC) Programs

#### Army ROTC Program

Lieutenant Colonel David Mun  
Professor and Chair, Department of Military Science

335A Huntington Avenue  
617.373.2376  
617.373.8677 (fax)  
Army ROTC website (<http://www.northeastern.edu/neurotc/>)  
Scott Lyons, Enrollment and Scholarship Officer,  
[sc.lyons@northeastern.edu](mailto:sc.lyons@northeastern.edu)

The Department of Military Science offers the Army Reserve Officers' Training Corps (ROTC) program. The goal of the program is to develop leadership potential in men and women and to prepare them for an officer's commission in the Active Army, Army Reserve, or Army National Guard. The curriculum teaches principles of leadership and personnel management and seeks to develop leadership traits such as teamwork, responsibility, initiative, self-confidence, and discipline.

The Army ROTC program is conducted at Northeastern University. For more information, write:

Department of Military Science  
Northeastern University  
335A Huntington Avenue  
Boston, MA 02115

or call 617.373.2376

Completion of the Army ROTC program will lead to a commission as a second lieutenant in the Army, Army Reserve, or the Army National Guard. The program consists of the basic course (freshman and sophomore years) and advanced course (junior and senior years). The program does not conflict with co-op schedules.

Enrollment in the basic course is voluntary and is open to all full-time students. However, only cadets formally enrolled in ROTC may participate in leadership labs, physical training, and practical field exercises. Students in the basic course do not incur a military obligation. Check with your academic department to ensure credits are accepted.

The advanced course is open to all qualified students who have basic course credit or equivalent military experience, as well as meet the Army's physical, medical, and age requirements. Contracted students (advanced course and/or scholarship) receive a monthly cash stipend while in school. Scholarship students also receive full tuition and fees as well as \$1,200 per year for books. Scholarships are merit based and are awarded as four-year, three-year, or two-year benefit packages.

### Army Nurse Corps ROTC Program

ROTC provides an opportunity for college nursing students to receive practical, hands-on leadership experience. The courses provide a chance for students to develop management, communication, and decision-making skills. ROTC also provides nursing cadets an opportunity to participate in the Nurse Summer Training Program (NSTP). NSTP is a paid, three-to-four-week, hands-on clinical elective for Army ROTC nurse cadets. This elective is conducted at more than 20 U.S. Army hospitals in the continental United States, Hawaii, and Germany. During the NSTP clinical elective, the cadet receives experience under the direct supervision of a preceptor—an Army Nurse Corps officer who works with the cadet one-on-one. Scholarship nurse cadets receive a monthly cash stipend while in school as well as full tuition and fees and \$1,200 per year for books.

### Navy ROTC Program

The Navy ROTC unit is a six-school consortium that includes students from Boston University, Boston College, Northeastern, Tufts, Harvard, and MIT. All Navy ROTC scholarships assigned to Northeastern (NEU) are for nursing majors only. The scholarship covers full tuition, mandatory fees, a \$375-per-semester book stipend, and a living stipend valued at \$250 per month that increases by \$50 each year up to \$400. Room and board are not included in the scholarship. For students on Northeastern's five-year program, the Navy grants "Fifth Year Benefits," which mirror those of the fourth year. Upon graduation, students must fulfill a four-year active-duty commitment.

Navy ROTC nursing students are required to take four naval science classes in addition to their regular coursework and attend a weekly leadership laboratory as well as group physical fitness session.

All classes, labs, and group workouts are conducted at Boston University. Students typically spend a total of six to eight hours per week participating in Navy ROTC-related activities. Additionally, Navy nurses complete two summer training "cruises" prior to graduation, each of which lasts approximately four weeks. One cruise is conducted with a medical unit at sea (on a Navy ship) and the other at a land-based naval hospital. All lodging, transportation, meals, and uniforms are covered by

the Navy during summer training sessions. For more information, contact the recruiting officer at 617.353.0474 or navyrotc@bu.edu.

### Air Force ROTC Program

Air Force ROTC is an educational and leadership program designed to give men and women the opportunity to become an Air Force and Space Force officer while completing a bachelor's degree.

Through a cross-enrolled program with Boston University, interested Northeastern University students may participate in the Air Force Reserve Officers' Training Corps Program. The requirements include aerospace studies classes, leadership laboratory classes, and physical fitness training. The mandatory weekly commitments range from five to seven hours per week.

In addition to the leadership and management training that cadets receive, they also benefit from several scholarship programs. *High school seniors* can apply for four-year scholarships. The scholarships range from \$18,000 per year (capped at \$9,000 per semester) all the way up to full tuition. Scholarship winners will also receive a monthly stipend, a book allowance, and uniforms. Applications for scholarships are due by January 17 of senior year. Apply at the Air Force ROTC website (<http://www.AFROTC.com>).

*Freshmen and sophomores already in college* can compete for three- or three-and-a-half-year scholarships, some of which cover full tuition, while others cover \$18,000 per academic year. All scholarship winners will receive a monthly stipend, a book allowance, and uniforms.

However, eligible students may pursue a commission through Air Force ROTC without a scholarship. Air Force ROTC-contracted cadets will receive a monthly stipend. For more information, call 617.353.6316 or 617.353.4705.

## Cooperative Education

Website (<http://www.northeastern.edu/coop/>)

Cooperative education (co-op) is the cornerstone of Northeastern University's experiential learning approach, in which on-campus study is enhanced by real-world experience through full-time employment at locations all over the world. Through co-op, students alternate periods of academic courses with periods of employment in positions related to their academic or career interests. This combination provides an integrated learning experience that enhances both in-class studies and career development.

### General Requirements

- Be a full-time student to participate in co-op.
- Complete all pre-co-op requirements as established by the college of the student.
- Make satisfactory progress toward degree completion, including grade-point average requirements, as defined by the university, the colleges, and the major program curricula.
- Have accurate information about the co-op placement in the university's official co-op placement system, including specific start and end dates and meeting the minimum hour and day requirements.
- Not participate in co-op in the final term unless it is specified in the curriculum requirements of the program in the catalog.

- Resolve any previous disciplinary or academic probation issues, or have the cooperative education coordinator approve a plan to resolve these issues prior to applying for co-op jobs.
- Have any self-developed co-op approved by the cooperative education coordinator before accepting the position.
- Comply with any preemployment checks required by the employer, such as drug testing, credit checks, physical examinations, security clearance, and criminal record checks.
- Participate in Title IX training, as required.
- Complete any additional requirements (<https://careers.northeastern.edu/students/student-co-op/global-co-op/>) if participating in a global co-op.
- Work with the cooperative education coordinator if an Unsatisfactory (U) grade has been received for a past co-op to reestablish eligibility in accordance with the policies and requirements of the college.

### TRANSFER AND INTERNATIONAL STUDENTS:

- Transfer students from other universities must have met the same requirements in their major's co-op program as nontransfers and must have completed at least one semester of classes before starting co-op.
- International students must attend one academic year, or its equivalent, and obtain proper authorization from the Office of Global Services before engaging in co-op.

### Academic Requirements

1. **Be full-time while on co-op. Full-time status for co-op is defined as either:**
  - a. one full-time co-op job; 32-40 hours per week, or
  - b. two simultaneous half-time co-op jobs; 16-31.99 hours each, or
  - c. one half-time co-op job; 16-31.99 hours with graduate students taking 3 or more academic credits or undergraduate students taking 6 or more academic credits.
    - i. Undergraduate students on co-op in a Summer 1 or Summer 2 term may be registered for one half-time co-op without acquiring a second job or taking an accompanying class.
2. **Meet the minimum length requirements for an academic term:**
  - a. Semester full-term: minimum of 11 weeks or 55 workdays
  - b. Quarter full-term: minimum of 9 weeks or 45 workdays
  - c. Summer 1 or Summer 2 term: minimum of 5 weeks or 25 workdays
3. **Receive a grade of Satisfactory or Unsatisfactory for the co-op experience.**

### Registration for Co-op

Students are registered for co-op based on a complete job placement in the university's official co-op placement system with accurate start and end dates and meet the minimum hour and day requirements. Registration into the co-op experience class occurs one month before the term. Students need to be placed for co-op by the end of the add period, or they should be registered for classes if still searching for a job by this deadline. All co-op placements need to be approved by a co-op coordinator and entered into an official co-op placement system by the last day to drop without a W.

### Co-op Financial Planning

- No tuition is charged while a student is on co-op only (students will pay room and board if they stay in university housing).
- If a student takes a credit-bearing class while on co-op, tuition will be charged at the per-credit rate.

- Students who wish to register for more than 4 credits while on full-time co-op must complete the Petition Registration form (<https://registrar.northeastern.edu/wp-content/uploads/sites/9/form-pet-reg.pdf>).
- Financial aid will be distributed to match the student's tuition bill and other allowable expenses.
- Students on co-op are required to maintain the same health insurance coverage (either through a private provider or through the university program) as they would while attending classes.

### Further Information

For more detailed information about co-op policies and procedures, see the *Cooperative Education Student Handbook* on the Cooperative Education website (<https://www.northeastern.edu/coop/>).

### Education

Website (<http://www.cps.neu.edu/discover/schools-institutes/school-of-education.php>)

**Joseph Griffin, DMin, PMP**®

Interim Senior Associate Dean

Professional Programs and Graduate School of Education

41 Belvidere

617.768.7532

[jo.griffin@northeastern.edu](mailto:jo.griffin@northeastern.edu)

Northeastern University's Graduate School of Education offers a Master of Arts in Teaching (MAT) PlusOne program (<https://registrar.northeastern.edu/article/plusone-program-accelerated-bachelorgraduate-degree-programs/>). The program provides a pathway for undergraduate students who aspire to be elementary or secondary classroom teachers.

### Experiential Learning

Website (<http://www.northeastern.edu/experiential-learning/>)

Experiential learning is critical to Northeastern's education model. It offers the opportunity for a rich and meaningful education, providing students with experiences that add depth to their classroom studies and enable them to explore and transform their lives. Experiential learning is tightly integrated with our course curriculum and is supported by advising in the majors as well as advising in the experiential learning group.

The primary ways in which the experiential learning requirement may be satisfied are:

- Cooperative education
- Research or creative activity
- Service-learning
- Global experience

Only one learning experience outside the classroom is required for NUpath. However, students have many additional opportunities for further experiential learning.

Integration of coursework and experiential learning occurs throughout the major curriculum as well as in the required capstone course.

## Explore Program

Website (<http://www.northeastern.edu/undeclared/>)

**Kim Irmiter, MA**

Director

617.373.2306

The Explore Program welcomes entering students who would like to explore their academic interests before choosing a major and introduces them to the university's broad range of disciplines. Working closely with a combination of faculty, academic advisors, and undergraduate peer mentors, undeclared students at Northeastern are engaged in personal and meaningful discovery. They are not just seeking a major; they look for clues to the future and find answers to the question: "How will I make my impact?"

Undeclared students enroll in a small-cohort first-year seminar taught by a Northeastern academic advisor and two student leaders. In this seminar, students develop strategic exploration plans to ensure they are able to take full advantage of the vast array of academic and experiential opportunities offered at Northeastern. Students will also attend exploratory programs where they engage with faculty and students in majors to gain an informed understanding of the disciplines that interest them most.

Students may declare a major at any time but are expected to do so by the end of sophomore year. Admission to a particular major is dependent on satisfying the criteria described under "Changing Majors (p. 29)."

## General Studies Program

Website (<http://www.northeastern.edu/gsp/>)

**Lynn Dornink, MA**

Director

617.373.2306

The General Studies Program (GSP) is a first-year program that provides students with personalized support and guidance in order to ensure their academic success. Program benefits include a low student-advisor ratio, fall and spring seminars taught by the student's GSP advisor, a writing-intensive curriculum, and access to a nationally certified peer tutoring program. All majors have defined entrance requirements; therefore, beginning in September, GSP advisors work closely with students to guide them toward meeting their intended majors' requirements. Upon completing their two semesters in General Studies, and meeting the requirements for their intended major, students transition to one of Northeastern's seven undergraduate colleges with sophomore status. Those students who have not met the academic progression standards for transitioning by the end of two semesters may continue in the GSP for an additional semester.

## Academic Progression Standards

In order to transition to sophomore standing, GSP students must:

1. Earn an overall grade-point average (GPA) of at least 2.000 (GPA requirements for specific majors may be higher)
2. Earn at least 28 semester hours of credit (32 recommended)
3. Complete college/major transition requirements

For more details about transitioning to individual colleges, see below.

## Transitioning to Major

For information about transitioning to majors across the university, see "Changing Majors (p. 29)."

## Academic Probation

Same as university standards.

## University Withdrawal, Low Scholastic Performance

Same as university standards.

## Global Experience

Website (<http://www.northeastern.edu/studyabroad/>)

**Marina Markot, PhD**, Executive Director

Global Experience Office

617.373.5276

[geo@northeastern.edu](mailto:geo@northeastern.edu)

Northeastern University is committed to global experience as an important dimension of learning. To foster this, it maintains the Global Experience Office (GEO), which has developed a variety of programs tailored to the interests and needs of Northeastern University students. Global experiences provide students with opportunities to deepen their knowledge of the world and their chosen field of study, develop intercultural sensitivity, utilize and strengthen foreign language skills, and explore global career options. Many Northeastern students participate in multiple global experiences during their time at the university. Northeastern encourages students to engage with the GEO as early as possible—global experiences are within reach for all students, with careful planning and collaboration.

## Global Learning

While studying abroad in a Northeastern-sponsored program, Northeastern students maintain full-time status and earn Northeastern credits. Upon completion of a program, grades are calculated in the student's grade-point average (GPA). To participate in GEO programs, students should be in good academic and disciplinary standing and have no registration-blocking holds. Study-abroad programs require a GPA of at least 2.500. Some programs may have additional eligibility criteria. Students must also meet the requirements of the host institution abroad. Full information and application deadlines are posted on the GEO website (<http://www.northeastern.edu/studyabroad/>).

## Types of Programs

Northeastern University offers different types of study-abroad programs, with multiple options within each type. This robust program portfolio contains global experiences for any major on campus. Students are able to participate in multiple programs during their time at Northeastern.

1. **Study Abroad.** Northeastern offers a rich array of study-abroad programs during semester and summer terms. Students join a partner institution for a semester or summer, where they attend classes, participate in student activities, and organize their extracurricular schedules just as they would on campus at Northeastern. Some examples include University of Sydney in Sydney, Australia; Technion: Israel Institute of Technology in Haifa, Israel; Universidad del Salvador in Buenos Aires, Argentina; London School of Economics in England, United Kingdom; and the University of Tokyo in Tokyo, Japan. In addition to regular coursework while on global experiences, students can also incorporate:
  - **Research.** Students may opt to engage in a research project while studying abroad. In most cases, the study-abroad program

organizes small group seminars and field trips that are designed to help students learn about their international environment and focus on a research topic. Students spend three to four weeks toward the end of the semester working on their individual projects. Examples of projects could be studying tropical biology in Costa Rica, history and culture in Vietnam, or oceanography while sailing in the Atlantic/Pacific cruise track of the SEA Semester Program.

- **Internship.** Internship programs offer a combination of classes and related work experience for which students earn academic credit. Examples of internships students have held in the past include accounting at Morningstar in Sydney, Australia, as well as internships in various European parliaments such as Brussels, London, and Dublin.
2. **Semester in.** Drawing on its network of regional and international campuses, Northeastern offers a set of signature programs, which contextualize, enrich, and enhance student learning. The Semester in program is currently offered at Northeastern campuses in San Francisco and London. The GEO continues to expand programs throughout the Northeastern network, which includes campuses in Charlotte, North Carolina; London, UK; Portland, Maine; San Francisco, California; San Jose, California; Seattle, Washington; Toronto, Ontario; and Vancouver, Canada.
  3. **Dialogue of Civilizations.** The Dialogue of Civilizations (DOC) are faculty-led study-abroad programs that build upon and enhance students' academic studies and training. DOC programs allow students to engage with course content in different national, cultural, political, and social contexts. The programs foster meaningful conversations between Northeastern students and people around the world, including their peers.
  4. **Global Engagement Program.** The Global Engagement Program (GEP) is an invitation-only program offered to select high-talent students in specific academic disciplines. GEP provides these students a truly interdisciplinary global undergraduate experience by creating a learning environment that spans multiple cultures and continents. Students begin their experience at NCH at Northeastern in London and continue to move between Northeastern's Boston campus, global network, and global partners over four years. Each year and experience is associated with a particular theme connected to the development of a global mindset.
  5. **Global Quest.** Global Quest is a Northeastern student's first opportunity to study abroad. This full-year experience begins with a fall semester on the Boston campus, where students live with their cohort and engage in programming to prepare for studying abroad. In the spring semester, Global Quest students study abroad with members of their cohort in a select location based on their major.
  6. **Specialized entry programs.** Specialized entry programs are unique programs through which students can matriculate into Northeastern. These include programs such as N.U.*in*, NU Bound, and NU Immerse. More information about these programs is available on the Specialized Entry Programs website (<https://www.northeastern.edu/admissions/academics/specialized-entry/>).

Visit the GEO website (<http://www.northeastern.edu/studyabroad/>) to see a complete list of program options and descriptions.

## Embedded Global Programs

Embedded programming incorporates global experiences into courses taught at Northeastern's Boston campus and provides students with the opportunity to spend 7 to 10 days in a global setting to further punctuate and underscore the subject matter in a meaningful way.

## Global Co-op

The Global Cooperative Education Program provides opportunities for Northeastern students to participate in co-ops on all seven continents with international and multinational employers, U.S. employers doing business abroad, and other international organizations. Students may apply for existing positions or work with a co-op counselor to develop their own. All majors are welcome to apply. International students participating in co-op abroad must consult with the Office of Global Services (OGS) in advance of departure to ensure reentry to the United States in proper nonimmigrant visa status. The Presidential Global Scholars Program (<https://studentfinance.northeastern.edu/applying-for-aid/undergraduate/types-of-aid/scholarships/presidential-global-scholars-program/>) provides financial support for international co-op.

## Engage with GEO

The GEO offers many opportunities for students to explore global programs and learn more about the possibilities.

**Social media platforms:** Students can engage with GEO through social media platforms such as Twitter, Facebook, and Instagram. Students are welcome to participate in preparatory webinars, join staff and alumni Q & A, and envision their experience through dynamic photo, video, and written recollections of student experiences.

GEO events (<https://www.northeastern.edu/geo/events/>): GEO offers a range of events throughout the year to help students answer questions and concerns about the study-abroad experience, from the application logistics of a specific program, to navigating questions of identity while abroad. Please refer to the GEO events calendar on the GEO website for the list of upcoming fairs, workshops, and info sessions.

**Meet with Global Experience peer advisors** (<https://www.northeastern.edu/geo/contact/>): As GEO program alumni, Global Experience peer advisors provide the unique lens of recent global program participation. They help students navigate the variety of available programs and refine their goals for the experience. Peer advisors are available to meet with students during office hours, without an appointment needed.

**Meet with Global Experience advisors** (<https://www.northeastern.edu/geo/contact/>): Global Experience advisors provide expertise and assistance to students from the moment students are ready to select programs, to their return from the experience. Global Experience advisors meet with students by appointment and advise by global region. The list of Global Experience advisors and the different regions that they advise is available on the GEO website.

After choosing a program, students should consult with their departmental or college advisors. International students must also consult with the OGS (<http://www.northeastern.edu/ogs/>) to determine if an updated I-20 for re-entry may be needed. Note that studying abroad in a student's final semester may result in a delay in graduation due to calendar discrepancies across institutions.

## Living and Learning Communities

Website (<https://www.northeastern.edu/housing/living-learning-communities/>)

All first- and second-year students are required to live in university housing. Housing and Residential Life is dedicated to working with Northeastern students to help them build strong community living environments that support personal development and academic success.

The residential experience created for both first- and second-year students has two main goals: to create opportunities for social connection, support, and belonging and to provide opportunities for learning and development. The core outcome is to prepare students to become lifelong learners who are holistically formed, experience growth alongside others, and are responsible contributors to local and global communities. A central component of the residential experience for first-year students is Living Learning Communities (LLCs). LLCs bring together students with a shared personal or academic interest to learn and grow as a community during their first year at Northeastern.

## NUpaht

### Learning, Knowing, Doing, Leading

NUpaht is Northeastern University's set of institution-wide general education requirements for all students in all majors. The goal of NUpaht is to develop in our students the knowledge and skills to be lifelong learners with success in many careers, to be thoughtful global citizens, and to be fulfilled human beings. It offers students the flexibility to integrate general education learning into their individual educational journeys while maintaining the rigor of high standards through defined learning outcomes, making NUpaht a unique tool for personalized enrichment. NUpaht is competency based rather than course based. It is built around essential, broad-based knowledge and skills—such as understanding societies and using and analyzing data—integrated with specific content areas and disciplines.

NUpaht requirements are met throughout a student's program of study. NUpaht requirements are not restricted to specific colleges or departments and can be fulfilled through major, minor, or concentration requirements as well as through general electives. NUpaht courses may not be taken pass/fail. NUpaht is required for all freshmen who entered in fall 2016 and later. It does not apply to students already admitted with a different set of core requirements or to transfer students whose entry year was earlier than the fall of 2016.

- Requirements (p. 46)
- Learning Goals (p. 46)
- Writing-Intensive Courses (p. 49)
- Additional Requirements for BA Students (p. 49)

## NUpaht Requirements

NUpaht requirements are a set of eleven competencies designed to prepare students for personal success in an ever-evolving global society regardless of their chosen field of study. NUpaht requirements are as follows:

- Engaging with the Natural and Designed World
- Exploring Creative Expression and Innovation
- Interpreting Culture
- Conducting Formal and Quantitative Reasoning
- Understanding Societies and Institutions
- Analyzing and Using Data
- Engaging Differences and Diversity
- Employing Ethical Reasoning

- Writing across Audiences and Genres
- Integrating Knowledge and Skills through Experience
- Demonstrating Thought and Action in a Capstone

Because NUpaht is competency based rather than course based, students have many options of courses to fulfill the requirements. Students can use the Dashboard tool (<https://www.northeastern.edu/core/dashboard/>) to find courses both in and beyond their major requirements that satisfy NUpaht. Courses that meet major, minor, or concentration requirements can also meet NUpaht requirements. There are no level restrictions or semester-hour restrictions. No course taken as pass/fail can be used to satisfy a NUpaht requirement. A single course can count for up to two of the following requirements:

- Engaging with the Natural and Designed World
- Exploring Creative Expression and Innovation
- Interpreting Culture
- Conducting Formal and Quantitative Reasoning
- Understanding Societies and Institutions
- Analyzing and Using Data
- Engaging Differences and Diversity
- Employing Ethical Reasoning

The three additional requirements (writing-intensive in the major, capstone, and experiential) are not limited. So, for example, a course may have two out of the first list (such as Differences and Diversity and Societies and Institutions) and *also* fulfill writing-intensive in the major and capstone.

Transfer credit and placement tests can also be used to meet the NUpaht attributes of the Northeastern course equivalents. Up to five of the following eight requirements can be met by transferred or placement test credits:

- Engaging with Natural and Designed World
- Exploring Creative Expression and Innovation
- Interpreting Culture
- Conducting Formal and Quantitative Reasoning
- Understanding Societies and Institutions
- Analyzing and Using Data
- Engaging Differences and Diversity
- Employing Ethical Reasoning

Transfer credits cannot be used to fulfill the capstone or experiential requirements. Of the writing requirements (p. 49), only the first-year writing requirement can be met by transferred or placement test credits.

## NUpaht Learning Goals

Established and assessed learning goals ensure rigorous opportunities for students to achieve the essential skills and competencies of NUPath regardless of the context or course within which the learning occurs. Any course that meets a NUPath requirement incorporates the learning goals of that requirement. The requirement short name and/or user code is what will appear in course descriptions and student audits.

## Engaging with the Natural and Designed World

**Short Name: Natural and Designed World**

**User Code: ND**

Students study and practice scientific investigation and/or engineering design in order to understand the natural world and to effect changes in it to meet human and societal needs and wants. They learn critical thinking and analytical problem solving; the biological, chemical, and/or physical principles that govern the natural world; and the efforts that underlie the origins, development, acceptance, and applications of those principles.

### LEARNING GOALS

By the end of the course, students should be able to:

- A. Formulate a question that can be answered through investigation or a challenge that can be addressed through research or design.
- B. Develop and use models based on evidence to predict and show relationships among variables between systems or components of systems in the natural and/or designed world.
- C. Use and question scientific principles and practices to evaluate issues raised by the interplay of science, technology, and society.

## Exploring Creative Expression and Innovation

**Short Name: Creative Expression/Innovation**

**User Code: EI**

Students study and practice creative expression and innovation. They learn about traditions of creative expression and innovation in any of a number of modes (texts, image, sounds, design, etc.) and products (poems, paintings, prototypes, business plans, games, apps, medical devices and procedures, etc.) and develop their own creative processes and products as a means of seeing and experiencing the world in new ways and communicating those experiences to others.

### LEARNING GOALS

By the end of the course, students should be able to:

- A. Describe creative processes in one or more disciplines (e.g. art, business, writing, science, engineering).
- B. Generate an artifact (e.g., design, poem/essay, application, visualization, musical composition, product, prototype) through a creative process.
- C. Evaluate experimentation, failure, and revision in the creation of innovative projects.

## Interpreting Culture

**Short Name: Interpreting Culture**

**User Code: IC**

Students study and analyze cultural practices, artifacts, and texts (e.g., visual art, literature, theatrical performances, musical compositions, architectural structures). They learn critical reading and observation strategies and how traditions of theoretical,

aesthetic, and/or literary criticism provide different lenses for the interpretation of cultural objects and practices.

### LEARNING GOALS

By the end of the course, students should be able to:

- A. Recognize and identify a variety of cultural practices and creations, their forms of production, and development over time.
- B. Acquire and assess techniques of interpretation (including critical reading and observation techniques); criticism; and analysis of cultural practices, texts, and/or artifacts.
- C. Formulate arguments for and against different theories and interpretations of cultural practices, texts, and/or artifacts.

## Conducting Formal and Quantitative Reasoning

**Short Name: Formal/Quantitative Reasoning**

**User Code: FQ**

Students study and practice systematic formal reasoning using either the symbolic languages of mathematics and logic or the combinations of text and symbols characteristic of computer software. They learn when and how to apply formal reasoning to particular problems and subject matters.

### LEARNING GOALS

By the end of the course, students should be able to:

- A. Recognize when examination of a phenomenon or situation can benefit from problem-solving techniques and analyses that use formal reasoning.
- B. Use their expertise in some applications of formal reasoning and know when to call upon domain experts when a problem is beyond their personal expertise.
- C. Generate artifacts that require formal reasoning and planning. These artifacts might include logical proofs, mathematical computations, software, simulations, problem solutions, or plans/analyses in a variety of disciplines that require a formal, systematic component.

## Understanding Societies and Institutions

**Short Name: Societies and Institutions**

**User Code: SI**

Students study and practice social science, historical, and/or literary methods of inquiry and theories in order to understand human behavior and cultural, social, political, and economic institutions, systems, and processes. They learn theories of social behavior as they relate to phenomena such as globalization, social change, and civic sustainability.

### LEARNING GOALS

By the end of the course, students should be able to:

- A. Describe current theories of how social, political, or economic institutions, systems, and processes work.
- B. Explain the historical and cultural contingency of many descriptions and explanations of human behavior, institutions, systems, and processes.
- C. Evaluate social, political, or economic theories by applying them to local and global phenomena.

## Analyzing and Using Data

**Short Name: Analyzing and Using Data**

**User Code: AD**

Students study and practice methods and tools of data analysis and use. Students learn about the structure and analysis of at least one type of data (e.g., numbers, texts, documents, web data, images, videos, sounds, maps) and acquire the skills to examine, evaluate, and critique such data; extract patterns; summarize features; create visualizations; and provide insight not obvious from the raw data itself. Students also learn to be sensitive to ethical concerns associated with data: security, privacy, confidentiality, and fairness.

### LEARNING GOALS

By the end of the course, students should be able to:

- A. Describe how data may be acquired, stored, transmitted, and processed.
- B. Analyze at least one important type of data and summarize the results of an analysis in ways that provide insight.
- C. Use mathematical methods and/or computational tools to perform analysis.
- D. Evaluate and critique choices made in selection, analysis, and presentation of data.

## Engaging Differences and Diversity

**Short Name: Differences and Diversity**

**User Code: DD**

Students study and practice methods for recognizing and understanding human diversity of various kinds in global, local, and organizational contexts. They learn theories and perspectives of human difference; civic sustainability and multiculturalism; how social arrangements shape and are shaped by difference; and the histories, cultures, and interactions of diverse groups.

### LEARNING GOALS

By the end of the course, students should be able to:

- A. Describe how notions of human difference have changed over time and across local and global contexts.
- B. Discuss the value in recognizing, respecting, and embracing human diversity and how diversity contributes to culture and society, including civic sustainability.
- C. Evaluate and compare two or more theories of human difference and approaches to cultivating and leveraging diversity.
- D. Connect theories of human difference and approaches to diversity to one's own experience.

## Employing Ethical Reasoning

**Short Name: Ethical Reasoning**

**User Code: ER**

Students study and practice methods of analyzing and evaluating the moral dimensions of situations and conduct. They learn ethical theories and frameworks; explore how conceptions of morals and ethics shape interpretation of concepts such as justice, fairness, rights and responsibilities, virtue, and the good life; and apply these

to personal, professional, social, political, historical, or economic questions and situations.

### LEARNING GOALS

By the end of the course, students should be able to:

- A. Describe the moral and ethical elements of an issue, problem, or situation.
- B. Explain at least two key ethical theories.
- C. Apply ethical theories to moral dilemmas and personal positions.

## Writing Across Audiences and Genres

**Short Name: Writing Across Audiences/Genres**

**User Code: WF/WD/WI**

**Note: This requirement is met by four courses. See more details under Writing-Intensive Courses (p. 49).**

Students study and practice writing for multiple public, academic, and professional audiences and contexts. They learn to use writing strategies, conventions, genres, technologies, and modalities (e.g., text, sounds, image, video) to communicate effectively.

### Learning goals for first-year writing:

- A. Adapt writing for multiple academic, professional, and public occasions and audiences.
- B. Identify and practice writing conventions of various genres.
- C. Identify credible, relevant sources and engage and cite them appropriately in their written work.
- D. Draft, revise, and edit their writing using feedback from readers.

### Learning goals for Advanced Writing in the Disciplines:

- A. Adapt writing for multiple academic, professional, and public occasions and audiences.
- B. Display familiarity with the writing conventions of genres in an academic field or profession.
- C. Identify credible, relevant sources and engage and cite them appropriately in their written work.
- D. Draft, revise, and edit their writing using feedback from readers.

### Learning goals for writing-intensive courses in the major:

- A. Demonstrate facility with the writing conventions of genres in the academic field or profession.
- B. Identify credible, relevant sources and engage and cite them appropriately in their writing work.
- C. Draft, revise, and edit their writing using feedback from readers.

## Integrating Knowledge and Skills Through Experience

**Short Name: Integration of Experience**

**User Code: EX**

Students study and practice the principles and strategies of experiential learning. Through direct experience and reflection on that experience, they learn to recognize and articulate their knowledge and skills, to apply the knowledge and skills they learn in

one context to another context, and to determine what knowledge and skills they need to develop to meet their goals.

**Learning Goals: By the end of the course, students should be able to:**

- A. Apply knowledge and skills in new, authentic contexts.
- B. Gain new knowledge and develop new skills to successfully engage in unfamiliar tasks and activities.
- C. Integrate and use the deepened knowledge and skills as well as the newly gained knowledge and skills to continue to learn in their academic programs.
- D. Articulate how and what one learns across a range of contexts.

## Demonstrating Thought and Action in a Capstone

**Short Name: Capstone Experience**

**User Code: CE**

Each student must take at least one course designated as a capstone experience. Capstone courses may be designed for a specific degree program, for a department, or for a college. The learning goals for a capstone will be developed by the unit that is designing the capstone. Students must complete a capstone in their major. In cases where a student has multiple majors (such as in a combined or double major), the units may specify in which major to take the capstone or may leave the choice to the student.

## Writing-Intensive Courses

The faculty expects all students to become effective writers and achieve the learning goals of the "Writing across Audiences and Genres" NUpath attributes. To this end, students are given opportunities to improve their writing throughout their curriculum.

### First-Year Writing Requirement

All first-year students must satisfy a first-year writing requirement in one of the following ways:

Code	Title	Hours
ENGW 1111	First-Year Writing	4
ENGW 1110 and ENGW 1111	Introductory First-Year Writing and First-Year Writing	8
ENGW 1102	First-Year Writing for Multilingual Writers	4

Depending on performance in Introductory First-Year Writing (ENGW 1110), the second half of the two-course sequence may be waived, as determined by the Department of English. Students must earn a C or better in the required writing course to satisfy the first-year writing requirement.

The First-Year Writing Program conducts a version of "guided self-placement" and requires students bring an essay to the first class meeting; see the guided self-placement (<https://www.northeastern.edu/writing/first-year-writing/guided-self-placement/>) page for details.

For more information about the Writing Program, visit the Writing Program webpage (<http://www.northeastern.edu/writing/>).

### Advanced Writing Requirement

Advanced Writing in the Disciplines (AWD) is the second course of the university-wide requirement. Students are eligible to enroll in

AWD once they satisfy the first-year requirement, earn a minimum of 64 semester hours of academic credit (this number includes the semester in which students enroll in AWD), and have at least junior or senior standing. Students are encouraged to take AWD before they have accrued 96 semester hours. A variety of AWD sections are offered, including Advanced Writing in the Technical Professions, Advanced Writing in the Sciences, and Advanced Writing in the Health Professions, among others. A small number of online sections and sections for non-native speakers of English are also offered. Students should consult with their advisors to choose the section that best suits their needs. Transfer credit cannot be used to satisfy this requirement. Students must earn a C or better to satisfy the advanced writing requirement.

For more information about the Writing Program, visit the Writing Program webpage (<http://www.northeastern.edu/writing/>).

## Writing-Intensive Courses in the Major

Each major includes at least two additional writing-intensive courses. These courses are characterized by:

- A significant amount of writing, as appropriate to the discipline
- Multiple opportunities to write, including informal writing-to-learn activities and formal learning-to-write projects
- Opportunities for students to move through all phases of the writing process, from drafting through final editing
- Instruction in writing, including feedback from the instructor (and perhaps others) that students can use to draft, revise, and edit their written work

## Additional Requirements for BA Students

In addition to successfully completing the university requirements of NUpath (p. 46), students pursuing a Bachelor of Arts (BA) degree must fulfill the BA core requirements as outlined below.

### Language Requirement for BA Students

Each BA student must complete the language requirement by demonstrating proficiency at the elementary level and satisfying an intermediate-level requirement as described below.

#### ELEMENTARY-LEVEL PROFICIENCY

Satisfy one of the following requirements:

1. Complete elementary-level two (course number 1102) of a language with grades of C or better in all coursework (pass/fail grades cannot be used to satisfy this proficiency requirement).
2. Earn a 4 or 5 score on an Advanced Placement (AP) exam in one of the languages offered or receive transfer credit for the equivalent of elementary-level two (course number 1102). Students who have AP or transfer credit must also receive a satisfactory rating in a language-specific interview administered by the World Languages Center upon matriculation.
3. Receive a satisfactory score (as determined by the World Languages Center) on a standardized placement exam and a satisfactory rating in a language-specific interview administered by the World Languages Center upon matriculation.

#### INTERMEDIATE-LEVEL REQUIREMENT

Satisfy one of the following requirements:

1. Complete a course at the intermediate level (course number 2101 or higher) in the language taken at the elementary level.

2. Complete a course in which the subject matter focuses on some aspect of the culture, history, or society of a part of the world where the language taken at the elementary level is spoken or used by a significant portion of the population. For a course list, visit the myNortheastern web portal (<https://my.northeastern.edu/>), click on the "Self-Service" tab, then on "My Degree Audit."
3. Demonstrate proficiency by successfully completing a proficiency interview (scheduled through the World Languages Center). This option is available only for heritage speakers of a language or for students who have completed the elementary-level language requirement through one of the following:
  - a. Advanced placement
  - b. Standardized placement exam as outlined above

## PreMed and PreHealth Advising

Website (<https://undergraduate.northeastern.edu/prehealth/>)

### PreMed and PreHealth Studies

The PreMed and PreHealth Advising Program provides support for Northeastern students who are planning to pursue training in medicine, including allopathic medicine (MD), osteopathic medicine (DO), dentistry, optometry, physician assistant studies, podiatric medicine, and veterinary medicine.

Academic course requirements for health professional programs may be integrated into any major at Northeastern. Health professional school admission committees generally give no preference to any particular undergraduate major. As such, students should focus on meeting the course requirements of their chosen field of study, together with their health professional school requirements, with demonstrated academic rigor and excellence. For some majors it may be necessary to complete additional credit hours of coursework, with associated tuition, to fulfill all premed/prehealth course requirements.

### Prerequisite Courses

Most health professional schools require a common set of courses. The courses listed below meet the course requirements of many health professional programs. These are intended to provide a foundation in subject areas relevant to the student's intended health professional program and its corresponding entrance exam. It is the student's responsibility to research the academic requirements for specific schools of interest and work with their advisors to determine an appropriate course of study.

*Note:* Corequisite laboratories are required for most science courses.

#### BIOLOGY

Two semesters

#### GENERAL CHEMISTRY

Two semesters (or a combined general chemistry course)

#### ORGANIC CHEMISTRY

Two semesters

#### PHYSICS

Two semesters

#### MATHEMATICS

One semester each of calculus and statistics

#### ENGLISH COMPOSITION/Writing-INTENSIVE

Two semesters

### BEHAVIORAL SCIENCES

One semester each of psychology and sociology (for MCAT preparation)

### ADDITIONAL SCIENCE COURSEWORK

*The following coursework is required or recommended by many programs and necessary for MCAT preparation:*

- Genetics and molecular biology
- Biochemistry

### Supporting Information

Academic policies and course requirements are school specific. Students should research requirements and plan a program of study as early as possible in consultation with both their major and premed/prehealth advisor to determine the best way to successfully complete their required coursework. Please refer to the relevant information and website(s) below, as well as official admissions guidebooks, for detailed requirements.

### STUDY ABROAD/FOREIGN COURSEWORK

Not all health professional schools will accept core science (biology, chemistry, math, or physics) prerequisite coursework taken outside of the United States or Canada.

If you are planning to take core science prerequisite coursework abroad, it is recommended you enroll in an American college overseas (i.e., American College of Thessaloniki, John Cabot University in Rome, Italy, etc.). Despite the fact these institutions are physically located outside of the United States, these schools have received accreditation from the Council for Higher Education Accreditation and are treated like any other U.S. or Canadian school.

If you are considering attending a foreign institution outside of the United States or Canada, please contact the schools you are interested in applying to before going overseas to ensure that your coursework will be accepted.

### AP/IB CREDIT

Each school will have their own policy regarding AP/IB credit, and it is best to consult with their website or admissions office to find out more about their policy. Generally, students may use AP and IB credit toward prerequisite courses. However, AP/IB credit often does not reduce the required coursework needed at the college level. Applicants may be expected to take the equivalent number of upper-level courses within the discipline if students have been granted AP/IB credit.

## Pre-Law Advising

Website (<http://www.northeastern.edu/prelaw/>)

Located in Employer Engagement and Career Design, Pre-Law Advising at Northeastern enables current students and alumni/ae to explore the legal field as a career path and helps them navigate the law school application process. Since most law school admission committees give no special preference to any particular undergraduate major, Northeastern encourages students to pursue the undergraduate major of your choice, supplemented with robust co-op, leadership, and service experiences. Academically, we guide students to enroll in challenging courses that develop core skills and values, such as analytical and problem-solving skills, research, critical reading, oral and written communication, organization and project management, public service, and promotion of justice.

In addition, Northeastern offers the PlusJD program. Designed for academically outstanding, motivated, and resourceful students, the PlusJD—Northeastern’s Fast Track to Law School program—selects highly qualified Northeastern University students to begin their first-year law school courses during their last year of undergraduate study. Credits earned in the shared year are applied toward both their bachelor’s and law degrees. As a result, students can complete both degrees in as little as six years, saving a full year of time and tuition.

Please visit the School of Law for more information about the PlusJD program (<https://www.northeastern.edu/law/admission/jd/apply/plusjd/>).

## Research and Creative Activity

Website (<https://undergraduate.northeastern.edu/research/>)

Northeastern University’s thriving culture of scholarly and creative innovation provides students with many opportunities to create and disseminate new knowledge, practices, and solutions to pressing global challenges. Research and creative endeavors are key components of Northeastern’s experiential learning model. Experiences can range from laboratory bench work to the analysis of big data to archival research to collaborative theatre productions. This work can take place in a variety of contexts and formats, including the following:

- Courses, which generally fulfill major elective requirements
- Labs or centers
- Research or creative-based co-ops or internships
- Community-based research or creative endeavor
- Research or creative-based activity as the option for work-study work
- Research or creative endeavor as a service activity
- Junior/senior honors projects

The Office of Undergraduate Research and Fellowships, along with other offices and programs on campus, support students through workshops, mentoring, and consultation on applications for distinguished fellowships and advanced study; funding through the university-wide Project-Based Exploration for the Advancement of Knowledge, or PEAK Experiences Awards; and much more. Northeastern undergraduates are an important part of Northeastern’s research culture, and they frequently present their findings at national and international conferences; in scholarly journals; and at the university’s annual Research, Innovation, and Scholarship Expo. We believe that the best answers—and the best questions—are born out of bringing diverse perspectives, experiences, and knowledge into conversation with one another. Therefore, we believe that a diverse

and inclusive community of researchers, creative practitioners, and fellowship applicants not only fosters innovation and creativity but is a precondition of the excellence for which we strive.

## Service-Learning

Website (<http://www.northeastern.edu/servicelearning/>)

Community engagement is an integral part of Northeastern’s mission. But more than good works, collaborating with the community through structured service-learning courses is an academically rigorous educational experience that allows students to broaden their knowledge and skills through service that supports our partnerships with Boston schools, neighborhood agencies, health clinics, and nonprofit organizations.

Service-learning is integrated by educators in a way designed to meet needs and goals identified by the community while being intricately linked with learning objectives and outcomes. Before, during, and after their service, students also engage in structured reflection to help them gain further insight into course or program content, a broader appreciation of their academic disciplines, and a greater sense of civic responsibility.

## Undergraduate Degrees

Listed below are the degrees conferred by the undergraduate full-time day colleges at Northeastern University.

### College of Arts, Media and Design

- Bachelor of Arts
- Bachelor of Fine Arts
- Bachelor of Landscape Architecture
- Bachelor of Science

### D’Amore-McKim School of Business

- Bachelor of Science in Business Administration
- Bachelor of Science in International Business
- Bachelor of Science (combined majors only)

### Khoury College of Computer Sciences

- Bachelor of Arts in Computer Science
- Bachelor of Science in Computer Science
- Bachelor of Science in Information Science
- Bachelor of Science (combined majors only)

### College of Engineering

- Bachelor of Science in Bioengineering
- Bachelor of Science in Chemical Engineering
- Bachelor of Science in Civil Engineering
- Bachelor of Science in Computer Engineering
- Bachelor of Science in Electrical Engineering
- Bachelor of Science in Environmental Engineering
- Bachelor of Science in Industrial Engineering
- Bachelor of Science in Mechanical Engineering

### Bouvé College of Health Sciences

- Bachelor of Science
- Bachelor of Science in Nursing
- Bachelor of Science in Rehabilitation Science

- Doctor of Pharmacy (six-year program)
- Doctor of Physical Therapy (six-year program)

### College of Science

- Bachelor of Arts
- Bachelor of Science

### College of Social Sciences and Humanities

- Bachelor of Arts
- Bachelor of Science

## Undergraduate Internships

An undergraduate internship is defined as an unpaid opportunity for supervised practical experience related to the student's academic area of study. Internships must be correlated to program curriculum, approved by an academic entity, and supervised by a faculty member. Students must work at least 12 hours per week to earn academic credit for an internship in a term, as equated to the course credit guidelines.

## University Honors Program

### Laurie Kramer, PhD

Director

617.373.2333  
617.373.5300 (fax)  
honors@northeastern.edu

The University Honors Program values integrated, student-directed, and experiential learning that is personalized to meet students' individual goals and interests. Our community of intellectually engaged students, faculty, and advisors are committed to engagement in scholarship that will enable students to confront critical societal issues and make a difference at home and in the world. Students benefit from unique and enriched educational options that include stimulating courses, opportunities for research and creative endeavors, global experiences, service-learning, mentoring, and the development of competencies that will position them for lifelong learning and personal and professional success. Throughout their undergraduate experience, Honors students are guided and supported as they chart their unique educational plans through personalized advising, engagement in diverse competency-based learning experiences, and participation in a set of networked communities that include Honors Living Learning Communities.

All applicants seeking freshman entry at Northeastern University (for fall semester entry) are considered for admission into the University Honors Program and are notified of their selection in their letter of admission. There is no separate application. Continuing students in their first, second, or third semesters who wish to be considered for entry may consult the University Honors Program's website (<http://www.northeastern.edu/honors/>) for application instructions.

## University-Wide Requirements

*Note:* Individual program requirements may exceed the following minima.

Minimum 128 total semester hours required

Minimum 2.000 GPA required

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

## World Languages Center

### Stacey Katz Bourns, PhD

Director

617.373.3131  
Stacey Katz Bourns, Director, [s.bourns@northeastern.edu](mailto:s.bourns@northeastern.edu)

The primary goal of the World Languages Center (WLC) is to offer a variety of language/culture classes and to ensure that students will be able to take at least two years of instruction (four semesters) in any language offered by the WLC and up to three years of instruction (six semesters) in many of the languages offered.

### Placement Assessment

Students with prior experience in French or Spanish must take the online written placement exam if they wish to enroll in a French or Spanish language class. The link for this exam can be found on the WLC website. Students with prior experience in any other language must contact the WLC to make an appointment for a placement assessment interview. Results of a student's online placement or interview assessments are valid for one year only.

Any student with prior experience in a language who registers for a language course without taking the WLC online placement test or a WLC placement assessment will not receive a letter grade for the course.

### Attendance in Language Classes

The development of competence in a language requires regular and structured interaction opportunities. Thus, the WLC takes attendance in language classes very seriously. Each missed class will have specific consequences, including a negative impact on a student's final grade. If students believe they have been inappropriately placed in a language class, they should contact the WLC immediately.

### Auditing Language Classes

Auditing language classes is not permitted. Students who are not on the official roster of a class may not sit in on the class.

### Immersion Language Classes

The WLC offers off-campus language immersion classes in a variety of languages during the summer 1 and summer 2 terms. Some of these courses may count toward fulfillment of the BA language requirement or a language minor, assuming a student receives a grade of C or better.

### Study-Away/Abroad Classes

The WLC will authenticate credit-bearing language classes taken in study-away/abroad programs at accredited institutions in fulfillment of and as equivalent to WLC language classes numbered 1101, 1102, 2101, or 2102. Students must receive approval of language course equivalence from the WLC before embarking on a study-away/abroad program. Failure to do so may mean that the courses taken away/abroad will not be accepted in lieu of on-site Northeastern language courses and thus may not satisfy the language requirement. Credit is granted only for successful completion of the course.

## College of Arts, Media and Design

Website (<https://camd.northeastern.edu/>)

**Elizabeth Hudson, PhD**, Dean

**Andrea Raynor, MFA**, Associate Dean for Undergraduate Programs

**Jane Amidon, MLA**, Senior Associate Dean for Graduate Programs and Strategic Initiatives

**Matthew McDonald, PhD**, Associate Dean for Academic Affairs, Faculty and Research

**Thomas Michael, MBA**, Associate Dean for Administration and Finance

**Katherine Calzada, MEd**, Assistant Dean for Research Development

**Adam Smith, MS, MBA**, Assistant Dean for Academic Programs

617.373.3682

617.373.5084 (fax)

camd@northeastern.edu

In today's global economy, the disciplines within the College of Arts, Media and Design are powerful drivers of growth and innovation. Creative fields and evolving technology make it possible to connect people and ideas as never before, serving as strong catalysts for change and expanding the understanding of our shared humanity.

The college integrates programs of study in architecture, art and design, communication studies, game design, journalism, media and screen studies, music, and theatre with meaningful experiential learning opportunities, enabling students to explore their passions and prepare for postgraduate opportunities in their chosen fields.

The college offers Bachelor of Arts, Bachelor of Science, and Bachelor of Fine Arts degrees in a number of majors, as well as interdisciplinary combined majors with every college across the university, and offers opportunities for nonmajors to engage in the college through NUPath and an extensive offering of minors. Opportunities available to students in the College of Arts, Media and Design include national and international programs for study and experience; programs in field settings, both local and abroad; and programs involving affiliations in such areas as professional performing arts organizations and media organizations. The college also emphasizes experiential learning through cooperative education; service-learning; and other kinds of internships, student-faculty research collaborations, and study abroad.

Students have a variety of experiential learning options that can be completed in four years. Each plan offers co-op opportunities, typically in an area related to the student's chosen academic area. Students are normally eligible to participate in co-op as early as the second semester of their sophomore year.

Many programs are flexible enough to allow students to pursue a PlusOne, a double major, a major and a minor, or one of the college's combined majors. The college also offers students the opportunity to create an independent major in cases where their interests and goals are not met by an existing major program.

## Academic Advising

The College of Arts, Media and Design has an academic advising (<https://camd.northeastern.edu/undergraduate-students/undergraduate-advising/>) system that consists of academic advisors located in the Academic Advising and Cooperative Education office and faculty mentors located in the college's academic schools and departments. Detailed advising information is available on the college website (<https://camd.northeastern.edu/undergraduate-students/undergraduate-advising/>). Prelaw advising (<https://careers.northeastern.edu/article/pre-law/>) and premedical/prehealth advising (<https://undergraduate.northeastern.edu/prehealth/>) are also available. We can

be reached by phone at 617.373.5583, by fax at 617.373.8719, or by email at [camdadvising@northeastern.edu](mailto:camdadvising@northeastern.edu).

## Academic Progression Standards

The College of Arts, Media and Design adheres to the university's academic progression standards (p. 27). Some programs have additional specific requirements in order to progress from year to year or to graduate from that program. This information can be found on each program's page.

## Graduation Clearance Process

Students in the College of Arts, Media and Design are required to meet with their assigned academic advisor to determine their remaining graduation requirements. Some departments also require a meeting with a faculty mentor. The graduation clearance process should be completed in the junior year to facilitate planning of all remaining requirements.

## College Requirements

All students in the College of Arts, Media and Design must successfully complete the university requirements of NUPath (p. 46). In addition, students pursuing a Bachelor of Arts degree (BA) must fulfill the BA requirements (p. 49).

## School of Architecture

Website (<http://camd.northeastern.edu/architecture/>)

### Dan Adams

Director and Associate Professor

[da.adams@northeastern.edu](mailto:da.adams@northeastern.edu)

617.373.4637

Architecture and landscape architecture are the context for civic life. In an age of increasingly rapid technological and social change, these fields forge connections between our past and our future. This involves critical thinking about many complex contemporary issues, such as the relationship of public and private life; the interaction between formal and political ideas in cities; and the role of technology in the design, construction, and management of contemporary spaces. Because the process of design involves the synthesis of disparate elements, it can also translate into strategies for approaching a wide range of other problems not traditionally understood to be "architecture." At Northeastern, we connect specific problem solving inherent to architectural and landscape architectural understanding with the larger context of contemporary cities.

The curriculum teaches students to conceptualize, synthesize, and represent complex architectural, urban, and environmental issues. The program focuses on core skills and critical thinking as preparation for both professional practice and advanced study. The curriculum in the design studio encompasses two major themes: First, the studio projects focus on the art of building and environmental performance, and second, the projects explore how designed environments—from buildings to regional infrastructures—affect urban conditions. The art of building includes the study of construction and technology, as well as the cultural messages created by the expression of material, structure, and form. Environmental performance includes imagining how we can live more sustainably by developing innovative design solutions for synthesizing natural and urban conditions. The contemporary city is our laboratory. This urban focus requires that students integrate their own creative impulses with the future of the society of which they will be a part. By building on the practical and technical training afforded by co-op to develop core professional skills, the curriculum focuses on architecture

and landscape architecture's fundamental aesthetic, technological, social, and political aspects.

With the effective synthesis of the art of building and environmental performance with urban issues, Northeastern's programs in architecture and landscape architecture are becoming a leader in identifying opportunities for civic representation, urban development, and neighborhood design. Northeastern's students are in demand because of their combination of professional competence and fluency in urban architectural and environmental design issues. There are opportunities for interdisciplinary cooperation in urban-oriented research and creative work in areas such as the economics of urban redevelopment; the design and planning of resilient food, water, energy, transit, and industrial systems; urban public policy; and new forms of spatial and visual communication. Additionally, Northeastern's urban focus is applied globally in the semester abroad.

### External Transfers

Full-time architecture faculty members may evaluate nonstudio courses for conformity with NU requirements using transcripts and course descriptions. Any student seeking studio course credit (drawing, technology, or design) must present a portfolio for review and evaluation.

*Portfolios are optional, though encouraged, for freshman applicants.*

### Academic Progression Standards

A minimum grade-point average (GPA) of 2.500 is required to remain in the majors of architecture or landscape architecture. Students below this average will not be allowed to continue in these majors.

A minimum GPA of 2.000 is required to remain in the major of architectural studies. Students below this average will not be allowed to continue in the major.

To graduate, a student must have a 2.500 GPA in architecture or landscape architecture.

### Programs

#### Bachelor of Science (BS)

- Architecture (p. 54)
- Architectural Studies (p. 56)
- Architectural Studies and Design (p. 58)
- Architecture and English (p. 60)
- Civil Engineering and Architectural Studies, BSCE (p. 62)
- Environmental and Sustainability Sciences and Landscape Architecture (p. 65)
- Environmental Engineering and Landscape Architecture, BSEnVE (p. 67)

#### Bachelor of Landscape Architecture (BLA)

- Landscape Architecture (p. 70)

### Minors

- Architectural and Urban History (p. 71)
- Architectural Design (p. 71)
- Architectural Science and Systems (p. 72)
- Urban Landscape Studies (p. 72)

## Architecture, BS

Website (<https://camd.northeastern.edu/architecture/academic-programs/architecture/>)

The curriculum pairs studio courses with relevant architecture history and technology courses to support the comprehensive learning experience of the student. Students engage in intensive studio projects that encourage them to seek prototypical solutions to problems in the modern city. Instruction takes place in the studio with one-on-one consultations with faculty, critiques with classmates, and formal reviews. Visiting critics participate in reviews, and there is a lecture series that brings prominent professionals on campus to discuss the work they are doing in the field.

As part of their studies, students are enrolled in two six-month co-ops (<https://camd.northeastern.edu/architecture/experiential-learning-co-op-co-op/>). This allows students to gain real-world experience in architecture that aids them in both their academic development and in professional advancement. Co-op experience can often be applied to one's AXP (<http://www.ncarb.org/Experience-Through-Internships.aspx>) credits.

The School of Architecture offers a NAAB (<http://www.naab.org/>)-accredited one-year program to our students who have successfully completed the BS degree in architecture. This allows our own students to achieve a master's degree in an efficient and timely manner.

Applicants should note that the BS degree in architecture is not sufficient by itself to meet the academic requirement to sit for state licensure. (Most undergraduate architecture degrees are not accredited.) Students who graduate with the BS degree have the option to apply to the one-year NAAB-accredited Master of Architecture (<https://camd.northeastern.edu/architecture/academics/graduate/>) degree that is open to our BS graduates in good standing.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath attributes Natural and Designed World (ND), Creative Expression and Innovation (EI), Interpreting Culture (IC), Formal and Quantitative Reasoning (FQ), Societies and Institutions (SI), Analyzing and Using Data (AD), and Difference and Diversity (DD) are met through the major course requirements.

In order to graduate, students must complete Ethical Reasoning (ER) in their electives.

### Architecture Major Requirements

Code	Title	Hours
<b>SEMESTER 1</b>		
ARCH 1000	Architecture at Northeastern	1

ARCH 1310 and ARCH 1311	Buildings and Cities, A Global History and Recitation for ARCH 1310	4
<b>SEMESTER 2</b>		
ARCH 1110	Fundamental Architectural Representation	4
ARCH 1120	Fundamental Architectural Design	6
Architecture History Elective 1		4
Choose any course in the range of ARCH 2300 to ARCH 2399		
<b>SEMESTER 3</b>		
ARCH 2130	Site, Space, and Program	6
ARCH 2240	Architectonic Systems	4
Architecture History Elective 2		4
Choose any course in the range of ARCH 2300 to ARCH 2399		
<b>SEMESTER 4</b>		
ARCH 2140	Urban Institutions	6
ARCH 2340 and ARCH 2341	Modern Architecture and Recitation for ARCH 2340	4
ARCH 3210 and ARCH 3211	Environmental Systems and Recitation for ARCH 3210	4
ARCH 3450	Advanced Architectural Communication 1	4
<b>SEMESTER 5</b>		
Abroad:		
ARCH 3155	Studio Abroad	4.8
ARCH 3361	Architecture and Urbanism Abroad	3.2
ARCH 3363	Field Study Topics Abroad	1.6
ARCH 3363	Field Study Topics Abroad	1.6
ARCH 3440	Workshop Topics Abroad	1.6
<b>SEMESTER 6</b>		
ARCH 3170	Architecture, Infrastructure, and the City	6
ARCH 5230 and ARCH 5231	Structural Systems and Recitation for ARCH 5230	4
<b>SEMESTER 7</b>		
ARCH 3370	Advanced Topics in Architectural History	4
ARCH 5115	Option Studio	6
ARCH 5310	Design Tactics and Operations	4
<b>SEMESTER 8</b>		
ARCH 5120	Comprehensive Design Studio	6
ARCH 5220	Integrated Building Systems	4

<sup>1</sup> Please note: Advanced Architectural Communication (ARCH 3450) may also be taken in Summer 2 after year two or year four.

## Supporting Courses

Code	Title	Hours
<b>SEMESTER 1</b>		
ENGW 1111	First-Year Writing	4
MATH 1241	Calculus 1	4
<b>SEMESTER 2</b>		
PHYS 1141	General Physics	4
EEAM 2000	Professional Development for Co-op	1
<b>SEMESTER 6</b>		

ENGW 3314	Advanced Writing in the Arts, Media, and Design	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

## Cooperative Education

Architecture majors are required to complete two six-month co-ops.

COOP 3945 Co-op Work Experience

## Important Note

When registering for classes, note additional electives are required. If you are taking less than 18 semester hours during fall or spring semesters, verify with your adviser that you have registered for all required electives.

## Major GPA Requirement

Minimum 2.500 GPA required

## Architecture Major Credit Requirement

Complete 96 semester hours in the major.

## Program Requirement

142 total semester hours required

## Plan of Study

### Five Years, Two Co-ops in Summer 2/Fall

## Architectural Studies, BS

Website (<https://camd.northeastern.edu/architecture/academic-programs/bs-architectural-studies/>)

The Bachelor of Science in Architectural Studies teaches students the rigorous design methods of architecture while also offering a flexible curriculum focused on key contemporary topics related to the built environment. After a common sequence of design, history, and technology courses, students may choose from a rich array of electives in the School of Architecture and throughout the university. The culmination of the major is a single capstone course required for all students.

Students will emerge with a strong portfolio, a foundational grounding in architectural design, and will be well equipped for further graduate education or work experience in design-related fields and creative industries. The Bachelor of Science in Architectural Studies can be completed in four years. Students in this major participate in one six-month co-op and have the option of a second four-month summer co-op. Students also have the option to study abroad for a semester.

Students may choose from one of three areas of emphasis—real estate; sustainability; or history, theory, and culture—or work with the department to put together a customized plan of study.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath Requirements Natural and Designed World (ND), Creative Expression/Innovation (EI), Interpreting Culture (IC), Societies and Institutions (SI), and Difference and Diversity (DD) are met through the major course requirements.

NUpath Requirements Formal and Quantitative Reasoning (FQ), Analyzing and Using Data (AD), and Ethical Reasoning (ER) must be met through electives.

## Architectural Studies Major Requirements

<b>Capstone</b>		
ARCH 4960	Architectural Studies Capstone	4

## Major Electives

Students who wish to be considered for Northeastern's two-year Master of Architecture degree should take ARCH 2240 and ARCH 5230.

Code	Title	Hours
Complete six of the following elective courses. Please note: At least four courses must be taken in the School of Architecture. At least two must be above the 2000 level.		
Any ARCH or LARC course		
<i>Real Estate</i>		
ENTR 2206	Global Social Enterprise	
ENTR 2301	Innovation!	
ENTR 2303	Marketing Strategies for Startups	
ENTR 3330	Lean Design and Rapid Prototyping	
ENTR 4501	Advanced Studies in Entrepreneurial Startups	
MKTG 2209	Introduction to Marketing	
<i>Sustainability</i>		

ENVR 3200	Water Resources
CIVE 1200	How Cities Work: Experiencing Urban Infrastructure
CIVE 2334	Environmental Engineering: Principles, Technology, and Sustainability
CIVE 4566	Design for Sustainable Transportation: Netherlands
SBSY 5100	Sustainable Design and Technologies in Construction
SBSY 5200	Sustainable Engineering Systems for Buildings
PHIL 1180	Environmental Ethics
<i>History, Theory, and Culture</i>	
ARTH 1100	Interactive Media and Society
ARTH 2215	History of Graphic Design
ARTH 5902	Special Topics in Art and Design History
ARTG 5110	Information Design History

\*Please be aware: Not all courses are available every semester and some have prerequisites.

## Optional Preparation for Two-Year Master of Architecture

**Code**                      **Title**                                      **Hours**

If students wish to be eligible for the two-year Master of Architecture program at Northeastern, they should take the four courses listed here. ARCH 2240 and 5230 may count as electives toward the major:

MATH 1241	Calculus 1
PHYS 1141	General Physics
ARCH 2240	Architectonic Systems
ARCH 5230	Structural Systems

## Architectural Studies Major Credit Requirement

Complete 72 semester hours in the major.

## Program Requirement

128 total semester hours required

## Plan of Study

Year 1

## Architectural Studies and Design, BS

Students integrate the study of architecture with strategies of graphic and information design, interaction design, or experience design. A flexible curriculum focused on key contemporary topics related to the built environment is combined with a broad understanding of the principles and systems of perception, communication, and action. Students integrate text and image to visualize concepts and data, create navigable interfaces and systems that allow audiences to take an active role to achieve meaningful goals, and take a holistic and integrative approach that focuses on the quality of the human experience in concrete situations. Successful students emerge with a strong portfolio suited to further graduate education or experience in architecture and design-related fields.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses

where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath attributes Engaging with the Natural and Designed World (ND), Exploring Creative Expression and Innovation (EI), Interpreting Culture (IC), Analyzing and Using Data (AD), Understanding Societies and Institutions (SI), and Engaging Differences and Diversity (DD) are met through the major course requirements.

In order to graduate, students must complete Formal and Quantitative Reasoning (FQ) and Ethical Reasoning (ER) in their electives.

*\*Please Note: We suggest students who wish to be eligible for the two-year Master of Architecture degree take the following courses: ARCH 2240, ARCH 3170, ARCH 5230, along with calculus and physics.*

### Architectural Studies Courses

Code	Title	Hours

**Architecture and English, BS****Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

NUpath attributes Natural and Designed World (ND), Creative Expression and Innovation (EI), Interpreting Culture (IC), Societies and Institutions (SI), and Difference and Diversity (DD) are met through the major course requirements.

In order to graduate, students must complete Formal and Quantitative Reasoning (FQ), Analyzing and Using Data (AD), and Ethical Reasoning (ER) in their electives.

**Architecture Requirements**

Code	Title	Hours
<b>Required Courses</b>		
ARCH 1110	Fundamental Architectural Representation	4
ARCH 1120	Fundamental Architectural Design	6
ARCH 1310	Buildings and Cities, A Global History	4
ARCH 1320		4
ARCH 1450	Understanding Design	4
ARCH 2130	Site, Space, and Program	6
ARCH 2240	Architectonic Systems	4
ARCH 2330	Architecture and the City in the Nineteenth Century	4

**Electives**

Complete two of the following courses:	8
ARCH 3370	Advanced Topics in Architectural History
ARCH 3450	Advanced Architectural Communication
ARCH 5310	Design Tactics and Operations

**English Requirements**

Code	Title	Hours
<b>English Course-Level Requirement</b>		

In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.

**Introduction to College**

ENGL 1000	English at Northeastern	1
-----------	-------------------------	---

**Foundational Courses**

ENGL 1400	Introduction to Literary Studies	4
ENGL 1160	Introduction to Rhetoric	4
or ENGL 1410	Introduction to Research on Writing	

**Diversity**

Complete one of the following courses. This course may also be used to fulfill an additional English requirement below: 4

ENGL 2150	Literature and Digital Diversity	
ENGL 2296	Early African-American Literature	
ENGL 2450		
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2460		
ENGL 2760	Writing in Global Contexts	
ENGL 3663	The African American Novel	
ENGL 3676		
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
ENGL/JWSS 3685	Modern and Contemporary Jewish Literature	

**Pre-Nineteenth-Century Literature**

Complete one of the following: 4

ENGL 1600	Introduction to Shakespeare	
ENGL 1700	Global Literatures 1	
ENGL 2240		
ENGL 2296	Early African-American Literature	
ENGL/JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
ENGL 4000		
ENGL 4020		

**Nineteenth-, Twentieth-, and Twenty-First-Century Literature**

Complete one of the following: 4

ENGL 2330	The American Renaissance	
ENGL 3720	19th-Century Major Figure	
ENGL 4040		
ENGL 2301	The Graphic Novel	
ENGL 2440	The Modern Bestseller	
ENGL 2600	Irish Literary Culture (Abroad)	
ENGL 2610	Contemporary Israeli Literature and Art (Abroad)	
ENGL/JWSS 3685	Modern and Contemporary Jewish Literature	
ENGL 3730	20th- and 21st-Century Major Figure	

**Theories and Methods**

Complete one of the following: 4

ENGL 1140	Grammar: The Architecture of English	
ENGL 1160	Introduction to Rhetoric	
ENGL 1410	Introduction to Research on Writing	
ENGL 2150	Literature and Digital Diversity	
ENGL 3325	Rhetoric of Law	
ENGL 3340	Technologies of Text	
ENGL 3370	Writing Cultures	
ENGL 3381	The Practice and Theory of Teaching Writing	

ENGL 3700	Narrative Medicine	
ENGL 4400		
ENGL 4410	Research in Rhetoric and Writing	
LING 1150	Introduction to Language and Linguistics	
LING 2350	Linguistic Analysis	
LING 3450	Syntax	
LING 3452	Semantics	
LING 3454	History of English	
LING 3456	Language and Gender	
LING 3458	Topics in Linguistics	

**Comparative Literature**

Complete one of the following: 4

ENGL 1450	Reading and Writing in the Digital Age	
ENGL 1502	American Literature to 1865	
ENGL 1503		
ENGL 2150	Literature and Digital Diversity	
ENGL 2380		
ENGL 2420	Contemporary Poetry	
ENGL 2430	Contemporary Fiction	
ENGL 2450		
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2460		
ENGL 2510	Horror Fiction	
ENGL 2520	Science Fiction	
ENGL 2600	Irish Literary Culture (Abroad)	
ENGL 2620	What Is Nature?	
ENGL 2690	Boston in Literature	
ENGL 3487	Film and Text (Abroad)	
ENGL 3582		
ENGL 3663	The African American Novel	
ENGL 3676		

**Writing**

Complete one of the following: 4

ENGL 2700	Creative Writing	
ENGL 2710	Style and Editing	
ENGL 2740	Writing and Community Engagement	
ENGL 2760	Writing in Global Contexts	
ENGL 2770	Writing to Heal	
ENGL 2780	Visual Writing: Writing Visuals	
ENGL 2850	Writing for Social Media: Theory and Practice	
ENGL 3375	Writing Boston	
ENGL 3376	Creative Nonfiction	
ENGL 3377	Poetry Workshop	
ENGL 3378	Fiction Workshop	
ENGL 3380	Writing Seminar	
ENGL 3382	Publishing in the 21st Century	
ENGL 3384	The Writer's Marketplace	

**Capstone**

ENGL 4710	Capstone Seminar	4
or ENGL 4720	Capstone Project	

**English Electives**

Complete two additional ENGL electives.	8
---	---

**Integrative Requirement**

Code	Title	Hours
ARCH 2330	Architecture and the City in the Nineteenth Century	4
or ARCH 2340	Modern Architecture	
ENGL 3375	Writing Boston	4

**Program Requirement**

128 total semester hours required

## Civil Engineering and Architectural Studies, BSCE

Civil engineering and architecture are two important disciplines that deal with the process of creating the built environment to satisfy societal needs. Both professions have critical functions that are essential in the development of society in terms of planning cities and designing more resilient infrastructure and rely on one another to accomplish it. The combination of these two professions creates great synergy as architects focus more on the functional and human aspects of development, while civil engineers concentrate on the structural elements of the design, ensuring durable structures that perform under normal and extreme loads.

Students successfully completing the program receive a rigorous engineering training education, enabling a high level of engineering knowledge as well as exposure to a broad range of architectural topics and design experiences.

Students also have the opportunity to undertake a co-op experience consistent with the policies and opportunities offered within the College of Engineering.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

For this combined major, Nupath requirements are satisfied in several courses across the program and by required courses in the combined major.

**Engineering Requirement**

Code	Title	Hours
<b>Required Engineering</b>		
CIVE 2221 and CIVE 2222	Statics and Solid Mechanics and Recitation for CIVE 2221	4
CIVE 2260 and CIVE 2261	Materials for the Built Environment and Lab for CIVE 2260	5

CIVE 2320 and CIVE 2321	Structural Analysis and Recitation for CIVE 2320	4
CIVE 2324	Concrete Structure Design	4
CIVE 2331	Fluid Mechanics and Hydraulics	4
CIVE 2334	Environmental Engineering: Principles, Technology, and Sustainability	4
CIVE 2340 and CIVE 2341	Geotechnical Engineering and Lab for CIVE 2340	5
GE 3300	Energy Systems: Science, Technology, and Sustainability	4

**Civil Engineering Project Elective**

Complete one of the following:		4
CIVE 4534 and CIVE 4535	Water Treatment Systems Design and Lab for CIVE 4534	
CIVE 4542	Foundation Engineering and Design	
CIVE 4554	Highway Design	
CIVE 5536	Hydrologic and Hydraulic Design	

**Senior Design Project**

CIVE 4767	Senior Design Project—Structural	5
-----------	----------------------------------	---

**Civil Engineering Technical Electives**

Complete one of the following:		4
CIVE 3425	Steel Structure Design	
CIVE 5522	Structural Systems Modeling	

**Supplemental Credit**

1 semester hour from the following course counts toward the engineering requirement:		1
CIVE 3464	Probability and Engineering Economy for Civil Engineering	
2 semester hours from the following course count toward the engineering requirement:		2
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
3 semester hours from the following course count toward the engineering requirement:		3
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	

**Architecture Requirements**

Code	Title	Hours
ARCH 1110	Fundamental Architectural Representation	4
ARCH 1120	Fundamental Architectural Design	6
ARCH 1310 and ARCH 1311	Buildings and Cities, A Global History and Recitation for ARCH 1310	4
ARCH 2130	Site, Space, and Program	6
ARCH 2140	Urban Institutions	6
ARCH 2340 and ARCH 2341	Modern Architecture and Recitation for ARCH 2340	4
ARCH 3210 and ARCH 3211	Environmental Systems and Recitation for ARCH 3210	4

**Architectural Electives**

Complete two of the following:		8
ARCH 3370	Advanced Topics in Architectural History	
ARCH 3351	Architecture Topics Abroad: Theory	
ARCH 3352	Architecture Topics Abroad: Drawing	
ARCH 3450	Advanced Architectural Communication	
ARCH 4850	Urban and Architectural History Abroad	

ARCH 5115	Option Studio
ARCH 5220	Integrated Building Systems
ARCH 5310	Design Tactics and Operations

### Supporting Courses: Mathematics/Science

Complete all Mathematics/Science courses with a minimum of 30 semester hours.

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
Complete one of the following:		5
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
PHYS 1161 and PHYS 1162 and PHYS 1163	Physics 1 and Lab for PHYS 1161 and Recitation for PHYS 1161	
<b>Science Elective</b>		
Complete one of the following:		4-5
BIOL 1111 and BIOL 1112	General Biology 1 and Lab for BIOL 1111	
BIOL 1115 and BIOL 1116	General Biology 1 for Engineers and Lab for BIOL 1115	
BIOL 1141	Microbes and Society	
BIOL 1143	Biology and Society	
CHEM 2311 and CHEM 2312 and CHEM 2319	Organic Chemistry 1 and Lab for CHEM 2311 and Recitation for CHEM 2311	
CHEM 3410	Environmental Geochemistry	
EEMB 1101 and EEMB 1102	Foundations in Ecology and Evolutionary Biology and Lab for EEMB 1101	
EEMB 1450	Introduction to Marine Biology	
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	
ENVR 1120	Oceans and Coasts	
ENVR 1200	Dynamic Earth	
ENVR 2200	Earth's Changing Cycles	
ENVR 2515	Sustainable Development	
ENVR 3125	Global Oceanic Change	
ENVR 3200	Water Resources	
ENVR 3600	Oceanography	
ENVR 5201	Geologic Field Seminar	
ENVR 5350	Sustainable Energy and Climate Solutions	
PHYS 1111	Astronomy	
PHYS 1125	Introduction to Network Science: From the Human Cell to Facebook	
PHYS 1132	Energy, Environment, and Society	

PHYS 1155 and PHYS 1156	Physics for Engineering 2 and Lab for PHYS 1155
PHYS 4623	Medical Physics

### Supplemental Credit

3 semester hours from the following course count toward the mathematics/science requirement:		3
CIVE 3464	Probability and Engineering Economy for Civil Engineering	
1 semester hour from the following course counts toward the mathematics/science requirement:		1
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	

### Professional Development

Code	Title	Hours
<b>Professional Development</b>		
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

### Additional Required Courses

1 semester hour from the following course counts toward the professional development requirement:		1
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
1 semester hour from the following course counts toward the professional development requirement:		1
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	

### Writing Requirements

Code	Title	Hours
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

### Integrative Courses

Code	Title	Hours
This course is already required above and also fulfills the integrative requirement.		
CIVE 4767	Senior Design Project—Structural	

### Engineering GPA Requirement

Minimum 2.000 GPA required in all Engineering courses

### Architecture GPA Requirement

Minimum 2.000 GPA required in all Architecture courses

### Program Requirements

141 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

Note:

1. Students who wish to be considered for the two-year Master of Architecture Program at Northeastern **SHOULD** take ARCH 3450

as an elective and **SHOULD NOT** take ARCH 5115 or ARCH 5220 as architectural electives.

2. Students who wish to be considered for the two-year Master of Architecture Program at Northeastern MUST have satisfied the Structural Systems (ARCH 5230) requirement. This requirement is achieved in this combined major by taking the following three courses, as follows:

- CIVE 2221 Statics and Solid Mechanics (including recitation CIVE 2222)
- CIVE 2320 Structural Analysis (including recitation CIVE 2321)
- And at least one design course from the following:
  - CIVE 2324 Concrete Structure Design
  - CIVE 3425 Steel Structure Design

## Plan of Study

### Four Years, 1 Co-op in Summer 2/Fall

Year 1				
Fall	Hours Spring	Hours Summer 1	Hours Summer 2	Hours
CHEM 1151 (ND)	4 ARCH 1110 (EI)	4 MATH 2321 (FQ)	4 Vacation	
CHEM 1153	0 ARCH 1120 (ND, EI)	6 PHYS 1151 (ND)	3	
ENGW 1111 (WF)	4 GE 1502 (ER)	4 PHYS 1152 (AD)	1

### Environmental and Sustainability Sciences and Landscape Architecture, BS

The Department of Marine and Environmental Sciences and the program in landscape architecture provide an education in basic environmental and sustainability sciences and landscape-architecture-related disciplines. This combined major provides students the opportunity to obtain the fundamental scientific background and practical training to tackle environmental and landscape-related issues. The program seeks to prepare students for advanced studies or careers in fields of urban planning, urban design, sustainable development, environmental consulting, and/or other fields focusing on the interactions among landscapes, the built environment, human societies, and overall climate impacts.

#### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

#### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

#### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

#### Environmental and Sustainability Sciences Requirements

Code	Title	Hours
<b>Environmental and Sustainability Sciences Required Courses</b>		
<i>Core Courses</i>		
ENVR 1400 and ENVR 1401	Foundations in Environmental and Sustainability Sciences and Lab for ENVR 1400	5
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	5
ENVR 1200 and ENVR 1201 or ENVR 2200	Dynamic Earth and Lab for ENVR 1200 and Earth's Changing Cycles	4
ENVR 2515	Sustainable Development	4
Complete one course from each category:		
<i>Skills</i>		4-5
ENVR 1500 and ENVR 1501	Introduction to Environmental, Social, and Biological Data and Lab for ENVR 1500	
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	
EEMB 3555	Networks and Natural Systems	
<i>Earth, Oceans, and Environmental Change</i>		4-5
ENVR 2310 and ENVR 2311	Earth Materials and Lab for ENVR 2310	
ENVR 3600	Oceanography	
ENVR 3125	Global Oceanic Change	
ENVR 5150	Climate and Atmospheric Change	
<i>Conservation, Restoration, and Management</i>		4
EEMB 2400	Introduction to Evolution	
EEMB 3460	Conservation Biology	
EEMB 4001	Landscape and Restoration Ecology	
ENVR 5220	Ecosystem-Based Management	
<i>Sustainable Planning and Development</i>		4
ENVR 3200	Water Resources	
ENVR 3150	Food Security and Sustainability	
ENVR 5210	Environmental Planning	
ENVR 5350	Sustainable Energy and Climate Solutions	
<i>Environment and Society</i>		4
ENVR 5450	Applied Social-Ecological Systems Modeling	
POLS 2395	Environmental Politics and Policy	
PPUA 5260	Ecological Economics	
SOCL 2485	Environment, Technology, and Society	

#### Landscape Architecture Requirements

Code	Title	Hours
ARCH 1110	Fundamental Architectural Representation	4
ARCH 1120	Fundamental Architectural Design	6
LARC 2130	Sustainable Urban Site Design	6

LARC 2230	Introduction to Sustainable Site Planning and Design	4
LARC 2330	Cities, Landscape, and Modern Culture	4
LARC 2340	Cities, Landscape, and Contemporary Culture	4
LARC 2430	Plants, People, and Landscape Change	4

### Landscape Architecture Electives

Code	Title	Hours
Complete three of the following: 12-14		
LARC 2240	Sustainable Site Construction and Detailing	
LARC 2440	Planting Design	
LARC 3170	Landscape Planning and Urbanism Studio	
ARCH 3370	Advanced Topics in Architectural History	
ARCH 3450	Advanced Architectural Communication	
LARC 5210	Landscape Ecology	
LARC 5220	Sustainable Landscape Practices	
LARC 5310	Urban Landscape Seminar	
SUEN 6210	Implementation and Visualization for Urban Environments 1	
SUEN 6220	Implementation and Visualization for Urban Environments 2	
ARCH 3352	Architecture Topics Abroad: Drawing	
ARCH 3351	Architecture Topics Abroad: Theory	
ARCH 4850	Urban and Architectural History Abroad	

### Capstone/Integrative Course

Code	Title	Hours
Complete one of the following: 4		
ENVR 4997	Senior Thesis	
LARC 5120	Comprehensive Design Studio	
LARC 5210	Landscape Ecology	
ENVR 4050	Solving Emerging Environmental Challenges through Capstone	

### Environmental and Sustainability Sciences and Landscape Architecture Major Credit Requirement

Complete a minimum of 84 semester hours in the major.

### Program Requirements

132 total semester hours required

### Plan of Study

#### Four-Years, Two Co-ops

Year 1				
Fall	Hours Spring	Hours Summer 1	Hours Summer 2	Hours

## Environmental Engineering and Landscape Architecture, BSEnVE

Environmental engineering and landscape architecture are two important disciplines that deal with the complex interaction between the natural and the built environment. Both professions have critical functions that are essential in the development of society in terms of planning and designing more sustainable cities. The combination of these two professions creates great synergy and seeks to expose engineering students to the conceptual and practical content of landscape planning. Successful graduates from this degree are prepared to imagine and create projects that can be translated into reality providing solutions to address the world's growing challenges by designing clean and sustainable environments and green infrastructure.

Students completing the combined major Bachelor of Science in Environmental Engineering and Landscape Architecture receive a rigorous engineering training education, enabling a high level of engineering knowledge as well as exposure to a broad range of landscape architectural topics and design experiences.

Students will also have the opportunity to undertake a co-op experience consistent with the policies and opportunities offered within the College of Engineering.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

For this combined major, Nupath requirements are satisfied in several courses across the program and by required courses in the combined major.

### Engineering Requirement

Code	Title	Hours
<b>Required Engineering</b>		
CIVE 2221 and CIVE 2222	Statics and Solid Mechanics and Recitation for CIVE 2221	4
CIVE 2260 and CIVE 2261	Materials for the Built Environment and Lab for CIVE 2260	5
CIVE 2331	Fluid Mechanics and Hydraulics	4
CIVE 2334	Environmental Engineering: Principles, Technology, and Sustainability	4
CIVE 3435	Environmental Pollution Fate and Transport	4
CIVE 4534 and CIVE 4535	Water Treatment Systems Design and Lab for CIVE 4534	4
CIVE 5300 and CIVE 5301	Environmental Sampling and Analysis and Lab for CIVE 5300	4
GE 3300	Energy Systems: Science, Technology, and Sustainability	4

#### Senior Design Project

CIVE 4765	Senior Design Project—Environmental	5
-----------	-------------------------------------	---

#### Supplemental Credit

1 semester hour from the following course counts toward the engineering requirement: 1

CIVE 3464	Probability and Engineering Economy for Civil Engineering	
-----------	---	--

3 semester hours from the following course count toward the engineering requirement: 3

CIVE 2335	Environmental Engineering Chemistry	
-----------	-------------------------------------	--

3 semester hours from the following course count toward the engineering requirement: 3

CIVE 3430	Engineering Microbiology and Ecology	
-----------	--------------------------------------	--

2 semester hours from the following course count toward the engineering requirement: 2

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
---------	---	--

3 semester hours from the following course count toward the engineering requirement: 3

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	
---------	---	--

### Landscape Architecture Requirements

Code	Title	Hours
ARCH 1110	Fundamental Architectural Representation	4
ARCH 1120	Fundamental Architectural Design	6

ARCH 1310 and ARCH 1311	Buildings and Cities, A Global History and Recitation for ARCH 1310	4
ARCH 2340 and ARCH 2341	Modern Architecture and Recitation for ARCH 2340	4
LARC 2230	Introduction to Sustainable Site Planning and Design	4
LARC 2240	Sustainable Site Construction and Detailing	4
LARC 2430	Plants, People, and Landscape Change	4
LARC 2440	Planting Design	4
LARC 5420	Professional Practice in Landscape Architecture	4
or LARC 2340	Cities, Landscape, and Contemporary Culture	

### Supporting Courses: Mathematics/Science

Complete all Mathematics/Science courses with a minimum of 30 semester hours.

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
Complete one of the following:		5
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
PHYS 1161 and PHYS 1162 and PHYS 1163	Physics 1 and Lab for PHYS 1161 and Recitation for PHYS 1161	

### Science Elective (Earth)

Complete one of the following:		4-5
ENVR 1120	Oceans and Coasts	
ENVR 1200	Dynamic Earth	
ENVR 2200	Earth's Changing Cycles	
ENVR 3125	Global Oceanic Change	
ENVR 3200	Water Resources	
ENVR 3600	Oceanography	
ENVR 5201	Geologic Field Seminar	

### Supplemental Credit

3 semester hours from the following course count toward the mathematics/science requirement:		3
CIVE 3464	Probability and Engineering Economy for Civil Engineering	
1 semester hour from the following course counts toward the mathematics/science requirement:		1
CIVE 2335	Environmental Engineering Chemistry	
1 semester hour from the following course counts toward the mathematics/science requirement:		1
CIVE 3430	Engineering Microbiology and Ecology	

1 semester hour from the following course counts toward the mathematics/science requirement:		1
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	

### Professional Development

Code	Title	Hours
<b>Professional Development</b>		
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

### Additional Required Courses

1 semester hour from the following course counts toward the professional development requirement:		1
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
1 semester hour from the following course counts toward the professional development requirement:		1
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	

### Writing Requirements

Code	Title	Hours
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

### Integrative Courses

Code	Title	Hours
This course is already required above and also fulfills the integrative requirement.		
CIVE 4765	Senior Design Project—Environmental	

### Engineering GPA Requirement

Minimum 2.000 GPA required in all major courses

### Landscape Architecture GPA Requirement

Minimum 2.500 GPA required in all major courses

### Program Requirements

136 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

### Plan of Study

#### Four Years, 1 Co-op in Summer 2/Fall

Year 1							
Fall	Hours	Spring	Hours	Summer 1	Hours	Summer 2	Hours

## Landscape Architecture, BLA

Website (<https://camd.northeastern.edu/architecture/academic-programs/architecture-urban-landscape/>)

Northeastern University offers a Bachelor of Landscape Architecture. This new major reflects a growing public interest in making our cities more sustainable and in bringing the insights of landscape architects to join those of urban designers and architects. This hybrid field has deep roots in design, ecology, planning, and aesthetics. In the past 15 years, it has come to play an evermore important role in the design of new places, as well as the retrofitting of our older, postindustrial landscapes. An inherently interdisciplinary program, urban landscape will involve collaborations with other academic units on campus.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Natural and Designed World (ND), Creative Expression/Innovation (EI), Interpreting Culture (IC), Formal and Quantitative Reasoning (FQ), Societies and Institutions (SI), Analyzing and Using Data (AD), and Difference and Diversity (DD) are met through the major course requirements.

NUpath requirement Ethical Reasoning (ER) must be met through general electives.

### Landscape Architecture Major Requirements

Code	Title	Hours
<b>Introduction to College</b>		
ARCH 1000	Architecture at Northeastern	1
<b>Calculus</b>		
MATH 1241	Calculus 1	4
<b>Environmental Geology</b>		
ENVR 2200	Earth's Changing Cycles	4
<b>Foundation Courses</b>		
ARCH 1110	Fundamental Architectural Representation	4
ARCH 1120	Fundamental Architectural Design	6
<b>History/Theory Courses</b>		
ARCH 1310 and ARCH 1311	Buildings and Cities, A Global History and Recitation for ARCH 1310	4
LARC 2330	Cities, Landscape, and Modern Culture	4
LARC 2340	Cities, Landscape, and Contemporary Culture	4
LARC 5310	Urban Landscape Seminar	4
<b>Technology/Science Courses</b>		

ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	5
LARC 2230	Introduction to Sustainable Site Planning and Design	4
LARC 2430	Plants, People, and Landscape Change	4
LARC 2240	Sustainable Site Construction and Detailing	4
LARC 5210	Landscape Ecology	4
LARC 5220	Sustainable Landscape Practices	4
LARC 5420	Professional Practice in Landscape Architecture	4

## Architectural and Urban History, Minor

Website (<https://camd.northeastern.edu/architecture/academic-programs/architectural-history/>)

The four-course minor introduces students to the study of architectural history, paying particular attention to the relationship between buildings and their larger urban, cultural, economic, and social environments. The minor includes one general survey class that covers a variety of different cultures and geographic contexts over time. Students may then choose from a suite of architectural history courses to fulfill the remaining 12 credits of this minor.

Please note: This minor is not available to students in the BS Architecture or BS Architectural Studies major. BLA Landscape Architecture students may double count at most one course with this minor.

### Minor Requirements

Note: This minor is not available to students in the BS in architecture or BS in architectural studies major. BLA in landscape architecture students may double count at most one course with this minor.

### Required Courses

Code	Title	Hours
<b>Architectural History Core</b>		
ARCH 1310	Buildings and Cities, A Global History	4
<b>Electives</b>		
Complete three of the following:		12
ARCH 1350	American Architecture	
ARCH 1370	Special Topics in Architectural History	
<i>Any course from the ARCH 2300 series, including:</i>		
ARCH 2310	History of Chinese Architecture	
ARCH 2315	East Asian Architecture: History from a Global Perspective	
ARCH 2320	Modern Chinese Architecture	
ARCH 2330	Architecture and the City in the Nineteenth Century	

ARCH 2335	Architecture and Politics
ARCH 2340	Modern Architecture
ARCH 2345	Contemporary Architecture
ARCH 2350	American Architecture
ARCH 3361	Architecture and Urbanism Abroad
ARCH 3370	Advanced Topics in Architectural History
ARCH 4850	Urban and Architectural History Abroad

### GPA Requirement

2.000 GPA required in the minor

## Architectural Design, Minor

This minor introduces students to the breadth of architecture and the three-legged stool of designing architecture: design, history, and technology. Indeed, building technology and contextual and historical understanding are essential ingredients of architectural design. The minor is structured to ensure that all students take at least one fundamental class in each of these three "legs." Students may then shape the minor to align their interests with their choices of the architectural design course and elective.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any recitations where specified. Please note: This minor is not available to students in the Bachelor of Science in Architecture or Bachelor of Science in Architectural Studies major. Bachelor of Landscape Architecture students may double count at most one course with this minor.

### Requirements

Code	Title	Hours
<b>Required Foundation Course</b>		
ARCH 1110	Fundamental Architectural Representation	4
<b>Required Architecture Design</b>		
Complete one of the following:		4-6
ARCH 1450	Understanding Design	
or ARCH 1120	Fundamental Architectural Design	
<b>Required Technology Course</b>		
ARCH 2260	Introduction to Building Systems	4
<b>Required History Elective</b>		
Complete one of the following:		4
ARCH 1310	Buildings and Cities, A Global History	
ARCH 1370	Special Topics in Architectural History	
ARCH 2310	History of Chinese Architecture	
ARCH 2315	East Asian Architecture: History from a Global Perspective	
ARCH 2320	Modern Chinese Architecture	
ARCH 2330 and ARCH 2331	Architecture and the City in the Nineteenth Century and Recitation for ARCH 2330	
ARCH 2335	Architecture and Politics	
ARCH 2340 and ARCH 2341	Modern Architecture and Recitation for ARCH 2340	
ARCH 2345	Contemporary Architecture	
ARCH 2350	American Architecture	

ARCH 2355	Architecture Conservation: Intervention, Transformation, and Reuse
ARCH 2370	Topics in Architectural History
ARCH 3352	Architecture Topics Abroad: Drawing
ARCH 3351	Architecture Topics Abroad: Theory
ARCH 4850	Urban and Architectural History Abroad
Any course within the ARCH 2300–2399 range	

### GPA Requirement

2.000 GPA required in the minor

### Architectural Science and Systems, Minor

The Minor in Architectural Science and Systems is a four-course curriculum that combines a comprehensive exploration of the full range of building systems with a thorough understanding of the physical phenomena to which they respond. Students investigate the primary component systems of buildings and their synergistic integration, including site, structure, enclosure, environmental comfort, and passive and active energy systems. While technical topics form the core content of these courses, systems thinking is the critical and analytical bond among them.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Only one course can be double counted toward any other major or minor.

### Requirements

Code	Title	Hours
<b>Building Systems Required Course</b>		
ARCH 2260	Introduction to Building Systems	4
<b>Building Systems Core</b>		
Complete two of the following:		8
ARCH 2240	Architectonic Systems	
ARCH 3210	Environmental Systems	
or ARCH 5210	Environmental Systems	
ARCH 5230	Structural Systems	
<b>Elective</b>		
Complete one of the following (the third course from the Building Systems Core section above may be taken as an elective):		4
ARCH 5220	Integrated Building Systems	
GE 3300	Energy Systems: Science, Technology, and Sustainability	
SBSY 5200	Sustainable Engineering Systems for Buildings	

### GPA Requirement

2.000 GPA required in the minor

### Urban Landscape Studies, Minor

Website (<https://camd.northeastern.edu/architecture/academic-programs/urban-landscape-studies/>)

The minor in urban landscape studies has two tracks, one for architecture majors and a second for students from other disciplines. The minor introduces fundamental design and management of sustainable urban environments, as well as an overview of historical and contemporary issues in urban landscape.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

No more than one course may count toward any other degree or minor

### Required Courses

Code	Title	Hours
<b>Urban Landscape Core 1</b>		
LARC 2340	Cities, Landscape, and Contemporary Culture	4
<b>Urban Landscape Core 2</b>		
Complete two of the following:		8
LARC 2230	Introduction to Sustainable Site Planning and Design	
LARC 2330	Cities, Landscape, and Modern Culture	
LARC 2430	Plants, People, and Landscape Change	

### Elective

Code	Title	Hours
Complete one of the following:		4
AFAM 2549	Public Policy and Black America	
ARCH 1310	Buildings and Cities, A Global History	
ARCH 3352	Architecture Topics Abroad: Drawing	
ARCH 4850	Urban and Architectural History Abroad	
CIVE 2334	Environmental Engineering: Principles, Technology, and Sustainability	
ENVR 1200	Dynamic Earth	
ENVR 3200	Water Resources	
LARC 2230	Introduction to Sustainable Site Planning and Design	
LARC 2240	Sustainable Site Construction and Detailing	
LARC 2330	Cities, Landscape, and Modern Culture	
LARC 2430	Plants, People, and Landscape Change	
LARC 2440	Planting Design	
LARC 5210	Landscape Ecology	
POLS 2395	Environmental Politics and Policy	
SOCL 1246	Environment and Society	

### GPA Requirement

2.500 GPA required in the minor

### Art + Design

Website (<https://camd.northeastern.edu/artdesign/>)

**Jason Donati, MFA**

Interim Chair

617.373.4340

Art makes life meaningful. Design makes life possible. Together they make life wonderful. The work of artists and designers informs and forms cultures, benefits society, and empowers the global marketplace of ideas. The faculty in the Department of Art + Design seeks to prepare students for a rich and rewarding life making a significant difference in the lives of others. We study the fundamentals of knowing, thinking, making, and doing; you have an opportunity to learn to use ideas and influences, tools and techniques, and principles and processes of art and design. We provide a faculty, format, and facilities for a great experiential education in art and design within a major urban research university. You pursue your curiosity about, intentions toward, and obligations to the evolving world. Summer programs may include Iceland, Ireland, Venice, Rome, Berlin, Budapest, Cuba, Japan, and Ecuador and offer intensive studio experiences to augment your study with travel and creative work in the context of other cultures.

Whether you are studying design, media art, or game design, the Department of Art + Design seeks to cultivate your talents as a source of original ideas and expressions of an inner life, using classical, current, and emerging media. You are inspired and challenged to create powerful new works. You will gain visual literacy and fluency with professional art, design, and game design practices in the context of a liberal arts education. You can be transformed into a creative force, ready to realize your potential and create cultural value and social benefit.

## Art, BA

Northeastern offers a studio-based fine art program that investigates visual studies and various cultures, giving students a way of developing their own creative practice as well as an understanding of the relationship between form and meaning. To achieve this level of consciousness around arts practice, students will strike a balance between studio courses in drawing/painting and digital media with visual studies courses that focus on the historical, theoretical, and critical interpretation of visual art. This exploration of art methods creates a more visually and conceptually astute student through making. Students' education, experience, and training in understanding creative practices takes full advantage of the remarkable scope of the College of Arts, Media and Design. Some courses in this program are offered in locations abroad and may include Iceland, Ireland, Japan, and Galapagos, where students have an intensive and immersive creative experience during five-week summer sessions. Additionally, students may opt to enroll in select courses at the University of Arts London (UAL), Fine Art at Central Saint Martins campus. This unique opportunity allows students to spend a semester in London while discovering a new culture.

The visual studies concentration examines both the production and public reception of art across regions, contexts, periods, and media, foregrounding arts' status as both a material artifact and social communication. Courses reflect the active research profiles and professional experience of its distinguished faculty who all prioritize accessibility, collaboration, and cutting-edge research. Lectures and seminars take advantage of Northeastern's proximity to area museums and cultural centers, including the Institute of Contemporary Art and the Museum of Fine Arts, as well as campus facilities and initiatives like Gallery 360 and the Center for the Arts. Other dynamic resources include Northeastern's own renowned archives offering tangible case studies to consider how criticism coalesces into the historical record. Visual studies introduces students to a broad range of creative careers endemic to the fields of design, publishing, curation, conservation, and scholarship.

The Department of Art + Design uses communal studio space to train students in painting and drawing processes. The department also hosts

a fabrication lab that supports a wide range of material-based research for the CAMD community. Beyond the foundation-level courses required for all students, the makerspace provides the resources for prototyping processes ranging from model making, woodworking, CAD, as well as digital fabrication through laser cutting, 3D scanning, and 3D printing.

The **Bachelor of Arts in Art** is offered with a concentration in visual studies or without a concentration.

## Design, BFA

Design is the practice-based discipline that poses important questions about—and provides significant answers to—how we live. Designers are needed when we don't know what is needed as well as when we think we do. Designers propose alternative futures and create new choices using principles and processes to create, compose, and construct meaning in diverse knowledge fields. Designers seek a broad understanding of principles and systems of perception, communication, and action. Concentrations in design practices are graphic and information design, interaction design, and experience design.

Graphic designers make messages and meaning using visual form and the integration of text and image. Their work often has a persuasive intent and uses rules of visual composition, form, and pattern to enable storytelling or to create attention and an ambiance for consideration. Information designers visualize concepts and data to enhance human understanding of complex and vital knowledge. Their work has an enlightening or instructive intent and is based on factual content.

Interaction designers focus on the creation of navigable interfaces and systems that allow audiences to take an active role to achieve meaningful goals. Their work connects people to people and people to information and environments.

Experience designers take a holistic and integrative approach that focuses on the quality of the human experience in concrete situations. They employ research, analysis, creativity, and technology as tools to understand human goals, needs, and desires. Their work examines and improves contexts, systems, services, or events.

Additionally, students may opt to enroll in select courses at the University of Arts London (UAL), Fine Art at Central Saint Martins or Design Management at London College of Communications (<https://www.arts.ac.uk/subjects/business-and-management-and-science/undergraduate/ba-hons-design-management-lcc/>) campus. This unique opportunity allows students to spend a semester in London while discovering a new culture.

The **Bachelor of Fine Arts in Design** is offered with the following concentration options: experience design, interaction design, or graphic and information design.

## Game Design, BFA

The BFA in Game Design seeks to give students the skills to communicate ideas and emotions through interactive media. The focus of the BFA degree is to explore games as an aesthetic and expressive form through critical analysis and creative, reflective practice. To reflect emerging trends in the video and analog game industries, including broader platforms, audiences, and distribution channels, students will be oriented toward developing games and playful media in an independent creative context. Curriculum is geared to cultivating students' unique creative voices through courses applying theoretical analysis to game-development practices across a wide range of media. Students are exposed to a wide variety of genres and contexts, as well as different ways of thinking about games content, platforms, and asset production.

## Media Arts, BFA

The continuing revolution in digital computing and global communications has produced a rapidly evolving field for artists who create experiences of image and form with computer screens, intelligent devices, and new materials. Artists also invent tools for exploring, creating, and distributing their ideas and works. Media arts concentrations of animation, photography, and video arts are offered with variations yet to be invented.

Courses in imaginative and narrative arts, required for professional work in documentary films, game art, visualization, visual effects, motion graphics, interactive art, illustration, and short animated films are offered at Northeastern. The curriculum in our intensive studio program provides knowledge, experience, and techniques of media arts informed by theory, experimentation, and critique. Extensive digital imaging and interactive media editing production facilities afford one the opportunity to become highly proficient in the current skills and emerging practices necessary for remarkable work. The media arts are evolving and expanding into culture in daily life and global experience. The revolutions in immersive media, 3D printing, embedded devices, and robotics are changing the landscape in which the media artist will operate. This degree is designed to prepare students to meet the challenges of continuous change with adaptive ingenuity. Additionally, students may opt to enroll in select courses at the University of Arts London (UAL), Fine Art at Central Saint Martins campus. This unique opportunity allows students to spend a semester in London while discovering a new culture.

The animation concentration provides a comprehensive exploration of the entire production pipeline for a variety of animated content including films, visual effects, broadcast, visualization, games, and spatial media. With a focus on developing robust, conceptual, narrative, and technical software skills, this rigorous studio program explores the power and potential of effective visual communication through 2D and 3D motion design. The animation concentration provides ample opportunities to explore and collaborate with related creative disciplines (VR/AR/XR, game design, interactive, video, etc.), making this a truly unique learning experience. Throughout their education, students will work to develop a professional-level portfolio, the centerpiece of which will be a one-year capstone project, demonstrating mastery in their specific area of focus.

The photography concentration encourages experimental and self-disciplined engagement with photographic processes in order to understand how materials function, both as a physical component of photographic work as well as a signifier of meaning. Concept and process are in constant dialogue, and we believe learning through doing cultivates individual vision and working methods. Each student's creative approach establishes a vital platform for discovery. In addition, theory and conceptual development provide students with necessary analytical tools for understanding and analyzing visual and technological trends in current and future photographic practices.

Young professionals today must meet challenges—as well as enjoy opportunities—to be more creative, adaptive, and innovative as active practitioners within our contemporary visual culture and evolving technological environment. Our responsibility as liberal arts educators is to expand the skills and vision of each student in light of their individual and professional goals. At a time when initiative, creativity, and innovation are leading principles for social and economic progress, it is important to stress the ways in which their artistic and creative endeavors can make a rewarding and meaningful contribution.

Northeastern photography program students find themselves in the center of Boston's creative hub, across from the Museum of Fine

Arts. Northeastern's own Center for the Arts directs interdisciplinary research and presents exhibitions and innovative programs. The newly renovated Media Hub offers state-of-the-art equipment rentals and digital printing resources. Photography students have access to two large computer labs and an alternative photographic processes darkroom with film processing and analog printing capabilities.

Our foundation photography courses are small studio and lab classes, leading to intermediate and advanced studios and seminars with an emphasis on personal vision developed through lectures, critiques, individual meetings, and research. In addition, guest artists are invited to participate and offer insights.

The video arts concentration is a multidisciplinary field focused on creative video expression and messaging that weaves together art and design foundations; art and design history; video production; cinematic language (including documentary, narrative, and experimental strategies); collaborative frameworks; and theories of social and cultural change. The scope of the video arts curriculum is a broader and more diverse tapestry than traditional video art, and it reflects the dynamic evolution of video in multiple contexts. The video arts concentration enables students to explore traditional, alternative, and other artistic means of video art production in a variety of creative and technical contexts. The focus on a multiplicity of artistic formats—hence, the choice of the title video arts—underscores our attention to the training of students who are interested in learning how to experiment with new technical, narrative, and aesthetic practices and incorporate these options into the traditional medium of video art.

The **Bachelor of Fine Arts in Media Arts** is offered without a concentration or with the following concentration options: animation, photography, or video arts.

## Studio Art, BFA

Our BFA in Studio Art is offered in partnership with the School of the Museum of Fine Arts at Tufts University (SMFA at Tufts) (<https://smfa.tufts.edu/>) across Huntington Avenue from our campus. In this major, your studio art classes are taken at the SMFA at Tufts, which allows students to explore a wide range of artistic media, including ceramics, drawing, film, metalsmithing, painting, performance, printing, sculpture, and sound, in their extensive studio environments. Our students complete Art + Design history courses in our department and they have access to all the elective courses, co-op and study-abroad programs, student resources, and activities that Northeastern students experience. Additionally, students may opt to enroll in select courses at the University of Arts London (UAL), Fine Art at Central Saint Martins campus. This unique opportunity allows students to spend a semester in London while discovering a new culture.

The **Bachelor of Fine Arts in Studio Art** degree is awarded by Northeastern.

## Admission Requirements for Art + Design

There are specific admissions criteria for students entering majors in the Department of Art + Design. See Admission Requirements for the College of Arts, Media and Design (p. ).

## Academic Progression Standards

Same as college standards.

## Programs

### Bachelor of Arts (BA)

- Art (p. 75)
- Communication Studies and Graphic and Information Design (p. 100)
- English and Graphic and Information Design (p. 101)
- Media and Screen Studies and Media Arts (p. 113)
- Media Arts and Communication Studies (p. 114)
- Theatre and Interaction Design (p. 116)

### Bachelor of Fine Arts (BFA)

- Design (p. 77)
- Game Design (p. 81)
- Media Arts (p. 82)
- Studio Art (p. 87)
- Game Art and Animation (p. 104)

### Bachelor of Science (BS)

- Architectural Studies and Design (p. 58)
- Behavioral Neuroscience and Design (p. 88)
- Business Administration and Design (p. 91)
- Computer Science and Design (p. 93)
- Computer Science and Game Development (p. 96)
- Computer Science and Media Arts (p. 97)
- Game Design and Music with Concentration in Music Technology (p. 108)
- Graphic and Information Design and Mathematics (p. 109)
- Journalism and Interaction Design (p. 111)
- Theatre and Interaction Design (p. 118)

### Bachelor of Science in Mechanical Engineering (BSME)

- Mechanical Engineering and Design (p. 119)

### Minors

- Animation (p. 123)
- Art (p. 124)
- Art History (p. 125)
- Creative Fabrication (p. 125)
- Experience Design (p. 126)
- Game Art (p. 126)
- Game Design (p. 127)
- Graphic and Information Design (p. 127)
- Immersive Media (p. 128)
- Interaction Design (p. 128)
- Photography (p. 129)
- Photojournalism (p. 130)
- Video Arts (p. 130)

## Art, BA

The Bachelor of Arts is a studio-based fine art program that offers an investigation into visual studies and various cultures, giving students a way of developing their own vision of creative practice as well as an understanding of the relationship between form and meaning. To achieve this level of consciousness around arts practice, students are offered a balance between studio courses in drawing/

painting and digital media with visual studies courses that focus on the historical, theoretical, and critical interpretation of visual art. This exploration of art methods creates a more visually and conceptually astute student through making. Students' education, experience, and training in understanding creative practices takes full advantage of the remarkable scope of the College of Arts, Media and Design. Some courses in this program are offered in locations abroad including Iceland, Ireland, Japan, and Galapagos, where students have an intensive and immersive creative experience during five-week summer sessions. Additionally, students may opt to enroll in select courses at the University of the Arts London ([https://www.arts.ac.uk/?utm\\_source=qs&utm\\_medium=profile&utm\\_campaign=referralsites](https://www.arts.ac.uk/?utm_source=qs&utm_medium=profile&utm_campaign=referralsites)) (UAL), fine art at Central Saint Martins (<https://www.arts.ac.uk/subjects/fine-art/undergraduate/ba-hons-fine-art-csm/>) campus. This unique opportunity allows students to spend a semester in London while discovering a new culture.

The visual studies concentration examines both the production and public reception of art across regions, contexts, periods, and media, foregrounding arts' status as both a material artifact and an act of social communication. Courses reflect the active research profiles and professional experience of its distinguished faculty who all prioritize accessibility, collaboration, and cutting-edge research. Lectures and seminars take advantage of Northeastern's proximity to area museums and cultural centers—including the Institute of Contemporary Art and the Museum of Fine Arts—and campus facilities and initiatives like Gallery 360 and the Center for the Arts. Other dynamic resources include Northeastern's own renowned archives offering tangible case studies to consider how criticism coalesces into the historical record. Visual studies introduces students to a broad range of creative careers endemic to the fields of design, publishing, curation, conservation, and scholarship.

The Department of Art + Design uses communal studio space to train students in painting and drawing processes. The department also hosts a fabrication lab that supports a wide range of material-based research for the CAMD community. Beyond the foundation-level courses required for all students, the makerspace provides the resources for prototyping processes ranging from model making, woodworking, CAD, as well as digital fabrication through laser cutting, 3D scanning, and 3D printing.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (EI), Interpreting Culture (IC), and Societies and Institutions (SI) are met through the major course requirements.

NUpath requirements Natural and Designed World (ND), Formal and Quantitative Reasoning (FQ), Analyzing and Using Data (AD), Difference and Diversity (DD), and Ethical Reasoning (ER) must be met through general electives.

Notes:

Optional study abroad with University of the Arts London ([https://www.arts.ac.uk/?utm\\_source=qs&utm\\_medium=profile&utm\\_campaign=referralsites](https://www.arts.ac.uk/?utm_source=qs&utm_medium=profile&utm_campaign=referralsites)), based in the heart of one of the world's creative capitals, London. Students from this program will have the opportunity to spend their second spring semester in London studying fine art at Central Saint Martins (<https://www.arts.ac.uk/subjects/fine-art/undergraduate/bahons-fine-art-csm/>).

## Design, BFA

Design is the practice-based discipline that poses important questions about—and provides significant answers to—how we live. Designers are needed when we don't know what is needed as well as when we think we do. Designers propose alternative futures and create new choices using principles and processes to create, compose, and construct meaning in diverse knowledge fields. Designers seek a broad understanding of principles and systems of perception, communication, and action. Concentrations in design practices are graphic and information design, interaction design, and experience design.

Graphic designers make messages and meaning using visual form and the integration of text and image. Their work often has a persuasive intent and uses rules of visual composition, form, and pattern to enable storytelling or to create attention and an ambiance for consideration. Information designers visualize concepts and data to enhance human understanding of complex and vital knowledge. Their work has an enlightening or instructive intent and is based on factual content.

Interaction designers focus on the creation of navigable interfaces and systems that allow audiences to take an active role to achieve meaningful goals. Their work connects people to people and people to information and environments.

Experience designers take a holistic and integrative approach that focuses on the quality of the human experience in concrete situations. They employ research, analysis, creativity, and technology as tools to

understand human goals, needs, and desires. Their work examines and improves contexts, systems, services, or events.

The Bachelor of Fine Arts in Design is offered with the following concentration options: graphic and information design, interaction design, or experience design.

The major offers optional study abroad with University of Arts London (<https://www.arts.ac.uk/>), based in the heart of one of the world's creative capitals, London. Students from this program will have the opportunity to spend their second spring semester in London studying fine art at Central Saint Martins (<https://www.arts.ac.uk/subjects/fine-art/undergraduate/ba-hons-fine-art-csm/>).

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (EI), Interpreting Culture (IC), and Societies and Institutions (SI) are met through the major course requirements. All other NUpath requirements must be met through electives.

Optional study abroad with University of Arts London ([https://www.arts.ac.uk/?](https://www.arts.ac.uk/))

utm\_source=qs&utm\_medium=profile&utm\_campaign=referralsites), based in the heart of one of the world's creative capitals, London. Students from this program will have the opportunity to spend their second year spring semester in London studying design management at London College of Communication (<https://www.arts.ac.uk/subjects/business-and-management-and-science/undergraduate/ba-hons-design-management-lcc/>).

## Game Design, BFA

The Bachelor of Fine Arts in Game Design is designed to provide students with the skills to communicate ideas and emotions through interactive media. The focus of the BFA degree is exploring games as an aesthetic and expressive form through critical analysis and creative, reflective practice. Anticipating emerging trends in the video and analog game industries—including broader platforms, audiences, and distribution channels—students will be oriented toward developing games and playful media in an independent creative context. Curriculum is geared to cultivate students' unique creative voices through courses that apply theoretical analysis to game-development practices across a range of media. Students are exposed to a wide variety of genres and contexts, as well as alternative ways of thinking about games content, platforms, and asset production.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (EI), Formal and Quantitative Reasoning (FQ), and Analyzing/Using Data (AD) are met through the major course requirements. All other NUpath requirements must be met through electives.

### Required Courses

Code	Title	Hours
<b>Art and Design at Northeastern</b>		
ARTF 1000	Art and Design at Northeastern	1
<b>Game Studies</b>		
GAME 1110	Games and Society	4
GAME 2650	Introduction to Game Research Methods	4
<b>Game Design</b>		
GAME 2500	Foundations of Game Design	4
GAME 2950	Game Studio	4
GAME 3700	Rapid Idea Prototyping for Games	4
<b>Game Development</b>		
ARTG 2260	Programming Basics	4
GAME 3300	Game Interface Design	4
GAME 3400	Level Design and Game Architecture	4

GAME 3800	Game Concept Development	4
<b>Game Aesthetics</b>		
ARTF 1122	Color and Composition (with optional ARTF 1124 )	4
ARTF 1124 and ARTF 1125	Form and Structure and Form and Structure Tools	5
ARTF 2220	Movement and Time (with optional ARTF 2221 )	4
ARTD 2370	Animation Basics (with optional ARTD 2371 )	4

### Critical Play

GAME 2010	The Business of Games	4
-----------	-----------------------	---

### Capstone

A grade of C or higher is required:

GAME 4700	Game Design Capstone	4
-----------	----------------------	---

### Electives

Code	Title	Hours
------	-------	-------

#### Game Design and Development

Complete two of the following as long as prerequisites have been met: 8

GAME 1850	Experimental Game Design	
GAME 1999	Principles of Board Game Development	
GAME 2991	Research in Game Design	
GAME 3055	Playful Design	
GAME 3800	Game Concept Development	
GAME 4460	Generative Game Design	
GAME 4600	Game Production	

#### Game Aesthetics and Critical Play

Complete two of the following as long as prerequisites have been met: 8

GAME 2355	Narrative for Games	
GAME 2750	Games Criticism and Theory	
GAME 2755	Games and Social Justice	
GAME 4155	Designing Imaginary Worlds	

#### Art + Design

Complete three of the following as long as prerequisites have been met: 12

ARTF 1120	Observational Drawing	
ARTF 2223	Experience and Interaction (with optional ARTF 2224)	
ARTD 3470	Animation 1	
ARTD 3472	Character Design for Animation	
ARTD 3473	Animation for Games	
ARTG 3250	Physical Computing	

#### Art History

Complete one art history course within the ARTH subject code. 4

### Game Design Major Credit/GPA Requirement

Complete 92 semester hours for the major with a 2.000 GPA.

### Program Requirement

128 total semester hours required

## Media Arts, BFA

The continuing revolution in digital computing and global communications has produced a rapidly evolving field for artists who create experiences of image and form with computer screens, intelligent devices, and new materials. Artists also invent tools for exploring, creating, and distributing their ideas and works. Media arts concentrations of animation, photography, and video arts are offered with variations yet to be invented.

Courses in imaginative and narrative arts required for professional work in documentary films, game art, visualization, visual effects, motion graphics, interactive art, illustration, and short animated films are offered at Northeastern. The curriculum in our intensive studio program provides knowledge, experience, and techniques of media arts informed by theory, experimentation, and critique. Extensive digital imaging and interactive media editing production facilities afford one the opportunity to become highly proficient in the current skills and emerging practices necessary for remarkable work. The media arts are evolving and expanding into culture in daily life and global experience. The revolutions in immersive media, 3D printing, embedded devices, and robotics are changing the landscape in which the media artist will operate. This degree is designed to prepare students to meet the challenges of continuous change with adaptive ingenuity.

The animation concentration provides a comprehensive exploration of the entire production pipeline for a variety of animated content including films, visual effects, broadcast, visualization, games, and spatial media. With a focus on developing robust, conceptual, narrative, and technical software skills, this rigorous studio program explores the power and potential of effective visual communication through 2D and 3D motion design. The animation concentration provides ample opportunities to explore and collaborate with related creative disciplines (VR/AR/XR, game design, interactive, video, etc.) making this a truly unique learning experience. Throughout their education, students will work to develop a professional-level portfolio—the centerpiece of which will be a one-year capstone project—demonstrating mastery in their specific area of focus.

The photography concentration encourages experimental and self-disciplined engagement with photographic processes in order to understand how materials function, both as a physical component of photographic work as well as a signifier of meaning. Concept and process are in constant dialogue, and we believe learning through doing cultivates individual vision and working methods. Each student's creative approach establishes a vital platform for discovery. In addition, theory and conceptual development provide students with necessary analytical tools for understanding and analyzing visual and technological trends in current and future photographic practices.

Young professionals today must meet challenges—as well as enjoy opportunities—to be more creative, adaptive, and innovative as active practitioners within our contemporary visual culture and evolving technological environment. Our responsibility as liberal arts educators is to expand the skills and vision of each student in light of their individual and professional goals. At a time when initiative, creativity, and innovation are leading principles for social and economic progress, it is important to stress the ways in which their artistic and creative endeavors can make a rewarding and meaningful contribution.

Northeastern photography program students find themselves in the center of Boston's creative hub, across from the Museum of Fine Arts. Northeastern's own Center for the Arts directs interdisciplinary research and presents exhibitions and innovative programs. The newly renovated Media Hub offers state-of-the-art equipment rentals and digital printing

resources. Photography students have access to two large computer labs and an alternative photographic processes darkroom with film processing and analog printing capabilities.

Our foundation photography courses are small studio and lab classes, leading to intermediate and advanced studios and seminars with an emphasis on personal vision developed through lectures, critiques, individual meetings, and research. In addition, guest artists are invited to participate and offer insights.

The video arts concentration is a multidisciplinary field focused on creative video expression and messaging that weaves together art and design foundations; art and design history; video production; cinematic language (including documentary, narrative, and experimental strategies); collaborative frameworks; and theories of social and cultural change.

The scope of the video arts curriculum is a broader and more diverse tapestry than traditional video art and it reflects the dynamic evolution of video in multiple contexts. The video arts concentration enables students to explore traditional, alternative, and other artistic means of video art production in a variety of creative and technical contexts. The focus on a multiplicity of artistic formats—hence, the choice of the title video arts—underscores our attention to the training of students who are interested in learning how to experiment with new technical, narrative, and aesthetic practices and incorporate these options into the traditional medium of video art.

Optional study abroad with University of Arts London ([https://www.arts.ac.uk/?utm\\_source=qs&utm\\_medium=profile&utm\\_campaign=referralsites](https://www.arts.ac.uk/?utm_source=qs&utm_medium=profile&utm_campaign=referralsites)), based in the heart of one of the world's creative capitals, London. Students from this program will have the opportunity to spend their second spring semester in London studying fine art at Central Saint Martins (<https://www.arts.ac.uk/subjects/fine-art/undergraduate/bahons-fine-art-csm/>).

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression and Innovation (EI), Interpreting Culture (IC), and Societies and Institutions (SI) are met through the major course requirements.

NUpath requirements Natural and Designed World (ND), Formal and Quantitative Reasoning (FQ), Analyzing and Using Data (AD), Difference and Diversity (DD), and Ethical Reasoning (ER) must be met through general electives.

ARTH 5100	Contemporary Art Theory and Criticism
ARTS 2340	Painting Basics
ARTS 2341	Figure Drawing
ARTS 3449	Drawing in Mixed Media
ARTD 2100	Narrative Basics
ARTD 3460	Photography: Concept + Process
ARTD 3470	Animation 1
ARTD 3471	Virtual Environment Design
ARTD 3472	Character Design for Animation
ARTD 3473	Animation for Games
ARTD 3480	Video: Sound and Image
ARTD 3485	Experimental Video
ARTD 4565	Photography: Visual Strategies + Context
ARTD 4570	Animation 2
ARTD 4575	Animation 3
ARTD 4660	Studio Photography
ARTD 4661	Photography: Experimental Processes

#### Sound Management at University of Arts London

Optional London study abroad for sound management at Central Saint Martins, University of Arts London. Complete the following:

INAM 3510	Applied Sound Design
INAM 3520	Collaborative Project
INAM 3540	Sound Culture: Perception and Communication 2
INAM 3550	Sound Practitioners 2

### Program Requirement

130 total semester hours required

## Concentrations (Animation/Photography/Video Arts)

### CONCENTRATION IN ANIMATION

Code	Title	Hours
<b>Animation Requirements</b>		
ARTD 2100	Narrative Basics	4
ARTD 2370	Animation Basics (with optional ARTD 2371)	4
ARTD 3470	Animation 1	4
ARTD 4570	Animation 2	4
<b>Animation Electives</b>		
Complete three of the following. At least one must be at the 4000 level:		12
ARTD 3471	Virtual Environment Design	
ARTD 3472	Character Design for Animation	
ARTD 4575	Animation 3	
ARTD 3473	Animation for Games	

#### Art and Design Elective

Note: Courses in this requirement may not be used for the drawing fundamentals elective, media arts basics elective, media arts history elective, or animation electives.

Complete any one ARTG, ARTE, ARTD, ARTH, ARTS, or GAME course as long as prerequisites have been met. 4

### CONCENTRATION IN PHOTOGRAPHY

Code	Title	Hours
<b>Photography Requirements</b>		
ARTD 2360 and ARTD 2361	Introduction to Photography and Photo Tools	5
ARTD 3460	Photography: Concept + Process	4
ARTD 4565	Photography: Visual Strategies + Context	4

#### Photography Elective

ARTD 4660	Studio Photography	4
or ARTD 4661	Photography: Experimental Processes	

#### Art and Design Electives

Note: Courses in this requirement may not be used for the drawing fundamentals elective, media arts basics elective, media arts history elective, or photography elective.

Complete any three ARTG, ARTE, ARTD, ARTH, ARTS, or GAME courses as long as prerequisites have been met. At least one must be a 4000-level course. 12

### CONCENTRATION IN VIDEO ARTS

Code	Title	Hours
<b>Video Arts Requirements</b>		
ARTD 2380	Video Basics (with optional ARTD 2381 )	4
ARTD 3480	Video: Sound and Image	4

#### Video Arts Electives

Complete four of the following:		16
ARTD 3485	Experimental Video	
MSCR 2160	Narrative Filmmaking	
MSCR 3446	Documentary Production	
MSCR 3389	Screenwriting	
ARTH 2212	Survey of the Still and Moving Image	
THTR 2345	Acting for the Camera	

Optional London study abroad for sound management at Central Saint Martins, University of Arts London. Complete the following:

INAM 3510	Applied Sound Design
INAM 3540	Sound Culture: Perception and Communication 2

#### Art and Design Electives

Note: Courses in this requirement may not be used for the drawing fundamentals elective, media arts basics elective, and media arts history elective.

Complete any three ARTG, ARTE, ARTD, ARTH, ARTS, or GAME courses as long as prerequisites have been met. At least one must be a 4000-level course. 12

Optional London study abroad for sound management at Central Saint Martins, University of Arts London. Complete the following:

INAM 3520	Collaborative Project
INAM 3550	Sound Practitioners 2

Optional study abroad with University of Arts London ([https://www.arts.ac.uk/?utm\\_source=qs&utm\\_medium=profile&utm\\_campaign=referralsites](https://www.arts.ac.uk/?utm_source=qs&utm_medium=profile&utm_campaign=referralsites)), based in the heart of one of the world's creative capitals, London. Students from this program will have the opportunity to spend their second spring semester in London studying fine art at Central Saint Martins (<https://www.arts.ac.uk/subjects/fine-art/undergraduate/ba-hons-fine-art-csm/>).

### Studio Art, BFA

Our Bachelor of Fine Arts in Studio Art is offered in partnership with the School of the Museum of Fine Arts at Tufts (<https://smfa.tufts.edu/>) University (SMFA at Tufts) across Huntington Avenue from our campus. In this major, your studio art classes are taken at the SMFA at Tufts, which allows students to explore a wide range of artistic media, including ceramics, drawing, film, metalsmithing, painting, performance, printing, sculpture, and sound in their extensive studio environments. Our students complete art and design history courses in our department and they have access to all the elective courses, co-op, and study-abroad programs; student resources; and activities that Northeastern students experience.

The BFA in studio art degree is awarded by Northeastern.

Optional study abroad with University of Arts London ([https://www.arts.ac.uk/?utm\\_source=qs&utm\\_medium=profile&utm\\_campaign=referralsites](https://www.arts.ac.uk/?utm_source=qs&utm_medium=profile&utm_campaign=referralsites)), based in the heart of one of the world's creative capitals, London. Students from this program will have the opportunity to spend their second spring semester in London studying fine art at Central Saint Martins (<https://www.arts.ac.uk/subjects/fine-art/undergraduate/ba-hons-fine-art-csm/>).

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC) and Societies and Institutions (SI) are met through the major course requirements.

NUpath requirements Natural and Designed World (ND), Creative Expression/Innovation (EI), Formal and Quantitative Reasoning (FQ),

Analyzing and Using Data (AD), Difference and Diversity (DD), and Ethical Reasoning (ER) must be met through general electives.

Note: The BFA in studio art is a joint degree program offered in collaboration with the School of the Museum of Fine Arts at Tufts University (SMFA at Tufts), which is affiliated with Tufts University. Art and design history and general education requirements are offered at Northeastern University, and studio art courses, which are determined in consultation with academic advisers at the SMFA at Tufts, are targeted to each student's unique program of study.

### Art History Requirements for Studio Art

A cumulative grade-point average (GPA) of 2.500 or higher is required for the art history requirements.

## Studio Art Courses

Code	Title	Hours
<b>Studio Art</b>		
Specific courses are targeted to each student's unique program of study, which is determined in consultation with an academic adviser at SMFA at Tufts and CAMD. Optional credits for London study abroad or SMFA at Tufts. These courses generally have the following course number:		68
SMFA 3000	Museum of Fine Arts Studio (4 to 12 SH)	
Optional London study abroad for fine art at Central Saint Martins, University of Arts London. Complete the following:		
ARTS 3510	Studio Practice and Exhibition	
ARTS 3520	Critical Disclosures	
ARTS 3530	Studio Practice, Cross-Pathway, and External Projects	
Senior thesis is a self-directed studio practice and exhibition under consultation of senior thesis faculty at SMFA at Tufts. These courses are generally in the SMFA subject area.		8
<b>Senior Thesis Capstone</b>		
SMFA 4000	Museum of Fine Arts Capstone	

## Studio Art Major Credit Requirement

Complete 96 semester hours in the major.

## Program Requirement

136 total semester hours required

Notes:

Optional study abroad with University of Arts London ([https://www.arts.ac.uk/?utm\\_source=qs&utm\\_medium=profile&utm\\_campaign=referralsites](https://www.arts.ac.uk/?utm_source=qs&utm_medium=profile&utm_campaign=referralsites)), based at the heart of one of the world's creative capitals, London. Students from this program will have the opportunity to spend their second spring semester in London studying fine art at Central Saint Martins (<https://www.arts.ac.uk/subjects/fine-art/undergraduate/ba-hons-fine-art-csm/>).

## Behavioral Neuroscience and Design, BS

The behavioral neuroscience and design combined major engages students in an interdisciplinary study across the biology, psychology, and Art + Design departments to integrate fundamental design courses with a strong foundation in the physiological brain mechanisms that give rise to behavioral functions. The latest research in neuroscience and psychology enables designers to maximize the impact of their designs and, conversely, complex neuroscientific concepts can be made intelligible to a wider public through creative visual works. Students in this major have the opportunity to learn about the inner workings of the brain and how its various structures interact to enhance their approach to design methodologies. Students can then apply these principles to biomimetic medical devices as well as data and network visualization.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Behavioral Neuroscience Requirements

Code	Title	Hours
<b>Behavioral Neuroscience Overview</b>		
BNSC 1000	Behavioral Neuroscience at Northeastern <sup>1</sup>	1

## Business Administration and Design, BS

The combined major in business administration and design integrates fundamental design courses with the theory and practice of management through active learning, problem-driven research, corporate partnerships, and experiential assignments. The BS degree can be accomplished using the five-year co-op plan.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### Business Core Requirements

Code	Title	Hours
<b>Introduction to College</b>		
BUSN 1102	Personal Skill Development for Business	1
or ARTF 1000	Art and Design at Northeastern	
<b>Mathematics</b>		
Complete one of the following:		4
MATH 1231	Calculus for Business and Economics	
MATH 1241	Calculus 1	
MATH 1260	Math Fundamentals for Games	
<b>Macroeconomics and Microeconomics</b>		
ECON 1115	Principles of Macroeconomics	4
or ECON 1116	Principles of Microeconomics	

### Business Requirements

Code	Title	Hours
<b>Accounting</b>		
ACCT 1201	Financial Accounting and Reporting	4
<b>Business Statistics</b>		
MGSC 2301	Business Statistics	4
<b>International Business/Social Responsibility</b>		
INTB 1203	International Business and Global Social Responsibility	4
<b>Marketing</b>		
MKTG 2201	Introduction to Marketing	4
<b>Finance</b>		
FINA 2201	Financial Management	4
<b>Organizational Behavior</b>		
ORGB 3201	Organizational Behavior	4
<b>Strategy in Action</b>		
STRT 4501	Strategy in Action	4
<b>Business Core Option</b>		
Complete one of the following:		4
ACCT 2301	Managerial Accounting	
ENTR 2301	Innovation!	
MISM 2301	Management Information Systems	
SCHM 2301	Supply Chain and Operations Management	
<b>Professional Development</b>		
BUSN 1103	Professional Development for Business Co-op	1
or EEAM 2000	Professional Development for Co-op	

### Business Concentration

Complete one of the following business concentrations:

- Accounting (p. 290)
- Brand Management (p. 290)
- Business Analytics (p. 291)
- Corporate Innovation and Venture (p. 291)
- Entrepreneurial Startups (p. 291)
- Family Business (p. 292)
- Finance (p. 292)
- Fintech (p. 293)
- Healthcare Management and Consulting (p. 293)
- Management (p. 294)
- Management Information Systems (p. 295)
- Marketing (p. 295)
- Marketing Analytics (p. 296)
- Social Innovation and Entrepreneurship (p. 296)
- Supply Chain Management (p. 297)

### Second Business Concentration (Optional)

A second business concentration is optional and may be chosen from the following list:

- Accounting (p. 290)
- Brand Management (p. 290)
- Business Analytics (p. 291)
- Corporate Innovation and Venture (p. 291)

- Entrepreneurial Startup (p. 291)s
- Family Business (p. 292)
- Finance (p. 292)
- Fintech (p. 293)
- Healthcare Management and Consulting (p. 293)
- International Business (p. 294)
- Management (p. 294)
- Management Information Systems (p. 295)
- Marketing (p. 295)
- Marketing Analytics (p. 296)
- Social Innovation and Entrepreneurship (p. 296)
- Supply Chain Management (p. 297)

### Design Requirements

## Computer Science and Design, BS

The combined major in computer science and design integrates fundamental design courses with a strong programming foundation. Students will declare a concentration in interaction design, graphic and information design, or experience design. Students in this major often have an interest in human-centered design methods used in developing digital interfaces and applications.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200 or ARTF 1000	First Year Seminar Art and Design at Northeastern	1
CS 1210 or EEAM 2000	Professional Development for Khoury Co-op Professional Development for Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 4500	Software Development	4

or CS 4530	Fundamentals of Software Engineering	
IS 4300	Human Computer Interaction	4
<b>Computer Science Elective Courses</b>		
With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.		
Complete 8 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:		8
CS 2500 or higher, except CS 5010		
CY 2000 or higher, except CY 4930		
DS 2500 or higher, except DS 4900		
IS 2000 or higher, except IS 4900		

### Design Requirements

Code	Title	Hours
<b>Art + Design Fundamentals Required</b>

Complete one of the following options: 8		
<b>Interaction Design Option</b>		
ARTG 2400	Interaction Design 1: Responsive (with optional ARTG 2401)	
ARTG 3700	Interaction Design 2: Mobile	

Code	Title	Hours
<b>Graphic and Information Design Option</b>		
ARTG 2252	Graphic Design 1	
ARTG 3450	Graphic Design 2	

Code	Title	Hours
<b>Experience Design Option</b>		
ARTG 3462	Experience Design 1	
ARTG 3463	Experience Design 2	

### Degree-Focused Electives

Code	Title	Hours
Complete two courses from the following lists: 8		
<i>Art + Design</i>		
Complete any ARTG or ARTE courses as long as prerequisites have been met.		
<i>Psychology</i>		
PSYC 1101	Foundations of Psychology	
PSYC 3452	Sensation and Perception	
PSYC 3464	Psychology of Language	
PSYC 3466	Cognition	
<i>Computer Science</i>		
CS 3200	Database Design	
CS 3520	Programming in C++	
CS 3540	Game Programming	
CS 3650	Computer Systems	
CS 3700	Networks and Distributed Systems	
CS 3800	Theory of Computation	
CS 4100	Artificial Intelligence	
CS 4150	Game Artificial Intelligence	
CS 4300	Computer Graphics	
CS 4400	Programming Languages	
CS 4520	Mobile Application Development	
CS 4550	Web Development	
CS 4850	Building Game Engines	
CS 4991	Research	
CS 4992	Directed Study	
CS 4993	Independent Study	
DS 3000	Foundations of Data Science	
DS 4200	Information Presentation and Visualization	
DS 4300	Large-Scale Information Storage and Retrieval	
DS 4400	Machine Learning and Data Mining 1	
DS 4420	Machine Learning and Data Mining 2	
IS 2000	Principles of Information Science	

### Integrative Requirement

Code	Title	Hours
The following courses are used in the major but also count as the integrative requirement:		
IS 4300	Human Computer Interaction	
ARTG 4550	Design Degree Project 1	

### Supporting Course

Code	Title	Hours
<b>Computing and Social Issues</b>		
Complete one of the following: 4		
AFAM 2600	Issues in Race, Science, and Technology	

CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
IS 1300	Knowledge in a Digital World	
or PHIL 1300	Knowledge in a Digital World	
PHIL 1145	Technology and Human Values	
SOCL 1280	The Twenty-First-Century Workplace	
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

### Computer Science Writing Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
<b>Advanced Writing in the Disciplines</b>		
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

### Required General Electives

Code	Title	Hours
Complete 24 credits of general electives.		24

### NUPath Requirements Satisfied

- Engaging with the Natural and Designed World
- Exploring Creative Expression and Innovation
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

### Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS and IS courses

### Computer Science and Design Major Credit Requirement

96 SH are required in the major.

### Program Requirement

133 total semester hours required

## Plan of Study

### Five Years, Three Co-ops in Spring/Summer 1

Year 1				
Fall	Hours Spring	Hours Summer 1	Hours Summer 2	Hours
CS 1200 or ARTF 1000	1 CS 2510 and CS 2511	5 Vacation	Vacation

## Computer Science and Game Development, BS

The computer science and game development combined major focuses on the specific skills needed to succeed in the highly competitive game industry. Students will engage in building and developing games and playable media experiences while completing courses in computer science and specialized game technology and design. Interdisciplinary courses enable students to develop their creative and entrepreneurial abilities, as well as create a strong portfolio of game pieces.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200 or ARTF 1000	First Year Seminar Art and Design at Northeastern	1
CS 1210 or EEAM 2000	Professional Development for Khoury Co-op Professional Development for Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 3520	Programming in C++ (Integrative course)	4

CS 3540	Game Programming (Integrative course)	4
CS 3650	Computer Systems	4
CS 3700	Networks and Distributed Systems	4
CS 4300	Computer Graphics (Integrative course)	4

### Game Design Courses

Code	Title	Hours
<b>Game Design Required</b>		
GAME 1110	Games and Society	4
GAME 2500	Foundations of Game Design	4
GAME 2950	Game Studio	4
GAME 3400	Level Design and Game Architecture	4
GAME 3700	Rapid Idea Prototyping for Games	4
GAME 3800	Game Concept Development	4
GAME 4700	Game Design Capstone	4

### Game Design Elective

GAME 1850 or GAME 3300	Experimental Game Design Game Interface Design	4
---------------------------	---	---

### Khoury/Game-Related Electives

Complete three of the following:	12
Any course in ARTD, ARTE, ARTF, ARTG, ARTH, and GAME subject areas as long as prerequisites have been met.	
CS 2500 or higher, except CS 5010	
CY 2000 or higher, except CY 4930	
DS 2500 or higher, except DS 4900	
IS 2000 or higher, except IS 4900	
MATH 1342	Calculus 2 for Science and Engineering
MATH 2331	Linear Algebra
ECON 2350 or PSYC 2320	Statistics Statistics in Psychological Research

### Supporting Courses

Code	Title	Hours
<b>Psychology</b>		
PSYC 1101	Foundations of Psychology	4
<b>Mathematics</b>		
Complete two courses from the following:	8	
MATH 1260	Math Fundamentals for Games (Integrative course)	
MATH 1341	Calculus 1 for Science and Engineering	
MATH 1342 or higher		

### Computer Science Writing Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4

**Advanced Writing in the Disciplines**

Students are strongly encouraged to take Advanced Writing in the Technical Professions (ENGW 3302) but may substitute Interdisciplinary Advanced Writing in the Disciplines (ENGW 3315).

ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Required General Electives**

Code	Title	Hours
	Complete 12 semester hours of general electives.	12

**Khoury College GPA Requirements**

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses.

**NUpath Requirements Satisfied**

- Engaging with the Natural and Designed World
- Exploring Creative Expression and Innovation
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Understanding Societies and Institutions
- Demonstrating Thought and Action in a Capstone

*Integrating Knowledge and Skills through Experience is satisfied through co-op.*

**Program Requirement**

133 total semester hours required

**Plan of Study****Sample Pattern, Four Years, Two Co-ops**

\*Indicates courses that must be taken in the semester listed.

**Computer Science and Media Arts, BS**

The computer science and media arts combined major is ideal for creative students who love technology. Students will acquire a solid foundation in both fields through curriculum that spans photography, animation, video, database design, computer graphics, and human-computer interaction.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Computer Science Courses**

## Communication Studies and Graphic and Information Design, BA

The Department of Communication Studies and the Department of Art + Design offer a combined major in communication studies and graphic and information design. Students interested in the combined major integrate the study of communication skills and processes with the design of message and meaning, integrating text, image, and data.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Natural and Designed World (ND), Creative Expression/Innovation (EI), Formal and Quantitative Reasoning (FQ),

Analyzing and Using Data (AD), and Difference and Diversity (DD) may be met through electives in the major.

## Communication Studies Requirements

Code	Title	Hours
<b>Communication Studies Common Requirements</b>		
COMM 1101	Introduction to Communication Studies	4

**English and Graphic and Information Design, BA**

The Department of English and the Department of Art + Design offer an interdisciplinary combined major in English and graphic and information design. Students interested in the combined major in English and graphic and information design integrate the study of literature and writing with the design of message and meaning, integrating text, image, and data.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## English Requirements

Code	Title	Hours
<b>English Course-Level Requirement</b>		
In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.		
<b>Introduction to College</b>		
ENGL 1000	English at Northeastern	1
<b>Foundational Courses</b>		
ENGL 1400	Introduction to Literary Studies	4
ENGL 1160	Introduction to Rhetoric	4
or ENGL 1410	Introduction to Research on Writing	
<b>Diversity</b>		
Complete one of the following courses. This course may also be used to fulfill an additional English requirement below:		4
ENGL 2150	Literature and Digital Diversity	
ENGL 2296	Early African-American Literature	
ENGL 2450		
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2460		
ENGL 2760	Writing in Global Contexts	
ENGL 3663	The African American Novel	
ENGL 3676		
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
ENGL/JWSS 3685	Modern and Contemporary Jewish Literature	
<b>Pre-Nineteenth-Century Literature</b>		
Complete one of the following:		4
ENGL 1600	Introduction to Shakespeare	
ENGL 1700	Global Literatures 1	
ENGL 2240		
ENGL 2296	Early African-American Literature	
ENGL/JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
ENGL 4000		
ENGL 4020		
<b>Nineteenth-, Twentieth-, and Twenty-First-Century Literature</b>		

Complete one of the following: 4

ENGL 2330	The American Renaissance
ENGL 3720	19th-Century Major Figure
ENGL 4040	
ENGL 2301	The Graphic Novel
ENGL 2440	The Modern Bestseller
ENGL 2600	Irish Literary Culture (Abroad)
ENGL 2610	Contemporary Israeli Literature and Art (Abroad)
ENGL/JWSS 3685	Modern and Contemporary Jewish Literature
ENGL 3730	20th- and 21st-Century Major Figure

### Theories and Methods

Complete one of the following: 4

ENGL 1140	Grammar: The Architecture of English
ENGL 1160	Introduction to Rhetoric
ENGL 1410	Introduction to Research on Writing
ENGL 2150	Literature and Digital Diversity
ENGL 3325	Rhetoric of Law
ENGL 3340	Technologies of Text
ENGL 3370	Writing Cultures
ENGL 3381	The Practice and Theory of Teaching Writing
ENGL 3700	Narrative Medicine
ENGL 4400	
ENGL 4410	Research in Rhetoric and Writing
LING 1150	Introduction to Language and Linguistics
LING 2350	Linguistic Analysis
LING 3450	Syntax
LING 3452	Semantics
LING 3454	History of English
LING 3456	Language and Gender
LING 3458	Topics in Linguistics

### Comparative Literature

Complete one of the following: 4

ENGL 1450	Reading and Writing in the Digital Age
ENGL 1502	American Literature to 1865
ENGL 1503	
ENGL 2150	Literature and Digital Diversity
ENGL 2380	
ENGL 2420	Contemporary Poetry
ENGL 2430	Contemporary Fiction
ENGL 2450	
ENGL 2451	Postcolonial Women Writers
ENGL 2455	American Women Writers
ENGL 2460	
ENGL 2510	Horror Fiction
ENGL 2520	Science Fiction
ENGL 2600	Irish Literary Culture (Abroad)
ENGL 2620	What Is Nature?
ENGL 2690	Boston in Literature
ENGL 3487	Film and Text (Abroad)
ENGL 3582	

ENGL 3663	The African American Novel	
ENGL 3676		
<b>Writing</b>		
Complete one of the following:		4
ENGL 2700	Creative Writing	
ENGL 2710	Style and Editing	
ENGL 2740	Writing and Community Engagement	
ENGL 2760	Writing in Global Contexts	
ENGL 2770	Writing to Heal	
ENGL 2780	Visual Writing: Writing Visuals	
ENGL 2850	Writing for Social Media: Theory and Practice	
ENGL 3375	Writing Boston	
ENGL 3376	Creative Nonfiction	
ENGL 3377	Poetry Workshop	
ENGL 3378	Fiction Workshop	
ENGL 3380	Writing Seminar	
ENGL 3382	Publishing in the 21st Century	
ENGL 3384	The Writer's Marketplace	
<b>Capstone</b>		
ENGL 4710	Capstone Seminar	4
or ENGL 4720	Capstone Project	
<b>English Electives</b>		
Complete two additional ENGL electives.		8

### Graphic and Information Design Requirements

Code	Title	Hours
<b>Art and Design at Northeastern</b>		
ARTF 1000	Art and Design at Northeastern	1
or ENGL 1000	English at Northeastern	
<b>Art and Design Fundamentals</b>		
ARTF 1122	Color and Composition (with optional ARTF 1123)	4
ARTF 2220	Movement and Time (with optional ARTF 2221)	4

## Game Art and Animation, BFA

Game art and animation offers students an opportunity to master visual arts and animation within the game medium. The program focuses on developing the depth of knowledge required to be successful in a highly competitive industry. The continuing revolution in digital computing and animation has produced a rapidly evolving field for artists who create aesthetics, characters, and environments for games. The major encourages students to think critically and work collaboratively in multidisciplinary teams. The collaborative approach helps all team members to understand the context in which their asset contributions

are used and to develop visual design skills in the service of larger experiential goals. Students have many opportunities to collaborate with their peers and work with students in the BS in computer science and game development and BFA in games majors, culminating in a two-semester senior capstone. Students will have a home college in the College of Arts, Media and Design but will have a minimum of four interdisciplinary courses where students interact and work together with students in the other degrees.

Working in the interdisciplinary game areas, the program fosters experiential learning opportunities utilizing diverse intersections of skills merging artistic practice and expression blended with technology. Focus is on establishing core skills that engage critical thinking in preparation for professional practice in game art and asset creation or moving on to advanced study. Students will have an opportunity to develop tools to succeed, eagerness to innovate, and skills to become next-generation entrepreneurs in an ever-changing games and media landscape. Practical and technical experiential training will be offered via Northeastern's world-renowned co-op program.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression (EI), Interpreting Culture (IC), Societies and Institutions (SI), and Analyzing/Using Data (AD) are met through the major course requirements. All other NUpath requirements must be met through electives.

### Game Art Courses

Code	Title	Hours
ARTF 1000	Art and Design at Northeastern	1
<b>Foundations</b>		
ARTF 1120	Observational Drawing	4
ARTF 1122	Color and Composition (with optional ARTF 1123)	4

**Architectural Studies and Design, BS**

Students integrate the study of architecture with strategies of graphic and information design, interaction design, or experience design. A flexible curriculum focused on key contemporary topics related to the built environment is combined with a broad understanding of the principles and systems of perception, communication, and action. Students integrate text and image to visualize concepts and data, create navigable interfaces and systems that allow audiences to take an active role to achieve meaningful goals, and take a holistic and integrative approach that focuses on the quality of the human experience in concrete situations. Successful students emerge with a strong portfolio suited to further graduate education or experience in architecture and design-related fields.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath attributes Engaging with the Natural and Designed World (ND), Exploring Creative Expression and Innovation (EI), Interpreting Culture (IC), Analyzing and Using Data (AD), Understanding Societies and Institutions (SI), and Engaging Differences and Diversity (DD) are met through the major course requirements.

In order to graduate, students must complete Formal and Quantitative Reasoning (FQ) and Ethical Reasoning (ER) in their electives.

*\*Please Note: We suggest students who wish to be eligible for the two-year Master of Architecture degree take the following courses: ARCH 2240, ARCH 3170, ARCH 5230, along with calculus and physics.*

**Architectural Studies Courses**

## Game Design and Music with concentration in Music Technology, BS

The Game Design and Music combined major with a concentration in Music Technology prepares students to manage all aspects of music and sound design integral to the creative process in Game Design. Students focus on the digital sound technologies, audiovisual integration techniques and collaborative skills, grounded in real-world experience, that are necessary to apply one's musical imagination effectively in a game design environment. Also emphasized are the aesthetic, expressive, psychological and social perspectives essential to meaningful engagement across a broad range of applications in the game industry.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (EI), and Analyzing/Using Data (AD), Interpreting Culture (IC), Natural/Designed World (ND), Difference/Diversity (DD), Writing Intensive (WI), and Capstone Experience(CE) are met through the major course requirements. All other NUpath requirements must be met through electives.

### Game Design Courses

Code	Title	Hours
ARTF 1000	Art and Design at Northeastern	1
<b>Game Design Required</b>		
GAME 1110	Games and Society	4
GAME 2500	Foundations of Game Design	4
GAME 2950	Game Studio	4
GAME 3400	Level Design and Game Architecture	4
GAME 3700	Rapid Idea Prototyping for Games	4
GAME 3800	Game Concept Development	4
<b>Game Design Electives</b>		
Complete one of the following:		
GAME 1850	Experimental Game Design	4
or GAME 3300	Game Interface Design	

### Art + Design Electives

Complete three courses from the following: 12  
Any course in ARTD, ARTE, ARTF, ARTG, ARTH, and GAME subject areas as long as prerequisites have been met.

### Music Requirements

Code	Title	Hours
<b>Music Theory and Composition</b>		
MUSC 1201	Music Theory 1	4
MUSC 1202	Music Theory 2	4
Complete two of the following: 8		
MUSC 2111	Algebra and Geometry of Music	
MUSC 3300	Music Perception and Cognition	
MUSC 3541	Music Analysis Seminar	
<b>Music in Context</b>		
MUSC 1001	Music in Everyday Life	4
<b>Contemporary</b>		
Complete one from the following: 4		
MUSC 2101	Black Popular Music	
MUSC 2310	Popular Music Since 1945	
MUSC 2320	40,000 Years of Music Technology	
MUSC 3352	Sounding Human	
MUSC 3560	Topics in Music since 1900	
MUSI 3401	Hip Hop in the Music Industry	

### Music Technology Requirements

MUSC 2350	Acoustics and Psychoacoustics of Music	4
MUST 1220	Introduction to Music Technology	4
MUST 2431	Computer Music Fundamentals	4
<b>Music Technology Electives</b>		
Complete two of the following:		8
MUSC 4510	Music and the Brain Research	
MUST 2320	Sound Design	
MUST 4610	Composition for Electronic Instruments	
MUST 3540	Special Topics in Music Technology	
MUST 4520		

## Integrative Requirement

Code	Title	Hours
Note: MUSC 1220 is already required in the Music Technology Requirements section		
MUST 1220	Introduction to Music Technology	

### Capstone

MUST 4611	Music Technology Capstone/Senior Recital	4
GAME 4700	Game Design Capstone	4

## Combined-Major Credit Requirement

Complete 90 semester hours in the major.

## Music Technology Major Grade Requirement

Students must maintain at least a 2.667 GPA (B- average) in the requirements of the music half of the combined major and also complete all required music courses with grades of at least C. Students who fail to meet the above standards will be placed on departmental probation; those who remain on probation for two consecutive semesters will be dropped from the major.

## Program Requirement

128 total semester hours required

## Plan of Study

### Sample Pattern, Four Years, Two Co-ops in Spring/Summer 1

Year 1							
Fall	Hours	Spring	Hours	Summer 1	Hours	Summer 2	Hours
ARTF 1000 or MUSC 1000	1	GAME 2500	4	A + D elective	4	Vacation	0

		16	4	0	8
Year 4					
Fall	Hours	Spring	Hours	Summer 1	Hours
GAME 3800	4	GAME 4700	4		
MUSC 3541, 2111, or 3300	4	Computing and social issues	4		
Game design elective	4	Music technology elective	4		
Music technology elective	4	Elective	4		
		16	16		

Total Hours: 130

## Graphic and Information Design and Mathematics, BS

The Department of Mathematics and the Department of Art + Design offer a combined major in mathematics and graphic and information design. Students interested in the combined major integrate the study of mathematical reasoning including methods for analyzing and solving problems encountered in the physical world with the design of message and meaning, integrating text and image to visualize concepts and data to enhance human understanding of complex and vital knowledge.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (EI), Interpreting Culture (IC), Formal and Quantitative Reasoning (FQ), Analyzing and Using Data (AD), and Societies and Institutions (SI) are met through the major course requirements.

NUpaath requirements Natural and Designed World (ND), Difference and Diversity (DD), and Ethical Reasoning (ER) must be met through electives.

### Graphic and Information Design Requirements

Code	Title	Hours
<b>Art and Design at Northeastern</b>		
ARTF 1000 or MATH 1000	Art and Design at Northeastern Mathematics at Northeastern	1
<b>Art and Design Fundamentals</b>		
Complete one course in the following range. ARTF 1143 is recommended. ARTF 1141 to ARTF 1149		4
ARTF 1122	Color and Composition (with optional ARTF 1123)	4
<b>Art and Design History</b>		
ARTH 2210	Modern Art and Design History	4
ARTH 2215	History of Graphic Design	4
<b>Design</b>		
ARTG 1250	Design Process Context and Systems	4
ARTG 2250	Typography 1 (with optinal ARTG 2251)	4
ARTG 2252	Graphic Design 1	4
ARTG 3350	Typography 2	4
ARTG 3451	Information Design 1	4
<b>Degree Project</b>		
ARTG 4550	Design Degree Project 1	4
<b>Art and Design Elective</b>		
Complete one of the following:		4
ARTD 2360	Introduction to Photography (with optional ARTD 2361)	
ARTD 2380	Video Basics (with optional ARTD 2381)	
ARTG 2260	Programming Basics	
ARTF 1120	Observational Drawing	
ARTF 1121	Conceptual Drawing	
ARTF 1124 and ARTF 1125	Form and Structure and Form and Structure Tools	
ARTF 2223	Experience and Interaction (with optional ARTF 2224 )	
ARTG 2400	Interaction Design 1: Responsive (with optinal ARTG 2401 )	
ARTG 3351		
ARTG 3450	Graphic Design 2	
ARTG 3460	Identity and Brand Design	
ARTG 4552		
ARTG 4553		
ARTG 4554	Typography 3	

### Mathematics Requirements

Code	Title	Hours
<b>Math Reasoning</b>		
MATH 1365	Introduction to Mathematical Reasoning	4
<b>Calculus</b>		
A grade of C or higher is required:		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4

MATH 2321	Calculus 3 for Science and Engineering	4
<b>Intermediate Math</b>		
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 2331	Linear Algebra	4
MATH 3081	Probability and Statistics	4
<b>Advanced Elective</b>		
Complete one of the following:		4
MATH 3150	Real Analysis	
MATH 3175	Group Theory	
MATH 3560	Geometry	
<b>Mathematics Elective</b>		
MATH 4025 can count as an upper-level math elective as well as a capstone.		
Complete one course in the following range:		4
MATH 3101 to MATH 4899		

### Integrative Requirement

Code	Title	Hours
ARTG 3451	Information Design 1	4

### Combined-Major Credit Requirement

Complete 80 semester hours in the major.

### Program Requirement

128 total semester hours required

## Journalism and Interaction Design, BS

The School of Journalism and the Department of Art and Design offer an interdisciplinary combined major in journalism and interaction design. Broadly speaking, students in the combined major in journalism and interaction design at Northeastern integrate the study of journalism with the study of art and design.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (EI), Interpreting Culture (IC), Societies and Institutions (SI), Difference and Diversity (DD), and Ethical Reasoning (ER) are met through the major course requirements.

NUpath requirement Analyzing and Using Data (AD) may be met through electives in the major.

NUpath requirements Natural and Designed World (ND) and Formal and Quantitative Reasoning (FQ) must be met through general electives.

### Introduction to College

Code	Title	Hours
JRNL 1000 or ARTF 1000	Journalism at Northeastern Art and Design at Northeastern	1

## Journalism Major Requirements

Code	Title	Hours
<b>Journalism Introductory Course</b>		
JRNL 1150	Understanding Today's News	4
<b>Journalism Foundations</b>		
Must receive a C or better in the following:		
JRNL 1101 and JRNL 1102	Journalism 1: Fundamentals of Reporting and Journalist's Toolbox	5
JRNL 2201	Journalism 2: Intermediate Reporting	4
JRNL 2301	Visual Storytelling in Journalism	4
JRNL 3610	Digital Storytelling and Social Media	4
<b>Law and Ethics</b>		
JRNL 3550 or JRNL 4650	The First Amendment and the Media Ethics and Issues in Journalism	4
<b>Journalism Electives</b>		
Take three JRNL courses		12

## Art and Design Core

Code	Title	Hours
<b>Art and Design Fundamentals</b>		
ARTF 1122	Color and Composition (with optional ARTF 1123)	4
ARTF 2223	Experience and Interaction (with optional ARTF 2224)	4
<b>Art and Design History</b>		
Complete two of the following:		8
ARTH 1111	Global Art and Design History: Renaissance to Modern	
ARTH 2210	Modern Art and Design History	
ARTH 2215	History of Graphic Design	

## Design Requirements

Code	Title	Hours
<b>Design Courses</b>		
ARTG 1250	Design Process Context and Systems	4
ARTG 2250	Typography 1 (with optional ARTG 2251)	4
ARTG 2260	Programming Basics	4
ARTG 2400	Interaction Design 1: Responsive (with optional ARTG 2401)	4
ARTG 3350	Typography 2	4
ARTG 3451	Information Design 1	4
ARTG 3700	Interaction Design 2: Mobile	4
<b>Degree Project</b>		
Complete one of the following:		8
ARTG 4550	Design Degree Project 1	
ARTG 4700	Interaction Team Degree Project 1	

## Design Elective

Code	Title	Hours
Complete one of the following:		
ARTD 2360	Introduction to Photography (with optional ARTD 2361)	4
ARTD 2380	Video Basics (with optional ARTD 2381)	
ARTF 1120	Observational Drawing	

ARTF 1121	Conceptual Drawing
ARTF 1124	Form and Structure (with optional ARTF 1125)
ARTF 2220	Movement and Time (with optional ARTF 2221)
ARTG 2252	Graphic Design 1
ARTG 3250	Physical Computing
ARTG 3450	Graphic Design 2
ARTG 3460	Identity and Brand Design
ARTG 4552	
ARTG 4553

## Media and Screen Studies and Media Arts, BA

The Media and Screen Studies Program and the Department of Art + Design offer a combined major in media studies and media arts. Students pursuing the combined major are able to integrate the theory and practice of contemporary media studies with the deep appreciation of the narrative arts that is required for professional work in documentary film, game art and promotion, visualization, motion graphics, interactive art, illustration, and short animated films.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (EI), Interpreting Culture (IC), and Societies and Institutions (SI) are met through the major course requirements.

NUpath requirement Analyzing and Using Data (AD), Difference and Diversity (DD), and Ethical Reasoning (ER) may be met through electives in the major.

NUpath requirements Natural and Designed World (ND) and Formal and Quantitative Reasoning (FQ) must be met through general electives.

### Media and Screen Studies Requirements

Code	Title	Hours
<b>Media and Screen Studies Common Requirements</b>		
MSCR 1220	Media, Culture, and Society	4
MSCR 1320	Media and Social Change	4
or MSCR 1420	Media History	

#### Foundation Course

Complete one of the following:	4
MSCR 1230	Introduction to Film Production
MSCR 2220	Understanding Media

#### Diversity or Globalization Course

Complete one of the following:	4
MSCR 3392	Gender and Film
MSCR 2325	Global Media
MSCR 2505	Digital Feminisms
MSCR 3437	Media and Identity

#### Writing-Intensive

Complete two of the following:	8
MSCR 2505	Digital Feminisms
MSCR 3600	Film Theory
MSCR 3420	Digital Media Culture
MSCR 3422	Media Audiences
MSCR 3700	Queer Media
MSCR 4208	TV History

### Media and Screen Studies Electives

Code	Title	Hours
Complete three courses from MSCR or from the following:	12	
Recommendation: Complete MSCR 4623 as one of your MSCR electives to fulfill NUpath capstone.		
ARTD 2380	Video Basics	
ARTD 3480	Video: Sound and Image	
ARTD 3485	Experimental Video	
COMM 1450	Sound Production for Digital Media	
COMM 2550	Television Field Production	

COMM 2655	Television Studio Production
COMM 3655	Digital Editing for TV
COMM 3750	Special Effects and Postproduction for Television
COMM 4755	Production Capstone

### Media Arts Courses

Code	Title	Hours
<b>Art + Design at Northeastern</b>		
ARTF 1000	Art and Design at Northeastern	1
<b>Art + Design Fundamentals</b>		
ARTF 1122	Color and Composition (with optional ARTF 1123)	4
ARTF 2220	Movement and Time (with optional ARTF 2221)	4
<b>Drawing Fundamentals</b>		
ARTF 1120	Observational Drawing	4
or ARTF 1121	Conceptual Drawing	
<b>Art + Design History</b>		
ARTH 2210	Modern Art and Design History	4
ARTH 2212	Survey of the Still and Moving Image	4
<b>Media Arts Basics Electives</b>		
Complete two of the following sets:		8
ARTD 2360 and ARTD 2361	Introduction to Photography and Photo Tools	
ARTD 2370	Animation Basics (with optional ARTD 2371)	
ARTD 2380	Video Basics (with optional ARTD 2381)	
<b>Media Arts Capstone</b>		
ARTD 4530	Media Arts Degree Project 1	4
<b>Art + Design Electives</b>		
Complete any two courses not previously completed in ARTG, ARTE, ARTD, ARTH, or ARTS courses as long as prerequisites or corequisites have been met.		8-9

### Integrative Course

Code	Title	Hours
MSCR 3600	Film Theory	4

### Media and Screen Studies Grade Requirement

No more than two grades below a C in media and screen studies courses may be used to fulfill degree requirements.

### Program Requirement

128 total semester hours required

### Plan of Study

## Media Arts and Communication Studies, BA

The Department of Communication Studies and the Department of Art + Design offer a combined major in media arts and communication studies. Students interested in the combined major integrate the study of communication skills and processes with the study of the creation of the narrative arts, required for professional work in documentary film, game art and promotion, visualization, motion graphics, interactive art, illustration, and short animated films.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath attributes Creative Expression and Innovation (EI), Interpreting Culture (IC), and Societies and Institutions (SI) are met through the major course requirements.

In order to graduate, students must complete Natural and Designed World (ND), Formal and Quantitative Reasoning (FQ), Analyzing and Using Data (AD), Difference and Diversity (DD), and Ethical Reasoning (ER) in their electives.

## Media Arts Courses

Code	Title	Hours
<b>Art and Design at Northeastern</b>		
ARTF 1000	Art and Design at Northeastern	1
<b>Art and Design Foundations</b>		
ARTF 1122	Color and Composition (with optional ARTF 1123)	4
ARTF 2220	Movement and Time (with optional ARTF 2221 )	4
<b>Drawing Fundamentals</b>		
ARTF 1120	Observational Drawing	4
or ARTF 1121	Conceptual Drawing	
<b>Art and Design History</b>		
ARTH 2210	Modern Art and Design History	4
ARTH 2212	Survey of the Still and Moving Image	4
<b>Degree Project</b>		
ARTD 4530	Media Arts Degree Project 1	4
<b>Media Art Basics Electives</b>		
Complete two of the following:		8-9
ARTD 2360	Introduction to Photography and ARTD 2361 and Photo Tools	
ARTD 2370	Animation Basics (with optional ARTD 2371)	
ARTD 2380	Video Basics (with optional ARTD 2381)	
<b>Art and Design Electives</b>		
Complete any two courses not previously taken in ARTG, ARTE, ARTD, ARTH, or ARTS courses as long as prerequisites or co-requisites have been met.		8-9

## Communication Studies Courses

Code	Title	Hours
<b>Communication Studies Common Requirements</b>		
COMM 1101	Introduction to Communication Studies	4
COMM 1112	Public Speaking	4
or COMM 2301	Communication Research Methods	

<b>Foundation Course</b>	
Complete one of the following:	
COMM 1210	Persuasion and Rhetoric
COMM 1225	Communication Theory
COMM 1231	Principles of Organizational Communication
COMM 1255	Communication in a Digital Age

<b>Cluster Course</b>	
Complete one of the following:	
COMM 1131	Sex, Relationships, and Communication
COMM 2303	Global and Intercultural Communication
COMM 2304	Communication and Gender
COMM 2501	Communication Law
COMM 2551	Free Speech in Cyberspace

<b>Writing-Intensive Courses</b>	
Complete two of the following:	
COMM 3200	Mobile Communication
COMM 3201	Health Communication
COMM 3230	Interpersonal Communication
COMM 3304	Communication and Inclusion
COMM 3320	Political Communication
COMM 3414	Great Speakers and Speeches
COMM 3415	Communication Criticism
COMM 3445	Public Relations Principles
COMM 3500	Environmental Issues, Communication, and the Media
COMM 3501	Free Speech: Law and Practice
COMM 3530	Communication and Sexualities
COMM 3532	Theories of Conflict and Negotiation
COMM 4535	Nonverbal Social Interaction
COMM 4605	Youth and Communication Technology
COMM 4631	Crisis Communication and Image Management

<b>Communication Studies Electives</b>	
Complete three COMM courses.	
	12

## Integrative Requirement

Code	Title	Hours
<b>Bridge/Integrative Requirement</b>		
COMM 3415	Communication Criticism	4

## Communication Studies Grade Requirement

No more than two grades below a C in communication studies courses may be used to fulfill degree requirements.

## Program Requirement

128 total semester hours required

## Plan of Study

## Theatre and Interaction Design, BA

This program is designed for students who want to combine a knowledge of the art of theatre with the theories and practice-based design disciplines. It offers both classroom and experiential learning in areas of acting, directing, playwriting, and design practices. Design is the practice-based discipline raising important questions about—and providing

significant answers to—how we live. Designers are needed when we don't know what is needed. Designers propose alternative futures and create new choices using design principles and processes to create, compose, and construct meaning in diverse knowledge fields. Designers seek a broad understanding of principles and systems of perception, communication, and action.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Theatre Requirements

A minimum grade of C is required for all theatre courses.

## Mechanical Engineering and Design, BSME

The combined major in mechanical engineering and design is designed to educate students in topics of both disciplines and the interface between them. Mechanical engineering involves the design, development, and manufacture of machinery and devices to transmit power or to convert energy from thermal to mechanical form in order to power the modern world and its machines. Its current practice has been heavily influenced by recent advances in computer hardware and software. Today, engineers also play a primary role in the development of new technologies in a variety of fields—energy conversion, solar energy utilization, environmental control, prosthetics, transportation, manufacturing, and new-materials development. Design is the discipline

that shapes human experiences in specific situations to improve quality. Designers pose important questions about—and provide significant answers to how we live. Designers are needed when we don't know what is needed as well as when we think we do. Students in this program will combine the disciplines in order to address complex problems with human-centered solutions.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not satisfied by required courses. Students are responsible for satisfying these requirements with electives.

### Engineering Requirements

Code	Title	Hours
<b>Required Engineering</b>		
ME 2340 and ME 2341	Introduction to Material Science and Lab for ME 2340	5
ME 2350	Statics	4
ME 2355 and ME 2356	Mechanics of Materials and Lab for ME 2355	5
ME 2380 and ME 2381	Thermodynamics and Recitation for ME 2380	4
ME 3455 and ME 3456	Dynamics and Lab for ME 3455	5
ME 3475 or ME 3480	Fluid Mechanics International Applications of Fluid Mechanics	4
ME 4505 and ME 4506	Measurement and Analysis with Thermal Science Application and Lab for ME 4505	5
<b>Senior Capstone Design Project</b>		
MEIE 4701	Capstone Design 1	1
MEIE 4702	Capstone Design 2	5

### Technical Electives

Complete two of the following (at least one must be ME 4550 or ME 4570)		
ME 4508	Mechanical Engineering Computation and Design	
ME 4550	Mechanical Engineering Design	
ME 4555	System Analysis and Control	
ME 4570	Thermal Systems Analysis and Design	

### Supplemental Credit

2 semester hours from the following course count toward the engineering requirement:		
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	2

3 semester hours from the following course count toward the engineering requirement:

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	3
---------	---	---

### Design Requirements

Code	Title	Hours
ARTF 1122	Color and Composition (with optional ARTF 1123)	
<b>Complete one of the following:</b>		<b>4</b>
ARTF 1121	Conceptual Drawing	
ARTF 1124 and ARTF 1125	Form and Structure and Form and Structure Tools	
ARTF 2220	Movement and Time (with optional ARTF 2221)	
ARTF 2223	Experience and Interaction (with optional ARTF 2224)	

### Design Requirements

ARTG 1250	Design Process Context and Systems	4
ARTG 2250	Typography 1 (with optional ARTG 2251)	4

### Design Options

Complete one of the following design options:

<i>Interactive Design Option</i>		
ARTG 2400	Interaction Design 1: Responsive (with optional ARTG 2401)	
ARTG 3700	Interaction Design 2: Mobile	

### Graphic and Information Design Option

ARTG 2252	Graphic Design 1	
ARTG 3450	Graphic Design 2	

### Experience Design Option

ARTG 3462	Experience Design 1	
ARTG 3463	Experience Design 2	

### Art + Design History Elective

Complete any ARTH course. Recommend selecting an ARTH course that fulfills both NUpath IC and SI.

### Design Elective

Complete two ARTG courses (at least one at 3000-level or higher) as long as prerequisites have been met.

### Art + Design Elective

Complete any one ARTG, ARTE, ARTD, ARTH, ARTS course as long as prerequisites have been met.

### Supporting Courses: Mathematics/Science

Complete all mathematics/science courses with a minimum of 30 semester hours.

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4

PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5
---	---	---

PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	5
---	---	---

**Supplemental Credit**

1 semester hour from the following course counts toward the mathematics/science requirement:		1
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	

**Professional Development**

Code	Title	Hours
<b>Professional Development</b>		
GE 1000 or ARTF 1000	Introduction to the Study of Engineering Art and Design at Northeastern	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

**Additional Required Courses**

1 semester hour from the following course counts toward the professional development requirement:		1
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
1 semester hour from the following course counts toward the professional development requirement:		1
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	

**Writing Requirements**

Code	Title	Hours
A grade of C or higher is required in each course:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Required General Electives**

Code	Title	Hours
Complete 4 semester hours of academic, nonremedial, nonrepetitive courses. Recommend selecting a course to fulfill NUpath DD.		
		4

**Integrative Courses**

Code	Title	Hours
This course is already required above and also fulfills the integrative requirement.		
MEIE 4702	Capstone Design 2	

**Major GPA Requirement**

2.000 minimum GPA required in IE, ME, and MEIE courses

**Program Requirement**

139 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

**Plan of Study**  
**4 Years, One Co-op in Summer 2/Fall**

Year 1					
Fall	Hours	Spring	Hours	Summer 1	Hours
ARTF 1000 or GE 1000	1	ARTF 1122 (EI)	4	Vacation	0

## Animation, Minor

The animation minor immerses students in the creation of animated artwork and assets for short animated films, game art and promotion, documentary films, visualization, motion graphics, illustration, and

interactive art. An intensive studio program, this curriculum seeks to immerse students in the knowledge, experience, and techniques of animation, informed by theory, experimentation, and critique. Extensive digital imaging and interactive media editing and production facilities afford students the opportunity to become proficient in the emerging practices necessary for remarkable work.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. Students who wish to register for 2000-level courses and above need to plan ahead in order to complete prerequisite course(s) ahead of time.

A student pursuing this minor must complete a minimum of four (4) courses exclusive to this minor beyond the courses required for the student's declared major(s), minor(s), or PlusOne.

### Requirements for Non-Art and Design Majors

Code	Title	Hours
<b>Required Courses</b>		
ARTF 1120	Observational Drawing	4
ARTF 1122	Color and Composition (with optional ARTF 1123)	4
ARTF 2220	Movement and Time (with optional ARTF 2221 )	4
ARTD 2370	Animation Basics (with optional ARTD 2371 )	4
ARTD 3470	Animation 1	4

### Requirements for Art and Design Majors

*Note:* This minor is not available to students in the BFA in media arts program or any media arts combined major.

Code	Title	Hours
<b>Required Courses</b>		
ARTF 1120	Observational Drawing	4
ARTD 2370	Animation Basics (with optional ARTD 2371 )	4
ARTD 3470	Animation 1	4
<b>Electives</b>		
Complete two of the following:		8
ARTD 2100	Narrative Basics	
ARTD 3471	Virtual Environment Design	
ARTD 3472	Character Design for Animation	
ARTD 3473	Animation for Games	
ARTD 4570	Animation 2	
ARTD 4575	Animation 3	
ARTE 3901	Art and Design Special Topics	
ARTE 4901	Special Topics in Art and Design Studio	
ARTH 2212	Survey of the Still and Moving Image	

### GPA Requirement

2.500 GPA required in the minor

## Art, Minor

The art minor allows students to complement any degree with a broad exploration of visual studies, fine arts, and design. Following an

introduction to the fundamentals of drawing and two-dimensional design, students select from courses in time-based media, interaction, sculpture, painting, and art history. The department's exceptional Dialogues are popular among art minors, who are able to complete a large portion of their course work during culturally immersive and focused studio residencies in places such as Ireland, Iceland, Cuba, and the Galapagos Islands.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. Students who wish to register for 2000-level courses and above need to plan ahead in order to complete prerequisite course(s) ahead of time.

A student pursuing this minor must complete a minimum of four (4) courses exclusive to this minor beyond the courses required for the student's declared major(s), minor(s), or PlusOne.

### Requirements for Non-Art and Design Majors

Code	Title	Hours
<b>Required Courses</b>

ARTH 2211	Contemporary Art and Design History	
ARTH 2212	Survey of the Still and Moving Image	

### GPA Requirement

2.500 GPA required in the minor

### Art History, Minor

An ideal complement to many majors, the art history minor builds the techniques of visual intelligence necessary to successfully navigate an increasingly image-driven world. Students learn to interpret visual evidence as well as written documents to understand and interrogate how evolving ideas about quality and judgment have shaped the institutions of art, including the growing art market. A diverse and strong faculty brings its own research into the classroom, allowing students to gain international exposure and real-world experience with world-class museums and cultural centers in Boston, Cambridge, and the greater metropolitan area. Art history minors often have opportunities to conduct independent research, develop publishable texts, and gain exposure to the dynamic fields of visual art and curatorial practice.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. Students who wish to register for 2000-level courses

and above need to plan ahead in order to complete prerequisite course(s) ahead of time.

A student pursuing this minor must complete a minimum of four (4) courses exclusive to this minor beyond the courses required for the student's declared major(s), minor(s), or PlusOne.

*Note:* This minor is not available to students in the BA in art program or any art combined major.

### Requirements

Code	Title	Hours
<b>Required Courses</b>		
Complete five of the following:		20
ARTH 1100	Interactive Media and Society	
ARTH 1110	Global Art and Design History: Ancient to Medieval	
ARTH 1111	Global Art and Design History: Renaissance to Modern	
ARTH 1200 and ARTH 1201	Visual Intelligence and Recitation for ARTH 1200	
ARTH 1400	The Science of Art, the Art of Science	
ARTH 2210	Modern Art and Design History

### GPA Requirement

2.500 GPA required in the minor

### Creative Fabrication, Minor

The creative fabrication minor is comprised of a suite of courses that introduces the student to studio principles and practices that will inform the creative, intuitive, and critical processes that are vital when realizing ideas into physical material form. The minor is designed to train and prepare the student with a skill set of traditional and emerging tools and methods for inventing, fabricating, constructing, shaping, and prototyping innovative work in a wide range of materials for a variety of products, places, and purposes. This minor offers the challenge of creating a project that demonstrates and tests the student's competence with the making of artifacts that align with the intentions and aspirations of the maker.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. Students who wish to register for 2000-level courses and above need to plan ahead in order to complete prerequisite course(s) ahead of time.

A student pursuing this minor must complete a minimum of four courses exclusive to this minor beyond the courses required for the student's declared major(s), minor(s), or PlusOne.

**Required Courses**

Code	Title	Hours
ARTF 1124 and ARTF 1125	Form and Structure and Form and Structure Tools	5

**Electives**

Code	Title	Hours
Complete four courses; two courses must be taken in the same department.		16

*Art + Design*

ARTE 3901	Art and Design Special Topics

*Theatre*

THTR 1270	Introduction to Theatrical Design	
THTR 1131	Technical Theatre 1	
THTR 2400	Scenic Design	
THTR 2385	Fashion Construction and Pattern Making	

*Architecture*

ARCH 1110 and ARCH 1120	Fundamental Architectural Representation and Fundamental Architectural Design	
ARCH 2240	Architectonic Systems	
ARCH 3450	Advanced Architectural Communication	

*Engineering*

GE 1501	Cornerstone of Engineering 1	
GE 1502	Cornerstone of Engineering 2	
GE 2300	Engineering Structure and Function: Principles of Design in Nature	
GE 5030	Iterative Product Prototyping for Engineers	

**GPA Requirement**

2.000 GPA required

**Experience Design, Minor**

Experience design is a holistic approach that utilizes investigation into human environments in specific situations to improve quality. Given an understanding of goals, needs, and desires, it seeks to improve the various contexts by identifying and studying events and how they can be turned into beneficial practices.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. Any prerequisites should be taken before registering for 2000-level courses and above.

A student pursuing this minor must complete a minimum of four (4) courses exclusive to this minor beyond the courses required for the student's declared major(s), minor(s), or PlusOne.

**Requirements for Non-Art and Design Majors**

ARTG 3250	Physical Computing	

**GPA Requirement**

2.500 GPA required in the minor

**Game Art, Minor**

The game art minor offers students an opportunity to become immersed in the study and practice of the visual arts and animation within the game medium. Students are afforded the opportunity to think critically and work collaboratively in multidisciplinary teams to produce art and animation assets that are critical to the success of projects in the game medium. Working in the interdisciplinary game areas, the program fosters experiential learning opportunities utilizing diverse intersections of skills merging artistic practice and expression blended with technology. Students will be immersed in experiences to develop tools to succeed, eagerness to innovate, and skills to become next-generation entrepreneurs in the ever-changing games and media landscape.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. Students who wish to register for 2000-level courses

and above need to plan ahead in order to complete prerequisite course(s) ahead of time.

A student pursuing this minor must complete a minimum of four (4) courses exclusive to this minor beyond the courses required for the student's declared major(s), minor(s), or PlusOne.

### Requirements for Non-Art + Design Majors

Code	Title	Hours

ARTE 3901	Art and Design Special Topics	
ARTE 4901	Special Topics in Art and Design Studio	
GAME 2500	Foundations of Game Design	

### GPA Requirement

2.500 GPA required in the minor

### Game Design, Minor

The game design minor allows students in other areas of study to become familiarized with the basics of game design. Game design minor students can collaborate with students in the game design major, as well as the combined majors in game art and animation and computer science and game development. Students make games and create portfolio pieces. Students will also be encouraged to apply principles from their own discipline to the game designs they create.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. Students who wish to register for 2000-level courses and above need to plan ahead in order to complete prerequisite course(s) ahead of time.

A student pursuing this minor must complete a minimum of four courses exclusive to this minor beyond the courses required for the student's declared major(s), minor(s), or PlusOne.

### Requirements

GAME 3800	Game Concept Development	
ARTG 2260	Programming Basics	

### GPA Requirement

2.000 GPA required in the minor

### Graphic and Information Design, Minor

Graphic design makes messages and meaning using visual form and the integration of text and image. It often has a persuasive intention and uses rules of visual composition, form, and pattern to enable storytelling or to create attention and an ambience for consideration. Information design focuses on visualizing concepts and data to enhance human understanding of complex and vital knowledge.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. Any prerequisites should be taken before registering for 2000-level courses and above.

A student pursuing this minor must complete a minimum of four (4) courses exclusive to this minor beyond the courses required for the student's declared major(s), minor(s), or PlusOne.

### Requirements for Non-Art and Design Majors

### GPA Requirement

2.500 GPA required in the minor

## Immersive Media, Minor

This is an interdisciplinary minor that provides a foundation in the design and development of immersive experiences in the exploration of human connection and interaction through media and technology. Focusing on the core principles, tools, and techniques of immersive media development, students have an opportunity to learn to tell stories, prototype new worlds, and explore creative workflows that will help shape the future of design.

The minor serves students who are interested in the following areas: human-computer interaction, enhanced realities, virtual reality, augmented reality, augmented virtuality, extended reality, and cross reality.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. Students who wish to register for 2000-level courses and above need to plan ahead in order to complete prerequisite course(s) ahead of time.

A student pursuing this minor must complete a minimum of four courses exclusive to this minor beyond the courses required for the student's declared major(s), minor(s), or PlusOne.

### COURSES

Some of the courses for the minor require prerequisites not listed here.

Code	Title	Hours
<b>Required</b>		
<i>Extended Realities</i>		
ARTD 2000	Introduction to Immersive Media	4
Complete after all required and elective courses:		
ARTG 3100	Physical and Digital Fabrication	4
<b>Electives</b>		

### Object-Oriented Programming Elective

Complete one from the following list:		4
ARTG 2260	Programming Basics	
CS 2510	Fundamentals of Computer Science 2	
EECE 2560	Fundamentals of Engineering Algorithms	
MUST 3540	Special Topics in Music Technology	
PHYS 1211	Computational Problem Solving in Physics	

### Extended Realities Electives

Complete two of the following: 8

<i>Content Creation</i>		
ARTD 2370	Animation Basics (with optional ARTD 2371)	
ARTD 3470	Animation 1	
ARTD 3471	Virtual Environment Design	
ARTD 3473	Animation for Games	
CS 1100	Computer Science and Its Applications	
CS 3540	Game Programming	
GAME 2950	Game Studio	
GAME 3700	Rapid Idea Prototyping for Games	
GE 1111	Engineering Problem Solving and Computation	
GE 1501	Cornerstone of Engineering 1	
GE 2300	Engineering Structure and Function: Principles of Design in Nature	
GE 2500	Design Analysis and Innovation	
IS 1500	Introduction to Web Development	

### Narrative Development

ARTD 2100	Narrative Basics	
ARTE 2301	The Graphic Novel	
GAME 2355	Narrative for Games	
JRNL 1101	Journalism 1: Fundamentals of Reporting	
JRNL 3610	Digital Storytelling and Social Media	
JRNL 3630	Magazine Writing	
JRNL 3370	Podcast and Radio Journalism	
MSCR 2160	Narrative Filmmaking	

### Business and Innovation

Only one course may be taken from this area:

ENTR 2301	Innovation!	
ENTR 3330	Lean Design and Rapid Prototyping	
MISM 3501	Information Visualization for Business	
MKTG 4502	Managing Customer Engagement in a Service World	
MKTG 4508	Digital Marketing	

### GPA Requirement

2.500 GPA required in the minor

## Interaction Design, Minor

Interaction design focuses on the creation of navigable interfaces and systems that allow audiences to achieve meaningful goals, connecting people to people and people to information and environments.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. Any prerequisites should be taken before registering for 2000-level courses and above.

A student pursuing this minor must complete a minimum of four (4) courses exclusive to this minor beyond the courses required for the student's declared major(s), minor(s), or PlusOne.

### Requirements for Non-Art and Design Majors

Code	Title	Hours
<b>Required Courses</b>		
ARTF 2223	Experience and Interaction (with optional ARTF 2224 )	4
ARTG 1250	Design Process Context and Systems	4
ARTG 2400	Interaction Design 1: Responsive (with optional ARTG 2401 )	4
Choose one of the programming courses with lab course:		4
ARTG 2260	Programming Basics	
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	
<b>Elective</b>		
Complete one of the following:		4
ARTF 1122	Color and Composition (with optional ARTF 1123 )	
ARTG 2250	Typography 1 (with optional ARTG 2251 )	
ARTG 2252	Graphic Design 1	
ARTG 3462	Experience Design 1	
ARTG 3700	Interaction Design 2: Mobile	

### Requirements for Art and Design Majors

*Note:* This minor is not open to students pursuing the BFA in design program or any design combined major.

Code	Title	Hours
<b>Required Courses</b>		
ARTG 1250	Design Process Context and Systems	4
ARTG 2250	Typography 1 (with optional ARTG 2251 )	4
ARTG 2400	Interaction Design 1: Responsive (with optional ARTG 2401 )	4
<b>Electives</b>		
Complete two of the following:		8
ARTE 3901	Art and Design Special Topics	
ARTG 2260	Programming Basics	
ARTG 3462	Experience Design 1	
ARTG 3700	Interaction Design 2: Mobile	

### GPA Requirement

2.500 GPA required in the minor

## Photography, Minor

The photography minor immerses students in the creation of photographs. The curriculum seeks to involve students in the knowledge, experience, and techniques of photography, informed by theory,

experimentation, and critique. Digital imaging, editing, and production facilities afford students the opportunity to become proficient in the emerging practices necessary for a variety of creative and technical contexts.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. Students who wish to register for 2000-level courses and above need to plan ahead in order to complete prerequisite course(s) ahead of time.

A student pursuing this minor must complete a minimum of four (4) courses exclusive to this minor beyond the courses required for the student's declared major(s), minor(s), or PlusOne.

### Requirements for Non-Art + Design Majors

Code	Title	Hours
<b>Required Courses</b>		
ARTF 1122	Color and Composition (with optional ARTF 1123 )	4
ARTD 2360 and ARTD 2361	Introduction to Photography and Photo Tools	5
ARTD 3460	Photography: Concept + Process	4
<b>Elective Courses</b>		
Complete two of the following:		8
ARTD 4565	Photography: Visual Strategies + Context	
ARTD 4660	Studio Photography	
ARTD 4661	Photography: Experimental Processes	
ARTH 2212	Survey of the Still and Moving Image	
ARTE 2500	Art and Design Abroad: Studio	
ARTE 3901	Art and Design Special Topics	
ARTE 4901	Special Topics in Art and Design Studio	

### Requirements for Art + Design Majors

*Note:* This minor is not available to students in the BFA in media arts program or any media arts combined major.

Code	Title	Hours
<b>Required Courses</b>		
ARTD 2360 and ARTD 2361	Introduction to Photography and Photo Tools	5
ARTD 3460	Photography: Concept + Process	4
ARTD 4565	Photography: Visual Strategies + Context	4
<b>Elective Courses</b>		
Complete two of the following:		8
ARTD 4660	Studio Photography	
ARTD 4661	Photography: Experimental Processes	
ARTH 2212	Survey of the Still and Moving Image	
ARTE 2500	Art and Design Abroad: Studio	
ARTE 3901	Art and Design Special Topics	
ARTE 4901	Special Topics in Art and Design Studio	

### GPA Requirement

2.500 GPA required in the minor

## Photojournalism, Minor

As our society continues to move toward a world of technology, the power of photos become that much more important. This minor will engage students on how to visually tell a compelling story. It will give students the skill sets needed to succeed in that endeavor.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

*Note:* A student pursuing the minor in Photojournalism must complete a minimum of three (3) courses exclusive to this minor beyond the courses required for the student's declared major(s), minor(s), or PlusOne.

### Required Courses

Code	Title	Hours
<b>Photography Foundation</b>		
Complete one of the following:		4
ARTE 2500	Art and Design Abroad: Studio	
ARTD 2360	Introduction to Photography (with optional ARTD 2361)	
ARTD 2350	Photo Basics for Nonmajors	
<b>Photography Requirement</b>		
ARTD 3460	Photography: Concept + Process	4
<b>Integrative</b>		
JRNL 5310	Photojournalism	4
<b>Electives</b>		
Complete one of the following:		4
JRNL 2301	Visual Storytelling in Journalism	
JRNL 5314	Video News Reporting and Producing	

### GPA Requirement

2.000 GPA required in the minor

## Video Arts, Minor

The video arts minor is based on a multidisciplinary field focused on creative video expression and messaging. It weaves together collaborative frameworks, theories of social and cultural change, and video production (sound and image) alongside cinematic language (including documentary, imaginative, narrative, and experimental strategies). The scope of the video arts minor is a broader and more diverse tapestry than traditional video arts, and it reflects the dynamic evolution of video in multiple contexts, including the workplace. This minor enables students to explore contemporary, alternative, and other artistic means of video production in a variety of creative and technical contexts.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. Any prerequisites should be taken before registering for 2000 level courses and above.

A student pursuing this minor must complete a minimum of four (4) courses exclusive to this minor beyond the courses required for the student's declared major(s), minor(s), or PlusOne.

## Requirements for Non-Art + Design Majors

Code	Title	Hours
<b>Required Courses</b>		
ARTF 2220	Movement and Time (with optional ARTF 2221 )	4
ARTD 2380	Video Basics (with optional ARTD 2381 )	4
ARTD 3480	Video: Sound and Image	4
<b>Electives</b>		
Complete two of the following:		8
ARTD 3485	Experimental Video	
ARTE 2500	Art and Design Abroad: Studio	
ARTE 3901	Art and Design Special Topics	
ARTE 4901	Special Topics in Art and Design Studio	
ARTH 2212	Survey of the Still and Moving Image	

## Requirements for Art + Design Majors

*Note:* This minor is not available to students in the BFA in media arts program or any media arts combined major.

### GPA Requirement

2.500 GPA required in the minor

## Communication Studies

Website (<https://camd.northeastern.edu/communication-studies/>)

### Dale A. Herbeck, PhD

Professor and Chair

617.373.5517

617.373.8533 (fax)

commstudies@northeastern.edu

The Department of Communication Studies is committed to providing students with both the communication skills and the understanding of the communication process required to thrive in a complex and changing society. Majors are required to demonstrate a mastery of the fundamentals of effective communication, to learn the fundamentals of communication theory and practice, and to develop a distinct area of emphasis. Some of the more popular areas include argumentation and advocacy, organizational and health communication, international and intercultural communication, digital communication and social media, and media production. The curriculum is designed to enhance the understanding of human communication in a variety of contexts, to empower students to become informed and engaged citizens, and

to provide the knowledge and skills required to live a rich personal and professional life.

## Media and Screen Studies

Website (<https://camd.northeastern.edu/program/media-and-screen-studies/>)

### Dale A. Herbeck, PhD

Professor and Chair

617.373.5517

617.373.8533 (fax)

mscr@northeastern.edu

Media and screen studies (MSCR) educates students in the analysis and production of media. Taught from a liberal arts perspective, a media and screen studies degree seeks to give students the ability to think critically about the continually changing media industry and the complex world in which it exists and to apply that knowledge to media production. MSCR is a challenging degree that is not limited to what is traditionally offered at a film school or in a visual and performing arts degree. It gives students the tools to become engaged citizens equipped to meet the challenges of living in a global culture defined by technological and social change.

The Bachelor of Arts in Media and Screen Studies offers courses in analysis and practice. Required courses offer students an opportunity to obtain the critical thinking skills necessary to better understand media content, media technology, and media production. Students then decide how many production and analysis courses they want to take. Choosing from a broad range of electives, students can take more than half their major in media and film production courses, can take a majority of courses that critically examine media content and technology, or can combine courses in other ways.

Students may also enroll in one of the preexistent MSCR combined majors. Media and screen studies has combined majors with communication studies, English, journalism, political science, sociology, and theatre.

## Academic Progression Standards

Departmental probation will result from a cumulative grade-point average below 2.000. No more than two grades below a C in media and screen studies courses can be used to fulfill degree requirements. Dismissal from the major may occur as a result of two consecutive semesters on departmental probation.

## Programs

### Bachelor of Arts (BA)

- Communication Studies (p. 131)
- Communication Studies and Graphic and Information Design (p. 100)
- Communication and Media Studies (p. 133)
- Communication Studies and Sociology (p. 135)
- Communication Studies and Theatre (p. 137)
- English and Communication Studies (p. 139)
- Human Services and Communication Studies (p. 142)
- Linguistics and Communication Studies (p. 143)
- Media Arts and Communication Studies (p. 114)
- Media and Screen Studies and English (p. 149)
- Media and Screen Studies and History (p. 151)
- Media and Screen Studies and Journalism (p. 153)
- Media and Screen Studies and Media Arts (p. 113)

- Media and Screen Studies and Philosophy (p. 156)
- Media and Screen Studies and Political Science (p. 157)
- Media and Screen Studies and Sociology (p. 160)
- Media and Screen Studies and Theatre (p. 162)
- Media and Screen Studies (p. 147)
- Political Science and Communication Studies (p. 164)

### Bachelor of Science (BS)

- Business Administration and Communication Studies (p. 167)
- Communication Studies and Speech-Language Pathology and Audiology (p. 171)
- Computer Science and Communication Studies (p. 169)
- Health Science and Communication Studies (p. 172)
- Media and Screen Studies and Theatre (p. 175)
- Music and Communication Studies with Concentration in Music Industry (p. 176)
- Political Science and Communication Studies (p. 179)

### Minors

- Argumentation and Law (p. 182)
- Cinema Studies (p. 182)
- Communication Studies (p. 182)
- Digital Communications (p. 183)
- Film Production (p. 183)
- Human Communication (p. 183)
- Improvisation and Storytelling (p. 184)
- Media Production (p. 185)
- Media and Screen Studies (p. 184)
- Oratory and Public Speaking (p. 185)
- Political Communication (p. 185)
- Rhetoric (p. 186)
- Social Activism (p. 186)
- Sports, Media, and Communication (p. 186)

## Communication Studies, BA

The communication studies major offers students an opportunity to obtain the communication skills and the understanding of the communication process required to thrive in a complex and changing society. Majors are required to demonstrate a mastery of the fundamentals of effective communication, to learn the fundamentals of communication theory and practice, and to develop a distinct area of emphasis. Some of the more popular areas include argumentation and advocacy, organizational and health communication, international and intercultural communication, digital communication and social media, and media production. The curriculum is designed to enhance the understanding of human communication in a variety of contexts, to empower students to become informed and engaged citizens, and to provide the knowledge and skills required to live a rich personal and professional life.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

NUPath requirements Creative Expression/Innovation (EI), Societies and Institutions (SI), Analyzing and Using Data (AD), and Ethical Reasoning (ER) are met through the major course requirements.

NUPath requirements Natural and Designed World (ND), Interpreting Culture (IC), Formal and Quantitative Reasoning (FQ), and Difference and Diversity (DD) may be met through electives in the major.

## Communication and Media Studies, BA

The Department of Communication Studies offers majors in both communication studies and in media and screen studies. The department also offers an integrated major that allows students to combine COMM and MSCR courses to create a unique plan of study that features courses on the theory and practice of communication along with the study of media, cultural, and creative industries. Students graduating with a communication and media studies major can pursue a graduate degree or enter careers in advertising, communication education, healthcare, journalism, law, public relations, government/politics, media and film production, and social and human services.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), Difference and Diversity (DD), Creative Expression/Innovation (EI), Analyzing and Using Data (AD), and Ethical Reasoning (ER) are met through the major course requirements.

NUpath requirements Natural and Designed World (ND) and Formal and Quantitative Reasoning (FQ) may be met through electives in the major.

### Communication and Media Studies Requirements

## Communication Studies and Graphic and Information Design, BA

The Department of Communication Studies and the Department of Art + Design offer a combined major in communication studies and graphic and information design. Students interested in the combined major integrate the study of communication skills and processes with the design of message and meaning, integrating text, image, and data.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Natural and Designed World (ND), Creative Expression/Innovation (EI), Formal and Quantitative Reasoning (FQ), Analyzing and Using Data (AD), and Difference and Diversity (DD) may be met through electives in the major.

**Communication Studies and Sociology, BA**

The communication studies department and the sociology department offer an interdisciplinary combined major in communication studies and sociology. The combined major integrates the study of communication skills and processes with the study of social behaviors.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

NUPath requirements Societies and Institutions (SI) and Ethical Reasoning (ER) are met through the major course requirements.

NUPath requirements Natural and Designed World (ND), Creative Expression/Innovation (EI), Interpreting Culture (IC), Formal and Quantitative Reasoning (FQ), Difference and Diversity (DD), and Analyzing and Using Data (AD) may be met through electives in the major.

## Communication Studies Requirements

## Communication Studies and Theatre, BA

The Departments of Theatre and Communication Studies offer an interdisciplinary combined major that unites the artistic dimensions of theatre with the practical skills and theories in communication studies. The program provides both the creative study of theater performance, literature, playwriting, and directing with the ability to research and deliver a compelling speech and think critically and write effectively. The two disciplines unite in shared values of original personal expression, professional collaboration, and experiences in the cultural, social, and ethical impact of theatre as human communication.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Creative Expression/Innovation (EI), Societies and Institutions (SI), and Ethical Reasoning (ER) are met through the major course requirements.

NUpath requirements Natural and Designed World (ND), Formal and Quantitative Reasoning (FQ), Analyzing and Using Data (AD), and Difference and Diversity (DD) may be met through electives in the major.

## Human Services and Communication Studies, BA

The intersection of communications studies and human services practices spans several domains. Nonprofit organizations depend on communications professionals to effectively represent their work to the community, partner organizations, and funders. Knowledge and skills developed in communications studies also service human services professionals working in the political realm as they seek to promote impactful social policies.

The human services major is designed to prepare students for careers in social change by providing them with the theoretical and skill-based background necessary for practice and research. Students will develop a holistic understanding of preventative and reactive responses to social inequality and an understanding of how to impact change at the individual and structural levels. Students engage in an integrated educational program that emphasizes experiential approaches to learning through service-learning, co-op, and internship opportunities.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### Human Services Requirements

### Linguistics and Communication Studies, BA

In the combined major in linguistics and communication studies, students learn about the formal structures and analysis of human languages across multiple levels (sounds, words, phrases and sentences, meaning) while simultaneously mastering the fundamentals of effective communication and of communication theory and practice. Students receive extensive training in writing and speaking, both for a technical audience and more generally; and they explore the role of language and communication in society, both from a broad theoretical perspective and in narrower, more focused and applied domains.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Linguistics Requirements

## Media Arts and Communication Studies, BA

The Department of Communication Studies and the Department of Art + Design offer a combined major in media arts and communication studies. Students interested in the combined major integrate the study of communication skills and processes with the study of the creation of the narrative arts, required for professional work in documentary film, game art and promotion, visualization, motion graphics, interactive art, illustration, and short animated films.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath attributes Creative Expression and Innovation (EI), Interpreting Culture (IC), and Societies and Institutions (SI) are met through the major course requirements.

In order to graduate, students must complete Natural and Designed World (ND), Formal and Quantitative Reasoning (FQ), Analyzing and Using Data (AD), Difference and Diversity (DD), and Ethical Reasoning (ER) in their electives.

**Media and Screen Studies, BA**

The Bachelor of Arts in Media and Screen Studies offers courses in analysis and practice. Required courses offer students an opportunity to obtain the critical-thinking skills necessary to better understand media content, media technology, and media production. Students then decide how many production and analysis courses they want to take. Choosing from a broad range of electives, students can take more than half their major in media and film production courses, can take a majority of courses that critically examine media content and technology, or can combine courses in other ways.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC) and Societies and Institutions (SI) are met through the major course requirements.

NUpath requirements Creative Expression/Innovation (EI), Difference and Diversity (DD), and Ethical Reasoning (ER) may be met through electives in the major.

NUpath requirements Natural and Designed World (ND), Formal and Quantitative Reasoning (FQ), and Analyzing and Using Data (AD) must be met through general electives.

## Media and Screen Studies and English, BA

The media and screen studies program and the Department of English offer a combined major in media and screen studies and English. The combined major integrates the analysis, research, and production of traditional and emerging media along with the study of the diverse historical, cultural, and aesthetic contexts of English, American, and other Anglophone literatures. Majors become familiar with writing practices and media from the Middle Ages through the present, from the quill pen to computer code.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC) and Societies and Institutions (SI) are met through the major course requirements.

NUpath requirements Creative Expression/Innovation (EI), Analyzing and Using Data (AD), Difference and Diversity (DD), and Ethical Reasoning (ER) may be met through electives in the major.

NUpath requirements Natural and Designed World (ND) and Formal and Quantitative Reasoning (FQ) must be met through general electives.

### Media and Screen Studies and History, BA

The Media and Screen Studies Program and the Department of History offer a combined major in media and screen studies and history. The combined major integrates the analysis, research, and production of traditional and emerging media along with the study of local and regional histories as well as of the global exchanges between nations, regions, and cultures.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC) and Societies and Institutions (SI) are met through the major course requirements.

NUpath requirements Creative Expression/Innovation (EI), Analyzing and Using Data (AD), Difference and Diversity (DD), and Ethical Reasoning (ER) may be met through electives in the major.

NUpath requirements Natural and Designed World (ND) and Formal and Quantitative Reasoning (FQ) must be met through general electives.

### Media and Screen Studies and Political Science, BA

The Media and Screen Studies Program and the Department of Political Science offer a combined major in media and screen studies and political science. The combined major integrates the analysis, research, and production of traditional and emerging media along with courses on American government, comparative politics, international relations, and research methods.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), Analyzing and Using Data (AD), and Ethical Reasoning (ER) are met through the major course requirements.

NUpath requirements Creative Expression/Innovation (EI) and Difference and Diversity (DD) may be met through electives in the major.

NUpath requirements Natural and Designed World (ND) and Formal and Quantitative Reasoning (FQ) must be met through general electives.

## Media Studies Requirements

Code	Title	Hours
<b>Media and Screen Studies Common Requirements</b>		
MSCR 1220	Media, Culture, and Society	4
MSCR 1320 or MSCR 1420	Media and Social Change Media History	4
<b>Foundation Course</b>		
Complete one of the following:		4
MSCR 1230	Introduction to Film Production	
MSCR 2220	Understanding Media	
<b>Diversity or Globalization Course</b>		
Complete one of the following:		4
MSCR 2325	Global Media	
MSCR 2505	Digital Feminisms	
MSCR 3392	Gender and Film	
MSCR 3437	Media and Identity	
<b>Writing-Intensive</b>		
Complete two of the following:		8
MSCR 2505	Digital Feminisms	
MSCR 3420	Digital Media Culture	
MSCR 3422	Media Audiences	
MSCR 3600	Film Theory	
MSCR 3700	Queer Media	
MSCR 4208	TV History	

## Media and Screen Studies Electives

Code	Title	Hours
Complete three courses from MSCR or from the following (NUpath capstone recommendation: Complete MSCR 4623 as one of your MSCR electives if a political science capstone is not taken for a political science elective):		12
ARTD 2380	Video Basics	
ARTD 3480	Video: Sound and Image	
ARTD 3485	Experimental Video	
COMM 1450	Sound Production for Digital Media	
COMM 2550	Television Field Production	
COMM 2655	Television Studio Production	
COMM 3655	Digital Editing for TV	

COMM 3750	Special Effects and Postproduction for Television
COMM 4755	Production Capstone

## Political Science Requirements

Code	Title	Hours
<b>Required Courses</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2400	Quantitative Techniques	4
<b>Political Thought</b>		
Complete one of the following:		4
POLS 2325	Ancient Philosophy and Political Thought	
POLS 2328	Modern Political Thought	
POLS 2330	American Political Thought	
POLS 2332	Contemporary Political Thought	
<b>Politics in Media/Art</b>		
Complete two courses. Consult academic adviser for additional courses.		8
POLS 2368	Music and Politics in America and Abroad	

### Elective Courses

Complete two POLS courses or complete a concentration. 8  
NUpath capstone recommendation: Complete a POLS capstone course as one of your POLS electives if MSCR 4623 is not taken for a MSCR elective.

## Political Science Concentration (Optional)

If you are working toward one of the following concentrations, declare it with your adviser so that it may be added to your record.

- American Political Institutions (p. 159)
- Campaigns and Elections (p. 159)
- Comparative Politics (p. 159)
- Identity, Culture, and Politics (p. 159)
- International Relations and Diplomacy (p. 159)
- Law and Legal Studies (p. 159)
- Public Policy (p. 159)
- Security Studies (p. 160)

## Integrative Requirements

Code	Title	Hours
<b>Required Courses</b>		
MSCR 3437 or COMM 3320	Media and Identity Political Communication	4
POLS 3320	Politics and Mass Media	4

## Media and Screen Studies Grade Requirement

No more than two grades below a C in media and screen studies courses may be used to satisfy degree requirements

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirement

128 total semester hours required

### Concentrations

#### CONCENTRATION IN AMERICAN POLITICAL INSTITUTIONS

**Media and Screen Studies and Sociology, BA**

The Media and Screen Studies Program and the Department of Sociology and Anthropology offer a combined major in media and screen studies and sociology. The combined major integrates the analysis, research, and production of traditional and emerging media along with the critical perspective needed for studying the social and cultural arrangements in which people live, for understanding how societies function, for investigating the conditions under which people change their institutions, and for describing the modes and conditions of cooperation that make social life possible.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Difference and Diversity (DD) are met through the major course requirements.

NUpath requirements Creative Expression/Innovation (EI), Analyzing and Using Data (AD), and Ethical Reasoning (ER) may be met through electives in the major.

NUpath requirements Natural and Designed World (ND) and Formal and Quantitative Reasoning (FQ) must be met through general electives.

**Media and Screen Studies Requirements**

Code	Title	Hours
<b>Media and Screen Studies Common Requirements</b>		
MSCR 1220	Media, Culture, and Society	4
MSCR 1320	Media and Social Change	4

or MSCR 1420 Media History

#### Foundation Course

Complete one of the following: 4

MSCR 1230 Introduction to Film Production

MSCR 2220 Understanding Media

#### Diversity or Globalization Course

Complete one of the following: 4

MSCR 2325 Global Media

MSCR 2505 Digital Feminisms

**Media and Screen Studies and Theatre, BA**

This major is designed for students who want to combine a knowledge of the art of theatre with the theories and conceptual frameworks of media and film studies. It offers both classroom and experiential learning in areas of acting, directing, playwriting, and design with related studies in screenwriting, media technology, and media production. Students have an opportunity to develop a personalized technique for the practices of making theatre, film, and television as engaged citizens and creative artists.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (EI), Interpreting Culture (IC) and Societies and Institutions (SI) are met through the major course requirements.

NUpath requirements Formal and Quantitative Reasoning (FQ), Analyzing and Using Data (AD), Difference and Diversity (DD), and Ethical Reasoning (ER) may be met through electives in the major.

NUpath requirement Natural and Designed World (ND) must be met through general electives.

## Business Administration and Communication Studies, BS

The combined major between business administration and communication studies provides students with a robust overview of business and communication studies. This combined major seeks to prepare students for career opportunities in growing industry markets such as public relations, marketing communications, and digital media.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Business Core Requirements

Code	Title	Hours
<b>Introduction to College</b>		
BUSN 1102	Personal Skill Development for Business	1
or COMM 1000	Communication Studies at Northeastern	
<b>Accounting</b>		
ACCT 1201	Financial Accounting and Reporting	4
<b>Business Statistics</b>		
MGSC 2301	Business Statistics	4
<b>Business Core Option 1</b>		
INTB 1203	International Business and Global Social Responsibility	4
or ORGB 3201	Organizational Behavior	
<b>Marketing</b>		
MKTG 2201	Introduction to Marketing	4
<b>Finance</b>		
FINA 2201	Financial Management	4
<b>Business Core Option 2</b>		
ACCT 2301	Managerial Accounting	4
or ENTR 2301	Innovation!	
or MISM 2301	Management Information Systems	
or SCHM 2301	Supply Chain and Operations Management	

### Business Concentration Required

A concentration is required and may be chosen from the following list:

- Accounting (p. 290)
- Brand Management (p. 290)
- Business Analytics (p. 291)
- Corporate Innovation and Venture (p. 291)
- Entrepreneurial Startups (p. 291)
- Family Business (p. 292)
- Finance (p. 292)

- Fintech (p. 293)
- Healthcare Management and Consulting (p. 293)
- International Business (p. 294) (available only as a second concentration)
- Management (p. 294)
- Management Information Systems (p. 295)
- Marketing (p. 295)
- Marketing Analytics (p. 296)
- Social Innovation and Entrepreneurship (p. 296)
- Supply Chain Management (p. 297)

### Supporting Business Courses

Code	Title	Hours
<b>Mathematics</b>		
Complete one of the following:		4
MATH 1231	Calculus for Business and Economics	
MATH 1241	Calculus 1	
MATH 1251	Calculus and Differential Equations for Biology 1	
MATH 1340	Intensive Calculus for Engineers	
MATH 1341	Calculus 1 for Science and Engineering	
<b>Macroeconomics and Microeconomics</b>		
Complete one of the following:		4
ECON 1115	Principles of Macroeconomics	
ECON 1116	Principles of Microeconomics	

### Communication Studies Requirements

Code	Title	Hours
<b>Communication Studies Common Requirements</b>		
COMM 1101	Introduction to Communication Studies	4
COMM 1112	Public Speaking	4
or COMM 1113	Business and Professional Speaking	
or COMM 2301	Communication Research Methods	
<b>Foundation Course</b>		
Complete one of the following:		4
COMM 1210	Persuasion and Rhetoric	
COMM 1225	Communication Theory	
COMM 1231	Principles of Organizational Communication	
COMM 1255	Communication in a Digital Age	
<b>Cluster Course</b>		
Complete one of the following:		4
COMM 1131	Sex, Relationships, and Communication	
COMM 2303	Global and Intercultural Communication	
COMM 2304	Communication and Gender	
COMM 2501	Communication Law	
COMM 2551	Free Speech in Cyberspace	
<b>Writing-Intensive</b>		
Complete two of the following:		8
COMM 3200	Mobile Communication	
COMM 3201	Health Communication	
COMM 3230	Interpersonal Communication	
COMM 3304	Communication and Inclusion	
COMM 3320	Political Communication	
COMM 3414	Great Speakers and Speeches	

COMM 3415	Communication Criticism
COMM 3445	Public Relations Principles
COMM 3500	Environmental Issues, Communication, and the Media
COMM 3501	Free Speech: Law and Practice
COMM 3530	Communication and Sexualities
COMM 3532	Theories of Conflict and Negotiation
COMM 4535	Nonverbal Social Interaction
COMM 4605	Youth and Communication Technology
COMM 4631	Crisis Communication and Image Management

**Communication Studies Electives**

Complete three additional electives. Choose from any communication studies courses not used to satisfy requirements above or related electives outside of communication studies. 12

ARTF 2220	Movement and Time
ARTD 2360	Introduction to Photography
ARTD 2380	Video Basics
ARTD 3460	Photography: Concept + Process
ARTD 3480	Video: Sound and Image
JRNL 1101	Journalism 1: Fundamentals of Reporting
JRNL 3425	Public Relations Principles
JRNL 3625	Public Relations Practice
JRNL 3610	Digital Storytelling and Social Media
JRNL 5311	Design for Storytelling
JRNL 5314	Video News Reporting and Producing
JRNL 5316	The Newsroom
MSCR 1230	Introduction to Film Production
MSCR 2302	Advertising and Promotional Culture

**Integrative Requirement**

Code	Title	Hours
<b>Integrative Course</b>		
MKTG 4504	Advertising and Brand Promotion	4
<b>Capstone</b>		
Complete one of the following:		4
STRT 4501	Strategy in Action	
COMM 4608	Strategic Communication Capstone	
COMM 4533	Consultation Skills	

**Business GPA Requirement**

Minimum 2.000 GPA in business courses required

**Business Cooperative Education Requirement**

Complete one six-month co-op experience.

**Communication Studies Major Grade Requirement**

No more than two grades below a C in communication studies courses may be used to satisfy degree requirements.

**Program Requirement**

128 total semester hours required

**Plan of Study**

**Sample Four Years, Two Co-ops**

**Year 1**

## Computer Science and Communication Studies, BS

The computer science and communication studies combined major integrates practical skills and theory. Students will gain both a strong computer science foundation and a deep understanding of the major conceptual frameworks for human communication—plus how to apply this knowledge to solve problems in today's society.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4
CS 4550	Web Development	4
<b>Khoury Elective</b>		

With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 12 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:	12
CS 2500 or higher, except CS 5010	
CY 2000 or higher, except CY 4930	
DS 2500 or higher, except DS 4900	
IS 2000 or higher, except IS 4900	

### Communication Studies Courses

Code	Title	Hours
<b>Communication Studies Common Requirements</b>		
COMM 1101	Introduction to Communication Studies	4
COMM 1112 or COMM 2301	Public Speaking Communication Research Methods	4
<b>Foundation Course</b>		
Complete one of the following:		4
COMM 1210	Persuasion and Rhetoric	
COMM 1225	Communication Theory	
COMM 1231	Principles of Organizational Communication	
COMM 1255	Communication in a Digital Age	
<b>Cluster Course</b>		
Complete one of the following:		4
COMM 1131	Sex, Relationships, and Communication	
COMM 2303	Global and Intercultural Communication	
COMM 2304	Communication and Gender	
COMM 2501	Communication Law	
COMM 2551	Free Speech in Cyberspace	
<b>Writing-Intensive</b>		
Complete two of the following:		8
COMM 3200	Mobile Communication	
COMM 3201	Health Communication	
COMM 3230	Interpersonal Communication	
COMM 3304	Communication and Inclusion	
COMM 3320	Political Communication	
COMM 3414	Great Speakers and Speeches	
COMM 3415	Communication Criticism	
COMM 3445	Public Relations Principles	
COMM 3500	Environmental Issues, Communication, and the Media	
COMM 3501	Free Speech: Law and Practice	
COMM 3530	Communication and Sexualities	
COMM 3532	Theories of Conflict and Negotiation	
COMM 4535	Nonverbal Social Interaction	
COMM 4605	Youth and Communication Technology	
COMM 4631	Crisis Communication and Image Management	
<b>Communication Studies Electives</b>		
Complete three courses in the following range: <sup>1</sup>		12
COMM 1131 to COMM 4996		

<sup>1</sup> Special Topics in Communication Studies (COMM 4912), and Junior/Senior Honors Project 1 (COMM 4970) are excluded.

### Supporting Courses

Code	Title	Hours
<b>Mathematics</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
<b>Computing and Social Issues</b>		
Complete one of the following:		4
AFAM 2600	Issues in Race, Science, and Technology	
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
IS 1300 or PHIL 1300	Knowledge in a Digital World	
PHIL 1145	Technology and Human Values	
SOCL 1280	The Twenty-First-Century Workplace	
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

### Writing Requirements

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
<b>Advanced Writing in the Disciplines</b>		
Complete one of the following:		4
ENGW 3302	Advanced Writing in the Technical Professions	
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	
COMM 3409	Advocacy Writing <sup>1</sup>	

<sup>2</sup> If Advocacy Writing (COMM 3409) is selected it will also satisfy a communication studies elective requirement. One additional general elective will be then required in its place.

### Required General Electives

Code	Title	Hours
Complete 32 credits of general electives.		32

### NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Understanding Societies and Institutions
- Employing Ethical Reasoning
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

### Communication Studies Grade Requirement

No more than two grades below a C in communication studies courses may be used to fulfill degree requirements.

### Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, IS

### Communication Studies GPA Requirement

Minimum 2.000 GPA required in all COMM courses

### Program Requirement

## Communication Studies and Speech-Language Pathology and Audiology, BS

The combined Bachelor of Science in Communication Studies and Speech-Language Pathology and Audiology offers an interdisciplinary approach to human communication and its disorders. Coursework focuses on the scientific and theoretical frameworks of speech, language, and hearing. Students will also be introduced to the fundamentals of communication theory, and they have an opportunity to acquire the practical skills necessary to thrive in a complex and changing society. The curriculum is enhanced by experiential learning opportunities in a clinical setting that prepare the students for a variety of professional careers.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### First-Year Seminar

Code	Title	Hours
COMM 1000	Communication Studies at Northeastern	1
or SLPA 1000	College: An Introduction	

### Communication Studies Requirements

Code	Title	Hours
	No more than two grades below a C in communication studies courses may be used to fulfill degree requirements.	

#### Communication Studies Common Requirements

COMM 1101	Introduction to Communication Studies	4
COMM 1112	Public Speaking	4
or COMM 2301	Communication Research Methods	

#### Foundation Course

Complete one of the following:		
COMM 1210	Persuasion and Rhetoric	4

COMM 1231	Principles of Organizational Communication
COMM 1225	Communication Theory
COMM 1255	Communication in a Digital Age

#### Cluster Course

Complete one of the following: 4

COMM 1131	Sex, Relationships, and Communication
COMM 2303	Global and Intercultural Communication
COMM 2304	Communication and Gender
COMM 2501	Communication Law
COMM 2551	Free Speech in Cyberspace

#### Writing-Intensive Courses

Complete two of the following (COMM 3201 is strongly recommended): 8

COMM 3200	Mobile Communication
COMM 3201	Health Communication
COMM 3230	Interpersonal Communication
COMM 3304	Communication and Inclusion
COMM 3320	Political Communication
COMM 3414	Great Speakers and Speeches
COMM 3415	Communication Criticism
COMM 3445	Public Relations Principles
COMM 3500	Environmental Issues, Communication, and the Media
COMM 3501	Free Speech: Law and Practice
COMM 3530	Communication and Sexualities
COMM 3532	Theories of Conflict and Negotiation
COMM 4535	Nonverbal Social Interaction
COMM 4605	Youth and Communication Technology
COMM 4631	Crisis Communication and Image Management

#### Communication Studies Electives

Complete three COMM courses. 12

### Speech-Language Pathology and Audiology Requirements

Code	Title	Hours
------	-------	-------

All courses in these sections must be completed with a C or better.

#### SLPA Requirements

SLPA 1101	Introduction to Communication Disorders	4
SLPA 1102	Language Development	4
SLPA 1103	Anatomy and Physiology of Speech and Hearing Mechanism	4
SLPA 1200	Phonetics	4
SLPA 1203	Introduction to Audiology	4
SLPA 1205	Speech and Hearing Science	4
SLPA 2000	Introduction to Co-op	1
or EEAM 2000	Professional Development for Co-op	
SLPA 4651	Speech Disorders across the Life Span	4
SLPA 5107	Clinical Procedures	4
SLPA 5110	Language Disorders across the Life Span	4
SLPA 6219	Aural Rehabilitation	4

### Supporting Courses

Code	Title	Hours
PSYC 1101	Foundations of Psychology	4
ENGW 1111	First-Year Writing	4
PHYS 1145 and PHYS 1146	Physics for Life Sciences 1 and Lab for PHYS 1145	5
BIOL 2217 and BIOL 2218	Integrated Anatomy and Physiology 1 and Lab for BIOL 2217	5

A general elective or a COMM elective (e.g., COMM 1120) can be taken to fulfill the NUPath Formal/Quantitative Reasoning (FQ) requirement.

## Health Science and Communication Studies, BS

The combined Bachelor of Science degree program in health science and communication studies offers an interdisciplinary approach to public health communication. Students combine courses from health sciences and communication studies to learn about health and illness and the important role of communication in shaping the public's understanding of health issues. The interdisciplinary curriculum is enhanced by experiential learning opportunities and is designed to prepare students for challenging careers that involve crafting messages about health, developing strategies for promoting healthcare services, and specific applications such as disease awareness and prevention.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Communication Studies Major Requirements

Code	Title	Hours
COMM 1101	Introduction to Communication Studies	4
COMM 1112 or COMM 2301	Public Speaking Communication Research Methods	4

Code	Title	Hours
<b>Foundation Course</b>		

Complete one of the following: 4

COMM 1210	Persuasion and Rhetoric	
COMM 1225	Communication Theory	
COMM 1231	Principles of Organizational Communication	
COMM 1255	Communication in a Digital Age	

#### Cluster Course

Complete one of the following: 4

COMM 1131	Sex, Relationships, and Communication	
COMM 2303	Global and Intercultural Communication	
COMM 2304	Communication and Gender	
COMM 2501	Communication Law	
COMM 2551	Free Speech in Cyberspace	

#### Writing-Intensive

Complete two of the following: 8

COMM 3200	Mobile Communication	
COMM 3201	Health Communication	
COMM 3230	Interpersonal Communication	
COMM 3304	Communication and Inclusion	
COMM 3320	Political Communication	
COMM 3414	Great Speakers and Speeches	
COMM 3415	Communication Criticism	
COMM 3445	Public Relations Principles	
COMM 3500	Environmental Issues, Communication, and the Media	
COMM 3501	Free Speech: Law and Practice	
COMM 3530	Communication and Sexualities	
COMM 3532	Theories of Conflict and Negotiation	
COMM 4535	Nonverbal Social Interaction	
COMM 4605	Youth and Communication Technology	
COMM 4631	Crisis Communication and Image Management	

#### Communication Studies Electives

Complete three additional communication studies courses. 12

### Health Science Requirements

Code	Title	Hours
<b>Public Health Core</b>		
PHTH 1260 or PHTH 1261	<i>The American Healthcare System</i> <i>Comparative Healthcare Systems</i>	4

## Media and Screen Studies and Theatre, BS

This major is designed for students who want to combine a knowledge of the art of theatre with the theories and conceptual frameworks of media and film studies. It offers both classroom and experiential learning in areas of acting, directing, playwriting, and design with related studies in screenwriting, media technology, and media production. Students have an opportunity to develop a personalized technique for the practices of making theatre, film, and television as engaged citizens and creative artists.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (EI), Interpreting Culture (IC), and Societies and Institutions (SI) are met through the major course requirements.

NUpath requirements Formal and Quantitative Reasoning (FQ), Analyzing and Using Data (AD), Difference and Diversity (DD), and Ethical Reasoning (ER) may be met through electives in the major.

NUpath requirement Natural and Designed World (ND) must be met through general electives.

### Media and Screen Studies Requirements

### Music and Communication Studies with Concentration in Music Industry, BS

The Bachelor of Science in Music with Concentration in Music Industry, the first such undergraduate program offered in Boston, is designed for students with an interest in fields such as artist management; the music products industry; the recording industry; arts administration; contracting and legal issues; financial and economics aspects of the music industry; and broadcast, mobile, and online media technologies.

The Department of Communication Studies is committed to providing students with both the communication skills and the understanding of the communication process required to thrive in a complex and changing society. Majors are required to demonstrate a mastery of the fundamentals of effective communication, to learn the fundamentals of communication theory and practice, and to develop a distinct area of emphasis. Some of the more popular areas include argumentation and advocacy, organizational and health communication, international and intercultural communication, digital communication and social media, and media production. The curriculum is designed to enhance the understanding of human communication in a variety of contexts, to empower students to become informed and engaged citizens, and to provide the knowledge and skills required to live a rich personal and professional life.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

NUPath requirements Creative Expression/Innovation (EI), Interpreting Culture (IC), Societies and Institutions (SI), and Ethical Reasoning (ER) are met through the major course requirements.

NUPath requirements Natural and Designed World (ND), Formal and Quantitative Reasoning (FQ), Analyzing and Using Data (AD), and Difference and Diversity (DD) may be met through electives in the major.

## Music Industry Requirements

Code	Title	Hours
<b>Introduction to College</b>		
MUSC 1000	Music at Northeastern	1
<b>Music Core</b>		
MUSC 1001	Music in Everyday Life	4
<b>Music Theory Placement</b>		
All students must take a theory placement exam. Students who do not place into MUSC 1201 must first take the following:		
MUSC 1119	Fundamentals of Western Music Theory	4
<b>Music Theory Requirement</b>		
MUSC 1201	Music Theory 1	4
<b>Introductory Music Industry</b>		
MUSI 1230	Introduction to Music Industry	4
<b>Music in Context</b>		
Choose one course from Western Art Music, Global Music / Ethnomusicology, or Contemporary / Popular Music categories.		
<i>Western Art Music</i>		
MUSC 2107	Introduction to Opera	
MUSC 2312	Historical Traditions: Classical	
MUSC 2320	40,000 Years of Music Technology	
MUSC 2340	Divas, DJs, and Double Standards	
MUSC 2380	The World of Choral Music	
MUSC 3352	Sounding Human

COMM 4605	Youth and Communication Technology
COMM 4631	Crisis Communication and Image Management

**Communication Studies Electives**

Complete three COMM courses. 12

**Integrative Requirement**

Code	Title	Hours
------	-------	-------

Complete one of the integrative options below. If a communication studies course is taken, an additional music industry course is required, chosen from the list of music industry electives above.

**Music Option**

Complete one of the following:

MUSI 4601	Seminar in Music Industry
MUSI 4530	Music Entrepreneurship
MUSI 5900	Ethnography in Creative Industries

**Communication Studies Option**

Complete two of the following. One communication studies course is required:

COMM 4608	Strategic Communication Capstone
or COMM 4625	Online Communities
MUSC 2000 to MUSC 5999	
MUSI 2000 to MUSI 5999	
MUST 2000 to MUST 5999	

**Communication Studies Major Grade Requirement**

No more than two grades below a C in communication studies courses may be used to satisfy degree requirements.

**Music Major Grade Requirement**

Students must maintain at least a 2.667 GPA (B- average) in the requirements of the music half of the combined major and also complete all required music courses with grades of at least C. Students who fail to meet the above standards will be placed on departmental probation; those who remain on probation for two consecutive semesters will be dropped from the major.

**Program Requirement**

128 total semester hours required

**Plan of Study**

## Political Science and Communication Studies, BS

The combined major in political science and communication studies offers students the opportunity to integrate the study of politics and government with different forms and mediums of communication. Students complete core courses in political science along with core courses in communication studies that cover public speaking and persuasion. This combined major highlights the important role played by different forms of communication in shaping politics and government.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### Political Science Requirements

Code	Title	Hours
<b>Core Courses in Political Science</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2400	Quantitative Techniques	4
<b>Political Thought</b>		
Complete one of the following:		4
POLS 2325	Ancient Philosophy and Political Thought	
POLS 2328	Modern Political Thought

### Argumentation and Law, Minor

The argumentation and law minor is intended for students contemplating law school, students interested in legal issues, or students in fields affected by law (such as journalism, strategic communication, or public policy). To prepare students for successful careers in these areas, this minor combines courses in argumentation, rhetoric, and law. Students are exposed to the principles of argumentation, the fundamentals of free speech, the basics of intellectual property, and issues related to privacy.

#### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Students must complete a minimum of three courses exclusive to this minor beyond the courses required for the student's declared major(s) and additional minor(s).

#### Requirements

Code	Title	Hours
<b>Argumentation</b>		
Complete two of the following:		8
COMM 1120	Principles of Argumentation	
COMM 1210	Persuasion and Rhetoric	
COMM 2100	Elements of Debate	
COMM 3310	Rhetoric and Justice	
COMM 3311	Arguing Human Rights	
COMM 3409	Advocacy Writing	

#### Law

Complete two of the following:		8
COMM 1331	Legal Argumentation, Advocacy, and Citizenship	
COMM 2501	Communication Law	
COMM 2525	Communication and Privacy	
COMM 2551	Free Speech in Cyberspace	
COMM 3308	Rhetoric and Propaganda	
COMM 3309	Rhetoric of Fascism	
COMM 3414	Great Speakers and Speeches	
COMM 3501	Free Speech: Law and Practice	
LPSC 1101	Introduction to Law	
LPSC 2301	Introduction to Law, Policy, and Society	
LPSC 3303	Topics in Law and Public Policy	
LPSC 3307	Understanding the Modern Supreme Court	

#### GPA Requirement

2.000 GPA required in the minor

### Cinema Studies, Minor

The interdisciplinary cinema studies minor appeals to students aspiring to supplement their major program of study with courses that promote the study of film, television, and digital media. In addition to film analysis and film theory, students choose from electives on culture and film, film and television history, and gender and film. This results in a minor that combines the academic study of cinema along with the crafts of filmmaking and screenwriting.

#### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Media and Screen Studies majors may not declare the cinema studies minor. Students must complete a minimum of three courses exclusive to this minor beyond the courses required for the student's declared major(s) and additional minor(s).

#### Requirements

Code	Title	Hours
MSCR 2895	Film Analysis	4
MSCR 3600	Film Theory	4

#### Electives

Code	Title	Hours
Complete three of the following:		12
ARTH 2212	Survey of the Still and Moving Image	
MSCR 2220	Understanding Media	
MSCR 2336	American Film and Culture	
MSCR 3389	Screenwriting	
MSCR 3392	Gender and Film	
MSCR 4208	TV History	
MUSC 1113	Film Music	

#### GPA Requirement

2.000 GPA required in the minor

### Communication Studies, Minor

The communication studies minor is designed for students interested in acquiring practical skills along with a broad-based understanding of communication theory and research. This minor seeks to provide the knowledge necessary to understand the challenges and opportunities of a diverse and democratic society and the skills to perform effectively and ethically as citizens. Three electives offer students an opportunity to develop an area of expertise (such as strategic communication or media production) within the communication studies minor.

#### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Communication studies majors may not declare the communication studies minor. Students must complete a minimum of three courses exclusive to this minor beyond the courses required for the student's declared major(s) and additional minor(s).

## Requirements

Code	Title	Hours
<b>Required Courses</b>		
COMM 1101	Introduction to Communication Studies	4
COMM 1112	Public Speaking	4
<b>Foundation Course</b>		
Complete one of the following:		4
COMM 1210	Persuasion and Rhetoric	
COMM 1231	Principles of Organizational Communication	
COMM 1225	Communication Theory	
COMM 1255	Communication in a Digital Age	
<b>Electives</b>		
Complete three of the following or any unused foundational courses from above:		12
COMM 1120 to COMM 4799		

## GPA Requirement

2.000 GPA required in the minor

### Digital Communications, Minor

The digital communications minor appeals to students interested in studying the relationship between communication, technology, and society. The minor offers students an opportunity to obtain the tools and methods for studying, analyzing, and critically reflecting upon their everyday engagements with digital forms of community and expression. Students pursuing the digital communications minor explore the ethical questions that sit at the core of the digital technologies that shape culture, politics, and the economy. Courses in the minor cover areas of digital communication such as social media, networks and organizing, internet policy and cybersecurity, online communities and collaboration, and children's development and new media.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Students must complete a minimum of three courses exclusive to this minor beyond the courses required for the student's declared major(s) and additional minor(s).

## Requirements

Code	Title	Hours
<b>Foundational Courses</b>		
Complete two of the following:		8
COMM 1255	Communication in a Digital Age	
COMM 2105	Social Networks	
COMM 2525	Communication and Privacy	
COMM 2551	Free Speech in Cyberspace	
COMM 2625	Communication, Technology, and Society	
ENGL 1450	Reading and Writing in the Digital Age	
MSCR 2505	Digital Feminisms	
	or WMNS 2505 Digital Feminisms	
<b>Advanced Courses</b>		
Complete two of the following:		8

COMM 3200	Mobile Communication
COMM 4605	Youth and Communication Technology
COMM 4625	Online Communities

## GPA Requirement

2.000 GPA required in the minor

### Film Production, Minor

The interdisciplinary film production minor appeals to students interested in film production. This minor is particularly appealing to students studying art and art history, English, and theatre. In addition to a foundational course in film production, students take a combination of courses dealing with documentary filmmaking, film analysis, screenwriting, and storytelling. The film production minor is designed to prepare students for graduate school, careers in media production, and positions in the entertainment industry.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Students must complete a minimum of three courses exclusive to this minor beyond the courses required for the student's declared major(s) and additional minor(s).

## Required Course

Code	Title	Hours
MSCR 1230	Introduction to Film Production	4

## Electives

Code	Title	Hours
Complete four of the following:		
ARTD 3480	Video: Sound and Image	
ARTD 3485	Experimental Video	
MSCR 2160	Narrative Filmmaking	
MSCR 2895	Film Analysis	
MSCR 3389	Screenwriting	
MSCR 3446	Documentary Production	
THTR 2345	Acting for the Camera	

## GPA Requirement

2.000 GPA required in the minor

### Human Communication, Minor

The human communication minor is intended for students interested in studying the role of interpersonal communication in relationships, including romantic relationships, friendships, and relationships in groups or in organizations. Successful students gain an in-depth understanding of how communication can affect the quality of relationships, the satisfaction that is derived from relationships, and whether a relationship is likely to last or dissolve. Courses in the minor focus on research-validated theories, concepts, and models that aid students in understanding the many different types of relationships that exist in their personal and professional lives.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Students must complete a minimum of three courses exclusive to this minor beyond the courses required for the student's declared major(s) and additional minor(s).

## Foundational Courses

Code	Title	Hours
Complete two of the following:		8
COMM 1131	Sex, Relationships, and Communication	
COMM 1231	Principles of Organizational Communication	
COMM 2131	Dark Side of Interpersonal Communication	
COMM 2135	Sex and Interpersonal Communication	
COMM 2303	Global and Intercultural Communication	
COMM 2304	Communication and Gender	
COMM 2500	Analyzing Conversations in Everyday Life	
COMM 2534	Group Communication	
COMM 2535	Family Communication	

## Advanced Courses

Code	Title	Hours
Complete two of the following:		8
COMM 2301	Communication Research Methods	
COMM 3230	Interpersonal Communication	
COMM 3530	Communication and Sexualities	
COMM 3532	Theories of Conflict and Negotiation	
COMM 4535	Nonverbal Social Interaction	

## GPA Requirement

2.000 GPA required in the minor

## Improvisation and Storytelling, Minor

The minor in improvisation and storytelling is intended for students interested in integrating the creativity of actor training and the practical techniques of public speaking. Students are encouraged to choose courses to empower their voice and speech, cultivate their onstage persona, and develop high-impact presentation skills to enhance career prospects. This minor, which features classes offered by the Department of Theatre and the Department of Communication Studies, seeks to create more confident, creative, and compelling communicators.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Students must complete a minimum of three courses exclusive to this minor beyond the courses required for the student's declared major(s) and additional minor(s).

## Common Requirements

Code	Title	Hours
COMM 1511	Communication and Storytelling	4
THTR 1125	Improvisation	4

## Communication Studies Elective

Code	Title	Hours
Complete one of the following:		4
COMM 1112	Public Speaking	
COMM 1113	Business and Professional Speaking	
COMM 1210	Persuasion and Rhetoric	

## Theatre Elective

Code	Title	Hours
Complete one of the following:		4
THTR 1130	Introduction to Acting	
THTR 1160	The Professional Voice	
THTR 2345	Acting for the Camera	

## GPA Requirement

2.000 GPA required in the minor

## Media and Screen Studies, Minor

The media and screen studies minor appeals to students interested in how media shapes society and is designed to prepare students for careers in arts and industry, politics, and popular culture. The minor offers students an opportunity to obtain the analytical skills necessary for the rigorous analysis of media within the humanities and social sciences. Students with a media and screen studies minor often find employment in film and television production, media marketing, film/media journalism, and other positions within the entertainment industry.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Media and screen studies majors may not declare the media and screen studies minor. Students must complete a minimum of three (3) courses exclusive to this minor beyond the courses required for the student's declared major(s) and additional minor(s).

## Required Courses

Code	Title	Hours
MSCR 1220	Media, Culture, and Society	4
MSCR 2220	Understanding Media	4

## Electives

Code	Title	Hours
Complete three courses in the following range:		12
MSCR 2000 to MSCR 4999		

## GPA Requirement

2.000 GPA required in the minor

## Media Production, Minor

The media production minor is designed to foster an awareness of the important cultural, rhetorical, and critical contexts of media development. Successful students develop creative and artistic abilities through studying contemporary practices and standards and developing original creative work. The technical aspects of camera operation, audio design, lighting design, digital editing, and live broadcast are also covered.

### Minor Requirements

Students must complete a minimum of three courses exclusive to this minor beyond the courses required for the student's declared major(s) and additional minor(s).

### Required Courses

Code	Title	Hours
COMM 1450	Sound Production for Digital Media	4
COMM 2350	Producing for the Entertainment Industry	4
COMM 2550	Television Field Production	4
COMM 2655	Television Studio Production	4

### Elective Courses

Code	Title	Hours
Complete two of the following:		8
COMM 2650	The Business of Entertainment	
COMM 2750	Beyond Television	
COMM 3307	Production Practicum Abroad	
COMM 3450	Voice-Over Artist	
COMM 3655	Digital Editing for TV	
COMM 3750	Special Effects and Postproduction for Television	
COMM 4755	Production Capstone	

### GPA Requirement

2.000 GPA required in the minor

## Oratory and Public Speaking, Minor

The oratory and public speaking minor is designed for students aspiring to develop exemplary oral communication skills. The courses that comprise the minor provide a coherent program of study that includes the principles of argumentation, the practice of public speaking, and the theory of narrative and storytelling.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Students must complete a minimum of three courses exclusive to this minor beyond the courses required for the student's declared major(s) and additional minor(s).

### Foundational Course

Code	Title	Hours
COMM 1112	Public Speaking	4

## Electives

Code	Title	Hours
Complete four of the following:		16
COMM 1113	Business and Professional Speaking	
COMM 1210	Persuasion and Rhetoric

COMM 1511	Communication and Storytelling	
COMM 2100	Elements of Debate	
COMM 2113	Interviewing	
COMM 3450	Voice-Over Artist	

### GPA Requirement

2.000 GPA required in the minor

## Political Communication, Minor

The political communication minor is a joint program offered through the departments of communication studies, political science, and journalism. The minor appeals to students interested in the electoral process, campaign rhetoric, and the role of media in political life. It is intended to address the interests and needs of students considering careers in the political sphere, either as candidates, employees, volunteers, or reporters in political organizations and campaigns. The political communication minor is designed to prepare students for careers in communication, law, politics, public administration, public policy, and other professions that deal with issues in public settings.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Students must complete a minimum of three courses exclusive to this minor beyond the courses required for the student's declared major(s) and additional minor(s).

### Introductory Courses

Code	Title	Hours
Complete two of the following:		8
COMM 1210	Persuasion and Rhetoric

JRNL 3550	The First Amendment and the Media
<b>Political Science</b>	
POLS 3310	Public Opinion, Voting, and Elections

### GPA Requirement

2.000 GPA required in the minor

### Rhetoric, Minor

The rhetoric minor appeals to students interested in history, theory, and the criticism of civic discourse and cultural practices. The minor integrates courses from the Department of Communication Studies and the Department of English that explore the nature and function of rhetoric in politics, the professions, and the media. The rhetoric minor offers students an opportunity to be better citizens, members of the community, and leaders in the workplace by learning how to use language strategically, to speak with integrity, and to appreciate the power of their own voice.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where indicated.

Students must complete a minimum of three courses exclusive to this minor beyond the courses required for the student's declared major(s) and additional minor(s).

### Foundational Course

Code	Title	Hours
Complete one of the following:		4
COMM 1210	Persuasion and Rhetoric	
ENGL 1160	Introduction to Rhetoric	

### Electives

Code	Title	Hours
Note: For English majors, only one course from the major may also count toward this elective section of the minor.		
Complete four of the following:		16
COMM 1331	Legal Argumentation, Advocacy, and Citizenship

ENGL 3325	Rhetoric of Law	
ENGL 3381	The Practice and Theory of Teaching Writing	
ENGL 3404	African American Rhetorical Traditions	

### GPA Requirement

2.000 GPA required in the minor

### Social Activism, Minor

The social activism minor appeals to students interested in exploring a variety of perspectives and practical approaches to social activism. The minor allows students to explore social movements, public advocacy, and citizenship in a wide array of situations. These opportunities arise from

the wealth of advocacy organizations in Boston, the access Northeastern students have to co-op experiences nationally and internationally, and Northeastern's service-learning program. Completing course work in a variety of departments provides an interdisciplinary perspective and allows students to apply different skill sets and knowledge bases for careers as lawyers, nonprofit activists, community organizers, lobbyists, and volunteers.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Students must complete a minimum of three courses exclusive to this minor beyond the courses required for the student's declared major(s) and additional minor(s).

### Introductory Courses

### Sports, Media, and Communication, Minor

The sports, media, and communication minor appeals to students preparing for careers as sports journalists or advertising/public relations professionals specializing in a sports-related area. The minor includes courses examining the prominent role of sports in society with a special

emphasis on gender, race, and public policy. When combined with Northeastern's signature co-op program, the result is an innovative minor that blends theory with practice and prepares students for a broad range of professional opportunities.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Students must complete a minimum of three courses exclusive to this minor beyond the courses required for the student's declared major(s) and additional minor(s).

## Foundational Course

Code	Title	Hours
COMM 2110	Sports, Media, and Communication	4

## Electives

Code	Title	Hours
------	-------	-------

### Sports Elective

Complete one of the following: 4

COMM 2700	Sports Promotion in the 21st Century	
JRNL 3455	Sports Writing	

### Intermediate Elective

Complete one of the following: 4

ANTH 2365	Sport, Culture, and Society	
COMM 1450	Sound Production for Digital Media	
COMM 2550	Television Field Production	
COMM 2350	Producing for the Entertainment Industry	
COMM 2655	Television Studio Production	
COMM 2800	Sport and Spectacle	
COMM 3451	Advertising Practices	
ECON 3481	Economics of Sports	

### Advanced Elective

Complete one of the following: 4

COMM 4631	Crisis Communication and Image Management	
COMM 4994	Internship in Communication	
JRNL 3945	Internship	
JRNL 4650	Ethics and Issues in Journalism	
JRNL 5310	Photojournalism	
JRNL 5314	Video News Reporting and Producing	

## GPA Requirement

2.000 GPA required in the minor

## School of Journalism

Website (<https://camd.northeastern.edu/journalism-at-northeastern/>)

**Jonathan Kaufman, MA**  
Professor and Director

617.373.3236  
617.373.8773 (fax)

The School of Journalism seeks to prepare students for careers in news and related communication fields. The program prepares future journalists and professional communicators in writing, editing, digital and social media, photography, video and audio production, design, and public relations. These skills have broad applications. Graduates of the program also go on to work in government, business, law, and teaching.

Students can graduate in four years with two co-ops. The school strongly advises students to obtain cooperative education experience. The program offers some of the best co-ops and internships anywhere.

Graduates work for some of the world's best newspapers and magazines, radio and television stations, online publications, wire services, public relations departments, and advertising agencies.

## Academic Progression Standards

Journalism majors and minors must be in good standing in accordance with university-wide requirements to remain in the major or minor.

## Programs

### Bachelor of Arts (BA)

- Journalism (p. 187)
- Journalism and English (p. 189)
- Journalism and Political Science (p. 191)
- Media and Screen Studies and Journalism (p. 153)

### Bachelor of Science (BS)

- Computer Science and Journalism (p. 195)
- Criminal Justice and Journalism (p. 197)
- Data Science and Journalism (p. 199)
- Journalism and Interaction Design (p. 111)

## Minors

- Journalism Practice (p. 203)
- Journalism Studies (p. 204)
- Photojournalism (p. 130)
- Public Relations (p. 204)
- Sports, Media, and Communication (p. 186)

## Journalism, BA

Website (<https://camd.northeastern.edu/program/journalism-ba/>)

If you're a news junkie; love to write; want to tell people what's going on in your hometown, around the world, or in an organization, a journalism major at Northeastern University is designed to give you the skills and experience you need to tell your story.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (EI), Interpreting Culture (IC), Societies and Institutions (SI), Difference and Diversity (DD), and Ethical Reasoning (ER) are met through the major course requirements.

NUpath requirement Analyzing and Using Data (AD) may be met through electives in the major.

NUpath requirements Natural and Designed World (ND) and Formal and Quantitative Reasoning (FQ) must be met through general electives.

### Journalism Major Requirements

Students transferring from outside institutions must complete a minimum of five 4-credit journalism courses at Northeastern, and these must include:

Code	Title	Hours
JRNL 2201	Journalism 2: Intermediate Reporting	
JRNL 2301	Visual Storytelling in Journalism	
JRNL 4650	Ethics and Issues in Journalism	

Code	Title	Hours

## Journalism and English, BA

The School of Journalism and the English Department offer an interdisciplinary combined major in Journalism and English. Broadly speaking, students in the Combined Major in Journalism and English at Northeastern integrate the study of journalism with the study of language, literature and writing.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (EI), Societies and Institutions (SI), and Difference and Diversity (DD) are met through the major course requirements.

NUpath requirements Interpreting Culture (IC), Analyzing and Using Data (AD), and Ethical Reasoning (ER) may be met through electives in the major.

NUpath requirements Natural and Designed World (ND) and Formal and Quantitative Reasoning (FQ) must be met through general electives.

### Journalism Major Requirements

Code	Title	Hours
<b>Journalism Introductory Course</b>		
JRNL 1150	Understanding Today's News	4
<b>Journalism Foundations</b>		
Must receive a C or better in the following:		
JRNL 1101 and JRNL 1102	Journalism 1: Fundamentals of Reporting and Journalist's Toolbox	5
JRNL 2201	Journalism 2: Intermediate Reporting	4
JRNL 2301	Visual Storytelling in Journalism	4
JRNL 3610	Digital Storytelling and Social Media	4
<b>Law and Ethics</b>		
JRNL 3550 or JRNL 4650	The First Amendment and the Media Ethics and Issues in Journalism	4
<b>Journalism Electives</b>		
Take three JRNL courses		12

### English Requirements

Code	Title	Hours
<b>English Course-Level Requirement</b>		
In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.		
<b>Introduction to College</b>		
ENGL 1000	English at Northeastern	1
<b>Foundational Courses</b>		
ENGL 1400	Introduction to Literary Studies	4
ENGL 1160 or ENGL 1410	Introduction to Rhetoric Introduction to Research on Writing	4
<b>Diversity</b>		
Complete one of the following courses. This course may also be used to fulfill an additional English requirement below:		
ENGL 2150	Literature and Digital Diversity	
ENGL 2296	Early African-American Literature	
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2760	Writing in Global Contexts	
ENGL 3663	The African American Novel

**Journalism and Political Science, BA**

This interdisciplinary combined major offers students an opportunity to integrate the study and practice of journalism and political science. Successful students will gain a deep understanding of both disciplines, allowing them to seek out areas such as political writing, campaigns, and law school.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (CI), Interpreting Culture (IC), Understanding Societies and Institutions (SI), Analyzing and Using Data (AD), Engaging Difference and Diversity (DD), and Employing Ethical Reasoning (ER) are met through the major requirements. All other Nupath requirements must be met through electives.

**Journalism Major Requirements**

Code	Title	Hours
<b>Journalism Introductory Course</b>		
JRNL 1150	Understanding Today's News	4
<b>Journalism Foundations</b>		
Must receive a C or better in the following:		
JRNL 1101 and JRNL 1102	Journalism 1: Fundamentals of Reporting and Journalist's Toolbox	5
JRNL 2201	Journalism 2: Intermediate Reporting	4
JRNL 2301	Visual Storytelling in Journalism	4
JRNL 3610	Digital Storytelling and Social Media	4
<b>Ethics</b>		
JRNL 4650	Ethics and Issues in Journalism	4

<b>Media and Screen Studies Common Requirements</b>		
MSCR 1220	Media, Culture, and Society	4
MSCR 1320	Media and Social Change	4
or MSCR 1420	Media History	
<b>Foundation Course</b>		
Complete one of the following:		4
MSCR 1230	Introduction to Film Production	
MSCR 2220	Understanding Media	
<b>Diversity or Globalization Course</b>		
Complete one of the following:		4
MSCR 3392	Gender and Film	
MSCR 2325	Global Media	
MSCR 2505	Digital Feminisms	
MSCR 3437	Media and Identity	
<b>Writing-Intensive</b>		
Complete two of the following:		8
MSCR 2505	Digital Feminisms	
MSCR 3600	Film Theory	
MSCR 3420	Digital Media Culture	
MSCR 3422	Media Audiences	

MSCR 3700	Queer Media
MSCR 4208	TV History

### Media and Screen Studies Electives

Code	Title	Hours
Complete three courses from MSCR or from the following:		
ARTD 2380	Video Basics	12
ARTD 3480	Video: Sound and Image	
ARTD 3485	Experimental Video	
COMM 1450	Sound Production for Digital Media	
COMM 2550	Television Field Production	
COMM 2655	Television Studio Production	
COMM 3655	Digital Editing for TV	
COMM 3750	Special Effects and Postproduction for Television	
COMM 4755	Production Capstone	

### Journalism Requirements

Code	Title	Hours
<b>Journalism Foundations</b>		
JRNL 1101 and JRNL 1102	Journalism 1: Fundamentals of Reporting and Journalist's Toolbox (A grade of C or higher is required)	5
JRNL 1150	Understanding Today's News	4
JRNL 2201	Journalism 2: Intermediate Reporting (A grade of C or higher is required)	4

### Journalism and Advanced Writing

JRNL 2301	Visual Storytelling in Journalism (A grade of C or higher is required)	4

## Computer Science and Journalism, BS

The computer science and journalism combined major supports students who understand that journalism now takes place in both print and the digital world. Students will learn the principles, practices, and responsibilities of the journalism profession while gaining a deep

understanding of the systems and technologies that support digital media.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4
IS 4200 or IS 4300	Information Retrieval Human Computer Interaction	4

## Khoury Elective Courses

With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 12 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:	12
CS 2500 or higher, except CS 5010	
CY 2000 or higher, except CY 4930	
DS 2500 or higher, except DS 4900	
IS 2000 or higher, except IS 4900	

## Journalism Major Requirements

Students transferring from outside institutions must complete a minimum of five 4-credit journalism courses at Northeastern, and these must include:

Code	Title	Hours
JRNL 2201	Journalism 2: Intermediate Reporting	
JRNL 2301	Visual Storytelling in Journalism	
JRNL 4650	Ethics and Issues in Journalism	

Code	Title	Hours
<b>Journalism Courses</b>		
A grade of C or higher is required:		
JRNL 1101 and JRNL 1102	Journalism 1: Fundamentals of Reporting and Journalist's Toolbox	5
JRNL 2201	Journalism 2: Intermediate Reporting	4
JRNL 2301	Visual Storytelling in Journalism	4
JRNL 3610	Digital Storytelling and Social Media	4

<b>Required Journalism</b>		
JRNL 1150	Understanding Today's News	4
JRNL 2350	The History of Journalism: How the News Became the News	4
JRNL 3550	The First Amendment and the Media	4
JRNL 4650	Ethics and Issues in Journalism	4

<b>Journalism Electives</b>		
Complete two JRNL courses.		8

<b>Journalism-Related Requirement</b>		
HIST 1130	Introduction to the History of the United States	4

**Supporting Courses**

Code	Title	Hours
------	-------	-------

<b>Mathematics Requirement</b>		
MATH 1341	Calculus 1 for Science and Engineering	4

<b>Computing and Social Issues</b>		
Complete one of the following:		4

AFAM 2600	Issues in Race, Science, and Technology	
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
IS 1300 or PHIL 1300	Knowledge in a Digital World	
PHIL 1145	Technology and Human Values	
SOCL 1280	The Twenty-First-Century Workplace	
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

**Writing Requirement**

Code	Title	Hours
------	-------	-------

<b>College Writing</b>		
ENGW 1111	First-Year Writing	4

**Advanced Writing in the Disciplines**

*This course already fulfills a Journalism requirement above*

JRNL 2301	Visual Storytelling in Journalism
-----------	-----------------------------------

**Required General Electives**

Code	Title	Hours
Complete 28 credits of general electives.		28

**NUpath Requirements Satisfied**

- Engaging with the Natural and Designed World
- Exploring Creative Expression and Innovation
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Understanding Societies and Institutions
- Interpreting Culture
- Engaging Difference and Diversity
- Employing Ethical Reasoning
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

**Khoury College GPA Requirement**

Minimum 2.000 GPA required in all CS, CY, DS, IS courses

**Journalism GPA Requirement**

Minimum 2.000 GPA required in all JRNL courses

**Program Requirement**

134 total semester hours required

**Plan of Study**

## Criminal Justice and Journalism, BS

The School of Criminology and Criminal Justice and School of Journalism offer a combined major in criminal justice and journalism. Criminology and criminal justice courses provide a foundation for understanding crime and our criminal justice system. Journalism courses provide students with the skills and experience needed to succeed as a journalist. Together, the combined major is designed to prepare students to report important stories about crime and justice.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Criminal Justice Requirements

Code	Title	Hours
<b>Introduction to Crime, Law, and the Justice System</b>		
	What do we know about crime and justice? In these three courses, students have an opportunity to develop a foundational understanding of three related phenomena: why crime exists, how our criminal justice system responds to crime, and the constitutional and legal oversight of this process.	
CRIM 1100	Introduction to Criminal Justice	4
CRIM 1110	Criminal Due Process	4
CRIM 1120	Criminology	4

**Current Crime and Justice Issues**

These courses introduce students to topical issues related to crime and justice.

Complete one of the following:	4
CRIM 1300 The Death Penalty	
CRIM 1400 Human Trafficking	
CRIM 1500 Corruption, Integrity, and Accountability	

**Crime Problems and Criminal Justice Institutions**

The 2000-level courses in this list ask how does justice work and for whom? These courses introduce students to the systems and institutions tasked with providing justice. Each includes experiential learning components in cooperation with local criminal justice institutions. The 3000-level courses in this list provide students with a deeper look at a range of crime problems.

Complete one of the following:	4
CRIM 2310 Courts: The Third Branch of Government	
CRIM 2320 Youth Crime and Justice	
CRIM 2330 Punishment in the Age of Mass Incarceration	
CRIM 2340 Corporate Security: Securing the Private Sector	
CRIM 2350 Policing a Democratic Society	
CRIM 3010 Criminal Violence	
CRIM 3030 Global Criminology	
CRIM 3040 Psychology of Crime	
CRIM 3050 Organized Crime	
CRIM 3060 Political Crime and Terrorism	
CRIM 3070 Corporate and White-Collar Crime	
CRIM 3540 Addiction and Recovery	

**Systemic Issues**

These courses consider systemic issues facing the criminal justice system.

Complete one of the following:	4
CRIM 3110 Gender, Crime, and Justice	
CRIM 3120 Race, Crime, and Justice	

**Creating Knowledge about Crime and Justice**

How do we know what we know about crime and justice—and how do we develop new knowledge? These courses study harnessing data to learn about issues, identify solutions, and advocate for change.

CRIM 3600 Criminal Justice Research Methods	4
CRIM 3700 Analyzing and Using Data on Crime and Justice	4

**Solutions and Reform**

How do we reinvent criminal justice institutions and their practice? The capstone experience is project-based and solution-oriented, drawing on knowledge gained in the classroom and through co-op and other experiences.

CRIM 4949 Senior Capstone Seminar	4
-----------------------------------	---

**Criminal Justice Elective**

These courses round out our knowledge of crime and justice.

Complete one additional criminal justice elective from the 3000, 4000, or 5000 level.	4
---	---

**Journalism Requirements**

Code	Title	Hours
------	-------	-------

**Introductory Journalism Course**

JRNL 1150	Understanding Today's News	4
-----------	----------------------------	---

**Journalism Foundation Courses**

A grade of C or better is required.		
JRNL 1101 and JRNL 1102	Journalism 1: Fundamentals of Reporting and Journalist's Toolbox	5
JRNL 2201	Journalism 2: Intermediate Reporting	4
JRNL 2301	Visual Storytelling in Journalism	4
JRNL 3610	Digital Storytelling and Social Media	4

**Ethics**

JRNL 4650	Ethics and Issues in Journalism	4
-----------	---------------------------------	---

**Journalism Electives**

### Data Science and Journalism, BS

The data science and journalism combined major offers students an opportunity to gain the skills to be able to engage in both the print and digital worlds of journalism. Students study the collection, manipulation,

storage, retrieval, and computational analysis of data in its various forms, including numeric, textual, image, and video data. Combined with learning the principles, practices, and responsibilities of journalism, students can extract meaning from massive information flows and utilize it in effective investigative reporting.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1

### Programming Sequence Pathways

Choose one of the two options. 12

#### Computer Science Option

CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	

#### Data Science Option

DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
DS 2500 and DS 2501	Intermediate Programming with Data and Lab for DS 2500	
DS 3500	Advanced Programming with Data	

### Computer Science Required Courses

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 3200	Database Design	4
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	4

### Data Science Foundations

DS 3000	Foundations of Data Science	4
DS 4200	Information Presentation and Visualization	4
DS 4300	Large-Scale Information Storage and Retrieval	4
DS 4400	Machine Learning and Data Mining 1	4
DS 4420	Machine Learning and Data Mining 2	4

### Khoury Elective Courses

With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 4 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges: 4

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

### Journalism Major Requirements

Students transferring from outside institutions must complete a minimum of five 4-credit journalism courses at Northeastern, and these must include:

Code	Title	Hours
JRNL 2201	Journalism 2: Intermediate Reporting	
JRNL 2301	Visual Storytelling in Journalism	
JRNL 4650	Ethics and Issues in Journalism	

Code	Title	Hours
------	-------	-------

#### Journalism Courses

A grade of C or higher is required:

JRNL 1101 and JRNL 1102	Journalism 1: Fundamentals of Reporting and Journalist's Toolbox	5
JRNL 2201	Journalism 2: Intermediate Reporting	4
JRNL 2301	Visual Storytelling in Journalism	4
JRNL 3610	Digital Storytelling and Social Media	4

#### Required Journalism

JRNL 1150	Understanding Today's News	4
JRNL 3550	The First Amendment and the Media	4
JRNL 4650	Ethics and Issues in Journalism	4

#### Journalism Electives

Complete three JRNL courses. 12

### Supporting Courses

Code	Title	Hours
------	-------	-------

#### Mathematics Requirement

MATH 1341	Calculus 1 for Science and Engineering	4
-----------	--	---

#### Statistics Foundation

ECON 2350	Statistics	4
-----------	------------	---

### Writing Requirement

Code	Title	Hours
------	-------	-------

#### College Writing

ENGW 1111	First-Year Writing	4
-----------	--------------------	---

#### Advanced Writing in the Disciplines

*This course already fulfills a Journalism requirement above.*

JRNL 2301	Visual Storytelling in Journalism	
-----------	-----------------------------------	--

#### Computing and Social Issues

Complete one of the following: 4

AFAM 2600	Issues in Race, Science, and Technology	
-----------	---	--

CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
---------	--	--

CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks
PHIL 1145	Technology and Human Values
SOCL 1280	The Twenty-First-Century Workplace
SOCL 2485	Environment, Technology, and Society
SOCL 4528	Computers and Society

### Integrative Requirement

Code	Title	Hours
Complete one of the following: 4		
JRNL 3700	Data Storytelling	
JRNL 5500	Coding for Digital Storytelling	

### Required General Electives

Code	Title	Hours
Complete 20 credits of general electives. 20		

### NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Exploring Creative Expression and Innovation
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Understanding Societies and Institutions
- Employing Ethical Reasoning
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

### Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, IS courses

### Journalism GPA Requirement

Minimum 2.000 GPA required in all JRNL courses

### Program Requirement

131 total semester hours required

### Plan of Study

## Journalism and Interaction Design, BS

The School of Journalism and the Department of Art and Design offer an interdisciplinary combined major in journalism and interaction design. Broadly speaking, students in the combined major in journalism and interaction design at Northeastern integrate the study of journalism with the study of art and design.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (EI), Interpreting Culture (IC), Societies and Institutions (SI), Difference and Diversity (DD), and Ethical Reasoning (ER) are met through the major course requirements.

NUpath requirement Analyzing and Using Data (AD) may be met through electives in the major.

NUpath requirements Natural and Designed World (ND) and Formal and Quantitative Reasoning (FQ) must be met through general electives.

**Journalism Practice, Minor**

With the explosion of websites, podcasts, and social media, more and more people find themselves using the skills of a journalist in the dissemination of information in both their private and professional lives. This minor is intended for those students who wish to bring more professionalism and sophistication to the things they post online or who hope to offer a skill set that will make them more versatile and employable in their chosen field. It will also serve those who may be

considering a career in journalism but find themselves too late in their college careers to switch majors.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

*Note:* Any student wishing to satisfy a minor in both journalism studies and journalism practice must take eight unique courses. No double counting. Journalism majors are not eligible for a minor in journalism practice.

### Required Courses

Code	Title	Hours
<b>Required Courses</b>		
JRNL 1101 and JRNL 1102	Journalism 1: Fundamentals of Reporting and Journalist's Toolbox	5
JRNL 2201	Journalism 2: Intermediate Reporting	4
<b>Restricted Elective</b>		
Complete one course from the following:		4
JRNL 3610	Digital Storytelling and Social Media	
JRNL 3625	Public Relations Practice	
JRNL 3630	Magazine Writing	
JRNL 3680	Advanced Reporting	
JRNL 5310	Photojournalism	
JRNL 5311	Design for Storytelling	
JRNL 5314	Video News Reporting and Producing	
JRNL 5360	Global Reporting	
<b>Elective</b>		
Complete one additional JRNL course.		4

### GPA Requirement

2.000 GPA required in the minor

### Journalism Studies, Minor

With an ever-growing array of information options available, and with the news media making news in the early days of the new administration in Washington, interest in the workings of journalism has never been higher. This minor is intended for those students who wish for a sophisticated media literacy, an understanding of the field that goes deeper than what can be gained in our popular Understanding Today's News course.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

*Note:* Any student wishing to satisfy a minor in both journalism studies and journalism practice must take eight unique courses. No double counting. Journalism majors are not eligible for a minor in journalism studies.

### Required Courses

<b>Law</b>		
JRNL 3550	The First Amendment and the Media	4
<b>Elective</b>		
Take one JRNL course.		4

### GPA Requirement

2.000 GPA required in the minor

### Photojournalism, Minor

As our society continues to move toward a world of technology, the power of photos become that much more important. This minor will engage students on how to visually tell a compelling story. It will give students the skill sets needed to succeed in that endeavor.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

*Note:* A student pursuing the minor in Photojournalism must complete a minimum of three (3) courses exclusive to this minor beyond the courses required for the student's declared major(s), minor(s), or PlusOne.

### Required Courses

Code	Title	Hours
<b>Photography Foundation</b>		
Complete one of the following:		4
ARTE 2500	Art and Design Abroad: Studio	
ARTD 2360	Introduction to Photography (with optional ARTD 2361)	
ARTD 2350	Photo Basics for Nonmajors	
<b>Photography Requirement</b>		
ARTD 3460	Photography: Concept + Process	4
<b>Integrative</b>		
JRNL 5310	Photojournalism	4
<b>Electives</b>		
Complete one of the following:		4
JRNL 2301	Visual Storytelling in Journalism	
JRNL 5314	Video News Reporting and Producing	

### GPA Requirement

2.000 GPA required in the minor

### Public Relations, Minor

Effective communication to the key publics is essential in today's complex business and media environment. The public relations minor is for students who want to acquire critical communication skills, including writing, audio, video, and the effective use of data and design. Successful students will also be equipped with theoretical and practical knowledge needed to be a good communication practitioner. This minor may complement relevant majors such as business administration, communication studies, sociology, and psychology, though any student with an interest in public relations is welcome.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

*Note:* A student pursuing the minor in public relations must complete a minimum of three courses exclusive to this minor beyond the courses required for the student's declared major(s), minor(s), or PlusOne.

## Required Courses

JRNL 1101 and JRNL 1102	Journalism 1: Fundamentals of Reporting and Journalist's Toolbox	5
JRNL 3425	Public Relations Principles	4
<b>Restricted Elective</b>		
Complete one of the following:		4
JRNL 5400	Media and Advocacy in Theory and Practice	
JRNL 5480	Research for Media Strategy	
<b>Elective</b>		
Complete one additional JRNL course.		4

## GPA Requirement

2.000 GPA required in the minor

## Sports, Media, and Communication, Minor

The sports, media, and communication minor appeals to students preparing for careers as sports journalists or advertising/public relations professionals specializing in a sports-related area. The minor includes courses examining the prominent role of sports in society with a special emphasis on gender, race, and public policy. When combined with Northeastern's signature co-op program, the result is an innovative minor that blends theory with practice and prepares students for a broad range of professional opportunities.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Students must complete a minimum of three courses exclusive to this minor beyond the courses required for the student's declared major(s) and additional minor(s).

The Department of Music offers its music majors, music minors, and combined majors a cross-disciplinary approach to the study and practice of music, underscored by real-world experiential learning and cutting-edge technology. The music faculty are dedicated to three continuously interacting and integrated dimensions: the creation of music; its production and promotion; and the study of its history, meaning, and impact on cultures around the globe—past, present, and future.

There are three concentrations in music: the Bachelor of Arts in Music, the Bachelor of Science in Music with Concentration in Music Technology, and the Bachelor of Science in Music with Concentration in Music Industry. Students in all three concentrations begin with a core of shared offerings, including a uniquely probing, cross-cultural, and interdisciplinary introduction to music, Music in Everyday Life (MUSC 1001), together with shared requirements in introductory theory and musicianship. With a common perspective offered by these courses, students then branch out to focus on their individual disciplines but also to interact and bring unique aspects of their disciplines together in a collaborative learning environment with other students.

Our signature program is the Bachelor of Arts in Music, designed to offer a variety of flexible advising paths that allow a focus on history, theory, ethnomusicology, performance, composition, humanics, or other directions tailored to the students' individual interests.

The Bachelor of Science in Music with Concentration in Music Technology focuses on the creative application of digital sound technologies to a broad range of artistic, social, and industrial purposes, including experimental composition, film, video, theatre, game design,

mobile applications, sound design for urban environments, and beyond, with a new emphasis on digital signal processing, computation for sound, artificial intelligence, and auditory cognitive neuroscience. A focus is maintained throughout on imaginative exploration, collaboration across disciplines, and real-world experience.

The Bachelor of Science in Music with Concentration in Music Industry, the first such undergraduate program offered in Boston, is designed for students with an interest in fields such as artist management; the music products industry; the recording industry; arts administration; contracting and legal issues; financial and economic aspects of the music business; and broadcast, mobile, and online media technologies. All the foregoing include an emphasis on the development of critical frameworks for entrepreneurial leadership in the cultural industries.

While most music courses are designed for music majors, music minors and combined majors in music, and a variety of other disciplines, the Department of Music also offers elective survey courses and other study opportunities open to students across the Northeastern University campus. Also available are private lessons in a wide variety of instruments and voice, including a focus on genres ranging from traditional concert music to jazz to fusion, rock, and a variety of popular idioms.

An extensive concert series presents not only guest performers and ensembles from around the world but also performances by the Northeastern University Symphony Orchestra; the Northeastern University Wind Ensemble and Concert Band; the Northeastern University Choral Society; and the Jazz Ensemble, Jazz Choir, Contemporary Music Ensemble, Blues/Rock Fusion Ensemble, Rock Ensemble, World Music Ensemble, and Chamber Music Ensembles, along with individual student recitals and performances by an array of student-run music groups.

In addition to co-op, Dialogues of Civilization, and a range of other opportunities for experiential learning and study throughout the United States and abroad, students may immediately begin to participate in student organizations—such as Green Line Records, NU Sound, Live Music Association, Songwriting Club, and a variety of other groups—that allow students actively to pursue their passions and aspirations.

In addition to the three primary majors outlined above, there are six combined majors offered, integrating music disciplines with others both in and beyond the College of Arts, Media and Design. While students are encouraged to consider double majoring in the Bachelor of Arts in Music and other disciplines outside music, the BA cannot be combined with the concentration in music industry or the concentration in music technology.

Students may double count only one course between a concentration and a minor. Students may double count only one course between two different music minors. Should a student place out of a course in a minor, it must be replaced with another course relevant to the minor.

### Academic Progression Standards

Students must maintain at least a B– average in all major courses and complete all required music courses with grades of at least C. Students who fail to meet the above standards will be placed on departmental probation; those who remain on probation for two consecutive semesters will be dropped from the major.

### Programs

#### Bachelor of Arts (BA)

- Music (p. 206)

#### Bachelor of Science (BS)

- Music with Concentration in Music Technology (p. 212)
- Music with Concentration in Music Industry (p. 209)
- Computer Science and Music with Concentration in Music Technology (p. 215)
- Electrical Engineering and Music with Concentration in Music Technology, BSEE (p. 217)
- Game Design and Music with Concentration in Music Technology (p. 108)
- Music and Communication Studies with Concentration in Music Industry (p. 176)
- Physics and Music with Concentration in Music Technology (p. 224)
- Psychology and Music (p. 226)

#### Minor

- Music (p. 229)
- Ethnomusicology (p. 228)
- Music Composition (p. 230)
- Music Industry (p. 230)
- Music Performance (p. 230)
- Music Recording (p. 231)
- Music Technology (p. 232)
- Musical Theatre (p. 232) (offered by the Department of Theatre)
- Performing Arts Administration (p. 233) (offered by the Department of Theatre)
- Songwriting (p. 233)

### Music, BA

The Bachelor of Arts in Music at Northeastern engages students in the study of how music works and the many contexts in which it is created and received.

Students encounter a wide range of musical repertoires, theoretical approaches, and research strategies. While many students opt to major in music alone, many others enroll as part of a double major. This is especially true of young scholars who are aiming for careers in engineering, sciences, business, and fields in the humanities and social sciences who still want to pursue their interests in music. Students in the BA concentration take a variety of classes in history, theory, and ethnomusicology, and they may be active performers, participating in our many ensembles and taking private lessons. Students also participate in a wide array of co-ops and are encouraged to explore opportunities that conform to their interests.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

- NUpath requirements Creative Expression/Innovation (EI) and Interpreting Culture (IC) are met through the major course requirements.
- NUpath requirements Formal and Quantitative Reasoning (FQ), Societies and Institutions (SI), Analyzing and Using Data (AD), Difference and Diversity (DD), and Ethical Reasoning (ER) may be met through electives in the major.
- NUpath requirements Natural and Designed World (ND) must be met through general electives.

## Introduction to College

Code	Title	Hours
MUSC 1000	Music at Northeastern	1

## Music Theory and Musicianship

Code	Title	Hours
------	-------	-------

### Music Theory Placement

All students must take a music theory placement exam. Students who do not place into MUSC 1201 must first take the following course:

MUSC 1119	Fundamentals of Western Music Theory
-----------	--------------------------------------

### Required Music Theory

A grade of C or higher is required in each course:

MUSC 1201	Music Theory 1	4
-----------	----------------	---

Choose two courses from the following list: 8

MUSC 1119	Fundamentals of Western Music Theory
MUSC 1202	Music Theory 2
MUSC 2111	Algebra and Geometry of Music
MUSC 2208	Jazz Improvisation
MUSC 2350	Acoustics and Psychoacoustics of Music
MUSC 3541	Music Analysis Seminar
MUSI 1204	Analyzing Popular Genres

## Music in Context

Choose one from each category below. From the categories "Western Art Music," "Global Music / Ethnomusicology," and "Contemporary / Popular Music," at least two must be at the 2000-level or higher. Courses may not double-count across the five areas. Many, but not all, Music in Context courses at the 2000-level or higher fulfill the Writing Intensive in the discipline requirement. Please check Writing Intensive status of courses as needed.

**Music with Concentration in Music Industry, BS**

The Bachelor of Science in Music with Concentration in Music Industry, the first such undergraduate program offered in Boston, is designed for students with an interest in all aspects of the music industries, including songwriting, recording, production, technology, products, label operations, promotion, marketing, management, finance, economics, legal issues, licensing, and intellectual property. Our program encourages learners to become entrepreneurial thought leaders and ethical change agents in the music industries.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (EI), Interpreting Culture (IC), Societies and Institutions (SI), and Analyzing and Using Data (AD) are met through the major course requirements.

NUpath requirements Difference and Diversity (DD) and Ethical Reasoning (ER) may be met through electives in the major.

NUpath requirements Natural and Designed World (ND) and Formal and Quantitative Reasoning (FQ) must be met through general electives.

**Music Industry Requirements**

Code	Title	Hours
<b>Music Core</b>		
MUSC 1000	Music at Northeastern	1
MUSC 1001	Music in Everyday Life	4
<b>Music Theory Placement</b>		
All students must take a theory placement exam. Students who do not place into MUSC 1201 must first take the following:		
MUSC 1119	Fundamentals of Western Music Theory	4
<b>Music Theory Requirement</b>		
MUSC 1201	Music Theory 1	4
MUSI 1204	Analyzing Popular Genres	4
<b>Music in Context</b>		
Choose one from each of these categories: Western Art Music, Global Music / Ethnomusicology, Contemporary / Popular Music, and Creative. Of the courses from Western Tradition, Ethnomusicology, and Contemporary, at least two must be at the 2000-level or higher. Courses may not double count across these areas. Many, but not all, Music in Context courses at the 2000-level or higher fulfill the Writing Intensive in the Discipline requirement. Please check Writing Intensive status of courses as needed. Students may use MUSC 2210, MUSC 2211, MUSI 2331, MUSI 3341, or MUST 1220 to fulfill both Creating and Producing and Music In Context Creative; but will also need to take one additional Music Industry elective.		
<i>Western Art Music (complete one):</i>		4
MUSC 1100	Topics in Western Music	
MUSC 1116	Beethoven	
MUSC 1144	Music and Technology: Stone Age to Digital Age	
MUSC 2107	Introduction to Opera	
MUSC 2312	Historical Traditions: Classical	
MUSC 2320	40,000 Years of Music Technology	
MUSC 2340	Divas, DJs, and Double Standards	
MUSC 3352	Sounding Human	
MUSC 2380	The World of Choral Music	
<i>Global Music / Ethnomusicology (complete one):</i>		4
MUSC 1131	Music of Latin America and the Caribbean	
MUSC 2101	Black Popular Music	
MUSC 2130	Music of Asia	
MUSC 2313	Topics in World Music	
MUSC 2330	Musical Communities of Boston	
MUSC 3353	Music and the Racial Imagination	
MUSI 3351	Music and Social Justice	
MUSI 3401	Hip Hop in the Music Industry	

MUSI 3360	Global Music Industries in Context	
MUSI 5900	Ethnography in Creative Industries	
<i>Contemporary / Popular Music (complete one):</i>		4
MUSC 1112	Jazz	
MUSC 1113	Film Music	
MUSC 2101	Black Popular Music	
MUSC 2150	Making a Musical: Analysis, Craft, and Creation	
MUSC 2310	Popular Music Since 1945	
MUSC 2311	Topics in American Music	
MUSC 2317	Punk Rock	
MUSC 2340	Divas, DJs, and Double Standards	
MUSC 2380	The World of Choral Music	
MUSC 2351	Music, Sound, and the Screen	
MUSC 3352	Sounding Human	
MUSC 3353	Music and the Racial Imagination	
MUSC 3560	Topics in Music since 1900	
MUSI 3401	Hip Hop in the Music Industry	
MUSI 3360	Global Music Industries in Context	
<i>Creative (complete one):</i>		4
MUSC 2150	Making a Musical: Analysis, Craft, and Creation	
MUSC 2208	Jazz Improvisation	
MUSC 2209	Conducting	
MUSC 2210	Introduction to Songwriting	
MUST 1220	Introduction to Music Technology	
MUST 1301	Introduction to Composition	
MUST 2320	Sound Design	
<i>Music Ensemble: May substitute four 1-semester-hour applied courses (ensembles and/or lessons) for one 4-semester-hour creative course.</i>		
MUSC 1901	Music Lessons 1	
MUSC 1902	Music Lessons 2	
MUSC 1904	Chorus	
MUSC 1905	Concert Band	
MUSC 1906	Orchestra	
MUSC 1907	Wind Ensemble	
MUSC 1911	Jazz Ensemble	
MUSC 1912	Rock Ensemble	
MUSC 1913	Blues/Rock Ensemble	
MUSC 1914	Create Your Own Music	
MUSC 1915	Chamber Ensemble	
MUSC 1917	Jazz Choir and Combo	
MUSC 1918	World Music Ensemble	
MUSC 1919	Fusion Ensemble	
MUSC 1920	Pep Band	

**Music Industry**

MUSI 1230	Introduction to Music Industry	4
-----------	--------------------------------	---

**Music Industry Electives**

Complete seven music industry electives, taking a minimum of one course in each of the following four categories and at least three courses from a single category. 28

*Creating and Producing*

Note: MUSI 1230 is not a prerequisite for the following courses:

MUSC 2150	Making a Musical: Analysis, Craft, and Creation	
MUSC 2210	Introduction to Songwriting	
MUSC 2211	Advanced Songwriting	
MUSI 2232	Music Recording 1	
MUSI 2331	Music Recording 2	
MUSI 3341	Music Recording 3—Mixing and Mastering	
MUST 1220	Introduction to Music Technology	
<i>Legal Aspects</i>		
Note: MUSI 1230 is a prerequisite for the following courses:		
MUSI 2231	Music Licensing for Media	
MUSI 2235	Copyright in the Creative Industries	
MUSI 3333	The Record Industry	
MUSI 2341	Music Supervision 1	
<i>Music Business and Management</i>		
MUSI 2330	Performing Arts Administration	
MUSI 3332	Artist Management	
MUSI 3334	Music Products Industry	
MUSI 3338	Music Industry Marketing and Promotion	
MUSI 3340	Concert Promotion and Venue Management	
MUSI 4530	Music Entrepreneurship	
<i>Music Industry Studies</i>		
MUSC 3353	Music and the Racial Imagination	
MUSI 2234	Festivals	
MUSI 3351	Music and Social Justice	
MUSI 3360	Global Music Industries in Context	
MUSI 3401	Hip Hop in the Music Industry	
MUSI 4601	Seminar in Music Industry	
MUSI 5900	Ethnography in Creative Industries	

**Business Course Requirements**

Code	Title	Hours
<b>Economics</b>		
ECON 1116	Principles of Microeconomics	4
<b>Accounting</b>		
ACCT 1209	Financial Accounting and Reporting	4
<b>Business Elective</b>		
Complete one business course in the following subject areas:		4
ACCT, BUSN, ENTR, FINA, HRMG, INTB, MGMT, ORGB, MGSC, MISM, MKTG, SCHM, or STRT		

**Capstone for Music Industry**

Code	Title	Hours
Complete one of the following: 4		
MUSI 4530	Music Entrepreneurship	
MUSI 4601	Seminar in Music Industry	
MUSI 5900	Ethnography in Creative Industries	

**Music Industry Major Credit and Grade Requirement**

Complete 77 semester hours in the major.

Students must maintain at least a 2.667 GPA (B– average) in the requirements of the major and also complete all required music courses

with grades of at least C. Students who fail to meet the above standards will be placed on departmental probation; those who remain on probation for two consecutive semesters will be dropped from the major.

### Program Requirement

## Music with Concentration in Music Technology, BS

The Bachelor of Science in Music with Concentration in Music Technology focuses on the creative application of digital and analog audio technologies to a broad range of artistic, social, and industrial purposes, including experimental composition, film, video, theatre, game design, mobile applications, sound design for urban environments, musical instrument design and beyond. An emphasis is maintained throughout on imaginative exploration, collaboration across disciplines, and real-world experience.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

- NUpath requirements Creative Expression/Innovation (EI), Interpreting Culture (IC), and Analyzing and Using Data (AD) are met through the major course requirements.
- NUpath requirements Difference and Diversity (DD) and Formal and Quantitative Reasoning (FQ) may be met through electives in the major.
- NUpath requirements Natural and Designed World (ND), Societies and Institutions (SI), and Ethical Reasoning (ER) must be met through general electives.

### General Music Requirements

Code	Title	Hours
<b>Introduction to College</b>		
MUSC 1000	Music at Northeastern	1
<b>Music Theory and Composition</b>		
MUSC 1201	Music Theory 1	4

MUSC 1202	Music Theory 2	4
Complete two of the following:		8
MUSC 2111	Algebra and Geometry of Music	
MUSC 3300	Music Perception and Cognition	
MUSC 3541	Music Analysis Seminar	

### Music in Context

A grade of C or higher is required. Choose one from each of these categories: "Western Art Music," "Global Music / Ethnomusicology," "Contemporary / Popular Music," and "Creative." Of the courses from "Western Art Music," "Global Music / Ethnomusicology," "Contemporary / Popular Music," at least two must be at the 2000-level or higher. Courses may not double count across these areas. Many, but not all, Music in Context courses at the 2000-level or higher fulfill the Writing Intensive in the discipline requirement. Please check Writing Intensive status of courses as needed.

#### Introductory Class

MUSC 1001	Music in Everyday Life	4
-----------	------------------------	---

#### Western Art Music

Complete one of the following: 4

MUSC 1100	Topics in Western Music	
MUSC 1116	Beethoven	
MUSC 1144	Music and Technology: Stone Age to Digital Age	
MUSC 2107	Introduction to Opera

## Computer Science and Music with Concentration in Music Technology, BS

The computer science and music combined major with concentration in music technology focuses on the creative application of sound and music technologies to a broad range of artistic, social, and industrial purposes. An emphasis is maintained throughout on imaginative exploration, collaboration across disciplines, and real-world experience. It is designed to give students a firm foundation in music and computing for digital audio technologies. This program is recommended for students with a strong background in music prior to entering Northeastern.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4
IS 4300	Human Computer Interaction (Integrative)	4
<b>Khoury Elective</b>		
With advisor approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.		
Complete 8 credits of CS, CY, DS or IS classes that are not already required. Choose courses within the following ranges:		8
CS 2500 or higher, except CS 5010		
CY 2000 or higher, except CY 4930		

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

### Music Courses

Code	Title	Hours
<b>Music Theory and Composition</b>		
MUSC 1201	Music Theory 1	4
MUSC 1202	Music Theory 2	4
Complete one of the following:		4
MUSC 2111	Algebra and Geometry of Music	
MUSC 3300	Music Perception and Cognition (Music Perception and Cognition)	
MUSC 3541	Music Analysis Seminar	
<b>Music in Context</b>		
MUSC 1001	Music in Everyday Life	4
<b>Contemporary / Popular Music</b>		
Complete one of the following:		4
MUSC 2101	Black Popular Music	
MUSC 2150	Making a Musical: Analysis, Craft, and Creation	
MUSC 2310	Popular Music Since 1945	
MUSC 2311	Topics in American Music	
MUSC 2317	Punk Rock	
MUSC 2320	40,000 Years of Music Technology	
MUSC 2340	Divas, DJs, and Double Standards	
MUSC 2351	Music, Sound, and the Screen	
MUSC 3352	Sounding Human	
MUSC 2380	The World of Choral Music	
MUSC 3353	Music and the Racial Imagination	
MUSC 3560	Topics in Music since 1900	
MUSI 3401	Hip Hop in the Music Industry	
MUSI 3360	Global Music Industries in Context	
<b>Music Technology</b>		
MUSC 2350	Acoustics and Psychoacoustics of Music	4
MUST 1220	Introduction to Music Technology	4
MUST 2102	Composing with Digital Technologies	4
MUST 2431	Computer Music Fundamentals	4
<b>Music Industry</b>		
Complete one of the following:		4
MUSI 1230	Introduction to Music Industry	
MUSI 2331	Music Recording 2	
<b>Music Technology Electives</b>		
Complete two of the following:		8
MUSC 4510	Music and the Brain Research	
MUST 3540	Special Topics in Music Technology	
MUST 3601	Digital Audio Signal Processing	
MUST 3602	Electronics for Music	
MUST 3603	Embedded Audio Programming	
MUST 4610	Composition for Electronic Instruments	
<b>Music Technology Capstone</b>		
MUST 4611	Music Technology Capstone/Senior Recital	4

### Foundations of Psychology

Code	Title	Hours
PSYC 1101	Foundations of Psychology	4

### Computing and Social Issues

Code	Title	Hours
Complete one of the following:		
AFAM 2600	Issues in Race, Science, and Technology	
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
IS 1300 or PHIL 1300	Knowledge in a Digital World	
PHIL 1145	Technology and Human Values	
SOCL 1280	The Twenty-First-Century Workplace	
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

### Computer Science English Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
<b>Advanced Writing in the Disciplines</b>		
ENGW 3302 or ENGW 3315	Advanced Writing in the Technical Professions Interdisciplinary Advanced Writing in the Disciplines	4

### Required General Electives

Code	Title	Hours
Complete 20 credits of general electives.		20

### NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Exploring Creative Expression and Innovation
- Interpreting Culture
- Conducting Formal and Quantitative Reasoning
- Understanding Societies and Institutions
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

### Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

### Music Technology Major Grade Requirement

Students must maintain at least a 2.667 GPA (B- average) in the requirements of the music half of the combined major and also complete all required music courses with grades of at least C. Students who fail to meet the above standards will be placed on departmental probation; those who remain on probation for two consecutive semesters will be dropped from the major.

### Program Requirement

133 total semester hours required

### Plan of Study

### Electrical Engineering and Music with concentration in Music Technology, BSEE

This intercollege combined major is designed for students who would like to explore their interest in music technology while earning the benefit of a Bachelor of Science degree in electrical engineering. The music industry relies heavily on electronic technology in the production (e.g., studio and recording technology), storage (e.g., musical instruments, stage technology), and distribution (e.g., audio file formats, encoding) of music. The program is designed to give students a firm foundation in digital and analog audio electronics and learn the breadth and depth of the convergence between electrical engineering and music technology.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Societies and Institutions (SI) and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

**Engineering Requirements**

Code	Title	Hours
<b>Required Courses</b>		
EECE 2140	Computing Fundamentals for Engineers	4
EECE 2150	Circuits and Signals: Biomedical Applications	5
EECE 2160	Embedded Design: Enabling Robotics	4
<b>Electrical Engineering Fundamentals</b>		
EECE 2412 and EECE 2413	Fundamentals of Electronics and Lab for EECE 2412	5

EECE 2520	Fundamentals of Linear Systems	4
EECE 2530 and EECE 2531	Fundamentals of Electromagnetics and Lab for EECE 2530	5

**Computer Engineering Fundamentals**

Complete one of the following. If more than one computer engineering fundamentals course is taken, it may count as a technical elective: 4-5

EECE 2322 and EECE 2323	Fundamentals of Digital Design and Computer Organization and Lab for EECE 2322	
EECE 2540	Fundamentals of Networks	
EECE 2560	Fundamentals of Engineering Algorithms	

**Electrical Engineering Capstone Courses**

EECE 4791	Electrical and Computer Engineering Capstone 1	1
EECE 4792	Electrical and Computer Engineering Capstone 2	4

**Technical Electives**

Students can register for EECE4991/EECE4992/EECE4993 more than once. For these courses combined, a maximum of 8SH will be allowed to satisfy the requirement of technical electives. An additional 4SH will be allowed as a general elective. At most one of these courses (4SH) can be taken in a semester.

Though students may register for EECE 2750 more than once, only 4SH will be allowed to satisfy the requirements of technical electives. An additional 4SH will be allowed as a general elective.

Complete two of the following. If EECE 5697 is taken, students are required to complete a music elective. 8

EECE 2322 and EECE 2323	Fundamentals of Digital Design and Computer Organization and Lab for EECE 2322	
EECE 2540	Fundamentals of Networks	
EECE 2750	Enabling Engineering	
EECE 3324	Computer Architecture and Organization	
EECE 3410	Electronic Design	
EECE 4512	Healthcare Technologies: Sensors, Systems, and Analysis	
EECE 4991	Research	
EECE 4992	Directed Study	
EECE 4993	Independent Study	
EECE 5115 to EECE 5698		
ENGR 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage	

**Supplemental Credit**

2 semester hours from the following course count toward the engineering requirement: 2

EECE 3468	Noise and Stochastic Processes	
-----------	--------------------------------	--

2 semester hours from the following course count toward the engineering requirement: 2

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
---------	---	--

3 semester hours from the following course count toward the engineering requirement: 3

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	
---------	---	--

**Music Requirements**

Code	Title	Hours
------	-------	-------

**Music Theory**

Complete one of the following pairs: 8

MUSC 1119 and MUSC 1201	Fundamentals of Western Music Theory and Music Theory 1	
MUSC 1201 and MUSC 1202	Music Theory 1 and Music Theory 2	
MUSC 1202 and MUSC 3541	Music Theory 2 and Music Analysis Seminar	

**Required Context Course**

MUSC 1001	Music in Everyday Life	4
-----------	------------------------	---

**Music in Context**

Complete one of the following: 4

MUSC 2101	Black Popular Music	
MUSC 2107	Introduction to Opera	
MUSC 2130	Music of Asia	
MUSC 2150	Making a Musical: Analysis, Craft, and Creation	
MUSC 2310	Popular Music Since 1945	
MUSC 2311	Topics in American Music	
MUSC 2312	Historical Traditions: Classical	
MUSC 2313	Topics in World Music	
MUSC 2317	Punk Rock	
MUSC 2320	40,000 Years of Music Technology	
MUSC 2340	Divas, DJs, and Double Standards	
MUSC 2351	Music, Sound, and the Screen	
MUSC 2380	The World of Choral Music	
MUSC 3352	Sounding Human	
MUSC 3353	Music and the Racial Imagination	
MUSC 3560	Topics in Music since 1900	
MUSI 3401	Hip Hop in the Music Industry	
MUSI 3351	Music and Social Justice	
MUSI 3360	Global Music Industries in Context	
MUSI 5900	Ethnography in Creative Industries	

**Acoustics or Music Elective**

Complete one of the following. If EECE 5697 is taken, students are required to complete a music elective. 4

MUSC 2350	Acoustics and Psychoacoustics of Music	
MUSC 2000 to MUSC 5999		

**Music Technology**

MUST 1220	Introduction to Music Technology	4
MUST 2431	Computer Music Fundamentals	4

**Music Technology Electives**

Complete two of the following. Other appropriate MUST courses will be considered by petition to fulfill this category. 8

MUSC 4510	Music and the Brain Research	
MUST 3540	Special Topics in Music Technology	
MUST 3601	Digital Audio Signal Processing	
MUST 3602	Electronics for Music	
MUST 3603	Embedded Audio Programming	
MUST 4610	Composition for Electronic Instruments	

## Supporting Courses: Mathematics/Science

Complete all Mathematics/Science courses with a minimum of 30 semester hours.

Code	Title	Hours
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	5

2 semester hours from the following course count toward this requirement:

EECE 3468 Noise and Stochastic Processes

### Supplemental Credit

1 semester hour from the following course counts toward the mathematics/science requirement:

GE 1501 Cornerstone of Engineering 1<sup>1</sup>

## Professional Development

Code	Title	Hours
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

### Additional Required Courses

1 semester hour from the following course counts toward the professional development requirement:

GE 1501 Cornerstone of Engineering 1<sup>1</sup>

1 semester hour from the following course counts toward the professional development requirement:

GE 1502 Cornerstone of Engineering 2<sup>1</sup>

## Writing Requirements

Code	Title	Hours
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

## Required General Electives

Code	Title	Hours
Complete 4 SH of academic, nonremedial, nonrepetitive courses.		4

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

## Major GPA Requirement

Minimum 2.000 GPA required in EECE courses

## Music Technology Major Grade Requirement

Students must maintain at least a 2.667 GPA (B- average) in the requirements of the music half of the combined major and also complete all required music courses with grades of at least C. Students who fail to meet the above standards will be placed on departmental probation; those who remain on probation for two consecutive semesters will be dropped from the major.

## Program Requirement

137 total semester hours required

## Plan of Study

### Four Years, One Co-Op in Summer 2/Fall

#### Year 1

Fall	Hours	Spring	Hours	Summer 1	Hours	Summer 2	Hours

**Notes:**

- The Capstone Design Courses are taken as follows: (Electrical and Computer Engineering Capstone 1 (EECE 4791) - Summer 1 and Electrical and Computer Engineering Capstone 2 (EECE 4792) - Spring) OR (Electrical and Computer Engineering Capstone 1 (EECE 4791) - Summer 2 and Electrical and Computer Engineering Capstone 2 (EECE 4792) - Fall).

**Game Design and Music with concentration in Music Technology, BS**

The Game Design and Music combined major with a concentration in Music Technology prepares students to manage all aspects of music and sound design integral to the creative process in Game Design. Students focus on the digital sound technologies, audiovisual integration techniques and collaborative skills, grounded in real-world experience, that are necessary to apply one's musical imagination effectively in a game design environment. Also emphasized are the aesthetic, expressive, psychological and social perspectives essential to meaningful engagement across a broad range of applications in the game industry.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses

where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (EI), and Analyzing/Using Data (AD), Interpreting Culture (IC), Natural/Designed World (ND), Difference/Diversity (DD), Writing Intensive (WI), and Capstone Experience(CE) are met through the major course requirements. All other NUpath requirements must be met through electives.

## Game Design Courses

Code	Title	Hours
ARTF 1000	Art and Design at Northeastern	1

### Game Design Required

GAME 1110	Games and Society	4
GAME 2500	Foundations of Game Design	4
GAME 2950	Game Studio	4
GAME 3400	Level Design and Game Architecture	4
GAME 3700	Rapid Idea Prototyping for Games	4
GAME 3800	Game Concept Development	4

### Game Design Electives

Complete one of the following:

GAME 1850	Experimental Game Design	4
or GAME 3300	Game Interface Design	

### Art + Design Electives

Complete three courses from the following: 12

Any course in ARTD, ARTE, ARTF, ARTG, ARTH, and GAME subject areas as long as prerequisites have been met.

## Music Requirements

Code	Title	Hours
------	-------	-------

### Music Theory and Composition

MUSC 1201	Music Theory 1	4
MUSC 1202	Music Theory 2	4

Complete two of the following: 8

MUSC 2111	Algebra and Geometry of Music	
MUSC 3300	Music Perception and Cognition	
MUSC 3541	Music Analysis Seminar	

### Music in Context

MUSC 1001	Music in Everyday Life	4
-----------	------------------------	---

### Contemporary

Complete one from the following: 4

MUSC 2101	Black Popular Music	
MUSC 2310	Popular Music Since 1945	
MUSC 2320	40,000 Years of Music Technology	
MUSC 3352	Sounding Human	
MUSC 3560	Topics in Music since 1900	
MUSI 3401	Hip Hop in the Music Industry	

### Music Technology Requirements

MUSC 2350	Acoustics and Psychoacoustics of Music	4
-----------	--	---

MUST 1220	Introduction to Music Technology	4
-----------	----------------------------------	---

MUST 2431	Computer Music Fundamentals	4
-----------	-----------------------------	---

### Music Technology Electives

Complete two of the following: 8

MUSC 4510	Music and the Brain Research	
-----------	------------------------------	--

MUST 2320	Sound Design	
-----------	--------------	--

MUST 4610	Composition for Electronic Instruments	
-----------	--	--

MUST 3540	Special Topics in Music Technology	
-----------	------------------------------------	--

MUST 4520		
-----------	--	--

## Integrative Requirement

Code	Title	Hours
------	-------	-------

Note: MUSC 1220 is already required in the Music Technology Requirements section

MUST 1220	Introduction to Music Technology	
-----------	----------------------------------	--

### Capstone

MUST 4611	Music Technology Capstone/Senior Recital	4
-----------	--	---

GAME 4700	Game Design Capstone	4
-----------	----------------------	---

## Combined-Major Credit Requirement

Complete 90 semester hours in the major.

## Music Technology Major Grade Requirement

Students must maintain at least a 2.667 GPA (B- average) in the requirements of the music half of the combined major and also complete all required music courses with grades of at least C. Students who fail to meet the above standards will be placed on departmental probation; those who remain on probation for two consecutive semesters will be dropped from the major.

## Program Requirement

128 total semester hours required

## Plan of Study

## Music and Communication Studies with Concentration in Music Industry, BS

The Bachelor of Science in Music with Concentration in Music Industry, the first such undergraduate program offered in Boston, is designed for students with an interest in fields such as artist management; the music products industry; the recording industry; arts administration; contracting and legal issues; financial and economics aspects of the music industry; and broadcast, mobile, and online media technologies.

The Department of Communication Studies is committed to providing students with both the communication skills and the understanding of the communication process required to thrive in a complex and changing society. Majors are required to demonstrate a mastery of the fundamentals of effective communication, to learn the fundamentals of communication theory and practice, and to develop a distinct area of emphasis. Some of the more popular areas include argumentation and advocacy, organizational and health communication, international and intercultural communication, digital communication and social media, and media production. The curriculum is designed to enhance the understanding of human communication in a variety of contexts, to empower students to become informed and engaged citizens, and to provide the knowledge and skills required to live a rich personal and professional life.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (EI), Interpreting Culture (IC), Societies and Institutions (SI), and Ethical Reasoning (ER) are met through the major course requirements.

NUpath requirements Natural and Designed World (ND), Formal and Quantitative Reasoning (FQ), Analyzing and Using Data (AD), and Difference and Diversity (DD) may be met through electives in the major.

### Music Industry Requirements

Code	Title	Hours
<b>Introduction to College</b>		
MUSC 1000	Music at Northeastern	1
<b>Music Core</b>		
MUSC 1001	Music in Everyday Life	4
<b>Music Theory Placement</b>		
All students must take a theory placement exam. Students who do not place into MUSC 1201 must first take the following:		
MUSC 1119	Fundamentals of Western Music Theory	4
<b>Music Theory Requirement</b>		
MUSC 1201	Music Theory 1	4
<b>Introductory Music Industry</b>		
MUSI 1230	Introduction to Music Industry	4
<b>Music in Context</b>		
Choose one course from Western Art Music, Global Music / Ethnomusicology, or Contemporary / Popular Music categories.		
<i>Western Art Music</i>		
MUSC 2107	Introduction to Opera	
MUSC 2312	Historical Traditions: Classical	
MUSC 2320	40,000 Years of Music Technology	
MUSC 2340	Divas, DJs, and Double Standards	
MUSC 2380	The World of Choral Music	
MUSC 3352	Sounding Human	
<i>Global Music / Ethnomusicology</i>		
MUSC 2101	Black Popular Music	
MUSC 2130	Music of Asia	
MUSC 2313	Topics in World Music	
MUSC 2330	Musical Communities of Boston	
MUSC 3353	Music and the Racial Imagination	
MUSI 3351	Music and Social Justice	
MUSI 3360	Global Music Industries in Context	
MUSI 3401	Hip Hop in the Music Industry	
MUSI 5900	Ethnography in Creative Industries	
<i>Contemporary / Popular Music</i>		
MUSC 2101	Black Popular Music	
MUSC 2150	Making a Musical: Analysis, Craft, and Creation	
MUSC 2310	Popular Music Since 1945	

MUSC 2311	Topics in American Music
MUSC 2317	Punk Rock
MUSC 2320	40,000 Years of Music Technology
MUSC 2340	Divas, DJs, and Double Standards
MUSC 2351	Music, Sound, and the Screen
MUSC 2380	The World of Choral Music
MUSC 3352	Sounding Human
MUSC 3353	Music and the Racial Imagination
MUSC 3560	Topics in Music since 1900
MUSI 3360	Global Music Industries in Context
MUSI 3401	Hip Hop in the Music Industry
MUSI 3540	Special Topics in Music Industry

**Music Industry Electives**

Complete three of the following: 12

MUSC 2150	Making a Musical: Analysis, Craft, and Creation
MUSC 2210	Introduction to Songwriting
MUSC 2211	Advanced Songwriting
MUSC 3353	Music and the Racial Imagination
MUSI 1204	Analyzing Popular Genres
MUSI 2231	Music Licensing for Media
MUSI 2232	Music Recording 1
MUSI 2234	Festivals
MUSI 2235	Copyright in the Creative Industries
MUSI 2330	Performing Arts Administration
MUSI 2331	Music Recording 2
MUSI 2341	Music Supervision 1
MUSI 2540	Special Topics in Music Industry
MUSI 3332	Artist Management
MUSI 3333	The Record Industry
MUSI 3334	Music Products Industry
MUSI 3338	Music Industry Marketing and Promotion
MUSI 3340	Concert Promotion and Venue Management
MUSI 3351	Music and Social Justice
MUSI 3360	Global Music Industries in Context
MUSI 3401	Hip Hop in the Music Industry
MUSI 4530	Music Entrepreneurship
MUSI 4601	Seminar in Music Industry
MUSI 5900	Ethnography in Creative Industries
MUST 1220	Introduction to Music Technology

**Business Course**

ACCT 1209 Financial Accounting and Reporting 4

**Communication Studies Requirements**

Code	Title	Hours
------	-------	-------

**Communication Studies Common Requirements**

COMM 1101	Introduction to Communication Studies	4
COMM 1112	Public Speaking	4
or COMM 2301	Communication Research Methods	

**Foundation Course**

Complete one of the following: 4

COMM 1210	Persuasion and Rhetoric
-----------	-------------------------

COMM 1231	Principles of Organizational Communication
COMM 1225	Communication Theory
COMM 1255	Communication in a Digital Age

**Cluster Course**

Complete one of the following: 4

COMM 1131	Sex, Relationships, and Communication
COMM 2303	Global and Intercultural Communication
COMM 2304	Communication and Gender
COMM 2501	Communication Law
COMM 2551	Free Speech in Cyberspace

**Writing-Intensive Courses**

Complete two of the following: 8

COMM 3200	Mobile Communication
COMM 3201	Health Communication
COMM 3230	Interpersonal Communication
COMM 3304	Communication and Inclusion
COMM 3320	Political Communication
COMM 3414	Great Speakers and Speeches
COMM 3415	Communication Criticism
COMM 3445	Public Relations Principles
COMM 3500	Environmental Issues, Communication, and the Media
COMM 3501	Free Speech: Law and Practice
COMM 3530	Communication and Sexualities
COMM 3532	Theories of Conflict and Negotiation
COMM 4535	Nonverbal Social Interaction
COMM 4605	Youth and Communication Technology
COMM 4631	Crisis Communication and Image Management

**Communication Studies Electives**

Complete three COMM courses. 12

**Integrative Requirement**

Code	Title	Hours
------	-------	-------

Complete one of the integrative options below. If a communication studies course is taken, an additional music industry course is required, chosen from the list of music industry electives above.

**Music Option**

Complete one of the following:

MUSI 4601	Seminar in Music Industry
MUSI 4530	Music Entrepreneurship
MUSI 5900	Ethnography in Creative Industries

**Communication Studies Option**

Complete two of the following. One communication studies course is required:

COMM 4608	Strategic Communication Capstone
or COMM 4625	Online Communities
MUSC 2000 to MUSC 5999	
MUSI 2000 to MUSI 5999	
MUST 2000 to MUST 5999	

## Communication Studies Major Grade Requirement

No more than two grades below a C in communication studies courses may be used to satisfy degree requirements.

## Music Major Grade Requirement

Students must maintain at least a 2.667 GPA (B- average) in the requirements of the music half of the combined major and also complete all required music courses with grades of at least C. Students who fail to meet the above standards will be placed on departmental probation; those who remain on probation for two consecutive semesters will be dropped from the major.

## Program Requirement

128 total semester hours required

## Physics and Music with Concentration in Music Technology, BS

The combined major in physics and music provides a strong foundation in classical and modern physics, including studies of the various physical phenomena including electromagnetism, dynamics, building blocks of matter, energy, and radiation. It also provides students with a solid background in composition for acoustic and electronic instruments and for combined and/or interactive live and digital sources. The combined major allows students to learn how physical principles influence sound production and propagation.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Physics Major Requirements

Code	Title	Hours
<b>Introductory Physics</b>		
<i>Physics 1</i>		
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	5
<i>Physics 2</i>		
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	5
<b>Intermediate Physics</b>		
PHYS 2303	Modern Physics	4
PHYS 2371 and PHYS 2372	Electronics and Lab for PHYS 2371	4
<b>Advanced Physics</b>		
PHYS 3600	Advanced Physics Laboratory	4
PHYS 3602	Electricity and Magnetism 1	4
PHYS 4115	Quantum Mechanics	4

PHYS 4305	Thermodynamics and Statistical Mechanics	4
PHYS 5318	Principles of Experimental Physics	4

### Supporting Courses

Code	Title	Hours
<b>Mathematics</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4

### Music Requirements

Code	Title	Hours
<b>Music Theory and Composition</b>		
MUSC 1201	Music Theory 1	4
MUSC 1202	Music Theory 2	4
Complete two of the following:		8
MUSC 3541	Music Analysis Seminar	
MUSC 2111	Algebra and Geometry of Music	
MUSC 3300	Music Perception and Cognition	
<b>Music in Context</b>		
MUSC 1001	Music in Everyday Life	4
<i>Contemporary</i>		
Complete one course from the following:		4
MUSC 2101	Black Popular Music	
MUSC 2150	Making a Musical: Analysis, Craft, and Creation	
MUSC 2317	Punk Rock	
MUSC 2310	Popular Music Since 1945	
MUSC 2320	40,000 Years of Music Technology	
MUSC 2340	Divas, DJs, and Double Standards	
MUSC 2351	Music, Sound, and the Screen	
MUSC 3352	Sounding Human	
MUSC 3560	Topics in Music since 1900	
MUSI 3401	Hip Hop in the Music Industry	
<b>Music Technology</b>		
MUSC 2350	Acoustics and Psychoacoustics of Music	4
MUST 1220	Introduction to Music Technology	4
MUST 2431	Computer Music Fundamentals	4
<b>Music Technology Electives</b>		
Complete two of the following:		8
MUSC 4510	Music and the Brain Research	
MUST 3540	Special Topics in Music Technology	
MUST 4610	Composition for Electronic Instruments	
MUST 4520		
<b>Music Technology Capstone</b>		
MUST 4611	Music Technology Capstone/Senior Recital	4

### Physics/Music Integrative Requirements

Code	Title	Hours
<b>Integrative Course Requirements</b>		
MUSC 2350	Acoustics and Psychoacoustics of Music	4

### Physics and Music Combined-Major Credit Requirement

Complete 98 semester hours in the major.

### Music Technology Major Grade Requirement

Students must maintain at least a 2.667 GPA (B- average) in the requirements of the music half of the combined major and also complete all required music courses with grades of at least C. Students who fail to meet the above standards will be placed on departmental probation; those who remain on probation for two consecutive semesters will be dropped from the major.

### Program Requirement

131 total semester hours required

### Plan of Study

#### Note on Physics courses in Plans of Study

Some required physics courses are offered in both fall and spring semesters, while other required courses are offered less frequently. Therefore, the suggested plan of study will vary from student to student, **depending on the year of entry for that student.**

See course offering schedule at the end of the plans of study.

Please contact your academic adviser for additional information and plans of study.

- PHYS 4651 offered spring and fall (odd years)
- PHYS 4652 offered every spring
- PHYS 5318 offered every spring

**Psychology and Music, BS**

This combined major educates students in psychology and music and the interface between the two disciplines. The scope and sequence of psychology courses provide students with a foundation in the interdisciplinary science of psychology, including such topics as cognition, psycholinguistics, perception, and the biological basis of behavior. Music courses provide a foundation in music theory, creative music in context, contemporary/ethnomusicology, music perception and cognition, and the psychoacoustics of music. Students completing this program of study should be able to understand how the two fields jointly contribute to explaining human behavior in the domain of music.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Difference and Diversity (DD), Ethical Reasoning (ER), and Advanced Writing in the Disciplines (WD) are not explicitly satisfied by the required courses. Difference and Diversity (DD) and Ethical Reasoning (ER) can be met through Music in Context. Students are responsible for satisfying any of these requirements not met within the major.

## Psychology Requirements

Code	Title	Hours
<b>Required Courses</b>		
PSYC 1101	Foundations of Psychology	4
PSYC 2320	Statistics in Psychological Research	4
PSYC 3452	Sensation and Perception	4
PSYC 3458	Biological Psychology	4
PSYC 3464	Psychology of Language	4
PSYC 3466	Cognition	4
<b>Required Lab</b>		
Complete one of the following:		4
PSYC 4600	Laboratory in Research Design	
PSYC 4606	Laboratory in Biological Psychology	
PSYC 4610	Laboratory in Psycholinguistics	
PSYC 4612	Laboratory in Cognition	
PSYC 4614	Laboratory in Social Psychology	
PSYC 4616	Laboratory in Personality	
PSYC 4622	Laboratory in Sensation and Perception	
PSYC 4624	Laboratory in Affective Science	
PSYC 4626	Laboratory in Life-Span Emotional Development	
PSYC 4628	Laboratory in Developmental Psychology	
<b>Required Seminar</b>		
Complete one of the following:		4
PSYC 4654	Seminar in Behavioral Modification	
PSYC 4656	Seminar in Biological Psychology	
PSYC 4658	Seminar in Psycholinguistics	
PSYC 4660	Seminar in Cognition	
PSYC 4662	Seminar in Personality	
PSYC 4664	Seminar in Social Psychology	
PSYC 4666	Seminar in Clinical Psychology	
PSYC 4668	Seminar in Sensation and Perception	
PSYC 4674	Seminar in Cognitive Neuroscience	
PSYC 4676	Seminar in Developmental Psychology	
PSYC 4678	Seminar in Social and Affective Neuroscience	
<b>Psychology Electives</b>		
Complete two PSYC courses not used to fulfill requirements above.		8

## Music Theory Requirements

Code	Title	Hours
<b>Required Courses</b>		
MUSC 1201	Music Theory 1	4
MUSC 1202	Music Theory 2	4

## Music in Context

Code	Title	Hours
MUSC 1001	Music in Everyday Life	4

### Creative Category

Complete one of the following 4-semester-hour courses or choose four 1-semester-hour ensembles and/or lessons from the list:

MUSC 2150	Making a Musical: Analysis, Craft, and Creation	
MUSC 2208	Jazz Improvisation	
MUSC 2209	Conducting	
MUSC 2210	Introduction to Songwriting	
MUST 1220	Introduction to Music Technology	
MUST 1301	Introduction to Composition	
MUST 2320	Sound Design	
<i>Ensembles and Lessons</i>		
MUSC 1901	Music Lessons 1	
MUSC 1902	Music Lessons 2	
MUSC 1904	Chorus	
MUSC 1905	Concert Band	
MUSC 1906	Orchestra	
MUSC 1907	Wind Ensemble	
MUSC 1911	Jazz Ensemble	
MUSC 1912	Rock Ensemble	
MUSC 1913	Blues/Rock Ensemble	
MUSC 1914	Create Your Own Music	
MUSC 1915	Chamber Ensemble	
MUSC 1917	Jazz Choir and Combo	
MUSC 1918	World Music Ensemble	
MUSC 1919	Fusion Ensemble	
MUSC 1920	Pep Band	

### Contemporary / Popular Music or Global Music /

#### Ethnomusicology Category

Complete one of the following:		4
MUSC 2101	Black Popular Music	
MUSC 2130	Music of Asia	
MUSC 2150	Making a Musical: Analysis, Craft, and Creation	
MUSC 2310	Popular Music Since 1945	
MUSC 2311	Topics in American Music	
MUSC 2313	Topics in World Music	
MUSC 2317	Punk Rock	
MUSC 2320	40,000 Years of Music Technology	
MUSC 2330	Musical Communities of Boston	
MUSC 2340	Divas, DJs, and Double Standards	
MUSC 2351	Music, Sound, and the Screen	
MUSC 2380	The World of Choral Music	
MUSC 3353	Music and the Racial Imagination	

MUSC 3560	Topics in Music since 1900
MUSI 3351	Music and Social Justice
MUSI 3360	Global Music Industries in Context
MUSI 3401	Hip Hop in the Music Industry
MUSI 5900	Ethnography in Creative Industries

Note: MUSC 2150 can be used to meet either the creative or the ethnomusicology/contemporary requirement but not both.

### Music Requirements

Code	Title	Hours
MUSC 2350	Acoustics and Psychoacoustics of Music	4
or INAM 3200	Creative Cognition	
MUSC 3300	Music Perception and Cognition	4
<b>Capstone</b>		
MUSC 4510	Music and the Brain Research	4

### Music Electives

Code	Title	Hours
Complete two courses from MUSC, MUSI, or MUST not used to fulfill the requirements above.		8

### Other Requirements Outside Major

Code	Title	Hours
PSYC 1000	Psychology at Northeastern	1
or MUSC 1000	Music at Northeastern	
EESC 2000	Professional Development for Co-op	1
or EEAM 2000	Professional Development for Co-op	
ENGW 1111	First-Year Writing	4
Complete one of the following:		4
MATH 1213	Interactive Mathematics	
MATH 1215	Mathematical Thinking	
MATH 1241	Calculus 1	

### Bridge/Integrative Courses

Code	Title	Hours
Note: MUSC 3300 is already required above.		
MUSC 3300	Music Perception and Cognition	

### Music Major Grade Requirement

Students must maintain at least a 2.667 grade-point average (B-average) in the requirements of the music half of the combined major and also complete all required music courses with grades of at least C. Students who fail to meet the above standards will be placed on departmental probation; those who remain on probation for two consecutive semesters will be dropped from the major.

### Program Requirement

130 total semester hours required

### Plan of Study

## Ethnomusicology, Minor

The minor in ethnomusicology offers students an interdisciplinary approach to exploring the richness of music in its cultural context.

The foundation of the minor is a unique introductory course, Music in Everyday Life (MUSC 1001), which investigates many dimensions of musical experience and music's connections to society. Students can take in-depth electives that focus on the music of a region, the global circulation of popular music, or courses that investigate music's relationship to critical issues around gender, race, disability, technology, ethics, neoliberalism, postcolonialism, and social justice, to name a few intersections. The minor culminates in a seminar, Musical Communities of Boston (MUSC 2330), which invites students to conduct their own ethnographic projects in and around Boston. For this course, students

have worked closely with homeless street performers in Boston's subway system, documented a weekly Grateful Dead night in the basement of an independent record store, and joined an all-female swing big band. Some of these projects have resulted in long-term social, academic, and musical collaborations.

Ethnomusicological studies would enrich many programs or degrees, including but not limited to African-American studies; sociology; anthropology; Asian studies; Middle Eastern studies; Jewish studies; world language studies; cultural studies; women, gender, and sexuality studies; Latin American studies; religion; urban studies; Art + Design; cinema studies; communication studies; international affairs; theatre; political science; or health sciences. Music majors may also add this minor.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Courses

Code	Title	Hours
MUSC 1001	Music in Everyday Life	4
MUSC 2330	Musical Communities of Boston	4

### Ethnomusicology Electives

Code	Title	Hours
Complete two of the following. At least one must be at 2000-level or higher.		8
MUSC 1131	Music of Latin America and the Caribbean	
MUSC 2101	Black Popular Music	
MUSC 2130	Music of Asia	
MUSC 2313	Topics in World Music	
MUSC 3353	Music and the Racial Imagination	
MUSI 3351	Music and Social Justice	
MUSI 5900	Ethnography in Creative Industries	

### GPA Requirement

2.000 GPA required in the minor. *Students must complete all required music courses with grades of at least C.*

### Music, Minor

The minor in music offers students an opportunity to explore electives in music along with a music theory course appropriate to the student's level of experience. The foundation of the minor is a unique introductory course, Music in Everyday Life (MUSC 1001), which investigates many dimensions of the musical experience and music's contributions to culture.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

A grade of C or better is required in all music courses.

### Music Theory and Musicianship

Code	Title	Hours
MUSC 1001	Music in Everyday Life	4
Complete one course from the following. Music theory placement test permits placement into Music Theory 1 or higher.		4
MUSC 1119	Fundamentals of Western Music Theory	
MUSC 1201	Music Theory 1	
MUSC 1202	Music Theory 2	
MUSI 1204	Analyzing Popular Genres	

### Music Literature Electives

Code	Title	Hours
Complete two courses from the following. Four semesters of ensembles and/or lessons may be substituted for one elective. At least one 2000-level course or above must be taken.		8
MUSC 1111	Rock Music	
MUSC 1112	Jazz	
MUSC 1113	Film Music	
MUSC 1116	Beethoven	
MUSC 1118	Music Therapy 1	
MUSC 1131	Music of Latin America and the Caribbean	
MUSC 1144	Music and Technology: Stone Age to Digital Age	
MUSC 2101	Black Popular Music	
MUSC 2107	Introduction to Opera	
MUSC 2130	Music of Asia	
MUSC 2150	Making a Musical: Analysis, Craft, and Creation	
MUSC 2310	Popular Music Since 1945	
MUSC 2312	Historical Traditions: Classical	
MUSC 2313	Topics in World Music	
MUSC 2317	Punk Rock	
MUSC 2320	40,000 Years of Music Technology	
MUSC 2330	Musical Communities of Boston	
MUSC 2340	Divas, DJs, and Double Standards	
MUSC 2351	Music, Sound, and the Screen	
MUSC 2380	The World of Choral Music	
MUSC 3352	Sounding Human	
MUSC 3353	Music and the Racial Imagination	
MUSC 3560	Topics in Music since 1900	
MUSI 3351	Music and Social Justice	
MUSI 3360	Global Music Industries in Context	
MUSI 3401	Hip Hop in the Music Industry	
MUSI 5900	Ethnography in Creative Industries	

### Lessons and Ensembles

All lessons and ensembles are 1 credit:

MUSC 1901	Music Lessons 1
MUSC 1902	Music Lessons 2
MUSC 1904	Chorus
MUSC 1905	Concert Band
MUSC 1906	Orchestra

MUSC 1907	Wind Ensemble
MUSC 1911	Jazz Ensemble
MUSC 1912	Rock Ensemble
MUSC 1913	Blues/Rock Ensemble
MUSC 1914	Create Your Own Music
MUSC 1915	Chamber Ensemble
MUSC 1917	Jazz Choir and Combo
MUSC 1918	World Music Ensemble
MUSC 1919	Fusion Ensemble
MUSC 1920	Pep Band

**GPA Requirement**

2.000 GPA required in the minor. *Students must complete all required music courses with grades of C or better.*

**Music Composition, Minor**

The minor in composition offers student composers at all levels a concentrated opportunity to build composition skills. The minor includes a foundation in music theory and introduction to compositional approaches, composition lessons, and additional course work to broaden the student composer's understanding and appreciation of the intersection of music and culture.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

**Required Courses**

Code	Title	Hours
MUSC 1001	Music in Everyday Life	4
MUSC 1201	Music Theory 1	4
MUSC 1202	Music Theory 2	4
MUSC 1301	Introduction to Composition	4
MUSC 1903	Composition Lessons	1

**Elective**

Code	Title	Hours
Complete one of the following:		4
MUSC 3541	Music Analysis Seminar	
MUSC 1220	Introduction to Music Technology	
MUSC 2320	Sound Design	

**GPA Requirement**

2.000 GPA required in the minor. *Students must complete all required music courses with grades of at least C.*

**Music Industry, Minor**

The music industry program is the first such undergraduate program offered in Boston and is designed for students with an interest in fields such as artist management; the music products industry; the recording industry; arts administration; contracting and legal issues; financial and economics aspects of the music industry; and broadcast, mobile, and online media technologies.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

A C grade or better is required in all music courses.

**Music Core**

Code	Title	Hours
MUSC 1001	Music in Everyday Life	4

**Music Industry**

Code	Title	Hours
MUSI 1230	Introduction to Music Industry	4

**Music Industry Electives**

Code	Title	Hours
Complete three of the following:		12
MUSC 1119	Fundamentals of Western Music Theory	
MUSC 2150	Making a Musical: Analysis, Craft, and Creation	
MUSC 2210	Introduction to Songwriting	
MUSC 2211	Advanced Songwriting	
MUSC 3353	Music and the Racial Imagination	
MUSI 2231	Music Licensing for Media	
MUSI 2232	Music Recording 1	
MUSI 2234	Festivals	
MUSI 2235	Copyright in the Creative Industries	
MUSI 2341	Music Supervision 1	
MUSI 2540	Special Topics in Music Industry	
MUSI 3332	Artist Management	
MUSI 3333	The Record Industry	
MUSI 3334	Music Products Industry	
MUSI 3338	Music Industry Marketing and Promotion	
MUSI 3340	Concert Promotion and Venue Management	
MUSI 3351	Music and Social Justice	
MUSI 3360	Global Music Industries in Context	
MUSI 3401	Hip Hop in the Music Industry	
MUSI 4530	Music Entrepreneurship	
MUSI 4601	Seminar in Music Industry	
MUSI 5900	Ethnography in Creative Industries	
MUSC 1220	Introduction to Music Technology	

**GPA Requirement**

2.000 GPA required in the minor. *Students must complete all required music courses with grades of at least C.*

**Music Performance, Minor**

The minor in music performance offers students an opportunity to improve on their instrument or voice through ensemble performance, private lessons, recitals, and instruction in music theory. Students also take an elective in music that can be used to explore a genre, musical culture, or composer related to the student's performance area or can

be used to broaden the student's musical horizons beyond their area of focus.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

*Note:* Acceptance into the minor requires an audition.

### Music Core

A grade of C or higher is required in music theory courses:

Code	Title	Hours
MUSC 1001	Music in Everyday Life	4
MUSC 1201	Music Theory 1	4

### Music Lessons

Code	Title	Hours
Complete four music lesson courses (courses are repeatable):		4
MUSC 1901	Music Lessons 1	
MUSC 1902	Music Lessons 2	

### Music Ensemble

Code	Title	Hours
Complete five music ensembles:		5
MUSC 1904	Chorus	
MUSC 1905	Concert Band	
MUSC 1906	Orchestra	
MUSC 1907	Wind Ensemble	
MUSC 1911	Jazz Ensemble	
MUSC 1912	Rock Ensemble	
MUSC 1913	Blues/Rock Ensemble	
MUSC 1914	Create Your Own Music	
MUSC 1915	Chamber Ensemble	
MUSC 1917	Jazz Choir and Combo	
MUSC 1918	World Music Ensemble	
MUSC 1919	Fusion Ensemble	
MUSC 1920	Pep Band	

### Music Electives

Code	Title	Hours
Complete one of the following:		4
MUSC 1111	Rock Music	
MUSC 1112	Jazz	
MUSC 1113	Film Music	
MUSC 1116	Beethoven	
MUSC 1118	Music Therapy 1	
MUSC 1131	Music of Latin America and the Caribbean	
MUSC 1144	Music and Technology: Stone Age to Digital Age	
MUSC 2101	Black Popular Music	
MUSC 2107	Introduction to Opera	
MUSC 2111	Algebra and Geometry of Music	
MUSC 2130	Music of Asia	

MUSC 2150	Making a Musical: Analysis, Craft, and Creation
MUSC 2208	Jazz Improvisation
MUSC 2209	Conducting
MUSC 2210	Introduction to Songwriting
MUSC 2211	Advanced Songwriting
MUSC 2310	Popular Music Since 1945
MUSC 2312	Historical Traditions: Classical
MUSC 2313	Topics in World Music
MUSC 2317	Punk Rock
MUSC 2320	40,000 Years of Music Technology
MUSC 2330	Musical Communities of Boston
MUSC 2340	Divas, DJs, and Double Standards
MUSC 2350	Acoustics and Psychoacoustics of Music
MUSC 2380	The World of Choral Music
MUSC 2351	Music, Sound, and the Screen
MUSC 2420	Music Composition Seminar 1
MUSC 3300	Music Perception and Cognition
MUSC 3337	Writing about Music
MUSC 4510	Music and the Brain Research
MUSC 3352	Sounding Human
MUSC 3353	Music and the Racial Imagination
MUSC 3541	Music Analysis Seminar
MUSC 3560	Topics in Music since 1900
MUSI 3351	Music and Social Justice
MUSI 3401	Hip Hop in the Music Industry
MUSI 5900	Ethnography in Creative Industries

### Music Recitals

Code	Title	Hours
MUSC 3410	Recital 1	1
MUSC 4622	Recital 2	1

### GPA Requirement

2.000 GPA required in the minor. *Students must complete all required music courses with grades of at least C.*

### Music Recording, Minor

The minor in music recording offers students a chance to explore the theory and practice of recording from basic principles through studio sessions and mixing/mastering. An elective rounds out the minor, giving students an opportunity to learn about the intersection of recording and copyright, technology, entertainment, and other disciplines.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Courses

Code	Title	Hours
MUSI 2232	Music Recording 1	4
MUSI 2331	Music Recording 2	4

MUSI 3341	Music Recording 3—Mixing and Mastering	4
-----------	--	---

### Recording Elective

Code	Title	Hours
Complete one of the following:		
MUSC 1001	Music in Everyday Life	4
MUSI 2341	Music Supervision 1	
MUST 1220	Introduction to Music Technology	
MUSI 2235	Copyright in the Creative Industries	
MUST 2320	Sound Design	

### GPA Requirement

2.000 GPA required in the minor. Students must complete all required music courses with grades of at least C.

### Music Technology, Minor

The minor in music technology gives students an opportunity to explore the creative application of digital and analog audio technologies to a broad range of artistic, social, and industrial purposes, including experimental composition, film, video, theatre, game design, mobile applications, sound design for urban environments, musical instrument design, and beyond. An emphasis is maintained throughout on imaginative exploration, collaboration across disciplines, and real-world experience.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

A C grade or better is required in all music courses.

### Required Courses

Code	Title	Hours
MUSC 1001	Music in Everyday Life	4
MUST 1220	Introduction to Music Technology	4
MUST 2431	Computer Music Fundamentals	4

### Music Technology Electives

Code	Title	Hours
Complete two of the following:		
MUSC 2111	Algebra and Geometry of Music	8
MUSC 2320	40,000 Years of Music Technology	
MUSC 2350	Acoustics and Psychoacoustics of Music	
MUST 2320	Sound Design	
MUST 3540	Special Topics in Music Technology	
MUST 3601	Digital Audio Signal Processing	
MUST 3602	Electronics for Music	
MUST 3603	Embedded Audio Programming	

### GPA Requirement

2.000 GPA required in the minor. *Students must complete all required music courses with grades of at least C.*

### Musical Theatre, Minor

Uniting acting, singing, and dance, the musical theatre minor provides foundational skills in musical theatre performance and the exploration of the culture and evolution of the musical form. This minor combines theatre courses in performance and Broadway history with additional course options from the Department of Music.

### Minor Requirements

Complete all courses listed below unless otherwise indicated.

Note: Students pursuing a music theatre minor may double count up to one course between that minor and the student's declared major and other minors.

### For Theatre Majors (Not Including Combined Majors):

#### REQUIRED COURSES

Code	Title	Hours
THTR 1500	Musical Theatre Performance 1	4
MUSC 1119 or MUSC 1201	Fundamentals of Western Music Theory Music Theory 1	4

#### MAKING MUSICAL THEATRE

Code	Title	Hours
Complete one of the following:		
MUSC 1901	Music Lessons 1	1

THTR 2310	History of Musical Theatre	
THTR 3570	Musical Theatre Performance 2	

### GPA Requirement

2.000 GPA required in the minor

### Performing Arts Administration, Minor

Connecting a range of College of Arts, Media and Design courses, this minor prepares students to work in nonprofit arts organizations such as theatre companies, concert venues, and performance centers. Students have an opportunity to develop valuable skills in artistic programming, marketing, organizational communication, public relations, community outreach, and the entertainment business.

### Program Requirements

Complete all courses listed below unless otherwise indicated.

Students pursuing a performing arts administration minor may double count up to one course between that minor and the student's declared major and other minors. Should a student place out of a course in a minor it must be replaced with another course.

#### Notes:

- No student may receive a theatre minor as a result of external transfer credit only.

- Music majors cannot use Performing Arts Administration (MUSI 2330) as a major elective due to double-counting policy outlined above.

### Foundational Courses

Code	Title	Hours
Complete one of the following:		4
THTR 1101	Introduction to Theatre	
MUSC 1001	Music in Everyday Life	
MUSI 1230	Introduction to Music Industry	

### Required Course

Code	Title	Hours
MUSI 2330	Performing Arts Administration	4

### Electives

Code	Title	Hours
Complete two of the following (prerequisites may apply):		8
COMM 1113	Business and Professional Speaking	
COMM 1231	Principles of Organizational Communication	
COMM 2350	Producing for the Entertainment Industry	
COMM 2650	The Business of Entertainment	
COMM 3451	Advertising Practices	
JRNL 3425	Public Relations Principles	
MUSI 2234	Festivals	
MUSI 2235	Copyright in the Creative Industries

MUSI 3340	Concert Promotion and Venue Management	
THTR 2335	Boston Theatre Experience	
AACE 6000	Arts and Culture Organizational Leadership	

### GPA Requirement

2.000 GPA required in the minor

### Songwriting, Minor

The minor in songwriting offers students a chance to build songwriting skills through classes that focus on craft, collaboration, music theory, and songwriting business practice.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Courses

Code	Title	Hours
Complete one of the following:		4
MUSC 1119	Fundamentals of Western Music Theory	
MUSC 1201	Music Theory 1	
MUSI 1204	Analyzing Popular Genres	
<b>Songwriting</b>		

MUSC 2210	Introduction to Songwriting	4
<b>Songwriting Electives</b>		
<i>Complete two of the following:</i>		8
MUSC 1001	Music in Everyday Life	
MUSC 2211	Advanced Songwriting	
MUSC 2150	Making a Musical: Analysis, Craft, and Creation	
MUSI 2232	Music Recording 1	
MUSI 2235	Copyright in the Creative Industries	
MUSI 2331	Music Recording 2	

### GPA Requirement

2.000 GPA required in the minor. *Students complete all required music courses with grades of at least C.*

## Theatre

Website (<https://camd.northeastern.edu/theatre/>)

### Antonio Ocampo-Guzman

Associate Professor and Chair

617.373.2244

The Northeastern Department of Theatre is a hub for creative practice research: We explore theatre and performance both as a living art and as a system of inquiry in order to engage with our global society and the moment in which we live. We offer students a transformative education by aligning performance and production with academic inquiry and professional experiential learning. Our curriculum embraces diverse techniques, philosophies, and measures of success.

Our multidimensional students develop a unique understanding of creative leadership. They are actors, directors, designers, technicians, playwrights, stage managers, producers, and administrators and more. With generosity, integrity, respect, and rigor, we explore theatre as a living art that engages across disciplines.

We produce a variety of productions in the Studio Theatre and Ryder Theatre Lab, where students collaborate with faculty, staff, and professional guest artists to achieve the highest standard of professionalism. With more than 40 co-op partners around the globe, students can connect classroom and stage experiences with the professional world.

### Academic Progression Standards

Students must receive a minimum grade of 2.000 in major courses.

Code	Title	Hours
Students must receive a minimum grade of 2.000 in major courses. The following courses are recommended to be taken by the end of the fourth semester (third semester for transfer students):		
THTR 1100	Production Experience 1	1
THTR 1101	Introduction to Theatre	4
THTR 1120	Acting 1	4
THTR 1131	Technical Theatre 1	4
THTR 1270	Introduction to Theatrical Design	4
THTR 2325	From Script to Stage	4

## Programs

### Bachelor of Arts (BA)

- Theatre (p. 234)
- Communication Studies and Theatre (p. 137)
- Cultural Anthropology and Theatre (p. 244)
- English and Theatre (p. 246)
- Media and Screen Studies and Theatre (p. 162)
- Theatre and Interaction Design (p. 116)

### Bachelor of Science (BS)

- Theatre (p. 237)
- American Sign Language and Theatre (p. 239)
- Computer Science and Theatre (p. 242)
- Media and Screen Studies and Theatre (p. 175)
- Theatre and Interaction Design (p. 118)

### Minors

- Theatre (p. 258)
- Global Fashion Studies (p. 255)
- Improvisation and Storytelling (p. 184)
- Musical Theatre (p. 232)
- Playwriting (p. 257)
- Performing Arts Administration (p. 233)
- Theatrical Design (p. 259)
- Theatre, Performance, and Social Change (p. 258)

## Theatre, BA

The Northeastern Department of Theatre is dedicated to creativity, collaboration, and excellence in the pursuit of innovative ways to see, to investigate, and to make theatre for a new generation. We offer students a transformative theatre education by aligning performance and production with academic inquiry and professional experiential learning. Our multidimensional students develop a unique understanding of professionalism and entrepreneurship as the foundations of meaningful careers. We embrace diverse methods, philosophies, and measures of success. Through values of generosity, integrity, respect, and rigor, we explore theatre as a living art that engages with our global society and the moment in which we live.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (EI), Interpreting Culture (IC), and Societies and Institutions (SI) are met through the major course requirements.

NUpath requirements Formal and Quantitative Reasoning (FQ), Difference and Diversity (DD), and Ethical Reasoning (ER) may be met through electives in the major.

NUpath requirements Natural and Designed World (ND) and Analyzing and Using Data (AD) must be met through general electives.

## Theatre Major Requirements

A minimum grade of C is required for all theatre courses.

Code	Title	Hours
<b>Foundational Stages</b>		
THTR 1000	Theatre at Northeastern	1
THTR 1101	Introduction to Theatre	4
THTR 1120	Acting 1	4
THTR 1131	Technical Theatre 1	4
THTR 1270	Introduction to Theatrical Design	4
THTR 2325	From Script to Stage	4
THTR 4100	Senior Career Seminar	1

### Theatre Texts and Context

At least one the Theatre Texts and Contexts course must be at the 2000-level or above.

Complete one of the following:	4
THTR 1220	Race, Power, and Performance
THTR 2300	Classics of Global Theatre
THTR 2315	Rebels of Modern Drama
THTR 2320	Classics of 20th-Century American Drama
THTR 2500	Breaking the Glass Ceiling: Women in Theatre
THTR 3200	Queer Theatre and Performance

Complete one of the following:	4
THTR 1215	Activism and Performance
THTR 2340	Theatre and Society
THTR 3100	Creative Storytelling for Social Engagement

### Making Theatre

THTR 1100	Production Experience 1	1
THTR 2000	Production Experience 2	1
THTR 3702	Rehearsal and Production: The Art of Collaboration	1
THTR 4702	Capstone Rehearsal and Performance	4

### Advanced Technique

Complete one of the following:	4
Students concentrating in theatre performance should complete THTR 3300, THTR 3450 or THTR 3550.	
Students concentrating in production should complete THTR 3550	
THTR 3300	Devised Theatre Project: Collaborative Performance
THTR 3450	Acting 3 (Theatre Performance Concentration)
THTR 3550	Directing for the Stage

## Electives

Complete the following electives or choose one of the concentrations below (p. 235).

Code	Title	Hours
Complete five of the following:		20
THTR 1215	Activism and Performance	
THTR 1260	Movement for the Actor	
THTR 2300	Classics of Global Theatre	
THTR 2310	History of Musical Theatre	
THTR 2315	Rebels of Modern Drama	
THTR 2320	Classics of 20th-Century American Drama	
THTR 2330	Playwriting

**Theatre, BS**

The Northeastern Department of Theatre is dedicated to creativity, collaboration, and excellence in the pursuit of innovative ways to see, to investigate, and to make theatre for a new generation. We offer students a transformative theatre education by aligning performance and production with academic inquiry and professional experiential learning. Our multidimensional students develop a unique understanding of professionalism and entrepreneurship as the foundations of meaningful careers. We embrace diverse methods, philosophies, and measures of success. Through values of generosity, integrity, respect, and rigor, we explore theatre as a living art that engages with our global society and the moment in which we live.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (EI), Interpreting Culture (IC), and Societies and Institutions (SI) are met through the major course requirements.

NUpath requirements Formal and Quantitative Reasoning (FQ), Difference and Diversity (DD), and Ethical Reasoning (ER) may be met through electives in the major.

NUpath requirements Natural and Designed World (ND) and Analyzing and Using Data (AD) must be met through general electives.

**Theatre Major Requirements**

A minimum grade of C is required for all theatre courses.

Code	Title	Hours
<b>Foundational Stages</b>

### American Sign Language and Theatre, BS

The American Sign Language and Interpreting Education (ASLIE) Program curriculum is an intensive program of study dedicated to

preparing individuals to interact in a positive and supportive manner with members of the American Deaf Community. This program is designed to assist students in acquiring competence in American Sign Language, developing an understanding of the American Deaf Community and its culture, and applying their linguistic and cultural skills and knowledge to a particular academic area of study.

This major is designed for students who want to combine an understanding of the American Deaf Community and its culture to the study and making of theatre, including performance, design, and production. It offers both classroom and experiential learning on the creative, social, and linguistic relationship between theatre and the American Deaf Community. Students may study acting, dramatic literature, and production design to develop the skills to be professional ASL/English interpreters and/or performers for theatrical productions.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

**Communication Studies and Theatre, BA**

The Departments of Theatre and Communication Studies offer an interdisciplinary combined major that unites the artistic dimensions of theatre with the practical skills and theories in communication studies. The program provides both the creative study of theater performance, literature, playwriting, and directing with the ability to research and deliver a compelling speech and think critically and write effectively. The

two disciplines unite in shared values of original personal expression, professional collaboration, and experiences in the cultural, social, and ethical impact of theatre as human communication.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Creative Expression/Innovation (EI), Societies and Institutions (SI), and Ethical Reasoning (ER) are met through the major course requirements.

NUpath requirements Natural and Designed World (ND), Formal and Quantitative Reasoning (FQ), Analyzing and Using Data (AD), and Difference and Diversity (DD) may be met through electives in the major.

## Communication Studies Requirements

**Computer Science and Theatre, BS**

The computer science and theatre combined major is ideal for creative students who love technology as a means to expand what is possible in the performing arts. This major combines a strong foundation in computing with the opportunity to acquire a deep knowledge of theatre through curriculum that spans design, performance, and the production of innovative forms of theatre, including interactive media, computer graphics, human-computer interaction, and more.

It offers both classroom and experiential learning on the creative, social, and technological relationship between theatre and computing.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Computer Science Requirements

Code	Title	Hours
<b>Required Courses</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4
CS 4550	Web Development	4
IS 4300	Human Computer Interaction	4

### Khoury Elective Courses

Complete 8 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:	8
CS 2500 or higher, except CS 5010	
CY 2000 or higher, except CY 4930	
DS 2500 or higher, except DS 4900	
IS 2000 or higher, except IS 4900	

## Theatre Requirements

Code	Title	Hours
<b>Theatre</b>		
A grade of C or higher is required for all theatre courses.		
<b>Foundational Stages</b>		
THTR 1101	Introduction to Theatre	4
THTR 1120	Acting 1	4
THTR 1131	Technical Theatre 1	4
THTR 1270	Introduction to Theatrical Design	4
THTR 2325	From Script to Stage	4
<b>Theatre Texts and Context</b>		
Complete two of the following:		8
THTR 1220	Race, Power, and Performance	
THTR 2300	Classics of Global Theatre	
THTR 2315	Rebels of Modern Drama	
THTR 2320	Classics of 20th-Century American Drama	
THTR 2500	Breaking the Glass Ceiling: Women in Theatre	
THTR 3200	Queer Theatre and Performance	
<b>Making Theatre</b>		
THTR 1100	Production Experience 1	1
THTR 2000	Production Experience 2	1
THTR 4702	Capstone Rehearsal and Performance	4
<b>Intermediate or Advanced Technique</b>		
Complete one of the following:		4
THTR 2300	Classics of Global Theatre	

THTR 2310	History of Musical Theatre
THTR 2315	Rebels of Modern Drama
THTR 2330	Playwriting
THTR 2335	Boston Theatre Experience
THTR 2340	Theatre and Society
THTR 2342	Acting 2
THTR 2345	Acting for the Camera
THTR 2346	Viewpoints
THTR 2380	Costume Design
THTR 2400	Scenic Design
THTR 3100	Creative Storytelling for Social Engagement
THTR 3200	Queer Theatre and Performance
THTR 3300	Devised Theatre Project: Collaborative Performance
THTR 3400	Designing Combat for the Stage
THTR 3450	Acting 3
THTR 3550	Directing for the Stage
THTR 3570	Musical Theatre Performance 2

## Integrative Requirement

Code	Title	Hours
THTR 2370	Lighting Design	4

## Supporting Courses

Code	Title	Hours
<b>Mathematics</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
<b>Computing and Social Issues</b>		
Complete one of the following:		4
AFAM 2600	Issues in Race, Science, and Technology	
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
IS 1300 or PHIL 1300	Knowledge in a Digital World	
PHIL 1145	Technology and Human Values	
SOCL 1280	The Twenty-First-Century Workplace	
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society

## Cultural Anthropology and Theatre, BA

This major is designed for students who want to combine a knowledge of the art of theatre, including performance, design, and production, with sociocultural theories and conceptual frameworks for understanding human behavior. It offers both classroom and experiential learning in the practice of making theatre and performance theories with cross-cultural approaches. Offers students the opportunity to develop an understanding of theatre's impact on past and present cultures, as well as a deeper awareness of the world in which they live.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Anthropology Requirements

Code	Title	Hours
Foundation Courses		
ANTH 1101	Peoples and Cultures	4
ANTH 2305	Global Markets and Local Culture	4
ANTH 3421	Foundations of Anthropological Theory	4
ANTH 3410	Ethnographic Field Experience	4
Advanced Area Courses		
Complete two of the following:		
ANTH 4350	Ethnography of Southeast Asia	
ANTH 4500	Latin American Society and Development	
ANTH 4505	Native North Americans	
ANTH 4510	Anthropology of Africa	
ANTH 4515	Culture and Politics in Modern India	

### Anthropology Electives

Complete three courses in the following range. Two study-abroad courses may count toward this requirement with prior permission from the department: 12

ANTH 2300 to ANTH 4999

### Social Science Electives

Complete three social science courses from the following subject areas: 12

AFRS, AFAM, CRIM, ECON, HUSV, HIST, INTL, LING, LPSC, POLS, PSYC, SOCL

## Theatre Requirements

A minimum grade of C is required in all theatre courses.

Code	Title	Hours
<b>Foundational Stages</b>		
THTR 1101	Introduction to Theatre	4
THTR 1120	Acting 1	4
THTR 1131	Technical Theatre 1	4
THTR 1270	Introduction to Theatrical Design	4
THTR 2325	From Script to Stage	4
<b>Theatre Texts and Context</b>		
Complete one of the following:		4
THTR 1220	Race, Power, and Performance	
THTR 2300	Classics of Global Theatre	
THTR 2315	Rebels of Modern Drama	
THTR 2320	Classics of 20th-Century American Drama	
THTR 2340	Theatre and Society	
<b>Making Theatre</b>		
THTR 1100	Production Experience 1	1

## English and Theatre, BA

The Department of Theatre and Department of English offer an interdisciplinary combined major that integrates performance, design, production, and dramatic literature with literary studies, digital humanities, and creative writing. This combined major offers both classroom and experiential learning in making theatre, playwriting, and dramaturgy with the study of the diverse historical, cultural, and aesthetic contexts of literature. Students develop the capacity for interpreting a variety of texts through performance and writing to engage audiences.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### English Requirements

Code	Title	Hours
<b>English Course-Level Requirement</b>		
In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.		
<b>Introduction to College</b>		
ENGL 1000	English at Northeastern	1
<b>Foundational Courses</b>		
ENGL 1400	Introduction to Literary Studies	4
ENGL 1160 or ENGL 1410	Introduction to Rhetoric Introduction to Research on Writing	4
<b>Diversity</b>		

Complete one of the following courses. This course may also be used to fulfill an additional English requirement below: 4

ENGL 2150	Literature and Digital Diversity
ENGL 2296	Early African-American Literature
ENGL 2451	Postcolonial Women Writers
ENGL 2455	American Women Writers
ENGL 2760	Writing in Global Contexts
ENGL 2470	Asian-American Literature
ENGL 3663	The African American Novel
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity
ENGL/JWSS 3685	Modern and Contemporary Jewish Literature

### Pre-Nineteenth-Century Literature

Complete one of the following: 4

ENGL 1600	Introduction to Shakespeare
ENGL 1700	Global Literatures 1
ENGL 2296	Early African-American Literature
ENGL 3101	Early Literatures
ENGL 3120	17th- and 18th-Century Literatures
ENGL 3618	Milton
ENGL/JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity

### Nineteenth-, Twentieth-, and Twenty-First-Century Literature

Complete one of the following: 4

ENGL 2301	The Graphic Novel
ENGL 2330	The American Renaissance
ENGL 2440	The Modern Bestseller
ENGL 2600	Irish Literary Culture (Abroad)
ENGL 2610	Contemporary Israeli Literature and Art (Abroad)
ENGL 3140	19th-Century Literatures
ENGL 3619	Emerson and Thoreau
ENGL/JWSS 3685	Modern and Contemporary Jewish Literature
ENGL 3720	19th-Century Major Figure
ENGL 3730	20th- and 21st-Century Major Figure

### Theories and Methods

Complete one of the following: 4

ENGL 1140	Grammar: The Architecture of English
ENGL 1160	Introduction to Rhetoric
ENGL 1410	Introduction to Research on Writing
ENGL 2150	Literature and Digital Diversity
ENGL 3325	Rhetoric of Law
ENGL 3340	Technologies of Text
ENGL 3370	Writing Cultures
ENGL 3381	The Practice and Theory of Teaching Writing
ENGL 3400	Opening the Archive
ENGL 3700	Narrative Medicine
ENGL 4410	Research in Rhetoric and Writing
LING 1150	Introduction to Language and Linguistics

LING 2350	Linguistic Analysis
LING 3450	Syntax
LING 3452	Semantics
LING 3454	History of English
LING 3456	Language and Gender
LING 3458	Topics in Linguistics

**Comparative Literature**

Complete one of the following: 4

ENGL 1450	Reading and Writing in the Digital Age
ENGL 1500	British Literature to 1800
ENGL 1502	American Literature to 1865
ENGL 2150	Literature and Digital Diversity
ENGL 2420	Contemporary Poetry
ENGL 2430	Contemporary Fiction
ENGL 2451	Postcolonial Women Writers
ENGL 2455	American Women Writers
ENGL 2470	Asian-American Literature
ENGL 2510	Horror Fiction
ENGL 2520	Science Fiction
ENGL 2600	Irish Literary Culture (Abroad)
ENGL 2620	What Is Nature?
ENGL 2690	Boston in Literature
ENGL 3487	Film and Text (Abroad)
ENGL 3663	The African American Novel

**Writing**

Complete one of the following: 4

ENGL 2700	Creative Writing
ENGL 2710	Style and Editing
ENGL 2740	Writing and Community Engagement
ENGL 2760	Writing in Global Contexts
ENGL 2770	Writing to Heal
ENGL 2780	Visual Writing: Writing Visuals
ENGL 2850	Writing for Social Media: Theory and Practice
ENGL 3375	Writing Boston
ENGL 3376	Creative Nonfiction
ENGL 3377	Poetry Workshop
ENGL 3378	Fiction Workshop
ENGL 3380	Writing Seminar
ENGL 3382	Publishing in the 21st Century
ENGL 3384	The Writer's Marketplace

**Capstone**

ENGL 4710	Capstone Seminar	4
or ENGL 4720	Capstone Project	

**English Electives**

Complete two additional ENGL electives. 8

**Theatre Requirements**

A minimum grade of C is required in all theatre courses.

Code	Title	Hours
<b>Foundational Stages</b>		
THTR 1000	Theatre at Northeastern	1
or ENGL 1000	English at Northeastern	

THTR 1101	Introduction to Theatre	4

## Media and Screen Studies and Theatre, BA

This major is designed for students who want to combine a knowledge of the art of theatre with the theories and conceptual frameworks of media and film studies. It offers both classroom and experiential learning in areas of acting, directing, playwriting, and design with related studies in screenwriting, media technology, and media production. Students have an opportunity to develop a personalized technique for the practices of making theatre, film, and television as engaged citizens and creative artists.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (EI), Interpreting Culture (IC) and Societies and Institutions (SI) are met through the major course requirements.

NUpath requirements Formal and Quantitative Reasoning (FQ), Analyzing and Using Data (AD), Difference and Diversity (DD), and Ethical Reasoning (ER) may be met through electives in the major.

NUpath requirement Natural and Designed World (ND) must be met through general electives.

### Media and Screen Studies Requirements

Code	Title	Hours
<b>Media and Screen Studies Common Requirement</b>		
MSCR 1220	Media, Culture, and Society	4
MSCR 1320 or MSCR 1420	Media and Social Change or Media History	4
<b>Foundation Courses</b>		
Complete one of the following:		4
MSCR 1230	Introduction to Film Production	
MSCR 2220	Understanding Media	
<b>Diversity or Globalization Course</b>		
Complete one of the following:		4
MSCR 2325	Global Media	

MSCR 2505	Digital Feminisms

## Media and Screen Studies and Theatre, BS

This major is designed for students who want to combine a knowledge of the art of theatre with the theories and conceptual frameworks of media and film studies. It offers both classroom and experiential learning in areas of acting, directing, playwriting, and design with related studies in screenwriting, media technology, and media production. Students have an opportunity to develop a personalized technique for the practices of making theatre, film, and television as engaged citizens and creative artists.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (EI), Interpreting Culture (IC), and Societies and Institutions (SI) are met through the major course requirements.

NUpath requirements Formal and Quantitative Reasoning (FQ), Analyzing and Using Data (AD), Difference and Diversity (DD), and Ethical Reasoning (ER) may be met through electives in the major.

NUpath requirement Natural and Designed World (ND) must be met through general electives.

### Media and Screen Studies Requirements

Code	Title	Hours
<b>Media and Screen Studies Common Requirements</b>		
MSCR 1220	Media, Culture, and Society	4
MSCR 1320	Media and Social Change	4
or MSCR 1420	Media History	
<b>Foundation Course</b>		
Complete one of the following:		4
MSCR 1230	Introduction to Film Production	
MSCR 2220	Understanding Media	
<b>Diversity or Globalization Course</b>		
Complete one of the following:		4
MSCR 3392	Gender and Film	
MSCR 2325	Global Media	
MSCR 2505	Digital Feminisms	
MSCR 3437	Media and Identity	
<b>Writing-Intensive</b>		
Complete two of the following:		8

## Theatre and Interaction Design, BA

This program is designed for students who want to combine a knowledge of the art of theatre with the theories and practice-based design disciplines. It offers both classroom and experiential learning in areas of acting, directing, playwriting, and design practices. Design is the practice-based discipline raising important questions about—and providing significant answers to—how we live. Designers are needed when we don't know what is needed. Designers propose alternative futures and create new choices using design principles and processes to create, compose, and construct meaning in diverse knowledge fields. Designers seek a broad understanding of principles and systems of perception, communication, and action.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Theatre Requirements

A minimum grade of C is required for all theatre courses.

### Global Fashion Studies, Minor

The international scope of this multidisciplinary minor is on the context, culture, practices, and trends in the fashion industry. It is designed for students interested in fashion marketing, retailing, media, and technology. Students have an opportunity to learn to identify, analyze, and communicate how the fashion industry functions artistically, socially, historically, and economically in a global market.

### Minor Requirements

Complete all courses listed below unless otherwise indicated.

A student pursuing the minor in global fashion studies may double count up to one course between this minor and the student's declared major(s) and minor(s).

### Required Courses

Code	Title	Hours
Complete one of the following: 4		
THTR 1236	Introduction to Global Fashion Studies: History, Theory, and Contemporary Practice	
THTR 1237	Introduction to Global Fashion Studies Abroad: History, Theory, and Contemporary Practice	

### Electives

Code	Title	Hours
Complete two of the following: 8		
ARTE 4901	Special Topics in Art and Design Studio (Fashion Photography Only)	
THTR 1230	The Evolution of Fashion and Costume	
THTR 1233	Nineteenth- and Twentieth-Century Fashion in Europe	
THTR 1235	Fashion and Costume Design in Film and Television	
THTR 1240	Fashion Industry and Trend Forecasting in Europe	
THTR 2242	Fashion Retailing	
THTR 2385	Fashion Construction and Pattern Making	
THTR 3350	Fashion Marketing and Merchandising in Europe	
Complete one of the following OR a third course from the list above: 4		
ARTD 2350	Photo Basics for Nonmajors	
ARTG 1250	Design Process Context and Systems	
ARTG 2260	Programming Basics	
COMM 3445	Public Relations Principles	
COMM 3451	Advertising Practices	
JRNL 3425	Public Relations Principles	

JRNL 5310	Photojournalism
THTR 2380	Costume Design

### GPA Requirement

2.000 GPA required in the minor

### Improvisation and Storytelling, Minor

The minor in improvisation and storytelling is intended for students interested in integrating the creativity of actor training and the practical techniques of public speaking. Students are encouraged to choose courses to empower their voice and speech, cultivate their onstage persona, and develop high-impact presentation skills to enhance career prospects. This minor, which features classes offered by the Department of Theatre and the Department of Communication Studies, seeks to create more confident, creative, and compelling communicators.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Students must complete a minimum of three courses exclusive to this minor beyond the courses required for the student's declared major(s) and additional minor(s).

### Common Requirements

Code	Title	Hours
COMM 1511	Communication and Storytelling	4
THTR 1125	Improvisation	4

### Communication Studies Elective

Code	Title	Hours
Complete one of the following:		4
COMM 1112	Public Speaking	
COMM 1113	Business and Professional Speaking	
COMM 1210	Persuasion and Rhetoric	

### Theatre Elective

Code	Title	Hours
Complete one of the following:		4
THTR 1130	Introduction to Acting	
THTR 1160	The Professional Voice	
THTR 2345	Acting for the Camera	

### GPA Requirement

2.000 GPA required in the minor

### Musical Theatre, Minor

Uniting acting, singing, and dance, the musical theatre minor provides foundational skills in musical theatre performance and the exploration of the culture and evolution of the musical form. This minor combines theatre courses in performance and Broadway history with additional course options from the Department of Music.

### Minor Requirements

Complete all courses listed below unless otherwise indicated.

Note: Students pursuing a music theatre minor may double count up to one course between that minor and the student's declared major and other minors.

### For Theatre Majors (Not Including Combined Majors):

#### REQUIRED COURSES

Code	Title	Hours
THTR 1500	Musical Theatre Performance 1	4
MUSC 1119	Fundamentals of Western Music Theory	4
or MUSC 1201	Music Theory 1	

#### MAKING MUSICAL THEATRE

Code	Title	Hours
Complete one of the following:		1
MUSC 1901	Music Lessons 1	
THTR 1100	Production Experience 1	

#### ELECTIVES

Code	Title	Hours
Complete two of the following:		8
MUSC 1142	Pop, Jazz, and Rock Singing

**GPA Requirement**

2.000 GPA required in the minor

**Performing Arts Administration, Minor**

Connecting a range of College of Arts, Media and Design courses, this minor prepares students to work in nonprofit arts organizations such as theatre companies, concert venues, and performance centers. Students have an opportunity to develop valuable skills in artistic programming, marketing, organizational communication, public relations, community outreach, and the entertainment business.

**Program Requirements**

Complete all courses listed below unless otherwise indicated.

Students pursuing a performing arts administration minor may double count up to one course between that minor and the student's declared major and other minors. Should a student place out of a course in a minor it must be replaced with another course.

**Notes:**

- No student may receive a theatre minor as a result of external transfer credit only.
- Music majors cannot use Performing Arts Administration (MUSI 2330) as a major elective due to double-counting policy outlined above.

**Foundational Courses**

Code	Title	Hours
Complete one of the following:		4
THTR 1101	Introduction to Theatre	

MUSC 1001	Music in Everyday Life	
MUSI 1230	Introduction to Music Industry

COMM 1511	Communication and Storytelling	
THTR 2300	Classics of Global Theatre	
THTR 2315	Rebels of Modern Drama	
THTR 2320	Classics of 20th-Century American Drama	

THTR 2325	From Script to Stage
THTR 2335	Boston Theatre Experience
THTR 2500	Breaking the Glass Ceiling: Women in Theatre
THTR 3100	Creative Storytelling for Social Engagement
THTR 3200	Queer Theatre and Performance
MSCR 3389	Screenwriting
THTR 3300	Devised Theatre Project: Collaborative Performance

### GPA Requirement

2.000 GPA required in the minor

### Theatre, Minor

Theatre minors select a dynamic artistic path that uniquely matches their personal interests in areas such as acting, stage design, technical production, and dramatic literature, whether for career exploration or creative expression. Minors are active participants in department productions who develop the foundational techniques and collaborative skills to make imaginative, innovative theatre.

### Minor Requirements

Complete all courses listed below unless otherwise indicated.

*Note:* No student may receive a theatre minor as a result of external transfer credit only.

### Required Course

Code	Title	Hours
THTR 1101	Introduction to Theatre	4

### Foundational Courses

Code	Title	Hours
Complete one of the following:		4
THTR 1130	Introduction to Acting	
THTR 1131	Technical Theatre 1	
THTR 1270	Introduction to Theatrical Design	
THTR 2325	From Script to Stage	

### Electives

Code	Title	Hours
Choose two courses from the following options (prerequisites may apply):		8
THTR 1125	Improvisation	
THTR 1130	Introduction to Acting	
THTR 1131	Technical Theatre 1	
THTR 1160	The Professional Voice

### Making Theatre

Code	Title	Hours
Participate in a theatre department production:		
THTR 1100	Production Experience 1	1

### GPA Requirement

2.000 GPA required in the minor

### Theatre, Performance, and Social Change, Minor

The theatre, performance, and social change minor helps to prepare students for the challenges of world citizenship by developing competencies in theoretical, historical, and contextual knowledge alongside the technical skills to express their understanding of diverse social issues by making narratives, theatre, and performances. The minor's selected courses focus on enlarging students' ability to identify social problems; explore social movements; and make sensitive, ethical, and artistic choices in performance creation. In addition, students are encouraged to think strategically about the material realities of creating performance for social change.

### Minor Requirements

Complete all courses listed below unless otherwise indicated.

*Note:* No student may receive a theatre minor as a result of external transfer credit only.

### Foundational Courses

Code	Title	Hours
THTR 1215	Activism and Performance	4
THTR 2340	Theatre and Society	4

### Theatrical Interventions in Social Issues

or SOCL 3100	Gender, Social Justice, and Transnational Activism	
or WMNS 3100	Gender, Social Justice, and Transnational Activism	

## GPA Requirement

2.00 GPA required in the minor

## Theatrical Design, Minor

This minor is intended for students with an interest in design as the collaborative art of transforming ideas into images that support live performance; design as an expression of human experience; design as a method of inquiry and problem solving. It encourages interdisciplinary learning by connecting the study of theatre with studio art, visual communication, design thinking, spatial design, and visual storytelling.

The theatrical design minor combines courses from the Department of Theatre with additional choices from the Department of Art + Design, the Department of Music, and the School of Architecture.

## Minor Requirements

Complete all courses listed below unless otherwise indicated.

### Foundational Requirements

Code	Title	Hours
THTR 1100	Production Experience 1	1
THTR 1270	Introduction to Theatrical Design	4

### Design Area

Code	Title	Hours
Complete two of the following:		8
THTR 1131	Technical Theatre 1	
THTR 2370	Lighting Design	
THTR 2380	Costume Design	
THTR 2400	Scenic Design	
MUST 2320	Sound Design	

## Interdisciplinary Elective

Code	Title	Hours
Complete one of the following:		4
ARTG 1250	Design Process Context and Systems	
ARCH 1450	Understanding Design	
ARTG 3462	Experience Design 1	
THTR 1131	Technical Theatre 1	
THTR 2370	Lighting Design	
THTR 2380	Costume Design	
THTR 2400	Scenic Design	
MUST 2320	Sound Design	

## GPA Requirement

2.000 GPA required in the minor

## Interdisciplinary

## Minors

- Creativity in Theory and Practice (p. 259)

## Creativity in Theory and Practice, Minor

The Minor in Creativity in Theory and Practice offers students the opportunity to get inside the mindset of creativity from a variety of angles and develop perspectives that foster persistently creative habits of mind and practice—as one of the most important ways of thinking valued for innovative work across all fields and disciplines.

The minor is built around three carefully crafted core courses that introduce design thinking and expression, the ethics of creative practice, and the science of creativity. Students will have the opportunity to put those theories and concepts into practice with a broad selection of "making" electives across a variety of disciplines.

This minor is intended to enhance all disciplines across the university, from art, design, and communication to business, engineering, computer science, and more.

## Minor Requirements

Note: Students must complete a minimum of three courses exclusive to this minor beyond the courses required for the student's declared major(s) and additional minor(s).

## Required Courses

Code	Title	Hours
INAM 1450	Understanding Design	4
INAM 2000	Ethics in Creativity	4
INAM 3200	Creative Cognition	4

## Creativity in Making Elective

Code	Title	Hours
Complete one of the following (students may also petition to take an alternative making course):		4
ARCH 1110	Fundamental Architectural Representation	
ARCH 1120	Fundamental Architectural Design	
ARCH 2345	Contemporary Architecture	
ARCH 3352	Architecture Topics Abroad: Drawing	

ARTD 2360	Introduction to Photography
ARTF 1120	Observational Drawing
ARTF 1122	Color and Composition
ARTG 1250	Design Process Context and Systems
ARTS 2340	Painting Basics
COMM 1450	Sound Production for Digital Media
COMM 2550	Television Field Production
COMM 2655	Television Studio Production
COMM 3655	Digital Editing for TV
GAME 1110	Games and Society
JRNL 2301	Visual Storytelling in Journalism
JRNL 3370	Podcast and Radio Journalism
JRNL 5310	Photojournalism
JRNL 5311	Design for Storytelling
LARC 2430	Plants, People, and Landscape Change
LARC 2440	Planting Design
MSCR 1230	Introduction to Film Production
MUSC 2150	Making a Musical: Analysis, Craft, and Creation
MUSC 2208	Jazz Improvisation
MUSC 2209	Conducting
MUSC 2210	Introduction to Songwriting
MUST 1301	Introduction to Composition
MUST 2320	Sound Design
THTR 1125	Improvisation
THTR 1130	Introduction to Acting
THTR 1160	The Professional Voice
THTR 1270	Introduction to Theatrical Design
THTR 2330	Playwriting
THTR 2346	Viewpoints

The following courses have prerequisites but may be taken with permission of the instructor:

JRNL 5314	Video News Reporting and Producing
THTR 2342	Acting 2
THTR 2345	Acting for the Camera
THTR 3300	Devised Theatre Project: Collaborative Performance
THTR 3400	Designing Combat for the Stage
THTR 3450	Acting 3

### Accelerated Bachelor/Graduate Degree Programs

The College of Arts, Media and Design offers a number of bachelor's/graduate degree programs that allow students to accelerate the attainment of the graduate degree by applying graduate credits taken as an undergraduate toward both the undergraduate and graduate degrees. Degrees are earned sequentially, with the bachelor's degree attainment followed by coursework to complete the graduate degree. See additional information on accelerated bachelor/graduate degree programs (<https://registrar.northeastern.edu/article/plusone-program-accelerated-bachelorgraduate-degree-programs/>).

### D'Amore-McKim School of Business

Website (<http://www.damore-mckim.neu.edu>)

**Emery A. Trahan, PhD**, Interim Dean

**Jeffery A. Born, PhD**, Associate Dean of Undergraduate Programs

*Undergraduate Office*  
617.373.3270  
617.373.4804 (fax)

Northeastern University's D'Amore-McKim School of Business enables students to develop the skills needed to lead in today's technologically driven business world. We deliver a curriculum that combines knowledge in technology and data analytics with uniquely human skills, such as critical thinking, creativity, and an entrepreneurial mindset.

Bringing all of that together is Northeastern's experience-powered approach to education. Students build their own personal brands as they explore a vast array of real-world experiences on their paths to graduation, including global immersion, undergraduate research, service-learning projects, interdisciplinary courses, and our signature co-op program.

Our expert faculty members have a deep understanding of business theory, which they apply to both their research and teaching; many also consult and partner with the corporate world. They're plugged into industry trends and will challenge and inspire you. Dedicated academic advisors and co-op coordinators are on hand every step of the way to help students make decisions throughout their academic and professional careers.

The school offers Bachelor of Science degrees in:

- Business Administration
- International Business
- Combined Majors—see Combined Majors section

For each degree program students must choose one of the concentrations listed below:

- Accounting
- Brand Management
- Business Analytics
- Corporate Innovation and Venture
- Entrepreneurial Startups
- Family Business
- Finance
- Fintech
- Healthcare Management and Consulting
- International Business (available only as a second concentration)
- Management
- Management Information Systems
- Marketing
- Marketing Analytics
- Social Innovation and Entrepreneurship
- Supply Chain Management

The business curriculum is enhanced by courses in the sciences, humanities, and social sciences. In addition to their academic courses, all students are required to complete a cooperative education plan.

Cooperative education, or co-op, is experiential learning and deliberately integrates and blends the application of theory into practice. During co-op students apply knowledge learned in a class setting in a professional

work environment, which stimulates inquiry and discussion when students return to class. By engaging in co-op experiences, students develop increased self-awareness, a sense of purpose, and define career aspirations to impact postgraduate employment opportunities and lifelong learning. Eligible students are permitted to complete one full-time (32-plus hours per week) co-op experience OR one part-time (16-31.99 hours per week) co-op experience together with 6-plus credits of academic coursework during an approved co-op cycle. Eligibility for co-op is based upon a variety of factors and is integrated into a student's academic plan.

The undergraduate program of the D'Amore-McKim School of Business meets the standards of AACSB International—The Association to Advance Collegiate Schools of Business—for faculty and student quality, curriculum design, and overall university support.

After graduation, students may obtain jobs in all aspects of business, both domestically and internationally, as well as in nonprofits and government.

### Academic Progression Standards

In addition to meeting the university progression standards, students must achieve a 2.000 grade-point average (GPA) in business courses.

Freshmen must complete at least 32 semester hours (SH) in order to progress to sophomore status. Freshmen who earn fewer than 32 SH must make up the difference prior to graduation. Students beyond the freshman year must complete at least 16 SH each in-school (not on co-op) full semester and 8 SH each in-school summer half semester in order to progress to the next class standing.

Students who do not meet academic progression standards will be placed on academic probation and may be subject to dismissal from the university.

### Pass/Fail Option

D'Amore-McKim School of Business students may opt to take courses on a pass/fail basis in accordance with university policy but should be aware that this policy applies to nonbusiness courses that will count as open electives only. Business courses may not be taken pass/fail under any circumstance.

### Taking Courses While on Co-op

Students may take a maximum of one class either online or in-person while on co-op during the fall, spring, or summer term. Course participation should not interfere with the student's work performance on co-op. It is the D'Amore-McKim School of Business policy that, with prior approval of their co-op coordinator and academic advisor, a student may register for a maximum of two courses or 8 credits while on co-op.

### External Transfer to the D'Amore-McKim School of Business

External transfer students are accepted from other academic institutions during the fall and spring terms. Applications and accompanying materials are submitted directly to the Office of Undergraduate Admissions.

The D'Amore-McKim School of Business at Northeastern University is accredited by AACSB International—The Association to Advance Collegiate Schools of Business—and as such complies with the following regulations governing the transferring of credit:

#### COURSES FROM AN AACSB-ACCREDITED INSTITUTION

Students may transfer a maximum of 80 SH of credit. A combination of 60 SH of nonbusiness courses and/or 28 SH of business courses

will be accepted; 64 SH may be applied as credits toward the minimum 128 SH required for degree conferral.

#### COURSES FROM A NON-AACSB-ACCREDITED INSTITUTION

Students may transfer a maximum of 60 SH of credit. A combination of 52 SH of nonbusiness courses and/or 20 SH of business courses will be accepted.

Some courses are not eligible for transfer. Check with the Office of Undergraduate Admissions for more details.

### Graduation Requirements

The school reserves the right to amend programs, courses, and degree requirements to fulfill its educational responsibility to respond to relevant changes in the field.

Bachelor of Science degree candidates must complete all prescribed work of the curriculum in which they seek to qualify, currently 128 SH. The degree not only represents the formal completion of selected courses but also indicates professional study in the major or concentration. A GPA of 2.000 and a C average in all business courses are required for graduation.

## Bachelor of Science in Business Administration, BSBA

The Bachelor of Science in Business Administration (BSBA) program integrates the theory and practice of management through active learning, problem-driven research, corporate partnerships, and experiential assignments. Students will foster a global and entrepreneurial spirit while honing their technical skills, analytical abilities, and creative and strategic thinking. They have opportunities to define an interdisciplinary academic path through combined majors,

concentrations, and minors inside and outside of the business school. Students are expected to take part in the cooperative education program, where they participate in paid work placements related to their field of study. The BSBA degree can be accomplished in four or five years.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

NUPath requirements Differences and Diversity (DD), Creative Expression and Innovation (EI), and Natural and Designed World (ND) are not explicitly satisfied by required courses in the business curriculum at this time. Students are responsible for satisfying these requirements, and if these are not fulfilled in required major courses, they should use general electives to do so.

**International Business, BSIB**

The Bachelor of Science in International Business (BSIB) program is designed to prepare students to be successful managers in an evolving global economy. They develop the skills and knowledge needed to work across cultures and differing business practices, both virtually and face-to-face. Program curriculum examines how a global environment impacts a student's chosen concentration.

Knowledge about other cultures and practices is best learned on location and experientially. BSIB students are expected to complete at least two semesters of study and/or cooperative education placements in a country other than where they grew up. Students can begin meeting this eligibility through a semester overseas in the N.U.in program. Students are encouraged to become proficient in a second language.

Upon graduation, students are able to make an impact from day one at companies that are engaged in business internationally. Graduates can also work in their home country for a company that operates internationally as well as overseas on a foreign assignment.

The BSIB program can be completed in four or five years, depending on the program of study. During the optional fifth year, the program offers the opportunity to earn a Master of Science in International Management, a Master of Science in Finance, or a Master of Science in Accounting through the PlusOne option.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Differences and Diversity (DD), Natural and Designed World (ND), and Formal and Quantitative Reasoning (FQ) are not explicitly satisfied by required courses in the business curriculum at this time. Students are responsible for satisfying these requirements, and if these are not fulfilled in required major courses, they should use general electives to do so.

### Business Core

Code	Title	Hours
ACCT 1201	Financial Accounting and Reporting	4

BUSN 1103	Professional Development for Business Co-op	1

### Business Cooperative Education

Complete one cooperative education experience.

### Business GPA Requirement

A minimum 2.000 GPA in business courses is required.

### Program Requirement

128 total semester hours required

### Plan of Study

#### Four-Year Program: Year Three Abroad with Two Co-ops

Note: Individual study plans will be created with an academic advisor and may vary based on the student's goals. Plan below is a sample only.

- Additional courses may be required in place of open electives. Electives may be moved or used to fulfill language classes.
- Finance concentration requires Managerial Accounting (ACCT 2301) and Principles of Macroeconomics (ECON 1115) to fulfill prerequisites. Accounting concentration requires Managerial Accounting (ACCT 2301) as a prerequisite. Supply chain management requires Supply Chain and Operations Management (SCHM 2301) as a prerequisite. Management information systems requires Management Information Systems (MISM 2301) as a prerequisite.

## Exchange Students

The Bachelor of Science in International Business (BSIB) program is designed to prepare students to be successful managers in an evolving global economy. They develop the skills and knowledge needed to work across cultures and differing business practices, both virtually and face-to-face. Program curriculum examines how a global environment impacts a student's chosen concentration.

Degree-earning exchange students must successfully complete their first two academic years at their home institution and must take part in a cooperative education placement before transferring to Northeastern University. The total program of study must meet the BSIB degree requirements as listed in this catalog for D'Amore-McKim School of Business students.

Upon graduation, students are able to make an impact from day one at companies that are engaged in business internationally. Graduates can also work in their home country for a company that operates internationally as well as overseas on a foreign assignment.

The BSIB program offers the opportunity to earn a Master of Science in International Management, a Master of Science in Finance, or a Master of Science in Accounting through the PlusOne option.

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses

where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Differences and Diversity (DD), Natural and Designed World (ND), and Formal and Quantitative Reasoning (FQ) are not explicitly satisfied by required courses in the business curriculum at this time. Students are responsible for satisfying these requirements, and if these are not fulfilled in required major courses, they should use general electives to do so.

## Business Cooperative Education

Complete one cooperative education experience.

## Business GPA Requirement

A minimum 2.000 GPA in business courses is required.

## Program Requirement

128 total semester hours required

### Combined Majors

- Business Administration and Communication Studies, BS (p. 167)
- Business Administration and Design, BS (p. 91)
- Business Administration and Psychology, BS (p. 270)
- Computer Science and Business Administration, BS (p. 271)
- Cybersecurity and Business Administration, BS (p. 274)
- Data Science and Business Administration, BS (p. 277)
- Economics and Business Administration, BS (p. 279)
- Health Science and Business Administration, BS (p. 281)
- International Affairs and International Business, BS (p. 283)
- Mathematics and Business Administration, BS (p. 285)
- Political Science and Business Administration, BS (p. 287)

### Business Administration and Communication Studies, BS

The combined major between business administration and communication studies provides students with a robust overview of business and communication studies. This combined major seeks to prepare students for career opportunities in growing industry markets such as public relations, marketing communications, and digital media.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

## Business Core Requirements

## Business Administration and Design, BS

The combined major in business administration and design integrates fundamental design courses with the theory and practice of management through active learning, problem-driven research, corporate partnerships, and experiential assignments. The BS degree can be accomplished using the five-year co-op plan.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Business Core Requirements

Code	Title	Hours
<b>Introduction to College</b>		
BUSN 1102	Personal Skill Development for Business	1
or ARTF 1000	Art and Design at Northeastern	

### Mathematics

Complete one of the following:		4
MATH 1231	Calculus for Business and Economics	
MATH 1241	Calculus 1	
MATH 1260	Math Fundamentals for Games	

### Macroeconomics and Microeconomics

ECON 1115	Principles of Macroeconomics	4
or ECON 1116	Principles of Microeconomics	

### Business Requirements

Code	Title	Hours
<b>Accounting</b>		
ACCT 1201	Financial Accounting and Reporting	4
<b>Business Statistics</b>

## Business Administration and Psychology, BS

This combined major educates students in business and psychology and the interface between the two disciplines. The scope and sequence of psychology courses provide students with a foundation in the interdisciplinary science of psychology, including statistics and research, social psychology, developmental psychology, cognition, and personality. Business courses provide a foundation in accounting, innovation, marketing, management, and organizational behavior, with the opportunity to concentrate in a specific area of business. Students completing this program should be able to understand the relationships between these fields that pertain to explaining and addressing human behavior and business practices.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Business Requirements

PSYC 4664	Seminar in Social Psychology
PSYC 4666	Seminar in Clinical Psychology
PSYC 4668	Seminar in Sensation and Perception
PSYC 4674	Seminar in Cognitive Neuroscience
PSYC 4676	Seminar in Developmental Psychology
PSYC 4678	Seminar in Social and Affective Neuroscience

**Required Lab**

Complete one of the following: 4

PSYC 4600	Laboratory in Research Design
PSYC 4606	Laboratory in Biological Psychology
PSYC 4610	Laboratory in Psycholinguistics
PSYC 4612	Laboratory in Cognition
PSYC 4614	Laboratory in Social Psychology
PSYC 4616	Laboratory in Personality
PSYC 4622	Laboratory in Sensation and Perception
PSYC 4624	Laboratory in Affective Science
PSYC 4626	Laboratory in Life-Span Emotional Development
PSYC 4628	Laboratory in Developmental Psychology

**Psychology Electives**

Complete two PSYC courses not used to fulfill the requirements above: 8

PSYC 1001 to PSYC 5999

**Supporting Courses**

Code	Title	Hours
<b>Introduction to College</b>		
BUSN 1102	Personal Skill Development for Business	1
or PSYC 1000	Psychology at Northeastern	

**Co-op Preparation**

Complete one of the following: 1

BUSN 1103	Professional Development for Business Co-op
or EESC 2000	Professional Development for Co-op

**Integrative Course**

Code	Title	Hours
ORGB 3201	Organizational Behavior	4

**Business GPA Requirement**

A minimum 2.000 GPA in business courses is required.

**Psychology GPA Requirement**

A minimum 2.000 GPA in psychology courses is required.

**Business Cooperative Education Requirement**

Complete one six-month co-op experience.

**Program Requirement**

128 total semester hours required

**Computer Science and Business Administration, BS**

The computer science and business combined major delivers a technical degree with a strong grounding in business. Students will complete most of the requirements of a business major, including macroeconomics and microeconomics, while also focusing on technical skills like program design, software development, computer organization, systems and networks, theories of computation, principles of languages, and advanced algorithms and data.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Computer Science Courses**

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4
Complete two of the following: 8		
CS 3650	Computer Systems	
CS 3700	Networks and Distributed Systems	
DS 3000	Foundations of Data Science	
DS 4200	Information Presentation and Visualization	
DS 4300	Large-Scale Information Storage and Retrieval	

**Khoury Elective**

With advisor approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete four credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges: 4

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

## Business Courses

Code	Title	Hours
<b>Required Business Courses</b>		
ACCT 1201	Financial Accounting and Reporting	4
ACCT 2301	Managerial Accounting	4
FINA 2201	Financial Management	4
ORGB 3201	Organizational Behavior	4
MKTG 2201	Introduction to Marketing	4
MGSC 2301	Business Statistics	4
STRT 4501	Strategy in Action	4

## Business Concentration

Complete a four-course business concentration from the following list.

- Accounting (p. 290)
- Brand Management (p. 290)
- Business Analytics (p. 291)
- Corporate Innovation and Venture (p. 291)
- Entrepreneurial Startups (p. 291)
- Family Business (p. 292)
- Finance (p. 292)
- Fintech (p. 293)
- Healthcare Management and Consulting (p. 293)
- International Business (p. 294) (available only as a second concentration)
- Management (p. 294)
- Marketing (p. 295)
- Marketing Analytics (p. 296)
- Social Innovation and Entrepreneurship (p. 296)
- Supply Chain Management (p. 297)

## Integrative Course

Code	Title	Hours
<b>Information Resource Management</b>		
MISM 2301	Management Information Systems	4

## Supporting Courses

Code	Title	Hours
<b>Mathematics</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
or MATH 1231	Calculus for Business and Economics	
<b>Economics</b>		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
<b>Computing and Social Issues</b>		
Complete one of the following:		4

AFAM 2600	Issues in Race, Science, and Technology
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights
ENGL 2150	Literature and Digital Diversity
HIST 2220	History of Technology
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks
IS 1300	Knowledge in a Digital World
or PHIL 1300	Knowledge in a Digital World
PHIL 1145	Technology and Human Values
SOCL 1280	The Twenty-First-Century Workplace
SOCL 2485	Environment, Technology, and Society
SOCL 4528	Computers and Society

## Computer Science Writing Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
<b>Advanced Writing in the Disciplines</b>		
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

## Required General Electives

Code	Title	Hours
Complete 16 credits of general electives.		16

## Business Cooperative Education Requirement

Complete one six-month co-op experience.

## Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

## Business GPA Requirement

Minimum 2.000 GPA required in business courses

## NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Understanding Societies and Institutions
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

**Program Requirement**

## Cybersecurity and Business Administration, BS

The cybersecurity and business combined major delivers a technical and security-focused degree with a strong grounding in business. Students will complete most of the requirements of a business major, including macroeconomics and microeconomics, while also focusing on the conceptual and practical computer science skills that will enable them to contribute to ensuring the reliability and security of cyberspace.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Cybersecurity Major Requirements

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5

## Data Science and Business Administration, BS

The data science and business combined major integrates a technical degree with the theory and practice of management through active learning, problem-driven research, corporate partnerships, and experiential assignments. Students study the collection, manipulation, storage, retrieval, and computational analysis of data in its various forms, including numeric, textual, image, and video data from small to large volumes. This program reflects the impact of data in modern business practice.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1

#### Programming Sequence Pathways

Choose one of the two options. 12

##### Computer Science Option

CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	

##### Data Science Option

DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
DS 2500 and DS 2501	Intermediate Programming with Data and Lab for DS 2500	
DS 3500	Advanced Programming with Data	

##### Computer Science Required Courses

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 3200	Database Design	4

##### Data Science Foundations

DS 3000	Foundations of Data Science	4
DS 4200	Information Presentation and Visualization	4
DS 4300	Large-Scale Information Storage and Retrieval	4
DS 4400	Machine Learning and Data Mining 1	4
DS 4420	Machine Learning and Data Mining 2	4

##### Khoury Elective

With advisor approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete four credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges: 4

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

### Business Courses

Code	Title	Hours
<b>Required Business Courses</b>		
ACCT 1201	Financial Accounting and Reporting	4

## Economics and Business Administration, BS

Economics and business administration is our most popular combined major, integrating the underlying economic theories and models and their business applications. After satisfying the core courses in economics, there are over 40 electives from which to choose to complete this combined major.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Economics Requirements

Code	Title	Hours
<b>Introduction to College</b>		
ECON 1000	Economics at Northeastern	1
or BUSN 1102	Personal Skill Development for Business	
<b>Required Economics Courses</b>		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
or MGSC 2301	Business Statistics	
ECON 2560	Applied Econometrics	4

## Economics Electives

Complete four courses that are found in the following ranges, with no more than one at the introductory (1000) level:

ECON 1200 to ECON 1999
ECON 3000 to ECON 4689
ECON 4900 to ECON 4999
ECON 5200 to ECON 5999

### Business Requirements

Code	Title	Hours
<b>Accounting</b>		
ACCT 1201	Financial Accounting and Reporting	4
ACCT 2301	Managerial Accounting	4
<b>Finance</b>		
FINA 2201	Financial Management	4
<b>Marketing</b>		
MKTG 2201	Introduction to Marketing	4
<b>Organizational Behavior</b>		
ORGB 3201	Organizational Behavior	4
<b>International Business/Social Responsibility</b>		
INTB 1203	International Business and Global Social Responsibility	4

### Business Concentration

Complete one of the following business concentrations:

- Accounting (p. 290)
- Brand Management (p. 290)
- Business Analytics (p. 291)
- Corporate Innovation and Venture (p. 291)
- Entrepreneurial Startups (p. 291)
- Family Business (p. 292)
- Finance (p. 292)
- Fintech (p. 293)
- Healthcare Management and Consulting (p. 293)
- International Business (p. 294) (available only as a second concentration)
- Management (p. 294)
- Management Information Systems (p. 295)
- Marketing (p. 295)
- Marketing Analytics (p. 296)
- Social Innovation and Entrepreneurship (p. 296)
- Supply Chain Management (p. 297)

### Business Cooperative Education Requirement

Complete one six-month co-op experience.

### Supporting Courses

Code	Title	Hours
<b>Mathematics</b>		
MATH 1231	Calculus for Business and Economics	4
or MATH 1241	Calculus 1	
or MATH 1245	Calculus with Applications	
or MATH 1251	Calculus and Differential Equations for Biology 1	
or MATH 1340	Intensive Calculus for Engineers	
or MATH 1341	Calculus 1 for Science and Engineering	
<b>Computer Science</b>		
Complete one of the following: 4		
CS 1100	Computer Science and Its Applications	
DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
MISM 2510	Fundamentals of Information Analytics	
<b>Co-op Preparation</b>		

BUSN 1103	Professional Development for Business Co-op	1
or EESH 2000	Professional Development for Co-op	
<b>Capstone Requirement</b>		
ECON 4692	Senior Economics Seminar	4
STRT 4501	Strategy in Action	4

### Economics GPA Requirement

Grades in the following four economics courses must average to a minimum of C (2.000):

Code	Title	Hours
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
or MGSC 2301	Business Statistics	
ECON 2560	Applied Econometrics	4

### Business GPA Requirement

Minimum 2.000 GPA required in business courses

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

128 total semester hours required

### Plan of Study

## Health Science and Business Administration, BS

The combined major in health science and business administration provides students at Northeastern with an opportunity to study a curriculum that is synergetic with the growing field of healthcare. This academic combination will provide students with the knowledge and expertise needed to enter a multitude of careers upon graduation. The degree will allow students the unique opportunity to better understand the business side of the healthcare industry in Massachusetts, which is home to some of the best hospitals and medical research companies in the country. The field is compatible with all the undergraduate concentrations in the School of Business and prepares students to enter the workforce after graduation.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Health Science Requirements

Code	Title	Hours
<b>Public Health Core</b>		
PHTH 1260 or PHTH 1261	The American Healthcare System Comparative Healthcare Systems	4
PHTH 2300	Communication Skills for the Health Professions	4

or PHTH 2301	Communication Skills for the Health Professions—Global	
PHTH 2350 or PHTH 2351	Community and Public Health Community and Public Health - Global	4
PHTH 2515	Healthcare Policy and Administration	4
PHTH 4120	Global Perspectives on Discrimination and Health	4
PHTH 4540	Health Education and Program Planning	4
HLTH 5450 or PHTH 4202	Healthcare Research Principles of Epidemiology in Medicine and Public Health	4

### Life Sciences Core

BIOL 1111 and BIOL 1112	General Biology 1 and Lab for BIOL 1111	5
BIOL 1113 and BIOL 1114	General Biology 2 and Lab for BIOL 1113	5
PSYC 1101	Foundations of Psychology	4
CHEM 1161 and CHEM 1162 and CHEM 1163	General Chemistry for Science Majors and Lab for CHEM 1161 and Recitation for CHEM 1161	5

### Business Administration Requirements

## International Affairs and International Business, BS

Students who pursue this combined major will have the opportunity to learn how international business practices influence and are influenced by state-society interactions such as labor rights, trade practices, climate and sustainability priorities, political implications, as well international institutions.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### International Affairs Requirements

Code	Title	Hours
<b>Introduction to College</b>		
Complete one of the following: 1		
INTL 1000	International Affairs at Northeastern	
or BUSN 1102	Personal Skill Development for Business	

### Required International Affairs Courses

A grade of C or higher is required for ECON courses.

Code	Title	Hours
ECON 1115	Principles of Macroeconomics	4
or ECON 1116	Principles of Microeconomics	
INTL 1101	Globalization and International Affairs	4
INTL 3400	International Conflict and Negotiation	4
INTL 4700	Senior Capstone Seminar in International Affairs	4

### International Experiential Learning

Complete one of the following:

One semester of study-abroad experience

One co-op abroad experience

Two Dialogue of Civilizations (summer programs)

Two summer traditional study-abroad experiences

One N.U.in experience and one Dialogue of Civilizations or one summer traditional study-abroad experience  
Two approved short-term programs abroad

### International Affairs Electives

Code	Title	Hours
Complete two of the following:		8

Code	Title	Hours
INTL 2240	Global Population and Development	
INTL 2480	Women and World Politics	
INTL 2500	Race and Global Human Mobility	
INTL 3200	Cities in a Global Context

## Second Business Concentration (Optional)

A second business concentration is optional and may be chosen from the following list.

- Accounting (p. 290)
- Brand Management (p. 290)
- Business Analytics (p. 291)
- Corporate Innovation and Venture (p. 291)
- Entrepreneurial Startups (p. 291)
- Family Business (p. 292)
- Finance (p. 292)
- Fintech (p. 293)
- Healthcare Management and Consulting (p. 293)
- Management (p. 294)
- Management Information Systems (p. 295)
- Marketing (p. 295)
- Marketing Analytics (p. 296)
- Social Innovation and Entrepreneurship (p. 296)
- Supply Chain Management (p. 297)

## Business Cooperative Education Requirement

Complete one six-month co-op experience.

## Business GPA Requirement

Minimum 2.000 GPA required in business courses

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirement

128 total semester hours required

## Plan of Study

The plan below is a sample. Students should consult with their academic adviser to confirm individual academic plans.

This program requires one of the following abroad options:

Semester-long student abroad experience; cooperative education abroad experience; two Dialogue of Civilizations (summer programs); two summer traditional study-abroad experiences; N.U.*in* experience combined with either Dialogue of Civilizations or traditional summer study-abroad experience.

## Mathematics and Business Administration, BS

A combined major combines two majors in a way that allows a student to fulfill all requirements within the standard 128 credits. For details, see program requirements.

Current students can also find details about combined majors and minors by going to their audit, clicking on "explore options," and finding the appropriate program. Students will be able to see a list of required courses and will be able to track their progress toward fulfilling them.

In the BS combined mathematics and business administration degree program, business and mathematics courses lay the groundwork for strong basic training in finance.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

## Mathematics Requirements

Code	Title	Hours
<b>Required Courses</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 1365	Introduction to Mathematical Reasoning	4
MATH 3081	Probability and Statistics	4
<b>Calculus and Linear Algebra (Required) and Differential Equations (Recommended)</b>		
Complete either Option 1 or Option 2 below:		8
<i>Option 1 (Recommended)</i>		
MATH 2321	Calculus 3 for Science and Engineering	
MATH 2341	Differential Equations and Linear Algebra for Engineering	
<i>Option 2</i>		
MATH 2321	Calculus 3 for Science and Engineering	
MATH 2331	Linear Algebra	
<b>Co-op Reflections</b>		
MATH 3000	Co-op and Experiential Learning Reflection Seminar 1	1
<b>Mathematics Electives</b>		
Complete three courses in the range MATH 3001 to MATH 5999. The following courses are recommended:		12
MATH 4681	Probability and Risks	
MATH 4682	Theory of Interest and Basics of Life Insurance 1	
MATH 4581	Statistics and Stochastic Processes	

## Business Requirements

Code	Title	Hours
<b>Accounting</b>		
ACCT 1201	Financial Accounting and Reporting	4
ACCT 2301	Managerial Accounting	4
<b>Finance</b>		
FINA 2201	Financial Management	4
<b>Marketing</b>		
MKTG 2201	Introduction to Marketing	4
<b>Organizational Behavior</b>		

ORGB 3201	Organizational Behavior	4
<b>International Business/Social Responsibility</b>		
INTB 1203	International Business and Global Social Responsibility	4
<b>Strategy in Action</b>		
STRT 4501	Strategy in Action	4

## Integrative Course

*Note:* Financial Risk Management (FINA 4512) also counts toward the finance concentration.

Code	Title	Hours
FINA 4512	Financial Risk Management	4

## Finance Concentration

Code	Title	Hours
<b>Finance Requirements</b>		
FINA 3301	Corporate Finance	4
FINA 3303	Investments	4
FINA 4512	Financial Risk Management	4
<b>Finance Elective</b>		
Complete one of the following:		4
ENTR 3520	Impact Investing and Social Finance	
or FINA 2720	Sustainability in the Business Environment	
FINA 4604	Fixed-Income Securities (Recommended)	
FINA 4310	Working Capital Management	
FINA 4312	Issues in Corporate Governance	
FINA 4320	International Financial Management	
FINA 4410	Valuation and Value Creation	
FINA 4412	Personal Financial Planning	
FINA 4420	Mergers and Acquisitions	
FINA 4514	Investment Banking	
FINA 4516	Real Estate Finance	
FINA 4526	Core Topics in Alternative Investments	
FINA 4602	Turnaround Management	
FINA 4604	Fixed-Income Securities	
FINA 4608	Advanced Financial Strategy	
FINA 4610	Entrepreneurial Finance and Private Equity	
FINA 4983	Special Topics in Finance	

## Second Business Concentration (Optional)

A second business concentration is optional and may be chosen from the following list.

- Accounting (p. 290)
- Brand Management (p. 290)
- Business Analytics (p. 291)
- Corporate Innovation and Venture (p. 291)
- Entrepreneurial Startups (p. 291)
- Family Business (p. 292)
- Healthcare Management and Consulting (p. 293)
- International Business (p. 294)
- Management (p. 294)
- Management Information Systems (p. 295)

- Marketing (p. 295)
- Marketing Analytics (p. 296)
- Social Innovation and Entrepreneurship (p. 296)
- Supply Chain Management (p. 297)

## Supplemental Courses

Code	Title	Hours
<b>Economics</b>		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
<b>Co-op Preparation</b>		
BUSN 1103	Professional Development for Business Co-op	1
or EESC 2000	Professional Development for Co-op	

## Business Cooperative Education Requirement

Complete one six-month co-op experience.

## Mathematics GPA Requirement

Minimum 2.000 GPA required in all mathematics courses

## Business GPA Requirement

Minimum 2.000 GPA required in business courses

## Program Requirement

128 total semester hours required

## Political Science and Business Administration, BS

The combined major in political science and business administration offers students the opportunity to integrate the study of politics and government with an analysis of business practices and organizations. Students complete core courses in political science along with core courses in business administration that cover accounting, finance, marketing, and organizational behavior. This combined major highlights the important intersection between business practices and the evolution of politics and government.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUPATH Requirements

All undergraduate students are required to complete the NUPATH Requirements (p. 46).

## Political Science Requirements

Code	Title	Hours
<b>Introduction to College</b>		
POLS 1000	Political Science at Northeastern	1
or BUSN 1102	Personal Skill Development for Business	
<b>Political Science Requirements</b>		
POLS 1150	American Government	4

POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
<b>Political Theory</b>		
Complete one of the following:		4
POLS 2330	American Political Thought	
POLS 2325	Ancient Philosophy and Political Thought	
POLS 2328	Modern Political Thought	
POLS 2332	Contemporary Political Thought	

## Statistics

POLS 2400	Quantitative Techniques	4
or MGSC 2301	Business Statistics	

## Political Science Electives

Complete four courses in the following range, or complete a political science concentration as outlined below:

POLS 2000 to POLS 5999

## Political Science Concentrations (Optional)

If you are working toward one of the following concentrations, declare it with your advisor so that it may be added to your record:

- American Political Institutions (p. 288)
- Campaigns and Elections (p. 288)
- Comparative Politics (p. 288)
- Identity, Culture, and Politics (p. 288)
- International Relations and Diplomacy (p. 289)
- Law and Legal Studies (p. 289)
- Public Policy (p. 289)
- Security Studies (p. 289)

## Business Requirements

Code	Title	Hours
<b>Accounting</b>		
ACCT 1201	Financial Accounting and Reporting	4
ACCT 2301	Managerial Accounting	4
<b>Finance</b>		
FINA 2201	Financial Management	4
<b>Marketing</b>		
MKTG 2201	Introduction to Marketing	4
<b>Organizational Behavior</b>		
ORGB 3201	Organizational Behavior	4

## Business Concentration

Complete one of the following business concentrations:

- Accounting (p. 290)
- Brand Management (p. 290)
- Business Analytics (p. 291)
- Corporate Innovation and Venture (p. 291)
- Entrepreneurial Startups (p. 291)
- Family Business (p. 292)
- Finance (p. 292)
- Fintech (p. 293)
- Healthcare Management and Consulting (p. 293)
- International Business (p. 294) (available only as a second concentration)

- Management (p. 294)
- Management Information Systems (p. 295)
- Marketing (p. 295)
- Marketing Analytics (p. 296)
- Social Innovation and Entrepreneurship (p. 296)
- Supply Chain Management (p. 297)

- Marketing (p. 295)
- Marketing Analytics (p. 296)
- Social Innovation and Entrepreneurship (p. 296)
- Supply Chain Management (p. 297)

## Accounting

A concentration in accounting aims to prepare the graduate for entry into public accounting or private industry in a highly valued career. Accounting is a dynamic profession that requires people to possess sound technical knowledge, critical thinking skills, superior interpersonal skills, and the ability to communicate effectively. Accountants hold senior management positions in private companies in business or industry, public accounting firms, and government agencies.

To prepare for an accounting career, students take courses in financial reporting, managerial accounting, and intermediate accounting, with additional elective courses available for more specialized studies in strategic cost analysis, auditing and other assurance services, income tax planning, and advisory services and emerging accounting systems. Students wishing to sit for the CPA exam may combine the BSBA with a concentration in accounting with the Master of Science in Accounting (five-year BSBA/MSA program).

### Concentration Requirements

#### CONCENTRATION IN ACCOUNTING

Code	Title	Hours
<b>Required Courses</b>		
ACCT 3401	Financial Reporting and Analysis 1	4
ACCT 4501	Financial Reporting and Analysis 2	4
<b>Electives</b>		
Complete two of the following:		8
ACCT 3403	Advisory Services and Emerging Accounting Systems	
ACCT 3416	Strategic Cost Analysis for Decision Making	
ACCT 4412	Auditing and Other Assurance Services	
ACCT 4414	Income Tax Determination and Planning	

## Brand Management

### Overview

Think about some of your favorite brands—chances are, there is a high-powered brand manager working behind the scenes to ensure the brand resonates with you, one of its target consumers. Brand managers oversee the integrity of a brand across all marketing activities in tech, consumer packaged goods (CPG), and service industries. The position of brand manager requires strategic thinking, focus on the customer experience, communication with multiple stakeholders and cross-functional teams, creativity, and analytical skills. Brand managers are creative, organized multitaskers who often serve as the liaison between the marketing group, design team, and engineers to oversee the consistency of the brand image. While every day is different, typical activities of a brand manager include conducting and analyzing research to identify brand opportunities, understanding market trends and competitive landscape, creating and maintaining brand marketing budget, managing cross-platform brand communication strategy, developing the brand story, executing marketing and advertising campaigns, and overseeing the overall health of a brand. When managing a brand's products or services in a tech firm, brand and product managers may also be involved in ideation, prototyping, user experience (UX) testing, and business casing. This concentration offers the opportunity to learn these skills across coursework in marketing, consumer behavior, advertising, new product development, marketing analytics, project management, demand planning and forecasting, and product innovation. As such, the core brand management course paired with a flexible, yet focused list of electives supports students in the aspects of brand management that are most relevant for their future career prospects.

### Concentration Requirements

#### CONCENTRATION IN BRAND MANAGEMENT

Code	Title	Hours
<b>Required Course</b>		
MKTG 3720	Brand Management	4
<b>Electives</b>		
Complete three electives, with at least 8 credits from MKTG courses:		12
MKTG 2720	Enabling Technologies for Consumer Engagement	
MKTG 3401 or MKTG 3402	Marketing Research Gaining Insights from Consumer Data	
MKTG 4502	Managing Customer Engagement in a Service World	
MKTG 4504	Advertising and Brand Promotion	
MKTG 4506	Consumer Behavior	
MKTG 4510 or ENTR 3330 or ENTR 3335	New Product Development Lean Design and Rapid Prototyping Product Innovation and Portfolio Management	
MKTG 4720	Understanding the Platform Economy	
ENTR 2301	Innovation!	
MGMT 3530	Project Management	
SCHM 3320	Forecasting and Sales Operations Planning	

A maximum of one course may be applied to requirements of a second concentration.

## Business Analytics

### Overview

Organizations can make smarter decisions when they effectively harness the power of data. The business analytics concentration is designed to provide students with the analytical skills, techniques, and perspectives required to understand, analyze, and interpret datasets of various sizes and content. This knowledge and skill set can be used to help companies improve decision making in increasingly complex and interconnected business environments and create measurable improvements in business performance.

This concentration offers courses that cover the fundamentals of data analysis and management; information visualization; and descriptive, predictive, and prescriptive analytic techniques. These techniques are often based on artificial intelligence, machine learning, and data mining. Courses are grounded in relevant theory and principles but also explore how to apply these concepts to investigate realistic datasets by using a variety of innovative computational tools and programming languages. These may include Python, R, SQL, and Tableau. Students have the opportunity to develop technical and problem-solving skills that are in high demand by employers and to apply those skills through both classroom activities and co-ops focused on business analytics.

Analytics can be employed in many different parts of an organization. Therefore, students are encouraged to consider completing a dual concentration in business analytics and another area. Graduates of this program have a wide range of career paths to suit their interests. Professional options include business or information analyst, consultant, and project manager. Graduates may also become specialists within a specific department or functional area, such as financial services, accounting, marketing, or manufacturing.

### Concentration Requirements

#### CONCENTRATION IN BUSINESS ANALYTICS

Code	Title	Hours
Only one course may double count between another concentration or minor.		
<b>Required Courses</b>		
MISM 2510	Fundamentals of Information Analytics	4
MISM 3403 or MISM 3405	Data Management in the Enterprise Data Wrangling for Business Analytics	4
MISM 3501	Information Visualization for Business	4
<b>Elective</b>		
Complete one of the following:		4
MISM 3515	Data Mining for Business	
MISM 3525	Modeling for Business Analytics	
MISM 4983	Special Topics in Management Information Systems	

## Corporate Innovation and Venture

Corporate innovation is a series of processes by which established companies promote, design, and pursue innovation opportunities that can result in new products, services, and/or business models. It entails R&D activities, product development, internal venture accelerators, acquisitions, and alliances. Innovation is the most powerful competitive weapon for a corporation that wants to ensure growth and relevance over time.

The corporate innovation and venture concentration is designed to prepare students to develop new businesses, products, services, or processes inside of an existing organization to create value and generate new revenue growth through entrepreneurial thought and action. A concentration in corporate innovation and venture will develop students to be agents of change and renewal within established companies, aspiring to leading roles in areas such as product development, new business research, and innovation-related projects. This concentration targets students with co-op aspirations that involve positions within corporations such as entry-level product line management, project management, consulting, and new product and service development.

### Concentration Requirements

#### CONCENTRATION IN CORPORATE INNOVATION AND VENTURE

Code	Title	Hours
<b>Required Courses</b>		
ENTR 2301	Innovation!	4
ENTR 4504	Advanced Studies in Corporate Innovation	4
<b>Electives</b>		
Complete two electives, one of which may come from the additional elective list:		8
ENTR 2304	Industry Disruption and Corporate Transformation	
ENTR 3335	Product Innovation and Portfolio Management	
ENTR 4225	Growth, Acquisitions, and Alliances	
<i>Additional Electives</i>		
ENTR 2206	Global Social Enterprise	
ENTR 2215	Understanding Family Enterprise	
ENTR 2303	Marketing Strategies for Startups	
ENTR 4983	Special Topics in Entrepreneurship	
ENTR 4505	Entrepreneurial Growth Strategy for Technology Ventures	
FINA 4610	Entrepreneurial Finance and Private Equity	
MGMT 3302	Negotiating in Business	
MGMT 3340	Healthcare Management, Innovation, and Design	
MGMT 3530	Project Management	
STRT 4301	Strategic Analysis and Decision Making	
One course from an approved Dialogue may count toward a concentration elective.		

## Entrepreneurial Startups

A startup is a young company founded by one or more entrepreneurs in order to develop a product or service and bring it to market. Startups can be technology intensive with novel products or use existing technologies to create new variations or combinations. The entrepreneurial startups concentration is designed to prepare students from any background or area of study with the perspective, knowledge, and skills necessary to conceptualize, launch, manage, and grow a new business. It will also equip them with an understanding of the advantages and challenges of a startup they may work for. Students have an opportunity to learn to shape entrepreneurial opportunities, assess feasibility, raise funds, and develop other skills needed to open, manage, and grow a new business venture. Students are exposed to innovation, marketing, and business modeling as they work in interdisciplinary teams to develop business plans. This

concentration seeks students with career aspirations that involve starting a new venture or working in a startup.

## Concentration Requirements

### CONCENTRATION IN ENTREPRENEURIAL STARTUPS

Code	Title	Hours
<b>Required Courses</b>		
ENTR 2301	Innovation!	4
ENTR 4501	Advanced Studies in Entrepreneurial Startups	4

#### Electives

Complete two electives, one of which may come from the Additional Electives list: 8

ENTR 2303	Marketing Strategies for Startups	
ENTR 3305	Business Model Innovation for Entrepreneurs	
ENTR 3330	Lean Design and Rapid Prototyping	
<i>Additional Electives</i>		
ENTR 2206	Global Social Enterprise	
ENTR 2215	Understanding Family Enterprise	
ENTR 2304	Industry Disruption and Corporate Transformation	
ENTR 4983	Special Topics in Entrepreneurship	
FINA 4610	Entrepreneurial Finance and Private Equity	
MGMT 3302	Negotiating in Business	

One course from an approved Dialogue may count toward an elective.

## Family Business

A family business is a commercial organization owned or controlled by members of a single family or extended family, including relatives related by blood, marriage, or adoption. Family controlled companies are a dominant form of enterprise worldwide. Due to the inextricable link between family and the business, family firms must grapple with unique challenges in that the business decisions are often intertwined with family dynamics, as in the case of succession planning and corporate governance. The purpose of this concentration is to provide insight and understanding of the distinct challenges, opportunities, and practices of family/owner-controlled companies.

The concentration covers family and business issues of family firms, including family values and culture, managing conflict, sibling rivalry, entitlement, hiring family and nonfamily employees, management of the family business, facilitating growth and change, and succession planning. This concentration is intended for those contemplating a career in a family business and for those who plan to consult or provide professional services to family businesses. It will present both a theoretical framework for understanding the family form of business and a practical perspective on working for, or consulting to, a family/owner-controlled business.

## Concentration Requirements

### CONCENTRATION IN FAMILY BUSINESS

Code	Title	Hours
<b>Required Courses</b>		
ENTR 2301	Innovation!	4
ENTR 4503	Advanced Studies in Family Business	4

ENTR 3401	Consulting Operations Growth in SMEs	
<i>Additional Electives</i>		
ENTR 2206	Global Social Enterprise	
ENTR 2303	Marketing Strategies for Startups	
ENTR 2304	Industry Disruption and Corporate Transformation	
ENTR 4983	Special Topics in Entrepreneurship	
FINA 4610	Entrepreneurial Finance and Private Equity	
MGMT 3302	Negotiating in Business	

Students may use one course from an approved Dialogue experience toward the elective area of the concentration.

## Finance

The role of people trained in finance is expanding rapidly within the business world. Changes on the financial scene—rising securities prices, fluctuating inflation, currency values and interest rates, and globalization of markets—have created an awareness that financial knowledge is essential to the effective management of business firms and many other types of organizations.

Finance is the management of real and monetary assets for businesses, financial institutions, nonprofit organizations, governments, and individuals. Finance courses draw on accounting principles, economic theory, and quantitative methods. These courses develop methods to direct the way capital is acquired and managed. Students are exposed to economic and financial systems and how they operate. They also are given an opportunity to analyze economic trends and indicators and to apply this analysis to financial decision making.

Students may specialize in one or more of the following areas: corporate finance, investment management and analysis, risk management, and real estate. The program is designed to prepare students for careers in corporate financial management, security analysis, investment management, security or insurance brokerage, credit management, and risk management with corporations, banks, insurance companies, and other financial institutions.

## Concentration Requirements

### CONCENTRATION IN FINANCE

Code	Title	Hours
<b>Required Course</b>		
FINA 3301 or FINA 3303	Corporate Finance Investments	4
<b>Electives</b>		
Complete three of the following:		12

FINA 4983	Special Topics in Finance

## Fintech

This concentration is designed for students who are interested in learning about new applications of technology in financial services, under the general heading of fintech (financial technology). In addition to mastering the foundations of finance, students in this concentration have an opportunity to learn how to leverage technology to create and improve financial services. The concentration provides both a broad and in-depth view of various fintech topics (e.g., big data, machine learning, peer-to-peer lending, blockchain, digital currencies, algorithmic trading) and allows students to develop programming skills in R and Python. These tools and knowledge are especially valued by banks, consulting firms, financial technology, and investment firms.

### Concentration Requirements

#### CONCENTRATION IN FINTECH

Only one course may be double counted with another concentration.

Code	Title	Hours
<b>Required Courses</b>		
FINA 3303 or FINA 3301	Investments Corporate Finance	4

SCHM 3301	Global Supply Chain Strategy	

## Healthcare Management and Consulting

Healthcare is an exciting and important industry, growing faster than any other, and its importance to society cannot be underestimated given its focus on helping people live longer and lead happier, higher-quality lives. Working in healthcare requires knowledge and skills in several cutting-edge areas such as service delivery innovation, process and quality improvement, talent management, analytics, and supply chain management. The concentration in healthcare management and consulting offers students an opportunity to understand how this major sector of the U.S. economy works; to apply training in other areas like finance and marketing to managing healthcare problems and opportunities; to obtain a viable educational and career outlet for realizing their interests in advancing the social good; and to prepare for working, managing, and consulting in the healthcare industry. The concentration in healthcare management and consulting is an interdisciplinary concentration that provides exposure to several different areas of business and the social sciences important for working in healthcare.

### Concentration Requirements

#### CONCENTRATION IN HEALTHCARE MANAGEMENT AND CONSULTING

Note: Students may double count up to one course in another business concentration.

Code	Title	Hours
<b>Required Courses</b>		
MGMT 3340	Healthcare Management, Innovation, and Design	4
SCHM 3315	Managing Healthcare Operations and Supply Chain	4
<b>Implementation/Consulting Elective</b>		
Complete one of the following:		4
BUSN 3110	The Consulting Environment	
ENTR 3220	International Entrepreneurship and Innovation Consulting	

MGMT 3302	Negotiating in Business

COMM 4533	Consultation Skills
HUSV 2970	Research Methods for Human Services
IE 3500	Introduction to Healthcare Systems Engineering
PHTH 2515	Healthcare Policy and Administration
PHTH 4515	Critical Issues in Health and Public-Health Policy
SOCL 3440	Sociology of Human Service Organizations
SOCL 3441	Sociology of Health and Illness

**International Business**

The concentration in international business is designed for students interested in developing their knowledge and skills related to doing business in the global economy. The development of a deeper understanding of international business will be crucial in the future. Subject matter covered in this concentration focuses on topics such as the cultural, economic, technological, and political aspects of varying national business environments and their impact on international business operations. Students are exposed to a variety of key international business concepts ranging from strategic planning in the global arena to managing behavior and interpersonal relations. Additional topics include international trade theory, national trade policies, foreign market analysis, managing technological issues, and international strategic management.

From a job placement perspective, few firms today operate or compete exclusively in domestic markets. Possessing a knowledge of how people, firms, and institutions interact across borders provides international business concentrators with a competitive edge. This concentration pairs well with other D'Amore-McKim concentrations such as finance, marketing, and supply chain, among others.

**Concentration Requirements****CONCENTRATION IN INTERNATIONAL BUSINESS**

*Note:* Students may double count up to one course in another business concentration.

Code	Title	Hours
<b>Required Courses</b>		
INTB 1203	International Business and Global Social Responsibility	4

*Contextual Experience*

ENTR 4512	Social Entrepreneurship and Sustainable Development in India
-----------	--

Electives not listed may be approved via the undergraduate dean's office.

**Management**

Managing—whether it's people, projects, or programs—is challenging and requires a considerable range of knowledge and skills. Effective managers must know the business, be interpersonally competent, behave ethically, and diagnose and deal with human and organizational dynamics. The aim of the management concentration is to increase both managerial *knowledge* and management *skills*. This involves both studying *and* practicing topics such as motivation, leadership, negotiation, conflict resolution, project management, managing teams, organizational change, and their impact on business results.

Management concentrators participate in vibrant co-op experiences spanning a diverse range of business functions, such as business analytics, human resources, client and sales support, and project management. Many students who concentrate in management decide to get a second concentration, giving them the ability to work in teams and manage other people in whatever arena they find themselves.

**Concentration Requirements****CONCENTRATION IN MANAGEMENT**

Code	Title	Hours
<b>Required Course</b>		
MGMT 4550	Management Consulting in Organizations	4

MGMT 4410	Workforce Analytics
MGMT 4983	Special Topics in Management

## Management Information Systems

In the global information age, success for organizations requires the ability to manage, analyze, and use information effectively. To that end, the goal of the Management Information Systems concentration is to teach future managers how to manage and utilize data and information technology (IT) to help both individuals and organizations perform more efficiently and effectively. This can lead the student in two career directions:

- To become a professional in the cross-functional information management, business analytics, and data quality and governance functions of a company or in an IT or data-enabled strategic business transformation initiative.
- To accelerate and enhance a data-informed or data leadership career in organizations or another functional area such as finance, marketing, research and development, innovation, accounting, workforce management, strategic management, or acquisitions.

Understanding how to get the right information in the right form and format to the right people at the right time is essential in today's business world, especially when companies and the individuals that do this well are achieving significant competitive advantages. Students have the opportunity to explore new, cutting-edge approaches that allow them to use the powerful resource of information to its greatest advantage. These approaches often use analytical concepts such as information visualization, artificial intelligence, and data mining. The importance of information privacy and security is also emphasized. Students have the opportunity to develop technical and problem-solving skills that are in high demand by employers, and to apply those skills through both classroom activities and co-ops focused on information management or business analytics.

Managers in the information management function need to interact frequently with other managers throughout an organization. Therefore, students are also encouraged to complete a dual concentration in information management and another area of business. Graduates of this program have a wide range of career paths that suit their particular interests. Professional options include Business/Systems/Information Analyst, Database Manager or Designer, Data Architect or Data Strategist, Information Product Designer/Manager, Data Quality Manager, Data Governance Manager, IT or Data Project Manager, Consultant, and IT or Data Specialist or Strategist within other departments, such as financial

services, accounting, marketing, R&D, manufacturing, customer service, and risk management and compliance. Executive positions include Chief Data Officer or Chief Information Officer.

## Concentration Requirements

### CONCENTRATION IN MANAGEMENT INFORMATION SYSTEMS

Code	Title	Hours
Only one course may double count between another concentration or minor.		
<b>Required Courses</b>

MISM 4501	Business Systems Integration	
MISM 4983	Special Topics in Management Information Systems	
BUSN 5001	Data-Driven and Technology-Enabled Value Creation in Digital Economy	

## Marketing

Aspiring marketers at the D'Amore-McKim School of Business have an opportunity to learn how brands, customers, and organizations impact business performance and society by embracing an approach that is analytical, creative, and practice oriented. Students receive instruction from award-winning research and teaching faculty who share their knowledge to help empower the next generation of marketing leaders.

The concentration in marketing encourages students to examine marketing as a driver of business growth, while considering the ethical and sustainable practices that are necessary for business and societal benefit.

The building blocks of the marketing concentration require courses in marketing research and consumer behavior or marketing management. This leads to a tailored set of electives to suit different student goals and interests. Students choose from marketing and society, marketing analytics, sales management, managing customer engagement in a service world, advertising and brand promotion, digital marketing, new product development, international marketing, and marketing in Asia to complete their concentration.

The concentration aims to prepare students with the knowledge and skills to pursue careers in a broad range of professional settings including, but not limited to, digital marketing management, social media marketing, marketing analysis, data analysis, marketing consulting, UX design, content strategy, consumer insights analysis, sales management, and product and brand management.

Other marketing-related options available to students include a minor in marketing analytics and combined degrees in business administration (marketing). Three of the available combined majors are a Bachelor of Science in Business Administration (marketing) and Design, a Bachelor of Science in Business Administration (marketing) and Communication Studies, and Bachelor of Science in Business Administration (marketing) and Psychology.

## Concentration Requirements

### CONCENTRATION IN MARKETING

Code	Title	Hours

MKTG 4983	Special Topics in Marketing	

## Marketing Analytics

Marketing analytics comprises the data-driven methods, techniques, and technologies that enable marketers to evaluate the success of their marketing initiatives and campaigns. This concentration offers the opportunity to learn the cutting-edge skills necessary to harness, process, and analyze data to address modern marketing challenges. It combines programming, quantitative analysis, data-driven consumer insights, and predictive modeling into an integrated curriculum that is designed to prepare students for successful careers in marketing analytics and other data-driven business specializations.

## Concentration Requirements

### CONCENTRATION IN MARKETING ANALYTICS

*Note:* Students may double count up to one course in another business concentration.

CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	
DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	

## Social Innovation and Entrepreneurship

Social entrepreneurship involves creating new products, services, or programs to address social or environmental needs. The Business Concentration in Social Innovation and Entrepreneurship is designed to prepare students from any background or area of study with the knowledge, skills, and experience to launch a new venture or project focused on creating social change through business, partner or work with innovation-driven nonprofit and for-profit social enterprises, work for a business in any industry with an emerging strategic commitment to positive social impact, work in the social finance and impact-investing sectors within the financial services industry, and create and lead intrapreneurial ventures and projects in any business or industry that evidence a commitment to the “stakeholder” model of business.

These five areas fall within the rapidly growing segments of the global economy in which social returns are elevated alongside financial returns in order to create a more equitable and inclusive society. Students will consider ethical and social issues in creating, building, managing, and growing small, medium, and large businesses. The concentration includes a structured community engagement and service requirement, either through participation in international fieldwork (Dialogues, Alternative Spring Break, or other embedded travel programs) and/or local community service programs. Students will have the opportunity to develop specific skill sets in entrepreneurial thinking and critical analysis, creative problem solving, professional communications (writing and presentations), working in diverse and multicultural teams, and interdisciplinary research and data analysis.

## Concentration Requirements

### CONCENTRATION IN SOCIAL INNOVATION AND ENTREPRENEURSHIP

Code	Title	Hours
<b>Required Courses</b>		
ENTR 2301	Innovation!	4

MKTG 2301	Marketing and Society	

One course from an approved Dialogue may count toward an elective.

## Supply Chain Management

From the Fortune 500 manufacturer to the small firm that produces, sells, or distributes products, all companies have a supply chain function that must be effectively managed if they are to be competitive. A supply chain manager is typically involved in making critical decisions about such matters as procurement of supplies and/or services, demand planning and forecasting, inventory policies, order fulfillment, transportation of company's materials and products, warehouse and distribution operations, location of facilities, managing interfirm relationships, and customer service. As companies become increasingly involved in global markets as both buyers and sellers, supply chain managers play a major role not only in assessing the feasibility of international activity but also in developing supply and distribution networks to support that involvement. Because supply chain managers frequently interact with those involved in other areas of management, many supply chain management students have chosen to complete a second concentration in such areas as marketing, management information systems, finance, or entrepreneurship.

There are many career options for supply chain management students. In addition to finding career opportunities with manufacturers, retailers, and distributors, supply chain management students may find similar opportunities with companies that sell supply chain services; consulting firms; financial institutions; healthcare firms; and government agencies at the federal, state, and local levels.

### Concentration Requirements

#### CONCENTRATION IN SUPPLY CHAIN MANAGEMENT

Code	Title	Hours

## Minors

Students who wish to enter one of the minor programs listed below should complete the online minor form accessible via the D'Amore-McKim School of Business Undergraduate Programs website. Students who complete all required courses successfully and have earned at least a C (2.000) average in them will be awarded the minor at graduation.

- Accounting and Advisory Services (p. 297)
- Brand Management (p. 298)
- Business Administration (p. 298)
- Business Analytics (p. 299)

- Consulting (p. 299)
- Corporate Innovation and Venture (p. 300)
- Emerging Markets (p. 301)
- Entrepreneurial Startups (p. 301)
- Family Business (p. 301)
- Leadership and Human Capital (p. 302)
- Management Information Systems (p. 302)
- Marketing (p. 303)
- Marketing Analytics (p. 303)
- Social Innovation and Entrepreneurship (p. 304)
- Strategy (p. 304)
- Supply Chain Management (p. 304)
- Sustainable Business Practices (p. 305)

## Accounting and Advisory Services, Minor

### Overview

The accounting and advisory services minor is aimed at nonbusiness students who wish to complement their current studies with a focus in accounting and advisory services. Accounting knowledge is the foundation for business decision makers to make sound judgments and support the operational and strategic decisions in a firm. Importantly, public accounting firms are hiring students from nonaccounting disciplines for their advisory services practices. These students work in interdisciplinary areas including mergers and acquisitions, risk management, operations, data analytics, and digital transformation where accounting knowledge from this minor will provide them with a competitive advantage. Students pursuing the minor may select among accounting courses that explore topics such as financial reporting, advisory services and emerging accounting systems, strategic cost analysis, and tax planning. Students can also choose courses from other disciplines that would benefit from accounting knowledge such as engineering, computer science, and healthcare.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. The accounting and advisory services minor is not open to D'Amore-McKim students or students pursuing a combined major with the D'Amore-McKim School of Business.

### Required Courses

Code	Title	Hours
ACCT 1209	Financial Accounting and Reporting	4

### GPA Requirement

2.000 GPA required in the minor

### Brand Management, Minor

Think about some of your favorite brands—chances are, there is a high-powered brand manager working behind the scenes to ensure the brand resonates with you, one of its target consumers. Brand managers oversee the integrity of a brand across all marketing activities in tech, consumer packaged goods (CPG), and service industries. The position of brand manager requires strategic thinking, focus on the customer experience, communication with multiple stakeholders and cross-functional teams, creativity, and analytical skills. Brand managers are creative, organized multitaskers, who often serve as the liaison between the marketing group, design team, and engineers to oversee the consistency of the brand image. While every day is different, typical activities of a brand manager include conducting and analyzing research to identify brand opportunities, understanding market trends and competitive landscape, creating and maintaining brand marketing budget, managing cross-platform brand communication strategy, developing the brand story, executing marketing and advertising campaigns, and overseeing the overall health of a brand. When managing a brand's products or services in a tech firm, brand and product managers may also be involved in ideation, prototyping, user experience (UX) testing, and business casing. This minor offers the opportunity to learn these skills across coursework in marketing, consumer behavior, advertising, new product development, marketing analytics, project management, demand planning and forecasting, and product innovation. As such, the required courses, paired with a flexible, yet focused list of electives, support students in the aspects of brand management that are most relevant for their future career prospects.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

*Note:* Students in the D'Amore-McKim School of Business or in a combined major with D'Amore McKim School of Business are not allowed to pursue this minor.

### Required Courses

Code	Title	Hours
MKTG 2209	Introduction to Marketing	4
or MKTG 2201	Introduction to Marketing	
MKTG 3720	Brand Management	4

### Electives

INTB 2501	Competing to Win in Emerging Markets	

**GPA Requirement**

2.000 GPA required in the minor

**Business Analytics, Minor**

The business analytics minor is open to non-business undergraduate students with any major and offers analytics courses from a business decision-making perspective. The goal of these courses is to help students develop data-driven insights into business problems and solutions, along with the skills to communicate these insights effectively across the organization. The courses include both foundational courses, those geared toward more specific data analytics challenges, and those that apply analytical techniques to specific functional areas. Business analytics courses are grounded in relevant theory and principles and explore real-world problems and data. The courses explore analytics techniques and topics such as information visualization, artificial intelligence, machine learning, and data mining. Course tools are selected based on their effectiveness, usefulness, and their widespread use by employers. Depending on the courses chosen, students can develop skills using packages and languages such as R, Python, SQL, and Tableau. Students have the opportunity to develop technical and problem-solving skills that are in high demand by many types of organizations. The business analytics minor can fit well with any majors across colleges and schools.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. Starting Fall 2021 the Business Analytics minor is available to non-business majors only .

2.000 GPA required in the minor

**Consulting, Minor**

This minor is designed to provide students with a solid foundation in the skills and concepts needed to succeed in a consulting-oriented environment, as well as an introduction to a variety of possible contexts for consulting work. Consulting skills are essential work skills for many roles beyond the traditional management consultant. Many technical positions within firms demand that consultative skills be used within the firm even in early career positions (e.g., business analyst); in this respect, a consulting minor complements students' technical training. Required courses cover the fundamentals of both management and strategy consulting, as well as a framework of consulting activities that can be applied to many types of consulting and consultative roles. Electives provide students an opportunity to gain deeper knowledge in a specific consulting skill and to explore a context in which they could apply their consulting knowledge.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Students may only double-count one course in the minor toward their major, concentration, or another minor.

**Required Courses**

**Corporate Innovation and Venture, Minor**

Corporate innovation is a series of processes by which established companies promote, design, and pursue innovation opportunities that can result in new products, services, and/or business models. It entails R&D activities, product development, internal venture accelerators, acquisitions, and alliances. Innovation is the most powerful competitive weapon for a corporation that wants to ensure growth and relevance over time.

The corporate innovation and venture minor is designed to prepare students to develop new businesses, products, services, or processes inside of an existing organization to create value and generate new revenue growth through entrepreneurial thought and action. A minor in corporate innovation seeks to prepare students to be agents of change and renewal within established companies, aspiring to leading roles in areas such as product development, new business research, and innovation-related projects. This minor targets students with co-op aspirations that involve positions within corporations such as entry-level product line management, project management, consulting, and new product and service development.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. The minor is not available to D'Amore-McKim School of Business students or students pursuing a combined major with the D'Amore-McKim School of Business.

### Emerging Markets, Minor

Emerging markets, such as Brazil, China, India, and Turkey, account for 85 percent of the world's population, half its GDP, and more than two-thirds of world economic growth. Understanding how to leverage the consumer needs, talent, and innovation potential of these economies will be vital for the future success of all for-profit and not-for-profit organizations. The minor combines course work on the economic, political, and business challenges of operating in emerging markets with a hands-on, immersive field study component. This interdisciplinary minor is open to business and nonbusiness students.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Entrepreneurial Startups, Minor

This interdisciplinary minor guides students through the startup process. The Minor in Entrepreneurial Startups is designed to prepare students

from any background or area of study to conceptualize, launch, manage, and grow a new business. Students have an opportunity to learn to shape entrepreneurial opportunities; assess feasibility; and develop other skills needed to conceptualize, launch, manage, and grow a new business venture. Students are exposed to innovation, marketing, and business modeling as they work in interdisciplinary teams to develop business plans. Courses from the College of Arts, Media and Design; College of Engineering; and the Khoury College of Computer Sciences have been carefully selected to allow students to apply the same course to both his or her own college degree and the entrepreneurial startups minor.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. Students in the D'Amore-McKim School of Business or pursuing a combined major with the D'Amore-McKim School of Business may not pursue this minor.

### Required Course

Code	Title	Hours
ENTR 2301	Innovation!	4

### Electives

GAME 2010	The Business of Games
GE 1110	Engineering Design (Engineering Students Only)
GE 5100	Product Development for Engineers (Engineering Students Only)

## GPA Requirement

2.000 GPA required in the minor

### Family Business, Minor

A family business is a commercial organization owned or controlled by members of a single family or extended family, including relatives related by blood, marriage, or adoption. Family controlled companies are a dominant form of enterprise worldwide. Due to the inextricable link between family and the business, family firms must grapple with unique challenges in that the business decisions are often intertwined with family dynamics, as in the case of succession planning and corporate governance. The purpose of this minor is to provide insight and

understanding of the distinct challenges, opportunities, and practices of family/owner-controlled companies.

The minor covers family and business issues of family firms, including family values and culture, managing conflict, sibling rivalry, entitlement, hiring family and nonfamily employees, management of the family business, facilitating growth and change, and succession planning. This minor is intended for those contemplating a career in a family business and for those who plan to consult or provide professional services to family businesses. It will present both a theoretical framework for understanding the family form of business and a practical perspective on working for, or consulting to, a family/owner-controlled business.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. The minor is not available to D'Amore-McKim School of Business students nor students pursuing a combined major with the D'Amore-McKim School of Business.

### Required Course

### GPA Requirement

2.000 GPA required in the minor

## Leadership and Human Capital, Minor

The leadership and human capital minor will deepen students' knowledge and skills that are necessary to attract, retain, develop, lead, and manage employees. Employees of a firm are resources for an employer and based on their expertise provide economic value to a firm. Thus, the effective leadership and management of human capital is instrumental to an organization's success. As organizations are seeking new ways of dealing with problems such as globalization, a weak economy, rapidly changing technology, union-management relations, and changing demographics in the workplace, managers and human resources

professionals use a wide range of techniques for handling these and other challenges and ensuring that their employees and organizations are competitive and high performing.

Managing human capital is a significant component of the strategic management of an organization. The courses offered in the leadership and human capital minor will expose students to the major issues and challenges in leading and managing a global and increasingly diverse workforce. The courses address the human capital issues all employees face and offer ways to deal with them.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. Please note, only one course in the minor may double count in one of the seven business concentrations.

### Organizational Behavior

Code	Title	Hours
ORGB 3201	Organizational Behavior	4

### GPA Requirement

2.000 GPA required in the minor

## Management Information Systems, Minor

The management information systems minor is open to nonbusiness undergraduate students with any major and offers contemporary information-focused courses from a global business perspective. The goal of these courses is to show students how to use and manage data and information technology (IT) to help both individuals and organizations perform more efficiently and effectively. The minor includes both fundamental courses and those geared toward more specific information management challenges. These courses will include real-world examples, grounded in relevant theories and principles, and will be reinforced using appropriate information tools and systems to gain the necessary skills and knowledge for tomorrow's work environment. The MMIS minor requires every student to build a strong understanding of how data is gathered, stored, managed, and used across the organization. Beyond this, students have the opportunity to explore new, cutting-edge areas such as information visualization, data mining, and blockchains.

Other topics such as information privacy and security, mobile information systems, and artificial intelligence can also be examined in greater depth.

### Minor Requirements

The management information systems minor is open to nonbusiness undergraduate students. Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. Only 4 credits may be double counted toward another minor.

#### Required Course

Code	Title	Hours
MISM 3403	Data Management in the Enterprise	4

#### Electives

Complete three of the following (at least 8 credits must come from MISM courses):

Code	Title	Hours
COMM 2625	Communication, Technology, and Society	12
ECON 4681	Information Economics and Game Theory	
FINA 4340	Blockchain Applications in Finance	
JRNL 3610	Digital Storytelling and Social Media	
MGMT 3530	Project Management	
MISM 2301	Management Information Systems	
MISM 3501	Information Visualization for Business	
MISM 3515	Data Mining for Business	
MISM 4501	Business Systems Integration	
MISM 4983	Special Topics in Management Information Systems	
PHIL 1145	Technology and Human Values	
SCHM 3301	Global Supply Chain Strategy	

#### GPA Requirement

2.000 GPA required in the minor

### Marketing, Minor

The marketing minor is aimed at non-D'Amore-McKim students who wish to complement their current studies with a focus on marketing. In the marketing minor, students can select among courses that explore topics such as consumer behavior, advertising, services marketing, marketing analytics, and international marketing. Pursuing a marketing minor offers Northeastern students an opportunity to gain a deeper appreciation of consumers, markets, metrics, and brands to help them become better business practitioners no matter where their careers take them.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

*Note:* Students in D'Amore-McKim or in a combined program with D'Amore McKim are not allowed to take this minor.

### Required Courses

Code	Title	Hours
MKTG 2201	Introduction to Marketing	4
or MKTG 2209	Introduction to Marketing	

### Electives

Code	Title	Hours
Complete three of the following:		12
MKTG 2301	Marketing and Society	
MKTG 3301	Marketing Management	
MKTG 3401	Marketing Research	
MKTG 3501	Marketing Analytics	
MKTG 4220	Marketing in Asia	
MKTG 4420	Sales Management	
MKTG 4502	Managing Customer Engagement in a Service World	
MKTG 4504	Advertising and Brand Promotion	
MKTG 4506	Consumer Behavior	
MKTG 4508	Digital Marketing	
MKTG 4510	New Product Development	
MKTG 4512	International Marketing	

#### GPA Requirement

Minimum 2.000 GPA required in all courses completed

### Marketing Analytics, Minor

Marketing analytics comprises the data-driven methods, techniques, and technologies that enable marketers to evaluate the success of their marketing initiatives and campaigns. This minor, aimed at non-D'Amore-McKim students offers the opportunity to learn the cutting-edge skills necessary to harness, process, and analyze data to address modern marketing challenges. It combines programming, quantitative analysis, data-driven consumer insights and predictive modeling into an integrated curriculum that is designed to prepare students for successful careers in marketing analytics and other data-driven business specializations.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

*Note:* Students in D'Amore-McKim or in a combined program with D'Amore McKim are not allowed to take this minor.

#### Required Courses

Code	Title	Hours
MKTG 2209	Introduction to Marketing	4
or MKTG 2201	Introduction to Marketing	
MKTG 2602	Quantitative Analysis of Consumer Data	4
MKTG 3402	Gaining Insights from Consumer Data	4
MKTG 3501	Marketing Analytics	4

#### GPA Requirement

Minimum 2.000 GPA required in all completed courses

## Social Innovation and Entrepreneurship, Minor

This five-course interdisciplinary Minor in Social Innovation and Entrepreneurship is administered by the D'Amore-McKim School of Business through its Entrepreneurship and Innovation Group in collaboration with the College of Social Sciences and Humanities (CSSH).

The minor consists of four on-campus courses and one course from a two-course Dialogue of Civilizations program. The minor is open to business and nonbusiness students. Several of the courses included in this minor may also apply to other programs or individual course requirements. Because this minor is interdisciplinary, a student may apply only three courses from any one college toward completion of the minor.

Finally, note that business students can pursue this minor or alternatively choose to pursue the Social Innovation and Entrepreneurship concentration, which requires four ENTR courses in social entrepreneurship and does not require a Dialogue.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

*Note:* No more than three courses may be taken from any one college.

### Required Courses

Code	Title	Hours
ENTR 2206	Global Social Enterprise	4
Approved course from Dialogue of Civilizations or another approved program.		4
Noncredit community service required if approved Dialogue is not completed.		

### Electives

Code	Title	Hours
Complete one of the following:		4
ENTR 2414	Social Responsibility of Business in an Age of Inequality	
ENTR 3520	Impact Investing and Social Finance	
ENTR 4506	Advanced Studies in Social Innovation Entrepreneurship	
Complete two of the following:		8
ANTH 2305	Global Markets and Local Culture	
HUSV 3570	The Nonprofit Sector, Philanthropy, and Social Change	
INTL 1101	Globalization and International Affairs	
INTL 3400	International Conflict and Negotiation	
LPSC 2302	Global Human Rights: A Social and Economic Perspective	
POLS 3406	International Law	
POLS 3487	Politics of Developing Nations	

### GPA Requirement

2.000 GPA required in the minor

## Strategy, Minor

The strategy minor is open to undergraduate business students with any major or concentration. The curriculum develops students' ability

to assume the role of a general manager and to think constructively about the strategic focus and direction of an organization, as well as its relative competitive strengths and weaknesses. Broad topics include the appropriate criteria and processes for general management decision making, especially under conditions of uncertainty; strategies a firm can follow in order to gain competitive advantage when entering into, competing within, and exiting from individual markets and how these strategies interact when the firm competes in several markets; and the optimal boundaries of the firm—the advantages and disadvantages its unique history and resources give it. The strategy minor may be of particular interest for students who plan to pursue careers in general management, management consulting, new venture management, venture capital, corporate planning, and investment banking.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Courses

Code	Title	Hours
STRT 4501	Strategy in Action	4
or INTB 4202	Executing Global Strategy	

### Electives

Code	Title	Hours
Complete three of the following:		12
ENTR 4225	Growth, Acquisitions, and Alliances	
ENTR 3305	Business Model Innovation for Entrepreneurs	
ENTR 2414	Social Responsibility of Business in an Age of Inequality	
FINA 4420	Mergers and Acquisitions	
INTB 2501	Competing to Win in Emerging Markets	
MKTG 3301	Marketing Management	
MGMT 4310	The Management Practices of Great Organizations	
MGMT 4550	Management Consulting in Organizations	
or BUSN 3110	The Consulting Environment	
SCHM 4401	Contemporary Topics in Supply Chain Management	
STRT 4301	Strategic Analysis and Decision Making	

### GPA Requirement

2.000 GPA required in the minor

## Supply Chain Management, Minor

The supply chain management minor is open to nonbusiness undergraduate students with any major and is comprised of contemporary courses taught from a global business perspective. Intended for future leaders, this minor intends to prepare students to understand and use supply chain tools and apply that framework to effectively manage numerous opportunities and risks across today's global supply chains. The minor includes both fundamental courses and those geared toward more specific management and analytical challenges. These courses include real-world case examples, grounded in relevant theories and principles. Learning is reinforced through various analytical tools that are designed to develop necessary skills

and knowledge for tomorrow's work environment. Students have the opportunity to explore specific practice areas, such as analytics, healthcare operations, negotiating, demand planning, and logistics/transportation. In addition, the minor offers students an opportunity to gain insight and develop perspectives for important topics such as deglobalization/globalization and emerging technologies, such as blockchain, additive manufacturing, and smart robotics.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. Only four credits may be double counted toward a different minor.

### Required Course

Code	Title	Hours
SCHM 2301	Supply Chain and Operations Management	4

### Electives

Code	Title	Hours
Complete three of the following: (At least 8 credits must come from SCHM courses.)		12
ACCT 3416	Strategic Cost Analysis for Decision Making

SCHM 3305	Sourcing, Procurement, and Negotiation	
SCHM 3308	Supply Chain Analytics and Emerging Technologies	
SCHM 3310	Logistics and Transportation Management	
SCHM 3315	Managing Healthcare Operations and Supply Chain	
SCHM 3320	Forecasting and Sales Operations Planning	
SCHM 4401	Contemporary Topics in Supply Chain Management	

### GPA Requirement

2.000 GPA required in the minor

### Sustainable Business Practices, Minor

Combining course work and a summer field project, the minor in sustainable business practices seeks to provide students with a deeper understanding of sustainability issues and the tools to address these issues in a business environment. This interdisciplinary minor is open to business and nonbusiness students.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Note: No more than three courses may be taken from any one college.

### Sustainability in Business

Code	Title	Hours
FINA 2720	Sustainability in the Business Environment	4

### Accelerated Bachelor/Graduate Degree Programs

Northeastern University's D'Amore-McKim School of Business develops leaders and thinkers who will guide the future of work that is being transformed by technology and data. The D'Amore-McKim PlusOne accelerated master's programs (<https://damore-mckim.northeastern.edu/programs/?s=&filters%5B%5D=program%7Ctype%7Cplus-one&filters%5B%5D=program%7Ctype%7Cundergraduate>) provide motivated students with the opportunity to start earning their master's degree while pursuing their undergraduate education.

Depending on the program, students accepted into a PlusOne accelerated master's may take up to a total of 16 graduate credits while they are undergraduates and can apply those credits toward both of their bachelor and master's degrees.

### Khoury College of Computer Sciences

Website (<http://www.khoury.northeastern.edu/undergraduate/>)

Carla E. Brodley, PhD, Dean

**Ben Hescott, PhD**, Teaching Professor, Associate Dean of Undergraduate Education and Experience

**Byron Wallace, PhD**, Assistant Professor, Director of Data Science Program

[khoury-advising@northeastern.edu](mailto:khoury-advising@northeastern.edu)

Computing has transformed the way people work and live, and its applications are limitless. Today, an understanding of computing is critical in business, healthcare, science, digital art, and other areas of our information-driven society. Computing knowledge and computing technology also contribute to resolving major issues in an increasingly complex world.

The Khoury College of Computer Sciences offers undergraduate programs that combine a strong foundation in computing with the opportunity to acquire a deep knowledge of another discipline in which computing plays a critical role. The college offers undergraduate degree programs in computer science (BS and BA), data science (BS), and cybersecurity (BS) and over 25 combined majors with partner departments in six other Northeastern colleges, allowing students to engage in intense study in two disciplines. The Bachelor of Science in Computer Science emphasizes strong technical competence in computer science, mathematics, science, and electrical engineering. The Bachelor of Arts in Computer Science combines computer science with a broad-based liberal arts education. The Bachelor of Science in Data Science combines computer science, information science, mathematics, statistics, and probability theory into an integrated curriculum. The Bachelor of Science in Cybersecurity provides the fundamental knowledge of computer science with an essential focus on experiential learning through security-related courses.

## Academic Progression Standards

In addition to meeting university progression standards, it is expected that full-time Khoury students enroll in four courses with appropriate labs and recitations and successfully complete at least 12 semester hours each academic semester with an acceptable grade-point average (GPA) as noted below. Any exceptions to the course load requirement must be approved by the student's academic advisor prior to the start of each semester. Pass/fail courses are restricted to electives outside of the major, minor, and NUPath requirements.

### GPA REQUIREMENTS FOR GRADUATION

A minimum cumulative GPA requirement of 2.000 in major (CS/CY/DS/IS) courses and a minimum cumulative GPA requirement of 2.000 overall are required for graduation.

### CRITERIA FOR ACADEMIC PROBATION

Full-time students in Khoury College of Computer Sciences will be placed on academic probation effective for the following academic semester for any of the reasons noted below:

- Not earning at least 12 semester hours in each academic full-term semester (fall, spring)
- Not following a program of study approved by the student's academic advisor

#### *First-Year Students*

- Not maintaining an overall cumulative GPA of at least 1.800 at the end of each full-term semester (fall, spring) of the first-year

curriculum and a GPA of at least 2.000 in the major at the end of the second academic full-term semester of the curriculum (spring)

#### *Upperclass and Transfer Students*

- Not maintaining an overall cumulative GPA of at least 2.000 and a GPA of at least 2.000 in the major at the end of the second academic full-term semester of the curriculum completed on campus (fall or spring) and at the end of each full-term academic semester thereafter (fall, spring)

### ACADEMIC DISMISSAL FROM MAJOR

Not maintaining a GPA of at least 2.000 in the major at the end of the third academic full-term semester and at the end of each full-term academic semester (fall, spring) thereafter will result in dismissal from Khoury College of Computer Sciences.

Students not following a program of study approved by the student's academic advisor for more than one semester may be dismissed from Khoury College of Computer Sciences.

Students dismissed from their major but who are otherwise eligible to remain an active student within the university may continue within Khoury College of Computer Sciences as a transitional major for one semester.

### ACADEMIC DISMISSAL FROM UNIVERSITY

Students who remain on probation after two full-term academic semesters may be dismissed from the university. This action may appear on the transcript at the end of the second probationary semester. In addition, students who have below a 1.000 GPA or fewer than 4 earned semester hours in any semester or cumulatively may be dismissed at the discretion of their college. Students may appeal this decision to the Academic Standing Committee of their college. International students must consult with an advisor in the Office of Global Services (OGS) (<http://www.northeastern.edu/ogs/>) to discuss the impact of an academic dismissal as it relates to nonimmigrant visa status.

## Program Length

The Khoury College of Computer Sciences prides itself on flexibility and a very supportive advising staff. Depending upon the number of entry-level/transfer credits, the academic program, and student planning, it is possible to complete the program within four years with at least one experiential experience and usually with two such experiences.

## Computer Science

Computer science involves the application of theoretical concepts in the context of software development to the solution of problems that arise in almost every human endeavor. Computer science as a discipline draws its inspiration from mathematics, logic, science, and engineering. From these roots, computer science has fashioned paradigms for program structures, algorithms, data representations, efficient use of computational resources, robustness and security, and communication within computers and across networks. The ability to frame problems, select computational models, design program structures, and develop efficient algorithms is as important in computer science as software implementation skill. Computer science is concerned with bringing together all of the intellectual resources needed to enable the rapid and effective development of software to meet the needs of business, research, and end users.

The goal of the undergraduate program in computer science is to teach students the conceptual and practical skills that will enable them to contribute to the development of computational principles

and to play a productive role in the software community. To that end, the undergraduate program focuses on the fundamentals of program design including object-oriented design, software development, computer organization, systems and networks, theory of computation, principles of languages, and advanced algorithms and data. The program also offers a variety of electives at the upper undergraduate and beginning graduate levels ranging from more theoretical courses to those that focus on important applications.

## Programs

### Bachelor of Science in Computer Science (BSCS)

- Computer Science (p. 307)

### Bachelor of Arts in Computer Science (BACS)

- Computer Science (p. 310)

## Minor

- Computer Science (p. 313)

## Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. )

## Computer Science, BSCS

The Bachelor of Science in Computer Science focuses on the fundamentals of program design, software development, computer organization, systems and networks, theories of computation, principles of languages, and advanced algorithms and data.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Computer Science Requirements

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
CS 2810	Mathematics of Data Models	4
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4

CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 3650	Computer Systems	4
CS 3800	Theory of Computation	4
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4

## Security Required Course

Complete one of the following:		4
CY 2550	Foundations of Cybersecurity	
CY 3740	Systems Security	
CY 4740	Network Security	

## Presentation Requirement

Choose one:		4
COMM 1112	Public Speaking	
COMM 1113	Business and Professional Speaking	
COMM 1210	Persuasion and Rhetoric	
COMM 1511	Communication and Storytelling	
THTR 1125	Improvisation	
THTR 1130	Introduction to Acting	
THTR 1160	The Professional Voice	
THTR 2345	Acting for the Camera	

## Khoury Elective Courses

With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 8 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:	8
CS 2500 or higher, except CS 5010	
CY 2000 or higher, except CY 4930	
DS 2500 or higher, except DS 4900	
IS 2000 or higher, except IS 4900	

## Computer Science Concentrations

Pick one of the following concentrations and complete four courses in that concentration. In all concentrations, up to one Research (CS 4991) course can be substituted with advisor approval. Any missing prerequisites or NUpath requirements must be taken using computer science or general electives. In particular, students must arrange to take a NUpath capstone using either a course in the concentration or a CS, CY, DS, or IS course taken as a computer science elective or as a general elective.

### CONCENTRATION: ARTIFICIAL INTELLIGENCE

Code	Title	Hours
CS 4100	Artificial Intelligence	4
DS 4400	Machine Learning and Data Mining 1	4
Complete two of the following courses not already taken:		8
CS 4120	Natural Language Processing	
CS 4150	Game Artificial Intelligence	
CS 4610	Robotic Science and Systems	
IS 4200	Information Retrieval	
DS 4420	Machine Learning and Data Mining 2	
PSYC 3466	Cognition	

**CONCENTRATION: FOUNDATIONS**

Code	Title	Hours
Complete two of the following: 8-9		
CS 2800 and CS 2801 or CS 4820	Logic and Computation and Lab for CS 2800 Computer-Aided Reasoning	
CS 4805 or CS 4810	Fundamentals of Complexity Theory Advanced Algorithms	
Complete two of the following courses not already taken: 8		
CS 4805	Fundamentals of Complexity Theory	
CS 4810	Advanced Algorithms	
CS 4820	Computer-Aided Reasoning	
CS 4830	System Specification, Verification, and Synthesis	
CS 3950 and CS 4950 and CS 4950	Introduction to Computer Science Research and Computer Science Research Seminar and Computer Science Research Seminar	
CY 4770	Cryptography	

**CONCENTRATION: HUMAN-CENTERED COMPUTING**

Code	Title	Hours
IS 4300	Human Computer Interaction	4
IS 4800	Empirical Research Methods	4
Complete two of the following courses not already taken: 8		
IS 2000	Principles of Information Science	
CS 4120	Natural Language Processing	
CS 4520	Mobile Application Development	
CS 4550	Web Development	
DS 4200	Information Presentation and Visualization	

\*The concentration in human-centered computing requires a fall co-op pattern.

**CONCENTRATION: SOFTWARE**

Code	Title	Hours
CS 2800 and CS 2801	Logic and Computation and Lab for CS 2800	5
CS 3700	Networks and Distributed Systems	4
CS 4400	Programming Languages	4
Complete one of the following courses not already taken:		
CS 3520	Programming in C++	
CS 3620	Building Extensible Systems	
CS 4240	Large-Scale Parallel Data Processing	
CS 4410	Compilers	
CS 4550	Web Development	
CS 4520	Mobile Application Development	
CS 4820	Computer-Aided Reasoning	

**CONCENTRATION: SYSTEMS**

Code	Title	Hours
CS 3700	Networks and Distributed Systems	4
Complete one of the following courses not already taken: 4		
CY 3740	Systems Security	
CY 4740	Network Security	
Complete two of the following courses not already taken: 8		

CS 3520	Programming in C++
CS 4300	Computer Graphics
CY 3740	Systems Security
CS 4610	Robotic Science and Systems
CS 4710	Mobile and Wireless Systems
CY 4740	Network Security

**Supporting Courses**

Code	Title	Hours
<b>Mathematics Courses</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1365	Introduction to Mathematical Reasoning	4
<b>Computing and Social Issues</b>		
Complete one of the following: 4		
AFAM 2600	Issues in Race, Science, and Technology	
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
IS 1300 or PHIL 1300	Knowledge in a Digital World Knowledge in a Digital World	
PHIL 1145	Technology and Human Values	
SOCL 1280	The Twenty-First-Century Workplace	
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	
<b>Electrical Engineering</b>		
EECE 2322	Fundamentals of Digital Design and Computer Organization	4
<b>Science Requirement</b>		
Complete two courses from one of the following science categories: 8		
<i>Biology</i>		
BIOL 1111 and BIOL 1112	General Biology 1 and Lab for BIOL 1111	
Then complete one of the following:		
BIOL 1113 and BIOL 1114	General Biology 2 and Lab for BIOL 1113	
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	
<i>Chemistry</i>		
CHEM 1211 and CHEM 1212 and CHEM 1213	General Chemistry 1 and Lab for CHEM 1211 and Recitation for CHEM 1211	
CHEM 1214 and CHEM 1215 and CHEM 1216	General Chemistry 2 and Lab for CHEM 1214 and Recitation for CHEM 1214	
<i>Geology/Environmental Science (Option 1)</i>		
ENVR 1200 and ENVR 1201	Dynamic Earth and Lab for ENVR 1200	

ENVR 1202 and ENVR 1203	History of Earth and Life and Interpreting Earth History
<i>Geology/Environmental Science (Option 2)</i>	

ENVR 1200 and ENVR 1201	Dynamic Earth and Lab for ENVR 1200
----------------------------	--

Then complete one of the following:

ENVR 2310 and ENVR 2311	Earth Materials and Lab for ENVR 2310
----------------------------	--

ENVR 2340 and ENVR 2341	Earth Landforms and Processes and Lab for ENVR 2340
----------------------------	--

ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300
----------------------------	---

ENVR 4500 and ENVR 4501	Applied Hydrogeology and Lab for ENVR 4500
----------------------------	---

*Geology/Environmental Science (Option 3)*

ENVR 1202 and ENVR 1203	History of Earth and Life and Interpreting Earth History
----------------------------	---

ENVR 5242 and ENVR 5243	Ancient Marine Life and Lab for ENVR 5242
----------------------------	--

*Mathematics*

MATH 1342	Calculus 2 for Science and Engineering
-----------	--

MATH 2331	Linear Algebra
-----------	----------------

MATH 3081	Probability and Statistics
-----------	----------------------------

*Physics*

Complete one of the following sequences:

Sequence A

PHYS 1145 and PHYS 1146	Physics for Life Sciences 1 and Lab for PHYS 1145
----------------------------	--

PHYS 1147 and PHYS 1148	Physics for Life Sciences 2 and Lab for PHYS 1147
----------------------------	--

Sequence B

PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151
---	---

PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155
---	---

Sequence C

PHYS 1161 and PHYS 1162 and PHYS 1163	Physics 1 and Lab for PHYS 1161 and Recitation for PHYS 1161
---	--

PHYS 1165 and PHYS 1166 and PHYS 1167	Physics 2 and Lab for PHYS 1165 and Recitation for PHYS 1165
---	--

## Computer Science Writing Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4

### Advanced Writing in the Disciplines

ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

## Required General Electives

Code	Title	Hours
Complete 28 credits of general electives.		28

## Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

## Computer Science Credit Requirements

Complete 72 semester hours in the major.

## NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

## Program Requirement

133 total semester hours required

## Plan of Study

### Sample Patterns:

#### Four Years, Two Co-ops in Spring/Summer 1

**Computer Science, BACS**

The Bachelor of Arts in Computer Science offers a similar curriculum to the BS, with slightly fewer CS requirements to allow students to study a foreign language and have a wider choice of electives.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Requirements for BA**

All BA students are required to complete the BA requirements (p. 49).

**Computer Science Requirements**

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>

## Computer Science, Minor

A computer science minor is designed to provide the computer science skills and know-how you need to succeed in today's highly digital world. A minor requires completion of five CS courses—more than enough to gain proficiency while easily fitting around your major requirements. No prior programming experience is needed.

Looking to gain technical knowledge that directly applies to your major? Students have the option to pursue a Khoury meaningful minor.

### Minor Requirements

*Note:* Khoury minors are only available to non-Khoury majors; students in Khoury-only or Khoury-combined degrees are not eligible for Khoury minors. A student may receive at most one Khoury minor, regardless of how many Khoury minors they qualify for.

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Courses

Code	Title	Hours
<b>Computer Science Fundamental Courses</b>		
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5

CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
------------------------	---	---

## Computer Science Electives

Code	Title	Hours
------	-------	-------

Complete three courses that are not already required in the following ranges:

CS 2500 to CS 7999 but not CS 3950, CS 4950, or CS 5010 CY 3000 or higher, except CY 4930		12
IS 3000 or higher, except IS 4900		
One course from CCIS meaningful minors list (see below).		

## Khoury Meaningful Minors

The concept of “Khoury meaningful minors” allows students the chance to personalize a computer science minor to meet individual academic needs and interests. Students may take *one elective* related to computation or information from a pre-approved list of courses offered across the university rather than from within Khoury. This allows students to integrate the minor with a course in their own major or with a course in another area of interest. Students may of course choose to take all electives in the minor within Khoury if they wish.

Code	Title	Hours
------	-------	-------

Bouvé Health Sciences		
HINF 5101	Introduction to Health Informatics and Health Information Systems	
HINF 5102	Data Management in Healthcare	
HINF 5300	Personal Health Interface Design and Development	
HINF 5301	Evaluating Health Technologies

POLS 2400	Quantitative Techniques
PSYC 2320	Statistics in Psychological Research

### Credit/GPA Requirement

20 semester hours required  
2.000 GPA required in the minor

## Cybersecurity

Cybersecurity combines essential computer science with conceptual and practical specialization in security to prepare students for hands-on, deeply technical work in the field. The ability to frame problems, select computational models, design program structures, and develop efficient algorithms is as important in computer science as software implementation skill. All cybersecurity students take the standard computer science course sequence, covering content such as basic programming, object-oriented design, computer architecture and operating systems, computer networks and distributed systems, and algorithmic complexity and computability theory. These courses lay the foundation for cybersecurity-specific coursework.

Cybersecurity coursework covers key areas in the field, from a broad overview of the topical space (including threat modeling, symmetric and asymmetric key cryptography, authentication, access control, social engineering, simple exploits, basic systems security, malware, the cybercrime underground, and advanced persistent threat actors) to deep dives into the design of secure operation systems and applications. Fundamental topics include analyzing prevalent classes of attacks against systems; security vulnerabilities and defense techniques; limitation of damage and strategic recovery; design and implementation of distributed authentication protocols; and existing standardized security protocols and legal infrastructure relating to privacy, data ethics, data security, hacking, automation, and intellectual property. In addition, cybersecurity students have access to a wide array of electives, including courses on wireless networking, software vulnerabilities, cybersecurity risk management and assessment, digital forensics, and criminology.

### Programs

#### Bachelor of Science (BS)

- Cybersecurity (p. 315)

## Cybersecurity, BS

The Bachelor of Science in Cybersecurity teaches students the conceptual and practical skills that will enable them to contribute to ensuring the reliability and security of cyberspace. The program will

provide students with the fundamental knowledge of computer science that forms the technical foundation of the field, with an essential focus on experiential learning through laboratory exercises in the security-related courses, as well as through the co-op program. The program's holistic view of cybersecurity gives it a strong interdisciplinary focus, teaching students how social behavior, policy, and legal rules can affect cybersecurity and the tools of information technology.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Cybersecurity Major Requirements

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Hourly Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 3650	Computer Systems	4
CS 3700	Networks and Distributed Systems	4
CS 3800	Theory of Computation	4
<b>Presentation Requirement</b>		
Choose one:		4
COMM 1112	Public Speaking	
COMM 1113	Business and Professional Speaking	
COMM 1210	Persuasion and Rhetoric	
COMM 1511	Communication and Storytelling	
THTR 1125	Improvisation	
THTR 1130	Introduction to Acting	
THTR 1160	The Professional Voice	
THTR 2345	Acting for the Camera	
<b>Cybersecurity Required Courses</b>		
CY 2550	Foundations of Cybersecurity	4
CY 3740	Systems Security	4
CY 4740	Network Security	4
CY 4770	Cryptography	4

CY 4930 or CY 4940	Cybersecurity Capstone Research Projects on National Security	4
<b>Cybersecurity and Social Issues Elective List</b>		
Choose one:		4
COMM 2525	Communication and Privacy	
COMM 2551	Free Speech in Cyberspace	
CRIM 2340	Corporate Security: Securing the Private Sector	
CRIM 4040	Crime Prevention	
LPSC 1101	Introduction to Law	
LPSC 2301	Introduction to Law, Policy, and Society	
LPSC 3303	Topics in Law and Public Policy	
POLS 2390	Science, Technology, and Public Policy	
POLS 3307	Public Policy and Administration	
POLS 3324	Law and Society	
POLS 3406	International Law	
POLS 3408	International Security	
POLS 3420	U.S. National Security Policy	
POLS 3423	Terrorism and Counterterrorism	

### Choose one: Cybersecurity Electives OR Cyber Operations Concentration

Students have a choice between completing the BS Cybersecurity with the below Cybersecurity Elective options, or with the Cyber Operations Concentration. The degree automatically defaults to the Cybersecurity Elective options. Students looking to choose the Cyber Operations Concentration option must declare the concentration with their Academic Advisor.

#### CYBERSECURITY ELECTIVES:

Code	Title	Hours
<b>Law Requirement</b>		
CY 4170 or CY 5240	The Law, Ethics, and Policy of Data and Digital Technologies Cyberlaw: Privacy, Ethics, and Digital Rights	4

#### Cybersecurity Electives

If courses require prerequisites, those should be taken using general electives.

Complete four courses from the following:		16
COMM 2525	Communication and Privacy	
COMM 2551	Free Speech in Cyberspace	
CRIM 2340	Corporate Security: Securing the Private Sector	
CRIM 4040	Crime Prevention	
CS 2800 and CS 2801	Logic and Computation and Lab for CS 2800	
CS 4240	Large-Scale Parallel Data Processing	
CS 4400	Programming Languages	
CS 4500	Software Development	
CS 4710 or CS 6710	Mobile and Wireless Systems Wireless Network	
CY 5010	Foundations of Information Assurance	
CY 5200	Security Risk Management and Assessment	
CY 5210	Information System Forensics	
CY 5770	Software Vulnerabilities and Security	

DS 4300	Large-Scale Information Storage and Retrieval	
DS 4400	Machine Learning and Data Mining 1	
EECE 2322 and EECE 2323	Fundamentals of Digital Design and Computer Organization and Lab for EECE 2322	
EECE 3324	Computer Architecture and Organization	
EECE 4534 and EECE 4535	Microprocessor-Based Design and Lab for EECE 4534	
IS 4300	Human Computer Interaction	
LPSC 1101	Introduction to Law	
LPSC 2301	Introduction to Law, Policy, and Society	
LPSC 3303	Topics in Law and Public Policy	
MATH 3527	Number Theory 1	
MATH 4575	Introduction to Cryptography	
MISM 2301	Management Information Systems	
POLS 2390	Science, Technology, and Public Policy	
POLS 3307	Public Policy and Administration	
POLS 3324	Law and Society	
POLS 3406	International Law	
POLS 3408	International Security	
POLS 3420	U.S. National Security Policy	
POLS 3423	Terrorism and Counterterrorism	

#### CYBER OPERATIONS CONCENTRATION:

Code	Title	Hours
<b>Cyber Operations Required Courses</b>		
CS 4710	Mobile and Wireless Systems	4
CY 5770	Software Vulnerabilities and Security	4
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	4
<b>Electives</b>		
Complete two of the following:		8
CS 4500	Software Development	
CS 4240	Large-Scale Parallel Data Processing	
CY 5200	Security Risk Management and Assessment	
CY 5210	Information System Forensics	
EECE 3324	Computer Architecture and Organization	
EECE 4534	Microprocessor-Based Design	

#### Supporting Courses

Code	Title	Hours
<b>Electrical Engineering Required Course</b>		
EECE 2322	Fundamentals of Digital Design and Computer Organization	4
<b>Mathematics Courses</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 3081	Probability and Statistics	4

## Writing Requirements

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
<b>Advanced Writing in the Disciplines</b>		
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

## Required General Electives

Code	Title	Hours
Complete 24 credits of general electives.		24

## Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS and IS courses

## Computer Science Credit Requirements

Complete 83 semester hours in the major.

## NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

*Integrating Knowledge and Skills Through Experience* is satisfied through co-op.

## Program Requirement

133 semester hours required

## Data Science

The Bachelor of Science in Data Science studies the collection, manipulation, storage, retrieval, and computational analysis of data in its various forms, including numeric, textual, image, and video data from small to large volumes. The program combines computer science, information science, mathematics, statistics, and probability theory into an integrated curriculum that is designed to prepare students for careers or graduate studies in big data analysis, data science, and data analytics. The coursework covers exploratory data analysis, data manipulation in a variety of programming languages, large-scale data storage, predictive analytics, machine learning, data mining, and information visualization and presentation. Data science has emerged as a discipline due to the confluence of two major events:

1. The ability to collect, store, prune, process, and transmit large amounts of data in the cloud.
2. The convergence of programming, statistics, artificial intelligence, and visualization as complementary tools for the analysis and understanding of data.

## Programs

### Bachelor of Science (BS)

- Data Science, BS (p. 318)
- Data Science, Minor (p. 320)

## Data Science, BS

The Bachelor of Science in Data Science studies the collection, manipulation, storage, retrieval, and computational analysis of data in its various forms, including numeric, textual, image, and video data from small to large volumes.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Data Science Major Requirements

Code	Title	Hours

**Data Science, Minor**

The minor in data science studies the collection, manipulation, storage, retrieval, and computational analysis of data in its various forms, including numeric, textual, image, and video data from small to large volumes.

**Minor Requirements**

*Note: Khoury minors are only available to non-Khoury majors; students in Khoury-only or Khoury-combined degrees are not eligible for Khoury minors. A student may receive at most one Khoury minor, regardless of how many Khoury minors they qualify for.*

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

**Required Courses**

Code	Title	Hours
<b>Computer Science Fundamental Courses</b>		
Complete one of the following options:		9-10

*Fundamentals of Computer Science Option*

CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510

*Programming with Data Option*

DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum
---------------------	--

DS 2500 and DS 2501	Intermediate Programming with Data and Lab for DS 2500
---------------------	--

**Data Science Required Course**

DS 3000	Foundations of Data Science	4
---------	-----------------------------	---

**Data Science Electives**

Code	Title	Hours
Complete two of the following. Only one course from the Meaningful Minor list may contribute toward the minor requirements:		8

CS 3200	Database Design
---------	-----------------

DS 2010 to DS 4989

Meaningful Minor list (see below)

**Khoury Meaningful Minors**

The concept of “Khoury Meaningful Minors” allows students the chance to personalize a computer science minor to meet individual academic needs and interests. Students may take *one elective* related to computation or information from a preapproved list of courses offered across the university rather than from within Khoury. This allows students to integrate the minor with a course in their own major or with a course in another area of interest. Students may of course choose to take all electives in the minor within Khoury if they wish.

**GPA Requirement**

2.000 GPA required in the minor

**Khoury Combined Majors**

Khoury College offers combined majors with over 25 partner disciplines. Combined majors are carefully constructed degrees allowing students to explore multiple academic fields while staying on track for graduation. Each of the combined majors offers the opportunity for intense study in two disciplines with appropriate breadth in the liberal arts. Students take 9 to 13 courses in each subject and at least one integrative course that binds the disciplines together. These programs offer an excellent educational opportunity for the ambitious student.

## Programs

### Bachelor of Science (BS)

- Computer Science and Behavioral Neuroscience (p. 331)
- Computer Science and Biology (p. 334)
- Computer Science and Business Administration (p. 271)
- Computer Science and Cognitive Psychology (p. 341)
- Computer Science and Communication Studies (p. 169)
- Computer Science and Criminal Justice (p. 346)
- Computer Science and Design (p. 93)
- Computer Science and Economics (p. 351)
- Computer Science and English (p. 353)
- Computer Science and Environmental and Sustainability Sciences (p. 357)
- Computer Science and Game Development (p. 96)
- Computer Science and History (p. 361)
- Computer Science and Journalism (p. 195)
- Computer Science and Linguistics (p. 366)
- Computer Science and Mathematics (p. 368)
- Computer Science and Media Arts (p. 97)
- Computer Science and Music with Concentration in Music Technology (p. 215)
- Computer Science and Philosophy (p. 376)
- Computer Science and Physics (p. 378)
- Computer Science and Political Science (p. 381)
- Computer Science and Sociology (p. 385)
- Computer Science and Theatre (p. 242)
- Cybersecurity and Business Administration (p. 274)
- Cybersecurity and Criminal Justice (p. 392)
- Cybersecurity and Economics (p. 394)
- Data Science and Biochemistry (p. 396)
- Data Science and Biology (p. 398)
- Data Science and Behavioral Neuroscience (p. 400)
- Data Science and Business Administration (p. 277)
- Data Science and Chemistry (p. 405)
- Data Science and Environmental and Sustainability Sciences (p. 413)
- Data Science and Ecology and Evolutionary Biology (p. 408)
- Data Science and Economics (p. 411)
- Data Science and Health Science (p. 415)
- Data Science and Journalism (p. 199)
- Data Science and Linguistics (p. 419)
- Data Science and Mathematics (p. 422)
- Data Science and Physics (p. 424)
- Data Science and Psychology (p. 426)

### Bachelor of Science in Civil Engineering (BSCE)

- Civil Engineering and Computer Science (p. 324)

### Bachelor of Science in Chemical Engineering (BSChE)

- Chemical Engineering and Computer Science (p. 322)

### Bachelor of Science in Computer Engineering (BSCmpE)

- Computer Engineering and Computer Science (p. 327)

## Chemical Engineering and Computer Science, BSChE

The Bachelor of Science in Chemical Engineering and Computer Science provides expertise in computational modeling and simulation of chemical processes. The curriculum is designed to prepare students to practice in the engineering and control of processes involving chemicals, biotechnology feedstocks, and pharmaceuticals, as well as the fundamentals of program design, software development, and algorithms and data.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

### Engineering

Code	Title	Hours
<b>Required Engineering</b>		
CHME 2308	Conservation Principles in Chemical Engineering	4
CHME 2310	Transport Processes 1	4
CHME 2320	Chemical Engineering Thermodynamics 1	4
CHME 3312	Transport Processes 2 and Separations	4
CHME 3322	Chemical Engineering Thermodynamics 2	4
CHME 4315 and CHME 4316	Chemical Engineering Experimental Design 2 and Recitation for CHME 4315	4
CHME 4510	Chemical Engineering Kinetics	4
CHME 4512	Chemical Engineering Process Control	4
<b>Chemical Engineering Capstone</b>		
CHME 4701	Capstone Design 1: Process Analysis	4
CHME 4703 and CHME 4705	Capstone Design 2: Chemical Process Design and Recitation for CHME 4703	4

### Supplemental Credit

2 semester hours from the following course count toward the engineering requirement:	2
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>
3 semester hours from the following course count toward the engineering requirement:	3
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>

**Computer Science Courses**

Code	Title	Hours
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 3700	Networks and Distributed Systems	4
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4
<b>Khoury Elective Courses</b>		
With advisor approval, a directed study, research, project study, or appropriate graduate-level course may also be taken as a computer science elective.		
Complete 4 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:		4
CS 2500 or higher, except CS 5010		
CY 2000 or higher, except CY 4930		
DS 2000 or higher, except DS 4900		
IS 2000 or higher, except IS 4900		

**Supporting Courses: Mathematics/Science**

Complete all mathematics/science courses with a minimum of 30 semester hours.

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5
Complete one of the following:		4-5
BIOL 1115	General Biology 1 for Engineers	
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	
<b>Supplemental Credit</b>		
1 semester hour from the following course counts toward the mathematics/science requirement:		1
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	

**Professional Development**

Code	Title	Hours
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1
<b>Additional Required Courses</b>		
1 semester hour from the following course counts toward the professional development requirement:		1
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
1 semester hour from the following course counts toward the professional development requirement:		1
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	

**Writing Requirements**

Code	Title	Hours
A grade of C or higher is required in each course:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3307	Advanced Writing in the Sciences	
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Integrative Courses**

Code	Title	Hours
This course is already required above and also fulfills the integrative requirement.		
CHME 4512	Chemical Engineering Process Control	4

**Required General Electives**

Code	Title	Hours
Complete 8 semester hours of academic, nonremedial, nonrepetitive courses.		8

**Major GPA Requirement**

Minimum 2.000 GPA required in CHME courses

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

**Program Requirement**

135 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

**Civil Engineering and Computer Science, BSCE**

The Bachelor of Science in Civil Engineering and Computer Science provides expertise in computational modeling and simulation of civil and environmental processes and systems. Students will be prepared for

practice in the engineering and control of processes and systems vital for the sustainable development and management of civil and environmental infrastructure, as well as the fundamentals of program design, software development, and algorithms and data.

Computational and simulations-based approaches in engineering research and design practices have increased substantially in recent years in response to the rapidly increasing availability of data from remote and in-situ sensors as well as networked systems. Students who graduate with this combined major degree will have the breadth and depth of understanding and abilities to contribute to innovative and sustainable solutions to support global civil and environmental infrastructure demands.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC) and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements with their general elective.

## Engineering Requirement

Code	Title	Hours
<b>Required Engineering</b>		
CIVE 2221 and CIVE 2222	Statics and Solid Mechanics and Recitation for CIVE 2221	4
CIVE 2260 and CIVE 2261	Materials for the Built Environment and Lab for CIVE 2260	5
CIVE 2320 and CIVE 2321	Structural Analysis and Recitation for CIVE 2320	4
CIVE 2324	Concrete Structure Design	4
CIVE 2331	Fluid Mechanics and Hydraulics	4
CIVE 2334	Environmental Engineering: Principles, Technology, and Sustainability	4

Science elective (SI)	4	
	18	17

Total Hours: 139

## Computer Engineering and Computer Science, BSCmpE

This intercollege dual major serves students who are interested in both computer hardware and software, combining an accredited Bachelor of Science degree in engineering with the added benefits of depth in software principles found in a Bachelor of Science degree in computer science. This program provides a well-rounded computing education that includes engineering design principles, computational thinking, proper program design, and a solid background in mathematics and science. The degree is fully accredited as a Bachelor of Science in Computer Engineering and adds the computer science depth.

Because of the large body of shared knowledge between computer engineering and computer science, an integrated dual major between these two disciplines is a logical course of study and can be accomplished within a student's usual five-year program (including three co-op placements) without requiring course overloading in any semester. A student graduating from this program will have a solid foundation in both computer hardware and software principles, and should be prepared for a wide range of career paths in the computing field or any related field that relies on the application of engineering or computing principles.

Students interested in this program should contact the Department of Electrical and Computer Engineering or the Department of Computer and Information Science as early as possible, preferably prior to registering for freshman courses.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

## Engineering

Code	Title	Hours
<b>Required Courses</b>		
EECE 2140	Computing Fundamentals for Engineers	4
EECE 2150	Circuits and Signals: Biomedical Applications	5
EECE 2160	Embedded Design: Enabling Robotics	4
<b>Computer Engineering Fundamentals</b>		
CS 3000	Algorithms and Data	4
EECE 2322 and EECE 2323	Fundamentals of Digital Design and Computer Organization and Lab for EECE 2322	5
EECE 2540	Fundamentals of Networks	4
<b>Electrical Engineering Fundamentals</b>		
Complete one of the following: 4		
EECE 2412 and EECE 2413	Fundamentals of Electronics and Lab for EECE 2412	
EECE 2520	Fundamentals of Linear Systems	
EECE 2530 and EECE 2531	Fundamentals of Electromagnetics and Lab for EECE 2530	
<b>Computer Engineering Capstone Courses</b>		
EECE 4791	Electrical and Computer Engineering Capstone 1	1
EECE 4792	Electrical and Computer Engineering Capstone 2	4
<b>EECE Technical Electives</b>		
Students can register for EECE4991/EECE4992/EECE4993 more than once. For these courses combined, a maximum of 8SH will be allowed to satisfy the requirement of technical electives. An additional 4SH will be allowed as a general elective. At most one of these courses (4SH) can be taken in a semester.		
Though students may register for EECE 2750 more than once, only 4SH will be allowed to satisfy the requirements of technical electives. An additional 4SH will be allowed as a general elective.		
Complete two of the following: 8		
EECE 2412 to EECE 2530		
EECE 2750	Enabling Engineering	
EECE 3324 to EECE 4698		
EECE 4991	Research	
EECE 4992	Directed Study	
EECE 4993	Independent Study	
EECE 5115 to EECE 5698		
ENGR 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage	
<b>Khoury Elective Courses</b>		<b>8</b>

With advisor approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 8 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

<b>Supplemental Credit</b>		
2 semester hours from the following course count toward the engineering requirement:		2
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
3 semester hours from the following course count toward the engineering requirement:		3
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	

## Computer Science Requirements

Code	Title	Hours
<b>Computer Science Introductory Courses</b>		
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
CS 2800 and CS 2801	Logic and Computation and Lab for CS 2800	5
<b>Computer Science Upper-Level Courses</b>		
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 3650	Computer Systems	4
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4

## Supporting Courses: Mathematics/Science

Complete all Mathematics/Science courses with a minimum of 30 semester hours.

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 3081	Probability and Statistics	4
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	5
<b>Supplemental Credit</b>		

1 semester hour from the following course counts toward the mathematics/science requirement: 1

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	1
---------	---	---

### Professional Development

Code	Title	Hours
------	-------	-------

#### Required Professional Development

GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

#### Additional Required Courses

1 semester hour from the following course counts toward the professional development requirement: 1

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	1
---------	---	---

1 semester hour from the following course counts toward the professional development requirement: 1

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	1
---------	---	---

### Writing Requirements

Code	Title	Hours
------	-------	-------

A grade of C or higher is required:

ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

### Required General Electives

Code	Title	Hours
------	-------	-------

Complete 8 SH of academic, nonremedial, nonrepetitive courses. 8

### Integrative Courses

Code	Title	Hours
------	-------	-------

The following courses are already required above and also fulfill the integrative requirement.

CS 1800	Discrete Structures	
EECE 4791	Electrical and Computer Engineering Capstone 1	
EECE 4792	Electrical and Computer Engineering Capstone 2	
MATH 1341	Calculus 1 for Science and Engineering	
MATH 1342	Calculus 2 for Science and Engineering	
MATH 3081	Probability and Statistics	
PHYS 1151 and PHYS 1152	Physics for Engineering 1 and Lab for PHYS 1151	

### Major GPA Requirement

2.000 minimum GPA in EECE courses

2.000 minimum GPA required in all CS, CY, DS, and IS courses

### Program Requirement

140 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

## Plan of Study

### Four Years, Two Co-ops in Summer 2/Fall

Year 1							
Fall	Hours	Spring	Hours	Summer 1	Hours	Summer 2	Hours

**Notes**

- Computing Fundamentals for Engineers (EECE 2140) can be taken in Year 1 Spring during the five year plan instead of a General Elective by students who are interested in the course in preparation for co-ops involving programming and computing hardware.
- The Capstone Design Courses are taken as follows: (Electrical and Computer Engineering Capstone 1 (EECE 4791) - Summer 1 and Electrical and Computer Engineering Capstone 2 (EECE 4792) - Spring) OR (Electrical and Computer Engineering Capstone 1 (EECE 4791) - Summer 2 and Electrical and Computer Engineering Capstone 2 (EECE 4792) - Fall).

**Computer Science and Behavioral Neuroscience, BS**

The Bachelor of Science in Computer Science and Behavioral Neuroscience underscores how research in neuroscience has become a computational field of study. The combined major is designed for students who are interested in applying mathematical and computational methodologies toward understanding human behavior, artificial

intelligence, and the human-machine interface. Courses across multiple science disciplines—including biology, chemistry, and computer science—lay a strong foundation necessary to explore brain mechanisms and how they give rise to behavioral functions and pathological states using computational approaches. Students will have an opportunity to develop skills in software development as they apply algorithms and data structures to brain research and neurotechnology.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Computer Science Requirements

Code	Title	Hours
<b>Overview</b>		
CS 1200	First Year Seminar <sup>1</sup>	1
CS 1210	Professional Development for Khoury Co-op <sup>2</sup>	1
<b>Computer Science Foundations</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 4100	Artificial Intelligence	4
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4
<b>Statistics Foundation</b>		
Complete one of the following:		4-5
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	
PSYC 2320	Statistics in Psychological Research	

<sup>1</sup> Students entering through the behavioral neuroscience program may take Behavioral Neuroscience at Northeastern (BNSC 1000).

<sup>2</sup> Students entering through the behavioral neuroscience program may take Professional Development for Co-op (EESC 2000).

## Writing Requirements

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4

or ENGW 1102	First-Year Writing for Multilingual Writers	
<b>Advanced Writing in the Disciplines</b>		
Complete one of the following:		4
ENGW 3302	Advanced Writing in the Technical Professions	
ENGW 3307	Advanced Writing in the Sciences	
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

## Behavioral Neuroscience Requirements

Code	Title	Hours
<b>COS Foundations</b>		
BIOL 1107 and BIOL 1108	Foundations of Biology and Lab for BIOL 1107	5
BIOL 2299	Inquiries in Biological Sciences	4
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
CHEM 1161 and CHEM 1162 and CHEM 1163	General Chemistry for Science Majors and Lab for CHEM 1161 and Recitation for CHEM 1161	5
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5
PSYC 1101	Foundations of Psychology	4
<b>Mathematics Foundation</b>		
MATH 1341 or MATH 1251	Calculus 1 for Science and Engineering Calculus and Differential Equations for Biology 1	4
<b>Behavioral Neuroscience Foundations</b>		
BIOL 3405 or BIOL 5587	Neurobiology Comparative Neurobiology	4

## Computer Science and Biology, BS

The computer science and biology combined major reflects how research in biology, especially genetics, has become a computational science. The program provides a strong foundation in biology, chemistry, and mathematics, as well as software development and algorithms.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar <sup>1</sup>	
CS 1210	Professional Development for Khoury Co-op <sup>2</sup>	
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4

CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 3800	Theory of Computation (integrative course)	4
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4

**Khoury Elective Courses**

With adviser approval, a directed study, research, project study, or appropriate graduate-level course may also be taken as a computer science elective.

Complete 4 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:	4
CS 2500 or higher, except CS 5010	
CY 2000 or higher, except CY 4930	
DS 2500 or higher, except DS 4900	
IS 2000 or higher, except IS 4900	

<sup>1</sup> Students entering through the biology department may take Biology at Northeastern (BIOL 1000).

<sup>2</sup> Students entering through the biology department may take Professional Development for Co-op (EESC 2000).

**Biology Courses**

Code	Title	Hours
<b>Foundations of Biology</b>		
BIOL 1107 and BIOL 1108	Foundations of Biology and Lab for BIOL 1107	5
<b>Inquiries</b>		
BIOL 2299	Inquiries in Biological Sciences	4
<b>Molecular Biology</b>		
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
BIOL 3611 and BIOL 3612	Biochemistry and Lab for BIOL 3611	5
<b>Techniques in Biology</b>		
BIOL 2309	Biology Project Lab	4
<b>Chemistry</b>		
CHEM 1161 and CHEM 1162 and CHEM 1163	General Chemistry for Science Majors and Lab for CHEM 1161 and Recitation for CHEM 1161	5
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5
CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5
<b>Biology Capstone</b>		
Choose one:		4
BIOL 4701	Biology Capstone	
BIOL 4971	Junior/Senior Honors Project 2	
BIOL 4900	Biology Research Capstone	
<b>Intermediate and Advanced Biology Electives</b>		
Complete two biology courses (with corequisite labs if offered). Choose one of these two courses from the following list:		9-10
BIOL 2327	Human Parasitology	
BIOL 3401	Comparative Vertebrate Anatomy	
BIOL 3403	Animal Behavior	

BIOL 3413	Current Topics in Organismal and Population Biology	
BIOL 3421 and BIOL 3422	Microbiology and Lab for BIOL 3421	
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	
EEMB 2400	Introduction to Evolution	
EEMB 2700 and EEMB 2701	Marine Biology and Lab for EEMB 2700	
EEMB 3460	Conservation Biology	
Choose the second elective from the following list:		4-5
BIOL 2311 to BIOL 4999		
EEMB 2290 to EEMB 5515		
EEMB 5548 to EEMB 5569		

**Biology Integrative Course**

Complete one of the following:		4-5
BINF 6308	Bioinformatics Computational Methods 1	
BIOL 4707	Cell and Molecular Biology	
BIOL 5569	Advanced Microbiology	
BIOL 5581	Biological Imaging	
BIOL 5587	Comparative Neurobiology	
BIOL 5591	Advanced Genomics	
EEMB 4548	Sociobiology	

**Supporting Courses**

Code	Title	Hours
<b>Calculus</b>		
MATH 1251	Calculus and Differential Equations for Biology 1	4
MATH 1252	Calculus and Differential Equations for Biology 2	4
<b>Probability and Statistics</b>		
Complete one of the following:		4-5
MATH 3081	Probability and Statistics	
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	
<b>Computing and Social Issues</b>		
Complete one of the following:		4
AFAM 2600	Issues in Race, Science, and Technology	
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
IS 1300 or HIST 1300	Knowledge in a Digital World Introduction to Health and Humanities	
PHIL 1145	Technology and Human Values	
SOCL 1280	The Twenty-First-Century Workplace	
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

**Intermediate or Advanced Science**

Complete one course from the following:	4
BIOL 2327 to BIOL 3999	
BIOL 4705 to BIOL 5999	
CHEM 2311 to CHEM 5999	
EEMB 2290 to EEMB 5999	
ENVR 2310 to ENVR 5999	
MATH 2280 to MATH 5999	
PHYS 2303 to PHYS 5999	
PSYC 2290 to PSYC 5999	

### Writing Requirements

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
<b>Advanced Writing in the Disciplines</b>		
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	
or ENGW 3307	Advanced Writing in the Sciences	

### Required General Electives

Code	Title	Hours
Complete 16 credits of general electives		16

### NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Exploring Creative Expression and Innovation
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

### Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

### Program Requirement

141 total semester hours required

### Plan of Study

## Computer Science and Business Administration, BS

The computer science and business combined major delivers a technical degree with a strong grounding in business. Students will complete most of the requirements of a business major, including macroeconomics and microeconomics, while also focusing on technical skills like program design, software development, computer organization, systems and networks, theories of computation, principles of languages, and advanced algorithms and data.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4
Complete two of the following:		8
CS 3650	Computer Systems	
CS 3700	Networks and Distributed Systems	
DS 3000	Foundations of Data Science	
DS 4200	Information Presentation and Visualization	

DS 4300	Large-Scale Information Storage and Retrieval
---------	---

### Khoury Elective

With advisor approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete four credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges: 4

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

### Business Courses

Code	Title	Hours
<b>Required Business Courses</b>		
ACCT 1201	Financial Accounting and Reporting	4
ACCT 2301	Managerial Accounting	4
FINA 2201	Financial Management	4
ORGB 3201	Organizational Behavior	4
MKTG 2201	Introduction to Marketing	4
MGSC 2301	Business Statistics	4
STRT 4501	Strategy in Action	4

### Business Concentration

Complete a four-course business concentration from the following list.

- Accounting (p. 290)
- Brand Management (p. 290)
- Business Analytics (p. 291)
- Corporate Innovation and Venture (p. 291)
- Entrepreneurial Startups (p. 291)
- Family Business (p. 292)
- Finance (p. 292)
- Fintech (p. 293)
- Healthcare Management and Consulting (p. 293)
- International Business (p. 294) (available only as a second concentration)
- Management (p. 294)
- Marketing (p. 295)
- Marketing Analytics (p. 296)
- Social Innovation and Entrepreneurship (p. 296)
- Supply Chain Management (p. 297)

### Integrative Course

Code	Title	Hours
<b>Information Resource Management</b>		
MISM 2301	Management Information Systems	4

### Supporting Courses

Code	Title	Hours
<b>Mathematics</b>		
MATH 1341 or MATH 1231	Calculus 1 for Science and Engineering Calculus for Business and Economics	4
<b>Economics</b>		
ECON 1115	Principles of Macroeconomics	4

ECON 1116	Principles of Microeconomics	4
<b>Computing and Social Issues</b>		
Complete one of the following:		4
AFAM 2600	Issues in Race, Science, and Technology	
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
IS 1300 or PHIL 1300	Knowledge in a Digital World	
PHIL 1145	Technology and Human Values	
SOCL 1280	The Twenty-First-Century Workplace	
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

**Computer Science Writing Requirement**

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
<b>Advanced Writing in the Disciplines</b>		
ENGW 3302 or ENGW 3315	Advanced Writing in the Technical Professions Interdisciplinary Advanced Writing in the Disciplines	4

**Required General Electives**

Code	Title	Hours
Complete 16 credits of general electives.		16

**Business Cooperative Education Requirement**

Complete one six-month co-op experience.

**Khoury College GPA Requirement**

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

**Business GPA Requirement**

Minimum 2.000 GPA required in business courses

**NUpath Requirements Satisfied**

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Understanding Societies and Institutions
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major

- Demonstrating Thought and Action in a Capstone

*Integrating Knowledge and Skills Through Experience* is satisfied through co-op.

**Program Requirement**

133 total semester hours required

## Computer Science and Cognitive Psychology, BS

The computer science and cognitive psychology combined major provides a foundation in general psychology, psychology of language, cognition, and statistics—all supplemented by an experimental laboratory course, seminar course, and psychology electives. Students who choose this program often have a general interest in human psychology or specific interests in artificial intelligence or human-computer interaction.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 4100	Artificial Intelligence (Integrative course)	4
CS 4500 or CS 4530	Software Development (Integrative course) Fundamentals of Software Engineering	4
IS 4300	Human Computer Interaction (Integrative course)	4

### Khoury Elective Courses

With adviser approval, a directed study, research, project study, or appropriate graduate-level course may also be taken as a computer science elective.

Complete twelve credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

### Psychology Courses

Code	Title	Hours
<b>Required Courses</b>		
PSYC 1101	Foundations of Psychology	4
PSYC 2320	Statistics in Psychological Research	4
PSYC 3464	Psychology of Language	4
PSYC 3466	Cognition	4
<b>Advanced Psychology</b>		
PSYC 3452 or PSYC 3458	Sensation and Perception Biological Psychology	4
<b>Laboratory in Psychology</b>		
Complete one of the following:		4
PSYC 4610	Laboratory in Psycholinguistics	
PSYC 4612	Laboratory in Cognition	
PSYC 4622	Laboratory in Sensation and Perception	
<b>Seminar in Psychology</b>		
Complete one of the following:		4
PSYC 4658	Seminar in Psycholinguistics	
PSYC 4660	Seminar in Cognition	
PSYC 4668	Seminar in Sensation and Perception	
PSYC 4674	Seminar in Cognitive Neuroscience	
<b>Psychology Electives</b>		
Note: Courses satisfying the categories above cannot be reused.		
Complete two of the following:		8
PSYC 3402	Social Psychology	
PSYC 3404	Developmental Psychology	
PSYC 3450	Learning and Motivation	
PSYC 3451	Learning Principles and Behavior Analysis	
PSYC 3452	Sensation and Perception	
PSYC 3458	Biological Psychology	
PSYC 4512	Neuropsychology	
PSYC 4520	Language and the Brain	
PSYC 4522	Psychology of Reading	
PSYC 4524	Cognitive Development	
PSYC 4610	Laboratory in Psycholinguistics	
PSYC 4612	Laboratory in Cognition	
PSYC 4622	Laboratory in Sensation and Perception	
PSYC 4628	Laboratory in Developmental Psychology	
PSYC 4658	Seminar in Psycholinguistics	
PSYC 4660	Seminar in Cognition	
PSYC 4668	Seminar in Sensation and Perception	
PSYC 4674	Seminar in Cognitive Neuroscience	
PSYC 4676	Seminar in Developmental Psychology	

With prior approval, directed study research and Honors Project courses can also be counted:

PSYC 4970	Junior/Senior Honors Project 1
PSYC 4971	Junior/Senior Honors Project 2
PSYC 4991	Directed Study Research

### Supporting Courses

Code	Title	Hours
<b>Calculus</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
<b>Computing and Social Issues</b>		
Complete one of the following:		4
AFAM 2600	Issues in Race, Science, and Technology	
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
IS 1300	Knowledge in a Digital World	
or PHIL 1300	Knowledge in a Digital World	
PHIL 1145	Technology and Human Values	
SOCL 1280	The Twenty-First-Century Workplace	
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

### Computer Science Writing Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
<b>Advanced Writing in the Disciplines</b>		
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

### Required General Electives

Code	Title	Hours
Complete 32 credits of general electives.		32

### Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

### NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Understanding Societies and Institutions
- Analyzing and Using Data
- Writing in the First Year

- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

### Program Requirement

133 total semester hours required

## Computer Science and Communication Studies, BS

The computer science and communication studies combined major integrates practical skills and theory. Students will gain both a strong computer science foundation and a deep understanding of the major conceptual frameworks for human communication—plus how to apply this knowledge to solve problems in today's society.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4
CS 4550	Web Development	4
<b>Khoury Elective</b>		
With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.		
Complete 12 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:		12
CS 2500 or higher, except CS 5010		
CY 2000 or higher, except CY 4930		
DS 2500 or higher, except DS 4900

## Computer Science and Criminal Justice, BS

For students interested in criminal justice in an increasingly digital world, the computer science and criminal justice combined degree offers a strong programming foundation coupled with academic and experiential knowledge of the criminal justice system. Successful students will learn the principles, practices, and responsibilities of criminal justice professionals alongside the computer science skills necessary for practical applications in the field.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>

CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
IS 2000	Principles of Information Science	4
<b>Khoury Elective Courses</b>		
With advisor approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.		
Complete 16 credits of upper-division CS, CY, DS, or IS courses that are not already required. Choose courses within the following ranges:		16
CS 2500 or higher, except CS 5010		
CY 2000 or higher, except CY 4930		

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

### Criminal Justice Courses

Code	Title	Hours
<b>Introduction to Crime, Law, and the Justice System</b>		
What do we know about crime and justice? In these three courses, students have an opportunity to develop a foundational understanding of three related phenomena: why crime exists, how our criminal justice system responds to crime, and the constitutional and legal oversight of this process.		
CRIM 1100	Introduction to Criminal Justice	4
CRIM 1110	Criminal Due Process	4
CRIM 1120	Criminology	4
<b>Current Crime and Justice Issues</b>		
These courses introduce students to topical issues related to crime and justice.		
Complete one of the following:		4
CRIM 1300	The Death Penalty	
CRIM 1400	Human Trafficking	
CRIM 1500	Corruption, Integrity, and Accountability	
CRIM 1700	Crime, Media, and Politics	
<b>Crime Problems and Criminal Justice Institutions</b>		
The 2000-level courses in this list ask how does justice work and for whom? These courses introduce students to the systems and institutions tasked with providing justice. Each includes experiential learning components in cooperation with local criminal justice institutions. The 3000-level courses in this list provide students with a deeper look at a range of crime problems.		
Complete one of the following:		4
CRIM 2310	Courts: The Third Branch of Government	
CRIM 2320	Youth Crime and Justice	
CRIM 2330	Punishment in the Age of Mass Incarceration	
CRIM 2340	Corporate Security: Securing the Private Sector	
CRIM 2350	Policing a Democratic Society	
CRIM 3010	Criminal Violence	
CRIM 3030	Global Criminology	
CRIM 3040	Psychology of Crime	
CRIM 3050	Organized Crime	
CRIM 3070	Corporate and White-Collar Crime	
<b>Systemic Issues</b>		
These courses consider systemic issues facing the criminal justice system.		
Complete one of the following:		4
CRIM 3110	Gender, Crime, and Justice	
CRIM 3120	Race, Crime, and Justice	
<b>Creating Knowledge about Crime and Justice</b>		
How do we know what we know about crime and justice—and how do we develop new knowledge? These courses cover how to harness data to learn about issues, identify solutions, and advocate for change.		
CRIM 3600	Criminal Justice Research Methods	4

CRIM 3700	Analyzing and Using Data on Crime and Justice	4
-----------	---	---

**Criminal Justice Capstone**

CRIM 4949	Senior Capstone Seminar	4
-----------	-------------------------	---

**Criminal Justice Elective**

These courses round out our knowledge of crime and justice.

Complete one additional criminal justice elective from the 3000, 4000, or 5000 level.	4
---	---

**Integrative Course Requirement**

Code	Title	Hours
Complete one of the following: 4		
CRIM 3060	Political Crime and Terrorism	
CRIM 4040	Crime Prevention	
CRIM 4900	Advanced Seminar in Criminology and Criminal Justice	

**Supporting Course**

Code	Title	Hours
<b>Computing and Social Issues</b>		
Complete one of the following: 4		
AFAM 2600	Issues in Race, Science, and Technology	
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
IS 1300	Knowledge in a Digital World	
or PHIL 1300	Knowledge in a Digital World	
PHIL 1145	Technology and Human Values	
SOCL 1280	The Twenty-First-Century Workplace	
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

**Computer Science English Requirement**

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
or ENGW 1102	First-Year Writing for Multilingual Writers	

**Advanced Writing in the Disciplines**

Complete one of the following:		
ENGW 3302	Advanced Writing in the Technical Professions	
ENGW 3308	Advanced Writing in the Social Sciences	
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Required General Electives**

Code	Title	Hours
Complete 28 credits of general electives.		28

**Khoury College GPA Requirement**

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

**NUpath Requirements Satisfied**

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Understanding Societies and Institutions
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Program Requirement**

133 total semester hours required

**Plan of Study**

**Sample Patterns:**

**Four Years, 2 Co-ops in Spring/Summer 1**

## Computer Science and Design, BS

The combined major in computer science and design integrates fundamental design courses with a strong programming foundation. Students will declare a concentration in interaction design, graphic and information design, or experience design. Students in this major often have an interest in human-centered design methods used in developing digital interfaces and applications.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200 or ARTF 1000	First Year Seminar Art and Design at Northeastern	1
CS 1210	Professional Development for Khoury Co-op	1

or EEAM 2000 Professional Development for Co-op

<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4
IS 4300	Human Computer Interaction	4

### Computer Science Elective Courses

With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 8 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges: 8

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

## Design Requirements

Code	Title	Hours
<b>Art + Design Fundamentals Required</b>		
ARTF 1122	Color and Composition (with optional ARTF 1123)	4
<b>Art + Design Fundamentals Elective</b>		
Complete one of the following:		4-5
ARTF 1121	Conceptual Drawing	
ARTF 1124 and ARTF 1125	Form and Structure and Form and Structure Tools	
ARTF 2220	Movement and Time (with optional ARTF 2221)	
ARTF 2223	Experience and Interaction (with optional ARTF 2224)	
<b>Design Required</b>		
ARTG 1250	Design Process Context and Systems	4
ARTG 2250	Typography 1 (with optional ARTG 2251)	4
ARTG 3350	Typography 2	4
ARTG 3451	Information Design 1	4
<b>Design Elective</b>		
Complete any one ARTG design elective course, as long as prerequisites have been met.		4
<b>Art + Design History Elective</b>		
Complete any one ARTH course.		4
<b>Art + Design Elective</b>		
Complete any one ARTG, ARTE, ARTD, ARTH, ARTS, or GAME course as long as prerequisites have been met.		4

## Degree Capstone Project

ARTG 4550	Design Degree Project 1	4
-----------	-------------------------	---

## Design Options

Code	Title	Hours
Complete one of the following options:		8

### Interaction Design Option

ARTG 2400	Interaction Design 1: Responsive (with optional ARTG 2401)
ARTG 3700	Interaction Design 2: Mobile

Code	Title	Hours
------	-------	-------

### Graphic and Information Design Option

ARTG 2252	Graphic Design 1
ARTG 3450	Graphic Design 2

Code	Title	Hours
------	-------	-------

### Experience Design Option

ARTG 3462	Experience Design 1
ARTG 3463	Experience Design 2

## Degree-Focused Electives

Code	Title	Hours
Complete two courses from the following lists:		8

### Art + Design

Complete any ARTG or ARTE courses as long as prerequisites have been met.

### Psychology

PSYC 1101	Foundations of Psychology
PSYC 3452	Sensation and Perception
PSYC 3464	Psychology of Language
PSYC 3466	Cognition

### Computer Science

CS 3200	Database Design
CS 3520	Programming in C++
CS 3540	Game Programming
CS 3650	Computer Systems
CS 3700	Networks and Distributed Systems
CS 3800	Theory of Computation
CS 4100	Artificial Intelligence
CS 4150	Game Artificial Intelligence
CS 4300	Computer Graphics
CS 4400	Programming Languages
CS 4520	Mobile Application Development
CS 4550	Web Development
CS 4850	Building Game Engines
CS 4991	Research
CS 4992	Directed Study
CS 4993	Independent Study
DS 3000	Foundations of Data Science
DS 4200	Information Presentation and Visualization
DS 4300	Large-Scale Information Storage and Retrieval
DS 4400	Machine Learning and Data Mining 1

DS 4420	Machine Learning and Data Mining 2
IS 2000	Principles of Information Science

### Integrative Requirement

Code	Title	Hours
The following courses are used in the major but also count as the integrative requirement:		
IS 4300	Human Computer Interaction	
ARTG 4550	Design Degree Project 1	

### Supporting Course

Code	Title	Hours
<b>Computing and Social Issues</b>		
Complete one of the following:		4
AFAM 2600	Issues in Race, Science, and Technology	
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
IS 1300 or PHIL 1300	Knowledge in a Digital World	
PHIL 1145	Technology and Human Values	
SOCL 1280	The Twenty-First-Century Workplace	
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

### Computer Science Writing Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
<b>Advanced Writing in the Disciplines</b>		
ENGW 3302 or ENGW 3315	Advanced Writing in the Technical Professions Interdisciplinary Advanced Writing in the Disciplines	4

### Required General Electives

Code	Title	Hours
Complete 24 credits of general electives.		24

### NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Exploring Creative Expression and Innovation
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines

- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

### Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS and IS courses

### Computer Science and Design Major Credit Requirement

96 SH are required in the major.

### Program Requirement

133 total semester hours required

### Plan of Study

#### Five Years, Three Co-ops in Spring/Summer 1

## Computer Science and Economics, BS

The combined major in computer science and economics integrates fundamental economics courses with a strong programming foundation. Studying both the behavior of individuals and the collective behavior of industries and governments, students will utilize computing skills to address complex issues within the field.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
or ECON 1000	Economics at Northeastern	
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5

CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
CS 2800 and CS 2801	Logic and Computation and Lab for CS 2800	5

**Computer Science Required Courses**

CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
IS 2000	Principles of Information Science	4
Choose one		4
IS 4200	Information Retrieval	
IS 4300	Human Computer Interaction	

**Khoury Elective**

With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 8 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges: 8

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

**Economics Requirements**

Code	Title	Hours
<b>Required Economics Courses</b>		
ECON 1115	Principles of Macroeconomics	4

## Computer Science and English, BS

The computer science and English combined major focuses on the increasingly interdisciplinary processes of creating, interpreting, and analyzing texts and programs. Students will combine communication and critical judgment, gaining the creativity and adaptability necessary to utilize technology in literary studies, and apply humanities skills to solve programming problems.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5

CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
------------------------	---	---

**Computer Science Required Courses**

CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5

**Computing Focus**

Students are required to complete one of the following foci (two courses total): 8

*Focus 1: Natural Language Processing*

CS 3800	Theory of Computation
CS 4120	Natural Language Processing

*Focus 2: Programming Languages*

CS 3800	Theory of Computation
CS 4400	Programming Languages

*Focus 3: Analytics*

DS 3000	Foundations of Data Science
DS 4200	Information Presentation and Visualization

**Computer Science/Information Science Elective Course**

Choose one: 4

IS 2000	Principles of Information Science
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering

**Khoury Elective Courses**

With adviser approval, a directed study, project study, or appropriate graduate-level course may also be taken as an upper-division elective.

Complete 4 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges: 4

CS 2500 or higher, except CS 5010
CY 2000 or higher, except CY 4930
DS 2500 or higher, except DS 4900
IS 2000 or higher, except IS 4900

**English Requirements**

Code	Title	Hours
------	-------	-------

**English Course-Level Requirement**

In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.

**Introduction to College**

ENGL 1000	English at Northeastern	1
-----------	-------------------------	---

**Foundational Courses**

ENGL 1400	Introduction to Literary Studies	4
ENGL 1160 or ENGL 1410	Introduction to Rhetoric Introduction to Research on Writing	4

**Diversity**

Complete one of the following courses. This course may also be used to fulfill an additional English requirement below: 4

ENGL 2150	Literature and Digital Diversity
ENGL 2296	Early African-American Literature
ENGL 2451	Postcolonial Women Writers
ENGL 2455	American Women Writers
ENGL 2760	Writing in Global Contexts

ENGL 3663	The African American Novel
-----------	----------------------------

ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity
-----------	---

ENGL 3685	Modern and Contemporary Jewish Literature
-----------	---

or JWSS 3685 Modern and Contemporary Jewish Literature

**Pre-Nineteenth-Century Literature**

Complete one of the following: 4

ENGL 1600	Introduction to Shakespeare
-----------	-----------------------------

ENGL 1700	Global Literatures 1
-----------	----------------------

ENGL 2296	Early African-American Literature
-----------	-----------------------------------

ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity
-----------	---

or JWSS 3678 Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity

ENGL 3101	Early Literatures
-----------	-------------------

ENGL 3120	17th- and 18th-Century Literatures
-----------	------------------------------------

**Nineteenth-, Twentieth-, and Twenty-First-Century Literature**

Complete one of the following: 4

ENGL 2330	The American Renaissance
-----------	--------------------------

ENGL 2301	The Graphic Novel
-----------	-------------------

ENGL 2440	The Modern Bestseller
-----------	-----------------------

ENGL 2600	Irish Literary Culture (Abroad)
-----------	---------------------------------

ENGL 2610	Contemporary Israeli Literature and Art (Abroad)
-----------	--

ENGL 3140	19th-Century Literatures
-----------	--------------------------

ENGL 3685	Modern and Contemporary Jewish Literature
-----------	---

or JWSS 3685 Modern and Contemporary Jewish Literature

ENGL 3720	19th-Century Major Figure
-----------	---------------------------

ENGL 3730	20th- and 21st-Century Major Figure
-----------	-------------------------------------

**Theories and Methods**

Complete one of the following: 4

ENGL 1140	Grammar: The Architecture of English
-----------	--------------------------------------

ENGL 1160	Introduction to Rhetoric
-----------	--------------------------

ENGL 1410	Introduction to Research on Writing
-----------	-------------------------------------

ENGL 2150	Literature and Digital Diversity
-----------	----------------------------------

ENGL 3325	Rhetoric of Law
-----------	-----------------

ENGL 3340	Technologies of Text
-----------	----------------------

ENGL 3370	Writing Cultures
-----------	------------------

ENGL 3381	The Practice and Theory of Teaching Writing
-----------	---

ENGL 3400	Opening the Archive
-----------	---------------------

ENGL 3700	Narrative Medicine
-----------	--------------------

ENGL 4410	Research in Rhetoric and Writing
-----------	----------------------------------

LING 1150	Introduction to Language and Linguistics
-----------	--

LING 2350	Linguistic Analysis
-----------	---------------------

LING 3450	Syntax
-----------	--------

LING 3452	Semantics
-----------	-----------

LING 3454	History of English
-----------	--------------------

LING 3456	Language and Gender
-----------	---------------------

LING 3458	Topics in Linguistics
-----------	-----------------------

**Comparative Literature**

Complete one of the following:		4
ENGL 1450	Reading and Writing in the Digital Age	
ENGL 1502	American Literature to 1865	
ENGL 2150	Literature and Digital Diversity	
ENGL 2420	Contemporary Poetry	
ENGL 2430	Contemporary Fiction	
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2510	Horror Fiction	
ENGL 2520	Science Fiction	
ENGL 2600	Irish Literary Culture (Abroad)	
ENGL 2620	What Is Nature?	
ENGL 2690	Boston in Literature	
ENGL 3487	Film and Text (Abroad)	
ENGL 3663	The African American Novel	

**Writing**

Complete one of the following:		4
ENGL 2700	Creative Writing	
ENGL 2710	Style and Editing	
ENGL 2740	Writing and Community Engagement	
ENGL 2760	Writing in Global Contexts	
ENGL 2770	Writing to Heal	
ENGL 2780	Visual Writing: Writing Visuals	
ENGL 2850	Writing for Social Media: Theory and Practice	
ENGL 3375	Writing Boston	
ENGL 3376	Creative Nonfiction	
ENGL 3377	Poetry Workshop	
ENGL 3378	Fiction Workshop	
ENGL 3380	Writing Seminar	
ENGL 3382	Publishing in the 21st Century	
ENGL 3384	The Writer's Marketplace	

**Capstone**

ENGL 4710	Capstone Seminar	4
or ENGL 4720	Capstone Project	

**English Electives**

Complete two additional ENGL electives.	8
---	---

**Integrative Course Requirement**

This course will not be allowed to double-count in the Theories and Methods section above.

Code	Title	Hours
ENGL 3340	Technologies of Text	4

**Supporting Course**

Code	Title	Hours
Complete one of the following:		
AFAM 2600	Issues in Race, Science, and Technology	4
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	

ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
IS 1300 or PHIL 1300	Knowledge in a Digital World	
PHIL 1145	Technology and Human Values	
SOCL 1280	The Twenty-First-Century Workplace	
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

**Computer Science Writing Requirement**

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
or ENGW 1102	First-Year Writing for Multilingual Writers	

**Advanced Writing in the Disciplines**

Complete one course from the following:		4
ENGW 3302	Advanced Writing in the Technical Professions	
ENGW 3309	Advanced Writing in the Humanities	
ENGW 3310	Advanced Writing in Literature	
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Required General Electives**

Code	Title	Hours
Complete 32 credits of general electives.		32

**Khoury College GPA Requirement**

Minimum 2.000 GPA required in all CS, CY, DS and IS courses

**NUpath Requirements Satisfied**

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Exploring Creative Expression and Innovation
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Computer Science and Environmental and Sustainability Sciences, BS

The computer science and the environmental and sustainability sciences combined major focuses on the major environmental challenges facing our planet and provides broad training to understand how these challenges can be met through advances in computer science and artificial intelligence. Understanding these processes requires both the acquisition and computational analysis of large amounts of data—underscoring the synergistic relationship between computer science and environmental and sustainability sciences.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000 and CS 3001	Algorithms and Data and Recitation for CS 3000	4
CS 3200	Database Design	4
CS 3500	Object-Oriented Design	4

CS 3800	Theory of Computation	4
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4

### Khoury Elective Courses

With advisor approval, a directed study, research, project study, or appropriate graduate-level course may also be taken as a computer science elective.

Complete 4 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

### Environmental and Sustainability Sciences Courses

Code	Title	Hours
<b>Environmental and Sustainability Sciences Required Courses</b>		
ENVR 1400 and ENVR 1401	Foundations in Environmental and Sustainability Sciences and Lab for ENVR 1400	5
ENVR 2200 or ENVR 1200	Earth's Changing Cycles Dynamic Earth	4
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	5
ENVR 2515	Sustainable Development	4
Choose one from each category:		
<i>Skills</i>		4-5
ENVR 3300 and ENVR 3301 or EEMB 3555	Geographic Information Systems and Lab for ENVR 3300 Networks and Natural Systems	
<i>Earth Oceans and Environmental Change</i>		4-5
ENVR 2310 and ENVR 2311	Earth Materials and Lab for ENVR 2310	
ENVR 3600	Oceanography	
ENVR 3125	Global Oceanic Change	
ENVR 4500 and ENVR 4501	Applied Hydrogeology and Lab for ENVR 4500	
<i>Conservation, Restoration, and Management</i>		4
EEMB 2400	Introduction to Evolution	
EEMB 3460	Conservation Biology	
EEMB 4001	Landscape and Restoration Ecology	
EEMB 3465	Ecological and Conservation Genomics	
<i>Sustainable Planning and Development</i>		4
ENVR 3200	Water Resources	
ENVR 3150	Food Security and Sustainability	
ENVR 5210	Environmental Planning	
ENVR 5350	Sustainable Energy and Climate Solutions	
<i>Environment and Society</i>		4
POLS 2395	Environmental Politics and Policy	
PPUA 5260	Ecological Economics	
PPUA 5268	International Environmental Policy	
SOCL 2485	Environment, Technology, and Society	

### Supporting Courses

Code	Title	Hours
<b>Calculus</b>		
MATH 1251	Calculus and Differential Equations for Biology 1	4
or MATH 1341	Calculus 1 for Science and Engineering	
MATH 1252	Calculus and Differential Equations for Biology 2	4
or MATH 1342	Calculus 2 for Science and Engineering	
MATH 3081	Probability and Statistics	4
<b>Chemistry</b>		
CHEM 1211 and CHEM 1212 and CHEM 1213	General Chemistry 1 and Lab for CHEM 1211 and Recitation for CHEM 1211	5
CHEM 1214 and CHEM 1215 and CHEM 1216	General Chemistry 2 and Lab for CHEM 1214 and Recitation for CHEM 1214	5
<b>Computing and Social Issues</b>		
Complete one of the following:		4
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks

**Computer Science and Game Development, BS**

The computer science and game development combined major focuses on the specific skills needed to succeed in the highly competitive game industry. Students will engage in building and developing games and playable media experiences while completing courses in computer science and specialized game technology and design. Interdisciplinary courses enable students to develop their creative and entrepreneurial abilities, as well as create a strong portfolio of game pieces.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

\*Indicates courses that must be taken in the semester listed.

## Computer Science and History, BS

The computer science and history combined major offers students the opportunity to gain both historical knowledge and a broad range of related analytical skills in both the humanities and computer science. You'll define a history course cluster according to a thematic principle, with a focus on quantitative analysis in the field, complementing your foundation in programming.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
IS 2000	Principles of Information Science	4
<b>Khoury Elective Courses</b>		
With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.		
Complete 16 credits of upper-division CS, CY, DS, or IS courses that are not already required. Choose courses within the following ranges:		16
CS 2500 or higher, except CS 5010		
CY 2000 or higher, except CY 4930		
DS 2500 or higher, except DS 4900		
IS 2000 or higher, except IS 4900		

## History Courses

Code	Title	Hours
<b>History Required Courses</b>		
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1
<b>History Electives</b>		
Complete one introductory course from the following:		4
ASNS 1150	East Asian Studies	
HIST 1120	Public History, Public Memory	
HIST 1130	Introduction to the History of the United States	
HIST 1170	Europe: Empires, Revolutions, Wars, and Their Aftermath	
HIST 1185	Introduction to Middle Eastern History	
HIST 1190	Picturing Modernity: The Photographic Image in Culture and Society	
WMNS 1103	Introduction to Women's, Gender, and Sexuality Studies	
Complete one course from the following:		4
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1252	Japanese Literature and Culture	
HIST 1285	Introduction to Russian Civilization	
HIST 1389	History of Espionage 1: Antiquity to World War II	
HIST 2330	Colonial and Revolutionary America	
Intermediate/Advanced History Cluster		12
Complete three HIST courses numbered 2303 or above. Cluster is subject to Department approval.		
Complete one advanced-level course:		4
Select from any HIST course numbered 3000 or above.		
<b>History Capstone Seminar or Senior Project</b>		
Complete one capstone experience from the following:		4
HIST 4701	Capstone Seminar	
Public history concentrators may also select from the following:		
HIST 4903	Fieldwork in History 1	
<b>Integrative Course Requirement</b>		
Code	Title	Hours
HIST 2211	The World Since 1945	4
<b>Supporting Courses</b>		
Code	Title	Hours
<b>Research Methods</b>		
Complete one course from the following:		4
ECON 2350	Statistics	
ENVR 3300	Geographic Information Systems	
ENVR 5260	Geographical Information Systems	
POLS 2400	Quantitative Techniques	
PSYC 2320	Statistics in Psychological Research	
<b>Computing and Social Issues</b>		
Complete one of the following:		4

AFAM 2600	Issues in Race, Science, and Technology
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights
ENGL 2150	Literature and Digital Diversity
HIST 2220	History of Technology
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks
IS 1300 or PHIL 1300	Knowledge in a Digital World
PHIL 1145	Technology and Human Values
SOCL 1280	The Twenty-First-Century Workplace
SOCL 2485	Environment, Technology, and Society
SOCL 4528	Computers and Society

## Computer Science Writing Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111 or ENGW 1102	First-Year Writing First-Year Writing for Multilingual Writers	4

### Advanced Writing in the Disciplines

This requirement is satisfied by HIST 2302 taken in conjunction with HIST 2301.

## Required General Electives

Code	Title	Hours
Complete 32 credits of general electives.		32

## Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

## Computer Science and History GPA/Credit Requirement

Complete 98 semester hours in the major with a minimum 2.000 GPA

## NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year
- Writing-Intensive in the Major
- Advanced Writing in the Disciplines
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

135 total semester hours required

### Plan of Study

#### Sample Patterns:

#### Four Years, Two Co-ops in Summer 2/Fall

Year 1				
Fall	Hours Spring	Hours Summer 1	Hours Summer 2	Hours
CS 1200	1 CS 2510 and CS 2511	5 CS 3500 and CS 3501	5 Vacation

## Computer Science and Journalism, BS

The computer science and journalism combined major supports students who understand that journalism now takes place in both print and the digital world. Students will learn the principles, practices, and responsibilities of the journalism profession while gaining a deep understanding of the systems and technologies that support digital media.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4

CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4
IS 4200 or IS 4300	Information Retrieval Human Computer Interaction	4

### Khoury Elective Courses

With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 12 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

### Journalism Major Requirements

Students transferring from outside institutions must complete a minimum of five 4-credit journalism courses at Northeastern, and these must include:

Code	Title	Hours
JRNL 2201	Journalism 2: Intermediate Reporting	
JRNL 2301	Visual Storytelling in Journalism	
JRNL 4650	Ethics and Issues in Journalism	

Code	Title	Hours
<b>Journalism Courses</b>		

A grade of C or higher is required:

JRNL 1101 and JRNL 1102	Journalism 1: Fundamentals of Reporting and Journalist's Toolbox	5
JRNL 2201	Journalism 2: Intermediate Reporting	4
JRNL 2301	Visual Storytelling in Journalism	4
JRNL 3610	Digital Storytelling and Social Media	4

### Required Journalism

JRNL 1150	Understanding Today's News	4
JRNL 2350	The History of Journalism: How the News Became the News	4
JRNL 3550	The First Amendment and the Media	4
JRNL 4650	Ethics and Issues in Journalism	4

### Journalism Electives

Complete two JRNL courses. 8

### Journalism-Related Requirement

HIST 1130	Introduction to the History of the United States	4
-----------	--	---

### Supporting Courses

Code	Title	Hours
<b>Mathematics Requirement</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
<b>Computing and Social Issues</b>		
Complete one of the following: 4		
AFAM 2600	Issues in Race, Science, and Technology	

CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights
ENGL 2150	Literature and Digital Diversity
HIST 2220	History of Technology
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks
IS 1300 or PHIL 1300	Knowledge in a Digital World
PHIL 1145	Technology and Human Values
SOCL 1280	The Twenty-First-Century Workplace
SOCL 2485	Environment, Technology, and Society
SOCL 4528	Computers and Society

## Writing Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
<b>Advanced Writing in the Disciplines</b>		
<i>This course already fulfills a Journalism requirement above</i>		
JRNL 2301	Visual Storytelling in Journalism	

## Required General Electives

Code	Title	Hours
	Complete 28 credits of general electives.	28

## NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Exploring Creative Expression and Innovation
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Understanding Societies and Institutions
- Interpreting Culture
- Engaging Difference and Diversity
- Employing Ethical Reasoning
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

## Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, IS courses

## Journalism GPA Requirement

Minimum 2.000 GPA required in all JRNL courses

## Program Requirement

134 total semester hours required

## Plan of Study

### Sample Pattern, Four Years, Two Co-ops in Spring/Summer 1

Year 1

## Computer Science and Linguistics, BS

The computer science and linguistics combined major provides students with extensive background in the formal structures of natural (human) languages, as well as methods and applications of linguistic and psycholinguistic analyses of human language data. This is combined with an emphasis in computer science on artificial intelligence and natural language processing techniques. The major provides excellent preparation for work or more advanced degrees focusing on computational linguistics, natural language processing, speech perception, spoken language interfaces, artificial intelligence, and a wide array of related fields.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Computer Science Courses

Code	Title	Hours
------	-------	-------

### Computer Science Overview

CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1

### Computer Science Fundamental Courses

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5

### Computer Science Required Courses

CS 3000	Algorithms and Data	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 3800	Theory of Computation (Integrative course)	4
CS 4100	Artificial Intelligence (Integrative course)	4
CS 4120	Natural Language Processing (Integrative course)	4
CS 4400	Programming Languages (Integrative course)	4
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4

### Khoury Elective Courses

With adviser approval, directed study, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 4 credits of CS, CY, DS, or IS courses that are not already required. Choose courses within the following range:	4
CS 2500 or higher, except CS 5010	
CY 2000 or higher, except CY 4930	
DS 2500 or higher, except DS 4900	
IS 2000 or higher, except IS 4900	

## Linguistics Requirements

Code	Title	Hours
------	-------	-------

### Linguistics Foundations

LING 1150	Introduction to Language and Linguistics	4
-----------	--	---

LING 2350	Linguistic Analysis (Integrative course)	4
LING 3412	Language and Culture	4

**Linguistic Structure**

Complete three of the following: 12

LING 3420	Phonetics	
LING 3422	Phonology	
LING 3424	Morphology	
LING 3450	Syntax	
LING 3452	Semantics	

**Psychology Requirements**

PSYC 1101	Foundations of Psychology	4
PSYC 2320	Statistics in Psychological Research	4
PSYC 3464	Psychology of Language	4

**Laboratory/Directed Study**

Complete one of the following: 4

LING 4891	Research Seminar in Linguistics	
LING 4991	Directed Study Research	
PSYC 4610	Laboratory in Psycholinguistics	

**Seminar Requirement**

LING 4654	Seminar in Linguistics	4
or PSYC 4658	Seminar in Psycholinguistics	

**Linguistics Elective**

Complete one LING course, not counted elsewhere, numbered 3000-4799, or one of the following: 4

DEAF 2700	ASL Linguistics	
PSYC 3466	Cognition	
PSYC 4520	Language and the Brain	
PSYC 4522	Psychology of Reading	
PSYC 4524	Cognitive Development	
PSYC 4610	Laboratory in Psycholinguistics	
PSYC 4658	Seminar in Psycholinguistics	
PSYC 4660	Seminar in Cognition	
PSYC 4674	Seminar in Cognitive Neuroscience	

With prior approval, directed study research, independent study, and Honors Project courses can also be counted:

LING 4891	Research Seminar in Linguistics	
LING 4970	Junior/Senior Honors Project 1	
LING 4971	Junior/Senior Honors Project 2	
LING 4991	Directed Study Research	
PSYC 4991	Directed Study Research	

**Supporting Courses**

Code	Title	Hours
------	-------	-------

**Mathematics Requirement**

MATH 1341	Calculus 1 for Science and Engineering	4
-----------	--	---

**Computing and Social Issues**

Complete one of the following: 4

AFAM 2600	Issues in Race, Science, and Technology	
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
HIST 2220	History of Technology	
ENGL 2150	Literature and Digital Diversity	

INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
IS 1300	Knowledge in a Digital World	
or PHIL 1300	Knowledge in a Digital World	
PHIL 1145	Technology and Human Values	
SOCL 1280	The Twenty-First-Century Workplace	
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

**Computer Science Writing Requirement**

Code	Title	Hours
------	-------	-------

**College Writing**

ENGW 1111	First-Year Writing	4
-----------	--------------------	---

**Advanced Writing in the Disciplines**

ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Required General Electives**

Code	Title	Hours
------	-------	-------

Complete 20 credits of general electives 20

**Khoury College GPA Requirement**

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

**NUpath Requirements Satisfied**

- Engaging with the Natural and Designed World
- Interpreting Culture
- Conducting Formal and Quantitative Reasoning
- Understanding Societies and Institutions
- Analyzing and Using Data
- Engaging Difference and Diversity
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

**Program Requirement**

133 total semester hours required

**Computer Science and Mathematics, BS**

The computer science and mathematics combined major was the first dual major created by the college. The mathematics requirements focus on courses that have computing applications or form the basis for further studies in mathematical theory. The program emphasizes the strong ties between computer science and mathematics that date back to the origins of machine computation in the 1930s and 1940s—and persist to this day.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800 (Integrative course)	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
CS 2800 and CS 2801	Logic and Computation and Lab for CS 2800	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 3800	Theory of Computation	4
CS 4300 or CS 4100	Computer Graphics Artificial Intelligence	4
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4
<b>Khoury Elective Courses</b>		
With adviser approval, a directed study, research, project study, or appropriate graduate-level course may also be taken as a computer science elective.		
Complete eight semester hours of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:		8
CS 2500 or higher, except CS 5010		
CY 2000 or higher, except CY 4930		
DS 2500 or higher, except DS 4900		
IS 2000 or higher, except IS 4900		

## Mathematics Courses

Code	Title	Hours
<b>Calculus Courses</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4

## Mathematics Courses

MATH 2331	Linear Algebra	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 3081	Probability and Statistics	4
MATH 3175	Group Theory	4
MATH 3527	Number Theory 1	4

## Mathematics Electives

Complete three courses in the following range: MATH 3001 to MATH 4999 but not MATH 4000	12
--	----

## Supporting Course

Code	Title	Hours
Complete one of the following:		
AFAM 2600	Issues in Race, Science, and Technology	4
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
IS 1300 or PHIL 1300	Knowledge in a Digital World	
PHIL 1145	Technology and Human Values	
SOCL 1280	The Twenty-First-Century Workplace	
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

## Computer Science Writing Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
<b>Advanced Writing in the Disciplines</b>		
ENGW 3302 or ENGW 3315	Advanced Writing in the Technical Professions Interdisciplinary Advanced Writing in the Disciplines	4

## Required General Electives

Code	Title	Hours
Complete 28 semester hours of general electives.		28

## Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

## NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year

- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

### Computer Science and Media Arts, BS

The computer science and media arts combined major is ideal for creative students who love technology. Students will acquire a solid foundation in both fields through curriculum that spans photography,

animation, video, database design, computer graphics, and human-computer interaction.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
or ARTF 1000	Art and Design at Northeastern	
CS 1210	Professional Development for Khoury Co-op	1
or EEAM 2000	Professional Development for Co-op	
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 4300	Computer Graphics	4
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4
IS 4300	Human Computer Interaction	4

### Khoury Elective Courses

With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 8 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:	8
CS 2500 or higher, except CS 5010	
CY 2000 or higher, except CY 4930	
DS 2500 or higher, except DS 4900	
IS 2000 or higher, except IS 4900	

### Computer Science Writing Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
<b>Advanced Writing in the Disciplines</b>		

ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

### Media Arts Courses

Code	Title	Hours
<b>Required Media Arts Courses</b>		
ARTD 2100	Narrative Basics	4
ARTF 1120	Observational Drawing	4
ARTF 1122	Color and Composition (with optional ARTF 1123)	4
ARTF 1124 and ARTF 1125	Form and Structure and Form and Structure Tools	5
ARTF 2220	Movement and Time (with optional ARTF 2221)	4
ARTF 2223	Experience and Interaction (with optional ARTF 2224)	4

### Media Arts Electives

Complete any six courses as long as prerequisites have been met. At least two must be a 3000-level course.

#### Basics

ARTD 2360 and ARTD 2361	Introduction to Photography and Photo Tools	24-25
ARTD 2370	Animation Basics (with optional ARTD 2371)	
ARTD 2380	Video Basics (with optional ARTD 2381)	

#### Photography

ARTD 3460	Photography: Concept + Process	
ARTD 4565	Photography: Visual Strategies + Context	
ARTD 4660	Studio Photography	
ARTD 4661	Photography: Experimental Processes	

#### Animation

ARTD 3470	Animation 1	
ARTD 3471	Virtual Environment Design	
ARTD 3472	Character Design for Animation	
ARTD 3473	Animation for Games	
ARTD 4570	Animation 2	
ARTD 4575	Animation 3	

#### Video

ARTD 3480	Video: Sound and Image	
ARTD 3485	Experimental Video	

#### History

ARTH 2212	Survey of the Still and Moving Image	
-----------	--------------------------------------	--

### Media Arts Capstone

ARTD 4530	Media Arts Degree Project 1	4
-----------	-----------------------------	---

### Supporting Courses

Code	Title	Hours

### Computer Science and Music with Concentration in Music Technology, BS

The computer science and music combined major with concentration in music technology focuses on the creative application of sound and

music technologies to a broad range of artistic, social, and industrial purposes. An emphasis is maintained throughout on imaginative exploration, collaboration across disciplines, and real-world experience. It is designed to give students a firm foundation in music and computing for digital audio technologies. This program is recommended for students with a strong background in music prior to entering Northeastern.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
<b>Advanced Writing in the Disciplines</b>		
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

### Required General Electives

Code	Title	Hours
Complete 20 credits of general electives.		20

### NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Exploring Creative Expression and Innovation
- Interpreting Culture
- Conducting Formal and Quantitative Reasoning
- Understanding Societies and Institutions
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

### Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

### Music Technology Major Grade Requirement

Students must maintain at least a 2.667 GPA (B- average) in the requirements of the music half of the combined major and also complete all required music courses with grades of at least C. Students who fail to meet the above standards will be placed on departmental probation;

those who remain on probation for two consecutive semesters will be dropped from the major.

### Program Requirement

**Computer Science and Philosophy, BS**

The computer science and philosophy combined major offers an opportunity to obtain a fluency in formal logic, including logical proofs and the ability to represent arguments clearly and evaluate them for cogency. Students will find that logic plays a fundamental role in computer science as they experience an in-depth programming foundation. The philosophy curriculum also focuses on oral and written communication, as well as ethical and social issues related to computing and information technologies.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Computer Science Courses**

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 2800 and CS 2801	Logic and Computation and Lab for CS 2800	5
CS 3000	Algorithms and Data	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 3800	Theory of Computation	4
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4

**Khoury Elective**

With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken for upper-division electives.

Complete 8 credits of upper-division CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

**Philosophy Courses**

Code	Title	Hours
<b>Philosophy Required Courses</b>		
PHIL 1115	Introduction to Logic	4
PHIL 2325	Ancient Philosophy and Political Thought	4
or POLS 2325	Ancient Philosophy and Political Thought	
or PHIL 2330	Modern Philosophy	
PHIL 1145	Technology and Human Values	4
PHIL 4515	Advanced Logic	4
PHIL 5005	Information Ethics	4
or PHIL 5010	AI Ethics	
<b>Electives</b>		
Take four additional PHIL courses, at least one of which is 4000 or above		16

**Integrative Course Requirement**

Code	Title	Hours
These courses will double count in other areas of your major.		
CS 3800	Theory of Computation	
PHIL 4515	Advanced Logic	

**Computer Science English Requirement**

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
or ENGW 1102	First-Year Writing for Multilingual Writers	
<b>Advanced Writing in the Disciplines</b>		
Complete one course from the following:		4
ENGW 3302	Advanced Writing in the Technical Professions	
ENGW 3309	Advanced Writing in the Humanities	
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Required General Electives**

Code	Title	Hours
Complete 44 credits of general electives.		44

**Khoury College GPA Requirement**

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

**NUpath Requirements Satisfied**

- Engaging with the Natural and Designed World

- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing-Intensive in the Major
- Interpreting Culture
- Understanding Societies and Institutions
- Employing Ethical Reasoning
- Writing in the First Year
- Advanced Writing in the Disciplines
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Computer Science and Physics, BS**

The computer science and physics combined major brings together three disciplines: computer science, physics, and mathematics. The mathematics requirements serve as a foundation for both computer science and physics. From hands-on experience with sophisticated physics instruments, to mathematical theory, to the latest computational innovations, our interdisciplinary approach will prepare students for the myriad challenges in today's rapidly changing world.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUPath Requirements**

All undergraduate students are required to complete the NUPath Requirements (p. 46).

**Computer Science Courses**

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
CS 2800 and CS 2801	Logic and Computation and Lab for CS 2800	5

**Computer Science Required Courses**

CS 3000	Algorithms and Data	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 3800	Theory of Computation	4
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4

## Physics Courses

Code	Title	Hours
<b>Required Courses</b>		
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	5
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	5
<b>Intermediate Physics</b>		
PHYS 2303	Modern Physics	4
PHYS 2371 and PHYS 2372	Electronics and Lab for PHYS 2371 (Integrative course)	4
<b>Advanced Physics</b>		
PHYS 3600	Advanced Physics Laboratory	4
PHYS 3602	Electricity and Magnetism 1	4
PHYS 4305	Thermodynamics and Statistical Mechanics	4

## Capstone and Electives

Code	Title	Hours
<b>Capstone</b>		
Complete either one computer science capstone or the physics capstone:		4
<i>Computer Science Capstone</i>		
CS 4100	Artificial Intelligence	
CS 4300	Computer Graphics	
CS 4410	Compilers	
CS 4150	Game Artificial Intelligence	
CS 4550	Web Development	
<i>Physics Capstone</i>		
PHYS 5318	Principles of Experimental Physics	
<b>Khoury Elective</b>		
The computer science elective is not required if the student has completed the computer science capstone (above). With adviser approval, a directed study, research, project study, or appropriate graduate-level course may also be taken as a computer science elective.		
Complete 4 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:		4
CS 2500 or higher, except CS 5010		
CY 2000 or higher, except CY 4930		
DS 2500 or higher, except DS 4900		
IS 2000 or higher, except IS 4900		
<b>Physics Elective</b>		
Only one physics elective is required if the student has completed the physics capstone (above).		
Complete two courses in the following range:		8
PHYS 3000 to PHYS 5999		

## Integrative Courses

Code	Title	Hours
<b>Calculus</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
<b>Additional Mathematics Requirements</b>		
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 3081	Probability and Statistics	4

## Supporting Course

Code	Title	Hours
Complete one of the following:		4
AFAM 2600	Issues in Race, Science, and Technology	
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
IS 1300 or PHIL 1300	Knowledge in a Digital World	
PHIL 1145	Technology and Human Values	
SOCL 1280	The Twenty-First-Century Workplace	
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

## Computer Science Writing Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
<b>Advanced Writing in the Disciplines</b>		
ENGW 3302 or ENGW 3315	Advanced Writing in the Technical Professions Interdisciplinary Advanced Writing in the Disciplines	4

## Required General Electives

Code	Title	Hours
Complete 24 credits of general electives.		24

## Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

## NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Exploring Creative Expression and Innovation
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data

- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

## Computer Science and Political Science, BS

The computer science and political science combined major offers both a strong computer science foundation and a deep understanding of global and societal needs. You will become an engaged citizen of the world, participating in interdisciplinary scholarship and translational research to address regional and global issues.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
------	-------	-------

#### Computer Science Overview

CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1

#### Computer Science Fundamental Courses

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
------------------------	--	---

CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
IS 2000	Principles of Information Science	4

**Khoury Elective Courses**

With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 12 credits of upper-division CS, CY, DS, or IS courses that are not already required. Choose courses within the following ranges:

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

**Political Science Electives**

Complete four courses in the following range:		16
POLS 2000 to POLS 5999		

**Political Science Concentrations (Optional)**

If you are working toward one of the following concentrations, declare it with your adviser so that it may be added to your record.

- American Political Institutions (p. 383)
- Campaigns and Elections (p. 383)
- Comparative Politics (p. 383)
- Identity, Culture, and Politics (p. 383)
- International Relations and Diplomacy (p. 383)
- Law and Legal Studies (p. 383)
- Public Policy (p. 384)
- Security Studies (p. 384)

**Integrative Requirement**

Code	Title	Hours
<b>Integrative Requirement</b>		
Complete one of the following:		4
POLS 2390	Science, Technology, and Public Policy	
POLS 3405	International Political Economy	
POLS 3406	International Law	
POLS 3408	International Security	

**Supporting Courses**

Code	Title	Hours
<b>Supporting Courses</b>		
Complete one of the following:		4
AFAM 2600	Issues in Race, Science, and Technology	
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
IS 1300 or PHIL 1300	Knowledge in a Digital World	
PHIL 1145	Technology and Human Values	
SOCL 1280	The Twenty-First-Century Workplace	
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

**Computer Science Writing Requirement**

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111 or ENGW 1102	First-Year Writing First-Year Writing for Multilingual Writers	4
<b>Advanced Writing in the Disciplines</b>		
Complete one of the following:		4
ENGW 3302	Advanced Writing in the Technical Professions	
ENGW 3308	Advanced Writing in the Social Sciences	
ENGW 3311	Advanced Writing for Prelaw	
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Required General Electives**

Code	Title	Hours
Complete 28 credits of general electives.		28

**Khoury College GPA Requirement**

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

**Computer Science and Political Science Major Credit Requirement**

100 semester hours required in the major

## NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year
- Writing-Intensive in the Major
- Advanced Writing in the Disciplines
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirement

133 total semester hours required

### CONCENTRATION IN AMERICAN POLITICAL INSTITUTIONS

Code	Title	Hours
Complete four of the following:		16
POLS 2350	State and Local Politics	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3307	Public Policy and Administration	
POLS 3310	Public Opinion, Voting, and Elections	
POLS 3160	Campaign Strategy	

### CONCENTRATION IN CAMPAIGNS AND ELECTIONS

Code	Title	Hours
<b>Required Courses</b>		
POLS 3160	Campaign Strategy	4
POLS 3302	Judicial Process and Behavior	4

#### Campaigns and Elections Electives

If POLS 4947 was replaced by a co-op or internship, an additional elective must be taken.

Complete two of the following:		8
POLS 2345	Urban Policies and Politics	
POLS 2350	State and Local Politics	
POLS 2355	Intergovernmental Relations	
POLS 3310	Public Opinion, Voting, and Elections	
POLS 3320	Politics and Mass Media	
POLS 3304	Presidential Nominating Process	

### CONCENTRATION IN COMPARATIVE POLITICS

Code	Title	Hours
<b>Theoretical Requirement</b>		
Complete one of the following:		4

POLS 2370	Religion and Politics
POLS 3418	Nationalism
POLS 3430	Revolution, Civil War, and Insurrection
POLS 3487	Politics of Developing Nations

### Regional Requirements

Complete two of the following:		8
POLS 3435	Politics and Governance of Europe and the European Union	
POLS 3465	Government and Politics in the Middle East	
POLS 3470	Arab-Israeli Conflict	

### Experiential/Practicum Requirement

Complete one of the following:		4
POLS 4915	Model Arab League	
POLS 4918	Model NATO	
POLS 4937	Dialogue of Civilizations: Government and Politics Abroad	

### CONCENTRATION IN IDENTITY, CULTURE, AND POLITICS

Code	Title	Hours
<b>Core Course</b>		
POLS 3418	Nationalism	4
<b>Electives</b>		
Complete three of the following:		12
POLS 2368	Music and Politics in America and Abroad	
POLS 2370	Religion and Politics	
POLS 2375	Gender and Politics	
POLS 3309	Lesbian, Gay, Bisexual, and Transgender Issues in Public Policy	
POLS 3324	Law and Society	

### CONCENTRATION IN INTERNATIONAL RELATIONS AND DIPLOMACY

Code	Title	Hours
<b>Experiential/Practicum Requirement</b>		
Complete one of the following:		4
POLS 4910	Model United Nations	
POLS 4915	Model Arab League	
POLS 4938	Dialogue of Civilizations: International Politics Abroad	

#### Core Courses

Complete three of the following:		12
POLS 3405	International Political Economy	
POLS 3406	International Law	
POLS 3408	International Security	
POLS 3435	Politics and Governance of Europe and the European Union	
POLS 3470	Arab-Israeli Conflict	

### CONCENTRATION IN LAW AND LEGAL STUDIES

Code	Title	Hours
Complete four of the following:		16
POLS 2330	American Political Thought	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3324	Law and Society	

POLS 3406	International Law
POLS 3409	Global Governance
POLS 4500	U.S. Constitutional Law
POLS 4505	U.S. Civil Liberties

## Computer Science and Sociology, BS

The social aspects to computing continue to grow, primarily with respect to communication and the internet. The computer science and sociology combined major examines this significant impact on society and how people communicate and share culture. Students will have an opportunity to gain a solid programming foundation, as well as the practical and theoretical skills needed to address the complex social and cultural issues in a period of far-reaching social change.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Computer Science Courses

Code	Title	Hours
------	-------	-------

### Computer Science Overview

CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1

### Computer Science Fundamental Courses

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5

### Computer Science Required Courses

CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
IS 2000	Principles of Information Science	4

### Computer Science Writing-Intensive Requirement

Complete one of the following:		4
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	
IS 3500	Information System Design and Development	
DS 4200	Information Presentation and Visualization (Take DS 3000 either as a prerequisite of or concurrently with DS 4200.)	

### Khoury Elective Courses

With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 12 credits of upper-division CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:	12
CS 2500 or higher, except CS 5010	
CY 2000 or higher, except CY 4930	
DS 2500 or higher, except DS 4900	
IS 2000 or higher, except IS 4900	

## Sociology Courses

Code	Title	Hours
------	-------	-------

### Sociology Required Courses

SOCL 1101	Introduction to Sociology	4
SOCL 3300	Social Theory	4
SOCL 2320	Statistical Analysis in Sociology	4
SOCL 2321	Research Methods in Sociology	4
ANTH 1101	Peoples and Cultures	4
ANTH 2305	Global Markets and Local Culture	4

### Sociology Electives

Complete one sociology elective in each of the following ranges: 12

Introductory elective: SOCL 1000 to SOCL 1999	
Intermediate elective: SOCL 2000 to SOCL 3999	
Advanced elective: SOCL 4000 to SOCL 4999	

**Sociology Required Capstone**

SOCL 4600	Senior Seminar	4
-----------	----------------	---

**Integrative Course Requirement**

Complete one of the following: 4

SOCL 1280	The Twenty-First-Century Workplace	
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

**Computer Science Writing Requirement**

Complete one of the following: 4

ENGW 1111	First-Year Writing	4
or ENGW 1102	First-Year Writing for Multilingual Writers	

**Advanced Writing in the Disciplines**

Complete one of the following: 4

ENGW 3302	Advanced Writing in the Technical Professions	
ENGW 3308	Advanced Writing in the Social Sciences	
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Required General Electives**

Complete 32 credits of general electives. 32

**Khoury College GPA Requirements**

Minimum 2.000 GPA required in all CS, CY, DS and IS courses

**Sociology GPA Requirements**

2.000 average GPA requirement across all sociology classes

**NUpath Requirements Satisfied**

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing-Intensive in the Major
- Writing in the First Year
- Advanced Writing in the Disciplines
- Interpreting Culture
- Understanding Societies and Institutions
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Program Requirement**

133 total semester hours required

**Plan of Study**

## Computer Science and Theatre, BS

The computer science and theatre combined major is ideal for creative students who love technology as a means to expand what is possible in the performing arts. This major combines a strong foundation in computing with the opportunity to acquire a deep knowledge of theatre through curriculum that spans design, performance, and the production of innovative forms of theatre, including interactive media, computer graphics, human-computer interaction, and more.

It offers both classroom and experiential learning on the creative, social, and technological relationship between theatre and computing.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Requirements

Code	Title	Hours
<b>Required Courses</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4
CS 4550	Web Development	4
IS 4300	Human Computer Interaction	4

### Khoury Elective Courses

Complete 8 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:	8
CS 2500 or higher, except CS 5010	
CY 2000 or higher, except CY 4930	

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

**Theatre Requirements**

Code	Title	Hours
------	-------	-------

**Theatre**

A grade of C or higher is required for all theatre courses.

**Foundational Stages**

THTR 1101	Introduction to Theatre	4
THTR 1120	Acting 1	4
THTR 1131	Technical Theatre 1	4
THTR 1270	Introduction to Theatrical Design	4
THTR 2325	From Script to Stage	4

**Theatre Texts and Context**

Complete two of the following: 8

THTR 1220	Race, Power, and Performance	
THTR 2300	Classics of Global Theatre	
THTR 2315	Rebels of Modern Drama	
THTR 2320	Classics of 20th-Century American Drama	
THTR 2500	Breaking the Glass Ceiling: Women in Theatre	
THTR 3200	Queer Theatre and Performance	

**Making Theatre**

THTR 1100	Production Experience 1	1
THTR 2000	Production Experience 2	1
THTR 4702	Capstone Rehearsal and Performance	4

**Intermediate or Advanced Technique**

Complete one of the following: 4

THTR 2300	Classics of Global Theatre	
THTR 2310	History of Musical Theatre	
THTR 2315	Rebels of Modern Drama	
THTR 2330	Playwriting

## Cybersecurity and Business Administration, BS

The cybersecurity and business combined major delivers a technical and security-focused degree with a strong grounding in business. Students will complete most of the requirements of a business major, including macroeconomics and microeconomics, while also focusing on the conceptual and practical computer science skills that will enable them to contribute to ensuring the reliability and security of cyberspace.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Cybersecurity Major Requirements

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 3650	Computer Systems	4
CS 3700	Networks and Distributed Systems	4
<b>Cybersecurity Required Courses</b>		
CY 2550	Foundations of Cybersecurity	4
CY 3740	Systems Security	4
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	4
or CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
CY 4740	Network Security	4
<b>Cybersecurity Electives</b>		
If courses require prerequisites, those should be taken using general electives.		
Complete one course from the following:		3-4
COMM 2551	Free Speech in Cyberspace	
CRIM 2340	Corporate Security: Securing the Private Sector	
CRIM 3030	Global Criminology	
CRIM 4040	Crime Prevention	
CS 2800	Logic and Computation	
CS 4240	Large-Scale Parallel Data Processing	
CS 4400	Programming Languages	
CS 4500	Software Development	
CS 4710	Mobile and Wireless Systems	
CS 6710	Wireless Network	
CY 5200	Security Risk Management and Assessment	
CY 5210	Information System Forensics	
CY 5770	Software Vulnerabilities and Security	
DS 4300	Large-Scale Information Storage and Retrieval	
DS 4400	Machine Learning and Data Mining 1	

EECE 2322 and EECE 2323	Fundamentals of Digital Design and Computer Organization and Lab for EECE 2322
EECE 3324	Computer Architecture and Organization
EECE 4534 and EECE 4535	Microprocessor-Based Design and Lab for EECE 4534
IS 4300	Human Computer Interaction
LPSC 1101	Introduction to Law
LPSC 2301	Introduction to Law, Policy, and Society
LPSC 3303	Topics in Law and Public Policy
MATH 3527	Number Theory 1
MATH 4575	Introduction to Cryptography
PHIL 1145	Technology and Human Values
POLS 2390	Science, Technology, and Public Policy
POLS 3307	Public Policy and Administration
POLS 3324	Law and Society
POLS 3406	International Law
POLS 3408	International Security
POLS 3420	U.S. National Security Policy
POLS 3423	Terrorism and Counterterrorism

### Business Requirements

Code	Title	Hours
<b>Accounting</b>		
ACCT 1201	Financial Accounting and Reporting	4
ACCT 2301	Managerial Accounting	4
<b>Finance</b>		
FINA 2201	Financial Management	4
<b>Organizational Behavior</b>		
ORGB 3201	Organizational Behavior	4
<b>Marketing</b>		
MKTG 2201	Introduction to Marketing	4
<b>Statistics</b>		
MGSC 2301	Business Statistics	4
<b>Strategy</b>		
STRT 4501	Strategy in Action	4

### Business Concentration

Complete a four-course business concentration from the following list. (p. )

- Accounting (p. 290)
- Brand Management (p. 290)
- Business Analytics (p. 291)
- Corporate Innovation and Venture (p. 291)
- Entrepreneurial Startups (p. 291)
- Family Business (p. 292)
- Finance (p. 292)
- Fintech (p. 293)
- Healthcare Management and Consulting (p. 293)
- International Business (p. 294) (available only as a second concentration)
- Management (p. 294)
- Marketing (p. 295)
- Marketing Analytics (p. 296)

- Social Innovation and Entrepreneurship (p. 296)
- Supply Chain Management (p. 297)

### Business Cooperative Education Requirement

Complete one six-month co-op experience.

### Integrative Requirement

Code	Title	Hours
MISM 2301	Management Information Systems	4

### Supporting Courses

Code	Title	Hours
------	-------	-------

#### Mathematics Courses

Complete one of the following: 4

MATH 1341	Calculus 1 for Science and Engineering
MATH 1231	Calculus for Business and Economics

#### Economics

Complete one of the following: 4

ECON 1115	Principles of Macroeconomics
ECON 1116	Principles of Microeconomics

### Writing Requirements

Code	Title	Hours
------	-------	-------

#### College Writing

ENGW 1111	First-Year Writing	4
or ENGW 1102	First-Year Writing for Multilingual Writers	

#### Advanced Writing in the Disciplines

Complete one of the following: 4

ENGW 3302	Advanced Writing in the Technical Professions
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines

### Required General Electives

Code	Title	Hours
------	-------	-------

Complete 16 credits of general electives. 16

### Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses.

### Business GPA Requirement

Minimum 2.000 GPA required in all business courses.

### NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Understanding Societies and Institutions
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major

Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

**Program Requirement**

133 semester hours required

**Plan of Study**

Sample Patterns:

## Cybersecurity and Criminal Justice, BS

The cybersecurity and criminal justice combined degree applies a multidisciplinary approach to ensuring the reliability and security of cyberspace. The program will provide students with a strong programming foundation coupled with academic and experiential knowledge of the criminal justice system. Students learn how social behavior, policy, and legal rules can affect cybersecurity and utilize comparative social science to understand, predict, and explain crime.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Cybersecurity Major Requirements

Code	Title	Hours

## Criminal Justice Requirements

Code	Title	Hours
<b>Introduction to Crime, Law, and the Justice System</b>		
What do we know about crime and justice? In these three courses, students have an opportunity to develop a foundational understanding of three related phenomena: why crime exists, how our criminal justice system responds to crime, and the constitutional and legal oversight of this process.		
CRIM 1100	Introduction to Criminal Justice	4
CRIM 1110	Criminal Due Process	4
CRIM 1120	Criminology	4
<b>Current Crime and Justice Issues</b>		
These courses introduce students to topical issues related to crime and justice.		
Complete one of the following:		4
CRIM 1300	The Death Penalty	
CRIM 1400	Human Trafficking	
CRIM 1500	Corruption, Integrity, and Accountability	
CRIM 1700	Crime, Media, and Politics	
<b>Crime Problems and Criminal Justice Institutions</b>		
The 2000-level courses in this list ask how does justice work and for whom? These courses introduce students to the systems and institutions tasked with providing justice. Each includes experiential learning components in cooperation with local criminal justice institutions. The 3000-level courses in this list provide students a deeper look at a range of crime problems.		
Complete one of the following:		4
CRIM 2310	Courts: The Third Branch of Government	
CRIM 2320	Youth Crime and Justice	
CRIM 2330	Punishment in the Age of Mass Incarceration	
CRIM 3010	Criminal Violence	
CRIM 3030	Global Criminology	
CRIM 3040	Psychology of Crime	
CRIM 3070	Corporate and White-Collar Crime	
CRIM 3540	Addiction and Recovery	
<b>Creating Knowledge about Crime and Justice</b>		
How do we know what we know about crime and justice—and how do we develop new knowledge? Harnessing data to learn about issues, identify solutions, and advocate for change.		
CRIM 3600	Criminal Justice Research Methods	4
CRIM 3700	Analyzing and Using Data on Crime and Justice	4
<b>Systemic Issues</b>		
A consideration of systemic issues facing the criminal justice system.		
Complete one of the following:		4
CRIM 3110	Gender, Crime, and Justice	
CRIM 3120	Race, Crime, and Justice	
<b>Criminal Justice Elective</b>		

Rounding out knowledge of crime and justice.		
Complete one additional criminal justice elective from the 3000, 4000 or 5000-level.		4
<b>Criminal Justice Capstone</b>		
Complete one of the following:		4
CRIM 4949	Senior Capstone Seminar	
CY 4930	Cybersecurity Capstone	
CY 4940	Research Projects on National Security	

## Criminal Justice Co-op Integration

Code	Title	Hours
Co-op students should complete at least one of the following courses. CRIM 3000 is required for the first co-op. CRIM 4000 is required if a second co-op is taken:		
CRIM 3000	Co-op Integration Seminar 2	1
CRIM 4000	Co-op Integration Seminar 3	1

## Integrative Requirement

Code	Title	Hours
<b>Cybersecurity Integrative Course</b>		
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	4
or CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	

## Criminal Justice Integrative Course

Complete one of the following:		4
CRIM 2340	Corporate Security: Securing the Private Sector	
CRIM 2350	Policing a Democratic Society	
CRIM 3050	Organized Crime	
CRIM 3060	Political Crime and Terrorism	
CRIM 4040	Crime Prevention	
CRIM 5900	Topics in Criminal Justice and Criminology	

## Required General Electives

Code	Title	Hours
Complete 24 credits of general electives.		24

## Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses.

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirement

134 total semester hours required.

## Plan of Study

## Cybersecurity and Economics, BS

The cybersecurity and economics combined degree applies a multidisciplinary approach integrating fundamental economics courses with a strong programming foundation. Students will study both the behavior of individuals and the collective behavior of industries and governments, utilizing computing skills to ensure the reliability and security of cyberspace.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Cybersecurity Major Requirements

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
or ECON 1000	Economics at Northeastern	
CS 1210	Professional Development for Khoury Co-op	1

## Data Science and Biochemistry, BS

The Data Science and Biochemistry Major combines computer science, biochemistry, biology, information science, mathematics, and statistics into an integrated curriculum. The program engages students in rigorous coursework designed to prepare students to interpret the ever-expanding knowledge base.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Data Science Requirements

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Programming Sequence Pathways</b>		
Choose one of the two options.		12
<i>Computer Science Option</i>		
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	
<i>Data Science Option</i>		
DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
DS 2500 and DS 2501	Intermediate Programming with Data and Lab for DS 2500	
DS 3500	Advanced Programming with Data	
<b>Computer Science Required Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 3200	Database Design	4
<b>Data Science Foundations</b>		
DS 3000	Foundations of Data Science	4
DS 4200	Information Presentation and Visualization	4
DS 4300	Large-Scale Information Storage and Retrieval	4
DS 4400	Machine Learning and Data Mining 1	4
<b>Khoury Elective</b>		
With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.		
Complete four credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:		4
CS 2500 or higher, except CS 5010		
DS 2500 or higher, except DS 4900		
CY 2000 or higher, except CY 4930		
IS 2000 or higher, except IS 4900		

**Statistics Foundations**

Complete one of the following:	4
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500
MATH 3081	Probability and Statistics

**Computer Science Writing Requirement**

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111 or ENGW 1102	First-Year Writing or First-Year Writing for Multilingual Writers	4

**Advanced Writing in the Disciplines**

ENGW 3302 or ENGW 3315	Advanced Writing in the Technical Professions or Interdisciplinary Advanced Writing in the Disciplines	4
------------------------	--	---

**Biochemistry Requirements**

Code	Title	Hours
<b>Biology Foundations</b>		
BIOL 1107 and BIOL 1108	Foundations of Biology and Lab for BIOL 1107	5
BIOL 2299	Inquiries in Biological Sciences	4
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
BIOL 2309	Biology Project Lab	4

**Chemistry Foundations**

CHEM 1161 and CHEM 1162	General Chemistry for Science Majors and Lab for CHEM 1161	5
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5
CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5

**Mathematics Foundations**

MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4

**Biochemistry Foundations**

BIOL 3611 and BIOL 3612	Biochemistry and Lab for BIOL 3611	5
CHEM 3331 and CHEM 3332 or CHEM 4620 or CHEM 5620	Bioanalytical Chemistry and Lab for CHEM 3331 or Introduction to Protein Chemistry or Protein Chemistry	3-5

**Intermediate or Advanced Science Elective**

Complete one course from the following	4-5
BIOL 2301 to BIOL 5999	
CHEM 2311 to CHEM 5999	
EEMB 2290 to EEMB 5999	
ENVR 2310 to ENVR 5999	
MATH 2280 to MATH 5999	
PHYS 2303 to PHYS 5999	

**Integrative Requirement**

Code	Title	Hours
<b>Integrative Courses</b>

**Data Science and Biology, BS**

The data science and biology major provides a strong foundation in biology, chemistry, and mathematics, as well as software development and algorithms. Students study the collection, manipulation, storage, retrieval, and computational analysis of data in its various forms, including numeric, textual, image, and video data from small to large volumes. Students also explore the organization and processes of life across broad areas of the field, from molecules and cells through organs and organ systems to populations, ecosystems, and evolution.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Data Science and Behavioral Neuroscience, BS

The data science and behavioral neuroscience major combines the disciplines of biology, psychology, computer science, and data science into an integrated curriculum. The human brain is a complex information processing system requiring scientists to analyze, integrate, and share large data sets garnered from multiple techniques that image and record the activity of the brain at work. Students investigate the anatomy and physiology of neural circuits that underlie brain mechanisms and pathological states that give rise to behavioral functions. Students have an opportunity to develop skills in large-scale data manipulation and storage, machine learning, data mining, and information visualization necessary to execute big brain-mapping initiatives including human neuroconnectivity maps.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Data Science Requirements

Code	Title	Hours

### Data Science and Business Administration, BS

The data science and business combined major integrates a technical degree with the theory and practice of management through active

learning, problem-driven research, corporate partnerships, and experiential assignments. Students study the collection, manipulation, storage, retrieval, and computational analysis of data in its various forms, including numeric, textual, image, and video data from small to large volumes. This program reflects the impact of data in modern business practice.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1

### Programming Sequence Pathways

Choose one of the two options.	12
<i>Computer Science Option</i>	

CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	
<i>Data Science Option</i>		
DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
DS 2500 and DS 2501	Intermediate Programming with Data and Lab for DS 2500	
DS 3500	Advanced Programming with Data	

### Computer Science Required Courses

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 3200	Database Design	4

### Data Science Foundations

DS 3000	Foundations of Data Science	4
DS 4200	Information Presentation and Visualization	4
DS 4300	Large-Scale Information Storage and Retrieval	4
DS 4400	Machine Learning and Data Mining 1	4
DS 4420	Machine Learning and Data Mining 2	4

### Khoury Elective

With advisor approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete four credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges: 4

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

## Business Courses

Code	Title	Hours
<b>Required Business Courses</b>		
ACCT 1201	Financial Accounting and Reporting	4
ACCT 2301	Managerial Accounting	4
FINA 2201	Financial Management	4
INTB 1203	International Business and Global Social Responsibility	4
MGSC 2301	<i>Business Statistics</i>	4
MKTG 2201	Introduction to Marketing	4
ORGB 3201	Organizational Behavior	4
Complete one of the following: 4		
ENTR 2301	Innovation!	
MISM 2301	Management Information Systems	
SCHM 2301	Supply Chain and Operations Management	
STRT 4501	Strategy in Action	

## Business Concentration

Complete a four-course business concentration from the following list.

- Accounting (p. 290)
- Brand Management (p. 290)
- Business Analytics (p. 291)
- Corporate Innovation and Venture (p. 291)
- Entrepreneurial Startups (p. 291)
- Family Business (p. 292)
- Finance (p. 292)
- Fintech (p. 293)
- Healthcare Management and Consulting (p. 293)
- International Business (p. 294) (available only as a second concentration)
- Management (p. 294)
- Marketing (p. 295)
- Marketing Analytics (p. 296)

*Note: If the Marketing Analytics concentration is selected an additional general elective is required.*

- Social Innovation and Entrepreneurship (p. 296)
- Supply Chain Management (p. 297)

## Integrative Course

Code	Title	Hours
BUSN 5001	Data-Driven and Technology-Enabled Value Creation in Digital Economy	4

## Supporting Courses

Code	Title	Hours
<b>Mathematics</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
or MATH 1231	Calculus for Business and Economics	
<b>Economics</b>		
ECON 1115	Principles of Macroeconomics	4
or ECON 1116	Principles of Microeconomics	

## Computer Science Writing Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
<b>Advanced Writing in the Disciplines</b>		
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

## Required General Electives

Code	Title	Hours
Complete 16 credits of general electives.		16

## Business Cooperative Education Requirement

Complete one six-month co-op experience.

## Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

## Business GPA Requirement

Minimum 2.000 GPA required in business courses

## NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Ethical Reasoning
- Interpreting Culture
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Understanding Societies and Institutions
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

*Integrating Knowledge and Skills Through Experience* is satisfied through co-op.

**Data Science and Chemistry, BS**

The data science and chemistry major combines chemistry, information science, and mathematics to give students both breadth and depth in chemistry and data science fundamentals. During their course of study, students have an opportunity to develop qualitative and quantitative problem-solving skills as well as effective communication skills. Students will study the collection, manipulation, storage, retrieval, and computational analysis of chemical and other scientific data in its various forms, including numeric, textual, image, and video data from small to large volumes. The program engages students in rigorous

coursework designed to prepare students to interpret the ever-expanding knowledge base.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### Data Science and Ecology and Evolutionary Biology, BS

The combined major in data science and ecology and evolutionary biology provides a strong foundation in the fundamentals of ecology and evolutionary biology, including focal points in population, community, and ecosystem ecology; evolutionary ecology and biology; conservation biology; population genetics; behavior; and ecological and evolutionary genomics. Data science allows students to study the collection, manipulation, storage, retrieval, and computational analysis of data in its various forms, including numeric, textual, image, and video data from small to large volumes. The interdisciplinary nature of the major fosters critical thinking and creativity in scientific problem solving.

Students majoring in Ecology and Evolutionary Biology and associated combined majors cannot be combined with majors in Biology, Marine Biology, or Environmental and Sustainability Sciences, nor can they minor in Biology, Marine Science, or Environmental and Sustainability Sciences.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Data Science and Economics, BS

The combined major in data science and economics integrates fundamental economics courses with a strong programming foundation. Students study the collection, manipulation, storage, retrieval, and computational analysis of data in its various forms, including numeric, textual, image, and video data from small to large volumes. Utilizing these skill sets allows students to address complex issues in the behavior of individuals and the collective behavior of industries and governments.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Data Science Requirements

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200 or ECON 1000	First Year Seminar Economics at Northeastern	1
CS 1210 or EESH 2000	Professional Development for Khoury Co-op Professional Development for Co-op	1
<b>Programming Sequence Pathways</b>		
Choose one of the two options.		12
<i>Computer Science Option</i>		
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	
<i>Data Science Option</i>		
DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	

DS 2500 and DS 2501	Intermediate Programming with Data and Lab for DS 2500	
DS 3500	Advanced Programming with Data	

### Computer Science Required Courses

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 3200	Database Design	4

### Data Science Foundations

DS 3000	Foundations of Data Science	4
DS 4200	Information Presentation and Visualization	4
DS 4300	Large-Scale Information Storage and Retrieval	4
DS 4400	Machine Learning and Data Mining 1	4

### Khoury Elective

With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 4 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:	4
CS 2500 or higher, except CS 5010	
CY 2000 or higher, except CY 4930	
DS 2500 or higher, except DS 4900	
IS 2000 or higher, except IS 4900	

### Economics Requirements

Code	Title	Hours
<b>Required Economics Courses</b>		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4

### Economics Electives

Complete five economics elective courses that are found in the following ranges, with no more than two in the ECON 1200 to ECON 1999 range:	20
ECON 1200–ECON 1999	
ECON 3000–ECON 4689	
ECON 4900–ECON 4999	
ECON 5200–ECON 5999	

### Economics Capstone

ECON 4692	Senior Economics Seminar	4
-----------	--------------------------	---

### Integrative Course Requirement

Code	Title	Hours
ECON 2560	Applied Econometrics	4

### Supporting Course Requirements

Code	Title	Hours
<b>Mathematics</b>		
MATH 1231 or MATH 1241 or MATH 1245 or MATH 1251 or MATH 1340	Calculus for Business and Economics Calculus 1 Calculus with Applications Calculus and Differential Equations for Biology 1 Intensive Calculus for Engineers	4

or MATH 1341	Calculus 1 for Science and Engineering
<b>Computing and Social Issues</b>	
Complete one of the following: 4	
AFAM 2600	Issues in Race, Science, and Technology
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights
ENGL 2150	Literature and Digital Diversity
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks
PHIL 1145	Technology and Human Values
SOCL 1280	The Twenty-First-Century Workplace
SOCL 2485	Environment, Technology, and Society
SOCL 4528	Computers and Society

**English Requirement**

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
or ENGW 1102	First-Year Writing for Multilingual Writers	

**Advanced Writing in the Disciplines**

Complete one of the following: 4		
ENGW 3302	Advanced Writing in the Technical Professions	
ENGW 3308	Advanced Writing in the Social Sciences	
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Required General Electives**

Code	Title	Hours
Complete 24 credits of general electives.		24

**Khoury College GPA Requirement**

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

**Economics GPA Requirement**

Grades in the following four courses must average to a minimum of C (2.000):

Code	Title	Hours
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4

**NUpath Requirements Satisfied**

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Exploring Creative Expression and Innovation
- Writing in the First Year

- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Program Requirement**

130 total semester hours required

**Plan of Study**

**Sample Pattern:**

## Data Science and Environmental and Sustainability Sciences, BS

The data science and environmental and sustainability sciences combined major focuses on major environmental challenges facing our planet and provides broad training to understand how these challenges can be met through advances in data science. Understanding these processes requires acquisition and analysis of large amounts of data—an ideal fit with data science, where students study the collection, manipulation, storage, retrieval, and computational analysis of data in its various forms, including numeric, textual, image, and video data from small to large volumes.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Data Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1

Complete 16 credits general electives. 16

## Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

## Health Sciences Major Requirement

A grade of C or higher is required for all BIOL, CHEM, HLTH, HSCI, MATH, and PHTH courses.

## Program Requirement

133 semester hours required

## Plan of Study

### Five Year, Two Co-op Sample Plan of Study

#### Year 1

Fall	Hours Spring	Hours Summer 1	Hours Summer 2	Hours
CS 1200	1 CS 2510 and CS 2511	5 Vacation	Vacation	
CS 2500 and CS 2501	5 BIOL 1113 and BIOL 1114	5		
CS 1800 and CS 1802	5 PSYC 1101	4		
BIOL 1111 and BIOL 1112	5 MATH 1341	4		
ENGW 1111	4			
	20	18	0	0

#### Year 2

Fall	Hours Spring	Hours Summer 1	Hours Summer 2	Hours
PHTH 1260	4 CS 1210	1 Vacation	Co-op	
PHTH 2300	4 PHTH 2515	4		
CS 3500 and CS 3501	5 DS 3000	4		
CHEM 1161 and CHEM 1162 and CHEM 1163	5 CS 3200	4		
	General Elective	4		
	18	17	0	0

#### Year 3

Fall	Hours Spring	Hours Summer 1	Hours Summer 2	Hours
Co-op	IS 4300	4 Vacation	Co-op	
	DS 4200	4		
	PHTH 2350	4		
	Statistics Course	4		
	0	16	0	0

#### Year 4

Fall	Hours Spring	Hours Summer 1	Hours Summer 2	Hours
Co-op	Upper Division Elective	4 Vacation	Vacation	
	DS 4300	4		
	DS 4400	4		
	ENGW 3302	4		
	0	16	0	0

#### Year 5

Fall	Hours Spring	Hours
PHTH 4540	4 DS 4420	4
HLTH 5450, PHTH 4202, or IS 4800	4 PHTH 4120	4
PHIL 1145 or 1165	4 General Elective	4
General Elective	4 General Elective	4
	16	16

Total Hours: 137

## Data Science and Journalism, BS

The data science and journalism combined major offers students an opportunity to gain the skills to be able to engage in both the print and digital worlds of journalism. Students study the collection, manipulation, storage, retrieval, and computational analysis of data in its various forms, including numeric, textual, image, and video data. Combined with learning the principles, practices, and responsibilities of journalism, students can extract meaning from massive information flows and utilize it in effective investigative reporting.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Programming Sequence Pathways</b>		
Choose one of the two options.		12
<i>Computer Science Option</i>		
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	
<i>Data Science Option</i>		
DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	

DS 2500 and DS 2501	Intermediate Programming with Data and Lab for DS 2500	
DS 3500	Advanced Programming with Data	

**Computer Science Required Courses**

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 3200	Database Design	4
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	4

**Data Science Foundations**

DS 3000	Foundations of Data Science	4
DS 4200	Information Presentation and Visualization	4
DS 4300	Large-Scale Information Storage and Retrieval	4
DS 4400	Machine Learning and Data Mining 1	4
DS 4420	Machine Learning and Data Mining 2	4

**Khoury Elective Courses**

With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 4 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:

CS 2500 or higher, except CS 5010		4
CY 2000 or higher, except CY 4930		
DS 2500 or higher, except DS 4900		
IS 2000 or higher, except IS 4900		

**Journalism Major Requirements**

Students transferring from outside institutions must complete a minimum of five 4-credit journalism courses at Northeastern, and these must include:

Code	Title	Hours
JRNL 2201	Journalism 2: Intermediate Reporting	
JRNL 2301	Visual Storytelling in Journalism	
JRNL 4650	Ethics and Issues in Journalism	

Code	Title	Hours
<b>Journalism Courses</b>		

A grade of C or higher is required:

JRNL 1101 and JRNL 1102	Journalism 1: Fundamentals of Reporting and Journalist's Toolbox	5
JRNL 2201	Journalism 2: Intermediate Reporting	4
JRNL 2301	Visual Storytelling in Journalism	4
JRNL 3610	Digital Storytelling and Social Media	4

**Required Journalism**

JRNL 1150	Understanding Today's News	4
JRNL 3550	The First Amendment and the Media	4
JRNL 4650	Ethics and Issues in Journalism	4

**Journalism Electives**

Complete three JRNL courses. 12

**Supporting Courses**

Code	Title	Hours
<b>Mathematics Requirement</b>		

MATH 1341	Calculus 1 for Science and Engineering	4
-----------	--	---

**Statistics Foundation**

ECON 2350	Statistics	4
-----------	------------	---

**Writing Requirement**

Code	Title	Hours
<b>College Writing</b>		

ENGW 1111	First-Year Writing	4
-----------	--------------------	---

**Advanced Writing in the Disciplines**

*This course already fulfills a Journalism requirement above.*

JRNL 2301	Visual Storytelling in Journalism	
-----------	-----------------------------------	--

**Computing and Social Issues**

Complete one of the following: 4

AFAM 2600	Issues in Race, Science, and Technology	
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
PHIL 1145	Technology and Human Values	
SOCL 1280	The Twenty-First-Century Workplace	
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

**Integrative Requirement**

Code	Title	Hours
Complete one of the following: 4		

JRNL 3700	Data Storytelling	
JRNL 5500	Coding for Digital Storytelling	

**Required General Electives**

Code	Title	Hours
Complete 20 credits of general electives.		20

**NUpath Requirements Satisfied**

- Engaging with the Natural and Designed World
- Exploring Creative Expression and Innovation
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Understanding Societies and Institutions
- Employing Ethical Reasoning
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

**Khoury College GPA Requirement**

Minimum 2.000 GPA required in all CS, CY, DS, IS courses

## Journalism GPA Requirement

Minimum 2.000 GPA required in all JRNL courses

## Program Requirement

131 total semester hours required

## Plan of Study

### Sample Pattern, Four Years, Two Co-ops in Summer 2/Fall

Year 1							
Fall	Hours	Spring	Hours	Summer 1	Hours	Summer 2	Hours

## Data Science and Linguistics, BS

The data science and linguistics combined major provides students with extensive background in the formal structures of natural (human) languages and in the collection, manipulation, storage, retrieval, and computational analysis of data in its various forms. The program teaches the methods and applications of linguistic and psycholinguistic analyses of human language data combined with skills in big data analysis, data science, and data analytics. The major provides excellent preparation for

work or more advanced degrees focusing on computational linguistics, natural language processing, machine learning, and a wide array of related fields.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

## Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Programming Sequence Pathways</b>		
Choose one of two options		12
<i>Computer Science Option</i>		
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	
<i>Data Science Option</i>		
DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
DS 2500 and DS 2501	Intermediate Programming with Data and Lab for DS 2500	
DS 3500	Advanced Programming with Data	
<b>Computer Science Required Courses</b>

DS 4420	Machine Learning and Data Mining 2	4
<b>Khoury Elective Course</b>		
With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.		
Complete four credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:		4

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

## Linguistics Requirements

Code	Title	Hours
<b>Linguistics Foundations</b>		
LING 1150	Introduction to Language and Linguistics	4
LING 2350	Linguistic Analysis	4
LING 3412	Language and Culture	4
<b>Linguistic Structure</b>		
Complete three of the following:		12
LING 3420	Phonetics	
LING 3422	Phonology	
LING 3424	Morphology	
LING 3450	Syntax	
LING 3452	Semantics	
<b>Psychology Requirements</b>		
PSYC 1101	Foundations of Psychology	4
PSYC 2320	Statistics in Psychological Research	4
PSYC 3464	Psychology of Language	4
<b>Laboratory/Directed Study</b>		
Complete one of the following:		4
LING 4891	Research Seminar in Linguistics	
LING 4991	Directed Study Research	
PSYC 4610	Laboratory in Psycholinguistics	
<b>Seminar Requirement</b>		
LING 4654 or PSYC 4658	Seminar in Linguistics or Seminar in Psycholinguistics	4
<b>Linguistics Elective</b>		
Complete one LING course, not counted elsewhere, numbered 3000–4799, or one of the following:		4
DEAF 2700	ASL Linguistics	
PSYC 3466	Cognition	
PSYC 4520	Language and the Brain	
PSYC 4522	Psychology of Reading	
PSYC 4524	Cognitive Development	
PSYC 4610	Laboratory in Psycholinguistics	
PSYC 4658	Seminar in Psycholinguistics	
PSYC 4660	Seminar in Cognition	
PSYC 4674	Seminar in Cognitive Neuroscience	
With prior approval, directed study research, independent study, and Honors Project courses can also be counted:		
LING 4891	Research Seminar in Linguistics	
LING 4970	Junior/Senior Honors Project 1	
LING 4971	Junior/Senior Honors Project 2	
LING 4991	Directed Study Research	
PSYC 4991	Directed Study Research

## Data Science and Mathematics, BS

The data science and mathematics combined major combines computer science, data science, and mathematics into an integrated curriculum. The program provides the rigorous theoretical background necessary for success in the data science field.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1

#### Programming Sequence Pathways

Choose one of two options 12

##### Computer Science Option

CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	
CS 3500	Object-Oriented Design	

##### Data Science Option

DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
---------------------	--	--

DS 2500 and DS 2501	Intermediate Programming with Data and Lab for DS 2500	
DS 3500	Advanced Programming with Data	

#### Computer Science Required Courses

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800 (Integrative course)	5
CS 3200	Database Design	4

#### Data Science Foundations

DS 3000	Foundations of Data Science	4
DS 4200	Information Presentation and Visualization	4
DS 4300	Large-Scale Information Storage and Retrieval	4

#### Khoury Elective Courses

With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete eight credits of CS,CY, DS, or IS classes that are not already required. Choose courses within the following ranges: 8

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

### Mathematics Courses

Code	Title	Hours
<b>Problem-Solving Requirement</b>		
MATH 1365	Introduction to Mathematical Reasoning	4
<b>Calculus Requirement</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
<b>Intermediate and Advanced Math Requirement</b>		
MATH 2331	Linear Algebra	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 3081	Probability and Statistics	4
MATH 3175	Group Theory	4
MATH 3527	Number Theory 1	4

#### Mathematics Elective Requirement

Complete four courses in the following range: 16  
MATH 3001 to MATH 4999 but not MATH 4000

### Integrative Requirement

Code	Title	Hours
<b>Integrative Courses</b>		
DS 4400	Machine Learning and Data Mining 1	4
DS 4420	Machine Learning and Data Mining 2	4

### Computer Science Writing Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4

#### Advanced Writing in the Disciplines

ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

### Required General Electives

Code	Title	Hours
	Complete 20 credits of general electives.	20

### Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

### NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

## Data Science and Physics, BS

The data science and physics combined major brings together computer and data science, physics, and mathematics. The computer science and mathematics requirements serve as a foundation for both data science and physics. From hands-on experience with sophisticated physics instruments, to mathematical theory, to the latest computational innovations, our interdisciplinary approach is designed to prepare students for the myriad challenges in today's rapidly changing world.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Data Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Programming Sequence Pathways</b>		
Choose one of the two options		12
<i>Computer Science Option</i>		
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	
<i>Data Science Option</i>		

DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
DS 2500 and DS 2501	Intermediate Programming with Data and Lab for DS 2500	
DS 3500	Advanced Programming with Data	
<b>Computer Science Required Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 3200	Database Design	4
<b>Data Science Foundations</b>		
DS 3000	Foundations of Data Science	4
DS 4200	Information Presentation and Visualization	4
DS 4300	Large-Scale Information Storage and Retrieval	4
DS 4400	Machine Learning and Data Mining 1	4

### Physics Courses

Code	Title	Hours
<b>Required Courses</b>		
PHYS 1161 and PHYS 1162 and PHYS 1163	Physics 1 and Lab for PHYS 1161 and Recitation for PHYS 1161	5
PHYS 1165 and PHYS 1166 and PHYS 1167	Physics 2 and Lab for PHYS 1165 and Recitation for PHYS 1165	5
<b>Intermediate Physics</b>		
PHYS 2303	Modern Physics	4
PHYS 3601	Classical Dynamics	4
PHYS 3602	Electricity and Magnetism 1	4
PHYS 3603	Electricity and Magnetism 2	4
<b>Advanced Physics</b>		
PHYS 3600	Advanced Physics Laboratory	4
PHYS 4115 or PHYS 5116	Quantum Mechanics Complex Networks and Applications	4
PHYS 4305	Thermodynamics and Statistical Mechanics	4

### Electives

Code	Title	Hours
<b>Khoury Elective</b>		
With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.		
Complete four semester hours of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:		4
CS 2500 or higher, except CS 5010		
CY 2000 or higher, except CY 4930		
DS 2500 or higher, except DS 4900		
IS 2000 or higher, except IS 4900		
<b>Physics Elective</b>		
Complete one course not already required in the following range:		4
PHYS 3000 to PHYS 5999		

### Computer Science Writing Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
<b>Advanced Writing in the Disciplines</b>		
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3307	Advanced Writing in the Sciences	
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

### Supporting Courses

Code	Title	Hours
<b>Calculus</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
<b>Additional Mathematics Requirements</b>		
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 3081	Probability and Statistics	4

### Integrative Course and Capstone

Code	Title	Hours
PHYS 5318	Principles of Experimental Physics	4

### Required General Electives

Code	Title	Hours
Complete 16 semester hours of general electives.		16

### Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

### NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

### Program Requirement

### Data Science and Psychology, BS

The psychology and data science combined major offers an integrative curriculum in the study of mind, brain, and behavior and in the collection, manipulation, storage, retrieval, and computational analysis of data in its various forms, including numeric, textual, image, and video data from small to large volumes. The study of psychology draws upon empirical research with both humans and animals to investigate and seek explanations for the behavior and mental life of individuals and develop assessment tools and treatment options for addressing clinical problems. In this program, students have an opportunity to augment such knowledge with skills in big data analysis, data science, and data analytics.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Accelerated Bachelor/Graduate Degree Programs

Khoury College of Computer Sciences offers a number of bachelor's/graduate degree programs that allow students to accelerate the attainment of the graduate degree by applying graduate credits taken as an undergraduate toward both the undergraduate and graduate degrees. Degrees are earned sequentially, with the bachelor's degree attainment followed by coursework to complete the graduate degree. See additional information on accelerated bachelor/graduate degree programs (<https://registrar.northeastern.edu/article/plusone-program-accelerated-bachelorgraduate-degree-programs/>).

### College of Engineering

Website (<http://www.coe.neu.edu>)

Gregory D. Abowd, PhD, Dean

Susan Freeman, PhD, Associate Dean for Undergraduate Education

Richard Harris, MS, Assistant Dean for Academic Scholarship, Mentoring, and Outreach; Director of Multicultural Engineering

Candace A. Martel, MEd, Assistant Dean; Director of Undergraduate Academic Advising

Rachelle Reisberg, MS, Assistant Dean for Engineering Enrollment and Retention; Director of Women in Engineering

Undergraduate Academic Advising Office  
220 Snell Engineering Center  
617.373.2154  
COEAdvising@northeastern.edu

The mission of the College of Engineering is to provide a teaching, learning, and research environment that results in the highest-quality education for our students. Consistent with this goal, while providing a practice-oriented, experiential, and interdisciplinary program, the College of Engineering seeks to prepare students to contribute to the accumulation and application of technical knowledge. The college further seeks to help students master the fundamental mathematical and scientific principles underlying a particular branch of engineering; develop and demonstrate competence in analysis and design appropriate to an engineering specialization; reason clearly and communicate effectively; and recognize the need to continue professional development.

Through laboratory exercises, senior design projects, professional association activities, cooperative work assignments, and other experiential opportunities, students put theory into practice and clarify their professional goals.

The college offers a Bachelor of Science degree with specializations in bioengineering, chemical engineering, civil engineering, computer engineering, electrical engineering, environmental engineering, industrial engineering, and mechanical engineering. There are also a number of combined majors offered within the college and between the College of Engineering and other colleges. Combined majors are continually being developed in response to student interest. In addition, students can pursue Accelerated Master's program offerings.

Four-year and five-year options are available to complete the Bachelor of Science degree program. The four-year option includes 12 months of cooperative education experience and the five-year option includes 18 months of cooperative education work experience. Four-year programs are available for all majors and combined majors in the college.

The college encourages students to study the arts, sciences, business, and other areas outside engineering to allow for an increased awareness of the social, economic, political, aesthetic, and philosophical influences that shape the world in which graduates will practice their professions. Students may complete a minor in different areas such as business, computer science, biomedical engineering, math, or music. In many cases, the minor can be completed without course overloads.

The college also offers an array of international educational experiences, including a number of study-abroad options, international cooperative educational experiences, and Dialogue of Civilizations classes (which offer a four- to six-week opportunity to study engineering or a related field in the context of an international experience).

In addition to a full array of university services, specialized advising and other support services (including tutoring) are provided. Students in the University Honors Program may participate in honors sections of a number of courses. Students are encouraged to become involved in a broad range of student organizations offered within the college as an enriching addition to academic studies and co-op experience.

### Academic Standards

#### ACADEMIC PROGRESSION STANDARDS

In addition to meeting university progression standards, it is expected that full-time engineering students enroll in four courses with appropriate labs and recitations and successfully complete at least 12 semester hours each academic semester with an acceptable GPA as noted below. Any exceptions to the course load requirement must be approved in writing by the student's academic advisor prior to the start of each semester.

#### GPA REQUIREMENTS FOR GRADUATION

A minimum cumulative GPA requirement of 2.000 in major (department) courses and a minimum cumulative GPA requirement of 2.000 overall are required for graduation.

#### CRITERIA FOR ACADEMIC PROBATION

Full-time students in the College of Engineering will be placed on academic probation effective for the following academic semester for any of the reasons noted below:

##### *First-year Students:*

- Not maintaining a semester GPA of at least a 1.800 at the end of each full-term semester (fall, spring) of the first-year curriculum
- Not earning at least 12 semester hours at the end of each semester of the first-year curriculum
- Not earning at least 24 semester hours at the end of the two full-term semesters (fall, spring) of the first-year curriculum

**Upperclass and Transfer Students:**

- Not earning at least 12 semester hours in the academic full-term semester (fall, spring) just completed
- Not maintaining an overall cumulative GPA of at least 2.000 at the end of each full-term academic semester (fall, spring)
- Not maintaining a GPA of at least a 2.000 in the major at the end of the fourth academic full-term semester of the curriculum and at the end of each full-term academic semester (fall, spring) thereafter
- Accumulating three outstanding course deficiencies (grades of F, I, W, NE, U, or missing grades)
- Earning a full-term semester (fall, spring) GPA of 1.800 or lower
- Not following a program of study approved by the student's academic advisor

A notation of the academic probation action will appear on the internal record but not on the permanent transcript.

**CRITERIA FOR ACADEMIC DISMISSAL**

Students who have below a 1.000 GPA in any academic term following their first semester or cumulatively may be dismissed, regardless of their prior academic status, at the discretion of the college.

Full-time students on academic probation in the College of Engineering are eligible for academic dismissal from the university for any of the reasons noted below:

- Earning a GPA below 1.800 in a current term (fall, spring, summer, summer 1, or summer 2)
- Completing fewer than 12 semester hours in a full-term (fall, spring) academic semester
- Not following a program of study approved by the student's academic advisor
- Remaining on academic probation after two full-term (fall, spring) academic semesters

Notation of this academic dismissal action will appear on the permanent transcript.

**PASS/FAIL COURSEWORK**

Students may elect to take courses on a pass/fail basis in accordance with university policy. A maximum of 8 semester hours may be taken pass/fail toward fulfillment of degree requirements in the College of Engineering. A maximum of 4 semester hours of pass/fail coursework is allowed per semester. Only general electives taken outside the College of Engineering may be taken on a pass/fail grading basis.

**GRADUATION REQUIREMENTS**

The college reserves the right to amend programs, courses, and degree requirements to fulfill its educational responsibility to respond to relevant changes in the field.

Students must complete all of the requirements in the degree program in which they are candidates. Degree requirements are based upon the year of graduation, determined by the date of entry or reentry into the College of Engineering. Degree requirements and the year of graduation for a degree candidate who fails to make normal academic progress will be subject to review and possible change.

**PROGRESSION TOWARD FULFILLMENT OF DEGREE REQUIREMENTS**

Students are expected to develop and follow a program of study outlining scheduled coursework to complete degree requirements. If changes to the year of graduation are to be made after completion of the third year of study in the major program curriculum, revised plans should be submitted to an academic advisor for review and approval. Students pursuing a

minor course of study should declare their minor no later than the third year.

**General Engineering and First-Year Engineering**

General engineering encompasses the common curriculum for several interdisciplinary initiatives and programs for engineering students: the first-year engineering program, the entrepreneurial engineering minor, and some of the college's Dialogues of Civilizations experience courses.

**First-Year Engineering Program**

With a distinct focus on first-year engineering education, the first-year engineering program at Northeastern University prepares undergraduate engineers with the fundamental building blocks needed for all College of Engineering majors. Emphasizing hands-on, integrated design, our program leverages a state-of-the-art makerspace to provide our students with an immersive experience into the College of Engineering community. Through the lens of the engineering design process, the program weaves engineering ethics and research into designs created with CAD and software development programs used by leading industry engineering firms. Student designs are brought to life through our makerspace's extensive fabrication tools with support from our upperclass engineering student mentors. Dedicated first-year teaching faculty with expertise in engineering pedagogical research and a diverse array of engineering backgrounds focus on creating and evolving teaching practices to ensure that the program scaffolds students in an authentic and fully integrated manner to excel in the rest of their academic scholarship.

**Mission of the Department**

The mission for the first-year engineering program is to inspire our students in their pursuit of an engineering education by fostering a diverse and inclusive learning community centered around project-based, experiential learning.

**Program Values**

To accomplish our mission, we aim to:

- Provide state-of-the-art engineering education informed by best practices in *industry* and *pedagogical research*
- Introduce the fundamentals of problem solving while cultivating *systems thinking*
- Present engineering problems with *authentic complexities* that promote value-sensitive design and social and environmental justice
- Facilitate a *hands-on and teamed* learning experience through access of modern design and fabrication tools in our continually evolving makerspace
- Provide our students with the skills needed to function as independent, *lifelong learners*

**Interdisciplinary Minors**

- Entrepreneurial Engineering, Minor (p. 430)
- Design and Innovation in Engineering, Minor (p. 431)
- Materials Science and Engineering, Minor (p. 432)
- Sustainable Energy Systems, Minor (p. 433)

**Entrepreneurial Engineering, Minor**

The entrepreneurial engineering minor is designed for the technology-minded entrepreneur who seeks to understand disciplinary fundamentals,

assess market needs, create technologies, and determine how to manufacture solutions sustainably and economically. The course requirements for the minor are designed to incorporate both engineering elements (product development and prototyping) and creative elements (product design), along with market and societal considerations (customer discovery and needs assessment). The elective option provides an opportunity to specialize in one of three areas: manufacturing, design, or venture creation. Versions of this minor are available for both engineering and nonengineering majors. Sign up for the minor by contacting your academic advisor.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Core Courses

Code	Title	Hours
<b>For Undergraduates in the College of Engineering</b>		
GE 5010	Customer-Driven Technical Innovation for Engineers	4
GE 5020	Engineering Product Design Methodology	4
GE 5030	Iterative Product Prototyping for Engineers	4
GE 5100	Product Development for Engineers	4
<b>For Undergraduates outside the College of Engineering</b>		
GE 1110	Engineering Design	4
Complete three of the following:		
GE 5010	Customer-Driven Technical Innovation for Engineers	4
GE 5020	Engineering Product Design Methodology	4
GE 5030	Iterative Product Prototyping for Engineers	4
GE 5100	Product Development for Engineers	4

### Elective

Code	Title	Hours
Complete one of the following:		
<i>Venture Creation</i>		
ENTR 2303	Marketing Strategies for Startups	
ENTR 3305	Business Model Innovation for Entrepreneurs	
ENTR 3306	Global Entrepreneurship	
ENTR 3330	Lean Design and Rapid Prototyping	
ENTR 4501	Advanced Studies in Entrepreneurial Startups	
ENTR 4510	Management Consulting Abroad	
<i>Design</i>		
ARTE 3901	Art and Design Special Topics	
ARTF 1122 and ARTF 1123	Color and Composition and Color and Composition Tools	
ARTF 1124 and ARTF 1125	Form and Structure and Form and Structure Tools	
ARTG 1250	Design Process Context and Systems	
ARTG 3462	Experience Design 1	
ARTG 3463	Experience Design 2	

<i>Manufacturing</i>	
IE 2310	Introduction to Industrial Engineering
IE 4512	Engineering Economy
IE 4525	Logistics and Supply Chain Management
IE 4530	Manufacturing Systems and Techniques

### GPA Requirement

2.000 GPA required in the minor

## Design and Innovation in Engineering, Minor

The design and innovation in engineering minor is designed for nonengineering undergraduate students who wish to explore and develop working solutions as an engineer to the National Academy of Engineering Grand Challenges of the 21st century. The course requirements for the minor are designed to expose the student to the engineering elements necessary to solve the important problems facing society today and include value-sensitive design as well as the ethical and professional obligations of an engineer. The elective options offer a high degree of flexibility and exposure to the engineering design process, CAD, programming, micro-controllers-based projects, and mathematical computation. The aforementioned skills will be used for making interactive open-ended projects that address one of the NAE Grand Challenges. This provides more depth within the student's discipline and improves future career opportunities. Students have an opportunity to model and analyze designs, applying many techniques engineers utilize to create and test designs toward implementation. The student, upon successful completion of the minor, will be able to apply value-sensitive design principles to determine a societal need and propose and build or develop a solution. Students apply teamwork, project management, CAD, and algorithmic thinking to the conception of a particular solution and deliver effective team presentations on engineering projects and topics.

### Minor Requirements

*Note:* This minor is for nonengineering majors.

### Required Courses

*Note:* For students who were previously in the College of Engineering, Cornerstone of Engineering 1 (GE 1501) and Cornerstone of Engineering 2 (GE 1502) may be substituted for Engineering Design (GE 1110) and Engineering Problem Solving and Computation (GE 1111).

Code	Title	Hours
GE 1110	Engineering Design	4
GE 1111	Engineering Problem Solving and Computation	4
GE 2500	Design Analysis and Innovation	4

### Elective

Code	Title	Hours
Complete one of the following:		
ARTG 1250	Design Process Context and Systems	
ARTG 3250	Physical Computing	
ARTG 3462	Experience Design 1	
EECE 2160	Embedded Design: Enabling Robotics	
ENTR 2301	Innovation!	
GE 1201	Alternative Energy Technologies Abroad	

GE 2010	Introduction to Customer-Driven Technical Innovation: Silicon Valley
GE 2030	Introduction to Product Prototyping: Silicon Valley
GE 2300	Engineering Structure and Function: Principles of Design in Nature
GE 2361	Mathematical Methods for Engineers
GE 3300	Energy Systems: Science, Technology, and Sustainability
GE 4993	Independent Study
IE 3412	Engineering Probability and Statistics
IE 2310	Introduction to Industrial Engineering
IE 4510	Simulation Modeling and Analysis

### GPA Requirement

Minimum 2.000 GPA required in the minor

### Credit Requirement

16 hours required

## Materials Science and Engineering, Minor

### Materials Science and Engineering

The study of materials science and engineering has spurred breakthroughs in applications ranging from artificial limbs and organs, to space travel vehicles, to personal MP3 players. For example, the discovery of buckyballs and carbon nanotubes has led to the development of an unprecedented reduction in size of prototype electronic components and points the way to tomorrow's electronic technologies. Porous nanostructures of biocompatible materials are studied for targeted drug delivery within the body. The integration of polymers and semiconductors is used to create efficient, usable solar cells to reduce our dependence on fossil fuels. There are many more examples of both existing technologies and current research areas involving materials science and engineering that impact everyday life both today and in the future.

The minor in materials science and engineering is open to all students of the College of Engineering whose science and technical interests involve the design, processing, and optimization of engineering materials. Since the materials interests may vary across the engineering disciplines, the minor is composed of an interdisciplinary selection of courses that offer a high degree of flexibility to the student. The fundamental goals of the program are to offer the student a broad interdisciplinary program that includes a basic background in the relevant aspects of materials science and the engineering applications of materials. The objectives are to serve the needs of the chemical, civil, electrical, and mechanical engineering departments in providing a vehicle to expose students to materials science and engineering. Particular focus areas include electronic materials and processing for device applications; strength, wear, and corrosion-resistant coatings; molecular-level design of thin films and nanostructures; polymers and biomedical applications; and steels, concretes, and space-based structures.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Course

Code	Title	Hours
ME 2340	Introduction to Material Science	4

### Electives

Code	Title	Hours
Complete three courses from the following disciplines:		11-13

Bioengineering		
BIOE 5820	Biomaterials	

Chemical Engineering		
CHME 5105	Materials Characterization Techniques	
CHME 5160	Drug Delivery: Engineering Analysis	
CHME 5631	Biomaterials Principles and Applications	
CHME 5632	Advanced Topics in Biomaterials	
CHME 5683	Introduction to Polymer Science	

Civil and Environmental Engineering		
CIVE 2260	Materials for the Built Environment and Lab for CIVE 2260	
CIVE 5275	Life Cycle Assessment of Materials, Products, and Infrastructure	

Electrical and Computer Engineering		
EECE 3392	Electronic Materials	
EECE 5606	Micro- and Nanofabrication	
EECE 7296	Electronic Materials (With Instructor Permission)	

Materials Engineering		
MATL 5380	Particulate Materials Processing	
MATL 6250	Soft Matter (With Instructor permission)	
MATL 6270	Principles, Devices, and Materials for Energy Storage and Energy Harvesting (With Instructor permission)	
MATL 6285	Structure, Properties, and Processing of Polymeric Materials (With Instructor Permission)	

Mechanical and Industrial Engineering		
ME 4630	Ceramic Science and Engineering	
ME 4640	Mechanical Behavior and Processing of Materials	
ME 5600	Materials Processing and Process Selection	
ME 5620	Fundamentals of Advanced Materials	
ME 5645	Environmental Issues in Manufacturing and Product Use	

Engineering Interdisciplinary		
ENGR 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage	

Chemistry and Chemical Biology		
CHEM 3501	Inorganic Chemistry	
CHEM 5651	Materials Chemistry of Renewable Energy	

Or any advisor-approved course or directed study

## Capstone Design

Code	Title	Hours
Complete one of the following major capstone requirements: <sup>1</sup>		4-5
BIOE 4792	Capstone Design 2	
CHME 4703	Capstone Design 2: Chemical Process Design	
CIVE 4765	Senior Design Project—Environmental	
CIVE 4767	Senior Design Project—Structural	
CIVE 4768	Senior Design Project—Transportation	
EECE 4792	Electrical and Computer Engineering Capstone 2	
MEIE 4702	Capstone Design 2	

## GPA Requirement

2.000 GPA required in the minor

<sup>1</sup> Students may complete 4 semester hours of elective coursework in place of the capstone design project (if major does not have a capstone design project requirement).

## Sustainable Energy Systems, Minor

The sustainable energy systems minor is an interdisciplinary selection of courses designed to offer flexibility and exposure to the principles and applications of sustainable energy systems that are needed to meet the challenges of the world's growing energy needs. Students have an opportunity to learn technical skills, analysis techniques, design strategies, and principles of economics and energy policy in topic areas including traditional (fossil fuel), alternative, renewable, and sustainable energy sources and energy system applications.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

*Note:* Courses required to fulfill a major requirement may not be used to fulfill minor requirements. However, one engineering course from this minor with course number 4000 to 5999 in the student's major can be used as a technical elective or advanced engineering elective to fulfill the student's major requirements. See curriculum below for details.

## Core Energy Science, Technology Courses

Code	Title	Hours
Complete two of the following:		8
CHME 2320	Chemical Engineering Thermodynamics 1	
or ME 2380	Thermodynamics	
GE 3300	Energy Systems: Science, Technology, and Sustainability	
ENGR 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage	
ENSY 5000	Fundamentals of Energy System Integration	

## Environmental/Economics/Policy Courses

Code	Title	Hours
Complete one of the following:		4
CIVE 5275	Life Cycle Assessment of Materials, Products, and Infrastructure	
ECON 3423	Environmental Economics	
ECON 3425	Energy Economics	
ENVR 2515	Sustainable Development	
FINA 2720	Sustainability in the Business Environment	
ME 5645	Environmental Issues in Manufacturing and Product Use	

## Electives

Code	Title	Hours
Complete two of the following:		8
CHME 2308	Conservation Principles in Chemical Engineering	
CHME 2320	Chemical Engineering Thermodynamics 1	
CHME 5630	Biochemical Engineering	
CHME 5699	Special Topics in Chemical Engineering	
CIVE 4566	Design for Sustainable Transportation: Netherlands	
CIVE 5275	Life Cycle Assessment of Materials, Products, and Infrastructure	
EECE 5680	Electric Drives	
EECE 5682	Power Systems Analysis 1	
EECE 5688	Analysis of Unbalanced Power Grids	
ENGR 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage	
ENSY 5000	Fundamentals of Energy System Integration	
GE 3300	Energy Systems: Science, Technology, and Sustainability	
IE 4512	Engineering Economy (IE students may not count this course toward a sustainable energy minor if used to fulfill a major requirement.)	
ME 2380	Thermodynamics	
ME 5645	Environmental Issues in Manufacturing and Product Use	
ME 5685	Solar Thermal Engineering	
SBSY 5100	Sustainable Design and Technologies in Construction	
SBSY 5200	Sustainable Engineering Systems for Buildings	

## GPA Requirement

2.000 GPA required in the minor

Details about double-counting restrictions between this minor and Engineering major requirements are as follows:

- Civil engineering, environmental engineering and environmental engineering/health science students may not count Energy Systems: Science, Technology, and Sustainability (GE 3300) toward the

sustainable energy systems minor if this course is used to fulfill major requirements.

- Chemical engineering students and mechanical engineering students may not count Chemical Engineering Thermodynamics 1 (CHME 2320) or Thermodynamics (ME 2380) toward the sustainable energy systems minor since these courses are required in their respective majors.
- Chemical engineering students may not count Conservation Principles in Chemical Engineering (CHME 2308) toward the sustainable energy systems minor since this course is required in their major.
- Industrial engineering students may not count Engineering Economy (IE 4512) toward the sustainable energy systems minor since this course is required in their major.

## Bioengineering

Website (<http://www.bioe.neu.edu>)

### Lee Makowski, PhD

Professor and Chair

206 Interdisciplinary Science and Engineering Complex  
617.373.7805

The Department of Bioengineering offers students a broad education built on fundamentals in science, mathematics, and engineering, with a focus on the biological applications of engineering. The program is designed to provide a rigorous engineering training along with a comprehensive understanding of the biological constraints intrinsic to designing artificial systems to interface with, augment, replace, repair, or monitor living systems. These constraints depend on the properties of the biological system involved and the functionality that is being created. The living system may be the human body; an ecosystem; or, more broadly, a bioreactor, tissue culture system, or any system with living components. The presence of naturally occurring biological tissue places special constraints on the design and implementation of artificial constructs and their interface to living systems. Bioengineers are engineers with comprehensive understanding of the engineering requirements intrinsic to working within a biological context.

Bioengineering is a relatively new field driven by the recognition that engineering of biological systems or systems that interface with living systems requires a multidisciplinary approach that takes into account the mechanical, electrical, chemical, and materials properties of the biological system. With that in mind, the bioengineering program has been designed to provide a rigorous engineering education that endows a broad understanding of the quantitative analysis of biological systems and a deep expertise in one of four areas of bioengineering. The curriculum is structured around a core of six courses that quantitatively analyze biological systems from multiple points of view. The core provides the fundamentals of quantitative physiology, electrical engineering in the context of excitable tissues; basics of mechanical engineering in the context of the musculoskeletal system; and thermodynamics, heat transfer, and fluids mechanics within the context of physiological systems. On completion of the core, students choose one of three concentrations (cell and tissue engineering, biomechanics, or biomedical devices and bioimaging), which provides the opportunity to develop a deep level of expertise in an important area of bioengineering. The curriculum culminates with a two-semester capstone course to provide experience in design and implementation of a novel bioengineering project.

## Mission of the Department

The program is committed to providing a multidisciplinary education, making connections from the classroom and laboratory to research, co-op, and cocurricular experiences. The curriculum provides fundamentals in mathematics, physical sciences, and engineering science; laboratory experiences; as well as an emphasis on the special considerations intrinsic to design within a biological context. Through the university's general educational requirements, students gain awareness of the impact of engineering decisions in a broader societal and ethical context. The department encourages professional development through active participation and leadership in student organizations, societies, and departmental activities. As a result, the bioengineering program is designed to prepare students for success in industrial careers; graduate programs; or professional medical, law, and business schools.

## Other Programmatic Features

By participating in our cooperative education program, our graduates will have an opportunity to explore what career objectives fit their own skills and interests. The goal of this component of our program is to offer students valuable professional experience and contacts that will help get them started in their professional career, as well as to develop career management skills. The co-op program parallels the academic program in level of responsibility and sophistication.

The department also offers significant research opportunities throughout all fields of bioengineering, including participating in research centers based in our department and college, as well as new interdisciplinary graduate and professional master's programs.

The bioengineering curriculum is an innovative plan that is continuously and carefully assessed and evaluated to ensure that graduates of the program are fully prepared for success as professional bioengineers and are prepared for graduate or professional school.

## Programs

### Bachelor of Science in Bioengineering (BSBioE)

- Bioengineering (p. 434)
- Bioengineering and Biochemistry (p. 439)

### Bachelor of Science in Chemical Engineering (BSChE)

- Chemical Engineering and Bioengineering (p. 443)

## Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. )

## Bioengineering, BSBioE

Bioengineering is engineering in a biological context such as the human body, an ecosystem, or a bioreactor. In every case, the interface between engineered and biological systems places unique constraints on the design and implementation of devices, instruments, or implants. These depend on the properties of the biological system involved and the functionality that is being created.

The interface of engineering and medicine as embodied in bioengineering will be one of the most exciting endeavors and greatest adventures of the 21st century. Job opportunities are expected to expand dramatically with a focus on development of entirely new classes of products, instrumentation, and implants. The impact to human health will be extraordinary.

Bioengineering is intrinsically multidisciplinary and it is essential that students learn the languages used by multidisciplinary teams. To that

end, our curriculum is structured around a core of six courses that analyze biological systems from every possible quantitative point of view. On the completion of the core, students choose one of three concentrations, which provides the opportunity to develop a deep level of expertise in a specific area of bioengineering.

Bioengineering students will have unique opportunities in the classroom, research labs, and experiential learning. The projects that they may be able to contribute to include bio-bandages that monitor bacterial growth or that help damaged ligaments heal faster; sheets of cells folded like origami to form a working kidney; and new materials that—like a leaf in the sun—automatically sense and adapt to changes in the environment.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

NUPath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

## Engineering

Code	Title	Hours
<b>Required Engineering</b>		
BIOE 2355	Quantitative Physiology for Bioengineers	4
BIOE 2365 and BIOE 2366	Bioengineering Measurement, Experimentation, and Statistics and Lab for BIOE 2365	5
BIOE 2350	Biomechanics	4
BIOE 3210	Bioelectricity	4
BIOE 3310	Transport and Fluids for Bioengineers	4

BIOE 5440	The Cell as a Machine	
BIOE 5510	Bioengineering Products/Technology Commercialization	
BIOE 5640	Computational Biomechanics	
BIOE 5750	Modeling and Inference in Bioengineering	
BIOE 5760	Method and Logic in Systems Biology and Bioengineering	
CHME 5630	Biochemical Engineering	

**Supporting Courses: Mathematics/Science**

Complete all Mathematics/Science courses with a minimum of 30 semester hours.

Code	Title	Hours
<b>Required Mathematics/Science</b>		
BIOL 1115 and BIOL 1116 or BIOL 1111 and BIOL 1112	General Biology 1 for Engineers and Lab for BIOL 1115 General Biology 1 and Lab for BIOL 1111	5
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4

MATH 2341	Differential Equations and Linear Algebra for Engineering	4
PHYS 1171 and PHYS 1172 and PHYS 1173 or PHYS 1151 and PHYS 1152 and PHYS 1153	Physics 1 for Bioscience and Bioengineering and Lab for PHYS 1171 and Interactive Learning Seminar for PHYS 1171 Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5
PHYS 1175 and PHYS 1176 and PHYS 1177 or PHYS 1155 and PHYS 1156 and PHYS 1157	Physics 2 for Bioscience and Bioengineering and Lab for PHYS 1175 and Interactive Learning Seminar for PHYS 1175 Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	5

**Supplemental Credit**

1 semester hour from the following course counts toward the mathematics/science requirement:		1
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	

**Professional Development**

Code	Title	Hours
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

**Additional Required Courses**

1 semester hour from the following course counts toward the professional development requirement:		1
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
1 semester hour from the following course counts toward the professional development requirement:		1
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	

**Writing Requirements**

Code	Title	Hours
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Required General Electives**

Code	Title	Hours
Complete 28SH of academic, nonremedial, nonrepetitive courses.		28

**Major GPA Requirement**

2.000 minimum required in BIOE courses

**Program Requirement**

135 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

### Plan of Study

#### Four Years, Two Co-ops in Summer 2/Fall

Year 1				
Fall	Hours Spring	Hours Summer 1	Hours Summer 2	Hours

## Bioengineering and Biochemistry, BSBioE

This combined major from the College of Engineering and College of Science serves students who wish to develop both a scientific and an engineering mindset to solve problems in bioengineering and biochemistry. The program includes fundamentals and electives in the science of biochemistry; a complete and rigorous bioengineering core; and a series of molecular, cellular, and tissue engineering courses that allow for synthesis of the two. The curriculum aligns well with the coursework required to apply to medical school or other clinical graduate programs and aims to provide the knowledge, skills, and perspective to pursue careers in academia or industry.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

## Engineering

Code	Title	Hours
<b>Required Engineering</b>		
BIOE 2350	Biomechanics	4
BIOE 2355	Quantitative Physiology for Bioengineers	4
BIOE 2365 and BIOE 2366	Bioengineering Measurement, Experimentation, and Statistics and Lab for BIOE 2365	5
BIOE 3210	Bioelectricity	4
BIOE 3310	Transport and Fluids for Bioengineers	4
BIOE 3380	Biomolecular Dynamics and Control	4
BIOE 5410	Molecular Bioengineering	4
BIOE 5420	Cellular Engineering	4
BIOE 5430	Principles and Applications of Tissue Engineering	4
<b>Bioengineering Capstone</b>		
BIOE 4790	Capstone Design 1	4
BIOE 4792	Capstone Design 2	4
<b>Supplemental Credit</b>		
2 semester hours from the following course count toward the engineering requirement:		2
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
3 semester hours from the following course count toward the engineering requirement:		3
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>

MATH 2341	Differential Equations and Linear Algebra for Engineering	4

PHYS 1171 and PHYS 1172 and PHYS 1173	Physics 1 for Bioscience and Bioengineering and Lab for PHYS 1171 and Interactive Learning Seminar for PHYS 1171	5
or PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
PHYS 1175 and PHYS 1176 and PHYS 1177	Physics 2 for Bioscience and Bioengineering and Lab for PHYS 1175 and Interactive Learning Seminar for PHYS 1175	5
or PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	

**Advanced Biology Elective**

Complete one course in the following range: BIOL 2311 to BIOL 5999	4
---	---

**Advanced Chemistry Elective**

Complete one course in the following range: CHEM 2310 to CHEM 5999	4
---	---

**Supplemental Credit**

1 semester hour from the following course counts toward the mathematics/science requirement:	1
GE 1501 Cornerstone of Engineering 1 <sup>1</sup>	

**Professional Development**

Code	Title	Hours
<b>Professional Development</b>		
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

**Additional Required Courses**

1 semester hour from the following course counts toward the professional development requirement:	1
GE 1501 Cornerstone of Engineering 1 <sup>1</sup>	
1 semester hour from the following course counts toward the professional development requirement:	1
GE 1502 Cornerstone of Engineering 2 <sup>1</sup>	

**Writing Requirements**

Code	Title	Hours
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3307	Advanced Writing in the Sciences	
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Required General Electives**

Code	Title	Hours
Complete 12 semester hours of academic, nonremedial, nonrepetitive courses.	12	

**Integrative Course**

Code	Title	Hours
This course is already required above and also fulfills the integrative requirement.		
BIOE 4790	Capstone Design 1	4

**Major GPA Requirement**

2.000 minimum required in BIOE courses

**Program Requirement**

139 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.**Plan of Study****Four Years, One Co-op in Summer 2/Fall**

## Chemical Engineering and Bioengineering, BSChE

The Bachelor of Science in Chemical Engineering and Bioengineering provides students with a broad education built on fundamentals in science, mathematics, and engineering, with the breadth of knowledge and problem solving established in chemical engineering applied through a bioengineering focus. Chemical engineering and bioengineering have long been closely related, working to understand human diseases, developing new therapies and drug delivery systems, and producing new medicines through cell culture techniques. This specific combined major allows for chemical engineering expertise in advanced materials and chemical processes, with the additional specialized bioengineering mastery of the biological constraints intrinsic to supporting and designing systems to aid and repair living systems.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

### Chemical Engineering

Code	Title	Hours
<b>Required Engineering</b>		
CHME 2308	Conservation Principles in Chemical Engineering	4
CHME 2310	Transport Processes 1	4
CHME 2320	Chemical Engineering Thermodynamics 1	4
CHME 3312	Transport Processes 2 and Separations	4
CHME 3315 and CHME 3316	Chemical Engineering Experimental Design 1 and Recitation for CHME 3315	4
CHME 3322	Chemical Engineering Thermodynamics 2	4

CHME 4315 and CHME 4316	Chemical Engineering Experimental Design 2 and Recitation for CHME 4315	4
CHME 4510	Chemical Engineering Kinetics	4
CHME 4512	Chemical Engineering Process Control	4

### Supplemental Credit

2 semester hours from the following course count toward the engineering requirement:

GE 1501 Cornerstone of Engineering 1 <sup>1</sup>

3 semester hours from the following course count toward the engineering requirement:

GE 1502 Cornerstone of Engineering 2 <sup>1</sup>

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

### Bioengineering

Code	Title	Hours
<b>Core Bioengineering Courses</b>		
BIOE 2355	Quantitative Physiology for Bioengineers	4
BIOE 3210	Bioelectricity	4
<b>Cell and Tissue Engineering Courses</b>		
BIOE 5410	Molecular Bioengineering	4
BIOE 5420	Cellular Engineering	4
BIOE 5430	Principles and Applications of Tissue Engineering	4
<b>Bioengineering Capstone</b>		
BIOE 4790	Capstone Design 1	4
BIOE 4792	Capstone Design 2	4

### Supporting Courses: Mathematics/Science

Complete all mathematics/science courses with a minimum of 30 semester hours.

Code	Title	Hours
<b>Required Mathematics/Science</b>

MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	5

### Supplemental Credit

1 semester hour from the following course counts toward the mathematics/science requirement: 1

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	1
---------	---	---

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

### Professional Development

Code	Title	Hours
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

#### Additional Required Courses

1 semester hour from the following course counts toward the professional development requirement: 1

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	1
---------	---	---

1 semester hour from the following course counts toward the professional development requirement: 1

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	1
---------	---	---

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

### Writing Requirements

Code	Title	Hours
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3307	Advanced Writing in the Sciences	
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

### Required General Electives

Code	Title	Hours
Complete 8 semester hours of academic, nonremedial, nonrepetitive courses.		
		8

### Integrative Courses

Code	Title	Hours
These courses are already required above and also fulfill the integrative requirement.		
CHME 4315	Chemical Engineering Experimental Design 2	4
CHME 4510	Chemical Engineering Kinetics	4

### Major GPA Requirement

2.000 minimum GPA required in CHME courses

2.000 minimum GPA required in all BIOE courses

### Program Requirement

135 total semester hours required

## Plan of Study

### Four Years, One Co-op in Summer 2/Fall

Year 1				
Fall	Hours Spring	Hours Summer 1	Hours Summer 2	Hours
CHEM 1151 (ND)	4 BIOL 1111 (ND)	4 MATH 2321 (FQ)	4 Vacation

### Chemical Engineering

Website (<http://www.northeastern.edu/che/>)**Rebecca Kuntz Willits, PhD**

Professor and Chair

201 Cullinane

617.373.2989

617.373.2209 (fax)

The chemical engineering program offers students a broad education built on fundamentals in science, mathematics, and engineering, which are then applied to a variety of contemporary problems using modern tools, such as computational software and computer-aided design. Chemical engineers have traditionally been employed in chemical, petrochemical, agricultural chemical, pulp and paper, plastics, cosmetics, and textiles industries and in consulting and design firms. Today, chemical engineers also play an integral role in emerging biological and advanced materials fields, including nanotechnology. For example, chemical engineers are creating new materials needed for space exploration, alternative energy sources, and faster, self-powered computer chips. In biotechnology and bioengineering, chemical engineers are working to understand human diseases, developing new therapies and drug delivery systems, and producing new medicines through cell culture techniques. Chemical engineers employ nanotechnology to revolutionize sensors, security systems, and medical diagnostics and treatments. In addition to creating important products, chemical engineers are also involved in protecting our environment by exploring ways to reduce acid rain and smog; to recycle and reduce wastes; to develop new sources of environmentally clean energy; and to design inherently safe, efficient, and "green" processes. The role of chemical engineering is to develop new products and to design processes while reducing costs, increasing production, and improving the quality and safety of new products.

### Mission of the Department

The mission of the Department of Chemical Engineering at Northeastern University is to educate and train students in chemical engineering practice through integrating an inclusive classroom environment with hands-on and co-op experiences while solving research problems that impact our world.

### Other Programmatic Features

By participating in our cooperative education program, our graduates will have an opportunity to explore what career objectives fit their own skills and interests. The goal of this component of our program is to offer students valuable professional experience and contacts that will help get them started in their professional career, as well as to develop career management skills. The co-op program parallels the academic program in level of responsibility and sophistication.

The department also offers research opportunities throughout all aspects of chemical engineering, including participating in research centers based in our department and college, as well as new interdisciplinary graduate and professional master's programs. The chemical engineering curriculum is continuously evaluated and improved to ensure that graduates of the program are given every opportunity for future success.

as professional chemical engineers and are prepared for graduate or professional school.

## Programs

### Bachelor of Science in Chemical Engineering (BSChE)

- Chemical Engineering (p. 446)
- Chemical Engineering and Biochemistry (p. 450)
- Chemical Engineering and Bioengineering (p. 443)
- Chemical Engineering and Computer Science (p. 322)
- Chemical Engineering and Environmental Engineering (p. 457)
- Chemical Engineering and Physics (p. 460)

### Minor

- Biochemical Engineering (p. 462)

### Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. )

## Chemical Engineering, BSChE

The chemical engineering program offers students a broad education built on fundamentals in science, mathematics, and engineering, which are then applied to contemporary problems using modern tools, such as computational software and computer-aided design. Chemical engineers have traditionally been employed in chemical, petrochemical, agricultural chemical, pulp and paper, plastics, cosmetics, and textiles industries and in consulting and design firms. Today, chemical engineers also play an integral role in bioprocesses and biomedicine, big data and artificial intelligence, sustainability and energy, and study of advanced materials, including nanotechnology. For example, chemical engineers are creating new materials needed for space exploration, alternative energy sources, and faster, self-powered computer chips. In biotechnology and biomedicine, chemical engineers are working to understand human diseases, developing new therapies and drug delivery systems, and producing new medicines through cell culture techniques. Chemical engineers employ nanotechnology to revolutionize sensors, security systems, and medical diagnostics and treatments. In addition to creating important products, chemical engineers are also involved in protecting our environment by exploring ways to reduce acid rain and smog; to recycle and reduce wastes; to develop new sources of environmentally clean energy; and to design inherently safe, efficient, and “green” processes. The role of a chemical engineer is to develop new products and to design processes while reducing costs, increasing production, and improving the quality and safety of new products.

The degree also serves as a springboard to advanced study in chemical engineering or postgraduate pathways including law school, business school, or medical/health professions school.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

## Engineering

Code	Title	Hours
CHME 2308	Conservation Principles in Chemical Engineering	4
CHME 2310	Transport Processes 1	4
CHME 2320	Chemical Engineering Thermodynamics 1	4
CHME 3312	Transport Processes 2 and Separations	4
CHME 3315 and CHME 3316	Chemical Engineering Experimental Design 1 and Recitation for CHME 3315 (Chem Eng Lab 1)	4
CHME 3322	Chemical Engineering Thermodynamics 2	4
CHME 4315 and CHME 4316	Chemical Engineering Experimental Design 2 and Recitation for CHME 4315 (Chem Eng Lab 2)	4

CHME 4512	Chemical Engineering Process Control	4
<b>Chemical Engineering Capstone</b>		
CHME 4701	Capstone Design 1: Process Analysis	4
CHME 4703 and CHME 4705	Capstone Design 2: Chemical Process Design and Recitation for CHME 4703	4

### Advanced Engineering Elective

Complete one course numbered between 4000 and 5999 in any of the following subject areas:

BIOE, CHME, CIVE, EECE, ME, IE, MEIE, and ENGR

### Supplemental Credit

2 semester hours from the following course count toward the engineering requirement:

GE 1501 Cornerstone of Engineering 1<sup>1</sup>

3 semester hours from the following course count toward the engineering requirement:

GE 1502 Cornerstone of Engineering 2<sup>1</sup>

## Supporting Courses: Mathematics/Science

Complete all mathematics/science courses with a minimum of 30 semester hours.

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4

## Chemical Engineering and Biochemistry, BSChE

This intercollege combined major serves students who would like to explore their interest in biochemistry while earning the benefit of a Bachelor of Science degree in chemical engineering. The program combines the fundamentals of biochemistry with the engineering skills necessary for scale-up of biochemical processes. The curriculum is designed to prepare students well to enter the growing biotechnology industry and be able to converse from the chemistry of organisms to the design of vessels for successful synthesis of cells and pharmaceuticals.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

## Engineering

Code	Title	Hours
<b>Required Engineering</b>

**Chemical Engineering and Bioengineering, BSChE**

The Bachelor of Science in Chemical Engineering and Bioengineering provides students with a broad education built on fundamentals in science, mathematics, and engineering, with the breadth of knowledge and problem solving established in chemical engineering applied through a bioengineering focus. Chemical engineering and bioengineering have long been closely related, working to understand human diseases, developing new therapies and drug delivery systems, and producing new medicines through cell culture techniques. This specific combined major allows for chemical engineering expertise in advanced materials and chemical processes, with the additional specialized bioengineering mastery of the biological constraints intrinsic to supporting and designing systems to aid and repair living systems.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

## Chemical Engineering and Computer Science, BSChE

The Bachelor of Science in Chemical Engineering and Computer Science provides expertise in computational modeling and simulation of chemical processes. The curriculum is designed to prepare students to practice in the engineering and control of processes involving chemicals, biotechnology feedstocks, and pharmaceuticals, as well as the fundamentals of program design, software development, and algorithms and data.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

NUPath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

### Engineering

Code	Title	Hours
<b>Required Engineering</b>		
CHME 2308	Conservation Principles in Chemical Engineering	4
CHME 2310	Transport Processes 1	4
CHME 2320	Chemical Engineering Thermodynamics 1	4
CHME 3312	Transport Processes 2 and Separations	4
CHME 3322	Chemical Engineering Thermodynamics 2	4
CHME 4315 and CHME 4316	Chemical Engineering Experimental Design 2 and Recitation for CHME 4315	4
CHME 4510	Chemical Engineering Kinetics	4
CHME 4512	Chemical Engineering Process Control	4
<b>Chemical Engineering Capstone</b>		

CHME 4701	Capstone Design 1: Process Analysis	4
CHME 4703 and CHME 4705	Capstone Design 2: Chemical Process Design and Recitation for CHME 4703	4

### Supplemental Credit

2 semester hours from the following course count toward the engineering requirement:		2
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
3 semester hours from the following course count toward the engineering requirement:		3
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 3700	Networks and Distributed Systems	4
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4

### Khoury Elective Courses

With advisor approval, a directed study, research, project study, or appropriate graduate-level course may also be taken as a computer science elective.

Complete 4 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:		4
CS 2500 or higher, except CS 5010		
CY 2000 or higher, except CY 4930		
DS 2000 or higher, except DS 4900		
IS 2000 or higher, except IS 4900		

### Supporting Courses: Mathematics/Science

Complete all mathematics/science courses with a minimum of 30 semester hours.

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4

### Chemical Engineering and Environmental Engineering, BSChE

The Bachelor of Science in Chemical Engineering and Environmental Engineering provides expertise in addressing a variety of environmental challenges built on fundamentals in engineering, chemical, biological, and ecological principles. The coursework is designed to prepare students to tackle interconnected challenges in water, energy, air quality, and related fields, through chemical engineering skills in the engineering and control of processes involving chemicals that impact our environment, exploring ways to reduce acid rain and smog; to recycle and reduce wastes; to develop new sources of environmentally clean energy; and to design inherently safe, efficient, and "green" processes.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

### Chemical Engineering

Code	Title	Hours
<b>Required Engineering</b>		
CHME 2308	Conservation Principles in Chemical Engineering	4
CHME 2310	Transport Processes 1	4
CHME 2320	Chemical Engineering Thermodynamics 1	4
CHME 3312	Transport Processes 2 and Separations	4
CHME 3315 and CHME 3316	Chemical Engineering Experimental Design 1 and Recitation for CHME 3315	4
CHME 3322	Chemical Engineering Thermodynamics 2	4
CHME 4315 and CHME 4316	Chemical Engineering Experimental Design 2 and Recitation for CHME 4315	4
CHME 4510	Chemical Engineering Kinetics	4
CHME 4512	Chemical Engineering Process Control	4

### Chemical Engineering Capstone

CHME 4701	Capstone Design 1: Process Analysis	4
CHME 4703 and CHME 4705	Capstone Design 2: Chemical Process Design and Recitation for CHME 4703	4

**Supplemental Credit**

2 semester hours from the following course count toward the engineering requirement:

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	2
---------	---	---

3 semester hours from the following course count toward the engineering requirement:

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	3
---------	---	---

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

**Environmental Engineering**

Code	Title	Hours
------	-------	-------

**Core Environmental Engineering Courses**

CIVE 2334	Environmental Engineering: Principles, Technology, and Sustainability	4
CIVE 2335	Environmental Engineering Chemistry	4
CIVE 3430	Engineering Microbiology and Ecology	4
CIVE 3435	Environmental Pollution Fate and Transport	4
CIVE 4534 and CIVE 4535	Water Treatment Systems Design and Lab for CIVE 4534	4
CIVE 5300 and CIVE 5301	Environmental Sampling and Analysis and Lab for CIVE 5300	4

**Environmental Engineering Elective Courses**

Complete at least two courses from the following list:

CIVE 4540	Resource Recovery and Waste Treatment Technologies Abroad	8
CIVE 4777	Climate Hazards and Resilient Cities Abroad	
CIVE 5261	Dynamic Modeling for Environmental Investment and Policymaking	
CIVE 5271	Solid and Hazardous Waste Management	
CIVE 5275	Life Cycle Assessment of Materials, Products, and Infrastructure	
CIVE 5280	Remote Sensing of the Environment	
CIVE 5281	Coastal Dynamics and Design	
CIVE 5363	Climate Science, Engineering Adaptation, and Policy	
CIVE 5536	Hydrologic and Hydraulic Design	

**Supporting Courses: Mathematics/Science**

Complete all mathematics/science courses with a minimum of 30 semester hours.

Code	Title	Hours
------	-------	-------

**Required Mathematics/Science**

CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4

MATH 2341	Differential Equations and Linear Algebra for Engineering	4
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5

PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	5
---	--	---

**Supplemental Credit**

1 semester hour from the following course counts toward the mathematics/science requirement:

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	1
---------	---	---

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

**Professional Development**

Code	Title	Hours
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

**Additional Required Courses**

1 semester hour from the following course counts toward the professional development requirement:

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	1
---------	---	---

1 semester hour from the following course counts toward the professional development requirement:

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	1
---------	---	---

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

**Writing Requirements**

Code	Title	Hours
------	-------	-------

A grade of C or higher is required:

ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3307	Advanced Writing in the Sciences	
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Required General Electives**

Code	Title	Hours
------	-------	-------

Complete 8 semester hours of academic, nonremedial, nonrepetitive courses.

**Integrative Course**

Code	Title	Hours
------	-------	-------

This course is already required above and also fulfills the integrative requirement:

CHME 2310	Transport Processes 1	4
-----------	-----------------------	---

**Major GPA Requirement**

2.000 minimum GPA required in CHME courses

2.000 minimum GPA required in all CIVE courses

**Program Requirement**

133 total semester hours required

**Plan of Study**

## Chemical Engineering and Physics, BSChE

This intercollege combined major serves students who would like to explore their interest in physics while earning the benefit of a Bachelor of Science degree in chemical engineering. Upon completion, the successful student will understand the fundamental physics behind many chemical-based processes, resulting in the ability to design and practice in the field of engineering that deals with the movement of mass, heat transfer, and reactions involved in the processing of various materials.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

Total Hours: 135

**Notes:**

Physics courses are offered on the following schedule:

- PHYS 2303 offered every fall, spring and summer 2.
- PHYS 2371/2372 offered every fall.
- PHYS 3600 offered every summer 1 and summer 2.
- Classical Dynamics (PHYS 3601) is offered fall and spring semesters of even years only. Please meet with your Academic Advisor to discuss scheduling options for Year 4 of odd years.
- PHYS 3602 offered every fall and spring.
- PHYS 3603 offered fall (even years) and summer 1 (odd years).
- PHYS 4115 offered every fall and spring.
- PHYS 4305 offered every spring and summer 2 (even years).
- PHYS 4621 offered spring (odd years) and fall (even years).
- PHYS 4623 offered summer 1 and fall (even years).
- PHYS 4651 offered spring and fall (odd years).
- PHYS 4652 offered every spring.
- PHYS 5318 offered every spring.

### Biochemical Engineering, Minor

This minor exposes the student to the fundamentals of chemical engineering. Focus is on the major conservation principles such as the conservation of mass and the conservation of energy, followed by how chemical reactions and processing are governed by these principles.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

*Note:* Courses taken pass/fail cannot be used to fulfill minor requirements.

### Required Chemical Engineering Courses

Code	Title	Hours
CHME 2308	Conservation Principles in Chemical Engineering	4
CHME 2310	Transport Processes 1	4
CHME 3312	Transport Processes 2 and Separations	4
CHME 5630	Biochemical Engineering	4

### Capstone

Code	Title	Hours
CHME 4703	Capstone Design 2: Chemical Process Design	4

### Supporting Courses: Math and Science

Code	Title	Hours
MATH 1241	Calculus 1	4
or MATH 1341	Calculus 1 for Science and Engineering	
MATH 1242	Calculus 2	4
or MATH 1342	Calculus 2 for Science and Engineering	
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
BIOL 2301	Genetics and Molecular Biology	4
BIOL 3611 and BIOL 3612	Biochemistry and Lab for BIOL 3611	5

CHEM 2311 and CHEM 2312 and CHEM 2319	Organic Chemistry 1 and Lab for CHEM 2311 and Recitation for CHEM 2311	5
CHEM 2313 and CHEM 2314 and CHEM 2320	Organic Chemistry 2 and Lab for CHEM 2313 and Recitation for CHEM 2313	5
Complete one of the following:		5
BIOL 1107 and BIOL 1108	Foundations of Biology and Lab for BIOL 1107	
BIOL 1111 and BIOL 1112	General Biology 1 and Lab for BIOL 1111	
BIOL 1115 and BIOL 1116	General Biology 1 for Engineers and Lab for BIOL 1115	

## GPA Requirement

2.000 GPA required in the minor

## Civil and Environmental Engineering

## Overview

As a leader in research and education, the Department of Civil and Environmental Engineering at Northeastern University prepares undergraduate engineers to excel in their chosen careers, including engineering practice, academia, infrastructure management, land-use planning and development, urban and regional planning, public sector leadership, and many others.

Our students have an opportunity to obtain a broad knowledge base in science, engineering, and general studies that allows them flexibility in career development and graduate education. At the same time, our graduates should be responsible and scientifically educated citizens, prepared to contribute personally as well as professionally to an educated, democratic society. Our academic programs provide future professionals with the core skills necessary to practice civil and environmental engineering and to work with other engineers in an interdisciplinary environment.

Experience tells us that civil and environmental engineering graduates will enter almost every field imaginable. The knowledge and skills acquired—understanding science, critical thinking, effective communication, and understanding the social context, among them—form an excellent foundation for a host of careers, as well as for a fulfilling life outside the world of work.

## Mission of the Department

Advancing innovative civil and environmental solutions for society and creating globally oriented engineering leaders by integrating experiential education and use-inspired interdisciplinary research.

## Academic Programs

With a strategic focus in urban engineering, and through a range of teaching and research strengths, anchored by several multidisciplinary, multi-institutional centers and programs, our academic programs are designed to prepare future engineers to address the global, complex, and

ever-evolving engineering challenges of our time by building on current department strengths and expanding into vital areas.

Three overarching themes are emphasized in our programs: environmental health, civil infrastructure security, and sustainable resource engineering. These themes are aligned with the department's premier strengths in simulation (both computational and experimental), smart sensing, data and network science, and urban informatics and are incorporated in the undergraduate programs we offer.

Successful graduates in civil engineering and environmental engineering will have the ability to create, invent, and lead a new generation of professionals and will be able to address key challenges to protect the natural environment and to design and create the built environment for community living, industry, and society development.

Our programs have been designed with a set of electives that permit students to explore or acquire further depth in other fields of interest. Students can use these electives to earn a minor in environmental chemistry, architectural engineering, business, architectural history, music, computer science, or any number of other fields. In the civil engineering field, our programs encompass several disciplines, including transportation planning and engineering; structural engineering; geotechnical engineering; environmental, water resources, and coastal engineering; and construction management. In the environmental engineering field, our programs include developing sustainable resource engineering solutions to environmental health needs with an understanding of institutional and legal frameworks, all related to interconnected challenges in water, energy, air pollution, and waste management, to protect and provide a better quality of life to the human race. For a full list of the department's academic program offerings, please refer to the programs tab.

## Other Programmatic Features

By participating in our cooperative education program, our graduates will have an opportunity to explore what career objectives fit their own skills and interests. The goal of this component of our program is to offer students valuable professional experience and contacts that will help get them started in their professional career, as well as to develop career management skills. The co-op program parallels the academic program in level of responsibility and sophistication.

The department also offers significant research opportunities throughout all fields of civil and environmental engineering, including participating in research centers based in our department and college, as well as new interdisciplinary graduate and professional master's programs.

## Programs

### Bachelor of Science in Civil Engineering (BSCE)

- Civil Engineering (p. 464)
- Civil Engineering and Architectural Studies (p. 62)
- Civil Engineering and Computer Science (p. 324)

### Bachelor of Science in Chemical Engineering (BSChE)

- Chemical Engineering and Environmental Engineering (p. 457)

### Bachelor of Science in Environmental Engineering (BSEnvE)

- Environmental Engineering (p. 476)
- Environmental Engineering and Health Science (p. 480)
- Environmental Engineering and Landscape Architecture (p. 67)

**Minor**

- Architectural Engineering (p. 485)
- Civil Engineering (p. 486)
- Environmental Chemistry (p. 487)

**Accelerated Programs**

See Accelerated Bachelor/Graduate Degree Programs (p. )

**Civil Engineering, BSCE**

Civil engineers play a vital role in human progress and well-being worldwide. Conceptualizing, innovating, designing, and building sustainable infrastructure and environments is fundamental in helping society progress. Modern challenges, including engineering a resilient and sustainable urban infrastructure; establishing clean water and a clean environment; and advancing technologies in computing, sensing, and human health, are all part of the development of society.

Civil engineers design and construct buildings, bridges, tunnels, dams, and river systems. They also plan, design, construct, and manage highways, railroads, canals, and airports; regulate rivers and control floods; and design and build systems for water distribution and environmental protection.

With a broad range of applications, our civil engineering students have the opportunity to explore a range of disciplinary and interdisciplinary tracks, including environmental and water systems, structural engineering, transportation engineering, geotechnical and geoenvironmental engineering, construction management, civil infrastructure security, environmental health, and sustainable resource engineering.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC) and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

**Engineering**

Code	Title	Hours
<b>Required Engineering</b>		
CIVE 2221 and CIVE 2222	Statics and Solid Mechanics and Recitation for CIVE 2221	4
CIVE 2260 and CIVE 2261	Materials for the Built Environment and Lab for CIVE 2260	5
CIVE 2320 and CIVE 2321	Structural Analysis and Recitation for CIVE 2320	4
CIVE 2324	Concrete Structure Design	4

or CIVE 3425	Steel Structure Design	
CIVE 2331	Fluid Mechanics and Hydraulics	4
CIVE 2334	Environmental Engineering: Principles, Technology, and Sustainability	4
CIVE 2340 and CIVE 2341	Geotechnical Engineering and Lab for CIVE 2340	5
GE 3300	Energy Systems: Science, Technology, and Sustainability	4

**Civil Engineering Project Elective**

Complete one of the following: 4

CIVE 4534 and CIVE 4535	Water Treatment Systems Design and Lab for CIVE 4534	
CIVE 4542	Foundation Engineering and Design	
CIVE 4554	Highway Design	
CIVE 5536	Hydrologic and Hydraulic Design	

**Senior Design Project**

Complete one of the following: 5

CIVE 4765	Senior Design Project—Environmental	
CIVE 4767	Senior Design Project—Structural	
CIVE 4768	Senior Design Project—Transportation	

**Civil Engineering Technical Electives**

Complete three of the following: 11-12

CIVE 2324	Concrete Structure Design	
CIVE 3425	Steel Structure Design	
CIVE 3435	Environmental Pollution Fate and Transport	
CIVE 4540	Resource Recovery and Waste Treatment Technologies Abroad	
CIVE 4542	Foundation Engineering and Design	
CIVE 4554	Highway Design	
CIVE 4566	Design for Sustainable Transportation: Netherlands	
CIVE 4575	Construction Management	
CIVE 4777	Climate Hazards and Resilient Cities Abroad	
CIVE 4780	Timber and Masonry Structures: Technology and Design Abroad	
CIVE 5221	Construction Project Control and Organization	
CIVE 5231	Alternative Project Delivery Systems in Construction	
CIVE 5260	Environmental Fluid Mechanics	
CIVE 5261	Dynamic Modeling for Environmental Investment and Policymaking	
CIVE 5271	Solid and Hazardous Waste Management	
CIVE 5275	Life Cycle Assessment of Materials, Products, and Infrastructure	
CIVE 5280	Remote Sensing of the Environment	
CIVE 5281	Coastal Dynamics and Design	
CIVE 5300 and CIVE 5301	Environmental Sampling and Analysis and Lab for CIVE 5300	
CIVE 5363	Climate Science, Engineering Adaptation, and Policy	
CIVE 5373	Transportation Systems: Analysis and Planning	

CIVE 5376	Traffic Engineering and Sustainable Urban Street Design
CIVE 5520	Structural Systems
CIVE 5522	Structural Systems Modeling
CIVE 5525	Prestressed Concrete Design
CIVE 5536	Hydrologic and Hydraulic Design
CIVE 5699	Special Topics in Civil Engineering
SBSY 5100	Sustainable Design and Technologies in Construction
SBSY 5200	Sustainable Engineering Systems for Buildings
SBSY 5250	Building Performance Simulation
SBSY 5300	Information Systems for Integrated Project Delivery

**Supplemental Credit**

2 semester hours from the following course count toward the engineering requirement: 2

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>
---------	---

3 semester hours from the following course count toward the engineering requirement: 3

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>
---------	---

1 semester hour from the following course counts toward the engineering requirement: 1

CIVE 3464	Probability and Engineering Economy for Civil Engineering
-----------	---

**Supporting Courses: Mathematics/Science**

Complete all Mathematics/Science courses with a minimum of 30 semester hours.

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
Complete one of the following:		5
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
PHYS 1161 and PHYS 1162 and PHYS 1163	Physics 1 and Lab for PHYS 1161 and Recitation for PHYS 1161	
<b>Science Elective</b>		
Complete one of the following:		4-5
BIOL 1111 and BIOL 1112	General Biology 1 and Lab for BIOL 1111	
BIOL 1115 and BIOL 1116	General Biology 1 for Engineers and Lab for BIOL 1115	
BIOL 1141	Microbes and Society	
BIOL 1143	Biology and Society	

CHEM 2311 and CHEM 2312 and CHEM 2319	Organic Chemistry 1 and Lab for CHEM 2311 and Recitation for CHEM 2311
CHEM 3410	Environmental Geochemistry
EEMB 1101 and EEMB 1102	Foundations in Ecology and Evolutionary Biology and Lab for EEMB 1101
EEMB 1450	Introduction to Marine Biology
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302
ENVR 1120	Oceans and Coasts
ENVR 1200	Dynamic Earth
ENVR 2200	Earth's Changing Cycles
ENVR 2515	Sustainable Development
ENVR 3125	Global Oceanic Change
ENVR 3200	Water Resources
ENVR 3600	Oceanography
ENVR 5201	Geologic Field Seminar
ENVR 5350	Sustainable Energy and Climate Solutions
PHYS 1111	Astronomy
PHYS 1125	Introduction to Network Science: From the Human Cell to Facebook
PHYS 1132	Energy, Environment, and Society
PHYS 1155 and PHYS 1156	Physics for Engineering 2 and Lab for PHYS 1155
PHYS 4623	Medical Physics

**Supplemental Credit**

3 semester hours from the following course count toward the mathematics/science requirement: 3

CIVE 3464	Probability and Engineering Economy for Civil Engineering
-----------	---

1 semester hour from the following course counts toward the mathematics/science requirement: 1

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>
---------	---

**Supporting Course**

Code	Title	Hours
<b>Economics</b>		
ECON 1115 or ECON 1116	Principles of Macroeconomics or Principles of Microeconomics	4

**Professional Development**

Code	Title	Hours
<b>Professional Development</b>		
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

**Additional Required Courses**

1 semester hour from the following course counts toward the professional development requirement: 1

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>
---------	---

1 semester hour from the following course counts toward the professional development requirement: 1

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>
---------	---

**Writing Requirements**

Code	Title	Hours
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Required General Electives**

Code	Title	Hours
Complete 24SH of academic, nonremedial, nonrepetitive courses.		24

**Major GPA Requirement**

2.000 minimum required in major (CIVE) courses

**Program Requirement**

134 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

## Civil Engineering and Architectural Studies, BSCE

Civil engineering and architecture are two important disciplines that deal with the process of creating the built environment to satisfy societal needs. Both professions have critical functions that are essential in the development of society in terms of planning cities and designing more resilient infrastructure and rely on one another to accomplish it. The combination of these two professions creates great synergy as architects focus more on the functional and human aspects of development, while civil engineers concentrate on the structural elements of the design,

ensuring durable structures that perform under normal and extreme loads.

Students successfully completing the program receive a rigorous engineering training education, enabling a high level of engineering knowledge as well as exposure to a broad range of architectural topics and design experiences.

Students also have the opportunity to undertake a co-op experience consistent with the policies and opportunities offered within the College of Engineering.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

For this combined major, Nupath requirements are satisfied in several courses across the program and by required courses in the combined major.

### Engineering Requirement

Code	Title	Hours
<b>Required Engineering</b>		
CIVE 2221 and CIVE 2222	Statics and Solid Mechanics and Recitation for CIVE 2221	4
CIVE 2260 and CIVE 2261	Materials for the Built Environment and Lab for CIVE 2260	5
CIVE 2320 and CIVE 2321	Structural Analysis and Recitation for CIVE 2320	4
CIVE 2324	Concrete Structure Design	4
CIVE 2331	Fluid Mechanics and Hydraulics	4
CIVE 2334	Environmental Engineering: Principles, Technology, and Sustainability	4
CIVE 2340 and CIVE 2341	Geotechnical Engineering and Lab for CIVE 2340	5
GE 3300	Energy Systems: Science, Technology, and Sustainability	4

### Civil Engineering Project Elective

Complete one of the following:		4
CIVE 4534 and CIVE 4535	Water Treatment Systems Design and Lab for CIVE 4534	
CIVE 4542	Foundation Engineering and Design	
CIVE 4554	Highway Design	
CIVE 5536	Hydrologic and Hydraulic Design	

### Senior Design Project

CIVE 4767	Senior Design Project—Structural	5
-----------	----------------------------------	---

### Civil Engineering Technical Electives

Complete one of the following:		4
CIVE 3425	Steel Structure Design	

CIVE 5522	Structural Systems Modeling	
<b>Supplemental Credit</b>		
1 semester hour from the following course counts toward the engineering requirement:		1
CIVE 3464	Probability and Engineering Economy for Civil Engineering	
2 semester hours from the following course count toward the engineering requirement:		2
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
3 semester hours from the following course count toward the engineering requirement:		3
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	

### Architecture Requirements

Code	Title	Hours
ARCH 1110	Fundamental Architectural Representation	4
ARCH 1120	Fundamental Architectural Design	6
ARCH 1310 and ARCH 1311	Buildings and Cities, A Global History and Recitation for ARCH 1310	4
ARCH 2130	Site, Space, and Program	6
ARCH 2140	Urban Institutions	6
ARCH 2340 and ARCH 2341	Modern Architecture and Recitation for ARCH 2340	4
ARCH 3210 and ARCH 3211	Environmental Systems and Recitation for ARCH 3210	4

### Architectural Electives

Complete two of the following:		8
ARCH 3370	Advanced Topics in Architectural History	
ARCH 3351	Architecture Topics Abroad: Theory	
ARCH 3352	Architecture Topics Abroad: Drawing	
ARCH 3450	Advanced Architectural Communication	
ARCH 4850	Urban and Architectural History Abroad	
ARCH 5115	Option Studio	
ARCH 5220	Integrated Building Systems	
ARCH 5310	Design Tactics and Operations	

### Supporting Courses: Mathematics/Science

Complete all Mathematics/Science courses with a minimum of 30 semester hours.

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
Complete one of the following:		5
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	

PHYS 1161 and PHYS 1162 and PHYS 1163	Physics 1 and Lab for PHYS 1161 and Recitation for PHYS 1161	
<b>Science Elective</b>		
Complete one of the following:		4-5
BIOL 1111 and BIOL 1112	General Biology 1 and Lab for BIOL 1111	
BIOL 1115 and BIOL 1116	General Biology 1 for Engineers and Lab for BIOL 1115	
BIOL 1141	Microbes and Society	
BIOL 1143	Biology and Society

PHYS 1125	Introduction to Network Science: From the Human Cell to Facebook	
PHYS 1132	Energy, Environment, and Society	
PHYS 1155 and PHYS 1156	Physics for Engineering 2 and Lab for PHYS 1155	
PHYS 4623	Medical Physics	

### Supplemental Credit

3 semester hours from the following course count toward the mathematics/science requirement:		3
CIVE 3464	Probability and Engineering Economy for Civil Engineering	
1 semester hour from the following course counts toward the mathematics/science requirement:		1
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	

### Professional Development

Code	Title	Hours
<b>Professional Development</b>		
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

### Additional Required Courses

1 semester hour from the following course counts toward the professional development requirement: 1

GE 1501	Cornerstone of Engineering 1	<sup>1</sup>
---------	------------------------------	--------------

1 semester hour from the following course counts toward the professional development requirement: 1

GE 1502	Cornerstone of Engineering 2	<sup>1</sup>
---------	------------------------------	--------------

### Writing Requirements

Code	Title	Hours
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

### Integrative Courses

Code	Title	Hours
This course is already required above and also fulfills the integrative requirement.		
CIVE 4767	Senior Design Project—Structural	

### Engineering GPA Requirement

Minimum 2.000 GPA required in all Engineering courses

### Architecture GPA Requirement

Minimum 2.000 GPA required in all Architecture courses

### Program Requirements

141 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

Note:

- Students who wish to be considered for the two-year Master of Architecture Program at Northeastern **SHOULD** take ARCH 3450 as an elective and **SHOULD NOT** take ARCH 5115 or ARCH 5220 as architectural electives.
- Students who wish to be considered for the two-year Master of Architecture Program at Northeastern **MUST** have satisfied the Structural Systems (ARCH 5230) requirement. This requirement is achieved in this combined major by taking the following three courses, as follows:
  - CIVE 2221 Statics and Solid Mechanics (including recitation CIVE 2222)
  - CIVE 2320 Structural Analysis (including recitation CIVE 2321)
  - And at least one design course from the following:
    - CIVE 2324 Concrete Structure Design
    - CIVE 3425 Steel Structure Design

### Plan of Study

#### Four Years, 1 Co-op in Summer 2/Fall

Year 1

Fall	Hours Spring	Hours Summer 1	Hours Summer 2	Hours
CHEM 1151 (ND)	4 ARCH 1110 (EI)	4 MATH 2321 (FQ)	4 Vacation	

CHEM 1153	0 ARCH 1120 (ND, EI)	6 PHYS 1151 (ND)	3	
ENGW 1111 (WF)	4 GE 1502 (ER)	4 PHYS 1152 (AD)	1

## Civil Engineering and Computer Science, BSCE

The Bachelor of Science in Civil Engineering and Computer Science provides expertise in computational modeling and simulation of civil and environmental processes and systems. Students will be prepared for practice in the engineering and control of processes and systems vital for the sustainable development and management of civil and environmental infrastructure, as well as the fundamentals of program design, software development, and algorithms and data.

Computational and simulations-based approaches in engineering research and design practices have increased substantially in recent years in response to the rapidly increasing availability of data from remote and in-situ sensors as well as networked systems. Students who graduate with this combined major degree will have the breadth and depth of understanding and abilities to contribute to innovative and sustainable solutions to support global civil and environmental infrastructure demands.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC) and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements with their general elective.

### Engineering Requirement

Code	Title	Hours
<b>Required Engineering</b>		
CIVE 2221 and CIVE 2222	Statics and Solid Mechanics and Recitation for CIVE 2221	4
CIVE 2260 and CIVE 2261	Materials for the Built Environment and Lab for CIVE 2260	5
CIVE 2320 and CIVE 2321	Structural Analysis and Recitation for CIVE 2320	4

CIVE 2324	Concrete Structure Design	4
CIVE 2331	Fluid Mechanics and Hydraulics	4
CIVE 2334	Environmental Engineering: Principles, Technology, and Sustainability	4
CIVE 2340 and CIVE 2341	Geotechnical Engineering and Lab for CIVE 2340	5
GE 3300	Energy Systems: Science, Technology, and Sustainability	4

**Civil Engineering Project Elective**

Complete one of the following: 4

CIVE 4534 and CIVE 4535	Water Treatment Systems Design and Lab for CIVE 4534	
CIVE 4542	Foundation Engineering and Design	
CIVE 4554	Highway Design	
CIVE 5536	Hydrologic and Hydraulic Design	

**Senior Design Elective**

Complete one of the following: 5

CIVE 4765	Senior Design Project—Environmental	
CIVE 4767	Senior Design Project—Structural	
CIVE 4768	Senior Design Project—Transportation	

**Supplemental Credit**

1 semester hour from the following course counts toward the engineering requirement: 1

CIVE 3464	Probability and Engineering Economy for Civil Engineering	
-----------	---	--

2 semester hours from the following course count toward the engineering requirement: 2

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
---------	---	--

3 semester hours from the following course count toward the engineering requirement: 3

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	
---------	---	--

**Computer Science Requirements**

Code	Title	Hours
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
CS 3000 and CS 3001	Algorithms and Data and Recitation for CS 3000	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 3700	Networks and Distributed Systems	4
CS 4500	Software Development	4

**Computer Science Elective**

Complete 4 semester hours of the following: 4

CS 2500 or higher, except CS 5010		
CY 2000 or higher, except CY 4930		
DS 2500 or higher, except DS 4900		
IS 2000 or higher, except IS 4900		

**Supporting Courses: Mathematics/Science**

Complete all mathematics/science courses with a minimum of 30 semester hours.

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5

**Science Elective**

Complete one of the following science electives: 4

PHYS 1125	Introduction to Network Science: From the Human Cell to Facebook	
PHYS 1132	Energy, Environment, and Society	
ENVR 2515	Sustainable Development	

**Supplemental Credit**

3 semester hours from the following course count toward the mathematics/science requirement: 3

CIVE 3464	Probability and Engineering Economy for Civil Engineering	
-----------	---	--

1 semester hour from the following course counts toward the mathematics/science requirement: 1

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
---------	---	--

**Professional Development**

Code	Title	Hours
<b>Professional Development</b>		
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

**Additional Required Courses**

1 semester hour from the following course counts toward the professional development requirement: 1

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
---------	---	--

1 semester hour from the following course counts toward the professional development requirement: 1

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	
---------	---	--

**Writing Requirements**

Code	Title	Hours
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Required General Electives**

Code	Title	Hours
	Complete 4 semester hours of academic, nonremedial, nonrepetitive courses.	4

**Integrative Courses**

Code	Title	Hours
	Students will complete one of these courses as part of their required courses above.	
CIVE 4765	Senior Design Project—Environmental	5
CIVE 4767	Senior Design Project—Structural	5
CIVE 4768	Senior Design Project—Transportation	5

**Engineering GPA Requirement**

Minimum 2.000 GPA required in all engineering courses

**KHOURY GPA REQUIREMENT**

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

**Program Requirements**

138 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

**Plan of Study****Four Years, One Co-op in Spring/Summer 1**

## Chemical Engineering and Environmental Engineering, BSChE

The Bachelor of Science in Chemical Engineering and Environmental Engineering provides expertise in addressing a variety of environmental challenges built on fundamentals in engineering, chemical, biological, and ecological principles. The coursework is designed to prepare students to tackle interconnected challenges in water, energy, air quality, and related fields, through chemical engineering skills in the engineering and control of processes involving chemicals that impact our environment, exploring ways to reduce acid rain and smog; to recycle and reduce wastes; to develop new sources of environmentally clean energy; and to design inherently safe, efficient, and "green" processes.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

**Chemical Engineering**

Code	Title	Hours
<b>Required Engineering</b>		
CHME 2308	Conservation Principles in Chemical Engineering	4
CHME 2310	Transport Processes 1	4
CHME 2320	Chemical Engineering Thermodynamics 1	4
CHME 3312	Transport Processes 2 and Separations	4
CHME 3315 and CHME 3316	Chemical Engineering Experimental Design 1 and Recitation for CHME 3315	4
CHME 3322	Chemical Engineering Thermodynamics 2	4
CHME 4315 and CHME 4316	Chemical Engineering Experimental Design 2 and Recitation for CHME 4315	4
CHME 4510	Chemical Engineering Kinetics	4
CHME 4512	Chemical Engineering Process Control	4
<b>Chemical Engineering Capstone</b>		
CHME 4701	Capstone Design 1: Process Analysis	4
CHME 4703 and CHME 4705	Capstone Design 2: Chemical Process Design and Recitation for CHME 4703	4

**Supplemental Credit**

2 semester hours from the following course count toward the engineering requirement: 2

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>
---------	---

3 semester hours from the following course count toward the engineering requirement: 3

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>
---------	---

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

**Environmental Engineering**

Code	Title	Hours
<b>Core Environmental Engineering Courses</b>		
CIVE 2334	Environmental Engineering: Principles, Technology, and Sustainability	4
CIVE 2335	Environmental Engineering Chemistry	4
CIVE 3430	Engineering Microbiology and Ecology	4
CIVE 3435	Environmental Pollution Fate and Transport	4
CIVE 4534 and CIVE 4535	Water Treatment Systems Design and Lab for CIVE 4534	4
CIVE 5300 and CIVE 5301	Environmental Sampling and Analysis and Lab for CIVE 5300	4

**Environmental Engineering Elective Courses**

Complete at least two courses from the following list: 8

CIVE 4540	Resource Recovery and Waste Treatment Technologies Abroad	8
CIVE 4777	Climate Hazards and Resilient Cities Abroad	
CIVE 5261	Dynamic Modeling for Environmental Investment and Policymaking	
CIVE 5271	Solid and Hazardous Waste Management	
CIVE 5275	Life Cycle Assessment of Materials, Products, and Infrastructure	
CIVE 5280	Remote Sensing of the Environment	
CIVE 5281	Coastal Dynamics and Design	
CIVE 5363	Climate Science, Engineering Adaptation, and Policy	
CIVE 5536	Hydrologic and Hydraulic Design	

### Supporting Courses: Mathematics/Science

Complete all mathematics/science courses with a minimum of 30 semester hours.

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	5

### Supplemental Credit

1 semester hour from the following course counts toward the mathematics/science requirement: 1

GE 1501 Cornerstone of Engineering 1 <sup>1</sup>

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

### Professional Development

Code	Title	Hours
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

### Additional Required Courses

1 semester hour from the following course counts toward the professional development requirement: 1

GE 1501 Cornerstone of Engineering 1 <sup>1</sup>

1 semester hour from the following course counts toward the professional development requirement: 1

GE 1502 Cornerstone of Engineering 2 <sup>1</sup>

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

### Writing Requirements

Code	Title	Hours
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3307	Advanced Writing in the Sciences	
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

### Required General Electives

Code	Title	Hours
Complete 8 semester hours of academic, nonremedial, nonrepetitive courses.		8

### Integrative Course

Code	Title	Hours
This course is already required above and also fulfills the integrative requirement:		
CHME 2310	Transport Processes 1	4

### Major GPA Requirement

2.000 minimum GPA required in CHME courses

2.000 minimum GPA required in all CIVE courses

### Program Requirement

133 total semester hours required

### Plan of Study

#### Four Years, One Co-op in Summer 2/Fall

**Environmental Engineering, BSEnvE**

Throughout the world, environmental engineers play a key role in defining the future of sustainable cities and communities. Creating innovations and designing systems that ensure clean and healthy environments are some of the greatest collective challenges of our time. Revolutionary strategies and designs are needed to create symbiosis between our natural and manmade environments.

Using new and advanced technologies, environmental engineers must address the world's growing challenges, including engineering sustainable strategies coupled with the development of devices and tools to better predict and address environmental needs to provide clean

environments and planning green infrastructure in conjunction with the natural environment for a changing planet.

With a solid foundation in engineering, chemical, biological, and ecological principles, Northeastern's environmental engineering students learn how to tackle interconnected challenges as they relate to water, energy, air quality, and related fields. Understanding these complex interactions, particularly as they impact our built and natural environments, is embodied in our program through a holistic educational approach.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

### Engineering

Code	Title	Hours
<b>Required Engineering</b>		
CIVE 2221 and CIVE 2222	Statics and Solid Mechanics and Recitation for CIVE 2221	4
CIVE 2260 and CIVE 2261	Materials for the Built Environment and Lab for CIVE 2260	5
CIVE 2331	Fluid Mechanics and Hydraulics	4
CIVE 2334	Environmental Engineering: Principles, Technology, and Sustainability	4
CIVE 3435	Environmental Pollution Fate and Transport	4
CIVE 4534 and CIVE 4535	Water Treatment Systems Design and Lab for CIVE 4534	4
CIVE 4765	Senior Design Project—Environmental	5
CIVE 5300 and CIVE 5301	Environmental Sampling and Analysis and Lab for CIVE 5300	4
GE 3300	Energy Systems: Science, Technology, and Sustainability	4
<b>Environmental Engineering Technical Electives</b>		
Complete 11-12 semester hours from the following:		11-12
CIVE 4540	Resource Recovery and Waste Treatment Technologies Abroad	
CIVE 4566	Design for Sustainable Transportation: Netherlands	
CIVE 4575	Construction Management	
CIVE 4777	Climate Hazards and Resilient Cities Abroad	
CIVE 5260	Environmental Fluid Mechanics	

CIVE 5261	Dynamic Modeling for Environmental Investment and Policymaking
CIVE 5271	Solid and Hazardous Waste Management
CIVE 5275	Life Cycle Assessment of Materials, Products, and Infrastructure
CIVE 5280	Remote Sensing of the Environment
CIVE 5281	Coastal Dynamics and Design
CIVE 5363	Climate Science, Engineering Adaptation, and Policy
CIVE 5536	Hydrologic and Hydraulic Design

### Supplemental Credit

1 semester hour from the following course counts toward the engineering requirement:		1
CIVE 3464	Probability and Engineering Economy for Civil Engineering	
3 semester hours from the following course count toward the engineering requirement:		3
CIVE 2335	Environmental Engineering Chemistry	
3 semester hours from the following course count toward the engineering requirement:		3
CIVE 3430	Engineering Microbiology and Ecology	
2 semester hours from the following course count toward the engineering requirement:		2
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
3 semester hours from the following course count toward the engineering requirement:		3
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	

### Supporting Courses: Mathematics/Science

Complete all Mathematics/Science courses with a minimum of 30 semester hours.

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5
<b>Science Elective (Earth)</b>		
Complete one of the following:		4-5
ENVR 1120	Oceans and Coasts	
ENVR 1200	Dynamic Earth	
ENVR 2200	Earth's Changing Cycles	
ENVR 3125	Global Oceanic Change	
ENVR 3200	Water Resources	
ENVR 3600	Oceanography	
ENVR 5201	Geologic Field Seminar	

### Supplemental Credit

3 semester hours from the following course count toward the mathematics/science requirement:	3
CIVE 3464 Probability and Engineering Economy for Civil Engineering	
1 semester hour from the following course counts toward the mathematics/science requirement:	1
CIVE 2335 Environmental Engineering Chemistry	
1 semester hour from the following course counts toward the mathematics/science requirement:	1
CIVE 3430 Engineering Microbiology and Ecology	
1 semester hour from the following course counts toward the mathematics/science requirement:	1
GE 1501 Cornerstone of Engineering 1 <sup>1</sup>	

### Professional Development

Code	Title	Hours
<b>Professional Development</b>		
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

#### Additional Required Courses

1 semester hour from the following course counts toward the professional development requirement:	1
GE 1501 Cornerstone of Engineering 1 <sup>1</sup>	
1 semester hour from the following course counts toward the professional development requirement:	1
GE 1502 Cornerstone of Engineering 2 <sup>1</sup>	

### Writing Requirements

Code	Title	Hours
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

### Required General Electives

Code	Title	Hours
Complete 24 SH of academic, nonremedial, nonrepetitive courses.		24

### Major GPA Requirement

2.000 minimum required in major (CIVE) courses

### Program Requirement

133 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

### Plan of Study

**Environmental Engineering and Health Science, BSEnVE**

This intercollege combined major is designed for students who would like to explore their interest in the health sciences while earning the benefit of a Bachelor of Science degree in environmental engineering. The combined major reflects the respective departmental thrusts in environmental health and sustainable resource engineering to create awareness about the complex relationship between the environment and human health, prepare professionals in this growing area capable of providing engineering solutions to current and emerging topics related to environmental engineering and health sciences, and maintain healthy environmental systems by applying and developing techniques to reduce exposure to health hazards. This program combines the content of two majors to allow students to learn the breadth and depth of the convergence between public health and environmental engineering.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Engineering Requirement**

Code	Title	Hours
<b>Required Engineering</b>

## Environmental Engineering and Landscape Architecture, BSEnVE

Environmental engineering and landscape architecture are two important disciplines that deal with the complex interaction between the natural and the built environment. Both professions have critical functions that are essential in the development of society in terms of planning and designing more sustainable cities. The combination of these two professions creates great synergy and seeks to expose engineering students to the conceptual and practical content of landscape planning. Successful graduates from this degree are prepared to imagine and create projects that can be translated into reality providing solutions to address the world's growing challenges by designing clean and sustainable environments and green infrastructure.

Students completing the combined major Bachelor of Science in Environmental Engineering and Landscape Architecture receive a rigorous engineering training education, enabling a high level of engineering knowledge as well as exposure to a broad range of landscape architectural topics and design experiences.

Students will also have the opportunity to undertake a co-op experience consistent with the policies and opportunities offered within the College of Engineering.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

For this combined major, Nupath requirements are satisfied in several courses across the program and by required courses in the combined major.

## Engineering Requirement

Code	Title	Hours
<b>Required Engineering</b>		
CIVE 2221 and CIVE 2222	Statics and Solid Mechanics and Recitation for CIVE 2221	4
CIVE 2260 and CIVE 2261	Materials for the Built Environment and Lab for CIVE 2260	5
CIVE 2331	Fluid Mechanics and Hydraulics	4
CIVE 2334	Environmental Engineering: Principles, Technology, and Sustainability	4
CIVE 3435	Environmental Pollution Fate and Transport	4
CIVE 4534 and CIVE 4535	Water Treatment Systems Design and Lab for CIVE 4534	4
CIVE 5300 and CIVE 5301	Environmental Sampling and Analysis and Lab for CIVE 5300	4
GE 3300	Energy Systems: Science, Technology, and Sustainability	4

### Senior Design Project

CIVE 4765	Senior Design Project—Environmental	5
-----------	-------------------------------------	---

### Supplemental Credit

1 semester hour from the following course counts toward the engineering requirement:	1
--	---

CIVE 3464	Probability and Engineering Economy for Civil Engineering	
-----------	--	--

3 semester hours from the following course count toward the engineering requirement:	3
--	---

CIVE 2335	Environmental Engineering Chemistry	
-----------	-------------------------------------	--

3 semester hours from the following course count toward the engineering requirement:	3
--	---

CIVE 3430	Engineering Microbiology and Ecology	
-----------	--------------------------------------	--

2 semester hours from the following course count toward the engineering requirement:	2
--	---

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
---------	---	--

3 semester hours from the following course count toward the engineering requirement:	3
--	---

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>

## Landscape Architecture Requirements

Code	Title	Hours
ARCH 1110	Fundamental Architectural Representation	4
ARCH 1120	Fundamental Architectural Design	6
ARCH 1310 and ARCH 1311	Buildings and Cities, A Global History and Recitation for ARCH 1310	4
ARCH 2340 and ARCH 2341	Modern Architecture and Recitation for ARCH 2340	4
LARC 2230	Introduction to Sustainable Site Planning and Design	4
LARC 2240	Sustainable Site Construction and Detailing	4
LARC 2430	Plants, People, and Landscape Change	4
LARC 2440	Planting Design	4
LARC 5420	Professional Practice in Landscape Architecture	4
or LARC 2340	Cities, Landscape, and Contemporary Culture	

### Supporting Courses: Mathematics/Science

Complete all Mathematics/Science courses with a minimum of 30 semester hours.

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4

Complete one of the following: 5

PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
PHYS 1161 and PHYS 1162 and PHYS 1163	Physics 1 and Lab for PHYS 1161 and Recitation for PHYS 1161	

#### Science Elective (Earth)

Complete one of the following: 4-5

ENVR 1120	Oceans and Coasts	
ENVR 1200	Dynamic Earth	
ENVR 2200	Earth's Changing Cycles	
ENVR 3125	Global Oceanic Change	
ENVR 3200	Water Resources	
ENVR 3600	Oceanography	
ENVR 5201	Geologic Field Seminar	

#### Supplemental Credit

3 semester hours from the following course count toward the mathematics/science requirement: 3

CIVE 3464	Probability and Engineering Economy for Civil Engineering	
-----------	---	--

1 semester hour from the following course counts toward the mathematics/science requirement: 1

CIVE 2335	Environmental Engineering Chemistry	
-----------	-------------------------------------	--

1 semester hour from the following course counts toward the mathematics/science requirement: 1

CIVE 3430	Engineering Microbiology and Ecology	
-----------	--------------------------------------	--

1 semester hour from the following course counts toward the mathematics/science requirement: 1

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
---------	---	--

### Professional Development

Code	Title	Hours
<b>Professional Development</b>		
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

#### Additional Required Courses

1 semester hour from the following course counts toward the professional development requirement: 1

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
---------	---	--

1 semester hour from the following course counts toward the professional development requirement: 1

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	
---------	---	--

### Writing Requirements

Code	Title	Hours
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

### Integrative Courses

Code	Title	Hours
This course is already required above and also fulfills the integrative requirement.		
CIVE 4765	Senior Design Project—Environmental	

### Engineering GPA Requirement

Minimum 2.000 GPA required in all major courses

### Landscape Architecture GPA Requirement

Minimum 2.500 GPA required in all major courses

### Program Requirements

136 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

### Plan of Study

#### Four Years, 1 Co-op in Summer 2/Fall

**Architectural Engineering, Minor**

Architectural engineering is a field of engineering that encompasses elements of civil engineering, mechanical engineering, architecture, and related fields to plan, design, and create buildings within the urban environment. It includes the architectural and structural design, mechanical systems design, computational controls and sensing, and sustainable engineering strategies.

The Department of Civil and Environmental Engineering recognizes the importance of interdisciplinary work and of exposing students to the great richness in a classroom of diverse students from multiple majors bringing their own perspectives. The prospect of engineering students in architecture classes and vice versa stands to benefit all the students, whether or not they are enrolled in the minor.

The minor in architectural engineering opens opportunities for students across the university who are interested in a unique and multidisciplinary approach to the built environment. For engineering students, this minor

offers an opportunity to work in the built environment and to better understand architecture, while for architecture students this is an opportunity to acquire the technical knowledge of a course of study in an engineering minor.

A total of 20 semester hours (SH) are required to complete this minor. Students will be required to complete 8 SH of required courses and 12 SH of approved elective courses from several colleges and departments at the university. Students interested in this minor must contact the civil engineering academic advisor in order to declare the minor.

This minor in architectural engineering is designed for any major and is open to any undergraduate student at the university.

Students may double count no more than two courses with any major or graduate degree requirement, other than general electives.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs and recitations courses where specified.

### Required Courses

Code	Title	Hours
CIVE 2221 and CIVE 2222	Statics and Solid Mechanics and Recitation for CIVE 2221	4
ARCH 3210 and ARCH 3211	Environmental Systems and Recitation for ARCH 3210	4

### Electives

#### ARCHITECTURE ELECTIVES

Code	Title	Hours
Complete one of the following:		4
ARCH 2240	Architectonic Systems	
ARCH 2330 and ARCH 2331	Architecture and the City in the Nineteenth Century and Recitation for ARCH 2330	
ARCH 2340 and ARCH 2341	Modern Architecture and Recitation for ARCH 2340	
ARCH 5220	Integrated Building Systems	
LARC 2230	Introduction to Sustainable Site Planning and Design	
LARC 2240	Sustainable Site Construction and Detailing	

#### ENGINEERING ELECTIVES

Code	Title	Hours
Complete one or two of the following:		8
CIVE 2320 and CIVE 2321	Structural Analysis and Recitation for CIVE 2320	
CIVE 2324	Concrete Structure Design	
CIVE 3425	Steel Structure Design	
CIVE 5281	Coastal Dynamics and Design	
CIVE 5363	Climate Science, Engineering Adaptation, and Policy	
CIVE 5520	Structural Systems	
CIVE 5522	Structural Systems Modeling	
CIVE 5699	Special Topics in Civil Engineering (Vibration-based Structural Health Monitoring)	
SBSY 5100	Sustainable Design and Technologies in Construction	

SBSY 5200	Sustainable Engineering Systems for Buildings
SBSY 5250	Building Performance Simulation
SBSY 5300	Information Systems for Integrated Project Delivery

If only one course was taken above, complete one course from the following:

GE 3300	Energy Systems: Science, Technology, and Sustainability
CIVE 2340 and CIVE 2341	Geotechnical Engineering and Lab for CIVE 2340
CIVE 4542	Foundation Engineering and Design
CIVE 5275	Life Cycle Assessment of Materials, Products, and Infrastructure

### GPA Requirement

2.000 GPA required in the minor

### Civil Engineering, Minor

The minor in civil engineering opens opportunities for students across the university who are interested in gaining knowledge in urban engineering through the core disciplines within the Department of Civil and Environmental Engineering.

A total of 16 semester hours are required to complete this minor. Students interested in this minor must contact the civil and environmental engineering academic advisor in order to declare the minor. This minor is not open to civil engineering or environmental engineering majors.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs and recitations courses where specified.

### Required Courses

Code	Title	Hours
Choose four courses from the following list:		16
CIVE 2221	Statics and Solid Mechanics	
CIVE 2260 and CIVE 2261	Materials for the Built Environment and Lab for CIVE 2260	
CIVE 2320	Structural Analysis	
CIVE 2324	Concrete Structure Design	
CIVE 2331	Fluid Mechanics and Hydraulics	
CIVE 2334	Environmental Engineering: Principles, Technology, and Sustainability	
CIVE 2335	Environmental Engineering Chemistry	
CIVE 2340 and CIVE 2341	Geotechnical Engineering and Lab for CIVE 2340	
CIVE 3425	Steel Structure Design	
CIVE 3430	Engineering Microbiology and Ecology	
CIVE 3435	Environmental Pollution Fate and Transport	
CIVE 3464	Probability and Engineering Economy for Civil Engineering	
CIVE 4534	Water Treatment Systems Design	
CIVE 4540	Resource Recovery and Waste Treatment Technologies Abroad	

CIVE 4542	Foundation Engineering and Design
CIVE 4554	Highway Design
CIVE 4566	Design for Sustainable Transportation: Netherlands
CIVE 4575	Construction Management
CIVE 4777	Climate Hazards and Resilient Cities Abroad
CIVE 4780	Timber and Masonry Structures: Technology and Design Abroad
CIVE 5271	Solid and Hazardous Waste Management
CIVE 5221 and CIVE 5231	Construction Project Control and Organization and Alternative Project Delivery Systems in Construction
CIVE 5260	Environmental Fluid Mechanics
CIVE 5261	Dynamic Modeling for Environmental Investment and Policymaking
CIVE 5275	Life Cycle Assessment of Materials, Products, and Infrastructure
CIVE 5280	Remote Sensing of the Environment
CIVE 5281	Coastal Dynamics and Design
CIVE 5300 and CIVE 5301	Environmental Sampling and Analysis and Lab for CIVE 5300
CIVE 5363	Climate Science, Engineering Adaptation, and Policy
CIVE 5373	Transportation Systems: Analysis and Planning
CIVE 5376	Traffic Engineering and Sustainable Urban Street Design
CIVE 5520	Structural Systems
CIVE 5522	Structural Systems Modeling
CIVE 5536	Hydrologic and Hydraulic Design
CIVE 5699	Special Topics in Civil Engineering (Vibration-based Structural Health Monitoring)
SBSY 5100	Sustainable Design and Technologies in Construction
SBSY 5200	Sustainable Engineering Systems for Buildings
SBSY 5250	Building Performance Simulation
SBSY 5300	Information Systems for Integrated Project Delivery

## GPA Requirement

2.000 GPA required in the minor

## Environmental Chemistry, Minor

The minor in environmental chemistry offers an opportunity for students of any background interested in environmental sciences to better understand the chemistry of the environment. Students completing the minor in environmental chemistry have an opportunity to learn about the chemical processes of natural systems and environmental pollutants, while earning a credential that highlights their interest and expertise. This can be a useful course of study whether their primary degree and career will be in one of the traditional chemical, environmental, or engineering

programs, or another allied field. No more than two courses (totaling 8 SH to 10 SH) may double count with any major degree requirements.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

*Note:* No more than two courses (totaling 8 SH to 10 SH) may double count with any major degree requirements.

## Required Courses

Code	Title	Hours
<b>Environmental Chemistry Core</b>		
Complete one of the following:		4
CIVE 2335	Environmental Engineering Chemistry	
ENVR 3410	Environmental Geochemistry	
<b>Chemistry Core</b>		
Complete one of the following:		5
CHEM 2321 and CHEM 2322 and CHEM 2323	Analytical Chemistry and Lab for CHEM 2321 and Recitation for CHEM 2321	
CHEM 3331 and CHEM 3332	Bioanalytical Chemistry and Lab for CHEM 3331	
<b>Research Experience</b>		
Complete one of the following:		4
CHEM 4750	Senior Research	
CHEM 4901	Undergraduate Research	
CHEM 4992	Directed Study	
CIVE 4991	Research	
CIVE 4992	Directed Study	
ENVR 4900	Earth and Environmental Science Capstone	
or ENVR 4997	Senior Thesis	
ENVR 4992	Directed Study	
<b>Electives</b>		
Complete two of the following:		8-9
CIVE 2335	Environmental Engineering Chemistry (If not used to satisfy Environmental Chemistry Core)	
CIVE 3435	Environmental Pollution Fate and Transport	
CIVE 5300 and CIVE 5301	Environmental Sampling and Analysis and Lab for CIVE 5300	
ENVR 3125	Global Oceanic Change	
ENVR 3410	Environmental Geochemistry (If not used to satisfy Environmental Chemistry Core)	
ENVR 4500 and ENVR 4501	Applied Hydrogeology and Lab for ENVR 4500	
ENVR 4504	Environmental Pollution	
ENVR 4505	Wetlands	
ENVR 5190	Soil Science	

## GPA Requirement

Minimum 2.000 GPA required in all major courses

## Credit Requirement

Minimum of 21 hours required

## Electrical and Computer Engineering

Website (<http://www.ece.neu.edu>)

### Srinivas Tadigadapa, PhD

Professor and Chair

409 Dana Research Center

617.373.7529

617.373.4431 (fax)

Electrical and computer engineering (ECE) is a discipline that prepares graduates to solve problems across a diverse array of industries. Coursework is drawn from a curriculum that includes cutting-edge ECE technologies: embedded systems and internet of things, robotics and cyber-human systems, networking (mobile/wireless as well as the internet of the future), and big data analytics and machine learning. Northeastern's historic strengths in ECE include communications and digital signal processing, power and control systems, power electronics, RF/microwave magnetic materials, device technologies, computer engineering, networking, and robotics. The Department of Electrical and Computer Engineering is deeply committed to training and educating the next generation of electrical and computer engineers through Northeastern's experiential learning model and comprehensive pedagogy. BS, MS, and PhD degrees are offered in both electrical and computer engineering.

## Overview of Programs Offered

Please see the programs tab (p. 488) for a list of the department's academic programs.

Successful engineers need to organize and adapt information to solve problems. They also must work effectively in teams and communicate well. Therefore, the goal of the electrical engineering and computer engineering programs is to help students develop these skills and provide the appropriate technical background for a successful career.

The curricula are continuously assessed to ensure that graduates can achieve these goals and go on to succeed as professional electrical or computer engineers. The Bachelor of Science programs allow students sufficient flexibility within the standard eight academic semesters to earn a minor in nearly any department in the university. Typical minors might include physics, math, computer science, or business, but students might also organize their course of study to earn a minor in economics, English, or music.

The academic program is supported by extensive laboratory facilities for study and experimentation in computing, circuit analysis, electronics, digital systems, microwaves, control systems, semiconductor processing, very large-scale integration (VLSI) design, and digital signal processing. Students have access to state-of-the-art computing facilities, including numerous Linux and Windows-based workstations. Two introductory electrical and computer engineering courses meet in integrated lab-classes where students and professors, assisted by undergraduate and graduate teaching assistants, work together on both theoretical and practical aspects of a wide range of signal processing and computing systems.

## Mission of the Department

The primary educational missions of the Department of Electrical and Computer Engineering are to educate undergraduate students so they have the opportunity to obtain successful careers in electrical and computer engineering and related disciplines and pursue advanced study, such as graduate study in engineering or related disciplines, and to educate graduate students so they can make meaningful contributions to the research and industrial communities.

## Other Programmatic Features

More than 90 percent of department undergraduates take advantage of the cooperative education program. During the cooperative work phase of the program, the students' levels of responsibility grow as they gain theoretical and technical knowledge through academic work. A sophomore might begin cooperative work experience as an engineering assistant and progress by the senior year to a position with responsibilities similar to those of entry-level engineers.

The department also offers significant research opportunities throughout all fields of electrical and computer engineering, including participating in research centers based in our department and college.

A senior-year design course caps the education by drawing on everything learned previously. Teams of students propose, design, and build a functioning electrical or computer engineering system—just as they might in actual practice.

## Programs

### Bachelor of Science in Computer Engineering (BSCmpE)

- Computer Engineering (p. 488)
- Computer Engineering and Physics (p. 492)
- Computer Engineering and Computer Science (p. 327)

### Bachelor of Science in Electrical Engineering (BSEE)

- Electrical Engineering (p. 500)
- Electrical Engineering and Physics (p. 504)
- Electrical Engineering and Music with Concentration in Music Technology (p. 217)

### Combined Major (BSEE or BSCmpE)

- Electrical and Computer Engineering (p. 510)

## Minors

- Biomedical Engineering (p. 513)
- Computer Engineering (p. 514)
- Computational Data Analytics (p. 514)
- Electrical Engineering (p. 515)
- Robotics (p. 515)

## Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. )

## Computer Engineering, BSCmpE

The use of computer technology is exploding, driven by applications in wireless communications, multimedia, portable devices, and internet computing. At the core of these technological advances are computer engineers who research, design, and develop hardware and software. With a degree in computer engineering you might develop a full-featured multimedia phone, design the next-generation microprocessor, program

computer-guided cameras to inspect nanomanufacturing facilities, or start your own software company.

The computer engineering major acquires a strong foundation in engineering principles and the physical sciences in addition to a powerful mix of theory and practice in hardware and software design. The core of the computer engineering curriculum comprises courses in computer organization and architecture, computer networks, computer-aided design, programming languages, optimization theory, and software design.

The BSCmpE degree requires a sequence of core courses, technical electives, general electives, and electives in the arts and humanities and social sciences.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements and, if these are not fulfilled in engineering courses, should use general electives to do so.

## Engineering

Code	Title	Hours
<b>Required Courses</b>		
EECE 2140	Computing Fundamentals for Engineers	4
EECE 2150	Circuits and Signals: Biomedical Applications	5
EECE 2160	Embedded Design: Enabling Robotics	4
<b>Computer Engineering Fundamentals</b>		
EECE 2322 and EECE 2323	Fundamentals of Digital Design and Computer Organization and Lab for EECE 2322	5
EECE 2540	Fundamentals of Networks	4
EECE 2560	Fundamentals of Engineering Algorithms	4
<b>Electrical Engineering Fundamentals</b>		
If more than one electrical engineering fundamentals course is taken, it can count as a technical elective.		
Complete one of the following:		4-5
EECE 2412 and EECE 2413	Fundamentals of Electronics and Lab for EECE 2412	
EECE 2520	Fundamentals of Linear Systems	
EECE 2530 and EECE 2531	Fundamentals of Electromagnetics and Lab for EECE 2530	
<b>Computer Engineering Capstone Courses</b>		

EECE 4791	Electrical and Computer Engineering Capstone 1	1
EECE 4792	Electrical and Computer Engineering Capstone 2	4

### EECE Technical Electives

Students can register for EECE4991/EECE4992/EECE4993 more than once. For these courses combined, a maximum of 8 semester hours will be allowed to satisfy the requirement of technical electives. An additional 4 semester hours will be allowed as a general elective. At most, one of these courses (4 semester hours) can be taken in a semester.

Though students may register for EECE 2750 more than once, only 4 semester hours will be allowed to satisfy the requirements of technical electives. An additional 4 semester hours will be allowed as a general elective.

Complete four of the following:		16
EECE 2412 to EECE 2530		
EECE 2750	Enabling Engineering	
EECE 3324 to EECE 4698		
EECE 4991	Research	
EECE 4992	Directed Study	
EECE 4993	Independent Study	
EECE 5115 to EECE 5698		
ENGR 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage	

Two CS/CY/IS courses from the following approved list may be taken toward the EECE technical elective requirement:

CS 3200	Database Design	
CS 3500	Object-Oriented Design	
CS 3540 to CS 3800		
CS 4100 to CS 4770		
CS 4850	Building Game Engines	
CY 2550	Foundations of Cybersecurity	
IS 4200 to IS 4700		

### Supplemental Credit

2 semester hours from the following course count toward the engineering requirement:

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	2
3 semester hours from the following course count toward the engineering requirement:		3
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	

## Supporting Courses: Mathematics/Science Requirement

Complete all mathematics/science courses with a minimum of 30 semester hours.

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 3081	Probability and Statistics	4

PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	5

**Supplemental Credit**

1 semester hour from the following course counts toward the mathematics/science requirement:

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	1
---------	---	---

**Professional Development**

Code	Title	Hours
<b>Required Professional Development</b>		
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

**Additional Required Courses**

1 semester hour from the following course counts toward the professional development requirement:

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	1
---------	---	---

1 semester hour from the following course counts toward the professional development requirement:

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	1
---------	---	---

**Writing Requirements**

Code	Title	Hours
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Required General Electives**

Code	Title	Hours
Complete 28 semester hours of academic, nonremedial, nonrepetitive courses.		28

**Major GPA Requirement**

2.000 minimum GPA required in EECE courses

**Program Requirement**

133 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

**Plan of Study**

**Four Years, Two Co-ops in Summer 2/Fall**

## NOTES

- Computing Fundamentals for Engineers (EECE 2140) can be taken in year 1 spring instead of a general elective by students who are interested in the course in preparation for co-ops involving programming and computing hardware.
- The capstone design courses are taken as follows: (EECE 4791 – summer 1 and EECE 4792 – spring) OR (EECE 4791 – summer 2 and EECE 4792 – fall).

## Computer Engineering and Physics, BSCmpE

This intercollege combined major serves students who would like to explore their interest in physics while earning the benefit of an accredited Bachelor of Science degree in engineering. The dual major combines a major in physics from the Department of Physics in the College of Arts and Sciences with the Bachelor of Science in Computer Engineering degree from the Department of Electrical and Computer Engineering.

Because of the large body of shared knowledge between computer engineering and physics, an integrated dual major between these two disciplines is a logical course of study and can be accomplished within a student's usual five-year program (including three co-op placements) without requiring course overloading in any semester. A student graduating from this program will have studied both the physical fundamentals and computer systems.

Students interested in this program should contact the Department of Electrical and Computer Engineering or the Department of Physics as early as possible, preferably prior to registering for freshman courses.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements through general electives.

## Engineering

Code	Title	Hours
<b>Required Courses</b>		
EECE 2140	Computing Fundamentals for Engineers	4
EECE 2150	Circuits and Signals: Biomedical Applications	5
EECE 2160	Embedded Design: Enabling Robotics	4
<b>Computer Engineering Fundamentals</b>		
EECE 2322 and EECE 2323	Fundamentals of Digital Design and Computer Organization and Lab for EECE 2322	5
EECE 2540	Fundamentals of Networks	4
EECE 2560	Fundamentals of Engineering Algorithms	4
<b>Electrical Engineering Fundamentals</b>		
If more than one electrical engineering fundamentals course is taken, it can count as a technical elective.		
Complete one of the following:		4
EECE 2412 and EECE 2413	Fundamentals of Electronics and Lab for EECE 2412	
EECE 2520	Fundamentals of Linear Systems	
EECE 2530 and EECE 2531	Fundamentals of Electromagnetics and Lab for EECE 2530	
<b>Computer Engineering Capstone Courses</b>		
EECE 4791	Electrical and Computer Engineering Capstone 1	1
EECE 4792	Electrical and Computer Engineering Capstone 2	4
<b>Technical Electives</b>		
Students can register for EECE 4991 / EECE 4992 / EECE 4993 more than once. For these courses combined, a maximum of 8 semester hours will be allowed to satisfy the requirement of technical electives. An additional 4 semester hours will be allowed as a general elective. At most, one of these courses (4 semester hours) can be taken in a semester.		
Though students may register for EECE 2750 more than once, only 4 semester hours will be allowed to satisfy the requirements of technical electives. An additional 4 semester hours will be allowed as a general elective.		

Complete two of the following: 8

EECE 2412 to EECE 2530	
EECE 2750	Enabling Engineering
EECE 3324 to EECE 4698	
EECE 4991	Research
EECE 4992	Directed Study
EECE 4993	Independent Study
EECE 5115 to EECE 5698	
ENGR 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage

One CS/CY/IS course from the following approved list may be taken toward the EECE technical elective requirement:

CS 3200	Database Design
CS 3500	Object-Oriented Design
CS 3540 to CS 3800	
CS 4100 to CS 4770	
CS 4850	Building Game Engines
CY 2550	Foundations of Cybersecurity
IS 4200 to IS 4700	

### Supplemental Credit

2 semester hours from the following course count toward the engineering requirement: 2

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
3 semester hours from the following course count toward the engineering requirement:		3
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	

## Mathematics/Science

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 3081	Probability and Statistics	4
Complete one of the following:		5
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
PHYS 1161 and PHYS 1162 and PHYS 1163	Physics 1 and Lab for PHYS 1161 and Recitation for PHYS 1161	
Complete one of the following:		5
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	
PHYS 1165 and PHYS 1166 and PHYS 1167	Physics 2 and Lab for PHYS 1165 and Recitation for PHYS 1165	

PHYS 2303	Modern Physics	4
PHYS 3600	Advanced Physics Laboratory	4
PHYS 3602	Electricity and Magnetism 1	4
PHYS 4115	Quantum Mechanics	4
PHYS 4305	Thermodynamics and Statistical Mechanics	4

Advanced Physics Elective		
Complete one of the following:		
MATH 4606	Mathematical and Computational Methods for Physics	4
PHYS 3600 to PHYS 7999		

Supplemental Credit		
1 semester hour from the following course counts toward the mathematics/science requirement:		
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	1

### Professional Development

Code	Title	Hours
Required Professional Development		
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

Additional Required Courses		
1 semester hour from the following course counts toward the professional development requirement:		
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	1
1 semester hour from the following course counts toward the professional development requirement:		
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	1

### Writing Requirements

Code	Title	Hours
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

### Required General Electives

Code	Title	Hours
Complete 8 semester hours of academic, nonremedial, nonrepetitive courses.		
		8

### Integrative Requirement

Code	Title	Hours
This course is already required above and also fulfills the integrative requirement.		
EECE 4791	Electrical and Computer Engineering Capstone 1	1

### Major GPA Requirement

2.000 minimum GPA required in EECE courses

### Program Requirement

133 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

## Plan of Study

### Four Years, One Co-op in Spring/Summer 1

Year 1

#### Notes:

The capstone design courses are taken as follows: (Electrical and Computer Engineering Capstone 1 (EECE 4791)—summer 1 and Electrical and Computer Engineering Capstone 2 (EECE 4792)—spring) OR (Electrical and Computer Engineering Capstone 1 (EECE 4791)—summer 2 and Electrical and Computer Engineering Capstone 2 (EECE 4792)—fall).

Physics courses are offered on the following schedule:

- PHYS 2303 offered every fall, spring, and summer 2
- PHYS 2371/2372 offered every fall
- PHYS 3600 offered every summer 1 and summer 2
- PHYS 3601 offered spring and fall (even years)
- PHYS 3602 offered every fall and spring
- PHYS 3603 offered fall (even years) and summer 1 (odd years)
- PHYS 4115 offered every fall and spring
- PHYS 4305 offered every spring and summer 2 (even years)
- PHYS 4621 offered spring (odd years) and fall (even years)
- PHYS 4623 offered summer 1 and fall (even years)
- PHYS 4651 offered spring and fall (odd years)
- PHYS 4652 offered every spring
- PHYS 5318 offered every spring

### Computer Engineering and Computer Science, BScmpE

This intercollege dual major serves students who are interested in both computer hardware and software, combining an accredited Bachelor of Science degree in engineering with the added benefits of depth in software principles found in a Bachelor of Science degree in computer science. This program provides a well-rounded computing education that includes engineering design principles, computational thinking, proper program design, and a solid background in mathematics and science. The degree is fully accredited as a Bachelor of Science in Computer Engineering and adds the computer science depth.

Because of the large body of shared knowledge between computer engineering and computer science, an integrated dual major between these two disciplines is a logical course of study and can be accomplished within a student's usual five-year program (including three co-op placements) without requiring course overloading in any semester. A student graduating from this program will have a solid foundation in both computer hardware and software principles, and should be prepared for a wide range of career paths in the computing field or any related field that relies on the application of engineering or computing principles.

Students interested in this program should contact the Department of Electrical and Computer Engineering or the Department of Computer and Information Science as early as possible, preferably prior to registering for freshman courses.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

## Engineering

Code	Title	Hours
<b>Required Courses</b>		
EECE 2140	Computing Fundamentals for Engineers	4
EECE 2150	Circuits and Signals: Biomedical Applications	5
EECE 2160	Embedded Design: Enabling Robotics	4
<b>Computer Engineering Fundamentals</b>		
CS 3000	Algorithms and Data	4
EECE 2322 and EECE 2323	Fundamentals of Digital Design and Computer Organization and Lab for EECE 2322	5
EECE 2540	Fundamentals of Networks	4
<b>Electrical Engineering Fundamentals</b>		
Complete one of the following:		4
EECE 2412 and EECE 2413	Fundamentals of Electronics and Lab for EECE 2412	
EECE 2520	Fundamentals of Linear Systems	
EECE 2530 and EECE 2531	Fundamentals of Electromagnetics and Lab for EECE 2530	
<b>Computer Engineering Capstone Courses</b>		
EECE 4791	Electrical and Computer Engineering Capstone 1	1
EECE 4792	Electrical and Computer Engineering Capstone 2	4

## EECE Technical Electives

Students can register for EECE4991/EECE4992/EECE4993 more than once. For these courses combined, a maximum of 8SH will be allowed to satisfy the requirement of technical electives. An additional 4SH will be allowed as a general elective. At most one of these courses (4SH) can be taken in a semester.

Though students may register for EECE 2750 more than once, only 4SH will be allowed to satisfy the requirements of technical electives. An additional 4SH will be allowed as a general elective.

Complete two of the following:		8
EECE 2412 to EECE 2530		
EECE 2750	Enabling Engineering	
EECE 3324 to EECE 4698		
EECE 4991	Research	
EECE 4992	Directed Study	
EECE 4993	Independent Study	
EECE 5115 to EECE 5698		
ENGR 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage	

## Khoury Elective Courses 8

With advisor approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 8 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:

CS 2500 or higher, except CS 5010		8
CY 2000 or higher, except CY 4930		
DS 2500 or higher, except DS 4900		
IS 2000 or higher, except IS 4900		

## Supplemental Credit

2 semester hours from the following course count toward the engineering requirement: 2

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
---------	---	--

3 semester hours from the following course count toward the engineering requirement: 3

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	
---------	---	--

## Computer Science Requirements

Code	Title	Hours
<b>Computer Science Introductory Courses</b>		
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
CS 2800 and CS 2801	Logic and Computation and Lab for CS 2800	5
<b>Computer Science Upper-Level Courses</b>		
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 3650	Computer Systems	4
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4

## Supporting Courses: Mathematics/Science

Complete all Mathematics/Science courses with a minimum of 30 semester hours.

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 3081	Probability and Statistics	4
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	5
<b>Supplemental Credit</b>		
1 semester hour from the following course counts toward the mathematics/science requirement:		1
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	

### Professional Development

Code	Title	Hours
<b>Required Professional Development</b>		
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1
<b>Additional Required Courses</b>		
1 semester hour from the following course counts toward the professional development requirement:		1
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
1 semester hour from the following course counts toward the professional development requirement:		1
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	

### Writing Requirements

Code	Title	Hours
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

### Required General Electives

Code	Title	Hours
Complete 8 SH of academic, nonremedial, nonrepetitive courses.		8

### Integrative Courses

Code	Title	Hours
The following courses are already required above and also fulfill the integrative requirement.		

CS 1800	Discrete Structures
EECE 4791	Electrical and Computer Engineering Capstone 1
EECE 4792	Electrical and Computer Engineering Capstone 2
MATH 1341	Calculus 1 for Science and Engineering
MATH 1342	Calculus 2 for Science and Engineering
MATH 3081	Probability and Statistics
PHYS 1151 and PHYS 1152	Physics for Engineering 1 and Lab for PHYS 1151

### Major GPA Requirement

2.000 minimum GPA in EECE courses

2.000 minimum GPA required in all CS, CY, DS, and IS courses

### Program Requirement

140 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

### Plan of Study

#### Four Years, Two Co-ops in Summer 2/Fall

## Notes

- Computing Fundamentals for Engineers (EECE 2140) can be taken in Year 1 Spring during the five year plan instead of a General Elective by students who are interested in the course in preparation for co-ops involving programming and computing hardware.
- The Capstone Design Courses are taken as follows: (Electrical and Computer Engineering Capstone 1 (EECE 4791) - Summer 1 and Electrical and Computer Engineering Capstone 2 (EECE 4792) - Spring) OR (Electrical and Computer Engineering Capstone 1 (EECE 4791) - Summer 2 and Electrical and Computer Engineering Capstone 2 (EECE 4792) - Fall).

## Electrical Engineering, BSEE

The components of the Information Age—global communication systems; computers and computer chips, and the software that runs them; as well as pacemakers, magnetic resonance imaging, and interplanetary space missions—are possible because of the efforts of electrical engineers. Today, electrical engineers are developing concepts and working to translate these ideas into the next generation of products, from computers and safe, energy-efficient vehicles, to radar that can detect unexploded land mines from the air, to microrobots that diagnose disease from inside the body.

Many electrical engineers work in the traditional areas of communications, computation, and control and components required to realize such systems. They are involved in design and product development, testing and quality control, sales and marketing, and manufacturing. Others use their problem-solving skills in diverse areas such as bioengineering, healthcare, electronic music, meteorology, and experimental psychology. Some graduates draw on their electrical engineering backgrounds to launch successful careers as physicians, financial analysts, attorneys, and entrepreneurs.

The BSEE degree requires a sequence of core courses and advanced study in one or more technical elective areas: electronic circuits and devices; signals and systems; fields, waves, and optics; power engineering; or computer engineering. General electives and electives in the arts and humanities and social sciences are also required.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

NUPath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not explicitly satisfied by

required engineering courses. Students are responsible for satisfying these requirements with general electives.

## Engineering

Code	Title	Hours
<b>Required Courses</b>		
EECE 2140	Computing Fundamentals for Engineers	4
EECE 2150	Circuits and Signals: Biomedical Applications	5
EECE 2160	Embedded Design: Enabling Robotics	4
<b>Electrical Engineering Fundamentals</b>		
EECE 2412 and EECE 2413	Fundamentals of Electronics and Lab for EECE 2412	5
EECE 2520	Fundamentals of Linear Systems	4
EECE 2530 and EECE 2531	Fundamentals of Electromagnetics and Lab for EECE 2530	5
<b>Computer Engineering Fundamentals</b>		
If more than one computer engineering fundamentals course is taken, it can count as a technical elective.		
Complete one of the following:		4-5
EECE 2322 and EECE 2323	Fundamentals of Digital Design and Computer Organization and Lab for EECE 2322	
EECE 2540	Fundamentals of Networks	
EECE 2560	Fundamentals of Engineering Algorithms	
<b>Electrical Engineering Capstone Courses</b>		
EECE 4791	Electrical and Computer Engineering Capstone 1	1
EECE 4792	Electrical and Computer Engineering Capstone 2	4
<b>Electrical Engineering Technical Electives</b>		
Students can register for EECE4991/EECE4992/EECE4993 more than once. For these courses combined, a maximum of 8SH will be allowed to satisfy the requirement of technical electives. An additional 4SH will be allowed as a general elective. At most one of these courses (4SH) can be taken in a semester.		
Though students may register for EECE 2750 more than once, only 4SH will be allowed to satisfy the requirements of technical electives. An additional 4SH will be allowed as a general elective.		
Complete four of the following:		16
EECE 2322 and EECE 2323	Fundamentals of Digital Design and Computer Organization and Lab for EECE 2322	
EECE 2540 to EECE 2750		
EECE 3324 to EECE 3410		
EECE 4512 to EECE 4698		
EECE 4991	Research	
EECE 4992	Directed Study	
EECE 4993	Independent Study	
EECE 5115 to EECE 5698		
ENGR 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage	

## Supplemental Credit

2 semester hours from the following course count toward the engineering requirement: 2

EECE 3468 Noise and Stochastic Processes

2 semester hours from the following course count toward the engineering requirement: 2

GE 1501 Cornerstone of Engineering 1 <sup>1</sup>

3 semester hours from the following course count toward the engineering requirement: 3

GE 1502 Cornerstone of Engineering 2 <sup>1</sup>

### Supporting Courses: Mathematics/Science

Complete all Mathematics/Science courses with a minimum of 30 semester hours.

Code	Title	Hours
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	5

#### Supplemental Credit

2 semester hours from the following course count toward the mathematics/science requirement: 2

EECE 3468 Noise and Stochastic Processes

1 semester hour from the following course counts toward the mathematics/science requirement: 1

GE 1501 Cornerstone of Engineering 1 <sup>1</sup>

### Professional Development

Code	Title	Hours
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

Total Hours: 133

**Notes**

- EECE 2140 can be taken in Year 1 Spring instead of a General Elective by students who are interested in the course in preparation for co-ops involving programming and computing hardware.
- The Capstone Design Courses are taken as follows: (EECE4791 - Summer 1 and EECE4792 - Spring) OR (EECE4791 - Summer 2 and EECE4792 - Fall).

## Electrical Engineering and Physics, BSEE

This intercollege combined major serves students who would like to explore their interest in physics while earning the benefit of an accredited Bachelor of Science degree in engineering. The major combines a major in physics from the Department of Physics in the College of Science with the Bachelor of Science in Electrical Engineering degree from the Department of Electrical and Computer Engineering.

Because of the large body of shared knowledge between electrical engineering and physics, a combined major between these two disciplines is a logical course of study and can be accomplished within a student's usual five-year program (including three co-op placements) without requiring course overloading in any semester. A student graduating from this program will have studied both the physical fundamentals and the applications of electronic devices and systems. The program is a particularly appropriate course of study for students who wish to pursue a career in solid-state devices, microelectromechanical systems, or nanotechnology.

Students interested in this program should contact the Department of Electrical and Computer Engineering or the Department of Physics as early as possible, preferably prior to registering for freshman courses.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

### Engineering

Code	Title	Hours
<b>Required Courses</b>		
EECE 2140	Computing Fundamentals for Engineers	4
EECE 2150	Circuits and Signals: Biomedical Applications	5
EECE 2160	Embedded Design: Enabling Robotics	4
<b>Electrical Engineering Fundamentals</b>		
EECE 2412 and EECE 2413	Fundamentals of Electronics and Lab for EECE 2412	5
EECE 2520	Fundamentals of Linear Systems	4
EECE 2530 and EECE 2531	Fundamentals of Electromagnetics and Lab for EECE 2530	5
<b>Computer Engineering Fundamentals</b>		
If more than one computer engineering fundamentals course is taken, it can count as a technical elective.		
Complete one of the following:		4-5

EECE 2322 and EECE 2323	Fundamentals of Digital Design and Computer Organization and Lab for EECE 2322	
EECE 2540	Fundamentals of Networks	
EECE 2560	Fundamentals of Engineering Algorithms	
<b>Electrical Engineering Capstone Courses</b>		
EECE 4791	Electrical and Computer Engineering Capstone 1	1
EECE 4792	Electrical and Computer Engineering Capstone 2	4

### EECE Technical Electives

Students can register for EECE4991/EECE4992/EECE4993 more than once. For these courses combined, a maximum of 8 semester hours will be allowed to satisfy the requirement of technical electives. An additional 4 semester hours will be allowed as a general elective. At most, one of these courses (4 semester hours) can be taken in a semester.

Though students may register for EECE 2750 more than once, only 4 semester hours will be allowed to satisfy the requirements of technical electives. An additional 4 semester hours will be allowed as a general elective.

Complete two of the following: 8-9

EECE 2322 and EECE 2323	Fundamentals of Digital Design and Computer Organization and Lab for EECE 2322	
EECE 2540 to EECE 2750		
EECE 3324 to EECE 3410		
EECE 4512 to EECE 4698		
EECE 4991	Research	
EECE 4992	Directed Study	
EECE 4993	Independent Study	
EECE 5115 to EECE 5698		
ENGR 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage	

### Supplemental Credit

2 semester hours from the following course count toward the engineering requirement:		2
EECE 3468	Noise and Stochastic Processes	
2 semester hours from the following course count toward the engineering requirement:		2
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
3 semester hours from the following course count toward the engineering requirement:		3
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	

### Mathematics/Science

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
Complete one of the following:		5

PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
---	---	--

PHYS 1161 and PHYS 1162 and PHYS 1163	Physics 1 and Lab for PHYS 1161 and Recitation for PHYS 1161	
---	--	--

Complete one of the following: 5

PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	
---	---	--

PHYS 1165 and PHYS 1166 and PHYS 1167	Physics 2 and Lab for PHYS 1165 and Recitation for PHYS 1165	
---	--	--

PHYS 2303	Modern Physics	4
-----------	----------------	---

PHYS 3600	Advanced Physics Laboratory	4

-----------	-----------------------------	---

PHYS 4115	Quantum Mechanics	4
-----------	-------------------	---

PHYS 4305	Thermodynamics and Statistical Mechanics	4
-----------	---	---

#### Advanced Physics Elective

Complete one of the following: 4

MATH 4606	Mathematical and Computational Methods for Physics	
-----------	---	--

PHYS 3600 to PHYS 7999

#### Supplemental Credit

2 semester hours from the following course count toward the  
mathematics/science requirement: 2

EECE 3468	Noise and Stochastic Processes	
-----------	--------------------------------	--

1 semester hour from the following course counts toward the  
mathematics/science requirement: 1

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
---------	---	--

### Professional Development

Code	Title	Hours
------	-------	-------

#### Required Professional Development

GE 1000	Introduction to the Study of Engineering	1
---------	--	---

ENCP 2000	Introduction to Engineering Co-op Education	1
-----------	--	---

ENCP 3000	Professional Issues in Engineering	1
-----------	------------------------------------	---

#### Additional Required Courses

1 semester hour from the following course counts toward the  
professional development requirement: 1

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
---------	---	--

1 semester hour from the following course counts toward the  
professional development requirement: 1

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	
---------	---	--

### Writing Requirements

Code	Title	Hours
------	-------	-------

A grade of C or higher is required:

ENGW 1111	First-Year Writing	4
-----------	--------------------	---

ENGW 3302	Advanced Writing in the Technical Professions	4
-----------	--	---

or ENGW 3315 Interdisciplinary Advanced Writing in the  
Disciplines

### Required General Electives

Code	Title	Hours
------	-------	-------

Complete 12 semester hours of academic, nonremedial,  
nonrepetitive courses. 12

### Major GPA Requirement

2.000 minimum GPA required in EECE courses

### Program Requirement

133 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in  
approved situations.

### Plan of Study

#### Four Years, One Co-op in Spring/Summer 1

##### Year 1

Total Hours: 133

**Notes**

The capstone design courses are taken as follows: (EECE 4791—summer 1 and EECE 4792—spring) OR (EECE 4791—summer 2 and EECE 4792—fall).

Physics courses are offered on the following schedule:

- PHYS 2303 offered every fall, spring, and summer 2
- PHYS 2371/2372 offered every fall
- PHYS 3600 offered every summer 1 and summer 2
- PHYS 3601 offered spring and fall (even years)
- PHYS 3602 offered every fall and spring
- PHYS 3603 offered fall (even years) and summer 1 (odd years)
- PHYS 4115 offered every fall and spring
- PHYS 4305 offered every spring and summer 2 (even years)
- PHYS 4621 offered spring (odd years) and fall (even years)
- PHYS 4623 offered summer 1 and fall (even years)
- PHYS 4651 offered spring and fall (odd years)
- PHYS 4652 offered every spring
- PHYS 5318 offered every spring

**Electrical Engineering and Music with concentration in Music Technology, BSEE**

This intercollege combined major is designed for students who would like to explore their interest in music technology while earning the benefit of a Bachelor of Science degree in electrical engineering. The music industry relies heavily on electronic technology in the production (e.g.,

studio and recording technology), storage (e.g., musical instruments, stage technology), and distribution (e.g., audio file formats, encoding) of music. The program is designed to give students a firm foundation in digital and analog audio electronics and learn the breadth and depth of the convergence between electrical engineering and music technology.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Societies and Institutions (SI) and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

## Engineering Requirements

Code	Title	Hours
<b>Required Courses</b>		
EECE 2140	Computing Fundamentals for Engineers	4
EECE 2150	Circuits and Signals: Biomedical Applications	5
EECE 2160	Embedded Design: Enabling Robotics	4

2 semester hours from the following course count toward the engineering requirement: 2

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>
---------	---

3 semester hours from the following course count toward the engineering requirement: 3

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>
---------	---

## Music Requirements

Code	Title	Hours
<b>Music Theory</b>		
Complete one of the following pairs:		8
MUSC 1119 and MUSC 1201	Fundamentals of Western Music Theory and Music Theory 1	
MUSC 1201 and MUSC 1202	Music Theory 1 and Music Theory 2	
MUSC 1202 and MUSC 3541	Music Theory 2 and Music Analysis Seminar	
<b>Required Context Course</b>		
MUSC 1001	Music in Everyday Life	4
<b>Music in Context</b>		
Complete one of the following:		4
MUSC 2101	Black Popular Music	
MUSC 2107	Introduction to Opera	
MUSC 2130	Music of Asia	

MUSC 2150	Making a Musical: Analysis, Craft, and Creation	
MUSC 2310	Popular Music Since 1945	
MUSC 2311	Topics in American Music	
MUSC 2312	Historical Traditions: Classical	
MUSC 2313	Topics in World Music	
MUSC 2317	Punk Rock	
MUSC 2320	40,000 Years of Music Technology	
MUSC 2340	Divas, DJs, and Double Standards	
MUSC 2351	Music, Sound, and the Screen	
MUSC 2380	The World of Choral Music	
MUSC 3352	Sounding Human	
MUSC 3353	Music and the Racial Imagination	
MUSC 3560	Topics in Music since 1900	
MUSI 3401	Hip Hop in the Music Industry	
MUSI 3351	Music and Social Justice	
MUSI 3360	Global Music Industries in Context	
MUSI 5900	Ethnography in Creative Industries	

**Acoustics or Music Elective**

Complete one of the following. If EECE 5697 is taken, students are required to complete a music elective. 4

MUSC 2350	Acoustics and Psychoacoustics of Music	
MUSC 2000 to MUSC 5999		

**Music Technology**

MUST 1220	Introduction to Music Technology	4
MUST 2431	Computer Music Fundamentals	4

**Music Technology Electives**

Complete two of the following. Other appropriate MUST courses will be considered by petition to fulfill this category. 8

MUSC 4510	Music and the Brain Research	
MUST 3540	Special Topics in Music Technology	
MUST 3601	Digital Audio Signal Processing	
MUST 3602	Electronics for Music	
MUST 3603	Embedded Audio Programming	
MUST 4610	Composition for Electronic Instruments	

**Supporting Courses: Mathematics/Science**

Complete all Mathematics/Science courses with a minimum of 30 semester hours.

Code	Title	Hours
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5

PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	5
---------------------------------------	--	---

2 semester hours from the following course count toward this requirement: 2

EECE 3468	Noise and Stochastic Processes
-----------	--------------------------------

**Supplemental Credit**

1 semester hour from the following course counts toward the mathematics/science requirement: 1

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>
---------	---

**Professional Development**

Code	Title	Hours
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

**Additional Required Courses**

1 semester hour from the following course counts toward the professional development requirement: 1

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>
---------	---

1 semester hour from the following course counts toward the professional development requirement: 1

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>
---------	---

**Writing Requirements**

Code	Title	Hours
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Required General Electives**

Code	Title	Hours
Complete 4 SH of academic, nonremedial, nonrepetitive courses.		4

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

**Major GPA Requirement**

Minimum 2.000 GPA required in EECE courses

**Music Technology Major Grade Requirement**

Students must maintain at least a 2.667 GPA (B- average) in the requirements of the music half of the combined major and also complete all required music courses with grades of at least C. Students who fail to meet the above standards will be placed on departmental probation; those who remain on probation for two consecutive semesters will be dropped from the major.

**Program Requirement**

137 total semester hours required

## Plan of Study Four Years, One Co-Op in Summer 2/Fall

Year 1				
Fall	Hours Spring	Hours Summer 1	Hours Summer 2	Hours
CHEM 1151 (ND)	4 GE 1502 (ER)	4 MATH 2341	4 Vacation	
CHEM 1153	0 MATH 1342 (FQ)	4 PHYS 1155 (ND)	3	
ENGW 1111 (WF)	4 MUST 1220 (AD)	4 PHYS 1156 (AD)	1

#### Notes:

- The Capstone Design Courses are taken as follows: (Electrical and Computer Engineering Capstone 1 (EECE 4791) - Summer 1 and Electrical and Computer Engineering Capstone 2 (EECE 4792) - Spring) OR (Electrical and Computer Engineering Capstone 1 (EECE 4791) - Summer 2 and Electrical and Computer Engineering Capstone 2 (EECE 4792) - Fall).

### Electrical and Computer Engineering, BSEE or BSCmpE

Students may choose to major in both electrical and computer engineering by following the combined-major program leading to a Bachelor of Science in Electrical Engineering or Bachelor of Science in Computer Engineering. Students take the required courses for both majors along with technical electives distributed among the areas of computer engineering; fields, waves, and optics; signals and systems; power engineering; and electronic circuits and devices. Additional NUpath requirements must be fulfilled using general electives.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

## Engineering

Code	Title	Hours
<b>Required Courses</b>		
EECE 2140	Computing Fundamentals for Engineers	4
EECE 2150	Circuits and Signals: Biomedical Applications	5
EECE 2160	Embedded Design: Enabling Robotics	4
<b>Electrical Engineering Fundamentals</b>		
EECE 2412 and EECE 2413	Fundamentals of Electronics and Lab for EECE 2412	5
EECE 2520	Fundamentals of Linear Systems	4
EECE 2530 and EECE 2531	Fundamentals of Electromagnetics and Lab for EECE 2530	5
<b>Computer Engineering Fundamentals</b>		
EECE 2322 and EECE 2323	Fundamentals of Digital Design and Computer Organization and Lab for EECE 2322	5
EECE 2540	Fundamentals of Networks	4
EECE 2560	Fundamentals of Engineering Algorithms	4
<b>Electrical and Computer Engineering Capstone Courses</b>		
EECE 4791	Electrical and Computer Engineering Capstone 1	1
EECE 4792	Electrical and Computer Engineering Capstone 2	4
<b>EECE Technical Electives</b>		
Students can register for EECE4991/EECE4992/EECE4993 more than once. For these courses combined, a maximum of 8SH will be allowed to satisfy the requirement of technical electives. An additional 4SH will be allowed as a general elective. At most one of these courses (4SH) can be taken in a semester.		
Though students may register for EECE 2750 more than once, only 4SH will be allowed to satisfy the requirements of technical electives. An additional 4SH will be allowed as a general elective.		
Complete four of the following:		16
EECE 2750	Enabling Engineering	
EECE 3324 to EECE 3410		
EECE 4512 to EECE 4698		
EECE 4991	Research	
EECE 4992	Directed Study	
EECE 4993	Independent Study	
EECE 5115 to EECE 5698		
ENGR 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage	
Two CS/CY/IS courses from the following approved list may be taken toward the EECE technical elective requirement.		
CS 3200	Database Design	
CS 3500	Object-Oriented Design	
CS 3540 to CS 3800		
CS 4100 to CS 4770		
CS 4850	Building Game Engines	
CY 2550	Foundations of Cybersecurity	
IS 4200 to IS 4700		
<b>Supplemental Credit</b>		

2 semester hours from the following course count toward the engineering requirement:

EECE 3468	Noise and Stochastic Processes	2
-----------	--------------------------------	---

2 semester hours from the following course count toward the engineering requirement:

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	2
---------	---	---

3 semester hours from the following course count toward the engineering requirement:

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	3
---------	---	---

### Supporting Courses: Mathematics/Science

Complete all Mathematics/Science courses with a minimum of 30 semester hours.

Code	Title	Hours
------	-------	-------

#### Required Mathematics/Science

CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
-------------------------	--	---

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
---------------------	---	---

MATH 1341	Calculus 1 for Science and Engineering	4
-----------	--	---

MATH 1342	Calculus 2 for Science and Engineering	4
-----------	--	---

MATH 2321	Calculus 3 for Science and Engineering	4
-----------	--	---

MATH 2341	Differential Equations and Linear Algebra for Engineering	4
-----------	---	---

PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5
---------------------------------------	--	---

PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	5
---------------------------------------	--	---

#### Supplemental Credit

2 semester hours from the following course count toward the mathematics/science requirement:

EECE 3468	Noise and Stochastic Processes	2
-----------	--------------------------------	---

1 semester hour from the following course counts toward the mathematics/science requirement:

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	1
---------	---	---

### Professional Development

Code	Title	Hours
------	-------	-------

#### Required Professional Development

GE 1000	Introduction to the Study of Engineering	1
---------	--	---

ENCP 2000	Introduction to Engineering Co-op Education	1
-----------	---	---

ENCP 3000	Professional Issues in Engineering	1
-----------	------------------------------------	---

#### Additional Required Courses

1 semester hour from the following course counts toward the professional development requirement:

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	1
---------	---	---

1 semester hour from the following course counts toward the professional development requirement:

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	1
---------	---	---

### Writing Requirements

Code	Title	Hours
------	-------	-------

A grade of C or higher is required:

ENGW 1111	First-Year Writing	4
-----------	--------------------	---

ENGW 3302	Advanced Writing in the Technical Professions	4
-----------	---	---

or ENGW 3315 Interdisciplinary Advanced Writing in the Disciplines

### Required General Electives

Code	Title	Hours
------	-------	-------

Complete 16 SH of academic, nonremedial, nonrepetitive courses. 16

### Program Requirement

135 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

### Plan of Study

Total Hours: 135

**Notes**

- Computing Fundamentals for Engineers (EECE 2140) can be taken in Year 1 Spring instead of a General Elective by students who are interested in the course in preparation for co-ops involving programming and computing hardware.
- The Capstone Design Courses are taken as follows: (Electrical and Computer Engineering Capstone 1 (EECE 4791) - Summer 1

and Electrical and Computer Engineering Capstone 2 (EECE 4792) - Spring) OR (Electrical and Computer Engineering Capstone 1 (EECE 4791) - Summer 2 and Electrical and Computer Engineering Capstone 2 (EECE 4792) - Fall).

**Biomedical Engineering, Minor**

Medical imaging and biomedical electronics are important areas of biomedical engineering that are within the province of electrical engineering. The minor in biomedical engineering is open to all students in the university with the prerequisite calculus and physics background. The minor is particularly designed for majors in electrical or computer engineering, biology, health science fields, or other engineering departments who would like a background in relevant aspects of biology and electrical engineering, with the opportunity to complete an interdisciplinary biomedical engineering capstone design project. Course work in anatomy and physiology and other health science topics is combined with technical engineering courses related to biomedical imaging and instrumentation.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Students need to complete the program requirements with at least three courses that are not part of their major required course work.

**Required Biology**

Code	Title	Hours
BIOL 1115 and BIOL 1116	General Biology 1 for Engineers and Lab for BIOL 1115	5
BIOL 2217 and BIOL 2218	Integrated Anatomy and Physiology 1 and Lab for BIOL 2217	5

**Required Engineering**

The course you select may also count toward your major.

Code	Title	Hours
Complete one of the following:		4
EECE 4512	Healthcare Technologies: Sensors, Systems, and Analysis	
EECE 5698	Special Topics in Electrical and Computer Engineering	
EECE 4993	Independent Study (must have a biomedical-engineering focus)	

**Required Capstone-Design Courses**

Complete the following two courses on a biologically oriented project:

Code	Title	Hours
EECE 4790	Electrical and Computer Engineering Capstone 1	4
EECE 4792	Electrical and Computer Engineering Capstone 2	4

**Elective Courses**

One course must be outside your home department. Neither course can be used toward your major.

Code	Title	Hours
Complete two of the following:		8-10
<b>Biology</b>		
BIOL 1113 and BIOL 1114	General Biology 2 and Lab for BIOL 1113	
BIOL 2219 and BIOL 2220	Integrated Anatomy and Physiology 2 and Lab for BIOL 2219	
BIOL 2299	Inquiries in Biological Sciences	
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	
BIOL 3405	Neurobiology	
BIOL 5581	Biological Imaging	
<b>Chemical Engineering</b>		
CHME 5630	Biochemical Engineering	
CHME 5699	Special Topics in Chemical Engineering	
<b>Civil/Industrial Engineering</b>		
CIVE 7251	Environmental Biological Processes	
<b>Electrical/Computer Engineering</b>		
EECE 4512	Healthcare Technologies: Sensors, Systems, and Analysis	
EECE 4649	Biomedical Imaging	
EECE 5698	Special Topics in Electrical and Computer Engineering	
EECE 4993	Independent Study	
<b>Mechanical/Industrial Engineering</b>		
ME 5665	Musculoskeletal Biomechanics	
IE 4522	Human-Machine Systems	
<b>Physics</b>		
PHYS 4621	Biological Physics 1	
PHYS 4623	Medical Physics	
PHYS 4651	Medical Physics Seminar 1	
PHYS 4652	Medical Physics Seminar 2	
<b>Psychology</b>		
PSYC 3452	Sensation and Perception	
PSYC 3458	Biological Psychology	

### GPA Requirement

2.000 GPA required in the minor

### Computer Engineering, Minor

A minor in computer engineering is particularly designed for the student who would like a coherent background in the theory and laboratory practice of computer engineering. This minor is not open to students in the Department of Electrical and Computer Engineering.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

This minor is not open to students in the Department of Electrical and Computer Engineering.

Complete a total of four courses for the minor.

Students need to complete the program requirements with at least three courses that are not part of their major required coursework.

### Required Core Course

Code	Title	Hours
EECE 2160	Embedded Design: Enabling Robotics	4

### Required Fundamental Courses

Code	Title	Hours
Complete two of the following:		8-9
EECE 2322 and EECE 2323	Fundamentals of Digital Design and Computer Organization and Lab for EECE 2322	
EECE 2540	Fundamentals of Networks	
EECE 2560	Fundamentals of Engineering Algorithms	

### Computer Engineering Technical Elective

Fundamentals not taken to satisfy the above requirement may be used as a technical elective.

Code	Title	Hours
Complete one of the following:		4-5
EECE 4993	Independent Study	
ENGR 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage	
EECE 2322 to EECE2750		
EECE3324 to EECE 4698		
EECE 5576 to EECE 5698		

### GPA Requirement

2.000 GPA required in the minor

### Computational Data Analytics, Minor

This minor, offered by the Department of Electrical and Computer Engineering in the College of Engineering, seeks to provide a coherent technical foundation in the fundamentals and application of data analytics. The minor addresses the growing demand in industry to be able to apply background in probability/statistics, calculus, engineering problem solving, computing, and analytical principles/tools to identify patterns and trends, find clusters and outliers, and characterize/summarize the mountain of data being generated in our world. This program leverages faculty expertise in electrical and computer engineering and includes courses from across the College of Engineering, College of Science, and the Khoury College of Computer Sciences

Students need to complete the program requirements with at least three courses that are not part of their major required course work.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

*Note:* Students need to complete the program requirements with at least three courses that are not part of their major required coursework.

## Required Courses

Code	Title	Hours
EECE 5644	Introduction to Machine Learning and Pattern Recognition	4
EECE 5642	Data Visualization	4
Complete one of the following:		4
CS 2510	Fundamentals of Computer Science 2 (Khoury Majors and Combined Majors Only)	
EECE 2160	Embedded Design: Enabling Robotics (EECE Majors Only)	
EECE 2300	Computational Methods for Data Analytics (Non EECE/Khoury Majors Only)	

## Probability and Statistics

Code	Title	Hours
Complete one of the following:		4
CIVE 3464	Probability and Engineering Economy for Civil Engineering	
EECE 3468	Noise and Stochastic Processes	
GE 2361	Mathematical Methods for Engineers	
IE 3412	Engineering Probability and Statistics	
MATH 2280	Statistics and Software	
MATH 3081	Probability and Statistics	

## Elective

IE 4515	Operations Research	
IE 5640	Data Mining for Engineering Applications	
IS 4200	Information Retrieval	
MATH 4525	Applied Analysis	

## GPA Requirement

2.000 GPA required in the minor

### Electrical Engineering, Minor

A minor in electrical engineering is particularly designed for majors in math, science, computer science, or other engineering departments who would like a coherent background in the theory and laboratory practice of electrical engineering. This minor is not open to students in the Department of Electrical and Computer Engineering.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

This minor is not open to students in the Department of Electrical and Computer Engineering because of overlap with the majors.

Complete a total of four courses for the minor.

Students need to complete the program requirements with at least three courses that are not part of their major required coursework.

## Required Core Course

Code	Title	Hours
Complete one of the following:		5
EECE 2150	Circuits and Signals: Biomedical Applications	
EECE 2210 and EECE 2211	Electrical Engineering and Lab for EECE 2210	

## Fundamental Core Courses

Code	Title	Hours
Complete two of the following:		9-10
EECE 2412 and EECE 2413	Fundamentals of Electronics and Lab for EECE 2412	
EECE 2520	Fundamentals of Linear Systems	
EECE 2530 and EECE 2531	Fundamentals of Electromagnetics and Lab for EECE 2530	

## Electrical Engineering Technical Electives

Code	Title	Hours
Fundamentals not taken to satisfy the above requirement may be used as a technical elective.		
Complete one of the following:		4
EECE 4993	Independent Study	
ENGR 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage	
EECE 2322 to EECE 2750		
EECE 3324 to EECE 4698		
EECE 5576 to EECE 5698		

## GPA Requirement

2.000 GPA required in the minor

### Robotics, Minor

The minor in robotics is open to all students in the university. The minor is designed for the student who would like a coherent background in the theory and practice of robotics.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Students need to complete the program requirements with at least three courses that are not part of their major required coursework.

## Required Courses

Code	Title	Hours
ME 3460	Robot Dynamics and Control	4
Complete one of the following:		4
EECE 2210 and EECE 2211	Electrical Engineering and Lab for EECE 2210	
EECE 2160	Embedded Design: Enabling Robotics	

## Electives

Code	Title	Hours
Complete three of the following:		12
CS 4100	Artificial Intelligence	
CS 4610	Robotic Science and Systems	
EECE 4630	Robotics	
EECE 5550	Mobile Robotics	
EECE 5552	Assistive Robotics	
EECE 5554	Robotics Sensing and Navigation	
EECE 5639	Computer Vision	
EECE 5644	Introduction to Machine Learning and Pattern Recognition	
EECE 5580	Classical Control Systems	
IE 4522	Human-Machine Systems	
ME 5245	Mechatronic Systems	
ME 5250	Robot Mechanics and Control	

## GPA Requirement

2.000 GPA required in the minor

## Mechanical and Industrial Engineering

Website (<http://www.mie.neu.edu>)

**Marilyn L. Minus, PhD**  
Professor and Chair

334 Snell Engineering Center  
617.373.2740  
617.373.2921 (fax)

The Department of Mechanical and Industrial Engineering offers comprehensive undergraduate programs in both mechanical engineering and industrial engineering, equipping students with the fundamentals in science, mathematics, and engineering. The programs are optimally blended with theory, computation, and laboratory-level practice, as well as with real-world experience through cooperative education programs aligned with Northeastern University's mission in experiential learning. Graduates are positioned to excel in careers in broad areas of engineering as well as in academia.

## Mission of the Department

The mission of the Department of Mechanical and Industrial Engineering is to educate students for professional and technical excellence; to perform research to advance the science and practice of engineering; to engage in service activities that advance the department, the university, and the profession; and to instill in ourselves and our students habits and attitudes that promote ethical behavior, professional responsibility, and careers that advance the well-being of society.

## Mechanical Engineering

Mechanical engineers design, develop, and support the manufacture of machinery and devices to transmit power or to convert energy from thermal to mechanical form in order to power the modern world and its machines. Traditionally, mechanical engineers have designed and tested devices, such as heating and air-conditioning systems, machine tools, internal-combustion engines, and steam power plants. Today they also play primary roles in the development of new technologies in a variety of fields—energy conversion, solar energy utilization, environmental control, prosthetics, transportation, manufacturing, robotics, and new-materials development.

Mechanical engineers use computers to formulate preliminary and final designs of systems or devices, to perform calculations that predict the behavior of the design, and to collect and analyze performance data from system testing or operation. Mechanical engineering has been heavily influenced by recent advances in computer hardware and software.

The curriculum in mechanical engineering focuses on four areas: applied mechanics, thermofluids engineering, materials science, and mechatronics. Applied mechanics is the study of the motion and deformation of structural elements acted on by forces in devices that range from rotating industrial dynamos to dentists' drills. Thermofluids engineering deals with the motion of fluids and the transfer of energy, as in the cooling of electronic components or the design of gas turbine engines. Materials science is concerned with the relationship between the structure and properties of materials and with the control of structure, through processing, to achieve desired properties. Practical applications are in the development of composite materials, metallurgical process industries, and advanced functional materials. Mechatronics is critical to any engineered system in which sensors and actuators of several types communicate and function.

Courses in each area form the foundation for advanced analytical and creative design courses that culminate in a two-semester capstone design project. Faculty encourage students throughout the curriculum to use computer-aided design tools and high-performance computer workstations.

## Industrial Engineering

Industrial engineers design and analyze systems that include people, equipment, and materials and their interactions and performance in the workplace. An industrial engineer collects this information and evaluates alternatives to make decisions that best advance the goals of the enterprise. Industrial engineers work in manufacturing firms, hospitals, banks, public utilities, transportation, government agencies, insurance companies, and construction firms. Among the projects they undertake are design and implementation of a computer-integrated supply chain or manufacturing system, facilities planning for a variety of industries, design of a robotics system in a manufacturing environment, long-range corporate planning, development and implementation of a quality-control system, simulation analyses to improve processes and make operational decisions, design of healthcare operations to enhance patient safety and improve efficiency, productivity, and development of computer systems for information control.

The program in industrial engineering offers students a base of traditional engineering courses, such as work design, human-machine systems, probability, statistics, and engineering economy, while emphasizing such contemporary areas as simulation modeling, engineering database systems, quality assurance, logistics and supply chain management, operations research, and facilities planning. Students

integrate the knowledge acquired in these courses in a two-semester capstone design project.

### Other Programmatic Features

More than 90 percent of the department's undergraduate students take advantage of the cooperative education program. Cooperative education assignments increase in responsibility and technical challenge as students progress through the program. Entry-level co-op positions in **mechanical engineering** may be in manufacturing, quality assurance and testing, or involve 3D CAD modeling, while more advanced-level positions will allow students to gain experience in the design process, including advanced 3D modeling, design for manufacturability, prototyping, and systems engineering. Students in the **industrial engineering** discipline may utilize co-op to concentrate on one industry segment and build an increasingly technical skill set with each experience or explore the breadth of career opportunities over the course of several co-op rotations such as healthcare process improvement, supply chain logistics, business analytics, manufacturing operations, and more.

The department also offers significant research opportunities throughout all fields of mechanical and industrial engineering, including participating in research centers based in our department and college.

Our students have an opportunity to obtain a broad knowledge base in science, engineering, and general studies that allows them flexibility in career development and graduate education. At the same time, our graduates should be responsible and scientifically educated citizens, prepared to contribute personally as well as professionally to an educated, democratic society.

### Industrial Engineering, BSIE

Industrial engineering involves the design and analysis of systems that include people, equipment, and materials and their interactions and performance in the workplace. An industrial engineer collects this information and evaluates alternatives to make decisions that best advance the goals of the enterprise.

The program in industrial engineering offers students a base of traditional engineering courses, such as work design, human-machine

systems, probability, statistics, and engineering economy, while emphasizing such contemporary areas as simulation modeling, engineering database systems, quality assurance, logistics and supply chain management, operations research, and facilities planning. Students integrate the knowledge acquired in these courses in a two-semester capstone design project.

Industrial engineers work in manufacturing firms, hospitals, banks, public utilities, transportation, government agencies, insurance companies, and construction firms. Among the projects they undertake are design and implementation of a computer-integrated supply chain or manufacturing system; facilities planning for a variety of industries; design of a robotics system in a manufacturing environment; long-range corporate planning; development and implementation of a quality-control system; simulation analyses to improve processes and make operational decisions; design of healthcare operations to enhance patient safety; and improve efficiency, productivity, and development of computer systems for information control.

More than 90 percent of department undergraduate students take advantage of the cooperative education program. Cooperative education assignments generally increase in level of responsibility as students gain theoretical and technical knowledge through their academic work. A sophomore might begin as a computer/data analyst evaluating the performance of a manufacturing system and progress to designing manufacturing engineering workstations by the senior year.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

## Mechanical Engineering, BSME

Mechanical engineering involves the design, development, and manufacture of machinery and devices to transmit power or to convert energy from thermal to mechanical form in order to power the modern world and its machines. Its current practice has been heavily influenced by recent advances in computer hardware and software.

Mechanical engineers use computers to formulate preliminary and final designs of systems or devices, to perform calculations that predict the behavior of the design, and to collect and analyze performance data from system testing or operation.

Traditionally, mechanical engineers have designed and tested devices, such as heating and air-conditioning systems, machine tools, internal-combustion engines, and steam power plants. Today they also play primary roles in the development of new technologies in a variety of fields—energy conversion, solar energy utilization, environmental control, prosthetics, transportation, manufacturing, and new-materials development.

The curriculum in mechanical engineering focuses on four areas: applied mechanics, thermofluids engineering, materials science, and controls. Applied mechanics is the study of the motion and deformation of structural elements acted on by forces in devices that range from rotating industrial dynamos to dentists' drills. Thermofluids engineering deals with the motion of fluids and the transfer of energy, as in the cooling of electronic components or the design of gas turbine engines. Materials science is concerned with the relationship between the structure and properties of materials and with the control of structure, through processing, to achieve desired properties. Practical applications are in the development of composite materials, metallurgical process industries, and advanced functional materials. Controls are critical to any engineered system in which sensors and actuators of several types communicate and function.

Courses in each area form the foundation for advanced analytical and creative design courses that culminate in a two-semester capstone design project. Faculty encourages students throughout the curriculum

to use computer-aided design tools and high-performance computer workstations.

More than 90 percent of department undergraduate students take advantage of the cooperative education program. Cooperative education assignments increase in responsibility and technical challenge as students progress through the program. Initial positions may involve computer-intensive CAD/CAM assignments or programming tasks, while more advanced jobs will place students in charge of design, quality-control systems, and performance testing of equipment.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

MEIE 4701	Capstone Design 1	1
MEIE 4702	Capstone Design 2	5

### Mechanical and Industrial Engineering Technical Elective

Complete one technical elective in one of the following subject areas: 4  
ME, IE, MEIE, EMGT, ENSY, or ENGR

**Supplemental Credit**

2 semester hours from the following course counts toward the engineering requirement: 2

GE 1501 Cornerstone of Engineering 1 <sup>1</sup>

3 semester hours from the following course counts toward the engineering requirement: 3

GE 1502 Cornerstone of Engineering 2 <sup>1</sup>

**Supporting Courses: Mathematics/Science**

Complete all Mathematics/Science courses with a minimum of 30 semester hours.

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	5
<b>Science/Math Elective</b>		
Complete one of the following:		4-5
BIOL 1111 and BIOL 1112	General Biology 1 and Lab for BIOL 1111	
BIOL 1115 and BIOL 1116	General Biology 1 for Engineers and Lab for BIOL 1115	
BIOL 2217 and BIOL 2218	Integrated Anatomy and Physiology 1 and Lab for BIOL 2217	
CHEM 1214 and CHEM 1215	General Chemistry 2 and Lab for CHEM 1214	
CHEM 2311 and CHEM 2312 and CHEM 2319	Organic Chemistry 1 and Lab for CHEM 2311 and Recitation for CHEM 2311	
MATH 3081	Probability and Statistics	
PHYS 1161 and PHYS 1162 and PHYS 1163	Physics 1 and Lab for PHYS 1161 and Recitation for PHYS 1161	
PHYS 2303	Modern Physics	
PHYS 3601	Classical Dynamics	
PHYS 3602	Electricity and Magnetism 1	
<b>Supplemental Credit</b>		
1 semester hour from the following course counts toward the mathematics/science requirement:		1
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	

**Professional Development**

Code	Title	Hours
<b>Required Professional Development</b>		
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1
<b>Additional Required Courses</b>		
1 semester hour from the following course counts toward the professional development requirement:		1
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
1 semester hour from the following course counts toward the professional development requirement:		1
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	

**Writing Requirements**

Code	Title	Hours
A grade of C or higher is required in each course:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Required General Electives**

Code	Title	Hours
Complete 24 SH of academic, nonremedial, nonrepetitive courses.		24

**Program Requirement**

140 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

**Plan of Study****Four Years, Two Co-ops in Summer 2/Fall**

## Mechanical Engineering and Design, BSME

The combined major in mechanical engineering and design is designed to educate students in topics of both disciplines and the interface between them. Mechanical engineering involves the design, development, and manufacture of machinery and devices to transmit power or to convert energy from thermal to mechanical form in order to power the modern world and its machines. Its current practice has been heavily influenced by recent advances in computer hardware and software. Today, engineers also play a primary role in the development of new technologies in a variety of fields—energy conversion, solar energy utilization, environmental control, prosthetics, transportation, manufacturing, and new-materials development. Design is the discipline that shapes human experiences in specific situations to improve quality. Designers pose important questions about—and provide significant answers to how we live. Designers are needed when we don't know what is needed as well as when we think we do. Students in this program will combine the disciplines in order to address complex problems with human-centered solutions.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not satisfied by required courses. Students are responsible for satisfying these requirements with electives.

## Engineering Requirements

Code	Title	Hours
<b>Required Engineering</b>		
ME 2340 and ME 2341	Introduction to Material Science and Lab for ME 2340	5
ME 2350	Statics	4
ME 2355 and ME 2356	Mechanics of Materials and Lab for ME 2355	5
ME 2380 and ME 2381	Thermodynamics and Recitation for ME 2380	4
ME 3455 and ME 3456	Dynamics and Lab for ME 3455	5
ME 3475 or ME 3480	Fluid Mechanics International Applications of Fluid Mechanics	4
ME 4505 and ME 4506	Measurement and Analysis with Thermal Science Application and Lab for ME 4505	5
<b>Senior Capstone Design Project</b>		
MEIE 4701	Capstone Design 1	1
MEIE 4702	Capstone Design 2	5
<b>Technical Electives</b>		
Complete two of the following (at least one must be ME 4550 or ME 4570)		8
ME 4508	Mechanical Engineering Computation and Design	
ME 4550	Mechanical Engineering Design	
ME 4555	System Analysis and Control	
ME 4570	Thermal Systems Analysis and Design	
<b>Supplemental Credit</b>		
2 semester hours from the following course count toward the engineering requirement:		2
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
3 semester hours from the following course count toward the engineering requirement:		3
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	
<b>Design Requirements</b>		
Code	Title	Hours
ARTF 1122	Color and Composition (with optional ARTF 1123)	
<b>Complete one of the following:</b>		<b>4</b>
ARTF 1121	Conceptual Drawing	
ARTF 1124 and ARTF 1125	Form and Structure and Form and Structure Tools	
ARTF 2220	Movement and Time (with optional ARTF 2221)	
ARTF 2223	Experience and Interaction (with optional ARTF 2224)	
<b>Design Requirements</b>		
ARTG 1250	Design Process Context and Systems	4
ARTG 2250	Typography 1 (with optional ARTG 2251)	4
<b>Design Options</b>		
Complete one of the following design options:		8
<i>Interactive Design Option</i>		

ARTG 2400	Interaction Design 1: Responsive (with optional ARTG 2401)
ARTG 3700	Interaction Design 2: Mobile

*Graphic and Information Design Option*

ARTG 2252	Graphic Design 1
ARTG 3450	Graphic Design 2

*Experience Design Option*

ARTG 3462	Experience Design 1
ARTG 3463	Experience Design 2

**Art + Design History Elective 4**

Complete any ARTH course. Recommend selecting an ARTH course that fulfills both NUpath IC and SI.

**Design Elective 8**

Complete two ARTG courses (at least one at 3000-level or higher) as long as prerequisites have been met.

**Art + Design Elective 4**

Complete any one ARTG, ARTE, ARTD, ARTH, ARTS course as long as prerequisites have been met.

**Supporting Courses: Mathematics/Science**

Complete all mathematics/science courses with a minimum of 30 semester hours.

Code	Title	Hours
------	-------	-------

**Required Mathematics/Science**

CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	5

**Supplemental Credit**

1 semester hour from the following course counts toward the mathematics/science requirement:

GE 1501 Cornerstone of Engineering 1<sup>1</sup>

**Professional Development**

Code	Title	Hours
------	-------	-------

**Professional Development**

GE 1000 or ARTF 1000	Introduction to the Study of Engineering or Art and Design at Northeastern	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

**Additional Required Courses**

1 semester hour from the following course counts toward the professional development requirement:

GE 1501 Cornerstone of Engineering 1<sup>1</sup>

1 semester hour from the following course counts toward the professional development requirement:

GE 1502 Cornerstone of Engineering 2<sup>1</sup>

**Writing Requirements**

Code	Title	Hours
------	-------	-------

A grade of C or higher is required in each course:

ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Required General Electives**

Code	Title	Hours
------	-------	-------

Complete 4 semester hours of academic, nonremedial, nonrepetitive courses. Recommend selecting a course to fulfill NUpath DD.

**Integrative Courses**

Code	Title	Hours
------	-------	-------

This course is already required above and also fulfills the integrative requirement.

MEIE 4702 Capstone Design 2

**Major GPA Requirement**

2.000 minimum GPA required in IE, ME, and MEIE courses

**Program Requirement**

139 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

### Mechanical Engineering and History, BSME

The combined history and mechanical engineering major is designed to help students develop skills across different intellectual domains. A solid grounding in history helps students better understand the political, cultural, and economic context in which technologies are developed and deployed. Indeed, history offers a myriad of case studies that highlight both the transformative potential and the unintended consequences of new technologies and technological processes. By studying different phases of the past and different societies in the past, students will gain a broad perspective that gives them the range and flexibility required in many work situations. History also provides a terrain for moral contemplation. Greater sensitivity to historical context also helps students see beyond commonly accepted narratives valorizing individual entrepreneurs and appreciate the different ways in which innovation, disruption, official support, and even contingency give rise to new technologies. Finally, by writing effective papers and engaging in productive discussions at the heart of history courses, students also cultivate skills in critical analysis and persuasive communication that could be employed in any future careers.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

NUPath requirement Interpreting Culture (IC) is not explicitly satisfied by required courses. Students are responsible for satisfying this requirement with electives.

### Engineering Requirements

Code	Title	Hours
<b>Required Engineering</b>		
ME 2340 and ME 2341	Introduction to Material Science and Lab for ME 2340	5
ME 2350	Statics	4
ME 2355 and ME 2356	Mechanics of Materials and Lab for ME 2355	5
ME 2380 and ME 2381	Thermodynamics and Recitation for ME 2380	4
ME 3455 and ME 3456	Dynamics and Lab for ME 3455	5
ME 3475 or ME 3480	Fluid Mechanics International Applications of Fluid Mechanics	4
ME 4505 and ME 4506	Measurement and Analysis with Thermal Science Application and Lab for ME 4505	5

### Senior Capstone Design Project

MEIE 4701	Capstone Design 1	1
MEIE 4702	Capstone Design 2	5

### Technical Electives

Complete two of the following:		8
ME 4508	Mechanical Engineering Computation and Design	
ME 4550	Mechanical Engineering Design	
ME 4555	System Analysis and Control	
ME 4570	Thermal Systems Analysis and Design	

### Supplemental Credit

2 semester hours from the following course count toward the engineering requirement:		2
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
3 semester hours from the following course count toward the engineering requirement:		3
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	

### History Requirements

Code	Title	Hours
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
HIST 2220	History of Technology	4

### Research Methods

HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1

### Introductory History

Complete one course from HIST 1001 to HIST 1999 (excluding HIST 1200/1201).		4
---	--	---

### Pre-1800 History Elective

Complete one of the following:		4
HIST 1187	Introduction to Latin American History	

HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1252	Japanese Literature and Culture	
HIST 1272	Europe in the Middle Ages, 500–1500	
HIST 1389	History of Espionage 1: Antiquity to World War II	
HIST 2000	Native American Resistance: Past and Present	
HIST 2311	Colonialism/Imperialism	
HIST 2330	Colonial and Revolutionary America	
HIST 2370	Renaissance to Enlightenment	

**Intermediate History**

Complete four HIST courses numbered 2000 or above (except HIST 2301/2302). 16

**Advanced History**

Complete one HIST course at the 3000 level or above. 4

**Supporting Courses: Mathematics/Science**

Complete all mathematics/science courses with a minimum of 30 semester hours.

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	5

**Supplemental Credit**

1 semester hour from the following course counts toward the mathematics/science requirement: 1

GE 1501 Cornerstone of Engineering 1<sup>1</sup>

**Professional Development**

Code	Title	Hours
<b>Professional Development</b>		
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

**Additional Required Courses**

1 semester hour from the following course counts toward the professional development requirement: 1

GE 1501 Cornerstone of Engineering 1<sup>1</sup>

1 semester hour from the following course counts toward the professional development requirement: 1

GE 1502 Cornerstone of Engineering 2<sup>1</sup>

**Writing Requirements**

Code	Title	Hours
A grade of C or higher is required in each course:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Integrative Courses**

Code	Title	Hours
This course is already required above and also fulfills the integrative requirement.		
HIST 2220	History of Technology	

**Required General Elective**

Code	Title	Hours
Complete 4 semester hours of academic, nonremedial, nonrepetitive courses. 4		

**Major GPA Requirement**

Minimum 2.000 GPA required in ME courses

Minimum 2.000 GPA required in all HIST courses

**Program Requirement**

141 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

**Plan of Study****Four Years, One Co-op in Spring/Summer 1**

## Mechanical Engineering and Physics, BSME

This undergraduate program takes advantage of the physical similarities between mechanical engineering and physics, providing students with the opportunity to pursue studies that explore both topics. The program culminates with mechanical engineering capstone design.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

### Engineering Requirement

Code	Title	Hours
<b>Required Engineering</b>		
ME 2340 and ME 2341	Introduction to Material Science and Lab for ME 2340	5
ME 2350	Statics	4
ME 2355 and ME 2356	Mechanics of Materials and Lab for ME 2355	5
ME 2380 and ME 2381	Thermodynamics and Recitation for ME 2380	4
ME 3455 and ME 3456	Dynamics and Lab for ME 3455	5
ME 3475	Fluid Mechanics	4
or ME 3480	International Applications of Fluid Mechanics	
ME 4505 and ME 4506	Measurement and Analysis with Thermal Science Application and Lab for ME 4505	5
ME 4508	Mechanical Engineering Computation and Design	4
ME 4550	Mechanical Engineering Design	4
ME 4555	System Analysis and Control	4
ME 4570	Thermal Systems Analysis and Design	4
<b>Mechanical Engineering Capstone</b>		
MEIE 4701	Capstone Design 1	1
MEIE 4702	Capstone Design 2	5
<b>Supplemental Credit</b>		

2 semester hours from the following course counts toward the engineering requirement: 2

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
---------	---	--

3 semester hours from the following course counts toward the engineering requirement: 3

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	
---------	---	--

### Mathematics/Science Requirement

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4

General Elective	4
0	17

Total Hours: 139

**Notes:**

Physics courses are offered on the following schedule:

- PHYS 2303 offered every fall, spring and summer 2.
- PHYS 2371/2372 offered every fall.
- PHYS 3600 offered every summer 1 and summer 2.
- Classical Dynamics (PHYS 3601) is offered fall and spring semesters of even years only. Please meet with your COS Academic Advisor to discuss scheduling options for Year 4 of odd years.
- PHYS 3602 offered every fall and spring.
- PHYS 3603 offered fall (even years) and summer 1 (odd years).
- PHYS 4115 offered every fall and spring.
- PHYS 4305 offered every spring and summer 2 (even years).
- PHYS 4621 offered spring (odd years) and fall (even years).
- PHYS 4623 offered summer 1 and fall (even years).
- PHYS 4651 offered spring and fall (odd years).
- PHYS 4652 offered every spring.
- PHYS 5318 offered every spring.

**Aerospace, Minor**

This aerospace minor provides an opportunity for students to gain fundamental knowledge in science and technology of navigation in the air. These fundamentals are covered by a total of five courses, with courses on flight and propulsion, as well as in mechanics/structures, thermofluids, and guidance and navigation.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

**Required Courses**

Code	Title	Hours
<b>Core Courses</b>		
ME 3465	Introduction to Flight	4
ME 3470	Aeronautical Propulsion	4
<b>Guidance and Navigation Course</b>		
ME 5554	Robotics Sensing and Navigation	4
<b>Structures Course</b>		
Complete one of the following:		4
ME 4520	Mechanical Vibration	
ME 5655	Dynamics and Mechanical Vibration	
<b>Combustion and Aerodynamics Course</b>		
Complete one of the following:		4
ME 4565	Introduction to Computational Fluid Dynamics	
ME 5690	Gas Turbine Combustion	
ME 5695	Aerodynamics	

## GPA Requirement

Minimum 2.000 GPA required in the minor

## Credit Requirement

20 semester hours required

### Biomechanical Engineering, Minor

This minor provides an opportunity for students to explore the interaction between mechanical engineering and health. Recommended for students interested in aspects of engineering related to human kinematics, including biomedical devices, joint injury, prosthetic development, human-machine systems, and/or prosthetics.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

## Required Biology

Code	Title	Hours
<b>Biology 1</b>		
Complete one of the following:		5
BIOL 1111 and BIOL 1112	General Biology 1 and Lab for BIOL 1111	
BIOL 1115 and BIOL 1116	General Biology 1 for Engineers and Lab for BIOL 1115	

## Anatomy and Physiology

BIOL 2217 and BIOL 2218	Integrated Anatomy and Physiology 1 and Lab for BIOL 2217	5
----------------------------	--	---

## Required Mechanical Engineering

Code	Title	Hours
ME 5665	Musculoskeletal Biomechanics	4
MEIE 4701	Capstone Design 1	1
MEIE 4702	Capstone Design 2	5

## Technical Elective

Additional electives may be approved by your academic adviser.

Code	Title	Hours
Complete one of the following:		4-5
IE 4520	Stochastic Modeling	
IE 4522 and IE 4523	Human-Machine Systems and Lab for IE 4522	
ME 4640	Mechanical Behavior and Processing of Materials	
ME 5650	Advanced Mechanics of Materials	
ME 5655	Dynamics and Mechanical Vibration	
PHYS 4621	Biological Physics 1	

## GPA Requirement

2.000 GPA required in the minor

### Healthcare System Operations, Minor

The objective of the minor in healthcare system operations is to prepare students to apply industrial and systems engineering methods in healthcare applications. Distinct from other service industries,

healthcare systems are characterized by extensive complexities driven by communication between and interdependencies among multiple actors, and the need to simultaneously address multiple competing objectives pertaining to economic, quality-driven, individual-driven, and population-driven goals. This minor will benefit students by highlighting the unique features of this industry and methods for addressing its unique challenges to engineer improvements to the design, operation, and management of healthcare systems.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

## Required Courses

At most, one course from the minor may be counted toward major requirements.

Code	Title	Hours
<b>Required Courses</b>		
IE 5617	Lean Concepts and Applications	4
IE 5400	Healthcare Systems Modeling and Analysis	4
or IE 3500	Introduction to Healthcare Systems Engineering	
PHTH 1260	The American Healthcare System	4
<b>Electives</b>		
Complete one of the following:		4
IE 5374	Special Topics in Industrial Engineering (System Dynamics in Healthcare)	
IE 5500	Systems Engineering in Public Programs	
IE 5640	Data Mining for Engineering Applications	
NRSG 5121	Epidemiology and Population Health	
PHTH 4511	Healthcare Management	
PHTH 5226	Strategic Management and Leadership in Healthcare	
PHTH 5232	Evaluating Healthcare Quality	
SCHM 3315	Managing Healthcare Operations and Supply Chain	

## GPA Requirement

2.000 GPA required in the minor

### Industrial Engineering, Minor

This minor provides an opportunity for students to explore core aspects of industrial engineering, including mathematical foundations, along with a technical focus into one of the many industrial engineering subdisciplines. This minor is not open to students majoring in Industrial Engineering.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

**Required Courses**

Code	Title	Hours
IE 2310	Introduction to Industrial Engineering	4
IE 4515	Operations Research	4
IE 3412	Engineering Probability and Statistics (or equivalent)	4

**Technical Elective**

Consult mechanical and industrial engineering academic advisor for additional electives.

Code	Title	Hours
Complete one of the following:		4
IE 3425	Engineering Database Systems	
IE 4510	Simulation Modeling and Analysis	
IE 4512	Engineering Economy	
IE 4516	Quality Assurance	
IE 4520	Stochastic Modeling	
IE 4522 and IE 4523	Human-Machine Systems and Lab for IE 4522	
IE 4525	Logistics and Supply Chain Management	
IE 4530	Manufacturing Systems and Techniques	

**GPA Requirement**

2.000 GPA required in the minor

**Mechanical Engineering, Minor**

This minor provides an opportunity for students to explore core aspects of mechanical engineering, including mechanical and thermal foundations, along with a technical focus into one of the mechanical engineering disciplines (mechanics, thermofluids, materials, and/or controls). This minor is not open to students majoring in Mechanical Engineering.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

**Required Courses**

Code	Title	Hours
ME 2350	Statics	4
ME 2380	Thermodynamics	4

**Mechanical Engineering Technical Electives**

Code	Title	Hours
Complete two of the following:		8
ME 2340	Introduction to Material Science	
ME 2355	Mechanics of Materials	
ME 3455	Dynamics	
ME 3475	Fluid Mechanics	
or ME 3480	International Applications of Fluid Mechanics	
ME 4508	Mechanical Engineering Computation and Design	
ME 4550	Mechanical Engineering Design	

ME 4555	System Analysis and Control
ME 4570	Thermal Systems Analysis and Design

**GPA Requirement**

2.000 GPA required in the minor

**Robotics, Minor**

The minor in robotics is open to all students in the university. The minor is designed for the student who would like a coherent background in the theory and practice of robotics.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Students need to complete the program requirements with at least three courses that are not part of their major required coursework.

**Required Courses**

Code	Title	Hours
ME 3460	Robot Dynamics and Control	4
Complete one of the following:		4
EECE 2210 and EECE 2211	Electrical Engineering and Lab for EECE 2210	
EECE 2160	Embedded Design: Enabling Robotics	

**Electives**

Code	Title	Hours
Complete three of the following:		12
CS 4100	Artificial Intelligence	
CS 4610	Robotic Science and Systems	
EECE 4630	Robotics	
EECE 5550	Mobile Robotics	
EECE 5552	Assistive Robotics	
EECE 5554	Robotics Sensing and Navigation	
EECE 5639	Computer Vision	
EECE 5644	Introduction to Machine Learning and Pattern Recognition	
EECE 5580	Classical Control Systems	
IE 4522	Human-Machine Systems	
ME 5245	Mechatronic Systems	
ME 5250	Robot Mechanics and Control	

**GPA Requirement**

2.000 GPA required in the minor

**Accelerated Bachelor/Graduate Degree Programs**

The College of Engineering offers a number of bachelor's/graduate degree programs that allow students to accelerate the attainment of the graduate degree by applying graduate credits taken as an undergraduate toward both the undergraduate and graduate degrees. Degrees are earned sequentially, with the bachelor's degree attainment followed by coursework to complete the graduate degree. See additional information on accelerated bachelor/graduate degree programs (<https://>

registrar.northeastern.edu/article/plusone-program-accelerated-bachelorgraduate-degree-programs/).

The Bouvé College of Health Sciences strongly supports the mission of Northeastern University as a practice-oriented, student-centered, experiential research institution. The college is committed to the goals of the university, which include excellence in education, research, scholarship, clinical practice, experiential learning, access to educational opportunities, and a strong professional orientation.
