Bouvé offers students an education in health, health profession fields, and public health that features a curriculum of highly relevant, closely integrated, basic and applied courses in the physical, biological, behavioral, social, environmental, and health systems sciences. Students engage in interprofessional patient care, interdisciplinary translational research, and experiential learning opportunities through the university's signature cooperative education program, as well as through service-learning, research, and global experiences.

Bouvé leverages interdisciplinary and interprofessional collaboration to tackle the world's most pressing health challenges. The college seeks to prepare students to become clinicians, researchers, and leaders in healthcare and in the promotion of health of individuals and populations.

Students are provided a broad range of services and programs to ensure their academic success and enhance their overall educational experience at Northeastern University, from their first year through graduation. Faculty are deeply committed to student success, as students interact with world-class healthcare and educational institutions nationally and globally, to advance health for all.

### Academic Requirements

Students are responsible for following the program requirements for their respective major, pattern of attendance, and graduation year. Students are responsible for monitoring their own progress through the curriculum by registering for the courses stipulated by their curriculum plan, abiding by course prerequisites, regularly checking their degree audits, and knowing the consequences for unsatisfactory academic progress. Any exceptions to a student's curriculum plan will be determined by protocols

established by the program, after consultation with the student's academic advisor.

The minimum passing grade for a course within a curriculum is stipulated in the program requirements published in this catalog. The minimum passing grade required for certain NUPATH writing-intensive courses is established by the university and can be viewed here (p. 49). For a course where the minimum passing grade is not established in the program requirements published in this catalog, the university's minimum passing grade for the course will be accepted.

### ACADEMIC PROGRESSION WITHIN BOUVÉ

- First-year students must complete the minimum semester hours outlined by the university Academic Progression Standards (p. 27) and meet all major/program prerequisite course requirements to progress to sophomore status.
- Students who incur an incomplete grade in a prerequisite course may not progress into the subsequent course(s). Any exceptions will be determined by protocols established by the program, after consultation with the student's academic advisor. See *Clearing an Incomplete or Changing Other Grades* section on the (<http://catalog.northeastern.edu/undergraduate/academic-policies-procedures/student-records-transcripts-related-policies/>) Student Records, Transcripts, and Related Policies page of this catalog for more detail.
- Please see each major/ program's requirements page in this catalog for progression requirements specific to that program.

### GRADE-POINT AVERAGE (GPA)

Bouvé College does not permit the use of a hand-calculated GPA under any circumstances. All GPA calculations will be performed by the university's standard process.

### ACADEMIC DISMISSAL FROM MAJOR

Students in the Bouvé College of Health Sciences will be dismissed from their major/program effective the following academic semester for failure to earn the minimum required grade in the same course twice. Additional grounds for academic dismissal specific to each major can be found on the program requirements page of the major in this catalog.

*Note:* Students dismissed from their major/program but who are otherwise in good standing with the university are allowed to remain at Northeastern University for up to two semesters as a provisional Bouvé student, by the end of which, the student is expected to move into a new major. If not moved into a new major by the end of two semesters, the student will be blocked from further registration.

### UNDERGRADUATE STUDENT ACADEMIC APPEALS

Students who believe that they were erroneously, capriciously, or otherwise unfairly treated in an academic or cooperative education decision may petition to appeal the decision. Details about the process for undergraduate students may be found in the *Appeals Policies and Procedures* in the university Undergraduate Student Handbook (<http://www.northeastern.edu/osccr/code-of-student-conduct/>) supplemented by the college-specific policies and procedures below.

**Step 1.** For appeals concerning a course grade, students should discuss their concerns with the course instructor or unit head offering the course as outlined in the student handbook. If the concern remains unresolved after these conversations, the student should prepare an appeal to the College level, see step 5, below.

For all other academic appeals, including decisions concerning academic standing or progression or co-op, students should discuss their concerns

with the academic advisor and prepare an appeal statement for submission to the Unit level as shown in the step below. For appeals concerning a professionalism determination (when applicable to a student's program/major), the student should discuss their concerns with the program director.

The Disability Resource Center (<http://www.northeastern.edu/drc/>) provides an appeal process for students with disabilities who believe their accommodation requests were unduly denied. Appeals arising from allegations of discrimination or harassment on the basis of a protected category should be referred to the Office for University Equity and Compliance (<https://www.northeastern.edu/ouec/>). For appeals concerning student conduct, including academic integrity, please refer to the process outlined in the Code of Student Conduct.

**Step 2.** If the concern remains unresolved after informal discussions or if the concern pertains to an academic determination as outlined above, the student should prepare and submit an appeal statement. Students are encouraged to work with their advisor to complete the necessary forms.

**Step 3: BCHS Unit Level Appeal** When appealing a decision to the unit-level, students should submit a request to appeal and submit the appeal statement within 30 working days of the day when the student learns of the academic determination in question. The unit-level Academic Standing Committee must provide the student with a written report of the finding(s) and decision within 10 business days according to their established procedures.

**Step 4: Department Chair or School Dean Level Appeal** If the student believes they have been erroneously, capriciously, or otherwise unfairly treated with the unit-level committee's decision, they may pursue a secondary appeal to the next level as specified below:

School of Clinical and Rehabilitation Sciences: Department chair of the unit offering the course or program

School of Community Health and Behavioral Sciences: Department chair of the unit offering the course or program

School of Nursing: School Dean

School of Pharmacy: School Dean

The student must request the appeal by contacting the specified office in writing via e-mail within 10 business days of receiving the report from the previous step. After consideration, the department chair or school dean, or their representative, shall provide the student and involved faculty member with a written report of their finding(s) and decision within 10 business days of receiving the appeal request.

**Step 5. College Level Appeal** If the student is not satisfied with the disposition of the matter at the previous step, they may proceed with the appeal through the BCHS Academic Affairs Committee (BCHS AAC). The BCHS AAC hears cases that have been unsatisfactorily resolved at the prior school and unit levels for "students who believe that they have been erroneously, capriciously, or otherwise unfairly treated" or may directly hear appeals concerning course grades or when a unit does not have a unit-level committee.

The student must request an appeal hearing in writing (via email) within 10 business days of receiving the report from the previous step or the grade in question. After consideration, the college dean or their representative, shall provide the student and involved faculty member with a written report of their finding(s) and decision within 10 business days of receiving the appeal request.

Processes for College-Level Appeals to the BCHS AAC:

- Students wishing to bring an appeal before the college AAC should first consult with their appointed academic advisor, or when the appeal involves the academic advisor, with the Assistant Dean of Student Services.
- The chair of the college AAC will convene the college appeals panel from among the regular members of the BCHS AAC. The appeals panel will include three voting members of the BCHS AAC that appropriately represent the breadth and depth of programs within the college. At minimum, two schools will be represented on the panel and at least one member who teaches within a similar degree-level program. Members of the panel shall have no known conflicts of interest with the student. The Assistant Dean of Student Services and the chair of the AAC will attend the appeal panel hearing as non-voting members.
- A chair for the college appeal panel shall be selected from among the panel members and is responsible for producing a formal recommendation of the committee for communication to the college dean.
- The chair of the AAC will be responsible for scheduling the meeting, notifying the student and other participants in a timely manner so they may attend, and keeping and archiving records of the proceedings according to committee procedures.
- The chair of the college appeal panel will notify the college dean of the findings and recommended decision. The college dean will have the final decision.
- The college dean will notify the student and other relevant parties of the decision in writing no later than 10 business days after the decision.

#### Step 6. University Level Appeal

If the student is not satisfied with the college's disposition of the matter, or if the appeal is not resolved within 30 working days (six calendar weeks) after having been submitted to the college in the previous step, they may appeal the matter to the university level. The student shall submit a request in writing, within 10 working days (two calendar weeks) of the finding of the college in the previous step, to the vice provost for undergraduate programs and policies that the university convene an academic appeals resolution committee to review the issue. See the University Undergraduate Handbook for more information.

#### OTHER POLICIES AND PROCEDURES

In addition to policies and procedures referenced here, the following policies and procedures published in Bouvé's graduate catalog also apply to Bouvé's undergraduate students:

- Health Certification (<http://catalog.northeastern.edu/graduate/health-sciences/academic-policies-procedures/health-certification/>)
- Requirements for Clinical, Internships, and Practicum Courses (<http://catalog.northeastern.edu/graduate/health-sciences/academic-policies-procedures/practicum-internship-policies/>)
- Background Checks (<http://catalog.northeastern.edu/graduate/health-sciences/academic-policies-procedures/background-checks/>)
- Liability Insurance (<http://catalog.northeastern.edu/graduate/health-sciences/academic-policies-procedures/liability-insurance/>)

## Interdisciplinary

### Minors

- Health, Humanities, and Society (p. 539)
- Healthcare System Operations (p. 535)

### Combined Majors

- Communication Studies and Speech-Language Pathology and (p. 171) Audiology (p. 171), BS (p. 171)
- Data Science and Health (p. 415) Science (p. 415), BS (p. 415)
- Environmental Engineering and Health (p. 480) Science (p. 480), BSEnvE (p. 480)
- Health Science and Business Administration, BS (p. 281)
- Health Science and Communication Studies, BS (p. 172)
- Health Science and Psychology, BS (p. 550)
- Health Science and Sociology, BS (p. 553)
- Linguistics and Speech-Language Pathology and (p. 555)Audiology (p. 555), BS (p. 555)

## Health, Humanities, and Society, Minor

The health, humanities, and society minor is designed for students who would like to learn how to think capaciously and creatively about health using the rigorous, precise, and flexible skills trained by the social sciences and the humanities. The social sciences teach students to think about the social, economic, and political factors that structure health conditions and outcomes in particular societies, while the humanities train students to navigate the complexities of interpersonal interaction and their ethical implications, to relate the micro to the macro and texts to contexts, to historicize encounters, to communicate accurately and effectively across a variety of media, and to engage in creative analytical thinking about healthcare. The landscape of healthcare is quickly changing, and this training will equip students well not only for the diverse forms of health work that exist today, but for as yet unimaginable varieties of health-related work in the future.

This minor is structured around the particular competencies that the social sciences and humanities train. Those competencies are narrative and historical perspective, critical attention and observation, ethics and judgment, performance and creativity, and social and structural proficiency. Rather than adopting the more traditional approach of connecting particular skills to particular disciplines (say, narrative to literature and observation to art history), this minor builds from discipline-specific health knowledge while training students to think across disciplines. Thus, it will not be unusual for students to find a single course addressing multiple competencies or to take courses in different disciplines that address the same competency from distinct but complementary perspectives.

This minor is housed in the Humanities Center of the College of Social Sciences and Humanities in partnership with the Bouvé College of Health Sciences.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

## Required Courses

No more than two courses, in addition to the introductory course, may be taken under the 2000 level.

Code	Title	Hours
<b>Introductory Course</b>		
INSH 1300	Introduction to Health and Humanities	4
<b>Humanities Requirement</b>		
Complete two of the following:		8
ENGL 2770	Writing to Heal	
ENGL 3140	19th-Century Literatures	
ENGL 3700	Narrative Medicine	
ENGL 4710	Capstone Seminar	
PHIL 1165	Moral and Social Problems in Healthcare	
PHIL 1271	Sex in Judaism, Christianity, and Islam	
PHIL 1295	Religious Perspectives on Health and Healing	
WMNS 1225	Gender, Race, and Medicine	
<b>Social Sciences Requirement</b>		
Complete two of the following:		8
AFRS 3424	Epidemiology of Pandemic Diseases and Health Disparities in the African Diaspora	
AFRS 4939	Community Health, Culture, and Development in Kenya	
ANTH 4580	Special Topics in Anthropology	
ECON 1230	Healthcare and Medical Economics	
HLTH 5280	The (in)Visibility of (dis)Ability in Society	
PHTH 1270	Introduction to Global Health	
PHTH 2300	Communication Skills for the Health Professions	
or PHTH 2301	Communication Skills for the Health Professions—Global	
PHTH 4120	Global Perspectives on Discrimination and Health	
PHTH 5202	Introduction to Epidemiology	
PHTH 5234	Economic Perspectives on Health Policy	
SOCL 1295	Drugs and Society	
SOCL 2303	Gender and Reproductive Justice	
SOCL 3441	Sociology of Health and Illness	
Total Hours		20

## GPA Requirement

2.000 GPA required in the minor

## Healthcare System Operations, Minor

The objective of the minor in healthcare system operations is to prepare students to apply industrial and systems engineering methods in healthcare applications. Distinct from other service industries, healthcare systems are characterized by extensive complexities driven by communication between and interdependencies among multiple actors, and the need to simultaneously address multiple competing objectives pertaining to economic, quality-driven, individual-driven, and

population-driven goals. This minor will benefit students by highlighting the unique features of this industry and methods for addressing its unique challenges to engineer improvements to the design, operation, and management of healthcare systems.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Courses

At most, one course from the minor may be counted toward major requirements.

Code	Title	Hours
<b>Required Courses</b>		
IE 5617	Lean Concepts and Applications	4
IE 5400	Healthcare Systems Modeling and Analysis	4
or IE 3500	Introduction to Healthcare Systems Engineering	
PHTH 1260	The American Healthcare System	4
<b>Electives</b>		
Complete one of the following:		4
IE 5374	Special Topics in Industrial Engineering (System Dynamics in Healthcare)	
IE 5500	Systems Engineering in Public Programs	
IE 5640	Data Mining for Engineering Applications	
NRSG 5121	Epidemiology and Population Health	
PHTH 4511	Healthcare Management	
PHTH 5226	Strategic Management and Leadership in Healthcare	
PHTH 5232	Evaluating Healthcare Quality	
SCHM 3315	Managing Healthcare Operations and Supply Chain	

### GPA Requirement

2.000 GPA required in the minor

## Communication Studies and Speech-Language Pathology and Audiology, BS

The combined Bachelor of Science in Communication Studies and Speech-Language Pathology and Audiology offers an interdisciplinary approach to human communication and its disorders. Coursework focuses on the scientific and theoretical frameworks of speech, language, and hearing. Students will also be introduced to the fundamentals of communication theory, and they have an opportunity to acquire the practical skills necessary to thrive in a complex and changing society. The curriculum is enhanced by experiential learning opportunities in a clinical setting that prepare the students for a variety of professional careers.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### First-Year Seminar

Code	Title	Hours
COMM 1000	Communication Studies at Northeastern	1
or SLPA 1000	College: An Introduction	

### Communication Studies Requirements

Code	Title	Hours
No more than two grades below a C in communication studies courses may be used to fulfill degree requirements.		
<b>Communication Studies Common Requirements</b>		
COMM 1101	Introduction to Communication Studies	4
COMM 1112	Public Speaking	4
or COMM 2301	Communication Research Methods	

<b>Foundation Course</b>		
Complete one of the following:		4
COMM 1210	Persuasion and Rhetoric	
COMM 1231	Principles of Organizational Communication	
COMM 1225	Communication Theory	
COMM 1255	Communication in a Digital Age	

<b>Cluster Course</b>		
Complete one of the following:		4
COMM 1131	Sex, Relationships, and Communication	
COMM 2303	Global and Intercultural Communication	
COMM 2304	Communication and Gender	
COMM 2501	Communication Law	
COMM 2551	Free Speech in Cyberspace	

<b>Writing-Intensive Courses</b>		
Complete two of the following (COMM 3201 is strongly recommended):		8
COMM 3200	Mobile Communication	
COMM 3201	Health Communication	
COMM 3230	Interpersonal Communication	
COMM 3304	Communication and Inclusion	
COMM 3320	Political Communication	
COMM 3414	Great Speakers and Speeches	
COMM 3415	Communication Criticism	
COMM 3445	Public Relations Principles	
COMM 3500	Environmental Issues, Communication, and the Media	
COMM 3501	Free Speech: Law and Practice	
COMM 3530	Communication and Sexualities	
COMM 3532	Theories of Conflict and Negotiation	
COMM 4535	Nonverbal Social Interaction	

COMM 4605 Youth and Communication Technology

COMM 4631 Crisis Communication and Image Management

### Communication Studies Electives

Complete three COMM courses. 12

### Speech-Language Pathology and Audiology Requirements

**Code Title Hours**

All courses in these sections must be completed with a C or better.

#### SLPA Requirements

SLPA 1101 Introduction to Communication Disorders 4

SLPA 1102 Language Development 4

SLPA 1103 Anatomy and Physiology of Speech and Hearing Mechanism 4

SLPA 1200 Phonetics 4

SLPA 1203 Introduction to Audiology 4

SLPA 1205 Speech and Hearing Science 4

SLPA 2000 Introduction to Co-op 1

or EEAM 2000 Professional Development for Co-op

SLPA 4651 Speech Disorders across the Life Span 4

SLPA 5107 Clinical Procedures 4

SLPA 5110 Language Disorders across the Life Span 4

SLPA 6219 Aural Rehabilitation 4

### Supporting Courses

**Code Title Hours**

PSYC 1101 Foundations of Psychology 4

ENGW 1111 First-Year Writing 4

PHYS 1145 and PHYS 1146 Physics for Life Sciences 1 and Lab for PHYS 1145 5

BIOL 2217 and BIOL 2218 Integrated Anatomy and Physiology 1 and Lab for BIOL 2217 5

BIOL 2219 and BIOL 2220 Integrated Anatomy and Physiology 2 and Lab for BIOL 2219 5

HLTH 2100 Interprofessional Ethics for Individual and Population Health 4

PHTH 2300 Communication Skills for the Health Professions 4

PSYC 2320 Statistics in Psychological Research 4

### Integrative Course

**Code Title Hours**

Note: The selected integrative course counts toward the COMM writing-intensive (COMM 3201) or COMM elective (COMM 4102) as appropriate.

COMM 3201 Health Communication (WI)

or COMM 4102 Health Communication Campaigns

### Communication Studies Grade Requirement

No more than two grades below a C in communication studies courses may be used to satisfy degree requirements.

### Program Requirements

133 total semester hours required

### Plan of Study

#### Sample 4 Years, 2 Co-ops

##### Year 1

A general elective or a COMM elective (e.g., COMM 1120) can be taken to fulfill the NUPATH Formal/Quantitative Reasoning (FQ) requirement.

## Data Science and Health Science, BS

The health science and computer science combined major offers a solid academic and experiential foundation integrating studies in health administration, computer science, mathematics, and statistics. This program reflects the impact of data in modern healthcare and prepares students for success in careers in health administration, community-based health promotion, public health, and big data analysis.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUPATH Requirements

All undergraduate students are required to complete the NUPATH Requirements (p. 46).

### Environmental Engineering and Health Science, BSEnvE

This intercollege combined major is designed for students who would like to explore their interest in the health sciences while earning the benefit of a Bachelor of Science degree in environmental engineering. The combined major reflects the respective departmental thrusts in environmental health and sustainable resource engineering to create awareness about the complex relationship between the environment and human health, prepare professionals in this growing area capable of providing engineering solutions to

current and emerging topics related to environmental engineering and health sciences, and maintain healthy environmental systems by applying and developing techniques to reduce exposure to health hazards. This program combines the content of two majors to allow students to learn the breadth and depth of the convergence between public health and environmental engineering.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Engineering Requirement

Code	Title	Hours
<b>Required Engineering</b>		
CIVE 2221 and CIVE 2222	Statics and Solid Mechanics and Recitation for CIVE 2221	4
CIVE 2260 and CIVE 2261	Materials for the Built Environment and Lab for CIVE 2260	5
CIVE 2331	Fluid Mechanics and Hydraulics	4
CIVE 2334	Environmental Engineering: Principles, Technology, and Sustainability	4
CIVE 3435	Environmental Pollution Fate and Transport	4
CIVE 4534 and CIVE 4535	Water Treatment Systems Design and Lab for CIVE 4534	4
CIVE 4765	Senior Design Project—Environmental	5
CIVE 5300 and CIVE 5301	Environmental Sampling and Analysis and Lab for CIVE 5300	4
GE 3300	Energy Systems: Science, Technology, and Sustainability	4
<b>Supplemental Credit</b>		
1 semester hour from the following course counts toward the engineering requirement:		1
CIVE 3464	Probability and Engineering Economy for Civil Engineering	
3 semester hours from the following course count toward the engineering requirement:		3
CIVE 2335	Environmental Engineering Chemistry	
3 semester hours from the following course count toward the engineering requirement:		3
CIVE 3430	Engineering Microbiology and Ecology	
2 semester hours from the following course count toward the engineering requirement:		2
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
3 semester hours from the following course count toward the engineering requirement:		3
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	

### Health Sciences Major Requirement

Code	Title	Hours
HLTH 5450	Healthcare Research (Principles of Epidemiology in Medicine and Public Health)	4
or PHTH 4202	Principles of Epidemiology in Medicine and Public Health	
PHTH 1260 or PHTH 1261	The American Healthcare System Comparative Healthcare Systems	4
PHTH 2210	Foundations of Biostatistics	4
PHTH 2350 or PHTH 2351	Community and Public Health Community and Public Health - Global	4
PHTH 2414	Environmental Health	4
PHTH 2515	Healthcare Policy and Administration	4
PHTH 4120	Global Perspectives on Discrimination and Health	4
PHTH 4540	Health Education and Program Planning	4
PHTH 5214	Environmental Health	3

### Supporting Courses: Mathematics/Science

Complete all Mathematics/Science courses with a minimum of 30 semester hours.<sup>2</sup>

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5
<b>Science Elective (Earth)</b>		
Complete one of the following:		4-5
ENVR 1120	Oceans and Coasts	
ENVR 1200	Dynamic Earth	
ENVR 2200	Earth's Changing Cycles	
ENVR 3125	Global Oceanic Change	
ENVR 3200	Water Resources	
ENVR 3600	Oceanography	
ENVR 5201	Geologic Field Seminar	
<b>Supplemental Credit</b>		
3 semester hours from the following course count toward the mathematics/science requirement:		3
CIVE 3464	Probability and Engineering Economy for Civil Engineering	
1 semester hour from the following course counts toward the mathematics/science requirement:		1
CIVE 2335	Environmental Engineering Chemistry	
1 semester hour from the following course counts toward the mathematics/science requirement:		1
CIVE 3430	Engineering Microbiology and Ecology	

1 semester hour from the following course counts toward the mathematics/science requirement: 1  
 GE 1501 Cornerstone of Engineering 1<sup>1</sup>

### Professional Development

Code	Title	Hours
<b>Professional Development</b>		
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

#### Additional Required Courses

1 semester hour from the following course counts toward the professional development requirement: 1

GE 1501 Cornerstone of Engineering 1<sup>1</sup>

1 semester hour from the following course counts toward the professional development requirement: 1

GE 1502 Cornerstone of Engineering 2<sup>1</sup>

### Writing Requirements

Code	Title	Hours
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

### Integrative Course

Code	Title	Hours
This course is already required above and also fulfills the integrative requirement.		
CIVE 4765	Senior Design Project—Environmental	

### Engineering GPA Requirement

A minimum 2.000 GPA is required in major (CIVE) courses

### Health Sciences Major Requirement

A minimum grade of C or higher is required for all HLTH and PHTH courses

### Program Requirement

133 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

<sup>2</sup> Mathematics/Science Requirement: CHEM 1151, MATH 1341, and PHYS 1151 require a grade of C- or higher

### Plan of Study

#### FOUR YEARS, 1 CO-OP SUMMER 2/FALL

## Health Science and Business Administration, BS

The combined major in health science and business administration provides students at Northeastern with an opportunity to study a curriculum that is synergetic with the growing field of healthcare. This academic combination will provide students with the knowledge and expertise needed to enter a multitude of careers upon graduation. The degree will allow students the unique opportunity to better understand the business side of the healthcare industry in Massachusetts, which is home to some of the best hospitals and medical research companies in the country. The field is compatible with all the undergraduate concentrations in the School of Business and prepares students to enter the workforce after graduation.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Health Science Requirements

Code	Title	Hours
<b>Public Health Core</b>

## Health Science and Communication Studies, BS

The combined Bachelor of Science degree program in health science and communication studies offers an interdisciplinary approach to public health communication. Students combine courses from health sciences and communication studies to learn about health and illness and the important role of communication in shaping the public's understanding of health issues. The interdisciplinary curriculum is enhanced by experiential learning opportunities and is designed to prepare students for challenging careers that involve crafting messages about health,

developing strategies for promoting healthcare services, and specific applications such as disease awareness and prevention.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Communication Studies Major Requirements

Code	Title	Hours

**Health Science and Psychology, BS**

The combined Bachelor of Science degree program in health science and psychology is designed to provide an interdisciplinary approach to public health and psychology. Through interdisciplinary explorations, students have the opportunity to develop knowledge in health promotion and illness prevention by way of understanding people's behaviors, perceptions, and emotions within the contexts of relationships and culture. This highly flexible curriculum is enhanced by experiential learning opportunities and prepares students to practice in interdisciplinary settings and be successful in sustaining and promoting health across populations.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## Health Science and Sociology, BS

The combined Bachelor of Science in Health Science and Sociology integrates social scientific perspectives to the study of health, illness, and healthcare. Students explore basic sociological concepts relevant for the study of health and healthcare, such as social construction and medicalization. Students explore why, for instance, despite having the most expensive healthcare system, the United States ranks comparatively low in life expectancy and health and well-being outcomes. Provides students with an opportunity to explore the ways that societal factors such as race, class, and gender interplay with health, healthcare, and health disparities.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Health Science Requirements

## Linguistics and Speech-Language Pathology and Audiology, BS

The combined major in linguistics and speech-language pathology and audiology provides students with extensive background in the formal structures of human language; the methods and applications of linguistic analyses of language data; the biology, neurology, and physics of the human vocal tract; and the nature of both normal and disordered human speech communication and language development. Students have an opportunity to develop critical thinking, information literacy, and strong oral and written communication skills. While on co-op, students gain clinical experience, including preprofessional training appropriate to pursue a graduate degree in SLPA, related clinical healthcare domains, or education.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Linguistics Requirements

Code	Title	Hours
<b>Linguistics Foundations</b>		
LING 1150	Introduction to Language and Linguistics	4
LING 2350	Linguistic Analysis	4
LING 3412	Language and Culture	4
<b>Linguistic Structure</b>

[physicaltherapy@northeastern.edu](mailto:physicaltherapy@northeastern.edu)

---

The School of Clinical and Rehabilitation Sciences (SoCRS) within the Bouvé College of Health Sciences at Northeastern University brings together the clinical fields of physical therapy (<https://bouve.northeastern.edu/physical-therapy/>), speech-language pathology (<https://bouve.northeastern.edu/csd/>), and physician assistant studies (<https://bouve.northeastern.edu/physician-assistant/>). #Students and fellows in the school are prepared for clinical and research excellence, training with interdisciplinary experts in habilitation and rehabilitation sciences, epidemiology, neuroscience, engineering, physiology, exercise science, clinical medicine, design, diagnostic and therapeutic imaging, and communication. Working at the intersection of rehabilitation, clinical practice, data, and engineering, students and fellows engage in transformative research and experiential learning that prepares them to improve the quality of life and self-care for patients and communities, while promoting and developing innovative approaches to the future of healthcare.

## Communication Sciences and Disorders

The Department of Communication Sciences and Disorders (CSD) offers an undergraduate major (Bachelor of Science in Speech-Language Pathology and Audiology), two combined majors, and three undergraduate minors.

Speech-language pathologists and audiologists are involved with the evaluation, treatment, counseling, and research of human communication and its disorders. They provide clinical services to a full range of individuals with communication delays/differences/disorders, from infants through geriatrics. Speech-language pathologists treat disorders such as developmental language and articulation disorders; voice and resonance problems; stuttering; pediatric and adult swallowing disorders; and language and cognitive impairments due to stroke, head injury, and progressive neurological disease. Audiologists specialize in the prevention, identification, assessment, and rehabilitation of hearing disorders for individuals with congenital and acquired hearing impairments. Both speech-language pathologists and audiologists

require graduate education to practice as certified and licensed clinicians.

## BS in Speech-Language Pathology and Audiology

The Bachelor of Science degree program in speech-language pathology and audiology (SLPA) includes an experiential learning component, a broad-based academic core, and the scientific and clinical courses necessary for understanding normal and disordered communication. The degree offers preprofessional training for individuals who want to pursue graduate education. Alternatively, graduates may be hired as speech-language pathology assistants in a variety of clinical settings or they may pursue other career paths in healthcare and education.

The SLPA curriculum is designed to facilitate critical thinking, information literacy, and oral and written communication skills. In addition to courses in the basic communication sciences, coursework in education, allied health, ethics, multicultural/diversity issues, and psychology is required. The curriculum provides a solid foundation in SLPA, and it is sufficiently flexible to provide students with the opportunity to minor in an area of related interest.

## BS Combined Majors

Two combined majors are available for students to pursue: the Bachelor of Science in Communication Studies and Speech-Language Pathology and Audiology and the Bachelor of Science in Linguistics and Speech-Language Pathology and Audiology.

The combined major in linguistics and speech-language pathology and audiology provides students with extensive background in the formal structures of human language; the methods and applications of linguistic analyses of language data; the biology, neurology, and physics of the human vocal tract; and the nature of both normal and disordered human speech communication and language development. Students have an opportunity to develop critical thinking, information literacy, and strong oral and written communication skills. While on co-op, students gain clinical experience, including preprofessional training appropriate to pursue a graduate degree in SLPA, related clinical healthcare domains, or education.

The combined Bachelor of Science in Communication Studies and Speech-Language Pathology and Audiology offers an interdisciplinary approach to human communication and its disorders. Coursework focuses on the scientific and theoretical frameworks of speech, language, and hearing. Students will also be introduced to the fundamentals of communication theory, and they have an opportunity to acquire the practical skills necessary to thrive in a complex and changing society. The curriculum is enhanced by experiential learning opportunities in a clinical setting that prepare the students for a variety of professional careers.

## Minors

Three minors are available for students to pursue. Two flexible minors allow students from various fields of study to enhance their academics with general courses related to the field of communication sciences, as well as specific courses covering topics such as audiology or speech-language disorders across the life span. A third minor allows students from various fields of study to learn about working with very young children and their families and includes an experiential learning component. Advisors assist students with accommodating their interests in their curriculum plans.

## COMMUNICATION SCIENCES AND DISORDERS MINOR

The Communication Sciences and Disorders (CSD) minor includes courses that offer exposure to a variety of aspects of the CSD field.

Students progress to graduate programs in fields such as applied psychology, linguistics, neuroscience, and education, among others; but the minor does not by itself prepare students for admission to graduate programs in speech-language pathology or audiology. Speech-language pathology and audiology courses are designed to help students develop entry-level competencies that will enable them to function in a preprofessional capacity in educational settings, medical and rehabilitation centers, and private-practice clinics.

The CSD minor consists of one required foundation course taken prior to any core or elective courses, then two core courses and one elective from either the remaining core courses in the list or from a specified set of elective courses that are taught outside of the CSD department. Students may consult with an advisor in the CSD department concerning the current listing of eligible elective courses for the CSD minor.

### **SPEECH-LANGUAGE PATHOLOGY AND AUDIOLOGY MINOR**

The Speech-Language Pathology and Audiology (SLPA) minor seeks to prepare students for admission into a graduate program in SLPA. In particular, students in this minor are on a track that, if supplemented with certain elective choices within their major, would meet all admissions requirements for our department's own Master of Science in Speech-Language Pathology (<http://catalog.northeastern.edu/graduate/health-sciences/clinical-rehabilitation-sciences/speech-language-pathology-ms/>) program.

The SLPA minor consists of one required foundation course taken prior to core courses, then five department-specific SLPA core courses.

Students pursuing this minor are advised to consult early and regularly with their academic advisors in order to ensure a timely completion of the combination of their majors and the SLPA minor requirements.

Students pursuing this minor who plan to apply to graduate school at institutions other than Northeastern are advised to carefully check admissions requirements for those programs.

### **EARLY INTERVENTION MINOR**

The interdisciplinary Early Intervention (EI) minor is designed for students who enjoy working with very young children and their families. Through coursework and practicum experiences, students are prepared to work with infants and toddlers with known disabilities, or those who are at risk for developmental delay, and their families.

The EI minor consists of four required foundation courses and two semesters (150 hours each semester) of supervised practicum experience. Seniors or those in their final year of study are encouraged to enroll. Since this minor includes a practicum component, students pursuing this minor are advised to consult with the program director and submit an application to ensure that all requirements can be met.

## **Bachelor of Science (BS)**

- Speech-Language Pathology and Audiology
- Communication Studies and Speech-Language Pathology and Audiology (p. 171)
- Linguistics and Speech-Language Pathology and Audiology (p. 555)

- Speech-Language Pathology and Audiology (p. 564)
- Early Intervention (p. 563)

## **Physical Therapy, Movement, and Rehabilitation Sciences**

The cornerstone of the Department of Physical Therapy, Movement, and Rehabilitation Sciences is experiential learning aligned with the mission

of Bouvé College of Health Sciences and Northeastern University. The programs within the department enhance and extend students' learning of human movement and rehabilitation through experiential education, interdisciplinary collaborations, interprofessional education, research opportunities, and a variety of global educational experiences. The department is led by a collaborative interdisciplinary body of faculty with research, scholarship, clinical, and teaching expertise across a diverse spectrum. The Department of Physical Therapy, Movement, and Rehabilitation Sciences' research mission is to build the evidence for best practices to maintain and improve the health and well-being of local, national, and global community members. Students have the opportunity to work with faculty to conduct ongoing research in one of the many diverse Department of Physical Therapy, Movement, and Rehabilitation Sciences' labs and centers, including Neuromotor Systems Laboratory, Laboratory for Locomotion Research, ReGameVR Laboratory, Movement Neuroscience Laboratory, Musculoskeletal Epidemiology and Biomechanics Laboratory, Neuroscience Wet Lab, Occupational Biomechanics Laboratory, Teaching and Learning Innovation Lab, and the Center for Cognitive and Brain Health. The Department of Physical Therapy, Movement, and Rehabilitation Sciences graduates are innovative, global leaders who excel in clinical practice, research, human movement, leadership, and community service.

## **Minors**

- Human Movement Science (p. 564)

## **Speech-Language Pathology and Audiology, BS**

The Bachelor of Science degree program in speech-language pathology and audiology includes an experiential learning component, a broad-based academic core, and the scientific and clinical course work necessary for understanding normal and disordered communication. The degree offers preprofessional training for individuals who want to pursue graduate education in speech-language pathology and audiology. Alternatively, graduates may be hired as speech-language pathology assistants in a variety of clinical settings or they may pursue other career paths in healthcare and education.

The speech-language pathology and audiology curriculum is designed to facilitate critical thinking, information literacy, and oral and written communication skills. In addition to courses in the basic communication sciences, courses in education, allied health, computer literacy, ethics, multicultural/diversity issues, and psychology are required. The curriculum provides a solid foundation in speech-language pathology and audiology and basic sciences, and it is sufficiently flexible to provide students with the opportunity to minor in an area of related interest.

Please visit Bouvé College Learning Outcomes (<https://bouve.northeastern.edu/bchs/about/learning-outcomes/>) for the specific student learning outcomes for this program.

## **Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## **University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Speech-Language Pathology and Audiology Major Courses

## Communication Studies and Speech-Language Pathology and Audiology, BS

The combined Bachelor of Science in Communication Studies and Speech-Language Pathology and Audiology offers an interdisciplinary approach to human communication and its disorders. Coursework focuses on the scientific and theoretical frameworks of speech, language, and hearing. Students will also be introduced to the fundamentals of communication theory, and they have an opportunity to acquire the practical skills necessary to thrive in a complex and changing society. The curriculum is enhanced by experiential learning opportunities in a clinical setting that prepare the students for a variety of professional careers.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**First-Year Seminar**

Code	Title	Hours
COMM 1000	Communication Studies at Northeastern	1
or SLPA 1000	College: An Introduction	

**Communication Studies Requirements**

Code	Title	Hours

A general elective or a COMM elective (e.g., COMM 1120) can be taken to fulfill the NUpath Formal/Quantitative Reasoning (FQ) requirement.

### Linguistics and Speech-Language Pathology and Audiology, BS

The combined major in linguistics and speech-language pathology and audiology provides students with extensive background in the formal structures of human language; the methods and applications of linguistic analyses of language data; the biology, neurology, and physics of the human vocal tract; and the nature of both normal and disordered human speech communication and language development. Students have an opportunity to develop critical thinking, information literacy, and strong oral and written communication skills. While on co-op, students gain

clinical experience, including preprofessional training appropriate to pursue a graduate degree in SLPA, related clinical healthcare domains, or education.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### Linguistics Requirements

Code	Title	Hours
<b>Linguistics Foundations</b>

### Communication Sciences and Disorders, Minor

The communication sciences and disorders (CSD) minor consists of one required foundation course taken prior to any core or elective courses, then two core courses and one elective from either the remaining core courses in the list or from a specified set of elective courses that are taught by units other than the CSD department. Students may consult with an advisor in the CSD department concerning the current listing of eligible elective courses for the CSD minor.

#### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

#### Foundation Course

Code	Title	Hours
Complete one of the following:		
SLPA 1101	Introduction to Communication Disorders	4
SLPA 1555	Communication Disorders in Movies	

### Communication Sciences and Disorders Core

Code	Title	Hours
Complete two of the following:		
SLPA 1102	Language Development	6-8
SLPA 1103	Anatomy and Physiology of Speech and Hearing Mechanism	
SLPA 1200	Phonetics	
SLPA 1203	Introduction to Audiology	
SLPA 1205	Speech and Hearing Science	
SLPA 4651	Speech Disorders across the Life Span	
SLPA 5110	Language Disorders across the Life Span	

#### Electives

Code	Title	Hours
Complete at least one of the following. Additional courses may be needed to complete a minimum of 15 semester hours for the minor.		
AMSL 1101	Elementary ASL 1	3-6
CAEP 3480	Counseling Theories and Practice	
COMM 1112	Public Speaking	
COMM 3201	Health Communication	
COMM 3230	Interpersonal Communication	
COMM 2534	Group Communication	
ENTR 2301	Innovation!	
HLTH 1510	Introduction to Healthcare Ethics	
PHTH 2300	Communication Skills for the Health Professions	
PHTH 2301	Communication Skills for the Health Professions—Global	
PSYC 3450	Learning and Motivation	
PSYC 3451	Learning Principles and Behavior Analysis	

#### Minor Credit Requirement

Minimum of 15 semester hours required in the minor

#### GPA Requirement

2.000 GPA required in the minor

### Early Intervention, Minor

The interdisciplinary minor in early intervention (EI) is designed for students who enjoy working with very young children and their families. Through coursework and practicum experiences, students are prepared to work with infants and toddlers with known disabilities, or those who are at risk for developmental delay, and their families.

#### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

#### Required Courses

Code	Title	Hours
CAEP 5150	Early Intervention: Family Systems	3
CAEP 5151	Early Intervention: Infant and Toddler Development, Risk, and Disability	3

SLPA 5152	Early Intervention: Planning and Evaluating Services	3
CAEP 5153	Early Intervention: Assessment and Intervention	3
SLPA 5154	Early Intervention Practicum 1	2
SLPA 5155	Early Intervention Practicum 2	2

### GPA Requirement

2.000 GPA required in the minor

### Speech-Language Pathology and Audiology, Minor

The clinical SLPA minor seeks to prepare students for admission into a graduate program in speech-language pathology or audiology. In particular, students in this minor are on a track that, if supplemented with certain elective choices within their major, would meet all admissions requirements for our department's own MS/SLP (<http://catalog.northeastern.edu/graduate/health-sciences/clinical-rehabilitation-sciences/speech-language-pathology-ms/>) program.

The clinical SLPA minor consists of one required foundation course taken prior to core courses, then five department-specific SLPA core courses.

Students pursuing this minor are advised to consult early and regularly with their academic advisors in order to ensure a timely completion of the combination of their major and the clinical SLPA minor requirements.

Students pursuing this minor who wish to go to graduate school at institutions other than Northeastern are advised to carefully check admissions requirements for those programs.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Foundation Course

Code	Title	Hours
Complete one of the following:		4
SLPA 1101	Introduction to Communication Disorders	
SLPA 1555	Communication Disorders in Movies	

### Speech-Language Pathology and Audiology Core

Code	Title	Hours
SLPA 1102	Language Development	3-4
SLPA 1103	Anatomy and Physiology of Speech and Hearing Mechanism	3-4
SLPA 1200	Phonetics	3-4
SLPA 1203	Introduction to Audiology	3-4
SLPA 1205	Speech and Hearing Science	3-4

### GPA Requirement

2.000 GPA required in the minor

### Human Movement Science, Minor

The Minor in Human Movement Science is open to all majors at the university with the exception of Bouvé Doctor of Physical Therapy students. The minor is designed for students who seek to complement

their current studies with a more detailed understanding of the interplay of human anatomy and kinetic forces of movement specific to their chosen career path. It includes three required courses and one elective course with offerings that can be tailored to a student's interest in ergonomics, sport, kinetic movement, or deeper human anatomy knowledge through cadaveric education. Pursuing a Minor in Human Movement Science will complement students' knowledge in their related fields of science, engineering, and entrepreneurship to provide a baseline understanding of human anatomy, functional demands, and movement analysis as they relate to activities of daily living. To be admitted to the Minor in Human Movement Science, students must be in good academic standing (minimum 2.000 GPA overall).

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Courses

Code	Title	Hours
PT 3400	Human Kinesiology	4
PT 3500	Motor Control of Human Movement	4
BIOL 2217 and BIOL 2218	Integrated Anatomy and Physiology 1 and Lab for BIOL 2217	5

### Electives

Code	Title	Hours
Complete one of the following:		4-5
BIOL 5601	Multidisciplinary Approaches in Motor Control	
BIOL 2219 and BIOL 2220	Integrated Anatomy and Physiology 2 and Lab for BIOL 2219	
EXSC 4500	Exercise Physiology 1	
HLTH 2001	Introductory Skills for Healthcare and Rehabilitation	
PT 1880	Introduction to Sports Medicine	
PT 5410 and PT 5411	Functional Human Neuroanatomy and Lab for PT 5410	
PT 5010 and PT 5011	Human Gross Anatomy and Lab for PT 5010	
PT 3555	Human Pathology and the Influence on Movement	

### GPA Requirement

All coursework must be completed at a minimum grade of C and courses may not be taken Pass/Fail.

### Credit Requirement

A minimum of 17 semester hours is required.

### Sharon L. Harlan, PhD

Professor and Chair  
Department of Health Sciences

617.373.7326  
617.373.2968 (fax)

The School of Community Health and Behavioral Sciences offers students interdisciplinary education and research excellence, drawing on novel health technologies and data literacy to address society's most pressing public health issues.

Students in the school are prepared to be the next generation of innovators and thought leaders in the health professions and public health, empowered to effect real change by leveraging new and emerging technologies and data.

The school is designed to improve individuals, communities, and society through three pillars of excellence:

- Health technology innovation
- Public mental health interventions
- Improvement of social and environmental determinants of health to achieve social justice

## Department of Applied Psychology

The Department of Applied Psychology offers an undergraduate minor in health psychology that is designed for students from a variety of disciplines within Bouvé and across the university who wish to expand and to apply their understanding in key concepts of behavioral science and how they inform and intersect with public health, prevention science, clinical applications, and interdisciplinary and interprofessional care. The department also offers an undergraduate minor in mindfulness studies, which is designed for students who seek to enrich their understanding of mindfulness practice, including its benefits and potential applications. In addition to these minors, the department offers three PlusOne programs to accelerate the advancement of undergraduate students to a master's degree in applied behavior analysis, applied psychology, and school psychology.

### Minors

- Health Psychology (p. 586)
- Mindfulness Studies (p. 589)

## Department of Health Sciences

The Department of Health Sciences in the Bouvé College of Health Sciences at Northeastern University provides a unique, transdisciplinary setting that incorporates instruction, research, and practice and seeks to prepare students for a wide range of career paths. The department offers two bachelor's degrees, a Bachelor of Science in Health Science and a Bachelor of Arts in Public Health and options for combined majors with the D'Amore-McKim School of Business; the College of Arts, Media and Design; the College of Social Sciences and Humanities; the College of Science; the College of Engineering; and the Houry College of Computer Sciences, in addition to minors in exercise science, public health, global health, nutrition, and health research methods. We also offer several graduate degrees: Master of Public Health, Master of Science in Exercise Science, and a combined master in the two fields. We also collaborate with the Houry College of Computer Sciences to offer a Master of

Science in Health Informatics, as well as combined graduate degrees with the School of Pharmacy, the Physician Assistant Program, and the School of Law. At the doctoral level, we offer a PhD in Population Health and, in cooperation with Houry, a PhD in Personal Health Informatics. Finally, we offer a Graduate Certificate in Exercise Science for Clinicians.

Our diverse faculty has expertise in the fields of population health; health disparities; nutrition; social epidemiology; exercise science; medical sociology; public policy; personal health technologies; neurodevelopmental disorders; environmental, occupational, and mental health; among many more. Students have the opportunity to work side by side with faculty in conducting cutting-edge research in these fields. We also have research staff highly skilled in providing unique, specialized dietary assessment services.

In line with Northeastern's commitment to interdisciplinary research and urban engagement, we teach and work closely with many other schools, centers, and departments in the university, including the Institute for Health Equity and Social Justice Research (IHESJR), the Center for Community Health Education Research and Service (CCHERS), the Social Science Environmental Health Research Institute (SSEHRI), and the Center for Health Policy and Healthcare Research (CHPHR), as well as community agencies and neighborhood health centers in the local Boston area and beyond.

## Bachelor of Arts (BA)

- Public Health (p. 565)

## Bachelor of Science (BS)

- Health Science (p. 569)

## Combined Majors

- Data Science and Health Science (p. 415)
- Environmental Engineering and Health Science (p. 480)
- Health Science and Business Administration (p. 281)
- Health Science and Communication Studies (p. 172)
- Health Science and Psychology (p. 550)
- Health Science and Sociology (p. 553)

## Minors

- Exercise Science (p. 585)
- Global Health (p. 585)
- Health, Humanities, and Society (p. 539)
- Health Research Methods (p. 587)
- Healthcare System Operations (p. 535)
- Nutrition (p. 589)
- Public Health (p. 589)

## Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. )

### Public Health, BA

The public health major offers students a strong foundation and experiential education in the core components of public health, such as the social determinants of health, biostatistics and research methods, health communication and health education, and program planning. The public health core is supported with social science and the biology of health and disease to provide breadth and depth for students to discover their passion and desired discipline. The major positions students well

with a broad range of knowledge and skills to pursue graduate and professions such as:

- Community health
- Epidemiology
- Health administration
- Health communication and education
- Law
- Public policy
- Social work

Please visit Bouvé College Learning Outcomes (<https://bouve.northeastern.edu/learning-outcomes/>) for the specific student learning outcomes for this program.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Public Health Core

Code	Title	Hours
PHTH 1260 or PHTH 1261	The American Healthcare System Comparative Healthcare Systems	4
PHTH 2210	Foundations of Biostatistics	4
PHTH 2300 or PHTH 2301	Communication Skills for the Health Professions Communication Skills for the Health Professions—Global	4
PHTH 2350 or PHTH 2351	Community and Public Health Community and Public Health - Global	4
PHTH 2515	Healthcare Policy and Administration	4
PHTH 4120	Global Perspectives on Discrimination and Health	4
PHTH 4202	Principles of Epidemiology in Medicine and Public Health	4
PHTH 4540	Health Education and Program Planning	4

## Science Requirement

Code	Title	Hours
<b>Psychology</b>		
PSYC 1101	Foundations of Psychology	4
<b>Biology</b>		
Complete one of the following options:		8-10

### Option 1

BIOL 1143	Biology and Society
BIOL 1147	The Human Organism

### Option 2

BIOL 1111 and BIOL 1112	General Biology 1 and Lab for BIOL 1111
BIOL 1113 and BIOL 1114	General Biology 2 and Lab for BIOL 1113

## Social Science Requirement

Code	Title	Hours
Complete three of the following introductory courses:		
ANTH 1101	Peoples and Cultures	12
COMM 1225	Communication Theory	
ECON 1115 and ECON 1125	Principles of Macroeconomics and Recitation for ECON 1115	
ECON 1116 and ECON 1126	Principles of Microeconomics and Recitation for ECON 1116	
ENGL/HIST 1300	Introduction to Health and Humanities	
HUSV 1101	Social Change and Human Services

PHTH 5232	Evaluating Healthcare Quality
PHTH 5234	Economic Perspectives on Health Policy

**Capstone Requirements**

Code	Title	Hours
------	-------	-------

Complete one of the following options: 4-8

*Health Science Capstone*

Complete 4 credits from the following:

HSCI 4700	Health Science Capstone Introduction
HSCI 4720	Health Science Capstone—Service
or HSCI 4730	Health Science Capstone—Research
or HSCI 4740	Health Science Capstone Seminar

*Honors Project*

Complete 8 credits from the following (must meet GPA requirement):

HSCI 4970 and HSCI 4971	Junior/Senior Honors Project 1 and Junior/Senior Honors Project 2
----------------------------	--

**Other Major Requirements**

Code	Title	Hours
HSCI 1000	College: An Introduction	1
HSCI 2000	Professional Development for Bouvé Co-op	1
ENGW 1111	First-Year Writing	4
ENGW 3306	Advanced Writing in the Health Professions	4

**General Electives**

Code	Title	Hours
------	-------	-------

Complete at least 10 general electives (Honors Capstone HSCI 4970 will use 1 elective, if chosen). 40

**Public Health Major Requirement**

A grade of C or higher is required for all BIOL, HSCI, and PHTH courses.

**Academic Policies and Procedures**

Please visit Bouvé College of Health Sciences Undergraduate page for academic policies and procedures, including Academic Appeals.

**Program Requirements**

Minimum of 128 semester hours required

**Plan of Study****Sample Four Years, Two Co-ops (Option 1 of Science Requirement)**

Year 1

## Health Science, BS

The health science major offers students a solid academic and experiential foundation that positions them well to pursue graduate and professional school training in the following programs:

- Medicine
- Dentistry
- Veterinary medicine
- Public health
- Physician assistant studies
- Nurse practitioner
- Pharmacy
- Physical therapy
- Social work
- Speech-language pathology

The health science major is also designed for students who are seeking a strong foundation for a career in health administration and in community-based health promotion and public health.

Please visit Bouvé College Learning Outcomes (<https://bouve.northeastern.edu/learning-outcomes/>) for the specific student learning outcomes for this program.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Public Health Core

Code	Title	Hours
<b>YEAR 1</b>		
PHTH 1260 or PHTH 1261	The American Healthcare System Comparative Healthcare Systems	4
<b>YEARS 2 and 3</b>		
PHTH 2210	Foundations of Biostatistics	4
PHTH 2300 or PHTH 2301	Communication Skills for the Health Professions Communication Skills for the Health Professions—Global	4
PHTH 2350 or PHTH 2351	Community and Public Health Community and Public Health - Global	4

PHTH 2515	Healthcare Policy and Administration	4
PHTH 4202	Principles of Epidemiology in Medicine and Public Health	4
PHTH 4540	Health Education and Program Planning	4
<b>FINAL YEAR</b>		
PHTH 4120	Global Perspectives on Discrimination and Health	4

### Health Science Courses

Code	Title	Hours
<b>YEAR 1</b>		
HSCI 1000	College: An Introduction	1
<b>YEAR 2 OR 3</b>		
HSCI 2000	Professional Development for Bouvé Co-op	1
<b>FINAL YEAR</b>		
Complete one of the following:		4-8
HSCI 4720	Health Science Capstone—Service (Prerequisite course HSCI 4700)	
HSCI 4730	Health Science Capstone—Research (Prerequisite course HSCI 4700)	
HSCI 4971	Junior/Senior Honors Project 2 (Prerequisite course HSCI 4970, for a total of 8 cr)	
HSCI 4740	Health Science Capstone Seminar (Prerequisite course HSCI 4700)	

### Selectives

Code	Title	Hours
Complete at least three courses from the groups listed below with at least two in one category. At least one of the courses must be at 2000 level or higher. Students may complete additional courses to fulfill a minor, such as global health, nutrition, exercise science, and health research methods.		9-13

<b>Society and Health</b>		
ANTH 2365	Sport, Culture, and Society	
ANTH 3441	Medical Anthropology	
CRIM 3040	Psychology of Crime	
HLTH 5280	The (in)Visibility of (dis)Ability in Society	
LPSC 2302	Global Human Rights: A Social and Economic Perspective	
PHTH 1270 or AFRS 1270	Introduction to Global Health Introduction to Global Health	
PHTH 2414	Environmental Health	
PHTH 5214	Environmental Health	
PHTH 5222	Health Advocacy	
PHTH 5230	Global Health

PHTH 5232	Evaluating Healthcare Quality
PHTH 5234	Economic Perspectives on Health Policy
SOCL 3241	Violence and Society

**Nutrition and Wellness**

CAEP 1280	Introduction to Mindfulness
CAEP 1290	Personal Behavior Change
CAEP 2012	Health Psychology: An Introduction to Concepts, Theories, and Research
CAEP 2101	Behavioral Assessment and Treatment of Health Problems in the 21st Century
COMM 3201	Health Communication
EXSC 1120	Introduction to Exercise, Fitness, and Health
EXSC 4500 and EXSC 4501	Exercise Physiology 1 and Lab for EXSC 4500
EXSC 5200	Cardiopulmonary Physiology
EXSC 5220	Advanced Exercise Physiology
HSCI 1105	Human Nutrition
HSCI 1106	Contemporary Issues in Nutrition
HSCI 2350	Advanced Nutrition in Health and Disease
HSCI 2500	Public Health Nutrition in the Community

**Digital Health**

CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500
DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum
HINF 5101	Introduction to Health Informatics and Health Information Systems
HINF 5200	Theoretical Foundations in Personal Health Informatics
HINF 5300	Personal Health Interface Design and Development
IS 2000	Principles of Information Science

**Research**

PHTH 3250	Fundamentals of Qualitative Research
PHTH 5202	Introduction to Epidemiology

**Supporting Courses**

Code	Title	Hours
<b>YEAR 1</b>		
BIOL 1111 and BIOL 1112	General Biology 1 and Lab for BIOL 1111	5
BIOL 1113 and BIOL 1114	General Biology 2 and Lab for BIOL 1113	5

CHEM 1161 and CHEM 1162 and CHEM 1163	General Chemistry for Science Majors and Lab for CHEM 1161 and Recitation for CHEM 1161	5
MATH 1241	Calculus 1	4
PSYC 1101	Foundations of Psychology	4
<b>YEAR 2 OR 3</b>		
PHIL 1165 or HLTH 2100	Moral and Social Problems in Healthcare Interprofessional Ethics for Individual and Population Health	4

**Writing Requirements**

Code	Title	Hours
<b>YEAR 1</b>		
ENGW 1111	First-Year Writing	4
<b>YEAR 2 OR 3</b>		
ENGW 3306	Advanced Writing in the Health Professions	4

**Electives**

Code	Title	Hours
Complete a minimum of 41 credits of general electives. Total elective semester hours required to meet degree completion requirement will depend on student's choice of selectives above.		41

**Health Sciences Major Requirement**

A grade of C or higher is required for all BIOL, CHEM, HLTH, HSCI, MATH, and PHTH courses.

**Academic Policies and Procedures**

Please visit Bouvé College of Health Sciences Undergraduate page (p. 537) for academic policies and procedures, including Academic Appeals (p. 26).

**Program Requirement**

132 total semester hours required

**Plan of Study**

In addition to the required courses for the Bachelor of Science in Health Science, students who are interested in clinical graduate school programs are encouraged to enroll in the following courses, utilizing available elective slots:

**Premed Track**

Code	Title	Hours
SOCL 1101	Introduction to Sociology	4
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
PHYS 1145 and PHYS 1146	Physics for Life Sciences 1 and Lab for PHYS 1145	5
PHYS 1147 and PHYS 1148	Physics for Life Sciences 2 and Lab for PHYS 1147	5
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5
CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5
BIOL 3611 and BIOL 3612	Biochemistry and Lab for BIOL 3611	5

## Pre-PA Track

Each Physician assistant (PA) program is unique, and students must research prerequisite courses for the programs to which they plan to apply. Common courses students preparing for PA school take as their electives often include:

Code	Title	Hours
BIOL 3421 and BIOL 3422	Microbiology and Lab for BIOL 3421	5
BIOL 2217 and BIOL 2218	Integrated Anatomy and Physiology 1 and Lab for BIOL 2217	5
BIOL 2219 and BIOL 2220	Integrated Anatomy and Physiology 2 and Lab for BIOL 2219	5
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5
CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5
PSYC 3404	Developmental Psychology	4

## Pre-Pharmacy Track

Code	Title	Hours
BIOL 2217 and BIOL 2218	Integrated Anatomy and Physiology 1 and Lab for BIOL 2217	5
BIOL 2219 and BIOL 2220	Integrated Anatomy and Physiology 2 and Lab for BIOL 2219	5
BIOL 3611 and BIOL 3612	Biochemistry and Lab for BIOL 3611	5
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5
CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5
PHYS 1145 and PHYS 1146	Physics for Life Sciences 1 and Lab for PHYS 1145	5

## Pre-Physical Therapy Track\*

Code	Title	Hours
BIOL 2217 and BIOL 2218	Integrated Anatomy and Physiology 1 and Lab for BIOL 2217	5
BIOL 2219 and BIOL 2220	Integrated Anatomy and Physiology 2 and Lab for BIOL 2219	5
CHEM—take one additional chemistry course with lab		5
EXSC 4500	Exercise Physiology 1	4
PHYS 1145 and PHYS 1146	Physics for Life Sciences 1 and Lab for PHYS 1145	5
PHYS 1147 and PHYS 1148	Physics for Life Sciences 2 and Lab for PHYS 1147	5
PSYC 3404	Developmental Psychology	4

**\*There is a priority application process for current Northeastern students who meet the required criteria. Visit the Doctor of Physical Therapy page (<https://bouve.northeastern.edu/physical-therapy/programs/pbdpt/>) for more information.**

## Five Years, Two Co-ops in Summer 2/Fall

## Data Science and Health Science, BS

The health science and computer science combined major offers a solid academic and experiential foundation integrating studies in health administration, computer science, mathematics, and statistics. This program reflects the impact of data in modern healthcare and prepares students for success in careers in health administration, community-based health promotion, public health, and big data analysis.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Data Science Requirements

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Programming Sequence Pathways</b>		
Choose one of the two options.		12
<i>Computer Science Option</i>		
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	
<i>Data Science Option</i>		
DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
DS 2500 and DS 2501	Intermediate Programming with Data and Lab for DS 2500	
DS 3500	Advanced Programming with Data	
<b>Computer Science Required Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 3200	Database Design	4
<b>Information Science Requirement</b>		
IS 4300	Human Computer Interaction	4
<b>Data Science Foundations</b>		
DS 3000	Foundations of Data Science	4
DS 4200	Information Presentation and Visualization	4
DS 4300	Large-Scale Information Storage and Retrieval	4
DS 4400	Machine Learning and Data Mining 1	4

## Supporting Courses for Data Science

Code	Title	Hours
MATH 1341 or MATH 1241	Calculus 1 for Science and Engineering Calculus 1	4

## Data Science Writing Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111 or ENGW 1102	First-Year Writing First-Year Writing for Multilingual Writers	4
<b>Advanced Writing in the Disciplines</b>		
ENGW 3302 or ENGW 3315	Advanced Writing in the Technical Professions Interdisciplinary Advanced Writing in the Disciplines	4

## Health Science Requirements

Code	Title	Hours
<b>Public Health Core</b>		
PHTH 1260 or PHTH 1261	The American Healthcare System Comparative Healthcare Systems	4
PHTH 2300 or PHTH 2301	Communication Skills for the Health Professions Communication Skills for the Health Professions—Global	4
PHTH 2350 or PHTH 2351	Community and Public Health Community and Public Health - Global	4
PHTH 2515	Healthcare Policy and Administration	4
PHTH 4120	Global Perspectives on Discrimination and Health	4
PHTH 4540	Health Education and Program Planning	4

## Supporting Courses for Health Science

Code	Title	Hours
<b>Research Methods</b>		
Complete one of the following:		4
HLTH 5450 or PHTH 4202	Healthcare Research Principles of Epidemiology in Medicine and Public Health	
IS 4800	Empirical Research Methods	
<b>Statistics</b>		
Complete one of the following:		4
PHTH 2210	Foundations of Biostatistics	
PSYC 2320	Statistics in Psychological Research	
ECON 2350	Statistics	
ENVR 2500	Biostatistics	
MATH 3081	Probability and Statistics	
<b>Philosophy</b>		
Complete one of the following:		4
PHIL 1145	Technology and Human Values	
PHIL 1165	Moral and Social Problems in Healthcare	
<b>Life Sciences Core</b>		
BIOL 1111 and BIOL 1112	General Biology 1 and Lab for BIOL 1111	5
BIOL 1113 and BIOL 1114	General Biology 2 and Lab for BIOL 1113	5

CHEM 1161 and CHEM 1162 and CHEM 1163	General Chemistry for Science Majors and Lab for CHEM 1161 and Recitation for CHEM 1161	5
PSYC 1101	Foundations of Psychology	4

### Integrative Requirement

Code	Title	Hours
------	-------	-------

#### Upper-Division Elective

Complete four credits from the following:	4
---	---

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

PHTH 4000 or higher

HSCI 4000 or higher

### Environmental Engineering and Health Science, BSEnVE

This intercollege combined major is designed for students who would like to explore their interest in the health sciences while earning the benefit of a Bachelor of Science degree in environmental engineering. The combined major reflects the respective departmental thrusts in environmental health and sustainable resource engineering to create awareness about the complex relationship between the environment and human health, prepare professionals in this growing area capable of providing engineering solutions to current and emerging topics related to environmental engineering and health sciences, and maintain healthy environmental systems by applying and developing techniques to reduce exposure to health hazards. This program combines the content of two majors to allow students to learn the breadth and depth of the convergence between public health and environmental engineering.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses

where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Engineering Requirement

Code	Title	Hours
<b>Required Engineering</b>		
CIVE 2221 and CIVE 2222	Statics and Solid Mechanics and Recitation for CIVE 2221	4
CIVE 2260 and CIVE 2261	Materials for the Built Environment and Lab for CIVE 2260	5
CIVE 2331	Fluid Mechanics and Hydraulics	4
CIVE 2334	Environmental Engineering: Principles, Technology, and Sustainability	4
CIVE 3435	Environmental Pollution Fate and Transport	4
CIVE 4534 and CIVE 4535	Water Treatment Systems Design and Lab for CIVE 4534	4
CIVE 4765	Senior Design Project—Environmental	5
CIVE 5300 and CIVE 5301	Environmental Sampling and Analysis and Lab for CIVE 5300	4
GE 3300	Energy Systems: Science, Technology, and Sustainability	4

#### Supplemental Credit

1 semester hour from the following course counts toward the engineering requirement:		1
CIVE 3464	Probability and Engineering Economy for Civil Engineering	
3 semester hours from the following course count toward the engineering requirement:		3
CIVE 2335	Environmental Engineering Chemistry	
3 semester hours from the following course count toward the engineering requirement:		3
CIVE 3430	Engineering Microbiology and Ecology	
2 semester hours from the following course count toward the engineering requirement:		2
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
3 semester hours from the following course count toward the engineering requirement:		3
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	

### Health Sciences Major Requirement

Code	Title	Hours
HLTH 5450	Healthcare Research (Principles of Epidemiology in Medicine and Public Health)	4
or PHTH 4202	Principles of Epidemiology in Medicine and Public Health	
PHTH 1260 or PHTH 1261	The American Healthcare System Comparative Healthcare Systems	4

PHTH 2210	Foundations of Biostatistics	4
PHTH 2350 or PHTH 2351	Community and Public Health - Global	4
PHTH 2414	Environmental Health	4
PHTH 2515	Healthcare Policy and Administration	4
PHTH 4120	Global Perspectives on Discrimination and Health	4
PHTH 4540	Health Education and Program Planning	4
PHTH 5214	Environmental Health	3

### Supporting Courses: Mathematics/Science

Complete all Mathematics/Science courses with a minimum of 30 semester hours.<sup>2</sup>

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5

#### Science Elective (Earth)

Complete one of the following:		4-5
ENVR 1120	Oceans and Coasts	
ENVR 1200	Dynamic Earth	
ENVR 2200	Earth's Changing Cycles	
ENVR 3125	Global Oceanic Change	
ENVR 3200	Water Resources	
ENVR 3600	Oceanography	
ENVR 5201	Geologic Field Seminar	

#### Supplemental Credit

3 semester hours from the following course count toward the mathematics/science requirement:		3
CIVE 3464	Probability and Engineering Economy for Civil Engineering	
1 semester hour from the following course counts toward the mathematics/science requirement:		1
CIVE 2335	Environmental Engineering Chemistry	
1 semester hour from the following course counts toward the mathematics/science requirement:		1
CIVE 3430	Engineering Microbiology and Ecology	
1 semester hour from the following course counts toward the mathematics/science requirement:		1
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	

### Professional Development

Code	Title	Hours
<b>Professional Development</b>		
GE 1000	Introduction to the Study of Engineering	1

ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1
<b>Additional Required Courses</b>		
1 semester hour from the following course counts toward the professional development requirement:		1
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
1 semester hour from the following course counts toward the professional development requirement:		1
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	

## Writing Requirements

Code	Title	Hours
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

## Integrative Course

Code	Title	Hours
This course is already required above and also fulfills the integrative requirement.		
CIVE 4765	Senior Design Project—Environmental	

## Engineering GPA Requirement

A minimum 2.000 GPA is required in major (CIVE) courses

## Health Sciences Major Requirement

A minimum grade of C or higher is required for all HLTH and PHTH courses

## Program Requirement

133 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

<sup>2</sup> Mathematics/Science Requirement: CHEM 1151, MATH 1341, and PHYS 1151 require a grade of C- or higher

## Plan of Study

## Health Science and Business Administration, BS

The combined major in health science and business administration provides students at Northeastern with an opportunity to study a curriculum that is synergistic with the growing field of healthcare. This academic combination will provide students with the knowledge and expertise needed to enter a multitude of careers upon graduation. The degree will allow students the unique opportunity to better understand the business side of the healthcare industry in Massachusetts, which

is home to some of the best hospitals and medical research companies in the country. The field is compatible with all the undergraduate concentrations in the School of Business and prepares students to enter the workforce after graduation.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Health Science Requirements

Code	Title	Hours
<b>Public Health Core</b>		
PHTH 1260 or PHTH 1261	The American Healthcare System Comparative Healthcare Systems	4
PHTH 2300 or PHTH 2301	Communication Skills for the Health Professions Communication Skills for the Health Professions—Global	4

## Health Science and Communication Studies, BS

The combined Bachelor of Science degree program in health science and communication studies offers an interdisciplinary approach to public health communication. Students combine courses from health sciences and communication studies to learn about health and illness and the important role of communication in shaping the public's understanding of health issues. The interdisciplinary curriculum is enhanced by experiential learning opportunities and is designed to prepare students for challenging careers that involve crafting messages about health, developing strategies for promoting healthcare services, and specific applications such as disease awareness and prevention.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Communication Studies Major Requirements

Code	Title	Hours
COMM 1101	Introduction to Communication Studies	4
COMM 1112 or COMM 2301	Public Speaking Communication Research Methods	4

Code	Title	Hours
<b>Foundation Course</b>		

Complete one of the following: 4

COMM 1210	Persuasion and Rhetoric	
COMM 1225	Communication Theory	
COMM 1231	Principles of Organizational Communication	
COMM 1255	Communication in a Digital Age	

#### Cluster Course

Complete one of the following: 4

COMM 1131	Sex, Relationships, and Communication	
COMM 2303	Global and Intercultural Communication	
COMM 2304	Communication and Gender	
COMM 2501	Communication Law	
COMM 2551	Free Speech in Cyberspace	

#### Writing-Intensive

Complete two of the following: 8

COMM 3200	Mobile Communication	
COMM 3201	Health Communication	
COMM 3230	Interpersonal Communication	
COMM 3304	Communication and Inclusion	
COMM 3320	Political Communication	
COMM 3414	Great Speakers and Speeches	
COMM 3415	Communication Criticism	
COMM 3445	Public Relations Principles	
COMM 3500	Environmental Issues, Communication, and the Media

**Health Science and Psychology, BS**

The combined Bachelor of Science degree program in health science and psychology is designed to provide an interdisciplinary approach to public health and psychology. Through interdisciplinary explorations, students have the opportunity to develop knowledge in health promotion and illness prevention by way of understanding people's behaviors, perceptions, and emotions within the contexts of relationships and culture. This highly flexible curriculum is enhanced by experiential learning opportunities and prepares students to practice in interdisciplinary settings and be successful in sustaining and promoting health across populations.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Health Science and Sociology, BS

The combined Bachelor of Science in Health Science and Sociology integrates social scientific perspectives to the study of health, illness, and healthcare. Students explore basic sociological concepts relevant for the study of health and healthcare, such as social construction and medicalization. Students explore why, for instance, despite having the most expensive healthcare system, the United States ranks comparatively low in life expectancy and health and well-being outcomes. Provides students with an opportunity to explore the ways that societal factors such as race, class, and gender interplay with health, healthcare, and health disparities.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Exercise Science, Minor

The minor in exercise science is for undergraduate students from any discipline wishing to expand their understanding in this area. Exercise science is a discipline that examines the short- and long-term responses to exercise and benefits of exercise training for healthy persons, as well as persons with chronic diseases such as heart disease, pulmonary diseases, diabetes, and obesity. Through this minor, undergraduate students have an opportunity to broaden their understanding of exercise and physical activity in health promotion, disease prevention, and interventions. Students who elect a minor in exercise science may then apply to the Master of Science in Exercise Science upon graduation.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Exercise Science Requirements

A minimum grade of C is required in all courses taken toward the minor.

### Required Courses

Code	Title	Hours
BIOL 2217 and BIOL 2218	Integrated Anatomy and Physiology 1 and Lab for BIOL 2217	5
BIOL 2219 and BIOL 2220	Integrated Anatomy and Physiology 2 and Lab for BIOL 2219	5
EXSC 4500 and EXSC 4501	Exercise Physiology 1 and Lab for EXSC 4500	5
EXSC 5200	Cardiopulmonary Physiology	3
EXSC 5220	Advanced Exercise Physiology	3

### GPA Requirement

2.000 GPA required in the minor

### Global Health, Minor

The area of global health has become a critical field of study across and within diverse disciplines, because of the cross-border and cross-national implications of health-related risks for national security, commerce, transportation, and healthcare delivery itself. In collaboration with the College of Social Sciences and Humanities, the minor in global health is designed to provide undergraduate students an opportunity to explore and discuss the implications with an interdisciplinary lens. The minor is comprised of five courses: one foundation and one core course, three electives, and a global health experience to be approved by the global health minor advisor.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Foundation Course

Code	Title	Hours
AFRS 1270 or PHTH 1270	Introduction to Global Health	4

### Core Course

Complete one of the following. If additional courses are taken, they may be used as electives.

Code	Title	Hours
AFRS 3424	Epidemiology of Pandemic Diseases and Health Disparities in the African Diaspora	3-4
PHTH 4120	Global Perspectives on Discrimination and Health	
PHTH 5230	Global Health	

## Elective Courses

Code	Title	Hours
Complete three courses from the following areas. Only two courses from any one area may count toward the minor electives. No more than two required courses in the student's major may count toward the minor electives. At least one of the minor electives must be at the 3000-level or above.		

### Area 1: Community and Public Health

AFRS 4939	Community Health, Culture, and Development in Kenya <sup>(Dialogue Only)</sup>	9-12
CAEP 2010	Counseling and Applied Educational Psychology in a Global Context <sup>(Dialogue only)</sup>	
ENVR 1110	Global Climate Change	
PHTH 1261	Comparative Healthcare Systems <sup>(Dialogue only)</sup>	
PHTH 2301	Communication Skills for the Health Professions—Global <sup>(Dialogue Only)</sup>	
PHTH 2350 or PHTH 2351 or NRSR 4604	Community and Public Health Community and Public Health - Global Public Health Community Nursing	
PHTH 4202 or PHTH 5202	Principles of Epidemiology in Medicine and Public Health Introduction to Epidemiology	
PHTH 4540	Health Education and Program Planning	

### Area 2: Biology of Health and Disease

BIOL 1141	Microbes and Society
BIOL 1143	Biology and Society
BIOL 2327	Human Parasitology
EEMB 3466	Disease Ecology

### Area 3: Society and Cultural Health / Area Studies

AFRS 2900	Swahili, Culture, and Politics in Kenya <sup>(Dialogue only)</sup>
ANTH 4350	Ethnography of Southeast Asia
ANTH 4510	Anthropology of Africa
ANTH 4515	Culture and Politics in Modern India
ECON 1230	Healthcare and Medical Economics
HIST 2233	The History of Medicine in North America
LACS 1220	Latino, Latin American, and Caribbean Studies
PHIL 1165	Moral and Social Problems in Healthcare

### Area 4: Globalization and Development

CRIM 1400	Human Trafficking
ECON 1291	Development Economics
ECON 3404	International Food Policy
ECON 3413	Health Economics and Healthcare Policy
ECON 3416	Behavioral Economics
ECON 5292	Gender and Development Economics
HLTH 1510 or HLTH 2100	Introduction to Healthcare Ethics Interprofessional Ethics for Individual and Population Health

HUSV 4945	Leadership and International Program Development <sup>(Dialogue only)</sup>
INTL 1101	Globalization and International Affairs
LPSC 2302	Global Human Rights: A Social and Economic Perspective
POLS 1160	International Relations

## Global Health Experience

Complete a global health experience that has been approved by the global health minor adviser.

## Recommended

Competency in another language other than English is recommended.

## Completion of the Minor

All coursework must be completed at a minimum grade of B and courses may not be taken Pass/Fail.

Complete a minimum of 16 semester hours.

3.000 GPA required in the minor.

## Health Psychology, Minor

The objective of the minor in health psychology is to provide students with knowledge regarding the relationship between psychological and behavioral processes and health and illness. Distinct from other specialty areas in psychology, health psychology focuses on how biology, psychology, behavior, and social factors influence health and illness.

This minor seeks to benefit students by highlighting the unique features of this specialty area and help students understand how to apply this knowledge to the provision of health services and various career paths relevant to health psychology, should they choose to pursue careers in professional psychology focused on the promotion of health. The minor in health psychology is designed for undergraduate students from a variety of disciplines within Bouvé and across the university who wish to expand and to apply their understanding in key concepts of behavioral science and how they inform and intersect with public health, prevention science, clinical applications, and interdisciplinary and interprofessional care.

The minor is comprised of five courses. It requires two foundational courses, one that provides an introduction to the role of psychology in health, illness, and healthcare—Health Psychology: An Introduction to Concepts, Theories, and Research (CAEP 2012)—and one that focuses on the application of principles of behavior analysis to address common health problems, such as obesity, addiction, and adherence to medical procedures—Behavioral Assessment and Treatment of Health Problems in the 21st Century (CAEP 2101).

These courses instruct students on basic, foundational principles of mental/behavioral health and the role of psychology in overall health and well-being in applied settings. Students may choose three other electives based on their specific interests.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

## Required Courses

Code	Title	Hours
CAEP 2012	Health Psychology: An Introduction to Concepts, Theories, and Research	4
CAEP 2101	Behavioral Assessment and Treatment of Health Problems in the 21st Century	4

## Elective Courses

Code	Title	Hours
Complete any three of the following:		12
CAEP 2105	College Student Mental Health	
CAEP 2106	History and Systems of Psychology	
CAEP 2107	Introduction to School Psychology	
CAEP 3899	Relationships in College	
CAEP 4525	Introduction to Professional Psychology	
CAEP 5150	Early Intervention: Family Systems	
CAEP 5151	Early Intervention: Infant and Toddler Development, Risk, and Disability	
HLTH 5002	Mindfulness: Theory and Practice	
HUSV 2800	Sexual Orientation and Gender Expression	
HUSV 3520	Child Intervention and Treatment	
PSYC 1101	Foundations of Psychology	
PSYC 3404	Developmental Psychology	

## GPA Requirement

2.000 GPA required in the minor

### Health Research Methods, Minor

The health research methods minor is for undergraduate students from any major in any college at the university who have an interest in developing health-research-related skills. This minor creates an opportunity for students to develop marketable, applied skills and seeks to benefit students pursuing positions within research groups, as well as students pursuing advanced degrees.

**Admissions requirements:** Approval of the student's unit or college advisor and approval of the health research methods minor advisor are required for admission into the minor. Applicants are required to have an overall grade-point average of 3.000 or higher.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Up to 8 credits of completed coursework from the student's major program of study may be applied to fulfillment of requirements of this minor.

## Required Courses

Code	Title	Hours
PHTH 3210	Using Data in Health Research	2
PHTH 3250	Fundamentals of Qualitative Research	4
PHTH 4202	Principles of Epidemiology in Medicine and Public Health	3-4
or PHMD 3450	Research Methodology and Biostatistics	

or HLTH 5450	Healthcare Research	
PHTH 2949	Research Ethics Training	0
Complete one of the following (PHTH 2210 is recommended):		3-4
ECON 2350	Statistics	
ENVR 2500	Biostatistics	
MATH 2280	Statistics and Software	
MATH 3081	Probability and Statistics	
MGSC 2301	Business Statistics	
NRSG 5120	Statistics for Health Science	
PHMD 3450	Research Methodology and Biostatistics	
PHTH 2210	Foundations of Biostatistics	
POLS 2400	Quantitative Techniques	
PSYC 2320	Statistics in Psychological Research	

## Elective Courses

Code	Title	Hours
Complete 6–8 semester hours from the following:		6-8
ANTH 3410	Ethnographic Field Experience	
ECON 2560	Applied Econometrics	
HLTH 3001	The Research Process	
HLTH 4992	Directed Study	
or HLTH 4991	Research	
IS 4800	Empirical Research Methods	
PHMD 5223	Evidence-Based Medicine	
PHSC 2400	Research Ethics for Beginning Health Scientists	
PHTH 5320	Grant Writing in Public Health	
PHTH 5330	Using Publicly Available Data in Public Health	
PHTH 5340	Writing for Peer-Reviewed Journals in Public Health	
PHTH 5350	Using SAS in Public Health Research	

## Grade Requirement

Courses must be completed with a grade of C or better. Courses may not be taken pass/fail for fulfillment of the minor.

### Health, Humanities, and Society, Minor

The health, humanities, and society minor is designed for students who would like to learn how to think capaciously and creatively about health using the rigorous, precise, and flexible skills trained by the social sciences and the humanities. The social sciences teach students to think about the social, economic, and political factors that structure health conditions and outcomes in particular societies, while the humanities train students to navigate the complexities of interpersonal interaction and their ethical implications, to relate the micro to the macro and texts to contexts, to historicize encounters, to communicate accurately and effectively across a variety of media, and to engage in creative analytical thinking about healthcare. The landscape of healthcare is quickly changing, and this training will equip students well not only for the diverse forms of health work that exist today, but for as yet unimaginable varieties of health-related work in the future.

This minor is structured around the particular competencies that the social sciences and humanities train. Those competencies are narrative and historical perspective, critical attention and observation, ethics

and judgment, performance and creativity, and social and structural proficiency. Rather than adopting the more traditional approach of connecting particular skills to particular disciplines (say, narrative to literature and observation to art history), this minor builds from discipline-specific health knowledge while training students to think across disciplines. Thus, it will not be unusual for students to find a single course addressing multiple competencies or to take courses in different disciplines that address the same competency from distinct but complementary perspectives.

This minor is housed in the Humanities Center of the College of Social Sciences and Humanities in partnership with the Bouvé College of Health Sciences.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Courses

No more than two courses, in addition to the introductory course, may be taken under the 2000 level.

Code	Title	Hours
<b>Introductory Course</b>		
INSH 1300	Introduction to Health and Humanities	4
<b>Humanities Requirement</b>		
Complete two of the following:		8
ENGL 2770	Writing to Heal	
ENGL 3140	19th-Century Literatures	
ENGL 3700	Narrative Medicine	
ENGL 4710	Capstone Seminar	
PHIL 1165	Moral and Social Problems in Healthcare	
PHIL 1271	Sex in Judaism, Christianity, and Islam	
PHIL 1295	Religious Perspectives on Health and Healing	
WMNS 1225	Gender, Race, and Medicine	
<b>Social Sciences Requirement</b>		
Complete two of the following:		8
AFRS 3424	Epidemiology of Pandemic Diseases and Health Disparities in the African Diaspora	
AFRS 4939	Community Health, Culture, and Development in Kenya	
ANTH 4580	Special Topics in Anthropology	
ECON 1230	Healthcare and Medical Economics	
HLTH 5280	The (in)Visibility of (dis)Ability in Society	
PHTH 1270	Introduction to Global Health	
PHTH 2300	Communication Skills for the Health Professions	
or PHTH 2301	Communication Skills for the Health Professions—Global	
PHTH 4120	Global Perspectives on Discrimination and Health	
PHTH 5202	Introduction to Epidemiology	
PHTH 5234	Economic Perspectives on Health Policy	

SOCL 1295	Drugs and Society	
SOCL 2303	Gender and Reproductive Justice	
SOCL 3441	Sociology of Health and Illness	
Total Hours		20

### GPA Requirement

2.000 GPA required in the minor

### Healthcare System Operations, Minor

The objective of the minor in healthcare system operations is to prepare students to apply industrial and systems engineering methods in healthcare applications. Distinct from other service industries, healthcare systems are characterized by extensive complexities driven by communication between and interdependencies among multiple actors, and the need to simultaneously address multiple competing objectives pertaining to economic, quality-driven, individual-driven, and population-driven goals. This minor will benefit students by highlighting the unique features of this industry and methods for addressing its unique challenges to engineer improvements to the design, operation, and management of healthcare systems.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Courses

At most, one course from the minor may be counted toward major requirements.

Code	Title	Hours
<b>Required Courses</b>		
IE 5617	Lean Concepts and Applications	4
IE 5400	Healthcare Systems Modeling and Analysis	4
or IE 3500	Introduction to Healthcare Systems Engineering	
PHTH 1260	The American Healthcare System	4
<b>Electives</b>		
Complete one of the following:		4
IE 5374	Special Topics in Industrial Engineering (System Dynamics in Healthcare)	
IE 5500	Systems Engineering in Public Programs	
IE 5640	Data Mining for Engineering Applications	
NRSG 5121	Epidemiology and Population Health	
PHTH 4511	Healthcare Management	
PHTH 5226	Strategic Management and Leadership in Healthcare	
PHTH 5232	Evaluating Healthcare Quality	
SCHM 3315	Managing Healthcare Operations and Supply Chain	

### GPA Requirement

2.000 GPA required in the minor

## Mindfulness Studies, Minor

The minor in mindfulness studies is open to all majors at the university. The term “mindfulness” refers to maintaining an awareness of the present moment without judgment. Modern-day mindfulness has roots in Eastern spiritual traditions including Buddhism and Hinduism; after arriving in the West, mindfulness practice became a mostly secular practice used by many to promote health and wellbeing. The minor in mindfulness studies is designed for students who seek to enrich their understanding of mindfulness practice, including its benefits and potential applications. Pursuing a minor in mindfulness studies will complement students’ knowledge in the related fields of psychology, health sciences, philosophy, and religious studies. However, developing a mindfulness practice and an understanding of the potential benefits and applications of mindfulness may help enrich the lives of students in any major. Whether students are interested in health, education, or business, by pursuing the minor in mindfulness studies they have an opportunity to learn how to develop a mindfulness practice and explore how to apply mindfulness to their career.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Courses

Code	Title	Hours
CAEP 1280	Introduction to Mindfulness	4
PHIL 1133	Selling Spirituality	4
PHIL 1275	Hinduism, Buddhism, and Beyond: Eastern Religions	4
or PHIL 2395	Japanese Buddhism	

### Electives

Code	Title	Hours
Complete two of the following:		7-8
CAEP 1290	Personal Behavior Change	
CAEP 3899	Relationships in College	
HLTH 5002	Mindfulness: Theory and Practice	
PHIL 1130	Ethics: East and West	
PHIL 1290	Chinese Philosophy and Religion	

### GPA and Grade Requirement

Minimum 2.000 GPA required in the minor. All coursework must be completed with a minimum grade of C.

### Credit Requirement

19 hours required

## Nutrition, Minor

The minor in nutrition is designed for undergraduate students from a variety of disciplines across the university who wish to expand and apply their understanding in key concepts of nutrition and how they intersect with public health, clinical applications, food policy, behavioral counseling, or health communication.

The minor is comprised of five courses. It requires a foundational course in Human Nutrition (HSCI 1105) that instructs students in the basic principles of human nutrition. Students expand foundational

concepts in additional required courses to apply knowledge of nutrition in clinical settings and to public health initiatives. Following the initial core courses, students complete two elective courses, at least one at 3000 level or higher, developing deeper knowledge and specific professional skills.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Courses

Code	Title	Hours
HSCI 1105	Human Nutrition	4
HSCI 2350	Advanced Nutrition in Health and Disease	4
HSCI 2500	Public Health Nutrition in the Community	4

### Supporting Courses

Code	Title	Hours
Complete two of the following. At least one elective must be at the 3000 level or above:		7-8
BIOL 3611	Biochemistry	
or PHSC 2320	Biochemistry	
CAEP 2012	Health Psychology: An Introduction to Concepts, Theories, and Research	
CAEP 3480	Counseling Theories and Practice	
COMM 3201	Health Communication	
or PHTH 2300	Communication Skills for the Health Professions	
or PHTH 2301	Communication Skills for the Health Professions—Global	
ECON 3404	International Food Policy	
EXSC 1120	Introduction to Exercise, Fitness, and Health	
HSCI 1106	Contemporary Issues in Nutrition	
PHSC 4340	Pharmacology for the Health Professions	
PHSC 4502	Pharmacology/Medicinal Chemistry 2	
PPUA 5270	Food Systems and Public Policy	

### GPA Requirement

2.000 GPA required in the minor

## Public Health, Minor

The minor in public health is designed for undergraduate students from a variety of disciplines who wish to explore key components of public health including the basic components of the U.S. healthcare system, core values and concepts of public health, public health analytic methods, and the social determinants of health. The minor is comprised of five courses for a minimum of 18 semester hours. The four required courses focus on the key components of public health and the remaining course is an elective from the provided list. Through the elective course, students can explore policy, healthcare management and delivery, research methods, health communication, nutrition and exercise, health disparities, and environmental health.

## Minor Requirements

*Note:* This minor is not open to students majoring in the Bachelor of Science in Health Science or those pursuing a combined major with health science.

Code	Title	Hours
<b>Required Courses</b>		
PHTH 1260 or PHTH 1261	The American Healthcare System Comparative Healthcare Systems	4
PHTH 2350 or PHTH 2351	Community and Public Health Community and Public Health - Global	4
PHTH 4202	Principles of Epidemiology in Medicine and Public Health	4
Complete one of the following. PHTH 2210 is recommended.		3-4
ECON 2350	Statistics	
ENVR 2500	Biostatistics	
MATH 2280	Statistics and Software	
MATH 3081	Probability and Statistics

## School of Nursing

Website (<http://www.northeastern.edu/bouve/nursing/>)

### Maria van Pelt, CRNA, PhD, FAAN

Dean and Associate Clinical Professor, School of Nursing  
Associate Dean, Bouvé College of Health Sciences

### Caroline M. Hewitt, DNS, RN, WHNP-BC, ANP-BC

Clinical Professor and Assistant Dean of Undergraduate Programs

### Janet S. Rico, PhD, MBA, FNP

Associate Clinical Professor and Assistant Dean for Graduate Education

#### Office of the Dean

617.373.3649

617.373.8675 (fax)

#### Undergraduate Program Office

617.373.2480

The School of Nursing offers a traditional Bachelor of Science, an Accelerated Bachelor of Science, and a Direct Entry (BSN) to Master's (MSN) for second-degree students in nursing designed to prepare students to become professional nurses by providing them with the knowledge, skills, and professional values needed for successful practice in a variety of healthcare settings. The school aims to provide all students—including those with diverse backgrounds and changing career goals—with a broad-based education that will foster ongoing personal and professional growth.

The mission of the Northeastern University School of Nursing is to educate students to provide evidence-based, culturally and linguistically competent, ethical healthcare that is high quality, safe, and accessible to diverse local, national, and global communities. Our programs seek to prepare students to become leaders as nurse clinicians, educators, scholars, and researchers.

Nursing is both a science-based profession and a caring art. The curriculum draws on basic and behavioral sciences, the arts and humanities, and the art and science of nursing to help students understand the complexities of health and illness across the life span.

## CLINICAL SETTINGS

Clinical settings require student criminal background checks. Additionally, international students require curricular practical training (CPT) clearance to meet federal requirements for all clinical and co-op experiences. Please see Requirements for Clinical, Internships, and Practicum Courses (<http://catalog.northeastern.edu/graduate/health-sciences/academic-policies-procedures/practicum-internship-policies/>) and Background Checks (<http://catalog.northeastern.edu/graduate/health-sciences/academic-policies-procedures/background-checks/>) in this catalog for further details.

## ACCREDITATION

The baccalaureate degree program in nursing at Northeastern University is accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791, and is approved by the Board of Registration in Nursing of the Commonwealth of Massachusetts and the state of North Carolina. Accreditation and approval indicate that the program meets educational standards for faculty, curriculum design, student quality, and overall university support.

## Programs

### Bachelor of Science in Nursing (BSN)

- Nursing (p. 591)
- Nursing—Accelerated Program for Second-Degree Students (p. 598)

### Minor

- Wellness Studies (p. 601)

## Nursing, BSN

The goal of the School of Nursing is to prepare students to think critically and to practice nursing competently and compassionately in rapidly changing practice environments. All efforts are designed to build nursing knowledge; enhance nursing practice and patient safety; foster professional integrity; and ultimately improve the health outcomes of patients, families, and communities across the continuum of care. This approach requires knowledge, skills, and attitudes that demonstrate leadership, quality care, critical thinking and clinical reasoning, cultural and linguistic competence, interprofessional collaboration, evidence-based practice, and integration of informatics and technology.

The clinical program takes place in the community where people live, as well as in hospitals, rehabilitation centers, and long-term-care facilities. The curriculum is capped by courses that enable students to put leadership and management skills into action and to synthesize the complete role of the professional nurse in a clinical practicum.

In addition to completing academic coursework, students must meet the cooperative education requirement as specified by their plan of study, which gives them the opportunity to integrate the theory and practice of nursing in selected settings. Numerous community and institutional healthcare agencies in Greater Boston and across the country offer students an opportunity to gain experience in providing nursing care to a variety of patients and families and to understand that nurses have major roles in wellness and health promotion, acute care, and long-term care. Students in the program are strongly encouraged to participate in research activity and in global educational opportunities that can all be a part of the program.

The baccalaureate degree program in nursing at Northeastern University is accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791, and is also approved by the Board of Registration in Nursing of the Commonwealth of Massachusetts. Accreditation and approval indicate that the program meets educational standards for faculty, curriculum design, student quality, and overall university support.

The school subscribes to the standards established by the American Association of Colleges of Nursing (AACN), of which it is a member.

### Academic Standards for Nursing Majors

#### ACADEMIC DISMISSAL FROM MAJOR

Students in the Bouvé College of Health Sciences will be dismissed from their major effective the following academic semester for any of the reasons noted below:

- Students who do not meet the required minimum grade in two professional courses, including labs and clinical, will be dismissed from the program. Only one professional course can be remediated.
- Remediation of a failed professional course is a requirement for progression in the program.

- Students who do not meet the minimum grade requirement within two attempts of the course will be dismissed from the program.

*Note:* Students dismissed from their major but who are otherwise in good standing with the university are allowed to remain at Northeastern University for up to two semesters as a provisional Bouvé student, by the end of which the student is expected to move into a new major.

#### ACADEMIC APPEALS

Students who believe that they were erroneously, capriciously, or otherwise unfairly treated in an academic or cooperative education decision may petition to appeal the decision. Additional details about the process may be found in the Bouvé College of Health Sciences Academic Appeals Procedures (<http://catalog.northeastern.edu/graduate/health-sciences/academic-policies-procedures/appeals-process/>) and in *Appeals Policies and Procedures* in the university Undergraduate Student Handbook (<http://www.northeastern.edu/osccr/code-of-student-conduct/>).

#### Program Policies and Standards

Students are expected to adhere to the policies and standards of their program major as stated in the Undergraduate Student Handbook (<http://www.northeastern.edu/osccr/code-of-student-conduct/>) to progress through their curriculum as planned. Students seeking any exceptions to the program policies and standards specified for their program major will be brought before the School of Nursing Academic Standing Committee to present their petitions.

#### BACHELOR OF SCIENCE IN NURSING PROGRAM REQUIREMENTS

The nursing program includes several options for a student's plan of attendance, as specified below:

For those students entering Northeastern as first-year (freshman) students (including NUin) and current Northeastern students entering the BSN via the change-of-major process:

- A five-year plan with three, six-month co-ops and a four-year plan with two, six-month co-ops

Students must declare either the four- or five-year plan by September 1 of their third year. At least one of the two co-op experiences must involve working with registered nurses providing direct patient care.

Students must complete all co-op experiences planned in their academic program with a grade of S for each co-op experience.

**Current Northeastern students** entering the BSN via the change-of-major process should follow the requirements found at the Bouvé College of Health Sciences Office of Student Services under Change of Major (<https://bouve.northeastern.edu/student-services/undergraduate-change-of-major/>).

Transfer students from institutions outside Northeastern University may select one of the options below and must declare their plan upon admission to the program. All plans are not offered at all campuses.

- A five-year plan with three, six-month co-ops (where offered)
- A four-year plan with two, six-month co-ops (where offered)
- A four-semester accelerated plan with no co-ops (where offered and approved by the State Board of Nursing; accelerated programs not offered on all campuses)

All students, regardless of entry point, must successfully complete 133 semester hours of academic credit to graduate in compliance with

university and nursing curriculum requirements and in their expected year of graduation.

- Degree requirements must be completed within eight years from the date of matriculation.
- Students are required to attend all scheduled nursing classes, clinical experiences, and clinical labs on campus and in clinical agencies. If the student fails to meet attendance requirements, the student will fail the associated class, clinical, and/or lab.

### CLINICAL REQUIREMENTS

Clinical settings require criminal background checks. Additionally, international students require curricular practical training (CPT) clearance to meet federal requirements for all clinical and co-op experiences.

All students must receive a health clearance from University Health and Counseling Services (UHCS). Health clearance is based on specific documentation of immunity from infectious disease and a physical examination (this may be done by the student's own healthcare provider). In addition, nursing students need a clinical clearance in order to participate in clinical courses. Clinical clearance, managed by the School of Nursing's Clinical Placement Office, includes verification of certification of *Healthcare Provider* cardiopulmonary resuscitation (CPR); recent negative tuberculosis screening (PPD); positive titers for MMR, varicella, and hepatitis B; vaccines including TDAP and influenza; and additional health screenings as may be required by the program. It is the responsibility of the student to stay current and to provide documentation required for clinical clearance throughout the entire nursing program.

Six weeks prior to the start of a clinical course, students must show:

- Evidence of immunizations and health clearance by University Health and Counseling Services.
- Documentation of *Healthcare Provider* CPR certification.
- Completion of a Criminal Offender Record Information (CORI) background check to be eligible for clinical placement.
- Students will not be allowed to start the clinical course, and may be dropped from the clinical course, if these processes are not satisfactorily completed.

Students should refer to clinical course requirements, health clearance requirements for clinical rotations, and the professional conduct statement here (<http://catalog.northeastern.edu/graduate/health-sciences/academic-policies-procedures/practicum-internship-policies/>) for additional details.

### CLINICAL WARNING

A nursing student may be placed on clinical warning, or fail the clinical course, at any time during the semester for the following reasons:

- Failing to meet the clinical objectives at a satisfactory level.
- Failing to demonstrate safe practice. Students may be removed from the clinical area, before completion of the clinical rotation, if the instructor determines that the student is unsafe. This will result in the student failing the clinical course.
- Failing to meet the attendance requirement.

### Conditions

- Students on clinical warning must develop an academic plan with the clinical instructor to address clinical performance.
- Students will be expected to improve clinical performance by adhering to the plan.

- Failure to adhere to the terms of the plan will result in the student failing the course and being placed on academic probation. All conditions of academic probation will then apply.

### Notification

- The clinical instructor will issue the student a Clinical Warning via the Faculty and Advisor Communication Tool (FACT) identifying the problem.
- The student and the instructor should then develop a plan together to address the deficiency.
- Copies of the warning will be forwarded to the program director and/or the assistant dean for undergraduate programs if needed.
- This is an administrative warning and will not be posted on the transcript.
- Satisfactory completion of the clinical experience component of the course will result in removal of the warning from the student's file.

### BLOOD-BORNE PATHOGEN EXPOSURE AND INJURY

Any student who sustains any kind of injury and/or exposure related to blood-borne, respiratory, or other pathogens or hazardous materials while on a clinical rotation should seek immediate treatment. They must also immediately follow the procedures listed below:

### Procedures

- Students must follow the affiliate site's protocol for exposure reporting, testing, counseling, and follow-up.
- Students can present their clinical accident insurance identification card to arrange billing at the site or a suitable nearby hospital or urgent care clinic. If students do not know a local provider, they can call the resource number on their identification card for aid in finding a local provider.
- Within 24 hours of the accident, students must also inform their program's director of clinical education (or unit designee responsible for clinical placements) of the accident and submit, in writing, a description of the incident and injury or exposure using the BCHS Accident Report form, linked here (<https://northeastern.sharepoint.com/sites/BouveCurrentStudentResources/SitePages/Clinical-Accident-Report-Form.aspx>). *If a student is incapacitated and unable to file their own report within the 24-hour time frame, a NU faculty or staff person familiar with the incident may file on their behalf. The student should file their own report as soon as possible thereafter.*
- Submission of the Accident Report form will automatically notify:
  - The program's director of clinical education or clinical placement office (or unit designee responsible for clinical placements)
  - The program director and medical director (if applicable)
  - The department chair or school dean
  - BCHS dean's office
  - Office of Environmental Health and Safety
  - Risk Services (<https://www.northeastern.edu/risk-services/>)
- If for any reason a student is not able to receive immediate medical treatment, there is the resource of postexposure counseling through the university's partner, OEHN (Occupational & Environmental Health Network). They can be reached at 1-866-360-8100. OEHN is open 24 hours a day, 7 days a week, 365 days a year. OEHN will collect appropriate information and engage the doctor on call who can help to direct appropriate care depending on exposure and circumstances.

## Technical Standards for Admission, Academic Progression, and Graduation

The primary mission of the School of Nursing is to educate our students to provide evidence-based, culturally and linguistically competent, ethical healthcare that is high quality, safe, and accessible to diverse local, national, and global communities. Our programs are designed to prepare students to become leaders as nurse clinicians, educators, scholars, and researchers. The School of Nursing is also committed to achieving the goals of the university to become an outstanding national research, practice-oriented, student-centered, urban institution.

The goal of the School of Nursing is to prepare students to think critically and to practice nursing competently and compassionately in rapidly changing practice environments. All efforts are designed to build nursing knowledge, enhance nursing practice and patient safety, foster professional integrity, and ultimately improve the health outcomes of patients, families, and communities across the continuum of care.

In addition to classroom learning, students' clinical education experiences occur in settings, like hospitals, in which patient safety is the priority. For this reason, students who, upon enrollment in any of the nursing programs, seek accommodations from the Disability Resource Center (DRC) at NU must also request an assessment of accommodations that would be needed for clinical education.

Certain functional abilities are essential for the delivery of safe, effective nursing care during clinical education activities. Therefore, the School of Nursing has determined that certain technical standards are requisite for admission, progression, and graduation from the nursing programs. An individual must be able to independently, with or without reasonable accommodation, meet the following technical standards:

1. General abilities
2. Observational ability
3. Communication ability
4. Motor ability
5. Intellectual, conceptual, and quantitative abilities
6. Behavioral and social attributes
7. Ability to manage stressful situations

Individuals unable to meet these technical standards, with or without reasonable accommodation, will not be able to complete the program.

### GENERAL ABILITIES

The student is expected to possess functional use of the senses of vision, touch, hearing, and smell so that data received by the senses may be integrated, analyzed, and synthesized in a consistent and accurate manner. A student must be able to respond promptly to urgent situations that may occur during clinical training activities and must not hinder the ability of other members of the healthcare team to provide prompt treatment and care to patients.

### OBSERVATIONAL ABILITY

The student must have sufficient capacity to make accurate visual observations and interpret them in the context of laboratory studies, medication administration, and patient care activities. In addition, the student must be able to document these observations and maintain accurate records.

### COMMUNICATION ABILITY

The student must communicate both verbally and nonverbally in order to elicit information and to convey that information to others. Each student must have the ability to read and write accurately and comprehensively in English. The student must be able to thoroughly comprehend and fluently

speak the English language so as to facilitate communication with patients, families, professionals in healthcare settings, instructors, and other students. The student must also be able to present information in a professional, logical manner and to provide counseling and instruction in order to effectively care for patients and their families.

### MOTOR ABILITY

The student must be able to perform gross and fine motor movements with sufficient coordination needed to perform complete physical examinations utilizing the techniques of inspection, palpation, percussion, auscultation, and other diagnostic maneuvers. A student must develop the skills needed to perform or assist with procedures, treatments, administration of medication, and the management and operation of diagnostic and therapeutic medical equipment. The student must possess the physical and mental stamina to meet the demands associated with extended periods of sitting, standing, moving, and physical exertion required for satisfactory and safe performance in the clinical and classroom settings.

### INTELLECTUAL, CONCEPTUAL, AND QUANTITATIVE ABILITIES

The student must be able to develop and refine critical thinking skills that are essential to nursing practice. Critical thinking involves the abilities to measure, calculate, reason, analyze, and synthesize objective and subjective data and to make decisions, often in a time-urgent environment, that reflect consistent and thoughtful deliberation and sound clinical judgment.

### BEHAVIORAL AND SOCIAL ATTRIBUTES

Compassion, integrity, motivation, effective interpersonal skills, and concern for others are personal attributes required of those in the nursing programs. The student must be able to work under supervision of a clinical instructor or preceptor; this is essential to ensure patient safety. The student must exercise good judgment and promptly complete all responsibilities in the classroom and clinical settings. The ability to establish culturally competent relationships with individuals, families, and groups and to respond effectively to patients who have different intellectual capacities is critical to nursing practice.

### ABILITY TO MANAGE STRESSFUL SITUATIONS

The student must be able to adapt to and function effectively in stressful situations in both the classroom and clinical settings, including emergency situations. These stressors include personal, patient care/family, faculty/peer, and/or program-related issues.

### Disability and Special Needs

Students with special needs are encouraged to contact the Disability Resource Center (<https://drc.sites.northeastern.edu/>) (DRC) to register and request services. Students must notify the instructor at the beginning of the semester if they plan to use DRC services throughout the course. The staff in that office is available for assistance.

### State Board Nursing Examination

In Massachusetts, and several other states, the registering board requires that graduates taking the National Council Licensing Examination (NCLEX-RN) meet standards of "good moral character" (GMC). Students may review the GMC requirement specified at Massachusetts General Laws Chapter 112, sections 74, 74A, and 76; Licensure Policy No. 00-01 under "Rules & Regulations" on the Massachusetts BORN website.

Please visit Bouvé College of Health Sciences Program Learning Outcomes for the specific student learning outcomes for this program.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

Professional courses with a prefix HLTH, HSCI, and NRSRG and professional prerequisite courses with a prefix BIOL, CHEM, MATH, and PSYC require a minimum passing grade of C.

## Nursing Major Requirements

Code	Title	Hours
NRSRG 2150	Ethical Healthcare: Genetics and Genomics	4
or HLTH 2100	Interprofessional Ethics for Individual and Population Health	
or PHIL 1165	Moral and Social Problems in Healthcare	
NRSRG 2210	Influences on Health and Illness: A Nursing Perspective	3
NRSRG 2220 and NRSRG 2221	Health Assessment and Fundamental Nursing Skills and Lab for NRSRG 2220	4
NRSRG 2350	Integrated Pathophysiology and Pharmaceutical Interventions for Nursing Practice	6
NRSRG 3302 and NRSRG 3303	Nursing with Women and Families and Clinical for NRSRG 3302	5
NRSRG 3320 and NRSRG 3321	Nursing Care of Adults 1 and Clinical for NRSRG 3320	6
NRSRG 3323 and NRSRG 3324	Advanced Assessment and Interventions and Lab for NRSRG 3323	2
NRSRG 3400 and NRSRG 3401	Nursing and the Promotion of Mental Health and Clinical for NRSRG 3400	5
NRSRG 3420 and NRSRG 3421	Nursing Care of Adults 2 and Clinical for NRSRG 3420	6
NRSRG 4502 and NRSRG 4503	Nursing Care of the Child and Clinical for NRSRG 4502	6
NRSRG 4604 and NRSRG 4605	Public Health Community Nursing and Clinical for NRSRG 4604	5
NRSRG 4610 or NRSRG 4611	Managing and Leading in Healthcare or Managing and Leading in Healthcare—An International Perspective	4
NRSRG 4995 and NRSRG 4996	Comprehensive Nursing Practicum and Clinical for NRSRG 4995	5
NRSRG 5120	Statistics for Health Science	3
NRSRG 5220	Introduction to Research Methods and Application for Healthcare	4

## Supporting Courses

Code	Title	Hours
<b>CORE TERM 1</b>		
NRSRG 1000	College: An Introduction	1
BIOL 2217 and BIOL 2218	Integrated Anatomy and Physiology 1 and Lab for BIOL 2217	5
Please complete one of the following two lecture/lab pairs:		
CHEM 1101 and CHEM 1102	General Chemistry for Health Sciences and Lab for CHEM 1101	5
CHEM 1161 and CHEM 1162	General Chemistry for Science Majors and Lab for CHEM 1161	5
HSCI 1105	Human Nutrition	4
Complete one of the following:		
MATH 1215	Mathematical Thinking	
MATH 1241	Calculus 1	
MATH 1242	Calculus 2	
MATH 1251	Calculus and Differential Equations for Biology 1	
MATH 1252	Calculus and Differential Equations for Biology 2	
MATH 1341	Calculus 1 for Science and Engineering	
<b>CORE TERM 2</b>		
BIOL 2219 and BIOL 2220	Integrated Anatomy and Physiology 2 and Lab for BIOL 2219	5
PSYC 1101	Foundations of Psychology	4
BIOL 2221 and BIOL 2222	Foundations of Microbiology and Lab for BIOL 2221	5
ENGW 1111	First-Year Writing	4
<i>The university requires a minimum grade of C for ENGW 1111.</i>		
<b>CLINICAL TERM 2</b>		
NRSRG 2000	Professional Development for Co-op	1
SOCL 1101	Introduction to Sociology	4
<b>CLINICAL TERM 3</b>		
PSYC 3404	Developmental Psychology	4
<b>CLINICAL TERM 4</b>		
<b>CLINICAL TERM 5</b>		
ENGW 3306	Advanced Writing in the Health Professions	4
<i>The university requires a minimum grade of C for ENGW 3306.</i>		
<b>Electives</b>		
<b>Code</b>	<b>Title</b>	<b>Hours</b>
Complete four courses (for at least 15 credits) outside the School of Nursing or NRSRG courses not used to fulfill requirements above.		15
<b>NUPATH REQUIREMENTS SATISFIED</b>		
<ul style="list-style-type: none"> <li>Analyzing/Using Data (AD)</li> <li>Capstone Experience (CE)</li> <li>Engaging Difference/Diversity (DD)</li> <li>Exploring Creative Expression and Innovation (EI)</li> <li>Ethical Reasoning (ER)</li> <li>Conducting Formal/Quantitative Reasoning (FQ)</li> <li>Interpreting Culture (IC)</li> <li>Natural/Designed World (ND)</li> <li>Society/Institutions (SI)</li> </ul>		

- Writing-Intensive in the Major (WI)
- Advanced Writing in the Disciplines (WD)

Integrating Knowledge and Skills Through Experience (EX) is satisfied through co-op.

Students are responsible for using the general electives in this program to complete NUPath requirements not satisfied by required courses in this program.

### Academic Standards for Nursing Majors

Minimum passing grade standards exist for both professional courses, which are required courses taught within the major/college, and professional prerequisite courses and are outlined before the nursing requirements above.

Courses in the above-listed professional or professional prerequisite subjects that are taken as electives are exempt from the C or better rule, and the university's minimum satisfactory grade will be accepted.

For all other courses, the university's minimum passing grade for the course will be accepted.

### PROGRESSION WITHIN NURSING

- First-year students must complete at least 27 semester hours and meet all major prerequisite course requirements to progress to sophomore status. First-year students who earn fewer than the semester hours stipulated by the curriculum plan for their major must make up the difference prior to graduation.
- To progress into the subsequent year of professional courses, students must have completed all professional prerequisites with the required minimum passing grade as noted in the program requirements.
- Students must successfully complete all courses, as stipulated by their approved curriculum plan, with a grade of C or better in order to progress into the next professional course.
- Students who either fail or withdraw from a professional course will need to successfully remediate that course before continuing in their approved curriculum plan.
- Students who incur an incomplete grade in a prerequisite course must obtain approval from their academic advisor, upon consultation with the department faculty and, when appropriate, the School of Nursing Academic Standing Committee, prior to progression into the subsequent course(s).
- Students may not change their graduation date more than twice.

### Program Requirements

133 total semester hours required

### Plan of Study

#### Sample Plans of Study

#### Four Years, Two Co-ops in Spring/Summer 1

##### Year 1

Fall	Hours	Spring	Hours	Summer 1	Hours	Summer 2	Hours

**Nursing, BSN—Accelerated Program for Second-Degree Students**

The Accelerated Bachelor of Science in Nursing (ABSN) hybrid program, which comprises 16 months of full-time study, combines online didactic coursework and hands-on learning involving both clinical placements and experience in the skills laboratory. The program offers students an opportunity to work closely with nursing faculty to master the core skills necessary to excel in their nursing career. The program also seeks to prepare students to successfully take and pass the National Council Licensure Examination for Registered Nurses (NCLEX-RN) and earn an RN license.

The ABSN curriculum includes 67 credits of undergraduate courses with online learning modules incorporating lectures and learning activities. The majority of these credits are completed online through an e-learning platform that allows students to listen to lectures, submit assignments, complete interactive learning modules, and engage in discussion with faculty and classmates.

The Bouvé College of Health Sciences School of Nursing has an extensive network of clinical affiliations at health centers, major teaching hospitals, and community hospitals that allow students to engage in clinical experiences covering a wide range of nursing specialties that include adult health, maternal-newborn, pediatrics, behavioral and mental health, acute care, and public health.

The baccalaureate degree program in nursing at Northeastern University is accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791, and is also approved by the Board of Registration in Nursing of the Commonwealth of Massachusetts and by the North Carolina Board of Nursing. Accreditation and approval indicate that the program meets educational standards for faculty, curriculum design, student quality, and overall university support.

The school subscribes to the standards established by the American Association of Colleges of Nursing (AACN), of which it is a member.

**Academic Standards for Nursing Majors****ACADEMIC DISMISSAL FROM MAJOR**

Students in the Bouvé College of Health Sciences will be dismissed from their major effective the following academic semester for any of the reasons noted below:

- Students who do not meet the required minimum grade in two professional courses, including labs and clinical, will be dismissed from the program. Only one professional course can be remediated.
- Remediation of a failed professional course is a requirement for progression in the program.
- Students who do not meet the minimum grade requirement within two attempts of the course will be dismissed from the program.

### ACADEMIC APPEALS

Students who believe that they were erroneously, capriciously, or otherwise unfairly treated in an academic or cooperative education decision may petition to appeal the decision. Additional details about the process may be found in the Bouvé College of Health Sciences Academic Affairs Appeals Process (<http://catalog.northeastern.edu/graduate/health-sciences/academic-policies-procedures/appeals-process/>) and in *Appeals Policies and Procedures* in the university Undergraduate Student Handbook (<http://www.northeastern.edu/osccr/code-of-student-conduct/>).

### Program Policies and Standards

Students are expected to adhere to the policies and standards of their program major to progress through their curriculum as planned. Students seeking any exceptions to the program policies and standards specified for their program major will be brought before the School of Nursing Academic Standing Committee to present their petitions.

Students are required to attend all scheduled nursing classes, clinical experiences, and clinical labs on campus and in clinical agencies. If the student fails to meet attendance requirements, the student will fail the associated class, clinical, and/or lab.

Students enrolled in the clinical courses will need access to a car to travel to assigned agencies. Students are responsible for their own transportation costs.

### CLINICAL REQUIREMENTS

Clinical settings require criminal background checks. Additionally, international students require curricular practical training (CPT) clearance to meet federal requirements for all clinical and co-op experiences.

All students must receive a health clearance from University Health and Counseling Services (UHCS). Health clearance is based on specific documentation of immunity from infectious disease and a physical examination (this may be done by the student's own healthcare provider). In addition, nursing students need a clinical clearance in order to participate in clinical courses. Clinical clearance, managed by the School of Nursing's Clinical Placement Office, includes verification of certification of Healthcare Provider cardiopulmonary resuscitation (CPR); recent negative tuberculosis screening (PPD); positive titers for MMR, varicella, and hepatitis B; vaccines including TDAP and influenza; and additional health screenings as may be required by the program. It is the responsibility of the student to stay current and to provide documentation required for clinical clearance throughout the entire nursing program.

Beginning six weeks prior to the start of a clinical course, students must show:

- Evidence of immunizations and health clearance by University Health and Counseling Services.
- Documentation of Healthcare Provider CPR certification.

- Completion of a Criminal Offender Record Information (CORI) background check to be eligible for clinical placement.
- Students will not be allowed to start the clinical course, and may be dropped from the clinical course, if these processes are not satisfactorily completed.

Students should refer to Clinical Course Requirements, Health Clearance Requirements for Clinical Rotations, and the Professional Conduct statement here (<http://catalog.northeastern.edu/graduate/health-sciences/academic-policies-procedures/practicum-internship-policies/>) for additional details.

### CLINICAL WARNING

A nursing student may be placed on clinical warning, or fail the clinical course, at any time during the semester for the following reasons:

- Failing to meet the clinical objectives at a satisfactory level.
- Failing to demonstrate safe practice. Students may be removed from the clinical area, before completion of the clinical rotation, if the instructor determines that the student is unsafe. This will result in the student failing the clinical course.
- Failing to meet the attendance requirement.

#### Conditions

- Students on clinical warning must develop an academic plan with the clinical instructor to address clinical performance.
- Students will be expected to improve clinical performance by adhering to the plan.
- Failure to adhere to the terms of the plan will result in the student failing the course and being placed on academic probation. All conditions of academic probation will then apply.

#### Notification

- The clinical instructor will issue the student a clinical warning via the Faculty and Advisor Communication Tool (FACT) identifying the problem.
- The student and the instructor should then develop a plan together to address the deficiency.
- Copies of the warning will be forwarded to the program director and/or the assistant dean for undergraduate programs if needed.
- This is an administrative warning and will not be posted on the transcript.
- Satisfactory completion of the clinical experience component of the course will result in removal of the warning from the student's file.

### BLOOD-BORNE PATHOGEN EXPOSURE AND INJURY

Any student who sustains any kind of injury and/or exposure to blood-borne, respiratory, or other pathogens or hazardous materials while on a clinical rotation should seek immediate treatment. They must also immediately follow the procedures listed below:

#### Procedures

- Students must follow the affiliate site's protocol for exposure reporting, testing, counseling, and follow-up.
- Students can present their clinical accident insurance identification card to arrange billing at the site or a suitable nearby hospital or urgent care clinic. If students do not know a local provider, they can call the resource

number on their identification card for aid in finding a local provider

- Within **24 hours** of the accident, students must also inform their program's director of clinical education (or unit designee responsible for clinical placements) of the accident and submit, in writing, a description of the incident and injury or exposure using the BCHS Accident Report form, linked here (<https://northeastern.sharepoint.com/sites/BouveCurrentStudentResources/SitePages/Clinical-Accident-Report-Form.aspx>). *If a student is incapacitated and unable to file their own report within the 24-hour time frame, a NU faculty or staff person familiar with the incident may file on their behalf. The student should file their own report as soon as possible thereafter.*
- Submission of the Accident Report form will automatically notify:
  - The program's director of clinical education or clinical placement office (or unit designee responsible for clinical placements)
  - The program director and medical director (if applicable)
  - The department chair or school dean
  - BCHS dean's office
  - Office of Environmental Health and Safety
  - Risk Services
- If for any reason a student is not able to receive immediate medical treatment, there is the resource of postexposure counseling through the university's partner, OEHN (Occupational & Environmental Health Network). They can be reached at 1-866-360-8100. OEHN is open 24 hours a day, 7 days a week 365 days a year. OEHN will collect appropriate information and engage the doctor on call who can help to direct appropriate care depending on exposure and circumstances.

## Technical Standards for Admission, Academic Progression, and Graduation

The primary mission of the School of Nursing is to educate our students to provide evidence-based, culturally and linguistically competent, ethical healthcare that is high quality, safe, and accessible to diverse local, national, and global communities. Our programs are designed to prepare students to become leaders as nurse clinicians, educators, scholars, and researchers. The School of Nursing is also committed to achieving the goals of the university to become an outstanding national research, practice-oriented, student-centered, urban institution.

The goal of the School of Nursing is to prepare students to think critically and to practice nursing competently and compassionately in rapidly changing practice environments. All efforts are designed to build nursing knowledge, enhance nursing practice and patient safety, foster professional integrity, and ultimately improve the health outcomes of patients, families, and communities across the continuum of care.

In addition to classroom learning, students' clinical education experiences occur in settings, like hospitals, in which patient safety is the priority. For this reason, students who, upon enrollment in any of the nursing programs, seek accommodations from the Disability Resource Center (DRC) at NU must also request an assessment of accommodations that would be needed for clinical education.

Certain functional abilities are essential for the delivery of safe, effective nursing care during clinical education activities. Therefore, the School

of Nursing has determined that certain technical standards are requisite for admission, progression, and graduation from the nursing programs. An individual must be able to independently, with or without reasonable accommodation, meet the following technical standards:

1. General abilities (p. 600)
2. Observational ability (p. 600)
3. Communication ability (p. 600)
4. Motor ability (p. 600)
5. Intellectual, conceptual, and quantitative abilities (p. 600)
6. Behavioral and social attributes (p. 601)
7. Ability to manage stressful situations (p. 601)

Individuals unable to meet these technical standards, with or without reasonable accommodation, will not be able to complete the program.

### **General Abilities**

The student is expected to possess functional use of the senses of vision, touch, hearing, and smell so that data received by the senses may be integrated, analyzed, and synthesized in a consistent and accurate manner. A student must be able to respond promptly to urgent situations that may occur during clinical training activities and must not hinder the ability of other members of the healthcare team to provide prompt treatment and care to patients.

### **Observational Ability**

The student must have sufficient capacity to make accurate visual observations and interpret them in the context of laboratory studies, medication administration, and patient care activities. In addition, the student must be able to document these observations and maintain accurate records.

### **Communication Ability**

The student must communicate both verbally and nonverbally in order to elicit information and to convey that information to others. Each student must have the ability to read and write accurately and comprehensively in English. The student must be able to thoroughly comprehend and fluently speak the English language so as to facilitate communication with patients, families, professionals in healthcare settings, instructors, and other students. The student must also be able to present information in a professional, logical manner and to provide counseling and instruction in order to effectively care for patients and their families.

### **Motor Ability**

The student must be able to perform gross and fine motor movements with sufficient coordination needed to perform complete physical examinations utilizing the techniques of inspection, palpation, percussion, auscultation, and other diagnostic maneuvers. A student must develop the skills needed to perform or assist with procedures, treatments, administration of medication, and the management and operation of diagnostic and therapeutic medical equipment. The student must possess the physical and mental stamina to meet the demands associated with extended periods of sitting, standing, moving, and physical exertion required for satisfactory and safe performance in the clinical and classroom settings.

### **Intellectual, Conceptual, and Quantitative Abilities**

The student must be able to develop and refine critical thinking skills that are essential to nursing practice. Critical thinking involves the abilities to measure, calculate, reason,

analyze, and synthesize objective and subjective data, and to make decisions, often in a time-urgent environment, that reflect consistent and thoughtful deliberation and sound clinical judgment.

### **Behavioral and Social Attributes**

Compassion, integrity, motivation, effective interpersonal skills, and concern for others are personal attributes required of those in the nursing programs. The student must be able to work under supervision of a clinical instructor or preceptor; this is essential to ensure patient safety. The student must exercise good judgment and promptly complete all responsibilities in the classroom and clinical settings. The ability to establish culturally competent relationships with individuals, families, and groups, and to respond effectively to patients who have different intellectual capacities, is critical to nursing practice.

### **Ability to Manage Stressful Situations**

The student must be able to adapt to and function effectively in stressful situations in both the classroom and clinical settings, including emergency situations. These stressors include personal, patient care/family, faculty/peer, and/or program-related issues.

### **Disability and Special Needs**

Students with special needs are encouraged to contact the Disability Resource Center (<https://drc.sites.northeastern.edu/>) (DRC) to register and request services. Students must notify the instructor at the beginning of the semester if they plan to use DRC services throughout the course. The staff in that office is available for assistance.

## **State Board Nursing Examination**

In Massachusetts, and several other states, the registering board requires that graduates taking the National Council Licensing Examination (NCLEX-RN) meet standards of "good moral character" (GMC). Students may review the GMC requirement specified at Massachusetts General Laws Chapter 112, sections 74, 74A, and 76; Licensure Policy No. 00-01 under "Rules & Regulations" on the Massachusetts BORN website.

Please visit Bouvé College of Health Sciences Program Learning Outcomes for the specific student learning outcomes for this program.

## **Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, clinicals, or courses where specified beyond specific college and major requirements to satisfy graduation credit requirements.

Students must successfully complete all courses with a grade of C or better.

Code	Title	Hours
<b>SEMESTER 1</b>		
NRSG 2001	Foundations of Professional Nursing Practice	2
NRSG 2220 and NRSG 2221	Health Assessment and Fundamental Nursing Skills and Lab for NRSG 2220	4
NRSG 2350	Integrated Pathophysiology and Pharmaceutical Interventions for Nursing Practice	6

NRSG 3302 and NRSG 3303	Nursing with Women and Families and Clinical for NRSG 3302	5
<b>SEMESTER 2</b>		
NRSG 2210	Influences on Health and Illness: A Nursing Perspective	3
NRSG 3320 and NRSG 3321	Nursing Care of Adults 1 and Clinical for NRSG 3320	6
NRSG 3400 and NRSG 3401	Nursing and the Promotion of Mental Health and Clinical for NRSG 3400	5
NRSG 3323 and NRSG 3324	Advanced Assessment and Interventions and Lab for NRSG 3323	2
<b>SEMESTER 3</b>		
NRSG 3420 and NRSG 3421	Nursing Care of Adults 2 and Clinical for NRSG 3420	6
NRSG 4502 and NRSG 4503	Nursing Care of the Child and Clinical for NRSG 4502	6
NRSG 5220	Introduction to Research Methods and Application for Healthcare	4
<b>SEMESTER 4</b>		
NRSG 4604 and NRSG 4605	Public Health Community Nursing and Clinical for NRSG 4604	5
NRSG 4610	Managing and Leading in Healthcare	4
NRSG 4995 and NRSG 4996	Comprehensive Nursing Practicum and Clinical for NRSG 4995	5
NRSG 2150	Ethical Healthcare: Genetics and Genomics	4

### **Progression within Nursing**

- Students who either fail or withdraw from a professional course (any course with a prefix of NRSG, HLTH) in nursing will need to successfully remediate that course before continuing in their approved curriculum plan.
- Students who incur an incomplete grade in a prerequisite course must obtain approval from their academic advisor, upon consultation with the department faculty and, when appropriate, the School of Nursing Academic Standing Committee, prior to progression into the subsequent course(s).
- Students may not change their graduation date more than twice.

## **Program Requirement**

67 total semester hours required

### **Wellness Studies, Minor**

The wellness studies minor provides a holistic approach to the study of the human wellness experience. Offering interdisciplinary enrollment, this minor includes foundational wellness courses, as well as a range of interdisciplinary electives that embrace evidence-based science and education vis-à-vis selected domains of wellness. A cross-cultural, life span approach to individual and population wellness and well-being is offered as an experiential learning initiative.

As Northeastern University guides students in the ways of self-managing (life-long learning), an understanding of the nature and practices of wellness may inform deliberative decision-making processes that lead to the attainment of wellness-informed lifestyle choices. Over time, these choices may inform the design and crafting of a life well lived.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

## Required Courses

Code	Title	Hours
NRSG 1205	Wellness	4
or NRSG 1206	Wellness Abroad	
NRSG 5000	Advanced Perspectives in Wellness	4

## Electives

Code	Title	Hours
Complete two of the following:		
COMM 2135	Sex and Interpersonal Communication	7-8
COMM 2555	Games for Change	
COMM 3230	Interpersonal Communication	
ENGL 2770	Writing to Heal	
EXSC 1120	Introduction to Exercise, Fitness, and Health	
HLTH 2302	Alternative Medicine	
HLTH 5002	Mindfulness: Theory and Practice	
or NRSG 2206	Global Perspectives in the Science and Practice of Mindfulness	
HSCI 1105	Human Nutrition	
HSCI 2350	Advanced Nutrition in Health and Disease	
SOCL 1246	Environment and Society	
WMNS 2800	Sexual Orientation and Gender Expression	

## GPA Requirement

Minimum 2.000 GPA required in all minor courses

## Credit Requirement

A minimum of 15 hours is required.

## School of Pharmacy and Pharmaceutical Sciences

Website (<http://www.northeastern.edu/bouve/pharmacy/>)

**Tatiana K. Bronich, PhD**

Dean

140 The Fenway  
617.373.3069  
617.373.7655 (fax)

[schoolofpharmacy@northeastern.edu](mailto:schoolofpharmacy@northeastern.edu)

The School of Pharmacy and Pharmaceutical Sciences is dedicated to excellence in pharmacy-related education, research, and service, including the provision of patient care. The school seeks to prepare students with knowledge, skills, and values for careers in pharmacy practice and the pharmaceutical sciences. School of Pharmacy and Pharmaceutical Sciences programs promote intellectual growth, professionalism, and lifelong learning. Through the generation and dissemination of new knowledge and through scholarship and community service, the school contributes to improved individual and population health.

The school offers two programs for undergraduate students: the pharmacy program, leading to the Doctor of Pharmacy degree, and the Bachelor of Science in Pharmaceutical Sciences program. These programs allow students interested in pharmacy practice or the pharmaceutical sciences to choose the pathway most suited to their professional goals. The Doctor of Pharmacy degree is the entry-level professional degree earned by pharmacists. The Bachelor of Science in Pharmaceutical Sciences degree is designed for students interested in research in the area of drug design and delivery, pharmacology, pharmaceuticals, or interdisciplinary research collaborations. The bachelor's degree does not qualify a graduate for the pharmacist licensure exam.

## Programs

### Bachelor of Science (BS)

- Pharmaceutical Sciences (p. 610)
- Pharmacy Studies (p. 607)

### Doctor of Pharmacy (PharmD)

- Pharmacy (p. 602)

### Minor

- Health Sciences Entrepreneurship (p. 612)
- Pharmaceutical Sciences (p. 612)

## Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. 613)

## Pharmacy, PharmD

To earn the Doctor of Pharmacy degree (PharmD), students must complete four years of professional courses preceded by two years of pre-professional studies at Northeastern University. The PharmD fully integrates campus-based learning with experiential learning, including the university's signature cooperative education (co-op) program, to provide students with the knowledge, skills, and abilities necessary to succeed in the pharmacy profession. Our students promote and ensure the safe and effective use of drugs and provide medication therapy management services. In addition to preparing and dispensing prescribed medications, our students provide information to patients about medications and their uses; advise physicians, other prescribers, and other healthcare practitioners on medication selection, dosages, interactions, and adverse effects; and monitor patient responses to drug therapy.

Our students are well equipped to provide patient care services in a variety of settings. Most of our graduates work in community pharmacies or in healthcare facilities such as hospitals and ambulatory clinics. Additional practice opportunities exist in health maintenance organizations, private practice groups, long-term-care facilities, home healthcare, the Public Health Service, the armed services, and law enforcement and regulatory agencies such as the Federal Drug Administration (FDA) or Drug Enforcement Administration (DEA). Graduates may also find employment in drug development, marketing and research within the pharmaceutical industry, colleges of pharmacy, and professional association management. In addition, many of our graduates go on to pharmacy practice residencies, fellowships, and leading graduate programs.

Doctor of Pharmacy students are admitted with the expectation that by working with faculty, staff, and each other, they will develop the knowledge, skills, and attitudes necessary for academic and professional success. Students follow academic progression plans for their respective years of graduation. Any deviation from the prescribed curriculum will

require faculty/staff permission and an approved plan of study from the School of Pharmacy Academic Standing Committee.

The curriculum includes both Introductory Pharmacy Practice Experiences (IPPEs, fulfilled by cooperative education) and Advanced Pharmacy Practice Experiences (APPEs). These pharmacy practice experiences are provided primarily under the direct supervision of qualified pharmacist preceptors and occasionally with other qualified healthcare professionals. The school is affiliated with many world-class practice sites throughout the United States, providing students with access to experienced clinicians and scholars. Although every effort is made to accommodate individual circumstances and requests, students should be prepared to travel outside the Boston area to complete some of their pharmacy practice experiences. Availability of a car may be required, as some sites are not accessible by public transportation. All expenses associated with pharmacy practice experiences, including travel and housing, are the responsibility of the student.

IPPEs are competitive placements that are based on job availability in a geographic region. The placements are facilitated by School of Pharmacy cooperative education coordinators. Students are required to earn satisfactory (S) grades on one IPPE in a community setting and on one IPPE in an institutional/hospital practice setting.

APPE placements are provided based on site/preceptor availability and the final approval of the School of Pharmacy Office of Experiential Education (OEE). Students may be able to petition the OEE for special arrangement APPEs; however, availability for such requests is limited.

To be eligible for a Doctor of Pharmacy degree, a student must successfully complete all courses in the curriculum including the IPPEs (co-op) and APPEs; meet the academic progression standards of the program; meet the technical standards of the program; and satisfy all other requirements as stated. The pharmacy program is fully accredited by the Accreditation Council for Pharmacy Education (ACPE) (<https://www.acpe-accredit.org/>) and adheres to the standards established by ACPE.

Pharmacy graduates must meet specific requirements to qualify for professional licensure in the state where they plan to practice as a registered pharmacist. These requirements include graduating from an accredited school of pharmacy, passing national and state board examinations, and completing internship hours. The internship is a period of practical experience conducted under the supervision of a registered pharmacist. Massachusetts requires 1,500 internship hours, all of which are satisfied through completion of IPPEs (co-op) and APPEs.

Professional and/or legal exigencies arise from time to time, which may necessitate changes in a pharmacy course, progression, and/or graduation requirements. Students should review their status with academic advisors on a timely basis and refer to current publications for updated information.

### PROGRAM PROGRESSION

To progress into the first professional year of the PharmD program (P1), students must demonstrate good verbal and written communication skills, understanding of the pharmacy profession, and commitment to patient care through an interview process based on criteria set by the School of Pharmacy.

All students entering P1 in fall 2022 and beyond are required to complete the PharmCAS application. The PharmCAS application process is considered a formality in the progression process and will not jeopardize the student's preferred or guaranteed enrollment status.

### Requirements for the PharmD Pharmacy Practice Experiences (PPEs)

Requirements for the successful completion of the PharmD PPEs include:

1. Evidence of health clearance from University Health and Counseling Services before placements at any PPE site.
2. Satisfactory completion of any additional site-specific requirements including, but not limited to, criminal record information (CORI), urine drug screens, and verification of immunization status. All fees associated with these requirements are the responsibility of the student. Please see below for management of positive urine drug screens.
3. Adherence to the school's code of professional conduct and university's code of conduct policies while off-campus.
4. Maintenance of an active pharmacy intern license in every state where the student completes an experience.
5. Compliance with site-specific requirements (via site descriptions) and completion of site requests within specified deadlines. Students who fail to complete these requirements as directed will likely incur grade penalties and may experience a delay of graduation or dismissal from the pharmacy program.

#### **Management of Positive Urine Drug Screens**

If the student learns the urine drug screen (test #1) is positive, the student will notify the OEE ([pharmacyoee@northeastern.edu](mailto:pharmacyoee@northeastern.edu)) and immediately complete a second urine screen (test #2). A professional concern form will be completed based on test #1 results.

- If urine screen test #2 is negative (-), the student will be allowed to continue the PPEs. However, the student will be asked to complete a random urine screen (test #3) at a time determined by the OEE. If this urine screen (test #3) is positive (+), the student will be administratively removed from the active PPEs and graduation may be delayed. A second professional concern form will be completed, based on test #3 results. The return to PPEs will occur once a repeat urine test is negative. That repeat negative test will be followed up by a random urine screen at a time determined by the OEE.
- If the urine screen (test #2) is positive (+), the student will be administratively removed from the PPEs and graduation may be delayed. The return to PPEs will occur once a repeat urine screen is negative. That negative screen will be followed up by a random urine screen at a time determined by the OEE. A second professional concern form will be completed based on a positive test #3 result.

#### **PROGRAM POLICIES**

Students are expected to adhere to the policies and standards of their program major, as stated, to progress through their curriculum as planned. Students seeking any exceptions to the program policies and standards specified for their program major must present a petition before the School of Pharmacy Academic Standing Committee.

Given programmatic requirements, coupled with concerns over the loss of therapeutic knowledge, requests for a General Leave of Absence (p. 32), other than Medical or Emergency Leave of Absence:

- Must comply with all stated Northeastern University general policies, regardless of the academic year.
- May be made at any time period during the P1 or P2 years.
- During the P3 academic year, any request for a general leave must be made no later than February 1 of the given academic year. Requests after this date will not be permitted.
- During the P4 academic year, requests for a general leave cannot be made at any time.

**SOP PROFESSIONAL CODE OF CONDUCT**

Pre-professional and professional year students are expected to adhere to the SOP - Professional Code of Conduct (<https://bouve.northeastern.edu/assets/uploads/sites/5/2014/08/sop-code-professional-conduct.pdf>).

**TECHNICAL STANDARDS FOR THE DOCTOR OF PHARMACY PROGRAM**

The PharmD program at Northeastern University is a rigorous and challenging academic program that requires students to possess specific characteristics and abilities within the cognitive, affective, and psychomotor domains, referred to here as technical standards. To successfully progress in and ultimately complete the didactic, laboratory, and experiential components of the PharmD program, students must meet the standards described below.

***Intellectual Abilities***

Students must have well-developed problem-solving and critical-thinking skills. Cognitive function must be appropriate to integrate, evaluate, and apply information gained through measurement, analysis, calculation, and reasoning. Students must have the capacity to learn efficiently in classroom, laboratory, small group and experiential settings, and through independent study. Students are required to demonstrate the ability to integrate course content knowledge with clinical practice applications to optimize medication therapy management.

***Communication Skills***

Students must be able to communicate effectively with colleagues, professors, patients, families, and healthcare providers. This includes efficiently comprehending, speaking, reading, and writing in English. Students must be able to process and use appropriate nonverbal cues and be proficient in the use of electronic communication media.

***Behavioral and Social Attributes***

Students must demonstrate professionalism, maturity, integrity, honesty, compassion, and respect when relating to others. Students must have sufficient mental and emotional health to complete work and responsibilities using good judgment. Students must be able to tolerate and adapt to stressful workloads and situations and modify behavior based on constructive criticism. Students must be able to function in accordance with the legal, ethical, and professional standards of practice.

***Observation and Motor Skills***

Students must have functional use of visual, auditory, and tactile senses. Students must be able to observe and perform experiments, physical assessments, patient interviews, and medication order processing. Students must be able to distinguish physical characteristics of medications by inspection. Students must have coordination of gross and fine muscular movements sufficient to perform pharmacy-related tasks including compounding and dispensing medications, administering medications, and using computers and other technology necessary for learning and professional practice

**ACADEMIC DISMISSAL FROM MAJOR**

PharmD students in the Bouvé College of Health Sciences will be dismissed from their major effective the following academic semester for any of the reasons noted below:

- Failure to earn a grade of C or better in three professional courses, regardless of remediation. Within the PharmD program, each specific professional course (with separate registration number) will be counted as a separate failure even if content is related.
- Failure to earn the minimum required grade in the same course twice.
- Failure to maintain a GPA of 3.000 after two semesters of probation.
- The expected graduation date may not change more than twice.

The PharmD program monitors and promotes the development of professional behaviors in its students to ensure appropriate professionalism in the classroom, local and global communities, and clinical settings. Breach of adherence to these standards may result in dismissal from the program.

**ACADEMIC APPEALS**

Students who believe that they were erroneously, capriciously, or otherwise unfairly treated in an academic or cooperative education decision may petition to appeal the decision. Refer to the Bouvé College of Health Sciences Academic Affairs Appeals Process and the Northeastern University Appeals Policies and Procedures.

**PROGRESSION TO THE 4TH PROFESSIONAL YEAR (P4) OF THE PHARMD PROGRAM**

Students enrolled in the PharmD program will be awarded a Bachelor of Science in Pharmacy Studies after successful completion of all didactic and laboratory courses in semesters 1 through 13 of the pharmacy curriculum. To earn the PharmD degree, students must complete an additional 36 semester hours of APPEs with an overall GPA of 3.000 or higher. The PharmD degree is required to pursue licensure or registration as a pharmacist; graduates with the Bachelor of Science in Pharmacy Studies degree only are not eligible for pharmacist licensure.

**PROGRAM STUDENT LEARNING OUTCOMES**

Please visit Bouvé College Learning Outcomes for the specific student learning outcomes for this program.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

Some NUpath requirements are not explicitly satisfied by required courses. Students are responsible for satisfying these requirements with an elective. Students who incur an incomplete grade in a prerequisite course may not progress into the subsequent courses(s). Any exceptions will be determined by protocols established by the program, after consultation with the student's academic advisor.

-----------	--	---

*Students are eligible to begin Advance Pharmacy Practice Experiences (APPEs) following successful completion of didactic coursework. Completing didactic coursework during P4 year is prohibited.<sup>2</sup>*

<sup>1</sup> For pharmacy students, an unsatisfactory grade (U) in a co-op will be counted as a professional course deficiency.

<sup>2</sup> After completion of Semester 13, students who meet program requirements will earn the Bachelor of Science in Pharmacy Studies degree and progress into the final professional year of the program. This consists of one year of graduate study and 36 hours of Advanced Pharmacy Practice Experience coursework. See the PharmD program in the Northeastern University Graduate Catalog (<http://catalog.northeastern.edu/graduate/health-sciences/pharmacy/pharmd/#programrequirements>) for details.

## Elective Requirements

Code	Title	Hours
<b>Open Electives</b>		
A minimum of 16 semester hours of open electives is required. Additional electives may be required to fulfill the total semester hours required for your program.		16
Students must use open electives to fulfill the NUpath Interpreting Culture and Exploring Creative Expression and Innovation attributes (if not already fulfilled through prior coursework).		
<b>Professional Electives</b>		
Complete at least 2 semester hours during the professional phase of the program (after semester 5) from the following:		2
CAEP 3480	Counseling Theories and Practice	
CAEP 5200	Motivational Interviewing in a Healthcare Setting	
CAEP 6203	Understanding Culture and Diversity	
HINF 5101	Introduction to Health Informatics and Health Information Systems	
HINF 5407	Business Application of Decision Support in Healthcare	
HINF 6205	Creation and Application of Medical Knowledge	
HINF 6404	Patient Engagement Informatics and Analytics	
HLTH 1510	Introduction to Healthcare Ethics	
HLTH 2100	Interprofessional Ethics for Individual and Population Health	
HLTH 2302	Alternative Medicine	
HLTH 5002	Mindfulness: Theory and Practice	
HLTH 5135	Developing an Interdisciplinary Approach to Health Management for Older Adults	
HLTH 5280	The (in)Visibility of (dis)Ability in Society	
HLTH 5730	Global Perspectives in Disability and Health	
HSCI 1105	Human Nutrition	
HSCI 2350	Advanced Nutrition in Health and Disease	

HSCI 2500	Public Health Nutrition in the Community
HSCI 5230	Clinical Nutrition Applications in Health and Disease
NRSG 1205	Wellness
PHMD 3600	Leadership and Advocacy in Health Professions
PHMD 4350	Exploring Academic Careers
PHMD 4581	Cancer Chemotherapy
PHMD 4585	Research Methods in Health Systems
PHMD 4700	Principles in General Medicine
PHMD 4890	Contemporary Issues in Geriatric Pharmacy
PHMD 4991	Research
PHMD 4992	Directed Study
PHMD 5223	Evidence-Based Medicine
PHMD 5575	Pharmaceutical Industry
PHMD 5675	Ambulatory Care Pharmacy Practice in Urban Health
PHMD 5900	Self-Care and Nonprescription Medications: A Team-Based Approach
PHSC 4991	Research
PHSC 4992	Directed Study
PHSC 5100	Concepts in Pharmaceutical Science
PHSC 5400	Principles of Drug Design
PHSC 5500	Repurposing Drugs for Cancer Immunotherapies
PHSC 5555	Pharmaceutical Toxicology
PHSC 6218	Biomedical Chemical Analysis
PHSC 6222	The Chemistry and Biology of Drugs of Abuse
PHSC 6224	Behavioral Pharmacology and Drug Discovery
PHSC 6290	Biophysical Methods in Drug Discovery
PHTH 1270	Introduction to Global Health
PHTH 5222	Health Advocacy
PHTH 5226	Strategic Management and Leadership in Healthcare
PHTH 5230	Global Health
PHTH 5232	Evaluating Healthcare Quality
PHTH 5234	Economic Perspectives on Health Policy
PHTH 5300	Project Management in Public Health
PHTH 5310	Budget Principles in Public Health
PHTH 5320	Grant Writing in Public Health
PHTH 6320	Qualitative Methods in Health and Illness
PMST 6250	Advanced Physical Pharmacy
PMST 6254	Advanced Drug Delivery Systems
SLPA 1101	Introduction to Communication Disorders
SLPA 1555	Communication Disorders in Movies

## Supporting Courses

<b>SEMESTER 4</b>		
CHEM 2313 and CHEM 2314 and CHEM 2320	Organic Chemistry 2 and Lab for CHEM 2313 and Recitation for CHEM 2313	5
ENGW 3306	Advanced Writing in the Health Professions	4

*The university requires a minimum grade of C for Advanced Writing in the Health Professions (ENGW 3306). The university's minimum passing grade for the course will be accepted for all other courses.*

## Program Requirement

To progress into the subsequent semester of professional courses, students must receive a grade of C or better in all PHMD and PHSC courses, as well as in any course completed to fulfill the professional elective requirement.

Pharmacy (PharmD-U) students must maintain an overall GPA of 3.000 or higher during the professional years (P1–P4) of the Doctor of Pharmacy program.

Pharmacy students with a cumulative GPA of 3.200 or less and/or science prerequisite GPA of 3.000 or less following the fall semester of the sophomore year may experience a delayed start as a registered pharmacy intern for the first co-op (IPPE), as the School of Pharmacy will not submit intern licensure documentation to the Massachusetts Board of registration in Pharmacy until satisfactory spring grades are verified.

### Pharmacy Studies, BS

Students enrolled in the Doctor of Pharmacy (PharmD) program will be awarded a Bachelor of Science in Pharmacy Studies after successful completion of all requirements in semesters 1 through 10 of the pharmacy curriculum (i.e., all requirements except for Advanced Pharmacy Practice Experiences). Pharmacy students must maintain an overall GPA of 3.000 or higher during the professional years (P1 – P4) of the Doctor of Pharmacy program. Please see the PharmD page (p. 602) in the Northeastern University Catalog for policies that apply to this program.

#### ACADEMIC APPEALS

Students who believe that they were erroneously, capriciously, or otherwise unfairly treated in an academic or cooperative education decision may petition to appeal the decision. Refer to the Bouvé College of Health Sciences Academic Affairs Appeals Process and the Northeastern University Appeals Policies and Procedures.

#### PROGRAM STUDENT LEARNING OUTCOMES

See Bouvé College Learning Outcomes for the specific student learning outcomes for this program.

#### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

#### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

#### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

Some NUpath requirements are not explicitly satisfied by required courses. Students are responsible for satisfying these requirements with an elective.

Students who incur an incomplete grade in a prerequisite course may not progress into the subsequent courses(s). Any exceptions will be determined by protocols established by the program, after consultation with the student's academic advisor.

<b>SEMESTER 4</b>		
CHEM 2313 and CHEM 2314 and CHEM 2320	Organic Chemistry 2 and Lab for CHEM 2313 and Recitation for CHEM 2313	5
ENGW 3306	Advanced Writing in the Health Professions	4

The university requires a minimum grade of C for Advanced Writing in the Health Professions (ENGW 3306). The university's minimum passing grade for the course will be accepted for all other courses.

## Program Requirement

If the Bachelor of Science in Pharmacy Studies degree is the terminal degree (i.e., the student does not plan to continue on to the fourth professional year), an overall grade-point average (GPA) of 2.000 or greater is considered acceptable. Students who earn the Bachelor of Science in Pharmacy Studies as the terminal degree are not eligible for pharmacist licensure.

Pharmacy students with a cumulative GPA of 3.200 or less and/or science prerequisite GPA of 3.000 or less following the fall semester of the sophomore year may experience a delayed start as a registered pharmacy intern for the first co-op (IPPE), as the School of Pharmacy will not submit intern licensure documentation to the Massachusetts Board of Registration in Pharmacy until satisfactory spring grades are verified.

To progress into the subsequent semester of professional courses, students must receive a grade of C or better in all PHMD and PHSC courses, as well as in any course completed to fulfill the professional elective requirement.

To progress into the first professional year of the PharmD program (P1), students must demonstrate good verbal and written communication skills, understanding of the pharmacy profession, and commitment to patient care through an interview process based on criteria set by the School of Pharmacy.

All students entering P1 in fall 2022 and beyond are required to complete the PharmCAS application. The PharmCAS application process is considered a formality in the progression process and will not jeopardize the student's preferred or guaranteed enrollment status.

164 total semester hours required

## Plan of Study

Please see the PharmD page (p. 607) in the Northeastern University Catalog for plan of study.

### Pharmaceutical Sciences, BS

The Bachelor of Science in Pharmaceutical Sciences is geared toward highly motivated students who are strongly focused on careers in a number of competitive areas:

- Research: biomedical/pharmaceutical research, biomedicine, and/or the pharmaceutical/biotech industries
- Healthcare: curriculum provides opportunities to meet the core requirements requested by medical, veterinary and dental schools, while providing an immersive background in research and the pharmaceutical sciences

The educational approach is an innovative paradigm that immerses students into undergraduate research at the earliest possible time and promotes graduate-style mentorship and experiential learning in the context of an intensive curriculum with specialized educational opportunities. Pharmaceutical sciences are by nature highly interdisciplinary: pharmacology; physiology; structural biology; medicinal chemistry; pharmaceuticals and the allied fields of toxicology, chemical biology, and nanomedicine; and a spectrum of emerging health science disciplines that span classical life sciences, engineering, and biotechnology. All students take courses in basic chemistry, basic biology, organic chemistry, physiology, pharmacology, medicinal chemistry, and pharmaceutical sciences. Students can then further specialize their program of study with elective courses in interest areas aligned with their developing career trajectories.

Graduates of the Bachelor of Science in Pharmaceutical Sciences program will have a solid foundation in the science of drug discovery, delivery, evaluation, and development, as well as specialized training at the undergraduate level in research labs.

The program prepares students to pursue graduate studies, enroll in professional programs such as medical, veterinary or dental school, or enter the biopharmaceutical industry. The BS degree requires a minimum of four years of study and at least one co-op experience. Graduates are positioned to pursue MS and PhD programs in the biomedical sciences, medical schools, and other health professional degree programs.

## Bachelor of Science in Pharmaceutical Sciences—Progression Standards

The Bachelor of Science in Pharmaceutical Sciences requires students to satisfy a set of academic standards that include maintaining an overall GPA of 3.000 or better. A grade of C is the minimal passing grade for any of the required courses in the major.

Bachelor of Science Students in this program are expected to maintain a cumulative GPA of 3.000 each semester to remain in good academic standing and to progress towards graduation. If a student's cumulative GPA falls below the required 3.000, a student may be on probation for only two semesters, or until the course is offered again, unless the advisor approves an action plan that specifies a longer (but definite) period. A student may only be placed on probation twice during enrollment in the program and must correct all deficiencies, as specified, in each respective action plan during the applicable probationary period.

Failure to remediate the deficiency within the agreed time may result in dismissal from the program.

The program also requires students to seek out and establish, with program support, research opportunities with a faculty-level mentor. It is advised that students get involved in laboratory research during their first year in the program. Each student must secure a laboratory research opportunity by the fall semester of the second year and complete a course to develop lab based research skills.

## Securing a Laboratory Research Experience

The Bachelor of Science in Pharmaceutical Sciences requires students to earn a minimum of 12 credits for laboratory research through participation in a research rotation (Lab Research Rotation (PHSC 2100)) and the writing and completion of an undergraduate thesis (comprised of Senior Thesis (PHSC 4997) and Senior Thesis Continuation (PHSC 4998)). Each student must take the initiative to seek out opportunities for undergraduate laboratory research either on campus, off campus at a neighboring university, or in an industry setting accessible to the student, under the direction of a faculty-level mentor. Students are assisted with securing laboratory research experiences through participation in Introduction to Health Science Research (PHSC 2650) and, as needed, through work with a faculty advisor within the Bachelor of Science Pharmaceutical Sciences program. A variety of university resources are also available to assist students in finding opportunities, including the Bouvé College Office of Research, the Northeastern University Office of Undergraduate Research and Fellowships, the Northeastern University Integrated Initiative for Global Health, and various other departmental and college resources across Northeastern University.

## Change of Major

Students are eligible to transfer into the program at any point prior to the third year of the program. Students must have an overall GPA of 3.000 or better.

## Academic Appeals

Students who believe that they were erroneously, capriciously, or otherwise unfairly treated in an academic or cooperative education decision may petition to appeal the decision. Refer to the Bouvé College of Health Sciences Academic Affairs Appeals Process and the Northeastern University Appeals Policies and Procedures.

## Program Learning Outcomes

Please visit Bouvé College Program Learning Outcomes (<https://bouve.northeastern.edu/bchs/about/learning-outcomes/>) for the specific student learning outcomes for this program.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Program Requirements**

Some NUPATH requirements are not explicitly satisfied by required courses. Students are responsible for satisfying these requirements with open electives.

Premed students have the opportunity to complete all necessary coursework via required and elective courses in the BS in Pharmaceutical Sciences program. Please refer to premed course requirements (<https://undergraduate.northeastern.edu/prehealth/academics/coursework/>).

Minimum of 145 semester hours required

### Health Sciences Entrepreneurship, Minor

The health sciences entrepreneurship minor is for undergraduate students from any major, in any college at the university, who have an interest in developing skills in the creation and management of health sciences companies. The minor builds on currently offered courses within and outside of Bouvé College of Health Sciences. This minor allows students to apply the entrepreneurial mindset to develop marketable and applicable skills conversant in the unique regulatory, reimbursement, and promotion of products and services in the health sciences. Providing opportunities to develop these skills will benefit students pursuing positions within healthcare organizations and medical technology businesses, as well as students wishing to be entrepreneurs or innovators in the companies that employ them.

#### Minor Requirements

The minor consists of three required courses and one elective course. Up to *two courses* from other major and minor requirements may apply to this minor.

#### Required Courses

Code	Title	Hours
PHMD 2350 or PHTH 1260	Healthcare Systems The American Healthcare System	3-4
PHMD 2100	Entrepreneurship in Health Sciences	4
PHMD 2550	Innovation, Entrepreneurship, and Drug and Medical Device Development	4

#### Elective Courses

Code	Title	Hours
Complete one of the following:		3-4
ENTR 2206	Global Social Enterprise	
ENTR 2301	Innovation!	
ENTR 2303	Marketing Strategies for Startups	
ENTR 2304	Industry Disruption and Corporate Transformation	

ENTR 3305	Business Model Innovation for Entrepreneurs
ENTR 3330	Lean Design and Rapid Prototyping
ENTR 4505	Entrepreneurial Growth Strategy for Technology Ventures
PHTH 2515	Healthcare Policy and Administration
PHTH 4515	Critical Issues in Health and Public-Health Policy
PHTH 5234	Economic Perspectives on Health Policy

#### GPA Requirement

Students are required to have an overall grade-point average of 2.000 or higher.

#### Credit Requirement

15 hours required

### Pharmaceutical Sciences, Minor

The minor in pharmaceutical sciences is open to all majors at the university with the exception of Bouvé PharmD and BS Pharmaceutical Sciences students. The minor is designed for undergraduate students from a variety of disciplines who wish to explore key aspects of the pharmaceutical sciences, including pharmacology, medicinal chemistry, and pharmaceuticals. It is comprised of three required courses and one elective for a minimum of 15 hours. Students who believe that additional exposure to these topics will integrate effectively with their major (particularly students in biology and chemistry majors, as well as those in chemical and bioengineering programs and health sciences) are encouraged to pursue this minor.

#### Minor Requirements

Successful completion of the minor requires that all coursework be completed with a minimum grade of D and courses may not be taken as pass/fail. The minor consists of three required courses and one elective course. Up to *two courses* from other major and minor requirements may apply to this minor.

#### Required Courses

Code	Title	Hours
PHSC 3411	Pharmaceutics 1	4
PHSC 3801	Principles of Pharmacology and Medicinal Chemistry 1	4
PHSC 3802	Principles of Pharmacology and Medicinal Chemistry 2	4

#### Elective Courses

Code	Title	Hours
Complete one of the following:		3-4
PHSC 2301 and PHSC 2302	Human Physiology 1 and Human Anatomy Lab	
PHSC 2303 and PHSC 2304	Human Physiology 2 and Human Physiology Lab	
PHSC 2330	Immunology	
PHSC 3412	Pharmaceutics 2	
PHSC 3430	Pharmacokinetics and Biopharmaceutics	

PHSC 5400	Principles of Drug Design
CHEM 5676	Bioorganic Chemistry

## GPA Requirement

Minimum 2.000 GPA required in the minor

## Credit Requirement

15 hours required

### Accelerated Bachelor/Graduate Degree Programs

Bouvé College of Health Science offers a number of bachelor's/graduate degree programs that allow students to accelerate the attainment of the graduate degree by applying graduate credits taken as an undergraduate toward both the undergraduate and graduate degrees. Degrees are earned sequentially, with the bachelor's degree attainment followed by coursework to complete the graduate degree. See additional information on accelerated bachelor/graduate degree programs (<https://registrar.northeastern.edu/article/plusone-program-accelerated-bachelorgraduate-degree-programs/>).

### College of Science

[COsAdvising@northeastern.edu](mailto:COsAdvising@northeastern.edu)

The College of Science (COS) offers instructional programs that are at the forefront of discovery, invention, and innovation in the physical sciences, life sciences, linguistics, and mathematics. Our programs are designed to give students a deep understanding and hands-on experience in traditional and emerging interdisciplinary fields such as chemical biology, cognition and neuroscience, marine science, biochemistry, nanoscience, and network science.

The college places a strong emphasis on the experiential learning model and seeks to provide students with a wide array of opportunities to explore innovative, interdisciplinary collaborations through cooperative educational work assignments, service-learning, undergraduate research, internships, study-abroad programs, and active participation in our award-winning student chapters of professional associations. The college seeks to provide students with the best possible foundation for achieving their goals, whether they seek to attend graduate school, professional school, or immediately pursue a career upon graduation.

The college offers Bachelor of Arts (BA), Bachelor of Science (BS), and Bachelor of Science/Master of Science (BS/MS) (PlusOne programs) degrees in a number of majors and emphasizes the value of a solid general education through NUpath. Students may choose a four- or five-year experiential learning plan in most programs. Either plan offers co-op opportunities, often in an area related to the student's chosen academic area.

Many programs are flexible enough to allow students to pursue a double major, a major and a minor, or one of the college's specific combined majors. The college also offers students the opportunity to create an independent major in cases where their interests and goals are not met by a specific major program.

### PlusOne Programs

Many programs and departments offer academically strong students the option of obtaining their BS and MS degree in five years.

### College Requirements

All students in the College of Science must successfully complete the university requirements of NUpath (p. 46). In addition, students pursuing a Bachelor of Arts degree must fulfill the BA requirements (p. 49).

### Academic Advising

The College of Science has an academic advising system that consists of professional advisors and faculty advisors located in the college's department and program offices. Detailed advising information is available on the college website (<http://www.northeastern.edu/cos/>). Prelaw (<http://www.northeastern.edu/prelaw/>) advising and prehealth (<http://www.northeastern.edu/prehealth/>) advising are also available.

### Graduation Clearance Process

Students in the College of Science are required to meet with an academic advisor in the College of Science to determine their remaining graduation requirements. This should be completed in the junior year to ensure ample time to complete any outstanding requirements.

### Academic Progression Standards

In addition to meeting university progression standards, it is expected that full-time science students enroll in four (3- or 4-credit) courses with appropriate labs and recitations and successfully complete at least 12 semester hours each academic semester with an acceptable GPA as noted below. Any exceptions to the course load requirement must be approved in writing by the student's academic advisor prior to the start of each semester. Pass/fail courses are restricted to electives outside of the major, minor, and NUpath requirements.

### Graduation Requirements

A minimum cumulative GPA requirement of 2.000 in major courses and a minimum cumulative GPA requirement of 2.000 overall are required for graduation. *Note:* The university requires a minimum grade of C for First-Year Writing and Advanced Writing requirements.

### Criteria for Academic Probation

Full-time students in the College of Science will be placed on academic probation effective for the following academic semester for any of the reasons noted below. A notation of the academic probation action will appear on the internal record but not on the permanent transcript.

**First-year Students:**

- Not maintaining a semester GPA of at least a 1.800 at the end of each full-term semester (fall, spring) of the first-year curriculum
- Not earning at least 12 semester hours at the end of each fall and spring semester of the first-year curriculum
- Not earning at least 24 semester hours at the end of the two full-term semesters (fall, spring) of the first-year curriculum
- Accumulating three outstanding course deficiencies (grades of F, I, W, NE, U, or missing grades)

**Upper-class and Transfer Students:**

- Not earning at least 12 semester hours in the academic full-term semester (fall, spring) just completed
- Not maintaining an overall cumulative GPA of at least 2.000 at the end of each full-term academic semester (fall, spring)
- Accumulating three outstanding course deficiencies (grades of F, I, W, NE, U, or missing grades)
- Not following a program of study approved by the student's academic advisor

**Academic Dismissal from Major**

Students can be dismissed from their major for not maintaining a GPA of at least a 2.000 in the major at the end of the second academic full-term semester of the curriculum and at the end of each full-term academic semester (fall, spring) thereafter. Students dismissed from their major, but otherwise eligible to remain an active student within the university, are allowed to continue within the College of Science as a transitional student for up to two semesters.

**Academic Dismissal from University**

Students who remain on probation after two full-term academic semesters may be dismissed from the university. This action may appear on the transcript at the end of the second probationary semester. In addition, students who have below a 1.000 GPA or fewer than 4 earned semester hours in any semester or cumulatively may be dismissed at the discretion of their college. Students may appeal this decision to the Academic Standing Committee. International students must consult with an advisor in the Office of Global Services (OGS) (<http://www.northeastern.edu/ogs/>) to discuss the impact of an academic dismissal as it relates to nonimmigrant visa status.

**Behavioral Neuroscience**

Website (<https://cos.northeastern.edu/behavioral-neuroscience/>)

**Jennifer Ingemi, PhD**

Assistant Teaching Professor and Interim Director

203 Mugar Life Sciences Building  
617.373.2852  
bns@northeastern.edu

Behavioral neuroscience is a broad and dynamic interdisciplinary field that focuses on understanding physiological brain mechanisms and how they give rise to behavioral functions in humans and animals. The relationship between the brain's activity and an organism's behavior, both normal and pathological, is examined at multiple levels of analysis, from how a cell functions to how a facial expression conveys trust or fear.

As a behavioral neuroscience major, you will take courses across multiple departments to acquire foundational knowledge and strong critical

thinking skills in the realms of biology, psychology, physical sciences, and mathematics. Through our combined majors, you can explore the intersection of behavioral neuroscience with complementary disciplines including philosophy, design, computer science, and data science. For some of our majors, we offer an accompanying PlusOne Master of Science in Bioinformatics or Applied Behavior Analysis.

Ample opportunities exist for students to put theory into practice while acquiring valuable hands-on research and clinical experience at renowned institutions across the world through Northeastern's co-op program. Faculty-mentored directed studies and honors projects are guided by investigators with shared interests from academic units, centers, and institutes throughout campus.

Our rigorous and comprehensive curriculum is designed to prepare students for employment in clinical settings or the biotech and pharmaceutical industry or for further graduate training in a plethora of science disciplines or in healthcare professions. Our graduates are qualified for a wide variety of careers including nonprofits, law, science writing, big data, artificial intelligence, and more.

**Programs****Bachelor of Science (BS)**

- Behavioral Neuroscience (p. 614)
- Behavioral Neuroscience and Design (p. 88)
- Behavioral Neuroscience and Philosophy (p. 619)
- Computer Science and Behavioral Neuroscience (p. 331)
- Data Science and Behavioral Neuroscience (p. 400)

**Minor**

- Behavioral Neuroscience (p. 627)

**Accelerated Programs**

See Accelerated Bachelor/Graduate Degree Programs (p. )

**Behavioral Neuroscience, BS**

The behavioral neuroscience curriculum focuses on the biological bases underlying behavior under normal and pathological states. The program combines the disciplines of biology and psychology with a strong background in basic physical sciences and mathematics to understand how the behavior of humans and animals is controlled by physiological systems. Students gain a solid foundation in the anatomical and functional specializations of the brain and neural mechanisms from neurons to circuits to networks. Students then choose from a range of advanced electives, including those that make up the behavioral neuroscience core, to delve deeply into diverse specializations and current topics in the field.

*Note:* Due to overlap in course content, double majoring in behavioral neuroscience with any of the following majors is not permitted: psychology, biology, cell and molecular biology, or biochemistry.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Behavioral Neuroscience Core Requirements

Code	Title	Hours
Complete five of the following courses. At least three must be numbered in the 4000–5999 range:		20-21

Code	Title	Hours
BIOL 3403	Animal Behavior	
BIOL 3415	Current Topics in Behavioral Neuroscience	
BIOL 3601	Neural Systems and Behavior	
BIOL 3605	Developmental Neurobiology	
BIOL 4705	Neurobiology of Cognitive Decline	
BIOL 4709	Neurobiology of Learning and Memory	
BIOL 5587 or BIOL 3405	Comparative Neurobiology Neurobiology	
BIOL 5595	Cell and Molecular Neuroscience	
BIOL 5601	Multidisciplinary Approaches in Motor Control	
PSYC 3506	Neuropsychology of Fear	
PSYC 3508	Behavioral Endocrinology	
PSYC 3510	Brain, Behavior, and Immunity	
PSYC 4510	Psychopharmacology	
PSYC 4512	Neuropsychology	
PSYC 4514	Clinical Neuroscience	
PSYC 4570	Behavioral Genetics	
PT 5410 and PT 5411	Functional Human Neuroanatomy and Lab for PT 5410	
One course may be a research or experiential course:		
BIOL 4991	Research	
BIOL 4994	Internship	
BIOL 4970	Junior/Senior Honors Project 1	
BIOL 4971	Junior/Senior Honors Project 2	
BNSC 4994	Internship	
BNSC 4970	Junior/Senior Honors Project 1	
BNSC 4971	Junior/Senior Honors Project 2	
PSYC 4540	Quantitative Topics in Psychology and Behavioral Neuroscience	
PSYC 4550	Basic Principles of Magnetic Resonance Physics and Applications in Neuroscience	
PSYC 4624	Laboratory in Affective Science	
PSYC 4626	Laboratory in Life-Span Emotional Development	
PSYC 4991	Directed Study Research	
PSYC 4994	Internship in Psychology	
PSYC 4965	Undergraduate Teaching Experience	
PSYC 4970	Junior/Senior Honors Project 1	
PSYC 4971	Junior/Senior Honors Project 2	

## Behavioral Neuroscience Advanced Courses

Code	Title	Hours
<b>Psychology Elective</b>		
An additional behavioral neuroscience core course may be used to fulfill this requirement.		
Complete one of the following:		4
PSYC 3358	Behavior Therapies	
PSYC 3404	Developmental Psychology	
PSYC 3406	Abnormal Psychology	
PSYC 3450	Learning and Motivation	
PSYC 3451	Learning Principles and Behavior Analysis	
PSYC 3452	Sensation and Perception	
PSYC 3464	Psychology of Language	
PSYC 3466	Cognition	
PSYC 4520	Language and the Brain	
PSYC 4524	Cognitive Development	
<b>Biology Elective</b>		
Complete one of the following:		4-5
BIOL 3401	Comparative Vertebrate Anatomy	
BIOL 3409	Current Topics in Biology

**Behavioral Neuroscience and Design, BS**

The behavioral neuroscience and design combined major engages students in an interdisciplinary study across the biology, psychology, and Art + Design departments to integrate fundamental design courses with a strong foundation in the physiological brain mechanisms that give rise to behavioral functions. The latest research in neuroscience and psychology enables designers to maximize the impact of their designs and, conversely, complex neuroscientific concepts can be made intelligible to a wider public through creative visual works. Students in this major have the opportunity to learn about the inner workings of the brain and how its various structures interact to enhance their approach to design methodologies. Students can then apply these principles to biomimetic medical devices as well as data and network visualization.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Behavioral Neuroscience Requirements**

ARTF 1124 and ARTF 1125	Form and Structure and Form and Structure Tools	
ARTF 2220	Movement and Time (with optional ARTF 2221)	
ARTF 2223	Experience and Interaction (with optional ARTF 2224)	
<b>Design Courses</b>		
ARTG 1250	Design Process Context and Systems	4
ARTG 2250	Typography 1 (with optional ARTG 2251)	4
ARTG 3350	Typography 2	4
ARTG 3451 or ARTG 5330	Information Design 1 Visualization Technologies 1: Fundamentals	4

### Art + Design History

Complete one of the following:		4
ARTH 1400	The Science of Art, the Art of Science	
ARTH 2210	Modern Art and Design History	
ARTH 2211	Contemporary Art and Design History	
ARTH 2213	Nineteenth-Century Art	

### Degree Capstone Project

ARTG 4550	Design Degree Project 1	4
-----------	-------------------------	---

## Design Options

Code	Title	Hours
Complete one of the following options:		8
<b>Interaction Design Option</b>		
ARTG 2400	Interaction Design 1: Responsive (with optional ARTG 2401)	
ARTG 3700	Interaction Design 2: Mobile	
<b>Graphic and Information Design Option</b>		
ARTG 2252	Graphic Design 1	
ARTG 3450	Graphic Design 2	
<b>Experience Design Option</b>		

ARTG 3462 Experience Design 1

ARTG 3463 Experience Design 2

## Integrative Requirements

Code	Title	Hours
<b>Integrative Courses</b>		
BIOL 5587	Comparative Neurobiology	4
ARTG 5310	Visual Cognition	4
<b>Upper-Division Elective</b>		
Complete one course that is not already taken as long as prerequisites have been met:		4
Any 2000-level or higher ARTG, ARTE, ARTD, ARTH, or ARTS course		
BNSC 4970 or higher		
BIOL 3403 or higher		
PSYC 3404 or higher		

## Writing Requirements

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111 or ENGW 1102	First-Year Writing First-Year Writing for Multilingual Writers	4
<b>Advanced Writing in the Disciplines</b>		
ENGW 3307 or ENGW 3314 or ENGW 3315	Advanced Writing in the Sciences Advanced Writing in the Arts, Media, and Design Interdisciplinary Advanced Writing in the Disciplines	4

## Required General Electives

Code	Title	Hours
Complete 16 credits of general electives.		16

## Major Credit Hour Requirement

104 semester hours in the major.

## Program Requirements

133 total semester hours required

## Plan of Study

## Behavioral Neuroscience and Philosophy, BS

The behavioral neuroscience and philosophy combined degree program engages students in the interdisciplinary study across the biology, psychology, and philosophy departments. The major provides rigorous training in both disciplines with a specific focus on understanding seminal questions concerning human nature and the mind. Courses

in the basic sciences will lay a strong foundation in biology, chemistry, and data analytics that are relevant to neuroscience. In behavioral neuroscience core courses, students will examine the structure and function of the human nervous system in order to explore brain mechanisms that give rise to behavioral functions, including cognitive processes, as well as pathological states. In philosophy courses, successful students will develop core analytics skills, including ethical reasoning; learn to recognize and question deep theoretical assumptions at the heart of scientific theories and practice; and explore the social and ethical dimensions of neuroscience and scientific practice more broadly. The fields of behavioral neuroscience and philosophy are further bridged with course work that is designed to enable students to apply neuroscientific concepts to philosophical, moral, and ethical questions.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Behavioral Neuroscience Requirements

Code	Title	Hours
<b>Behavioral Neuroscience Overview</b>		
BNSC 1000	Behavioral Neuroscience at Northeastern <sup>1</sup>	1
EESC 2000	Professional Development for Co-op <sup>2</sup>	1
<b>COS Foundations</b>		
PSYC 1101	Foundations of Psychology	4
BIOL 1107 and BIOL 1108	Foundations of Biology and Lab for BIOL 1107	5
BIOL 2299	Inquiries in Biological Sciences	4
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
CHEM 1161 and CHEM 1162	General Chemistry for Science Majors and Lab for CHEM 1161	5
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5
<b>Mathematics Foundation</b>		
MATH 1251	Calculus and Differential Equations for Biology 1	4
or MATH 1341	Calculus 1 for Science and Engineering	
<b>Statistics Foundation</b>		
Complete one of the following:		4-5
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	
or PSYC 2320	Statistics in Psychological Research	
<b>Behavioral Neuroscience Foundation</b>		
PSYC 3200	Clinical Neuroanatomy	4
PSYC 3458	Biological Psychology	4
<b>Psychology Elective</b>		

Complete one of the following:		4
PSYC 1214	The Moral Mind: The Science Underlying Ethical Decision-Making and Virtuous Character	
PSYC 3404	Developmental Psychology	
PSYC 3406	Abnormal Psychology	
PSYC 3450	Learning and Motivation	
PSYC 3451	Learning Principles and Behavior Analysis	
PSYC 3452	Sensation and Perception	
PSYC 3464	Psychology of Language	
PSYC 3466	Cognition	
PSYC 4520	Language and the Brain	
PSYC 4524	Cognitive Development	

## Behavioral Neuroscience Core Courses

Complete two of the following:		8
BIOL 3403	Animal Behavior	
BIOL 3415	Current Topics in Behavioral Neuroscience	
BIOL 3601	Neural Systems and Behavior	
BIOL 3605	Developmental Neurobiology	
BIOL 4705	Neurobiology of Cognitive Decline	
BIOL 5595	Cell and Molecular Neuroscience	
BIOL 5601	Multidisciplinary Approaches in Motor Control	
PSYC 3506	Neuropsychology of Fear	
PSYC 3508	Behavioral Endocrinology	
PSYC 3510	Brain, Behavior, and Immunity	
PSYC 4510	Psychopharmacology	
PSYC 4512	Neuropsychology	
PSYC 4514	Clinical Neuroscience	
PSYC 4570	Behavioral Genetics	

## Upper-Division Elective

Complete one course that is not already taken as long as pre-requisites have been met:		4
BNSC 4970 or higher		
BIOL 3403 or higher		
PSYC 3404 or higher		

<sup>1</sup> Students entering through CSSH may take Philosophy at Northeastern (PHIL 1000).

<sup>2</sup> Students entering through CSSH may take Professional Development for Co-op (EESH 2000).

## Philosophy Requirements

Code	Title	Hours
<b>Philosophy Foundation</b>		
PHIL 1105	Science and Pseudoscience	4
or PHIL 3050	Information and Uncertainty	
PHIL 1115	Introduction to Logic	4
PHIL 1145	Technology and Human Values	4
PHIL 2325	Ancient Philosophy and Political Thought	4
or POLS 2325	Ancient Philosophy and Political Thought	
PHIL 2330	Modern Philosophy	4

**Philosophy Restricted Electives**

Complete eight credits from the following list, not taken to fulfill other requirements: 8

PHIL 3360	Scientific Approaches to Philosophy
PHIL 3435	Moral Philosophy
PHIL 4500	Theory of Knowledge
PHIL 4510	Philosophy of Science
PHIL 4535	Philosophy of Mind
PHIL 4555	Philosophy of Biology

**Additional Electives**

Complete two additional PHIL courses, not taken to fulfill other requirements. 8

**Integrative Requirements**

Code	Title	Hours
BIOL 4709 or BIOL 5587	Neurobiology of Learning and Memory Comparative Neurobiology	4
PHIL 4535 or PHIL 4555	Philosophy of Mind Philosophy of Biology	4

**Writing Courses**

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111 or ENGW 1102	First-Year Writing First-Year Writing for Multilingual Writers	4

**Advanced Writing in the Disciplines**

ENGW 3307 or ENGW 3308 or ENGW 3309 or ENGW 3315	Advanced Writing in the Sciences Advanced Writing in the Social Sciences Advanced Writing in the Humanities Interdisciplinary Advanced Writing in the Disciplines	4
---	--	---

**Required General Electives**

Code	Title	Hours
Complete 16 credits of general electives.		16

**Behavioral Neuroscience GPA Requirement**

A minimum 2.000 GPA in all behavioral neuroscience courses is required.

**Major Credit Hour Requirement**

96 total semester hours required in major.

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Program Requirement**

130 total semester hours required

**Plan of Study**

**SAMPLE PATTERNS:

**Computer Science and Behavioral Neuroscience, BS**

The Bachelor of Science in Computer Science and Behavioral Neuroscience underscores how research in neuroscience has become a computational field of study. The combined major is designed for students who are interested in applying mathematical and computational methodologies toward understanding human behavior, artificial intelligence, and the human-machine interface. Courses across multiple science disciplines—including biology, chemistry, and computer science—lay a strong foundation necessary to explore brain mechanisms and how they give rise to behavioral functions and pathological states using computational approaches. Students will have an opportunity to develop skills in software development as they apply algorithms and data structures to brain research and neurotechnology.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Computer Science Requirements**

Code	Title	Hours
<b>Overview</b>		
CS 1200	First Year Seminar <sup>1</sup>	1
CS 1210	Professional Development for Khoury Co-op <sup>2</sup>	1

## Data Science and Behavioral Neuroscience, BS

The data science and behavioral neuroscience major combines the disciplines of biology, psychology, computer science, and data science into an integrated curriculum. The human brain is a complex information processing system requiring scientists to analyze, integrate, and share large data sets garnered from multiple techniques that image and record the activity of the brain at work. Students investigate the anatomy and physiology of neural circuits that underlie brain mechanisms and pathological states that give rise to behavioral functions. Students have an opportunity to develop skills in large-scale data manipulation and storage, machine learning, data mining, and information visualization necessary to execute big brain-mapping initiatives including human neuroconnectivity maps.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Data Science Requirements

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar <sup>1</sup>	1
CS 1210	Professional Development for Khoury Co-op <sup>2</sup>	1
<b>Programming Sequence Pathways</b>		
Choose one of the two options.		12
<i>Computer Science Option</i>		
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	
<i>Data Science Option</i>		
DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
DS 2500 and DS 2501	Intermediate Programming with Data and Lab for DS 2500	
DS 3500	Advanced Programming with Data	
<b>Computer Science Required Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 3200	Database Design	4
<b>Data Science Foundations</b>		
DS 3000	Foundations of Data Science	4
DS 4200	Information Presentation and Visualization	4
DS 4300	Large-Scale Information Storage and Retrieval	4
DS 4400	Machine Learning and Data Mining 1	4
<b>Statistics Foundation</b>		
Complete one of the following:		4-5
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	
PSYC 2320	Statistics in Psychological Research	
<sup>1</sup> Students entering through the behavioral neuroscience program may take Behavioral Neuroscience at Northeastern (BNSC 1000). <sup>2</sup> Students entering through the behavioral neuroscience program may take Professional Development for Co-op (EESC 2000).		
<b>Writing Requirements</b>		
Code	Title	Hours
<b>College Writing</b>		
ENGW 1111 or ENGW 1102	First-Year Writing First-Year Writing for Multilingual Writers	4
<b>Advanced Writing in the Disciplines</b>		
Complete one of the following:		4
ENGW 3302	Advanced Writing in the Technical Professions	

ENGW 3307	Advanced Writing in the Sciences
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines

## Behavioral Neuroscience Requirements

Code	Title	Hours
<b>COS Foundations</b>		
PSYC 1101	Foundations of Psychology	4
BIOL 1107 and BIOL 1108	Foundations of Biology and Lab for BIOL 1107	5
BIOL 2299	Inquiries in Biological Sciences	4
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
CHEM 1161 and CHEM 1162 and CHEM 1163	General Chemistry for Science Majors and Lab for CHEM 1161 and Recitation for CHEM 1161	5
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5
<b>Mathematics Foundation</b>		
MATH 1341 or MATH 1251	Calculus 1 for Science and Engineering or Calculus and Differential Equations for Biology 1	4
<b>Behavioral Neuroscience Foundations</b>		
BIOL 3405 or BIOL 5587	Neurobiology or Comparative Neurobiology	4
PT 5410 and PT 5411 or PSYC 3200	Functional Human Neuroanatomy and Lab for PT 5410 or Clinical Neuroanatomy	4-5
<b>Psychology Elective</b>		
Complete one of the following:		4
PSYC 3404	Developmental Psychology	
PSYC 3406	Abnormal Psychology	
PSYC 3450	Learning and Motivation	
PSYC 3451	Learning Principles and Behavior Analysis	
PSYC 3452	Sensation and Perception	
PSYC 3358	Behavior Therapies	
PSYC 3464	Psychology of Language	
PSYC 3466	Cognition	
PSYC 4520	Language and the Brain	
PSYC 4524	Cognitive Development	
<b>Behavioral Neuroscience Core Courses</b>		
Complete two of the following:		8
BIOL 3403	Animal Behavior	
BIOL 3415	Current Topics in Behavioral Neuroscience	
BIOL 3601	Neural Systems and Behavior	
BIOL 3605	Developmental Neurobiology	
BIOL 4705	Neurobiology of Cognitive Decline	
BIOL 4709	Neurobiology of Learning and Memory	
BIOL 5595	Cell and Molecular Neuroscience	
BIOL 5601	Multidisciplinary Approaches in Motor Control	
PSYC 3506	Neuropsychology of Fear	
PSYC 3508	Behavioral Endocrinology	
PSYC 3510	Brain, Behavior, and Immunity	

PSYC 4510	Psychopharmacology
PSYC 4512	Neuropsychology
PSYC 4514	Clinical Neuroscience
PSYC 4570	Behavioral Genetics

## Integrative Requirements

Code	Title	Hours
<b>Integrative Courses</b>		
PSYC 4540 or BINF 6308	Quantitative Topics in Psychology and Behavioral Neuroscience or Bioinformatics Computational Methods 1	4
CS 4100	Artificial Intelligence	4
<b>Upper-Division Elective</b>		
Complete four credits from the following list, not taken to fulfill previous requirements:		4
CS 2500 or higher, except CS 5010		
CY 2000 or higher, except CY 4930		
DS 2500 or higher, except DS 4900		
IS 2000 or higher, except IS 4900		
BNSC 4970 or higher		
BIOL 3400 or higher		
BINF 6309	Bioinformatics Computational Methods 2	
PSYC 3200 or higher		

## Required General Electives

Code	Title	Hours
Complete 16 credits of general electives.		16

## Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

## Program Requirement

130 total semester hours required

## Plan of Study

### Sample Patterns:

#### Five Years, Three Co-ops

Year 1							
Fall	Hours	Spring	Hours	Summer 1	Hours	Summer 2	Hours

	0	16

Total Hours: 134

**Behavioral Neuroscience, Minor**

The behavioral neuroscience minor allows all students, including those majoring in biology and psychology, the opportunity to complement their major plans of study with an interdisciplinary minor in behavioral neuroscience.

**Minor Requirements**

Students are required to take one intermediate course followed by four behavioral neuroscience core courses, two from each of the parent departments of the discipline (i.e., psychology and biology).

## Intermediate Course

Code	Title	Hours
PSYC 3458	Biological Psychology	4
or BIOL 3405	Neurobiology	

## Psychology Core Courses

Code	Title	Hours
Complete two of the following:		8
PSYC 3200	Clinical Neuroanatomy	
PSYC 3506	Neuropsychology of Fear	
PSYC 3508	Behavioral Endocrinology	
PSYC 3510	Brain, Behavior, and Immunity	
PSYC 4510	Psychopharmacology	
PSYC 4512	Neuropsychology	
PSYC 4514	Clinical Neuroscience	
PSYC 4570	Behavioral Genetics	

## Biology Core Courses

Code	Title	Hours
Complete two of the following:		8
BIOL 3403	Animal Behavior	
BIOL 3415	Current Topics in Behavioral Neuroscience	
BIOL 3601	Neural Systems and Behavior	
BIOL 3605	Developmental Neurobiology	
BIOL 4705	Neurobiology of Cognitive Decline	
BIOL 4709	Neurobiology of Learning and Memory	
BIOL 5587	Comparative Neurobiology	
BIOL 5595	Cell and Molecular Neuroscience	
BIOL 5601	Multidisciplinary Approaches in Motor Control	

## Credit/GPA Requirement

20 total semester hours required  
2.000 GPA required in the minor

### Biochemistry

Website (<http://www.northeastern.edu/biochemistry/>)

Advising website (<http://tinyurl.com/bioadv/>)

#### Kirsten Fertuck, PhD

Associate Teaching Professor and Director

203 Mugar Life Sciences Building  
617.373.2852

Biochemistry focuses on the chemical processes occurring in the wide variety of living systems and touches essentially all aspects of our own lives. Our Northeastern program engages you in two integrated paths to a career in biochemistry: rigorous coursework that is designed to prepare you to interpret the ever-expanding knowledge base and hands-on learning that positions you to leverage cutting-edge technology to solve fundamental problems in the chemistry of life.

After required basic coursework in biochemistry, biology, chemistry, physics, and mathematics, our majors select elective courses that reflect many areas of biochemistry including neuroscience, bioorganic

chemistry, stem cell and regenerative biology, microbial biotechnology, and systems biology and engineering.

In our interdisciplinary program, students take advantage of faculty-mentored research guided by investigators from bioengineering, biology, chemical engineering, chemistry, pharmaceutical sciences, physics, psychology, and other academic units.

Northeastern's signature co-op program provides complementary opportunities in world-class biotechnology companies, hospitals, and research facilities as close as Boston and as far as your global interest takes you.

Our biochemistry program is designed to prepare students to enter the job market directly or to go on to graduate, medical, veterinary, dental, law, or business school. Our graduates are qualified for a wide range of careers that span academics, industry, government, and medicine, working in laboratory or clinical research, regulation and quality control, production, marketing, or information systems.

## Programs

### Bachelor of Science (BS)

- Biochemistry (p. 628)
- Data Science and Biochemistry (p. 396)

### Bachelor of Science in Bioengineering (BSBioE)

- Bioengineering and Biochemistry (p. 439)

### Bachelor of Science in Chemical Engineering (BSCHE)

- Chemical Engineering and Biochemistry (p. 450)

## Minor

- Biochemistry, Minor (p. 641)

## Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. )

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

## Biochemistry Major Requirements

Code	Title	Hours
<b>Introduction to College</b>		
BIOC 1000	Biochemistry at Northeastern	1
<b>Biology Foundations</b>		
<i>Foundations</i>		
BIOL 1107 and BIOL 1108	Foundations of Biology and Lab for BIOL 1107	5
<i>Inquiries</i>		
BIOL 2299	Inquiries in Biological Sciences	4
<i>Techniques</i>		
BIOL 2309	Biology Project Lab	4
<b>Genetics and Molecular Biology</b>		
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
<b>General Chemistry</b>		
CHEM 1161 and CHEM 1162	General Chemistry for Science Majors and Lab for CHEM 1161	5
<b>Organic Chemistry 1</b>		
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5
<b>Organic Chemistry 2</b>		
CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5
<b>Physical Chemistry</b>		
CHEM 3431 and CHEM 3432	Physical Chemistry and Lab for CHEM 3431	5
<b>Biochemistry Courses</b>		
BIOL 3611 and BIOL 3612	Biochemistry and Lab for BIOL 3611	5
BIOL 4707	Cell and Molecular Biology	4
Complete one of the following:		3-5

CHEM 3331 and CHEM 3332	Bioanalytical Chemistry and Lab for CHEM 3331	
CHEM 5620	Protein Chemistry	
<b>Experiential Learning Introduction</b>		
EESC 2000	Professional Development for Co-op	1
<b>Capstone</b>		
Please complete one of the following options to fulfill the capstone requirement:		4-5
BIOC 4971	Junior/Senior Honors Project 2	
BIOC 4991 and BIOC 4900	Research and Biochemistry Capstone	
BIOL 4701	Biology Capstone	
BIOL 4991 and BIOC 4900	Research and Biochemistry Capstone	
CHEM 4750	Senior Research	
CHEM 4901 and BIOC 4900	Undergraduate Research and Biochemistry Capstone	

## Biology and Chemistry Advanced Electives

Code	Title	Hours
Complete 3 courses for a total of at least 10 semester hours. One must be a lecture-based BIOL course and one must be a lecture-based CHEM course. The third may be BIOL, CHEM, or Research.		10

<b>Biology</b>		
BIOL 2311 to BIOL 5999		
<b>Chemistry</b>		
CHEM 2310 to CHEM 5999		
<b>Research Option</b>		
Up to 4 semester hours may be biochemistry-related research for credit:		
BIOC 4991	Research	
BIOC 4970	Junior/Senior Honors Project 1	
BIOC 4971	Junior/Senior Honors Project 2	
BIOC 4994	Internship	
BIOL 4991	Research	
BIOL 4970	Junior/Senior Honors Project 1	
CHEM 4901	Undergraduate Research	
CHEM 4750	Senior Research	
CHEM 4970	Junior/Senior Honors Project 1	

## Biochemistry Breadth Courses

A minimum GPA of 2.000 is required for the biochemistry breadth courses.

Code	Title	Hours
<b>Mathematics Courses</b>		
Complete one of the following options:		8
<i>Option 1</i>		
MATH 1251	Calculus and Differential Equations for Biology 1	
MATH 1252	Calculus and Differential Equations for Biology 2	
<i>Option 2</i>		
MATH 1341	Calculus 1 for Science and Engineering	
MATH 1342	Calculus 2 for Science and Engineering	

**Physics Courses***Physics 1*

Complete a lecture and lab set for Physics 1: 5

PHYS 1171 and PHYS 1172 and PHYS 1173	Physics 1 for Bioscience and Bioengineering and Lab for PHYS 1171 and Interactive Learning Seminar for PHYS 1171	5
---	--	---

PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
---	---	--

PHYS 1145 and PHYS 1146	Physics for Life Sciences 1 and Lab for PHYS 1145	
----------------------------	--	--

PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	
----------------------------	------------------------------------	--

*Physics 2*

Complete a lecture and lab set for Physics 2: 5

PHYS 1175 and PHYS 1176 and PHYS 1177	Physics 2 for Bioscience and Bioengineering and Lab for PHYS 1175 and Interactive Learning Seminar for PHYS 1175	5
---	--	---

PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	
---	---	--

PHYS 1147 and PHYS 1148	Physics for Life Sciences 2 and Lab for PHYS 1147	
----------------------------	--	--

PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	
----------------------------	------------------------------------	--

**Intermediate or Advanced Science**

Complete one course from the following: 4-5

BIOL 2301 to BIOL 5999

CHEM 2311 to CHEM 5999

EEMB 2290 to EEMB 5999

ENVR 2310 to ENVR 5999

MATH 2280 to MATH 5999

PHYS 2303 to PHYS 5999

PSYC 2290 to PSYC 5999

**Biochemistry Major Credit/GPA Requirements**

Complete 82 semester hours in the major with a cumulative GPA of 2.000.

Due to overlap in course content, double majoring in biochemistry and biology, biochemistry and cell and molecular biology, biochemistry and behavioral neuroscience, or biochemistry and chemistry is not permitted.

**Program Requirement**

136 total semester hours required

**Plan of Study**

Please note that these are sample plans of study. While the requirements are the same for all students, individual schedules may vary.

## Bioengineering and Biochemistry, BSBioE

This combined major from the College of Engineering and College of Science serves students who wish to develop both a scientific and an engineering mindset to solve problems in bioengineering and biochemistry. The program includes fundamentals and electives in the science of biochemistry; a complete and rigorous bioengineering core; and a series of molecular, cellular, and tissue engineering courses that allow for synthesis of the two. The curriculum aligns well with the coursework required to apply to medical school or other clinical graduate programs and aims to provide the knowledge, skills, and perspective to pursue careers in academia or industry.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

## Engineering

Code	Title	Hours
<b>Required Engineering</b>		
BIOE 2350	Biomechanics	4
BIOE 2355	Quantitative Physiology for Bioengineers	4
BIOE 2365 and BIOE 2366	Bioengineering Measurement, Experimentation, and Statistics and Lab for BIOE 2365	5
BIOE 3210	Bioelectricity	4
BIOE 3310	Transport and Fluids for Bioengineers	4
BIOE 3380	Biomolecular Dynamics and Control	4
BIOE 5410	Molecular Bioengineering	4
BIOE 5420	Cellular Engineering	4
BIOE 5430	Principles and Applications of Tissue Engineering	4
<b>Bioengineering Capstone</b>		
BIOE 4790	Capstone Design 1	4
BIOE 4792	Capstone Design 2	4
<b>Supplemental Credit</b>		
2 semester hours from the following course count toward the engineering requirement:		2
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
3 semester hours from the following course count toward the engineering requirement:		3
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	
<b>Mathematics/Science Requirement</b>		
Code	Title	Hours
<b>Required Mathematics/Science</b>		
BIOL 1115 and BIOL 1116 or BIOL 1111 and BIOL 1112	General Biology 1 for Engineers and Lab for BIOL 1115 and Lab for BIOL 1111	5
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
BIOL 3611 and BIOL 3612	Biochemistry and Lab for BIOL 3611	5
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5
CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4

MATH 2341	Differential Equations and Linear Algebra for Engineering	4
PHYS 1171 and PHYS 1172 and PHYS 1173 or PHYS 1151 and PHYS 1152 and PHYS 1153	Physics 1 for Bioscience and Bioengineering and Lab for PHYS 1171 and Interactive Learning Seminar for PHYS 1171 Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5
PHYS 1175 and PHYS 1176 and PHYS 1177 or PHYS 1155 and PHYS 1156 and PHYS 1157	Physics 2 for Bioscience and Bioengineering and Lab for PHYS 1175 and Interactive Learning Seminar for PHYS 1175 Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	5

### Advanced Biology Elective

Complete one course in the following range: BIOL 2311 to BIOL 5999	4
---	---

### Advanced Chemistry Elective

Complete one course in the following range: CHEM 2310 to CHEM 5999	4
---	---

### Supplemental Credit

1 semester hour from the following course counts toward the mathematics/science requirement: GE 1501 Cornerstone of Engineering 1 <sup>1</sup>	1
---	---

## Professional Development

Code	Title	Hours
<b>Professional Development</b>		
GE 1000	Introduction to the Study of Engineering	1
ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

### Additional Required Courses

1 semester hour from the following course counts toward the professional development requirement: GE 1501 Cornerstone of Engineering 1 <sup>1</sup>		1
1 semester hour from the following course counts toward the professional development requirement: GE 1502 Cornerstone of Engineering 2 <sup>1</sup>		1

## Writing Requirements

Code	Title	Hours
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302 or ENGW 3307 or ENGW 3315	Advanced Writing in the Technical Professions Advanced Writing in the Sciences Interdisciplinary Advanced Writing in the Disciplines	4

**Required General Electives**

Code	Title	Hours
	Complete 12 semester hours of academic, nonremedial, nonrepetitive courses.	12

**Integrative Course**

Code	Title	Hours
BIOE 4790	Capstone Design 1	4

**Major GPA Requirement**

2.000 minimum required in BIOE courses

**Program Requirement**

139 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

**Chemical Engineering and Biochemistry, BSChE**

This intercollege combined major serves students who would like to explore their interest in biochemistry while earning the benefit of a Bachelor of Science degree in chemical engineering. The program combines the fundamentals of biochemistry with the engineering skills necessary for scale-up of biochemical processes. The curriculum is designed to prepare students well to enter the growing biotechnology industry and be able to converse from the chemistry of organisms to the design of vessels for successful synthesis of cells and pharmaceuticals.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

**Engineering**

Code	Title	Hours
<b>Required Engineering</b>		
CHME 2308	Conservation Principles in Chemical Engineering	4
CHME 2310	Transport Processes 1	4

CHME 2320	Chemical Engineering Thermodynamics 1	4
CHME 3312	Transport Processes 2 and Separations	4

## Data Science and Biochemistry, BS

The Data Science and Biochemistry Major combines computer science, biochemistry, biology, information science, mathematics, and statistics into an integrated curriculum. The program engages students in rigorous coursework designed to prepare students to interpret the ever-expanding knowledge base.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### Data Science Requirements

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Programming Sequence Pathways</b>		
Choose one of the two options.		12
<i>Computer Science Option</i>		
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	
<i>Data Science Option</i>		
DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	

DS 2500 and DS 2501	Intermediate Programming with Data and Lab for DS 2500	
DS 3500	Advanced Programming with Data	

<b>Computer Science Required Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 3200	Database Design	4

<b>Data Science Foundations</b>		
DS 3000	Foundations of Data Science	4
DS 4200	Information Presentation and Visualization	4
DS 4300	Large-Scale Information Storage and Retrieval	4
DS 4400	Machine Learning and Data Mining 1	4

<b>Khoury Elective</b>		
With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.		

Complete four credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:	4
CS 2500 or higher, except CS 5010	
DS 2500 or higher, except DS 4900	
CY 2000 or higher, except CY 4930	
IS 2000 or higher, except IS 4900	

<b>Statistics Foundations</b>		
Complete one of the following:		
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	4
MATH 3081	Probability and Statistics	

### Computer Science Writing Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111 or ENGW 1102	First-Year Writing First-Year Writing for Multilingual Writers	4
<b>Advanced Writing in the Disciplines</b>		
ENGW 3302 or ENGW 3315	Advanced Writing in the Technical Professions Interdisciplinary Advanced Writing in the Disciplines	4

### Biochemistry Requirements

Code	Title	Hours
<b>Biology Foundations</b>		
BIOL 1107 and BIOL 1108	Foundations of Biology and Lab for BIOL 1107	5
BIOL 2299	Inquiries in Biological Sciences	4
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
BIOL 2309	Biology Project Lab	4
<b>Chemistry Foundations</b>		
CHEM 1161 and CHEM 1162	General Chemistry for Science Majors and Lab for CHEM 1161	5
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5

CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5
----------------------------	--	---

**Mathematics Foundations**

MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4

**Biochemistry Foundations**

BIOL 3611 and BIOL 3612	Biochemistry and Lab for BIOL 3611	5
CHEM 3331 and CHEM 3332 or CHEM 4620 or CHEM 5620	Bioanalytical Chemistry and Lab for CHEM 3331 Introduction to Protein Chemistry Protein Chemistry	3-5

**Intermediate or Advanced Science Elective**

Complete one course from the following	4-5
BIOL 2301 to BIOL 5999	
CHEM 2311 to CHEM 5999	
EEMB 2290 to EEMB 5999	
ENVR 2310 to ENVR 5999	
MATH 2280 to MATH 5999	
PHYS 2303 to PHYS 5999	

**Integrative Requirement**

Code	Title	Hours
<b>Integrative Courses</b>		
BINF 6308	Bioinformatics Computational Methods 1	4
BINF 6309	Bioinformatics Computational Methods 2	4
Complete one of the following:	4	
BIOL 4701	Biology Capstone	
CHEM 4750	Senior Research	

**Required General Electives**

Code	Title	Hours
Complete 12 credits of general electives.		12

**Major GPA Requirement**

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

**Program Requirement**

131 total semester hours required

**Plan of Study****Sample Patterns:****Five Years, Three Co-ops**

Year 1				
Fall	Hours Spring	Hours Summer 1	Hours Summer 2	Hours
CS 1200	1 CS 2510 and CS 2511	5 Vacation	Vacation

	0		16		4

Total Hours: 136

**Biochemistry, Minor**

The biochemistry minor allows students to engage in interdisciplinary study of biochemistry to complement their major plans of study.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

The biochemistry minor is not available to majors in biology, cell and molecular biology, biochemistry, or any combined major that involves biochemistry, due to curricular overlap.

**Required Courses**

Code	Title	Hours
<b>Core Courses</b>		
BIOL 4707	Cell and Molecular Biology	4
BIOL 3611 and BIOL 3612	Biochemistry and Lab for BIOL 3611	5
CHEM 5620	Protein Chemistry	3

**Biology Core Course**

Code	Title	Hours
Complete one of the following course options (other advanced BIOL courses may be accepted at the discretion of the Biochemistry Director):		
BIOL 2327	Human Parasitology	
BIOL 3405	Neurobiology	
BIOL 3421 and BIOL 3422	Microbiology and Lab for BIOL 3421	
BIOL 3409	Current Topics in Biology	
BIOL 3605	Developmental Neurobiology	
BIOL 5306	Biological Clocks	
BIOL 5307 and BIOL 5308	Biological Electron Microscopy and Lab for BIOL 5307	
BIOL 5541	Endocrinology	
BIOL 5543	Stem Cells and Regeneration	
BIOL 5549	Inventions in Microbial Biotechnology	
BIOL 5573	Medical Microbiology	
BIOL 5581	Biological Imaging	
BIOL 5583	Immunology	
BIOL 5591	Advanced Genomics	
BIOL 5593	Cell and Molecular Biology of Aging	
BIOL 5597	Immunotherapies of Cancer and Infectious Disease	

**Chemistry Core Course**

Code	Title	Hours
Complete one of the following course options (other advanced CHEM courses may be accepted at the discretion of the Biochemistry Director):		
CHEM 3331 and CHEM 3332	Bioanalytical Chemistry and Lab for CHEM 3331	4-5
CHEM 3431 and CHEM 3432	Physical Chemistry and Lab for CHEM 3431	
CHEM 4621 and CHEM 4622	Introduction to Chemical Biology and Lab for CHEM 4621	
CHEM 4460	Enzymes: Chemistry and Chemical Biology	
CHEM 4628 and CHEM 4629	Introduction to Spectroscopy of Organic Compounds and Identification of Organic Compounds	
CHEM 5550	Introduction to Glycobiology and Glycoprotein Analysis	
CHEM 5611	Analytical Separations	
CHEM 5612	Principles of Mass Spectrometry	
CHEM 5613	Optical Methods of Analysis	

CHEM 5616 Protein Mass Spectrometry  
and CHEM 5617 and Protein Mass Spectrometry  
Laboratory

CHEM 5625 Chemistry and Design of Protein  
Pharmaceuticals

CHEM 5638 Molecular Modeling

CHEM 5676 Bioorganic Chemistry

## GPA Requirement

2.000 GPA required in the minor

## Biology

617.373.2260

617.373.3724 (fax)

Advising website (<http://www.tinyurl.com/bioadv/>)

The Department of Biology offers two majors, the BS in biology and the BS in cell and molecular biology. Both majors lay the groundwork for strong scientific training with basic coursework in mathematics, chemistry, and physics, relevant to biology. In the biology major, students explore the organization and processes of life, from molecules and cells through organs and organ systems to populations, ecosystems, and evolution. The BS degree in cell and molecular biology offers a more focused program of study emphasizing processes operating at the cellular and molecular levels of biological systems. In both majors, students can select advanced electives to specialize in a subdiscipline of biology such as developmental biology, stem cell biology, microbiology, or physiology.

Our programs provide a wide range of relevant co-op opportunities in the renowned Boston-area biotechnology industry, hospitals, and research institutions, as well as across the country and at international sites.

There are a number of interdisciplinary opportunities involving biology. These include programs in behavioral neuroscience and in biochemistry, as well as combined majors between biology and computer science, data science, English, mathematics, or political science. Due to curricular overlap, combinations of any two of these programs or of any one of these programs with ecology and evolutionary biology, marine biology, or bioengineering are not offered.

Several accelerated bachelor/graduate degree programs are available: BS in Biology/MS in Bioinformatics, BS in Biology/MS in Biotechnology, BS in Computer Science and Biology/MS in Bioinformatics, BS in Cell and Molecular Biology/MS in Bioinformatics, BS in Cell and Molecular Biology/MS in Biotechnology, and BS in Biology/PhD in Biology.

Our degree programs are designed to prepare students to enter the job market directly or to go on to graduate, medical, veterinary, dental, law, or business school. Our graduates are qualified for a wide array of career paths in industrial and clinical research in any of the life sciences, in teaching at all levels, in state or federal government agencies, and in medicine and other healthcare-related professions. Premedical, pre-dental, and other preprofessional students are urged to consult with the prehealth advising program early in their careers at Northeastern.

## Programs

### Bachelor of Science (BS)

- Biology (p. 642)
- Cell and Molecular Biology (p. 646)
- Biology and English (p. 650)
- Biology and Mathematics (p. 652)
- Biology and Political Science (p. 653)
- Computer Science and Biology (p. 334)
- Data Science and Biology (p. 398)

## Minors

- Cell and Molecular Biology (p. 661)
- Biology (p. 662)

## Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. )

## Biology, BS

The BS in biology curriculum lays the groundwork for strong scientific training with basic course work in mathematics, chemistry, and physics, relevant to biology. Students explore the organization and processes of life across broad areas of the field, from molecules and cells through organs and organ systems to populations, ecosystems, and evolution. Students can select advanced electives to specialize in a subdiscipline of biology such as developmental biology, stem cell biology, microbiology, or physiology.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Biology Major Requirements

Code	Title	Hours
<b>Introduction to College</b>		
BIOL 1000	Biology at Northeastern	1
<b>Experiential Learning Introduction</b>		
EESC 2000	Professional Development for Co-op	1
<b>Required Biology</b>		
<i>Foundations</i>		
BIOL 1107 and BIOL 1108	Foundations of Biology and Lab for BIOL 1107	5
<i>Inquiries</i>		
BIOL 2299	Inquiries in Biological Sciences	4
<i>Genetics</i>		
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
<i>Project Lab</i>		

BIOL 2309	Biology Project Lab	4
<i>Biochemistry</i>		
BIOL 3611 and BIOL 3612	Biochemistry and Lab for BIOL 3611	5

### Biology Capstone

Code	Title	Hours
Please complete one of the following options to fulfill the capstone requirement:		
BIOL 4701	Biology Capstone	1-4
BIOL 4971	Junior/Senior Honors Project 2	
BIOL 4900	Biology Research Capstone ( concurrent with BIOL 4991)	

### Biology Major Electives

Code	Title	Hours
<b>Organismal and Population Biology</b>		
Complete one of the following:		
BIOL 3421 and BIOL 3422	Microbiology and Lab for BIOL 3421	4-5
BIOL 2327	Human Parasitology	
BIOL 3401	Comparative Vertebrate Anatomy	
BIOL 3403	Animal Behavior	
BIOL 3413	Current Topics in Organismal and Population Biology	
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	
EEMB 2400	Introduction to Evolution	
EEMB 2700 and EEMB 2701	Marine Biology and Lab for EEMB 2700	
EEMB 3460	Conservation Biology	

#### Intermediate and Advanced Biology

Complete three additional 4- or 5-semester-hour courses from the following:		12-15
BIOL 2321 to BIOL 3999		
BIOL 4705	Neurobiology of Cognitive Decline	
BIOL 4707	Cell and Molecular Biology	
BIOL 5000 to BIOL 5999		
EEMB 2290 to EEMB 5515		
EEMB 5520 to EEMB 5535		
EEMB 5548 to EEMB 5569		
ENVR 5242	Ancient Marine Life	
One of the three intermediate/advanced electives can be a research course:		
BIOL 4991	Research	
BIOL 4994	Internship	
BIOL 4970	Junior/Senior Honors Project 1	
BIOL 4971	Junior/Senior Honors Project 2	

### Supporting Courses

Code	Title	Hours
<b>Mathematics</b>		
MATH 1251	Calculus and Differential Equations for Biology 1	4
<b>Statistics</b>		

ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	5
----------------------------	--	---

### Chemistry

<i>General Chemistry</i>		
CHEM 1161 and CHEM 1162 and CHEM 1163	General Chemistry for Science Majors and Lab for CHEM 1161 and Recitation for CHEM 1161	5
<i>Organic Chemistry</i>		
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5
CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5

### Physics

<i>Physics 1</i>		
Complete one of the following lecture/lab pairs. PHYS 1145/ PHYS 1146 is recommended:		5
PHYS 1145 and PHYS 1146	Physics for Life Sciences 1 and Lab for PHYS 1145	
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	
<i>Physics 2</i>		
Complete one of the following lecture/lab pairs. PHYS 1147/ PHYS 1148 is recommended:		5
PHYS 1147 and PHYS 1148	Physics for Life Sciences 2 and Lab for PHYS 1147	
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	

### Intermediate or Advanced Science

Complete one course from the following:		4
BIOL 2301 to BIOL 5999		
CHEM 2311 to CHEM 5999		
EEMB 2290 to EEMB 5999		
ENVR 2310 to ENVR 5999		
MATH 2280 to MATH 5999		
PHYS 2303 to PHYS 5999		
PSYC 2290 to PSYC 5999		

### Biology Major Credit/GPA Requirement

Complete 78 semester hours in the major with a cumulative GPA of 2.000.

Due to overlap in course content, double majoring in biology and cell and molecular biology, biology and biochemistry, biology and behavioral neuroscience, or biology and marine biology is not permitted.

### Program Requirement

136 total semester hours required

### Plan of Study

Please note that these are sample plans of study. While the requirements are the same for all students, individual schedules may vary.

## Cell and Molecular Biology, BS

The BS in cell and molecular biology curriculum lays the groundwork for strong scientific training with basic course work in mathematics, chemistry, and physics, relevant to biology. Students pursue a focused program of study emphasizing processes operating at the cellular and molecular levels of biological systems, including specialty courses in molecular cell biology and advanced genomics. Students choose from a range of advanced electives that delve deeply into molecular aspects of biology.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Cell and Molecular Biology Major Requirements

Code	Title	Hours
<b>Introduction to College</b>		
BIOL 1000	Biology at Northeastern	1
<b>Introduction to Experiential Learning</b>		
EESC 2000	Professional Development for Co-op	1
<b>Required Biology</b>		
<i>Foundations</i>		
BIOL 1107 and BIOL 1108	Foundations of Biology and Lab for BIOL 1107	5
<i>Genetics</i>		
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
<i>Project Lab</i>		
BIOL 2309	Biology Project Lab	4
<i>Inquiries</i>		
BIOL 2299	Inquiries in Biological Sciences	4
<i>Biochemistry</i>		
BIOL 3611 and BIOL 3612	Biochemistry and Lab for BIOL 3611	5
<i>Molecular Biology</i>		
BIOL 4707	Cell and Molecular Biology	4
BIOL 5591	Advanced Genomics	4
<b>Intermediate/Advanced Cell and Molecular Biology Electives</b>		
Complete two of the following:		8-9
BIOL 3411	Current Topics in Cell and Molecular Biology	

BIOL 3421 and BIOL 3422	Microbiology and Lab for BIOL 3421	
BIOL 2329	Bioethics	
BIOL 3601	Neural Systems and Behavior	
BIOL 3603	Mammalian Systems Physiology	
BIOL 3605	Developmental Neurobiology	
BIOL 5306	Biological Clocks	
BIOL 5307	Biological Electron Microscopy	
BIOL 5541	Endocrinology	
BIOL 5543	Stem Cells and Regeneration	
BIOL 5549	Inventions in Microbial Biotechnology	
BIOL 5569	Advanced Microbiology	
BIOL 5573	Medical Microbiology	
BIOL 5581	Biological Imaging	
BIOL 5583	Immunology	
BIOL 5585	Evolution	
BIOL 5587	Comparative Neurobiology	
BIOL 5593	Cell and Molecular Biology of Aging	
BIOL 5597	Immunotherapies of Cancer and Infectious Disease	
EEMB 3001	Genetics and Evolution in Action	
<i>Research</i>		
One of the two Intermediate/Advanced Electives can be a research course:		
BIOL 4991	Research	
BIOL 4994	Internship	
BIOL 4970	Junior/Senior Honors Project 1	
BIOL 4971	Junior/Senior Honors Project 2	

## Biology Capstone

Code	Title	Hours
Please complete one of the following options to fulfill the capstone requirement:		
BIOL 4701	Biology Capstone	1-4
BIOL 4900	Biology Research Capstone (concurrent with BIOL 4991, which may be used toward Intermediate/Advanced Cell and Molecular Biology Electives)	
BIOL 4971	Junior/Senior Honors Project 2	

## Supporting Courses

Code	Title	Hours
<b>Mathematics</b>		
MATH 1251	Calculus and Differential Equations for Biology 1	4
<b>Statistics</b>		
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	5
<b>Chemistry</b>		
<i>General Chemistry</i>		
CHEM 1161 and CHEM 1162 and CHEM 1163	General Chemistry for Science Majors and Lab for CHEM 1161 and Recitation for CHEM 1161	5
<i>Organic Chemistry</i>		
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5

CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5
-------------------------	---	---

## Physics

<i>Physics 1</i>		
Complete one of the following lecture/lab pairs. PHYS 1145/PHYS 1146 is recommended:		

PHYS 1145 and PHYS 1146	Physics for Life Sciences 1 and Lab for PHYS 1145	5
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	

## *Physics 2*

Complete one of the following lecture/lab pairs. PHYS 1147/PHYS 1148 is recommended:		
--	--	--

PHYS 1147 and PHYS 1148	Physics for Life Sciences 2 and Lab for PHYS 1147	5
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	

## Intermediate or Advanced Science

Complete one course from the following:		4-5
---	--	-----

BIOL 2301 to BIOL 5999	
CHEM 2311 to CHEM 5999	
EEMB 2290 to EEMB 5999	
ENVR 2310 to ENVR 5999	
MATH 2280 to MATH 5999	
PHYS 2303 to PHYS 5999	
PSYC 2290 to PSYC 5999	

## Cell and Molecular Biology Major Credit/GPA Requirement

Complete 79 semester hours in the major with a cumulative GPA of 2.000.

Due to overlap in course content, double majoring in cell and molecular biology and biology, biochemistry, marine biology or behavioral neuroscience is not permitted.

## Program Requirement

136 total semester hours required

## Plan of Study

Please note that these are sample plans of study. While the requirements are the same for all students, individual schedules may vary.

## Four Years, Two Co-ops in Summer 2/Fall

## Biology and English, BS

In the combined biology and English degree, science courses lay the groundwork for strong basic training in mathematics, chemistry, and physics that are relevant to biology. In biology courses, students broadly explore the organization and processes of life—from molecules and cells through organs and organ systems to populations, ecosystems, and evolution. In English courses, students study the diverse historical, cultural, and aesthetic contexts of English, American, and other Anglophone literatures; analyze writing practices and related media; and practice a variety of approaches to the study of language, rhetoric, writing, and literature. The fields of biology and English are bridged with course work in different forms of science writing, as well as psychology and sociology courses exploring the acquisition of language and reading; the sociology of health and illness; and the environment, technology, and society.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Biology Requirements

Code	Title	Hours
<b>Introduction to College</b>		
BIOL 1000 or ENGL 1000	Biology at Northeastern English at Northeastern	1

CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5
<b>Physics</b>		
<i>Physics 1</i>		
Complete one of the following lecture/lab pairs. PHYS 1145/ PHYS 1146 is recommended:		5
PHYS 1145 and PHYS 1146	Physics for Life Sciences 1 and Lab for PHYS 1145	
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	
<i>Physics 2</i>		

Complete one of the following lecture/lab pairs. PHYS 1147/ PHYS 1148 is recommended:	5
PHYS 1147 Physics for Life Sciences 2 and PHYS 1148 and Lab for PHYS 1147	
PHYS 1155 Physics for Engineering 2 and PHYS 1156 and Lab for PHYS 1155 and PHYS 1157 and Interactive Learning Seminar for PHYS 1155	
PHYS 1165 Physics 2 and PHYS 1166 and Lab for PHYS 1165	

## English Requirements

Code	Title	Hours
------	-------	-------

### English Course-Level Requirement

In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.

#### Introduction to College

ENGL 1000	English at Northeastern	1
-----------	-------------------------	---

#### Foundational Courses

ENGL 1400	Introduction to Literary Studies	4
ENGL 1160	Introduction to Rhetoric	4
or ENGL 1410	Introduction to Research on Writing	

#### Diversity

Complete one of the following courses. This course may also be used to fulfill an additional English requirement below.

ENGL 2150	Literature and Digital Diversity	4
ENGL 2296	Early African-American Literature	
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2760	Writing in Global Contexts	
ENGL 3663	The African American Novel	
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
ENGL 3685	Modern and Contemporary Jewish Literature	
or JWSS 3685	Modern and Contemporary Jewish Literature	

#### Pre-Nineteenth-Century Literature

Complete one of the following:

ENGL 1600	Introduction to Shakespeare	4
ENGL 1700	Global Literatures 1	
ENGL 2296	Early African-American Literature	
ENGL 3101	Early Literatures	
ENGL 3120	17th- and 18th-Century Literatures	
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
or JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	

#### Nineteenth-, Twentieth-, and Twenty-First-Century Literature

Complete one of the following:

ENGL 2330	The American Renaissance	4
ENGL 2301	The Graphic Novel	
ENGL 2440	The Modern Bestseller	
ENGL 2600	Irish Literary Culture (Abroad)	

ENGL 2610	Contemporary Israeli Literature and Art (Abroad)	
ENGL 3140	19th-Century Literatures	
ENGL 3685	Modern and Contemporary Jewish Literature	
or JWSS 3685	Modern and Contemporary Jewish Literature	
ENGL 3720	19th-Century Major Figure	
ENGL 3730	20th- and 21st-Century Major Figure	

#### Theories and Methods

Complete one of the following:

ENGL 1140	Grammar: The Architecture of English	4
ENGL 1160	Introduction to Rhetoric	
ENGL 1410	Introduction to Research on Writing	
ENGL 2150	Literature and Digital Diversity	
ENGL 3325	Rhetoric of Law	
ENGL 3340	Technologies of Text	
ENGL 3370	Writing Cultures	
ENGL 3381	The Practice and Theory of Teaching Writing	
ENGL 3400	Opening the Archive	
ENGL 3700	Narrative Medicine	
ENGL 4410	Research in Rhetoric and Writing	
LING 1150	Introduction to Language and Linguistics	
LING 2350	Linguistic Analysis	
LING 3450	Syntax	
LING 3452	Semantics	
LING 3454	History of English	
LING 3456	Language and Gender	
LING 3458	Topics in Linguistics	

#### Comparative Literature

Complete one of the following:

ENGL 1450	Reading and Writing in the Digital Age	4
ENGL 1502	American Literature to 1865	
ENGL 2150	Literature and Digital Diversity	
ENGL 2420	Contemporary Poetry	
ENGL 2430	Contemporary Fiction	
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2510	Horror Fiction	
ENGL 2520	Science Fiction	
ENGL 2600	Irish Literary Culture (Abroad)	
ENGL 2620	What Is Nature?	
ENGL 2690	Boston in Literature	
ENGL 3487	Film and Text (Abroad)	
ENGL 3663	The African American Novel	

#### Writing

Complete one of the following:

ENGL 2700	Creative Writing	4
ENGL 2710	Style and Editing	
ENGL 2740	Writing and Community Engagement	
ENGL 2760	Writing in Global Contexts	
ENGL 2770	Writing to Heal	
ENGL 2780	Visual Writing: Writing Visuals	

ENGL 2850	Writing for Social Media: Theory and Practice
ENGL 3375	Writing Boston
ENGL 3376	Creative Nonfiction
ENGL 3377	Poetry Workshop
ENGL 3378	Fiction Workshop
ENGL 3380	Writing Seminar
ENGL 3382	Publishing in the 21st Century
ENGL 3384	The Writer's Marketplace

**English Electives**

Complete two additional ENGL electives. 8

**Integrative Courses**

Code	Title	Hours
<b>Integrative English Course</b>		
Complete one of the following:		4
ENGL 2770	Writing to Heal	
ENGL 3340	Technologies of Text	
<b>Integrative General Biological Sciences Course</b>		
Complete one of the following:		4
PSYC 3464	Psychology of Language	
PSYC 4520	Language and the Brain	

**Capstone Requirement**

Complete one of the following capstone options:

Code	Title	Hours
<b>Biology Capstone: complete one of the options to fulfill the capstone requirement in biology.</b>		
BIOL 4701	Biology Capstone	1-4
BIOL 4900	Biology Research Capstone (concurrent with BIOL 4991, which may be used toward Intermediate/Advanced Biology)	
BIOL 4971	Junior/Senior Honors Project 2	
<b>English Capstone</b>		
ENGL 4710 or ENGL 4720	Capstone Seminar Capstone Project	4

**Biology and English Combined Major GPA Requirement**

Minimum 2.000 GPA required in all BIOL courses

Minimum 2.000 GPA required in all ENGL courses

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Program Requirement**

128 total semester hours required

**Biology and Mathematics, BS**

In the BS, combined biology and mathematics degree program, science courses lay the groundwork for strong basic training in mathematics, chemistry, and physics that are relevant to biology. In biology courses, students broadly explore the organization and processes of life—from molecules and cells through organs and organ systems to populations, ecosystems, and evolution. In mathematics courses, students pursue

mathematical reasoning, differential equations, and linear algebra, as well as statistics and probability. The fields of biology and mathematics are integrated in a range of course offerings including bioinformatics, applied statistics, advanced genomics, and biological imaging.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUPath Requirements**

All undergraduate students are required to complete the NUPath Requirements (p. 46).

**Biology Requirements**

Code	Title	Hours
<b>Introduction to College</b>		
BIOL 1000 or MATH 1000	Biology at Northeastern Mathematics at Northeastern	1
<b>Biology</b>

## Mathematics Requirements

Code	Title	Hours
<b>Calculus 1</b>		
MATH 1341 or MATH 1251	Calculus 1 for Science and Engineering or Calculus and Differential Equations for Biology 1	4
<b>Calculus 2 and Calculus 3</b>		
MATH 1342 or MATH 1252	Calculus 2 for Science and Engineering or Calculus and Differential Equations for Biology 2	4
MATH 2321	Calculus 3 for Science and Engineering	4
<b>Physics</b>		
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	5
<b>Required Mathematics Courses</b>		
MATH 1365	Introduction to Mathematical Reasoning	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 3081	Probability and Statistics	4
<b>Mathematics Electives</b>		
Complete three of the following:		12
MATH 2331	Linear Algebra	
MATH 3001 to MATH 4899		

## Additional Requirements

Code	Title	Hours
<b>Experiential Learning Introduction</b>		
EESC 2000	Professional Development for Co-op	1
MATH 3000	Co-op and Experiential Learning Reflection Seminar 1	1
<b>Capstone</b>		
Complete one of the following to fulfill capstone requirement:		1-4
BIOL 4701	Biology Capstone	
BIOL 4900	Biology Research Capstone (concurrent with BIOL 4991, which may be used toward Intermediate/Advanced Biology)	
BIOL 4971	Junior/Senior Honors Project 2	
MATH 4020	Research Capstone	
MATH 4025	Applied Mathematics Capstone	
MATH 5131	Introduction to Mathematical Methods and Modeling	
<b>Biology/Mathematics Integrative Courses</b>		
Complete two of the following:		8-10
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	

CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510
BIOL 3405	Neurobiology
BIOL 5569	Advanced Microbiology
BIOL 5581	Biological Imaging
BIOL 5591	Advanced Genomics
MATH 4581	Statistics and Stochastic Processes
MATH 7343	Applied Statistics
BINF 6308	Bioinformatics Computational Methods 1
BINF 6309	Bioinformatics Computational Methods 2

## Writing Requirement

ENGW 3307	Advanced Writing in the Sciences	4
-----------	----------------------------------	---

## Biology and Mathematics Combined Major Credit/GPA Requirements

Complete 93 semester hours in the major with a cumulative GPA of 2.000.

## Program Requirements

143 total semester hours required

## Biology and Political Science, BS

In the BS, combined biology and political science degree program, science courses lay the groundwork for strong basic training in mathematics, chemistry, and physics that are relevant to biology. In biology courses, students broadly explore the organization and processes of life—from molecules and cells through organs and organ systems to populations, ecosystems, and evolution. In political science courses, students pursue core concepts of American government, comparative politics, international relations and political thought. Coursework in quantitative techniques is also required. Students choose from a range of advanced subject electives. An appreciation of the intersection of biology and political science is provided through advanced courses in science, technology and public policy, and in environmental politics and policy.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Biology Requirements

Code	Title	Hours
<b>Introduction to College</b>		
BIOL 1000 or POLS 1000	Biology at Northeastern or Political Science at Northeastern	1

## Biology

### Foundations

CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5
<b>Physics</b>		
PHYS 1145 and PHYS 1146	Physics for Life Sciences 1 and Lab for PHYS 1145	5
PHYS 1147 and PHYS 1148	Physics for Life Sciences 2 and Lab for PHYS 1147	5

## Political Science Requirements

Code	Title	Hours
<b>Core Courses in Political Science</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4

## Statistics

Complete one of the following:		4-5
POLS 2400	Quantitative Techniques	
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	

## Political Thought

Complete one of the following:		4
POLS 2328	Modern Political Thought	
POLS 2325	Ancient Philosophy and Political Thought	
POLS 2330	American Political Thought	
POLS 2332	Contemporary Political Thought	

## Political Science Elective

Complete five POLS courses 2000 and above.	20
--	----

## Political Science Concentration (Optional)

If you are working toward one of the following concentrations, declare it with your adviser so that it may be added to your record.

- American Political Institutions (p. 655)
- Campaigns and Elections (p. 655)
- Comparative Politics (p. 655)
- Identity, Culture, and Politics (p. 655)
- International Relations and Diplomacy (p. 655)
- Law and Legal Studies (p. 655)
- Public Policy (p. 655)
- Security Studies (p. 656)

## Integrative Requirement and Capstone

*Note:* Science, Technology, and Public Policy (POLS 2390) and Environmental Politics and Policy (POLS 2395) cannot be used both as an integrative course and as an elective above.

Code	Title	Hours
<b>Integrative Requirement</b>		
POLS 2390 or POLS 2395	Science, Technology, and Public Policy Environmental Politics and Policy	4
<b>Capstone</b>		
Complete one of the following to fulfill capstone requirement:		1-4
BIOL 4701	Biology Capstone	
BIOL 4900	Biology Research Capstone (concurrent with BIOL 4991, which may be used toward Intermediate/Advanced Biology)	
BIOL 4971	Junior/Senior Honors Project 2	
POLS 4701	Political Science Senior Capstone	

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirement

136 total semester hours required

**CONCENTRATION IN AMERICAN POLITICAL INSTITUTIONS**

Code	Title	Hours
Complete four of the following:		16
POLS 2350	State and Local Politics	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3307	Public Policy and Administration	
POLS 3310	Public Opinion, Voting, and Elections	
POLS 3160	Campaign Strategy	

**CONCENTRATION IN CAMPAIGNS AND ELECTIONS**

Code	Title	Hours
<b>Required Courses</b>		
POLS 3160	Campaign Strategy	4
POLS 3302	Judicial Process and Behavior	4
<b>Campaigns and Elections Electives</b>		
If POLS 4947 was replaced by a co-op or internship, an additional elective must be taken.		
Complete two of the following:		8
POLS 2345	Urban Policies and Politics	
POLS 2350	State and Local Politics	
POLS 2355	Intergovernmental Relations	
POLS 3310	Public Opinion, Voting, and Elections	
POLS 3320	Politics and Mass Media	
POLS 3304	Presidential Nominating Process	

**CONCENTRATION IN COMPARATIVE POLITICS**

Code	Title	Hours
<b>Theoretical Requirement</b>		
Complete one of the following:		4
POLS 2370	Religion and Politics	
POLS 3418	Nationalism	
POLS 3430	Revolution, Civil War, and Insurrection	
POLS 3487	Politics of Developing Nations	
<b>Regional Requirements</b>		
Complete two of the following:		8
POLS 3435	Politics and Governance of Europe and the European Union	
POLS 3465	Government and Politics in the Middle East	
POLS 3470	Arab-Israeli Conflict	
<b>Experiential/Practicum Requirement</b>		
Complete one of the following:		4
POLS 4915	Model Arab League	
POLS 4918	Model NATO	
POLS 4937	Dialogue of Civilizations: Government and Politics Abroad	

**CONCENTRATION IN IDENTITY, CULTURE, AND POLITICS**

Code	Title	Hours
<b>Core Course</b>		
POLS 3418	Nationalism	4
<b>Electives</b>		
Complete three of the following:		12

POLS 2370	Religion and Politics	
POLS 2375	Gender and Politics	
POLS 3309	Lesbian, Gay, Bisexual, and Transgender Issues in Public Policy	
POLS 3324	Law and Society	

**CONCENTRATION IN INTERNATIONAL RELATIONS AND DIPLOMACY**

Code	Title	Hours
<b>Experiential/Practicum Requirement</b>		
Complete one of the following:		4
POLS 4910	Model United Nations	
POLS 4915	Model Arab League	
POLS 4938	Dialogue of Civilizations: International Politics Abroad	
<b>Core Courses</b>		
Complete three of the following:		12
POLS 3405	International Political Economy	
POLS 3406	International Law	
POLS 3408	International Security	
POLS 3435	Politics and Governance of Europe and the European Union	
POLS 3470	Arab-Israeli Conflict	

**CONCENTRATION IN LAW AND LEGAL STUDIES**

Code	Title	Hours
Complete four of the following:		16
POLS 2330	American Political Thought	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3324	Law and Society	
POLS 3406	International Law	
POLS 3409	Global Governance	
POLS 4500	U.S. Constitutional Law	
POLS 4505	U.S. Civil Liberties	

**CONCENTRATION IN PUBLIC POLICY**

Code	Title	Hours
<b>Core Requirement</b>		
POLS 3307	Public Policy and Administration	4
<b>Electives</b>		
Complete three of the following:		12
POLS 2335	Budgeting and Taxation	
POLS 2340	Business and Government	
POLS 2345	Urban Policies and Politics	
POLS 2350	State and Local Politics	
POLS 2357	Growth and Decline of Cities and Suburbs	
POLS 2390	Science, Technology, and Public Policy	
POLS 2395	Environmental Politics and Policy	
POLS 3425	U.S. Foreign Policy	

**CONCENTRATION IN SECURITY STUDIES**

Code	Title	Hours
Complete four of the following:		16
POLS 3408	International Security	
POLS 3420	U.S. National Security Policy	
POLS 3423	Terrorism and Counterterrorism	
POLS 3425	U.S. Foreign Policy	
POLS 3430	Revolution, Civil War, and Insurrection	
POLS 3470	Arab-Israeli Conflict	
POLS 3487	Politics of Developing Nations	

**Computer Science and Biology, BS**

The computer science and biology combined major reflects how research in biology, especially genetics, has become a computational science. The program provides a strong foundation in biology, chemistry, and mathematics, as well as software development and algorithms.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUPATH Requirements**

All undergraduate students are required to complete the NUPATH Requirements (p. 46).

**Computer Science Courses**

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar <sup>1</sup>	
CS 1210	Professional Development for Khoury Co-op <sup>2</sup>	
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 3800	Theory of Computation (integrative course)	4
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4
<b>Khoury Elective Courses</b>		

With adviser approval, a directed study, research, project study, or appropriate graduate-level course may also be taken as a computer science elective.

Complete 4 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:	4
CS 2500 or higher, except CS 5010	
CY 2000 or higher, except CY 4930	
DS 2500 or higher, except DS 4900	
IS 2000 or higher, except IS 4900	

<sup>1</sup> Students entering through the biology department may take Biology at Northeastern (BIOL 1000).

<sup>2</sup> Students entering through the biology department may take Professional Development for Co-op (EESC 2000).

**Biology Courses**

Code	Title	Hours
<b>Foundations of Biology</b>		
BIOL 1107 and BIOL 1108	Foundations of Biology and Lab for BIOL 1107	5
<b>Inquiries</b>		
BIOL 2299	Inquiries in Biological Sciences	4
<b>Molecular Biology</b>		
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5

CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5
<b>Biology Capstone</b>		
Choose one:		4
BIOL 4701	Biology Capstone	
BIOL 4971	Junior/Senior Honors Project 2	
BIOL 4900	Biology Research Capstone	
<b>Intermediate and Advanced Biology Electives</b>		
Complete two biology courses (with corequisite labs if offered). Choose one of these two courses from the following list:		9-10
BIOL 2327	Human Parasitology	
BIOL 3401	Comparative Vertebrate Anatomy	
BIOL 3403	Animal Behavior	
BIOL 3413	Current Topics in Organismal and Population Biology	
BIOL 3421 and BIOL 3422	Microbiology and Lab for BIOL 3421	
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	
EEMB 2400	Introduction to Evolution	

EEMB 2700 and EEMB 2701 EEMB 3460	Marine Biology and Lab for EEMB 2700 Conservation Biology	
Choose the second elective from the following list:		4-5
BIOL 2311 to BIOL 4999		
EEMB 2290 to EEMB 5515		
EEMB 5548 to EEMB 5569		

**Biology Integrative Course**

Complete one of the following:		4-5
BINF 6308	Bioinformatics Computational Methods 1	
BIOL 4707	Cell and Molecular Biology	
BIOL 5569	Advanced Microbiology	
BIOL 5581	Biological Imaging	
BIOL 5587	Comparative Neurobiology	
BIOL 5591	Advanced Genomics	
EEMB 4548	Sociobiology	

**Supporting Courses**

Code	Title	Hours
<b>Calculus</b>		
MATH 1251	Calculus and Differential Equations for Biology 1	4
MATH 1252	Calculus and Differential Equations for Biology 2	4
<b>Probability and Statistics</b>		
Complete one of the following:		4-5
MATH 3081	Probability and Statistics	
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	
<b>Computing and Social Issues</b>		
Complete one of the following:		4
AFAM 2600	Issues in Race, Science, and Technology	
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
IS 1300 or HIST 1300	Knowledge in a Digital World Introduction to Health and Humanities	
PHIL 1145	Technology and Human Values	
SOCL 1280	The Twenty-First-Century Workplace	
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

**Intermediate or Advanced Science**

Complete one course from the following:		4
BIOL 2327 to BIOL 3999		
BIOL 4705 to BIOL 5999		
CHEM 2311 to CHEM 5999		
EEMB 2290 to EEMB 5999		
ENVR 2310 to ENVR 5999		

MATH 2280 to MATH 5999
PHYS 2303 to PHYS 5999
PSYC 2290 to PSYC 5999

**Writing Requirements**

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
<b>Advanced Writing in the Disciplines</b>		
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	
or ENGW 3307	Advanced Writing in the Sciences	

**Required General Electives**

Code	Title	Hours
Complete 16 credits of general electives		16

**NUpath Requirements Satisfied**

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Exploring Creative Expression and Innovation
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

**Khoury College GPA Requirement**

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

**Program Requirement**

**Data Science and Biology, BS**

The data science and biology major provides a strong foundation in biology, chemistry, and mathematics, as well as software development and algorithms. Students study the collection, manipulation, storage, retrieval, and computational analysis of data in its various forms, including numeric, textual, image, and video data from small to large volumes. Students also explore the organization and processes of life across broad areas of the field, from molecules and cells through organs and organ systems to populations, ecosystems, and evolution.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Data Science Requirements**

### Cell and Molecular Biology, Minor

The Department of Biology offers a minor in cell and molecular biology, which involves taking five biology courses, two of which must have a corequisite lab. The minor provides students with a foundation in biology and an emphasis in cell and molecular biology.

#### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

#### Restrictions

This minor is not available for students who major in biology, biochemistry, behavioral neuroscience, cell and molecular biology, marine biology, ecology and evolutionary biology, or any combined major that involves those listed above.

#### Required Biology Courses

Complete five biology courses for a total of at least 22 semester hours. At least two of the five courses must contain a lab corequisite.

Code	Title	Hours
Complete one introductory biology sequence:		9-10
<i>Foundations of Biology</i>		
BIOL 1107 and BIOL 1108	Foundations of Biology and Lab for BIOL 1107	
BIOL 2299	Inquiries in Biological Sciences	
<i>General Biology</i>		
BIOL 1111 and BIOL 1112	General Biology 1 and Lab for BIOL 1111	
BIOL 1113 and BIOL 1114	General Biology 2 and Lab for BIOL 1113	
<i>General Biology (for Engineers)</i>		
BIOL 1115 and BIOL 1116	General Biology 1 for Engineers and Lab for BIOL 1115	
BIOL 1113 and BIOL 1114	General Biology 2 and Lab for BIOL 1113	
Complete the following required courses:		
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
BIOL 4707 or BIOL 5591	Cell and Molecular Biology Advanced Genomics	4

**INTERMEDIATE/ADVANCED ELECTIVES**

Code	Title	Hours
Complete at least one of the following course options: 4-5		
BIOL 3405	Neurobiology	
BIOL 3411	Current Topics in Cell and Molecular Biology	
BIOL 3421 and BIOL 3422	Microbiology and Lab for BIOL 3421	
BIOL 3601	Neural Systems and Behavior	
BIOL 3605	Developmental Neurobiology	
BIOL 3611 and BIOL 3612	Biochemistry and Lab for BIOL 3611	
BIOL 4705 to BIOL 4709		
BIOL 5301 to BIOL 5306		
BIOL 5499 to BIOL 5583		
BIOL 5587 to BIOL 5597		
EEMB 3001	Genetics and Evolution in Action	

**CREDIT/GPA REQUIREMENT**

Complete 22 semester hours

2.000 GPA required in the minor

**Biology, Minor**

The Department of Biology offers a minor in biology, which involves taking five biology courses, two of which must have a corequisite lab. The minor provides students with a foundation in the five core concepts of biology: evolution, energy transformations, biological structure from the molecular to the ecosystem scale, information flow, and systems biology.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

**Restrictions**

This minor is not available for students who major in biology, biochemistry, behavioral neuroscience, cell and molecular biology, marine biology, ecology and evolutionary biology, or any combined major that involves those listed above.

**Required Biology Courses**

Complete five biology courses for a total of at least 22 semester hours. Two of the five courses must contain a lab corequisite.

Code	Title	Hours
Complete one introductory biology sequence: 9-10		
<i>Foundations of Biology</i>		
BIOL 1107 and BIOL 1108	Foundations of Biology and Lab for BIOL 1107	
BIOL 2299	Inquiries in Biological Sciences

The Department of Chemistry and Chemical Biology provides education in basic chemistry and modern chemistry-related disciplines. The department offers an American Chemical Society–certified program leading to a Bachelor of Science in Chemistry and also offers a Bachelor of Science in Biochemistry jointly with the Department of Biology. In conjunction with the Department of Marine and Environmental Sciences, the department offers a combined Bachelor of Science in Environmental Geology and Chemistry. The overall objective of the Bachelor of Science in Chemistry major program is to provide the fundamental scientific background and laboratory training for students as they prepare for chemically related careers or advanced study in fields including the traditional chemical specialties, as well as biochemistry, materials science, forensic science, medicine, education, law, and other endeavors that draw upon an understanding of the chemical basis of the world around us.

Key general objectives are the development of qualitative and quantitative problem-solving skills and effective communication skills. Specific learning objectives for the chemistry major include developing conceptual understanding and problem-solving abilities in the fundamental chemical subfields of analytical chemistry, biochemistry, inorganic chemistry, organic chemistry, and physical chemistry; gaining a foundation of physics and mathematics and integrating these areas with chemical principles; performing quantitative measurements and analyzing the resulting data; synthesizing and characterizing compounds; learning proper laboratory practices, including safety; developing proficiency with modern instruments and computers for data acquisition and analysis; and making meaning of research results and learning the relevance of chemistry to biology, pharmacology, medicine, manufactured and natural materials, and the environment.

Most of our chemistry majors participate in the cooperative education program and thereby gain invaluable professional experience to augment their classroom and laboratory work. Not only does this experience add immensely to the overall education received, it also has the potential to provide contacts and references for later employment or graduate school admissions. Chemistry majors also undertake a research project for at least one semester under the supervision of a faculty member. A sufficient number of elective courses are available in the program to allow a student to take more advanced courses or additional research in the department or to add courses in an area of special interest, such as criminal justice courses in the case of an interest in forensic science. Qualified students may also participate in a BS/MS program.

## Programs

### Bachelor of Science (BS)

- Chemistry (p. 663)
- Data Science and Chemistry (p. 405)
- Environmental and Sustainability Sciences and Chemistry (p. 667)

### Minor

- Chemistry (p. 669)
- Environmental Chemistry (p. 487)

### Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. )

## Chemistry, BS

The Bachelor of Science in Chemistry is designed to give students both breadth and depth in chemistry fundamentals. During their course of study, students have an opportunity to develop qualitative and quantitative problem-solving skills as well as effective communication skills. The overall objective of the program is to provide scientific background and laboratory experience for students as they prepare for chemically related careers or advanced study in fields that include both the traditional chemical specialties and other endeavors that draw upon an understanding of the chemical basis of the world around us such as biochemistry, materials science, forensic science, medicine, education, or law.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Chemistry Major Requirements

**Data Science and Chemistry, BS**

The data science and chemistry major combines chemistry, information science, and mathematics to give students both breadth and depth in chemistry and data science fundamentals. During their course of study, students have an opportunity to develop qualitative and quantitative problem-solving skills as well as effective communication skills. Students will study the collection, manipulation, storage, retrieval, and computational analysis of chemical and other scientific data in its various forms, including numeric, textual, image, and video data from small to large volumes. The program engages students in rigorous coursework designed to prepare students to interpret the ever-expanding knowledge base.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Data Science Requirements**

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1

**Programming Sequence Pathways**

Choose one of the two options: 12

**Computer Science Option**

CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500

**Data Science Option**

DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum
DS 2500 and DS 2501	Intermediate Programming with Data and Lab for DS 2500
DS 3500	Advanced Programming with Data

**Computer Science Required Courses**

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 3200	Database Design	4

**Data Science Foundations**

DS 3000	Foundations of Data Science	4
DS 4200	Information Presentation and Visualization	4
DS 4300	Large-Scale Information Storage and Retrieval	4
DS 4400	Machine Learning and Data Mining 1	4

**Khoury Elective**

With advisor approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 4 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:	4
CS 2500 or higher, except CS 5010	
CY 2000 or higher, except CY 4930	
DS 2500 or higher, except DS 4900	
IS 2000 or higher, except IS 4900	

**Statistics Foundations**

ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	5
-------------------------	-------------------------------------	---

**Chemistry Requirements**

Code	Title	Hours
<b>General Chemistry</b>		
Choose one pair of courses:		10
CHEM 1211 and CHEM 1212	General Chemistry 1 and Lab for CHEM 1211	
CHEM 1214 and CHEM 1215	General Chemistry 2 and Lab for CHEM 1214	

OR

CHEM 1161 and CHEM 1162 and CHEM 1163	General Chemistry for Science Majors and Lab for CHEM 1161 and Recitation for CHEM 1161	
CHEM 2161 and CHEM 2162 and CHEM 2163	Concepts in Chemistry and Lab for CHEM 2161 and Recitation for CHEM 2161	

**Intermediate-Level Chemistry**

CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5
-------------------------	---	---

CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5
CHEM 2321 and CHEM 2322 and CHEM 2323	Analytical Chemistry and Lab for CHEM 2321 and Recitation for CHEM 2321	5

**Advanced-Level Chemistry**  
Complete one course from the following options: 4

CHEM 3410	Environmental Geochemistry	
CHEM 3501 to CHEM 4628		

**Mathematics Foundations**

MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4

**Supporting Course**

PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5
---------------------------------------	--	---

**Integrative Requirements**

Code	Title	Hours
<b>Integrative Course</b>		
CHEM 3431 and CHEM 3432	Physical Chemistry and Lab for CHEM 3431	5
CHEM 4750	Senior Research	4

**Writing Requirements**

## Environmental and Sustainability Sciences and Chemistry, BS

The Departments of Marine and Environmental Sciences and Chemistry provide education in basic environmental and sustainability sciences (ESS) and chemistry-related disciplines. The overall objective of this combined major is to provide the fundamental scientific background and practical training for students as they prepare for environmental and chemically related careers or advanced study in fields including the traditional specialties such as toxicology, pollution, bioremediation, environmental protection, education, law, and other endeavors that may draw upon an understanding of the chemical basis of the environment and the changes that will likely result from global environmental change.

Key general objectives are the development of qualitative and quantitative problem-solving skills and effective communication skills. This combined major includes the development of conceptual understanding and problem-solving abilities in the fundamental dynamics between the environment and its chemistry, be it analytical chemistry, biochemistry, inorganic chemistry, organic chemistry, and physical chemistry. Students will have the opportunity to perform quantitative measurements; learn proper laboratory practices, including safety; develop proficiency with modern instruments and computers for data acquisition and analysis; and learn the relevance of chemistry within the context of the abiotic and biotic environments.

Students also have the opportunity to participate in the cooperative education program and thereby gain invaluable professional experience to augment their classroom and laboratory work. Not only does that experience add immensely to the overall education received, it also has the potential to provide contacts and references for later employment or graduate school admissions. Students in this major may also undertake research projects for at least one semester under the supervision of a faculty member. Sufficient electives are available in the program either to take more advanced courses or research within the department or to add courses in an area of special interest.

There are a number of interdisciplinary opportunities involving ESS. Due to curricular overlap, combinations of any ESS major, including combined majors, cannot occur with majors or minors in ecology and evolutionary biology or environmental studies or with the minor in geoscience. ESS and chemistry combined majors are also restricted from a minor in environmental chemistry.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Environmental Science and Sustainability Requirements

Code	Title	Hours
<b>Core Courses</b>		
ENVR 1400 and ENVR 1401	Foundations in Environmental and Sustainability Sciences and Lab for ENVR 1400	5

### Chemistry, Minor

The minor in chemistry is designed for the student who would like a sound foundation in the theory and laboratory practice of chemistry. It requires six courses in chemistry with their prerequisites and corequisites.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Due to curricular overlap, the chemistry minor is not available to biochemistry majors.

### Required Courses

Students must take either General Chemistry 1 (CHEM 1211) and General Chemistry 2 (CHEM 1214) or General Chemistry for Science Majors (CHEM 1161).

*Note:* Engineering students may take General Chemistry for Engineers (CHEM 1151) in place of General Chemistry 1 (CHEM 1211) and General Chemistry 2 (CHEM 1214) or General Chemistry for Science Majors (CHEM 1161).

Excluded: Undergraduate Research (CHEM 4901) Junior/Senior Honors Project 1 (CHEM 4970), Junior/Senior Honors Project 2 (CHEM 4971) or other research courses from approved electives.

Code	Title	Hours
<b>General Chemistry</b>		
Choose one option.		4-10
<i>General Chemistry</i>		
CHEM 1211 and CHEM 1212	General Chemistry 1 and Lab for CHEM 1211	
CHEM 1214 and CHEM 1215	General Chemistry 2 and Lab for CHEM 1214	
<i>Chemistry for Science Majors</i>		
CHEM 1161 and CHEM 1162	General Chemistry for Science Majors and Lab for CHEM 1161	
<i>Chemistry for Engineers</i>		
CHEM 1151	General Chemistry for Engineers	
or other Chemistry and Chemical Biology approved course		
<b>Organic Chemistry</b>		
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5
CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5
<b>Analytical Chemistry</b>		
CHEM 2321 and CHEM 2322	Analytical Chemistry and Lab for CHEM 2321 (Analytical Chemistry)	5
<b>Physical Chemistry</b>		
CHEM 3431 and CHEM 3432	Physical Chemistry and Lab for CHEM 3431	5

*Engineering students may substitute the following course:*

CHME 2320	Chemical Engineering Thermodynamics 1
-----------	---------------------------------------

#### Advanced Lab

Complete one of the following: 5

CHEM 3403 and CHEM 3404	Quantum Chemistry and Spectroscopy and Lab for CHEM 3403
CHEM 4456 and CHEM 4457	Organic Chemistry 3: Organic Chemistry of Drug Design and Development and Lab for CHEM 4456

#### GPA Requirement

2.000 GPA required in the minor

### Environmental Chemistry, Minor

The minor in environmental chemistry offers an opportunity for students of any background interested in environmental sciences to better understand the chemistry of the environment. Students completing the minor in environmental chemistry have an opportunity to learn about the chemical processes of natural systems and environmental pollutants, while earning a credential that highlights their interest and expertise. This can be a useful course of study whether their primary degree and career will be in one of the traditional chemical, environmental, or engineering programs, or another allied field. No more than two courses (totaling 8 SH to 10 SH) may double count with any major degree requirements.

#### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

*Note:* No more than two courses (totaling 8 SH to 10 SH) may double count with any major degree requirements.

#### Required Courses

Code	Title	Hours
<b>Environmental Chemistry Core</b>		
Complete one of the following:		4
CIVE 2335	Environmental Engineering Chemistry	
ENVR 3410	Environmental Geochemistry	
<b>Chemistry Core</b>		
Complete one of the following:		5
CHEM 2321 and CHEM 2322 and CHEM 2323	Analytical Chemistry and Lab for CHEM 2321 and Recitation for CHEM 2321	
CHEM 3331 and CHEM 3332	Bioanalytical Chemistry and Lab for CHEM 3331	
<b>Research Experience</b>		
Complete one of the following:		4
CHEM 4750	Senior Research	
CHEM 4901	Undergraduate Research	
CHEM 4992	Directed Study	
CIVE 4991	Research	
CIVE 4992	Directed Study	
ENVR 4900	Earth and Environmental Science Capstone	

or ENVR 4997	Senior Thesis
ENVR 4992	Directed Study

ENVR 4500 and ENVR 4501	Applied Hydrogeology and Lab for ENVR 4500	
ENVR 4504	Environmental Pollution	
ENVR 4505	Wetlands	
ENVR 5190	Soil Science	

#### GPA Requirement

Minimum 2.000 GPA required in all major courses

#### Credit Requirement

Minimum of 21 hours required

### Linguistics

Website (<http://www.northeastern.edu/linguistics/>)

#### Heather Littlefield, PhD

Teaching Professor and Director

617.373.4553  
linguistics@northeastern.edu

Linguistics is the scientific study of human language. A growing and exciting field, it has links to a diverse range of others, including psychology, philosophy, neuroscience, cognitive science, computer science, artificial intelligence, sociology, language teaching, anthropology, and education.

Linguists work to understand the structures and social uses of human language at all levels. Questions about linguistic structures and cognitive structures include: How do children learn to speak? How is language represented in the mind? What do all languages, including sign languages, have in common? How is language different from the communication systems used by whales, bees, and chimpanzees? What linguistic information do computers need in order for us to converse with them? What are the neurological tie-ins of language disorders such as aphasia or Williams Syndrome, and what can such impairments tell us about the brain mechanisms for language? These scientific and technological questions lead us to ask other questions about language and society: How might we think about linguistic controversies, including debates about official languages, Black English, gender bias, and bilingualism in education? Linguistics attempts to answer each of these questions and covers a surprisingly broad range of topics related to language and communication. And cutting-edge work in

cognitive science investigates how natural languages are acquired and processed. Computational linguists apply linguistic theory to build all of the applications that we use that interface with language: grammar checkers, translation programs, search engines, browsers, voice recognition, and speech synthesis. To work in a field that involves language in any way, you will need to know how language works, the core of the field of linguistics.

Linguistics at Northeastern offers courses examining the structure of language (such as phonetics, phonology, morphology, syntax, and semantics), the sociocultural nature of language (such as language and culture, language and gender, and sociolinguistics), and applied fields (such as language acquisition, language change, and historical linguistics).

Students can pursue a major in linguistics or one of a number of combined majors, including linguistics and psychology, linguistics and cultural anthropology, linguistics and English, linguistics and communication studies, computer science and linguistics, data science and linguistics, American Sign Language (ASL) and linguistics, and linguistics and speech-language pathology and audiology. A minor in linguistics is also available.

Linguistics offers a variety of co-ops, including positions at local and national companies involved in speech recognition and production, as well as at Northeastern's own language processing and language acquisition labs in the Department of Psychology. Linguistics majors can also participate in international co-ops—for example, working with researchers at the University of Kaiserslautern in Germany.

Students with backgrounds in linguistics have pursued advanced degrees in fields including law, cognitive science, education, English, interpreting, business, speech-language pathology, computer science, developmental psychology, sociology, and linguistics itself. Other graduates have gone on to work in neurological research, computational linguistics, translation, language software, education, dictionary publishing, robotics, and criminal justice.

## Programs

- Linguistics and Speech-Language Pathology and Audiology (p. 555)

### Bachelor of Arts (BA)

- Linguistics and Communication Studies (p. 143)
- Linguistics and English (p. 687)

### Minor

- Linguistics (p. 689)

## Linguistics, BS

The major in linguistics provides students with a strong foundation in the study of linguistics at both the structural and social levels. Course work on the structural side focuses on the internal structures that make up language and the methods and theories used to identify and understand

these core structures (for example, in courses covering phonetics, phonology, morphology, syntax, and semantics), while course work on the social side emphasizes the methods and theories that are used to study and interpret patterns of social interaction at the linguistic level (for example, in courses covering language and culture, sociolinguistics, and language and gender). Additional course work draws from related fields to further develop students' understanding of the broad spectrum of language-related domains (for example, the psychology of language, language acquisition, and historical linguistics, among other topics).

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Linguistics Major Language Requirement

<i>Laboratory</i>		
Complete one of the following:		4
PSYC 4610	Laboratory in Psycholinguistics	
PSYC 4612	Laboratory in Cognition	
Note: With prior approval, any of the following courses may be used to fulfill the laboratory requirement. Consult your adviser to discuss this option:		
LING 4891	Research Seminar in Linguistics	
LING 4991	Directed Study Research	
PSYC 4991	Directed Study Research	

Linguistics Seminar		
LING 4654	Seminar in Linguistics	4
or PSYC 4658	Seminar in Psycholinguistics	

Linguistics Electives		
Complete four of the following (not counted above):		16

DEAF 2700	ASL Linguistics
LING 3434	Bilingualism
LING 3442	Sociolinguistics
LING 3454	History of English
LING 3456	Language and Gender
LING 3458	Topics in Linguistics
LING 3460	Historical Linguistics
LING 4654	Seminar in Linguistics
LING 4891	Research Seminar in Linguistics
or LING 4970	Junior/Senior Honors Project 1
or LING 4971	Junior/Senior Honors Project 2
or LING 4991	Directed Study Research
or PSYC 4991	Directed Study Research
LING 4993	Independent Study
PHIL 1115	Introduction to Logic
PSYC 3466	Cognition
PSYC 4520	Language and the Brain
PSYC 4522	Psychology of Reading
PSYC 4524	Cognitive Development
PSYC 4610	Laboratory in Psycholinguistics
PSYC 4612	Laboratory in Cognition
PSYC 4658	Seminar in Psycholinguistics
PSYC 4660	Seminar in Cognition
PSYC 4674	Seminar in Cognitive Neuroscience

**Experiential Learning**

Complete one of the following options. Courses used to satisfy this requirement will also typically satisfy a requirement above. 0-4

Study abroad (not a Dialogue of Civilizations)	
International Co-op	
LING 4891	Research Seminar in Linguistics
LING 4991	Directed Study Research
LING 4970 and LING 4971	Junior/Senior Honors Project 1 and Junior/Senior Honors Project 2

**Linguistics Major Credit Requirement**

Complete 76 semester hours in the major.

**Program Requirement**

128 total semester hours required

**Plan of Study**

**Sample Five Years, Three Co-ops in Summer 2/Fall**

## American Sign Language and Linguistics, BS

The American Sign Language (ASL) & Linguistics combined major is an intensive program of study dedicated to preparing students to interact in a positive and supportive manner with members of the American Deaf Community while simultaneously providing students with an understanding of the theoretical, cultural, and social components of all human language, including ASL, so that they can better understand how ASL is related to spoken languages and other signed languages. This curriculum is designed to assist students in acquiring competence in American Sign Language; and in developing an understanding of the American Deaf Community and its culture, the acquisition and analysis of human languages (signed and spoken), and how human languages work in everyday use (e.g., comprehension, generation, translation).

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### American Sign Language Requirements

Code	Title	Hours
<b>Language Requirement</b>		
AMSL 1101	Elementary ASL 1	4
AMSL 1102	Elementary ASL 2	4
AMSL 2101	Intermediate ASL 1	4
AMSL 2102	Intermediate ASL 2	4
AMSL 3101	Advanced ASL 1	4
<b>Social and Cultural World</b>		
DEAF 1500	Deaf People in Society	4
DEAF 2500	Deaf History and Culture	4
<b>Interpreting</b>		
INTP 3500	The Interpreting Profession	2
INTP 3510	Interpreting Inquiry Texts	4

### Linguistics Requirements

Code	Title	Hours
<b>Linguistics Foundations</b>		
LING 1150	Introduction to Language and Linguistics	4
LING 2350	Linguistic Analysis	4
<b>Linguistic Structure</b>		
Complete three of the following:		12
LING 3420	Phonetics	
LING 3422	Phonology	
LING 3424	Morphology	
LING 3450	Syntax	
LING 3452	Semantics	

### Psychology of Language

PSYC 1101	Foundations of Psychology	4
PSYC 2320	Statistics in Psychological Research	4
PSYC 3464	Psychology of Language	4

### Linguistics Electives

Complete two courses (not counted elsewhere) from the following:		8
LING 3420	Phonetics	
LING 3422	Phonology	
LING 3424	Morphology	
LING 3434	Bilingualism	
LING 3442	Sociolinguistics	
LING 3450	Syntax	
LING 3452	Semantics	
LING 3454	History of English	
LING 3456	Language and Gender	
LING 3458	Topics in Linguistics	
LING 3460	Historical Linguistics	
LING 4654	Seminar in Linguistics	
LING 4891	Research Seminar in Linguistics	
or LING 4970	Junior/Senior Honors Project 1	
or LING 4971	Junior/Senior Honors Project 2	
or LING 4991	Directed Study Research	
or PSYC 4991	Directed Study Research	
LING 4993	Independent Study	
PSYC 4520	Language and the Brain	
PSYC 4610	Laboratory in Psycholinguistics	
PSYC 4658	Seminar in Psycholinguistics	

### Seminar Requirement

Complete one course (not counted elsewhere) from the following:		4
LING 4654	Seminar in Linguistics	
LING 4891	Research Seminar in Linguistics	
PSYC 4658	Seminar in Psycholinguistics	

### Integrative Courses

Code	Title	Hours
DEAF 2700	ASL Linguistics	4
INTP 4940	Interpreting Research Capstone	4
LING 3412	Language and Culture	4

### Combined Major GPA Requirement

Minimum 2.750 GPA required in all ASL courses

Minimum 2.500 overall GPA required

### Combined Major Credit Requirement

Complete 90 semester hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirements

128 total semester hours required

## Plan of Study

## Computer Science and Linguistics, BS

The computer science and linguistics combined major provides students with extensive background in the formal structures of natural (human) languages, as well as methods and applications of linguistic and psycholinguistic analyses of human language data. This is combined with an emphasis in computer science on artificial intelligence and natural language processing techniques. The major provides excellent preparation for work or more advanced degrees focusing on computational linguistics, natural language processing, speech perception, spoken language interfaces, artificial intelligence, and a wide array of related fields.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 3800	Theory of Computation (Integrative course)	4
CS 4100	Artificial Intelligence (Integrative course)	4
CS 4120	Natural Language Processing (Integrative course)	4
CS 4400	Programming Languages (Integrative course)	4
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4

### Khoury Elective Courses

With adviser approval, directed study, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 4 credits of CS, CY, DS, or IS courses that are not already required. Choose courses within the following range:	4
CS 2500 or higher, except CS 5010	
CY 2000 or higher, except CY 4930	
DS 2500 or higher, except DS 4900	
IS 2000 or higher, except IS 4900	

### Linguistics Requirements

Code	Title	Hours
<b>Linguistics Foundations</b>		
LING 1150	Introduction to Language and Linguistics	4
LING 2350	Linguistic Analysis (Integrative course)	4
LING 3412	Language and Culture	4
<b>Linguistic Structure</b>		
Complete three of the following:		12

LING 3420	Phonetics
LING 3422	Phonology
LING 3424	Morphology
LING 3450	Syntax
LING 3452	Semantics

**Psychology Requirements**

PSYC 1101	Foundations of Psychology	4
PSYC 2320	Statistics in Psychological Research	4
PSYC 3464	Psychology of Language	4

**Laboratory/Directed Study**

Complete one of the following: 4

LING 4891	Research Seminar in Linguistics
LING 4991	Directed Study Research
PSYC 4610	Laboratory in Psycholinguistics

**Seminar Requirement**

LING 4654	Seminar in Linguistics	4
or PSYC 4658	Seminar in Psycholinguistics	

**Linguistics Elective**

Complete one LING course, not counted elsewhere, numbered 3000-4799, or one of the following: 4

DEAF 2700	ASL Linguistics
PSYC 3466	Cognition
PSYC 4520	Language and the Brain
PSYC 4522	Psychology of Reading
PSYC 4524	Cognitive Development
PSYC 4610	Laboratory in Psycholinguistics
PSYC 4658	Seminar in Psycholinguistics
PSYC 4660	Seminar in Cognition
PSYC 4674	Seminar in Cognitive Neuroscience

With prior approval, directed study research, independent study, and Honors Project courses can also be counted:

LING 4891	Research Seminar in Linguistics
LING 4970	Junior/Senior Honors Project 1
LING 4971	Junior/Senior Honors Project 2
LING 4991	Directed Study Research
PSYC 4991	Directed Study Research

**Supporting Courses**

Code	Title	Hours
------	-------	-------

**Mathematics Requirement**

MATH 1341	Calculus 1 for Science and Engineering	4
-----------	--	---

**Computing and Social Issues**

Complete one of the following: 4

AFAM 2600	Issues in Race, Science, and Technology
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights
HIST 2220	History of Technology
ENGL 2150	Literature and Digital Diversity
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks
IS 1300	Knowledge in a Digital World
or PHIL 1300	Knowledge in a Digital World

PHIL 1145	Technology and Human Values
SOCL 1280	The Twenty-First-Century Workplace
SOCL 2485	Environment, Technology, and Society
SOCL 4528	Computers and Society

ENGW 1111	First-Year Writing	4
-----------	--------------------	---

**Advanced Writing in the Disciplines**

ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Required General Electives**

Code	Title	Hours
------	-------	-------

Complete 20 credits of general electives 20

**Khoury College GPA Requirement**

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

**NUpath Requirements Satisfied**

- Engaging with the Natural and Designed World
- Interpreting Culture
- Conducting Formal and Quantitative Reasoning
- Understanding Societies and Institutions
- Analyzing and Using Data
- Engaging Difference and Diversity
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

**Program Requirement**

133 total semester hours required

## Linguistics and Cultural Anthropology, BS

The combined major in linguistics and cultural anthropology focuses on the relationship of culture to the institutions, interpersonal relations, and practices that make up their social structure while emphasizing the structure of human language and its involvement in social interaction and culture. Students examine how language both reflects and influences cultural phenomena and how it can be used as a tool to study those phenomena; and they apply their interests across a range of connected courses, co-op opportunities, and potential research projects.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Linguistics Major Language Requirement

Complete two courses in the same language with a grade of C or higher. Proficiency at elementary level 2 or higher is required.

### Linguistics Requirements

*Note:* A grade of C or higher is required for all courses in this section.

Code	Title	Hours
<b>Linguistics Requirements</b>		
LING 1150	Introduction to Language and Linguistics	4
LING 2350	Linguistic Analysis	4
LING 3442	Sociolinguistics	4
LING 3456	Language and Gender	4
<b>Linguistic Structure</b>		
Complete three of the following:		12
LING 3420	Phonetics	
LING 3422	Phonology	

LING 3424	Morphology
LING 3450	Syntax
LING 3452	Semantics

### Linguistics Elective

Complete one of the following (not counted elsewhere):		4
DEAF 2700	ASL Linguistics	
LING 3420	Phonetics	
LING 3422	Phonology	
LING 3424	Morphology	
LING 3434	Bilingualism	
LING 3450	Syntax	
LING 3452	Semantics	
LING 3454	History of English	
LING 3458	Topics in Linguistics	
LING 3460	Historical Linguistics	
LING 4654	Seminar in Linguistics	
LING 4993	Independent Study	
PHIL 1115	Introduction to Logic	
PSYC 3464	Psychology of Language	
PSYC 4610	Laboratory in Psycholinguistics	
PSYC 4658	Seminar in Psycholinguistics	

### Linguistics Research

Complete one of the following:		4
LING 4891	Research Seminar in Linguistics	
LING 4991	Directed Study Research	
LING 4970 and LING 4971	Junior/Senior Honors Project 1 and Junior/Senior Honors Project 2	

### Anthropology Requirements

## Linguistics and Psychology, BS

This combined major is designed to educate students in psychology, linguistics, and the interface between the two disciplines, which are core areas within the field of cognitive science. Students study the formal structures of human language; sociocultural aspects of language use; and the cognitive aspects of language representations, language acquisition, and language processing. Students receive interdisciplinary training in the methods of experimental psychology, psycholinguistics, and linguistic analysis.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Linguistics Requirements

Code	Title	Hours
<b>Linguistics Foundations</b>		
LING 1150	Introduction to Language and Linguistics	4

### Linguistics and Speech-Language Pathology and Audiology, BS

The combined major in linguistics and speech-language pathology and audiology provides students with extensive background in the formal structures of human language; the methods and applications of linguistic analyses of language data; the biology, neurology, and physics of the human vocal tract; and the nature of both normal and disordered human

speech communication and language development. Students have an opportunity to develop critical thinking, information literacy, and strong oral and written communication skills. While on co-op, students gain clinical experience, including preprofessional training appropriate to pursue a graduate degree in SLPA, related clinical healthcare domains, or education.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Linguistics Requirements

## Linguistics and Communication Studies, BA

In the combined major in linguistics and communication studies, students learn about the formal structures and analysis of human languages across multiple levels (sounds, words, phrases and sentences, meaning) while simultaneously mastering the fundamentals of effective communication and of communication theory and practice. Students receive extensive training in writing and speaking, both for a technical audience and more generally; and they explore the role of language and communication in society, both from a broad theoretical perspective and in narrower, more focused and applied domains.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Linguistics Requirements

## Linguistics and English, BA

In the combined major in linguistics and English, students learn about the structures and analysis of human languages across multiple levels (sounds, words, phrases and sentences, meaning) and apply this knowledge to understanding how the English language works, its rhetorical forms, how it has changed over time, and its cultural context. Students hone their writing skills, develop substantial language-analysis skills, and apply them particularly to English.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Linguistics Requirements

Code	Title	Hours
<b>Linguistics Requirements</b>		
LING 1150	Introduction to Language and Linguistics	4
LING 2350	Linguistic Analysis	4
LING 3412	Language and Culture	4
LING 3442	Sociolinguistics	4
<b>Linguistic Structure</b>		
Complete three of the following:		12
LING 3420	Phonetics	
LING 3422	Phonology	
LING 3424	Morphology	
LING 3450	Syntax	
LING 3452	Semantics	
<b>Linguistics Electives</b>		
Complete two courses (not used elsewhere) from the following:		8
DEAF 2700	ASL Linguistics	
LING 3420	Phonetics	
LING 3422	Phonology	
LING 3424	Morphology	
LING 3434	Bilingualism	
LING 3450	Syntax	
LING 3452	Semantics	
LING 3456	Language and Gender	
LING 3458	Topics in Linguistics	
LING 3460	Historical Linguistics	
LING 4654	Seminar in Linguistics	
LING 4891	Research Seminar in Linguistics	
or LING 4970	Junior/Senior Honors Project 1	
or LING 4971	Junior/Senior Honors Project 2	
or LING 4991	Directed Study Research	
LING 4993	Independent Study	
PHIL 1115	Introduction to Logic	
PSYC 3464	Psychology of Language	
PSYC 3466	Cognition	
PSYC 4520	Language and the Brain	
PSYC 4522	Psychology of Reading	
PSYC 4524	Cognitive Development	
PSYC 4610	Laboratory in Psycholinguistics	

PSYC 4612	Laboratory in Cognition
PSYC 4658	Seminar in Psycholinguistics
PSYC 4660	Seminar in Cognition
PSYC 4674	Seminar in Cognitive Neuroscience

## English Requirements

Code	Title	Hours
------	-------	-------

### English Course-Level Requirement

At least two of the courses chosen from the English Requirements lists below must be numbered 3000–4999.

### Foundational Courses

ENGL 1400	Introduction to Literary Studies	4
ENGL 1160	Introduction to Rhetoric	4
or ENGL 1410	Introduction to Research on Writing	

### Diversity

Complete one of the following courses: 4

ENGL 2150	Literature and Digital Diversity	
ENGL 2296	Early African-American Literature	
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2760	Writing in Global Contexts	
ENGL 3663	The African American Novel	
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
ENGL 3685	Modern and Contemporary Jewish Literature	
or JWSS 3685	Modern and Contemporary Jewish Literature	

### Pre-Nineteenth-Century Literature

Complete one of the following: 4

ENGL 1600	Introduction to Shakespeare	
ENGL 1700	Global Literatures 1	
ENGL 2296	Early African-American Literature	
ENGL 3618	Milton	
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
or JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
ENGL 3101	Early Literatures	
ENGL 3120	17th- and 18th-Century Literatures	

### Nineteenth-, Twentieth-, and Twenty-First-Century Literature

Complete one of the following: 4

ENGL 2330	The American Renaissance	
ENGL 3140	19th-Century Literatures	
ENGL 3619	Emerson and Thoreau	
ENGL 3720	19th-Century Major Figure	
ENGL 2301	The Graphic Novel	
ENGL 2440	The Modern Bestseller	
ENGL 2600	Irish Literary Culture (Abroad)	
ENGL 2610	Contemporary Israeli Literature and Art (Abroad)	
ENGL 3685	Modern and Contemporary Jewish Literature	
or JWSS 3685	Modern and Contemporary Jewish Literature	

ENGL 3730	20th- and 21st-Century Major Figure
-----------	-------------------------------------

### Theories and Methods

Complete one of the following: 4

ENGL 1140	Grammar: The Architecture of English
ENGL 1160	Introduction to Rhetoric
ENGL 1410	Introduction to Research on Writing
ENGL 2150	Literature and Digital Diversity
ENGL 3325	Rhetoric of Law
ENGL 3340	Technologies of Text
ENGL 3370	Writing Cultures
ENGL 3381	The Practice and Theory of Teaching Writing
ENGL 3400	Opening the Archive
ENGL 3700	Narrative Medicine
ENGL 4410	Research in Rhetoric and Writing

### Comparative Literature

Complete one of the following: 4

ENGL 1450	Reading and Writing in the Digital Age
ENGL 1502	American Literature to 1865
ENGL 2150	Literature and Digital Diversity
ENGL 2420	Contemporary Poetry
ENGL 2430	Contemporary Fiction
ENGL 2451	Postcolonial Women Writers
ENGL 2455	American Women Writers
ENGL 2510	Horror Fiction
ENGL 2520	Science Fiction
ENGL 2600	Irish Literary Culture (Abroad)
ENGL 2620	What Is Nature?
ENGL 2690	Boston in Literature
ENGL 3487	Film and Text (Abroad)
ENGL 3663	The African American Novel

### Writing

Complete one of the following: 4

ENGL 2700	Creative Writing
ENGL 2710	Style and Editing
ENGL 2740	Writing and Community Engagement
ENGL 2760	Writing in Global Contexts
ENGL 2770	Writing to Heal
ENGL 2780	Visual Writing: Writing Visuals
ENGL 2850	Writing for Social Media: Theory and Practice
ENGL 3375	Writing Boston
ENGL 3376	Creative Nonfiction
ENGL 3377	Poetry Workshop
ENGL 3378	Fiction Workshop
ENGL 3380	Writing Seminar
ENGL 3382	Publishing in the 21st Century
ENGL 3384	The Writer's Marketplace

### Electives

Complete one additional ENGL elective at the 2000 level or higher. 4

## Linguistics/English Combined Major Requirements

Code	Title	Hours
<b>Integrative Course</b>		
LING 3454	History of English	4
<b>Junior/Senior Seminar</b>		
ENGL 4710 or ENGL 4720 or LING 4654	Capstone Seminar Capstone Project Seminar in Linguistics	4
<b>Experiential Learning</b>		
Complete one of the following options. Courses used to satisfy this requirement may simultaneously satisfy a requirement above.		0-8
Study Abroad (not a Dialogue)		
International Co-op		
LING 4891	Research Seminar in Linguistics	
LING 4970 and LING 4971	Junior/Senior Honors Project 1 and Junior/Senior Honors Project 2	
LING 4991	Directed Study Research	

## Linguistics/English Combined Major Credit Requirement

Complete 80 semester hours in the major.

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirement

128 total semester hours required

## Plan of Study

### Sample Five Years, Three Co-ops in Summer 2/Fall

Year 1					
Fall	Hours	Spring	Hours	Summer 1	Hours

Total Hours: 129

## Linguistics, Minor

The minor in linguistics provides students with an overview of the field, including exposure to both the structural and socio-cultural aspects of the study of language. Students have an opportunity to learn the methods of linguistic analysis and to obtain more advanced exposure to various subdomains of linguistics.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

## Linguistics Foundations

Code	Title	Hours
LING 1150	Introduction to Language and Linguistics	4
LING 2350	Linguistic Analysis	4

## Linguistic Structure

Code	Title	Hours
Complete two of the following:		8
LING 3420	Phonetics	
LING 3422	Phonology	
LING 3424	Morphology	
LING 3450	Syntax	
LING 3452	Semantics	

## Elective

Code	Title	Hours
Complete one course (not counted elsewhere) from the following range:		4
LING 2000 to LING 4996		

## GPA Requirement

2.000 GPA required in the minor

## Marine and Environmental Sciences

Website (<https://cos.northeastern.edu/marine-environmental-sciences/>)

### Geoffrey C. Trussell, PhD

Professor and Chair

### Jennifer Bowen, PhD

Associate Professor and Associate Chair

617.373.3176

617.373.4378 (fax)

The academic programs of the Department of Marine and Environmental Sciences provide students a deep, multidisciplinary understanding of the chemical, physical, geological, socio-ecological, and biological processes that shape Earth's myriad ecosystems. This fundamental understanding, coupled with a focus on the many environmental challenges facing our planet, seeks to yield knowledge and solutions that promote sustainability. Our graduates leave Northeastern prepared to address diverse issues including collapsing fisheries, the impacts of climate change (e.g., sea level rise), coastal erosion, and pollution. To address and solve today's complex environmental problems, environmental professionals are expected to work effectively as part of a multidisciplinary team containing natural and social scientists, engineers, and policymakers. Hence, our undergraduate program emphasizes experiential education in addition to traditional classroom learning. This approach better prepares students to engage in collaborative work and enhances their employment opportunities after Northeastern.

Our Bachelor of Science in Environmental and Sustainability Science degree is designed for students seeking a comprehensive understanding of the scientific implications of environmental problems and the multidisciplinary solutions that environmental scientists can produce to solve them. All students take foundational courses in Earth science, ecology, and sustainability. They then choose from one of four concentrations for deeper learning. For students interested in understanding how physical and geochemical processes shape existing

and emerging environmental threats, they can pursue the Earth, Oceans, and Environmental Change concentration. Students interested in how ecological and evolutionary processes influence our ability to conserve, restore, and manage ecosystems can elect our Conservation, Restoration, and Management concentration. Our concentration in Sustainable Planning and Development is designed for students who want to examine how science informs the nexus of food, water, and energy to promote greater sustainability. Lastly, students interested in leveraging a strong scientific foundation to study coupled human and natural systems that are most threatened by environmental change can focus on our concentration in Environment and Society.

Students interested in merging a scientific foundation in environmental problem solving with skills from sociology, business, public health, law, and the arts might be interested in our Bachelor of Arts in Environmental Studies program. This major provides students a core foundation in both the scientific and human dimensions of environmental problem solving. Students then choose from one of five concentrations developed in connection with other colleges. These concentrations include Environmental and Human Health; Environmental Ethics and Social Justice; Environmental Law, Governance, and Management; Communication and Visualization of Environmental Problems and Solutions; and The Green Economy: Business, Entrepreneurship, and Environmental Sustainability.

Our Bachelor of Science in Marine Biology degree is designed to provide a strong foundation in marine biology and related disciplines. This major is strongly influenced by the Three Seas Marine Biology program that is largely based at Northeastern University's Marine Science Center (MSC) in Nahant, but many courses satisfying this major are also offered on the main campus in Boston. Students in this major study all aspects of marine systems from invertebrate zoology to oceanography. For those students seeking a broader foundation that is not solely focused on marine systems, we also offer a Bachelor of Science in Ecology and Evolutionary Biology (EEB). Students majoring in EEB develop a strong theoretical foundation in ecology and evolution while also building practical skills in data science, genomics, and other areas at the cutting edge of science. Our core curriculum for both marine biology and EEB satisfy the vast majority of requirements for prehealth fields, including veterinary sciences and medical fields.

We offer a number of combined majors in both the BA track and the BS track. Students are also able to create their own combined majors with approval from faculty committees in both departments.

Fieldwork is a critical component of training in our programs, and many of our courses use field sites throughout New England to explore environmental processes or problems in their more complex and natural state. In addition to sponsoring local trips, our students also participate in longer field excursions to places like Iceland, Antarctica, the Florida Keys, the Cascade Mountains of Washington, and many others. Students also have the option to complete undergraduate research experiences with a faculty member. Undergraduate research projects can involve fieldwork and/or lab work guided by faculty mentors, and many projects evolve into senior and honors theses.

Our graduates work across a wide range of disciplines. Student training in the foundations of each major, coupled with extensive training in data science and scientific communication, allows our students to succeed in a range of positions from hydrology to public policy to oceanography. We have graduates working as environmental lawyers; lobbyists; consultants; planners; data analysts; educators; soil, air, and water quality technicians; veterinarians; foresters; geneticists;

bioinformaticians; research divers; aquaculturists; and many more fascinating fields.

### THREE SEAS PROGRAM

Three Seas is an accelerated, research-focused, graduate-level program that allows advanced undergraduate and beginning graduate students in marine biology and related areas to spend a year of field study in three distinct marine environments. As a prime example of Northeastern University's innovative teaching initiative, Three Seas emphasizes experiential learning by providing students with hands-on research experience to develop the critical skills needed to succeed in a career in science.

The program begins with students spending a semester studying the classic rocky intertidal and salt marsh ecosystems at Northeastern University's Marine Science Center (MSC) in Nahant, 12 miles north of the main campus. The following semester, the program travels abroad to both the University of Washington's Friday Harbor Laboratories (FHL) and to the Smithsonian Tropical Research Institute (STRI).

FHL, located on San Juan Island, is 70 miles north of Seattle and part of an archipelago that lies between the mainland and Vancouver Island. In the cold and well-mixed waters of the Puget Sound, students study rocky shores, mudflats, sand beaches, kelp forests, and a range of subtidal environments.

STRI is located in the town of Bocas del Toro, on Isla Colon, an island on the northern Caribbean side of Panama. Students study Panama's tropical ecosystem on both the Caribbean and Pacific coasts, which includes fringing coral reefs, seagrass, and mangrove habitats.

For more information, visit the Three Seas Program website (<https://www.northeastern.edu/threeseas/>).

### MARINE SCIENCE CENTER SUMMER INTERNSHIP PROGRAM

This program provides a monthly stipend during the summer to students while they participate in intensive research with faculty members based at the Marine Science Center (MSC). Although students conduct independent research at the MSC laboratory primarily in the summer, these experiences can also extend throughout the year.

### ACADEMIC PROGRESSION STANDARDS

Same as college standards.

## Programs

### Core Majors

- Ecology and Evolutionary Biology (p. 691) (BS)
- Environmental Studies (p. 698) (BA)
- Environmental and Sustainability Sciences (p. 694) (BS)
- Marine Biology (p. 700) (BS)

### Combined Majors

- Computer Science and Environmental and Sustainability Sciences (p. 357) (BS)
- Data Science and Ecology and Evolutionary Biology (p. 408) (BS)
- Data Science and Environmental and Sustainability Sciences (p. 413) (BS)
- Environmental and Sustainability Sciences and Chemistry (p. 667) (BS)
- Environmental and Sustainability Sciences and Economics (p. 713) (BS)
- Environmental and Sustainability Sciences and Landscape Architecture (p. 65) (BS)

- Environmental Studies and History (p. 717) (BA)
- Environmental Studies and International Affairs (p. 719) (BA)
- Environmental Studies and Philosophy (p. 723) (BA)
- Environmental Studies and Political Science (p. 725) (BA)
- Sociology and Environmental Studies (p. 727) (BA)

### Minors

- Ecology and Evolutionary Biology (p. 729)
- Environmental and Sustainability Sciences (p. 730)
- Environmental Studies (p. 730)
- Geosciences (p. 731)
- Marine Sciences (p. 731)

### Retired Programs

- Computer Science and Environmental Science, BS

*Please see successor program:* Computer Science and Environmental and Sustainability Sciences, BS (p. 357)

- Data Science and Environmental Science, BS

*Please see successor program:* Data Science and Environmental and Sustainability Sciences, BS (p. 413)

- Environmental Science, BS

*Please see successor program:* Environmental and Sustainability Sciences, BS (p. 694)

- Environmental Science and Chemistry, BS

*Please see successor program:* Environmental and Sustainability Sciences and Chemistry, BS (p. 667)

- Environmental Science and Landscape Architecture, BS

*Please see successor program:* Environmental and Sustainability Sciences and Landscape Architecture, BS (p. 65)

- Environmental Studies and Economics, BS

*Please see successor program:* Environmental and Sustainability Sciences and Economics, BS (p. 713)

## Ecology and Evolutionary Biology, BS

The Bachelor of Science in Ecology and Evolutionary Biology (EEB) degree is designed to provide a strong foundation in the fundamentals of ecology and evolutionary biology, including focal points in population, community, and ecosystem ecology; evolutionary ecology and biology; conservation biology; population genetics; behavior; and ecological and evolutionary genomics. Our major provides unique experiential learning opportunities for students interested in the fundamentals of evolution; the ecology of terrestrial, marine, and freshwater systems; and the application of both of these in the pursuit of the conservation and restoration of natural systems. Further, students in our major have the opportunity to focus on cutting-edge techniques in the use of molecular tools to answer fundamental questions in ecology and evolution. The interdisciplinary nature of our major fosters critical thinking and creativity in scientific problem solving while instilling skills that will result in scientifically literate global citizens. The curriculum for this major also satisfies premed and prevet requirements. Courses offered by this major fulfill several core competencies required by the university. Engaging

with the Natural and Designed World, Exploring Created Expression and Innovation, Conducting Formal and Quantitative Reasoning, Analyzing and Using Data, Employing Ethical Reasoning, writing-intensive courses, and capstone.

Fieldwork is a valued component of training in our programs, and several of our courses use field sites, resources, and facilities of the Marine Science Center and throughout the greater Boston area. Students interested in having a foundational education in ecology and evolutionary biology, and also participating in the Northeastern Three Seas Program, will be able to meet the requirements for both programs. All students will also have the option to complete undergraduate research experiences with faculty members in the Department of Marine and Environmental Sciences and can take advantage of our faculty networks of scientists and practitioners for additional co-op and research opportunities.

Students graduating with an EEB major will be prepared for success in pursuing graduate degrees; for working in multiple areas of science and technology, including data science and biotech sectors; and for positions with consulting companies, nonprofits, and government agencies.

**Ecology and evolutionary biology majors and associated combined majors cannot be combined with majors in biology, marine biology, or environmental and sustainability sciences, nor can those students minor in biology, marine science, or environmental and sustainability sciences.**

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

Due to overlap in course content, double majoring in ecology and evolutionary biology and marine biology is not permitted.

### Ecology and Evolutionary Biology Major Requirements

Code	Title	Hours
<b>Ecology and Evolutionary Biology</b>		
EEMB 1101 and EEMB 1102	Foundations in Ecology and Evolutionary Biology and Lab for EEMB 1101	5

## Environmental and Sustainability Sciences, BS

Our Bachelor of Science in Environmental and Sustainability Sciences is designed to provide students comprehensive and transdisciplinary skills needed to tackle the pressing environmental problems we face. Our core curriculum is grounded in a solid foundation in Earth systems, ecology, sustainable development, and required skills courses in data management and geographic information systems. Students then diverge into one of four concentrations. For students interested in the interface of social and ecological systems and who want to view environmental problem solving through a social science lens, we have a concentration in environment and society. For students interested in the nexus of food, water, and energy, our concentration in sustainable development and planning might be most appropriate. Is the conservation of organisms and their ecosystems the area you are most interested in? Our concentration in conservation, restoration, and management may be the best choice. Lastly, for students interested in understanding environmental problem solving from an Earth systems perspective, courses in our Earth, oceans, and environmental change concentration will satisfy your curiosity. In the final semester, our students build teams that bring the skills developed across the varied concentrations back together to learn from each other and to work with our partners to solve specific environmental challenges presented by our stakeholders. Combined, this degree seeks to prepare students to work across a wide array of disciplines to help solve the environmental challenges of the future.

There are a number of interdisciplinary opportunities involving Environmental and Sustainability Sciences. Due to curricular overlap, combinations of any Environmental and Sustainability Sciences major, including combined majors, cannot occur with majors or minors in Ecology and Evolutionary Biology or Environmental Studies, or with the minor in Geoscience.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Environmental and Sustainability Sciences Major Requirements

Code	Title	Hours
<b>Introduction to College</b>		
ENVR 1000	Marine and Environmental Sciences at Northeastern	1
<b>Core Curriculum</b>		
ENVR 1400 and ENVR 1401	Foundations in Environmental and Sustainability Sciences and Lab for ENVR 1400	5
ENVR 1500 and ENVR 1501	Introduction to Environmental, Social, and Biological Data and Lab for ENVR 1500	5

EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	5
ENVR 1200 and ENVR 1201 or ENVR 2200	Dynamic Earth and Lab for ENVR 1200 Earth's Changing Cycles	4
ENVR 2515	Sustainable Development	4
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	5
ENVR 4000	Science Communication and Professional Development	4
ENVR 4050 or ENVR 4971 or ENVR 4997	Solving Emerging Environmental Challenges through Capstone Junior/Senior Honors Project 2 Senior Thesis	4
<b>Mathematics Requirements</b>		
ENVR 2500 and ENVR 2501 or ECON 2350 or POLS 2400 or SOCL 2321	Biostatistics and Lab for ENVR 2500 Statistics Quantitative Techniques Research Methods in Sociology	4
MATH 1241 or MATH 1251 or MATH 1341	Calculus 1 Calculus and Differential Equations for Biology 1 Calculus 1 for Science and Engineering	4

### ENVIRONMENTAL AND SUSTAINABILITY SCIENCES CONCENTRATIONS

Complete one of the following concentrations:

#### CONCENTRATION IN ENVIRONMENT AND SOCIETY

Code	Title	Hours
<b>Required Environment and Society Courses</b>		
ENVR 5450	Applied Social-Ecological Systems Modeling	4
POLS 2395	Environmental Politics and Policy	4
PPUA 5260	Ecological Economics	4
SOCL 1246	Environment and Society	4
SOCL 2485	Environment, Technology, and Society	4
<b>Environment and Society Electives</b>		
Complete five of the following:		20-24
CIVE 5275	Life Cycle Assessment of Materials, Products, and Infrastructure	
EEMB 2420	Fisheries Biology, Policy, and Conservation	
EEMB 3460	Conservation Biology	
EEMB 3470	Coastal Ecology and Sustainability	
EEMB 4000 and ENVR 3151	Applied Conservation Biology and Food Sustainability in the Mediterranean - Abroad	
ENVR 3150	Food Security and Sustainability	
ENVR 3201 and ENVR 3202	Coastal Sustainability: Ecology and Coupled Human-Natural Systems in Southeast Asia and Coastal Sustainability: The Blue Economy of the Gulf of Maine	
ENVR 5220	Ecosystem-Based Management	
ENVR 5210	Environmental Planning	
ENVR 5350	Sustainable Energy and Climate Solutions	

INTL 2464	Natural Resources and Sustainable Development	
INTL 5100	Climate and Development	
PPUA 5264	Energy Democracy and Climate Resilience: Technology, Policy, and Social Change	
PPUA 5268	International Environmental Policy	

### CONCENTRATION IN SUSTAINABLE PLANNING AND DEVELOPMENT

Code	Title	Hours
<b>Required Sustainable Planning and Development Courses</b>		
ENVR 3200	Water Resources	4
ENVR 3150	Food Security and Sustainability	4
ENVR 5210	Environmental Planning	4
PPUA 5268	International Environmental Policy	4
ENVR 5350	Sustainable Energy and Climate Solutions	4

#### Sustainable Planning and Development Electives

Complete five of the following:		20-28
EEMB 2420	Fisheries Biology, Policy, and Conservation	
INTL 2464	Natural Resources and Sustainable Development	
EEMB 3460	Conservation Biology	
EEMB 3470	Coastal Ecology and Sustainability	
EEMB 4001	Landscape and Restoration Ecology	
ENVR 5563	Advanced Spatial Analysis	
ENVR 5220	Ecosystem-Based Management	
ENVR 5450	Applied Social-Ecological Systems Modeling	
ENVR 4500 and ENVR 4501	Applied Hydrogeology and Lab for ENVR 4500	
PPUA 5260	Ecological Economics	
ENVR 5190	Soil Science	
CIVE 5275	Life Cycle Assessment of Materials, Products, and Infrastructure	
ENVR 3201 and ENVR 3202	Coastal Sustainability: Ecology and Coupled Human-Natural Systems in Southeast Asia and Coastal Sustainability: The Blue Economy of the Gulf of Maine	
EEMB 4000 and ENVR 3151	Applied Conservation Biology and Food Sustainability in the Mediterranean - Abroad	

### CONCENTRATION IN CONSERVATION, RESTORATION, AND MANAGEMENT

Code	Title	Hours
<b>Required Conservation, Restoration, and Management Courses</b>		
EEMB 2400	Introduction to Evolution	4
EEMB 3455 or CIVE 3430	Ecosystems Ecology Engineering Microbiology and Ecology	4
EEMB 3460	Conservation Biology	4
EEMB 4001	Landscape and Restoration Ecology	4
ENVR 5220	Ecosystem-Based Management	4
<b>Conservation, Restoration, and Management Electives</b>		
Complete five of the following:		20-25

EEMB 2420	Fisheries Biology, Policy, and Conservation
EEMB 3465	Ecological and Conservation Genomics
EEMB 3475	Wildlife Ecology
EEMB 3466	Disease Ecology
EEMB 4000 and ENVR 3151	Applied Conservation Biology and Food Sustainability in the Mediterranean - Abroad
ENVR 3150	Food Security and Sustainability
ENVR 3200	Water Resources
ENVR 4500 and ENVR 4501	Applied Hydrogeology and Lab for ENVR 4500
ENVR 5190	Soil Science
ENVR 5350	Sustainable Energy and Climate Solutions
ENVR 5450	Applied Social-Ecological Systems Modeling
ENVR 5563	Advanced Spatial Analysis

### CONCENTRATION IN EARTH, OCEANS, AND ENVIRONMENTAL CHANGE

Code	Title	Hours
<b>Earth Systems</b>		
Complete one of the following:		4-5
ENVR 1200 and ENVR 1201	Dynamic Earth and Lab for ENVR 1200	
ENVR 2200	Earth's Changing Cycles	
<b>Earth Materials and Landforms</b>		
Complete one of the following:		5
ENVR 2340 and ENVR 2341	Earth Landforms and Processes and Lab for ENVR 2340	
ENVR 2310 and ENVR 2311	Earth Materials and Lab for ENVR 2310	
<b>Freshwater</b>		
Complete one of the following:		4-5
ENVR 3200	Water Resources	
ENVR 4500 and ENVR 4501	Applied Hydrogeology and Lab for ENVR 4500	
<b>Oceans</b>		
Complete one of the following:		4
ENVR 3600	Oceanography	
ENVR 3125	Global Oceanic Change	
<b>Environmental Change</b>		
Complete one of the following:		4
ENVR 3125	Global Oceanic Change	
ENVR 5150	Climate and Atmospheric Change	
<b>Chemistry</b>		
Complete one of the following:		5
CHEM 1161 and CHEM 1162 and CHEM 1163	General Chemistry for Science Majors and Lab for CHEM 1161 and Recitation for CHEM 1161	
CHEM 1211 and CHEM 1212 and CHEM 1213	General Chemistry 1 and Lab for CHEM 1211 and Recitation for CHEM 1211	
<b>Physics</b>		
Complete one of the following:		5

PHYS 1145 and PHYS 1146	Physics for Life Sciences 1 and Lab for PHYS 1145
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151
PHYS 1161 and PHYS 1162 and PHYS 1163	Physics 1 and Lab for PHYS 1161 and Recitation for PHYS 1161

### Earth, Oceans, and Environmental Change Electives

Complete three of the following: 12-15

CIVE 3435	Environmental Pollution Fate and Transport
CIVE 5280	Remote Sensing of the Environment
ENVR 2310 and ENVR 2311	Earth Materials and Lab for ENVR 2310
ENVR 2340 and ENVR 2341	Earth Landforms and Processes and Lab for ENVR 2340
ENVR 3125	Global Oceanic Change
ENVR 3200	Water Resources
ENVR 3410	Environmental Geochemistry
ENVR 3418	Geophysics
ENVR 3600	Oceanography
ENVR 4500 and ENVR 4501	Applied Hydrogeology and Lab for ENVR 4500
ENVR 5190	Soil Science
ENVR 5201 and ENVR 5202	Geologic Field Seminar and Environmental Science Field Seminar Abroad
ENVR 5240 and ENVR 5241	Sedimentary Basin Analysis and Lab for ENVR 5240
ENVR 5242 and ENVR 5243	Ancient Marine Life and Lab for ENVR 5242
ENVR 5270 and ENVR 5271	Glacial and Quaternary History and Lab for ENVR 5270

### Environmental and Sustainability Sciences Major Credit Requirement

Complete 81 semester hours in the major.

### Program Requirement

136 total semester hours required

### Plan of Study

#### Four Years, One Co-op in Spring/Summer 1

##### Year 1

Fall	Hours	Spring	Hours	Summer 2	Hours

## Environmental Studies, BA

The Bachelor of Arts in Environmental Studies degree is designed to provide students with a critical foundation in both the scientific and human foundation of environmental systems. It also prioritizes mastery of skills that will position students for future success as environmental professionals. In their first two years, all environmental studies majors complete introductory courses in critical scientific disciplines—including focusing on food, water, and climate resources—and in essential human dimensions—including sustainable development, environmental health, and environmental justice. Lastly, all students take required skill-building courses that are designed to promote success with desired co-op and career opportunities. Students then opt for one of five concentrations that build their training in courses from across the university. These concentrations are specifically designed to cover the breadth of areas where people and the environment intersect, including courses that draw on Northeastern's expertise in public health, environmental justice, environmental law, visualization and storytelling of environmental issues, and the green economy. Students interested in viewing environmental problems specifically through quantitative social and natural science lenses should consider the BS Environmental and Sustainability Sciences (p. 694) program.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Environmental Studies Major Requirements

Code	Title	Hours
<b>College</b>		
ENVR 1000	Marine and Environmental Sciences at Northeastern	1
<b>Core Courses</b>		
Introductory Courses		
ENVR 1101	Environmental Science	4
<i>Complete one of the following:</i>		
SOCL 1246	Environment and Society	4
PHIL 1180	Environmental Ethics	
ANTH 1101	Peoples and Cultures	
ENVR 2401	Food Justice and Community Development	

Scientific Foundations of Environmental Systems		
ENVR 1110	Global Climate Change	4
ENVR 3150	Food Security and Sustainability	4
ENVR 3200	Water Resources	4
Human Dimensions of Environmental Systems		
ENVR 2515	Sustainable Development	4
PHTH 2414	Environmental Health	4
SOCL 4522	Environmental Justice	4
Skills		13-14
<i>Research Methods</i>		
Complete one of the following:		
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	
ECON 2350	Statistics	
POLS 2400	Quantitative Techniques	
SOCL 2321	Research Methods in Sociology	
ANTH 3410	Ethnographic Field Experience	
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	5
ENVR 4000	Science Communication and Professional Development	4
Capstone		4
<i>Complete one of the following:</i>		
ENVR 4050	Solving Emerging Environmental Challenges through Capstone	
ENVR 4970 or ENVR 4971	Junior/Senior Honors Project 1 Junior/Senior Honors Project 2	
ENVR 4997	Senior Thesis	

### Concentrations

Complete one of the following concentrations:

- Environmental and Human Health (p. 698)
- Environmental Ethics and Social Justice (p. 699)
- Environmental Law, Governance, and Management (p. 699)
- Communication and Visualization: Environmental Problems and Solutions (p. 699)
- The Green Economy: Business, Entrepreneurship, and Environmental Sustainability (p. 700)

### Environmental Studies Major Credit Requirement

Complete 80 semester hours in the major.

### Program Requirement

128 total semester hours required

### CONCENTRATION IN ENVIRONMENTAL AND HUMAN HEALTH

Code	Title	Hours
<b>Required Courses</b>		
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	5
EEMB 3466	Disease Ecology	4
PHTH 1270	Introduction to Global Health	4
PHTH 4202	Principles of Epidemiology in Medicine and Public Health	4
<b>Electives</b>		<b>16</b>

Complete four of the following:

COMM 3500	Environmental Issues, Communication, and the Media
EEMB 3460	Conservation Biology
EEMB 3555	Networks and Natural Systems
ENVR 4505	Wetlands
ENVR 5450	Applied Social-Ecological Systems Modeling
INTL 5100	Climate and Development
PHTH 4120	Global Perspectives on Discrimination and Health
or PHTH 5120	Race, Ethnicity, and Health in the United States
PHTH 5214	Environmental Health
POLS 2395	Environmental Politics and Policy
SOCL 2485	Environment, Technology, and Society

### CONCENTRATION IN ENVIRONMENTAL ETHICS AND SOCIAL JUSTICE

Code	Title	Hours
<b>Required Courses</b>		
COMM 3500	Environmental Issues, Communication, and the Media	4
PHIL 1180	Environmental Ethics	4
POLS 2395	Environmental Politics and Policy	4
SOCL 2485	Environment, Technology, and Society	4
<b>Electives</b>		<b>16</b>

Complete four of the following if PHIL 1180 was not taken as part of the core curriculum or five if it was:

BUSN 3110	The Consulting Environment
COMM 3532	Theories of Conflict and Negotiation
EEMB 4000	Applied Conservation Biology
ENVR 3151	Food Sustainability in the Mediterranean - Abroad
ENVR 4504	Environmental Pollution
ENVR 5350	Sustainable Energy and Climate Solutions
ENVR 5450	Applied Social-Ecological Systems Modeling
INTL 5100	Climate and Development
MGMT 2115	Nonprofit Leadership and Social Innovation
PHIL 2001	Ethics and Evolutionary Games
PPUA 5268	International Environmental Policy
PPUA 5270	Food Systems and Public Policy
PPUA 5390	Special Topics in Public Policy and Urban Affairs

### CONCENTRATION IN ENVIRONMENTAL LAW, GOVERNANCE, AND MANAGEMENT

Code	Title	Hours
<b>Required Courses</b>		
LPSC 1101	Introduction to Law	4
LPSC 2301	Introduction to Law, Policy, and Society	4
<i>Complete one of the following:</i> 4		
POLS 2395	Environmental Politics and Policy	
PPUA 5268	International Environmental Policy	
<i>Complete one of the following:</i> 4		
ENVR 5210	Environmental Planning	

EEMB 2420	Fisheries Biology, Policy, and Conservation
EEMB 4000	Applied Conservation Biology
ENVR 5220	Ecosystem-Based Management

**Electives** 16

Complete four of the following:

ENVR 3151	Food Sustainability in the Mediterranean - Abroad
EEMB 3460	Conservation Biology
EEMB 3475	Wildlife Ecology
ENVR 5210	Environmental Planning
ENVR 5220	Ecosystem-Based Management
ENVR 5450	Applied Social-Ecological Systems Modeling
LPSC 3303	Topics in Law and Public Policy
POLS 2395	Environmental Politics and Policy
POLS 3409	Global Governance
POLS 3307	Public Policy and Administration
PPUA 5268	International Environmental Policy

### CONCENTRATION IN COMMUNICATION AND VISUALIZATION: ENVIRONMENTAL PROBLEMS AND SOLUTIONS

Code	Title	Hours
<b>Required Courses</b>		
ARTG 5110	Information Design History	4
COMM 3500	Environmental Issues, Communication, and the Media	4

*Complete one of the following:* 4

JRNL 3650	Science Writing
JRNL 3700	Data Storytelling

Complete one of the following: 4

ARTG 6330	Information Design Mapping Strategies
CIVE 5280	Remote Sensing of the Environment
ENVR 5260	Geographical Information Systems

**Electives** 16

Complete four of the following:

ARTG 3520	Marketing Communications and Cultures 2
ARTG 5130	Visual Communication for Information Design
CIVE 5280	Remote Sensing of the Environment
COMM 2555	Games for Change
COMM 3532	Theories of Conflict and Negotiation
ENVR 3201	Coastal Sustainability: Ecology and Coupled Human-Natural Systems in Southeast Asia
ENVR 3202	Coastal Sustainability: The Blue Economy of the Gulf of Maine
EEMB 3555	Networks and Natural Systems
ENVR 5450	Applied Social-Ecological Systems Modeling
ENVR 5563	Advanced Spatial Analysis
GAME 2755	Games and Social Justice
JRNL 3650	Science Writing
JRNL 3700	Data Storytelling

Concentration in the Green Economy: Business, Entrepreneurship, and Environmental Sustainability

Code	Title	Hours
<b>Required Courses</b>		
BUSN 1110	Fundamentals of Business	4
FINA 2720	Sustainability in the Business Environment	4
<i>Complete one of the following:</i>		4
ENVR 5210	Environmental Planning	
ENVR 5220	Ecosystem-Based Management	
<i>Complete one of the following:</i>		4
BUSN 3110	The Consulting Environment	
ENR 2206	Global Social Enterprise	
ENR 3520	Impact Investing and Social Finance	
<b>Electives</b>		<b>16</b>
Complete four of the following:		
BUSN 3110	The Consulting Environment	
CIVE 5275	Life Cycle Assessment of Materials, Products, and Infrastructure	
ECON 3423	Environmental Economics	
EEMB 2420	Fisheries Biology, Policy, and Conservation	
ENR 2301	Innovation!	
ENR 3520	Impact Investing and Social Finance	
ENVR 3201	Coastal Sustainability: Ecology and Coupled Human-Natural Systems in Southeast Asia	
ENVR 3202	Coastal Sustainability: The Blue Economy of the Gulf of Maine	
ENVR 5210	Environmental Planning	
ENVR 5220	Ecosystem-Based Management	
ENVR 5350	Sustainable Energy and Climate Solutions	
ME 5645	Environmental Issues in Manufacturing and Product Use	
MGMT 3520	Consulting Fundamentals and Frameworks	
MGMT 3530	Project Management	
MKTG 2301	Marketing and Society	

**Plan of Study**

**Four Years, Two Co-ops in Spring/Summer 1**

Year 1

**Marine Biology, BS**

Our Bachelor of Science in Marine Biology aims to provide students with a solid foundation in marine biology, with flexibility to explore ocean and coastal processes, marine biogeochemistry, the ecology and evolution of marine organisms, and the ocean's role and responses in global change. Core, skills-based courses are designed to prepare students for in-depth examination of the contemporary issues facing marine organisms and ecosystems, while helping to develop resumés that are strengthened by experiential learning. This major also provides options for students following a prevet or premed track.

Faculty teaching the courses are experts who are dedicated to marine research and experiential learning, providing students the opportunities to learn new, valuable skills and to expand their professional science

network. Students may actively participate in field and lab work, internships at Northeastern University's Marine Science Center in Nahant, MA, study abroad through Dialogue of Civilizations programs or the long-standing Three Seas Program (see below). Additional opportunities exist for students in this strong, interdisciplinary program that prepares students for direct entry into the job market or a competitive graduate program.

**Students majoring in Marine Biology cannot be combined with majors in Biology, Ecology and Evolutionary Biology, or Environmental and Sustainability Sciences, nor can they minor in Biology, Ecology and Evolutionary Biology, or Environmental and Sustainability Sciences.**

### THREE SEAS PROGRAM

The Three Seas Program, now in its 38<sup>th</sup> year, delivers a unique combination of inquiry-based, global study, fieldwork, and research across three distinct locations: the Gulf of Maine, tropical coastal Panama, and the Pacific Northwest. This optional, two-semester program is designed to teach students to plan and execute marine field research to enhance their future opportunities, whether in top doctoral programs or careers with government agencies or private consulting firms. Students finish the program as active scientists who are certified in scientific diving, have an expanded skill set, and a robust professional network.

For more information, please see the Three Seas Program website (<https://cos.northeastern.edu/marine-environmental-sciences/three-seas/>).

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Marine Biology Major Requirements

Code	Title	Hours
<b>Introduction to College</b>		
ENVR 1000	Marine and Environmental Sciences at Northeastern	1
<b>Foundations Courses</b>		
EEMB 1101 and EEMB 1102	Foundations in Ecology and Evolutionary Biology and Lab for EEMB 1101	5
EEMB 1105 and EEMB 1106	Foundations in Ecological and Evolutionary Genomics and Lab for EEMB 1105	5
<b>Genetics</b>		
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
<b>Ecology</b>		
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	5
<b>Evolution</b>		

EEMB 2400	Introduction to Evolution	4
<b>Marine Biology</b>		
EEMB 2700 and EEMB 2701	Marine Biology and Lab for EEMB 2700	5
<b>Conservation</b>		
EEMB 3460	Conservation Biology	4
<b>Scientific Communication</b>		
ENVR 4000	Science Communication and Professional Development	4
<b>Capstone</b>		
Complete one of the following:		1-4
BIOL 4701	Biology Capstone	
ENVR 4900	Earth and Environmental Science Capstone	
ENVR 4997	Senior Thesis	

### MARINE BIOLOGY OPTIONS

#### Requirements for Students Not Participating in Three Seas

Code	Title	Hours
ENVR 3125	Global Oceanic Change	4
ENVR 3600	Oceanography	4
Complete four of the following:		16-20
BIOL 5587	Comparative Neurobiology	
EEMB 2420	Fisheries Biology, Policy, and Conservation	
EEMB 2290	Ecology and Evolution of Behavior	
EEMB 3001	Genetics and Evolution in Action	
EEMB 3450	Physiological Adaptations to the Environment	
EEMB 3455	Ecosystems Ecology	
EEMB 3465	Ecological and Conservation Genomics	
EEMB 3466	Disease Ecology	
EEMB 3555	Networks and Natural Systems	
EEMB 5130 and EEMB 5131	Ecological Dynamics and Lab for EEMB 5130	
ENVR 3201	Coastal Sustainability: Ecology and Coupled Human-Natural Systems in Southeast Asia	
ENVR 3202	Coastal Sustainability: The Blue Economy of the Gulf of Maine	
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	
ENVR 4504	Environmental Pollution	
ENVR 4505	Wetlands	
ENVR 5220	Ecosystem-Based Management	
ENVR 5242 and ENVR 5243	Ancient Marine Life and Lab for ENVR 5242	
EEMB 5542	Marine Spatial Planning	
Elective courses available at Nahant campus:		
EEMB 5510	New England Marine Biomes	
EEMB 5522	Experimental Design Marine Ecology	
EEMB 5525	Advanced Field Methods in Marine Ecology	
EEMB 5546	Sustainability of the Land-Sea Interface	

**Three Seas Students**

Code	Title	Hours
Three Seas courses at Nahant/Northeastern campus:		
EEMB 5522 or EEMB 5525	Experimental Design Marine Ecology Advanced Field Methods in Marine Ecology	3-4
EEMB 5546	Sustainability of the Land-Sea Interface	3
EEMB 5510	New England Marine Biomes	4
EEMB 5542	Marine Spatial Planning	4
EEMB 5589	Diving Research Methods	2
Three Seas courses (abroad):		
EEMB 5504 and EEMB 5505	Biology of Corals and Lab for EEMB 5504	3
EEMB 5506 and EEMB 5507	Biology and Ecology of Fishes and Lab for EEMB 5506	3
EEMB 5508	Marine Birds and Mammals	3
EEMB 5538	Conservation and Restoration of Marine Systems	3
EEMB 5518 and EEMB 5519	Ocean and Coastal Processes and Lab for EEMB 5518	3
EEMB 5520	Tropical Marine Ecology	2
Select one of the following:		
EEMB 5533 and EEMB 5535	Marine Invertebrate Zoology and Botany and Lab for EEMB 5533	3
EEMB 5540 and EEMB 5541	Changing Global Oceans and Lab for EEMB 5540	3

**Supporting Courses for Marine Biology**

Code	Title	Hours
<b>Mathematics</b>		
MATH 1251 or MATH 1241 or MATH 1341	Calculus and Differential Equations for Biology 1 Calculus 1 Calculus 1 for Science and Engineering	4
<b>Introduction to Data</b>		
ENVR 1500 and ENVR 1501	Introduction to Environmental, Social, and Biological Data and Lab for ENVR 1500	5
<b>Biostatistics</b>		
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	5
<b>Chemistry</b>		
CHEM 1161 and CHEM 1162 and CHEM 1163	General Chemistry for Science Majors and Lab for CHEM 1161 and Recitation for CHEM 1161	5
CHEM 2311 and CHEM 2312 or ENVR 3410	Organic Chemistry 1 and Lab for CHEM 2311 Environmental Geochemistry	4
<b>Physics</b>		
Complete a lecture/lab set for Physics 1:		
<i>Physics 1</i>		5
PHYS 1145 and PHYS 1146	Physics for Life Sciences 1 and Lab for PHYS 1145 (recommended)	
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	

PHYS 1161  
and PHYS 1162  
and PHYS 1163

Physics 1  
and Lab for PHYS 1161  
and Recitation for PHYS 1161

PHYS 1171  
and PHYS 1172  
and PHYS 1173

Physics 1 for Bioscience and Bioengineering  
and Lab for PHYS 1171  
and Interactive Learning Seminar for PHYS 1171

**Marine Biology Major Credit/GPA Requirements**

Complete 89 semester hours in the major with a cumulative GPA of 2.000.

**Program Requirement**

137 total semester hours required

**Plan of Study****Four Years, Two Co-ops in Spring/Summer 1**

Year 1

**Computer Science and Environmental and Sustainability Sciences, BS**

The computer science and the environmental and sustainability sciences combined major focuses on the major environmental challenges facing our planet and provides broad training to understand how these challenges can be met through advances in computer science and artificial intelligence. Understanding these processes requires both the acquisition and computational analysis of large amounts of data—underscoring the synergistic relationship between computer science and environmental and sustainability sciences.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Computer Science Courses**

Code	Title	Hours
------	-------	-------

**Computer Science Overview**

CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1

**Computer Science Fundamental Courses**

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5

**Computer Science Required Courses**

CS 3000 and CS 3001	Algorithms and Data and Recitation for CS 3000	4
CS 3200	Database Design	4
CS 3500	Object-Oriented Design	4
CS 3800	Theory of Computation	4
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4

**Khoury Elective Courses**

With advisor approval, a directed study, research, project study, or appropriate graduate-level course may also be taken as a computer science elective.

Complete 4 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:	4
CS 2500 or higher, except CS 5010	
CY 2000 or higher, except CY 4930	
DS 2500 or higher, except DS 4900	
IS 2000 or higher, except IS 4900	

**Environmental and Sustainability Sciences Courses**

Code	Title	Hours

CHEM 1214 and CHEM 1215 and CHEM 1216	General Chemistry 2 and Lab for CHEM 1214 and Recitation for CHEM 1214	5

**Computing and Social Issues**

Complete one of the following:	4	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
IS 1300 or PHIL 1300	Knowledge in a Digital World	
PHIL 1145	Technology and Human Values	
SOCL 1280	The Twenty-First-Century Workplace	
SOCL 4528	Computers and Society	

**Computer Science English Requirement**

Code	Title	Hours
------	-------	-------

**College Writing**

ENGW 1111	First-Year Writing	4
or ENGW 1102	First-Year Writing for Multilingual Writers	

**Advanced Writing in the Disciplines**

Complete one of the following:	4	
ENGW 3302	Advanced Writing in the Technical Professions	

ENGW 3307	Advanced Writing in the Sciences
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines

ENVR 1400 and ENVR 1401	5			
	20	17	8	8

### Integrative Requirement

Code	Title	Hours
Complete one of the following:		4
ENVR 4050	Solving Emerging Environmental Challenges through Capstone	
ENVR 4971	Junior/Senior Honors Project 2	
ENVR 4997	Senior Thesis	
CS 4991	Research	

### Required General Electives

Code	Title	Hours
Complete 20 credits of general electives.		20

### Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, DS, CY, and IS courses

### NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

## Data Science and Ecology and Evolutionary Biology, BS

The combined major in data science and ecology and evolutionary biology provides a strong foundation in the fundamentals of ecology and evolutionary biology, including focal points in population, community, and ecosystem ecology; evolutionary ecology and biology; conservation biology; population genetics; behavior; and ecological and evolutionary genomics. Data science allows students to study the collection, manipulation, storage, retrieval, and computational analysis of data in its various forms, including numeric, textual, image, and video data from small to large volumes. The interdisciplinary nature of the major fosters critical thinking and creativity in scientific problem solving.

Students majoring in Ecology and Evolutionary Biology and associated combined majors cannot be combined with majors in Biology, Marine Biology, or Environmental and Sustainability Sciences, nor can they minor in Biology, Marine Science, or Environmental and Sustainability Sciences.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Data Science Course Work

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Programming Sequence Pathways</b>		
Choose one of the two options.		12
<i>Computer Science Option</i>		
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	
<i>Data Science Option</i>		
DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
DS 2500 and DS 2501	Intermediate Programming with Data and Lab for DS 2500	
DS 3500	Advanced Programming with Data

**Ecology and Evolutionary Biology Topical Requirement**

Code	Title	Hours
Complete 16 semester hours of the following. At least one course must be taken from each list.		16

*Evolution of Organisms*

EEMB 2290	Ecology and Evolution of Behavior	
EEMB 2700 and EEMB 2701	Marine Biology and Lab for EEMB 2700	
EEMB 3001	Genetics and Evolution in Action	
EEMB 3450	Physiological Adaptations to the Environment	
EEMB 3700	Desert Ecology	
EEMB 4010	Biology of Mammals	

*Ecology and Conservation Biology*

EEMB 3460	Conservation Biology	
EEMB 3475	Wildlife Ecology	

EEMB 3465	Ecological and Conservation Genomics	
EEMB 3470	Coastal Ecology and Sustainability	
EEMB 4001	Landscape and Restoration Ecology	
ENVR 3125	Global Oceanic Change	
ENVR 3150	Food Security and Sustainability	

*Analytical Skills*

ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	
EEMB 3465	Ecological and Conservation Genomics	
EEMB 5130	Ecological Dynamics	
ENVR 5500	Advanced Biostatistics	

**Supporting Courses**

Code	Title	Hours
<b>Calculus</b>		
MATH 1251	Calculus and Differential Equations for Biology 1	4
or MATH 1341	Calculus 1 for Science and Engineering	
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	5
<b>Chemistry</b>		
CHEM 1211 and CHEM 1212 and CHEM 1213	General Chemistry 1 and Lab for CHEM 1211 and Recitation for CHEM 1211	5
<b>Physics</b>		
Complete one of the following:		5
PHYS 1145 and PHYS 1146	Physics for Life Sciences 1 and Lab for PHYS 1145	
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	

**Computer Science English Requirement**

Code	Title	Hours
Complete 16 semester hours of general electives.		16

### Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS,CY, DS, and IS courses

### NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

## Data Science and Environmental and Sustainability Sciences, BS

The data science and environmental and sustainability sciences combined major focuses on major environmental challenges facing our planet and provides broad training to understand how these challenges can be met through advances in data science. Understanding these processes requires acquisition and analysis of large amounts of data—an ideal fit with data science, where students study the collection, manipulation, storage, retrieval, and computational analysis of data in its various forms, including numeric, textual, image, and video data from small to large volumes.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Data Science Courses

Code	Title	Hours
CS 1200	First Year Seminar	1

CS 1210	Professional Development for Khoury Co-op	1
---------	---	---

### Programming Sequence Pathways

Choose one of the two options: 12

#### Computer Science Option

CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	
CS 3500	Object-Oriented Design	

#### Data Science Option

DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
DS 2500 and DS 2501	Intermediate Programming with Data and Lab for DS 2500	
DS 3500	Advanced Programming with Data	

### Computer Science Required Courses

CS 3200	Database Design	4
---------	-----------------	---

### Data Science Foundations

DS 3000	Foundations of Data Science	4
DS 4200	Information Presentation and Visualization	4
DS 4300	Large-Scale Information Storage and Retrieval	4
DS 4400	Machine Learning and Data Mining 1	4
DS 4420	Machine Learning and Data Mining 2	4

### Khoury Elective Courses

With advisor approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 4 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges: 4

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

### Environmental Science and Sustainability Courses

Code	Title	Hours
<b>Environmental and Sustainability Sciences Major Requirements</b>		
ENVR 1400 and ENVR 1401	Foundations in Environmental and Sustainability Sciences and Lab for ENVR 1400	5
ENVR 2200 or ENVR 1200	Earth's Changing Cycles Dynamic Earth	4
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	5
ENVR 2515	Sustainable Development	4
Choose one course from each category:		
<i>Skills Courses</i> 4-5		
ENVR 3300 and ENVR 3301 or EEMB 3555	Geographic Information Systems and Lab for ENVR 3300 Networks and Natural Systems	
<i>Earth Oceans and Environmental Change</i>		4-5

ENVR 2310 and ENVR 2311	Earth Materials and Lab for ENVR 2310	
ENVR 3600	Oceanography	
ENVR 3125	Global Oceanic Change	
ENVR 4500 and ENVR 4501	Applied Hydrogeology and Lab for ENVR 4500	
<i>Conservation, Restoration, and Management</i>		4
EEMB 2400	Introduction to Evolution

### Environmental and Sustainability Sciences and Chemistry, BS

The Departments of Marine and Environmental Sciences and Chemistry provide education in basic environmental and sustainability sciences (ESS) and chemistry-related disciplines. The overall objective of this combined major is to provide the fundamental scientific background

and practical training for students as they prepare for environmental and chemically related careers or advanced study in fields including the traditional specialties such as toxicology, pollution, bioremediation, environmental protection, education, law, and other endeavors that may draw upon an understanding of the chemical basis of the environment and the changes that will likely result from global environmental change.

Key general objectives are the development of qualitative and quantitative problem-solving skills and effective communication skills. This combined major includes the development of conceptual understanding and problem-solving abilities in the fundamental dynamics between the environment and its chemistry, be it analytical chemistry, biochemistry, inorganic chemistry, organic chemistry, and physical chemistry. Students will have the opportunity to perform quantitative measurements; learn proper laboratory practices, including safety; develop proficiency with modern instruments and computers for data acquisition and analysis; and learn the relevance of chemistry within the context of the abiotic and biotic environments.

Students also have the opportunity to participate in the cooperative education program and thereby gain invaluable professional experience to augment their classroom and laboratory work. Not only does that experience add immensely to the overall education received, it also has the potential to provide contacts and references for later employment or graduate school admissions. Students in this major may also undertake research projects for at least one semester under the supervision of a faculty member. Sufficient electives are available in the program either to take more advanced courses or research within the department or to add courses in an area of special interest.

There are a number of interdisciplinary opportunities involving ESS. Due to curricular overlap, combinations of any ESS major, including combined majors, cannot occur with majors or minors in ecology and evolutionary biology or environmental studies or with the minor in geoscience. ESS and chemistry combined majors are also restricted from a minor in environmental chemistry.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Environmental Science and Sustainability Requirements

Code	Title	Hours
<b>Core Courses</b>		
ENVR 1400 and ENVR 1401	Foundations in Environmental and Sustainability Sciences and Lab for ENVR 1400	5
ENVR 2200 or ENVR 1200	Earth's Changing Cycles Dynamic Earth	4
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	5
ENVR 2515	Sustainable Development	4

Complete one skills course:		4-5
ENVR 1500 and ENVR 1501	Introduction to Environmental, Social, and Biological Data and Lab for ENVR 1500	
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	
EEMB 3555	Networks and Natural Systems	
Complete four courses from the list below. Three of four must be above the 3000 level:		16
EEMB 2400	Introduction to Evolution	
EEMB 3460	Conservation Biology	
EEMB 4001	Landscape and Restoration Ecology

## Environmental and Sustainability Sciences and Economics, BS

Through this combined major, successful undergraduates will develop an awareness of the intrinsic connection between the environment and economics and understand how long-run economic growth is crucially dependent on policies that account for the sustainability and well-being of the environment and that are grounded on environmental science.

There are a number of interdisciplinary opportunities involving environmental and sustainability sciences. Due to curricular overlap, combinations of any environmental and sustainability sciences major, including combined majors, cannot occur with majors or minors in ecology and evolutionary biology or environmental studies or with the minor in geoscience.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Environmental and Sustainability Sciences Requirements

## Economics Requirements

Code	Title	Hours
<b>Core Courses</b>		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4
ECON 3423	Environmental Economics	4
<b>Supporting Courses</b>		
MATH 1231	Calculus for Business and Economics	4
or MATH 1241	Calculus 1	
or MATH 1245	Calculus with Applications	
or MATH 1251	Calculus and Differential Equations for Biology 1	
or MATH 1340	Intensive Calculus for Engineers	
or MATH 1341	Calculus 1 for Science and Engineering	
CS 1100	Computer Science and Its Applications	4
or DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
or MISM 2510	Fundamentals of Information Analytics	
<b>Electives</b>		
Complete two courses in the following ranges, with only one below the 3000 level:		8
ECON 1200–ECON 1999		
ECON 3000–ECON 4689		
ECON 4900–ECON 4999		
ECON 5200–ECON 5999		
<b>Integrative Requirements</b>		
Code	Title	Hours
<b>Introduction to College</b>		
ENVR 1000	Marine and Environmental Sciences at Northeastern	1
or ECON 1000	Economics at Northeastern	
<b>Co-op</b>		
EESC 2000	Professional Development for Co-op	1
or EESH 2000	Professional Development for Co-op	
<b>Environmental and Sustainability Sciences Integrative Course</b>		
Complete one of the following (courses used as electives may not overlap with courses used as integrative):		4
ENVR 3150	Food Security and Sustainability	
ENVR 5350	Sustainable Energy and Climate Solutions	
ENVR 5450	Applied Social-Ecological Systems Modeling	
ENVR 5563	Advanced Spatial Analysis	
<b>Economics Integrative Course</b>		
Complete one of the following (courses used as electives may not overlap with courses used as integrative):		4
ECON 1711	Economics of Sustainability	
ECON 3404	International Food Policy	
ECON 3425	Energy Economics	
<b>Capstone</b>		
Complete one of the following:		4

ENVR 4050	Solving Emerging Environmental Challenges through Capstone
ENVR 4997	Senior Thesis
ECON 4692	Senior Economics Seminar

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### English Requirements (First-Year Writing and Advanced Writing in the Disciplines)

Code	Title	Hours
ENGW 1111	First-Year Writing	4
or ENGW 1102	First-Year Writing for Multilingual Writers	
ENGW 3307	Advanced Writing in the Sciences	4
or ENGW 3308	Advanced Writing in the Social Sciences	
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

### Major GPA/Credit Requirement

Grades in the following four economics courses must average to a minimum of C (2.000):

Code	Title	Hours
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4

83 semester hours required in the major

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

128 total semester hours required

### Plan of Study

#### Four Years, Two Co-ops in Summer 2/Fall

Year 1				
Fall	Hours Spring	Hours Summer 1	Hours Summer 2	Hours
ENVR 1000 or ECON 1000	1 CS 1100, DS 2000 <i>and</i> DS 2001, or MISM 2510	4 Elective	4 Elective	4
MATH 1231, 1241, 1245, 1251, 1340, or 1341	4 ECON 1116	4 Elective	4 Elective	4
ECON 1115	4 ENVR 2200 or 1200	4

### Environmental and Sustainability Sciences and Landscape Architecture, BS

The Department of Marine and Environmental Sciences and the program in landscape architecture provide an education in basic environmental and sustainability sciences and landscape-architecture-related disciplines. This combined major provides students the opportunity to obtain the fundamental scientific background and practical training to tackle environmental and landscape-related issues. The program seeks to prepare students for advanced studies or careers in fields of urban planning, urban design, sustainable development, environmental consulting, and/or other fields focusing on the interactions among landscapes, the built environment, human societies, and overall climate impacts.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Environmental and Sustainability Sciences Requirements

Code	Title	Hours
<b>Environmental and Sustainability Sciences Required Courses</b>		
<i>Core Courses</i>		
ENVR 1400 and ENVR 1401	Foundations in Environmental and Sustainability Sciences and Lab for ENVR 1400	5
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	5
ENVR 1200 and ENVR 1201 or ENVR 2200	Dynamic Earth and Lab for ENVR 1200 Earth's Changing Cycles	4
ENVR 2515	Sustainable Development	4
Complete one course from each category:		
<i>Skills</i>		4-5
ENVR 1500 and ENVR 1501	Introduction to Environmental, Social, and Biological Data and Lab for ENVR 1500	
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	
EEMB 3555	Networks and Natural Systems	
<i>Earth, Oceans, and Environmental Change</i>		4-5
ENVR 2310 and ENVR 2311	Earth Materials and Lab for ENVR 2310	
ENVR 3600	Oceanography	
ENVR 3125	Global Oceanic Change	
ENVR 5150	Climate and Atmospheric Change	
<i>Conservation, Restoration, and Management</i>		4
EEMB 2400	Introduction to Evolution	
EEMB 3460	Conservation Biology	
EEMB 4001	Landscape and Restoration Ecology	
ENVR 5220	Ecosystem-Based Management	
<i>Sustainable Planning and Development</i>		4
ENVR 3200	Water Resources	
ENVR 3150	Food Security and Sustainability	
ENVR 5210	Environmental Planning	
ENVR 5350	Sustainable Energy and Climate Solutions	
<i>Environment and Society</i>		4
ENVR 5450	Applied Social-Ecological Systems Modeling	
POLS 2395	Environmental Politics and Policy	
PPUA 5260	Ecological Economics	
SOCL 2485	Environment, Technology, and Society	

## Landscape Architecture Requirements

Code	Title	Hours
ARCH 1110	Fundamental Architectural Representation	4

ARCH 1120	Fundamental Architectural Design	6
LARC 2130	Sustainable Urban Site Design	6
LARC 2230	Introduction to Sustainable Site Planning and Design	4
LARC 2330	Cities, Landscape, and Modern Culture	4
LARC 2340	Cities, Landscape, and Contemporary Culture	4
LARC 2430	Plants, People, and Landscape Change	4

## Landscape Architecture Electives

Code	Title	Hours
Complete three of the following:		12-14
LARC 2240	Sustainable Site Construction and Detailing	
LARC 2440	Planting Design	
LARC 3170	Landscape Planning and Urbanism Studio	
ARCH 3370	Advanced Topics in Architectural History	
ARCH 3450	Advanced Architectural Communication	
LARC 5210	Landscape Ecology	
LARC 5220	Sustainable Landscape Practices	
LARC 5310	Urban Landscape Seminar	
SUEN 6210	Implementation and Visualization for Urban Environments 1	
SUEN 6220	Implementation and Visualization for Urban Environments 2	
ARCH 3352	Architecture Topics Abroad: Drawing	
ARCH 3351	Architecture Topics Abroad: Theory	
ARCH 4850	Urban and Architectural History Abroad	

## Capstone/Integrative Course

Code	Title	Hours
Complete one of the following:		4
ENVR 4997	Senior Thesis	
LARC 5120	Comprehensive Design Studio	
LARC 5210	Landscape Ecology	
ENVR 4050	Solving Emerging Environmental Challenges through Capstone	

## Environmental and Sustainability Sciences and Landscape Architecture Major Credit Requirement

Complete a minimum of 84 semester hours in the major.

## Program Requirements

132 total semester hours required

## Plan of Study

### Four-Years, Two Co-ops

Year 1							
Fall	Hours	Spring	Hours	Summer 1	Hours	Summer 2	Hours

## Environmental Studies and History, BA

Through this combined major, successful undergraduates will develop an awareness of the scientific, cultural, and political aspects of the world's environmental problems through historical perspectives and backgrounds.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Environmental Studies Requirements

Code	Title	Hours
<b>Science Requirements</b>		
ENVR 1101	Environmental Science	4
ENVR 1202 and ENVR 1203	History of Earth and Life and Interpreting Earth History	5
ENVR 1110	Global Climate Change	4
<b>Humanities Requirement</b>		
PHIL 1180	Environmental Ethics	4
<b>Social Science Requirements</b>		
ECON 1116	Principles of Microeconomics	4
POLS 1150 and POLS 1151	American Government and Recitation for POLS 1150	4
SOCL 1246	Environment and Society	4
<b>Environmental Studies Requirements</b>		
ECON 3423	Environmental Economics	4
POLS 2395	Environmental Politics and Policy	4

## History Requirements

Code	Title	Hours
<b>History Requirements</b>		
HIST 1130	Introduction to the History of the United States	4
HIST 1170	Europe: Empires, Revolutions, Wars, and Their Aftermath	4
HIST 1201	First-Year Seminar	4
HIST 1215	Origins of Today: Historical Roots of Contemporary Issues	4
<b>History Seminar</b>		
HIST 2301 and HIST 2302	The History Seminar and Historical Writing	5
<b>History/Geographic-Area Electives</b>		
Complete two of the following:		8
ASNS 1150	East Asian Studies	
HIST 1180	African History	
HIST 1185	Introduction to Middle Eastern History	
<b>History-Area Electives</b>		
Complete four HIST courses, approved by a faculty adviser, focused on an idea or geographic area. These courses must be numbered 2000 or higher.		16

## Integrative Courses

Code	Title	Hours
<b>Required Integrative Course</b>		
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	5

## Integrated Elective

ENVR 5210	Environmental Planning	4
-----------	------------------------	---

## Experiential Learning and Capstone

Code	Title	Hours
<b>Experiential Learning</b>		
Complete an approved activity from either department, combined with reflection in capstone.		
<b>Capstone Course</b>		
Complete one of the following:		1-4
ENVR 4997 or ENVS 4997	Senior Thesis	
ENVR 4900	Earth and Environmental Science Capstone	
ENVR 4970	Junior/Senior Honors Project 1	
HIST 4701	Capstone Seminar	

## Combined-Major Credit Requirement

Complete 91 semester hours in the major.

## Program Requirement

128 total semester hours required

## Plan of Study

### Five Years, Three Co-ops in Summer 2/Fall

Year 1					
Fall	Hours	Spring	Hours	Summer 1	Hours

## Environmental Studies and International Affairs, BA

Through this combined major, successful undergraduates will develop an awareness of the international issues that influence the scientific, cultural, societal, political, and economic aspects of the world's environmental problems and the ways in which such environmental challenges can be ameliorated and/or solved.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Environmental Studies Requirements

Code	Title	Hours
<b>Introductory Courses</b>		
Choose one introductory science:		4-5
ENVR 1101	Environmental Science	
ENVR 1200 and ENVR 1201	Dynamic Earth and Lab for ENVR 1200	
ENVR 1400 and ENVR 1401	Foundations in Environmental and Sustainability Sciences and Lab for ENVR 1400	
Choose one introductory social science		4
ANTH 1101	Peoples and Cultures	
ENVR 2401	Food Justice and Community Development	
PHIL 1180	Environmental Ethics	
SOCL 1246	Environment and Society	
<b>Scientific Foundations of Environmental Systems:</b>		
Complete one of the following:		4
ENVR 1110	Global Climate Change	
ENVR 3150	Food Security and Sustainability	
ENVR 3200	Water Resources	
<b>Human Foundations of Environmental Systems:</b>		
Complete one of the following:		4
ENVR 2515	Sustainable Development	
PTH 2414	Environmental Health	
SOCL 4522	Environmental Justice	
<b>Skills Course:</b>		
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	5
<b>Electives:</b>		
Complete four of the following, three of which must be at the 3000 level or higher:		16
ARTG 5110	Information Design History	
BUSN 1110	Fundamentals of Business	
BUSN 3110	The Consulting Environment	
CIVE 5280	Remote Sensing of the Environment	
COMM 3500	Environmental Issues, Communication, and the Media	
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	
EEMB 3466	Disease Ecology	
EEMB 3700	Desert Ecology	
ENTR 3520	Impact Investing and Social Finance	
ENVR 5210	Environmental Planning	
ENVR 5563	Advanced Spatial Analysis	
ENVR 3701	Energy in the Desert Ecosystem	
FINA 2720	Sustainability in the Business Environment	
JRNL 3650	Science Writing	
LPSC 2301	Introduction to Law, Policy, and Society	
PHIL 1180	Environmental Ethics	

PHTH 1270	Introduction to Global Health
PHTH 4202	Principles of Epidemiology in Medicine and Public Health
POLS 2395	Environmental Politics and Policy
PPUA 5268	International Environmental Policy
SOCL 2485	Environment, Technology, and Society

### International Affairs Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. See department for additional courses.

Code	Title	Hours
<b>Required Courses</b>		
INTL 1101	Globalization and International Affairs	4
INTL 3400	International Conflict and Negotiation	4
POLS 1160	International Relations	4

### International Experiential Learning

Complete at least one "international semester" via study abroad, international internship, international co-op, or two short-term programs.

### International Affairs Elective

Code	Title	Hours
Complete one of the following courses:		4

Code	Title	Hours
INTL 2240	Global Population and Development	
INTL 2480	Women and World Politics	
INTL 2500	Race and Global Human Mobility	
INTL 3200	Cities in a Global Context	
INTL 3430	Revolution, Civil War, and Insurrection	
INTL 3450	Security, Culture, Power	
INTL 3520	Global Political Economy	
INTL 4100	Forced Migration: Refugees, Exiles, and Displaced Persons	
INTL 5100	Climate and Development	

### Global Dynamics Requirement

Code	Title	Hours
Complete two of the following courses. Courses are divided into thematic groups to aid students in deciding which courses to take and have no bearing on major requirements.		8

Code	Title	Hours
<i>Environment</i>		
ENVR 1110	Global Climate Change	
ENVR 2515	Sustainable Development	
INTL 5100	Climate and Development	
INTL 5268	International Environmental Policy	
or PPUA 5268	International Environmental Policy	
SOCL 1246	Environment and Society	

### *Law, Diplomacy, and Global Governance*

COMM 2303	Global and Intercultural Communication	
INTL 2480	Women and World Politics	
or WMNS 2480	Women and World Politics	
INTL 3520	Global Political Economy	
POLS 1155	Comparative Politics	

POLS 1160	International Relations
POLS 2370	Religion and Politics
POLS 3405	International Political Economy
POLS 3406	International Law
POLS 3409	Global Governance
POLS 4910	Model United Nations

### *Human Rights and Social Justice*

HIST 2373	Gender and Sexuality in World History
INTL 2480	Women and World Politics
or WMNS 2480	Women and World Politics
LPSC 2302	Global Human Rights: A Social and Economic Perspective
PHIL 5001	Global Justice

### *Conflict and Security*

CRIM 3060	Political Crime and Terrorism
HIST 1206	Drug Trade and Drug War: History, Security, Culture
HIST 1389	History of Espionage 1: Antiquity to World War II
HIST 1390	History of Espionage 2: Cold War Spies
HIST 3330	The Global Cold War
HIST 3334	Assassinations in World History
HIST 3335	History of Modern Terrorism
INTL 3430	Revolution, Civil War, and Insurrection
INTL 3450	Security, Culture, Power
JRNL 3300	Covering Conflicts: Peace, War, and the Media
or INTL 3300	Covering Conflicts: Peace, War, and the Media
PHIL 5001	Global Justice
POLS 2282	The Holocaust and Comparative Genocide
POLS 3408	International Security
POLS 3418	Nationalism
POLS 3420	U.S. National Security Policy
POLS 3423	Terrorism and Counterterrorism
POLS 3430	Revolution, Civil War, and Insurrection
POLS 4918	Model NATO

### *Globalization*

AFAM 2600	Issues in Race, Science, and Technology
ANTH 2305	Global Markets and Local Culture
ANTH 2315	Religion and Modernity
ECON 3290	History of the Global Economy
ECON 4635	International Economics
HIST 2211	The World Since 1945
HIST 2311	Colonialism/Imperialism
INTB 3310	Cultural Aspects of International Business
INTL 2240	Global Population and Development
INTL 2480	Women and World Politics
or WMNS 2480	Women and World Politics
INTL 3200	Cities in a Global Context
INTL 3520	Global Political Economy
LPSC 2302	Global Human Rights: A Social and Economic Perspective

POLS 1160	International Relations
POLS 2370	Religion and Politics
POLS 3405	International Political Economy
POLS 3406	International Law
SOCL 3465	Globalization and the Evolution of Human Societies

*Population, Migration, and Diaspora*

AFRS 1270 or PHTH 1270	Introduction to Global Health
AFRS 3424	Epidemiology of Pandemic Diseases and Health Disparities in the African Diaspora
ANTH 1101	Peoples and Cultures
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804
INTL 2240	Global Population and Development
INTL 2500	Race and Global Human Mobility
INTL 3200	Cities in a Global Context
INTL 4100	Forced Migration: Refugees, Exiles, and Displaced Persons
PHIL 1271	Sex in Judaism, Christianity, and Islam

*Development*

ANTH 2305	Global Markets and Local Culture
ECON 1291	Development Economics
ECON 3404	International Food Policy

## Environmental Studies and Philosophy, BA

Through this combined major, successful undergraduates will develop an awareness of the scientific, cultural, and political aspects of the world's environmental problems while considering the philosophical, moral, and ethical impacts that such decisions have on human-environment interactions. Due to overlap in course content, students majoring in Environmental Studies or any Environmental Studies combined majors may not complete a minor in Environmental and Sustainability Sciences.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Environmental Studies Requirements

Code	Title	Hours
<b>Introductory Courses</b>		
<i>Choose one introductory science course:</i>		4-5
ENVR 1101	Environmental Science	
ENVR 1200 and ENVR 1201	Dynamic Earth and Lab for ENVR 1200	
ENVR 1400 and ENVR 1401	Foundations in Environmental and Sustainability Sciences and Lab for ENVR 1400

<sup>1</sup> Earth and Environmental Science Capstone (ENVR 4900 (<https://northeastern-test.courseleaf.com/search/?P=ENVR%204900>)) is also an option to fulfill the capstone requirement of this program. Students who completes 1 SH ENVR 4900 must still complete a minimum of 128 SH to meet degree requirements.

**Sociology and Environmental Studies, BA**

This combined major will lead to undergraduates that have a broad awareness of the sociological and scientific foundations of environmental problem solving. They will have the opportunity to develop concrete skills in GIS and scientific communication that will facilitate

student success. Due to overlap in course content, students majoring in environmental studies or any environmental studies combined majors may not complete a minor in environmental and sustainability sciences.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Sociology Requirements

Code	Title	Hours
<b>Required Sociology Courses</b>		
SOCL 1101	Introduction to Sociology	4
SOCL 2321	Research Methods in Sociology	4
SOCL 2485	Environment, Technology, and Society	4
SOCL 3300	Social Theory	4
ANTH 2305	Global Markets and Local Culture	4
<b>Statistics</b>		
Complete one of the following:		4
SOCL 2320	Statistical Analysis in Sociology	
ENVR 2500	Biostatistics	
<b>Capstone</b>		
Complete one of the following:		4
SOCL 4600	Senior Seminar	
ENVS 4997	Senior Thesis	
ENVR 4900	Earth and Environmental Science Capstone	
<b>Sociology Elective A</b>		4
Please note that SOCL 1246 may not be used to fulfill this requirement as it is required in the major. Complete one course in the following range:		
SOCL 1000 to SOCL 2999		
<b>Sociology Elective B</b>		8
Complete two additional sociology courses in the following range:		
SOCL 3000 to SOCL 5999		

## Environmental Studies Requirements

Code	Title	Hours
<b>Introductory Courses</b>		
Complete one introductory science course:		4-5
ENVR 1101	Environmental Science	
ENVR 1200 and ENVR 1201	Dynamic Earth and Lab for ENVR 1200	

ENVR 1400 and ENVR 1401	Foundations in Environmental and Sustainability Sciences and Lab for ENVR 1400	
Complete one introductory social science course:		4
ANTH 1101	Peoples and Cultures	
HUSV 2401	Food Justice and Community Development	
PHIL 1180	Environmental Ethics	
SOCL 1246	Environment and Society	
<b>Skills Course</b>		
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	5
<b>Electives</b>		
Complete four of the following, three of which must be at the 3000 level or above:		
ARTG 5110	Information Design History	
BUSN 1110	Fundamentals of Business	
BUSN 3110	The Consulting Environment	
CIVE 5280	Remote Sensing of the Environment	
COMM 3500	Environmental Issues, Communication, and the Media	
EEMB 3466	Disease Ecology	
ENTR 3520	Impact Investing and Social Finance	
ENVR 3201	Coastal Sustainability: Ecology and Coupled Human-Natural Systems in Southeast Asia	
ENVR 3202	Coastal Sustainability: The Blue Economy of the Gulf of Maine	
ENVR 3701	Energy in the Desert Ecosystem	
ENVR 4504	Environmental Pollution	
ENVR 5563	Advanced Spatial Analysis	
FINA 2720	Sustainability in the Business Environment	
JRNL 3650	Science Writing	
PHIL 1180	Environmental Ethics	
PHTH 4202	Principles of Epidemiology in Medicine and Public Health	
PPUA 5268	International Environmental Policy	
SOCL 2485	Environment, Technology, and Society	

## Integrative Requirements

Code	Title	Hours
SOCL 4522	Environmental Justice	4
ENVR 5450	Applied Social-Ecological Systems Modeling	4

## Sociology Major Grade Requirement

2.000 GPA required for major courses

## Sociology and Environmental Studies Combined Major Credit Requirement

Complete 75 semester hours in the major.

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirements

128 total semester hours required

### Plan of Study

#### Five Years, Three Co-ops in Summer 2/Fall

##### Year 1

Fall	Hours	Spring	Hours	Summer 1	Hours	Summer 2	Hours
ENVR 1000	1	ENVR 1110	4	Vacation	0	Vacation	0
ENVR 1101	4	ENVR 2515	4

Total Hours: 130

### Ecology and Evolutionary Biology, Minor

The ecology and evolutionary biology minor is designed to provide students a foundation in the principles of ecology and evolutionary biology, as well as to provide concrete skills that will help students achieve their career goals.

#### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

#### Restrictions

Minor not available for students who major in marine biology.

#### Required Courses

Code	Title	Hours
EEMB 1101 and EEMB 1102	Foundations in Ecology and Evolutionary Biology and Lab for EEMB 1101	5
EEMB 1105 and EEMB 1106	Foundations in Ecological and Evolutionary Genomics and Lab for EEMB 1105	5

#### Elective Courses

Code	Title	Hours
------	-------	-------

Complete four courses from the lists below. At least one course needs to come from each list:

##### Evolution of Organisms

EEMB 2400	Introduction to Evolution	4
EEMB 2290	Ecology and Evolution of Behavior	4
EEMB 2700 and EEMB 2701	Marine Biology and Lab for EEMB 2700	5
EEMB 3465	Ecological and Conservation Genomics	4
EEMB 4010	Biology of Mammals	4

##### Ecology and Conservation Biology

EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	5
EEMB 3460	Conservation Biology	4
EEMB 3475	Wildlife Ecology	4
EEMB 4001	Landscape and Restoration Ecology	4
EEMB 4000	Applied Conservation Biology	4

##### Analytical Skills

ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	5
ENVR 1500 and ENVR 1501	Introduction to Environmental, Social, and Biological Data and Lab for ENVR 1500	5
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	5
EEMB 3465	Ecological and Conservation Genomics	4

EEMB 3555	Networks and Natural Systems	4
EEMB 5130	Ecological Dynamics	4

### GPA Requirement

2.000 GPA required in the minor

### Environmental and Sustainability Sciences, Minor

The environmental and sustainability sciences minor provides undergraduates with a strong foundation in a variety of scientific, technical, institutional, economic, behavioral, and conservation-oriented solutions to environmental problems caused by either natural phenomena and/or human activity.

There are a number of interdisciplinary opportunities involving environmental and sustainability sciences. Due to curricular overlap, combinations of any environmental and sustainability sciences major, including combined majors, cannot occur with majors or minors in ecology and evolutionary biology, environmental studies, or with the minor in geoscience.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Coursework

Code	Title	Hours
<b>Foundational Classes</b>		
Complete two of the following:		8-9
ENVR 1200 and ENVR 1201 or ENVR 2200	Dynamic Earth and Lab for ENVR 1200 Earth's Changing Cycles	
ENVR 1400 and ENVR 1401	Foundations in Environmental and Sustainability Sciences and Lab for ENVR 1400	
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	
ENVR 2515	Sustainable Development	
<b>Advanced Coursework</b>		
Complete four courses from this list (at least three courses need to be at the 3000 level or above):		16-19
EEMB 1450	Introduction to Marine Biology	
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	
EEMB 2400	Introduction to Evolution	
EEMB 3460	Conservation Biology	
EEMB 3465	Ecological and Conservation Genomics	
EEMB 4001	Landscape and Restoration Ecology	
ENVR 1110	Global Climate Change	
ENVR 1200 and ENVR 1201	Dynamic Earth and Lab for ENVR 1200	
ENVR 2200	Earth's Changing Cycles	
ENVR 2310 and ENVR 2311	Earth Materials and Lab for ENVR 2310	
ENVR 3125	Global Oceanic Change	
ENVR 3150	Food Security and Sustainability	

ENVR 3151	Food Sustainability in the Mediterranean - Abroad
ENVR 3200	Water Resources
ENVR 3600	Oceanography
ENVR 5210	Environmental Planning
ENVR 5350	Sustainable Energy and Climate Solutions
POLS 2395	Environmental Politics and Policy
PPUA 5260	Ecological Economics
PPUA 5268	International Environmental Policy
SOCL 2485	Environment, Technology, and Society

### GPA Requirement

2.000 GPA required in the minor

### Environmental Studies, Minor

Students pursuing a minor in environmental studies will complete a blend of courses that bridge the scientific foundations and human dimensions of environmental systems. Students will also take a skills course that is designed to improve their marketability in environmental fields. A successful student will broaden their understanding of the science and policy of the Earth's environmental challenges through this program, which complements any undergraduate major.

The goals of the environmental studies minor are threefold:

- To help undergraduates develop an awareness of the scientific, cultural, and political aspects of the world's environmental problems
- To better prepare students for careers in the expanding field of environmental professions
- To prepare students for further study at the graduate or professional school level

### Minor Requirements

Complete all courses listed below unless otherwise indicated.

### Introductory Courses

Code	Title	Hours
ENVR 1101	Environmental Science	4
or ENVR 1200	Dynamic Earth	
or ENVR 1400	Foundations in Environmental and Sustainability Sciences	
SOCL 1246	Environment and Society	4
or ANTH 1101	Peoples and Cultures	
or PHIL 1180	Environmental Ethics	
or HUSV 2401	Food Justice and Community Development	

### Scientific Foundations of Environmental Systems

Code	Title	Hours
Complete one of the following:		
ENVR 1110	Global Climate Change	4-5
ENVR 3150	Food Security and Sustainability	
ENVR 3200	Water Resources	

## Human Dimensions of Environmental Systems

Code	Title	Hours
Complete one of the following:		4
ENVR 2515	Sustainable Development	
PHTH 2414	Environmental Health	
SOCL 4522	Environmental Justice	

## Skills Courses

Code	Title	Hours
Complete one of the following:		4-5
ANTH 3410	Ethnographic Field Experience	
ECON 2350	Statistics	
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	
POLS 2395	Environmental Politics and Policy	
SOCL 2321	Research Methods in Sociology	

## GPA Requirement

2.000 GPA required in the minor

### Geosciences, Minor

The geosciences minor is designed to provide students with a comprehensive understanding of the breadth of topics in the geosciences. Core foundational classes in Earth science are followed by student-directed electives across a range of course options.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

## Required Courses

Code	Title	Hours
ENVR 1200 and ENVR 1201	Dynamic Earth and Lab for ENVR 1200	5
ENVR 2200	Earth's Changing Cycles	4
Complete one of the following:		5
ENVR 2310 and ENVR 2311	Earth Materials and Lab for ENVR 2310	
ENVR 2340 and ENVR 2341	Earth Landforms and Processes and Lab for ENVR 2340	

## Geology Elective

Code	Title	Hours
Complete three of the following:		12-14
ENVR 2340 and ENVR 2341	Earth Landforms and Processes and Lab for ENVR 2340	
ENVR 3125	Global Oceanic Change	
ENVR 3200	Water Resources	
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	
ENVR 3410	Environmental Geochemistry	
ENVR 3600	Oceanography	
ENVR 5150	Climate and Atmospheric Change	

ENVR 5190	Soil Science
ENVR 5202	Environmental Science Field Seminar Abroad
ENVR 5210	Environmental Planning
ENVR 5350	Sustainable Energy and Climate Solutions

## GPA Requirement

2.000 GPA required in the minor

### Marine Sciences, Minor

The marine science minor is designed to provide Northeastern undergraduates with a strong foundation in the marine sciences, while offering the opportunity to obtain concrete skills that will enhance employability. Our minor curriculum also offers the flexibility to take classes in the area of greatest interest to the student and provides hands-on training in foundation marine science courses.

## Minor Requirements

### Required Courses

Code	Title	Hours
EEMB 1101 and EEMB 1102	Foundations in Ecology and Evolutionary Biology and Lab for EEMB 1101	5
ENVR 3600 or ENVR 3125	Oceanography Global Oceanic Change	4

### Skills Course

Code	Title	Hours
Complete one of the following:		4-5
ENVR 1500 and ENVR 1501	Introduction to Environmental, Social, and Biological Data and Lab for ENVR 1500	
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	
EEMB 3555	Networks and Natural Systems	

### Elective Courses

Code	Title	Hours
Complete three of the following:		11-15
EEMB 2420	Fisheries Biology, Policy, and Conservation	
EEMB 2700 and EEMB 2701	Marine Biology and Lab for EEMB 2700	
ENVR 3125	Global Oceanic Change	
ENVR 3201	Coastal Sustainability: Ecology and Coupled Human-Natural Systems in Southeast Asia	
ENVR 3202	Coastal Sustainability: The Blue Economy of the Gulf of Maine	
EEMB 3450	Physiological Adaptations to the Environment	
ENVR 3600	Oceanography	
ENVR 5242 and ENVR 5243	Ancient Marine Life and Lab for ENVR 5242	

## Courses offered in Nahant, MA:

EEMB 5510	New England Marine Biomes
EEMB 5522	Experimental Design Marine Ecology
EEMB 5542	Marine Spatial Planning
EEMB 5546	Sustainability of the Land-Sea Interface

**GPA Requirement**

2.000 GPA required in the minor

**Mathematics**

**Egon Schulte, PhD**  
Professor and Chair

617.373.2450  
617.373.5658 (fax)

Mathematics is of ever-increasing importance to our society and everyday life. It has long been the language of science and technology and provides a rich source of methods for analyzing and solving problems encountered in the physical world. Today, mathematics is essential in virtually all fields of human endeavor, including business, the arts, and the social sciences.

The Bachelor of Arts degree requires at least 11 mathematics courses and two physics courses, in addition to the study of a foreign language; this program is appropriate for students who wish a broader liberal arts education. The Bachelor of Science degree requires at least 14 mathematics courses and two physics courses but no foreign language study; it is more specialized, and it is recommended for those strongly interested in mathematics and science. The department also offers a minor degree in mathematics.

The major programs provide flexibility with elective courses. Students may take advantage of a range of interdisciplinary programs and may join a major in mathematics with one in such fields as computer science, physics, and biology.

Exceptional students are accepted into the Honors Program and have the option to enroll in honors sections of several of their mathematics courses. All math majors may benefit from co-op opportunities in the scientific and business communities in Boston and elsewhere.

Many of the mathematics courses that we offer use computers for visualization, modeling, and numerical approximation.

Students planning to teach secondary school mathematics must major in mathematics and take a specific minor in education, which includes coursework and student teaching.

Mathematical training may lead to opportunities in applied research (natural sciences, engineering, economics, management, computer science) as well as in mathematical research, teaching, or industry.

**Programs****Bachelor of Arts (BA)**

- Mathematics (p. 732)

**Bachelor of Science (BS)**

- Mathematics (p. 734)
- Biology and Mathematics (p. 652)

- Computer Science and Mathematics (p. 368)
- Data Science and Mathematics (p. 422)
- Economics and Mathematics (p. 742)
- Graphic and Information Design and Mathematics (p. 109)
- Mathematics and Business Administration (p. 285)
- Mathematics and Cultural Anthropology (p. 746)
- Mathematics and Physics (p. 747)
- Mathematics and Political Science (p. 748)
- Mathematics and Psychology (p. 750)
- Mathematics and Sociology (p. 752)

**Minor**

- Mathematics (p. 753)

**Accelerated Programs**

See Accelerated Bachelor/Graduate Degree Programs (p. )

**Mathematics, BA**

The Bachelor of Arts degree requires at least 11 mathematics courses and two physics courses, in addition to the study of a foreign language. This program is appropriate for students who wish a broader liberal arts education.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Mathematics Major Grade Requirement**

A grade of C or higher is required in all mathematics courses numbered 3000 and below and in MATH 4000.

**Mathematics Major Requirements**

Code	Title	Hours
<b>Problem Solving</b>

## Mathematics, BS

The Bachelor of Science degree requires 14 mathematics courses and 2 physics courses. It is the degree most commonly pursued by math majors and is the one recommended for those strongly interested in mathematics and science.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Mathematics Major Grade Requirement

A grade of C or higher is required in all mathematics courses numbered 3000 and below and in MATH 4000.

## Mathematics Major Requirements

Code	Title	Hours
<b>Problem Solving</b>		
MATH 1365	Introduction to Mathematical Reasoning	4
<b>Calculus</b>		
A grade of C or higher is required:		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
<b>Intermediate and Advanced Mathematics</b>		
MATH 2331	Linear Algebra	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 3081	Probability and Statistics	4
MATH 3150	Real Analysis	4
MATH 3175	Group Theory	4
<b>Co-op Reflections</b>

## Biology and Mathematics, BS

In the BS, combined biology and mathematics degree program, science courses lay the groundwork for strong basic training in mathematics, chemistry, and physics that are relevant to biology. In biology courses, students broadly explore the organization and processes of life—from molecules and cells through organs and organ systems to populations, ecosystems, and evolution. In mathematics courses, students pursue mathematical reasoning, differential equations, and linear algebra, as well as statistics and probability. The fields of biology and mathematics are integrated in a range of course offerings including bioinformatics, applied statistics, advanced genomics, and biological imaging.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Biology Requirements

Code	Title	Hours
<b>Introduction to College</b>		
BIOL 1000 or MATH 1000	Biology at Northeastern Mathematics at Northeastern	1

### Biology

### Foundations

BIOL 1107 and BIOL 1108	Foundations of Biology and Lab for BIOL 1107	5
----------------------------	---	---

### Inquiries

BIOL 2299	Inquiries in Biological Sciences	4
-----------	----------------------------------	---

### Genetics

BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
----------------------------	---	---

### Project Lab

BIOL 2309	Biology Project Lab	4
-----------	---------------------	---

### Chemistry

#### General Chemistry

CHEM 1161 and CHEM 1162 and CHEM 1163	General Chemistry for Science Majors and Lab for CHEM 1161 and Recitation for CHEM 1161	5
---	---	---

#### Organic Chemistry

CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5
----------------------------	--	---

CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5
----------------------------	--	---

#### Biochemistry

BIOL 3611 and BIOL 3612	Biochemistry and Lab for BIOL 3611	5
----------------------------	---------------------------------------	---

#### Intermediate/Advanced Biology

Complete one of the following: 4-5

BIOL 2327 to BIOL 3999

BIOL 4705 to BIOL 5999

#### Organismal and Population Biology Elective

Complete one of the following: 4-5

BIOL 2327 Human Parasitology

BIOL 3401 Comparative Vertebrate Anatomy

BIOL 3403 Animal Behavior

BIOL 3413 Current Topics in Organismal and Population Biology

BIOL 3421  
and BIOL 3422 Microbiology  
and Lab for BIOL 3421

EEMB 2302  
and EEMB 2303 Ecology  
and Lab for EEMB 2302

EEMB 2400 Introduction to Evolution

EEMB 2700  
and EEMB 2701 Marine Biology  
and Lab for EEMB 2700

EEMB 3460 Conservation Biology

### Mathematics Requirements

Code	Title	Hours
<b>Calculus 1</b>		
MATH 1341 or MATH 1251	Calculus 1 for Science and Engineering Calculus and Differential Equations for Biology 1	4

#### Calculus 2 and Calculus 3

MATH 1342 or MATH 1252	Calculus 2 for Science and Engineering Calculus and Differential Equations for Biology 2	4
---------------------------	---	---

MATH 2321	Calculus 3 for Science and Engineering	4
-----------	--	---

#### Physics

PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	5
----------------------------	------------------------------------	---

### Required Mathematics Courses

MATH 1365	Introduction to Mathematical Reasoning	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 3081	Probability and Statistics	4

#### Mathematics Electives

Complete three of the following:		12
MATH 2331	Linear Algebra	
MATH 3001 to MATH 4899		

#### Additional Requirements

Code	Title	Hours
<b>Experiential Learning Introduction</b>		
EESC 2000	Professional Development for Co-op	1
MATH 3000	Co-op and Experiential Learning Reflection Seminar 1	1

#### Capstone

Complete one of the following to fulfill capstone requirement:		1-4
BIOL 4701	Biology Capstone	
BIOL 4900	Biology Research Capstone (concurrent with BIOL 4991, which may be used toward Intermediate/Advanced Biology)	
BIOL 4971	Junior/Senior Honors Project 2	
MATH 4020	Research Capstone	
MATH 4025	Applied Mathematics Capstone	
MATH 5131	Introduction to Mathematical Methods and Modeling	

#### Biology/Mathematics Integrative Courses

Complete two of the following:		8-10
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	
BIOL 3405	Neurobiology	
BIOL 5569	Advanced Microbiology	
BIOL 5581	Biological Imaging	
BIOL 5591	Advanced Genomics	
MATH 4581	Statistics and Stochastic Processes	
MATH 7343	Applied Statistics	
BINF 6308	Bioinformatics Computational Methods 1	
BINF 6309	Bioinformatics Computational Methods 2	

#### Writing Requirement

ENGW 3307	Advanced Writing in the Sciences	4
-----------	----------------------------------	---

#### Biology and Mathematics Combined Major Credit/GPA Requirements

Complete 93 semester hours in the major with a cumulative GPA of 2.000.

#### Program Requirements

143 total semester hours required

### Computer Science and Mathematics, BS

The computer science and mathematics combined major was the first dual major created by the college. The mathematics requirements focus

on courses that have computing applications or form the basis for further studies in mathematical theory. The program emphasizes the strong ties between computer science and mathematics that date back to the origins of machine computation in the 1930s and 1940s—and persist to this day.

#### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

#### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

#### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

#### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Hourly Co-op	1

#### Computer Science Fundamental Courses

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800 (Integrative course)	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
CS 2800 and CS 2801	Logic and Computation and Lab for CS 2800	5

#### Computer Science Required Courses

CS 3000	Algorithms and Data	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 3800	Theory of Computation	4
CS 4300 or CS 4100	Computer Graphics Artificial Intelligence	4
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4

#### Khoury Elective Courses

With adviser approval, a directed study, research, project study, or appropriate graduate-level course may also be taken as a computer science elective.

Complete eight semester hours of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:

CS 2500 or higher, except CS 5010
CY 2000 or higher, except CY 4930
DS 2500 or higher, except DS 4900
IS 2000 or higher, except IS 4900

**Mathematics Courses**

Code	Title	Hours
<b>Calculus Courses</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
<b>Mathematics Courses</b>		
MATH 2331	Linear Algebra	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 3081	Probability and Statistics	4
MATH 3175	Group Theory	4
MATH 3527	Number Theory 1	4
<b>Mathematics Electives</b>		
Complete three courses in the following range:		12
MATH 3001 to MATH 4999 but not MATH 4000		

**Supporting Course**

Code	Title	Hours
Complete one of the following:		
AFAM 2600	Issues in Race, Science, and Technology	4
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
IS 1300 or PHIL 1300	Knowledge in a Digital World	
PHIL 1145	Technology and Human Values	
SOCL 1280	The Twenty-First-Century Workplace	
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

**Computer Science Writing Requirement**

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
<b>Advanced Writing in the Disciplines</b>		
ENGW 3302 or ENGW 3315	Advanced Writing in the Technical Professions Interdisciplinary Advanced Writing in the Disciplines	4

**Required General Electives**

Code	Title	Hours
Complete 28 semester hours of general electives.		28

**Khoury College GPA Requirement**

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

**NUpath Requirements Satisfied**

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

**Program Requirement**

133 total semester hours required

## Data Science and Mathematics, BS

The data science and mathematics combined major combines computer science, data science, and mathematics into an integrated curriculum. The program provides the rigorous theoretical background necessary for success in the data science field.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1

#### Programming Sequence Pathways

Choose one of two options 12

#### Computer Science Option

CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	
CS 3500	Object-Oriented Design	

#### Data Science Option

DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
DS 2500 and DS 2501	Intermediate Programming with Data and Lab for DS 2500	
DS 3500	Advanced Programming with Data	

#### Computer Science Required Courses

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800 (Integrative course)	5
CS 3200	Database Design	4

#### Data Science Foundations

DS 3000	Foundations of Data Science	4
DS 4200	Information Presentation and Visualization	4

DS 4300	Large-Scale Information Storage and Retrieval	4
---------	---	---

### Khoury Elective Courses

With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete eight credits of CS,CY, DS, or IS classes that are not already required. Choose courses within the following ranges: 8

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

### Mathematics Courses

Code	Title	Hours
<b>Problem-Solving Requirement</b>		
MATH 1365	Introduction to Mathematical Reasoning	4
<b>Calculus Requirement</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
<b>Intermediate and Advanced Math Requirement</b>		
MATH 2331	Linear Algebra	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 3081	Probability and Statistics	4
MATH 3175	Group Theory	4
MATH 3527	Number Theory 1	4

### Mathematics Elective Requirement

Complete four courses in the following range: 16

MATH 3001 to MATH 4999 but not MATH 4000

### Integrative Requirement

Code	Title	Hours
<b>Integrative Courses</b>		
DS 4400	Machine Learning and Data Mining 1	4
DS 4420	Machine Learning and Data Mining 2	4

### Computer Science Writing Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
<b>Advanced Writing in the Disciplines</b>		
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

### Required General Electives

Code	Title	Hours
Complete 20 credits of general electives.		20

### Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

## NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

## Program Requirement

128 total semester hours required

## Economics and Mathematics, BS

Given the mathematical and graphical models used extensively in economics, economics and mathematics are natural partners. Our combined major with mathematics is designed for students who want to further develop their mathematics skills to enhance their understanding and interest in economics. This combined major is strongly recommended for students with an interest in pursuing graduate studies in economics.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Economics Requirements

Code	Title	Hours
<b>Introduction to College</b>		
ECON 1000 or MATH 1000	Economics at Northeastern Mathematics at Northeastern	1

#### Required Economics

ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2560	Applied Econometrics	4

#### Economics Electives

Complete 4 economics electives found in the following ranges, with no more than two in the ECON 1200 to ECON 1999 range: 16

ECON 1200 to ECON 1999

ECON 3000 to ECON 4689

ECON 4900 to ECON 4999

ECON 5200 to ECON 5999

### Mathematics Requirements

Code	Title	Hours
<b>Required Mathematics</b>		
MATH 1365	Introduction to Mathematical Reasoning	4
MATH 1341	Calculus 1 for Science and Engineering	4

MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 2331	Linear Algebra	4
MATH 3081	Probability and Statistics	4

#### Mathematics Electives

Complete two courses in the following range: 8  
MATH 3001 to MATH 4999

The following courses are recommended:

MATH 3150 Real Analysis

MATH 4581 Statistics and Stochastic Processes

### Breadth Course

Code	Title	Hours
<b>Computer Science</b>		
Choose one of the following: 4		
CS 1100	Computer Science and Its Applications	
DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
MISM 2510	Fundamentals of Information Analytics	

### Integrative Requirements

Code	Title	Hours
<b>Advanced Writing in the Disciplines</b>		
ENGW 3308	Advanced Writing in the Social Sciences	4

#### Integrative Course

Complete one of the following: 4		
ECON 4692	Senior Economics Seminar	
MATH 4025	Applied Mathematics Capstone	
MATH 5131	Introduction to Mathematical Methods and Modeling	

### Combined Major GPA/Credit Requirement

Code	Title	Hours
Grades in the following 4 Economics courses must average to a minimum of C (2.000):		
ECON 2315	Macroeconomic Theory	
ECON 2316	Microeconomic Theory	
ECON 2560	Applied Econometrics	
MATH 3081	Probability and Statistics	

A cumulative GPA of 2.000 is required in all math courses.

A grade of C or higher is required in all math courses numbered MATH 2999 or below; grades below C will not count toward the degree.

### Economics and Mathematics Major Credit Requirement

Complete 76 semester hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirement

128 total semester hours required

## Plan of Study

### Four Years, Two Co-ops in Summer 2/Fall

#### Year 1

Fall	Hours Spring	Hours Summer 1	Hours Summer 2	Hours
ECON 1115	4 ECON 1116	4 MATH 2321	4 Elective	4
MATH 1365	4 MATH 1342	4 Elective	4 Elective	4

	0	16

Total Hours: 129

## Graphic and Information Design and Mathematics, BS

The Department of Mathematics and the Department of Art + Design offer a combined major in mathematics and graphic and information design. Students interested in the combined major integrate the study of mathematical reasoning including methods for analyzing and solving

problems encountered in the physical world with the design of message and meaning, integrating text and image to visualize concepts and data to enhance human understanding of complex and vital knowledge.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (EI), Interpreting Culture (IC), Formal and Quantitative Reasoning (FQ), Analyzing and Using Data (AD), and Societies and Institutions (SI) are met through the major course requirements.

NUpath requirements Natural and Designed World (ND), Difference and Diversity (DD), and Ethical Reasoning (ER) must be met through electives.

## Graphic and Information Design Requirements

Code	Title	Hours
<b>Art and Design at Northeastern</b>		
ARTF 1000 or MATH 1000	Art and Design at Northeastern Mathematics at Northeastern	1
<b>Art and Design Fundamentals</b>		
	Complete one course in the following range. ARTF 1143 is recommended. ARTF 1141 to ARTF 1149	4
ARTF 1122	Color and Composition (with optional ARTF 1123)	4
<b>Art and Design History</b>		
ARTH 2210	Modern Art and Design History	4
ARTH 2215	History of Graphic Design	4
<b>Design</b>		
ARTG 1250	Design Process Context and Systems	4
ARTG 2250	Typography 1 (with optional ARTG 2251)	4
ARTG 2252	Graphic Design 1	4
ARTG 3350	Typography 2	4
ARTG 3451	Information Design 1	4
<b>Degree Project</b>		
ARTG 4550	Design Degree Project 1	4
<b>Art and Design Elective</b>		
	Complete one of the following:	4
ARTD 2360	Introduction to Photography (with optional ARTD 2361)	
ARTD 2380	Video Basics (with optional ARTD 2381)	
ARTG 2260	Programming Basics	
ARTF 1120	Observational Drawing	
ARTF 1121	Conceptual Drawing	
ARTF 1124 and ARTF 1125	Form and Structure and Form and Structure Tools	

ARTF 2223	Experience and Interaction (with optional ARTF 2224 )
ARTG 2400	Interaction Design 1: Responsive (with optional ARTG 2401 )
ARTG 3351	
ARTG 3450	Graphic Design 2
ARTG 3460	Identity and Brand Design
ARTG 4552	
ARTG 4553	
ARTG 4554	Typography 3

## Mathematics Requirements

Code	Title	Hours
<b>Math Reasoning</b>		
MATH 1365	Introduction to Mathematical Reasoning	4
<b>Calculus</b>		
A grade of C or higher is required:		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
<b>Intermediate Math</b>		
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 2331	Linear Algebra	4
MATH 3081	Probability and Statistics	4
<b>Advanced Elective</b>		
Complete one of the following:		4
MATH 3150	Real Analysis	
MATH 3175	Group Theory	
MATH 3560	Geometry	
<b>Mathematics Elective</b>		
MATH 4025 can count as an upper-level math elective as well as a capstone.		
Complete one course in the following range:		4
MATH 3101 to MATH 4899		

## Integrative Requirement

Code	Title	Hours
ARTG 3451	Information Design 1	4

## Combined-Major Credit Requirement

Complete 80 semester hours in the major.

## Program Requirement

128 total semester hours required

## Plan of Study

### Sample 5-Year Plan of Study , 2 Co-op

Year 1			
Fall	Hours	Spring	Hours
ARTF 1000	1	MATH 1342	4
ARTF 1143	4	ARTF 1122 (with optional ARTF 1123)	4

Total Hours: 130

## Mathematics and Business Administration, BS

A combined major combines two majors in a way that allows a student to fulfill all requirements within the standard 128 credits. For details, see program requirements.

Current students can also find details about combined majors and minors by going to their audit, clicking on "explore options," and finding the appropriate program. Students will be able to see a list of required courses and will be able to track their progress toward fulfilling them.

In the BS combined mathematics and business administration degree program, business and mathematics courses lay the groundwork for strong basic training in finance.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Mathematics Requirements

Code	Title	Hours
<b>Required Courses</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 1365	Introduction to Mathematical Reasoning	4
MATH 3081	Probability and Statistics	4
<b>Calculus and Linear Algebra (Required) and Differential Equations (Recommended)</b>		
Complete either Option 1 or Option 2 below:		8
<i>Option 1 (Recommended)</i>		
MATH 2321	Calculus 3 for Science and Engineering	
MATH 2341	Differential Equations and Linear Algebra for Engineering	
<i>Option 2</i>		
MATH 2321	Calculus 3 for Science and Engineering	
MATH 2331	Linear Algebra	
<b>Co-op Reflections</b>		
MATH 3000	Co-op and Experiential Learning Reflection Seminar 1	1
<b>Mathematics Electives</b>		
Complete three courses in the range MATH 3001 to MATH 5999. The following courses are recommended:		12
MATH 4681	Probability and Risks	
MATH 4682	Theory of Interest and Basics of Life Insurance 1	
MATH 4581	Statistics and Stochastic Processes	

## Business Requirements

Code	Title	Hours
<b>Accounting</b>		
ACCT 1201	Financial Accounting and Reporting	4
ACCT 2301	Managerial Accounting	4
<b>Finance</b>		
FINA 2201	Financial Management	4
<b>Marketing</b>		
MKTG 2201	Introduction to Marketing	4
<b>Organizational Behavior</b>		
ORGB 3201	Organizational Behavior	4
<b>International Business/Social Responsibility</b>		
INTB 1203	International Business and Global Social Responsibility	4
<b>Strategy in Action</b>		
STRT 4501	Strategy in Action	4

## Integrative Course

*Note:* Financial Risk Management (FINA 4512) also counts toward the finance concentration.

Code	Title	Hours
FINA 4512	Financial Risk Management	4

## Finance Concentration

Code	Title	Hours
<b>Finance Requirements</b>		
FINA 3301	Corporate Finance	4
FINA 3303	Investments	4
FINA 4512	Financial Risk Management	4
<b>Finance Elective</b>		
Complete one of the following:		4
ENTR 3520	Impact Investing and Social Finance	
or FINA 2720	Sustainability in the Business Environment	
FINA 4604	Fixed-Income Securities (Recommended)	
FINA 4310	Working Capital Management	
FINA 4312	Issues in Corporate Governance	
FINA 4320	International Financial Management	
FINA 4410	Valuation and Value Creation	
FINA 4412	Personal Financial Planning	
FINA 4420	Mergers and Acquisitions	
FINA 4514	Investment Banking	
FINA 4516	Real Estate Finance	
FINA 4526	Core Topics in Alternative Investments	
FINA 4602	Turnaround Management	
FINA 4604	Fixed-Income Securities	
FINA 4608	Advanced Financial Strategy	
FINA 4610	Entrepreneurial Finance and Private Equity	
FINA 4983	Special Topics in Finance	

## Second Business Concentration (Optional)

A second business concentration is optional and may be chosen from the following list.

- Accounting (p. 290)
- Brand Management (p. 290)
- Business Analytics (p. 291)
- Corporate Innovation and Venture (p. 291)
- Entrepreneurial Startups (p. 291)
- Family Business (p. 292)
- Healthcare Management and Consulting (p. 293)
- International Business (p. 294)
- Management (p. 294)
- Management Information Systems (p. 295)
- Marketing (p. 295)
- Marketing Analytics (p. 296)
- Social Innovation and Entrepreneurship (p. 296)
- Supply Chain Management (p. 297)

**Supplemental Courses**

Code	Title	Hours
<b>Economics</b>		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
<b>Co-op Preparation</b>		
BUSN 1103	Professional Development for Business Co-op	1
or EESC 2000	Professional Development for Co-op	

**Business Cooperative Education Requirement**

Complete one six-month co-op experience.

**Mathematics GPA Requirement**

Minimum 2.000 GPA required in all mathematics courses

**Business GPA Requirement**

Minimum 2.000 GPA required in business courses

**Program Requirement**

128 total semester hours required

**Mathematics and Cultural Anthropology, BS**

In the BS combined mathematics and cultural anthropology degree program, anthropology and mathematics courses lay the groundwork for strong basic training that is designed to train the student to use mathematical models and methodologies for the study of problems in cultural anthropology.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Mathematics Requirements**

Code	Title	Hours
<b>Problem Solving</b>		
MATH 1365	Introduction to Mathematical Reasoning	4
<b>Calculus</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
<b>Intermediate and Advanced Mathematics</b>		
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 2331	Linear Algebra	4
MATH 3081	Probability and Statistics	4

**Math Electives**

Complete two courses in the following range that are not required in the requirements above: MATH 3001 to MATH 5999	8
--	---

**Anthropology Requirements**

Code	Title	Hours
<b>Anthropology Required Courses</b>		
ANTH 1101	Peoples and Cultures	4
ANTH 3410	Ethnographic Field Experience	4
ANTH 3421	Foundations of Anthropological Theory	4
ANTH 2305	Global Markets and Local Culture	4
<b>Anthropology Area Courses</b>		
Complete two of the following. Additional area courses may count as anthropology electives:		8
ANTH 4350	Ethnography of Southeast Asia	
ANTH 4500	Latin American Society and Development	
ANTH 4505	Native North Americans	
ANTH 4510	Anthropology of Africa	
ANTH 4515	Culture and Politics in Modern India	

**Anthropology Electives**

Complete three 4-semester-hour courses in addition to the requirements stated above. One study-abroad course may count toward this requirement with prior permission from the department. ANTH 2000 to ANTH 4990	12
---	----

**Capstone Requirement**

ANTH 4600	Senior Seminar	4
-----------	----------------	---

**Integrative Requirement**

Code	Title	Hours
Complete one of the following:		4
MATH 4025	Applied Mathematics Capstone	
MATH 5131	Introduction to Mathematical Methods and Modeling	
Complete the following:		4
ANTH 3120	Consumer Cultures	
Total Hours		8

**Mathematics and Anthropology Combined Major Credit Requirement**

Complete 80 semester hours in the major.

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Program Requirement**

128 total semester hours required

## Plan of Study

## Mathematics and Physics, BS

Mathematics and physics have been linked since antiquity. By combining physics and mathematics you can take closely related courses in each discipline, such as statistical mechanics and stochastic processes, mechanics and dynamical systems, thermodynamics and Fourier Series, and quantum mechanics and partial differential equations. The two departments jointly offer a course in mathematical methods in physics.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Mathematics Requirements

Code	Title	Hours
<b>Calculus</b>		
A grade of C or higher is required:		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
<b>Intermediate and Advanced Math</b>		
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 2331	Linear Algebra	4
MATH 3081	Probability and Statistics	4
MATH 3150	Real Analysis	4
MATH 3175	Group Theory	4
<b>Co-op Reflections</b>		
MATH 3000	Co-op and Experiential Learning Reflection Seminar 1	1
<b>Mathematics Elective</b>		
Complete one course in the following range:		4
MATH 3101 to MATH 4899		

### Physics Requirements

Code	Title	Hours
<b>Physics 1</b>		
Complete one of the following:		5
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	

PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151
---	---

**Physics 2**

Complete one of the following: 5

PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155

**Intermediate Physics**

PHYS 2303	Modern Physics	4
PHYS 2371 and PHYS 2372	Electronics and Lab for PHYS 2371	4

**Advanced Physics**

PHYS 3600	Advanced Physics Laboratory	4
PHYS 3602	Electricity and Magnetism 1	4
PHYS 4305	Thermodynamics and Statistical Mechanics	4

**Elective Courses**Complete two courses in the following range: 8  
PHYS 3000 to PHYS 7999**Integrative Courses**

Code	Title	Hours
PHYS 3601	Classical Dynamics	4
MATH 4545 or MATH 4525	Fourier Series and PDEs Applied Analysis	4

**Combined Major Credit Requirement**

Complete 83 semester hours in the major.

**Program Requirement**

128 total semester hours required

**Plan of Study****Notes on Physics courses in Plans of Study**

Some required physics courses are offered in both fall and spring semesters, while other required courses are offered less frequently. Therefore, the suggested plan of study will vary from student to student, depending on the year of entry for that student.

Please contact your academic adviser for additional information and plans of study.

**Five Years, Three Co-ops in Summer 2/Fall**

MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
<b>Intermediate and Advanced Mathematics</b>		
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 2331	Linear Algebra	4
MATH 3081	Probability and Statistics	4
<b>Math Electives</b>		
Complete two courses in the following range that are not required in the requirements above:		8
MATH 30001 to MATH 5999		

**Political Science Requirements**

Code	Title	Hours
<b>Political Science Required Courses</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2399	Research Methods in Political Science	4
POLS 2400	Quantitative Techniques	4
<b>Political Thought</b>		
POLS 2325	Ancient Philosophy and Political Thought	4
POLS 2328	Modern Political Thought	4
POLS 2330	American Political Thought	4
POLS 2332	Contemporary Political Thought	4
<b>Political Science Electives</b>		
Complete three POLS courses numbered 2000 and above.		12

**Political Science Concentrations (Optional)**

If you are working toward one of the following concentrations, declare it with your advisor so that it may be added to your record. Requirements for the concentrations are listed below.

- American Political Institutions (p. 749)
- Campaigns and Elections (p. 749)
- Comparative Politics (p. 749)
- Identity, Culture, and Politics (p. 750)
- International Relations and Diplomacy (p. 750)
- Law and Legal Studies (p. 750)
- Public Policy (p. 750)
- Security Studies (p. 750)

**Integrative Requirement**

Code	Title	Hours
POLS 3402		

**Mathematics and Political Science Combined-Major Credit Requirement**

Complete 68 semester hours in the major.

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Program Requirement**

128 total semester hours required

**Optional Political Science Concentrations****CONCENTRATION IN AMERICAN POLITICAL INSTITUTIONS**

Code	Title	Hours
Complete four of the following:		16
POLS 2350	State and Local Politics	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3307	Public Policy and Administration	
POLS 3310	Public Opinion, Voting, and Elections	
POLS 3160	Campaign Strategy	

**CONCENTRATION IN CAMPAIGNS AND ELECTIONS**

Code	Title	Hours
<b>Required Courses</b>		
POLS 3160	Campaign Strategy	4
POLS 3302	Judicial Process and Behavior	4
<b>Campaigns and Elections Electives</b>		
If POLS 4947 was replaced by a co-op or internship, an additional elective must be taken.		
Complete two of the following:		8
POLS 2345	Urban Policies and Politics	
POLS 2350	State and Local Politics	
POLS 2355	Intergovernmental Relations	
POLS 3310	Public Opinion, Voting, and Elections	
POLS 3320	Politics and Mass Media	
POLS 3304	Presidential Nominating Process	

**CONCENTRATION IN COMPARATIVE POLITICS**

Code	Title	Hours
<b>Theoretical Requirement</b>		
Complete one of the following:		4
POLS 2370	Religion and Politics	
POLS 3418	Nationalism	
POLS 3430	Revolution, Civil War, and Insurrection	
POLS 3487	Politics of Developing Nations	
<b>Regional Requirements</b>		
Complete two of the following:		8
POLS 3435	Politics and Governance of Europe and the European Union	
POLS 3465	Government and Politics in the Middle East	
POLS 3470	Arab-Israeli Conflict	

**Experiential/Practicum Requirement**

## Mathematics and Sociology, BS

In the mathematics and sociology combined-major BS program, sociology and mathematics courses help lay the groundwork for strong basic training that seeks to prepare students toward developing sociological models using mathematics.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Mathematics Requirements

Code	Title	Hours
<b>Problem Solving</b>		
MATH 1365	Introduction to Mathematical Reasoning	4
<b>Calculus</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
<b>Intermediate and Advanced Mathematics</b>		
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 2331	Linear Algebra	4
MATH 3081	Probability and Statistics	4
<b>Math Electives</b>		
Complete two courses in the following range that are not required in the requirements above:		8
MATH 30001 to MATH 5999		

### Sociology Requirements

Code	Title	Hours
<b>Sociology Required Courses</b>		
SOCL 2320	Statistical Analysis in Sociology	4
SOCL 2321	Research Methods in Sociology	4
SOCL 3300	Social Theory	4
ANTH 1101	Peoples and Cultures	4
ANTH 2305	Global Markets and Local Culture	4
<b>Sociology Electives</b>		
Complete one course from each course range:		
<i>Introductory Elective</i>		4
SOCL 1101 to SOCL 1999		
<i>Intermediate Elective</i>		4
SOCL 2000 to SOCL 3999		
<i>Advanced Elective</i>		4
SOCL 4000 to SOCL 4999		

### Capstone Requirement

SOCL 4600	Senior Seminar	4
-----------	----------------	---

### Integrative Requirement

Code	Title	Hours
Complete one of the following:		
SOCL 1280	The Twenty-First-Century Workplace	4
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	
MATH 4025	Applied Mathematics Capstone	
MATH 5131	Introduction to Mathematical Methods and Modeling	

### Mathematics and Sociology Combined Major Credit Requirement

Complete 68 semester hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

128 total semester hours required

### Plan of Study

## Mathematics, Minor

A math minor can be combined with any other major at Northeastern and can be obtained by completing six math courses: two calculus courses, two intermediate courses, and two upper-level courses.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Courses

Code	Title	Hours
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4

Biology majors may substitute the following two courses:

MATH 1251	Calculus and Differential Equations for Biology 1
MATH 1252	Calculus and Differential Equations for Biology 2

### Intermediate-Level Courses

Code	Title	Hours
Complete two of the following:		8
MATH 2321	Calculus 3 for Science and Engineering	
MATH 2341	Differential Equations and Linear Algebra for Engineering	
MATH 2331	Linear Algebra	

### Mathematics Electives

Code	Title	Hours
Complete two courses in the following range:		8
MATH 3001 to MATH 4699 <sup>1</sup>		

<sup>1</sup> MATH 4000 is excluded.

### GPA Requirement

2.000 GPA required in the minor

## Physics

Website (<http://www.northeastern.edu/cos/physics/>)

Mark C. Williams, PhD

Professor and Chair

110 Dana Research Center  
617.373.2902  
617.373.2943 (fax)  
physics@northeastern.edu

Physics examines the fundamental principles that govern natural phenomena, ranging in scale from collisions of subatomic particles; through the behavior of solids, liquids, and biomolecules; to exploding stars and colliding galaxies.

The program aims to help students experience the intellectual stimulation of studying physics and the excitement of frontline research, understand the basic principles and techniques of physics-related careers, and prepare for graduate study in physics or related fields.

### Programs

The department offers several degree programs:

- BS in physics, applied physics, or biomedical physics
- BS in applied physics/MS in electrical engineering
- MS and PhD in physics

Four levels of courses are offered:

- Descriptive courses for nonscience majors with limited mathematical background
- General survey courses for students in scientific and engineering fields
- Advanced courses primarily intended for physics, biomedical physics, and applied physics majors
- Highly advanced courses primarily intended for prospective graduate students

A BS, MS, or a PhD degree in physics offers many career opportunities in industrial, government, and academic high-technology laboratories as scientists or engineers.

### COMBINED MAJORS

Students also have the opportunity to combine physics with another discipline through a combined major. Current combined majors with physics include mathematics, computer science, music with concentration in music composition and technology, philosophy, chemical engineering, computer engineering, electrical engineering, and mechanical engineering.

### Research Opportunities for Undergraduates

Students are encouraged to participate in the excitement of cutting-edge research in particle physics, biophysics, and nanotechnology with world-renowned faculty.

### Programs

#### Bachelor of Science (BS)

- Physics (p. 754)
- Applied Physics (p. 756)
- Biomedical Physics (p. 758)
- Computer Science and Physics (p. 378)
- Data Science and Physics (p. 424)
- Mathematics and Physics (p. 747)

- Physics and Music with Concentration in Music Technology (p. 224)
- Physics and Philosophy (p. 769)

### Bachelor of Science in Chemical Engineering (BSCHE)

- Chemical Engineering and Physics (p. 460)

### Bachelor of Science in Computer Engineering (BSCmpE)

- Computer Engineering and Physics (p. 492)

### Bachelor of Science in Electrical Engineering (BSEE)

- Electrical Engineering and Physics (p. 504)

### Bachelor of Science in Mechanical Engineering (BSME)

- Mechanical Engineering and Physics (p. 532)

### Minor

- Physics (p. 782)

### Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. )

## Physics, BS

The physics program provides a strong foundation in classical and modern physics, including studies of the various physical phenomena such as electromagnetism, dynamics, building blocks of matter, energy, and radiation.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Physics Major Requirements

Code	Title	Hours
<b>Introductory Physics</b>		
<i>Physics 1</i>		
Complete one of the following:		5
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
<i>Physics 2</i>		
Complete one of the following:		5
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	

PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	
---------------------------------------	--	--

### Intermediate Physics

PHYS 2303	Modern Physics	4
PHYS 2371 and PHYS 2372	Electronics and Lab for PHYS 2371	4

### Advanced Physics

PHYS 3600	Advanced Physics Laboratory	4
PHYS 3601	Classical Dynamics	4
PHYS 3602	Electricity and Magnetism 1	4
PHYS 3603	Electricity and Magnetism 2	4
PHYS 4115	Quantum Mechanics	4
PHYS 4305	Thermodynamics and Statistical Mechanics	4

### Elective Course

Complete one of the following:		4
MATH 4606	Mathematical and Computational Methods for Physics	
PHYS 3500 to PHYS 7999		

### Experiential Learning

Complete one course in experiential learning. See department for approved courses. Note: The experiential learning requirement is waived following a student presentation connected with a co-op and/or research experience. The requirement is often fulfilled by a talk at a Society of Physics Students meeting but can be fulfilled by an adequately documented presentation at a professional meeting or at an appropriate campus event. Contact your faculty adviser for additional information.

### Senior Capstone

PHYS 5318	Principles of Experimental Physics	4
-----------	------------------------------------	---

### Supporting Courses

Code	Title	Hours
<b>Mathematics</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 2331	Linear Algebra	4
MATH 3081	Probability and Statistics	4
<b>Computational Methods</b>		
PHYS 1211	Computational Problem Solving in Physics	4
or PHYS 1130 or GE 1111	Computing, Data, and Science Engineering Problem Solving and Computation	
<b>Chemistry</b>		
CHEM 1211 and CHEM 1212	General Chemistry 1 and Lab for CHEM 1211	5
<b>Technical Electives</b>		
Complete 8 semester hours from the following:		8
MATH 2280	Statistics and Software	
MATH 2321 to MATH 5999		

PHYS 2303 to PHYS 7999
CHEM 2311 to CHEM 5999
BIOL 2301 to BIOL 5999
ENVR 2300 to ENVR 5999
CS 2990 to CS 4900
CHME 2001 to CHME 4699
CIVE 2001 to CIVE 4699
EECE 2001 to EECE 5999
ME 2001 to ME 4699
IE 2001 to IE 4699

## Physics Major Credit Requirement

Complete 91 semester hours in the major.

## Program Requirement

133 total semester hours required

## Plan of Study

### Note on Physics Plans of Study

Some required physics courses are offered in both fall and spring semesters, while other required courses are offered less frequently. Therefore, the suggested plan of study will vary from student to student, **depending on the year of entry for that student.** See course offering schedule at the end of the plan of study.

Please contact your academic advisor for additional information and plans of study.

- PHYS 5318 offered every spring

## Applied Physics, BS

The applied physics BS degree is a flexible, interdisciplinary-oriented program designed to provide students with a solid background in basic physics, in conjunction with the opportunity to sample courses from a wide range of disciplines, including engineering, biology, chemistry, math, environmental studies, and computer science. This program seeks to enable students to prepare for a variety of careers in, for example, nanotechnology, a medical field, environmental research, or even finance.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Applied Physics Major Requirements

Code	Title	Hours
<b>Introductory Physics</b>		
<i>Physics 1</i>		
Complete one of the following:		5
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	

PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151
---------------------------------------	--

### *Physics 2*

Complete one of the following: 5

PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155

### Intermediate Physics

PHYS 2303	Modern Physics	4
PHYS 2371 and PHYS 2372	Electronics and Lab for PHYS 2371	4

PHYS 1211	Computational Problem Solving in Physics	4
or PHYS 1130	Computing, Data, and Science	
or GE 1111	Engineering Problem Solving and Computation	

**Chemistry**

CHEM 1211 and CHEM 1212	General Chemistry 1 and Lab for CHEM 1211	5
-------------------------	---	---

**Technical Electives**

Complete 16 semester hours of technical electives from the following: 16

MATH 2280	Statistics and Software	
MATH 2321 to MATH 5999		
PHYS 2303 to PHYS 7999		
CHEM 2311 to CHEM 5999		
BIOL 2301 to BIOL 5999		
ENVR 2300 to ENVR 5999		
CS 2990 to CS 4900		
CHME 2001 to CHME 4699		
CIVE 2001 to CIVE 4699		
EECE 2001 to EECE 5999		
ME 2001 to ME 4699		
IE 2001 to IE 4699		

**Applied Physics Major Credit Requirement**

Complete 91 semester hours in the major.

**Program Requirement**

133 total semester hours required

**Plan of Study****Note on Applied Physics Plans of Study**

Some required physics courses are offered in both fall and spring semesters, while other required courses are offered less frequently. Therefore, the suggested plan of study will vary from student to student, depending on the year of entry for that student.

Please contact your academic adviser for additional information and plans of study.

- PHYS 2303 offered every fall, spring, and summer 2
- PHYS 2371/2372 offered every fall
- PHYS 3600 offered every summer 1 and summer 2
- PHYS 3601 offered spring and fall (even years)
- PHYS 3602 offered every fall and spring
- PHYS 3603 offered fall (even years) and summer 1 (odd years)
- PHYS 4115 offered every fall and spring
- PHYS 4305 offered every spring and summer 2 (even years)
- PHYS 4621 offered spring (odd years) and fall (even years)
- PHYS 4623 offered summer 1 and fall (even years)
- PHYS 4651 offered spring and fall (odd years)
- PHYS 4652 offered every spring
- PHYS 5318 offered every spring

## Biomedical Physics, BS

The biomedical physics program seeks to understand the role of physical processes occurring on molecular, cellular, or macroscopic scales; in vital biological functions, ranging from the interaction of chemicals with DNA, to the extraction of oxygen from red blood cells, to the generation of complex electrical signals in the brain and nervous system; and physical principles of medical devices. The biomedical physics program also offers a premed (prehealth) specialized track.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Biomedical Physics Major Requirements

Code	Title	Hours
<b>Introductory Physics</b>		
<i>Physics 1</i>		
Complete one of the following:		5
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
<i>Physics 2</i>		
Complete one of the following:		5
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	
<b>Intermediate Physics</b>		
PHYS 2303	Modern Physics	4
PHYS 2371 and PHYS 2372	Electronics and Lab for PHYS 2371	4
<b>Advanced Physics</b>		
PHYS 3600	Advanced Physics Laboratory	4
PHYS 3602	Electricity and Magnetism 1	4
PHYS 3603	Electricity and Magnetism 2	4
PHYS 4305	Thermodynamics and Statistical Mechanics	4
<b>Biomedical Physics</b>		
PHYS 4621	Biological Physics 1	4
PHYS 4623	Medical Physics	4
PHYS 4651	Medical Physics Seminar 1	4

PHYS 4652	Medical Physics Seminar 2	4
-----------	---------------------------	---

### Advanced Physics Elective

Complete one of the following:		4
--------------------------------	--	---

MATH 4606	Mathematical and Computational Methods for Physics	
-----------	---	--

PHYS 2300 to PHYS 7999		
------------------------	--	--

### Experiential Learning

Note: The experiential learning requirement is waived following a student presentation connected with a co-op and/or research experience. The requirement is often fulfilled by a talk at a Society of Physics Students meeting but can be fulfilled by an adequately documented presentation at a professional meeting or at an appropriate campus event. Contact your faculty advisor for additional information.		4
---	--	---

PHYS 4996	Experiential Education Directed Study	4
-----------	---------------------------------------	---

### Senior Capstone

PHYS 5318	Principles of Experimental Physics	4
-----------	------------------------------------	---

### Supporting Courses

Code	Title	Hours
<b>Mathematics</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
<b>Computational Methods</b>		
PHYS 1211	Computational Problem Solving in Physics	4
or PHYS 1130	Computing, Data, and Science	
or GE 1111	Engineering Problem Solving and Computation	
<b>Biology</b>		
BIOL 1111 and BIOL 1112	General Biology 1 and Lab for BIOL 1111	5
BIOL 1113 and BIOL 1114	General Biology 2 and Lab for BIOL 1113	5
<b>Chemistry</b>		
CHEM 1211 and CHEM 1212	General Chemistry 1 and Lab for CHEM 1211	5
<b>Technical Electives</b>		
Complete two of the following:		8
MATH 2280	Statistics and Software	
MATH 2321 to MATH 5999		
PHYS 2303 to PHYS 7999		
CHEM 2311 to CHEM 5999		
BIOL 2301 to BIOL 5999		
ENVR 2300 to ENVR 5999		
CS 2990 to CS 4900		
CHME 2001 to CHME 4699		
CIVE 2001 to CIVE 4699		
EECE 2001 to EECE 5999		
ME 2001 to ME 4699		
IE 2001 to IE 4699		

## Biomedical Physics Major Credit Requirement

Complete 97 semester hours in the major.

### Program Requirement

135 total semester hours required

### Plan of Study

#### Additional Recommended Courses for Premedical School Track

In addition to the required courses for the BS in Biomedical Physics, students who are pursuing the premed/health track are encouraged to enroll in the following courses, utilizing available elective slots:

Code	Title	Hours
CHEM 1214 and CHEM 1215 and CHEM 1216	General Chemistry 2 and Lab for CHEM 1214 and Recitation for CHEM 1214	5
CHEM 2311 and CHEM 2312 and CHEM 2319	Organic Chemistry 1 and Lab for CHEM 2311 and Recitation for CHEM 2311	5
CHEM 2313 and CHEM 2314 and CHEM 2320	Organic Chemistry 2 and Lab for CHEM 2313 and Recitation for CHEM 2313	5
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
BIOL 3611 and BIOL 3612	Biochemistry and Lab for BIOL 3611	5
MATH 2280	Statistics and Software	4

#### Note on Biomedical Physics Plans of Study

Some required physics courses are offered in both fall and spring semesters, while other required courses are offered less frequently. Therefore, the suggested plan of study will vary from student to student, depending on the year of entry for that student.

See course offering schedule at the end of the plans of study.

Please contact your academic adviser for additional information and plans of study.

PHYS 4623 offered fall & summer 1 (even years)

PHYS 4651 offered fall & spring (odd years)

PHYS 4652 offered every spring

## Mathematics and Physics, BS

Mathematics and physics have been linked since antiquity. By combining physics and mathematics you can take closely related courses in each discipline, such as statistical mechanics and stochastic processes, mechanics and dynamical systems, thermodynamics and Fourier Series, and quantum mechanics and partial differential equations. The two departments jointly offer a course in mathematical methods in physics.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Mathematics Requirements

Code	Title	Hours
<b>Calculus</b>		
A grade of C or higher is required:		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
<b>Intermediate and Advanced Math</b>		
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 2331	Linear Algebra	4
MATH 3081	Probability and Statistics	4
MATH 3150	Real Analysis	4
MATH 3175	Group Theory	4
<b>Co-op Reflections</b>		
MATH 3000	Co-op and Experiential Learning Reflection Seminar 1	1
<b>Mathematics Elective</b>		
Complete one course in the following range:		4
MATH 3101 to MATH 4899		

### Physics Requirements

Code	Title	Hours
<b>Physics 1</b>		
Complete one of the following:		5
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
<b>Physics 2</b>		
Complete one of the following:		5

PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	

### Intermediate Physics

PHYS 2303	Modern Physics	4
PHYS 2371 and PHYS 2372	Electronics and Lab for PHYS 2371	4

### Advanced Physics

PHYS 3600	Advanced Physics Laboratory	4
PHYS 3602	Electricity and Magnetism 1	4
PHYS 4305	Thermodynamics and Statistical Mechanics	4

### Elective Courses

Complete two courses in the following range:	8
PHYS 3000 to PHYS 7999	

### Integrative Courses

Code	Title	Hours
PHYS 3601	Classical Dynamics	4
MATH 4545 or MATH 4525	Fourier Series and PDEs Applied Analysis	4

### Combined Major Credit Requirement

Complete 83 semester hours in the major.

### Program Requirement

128 total semester hours required

### Plan of Study

#### Notes on Physics courses in Plans of Study

Some required physics courses are offered in both fall and spring semesters, while other required courses are offered less frequently. Therefore, the suggested plan of study will vary from student to student, depending on the year of entry for that student.

Please contact your academic adviser for additional information and plans of study.

## Computer Science and Physics, BS

The computer science and physics combined major brings together three disciplines: computer science, physics, and mathematics. The mathematics requirements serve as a foundation for both computer science and physics. From hands-on experience with sophisticated physics instruments, to mathematical theory, to the latest computational innovations, our interdisciplinary approach will prepare students for the myriad challenges in today's rapidly changing world.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
CS 2800 and CS 2801	Logic and Computation and Lab for CS 2800	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 3800	Theory of Computation	4
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4

## Physics Courses

Code	Title	Hours
<b>Required Courses</b>		
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	5
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	5
<b>Intermediate Physics</b>		
PHYS 2303	Modern Physics	4
PHYS 2371 and PHYS 2372	Electronics and Lab for PHYS 2371 (Integrative course)	4
<b>Advanced Physics</b>		
PHYS 3600	Advanced Physics Laboratory	4
PHYS 3602	Electricity and Magnetism 1	4
PHYS 4305	Thermodynamics and Statistical Mechanics	4

## Capstone and Electives

Code	Title	Hours
<b>Capstone</b>		
	Complete either one computer science capstone or the physics capstone:	4
<i>Computer Science Capstone</i>		
CS 4100	Artificial Intelligence	
CS 4300	Computer Graphics	
CS 4410	Compilers	
CS 4150	Game Artificial Intelligence	
CS 4550	Web Development	
<i>Physics Capstone</i>		
PHYS 5318	Principles of Experimental Physics	
<b>Khoury Elective</b>		

The computer science elective is not required if the student has completed the computer science capstone (above). With adviser approval, a directed study, research, project study, or appropriate graduate-level course may also be taken as a computer science elective.

Complete 4 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges: 4

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

### Physics Elective

Only one physics elective is required if the student has completed the physics capstone (above).

Complete two courses in the following range: 8  
PHYS 3000 to PHYS 5999

### Integrative Courses

Code	Title	Hours
<b>Calculus</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4

### Additional Mathematics Requirements

MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 3081	Probability and Statistics	4

### Supporting Course

Code	Title	Hours
Complete one of the following: 4		
AFAM 2600	Issues in Race, Science, and Technology	
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
IS 1300 or PHIL 1300	Knowledge in a Digital World	
PHIL 1145	Technology and Human Values	
SOCL 1280	The Twenty-First-Century Workplace	
SOCL 2485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

### Computer Science Writing Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
<b>Advanced Writing in the Disciplines</b>		
ENGW 3302	Advanced Writing in the Technical Professions	4

or ENGW 3315 Interdisciplinary Advanced Writing in the Disciplines

### Required General Electives

Code	Title	Hours
Complete 24 credits of general electives.		24

### Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

### NUPath Requirements Satisfied

- Engaging with the Natural and Designed World
- Exploring Creative Expression and Innovation
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

### Program Requirement

136 total semester hours required

### Plan of Study

## Data Science and Physics, BS

The data science and physics combined major brings together computer and data science, physics, and mathematics. The computer science and mathematics requirements serve as a foundation for both data science and physics. From hands-on experience with sophisticated physics instruments, to mathematical theory, to the latest computational innovations, our interdisciplinary approach is designed to prepare students for the myriad challenges in today's rapidly changing world.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Data Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Hourly Co-op	1
<b>Programming Sequence Pathways</b>		
Choose one of the two options		12
<i>Computer Science Option</i>		
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	
<i>Data Science Option</i>		
DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
DS 2500 and DS 2501	Intermediate Programming with Data and Lab for DS 2500	
DS 3500	Advanced Programming with Data	
<b>Computer Science Required Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 3200	Database Design	4
<b>Data Science Foundations</b>		
DS 3000	Foundations of Data Science	4
DS 4200	Information Presentation and Visualization	4
DS 4300	Large-Scale Information Storage and Retrieval	4
DS 4400	Machine Learning and Data Mining 1	4

### Physics Courses

Code	Title	Hours
<b>Required Courses</b>		
PHYS 1161 and PHYS 1162 and PHYS 1163	Physics 1 and Lab for PHYS 1161 and Recitation for PHYS 1161	5
PHYS 1165 and PHYS 1166 and PHYS 1167	Physics 2 and Lab for PHYS 1165 and Recitation for PHYS 1165	5
<b>Intermediate Physics</b>		
PHYS 2303	Modern Physics	4
PHYS 3601	Classical Dynamics	4
PHYS 3602	Electricity and Magnetism 1	4

PHYS 3603	Electricity and Magnetism 2	4
<b>Advanced Physics</b>		
PHYS 3600	Advanced Physics Laboratory	4
PHYS 4115	Quantum Mechanics	4
or PHYS 5116	Complex Networks and Applications	
PHYS 4305	Thermodynamics and Statistical Mechanics	4

## Electives

Code	Title	Hours
<b>Khoury Elective</b>		

With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete four semester hours of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:

CS 2500 or higher, except CS 5010	
CY 2000 or higher, except CY 4930	
DS 2500 or higher, except DS 4900	
IS 2000 or higher, except IS 4900	

### Physics Elective

Complete one course not already required in the following range:

PHYS 3000 to PHYS 5999	4
------------------------	---

## Computer Science Writing Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4

### Advanced Writing in the Disciplines

ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3307	Advanced Writing in the Sciences	
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

## Supporting Courses

Code	Title	Hours
<b>Calculus</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4

### Additional Mathematics Requirements

MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 3081	Probability and Statistics	4

## Integrative Course and Capstone

Code	Title	Hours
PHYS 5318	Principles of Experimental Physics	4

## Required General Electives

Code	Title	Hours
Complete 16 semester hours of general electives.		16

## Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

## NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

## Program Requirement

132 total semester hours required

## Plan of Study

Sample Patterns:

**Physics and Music with Concentration in Music Technology, BS**

The combined major in physics and music provides a strong foundation in classical and modern physics, including studies of the various physical phenomena including electromagnetism, dynamics, building blocks of matter, energy, and radiation. It also provides students with a solid background in composition for acoustic and electronic instruments and for combined and/or interactive live and digital sources. The combined major allows students to learn how physical principles influence sound production and propagation.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Physics Major Requirements

Code	Title	Hours
<b>Introductory Physics</b>		
<i>Physics 1</i>		
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	5
<i>Physics 2</i>		
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	5
<b>Intermediate Physics</b>		
PHYS 2303	Modern Physics	4
PHYS 2371 and PHYS 2372	Electronics and Lab for PHYS 2371	4

## Supporting Courses

Code	Title	Hours
<b>Mathematics</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4

## Music Requirements

Code	Title	Hours
<b>Music Theory and Composition</b>		
MUSC 1201	Music Theory 1	4
MUSC 1202	Music Theory 2	4
Complete two of the following: 8		
MUSC 3541	Music Analysis Seminar	
MUSC 2111	Algebra and Geometry of Music	
MUSC 3300	Music Perception and Cognition	
<b>Music in Context</b>		
MUSC 1001	Music in Everyday Life	4
<i>Contemporary</i>		
Complete one course from the following: 4		
MUSC 2101	Black Popular Music	
MUSC 2150	Making a Musical: Analysis, Craft, and Creation	

MUSC 2317	Punk Rock	
MUSC 2310	Popular Music Since 1945	
MUSC 2320	40,000 Years of Music Technology	
MUSC 2340	Divas, DJs, and Double Standards	
MUSC 2351	Music, Sound, and the Screen	
MUSC 3352	Sounding Human	
MUSC 3560	Topics in Music since 1900	
MUSI 3401	Hip Hop in the Music Industry	

<b>Music Technology</b>		
MUSC 2350	Acoustics and Psychoacoustics of Music	4
MUST 1220	Introduction to Music Technology	4
MUST 2431	Computer Music Fundamentals	4

<b>Music Technology Electives</b>		
Complete two of the following: 8		
MUSC 4510	Music and the Brain Research	
MUST 3540	Special Topics in Music Technology	
MUST 4610	Composition for Electronic Instruments	
MUST 4520		

<b>Music Technology Capstone</b>		
MUST 4611	Music Technology Capstone/Senior Recital	4

## Physics/Music Integrative Requirements

Code	Title	Hours
<b>Integrative Course Requirements</b>		
MUSC 2350	Acoustics and Psychoacoustics of Music	4

## Physics and Music Combined-Major Credit Requirement

Complete 98 semester hours in the major.

## Music Technology Major Grade Requirement

Students must maintain at least a 2.667 GPA (B- average) in the requirements of the music half of the combined major and also complete all required music courses with grades of at least C. Students who fail to meet the above standards will be placed on departmental probation; those who remain on probation for two consecutive semesters will be dropped from the major.

## Program Requirement

131 total semester hours required

## Plan of Study

### Note on Physics courses in Plans of Study

Some required physics courses are offered in both fall and spring semesters, while other required courses are offered less frequently. Therefore, the suggested plan of study will vary from student to student, **depending on the year of entry for that student.**

*See course offering schedule at the end of the plans of study.*

Please contact your academic adviser for additional information and plans of study.

- PHYS 4651 offered spring and fall (odd years)
- PHYS 4652 offered every spring
- PHYS 5318 offered every spring

## Physics and Philosophy, BS

The combined major in physics and philosophy provides a strong foundation in classical and modern physics, including studies of the various physical phenomena including electromagnetism, dynamics, building blocks of matter, energy, and radiation. It also provides students with an understanding of the methods and traditions of philosophical thought, as well as with opportunities to critically and collaboratively reflect on the nature of the world and the human situation in it. Students will be able to describe the method by which physical "law" is made manifest in the sciences, how this knowledge compares with other epistemological models studied in other contexts, and philosophical views on the status and source of physical "law."

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Physics Major Requirements

Code	Title	Hours
<b>Introductory Physics</b>		
<i>Physics 1</i>		
Complete one of the following:		5
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
<i>Physics 2</i>		
Complete one of the following:		5
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	
<b>Intermediate Physics</b>		
PHYS 2303	Modern Physics	4

PHYS 2371 and PHYS 2372	Electronics and Lab for PHYS 2371	4
<b>Advanced Physics</b>		
PHYS 3600	Advanced Physics Laboratory	4
PHYS 3602	Electricity and Magnetism 1	4
PHYS 4115	Quantum Mechanics	4
PHYS 4305	Thermodynamics and Statistical Mechanics	4

### Physics Elective

Complete one of the following:		4
MATH 4606	Mathematical and Computational Methods for Physics	
PHYS 5111	Astrophysics and Cosmology	
PHYS 5113	Particle Physics	
PHYS 5116	Complex Networks and Applications	
PHYS 5260	Introduction to Nanoscience and Nanotechnology	
PHYS 4621	Biological Physics 1	
PHYS 4623	Medical Physics	
PHYS 4651	Medical Physics Seminar 1	
PHYS 4652	Medical Physics Seminar 2	

### Philosophy Major Requirements

**OFFERING SCHEDULE (SUBJECT TO CHANGES)**

- PHYS 2303 offered every fall, spring, and summer 2
- PHYS 2371/2372 offered every fall
- PHYS 3600 offered every summer 1 and summer 2
- PHYS 3601 offered spring and fall (even years)
- PHYS 3602 offered every fall and spring
- PHYS 3603 offered fall (even years) and summer 1 (odd years)
- PHYS 4115 offered every fall and spring
- PHYS 4305 offered every spring and summer 2 (even years)
- PHYS 4621 offered spring (odd years) and fall (even years)
- PHYS 4623 offered summer 1 and fall (even years)
- PHYS 4651 offered spring and fall (odd years)
- PHYS 4652 offered every spring
- PHYS 5318 offered every spring

**Chemical Engineering and Physics, BSChE**

This intercollege combined major serves students who would like to explore their interest in physics while earning the benefit of a Bachelor of Science degree in chemical engineering. Upon completion, the successful student will understand the fundamental physics behind many chemical-based processes, resulting in the ability to design and practice in the field of engineering that deals with the movement of mass, heat transfer, and reactions involved in the processing of various materials.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

	General Elective	4
	0	16

Total Hours: 135

### Notes:

Physics courses are offered on the following schedule:

- PHYS 2303 offered every fall, spring and summer 2.
- PHYS 2371/2372 offered every fall.
- PHYS 3600 offered every summer 1 and summer 2.
- Classical Dynamics (PHYS 3601) is offered fall and spring semesters of even years only. Please meet with your Academic Advisor to discuss scheduling options for Year 4 of odd years.
- PHYS 3602 offered every fall and spring.
- PHYS 3603 offered fall (even years) and summer 1 (odd years).
- PHYS 4115 offered every fall and spring.
- PHYS 4305 offered every spring and summer 2 (even years).
- PHYS 4621 offered spring (odd years) and fall (even years).
- PHYS 4623 offered summer 1 and fall (even years).
- PHYS 4651 offered spring and fall (odd years).
- PHYS 4652 offered every spring.
- PHYS 5318 offered every spring.

## Computer Engineering and Physics, BSCmpE

This intercollege combined major serves students who would like to explore their interest in physics while earning the benefit of an accredited Bachelor of Science degree in engineering. The dual major combines a major in physics from the Department of Physics in the College of Arts and Sciences with the Bachelor of Science in Computer Engineering degree from the Department of Electrical and Computer Engineering.

Because of the large body of shared knowledge between computer engineering and physics, an integrated dual major between these two disciplines is a logical course of study and can be accomplished within a student's usual five-year program (including three co-op placements) without requiring course overloading in any semester. A student graduating from this program will have studied both the physical fundamentals and computer systems.

Students interested in this program should contact the Department of Electrical and Computer Engineering or the Department of Physics as early as possible, preferably prior to registering for freshman courses.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses

where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements through general electives.

## Engineering

Code	Title	Hours
<b>Required Courses</b>		
EECE 2140	Computing Fundamentals for Engineers	4
EECE 2150	Circuits and Signals: Biomedical Applications	5
EECE 2160	Embedded Design: Enabling Robotics	4
<b>Computer Engineering Fundamentals</b>		
EECE 2322 and EECE 2323	Fundamentals of Digital Design and Computer Organization and Lab for EECE 2322	5
EECE 2540	Fundamentals of Networks	4
EECE 2560	Fundamentals of Engineering Algorithms	4
<b>Electrical Engineering Fundamentals</b>		
If more than one electrical engineering fundamentals course is taken, it can count as a technical elective.		
Complete one of the following: 4		
EECE 2412 and EECE 2413	Fundamentals of Electronics and Lab for EECE 2412	
EECE 2520	Fundamentals of Linear Systems	
EECE 2530 and EECE 2531	Fundamentals of Electromagnetics and Lab for EECE 2530	
<b>Computer Engineering Capstone Courses</b>		
EECE 4791	Electrical and Computer Engineering Capstone 1	1
EECE 4792	Electrical and Computer Engineering Capstone 2	4
<b>Technical Electives</b>		
Students can register for EECE 4991 / EECE 4992 / EECE 4993 more than once. For these courses combined, a maximum of 8 semester hours will be allowed to satisfy the requirement of technical electives. An additional 4 semester hours will be allowed as a general elective. At most, one of these courses (4 semester hours) can be taken in a semester.		
Though students may register for EECE 2750 more than once, only 4 semester hours will be allowed to satisfy the requirements of technical electives. An additional 4 semester hours will be allowed as a general elective.		
Complete two of the following: 8		
EECE 2412 to EECE 2530		
EECE 2750	Enabling Engineering	

EECE 3324 to EECE 4698		
EECE 4991	Research	
EECE 4992	Directed Study	
EECE 4993	Independent Study	
EECE 5115 to EECE 5698		
ENGR 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage	
One CS/CY/IS course from the following approved list may be taken toward the EECE technical elective requirement:		
CS 3200	Database Design	
CS 3500	Object-Oriented Design	
CS 3540 to CS 3800		
CS 4100 to CS 4770		
CS 4850	Building Game Engines	
CY 2550	Foundations of Cybersecurity	
IS 4200 to IS 4700		
<b>Supplemental Credit</b>		
2 semester hours from the following course count toward the engineering requirement:		2
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
3 semester hours from the following course count toward the engineering requirement:		3
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	
<b>Mathematics/Science</b>		
Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 3081	Probability and Statistics	4
Complete one of the following:		5
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
PHYS 1161 and PHYS 1162 and PHYS 1163	Physics 1 and Lab for PHYS 1161 and Recitation for PHYS 1161	
Complete one of the following:		5
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	
PHYS 1165 and PHYS 1166 and PHYS 1167	Physics 2 and Lab for PHYS 1165 and Recitation for PHYS 1165	
PHYS 2303	Modern Physics	4
PHYS 3600	Advanced Physics Laboratory	4
PHYS 3602	Electricity and Magnetism 1	4

PHYS 4115	Quantum Mechanics	4
PHYS 4305	Thermodynamics and Statistical Mechanics	4

**Advanced Physics Elective**

Complete one of the following: 4

MATH 4606	Mathematical and Computational Methods for Physics	
PHYS 3600 to PHYS 7999		

**Supplemental Credit**

1 semester hour from the following course counts toward the mathematics/science requirement: 1

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
---------	---	--

**Professional Development**

Code	Title	Hours
<b>Required Professional Development</b>		
GE 1000	Introduction to the Study of Engineering	1

#### Notes:

The capstone design courses are taken as follows: (Electrical and Computer Engineering Capstone 1 (EECE 4791)—summer 1 and Electrical and Computer Engineering Capstone 2 (EECE 4792)—spring) OR (Electrical and Computer Engineering Capstone 1 (EECE 4791)—summer 2 and Electrical and Computer Engineering Capstone 2 (EECE 4792)—fall).

Physics courses are offered on the following schedule:

- PHYS 2303 offered every fall, spring, and summer 2
- PHYS 2371/2372 offered every fall
- PHYS 3600 offered every summer 1 and summer 2
- PHYS 3601 offered spring and fall (even years)
- PHYS 3602 offered every fall and spring
- PHYS 3603 offered fall (even years) and summer 1 (odd years)
- PHYS 4115 offered every fall and spring
- PHYS 4305 offered every spring and summer 2 (even years)
- PHYS 4621 offered spring (odd years) and fall (even years)
- PHYS 4623 offered summer 1 and fall (even years)
- PHYS 4651 offered spring and fall (odd years)
- PHYS 4652 offered every spring
- PHYS 5318 offered every spring

### Electrical Engineering and Physics, BSEE

This intercollege combined major serves students who would like to explore their interest in physics while earning the benefit of an accredited Bachelor of Science degree in engineering. The major combines a major in physics from the Department of Physics in the College of Science with the Bachelor of Science in Electrical Engineering degree from the Department of Electrical and Computer Engineering.

Because of the large body of shared knowledge between electrical engineering and physics, a combined major between these two disciplines is a logical course of study and can be accomplished within a student's usual five-year program (including three co-op

placements) without requiring course overloading in any semester. A student graduating from this program will have studied both the physical fundamentals and the applications of electronic devices and systems. The program is a particularly appropriate course of study for students who wish to pursue a career in solid-state devices, microelectromechanical systems, or nanotechnology.

Students interested in this program should contact the Department of Electrical and Computer Engineering or the Department of Physics as early as possible, preferably prior to registering for freshman courses.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

### Engineering

Code	Title	Hours
<b>Required Courses</b>		
EECE 2140	Computing Fundamentals for Engineers	4
EECE 2150	Circuits and Signals: Biomedical Applications	5
EECE 2160	Embedded Design: Enabling Robotics	4
<b>Electrical Engineering Fundamentals</b>		
EECE 2412 and EECE 2413	Fundamentals of Electronics and Lab for EECE 2412	5
EECE 2520	Fundamentals of Linear Systems	4
EECE 2530 and EECE 2531	Fundamentals of Electromagnetics and Lab for EECE 2530	5
<b>Computer Engineering Fundamentals</b>		
If more than one computer engineering fundamentals course is taken, it can count as a technical elective.		
Complete one of the following:		4-5
EECE 2322 and EECE 2323	Fundamentals of Digital Design and Computer Organization and Lab for EECE 2322	
EECE 2540	Fundamentals of Networks	
EECE 2560	Fundamentals of Engineering Algorithms	
<b>Electrical Engineering Capstone Courses</b>		
EECE 4791	Electrical and Computer Engineering Capstone 1	1
EECE 4792	Electrical and Computer Engineering Capstone 2	4
<b>EECE Technical Electives</b>		

Students can register for EECE4991/EECE4992/EECE4993 more than once. For these courses combined, a maximum of 8 semester hours will be allowed to satisfy the requirement of technical electives. An additional 4 semester hours will be allowed as a general elective. At most, one of these courses (4 semester hours) can be taken in a semester.

Though students may register for EECE 2750 more than once, only 4 semester hours will be allowed to satisfy the requirements of technical electives. An additional 4 semester hours will be allowed as a general elective.

Complete two of the following:		8-9
EECE 2322 and EECE 2323	Fundamentals of Digital Design and Computer Organization and Lab for EECE 2322	
EECE 2540 to EECE 2750		
EECE 3324 to EECE 3410		
EECE 4512 to EECE 4698		
EECE 4991	Research	
EECE 4992	Directed Study	
EECE 4993	Independent Study	
EECE 5115 to EECE 5698		
ENGR 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage	

### Supplemental Credit

2 semester hours from the following course count toward the engineering requirement:		2
EECE 3468	Noise and Stochastic Processes	
2 semester hours from the following course count toward the engineering requirement:		2
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
3 semester hours from the following course count toward the engineering requirement:		3
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	

### Mathematics/Science

Code	Title	Hours
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
Complete one of the following:		5
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
PHYS 1161 and PHYS 1162 and PHYS 1163	Physics 1 and Lab for PHYS 1161 and Recitation for PHYS 1161	
Complete one of the following:		5
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	

PHYS 1165 and PHYS 1166 and PHYS 1167	Physics 2 and Lab for PHYS 1165 and Recitation for PHYS 1165	4
PHYS 2303	Modern Physics	4
PHYS 3600	Advanced Physics Laboratory	4
PHYS 3602	Electricity and Magnetism 1	4

## Notes

The capstone design courses are taken as follows: (EECE 4791—summer 1 and EECE 4792—spring) OR (EECE 4791—summer 2 and EECE 4792—fall).

Physics courses are offered on the following schedule:

- PHYS 2303 offered every fall, spring, and summer 2
- PHYS 2371/2372 offered every fall
- PHYS 3600 offered every summer 1 and summer 2
- PHYS 3601 offered spring and fall (even years)
- PHYS 3602 offered every fall and spring
- PHYS 3603 offered fall (even years) and summer 1 (odd years)
- PHYS 4115 offered every fall and spring
- PHYS 4305 offered every spring and summer 2 (even years)
- PHYS 4621 offered spring (odd years) and fall (even years)
- PHYS 4623 offered summer 1 and fall (even years)
- PHYS 4651 offered spring and fall (odd years)
- PHYS 4652 offered every spring
- PHYS 5318 offered every spring

## Mechanical Engineering and Physics, BSME

This undergraduate program takes advantage of the physical similarities between mechanical engineering and physics, providing students with the opportunity to pursue studies that explore both topics. The program culminates with mechanical engineering capstone design.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

**Notes:**

Physics courses are offered on the following schedule:

- PHYS 2303 offered every fall, spring and summer 2.
- PHYS 2371/2372 offered every fall.
- PHYS 3600 offered every summer 1 and summer 2.
- Classical Dynamics (PHYS 3601) is offered fall and spring semesters of even years only. Please meet with your COS Academic Advisor to discuss scheduling options for Year 4 of odd years.
- PHYS 3602 offered every fall and spring.
- PHYS 3603 offered fall (even years) and summer 1 (odd years).
- PHYS 4115 offered every fall and spring.
- PHYS 4305 offered every spring and summer 2 (even years).
- PHYS 4621 offered spring (odd years) and fall (even years).
- PHYS 4623 offered summer 1 and fall (even years).
- PHYS 4651 offered spring and fall (odd years).
- PHYS 4652 offered every spring.
- PHYS 5318 offered every spring.

**Physics, Minor**

The physics minor provides a foundation in classical and modern physics and allows students to explore more advanced topics in physics through elective choices.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

**Required Courses**

Code	Title	Hours
Complete one of the following sequences:		10

**Physics 1 and 2**

PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	

**Physics for Engineering 1 and 2**

PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	

**Modern Physics**

Code	Title	Hours
PHYS 2303	Modern Physics	4

**Elective Courses**

Code	Title	Hours
Complete two of the following:		8

MATH 4606	Mathematical and Computational Methods for Physics	
PHYS 2300 to PHYS 5999		

**GPA Requirement**

2.000 GPA required in the minor

**Psychology**Website (<http://www.northeastern.edu/psychology/>)**Peter Bex, PhD**

Professor and Chair

617.373.3076

617.373.8714 (fax)

Studies in modern psychology focus on mind, brain, and behavior. Based on empirical research with both humans and animals, psychologists investigate and seek explanations for the behavior and mental life of individuals, develop assessment tools and treatment options for addressing clinical problems, and test applications of psychology in a broad range of contexts.

The psychology curriculum explores such topics as how brain function determines behavior; how we see, hear, and learn; what constitutes personality; the nature of language and cognitive processing; how emotions affect behavior; how individuals work in groups; the efficacy of a range of therapeutic techniques; and how principles of psychology apply to educational, medical, and other settings. Through laboratory practice and experimentation, individual research projects, and small-group seminars, the program provides the opportunity for critical evaluation and in-depth exploration across the diverse topic areas that constitute modern psychology.

Students are eligible for directed study courses, which are individualized research experiences under the supervision of a faculty member. The department also offers honors sections of various courses. Co-op placements are varied and include both community (often mental health) and laboratory settings, depending on a student's interests.

A solid scientific background in psychology helps prepare students for academic careers in teaching and research, as well as professional careers in business, public and social services, education, mental health, law, and medicine. It also provides a strong foundation for graduate study in all areas of psychology, including clinical programs and programs in experimental and applied psychology.

*Note:* A double major in psychology and behavioral neuroscience is not offered due to the similarity in the course curricula of these majors.

## Programs

### Bachelor of Science (BS)

- Psychology (p. 783)
- American Sign Language and Psychology (p. 788)
- Business Administration and Psychology (p. 270)
- Computer Science and Cognitive Psychology (p. 341)
- Criminal Justice and Psychology (p. 793)
- Data Science and Psychology (p. 426)
- Economics and Psychology (p. 797)
- Health Science and Psychology (p. 550)

## Psychology, BS

The Bachelor of Science degree program in psychology is designed to provide a research-based undergraduate education for students with a broad range of interests in basic and applied psychology. Psychology majors engage in academic course work and other experiences that span the breadth of psychology, as well as in-depth explorations that meet their own specific interests. Students have an opportunity to take fundamental and advanced courses spanning biological psychology, cognition, social psychology, personality psychology, sensation and perception, clinical psychology, applied psychology, learning and motivation, developmental psychology, and other subfields of psychology. By its very nature, psychology is a wide-ranging, cross-cutting field of study, and we encourage and offer interdisciplinary explorations via a highly flexible interdisciplinary cluster of courses that counts toward the BS curriculum, strong ties to other departments and programs, and experiential education to enhance the learning process, including conducting

research in faculty laboratories and participation in Northeastern's co-op program.

### ACADEMIC PROGRESSION STANDARDS

Students who fail to maintain a minimum grade-point average of 2.000 will be placed on probation. Three consecutive academic terms on probation will result in dismissal from the major.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Psychology Major Requirements

Code	Title	Hours
<b>Introductory Course</b>		
PSYC 1101	Foundations of Psychology	4
<b>Personal/Social Bases of Behavior (Area A)</b>		
Complete two of the following:		8
PSYC 3400	Personality	
PSYC 3402	Social Psychology	
PSYC 3404	Developmental Psychology	
PSYC 3406	Abnormal Psychology	
<b>Biological/Cognitive Bases of Behavior (Area B)</b>		
Complete two of the following:		8
PSYC 3450	Learning and Motivation	
	or PSYC 3451	Learning Principles and Behavior Analysis
PSYC 3452	Sensation and Perception	
PSYC 3458	Biological Psychology	
PSYC 3464	Psychology of Language	
PSYC 3466	Cognition	
<b>Statistics</b>		
Complete one of the following options:		4-5
PSYC 2320	Statistics in Psychological Research	
MATH 2280 and PSYC 2315	Statistics and Software and Statistics in Psychological Research Supplement <sup>1</sup>	
<b>Psychology Seminar</b>		
Complete one of the following:		4
PSYC 4654	Seminar in Behavioral Modification	
PSYC 4656	Seminar in Biological Psychology	
PSYC 4658	Seminar in Psycholinguistics	
PSYC 4660	Seminar in Cognition	
PSYC 4662	Seminar in Personality	
PSYC 4664	Seminar in Social Psychology	
PSYC 4666	Seminar in Clinical Psychology	
PSYC 4668	Seminar in Sensation and Perception	
PSYC 4674	Seminar in Cognitive Neuroscience	

PSYC 4676	Seminar in Developmental Psychology
PSYC 4678	Seminar in Social and Affective Neuroscience

**Lab Requirement**

Complete two psychology lab courses OR one psychology lab course and one psychology directed study research or honors thesis: 8

*Lab*

PSYC 4600	Laboratory in Research Design
PSYC 4606	Laboratory in Biological Psychology
PSYC 4610	Laboratory in Psycholinguistics
PSYC 4612	Laboratory in Cognition
PSYC 4614	Laboratory in Social Psychology
PSYC 4616	Laboratory in Personality
PSYC 4622	Laboratory in Sensation and Perception
PSYC 4624	Laboratory in Affective Science
PSYC 4626	Laboratory in Life-Span Emotional Development
PSYC 4628	Laboratory in Developmental Psychology

*Directed Study Research or Honors Thesis*

PSYC 4991	Directed Study Research
or PSYC 4971	Junior/Senior Honors Project 2

<sup>1</sup> PSYC 2315 requires a departmental signature. This option is most common when using transfer credit.

**Psychology Required Electives**

Code	Title	Hours
Complete five PSYC courses.		20

**Supporting Courses****INTERDISCIPLINARY CLUSTER**

Code	Title	Hours
Complete three of the following courses. Choose from one group only. Students may petition to create their own interdisciplinary cluster.		11-15

**Educational Psychology**

EDUC 1111	Education in the Community
EDUC 5503	Culture, Equity, Power, and Influence
EDUC 5504	Child and Adolescent Development, Learning, and Teaching
EDUC 5570	Inclusion, Equity, and Diversity

**Society and Psychology**

ANTH 1101	Peoples and Cultures
ANTH 2302	Gender and Sexuality: A Cross-Cultural Perspective
ANTH 2315	Religion and Modernity
LING 3412	Language and Culture
SOCL 1255	Sociology of the Family
SOCL 1260	Gender in a Changing Society
SOCL 1295	Drugs and Society

**Forensic Psychology**

CHEM 1107	Introduction to Forensic Science
CRIM 1120	Criminology
CRIM 3110	Gender, Crime, and Justice

CRIM 3120	Race, Crime, and Justice
<b>Cross-Cultural Psychology</b>	
ANTH 1101	Peoples and Cultures
LING 3412	Language and Culture
LING 3442	Sociolinguistics

**Expressive Therapy**

ARTF 1121	Conceptual Drawing
MUSC 1118	Music Therapy 1
THTR 1130	Introduction to Acting

**Counseling and Applied Psychology**

CAEP 3480	Counseling Theories and Practice
CAEP 3485	Mental Health and Counseling
HUSV 2300	Counseling in Human Services
HUSV 3520	Child Intervention and Treatment

**Artificial Intelligence and Information Science**

CS 3800	Theory of Computation
CS 4100	Artificial Intelligence
CS 4120	Natural Language Processing
IS 2000	Principles of Information Science
IS 4300	Human Computer Interaction

**Language**

DEAF 2700	ASL Linguistics
LING 2350	Linguistic Analysis
LING 3412	Language and Culture
LING 3422	Phonology
LING 3434	Bilingualism
LING 3442	Sociolinguistics
LING 3450	Syntax
LING 3452	Semantics
LING 3456	Language and Gender
SLPA 1205	Speech and Hearing Science

**Human Factors**

IS 2000	Principles of Information Science
IS 3500	Information System Design and Development
IS 4200	Information Retrieval
IS 4300	Human Computer Interaction
IS 4800	Empirical Research Methods

**Child and Adolescent Abnormal Psychology**

CRIM 2320	Youth Crime and Justice
HUSV 3520	Child Intervention and Treatment
HUSV 3580	Sexual Violence: Counseling, Programs, and Policy
SOCL 1295	Drugs and Society

**Human Resource Management and Business**

INTB 3310	Cultural Aspects of International Business
MISM 2301	Management Information Systems
MKTG 2209	Introduction to Marketing
ORGB 3201	Organizational Behavior
PHIL 1170	Business, Ethics, and Human Rights
SOCL 1280	The Twenty-First-Century Workplace

**Philosophy of Science and Psychology**

PHIL 1105	Science and Pseudoscience
-----------	---------------------------

PHIL 1115	Introduction to Logic
PHIL 4510	Philosophy of Science
PHIL 4535	Philosophy of Mind

**Ethics**

PHIL 1130	Ethics: East and West
PHIL 1165	Moral and Social Problems in Healthcare
PHIL 1170	Business, Ethics, and Human Rights
PHIL 1180	Environmental Ethics
PHIL 3435	Moral Philosophy

**Biological and Chemical Sciences**

BIOL 1111 and BIOL 1112	General Biology 1 and Lab for BIOL 1111
BIOL 1113 and BIOL 1114	General Biology 2 and Lab for BIOL 1113
BIOL 1141	Microbes and Society
BIOL 1147	The Human Organism
BIOL 1149	Biology of Human Reproduction
BIOL 2217 and BIOL 2218	Integrated Anatomy and Physiology 1 and Lab for BIOL 2217
BIOL 2219 and BIOL 2220	Integrated Anatomy and Physiology 2 and Lab for BIOL 2219
BIOL 3403	Animal Behavior
BIOL 3405	Neurobiology
BIOL 5585	Evolution
CHEM 1101 and CHEM 1102	General Chemistry for Health Sciences and Lab for CHEM 1101
CHEM 1104 and CHEM 1105	Organic Chemistry for Health Sciences and Lab for CHEM 1104
CHEM 1107	Introduction to Forensic Science
CHEM 1211 and CHEM 1212	General Chemistry 1 and Lab for CHEM 1211
CHEM 1214 and CHEM 1215	General Chemistry 2 and Lab for CHEM 1214
EEMB 1450	Introduction to Marine Biology
EEMB 2302	Ecology

**Physical Sciences and Mathematics**

In addition to the following courses, any math skill course may be used with advisor approval:

ENVR 1101	Environmental Science
ENVR 1110	Global Climate Change
ENVR 1120	Oceans and Coasts
ENVR 1200	Dynamic Earth
ENVR 2200	Earth's Changing Cycles
ENVR 3418	Geophysics
MATH 4581	Statistics and Stochastic Processes

or any PHYS course

**Health and Wellness**

BIOL 1141	Microbes and Society
BIOL 1143	Biology and Society
BIOL 1147	The Human Organism
BIOL 1149	Biology of Human Reproduction
BIOL 2217 and BIOL 2218	Integrated Anatomy and Physiology 1 and Lab for BIOL 2217
COMM 3201	Health Communication

HSCI 1105	Human Nutrition
HSCI 1106	Contemporary Issues in Nutrition
HSCI 5230	Clinical Nutrition Applications in Health and Disease
NRSG 1205	Wellness
PHIL 1165	Moral and Social Problems in Healthcare
PHIL 1180	Environmental Ethics
PHIL 1185	The Ethics of Food
PT 1880	Introduction to Sports Medicine
SOCL 1295	Drugs and Society

**Communication, Culture, and Society**

### American Sign Language and Psychology, BS

American Sign Language (ASL) is estimated to be the third most used language in the United States and its visibility in society is on the rise in recent years. There are roughly 500,000 to 2,000,000 Deaf, DeafBlind, or hard of hearing people in the United States who use ASL as their primary language, and a large number of non-Deaf signers use or learn ASL as a second language. A disproportionate percentage of Deaf people experience socioeconomic disadvantage due to their dual status as members of both a cultural linguistic minority group and a disability group. As a result, there is a broad societal misunderstanding of Deaf, signing people's minority language and culture—their lived experience—which creates barriers to educational and economic opportunity. While state and federal legislation enables improved civic engagement by Deaf, hard of hearing, and DeafBlind individuals, there is continued need to elevate quality of life, equity, and the rich contributions of the diverse members of the American Deaf communities.

The program offers a wide array of courses as well as volunteer, co-op, and research opportunities to learn from Deaf people's lived experiences through community and industry connections.

This combined major educates students in cognitive psychology, psycholinguistics, and the structures of human languages in general and ASL in particular. The curriculum is designed to assist students in acquiring competence in ASL, develop an understanding of the diverse American Deaf communities and Deaf culture, better understand cognitive efforts of interpreters' language transfer, as well as gain insights into various features of spoken language and experience firsthand the principles underlying the spatial organization of discourse required by signed languages. This knowledge and the psychology background from the major provide a foundation for more advanced studies of ASL and interpreting or psychology and Deaf people.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### American Sign Language Requirements

Code	Title	Hours
<b>American Sign Language</b>

## Business Administration and Psychology, BS

This combined major educates students in business and psychology and the interface between the two disciplines. The scope and sequence of psychology courses provide students with a foundation in the interdisciplinary science of psychology, including statistics and research, social psychology, developmental psychology, cognition, and personality. Business courses provide a foundation in accounting, innovation, marketing, management, and organizational behavior, with the opportunity to concentrate in a specific area of business. Students completing this program should be able to understand the relationships between these fields that pertain to explaining and addressing human behavior and business practices.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Business Requirements

Code	Title	Hours
<b>Required Courses</b>		
ACCT 1201	Financial Accounting and Reporting	4
ACCT 2301	Managerial Accounting	4
ENTR 2301	Innovation!	4

Complete one of the following:		4
PSYC 4654	Seminar in Behavioral Modification	
PSYC 4656	Seminar in Biological Psychology	
PSYC 4658	Seminar in Psycholinguistics	
PSYC 4660	Seminar in Cognition	
PSYC 4662	Seminar in Personality	
PSYC 4664	Seminar in Social Psychology	
PSYC 4666	Seminar in Clinical Psychology	
PSYC 4668	Seminar in Sensation and Perception	
PSYC 4674	Seminar in Cognitive Neuroscience	
PSYC 4676	Seminar in Developmental Psychology	
PSYC 4678	Seminar in Social and Affective Neuroscience	
<b>Required Lab</b>		
Complete one of the following:		4
PSYC 4600	Laboratory in Research Design	
PSYC 4606	Laboratory in Biological Psychology	

PSYC 4610	Laboratory in Psycholinguistics
PSYC 4612	Laboratory in Cognition
PSYC 4614	Laboratory in Social Psychology
PSYC 4616	Laboratory in Personality
PSYC 4622	Laboratory in Sensation and Perception
PSYC 4624	Laboratory in Affective Science
PSYC 4626	Laboratory in Life-Span Emotional Development
PSYC 4628	Laboratory in Developmental Psychology

### Psychology Electives

Complete two PSYC courses not used to fulfill the requirements above:	8
PSYC 1001 to PSYC 5999	

### Supporting Courses

Code	Title	Hours
<b>Introduction to College</b>		
BUSN 1102	Personal Skill Development for Business	1
or PSYC 1000	Psychology at Northeastern	

### Co-op Preparation

Complete one of the following:	1
BUSN 1103	Professional Development for Business Co-op
or EESC 2000	Professional Development for Co-op

### Integrative Course

Code	Title	Hours
ORGB 3201	Organizational Behavior	4

### Business GPA Requirement

A minimum 2.000 GPA in business courses is required.

### Psychology GPA Requirement

A minimum 2.000 GPA in psychology courses is required.

### Business Cooperative Education Requirement

Complete one six-month co-op experience.

### Program Requirement

128 total semester hours required

## Computer Science and Cognitive Psychology, BS

The computer science and cognitive psychology combined major provides a foundation in general psychology, psychology of language, cognition, and statistics—all supplemented by an experimental laboratory course, seminar course, and psychology electives. Students who choose this program often have a general interest in human psychology or specific interests in artificial intelligence or human-computer interaction.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 4100	Artificial Intelligence (Integrative course)	4
CS 4500 or CS 4530	Software Development (Integrative course) Fundamentals of Software Engineering	4
IS 4300	Human Computer Interaction (Integrative course)	4
<b>Khoury Elective Courses</b>		
With adviser approval, a directed study, research, project study, or appropriate graduate-level course may also be taken as a computer science elective.		
Complete twelve credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:		12
CS 2500 or higher, except CS 5010		
CY 2000 or higher, except CY 4930		
DS 2500 or higher, except DS 4900		
IS 2000 or higher, except IS 4900		

## Psychology Courses

Code	Title	Hours
<b>Required Courses</b>		
PSYC 1101	Foundations of Psychology	4
PSYC 2320	Statistics in Psychological Research	4
PSYC 3464	Psychology of Language	4
PSYC 3466	Cognition	4
<b>Advanced Psychology</b>		
PSYC 3452 or PSYC 3458	Sensation and Perception Biological Psychology	4
<b>Laboratory in Psychology</b>		
Complete one of the following:		4
PSYC 4610	Laboratory in Psycholinguistics	

PSYC 4612	Laboratory in Cognition	
PSYC 4622	Laboratory in Sensation and Perception	
<b>Seminar in Psychology</b>		
Complete one of the following:		4
PSYC 4658	Seminar in Psycholinguistics	
PSYC 4660	Seminar in Cognition	
PSYC 4668	Seminar in Sensation and Perception	
PSYC 4674	Seminar in Cognitive Neuroscience	

## Psychology Electives

Note: Courses satisfying the categories above cannot be reused.		
Complete two of the following:		8
PSYC 3402	Social Psychology	
PSYC 3404	Developmental Psychology	
PSYC 3450	Learning and Motivation	
PSYC 3451	Learning Principles and Behavior Analysis	
PSYC 3452	Sensation and Perception	
PSYC 3458	Biological Psychology	
PSYC 4512	Neuropsychology	
PSYC 4520	Language and the Brain	
PSYC 4522	Psychology of Reading	
PSYC 4524	Cognitive Development	
PSYC 4610	Laboratory in Psycholinguistics	
PSYC 4612	Laboratory in Cognition	
PSYC 4622	Laboratory in Sensation and Perception	
PSYC 4628	Laboratory in Developmental Psychology	
PSYC 4658	Seminar in Psycholinguistics	
PSYC 4660	Seminar in Cognition	
PSYC 4668	Seminar in Sensation and Perception	
PSYC 4674	Seminar in Cognitive Neuroscience	
PSYC 4676	Seminar in Developmental Psychology	
With prior approval, directed study research and Honors Project courses can also be counted:		
PSYC 4970	Junior/Senior Honors Project 1	
PSYC 4971	Junior/Senior Honors Project 2	
PSYC 4991	Directed Study Research	

## Supporting Courses

Code	Title	Hours
<b>Calculus</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
<b>Computing and Social Issues</b>		
Complete one of the following:		4
AFAM 2600	Issues in Race, Science, and Technology	
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	

IS 1300 or PHIL 1300	Knowledge in a Digital World
PHIL 1145	Technology and Human Values
SOCL 1280	The Twenty-First-Century Workplace
SOCL 2485	Environment, Technology, and Society
SOCL 4528	Computers and Society

### Computer Science Writing Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111	First-Year Writing	4
<b>Advanced Writing in the Disciplines</b>		
ENGW 3302 or ENGW 3315	Advanced Writing in the Technical Professions Interdisciplinary Advanced Writing in the Disciplines	4

### Required General Electives

Code	Title	Hours
	Complete 32 credits of general electives.	32

### Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

### NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Understanding Societies and Institutions
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

### Program Requirement

133 total semester hours required

### Plan of Study

#### Sample patterns:

#### Four Years, Two Co-ops in Summer 2/Fall

Year 1

**Criminal Justice and Psychology, BS**

This combined major educates students in criminal justice and psychology and the interface between the two disciplines. The scope and sequence of psychology courses provide students with a foundation in the interdisciplinary science of psychology, including the biological and psychosocial bases of behavior, learning, personality, and cognition. Criminal justice courses provide a foundation for understanding individual and systemic aspects of criminology and criminal justice. Students completing this program should be able to understand the relationships between the fields, as they relate to understanding and addressing criminal behavior.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Criminal Justice Requirements

Code	Title	Hours
<b>Criminal Justice Core Requirements</b>		
CRIM 1100	Introduction to Criminal Justice	4
CRIM 2100		4
CRIM 2200		4
CRIM 3600	Criminal Justice Research Methods	4
<b>Thematic Elective</b>		
Complete one of the following:		4
CRIM 1300	The Death Penalty	
CRIM 1400	Human Trafficking	
CRIM 1500	Corruption, Integrity, and Accountability	
CRIM 1700	Crime, Media, and Politics	
<b>Survey Elective</b>		
Complete one of the following:		4
CRIM 3010	Criminal Violence	
CRIM 3030	Global Criminology	
CRIM 3050	Organized Crime	
CRIM 3200

## Criminal Justice and Psychology Combined-Major Credit Requirement

Complete 84 semester hours in the major.

## Program Requirement

128 total semester hours required

## Data Science and Psychology, BS

The psychology and data science combined major offers an integrative curriculum in the study of mind, brain, and behavior and in the collection, manipulation, storage, retrieval, and computational analysis of data in its various forms, including numeric, textual, image, and video data from small to large volumes. The study of psychology draws upon empirical research with both humans and animals to investigate and seek explanations for the behavior and mental life of individuals and develop assessment tools and treatment options for addressing clinical problems. In this program, students have an opportunity to augment such knowledge with skills in big data analysis, data science, and data analytics.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### Data Science Requirements

Total Hours: 134

## Economics and Psychology, BS

This combined major educates students in economics and psychology and the interface between the two disciplines. Economics courses provide a foundation in macroeconomics, microeconomics, and applied econometrics. The scope and sequence of psychology courses provide students with a foundation in the interdisciplinary science of psychology, including such topics as cognition, decision making, learning, and motivation. Students completing this program of study should be able to understand how the two fields jointly contribute to explaining the complexity of human behavior in an economic context.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Economics Requirements

Code	Title	Hours
<b>Required Courses</b>		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2560	Applied Econometrics	4
ECON 4692	Senior Economics Seminar	4

### Economics Electives

Complete four ECON courses from the following ranges with no more than two at the ECON 1200–ECON 1999 range. The course used to satisfy the integrative course requirement may not be used as an economics elective:

ECON 1200–ECON 1999
ECON 3000–ECON 4689
ECON 4900–ECON 4999
ECON 5200–ECON 5999

### Psychology Requirements

Code	Title	Hours
<b>Required Courses</b>		
PSYC 1101	Foundations of Psychology	4
PSYC 2320	Statistics in Psychological Research	4
PSYC 3402	Social Psychology	4
PSYC 3450	Learning and Motivation	4

PSYC 3466	Cognition	4
-----------	-----------	---

**Required Lab**

Complete one of the following: 4

PSYC 4600	Laboratory in Research Design	
PSYC 4606	Laboratory in Biological Psychology	
PSYC 4610	Laboratory in Psycholinguistics	
PSYC 4612	Laboratory in Cognition	
PSYC 4614	Laboratory in Social Psychology	
PSYC 4616	Laboratory in Personality	
PSYC 4622	Laboratory in Sensation and Perception	
PSYC 4624	Laboratory in Affective Science	
PSYC 4626	Laboratory in Life-Span Emotional Development	
PSYC 4628	Laboratory in Developmental Psychology	

**Required Seminar**

Complete one of the following: 4

PSYC 4654	Seminar in Behavioral Modification	
PSYC 4656	Seminar in Biological Psychology	
PSYC 4658	Seminar in Psycholinguistics	
PSYC 4660	Seminar in Cognition	
PSYC 4662	Seminar in Personality	
PSYC 4664	Seminar in Social Psychology	
PSYC 4666	Seminar in Clinical Psychology	
PSYC 4668	Seminar in Sensation and Perception	
PSYC 4674	Seminar in Cognitive Neuroscience	
PSYC 4676	Seminar in Developmental Psychology	
PSYC 4678	Seminar in Social and Affective Neuroscience	

**Psychology Electives**

Complete three PSYC courses not used to fulfill requirements above. 12

**Other Requirements Outside Major**

Code	Title	Hours
PSYC 1000 or ECON 1000	Psychology at Northeastern Economics at Northeastern	1
EESC 2000 or EESH 2000	Professional Development for Co-op Professional Development for Co-op	1

## Health Science and Psychology, BS

The combined Bachelor of Science degree program in health science and psychology is designed to provide an interdisciplinary approach to public health and psychology. Through interdisciplinary explorations, students have the opportunity to develop knowledge in health promotion and illness prevention by way of understanding people's behaviors, perceptions, and emotions within the contexts of relationships and culture. This highly flexible curriculum is enhanced by experiential learning opportunities and prepares students to practice in interdisciplinary settings and be successful in sustaining and promoting health across populations.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Health Science Requirements

Code	Title	Hours
<b>Public Health Core</b>		
PHTH 1260	The American Healthcare System	4
or PHTH 1261	Comparative Healthcare Systems	
PHTH 2300	Communication Skills for the Health Professions	4
or PHTH 2301	Communication Skills for the Health Professions—Global	
PHTH 2350	Community and Public Health	4
or PHTH 2351	Community and Public Health - Global	
PHTH 2515	Healthcare Policy and Administration	4
PHTH 4120	Global Perspectives on Discrimination and Health	4
PHTH 4540	Health Education and Program Planning	4
<b>Supporting Courses for Health Science</b>		
BIOL 1111 and BIOL 1112	General Biology 1 and Lab for BIOL 1111	5
BIOL 1113 and BIOL 1114	General Biology 2 and Lab for BIOL 1113	5
CHEM 1161 and CHEM 1162 and CHEM 1163	General Chemistry for Science Majors and Lab for CHEM 1161 and Recitation for CHEM 1161	5

## Psychology Requirements

Code	Title	Hours
<b>Required Courses</b>		
PSYC 1101	Foundations of Psychology	4
PSYC 2320	Statistics in Psychological Research	4
PSYC 3458	Biological Psychology	4
<b>Personal/Social Bases of Behavior (Area A)</b>		
Complete two of the following:		8
PSYC 3400	Personality	
PSYC 3402	Social Psychology	
PSYC 3404	Developmental Psychology	
PSYC 3406	Abnormal Psychology	
<b>Biological/Cognitive Bases of Behavior (Area B)</b>		
Complete one of the following:		4
PSYC 3450	Learning and Motivation	
PSYC 3452	Sensation and Perception	
PSYC 3464	Psychology of Language	
PSYC 3466	Cognition	
<b>Psychology Electives</b>		
Complete 12 semester hours from the following subject area:		12
PSYC		
<b>Psychology Lab</b>		
Complete one of the following:		4
PSYC 4600	Laboratory in Research Design	
PSYC 4606	Laboratory in Biological Psychology	
PSYC 4610	Laboratory in Psycholinguistics	
PSYC 4612	Laboratory in Cognition	
PSYC 4614	Laboratory in Social Psychology	
PSYC 4616	Laboratory in Personality	
PSYC 4622	Laboratory in Sensation and Perception	

PSYC 4624	Laboratory in Affective Science
PSYC 4626	Laboratory in Life-Span Emotional Development
PSYC 4628	Laboratory in Developmental Psychology

**Psychology Seminar**

Complete one of the following: 4

PSYC 4654	Seminar in Behavioral Modification
PSYC 4656	Seminar in Biological Psychology
PSYC 4658	Seminar in Psycholinguistics
PSYC 4660	Seminar in Cognition
PSYC 4662	Seminar in Personality
PSYC 4664	Seminar in Social Psychology
PSYC 4666	Seminar in Clinical Psychology
PSYC 4668	Seminar in Sensation and Perception
PSYC 4674	Seminar in Cognitive Neuroscience
PSYC 4676	Seminar in Developmental Psychology
PSYC 4678	Seminar in Social and Affective Neuroscience

**Linguistics and Psychology, BS**

This combined major is designed to educate students in psychology, linguistics, and the interface between the two disciplines, which are core areas within the field of cognitive science. Students study the formal structures of human language; sociocultural aspects of language use; and the cognitive aspects of language representations, language

acquisition, and language processing. Students receive interdisciplinary training in the methods of experimental psychology, psycholinguistics, and linguistic analysis.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### Linguistics Requirements

Code	Title	Hours
<b>Linguistics Foundations</b>		
LING 1150	Introduction to Language and Linguistics	4
LING 2350	Linguistic Analysis	4
LING 3412	Language and Culture	4
<b>Linguistic Structure</b>		
Complete three of the following:		12
LING 3420	Phonetics	
LING 3422	Phonology	
LING 3424	Morphology	
LING 3450	Syntax	
LING 3452	Semantics	
<b>Linguistics Electives</b>		
Complete three of the following (not counted elsewhere):		12
DEAF 2700	ASL Linguistics	
LING 3420	Phonetics	
LING 3422	Phonology	
LING 3424	Morphology	
LING 3434	Bilingualism	
LING 3442	Sociolinguistics	
LING 3450	Syntax	
LING 3452	Semantics	
LING 3454	History of English	
LING 3456	Language and Gender	
LING 3458	Topics in Linguistics	
LING 3460	Historical Linguistics	
LING 4654	Seminar in Linguistics	
LING 4891	Research Seminar in Linguistics	
or LING 4970	Junior/Senior Honors Project 1	
or LING 4971	Junior/Senior Honors Project 2	
or LING 4991	Directed Study Research	
LING 4993	Independent Study	
PHIL 1115	Introduction to Logic

**Psychology and Music, BS**

This combined major educates students in psychology and music and the interface between the two disciplines. The scope and sequence of psychology courses provide students with a foundation in the interdisciplinary science of psychology, including such topics as cognition, psycholinguistics, perception, and the biological basis of behavior. Music courses provide a foundation in music theory, creative music in context, contemporary/ethnomusicology, music perception and cognition, and the psychoacoustics of music. Students completing this program of study should be able to understand how the two fields jointly contribute to explaining human behavior in the domain of music.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Difference and Diversity (DD), Ethical Reasoning (ER), and Advanced Writing in the Disciplines (WD) are not explicitly satisfied by the required courses. Difference and Diversity (DD) and Ethical Reasoning (ER) can be met through Music in Context. Students are responsible for satisfying any of these requirements not met within the major.

### Psychology, Minor

The Department of Psychology offers a minor in psychology, which involves taking five psychology courses, some required and some elective, that focus on the multidisciplinary study of mind, brain, and behavior. The minor accommodates students with a broad range of interests in basic and applied psychology. Students can elect to take fundamental and advanced courses spanning biological psychology, cognition, social psychology, personality psychology, sensation and perception, clinical psychology, applied psychology, learning and motivation, developmental psychology, or other subfields of psychology to craft a minor that reflects their interests within this wide-ranging field.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

*Note:* A maximum of two courses (or 8 semester hours) of transfer credit may count toward the minor. This minor is not available to students majoring in behavioral neuroscience or in any combined major that involves psychology. Courses taken pass/fail and receiving an S grade may not be used toward the minor.

Code	Title	Hours
<b>Required Course</b>		
PSYC 1101	Foundations of Psychology	4
<b>Personal/Social Bases of Behavior (Area A)</b>		
Transfer courses are not permitted to fulfill the Area A requirement.		
Complete one of the following: 4		
PSYC 3400	Personality	
PSYC 3402	Social Psychology	
PSYC 3404	Developmental Psychology	
PSYC 3406	Abnormal Psychology	
<b>Biological/Cognitive Bases of Behavior (Area B)</b>		
Transfer courses are not permitted to fulfill the Area B requirement.		
Complete one of the following: 4		
PSYC 3450	Learning and Motivation	
PSYC 3452	Sensation and Perception	
PSYC 3458	Biological Psychology	
PSYC 3464	Psychology of Language	
PSYC 3466	Cognition	

**Elective Courses**

Code	Title	Hours
Complete two PSYC courses.		8

**GPA Requirement**

2.000 GPA required in the minor

**Interdisciplinary****Programs****Minors**

- Environmental Chemistry (p. 487)
- Scientific Commercialization (p. 808)

**Environmental Chemistry, Minor**

The minor in environmental chemistry offers an opportunity for students of any background interested in environmental sciences to better understand the chemistry of the environment. Students completing the minor in environmental chemistry have an opportunity to learn about the chemical processes of natural systems and environmental pollutants, while earning a credential that highlights their interest and expertise. This can be a useful course of study whether their primary degree and career will be in one of the traditional chemical, environmental, or engineering programs, or another allied field. No more than two courses (totaling 8 SH to 10 SH) may double count with any major degree requirements.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

*Note:* No more than two courses (totaling 8 SH to 10 SH) may double count with any major degree requirements.

**Required Courses**

Code	Title	Hours
<b>Environmental Chemistry Core</b>		
Complete one of the following:		4
CIVE 2335	Environmental Engineering Chemistry	
ENVR 3410	Environmental Geochemistry	
<b>Chemistry Core</b>		
Complete one of the following:		5
CHEM 2321 and CHEM 2322 and CHEM 2323	Analytical Chemistry and Lab for CHEM 2321 and Recitation for CHEM 2321	
CHEM 3331 and CHEM 3332	Bioanalytical Chemistry and Lab for CHEM 3331	
<b>Research Experience</b>		
Complete one of the following:		4
CHEM 4750	Senior Research	
CHEM 4901	Undergraduate Research	
CHEM 4992	Directed Study	
CIVE 4991	Research	
CIVE 4992	Directed Study	
ENVR 4900	Earth and Environmental Science Capstone	

or ENVR 4997	Senior Thesis
ENVR 4992	Directed Study

**Electives**

Code	Title	Hours
Complete two of the following:		
CIVE 2335	Environmental Engineering Chemistry (If not used to satisfy Environmental Chemistry Core)	8-9
CIVE 3435	Environmental Pollution Fate and Transport	
CIVE 5300 and CIVE 5301	Environmental Sampling and Analysis and Lab for CIVE 5300	
ENVR 3125	Global Oceanic Change	
ENVR 3410	Environmental Geochemistry (If not used to satisfy Environmental Chemistry Core)	
ENVR 4500 and ENVR 4501	Applied Hydrogeology and Lab for ENVR 4500	
ENVR 4504	Environmental Pollution	
ENVR 4505	Wetlands	
ENVR 5190	Soil Science	

**GPA Requirement**

Minimum 2.000 GPA required in all major courses

**Credit Requirement**

Minimum of 21 hours required

**Scientific Commercialization, Minor**

Science innovation—the creation of new scientific knowledge—and entrepreneurship—the translation and commercialization of such ideas into real-world solutions—each require distinctly different skills that are developed through years of experience. Though these undertakings are intimately linked, they are rarely taught together in an integrated academic setting. The minor in science commercialization brings these two sides together and is designed for students who are interested in ventures in science-related areas (the energy sector, biotech and pharmaceuticals, advanced materials, etc.).

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. DMSB students can double-count only one course toward both this minor and their concentration.

**Required Courses**

Code	Title	Hours
ENTR 2301	Innovation!	4
INSC 3000	Science Behind Innovation and Entrepreneurship	4
INSC 4000	Bridging Scientific Discovery and Innovation	4

## Electives

Code	Title	Hours
Complete two courses from the following:		8
ENTR 4505	Entrepreneurial Growth Strategy for Technology Ventures	
FINA 4610	Entrepreneurial Finance and Private Equity	
INSC 5000	Translating Scientific Discoveries: From Lab to Fab and Beyond	

## GPA Requirement

Minimum 2.000 GPA required in all major courses

## Credit Requirement

20 hours required

### Accelerated Bachelor/Graduate Degree Programs

The College of Science offers a number of bachelor's/graduate degree programs that allow students to accelerate the attainment of the graduate degree by applying graduate credits taken as an undergraduate toward both the undergraduate and graduate degrees. Degrees are earned sequentially, with the bachelor's degree attainment followed by coursework to complete the graduate degree. See additional information on accelerated bachelor/graduate degree programs (<https://registrar.northeastern.edu/article/plusone-program-accelerated-bachelorgraduate-degree-programs/>).

[csshadvising@northeastern.edu](mailto:csshadvising@northeastern.edu)

The College of Social Sciences and Humanities is a leader in the experiential liberal arts. Students deepen their understandings of culture, society, history, politics, language, and more through the integration of focused academic study and a wide range of experiential opportunities. They use familiar methods and new tools to hone their skills in close reading, interpretation, analysis, oral communication, and critical thinking.

By exploring society's most pressing challenges, students may gain a broad understanding of the relationships among peoples and nations; global economics and politics; the diversity of languages, literatures, religions, and cultures; and multiple perspectives in urban affairs, public policy, law, criminal justice, and the ethical dimensions of human behavior.

The college offers a wide variety of undergraduate programs, including 17 different majors as well as a diverse set of combined major options, concentrations, minors, and five-year bachelor's/master's degree PlusOne programs. The college also offers students the opportunity to create an independent major in cases where their interests and goals are not met by existing majors. Students in the college take elective classes to complement their chosen area of study and earn either a Bachelor of Arts or a Bachelor of Science degree.

All students in the college integrate experiential learning into their education—many students pursue multiple opportunities. Students may choose to conduct original student research, either independently or with a faculty member; to immerse themselves in communities and cultures either locally or around the world; to enhance their classroom learning through the co-op experience in a variety of fields; or to build more flexibility into their academic path with a Dialogue of Civilizations trip with a faculty member over the summer.

Programs in the college offer the flexibility for students to customize their academic experience around their intellectual and professional interests. A support system of department advisors, college advisors, co-op coordinators, and peer mentors helps students explore their options and shape their plan.

## Academic Advising

The College of Social Sciences and Humanities has an academic advising system that consists of academic advisors located in the Office of Student Academic Affairs in 180 Renaissance Park and faculty advisors located in the college's departments and program offices. Detailed advising information is available on the college website (<https://www.northeastern.edu/cssh/undergraduate/academic-advising/>). Pre-Law advising (<https://careers.northeastern.edu/article/pre-law/>) and premedical/predental advising (<http://www.northeastern.edu/prehealth/>) are also available.

## Academic Progression Standards

The College of Social Sciences and Humanities adheres to the university-wide Academic Progression Standards (p. 27). Some majors have additional specific requirements in order to progress from year to year (see major requirements in departmental listings).

## Graduation Clearance Process

Students in the College of Social Sciences and Humanities are required to meet with an academic advisor in the Office of Student Academic Affairs in 180 Renaissance Park to determine their remaining graduation requirements. Some departments also require a meeting with a faculty advisor in their major or program. This should be completed in the junior year to ensure ample time to complete any outstanding requirements.

## College Requirements

All students in the College of Social Sciences and Humanities must successfully complete their major, college, and university requirements for their specific degree.

### EXPERIENTIAL LIBERAL ARTS REQUIREMENT

The Experiential Liberal Arts course designation is part of a CSSH framework that emphasizes integration of experiential learning along

with diversity and inclusion at key points in the curriculum. Students will ordinarily fulfill this requirement through any CSSH course on a Dialogue of Civilizations; participation in the Data, Ethics, and Culture spring semester in London; any CSSH service-learning course; or an ELA-designated course as listed here:

Code	Title	Hours
ANTH 3410	Ethnographic Field Experience	4
INTP 4995	Interpreting Practicum	4
CRIM 2320	Youth Crime and Justice	4
CRIM 4120	Courts and Sentencing	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4
ENGL 2690	Boston in Literature	4
ENGL 2740	Writing and Community Engagement	4
ENGL 3340	Technologies of Text	4
ENGL 3375	Writing Boston	4
ENGL 3381	The Practice and Theory of Teaching Writing	4
ENGL 3382	Publishing in the 21st Century	4
ENGL 3400	Opening the Archive	4
HIST 1120	Public History, Public Memory	4
HIST 2000	Native American Resistance: Past and Present	4
HIST 2311	Colonialism/Imperialism	4
HIST 2430	Digital Histories of Ethnic Boston	4
HUSV 1101	Social Change and Human Services	4
HUSV 3520	Child Intervention and Treatment	4
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	4
POLS 2357	Growth and Decline of Cities and Suburbs	4
SOCL 2323	Ethnographic Methods	4
SOCL 2485	Environment, Technology, and Society	4
SPNS 3501	Advanced Spanish Conversation: Global Communication	4

Additional options for completing the ELA requirement will become available as they are approved. For the most up-to-date list of courses for the ELA requirement and ELA options for your major, please consult your academic advisor and your degree audit.

## Interdisciplinary

### Interdisciplinary Majors

- Africana Studies, BA (p. 810)
- Africana Studies, BS (p. 813)
- Africana Studies and Political Science, BA (p. 815)
- History, Culture, and Law, BA (p. 818)
- Politics, Philosophy, and Economics, BS (p. 821)
- Religious Studies and Africana Studies, BA (p. 825)

### Interdisciplinary Minors

- African American Studies (p. 827)
- African Studies (p. 827)
- Africana Studies (p. 828)
- Black Feminist Studies (p. 828)

- Computational Social Science (p. 828)
- Digital Methods in the Humanities (p. 829)
- Food Systems Sustainability, Health, and Equity (p. 829)
- Global Health (p. 585)
- Health, Humanities, and Society (p. 539)
- Latino/a, Latin American, and Caribbean Studies (p. 831)
- Law and Public Policy (p. 832)
- Urban Studies (p. 834)
- Women's, Gender, and Sexuality Studies (p. 834)

## Africana Studies, BA

Africana studies is an interdisciplinary field of study devoted to the critical and systematic examination of the cultural, political, social, economic, and historical experiences of the African Diaspora across the globe. Students are able to focus on either African American or African Studies.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Concentrations

Complete one of the following:

- No Concentration Option (p. 810)
- African American Studies (p. 811)
- Africa Studies (p. 811)

### Africana Studies Major Credit Requirements

Complete 48 semester hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirements

128 total semester hours required

## Africana Studies, BS

Africana studies is an interdisciplinary field of study devoted to the critical and systematic examination of the cultural, political, social, economic, and historical experiences of Africans, African-Americans throughout the hemisphere, and peoples of African descent around the world. Students are able to choose focused concentrations in African American or Africa Studies.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Concentrations

Complete one of the following:

- No Concentration Option (p. 813)
- African American Studies (p. 814)
- Africa Studies (p. 814)

## Africana Studies Major Credit Requirements

Complete 48 semester hours in the major.

## Program Requirements

128 total semester hours required

### AFRICANA STUDIES (NO CONCENTRATION OPTION)

**Africana Studies and Political Science, BA**

The combined major in Africana studies and political science offers students the opportunity to integrate their studies of both disciplines and explore the historical, practical, and theoretical relationships between the two disciplines. In addition to considering the significant points of contention, students explore the ways in which insights from Africana studies can be brought to bear on the disciplinary issues and questions of political science. Within the combined major, students may also choose to concentrate their studies on a range of topics related to political behaviors and institutional developments in the United States, the Americas, Europe, Africa, and across the global African diaspora.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Africana Studies Requirements**

## History, Culture, and Law, BA

History, Culture, and the Law is an interdisciplinary major that provides students the opportunity to understand how legal systems are shaped by cultural norms and historical developments, as well as how social change has been and can be created through legal processes. After studying principles of historical method and jurisprudence, students bring to bear the interdisciplinary frameworks they have begun to develop in one of six culturally-focused concentrations: Africana Studies and Culture; Asian Studies and Culture; Culture and Colonialism; Digital Humanities; Gender and Sexuality; and Latino/a, Latin American, and Caribbean Studies and Culture. Students have opportunities to develop flexibility in perspectives; to exercise ability to work in interdisciplinary frameworks; and to foster appreciation of cultural diversity that will enable them to make a positive impact in their chosen spheres of action.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Note: No more than two courses taken for this major may be counted toward another major or minor.

### Law and History Core

Code	Title	Hours
<b>Foundational Core Courses</b>		
Complete the following three courses:		12

SOCL 4522	Environmental Justice

### Capstone

Code	Title	Hours
Complete one of the following capstone courses:		
AFAM 4700	Capstone	
AFRS 4700	Capstone	
ASNS 4900	Asian Studies Capstone Directed Study	
ENGL 4720	Capstone Project	
HIST 4701	Capstone Seminar	
PHIL 5001	Global Justice	

### Major GPA Requirement

Minimum 3.000 GPA required in all major courses

### Major Credit Requirement

Complete 52 hours in the major

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirements

128 total semester hours required

#### *Concentration in Africana Studies and Culture*

Code	Title	Hours
<b>Complete four courses as follows:</b>		
Complete one of the following:		4
AFAM 1101	Introduction to African American and Africana Studies	
AFRS 1101	Introduction to African Studies	
Complete one of the following, as a Writing Intensive course:		4
AFRS 4510	Anthropology of Africa	
or ANTH 4510	Anthropology of Africa	
WMNS 4520	Race, Class, and Gender	
or SOCL 4520	Race, Class, and Gender	
Complete two of the following, at least one of which must be at the 3000 level of above:		8
AFAM 1104 - AFAM 5001		
AFRS 1270 - AFRS 4939		

#### *Concentration in Asian Studies and Culture*

Code	Title	Hours
<b>Complete four courses as follows:</b>		
Complete the following course:		4
ASNS 1150	East Asian Studies	
or HIST 1150	East Asian Studies	
Complete one of the following, as a Writing Intensive course:		4
HIST 2308	Law, Justice, and Society in Modern China	
PHIL 2395	Japanese Buddhism	
Complete two of the following. If HIST 2308 or PHIL 2395 is the Writing Intensive course, at least one of these electives must be at the 3000 level or above:		8
ANTH 4350	Ethnography of Southeast Asia	
ANTH 4515	Culture and Politics in Modern India	
CLTR 1260	Japanese Film	
CLTR 1500	Modern Chinese History and Culture	
or HIST 1500	Modern Chinese History and Culture

617.373.4359 (fax)

The PPE major at Northeastern University brings together three of the most important approaches to understanding the world around us: political science, philosophy, and economics. The PPE major is an interdisciplinary degree that not only provides students with the analytic tools from three different disciplines but also teaches students to make connections across disciplines and to keep multiple perspectives in mind when analyzing complex social phenomena. This interdisciplinary perspective and set of skills are indispensable in our increasingly interconnected world and are essential in addressing the kinds of complex global problems future leaders will need to tackle.

There are a number of varieties of the PPE major that students may choose from in accordance with their own backgrounds and interests. These include:

- environment and energy policy
- international political economy
- law and justice

**FOUR YEARS, ONE CO-OP IN SPRING / SUMMER 1 DIGITAL HUMANITIES CONCENTRATION**

## Religious Studies and Africana Studies, BA

The Department of Philosophy and Religion and the Program in Africana Studies offer an interdisciplinary combined major in religious studies and Africana studies. Students interested in the combined major integrate the study of religious traditions, religious praxis, and religious ethics with critical and systematic examination of the cultural, political, social, economic, and historical experiences of African Americans throughout the hemisphere and peoples of African descent around the world.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Religious Studies Major Requirements

Code	Title	Hours

### African Studies, Minor

The mission of the African and African-American Studies Program is to mentor intellectual leaders, to develop emerging scholars, and to train global citizens who are able to explore the world from diverse perspectives in an ever increasingly global and interdisciplinary world. In our experiential liberal arts education model, students study culture, history, politics, and society as they relate to African and African-American studies to cultivate their thinking, reading, and writing skills through interdisciplinary class-based and experiential learning opportunities. Some of the major areas of interest and research of our faculty include the public humanities and public policy, critical race theory and empire/colonialism, criminal justice and carceral state, global public health and neglected tropical diseases, gender, sexuality, and women's studies.

Through rigorous study, co-op, study abroad, Dialogue of Civilizations, and service-learning, students have an opportunity to acquire use-inspired knowledge and competencies that will equip them with endless possibilities to flexibly fit any profession and graduate studies they may pursue in the social sciences and humanities.

#### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

#### Required Course

Code	Title	Hours
AFRS 1101	Introduction to African Studies (A grade of C or higher is required)	4

### Black Feminist Studies, Minor

This interdisciplinary minor offers students opportunities to critically engage with the histories and theories that sit at the intersections of race, gender, class, and sexuality. This minor will allow students to centralize the study of Black women from diverse disciplinary perspectives and provide students with opportunities to engage comparative and transnational Black feminist studies frameworks for analyzing gender, sexuality, and other concepts within the broader disciplines of Africana and women's, gender, and sexuality studies.

## Minor Requirements

Code	Title	Hours
<b>Required Courses</b>		
WMNS 1103	Introduction to Women's, Gender, and Sexuality Studies	4
AFAM 1101	Introduction to African American and Africana Studies	4
or AFRS 1101	Introduction to African Studies	
<b>Electives</b>		
Complete two of the following:		
AFAM 1113	Black Popular Culture	4

WMNS 3100	Gender, Social Justice, and Transnational Activism	4

### Computational Social Science, Minor

This minor introduces and develops the essential skills for employing mathematical, formal, and computational methods in the social sciences. Students completing this minor will have a grasp of the fundamentals necessary for pursuing more in-depth studies in the emerging fields of computational social science and big data. The foundational courses emphasize skills in probability, statistics, and introductory programming. Other courses focus on the application of formal and computational methods in the social sciences including digital analysis of texts, maps, and networks. An additional elective provides breadth in social scientific studies of computation or the foundational principles of logic and computation.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

## Foundational Courses

Code	Title	Hours
MATH 2280	Statistics and Software	4
or ECON 2350	Statistics

### GPA Requirement

2.000 GPA required in the minor

### Food Systems Sustainability, Health, and Equity, Minor

The minor in food systems sustainability, health, and equity is an interdisciplinary exploration of the contemporary food system, with particular attention to how the system evolved; its diverse societal, health, and environmental impacts; and ideas for making the food system more sustainable, healthy, and equitable for all.

#### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Courses

Code	Title	Hours
Complete four courses from the list below. Two of the courses must be upper-level (numbered 3000 or higher). Only one course can be from the major.		16-17
<i>Upper-Level Courses</i>		
ECON 3404	International Food Policy	
ENTR 4506	Advanced Studies in Social Innovation Entrepreneurship	

ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300
ENVR 3150	Food Security and Sustainability
PPUA 4701	Food Systems Sustainability, Health, and Equity Practicum
PPUA 5263	Geographic Information Systems for Urban and Regional Policy
PPUA 5270	Food Systems and Public Policy
<b>Additional Courses</b>	
EEMB 2420	Fisheries Biology, Policy, and Conservation
ENTR 2206	Global Social Enterprise
ENVR 1101	Environmental Science
HSCI 1106	Contemporary Issues in Nutrition
INSH 1102	Food in Contemporary Context
PHIL 1185	The Ethics of Food

### GPA Requirement

2.000 GPA required in the minor

### Global Health, Minor

The area of global health has become a critical field of study across and within diverse disciplines, because of the cross-border and cross-national implications of health-related risks for national security, commerce, transportation, and healthcare delivery itself. In collaboration with the College of Social Sciences and Humanities, the minor in global health is designed to provide undergraduate students an opportunity to explore and discuss the implications with an interdisciplinary lens. The minor is comprised of five courses: one foundation and one core course, three electives, and a global health experience to be approved by the global health minor advisor.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Foundation Course

Code	Title	Hours
AFRS 1270 or PHTH 1270	Introduction to Global Health	4

### Core Course

Code	Title	Hours
AFRS 3424	Epidemiology of Pandemic Diseases and Health Disparities in the African Diaspora	3-4
PHTH 4120	Global Perspectives on Discrimination and Health	
PHTH 5230	Global Health	

### Elective Courses

Code	Title	Hours
Complete three courses from the following areas. Only two courses from any one area may count toward the minor electives. No more than two required courses in the student's major may count toward the minor electives. At least one of the minor electives must be at the 3000-level or above.		9-12

#### Area 1: Community and Public Health

AFRS 4939	Community Health, Culture, and Development in Kenya <small>(Dialogue Only)</small>
CAEP 2010	Counseling and Applied Educational Psychology in a Global Context <small>(Dialogue only)</small>
ENVR 1110	Global Climate Change
PHTH 1261	Comparative Healthcare Systems <small>(Dialogue only)</small>
PHTH 2301	Communication Skills for the Health Professions—Global <small>(Dialogue Only)</small>
PHTH 2350 or PHTH 2351 or NRSR 4604	Community and Public Health Community and Public Health - Global Public Health Community Nursing
PHTH 4202 or PHTH 5202	Principles of Epidemiology in Medicine and Public Health Introduction to Epidemiology
PHTH 4540	Health Education and Program Planning

#### Area 2: Biology of Health and Disease

BIOL 1141	Microbes and Society
BIOL 1143	Biology and Society
BIOL 2327	Human Parasitology
EEMB 3466	Disease Ecology

#### Area 3: Society and Cultural Health / Area Studies

AFRS 2900	Swahili, Culture, and Politics in Kenya <small>(Dialogue only)</small>
ANTH 4350	Ethnography of Southeast Asia
ANTH 4510	Anthropology of Africa

PHIL 1165	Moral and Social Problems in Healthcare

#### Area 4: Globalization and Development

CRIM 1400	Human Trafficking
ECON 1291	Development Economics
ECON 3404	International Food Policy
ECON 3413	Health Economics and Healthcare Policy
ECON 3416	Behavioral Economics
ECON 5292	Gender and Development Economics
HLTH 1510 or HLTH 2100	Introduction to Healthcare Ethics Interprofessional Ethics for Individual and Population Health

HUSV 4945	Leadership and International Program Development <sup>(Dialogue only)</sup>
INTL 1101	Globalization and International Affairs
LPSC 2302	Global Human Rights: A Social and Economic Perspective
POLS 1160	International Relations

## Global Health Experience

Complete a global health experience that has been approved by the global health minor adviser.

## Recommended

Competency in another language other than English is recommended.

## Completion of the Minor

All coursework must be completed at a minimum grade of B and courses may not be taken Pass/Fail.

Complete a minimum of 16 semester hours.

3.000 GPA required in the minor.

## Health, Humanities, and Society, Minor

The health, humanities, and society minor is designed for students who would like to learn how to think capaciously and creatively about health using the rigorous, precise, and flexible skills trained by the social sciences and the humanities. The social sciences teach students to think about the social, economic, and political factors that structure health conditions and outcomes in particular societies, while the humanities train students to navigate the complexities of interpersonal interaction and their ethical implications, to relate the micro to the macro and texts to contexts, to historicize encounters, to communicate accurately and effectively across a variety of media, and to engage in creative analytical thinking about healthcare. The landscape of healthcare is quickly changing, and this training will equip students well not only for the diverse forms of health work that exist today, but for as yet unimaginable varieties of health-related work in the future.

This minor is structured around the particular competencies that the social sciences and humanities train. Those competencies are narrative and historical perspective, critical attention and observation, ethics and judgment, performance and creativity, and social and structural proficiency. Rather than adopting the more traditional approach of connecting particular skills to particular disciplines (say, narrative to literature and observation to art history), this minor builds from discipline-specific health knowledge while training students to think across disciplines. Thus, it will not be unusual for students to find a single course addressing multiple competencies or to take courses in different disciplines that address the same competency from distinct but complementary perspectives.

This minor is housed in the Humanities Center of the College of Social Sciences and Humanities in partnership with the Bouvé College of Health Sciences.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

## Required Courses

No more than two courses, in addition to the introductory course, may be taken under the 2000 level.

Code	Title	Hours
<b>Introductory Course</b>		
INSH 1300	Introduction to Health and Humanities	4
<b>Humanities Requirement</b>		
Complete two of the following:		8

## Latino/a, Latin American and Caribbean Studies, Minor

### Overview

The LLACS (Latino/a, Latin American, and Caribbean Studies) program offers an interdisciplinary minor. It explores the historical, cultural, social, political, and economic foundations of and linkages between U.S. Latino society, Latin America, and the Caribbean. It draws from the heritages of the Americas that are grounded in predominantly indigenous, African, and European cultures.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

*Note:* Proficiency in Spanish or Portuguese to course number 3101 or above is strongly encouraged.

### Required Courses

Code	Title	Hours
LACS 1220	Latino, Latin American, and Caribbean Studies	4
Complete one of the following:		4
CLTR 1505	Latin American Culture, History, and Politics	
HIST 1187	Introduction to Latin American History	

### Culture and Literature Electives

Code	Title	Hours
Complete two of the following:		8
CLTR 1240	Latin American Film	
CLTR 1504	Cultural History of Spain	
CLTR 1505	Latin American Culture, History, and Politics	
CLTR 2715	New Media Narratives in Latin America: Local and Global Dimensions	
CLTR 3715	New Narratives: Latin America after 1989	
CLTR 3725	Representing Violence and Human Rights in Latin America	
CLTR 4655	Latin American Literature	
MUSC 1131	Music of Latin America and the Caribbean	

### History and Social Sciences Electives

*Note:* With the approval of the director of Latino/a, Latin American, and Caribbean Studies, up to four study-abroad or Dialogue of Civilization courses may be used toward the minor.

Code	Title	Hours
Complete two of the following:		8
ANTH 2365	Sport, Culture, and Society	
ANTH 4500	Latin American Society and Development	
HIST 1206	Drug Trade and Drug War: History, Security, Culture	
SOCL 3270	Race and Ethnic Relations	

### GPA Requirement

2.000 GPA required in the minor

## Law and Public Policy, Minor

### Overview

The law and public policy (LPP) minor offers students an opportunity to obtain a deep understanding of the U.S. legal system and apply that knowledge to current law and policy debates. In the LPP minor core courses, students have the opportunity to watch a criminal and/or civil trial, debate their classmates, and listen to speakers from both the

public and private sector (state and federal judges, public defenders, and government lawyers). While the minor is well suited for students interested in pursuing a career in law and/or policy, it is invaluable for students in any field of practice, as law affects all professions and society at large.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Courses

Code	Title	Hours
A grade of B or higher is required in the following two courses:		
LPSC 1101	Introduction to Law	4
LPSC 2301	Introduction to Law, Policy, and Society	4

### Law and Public Policy Course

Code	Title	Hours
Complete one of the following:		4
LPSC 2302	Global Human Rights: A Social and Economic Perspective	
LPSC 3303	Topics in Law and Public Policy	
LPSC 3307	Understanding the Modern Supreme Court	

### Elective Courses

Code	Title	Hours
Complete two of the following courses not used to satisfy the requirements above:		8
AFAM 1225	Gender, Race, and Medicine	
AFAM 2339	Analysis of American Racism	
AFAM 2360	Politics of Poverty	
AFAM 2549	Public Policy and Black America	
ANTH 4580	Special Topics in Anthropology	
COMM 1331	Legal Argumentation, Advocacy, and Citizenship	
COMM 1412	Social Movement Communication	
COMM 2501	Communication Law	
COMM 2525	Communication and Privacy	
COMM 2551	Free Speech in Cyberspace	
COMM 2625	Communication, Technology, and Society	
COMM 3501	Free Speech: Law and Practice

### GPA Requirement

3.000 GPA required in the minor

## Urban Studies, Minor

### Overview

The urban studies minor offers students interested in cities an opportunity to take advantage of the resources of an urban university situated in a major metropolitan area. The minor seeks to equip students with an understanding of the dynamics of urban growth and development and includes the study of urban social and political institutions. Many courses cover climate change, sustainability, housing, and the urban economy. The minor complements many social science majors as well as architecture, business, and engineering. The minor is designed to provide a solid background for graduate study and professional careers in urban planning and policy, social work, and related fields.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Courses

Code	Title	Hours
POLS 2357	Growth and Decline of Cities and Suburbs	4
SOCL 2358	Current Issues in Cities and Suburbs	4

### Elective Courses

Code	Title	Hours
Complete two of the following:		8
AFAM 2360	Politics of Poverty	
AFAM 2399	Black Community and Social Change	
ANTH 2305	Global Markets and Local Culture	
ARCH 2330	Architecture and the City in the Nineteenth Century

SOCL 2358	Current Issues in Cities and Suburbs	
SOCL 3200	Cities in Global Context	
SOCL 4522	Environmental Justice	

### GPA Requirement

2.000 GPA required in the minor

## Women's, Gender, and Sexuality Studies, Minor

### Overview

Northeastern offers an interdisciplinary minor for undergraduate students who wish to explore gender and sexuality in relation to other axes of power and identity, including race, class, ethnicity, and dis/ability. Women's, gender, and sexuality studies (WGSS) covers a wide variety of theoretical and empirical scholarship both within traditional disciplines and in cutting-edge, interdisciplinary frames. WGSS students have an opportunity to:

- Learn about approaches to gender and sexuality in the social sciences and humanities and through frameworks that bridge traditional fields
- Explore gender and sexuality in the global community by dipping into disciplines ranging throughout the social sciences, arts, humanities, and physical sciences
- Study politics and pop culture, sociology and psychology, writing and religion, and much more
- Open up new ways of thinking, bringing gender and sexuality studies to bear on important social and intellectual questions

For more information, visit the WGSS website (<http://www.northeastern.edu/wgss/>), call the program coordinator at 617.373.4984, or email [wgss@northeastern.edu](mailto:wgss@northeastern.edu).

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. Please note that special topics courses in some areas may also count as electives toward a WGSS minor in certain semesters, pending approval of the syllabus by the WGSS program director. In the case of cross-listed courses, students may enroll under any of the departmental designations, regardless of major or minor affiliation.

## GPA Requirement

2.000 GPA required in the minor

## Asian Studies

Website (<http://www.northeastern.edu/asianstudies/>)

The Asian Studies Program promotes a cosmopolitan understanding of the regional, national, and local cultures in the fastest-growing continent in the world. Our interdisciplinary program is based on an excellent core of faculty who are drawn from a range of departments (including languages, literatures, and cultures; English; history; music; political science; philosophy and religion; public policy; and sociology and anthropology) and the World Languages Center. Our students are strongly encouraged to accelerate their language acquisition process and gain firsthand knowledge of Asian cultures and societies through participation in a university-sponsored study-abroad program, an international co-op, a Dialogue of Civilizations program, or an experiential learning experience. Students can also take advantage of the outstanding Asian cultural resources available in the Boston metropolitan area, particularly at the Museum of Fine Arts and the Peabody Essex Museum in Salem.

## Academic Progression Standards

Same as university-wide standards described under "Academic Status (p. 27)."

## Programs

### Bachelor of Arts (BA)

- Asian Studies (p. 835)
- History and Asian Studies (p. 837)

### Minor

- East Asian Studies (p. 838)

## Asian Studies, BA

The Bachelor of Arts in Asian Studies offers undergraduates a broad liberal arts education in the histories, politics, cultures, and societies of Asia. Asian studies majors complete at least two years of an Asian language in addition to pursuing a rigorous course of study covering a number of disciplines and national traditions. The core course work provides foundational knowledge in the history, politics, and societies of

East Asian nations, Asia's place within a globalizing world, and skills in research and analysis. Majors are also required to develop expertise in one of the following focus areas: history; society and politics; language, literature, and culture; or religious studies. Finally, students are required to complete academic study or a professional experience abroad.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Asian Studies Requirements

## History and Asian Studies, BA

History and Asian studies offers an interdisciplinary combined major. Students interested in the combined major in history and Asian studies integrate the exploration of human history with the rigorous study of Asian cultures, societies, languages, and economies.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### History Requirements

Code	Title	Hours
<b>History Colloquium</b>		
HIST 1000	History at Northeastern	1
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
<b>Introductory Level</b>		
	Choose one course from the 1000 level except HIST 1215, which is required by Asian studies.	4
<b>History Seminar and Historical Writing</b>		
HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1
<b>Pre-1800 History Elective</b>		
	Choose one course from the following:	4
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1252	Japanese Literature and Culture	
HIST 2370	Renaissance to Enlightenment	
HIST 1185	Introduction to Middle Eastern History	
HIST 1285	Introduction to Russian Civilization	
HIST 2330	Colonial and Revolutionary America	
<b>Advanced History</b>		
	Complete one history course 3000 level or above	4

### History Cluster

In conjunction with your history advisor, define a history cluster by the first semester of your junior year of study. A cluster comprises four history courses with no more than two courses in the 1200–1299 range. These courses may double-count in the requirements above (except History Colloquium).

### Asian Studies Requirements

Code	Title	Hours
<b>Required Courses</b>		
ASNS 1150	East Asian Studies	4
HIST 1215	Origins of Today: Historical Roots of Contemporary Issues	4

## Capstone

Code	Title	Hours
Complete one of the following:		4
HIST 4701	Capstone Seminar	
ASNS 4900	Asian Studies Capstone Directed Study	

## Integrative Requirement

Note: Public history concentrators satisfy this requirement within the concentration with Fieldwork in History 1 (HIST 4903).

Code	Title	Hours
HIST 2351	Modern Japan	4
or ASNS 2245	The Asian-American Experience	

## History and Asian Studies Major Credit Requirement

Complete 82 semester hours in the major.

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirements

128 total semester hours required

### East Asian Studies, Minor

East Asian studies minors can choose from either a nonlanguage or a language track. For the nonlanguage track, minors focus on gaining a broad interdisciplinary understanding of Asian societies, economies, politics, and cultures. The core course, East Asian studies, provides students with an understanding of the interlinkages in the historical, social, and political development of China, Korea, and Japan. Students can then choose from elective courses that represent a spectrum of disciplinary knowledge of Asian societies. For the language track, students are required to achieve at least first-year proficiency in an Asian language and also take East Asian studies and two elective courses of their choosing.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Complete either the nonlanguage track or the language track.

## Nonlanguage Track

Code	Title	Hours
<b>Core Course</b>		
ASNS 1150	East Asian Studies	4
<b>Elective Courses</b>		
Complete four of the following. They may include up to two courses taken as part of an approved study-abroad program:		16
ASNS 2245	The Asian-American Experience	
HIST 1253	History of Vietnam Wars	
HIST 1500	Modern Chinese History and Culture	
HIST 1252	Japanese Literature and Culture	
HIST 2308	Law, Justice, and Society in Modern China	
HIST 2351	Modern Japan	
CHNS 1101	Elementary Chinese 1	
CHNS 1102	Elementary Chinese 2	
CHNS 2101	Intermediate Chinese 1	
CHNS 2301	Intermediate Chinese Immersion 1	
CLTR 1500	Modern Chinese History and Culture	
JPNS 1101	Elementary Japanese 1	
JPNS 1102	Elementary Japanese 2	
JPNS 2101	Intermediate Japanese 1	
CLTR 1700	Introduction to Japanese Pop Culture

## School of Criminology and Criminal Justice

Website (<http://www.northeastern.edu/sccj/>)

**Amy Farrell, PhD**  
Professor and Director

**Kevin Drakulich, PhD**  
Associate Professor and Associate Director

617.373.3327  
617.373.8723 (fax)  
sccj@northeastern.edu

The School of Criminology and Criminal Justice prepares students for meaningful careers in criminology, justice policy, the law, criminal justice, and related fields, including professional research careers. We do this by applying multidisciplinary social science tools that predict and explain crime, as well as deepening the understanding of policies that improve our systems of justice. We encourage each student to plan

a program of study consistent with their interests and future aims. Our approach is experiential and our methods for teaching are rooted in knowledge creation as a top-tier research program. Our goal is to create ethical problem solvers who are prepared to tackle important crime and justice issues facing society. Our educational goals for students include a commitment to identify and address the role of systemic racism and intersecting dimensions of oppression in the development and application of justice system policies and practices, crime and justice theory, and research.

Our student interests traverse a diverse range of fields and careers. Our program is flexibly designed to allow students to take different paths to pursue different goals and interests:

- **Understand, investigate, and stop crime.** Develop cutting-edge skills in fields such as psychology of crime, cybercrime and cybersecurity, white-collar crime investigation, corporate security, and national security.
- **Build a foundation for law school.** Pursue a career in criminal law as a prosecutor, defense attorney, a judge, or explore another area of the law or politics.
- **Reform justice policies and practices.** Effect change and address systemic problems in our laws and justice systems. Explore the broader goal of helping to fix or reform the criminal justice system by working with politicians, policymakers and researchers, advocacy groups, and other political organizations.
- **Help victims of crime or those harmed by the justice system.** Become involved with victim advocacy groups and victim assistance programs. Help those harmed by their contact with the criminal justice system by working with vulnerable populations. Help those who are incarcerated and those transitioning from prison.
- **Improve national security, the administration of justice and protect human rights on a global scale.** Prepare for careers in Interpol, the United Nations, the Department of Justice, and similar organizations.

Our curriculum is structured into four levels of learning, across multiple pathways. The first, or foundations level, is where students acquire a base understanding of three substantive pillars of our field: crime, the law, and the justice system. This level also introduces students to topical issues related to crime and justice and guidance to develop digital skills.

In our second level, institutions and systems, students develop a solid understanding of the systems and institutions tasked with providing justice. We do so by promoting experience and interaction with local criminal justice institutions.

Our third level, crime problems and justice system challenges, engages students with specific crime problems such as violence, drug addiction, organized crime, or terrorism. This level cultivates knowledge that deals with problems in the criminal justice system, focusing on disparities and biases, including those related to gender and race.

Finally, in solutions and reform, our fourth level, students apply all the skills and knowledge obtained through the three previous levels. Students will learn how to navigate and solve problems encountered through capstone projects, research, theses, study cases, and other work. Our curriculum enables students to explore and analyze crime and justice issues through courses on computational methods, statistical data, analytical techniques, and experiential practice. The skills students learn will continue to serve them throughout their professional life.

Our faculty are renowned scholars in their fields and are dedicated to exploring and analyzing pressing issues facing our society. They are actively engaged in research, and undergraduates have opportunities to work closely with faculty to collaborate on projects related to crime and

justice issues: crime prevention, human trafficking, police accountability, hate crimes, mass incarceration, and much more.

The School of Criminology and Criminal Justice was established in 1967 as one of the first schools devoted to matters of crime and justice. It remains one of the top-ranked research programs in criminology, something that is unique to universities with highly ranked undergraduate programs. We invite you to further explore our course offerings and combined major degrees with psychology, cybersecurity, political science, and others.

### Academic Progression Standards

Same as university-wide standards described under “Academic Status (p. 27).”

### Programs

#### Bachelor of Arts (BA)

- English and Criminal Justice (p. 840)
- History and Criminal Justice (p. 842)
- International Affairs and Criminal Justice (p. 844)

#### Bachelor of Science (BS)

- Criminal Justice (p. 848)
- Computer Science and Criminal Justice (p. 346)
- Criminal Justice and Journalism (p. 197)
- Criminal Justice and Philosophy (p. 855)
- Criminal Justice and Political Science (p. 857)
- Criminal Justice and Psychology (p. 793)
- Criminal Justice and Sociology (p. 861)
- Cybersecurity and Criminal Justice (p. 392)
- Human Services and Criminal Justice (p. 866)

### Minor

- Criminal Justice (p. 868)

### Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. )

## English and Criminal Justice, BA

The Department of English and School of Criminology and Criminal Justice offer a combined major in English and criminal justice. Criminal justice courses provide a foundation for understanding individual and systemic aspects of criminology and criminal justice. English courses prepare students to analyze and interpret various representations of crime, criminality, the law, justice, and ethics in both literary and nonliterary texts as they study the diverse historical, cultural, and aesthetic contexts of English, American, and other Anglophone literatures; analyze writing practices and related media; and practice a variety of approaches to the study of language, rhetoric, writing, and literature.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### English Requirements

Code	Title	Hours
<b>English Course-Level Requirement</b>		
In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.		
<b>Foundational Courses</b>		
ENGL 1400	Introduction to Literary Studies	4
ENGL 1160	Introduction to Rhetoric	4
or ENGL 1410	Introduction to Research on Writing	
<b>Diversity</b>		
Complete one of the following courses. This course may also be used to fulfill an additional English requirement below:		4
ENGL 2150	Literature and Digital Diversity	
ENGL 2296	Early African-American Literature	
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2760	Writing in Global Contexts	
ENGL 2470	Asian-American Literature	
ENGL 3663	The African American Novel	
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
ENGL 3685	Modern and Contemporary Jewish Literature	
or JWSS 3685	Modern and Contemporary Jewish Literature	
<b>Pre-Nineteenth-Century Literature</b>		
Complete one of the following:		4
ENGL 1600	Introduction to Shakespeare	
ENGL 1700	Global Literatures 1	
ENGL 2296	Early African-American Literature	
ENGL 3101	Early Literatures	
ENGL 3120	17th- and 18th-Century Literatures	
ENGL 3618	Milton	
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
or JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
<b>Nineteenth-, Twentieth-, and Twenty-First-Century Literature</b>		
Complete one of the following:		4
ENGL 2301	The Graphic Novel	
ENGL 2330	The American Renaissance	
ENGL 2440	The Modern Bestseller	
ENGL 2600	Irish Literary Culture (Abroad)	

ENGL 2610	Contemporary Israeli Literature and Art (Abroad)
ENGL 3140	19th-Century Literatures
ENGL 3619	Emerson and Thoreau
ENGL 3685	Modern and Contemporary Jewish Literature
or JWSS 3685	Modern and Contemporary Jewish Literature
ENGL 3720	19th-Century Major Figure
ENGL 3730	20th- and 21st-Century Major Figure

### Theories and Methods

Complete one of the following: 4

ENGL 1140	Grammar: The Architecture of English
ENGL 1160	Introduction to Rhetoric
ENGL 1410	Introduction to Research on Writing
ENGL 2150	Literature and Digital Diversity
ENGL 3325	Rhetoric of Law
ENGL 3340	Technologies of Text
ENGL 3370	Writing Cultures
ENGL 3381	The Practice and Theory of Teaching Writing
ENGL 3400	Opening the Archive
ENGL 3700	Narrative Medicine
ENGL 4410	Research in Rhetoric and Writing
LING 1150	Introduction to Language and Linguistics
LING 2350	Linguistic Analysis
LING 3450	Syntax
LING 3452	Semantics
LING 3454	History of English
LING 3456	Language and Gender
LING 3458	Topics in Linguistics

### Comparative Literature

Complete one of the following: 4

ENGL 1450	Reading and Writing in the Digital Age
ENGL 1500	British Literature to 1800
ENGL 1502	American Literature to 1865
ENGL 2150	Literature and Digital Diversity
ENGL 2420	Contemporary Poetry
ENGL 2430	Contemporary Fiction
ENGL 2451	Postcolonial Women Writers
ENGL 2455	American Women Writers
ENGL 2470	Asian-American Literature
ENGL 2510	Horror Fiction
ENGL 2520	Science Fiction
ENGL 2600	Irish Literary Culture (Abroad)
ENGL 2620	What Is Nature?
ENGL 2690	Boston in Literature
ENGL 3487	Film and Text (Abroad)
ENGL 3663	The African American Novel

### Writing

Complete one of the following: 4

ENGL 2700	Creative Writing
ENGL 2710	Style and Editing
ENGL 2740	Writing and Community Engagement

ENGL 2760	Writing in Global Contexts
ENGL 2770	Writing to Heal
ENGL 2780	Visual Writing: Writing Visuals
ENGL 2850	Writing for Social Media: Theory and Practice
ENGL 3375	Writing Boston
ENGL 3376	Creative Nonfiction
ENGL 3377	Poetry Workshop
ENGL 3378	Fiction Workshop
ENGL 3380	Writing Seminar
ENGL 3382	Publishing in the 21st Century
ENGL 3384	The Writer's Marketplace

### English Electives

Complete two additional ENGL electives. 8

### Criminal Justice Requirements

Code	Title	Hours
<b>Introduction to Crime, Law, and the Justice System</b>		
What do we know about crime and justice? In these three courses successful students will develop a foundational understanding of three related phenomena: why crime exists, how our criminal justice system responds to crime, and the constitutional and legal oversight of this process.		
CRIM 1100	Introduction to Criminal Justice	4
CRIM 1110	Criminal Due Process	4
CRIM 1120	Criminology	4

### Current Crime and Justice Issues

These courses introduce students to topical issues related to crime and justice.

Complete one of the following: 4

CRIM 1300	The Death Penalty
CRIM 1400	Human Trafficking
CRIM 1500	Corruption, Integrity, and Accountability
CRIM 1700	Crime, Media, and Politics

### Crime Problems and Criminal Justice Institutions

The 2000-level courses in this list ask how does justice work and for whom? These courses introduce students to the systems and institutions tasked with providing justice. Each includes experiential learning components in cooperation with local criminal justice institutions. The 3000-level courses in this list provide students a deeper look at a range of crime problems.

Complete one of the following: 4

CRIM 2310	Courts: The Third Branch of Government
CRIM 2320	Youth Crime and Justice
CRIM 2330	Punishment in the Age of Mass Incarceration
CRIM 2340	Corporate Security: Securing the Private Sector
CRIM 2350	Policing a Democratic Society
CRIM 3010	Criminal Violence
CRIM 3030	Global Criminology
CRIM 3040	Psychology of Crime
CRIM 3050	Organized Crime
CRIM 3060	Political Crime and Terrorism

CRIM 3070	Corporate and White-Collar Crime	
CRIM 3540	Addiction and Recovery	

**Creating Knowledge about Crime and Justice**

How do we know what we know about crime and justice—and how do we develop new knowledge? Harnessing data to learn about issues, identify solutions, and advocate for change.

CRIM 3600	Criminal Justice Research Methods	4
CRIM 3700	Analyzing and Using Data on Crime and Justice	4

**Systemic Issues**

A consideration of systemic issues facing the criminal justice system.

Complete one of the following: 4

CRIM 3110	Gender, Crime, and Justice
CRIM 3120	Race, Crime, and Justice

**Criminal Justice Electives**

Rounding out knowledge of crime and justice.

Complete two additional criminal justice electives from the 3000, 4000, or 5000 level. 8

**Other Requirements**

Code	Title	Hours
------	-------	-------

**Introduction to College**

Complete one of the following: 1

CRIM 1000	Criminal Justice at Northeastern	1
ENGL 1000	English at Northeastern	1

**Integrative Course**

Complete one of the following: 4

ENGL 3325	Rhetoric of Law
ENGL 3426	British and American Literature and Politics

**Capstone**

ENGL 4710	Capstone Seminar	4
or ENGL 4720	Capstone Project	
or CRIM 4949	Senior Capstone Seminar	

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Program Requirements**

128 total semester hours required

**Plan of Study****Sample Four Years, One Co-op Plan****Year 1**

**History and Criminal Justice, BA**

This combined major educates students in criminal justice and history, emphasizing the complementarity between these two disciplines. Students successfully completing this program will be able to critically evaluate and draw connections between past and present practices in law, punishment, incarceration, justice, and the social institutions and cultural contexts in which these systems operate.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

## History Requirements

Code	Title	Hours
<b>History Colloquium</b>		
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
<b>Introductory Level</b>		
Complete one other course from HIST 1001 to HIST 1999 (excluding HIST 1100, HIST 1200, and HIST 1201).		4
<b>Intermediate/Advanced Level</b>		
Complete four HIST courses numbered 2000 or above (excluding HIST 2301 and HIST 2302).		16
<b>Advanced Level</b>		
Complete one HIST course numbered 3000 or above.		4
<b>Pre-1800 History Elective</b>		
Complete one of the following:		4
HIST 1185	Introduction to Middle Eastern History	
HIST 1389	History of Espionage 1: Antiquity to World War II	
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1252	Japanese Literature and Culture	
HIST 1272	Europe in the Middle Ages, 500–1500	
HIST 2311	Colonialism/Imperialism	
HIST 2330	Colonial and Revolutionary America	
HIST 2370	Renaissance to Enlightenment

## International Affairs and Criminal Justice, BA

This combined major fosters an awareness of crime and justice issues within their international, transnational, and global contexts since the early 20th century. The scope and sequence of international affairs courses provide students with a foundation in topics such as interstate relations (conflict, cooperation, hierarchies); civil society, transnational advocacy networks, global social movements; and state-society relations (democracy, authoritarianism, social justice and inequalities, citizenship). Criminal justice courses provide a foundation for understanding individual and systemic aspects of criminology and criminal justice. Upon graduation, students are equipped with the skills and knowledge needed to work across national cultures in fields that relate to understanding and addressing criminal behavior.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## International Affairs Requirements

Code	Title	Hours
<b>Required Courses</b>		
INTL 1101	Globalization and International Affairs	4
INTL 3400	International Conflict and Negotiation	4
POLS 1155	Comparative Politics	4
ANTH 1101	Peoples and Cultures	4
or HIST 2211	The World Since 1945	
or HIST 2311	Colonialism/Imperialism	
ECON 1115	Principles of Macroeconomics	4
or ECON 1116	Principles of Microeconomics	

## International Experiential Learning

Complete at least one "international semester" via study abroad, international internship, international co-op, or two short-term programs.

## International Affairs Foreign Language Requirement

Complete coursework in a language through at least intermediate-level two. Note: Completing this requirement satisfies the language requirement for the BA degree.

### International Affairs Elective

Code	Title	Hours
Complete one of the following:		
		4

Code	Title	Hours
INTL 2240	Global Population and Development	
INTL 2480	Women and World Politics	
INTL 2500	Race and Global Human Mobility

## Criminal Justice Requirements

Code	Title	Hours
<b>Introduction to Crime, Law, and the Justice System</b>		
What do we know about crime and justice? In these three courses, students have an opportunity to develop a foundational understanding of three related phenomena: why crime exists, how our criminal justice system responds to crime, and the constitutional and legal oversight of this process.		
CRIM 1100	Introduction to Criminal Justice	4
CRIM 1110	Criminal Due Process	4
CRIM 1120	Criminology	4
<b>Current Crime and Justice Issues</b>		
These courses introduce students to topical issues related to crime and justice.		
Complete one of the following:		4
CRIM 1300	The Death Penalty	
CRIM 1400	Human Trafficking	
CRIM 1500	Corruption, Integrity, and Accountability	
CRIM 1700	Crime, Media, and Politics	
<b>Crime Problems and Criminal Justice Institutions</b>		
The 2000-level courses in this list ask how does justice work and for whom? These courses introduce students to the systems and institutions tasked with providing justice. Each includes experiential learning components in cooperation with local criminal justice institutions. The 3000-level courses in this list provide students a deeper look at a range of crime problems.		
Complete one of the following:		4
CRIM 2310	Courts: The Third Branch of Government	
CRIM 2320	Youth Crime and Justice	
CRIM 2330	Punishment in the Age of Mass Incarceration	
CRIM 2340	Corporate Security: Securing the Private Sector	
CRIM 2350	Policing a Democratic Society	
CRIM 3010	Criminal Violence	

CRIM 3040	Psychology of Crime
CRIM 3050	Organized Crime
CRIM 3060	Political Crime and Terrorism
CRIM 3070	Corporate and White-Collar Crime
CRIM 3540	Addiction and Recovery

### Creating Knowledge about Crime and Justice

How do we know what we know about crime and justice—and how do we develop new knowledge? Harnessing data to learn about issues, identify solutions, and advocate for change.

CRIM 3700	Analyzing and Using Data on Crime and Justice	4
-----------	---	---

### Systemic Issues

A consideration of systemic issues facing the criminal justice system.

Complete one of the following: 4

CRIM 3110	Gender, Crime, and Justice
CRIM 3120	Race, Crime, and Justice

### Criminal Justice Electives

Rounding out knowledge of crime and justice.

Complete two additional criminal justice electives from the 3000, 4000 or 5000-level. 8

## Introduction and Methods Options

Code	Title	Hours
<b>Introduction</b>		
Complete one of the following:		1
INTL 1000	International Affairs at Northeastern	
CRIM 1000	Criminal Justice at Northeastern	
<b>Research Methods</b>		
Complete one of the following:		4
INTL 2718	Research Methods in International Affairs	
CRIM 3600	Criminal Justice Research Methods	

## Supporting Courses

Code	Title	Hours
<b>Computer or Data Science</b>		
Complete one of the following:		4
CS 1100	Computer Science and Its Applications	
DS 2000	Programming with Data	
<b>Co-op Integration Requirements</b>		
Complete before the first co-op:		1
EESH 2000	Professional Development for Co-op	
Complete after the first co-op:		1
CRIM 3000	Co-op Integration Seminar 2	
Complete after the second co-op:		1
CRIM 4000	Co-op Integration Seminar 3	

## Integrative Requirement

Code	Title	Hours
<b>Integrative Course and Capstone</b>		
CRIM 3030	Global Criminology	4

INTL 4700	Senior Capstone Seminar in International Affairs	4
or CRIM 4949	Senior Capstone Seminar	

### Combined Major Credit Requirement

Complete 84 semester hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

128 total semester hours required

### Plan of Study

#### Four Years, Two Co-ops Spring/Summer 1

## Criminal Justice, BS

The Bachelor of Science in Criminal Justice degree is designed to prepare students for professional and research careers in criminal justice, criminology, and related fields by applying multidisciplinary and comparative social science to understand, predict, and explain crime and contribute to the development of public policy. Using an experiential learning approach, the criminal justice major seeks to develop its students intellectually and ethically, while providing them with a keen appreciation for the complexities of crime and public and private efforts to make communities safer and ensure justice.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Fundamentals

Code	Title	Hours
<b>Introduction to College</b>		
CRIM 1000	Criminal Justice at Northeastern	1
<b>Introduction to Crime, Law, and the Justice System</b>		
What do we know about crime and justice? In these three courses successful students will develop a foundational understanding of three related phenomena: why crime exists, how our criminal justice system responds to crime, and the constitutional and legal oversight of this process.		
CRIM 1100	Introduction to Criminal Justice	4
CRIM 1110	Criminal Due Process	4
CRIM 1120	Criminology	4

**Current Crime and Justice Issues**

These courses introduce students to topical issues related to crime and justice.

Complete one of the following: 4

CRIM 1300	The Death Penalty
CRIM 1400	Human Trafficking
CRIM 1500	Corruption, Integrity, and Accountability
CRIM 1700	Crime, Media, and Politics

**Digital Skills**

Successful students develop digital skills and master digital tools useful for careers related to crime and justice. Students choose one of two courses (each has a required lab). The computer science course introduces students to spreadsheets and databases. The data science course introduces students to programming with data.

Complete one of the following (and the appropriate lab): 4 or 5

CS 1100 and CS 1101	Computer Science and Its Applications and Lab for CS 1101
DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum (Social Science Practicum section)

**Criminal Justice Institutions and Systems**

Code	Title	Hours
------	-------	-------

**Understanding and Experiencing Criminal Justice Institutions and Systems**

How does justice work and for whom? These courses introduce students to the systems and institutions tasked with providing justice. Each includes experiential learning components in cooperation with local criminal justice institutions.

Complete two of the following: 8

CRIM 2310	Courts: The Third Branch of Government
CRIM 2320	Youth Crime and Justice
CRIM 2330	Punishment in the Age of Mass Incarceration
CRIM 2340	Corporate Security: Securing the Private Sector
CRIM 2350	Policing a Democratic Society

**Preparing for Co-op**

The following course is designed to prepare students to apply for and embark on their first co-op. Students who do not take a co-op may replace EESH 2000, CRIM 3000, and CRIM 4000 with an additional CRIM elective.

EESH 2000	Professional Development for Co-op	1
-----------	------------------------------------	---

**Crime Problems and Justice System Challenges**

Code	Title	Hours
------	-------	-------

**Creating Knowledge about Crime and Justice**

How do we know what we know about crime and justice—and how do we develop new knowledge? Harnessing data to learn about issues, identify solutions, and advocate for change.

CRIM 3600	Criminal Justice Research Methods	4
CRIM 3700	Analyzing and Using Data on Crime and Justice	4

**Crime Problems**

The following courses offer students a deeper look at a range of crime problems.

Complete one of the following: 4

CRIM 3010	Criminal Violence
CRIM 3030	Global Criminology
CRIM 3040	Psychology of Crime
CRIM 3050	Organized Crime
CRIM 3540	Addiction and Recovery
CRIM 3060	Political Crime and Terrorism
CRIM 3070	Corporate and White-Collar Crime

**Systemic Issues**

A consideration of systemic issues facing the criminal justice system.

Complete one of the following: 4

CRIM 3110	Gender, Crime, and Justice
CRIM 3120	Race, Crime, and Justice

**Returning from Co-op**

Allows students the opportunity to reflect on their co-op experience and its connection to their ongoing coursework and future plans:

CRIM 3000	Co-op Integration Seminar 2 (required after first co-op)	1
-----------	--	---

**Solutions and Reform**

Code	Title	Hours
------	-------	-------

**Solutions and Reform**

How do we reinvent criminal justice institutions and their practice? The capstone experience is project-based and solution-oriented, drawing on knowledge gained in the classroom and through co-op and other experiences.

CRIM 4949	Senior Capstone Seminar	4
-----------	-------------------------	---

**Student-Generated Knowledge**

Opportunities for student research (optional):

CRIM 4991	Research
CRIM 4970	Junior/Senior Honors Project 1 (may serve as a substitute for the "Solutions and Reform" requirement)
CRIM 4971	Junior/Senior Honors Project 2

**Returning from Co-op**

Allows students the opportunity to reflect on their co-op experience and its connection to their ongoing coursework and future plans:

CRIM 4000	Co-op Integration Seminar 3	1
-----------	-----------------------------	---

**Criminal Justice Electives**

Rounding out knowledge of crime and justice.

Complete four additional criminal justice electives. Three must be from the 3000, 4000 or 5000-level. 16

**Criminal Justice Sequence Requirements**

Complete three courses from the same department, two of which must be numbered 2000 or above, or complete a minor.

**Criminal Justice Credit Requirement**

Complete 63 credit hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

128 total semester hours required

### Plan of Study

## Computer Science and Criminal Justice, BS

For students interested in criminal justice in an increasingly digital world, the computer science and criminal justice combined degree offers a strong programming foundation coupled with academic and experiential knowledge of the criminal justice system. Successful students will learn the principles, practices, and responsibilities of criminal justice professionals alongside the computer science skills necessary for practical applications in the field.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
IS 2000	Principles of Information Science	4
<b>Khoury Elective Courses</b>		
With advisor approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.		
Complete 16 credits of upper-division CS, CY, DS, or IS courses that are not already required. Choose courses within the following ranges:		16
CS 2500 or higher, except CS 5010		
CY 2000 or higher, except CY 4930		
DS 2500 or higher, except DS 4900		
IS 2000 or higher, except IS 4900		

### Criminal Justice Courses

Code	Title	Hours
<b>Introduction to Crime, Law, and the Justice System</b>		
What do we know about crime and justice? In these three courses, students have an opportunity to develop a foundational understanding of three related phenomena: why crime exists, how our criminal justice system responds to crime, and the constitutional and legal oversight of this process.		
CRIM 1100	Introduction to Criminal Justice	4
CRIM 1110	Criminal Due Process	4
CRIM 1120	Criminology	4
<b>Current Crime and Justice Issues</b>		
These courses introduce students to topical issues related to crime and justice.		
Complete one of the following:		4
CRIM 1300	The Death Penalty	
CRIM 1400	Human Trafficking	
CRIM 1500	Corruption, Integrity, and Accountability	
CRIM 1700	Crime, Media, and Politics	
<b>Crime Problems and Criminal Justice Institutions</b>		
The 2000-level courses in this list ask how does justice work and for whom? These courses introduce students to the systems and institutions tasked with providing justice. Each includes experiential learning components in cooperation with local criminal justice institutions. The 3000-level courses in this list provide students with a deeper look at a range of crime problems.		
Complete one of the following:		4
CRIM 2310	Courts: The Third Branch of Government	
CRIM 2320	Youth Crime and Justice	
CRIM 2330	Punishment in the Age of Mass Incarceration	
CRIM 2340	Corporate Security: Securing the Private Sector	
CRIM 2350	Policing a Democratic Society	
CRIM 3010	Criminal Violence	
CRIM 3030	Global Criminology	
CRIM 3040	Psychology of Crime	
CRIM 3050	Organized Crime	
CRIM 3070	Corporate and White-Collar Crime	
<b>Systemic Issues</b>		
These courses consider systemic issues facing the criminal justice system.		
Complete one of the following:		4
CRIM 3110	Gender, Crime, and Justice	
CRIM 3120	Race, Crime, and Justice	
<b>Creating Knowledge about Crime and Justice</b>		
How do we know what we know about crime and justice—and how do we develop new knowledge? These courses cover how to harness data to learn about issues, identify solutions, and advocate for change.		
CRIM 3600	Criminal Justice Research Methods	4
CRIM 3700	Analyzing and Using Data on Crime and Justice	4

**Criminal Justice Capstone**

CRIM 4949	Senior Capstone Seminar	4
-----------	-------------------------	---

**Criminal Justice Elective**

These courses round out our knowledge of crime and justice.

Complete one additional criminal justice elective from the 3000, 4000, or 5000 level.	4
---	---

**Integrative Course Requirement**

Code	Title	Hours
Complete one of the following:		
CRIM 3060	Political Crime and Terrorism	
CRIM 4040	Crime Prevention	
CRIM 4900	Advanced Seminar in Criminology and Criminal Justice	

**Supporting Course**

Code	Title	Hours
<b>Computing and Social Issues</b>		
Complete one of the following:		
AFAM 2600	Issues in Race, Science, and Technology	
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity

**Criminal Justice and Journalism, BS**

The School of Criminology and Criminal Justice and School of Journalism offer a combined major in criminal justice and journalism. Criminology and criminal justice courses provide a foundation for understanding crime and our criminal justice system. Journalism courses provide students with the skills and experience needed to succeed as a journalist. Together, the combined major is designed to prepare students to report important stories about crime and justice.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Criminal Justice Requirements

Code	Title	Hours
<b>Introduction to Crime, Law, and the Justice System</b>		
What do we know about crime and justice? In these three courses, students have an opportunity to develop a foundational understanding of three related phenomena: why crime exists, how our criminal justice system responds to crime, and the constitutional and legal oversight of this process.		
CRIM 1100	Introduction to Criminal Justice	4
CRIM 1110	Criminal Due Process	4
CRIM 1120	Criminology	4
<b>Current Crime and Justice Issues</b>		
These courses introduce students to topical issues related to crime and justice.		
Complete one of the following:		4
CRIM 1300	The Death Penalty	
CRIM 1400	Human Trafficking	
CRIM 1500	Corruption, Integrity, and Accountability	
<b>Crime Problems and Criminal Justice Institutions</b>		
The 2000-level courses in this list ask how does justice work and for whom? These courses introduce students to the systems and institutions tasked with providing justice. Each includes experiential learning components in cooperation with local criminal justice institutions. The 3000-level courses in this list provide students with a deeper look at a range of crime problems.		
Complete one of the following:		4
CRIM 2310	Courts: The Third Branch of Government	
CRIM 2320	Youth Crime and Justice	
CRIM 2330	Punishment in the Age of Mass Incarceration	
CRIM 2340	Corporate Security: Securing the Private Sector	
CRIM 2350	Policing a Democratic Society	
CRIM 3010	Criminal Violence	
CRIM 3030	Global Criminology	
CRIM 3040	Psychology of Crime	
CRIM 3050	Organized Crime	
CRIM 3060	Political Crime and Terrorism	
CRIM 3070	Corporate and White-Collar Crime	
CRIM 3540	Addiction and Recovery	
<b>Systemic Issues</b>		
These courses consider systemic issues facing the criminal justice system.		
Complete one of the following:		4
CRIM 3110	Gender, Crime, and Justice	
CRIM 3120	Race, Crime, and Justice	
<b>Creating Knowledge about Crime and Justice</b>		
How do we know what we know about crime and justice—and how do we develop new knowledge? These courses study harnessing data to learn about issues, identify solutions, and advocate for change.		
CRIM 3600	Criminal Justice Research Methods	4

CRIM 3700	Analyzing and Using Data on Crime and Justice	4
-----------	---	---

### Solutions and Reform

How do we reinvent criminal justice institutions and their practice? The capstone experience is project-based and solution-oriented, drawing on knowledge gained in the classroom and through co-op and other experiences.

CRIM 4949	Senior Capstone Seminar	4
-----------	-------------------------	---

### Criminal Justice Elective

These courses round out our knowledge of crime and justice.

Complete one additional criminal justice elective from the 3000, 4000, or 5000 level.		4
---	--	---

## Journalism Requirements

Code	Title	Hours
<b>Introductory Journalism Course</b>		
JRNL 1150	Understanding Today's News	4
<b>Journalism Foundation Courses</b>		
A grade of C or better is required.		
JRNL 1101 and JRNL 1102	Journalism 1: Fundamentals of Reporting and Journalist's Toolbox	5
JRNL 2201	Journalism 2: Intermediate Reporting	4
JRNL 2301	Visual Storytelling in Journalism	4
JRNL 3610	Digital Storytelling and Social Media	4
<b>Ethics</b>		
JRNL 4650	Ethics and Issues in Journalism	4

### Journalism Electives

Code	Title	Hours
Complete three additional journalism courses.		12

## Supporting Courses

Code	Title	Hours
<b>Introduction</b>		
CRIM 1000 or JRNL 1000	Criminal Justice at Northeastern or Journalism at Northeastern	1
<b>Computer or Data Science</b>		
Complete one of the following:		4
CS 1100	Computer Science and Its Applications	
DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
JRNL 3700	Data Storytelling	

### Co-op Integration Requirements

Complete before the first co-op:

EESH 2000 or EEAM 2000	Professional Development for Co-op	
------------------------	------------------------------------	--

Complete after a criminal justice co-op:

CRIM 3000	Co-op Integration Seminar 2	
-----------	-----------------------------	--

## Integrative Requirements

Code	Title	Hours
JRNL 3550	The First Amendment and the Media	4
CRIM 1700	Crime, Media, and Politics	4

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

129 total semester hours required

### Plan of Study

## Criminal Justice and Philosophy, BS

The School of Criminology and Criminal Justice and the Department of Philosophy and Religion offer a combined major in criminal justice and philosophy. This combined major educates students in criminal justice and philosophy and in the interface between the two disciplines. The scope and sequence of philosophy courses provide students with a foundation in topics such as social and political philosophy, philosophy of law, and moral philosophy, while also developing robust analytical and evaluative skills. Criminal justice courses provide a foundation for understanding individual and systemic aspects of criminology and criminal justice. Students completing this program should have depth of knowledge with respect to analyzing and addressing criminal behavior, as well as with respect to the philosophical and ethical aspects of topics such as law, punishment, justice, and social institutions.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Criminal Justice Major Requirements

Code	Title	Hours
<b>Introduction to Crime, Law, and the Justice System</b>		
What do we know about crime and justice? In these three courses, students have an opportunity to develop a foundational understanding of three related phenomena: why crime exists, how our criminal justice system responds to crime, and the constitutional and legal oversight of this process.		
CRIM 1100	Introduction to Criminal Justice	4
CRIM 1110	Criminal Due Process	4
CRIM 1120	Criminology	4
<b>Current Crime and Justice Issues</b>		
These courses introduce students to topical issues related to crime and justice.		
Complete one of the following:		4
CRIM 1300	The Death Penalty	
CRIM 1400	Human Trafficking	
CRIM 1500	Corruption, Integrity, and Accountability	
CRIM 1700	Crime, Media, and Politics	
<b>Crime Problems and Criminal Justice Institutions</b>		

The 2000-level courses in this list ask how does justice work and for whom? These courses introduce students to the systems and institutions tasked with providing justice. Each includes experiential learning components in cooperation with local criminal justice institutions. The 3000-level courses in this list provide students with a deeper look at a range of crime problems.

Complete one of the following: 4

CRIM 2310	Courts: The Third Branch of Government
CRIM 2320	Youth Crime and Justice
CRIM 2330	Punishment in the Age of Mass Incarceration
CRIM 2340	Corporate Security: Securing the Private Sector
CRIM 2350	Policing a Democratic Society
CRIM 3010	Criminal Violence
CRIM 3030	Global Criminology
CRIM 3040	Psychology of Crime
CRIM 3050	Organized Crime
CRIM 3060	Political Crime and Terrorism
CRIM 3070	Corporate and White-Collar Crime
CRIM 3540	Addiction and Recovery

#### Systemic Issues

These courses consider systemic issues facing the criminal justice system.

Complete one of the following: 4

CRIM 3110	Gender, Crime, and Justice
CRIM 3120	Race, Crime, and Justice

#### Creating Knowledge about Crime and Justice

How do we know what we know about crime and justice—and how do we develop new knowledge? These courses study how to harness data to learn about issues, identify solutions, and advocate for change.

CRIM 3600	Criminal Justice Research Methods	4
CRIM 3700	Analyzing and Using Data on Crime and Justice	4

#### Co-op Integration Seminars

Co-op students should complete the seminars below. Non-co-op students should complete a 4-semester-hour CRIM elective.

Complete two of the following courses. CRIM 2000 and CRIM 3000 are required for the first co-op. CRIM 4000 is required if a second co-op is taken. 2-4

EESH 2000	Professional Development for Co-op
CRIM 3000	Co-op Integration Seminar 2
CRIM 4000	Co-op Integration Seminar 3

#### Solutions and Reform

How do we reinvent criminal justice institutions and their practice? The capstone experience is project-based and solution-oriented, drawing on knowledge gained in the classroom and through co-op and other experiences.

CRIM 4949	Senior Capstone Seminar	4
-----------	-------------------------	---

#### Criminal Justice Elective

These courses round out our knowledge of crime and justice.

Complete one additional criminal justice elective from the 3000, 4000, or 5000 level. 4

### Philosophy Requirements

Code	Title	Hours
------	-------	-------

#### Required Courses

PHIL 1115	Introduction to Logic	4
PHIL 2325	Ancient Philosophy and Political Thought	4
	or POLS 2325	Ancient Philosophy and Political Thought
PHIL 2303	Social and Political Philosophy	4
PHIL 2330	Modern Philosophy	4

#### Intermediate/Advanced Electives

Complete two of the following:

PHIL 3100	The Religious Worlds of Boston: Faith and Devotion in Urban Life
PHIL 3343	Existentialism
PHIL 3360	Scientific Approaches to Philosophy
PHIL 3435	Moral Philosophy
PHIL 3460	Philosophy and Literature
PHIL 4500	Theory of Knowledge
PHIL 4510	Philosophy of Science

**Criminal Justice and Political Science, BS**

This combined major educates students in criminal justice and political science and in the interface between the two disciplines. The scope and sequence of political science courses provide students with a foundation in topics such as American government, comparative politics, international relations, and security and resilience. Criminal justice courses provide a foundation for understanding individual and systemic aspects of criminology and criminal justice. Students completing this program should be able to understand the relationships between the fields as they relate to understanding and addressing criminal behavior.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Criminal Justice Requirements**

Code	Title	Hours
<b>Introduction to Crime, Law, and the Justice System</b>		
	What do we know about crime and justice? In these three courses, students have an opportunity to develop a foundational understanding of three related phenomena: why crime exists, how our criminal justice system responds to crime, and the constitutional and legal oversight of this process.	

CRIM 1100	Introduction to Criminal Justice	4
CRIM 1110	Criminal Due Process	4
CRIM 1120	Criminology	4

**Current Crime and Justice Issues**

These courses introduce students to topical issues related to crime and justice.

Complete one of the following: 4

CRIM 1300	The Death Penalty	
CRIM 1400	Human Trafficking	
CRIM 1500	Corruption, Integrity, and Accountability	
CRIM 1700	Crime, Media, and Politics	

**Understanding and Experiencing Criminal Justice Institutions and Systems**

How does justice work and for whom? These courses introduce students to the systems and institutions tasked with providing justice. Each includes experiential learning components in cooperation with local criminal justice institutions.

Complete one of the following: 4

CRIM 2310	Courts: The Third Branch of Government	
CRIM 2320	Youth Crime and Justice	
CRIM 2330	Punishment in the Age of Mass Incarceration	
CRIM 2340	Corporate Security: Securing the Private Sector	
CRIM 2350	Policing a Democratic Society	

**Crime Problems**

The following courses provide students a deeper look at a range of crime problems.

Complete one of the following: 4

CRIM 3010	Criminal Violence	
CRIM 3030	Global Criminology	
CRIM 3040	Psychology of Crime	
CRIM 3050	Organized Crime	
CRIM 3060	Political Crime and Terrorism	
CRIM 3070	Corporate and White-Collar Crime	
CRIM 3540	Addiction and Recovery	

**Systemic Issues**

A consideration of systemic issues facing the criminal justice system.

Complete one of the following: 4

CRIM 3110	Gender, Crime, and Justice	
CRIM 3120	Race, Crime, and Justice	

**Digital Skills**

Successful students develop digital skills and master digital tools useful for careers related to crime and justice. Students choose one of two courses (each has a required lab). The computer science course introduces students to spreadsheets and databases. The data science course introduces students to programming with data.

Complete one of the following (and the appropriate lab): 4 or 5

CS 1100 and CS 1101	Computer Science and Its Applications and Lab for CS 1100	
------------------------	--	--

DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum ((Social Science Practicum section))	
------------------------	--	--

**Political Science Requirements**

Code	Title	Hours

**Criminal Justice and Psychology, BS**

This combined major educates students in criminal justice and psychology and the interface between the two disciplines. The scope and sequence of psychology courses provide students with a foundation in the interdisciplinary science of psychology, including the biological and psychosocial bases of behavior, learning, personality, and cognition. Criminal justice courses provide a foundation for understanding individual and systemic aspects of criminology and criminal justice. Students completing this program should be able to understand the relationships between the fields, as they relate to understanding and addressing criminal behavior.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUPath Requirements**

All undergraduate students are required to complete the NUPath Requirements (p. 46).

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

CRIM 3050	Organized Crime	
CRIM 3200		
CRIM 3300		
CRIM 3400		
CRIM 3500		

#### System-Wide Elective

Complete one of the following: 4

CRIM 4010		
CRIM 4020		
CRIM 4040	Crime Prevention	

#### Computer Science

CS 1100 Computer Science and Its Applications 4

#### Mathematics

Complete one of the following: 4

MATH 1215	Mathematical Thinking	
MATH 1231	Calculus for Business and Economics	
MATH 1241	Calculus 1	

#### Electives

Complete two courses in the following range: 8

CRIM 4000 to CRIM 5999

### Psychology Requirements

Code	Title	Hours
------	-------	-------

#### Introductory Course

PSYC 1101	Foundations of Psychology	4
-----------	---------------------------	---

#### Statistics

PSYC 2320	Statistics in Psychological Research	4
-----------	--------------------------------------	---

#### Personality/Social Bases of Behavior

Complete two of the following: 8

PSYC 3400	Personality	
PSYC 3402	Social Psychology	
PSYC 3404	Developmental Psychology	
PSYC 3406	Abnormal Psychology	

#### Biological/Cognitive Bases of Behavior

Complete two of the following: 8

PSYC 3450	Learning and Motivation	
or PSYC 3451	Learning Principles and Behavior Analysis	
PSYC 3452	Sensation and Perception	
PSYC 3458	Biological Psychology	
PSYC 3464	Psychology of Language	
PSYC 3466	Cognition	

#### Research Experience

Complete one of the following: 4

PSYC 4600	Laboratory in Research Design	
PSYC 4606	Laboratory in Biological Psychology	
PSYC 4610	Laboratory in Psycholinguistics	
PSYC 4612	Laboratory in Cognition	
PSYC 4614	Laboratory in Social Psychology	
PSYC 4616	Laboratory in Personality	
PSYC 4622	Laboratory in Sensation and Perception	
PSYC 4624	Laboratory in Affective Science	

PSYC 4626	Laboratory in Life-Span Emotional Development	
-----------	---	--

#### Psychology Seminar

Complete one of the following: 4

PSYC 4654	Seminar in Behavioral Modification	
PSYC 4656	Seminar in Biological Psychology	
PSYC 4658	Seminar in Psycholinguistics	
PSYC 4660	Seminar in Cognition	
PSYC 4662	Seminar in Personality	
PSYC 4664	Seminar in Social Psychology	
PSYC 4666	Seminar in Clinical Psychology	
PSYC 4668	Seminar in Sensation and Perception	
PSYC 4674	Seminar in Cognitive Neuroscience	
PSYC 4676	Seminar in Developmental Psychology	
PSYC 4678	Seminar in Social and Affective Neuroscience	

#### Electives

Complete two PSYC courses. 8

### Integrative Requirement

Code	Title	Hours
CRIM 3040	Psychology of Crime	4

### Criminal Justice and Psychology Combined-Major Credit Requirement

Complete 84 semester hours in the major.

### Program Requirement

128 total semester hours required

### Criminal Justice and Sociology, BS

This combined major educates students in criminal justice and sociology and in the interface between the two disciplines. The scope and sequence of sociology courses provide students with a foundation in social theory and social systems. Criminal justice courses provide a foundation for understanding individual and systemic aspects of criminology and criminal justice. Students successfully completing this program should be able to understand the ways that crime and the justice system are situated in larger social systems and structures.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Criminal Justice Requirements**

Code	Title	Hours
<b>Introduction to Crime, Law, and the Justice System</b>		
What do we know about crime and justice? In these three courses, students have an opportunity to develop a foundational understanding of three related phenomena: why crime exists, how our criminal justice system responds to crime, and the constitutional and legal oversight of this process.		
CRIM 1100	Introduction to Criminal Justice	4
CRIM 1110	Criminal Due Process	4
CRIM 1120	Criminology	4
<b>Current Crime and Justice Issues</b>		
These courses introduce students to topical issues related to crime and justice.		
Complete one of the following:		4
CRIM 1300	The Death Penalty	
CRIM 1400	Human Trafficking	
CRIM 1500	Corruption, Integrity, and Accountability	
CRIM 1700	Crime, Media, and Politics	
<b>Understanding and Experiencing Criminal Justice Institutions and Systems</b>		
How does justice work and for whom? These courses introduce students to the systems and institutions tasked with providing justice. Each includes experiential learning components in cooperation with local criminal justice institutions.		
Complete one of the following:		4
CRIM 2310	Courts: The Third Branch of Government	
CRIM 2320	Youth Crime and Justice	
CRIM 2330	Punishment in the Age of Mass Incarceration	
CRIM 2340	Corporate Security: Securing the Private Sector	
CRIM 2350	Policing a Democratic Society	
<b>Crime Problems</b>		
The following courses provide students with a deeper look at a range of crime problems.		
Complete one of the following:		4
CRIM 3010	Criminal Violence	
CRIM 3030	Global Criminology	
CRIM 3040	Psychology of Crime	
CRIM 3050	Organized Crime	
CRIM 3060	Political Crime and Terrorism	
CRIM 3070	Corporate and White-Collar Crime	
CRIM 3540	Addiction and Recovery	
<b>Criminal Justice Electives</b>		
These courses round out our knowledge of crime and justice.		
Complete three additional criminal justice electives. Two must be from the 3000, 4000, or 5000 level.		12

**Sociology Requirements**

Code	Title	Hours
Complete a minimum of nine courses in sociology from the requirements below.		
<b>Sociology Requirements</b>		
SOCL 1101	Introduction to Sociology	4
SOCL 3300	Social Theory	4
<b>Sociology Introductory Electives</b>		
Complete two courses in the following range:		8
SOCL 1200 to SOCL 1999		
<b>Sociology Intermediate Electives</b>		
Complete two courses in the following range:		8
SOCL 2000 to SOCL 3999		
<b>Sociology Advanced Elective</b>		
Complete one course in the following range:		4
SOCL 4000 to SOCL 5999		
<b>Introduction, Methods, and Statistics</b>		
<b>Code</b>		
<b>Title</b>		
<b>Hours</b>		
<b>Introduction</b>		
Complete one of the following:		1

**Cybersecurity and Criminal Justice, BS**

The cybersecurity and criminal justice combined degree applies a multidisciplinary approach to ensuring the reliability and security of cyberspace. The program will provide students with a strong programming foundation coupled with academic and experiential knowledge of the criminal justice system. Students learn how social behavior, policy, and legal rules can affect cybersecurity and utilize comparative social science to understand, predict, and explain crime.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Cybersecurity Major Requirements**

## Human Services and Criminal Justice, BS

A combined major in human services and criminal justice appeals to students interested in the intersection of social and legal issues and institutions. The human services major prepares students for careers in social change by providing students with the theoretical and skill-based background necessary for practice and research. Students with criminal justice course work gain a rigorous interdisciplinary and experiential education in the causes and consequences of crime and the responses of criminal justice. The addition of human services course work complements a criminal justice perspective and considers the role of social services and community-based organizations to prevent, intervene, and treat the causes and consequences of crime. The degree allows students to combine interests in the justice system, political advocacy, and community development. Students engage in an integrated educational program that emphasizes experiential approaches to learning through service-learning, co-op, and internship opportunities.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Human Services Requirements

Code	Title	Hours
<b>Required Human Services Courses</b>		
HUSV 1101	Social Change and Human Services	4
HUSV 2300	Counseling in Human Services	4

HUSV 3570	The Nonprofit Sector, Philanthropy, and Social Change	4
HUSV 3900	Social Policy	4
<b>Human Services Internship</b>		
HUSV 4994	Human Services Internship	6
<b>Human Services Electives</b>		
Complete four additional HUSV courses.		16

### Criminal Justice Requirements

Code	Title	Hours
<b>Introduction to Crime, Law, and the Justice System</b>		
What do we know about crime and justice? In these three courses, students have an opportunity to develop a foundational understanding of three related phenomena: why crime exists, how our criminal justice system responds to crime, and the constitutional and legal oversight of this process.		
CRIM 1100	Introduction to Criminal Justice	4
CRIM 1110	Criminal Due Process	4
CRIM 1120	Criminology	4
<b>Current Crime and Justice Issues</b>		
These courses introduce students to topical issues related to crime and justice.		
Complete one of the following:		4
CRIM 1300	The Death Penalty	
CRIM 1400	Human Trafficking	
CRIM 1500	Corruption, Integrity, and Accountability	
CRIM 1700	Crime, Media, and Politics	
<b>Understanding and Experiencing Criminal Justice Institutions and Systems</b>		
How does justice work and for whom? These courses introduce students to the systems and institutions tasked with providing justice. Each includes experiential learning components in cooperation with local criminal justice institutions.		
Complete one of the following:		4
CRIM 2310	Courts: The Third Branch of Government	
CRIM 2320	Youth Crime and Justice	
CRIM 2330	Punishment in the Age of Mass Incarceration	
CRIM 2340	Corporate Security: Securing the Private Sector	
CRIM 2350	Policing a Democratic Society	
<b>Crime Problems</b>		
The following courses offer students a deeper look at a range of crime problems.		
Complete one of the following:		4
CRIM 3010	Criminal Violence	
CRIM 3030	Global Criminology	
CRIM 3040	Psychology of Crime	
CRIM 3050	Organized Crime	
CRIM 3060	Political Crime and Terrorism	
CRIM 3070	Corporate and White-Collar Crime	
<b>Creating Knowledge about Crime and Justice</b>		

How do we know what we know about crime and justice—and how do we develop new knowledge? Harnessing data to learn about issues, identify solutions, and advocate for change.

CRIM 3700	Analyzing and Using Data on Crime and Justice	4
-----------	---	---

#### Systemic Issues

A consideration of systemic issues facing the criminal justice system.

Complete one of the following: 4

CRIM 3110	Gender, Crime, and Justice
-----------	----------------------------

CRIM 3120	Race, Crime, and Justice
-----------	--------------------------

#### Digital Skills

Successful students develop digital skills and master digital tools useful for careers related to crime and justice. Students choose one of two courses (each has a required lab). The computer science course introduces students to spreadsheets and databases. The data science course introduces students to programming with data.

Complete one of the following (and the appropriate lab): 4-5

CS 1100 and CS 1101	Computer Science and Its Applications and Lab for CS 1100
---------------------	---

DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum (Social Science practicum section)
---------------------	---

#### Criminal Justice Electives

Rounding out knowledge of crime and justice.

Complete two additional criminal justice electives. One must be from the 3000, 4000 or 5000-level 8

#### Additional Courses

Code	Title	Hours
CRIM 1000	Criminal Justice at Northeastern	1
or HUSV 1000	Human Services at Northeastern	

#### Research Methods

CRIM 3600	Criminal Justice Research Methods	4
or HUSV 2970	Research Methods for Human Services	

#### Cooperative Education

Students going on co-op should take:

EESH 2000	Professional Development for Co-op	1
-----------	------------------------------------	---

Students returning from co-op should take:

CRIM 3000	Co-op Integration Seminar 2	1
-----------	-----------------------------	---

CRIM 4000	Co-op Integration Seminar 3	1
-----------	-----------------------------	---

#### Additional Elective

Complete one additional course in either CRIM or HUSV. 4

Integrative Course

Code	Title	Hours
CRIM 4949	Senior Capstone Seminar	4
or HUSV 4700	Senior Seminar in Human Services	

#### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirement

128 total semester hours required

### Criminal Justice, Minor

Minors in the School of Criminology and Criminal Justice (SCCJ) take the foundational courses in criminology and criminal justice. Minors can also specialize further in their elective courses. These may include courses covering topics such as policing democratic societies, corporate security, punishment and mass incarceration, and juvenile justice. A minor in criminology and criminal justice in combination with a student's major can enhance the student's career possibilities and open new avenues for research experiences.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Courses

Code	Title	Hours
CRIM 1100	Introduction to Criminal Justice	4
CRIM 1110	Criminal Due Process	4
CRIM 1120	Criminology	4

### Criminal Justice Electives

Code	Title	Hours
Complete two of the following:		8
CRIM 2310	Courts: The Third Branch of Government	
CRIM 2320	Youth Crime and Justice	
CRIM 2330	Punishment in the Age of Mass Incarceration	
CRIM 2340	Corporate Security: Securing the Private Sector	
CRIM 2350	Policing a Democratic Society	
CRIM 3010	Criminal Violence	
CRIM 3030	Global Criminology	
CRIM 3040	Psychology of Crime	
CRIM 3050	Organized Crime	
CRIM 3060	Political Crime and Terrorism	
CRIM 3070	Corporate and White-Collar Crime	
CRIM 3110	Gender, Crime, and Justice	
CRIM 3120	Race, Crime, and Justice	
CRIM 4040	Crime Prevention	
CRIM 4120	Courts and Sentencing	
CRIM 4660	Communities and Crime	
CRIM 4710	Law and Psychology	

### GPA Requirement

2.000 GPA required in the minor

### Cultures, Societies, and Global Studies

The Department of Cultures, Societies, and Global Studies is an open and dynamic academic platform for interdisciplinary research and teaching

on the transformative power of culture as an instrument for social change and innovation. We approach the challenges facing humanity through perspectives that are primarily, though not exclusively, informed by the experiences of the peoples from the Global South (Africa, Asia, the Caribbean, and Latin America) and its diasporas. As we search for the tools to foster sustainable economic growth and social well-being on a global scale, we aim to reevaluate and learn from the historical experiences, belief systems, intellectual traditions, and pressing concerns of the greater part of the world's population. This requires a critical reexamination of the persistence of Eurocentric postulates that were developed to support modern colonialism and nationalism with their variegated world of "otherness". As such, we adhere to the broadest and most inclusive definition of languages and cultures as we aim to understand, shape, and thrive in a global community characterized by increased social connectivity, economic integration, intellectual exchange, and cultural hybridity.

## Programs

### Bachelor of Arts (BA)

- Africana Studies (p. 810)
- Africana Studies and Political Science (p. 815)
- Asian Studies (p. 835)
- History and Asian Studies (p. 837)
- History, Culture, and Law (p. 818)
- Religious Studies and Africana Studies (p. 825)
- Spanish (p. 880)
- Spanish and International Affairs (p. 881)

### Bachelor of Science (BS)

- Africana Studies (p. 813)
- American Sign Language (p. 887)—English Interpreting
- American Sign Language and Human Services (p. 889)
- American Sign Language and Linguistics (p. 673)
- American Sign Language and Psychology (p. 788)
- American Sign Language and Theatre (p. 239)

## Minors

- African American Studies (p. 827)
- African Studies (p. 827)
- Africana Studies (p. 828)
- American Sign Language (p. 897)
- Arabic (p. 897)
- Black Feminist Studies (p. 828)
- Chinese (p. 898)
- East Asian Studies (p. 838)
- Film and International Cultures (p. 898)
- French (p. 900)
- German (p. 899)
- Italian (p. 899)
- Japanese (p. 900)
- Portuguese (p. 901)
- Russian (p. 901)
- Spanish (p. 901)

### Africana Studies, BA

Africana studies is an interdisciplinary field of study devoted to the critical and systematic examination of the cultural, political, social,

economic, and historical experiences of the African Diaspora across the globe. Students are able to focus on either African American or African Studies.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Concentrations

Complete one of the following:

- No Concentration Option (p. 810)
- African American Studies (p. 811)
- Africa Studies (p. 811)

## Africana Studies Major Credit Requirements

Complete 48 semester hours in the major.

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirements

128 total semester hours required

### Africana Studies and Political Science, BA

The combined major in Africana studies and political science offers students the opportunity to integrate their studies of both disciplines and explore the historical, practical, and theoretical relationships between the two disciplines. In addition to considering the significant points of contention, students explore the ways in which insights from Africana studies can be brought to bear on the disciplinary issues and questions of political science. Within the combined major, students may also choose to concentrate their studies on a range of topics related to political behaviors and institutional developments in the United States, the Americas, Europe, Africa, and across the global African diaspora.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## History, Culture, and Law, BA

History, Culture, and the Law is an interdisciplinary major that provides students the opportunity to understand how legal systems are shaped by cultural norms and historical developments, as well as how social change has been and can be created through legal processes. After studying principles of historical method and jurisprudence, students bring to bear the interdisciplinary frameworks they have begun to develop in one of six culturally-focused concentrations: Africana Studies and Culture; Asian Studies and Culture; Culture and Colonialism; Digital Humanities; Gender and Sexuality; and Latino/a, Latin American, and Caribbean Studies and Culture. Students have opportunities to develop flexibility in perspectives; to exercise ability to work in interdisciplinary frameworks; and to foster appreciation of cultural diversity that will enable them to make a positive impact in their chosen spheres of action.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Note: No more than two courses taken for this major may be counted toward another major or minor.

### Law and History Core

Code	Title	Hours

**Religious Studies and Africana Studies, BA**

The Department of Philosophy and Religion and the Program in Africana Studies offer an interdisciplinary combined major in religious studies and Africana studies. Students interested in the combined major integrate the study of religious traditions, religious praxis, and religious ethics with critical and systematic examination of the cultural, political, social, economic, and historical experiences of African Americans throughout the hemisphere and peoples of African descent around the world.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Religious Studies Major Requirements**

Code	Title	Hours
<b>Required Foundational Course</b>

**Spanish, BA**

Spanish is the second most spoken language in the world. It is used in more than twenty countries, including the United States. In fact, in terms of the number of speakers, the United States is the second largest Spanish-speaking country in the planet. Being a Spanish speaker is a major professional and cultural asset as it prepares you to be successful in any career path. Yet, in our society, knowing Spanish is not just an asset; it is increasingly a necessity. Not only does proficiency in Spanish prepare you to be a leader in a country where Hispanics are the fastest growing segment of the population and where Spanish-speakers are the vast majority of the population in the hemisphere. Knowing Spanish also makes you a truly global citizen. Our Spanish BA certifies that you have attained advanced levels of listening, speaking, reading and writing

proficiency in the language. It also opens before you a fascinating cultural and intellectual world in and beyond the classroom with a myriad of opportunities to travel, live and work abroad.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### Africana Studies, BS

Africana studies is an interdisciplinary field of study devoted to the critical and systematic examination of the cultural, political, social, economic, and historical experiences of Africans, African-Americans throughout the hemisphere, and peoples of African descent around the world. Students are able to choose focused concentrations in African American or Africa Studies.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Concentrations

Complete one of the following:

- No Concentration Option (p. 813)
- African American Studies (p. 814)
- Africa Studies (p. 814)

## Africana Studies Major Credit Requirements

Complete 48 semester hours in the major.

## Program Requirements

128 total semester hours required

### AFRICANA STUDIES (NO CONCENTRATION OPTION)

Code	Title	Hours
<b>Foundational Course</b>		
Complete one of the following:		4

- |              |   |
|--------------|---|
| AFAM 1101    | Introduction to African American and Africana Studies |
| or AFRS 1101 | Introduction to African Studies                       |

**American Sign Language–English Interpreting, BS**

Website (<https://cssh.northeastern.edu/asl/>)

**Lori Whynot, PhD, CI, CT, SC: L, CoreCHI, NAATI**

Professor and Director, American Sign Language and Interpreting Program

L.whynot@northeastern.edu (l.whynot@northeastern.edu)

617.373.8425

857.366.4204 (Videophone)

American Sign Language (ASL) is estimated to be the third most used language in the United States, and its visibility in society is on the rise in recent years. There are between 500,000–2,000,000 Deaf, DeafBlind, or hard of hearing people in the United States who use ASL as their primary language and a large number of non-Deaf signers who use or learn ASL as a second language. A disproportionate percentage of Deaf Community members experience socioeconomic disadvantage due to their dual status as members of both a cultural linguistic minority group and a disability group. As a result, there is a broad societal misunderstanding of Deaf, signing people's minority language and culture—their lived experience—which creates barriers to educational and economic opportunity. While state and federal legislation enables improved civic engagement by Deaf, hard of hearing, and DeafBlind individuals, there is continued need to elevate quality of life, equity, and the rich contributions of the diverse members of the American Deaf Community.

The curriculum in the NU American Sign Language and Interpreting program addresses social inequalities and contributes to cultural resilience by raising awareness of the minority population of ASL users: Deaf, hard of hearing, and DeafBlind individuals. Students acquire the complex skills of ASL-English interpreting through intensive faculty instruction and direct student support and guidance, which is similar to training in other practice professions (such as law, medicine, and social work).

Professional ASL-English interpreting is an important service that supports Deaf, hard of hearing, and DeafBlind people's efforts to participate, be recognized, and contribute to civic society equally at all levels. There continues to be a shortage of qualified sign language interpreters in all domains of civic life since the emergence of the profession in the early 1960s. There is ongoing need for advancing research on ASL and on sign language interpreting to contribute to the growing literature.

The Bachelor of Science in American Sign Language-English Interpreting curriculum is a rigorous program of study that integrates a foundation of ASL and Deaf studies with intensive interpreting skill development. This program is designed to assist students in acquiring competence in ASL, developing an understanding of the diverse American Deaf Community and its culture, and applying linguistic, analytic, and sociocultural skills and knowledge in order to contribute to civic engagement and social justice for Deaf citizens. The major in ASL-English Interpreting is a sequence of courses in linguistic, cognitive, human relations, and ethical decision-making skills as well as the sociocultural knowledge necessary to prepare students for future state or national credentialing as professional ASL-English interpreters. The program offers a wide array of courses as well as volunteer, internship, and practicum opportunities to learn from Deaf citizens' lived experiences through community and industry connections and research. To supplement ASL and Deaf cultural learning, students have the option to do an ASL immersion semester through our Gallaudet University semester study option by the end of the sophomore year or a co-op with a Deaf community-based organization. Academic and co-op advising and discussion with the program director is required for students electing these options.

The program also has alternative, combined majors (<https://cssh.northeastern.edu/asl/program/american-sign-language-combined->

majors/) for students who want to master ASL and cultural skills to work alongside and on behalf of Deaf, hard of hearing, or DeafBlind people in the disciplines of human services, psychology, linguistics, or theatre/arts.

### **ACADEMIC PROGRESSION STANDARDS FOR ASL-ENGLISH INTERPRETING MAJORS**

- To begin the interpreting skills course sequence (INTP course numbers 3510 and higher), students must pass an ASL competency assessment at the intermediate/advanced level and maintain a minimum 2.750 GPA in all AMSL, INTP, and DEAF courses as well as maintain a minimum 2.500 overall GPA.
- Due to the fiduciary responsibility of professional sign language interpreters, there are technical, ethical, and dispositional standards required of progression to graduation in the ASL-English interpreting program. An individual must be able to meet the following competency standards to continue to graduation:
  - Human relations
  - Communication ability
  - Cognitive skills
  - Ethical conduct

#### ***Human Relations***

Students must demonstrate collegiality by showing respect and courtesy to colleagues, consumers, employers/site placements, and taking responsibility for one's work. Compassion, integrity, motivation, effective interpersonal skills, and concern for others are personal attributes required of those in the interpreting profession. The student must be able to work under supervision of a site instructor or preceptor; this is essential to ensure rights, safety, and privacy of interpreting clients/consumers. The student must exercise good judgment and promptly complete all responsibilities in the classroom and practical fieldwork settings. The ability to establish culturally competent relationships with individuals and groups and to respond effectively to clients who have different language and cognitive capacities is critical to interpreting practice.

#### ***Communication ability***

The student must communicate verbally in order to elicit information and to convey that information to others. Each student must have the ability to read and write accurately and comprehensively in English. The student must be able to thoroughly comprehend and fluently use ASL and speak the English language so as to facilitate communication with Deaf and hearing community members and stakeholders, including colleagues, instructors, and other students. The student must also be able to present information in a professional, logical manner and to articulate decisions that enable effective interpreting.

#### ***Cognitive Skills***

The student must show evidence of progression toward effectively integrating academic and world knowledge during simultaneous and consecutive interpretation, using appropriate cultural adjustments while managing internal and external factors and processes that result in accurate and reliable interpretations in both ASL and English.

#### ***Ethical Conduct***

The student must demonstrate self-awareness and discretion by monitoring and managing personal and professional behaviors and integrity by avoiding conflicts of interest and adhering to values reflected in the Registry of Interpreters for the Deaf (RID) professional code of conduct.

## Program Requirements

### American Sign Language-English Interpreting Major Requirements

To begin the interpreting skills course sequence (INTP course numbers 3510 and higher), students must pass an American Sign Language (ASL) competency assessment at the intermediate/advanced level and maintain a minimum of 2.750 GPA in all AMSL, INTP, and DEAF courses. Students must also maintain an overall minimum 2.500 GPA.

Students with prior ASL skills may be allowed to waive up to the first four AMSL courses by taking the language placement assessment. Waived courses must be replaced by electives.

American Sign Language (ASL) is estimated to be the third most used language in the United States and its visibility in society is on the rise

in recent years. There are roughly 500,00 to 2,000,000 Deaf, DeafBlind, or hard of hearing people in the United States who use ASL as their primary language, and a large number of non-Deaf signers use or learn ASL as a second language. A disproportionate percentage of Deaf people experience socioeconomic disadvantage due to their dual status as members of both a cultural linguistic minority group and a disability group. As a result, there is a broad societal misunderstanding of Deaf, signing people's minority language and culture—their lived experience—which creates barriers to educational and economic opportunity. While state and federal legislation enables improved civic engagement by Deaf, hard of hearing, and DeafBlind individuals, there is continued need to elevate quality of life, equity, and the rich contributions of the diverse members of the American Deaf communities.

The Bachelor of Science in American Sign Language and Human Services is an integrated program of study dedicated to preparing individuals to interact in a positive and supportive manner with members of the American Deaf Community. The curriculum is designed to assist students in acquiring competence in ASL, developing an understanding of the diverse American Deaf communities and Deaf culture, and applying linguistic and sociocultural skills and knowledge to the discipline of human services, in order to contribute to civic engagement and social justice for Deaf people.

The combined major offers a wide array of courses as well as volunteer, internship, and practicum opportunities to learn from Deaf people's lived experiences through community and industry connections. The program provides opportunities that will allow students an opportunity to acquire the linguistic, cognitive, and ethical decision-making skills as well as the sociocultural knowledge necessary to work in Deaf Community, sign-language-related disciplines. Students pursuing a combined major in human services integrate their foundation in ASL and the Deaf Community with human service organizations.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## American Sign Language and Linguistics, BS

The American Sign Language (ASL) & Linguistics combined major is an intensive program of study dedicated to preparing students to interact in a positive and supportive manner with members of the American Deaf Community while simultaneously providing students with an understanding of the theoretical, cultural, and social components of all human language, including ASL, so that they can better understand how ASL is related to spoken languages and other signed languages. This curriculum is designed to assist students in acquiring competence in American Sign Language; and in developing an understanding of the American Deaf Community and its culture, the acquisition and analysis of human languages (signed and spoken), and how human languages work in everyday use (e.g., comprehension, generation, translation).

### Program Requirements

### American Sign Language and Psychology, BS

American Sign Language (ASL) is estimated to be the third most used language in the United States and its visibility in society is on the rise in recent years. There are roughly 500,000 to 2,000,000 Deaf, DeafBlind, or hard of hearing people in the United States who use ASL as their primary language, and a large number of non-Deaf signers use or learn ASL as a second language. A disproportionate percentage of Deaf people experience socioeconomic disadvantage due to their dual status as members of both a cultural linguistic minority group and a disability group. As a result, there is a broad societal misunderstanding of Deaf, signing people's minority language and culture—their lived experience—which creates barriers to educational and economic opportunity. While state and federal legislation enables improved civic engagement by Deaf, hard of hearing, and DeafBlind individuals, there is continued need to elevate quality of life, equity, and the rich contributions of the diverse members of the American Deaf communities.

The program offers a wide array of courses as well as volunteer, co-op, and research opportunities to learn from Deaf people's lived experiences through community and industry connections.

This combined major educates students in cognitive psychology, psycholinguistics, and the structures of human languages in general and ASL in particular. The curriculum is designed to assist students in acquiring competence in ASL, develop an understanding of the diverse American Deaf communities and Deaf culture, better understand cognitive efforts of interpreters' language transfer, as well as gain insights into various features of spoken language and experience firsthand the principles underlying the spatial organization of discourse required by signed languages. This knowledge and the psychology background from the major provide a foundation for more advanced studies of ASL and interpreting or psychology and Deaf people.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## American Sign Language and Theatre, BS

The American Sign Language and Interpreting Education (ASLIE) Program curriculum is an intensive program of study dedicated to preparing individuals to interact in a positive and supportive manner with members of the American Deaf Community. This program is designed to assist students in acquiring competence in American Sign Language, developing an understanding of the American Deaf Community and its culture, and applying their linguistic and cultural skills and knowledge to a particular academic area of study.

This major is designed for students who want to combine an understanding of the American Deaf Community and its culture to the study and making of theatre, including performance, design, and production. It offers both classroom and experiential learning on the creative, social, and linguistic relationship between theatre and the American Deaf Community. Students may study acting, dramatic literature, and production design to develop the skills to be professional ASL/English interpreters and/or performers for theatrical productions.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**African Studies, Minor**

The mission of the African and African-American Studies Program is to mentor intellectual leaders, to develop emerging scholars, and to train global citizens who are able to explore the world from diverse perspectives in an ever increasingly global and interdisciplinary world. In our experiential liberal arts education model, students study culture, history, politics, and society as they relate to African and African-American studies to cultivate their thinking, reading, and writing skills through interdisciplinary class-based and experiential learning opportunities. Some of the major areas of interest and research of our faculty include the public humanities and public policy, critical race theory and empire/colonialism, criminal justice and carceral state, global public health and neglected tropical diseases, gender, sexuality, and women's studies.

Through rigorous study, co-op, study abroad, Dialogue of Civilizations, and service-learning, students have an opportunity to acquire use-inspired knowledge and competencies that will equip them with endless possibilities to flexibly fit any profession and graduate studies they may pursue in the social sciences and humanities.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

**Required Course**

### American Sign Language, Minor

The American Sign Language and Interpreting Education (ASLIE) program curriculum is an intensive program of study dedicated to preparing individuals to interact in a positive and supportive manner with members of the American Deaf Community. This program is designed to assist students in acquiring competence in American Sign Language, developing an understanding of the American Deaf Community and its culture, and applying their linguistic and cultural skills and knowledge to a particular academic area of study.

The program offers a wide array of courses as well as volunteer, internship, and practicum opportunities. For students wishing to pursue a minor in ASL, the program is committed to providing opportunities that will allow them to acquire the linguistic, cognitive, and ethical decision-making skills as well as the sociocultural knowledge necessary to work in positive and supportive ways with Deaf people.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Courses

## GPA Requirement

2.000 GPA required in the minor

### Arabic, Minor

We live in a truly global world, where the leaders of tomorrow will dwell in, and negotiate all transactions in spaces not claimed in exclusivity by a single people, language or culture. Knowing Arabic, the fifth largest language in the world in terms of speakers, will help you become a truly

global citizen. Successful completion of the minor demonstrates the attainment of intermediate to advanced proficiency in the language, as well as cultural understanding and agility. It also opens before you a fascinating cultural and intellectual world in and beyond the classroom with a myriad of opportunities to travel, live and work abroad.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Students will be required to take a total of five classes. These classes may include courses and language classes at or above the intermediate level in Dialogues of Civilization at NU. A maximum of two courses of transfer credits, including transferable courses taken abroad, may count towards the five classes in the minor.

### Required Culture Courses

Code	Title	Hours
CLTR 1120	Introduction to Languages, Literature, and Culture	4

### Required Language Courses

Students may waive any of these courses by taking the language exam in the World Languages Center.

Code	Title	Hours
ARAB 2101	Intermediate Arabic 1	4
ARAB 2102	Intermediate Arabic 2	4

### Electives

Code	Title	Hours
ARAB 4992	Directed Study

**Film and International Cultures, Minor**

The minor in Film and International Cultures allows students to study the rapidly expanding global visual culture. Students will explore the history, theory, aesthetics and criticism of film and other moving-image media on a global scale and in relation to culture, other arts, politics and propaganda. The minor also explores how the image and the film/propaganda industry shape the world we live in and the ways in which we conceive of ourselves and others.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

*Note:* At least two of the courses taken for the minor must be at or above the 2000 level.

**Required Culture Courses**

Code	Title	Hours
CLTR 1120	Introduction to Languages, Literature, and Culture	4
CLTR 2001	World Cultures through Film	4

**Film and Culture Study**

Code	Title	Hours
Select one of the following pairings:		8
CLTR 1240 and CLTR 1505	Latin American Film and Latin American Culture, History, and Politics

### Spanish, Minor

Spanish is the second most spoken language in the world. It is used in more than twenty countries, including the United States. In fact, in terms of the number of speakers, the United States is the second largest Spanish-speaking country in the planet. Being a Spanish speaker is a major professional and cultural asset as it prepares you to be successful in any career path. Yet, in our society, knowing Spanish is not just an asset; it is increasingly a necessity. Not only does proficiency in Spanish prepare you to be a leader in a country where Hispanics are the fastest growing segment of the population and where Spanish-speakers are the

vast majority of the population in the hemisphere. Knowing Spanish also makes you a truly global citizen. Successful completion of the minor demonstrates the attainment of intermediate to advanced proficiency in the language, as well as cultural understanding and agility. It also opens before you a fascinating cultural and intellectual world in and beyond the classroom with a myriad of opportunities to travel, live and work abroad.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Students will be required to take a total of five classes. These classes may include courses and language classes at or above the intermediate level in Dialogues of Civilization at NU. A maximum of two courses of transfer credits, including transferable courses taken abroad, may count towards the five classes in the minor.

### Required Culture Course

This course must be taken on campus. It may not be replaced by courses taken on Dialogue programs, through study abroad or at another institution.

Code	Title	Hours
CLTR 1120	Introduction to Languages, Literature, and Culture	4
or SPNS 3101	Advanced Spanish 1	
or SPNS 3102	Advanced Spanish 2: Hispanic and Latinx Identity	

### Required Language Courses

Students may waive one or both of the courses below by taking the language exam in the World Language Center. Waived courses must be replaced by electives. Please see the elective list for options.

Code	Title	Hours
SPNS 2101	Intermediate Spanish 1	4
or SPNS 2301		
or SPNS 2401	Intermediate Spanish 1 for Healthcare Professionals	
SPNS 2102	Intermediate Spanish 2	4
or SPNS 2302		
or SPNS 2402	Intermediate Spanish 2 for Healthcare Professionals	

### Electives

Take at least two of the following. If one or both of the intermediate level courses were waived, please complete additional electives to reach five total courses for the Spanish minor.

Code	Title	Hours
ANTH 4500	Latin American Society and Development	
or INTL 4500		
CLTR 1240	Latin American Film	
CLTR 1504	Cultural History of Spain	
CLTR 1505	Latin American Culture, History, and Politics	
CLTR 2715	New Media Narratives in Latin America: Local and Global Dimensions	
CLTR 3715	New Narratives: Latin America after 1989	

CLTR 3720	Literature, Arts, and Poverty in Latin America
CLTR 3725	Representing Violence and Human Rights in Latin America
CLTR 3805	Culture, Politics, and Media in Spain
CLTR 4655	Latin American Literature
CLTR 4944	Cultural Engagement Abroad
HIST 1187	Introduction to Latin American History
LACS 1220	Latino, Latin American, and Caribbean Studies
SPNS 2900	Specialized Instruction in Spanish
SPNS 3101	Advanced Spanish 1
or SPNS 3301	
SPNS 3102	Advanced Spanish 2: Hispanic and Latinx Identity
or SPNS 3302	
SPNS 3501	Advanced Spanish Conversation: Global Communication
SPNS 3601	Exploring Spoken Spanish
SPNS 3800	Special Topics in Spanish
SPNS 3900	Specialized Instruction in Spanish
SPNS 4800	Special Topics in Spanish

### GPA Requirement

2.000 GPA required in the minor

## Economics

Website (<http://www.northeastern.edu/cssh/economics/>)

### Robert Triest, PhD

Professor and Chair

617.373.2882

617.373.3640 (fax)

[econ@northeastern.edu](mailto:econ@northeastern.edu)

Economics is the study of how societies produce and exchange goods and services to satisfy needs. Undergraduates may study economics to develop specialized analytical skills useful in today's complex labor market. Economics is distinguished among the social sciences by having a systematic normative as well as a positive framework for evaluating public policy. The major in economics is also a good foundation for graduate studies in advanced economics, public policy, law, or business.

Macroeconomics, which focuses on the overall economy, deals with such problems as inflation, unemployment, growth and instability, economic development, and governmental monetary and fiscal policies.

Microeconomics examines the economic behavior of individuals, households, firms, industries, and trade among countries. It seeks to assess the economic effects of market power and environmental damage and analyzes the economic aspects of natural resources, poverty, health, income distribution, trade unions, crime, and government regulation.

Courses in economics cover international trade; the behavior of families, firms, and industries in the market economy; the environmental costs of growth; and the economic aspects of natural resources, poverty, health, labor market discrimination, trade unions, crime, and governmental oversight. International and comparative perspectives are emphasized,

most directly in courses in studies of the developing world and economic history.

Students may pursue a BA, a BS, or a minor in economics. Additionally, economics majors in their junior year may qualify for admission to the PlusOne program that combines the BA or BS with a MS in economics. The department also offers combined majors with business administration, computer science, cybersecurity, data science, environmental and sustainability sciences, history, international affairs, mathematics, philosophy, political science, psychology, and human services, as well as an interdisciplinary major in politics, philosophy, and economics.

Graduates may find jobs in major corporations; financial institutions; nonprofits; NGOs; or federal, state, and local governments. Their work may involve planning and forecasting, assessing labor needs, and undertaking financial studies. They may estimate consumer demand for new products, conduct research, teach, or provide specialized consulting services.

## Academic Progression Standards

The following are the requirements to progress in the major:

Code	Title	Hours
The following three core courses should be completed first:		12
ECON 1115	Principles of Macroeconomics	
ECON 1116	Principles of Microeconomics	
MATH 1231	Calculus for Business and Economics	
The following four core courses should be completed by the end of sophomore year:		16
ECON 2315	Macroeconomic Theory	
ECON 2316	Microeconomic Theory	
ECON 2350	Statistics	
ECON 2560	Applied Econometrics	

## PlusOne Program (MS) in Economics

The PlusOne Program in Economics provides the opportunity for Northeastern's undergraduate majors to complete both the undergraduate degree program (BS or BA) and the professional master's program (MS) in economics in less time than if the programs were completed sequentially. Undergraduate students may apply to the program as early as the end of their sophomore year or the beginning of their junior year. Students must demonstrate a strong quantitative background. One additional year of graduate study is required to complete the master's program. Students interested in this option should consult with the departmental undergraduate and graduate directors.

## Programs

### Bachelor of Arts (BA)

- Economics (p. 903)
- History and Economics (p. 904)
- International Affairs and Economics (p. 906)
- Political Science and Economics (p. 910)

### Bachelor of Science (BS)

- Economics (p. 913)
- Computer Science and Economics (p. 351)
- Cybersecurity and Economics (p. 394)
- Data Science and Economics (p. 411)
- Economics and Business Administration (p. 279)

- Economics and Human Services (p. 919)
- Economics and Mathematics (p. 742)
- Economics and Philosophy (p. 922)
- Economics and Psychology (p. 797)
- Environmental and Sustainability Studies and Economics (p. 713)
- History and Economics (p. 928)
- Political Science and Economics (p. 929)
- Politics, Philosophy, and Economics (p. 821)

## Minor

- Economics (p. 935)

## Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. )

## Economics, BA

The Bachelor of Arts degree in economics maintains the tradition of the liberal arts with the language and arts courses required to satisfy the university's BA degree requirements. Along with the six core courses in economics, students may choose from over 40 electives. Many of these electives continue this liberal arts tradition with courses that focus on economic literature, economic history, the history of economic thought, and political economy. Students considering future doctoral studies in economics are strongly encouraged to pursue a double major in economics (BS) and mathematics (BS) or choose our combined economics/mathematics major.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Economics Major Requirements for BA

Code	Title	Hours
<b>Required Economics Courses</b>		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4
<b>Senior Seminar</b>		
ECON 4692	Senior Economics Seminar	4

### Economics Electives for BA

Code	Title	Hours
Complete 5 courses that are found in the following ranges, with no more than one in the ECON 1200 to ECON 1999 range:		20
ECON 1200 to ECON 1999		
ECON 3000 to ECON 4689		
ECON 4900 to ECON 4999		
ECON 5200 to ECON 5999		

### Breadth Courses for Economics Major

Code	Title	Hours
<b>Calculus</b>		
MATH 1231	Calculus for Business and Economics	4
or MATH 1241	Calculus 1	
or MATH 1245	Calculus with Applications	
or MATH 1251	Calculus and Differential Equations for Biology 1	
or MATH 1340	Intensive Calculus for Engineers	
or MATH 1341	Calculus 1 for Science and Engineering	
<b>Computer Science</b>		
Complete one of the following:		4
CS 1100	Computer Science and Its Applications	
DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
MISM 2510	Fundamentals of Information Analytics	

### Economics Major GPA/Credit Requirement

Grades in the following four courses must average to a minimum of C (2.000):

Code	Title	Hours
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4

Complete 56 semester hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

128 total semester hours required

### Plan of Study

#### Four Years, Two Co-ops in Summer 2/Fall

Year 1							
Fall	Hours	Spring	Hours	Summer 1	Hours	Summer 2	Hours
ECON 1000	1	CS 1100, MISM 2510, or DS 2000 and DS 2001	4	Elective	4	Elective	4
ECON 1115	4	ECON 1116	4	ECON elective 1	4	Elective	4

Total Hours: 130

## History and Economics, BA

The Department of History and the Department of Economics offer an interdisciplinary combined major in history and economics. Students interested in the combined major integrate the study of economic systems and theories with the study and analysis of human history.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## History Requirements

Code	Title	Hours
<b>History Colloquium</b>		
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
<b>Introductory Level</b>		
Complete one history course from the 1000 level (except from HIST 1200 and HIST 1201).		4
<b>History Seminar and Historical Writing</b>		
HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1
<b>Pre-1800 History Elective</b>		
Complete one of the following:		4
HIST 1185	Introduction to Middle Eastern History	
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1252	Japanese Literature and Culture	
HIST 1272	Europe in the Middle Ages, 500–1500	
HIST 1285	Introduction to Russian Civilization	
HIST 2370	Renaissance to Enlightenment	
HIST 2375	The Tudors, the Stuarts, and the Birth of Modern Britain	
HIST 2330	Colonial and Revolutionary America	
<b>Intermediate/Advanced History Courses</b>		
Complete four history courses numbered 2000 or above, excluding HIST 2301 and HIST 2302.		16
<b>Advanced History</b>		
Complete one history course at the 3000 level or above.		4

## Economics Requirements

Code	Title	Hours
<b>Introduction to College</b>		
ECON 1000	Economics at Northeastern	1
or HIST 1000	History at Northeastern	
<b>Required Economics Courses</b>		
ECON 1115	<i>Principles of Macroeconomics</i>	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4
ECON 3520	History of Economic Thought	4
<b>Economics Electives</b>		

Complete two economics elective courses that are found in the following ranges, with no more than one in the ECON 1200 to ECON 1999 range. Additionally, courses used to satisfy the integrative course requirement and ECON 3520 may not be used as economics electives:

ECON 1200 to ECON 1999

ECON 3000 to ECON 4689

ECON 4900 to ECON 4999

ECON 5200 to ECON 5999

### Supplemental Courses

CS 1100	Computer Science and Its Applications	4
or MISM 2510	Fundamentals of Information Analytics	
or DS 2000	Programming with Data	
and DS 2001	and Data Science Programming Practicum	
MATH 1231	Calculus for Business and Economics	4
or MATH 1241	Calculus 1	
or MATH 1245	Calculus with Applications	
or MATH 1251	Calculus and Differential Equations for Biology 1	
or MATH 1340	Intensive Calculus for Engineers	
or MATH 1341	Calculus 1 for Science and Engineering	

## Capstone Requirements

Code	Title	Hours
Complete one of the following options (Public History concentrations complete HIST 4903 and HIST 4904):		4
ECON 4692	Senior Economics Seminar	
HIST 4701	Capstone Seminar	

## Integrative Requirement

Code	Title	Hours
Complete one of the following:		4
ECON 3470	American Economic History	
ECON 1292	Economic History of the Middle East	
HIST 2360	History of Capitalism in East Asia	
HIST 2011	Capitalism and Business: A Global History	

## History and Economics Major GPA/Credit Requirement

Grades in the following four economics courses must average a minimum of C (2.000):

Code	Title	Hours
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4

Complete 92 semester hours in the major.

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirement

128 total semester hours required

**Plan of Study****Four Years, Two Co-ops in Summer 2/Fall****Year 1**

**International Affairs and Economics, BA**

This combined major fosters an awareness of global affairs and international economic issues since the early 20th century through diverse and cross-disciplinary theories of economic development and growth; states, societies, and markets (the intersection of politics and economics); and the role of states, civil societies, and social movements in crafting or addressing economic strategies, inequalities, and citizenship rights.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**International Affairs Requirements**

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. See department for additional courses.

Code	Title	Hours
<b>International Affairs/Economics at Northeastern</b>		
INTL 1000 or ECON 1000	International Affairs at Northeastern or Economics at Northeastern	1

**Required Courses**

INTL 1101	Globalization and International Affairs	4
INTL 3400	International Conflict and Negotiation	4
POLS 1160	International Relations	4
ANTH 1101	Peoples and Cultures	4
or HIST 2211	The World Since 1945	
or HIST 2311	Colonialism/Imperialism	

**International Experiential Learning**

Complete at least one "international semester" via study abroad, international internship, international co-op, or two short-term programs.

**International Affairs Elective**

Code	Title	Hours
Complete one of the following courses:		
		4

Code	Title	Hours
INTL 2240	Global Population and Development	
INTL 2480	Women and World Politics	
INTL 2500	Race and Global Human Mobility	
INTL 3200	Cities in a Global Context	
INTL 3430	Revolution, Civil War, and Insurrection	

INTL 3450	Security, Culture, Power
INTL 3520	Global Political Economy
INTL 4100	Forced Migration: Refugees, Exiles, and Displaced Persons
INTL 5100	Climate and Development

### Global Dynamics Requirement

Code	Title	Hours
Complete two of the following with one course numbered 2000 or above. Courses are divided into thematic groups to aid students in deciding which courses to take and have no bearing on major requirements:		8

Code	Title	Hours
<i>Environment</i>		
ENVR 1110	Global Climate Change

HIST 1286	History of the Soviet Union

ECON 4692	Senior Economics Seminar	4
or INTL 4700	Senior Capstone Seminar in International Affairs	

### International Affairs and Economics Combined-Major GPA

Grades in the following Economics courses must average to a minimum of C (2.000):

Code	Title	Hours
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4

### International Affairs and Economics Combined-Major Credit Requirement

Complete 88 semester hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

128 total semester hours required

### Plan of Study

#### Four Years, Two Co-ops in Summer 2/Fall

Year 1				
Fall	Hours Spring	Hours Summer 1	Hours Summer 2	Hours
INTL 1000	1 MATH 1231, 1241, 1245, 1251, 1340, or 1341	4 ECON elective 1	4 Elective	4

	16	16	8	0
Year 3				
Fall	Hours Spring	Hours Summer 1	Hours Summer 2	Hours
Co-op	0 INTL 3400	4 Elective	4 Co-op	0
	Elective	4 INTL elective	4	
	ECON 3520	4		

### International Affairs Foreign Language Requirement

Complete coursework in a language through at least intermediate-level two. *Note:* Completing this requirement satisfies the language requirement for the BA degree.

### Economics Requirements

Code	Title	Hours
<b>Required Economics Courses</b>		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 3520	History of Economic Thought	4

### Economics Electives

Code	Title	Hours
Complete 3 Economics elective courses from the following ranges with no more than 1 in the ECON 1200 to ECON 1999 range. Additionally, courses used to satisfy international affairs requirements, courses used to satisfy the integrative courses requirement, and ECON 3520 may not be used as Economics electives.		
ECON 1200 to ECON 1999		12
ECON 3000 to ECON 4689		
ECON 4900 to ECON 4999		
ECON 5200 to ECON 5999		

### Supporting Courses

Code	Title	Hours
<b>Calculus</b>		
MATH 1231	Calculus for Business and Economics	4
or MATH 1241	Calculus 1	
or MATH 1245	Calculus with Applications	
or MATH 1251	Calculus and Differential Equations for Biology 1	
or MATH 1340	Intensive Calculus for Engineers	
or MATH 1341	Calculus 1 for Science and Engineering	

### Methods

CS 1100	Computer Science and Its Applications	4
or INTL 2718	Research Methods in International Affairs	
or MISM 2510	Fundamentals of Information Analytics	
or DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	

### Integrative Requirements

Code	Title	Hours
<b>Development Economics</b>		
ECON 1291	Development Economics	4

### Senior Seminar

Complete one of the following with a thesis or project that integrates both international affairs and economics:

	INTL Elective	4		
	0	16	8	0
<b>Year 4</b>				
<b>Fall</b>	<b>Hours</b>	<b>Spring</b>	<b>Hours</b>	
Co-op	0	ECON elective 3	4	
		INTL elective	4	
		INTL Elective	4	
		ECON 4692	4	
		or INTL 4700		
	0	16		

Total Hours: 129

## Political Science and Economics, BA

The combined major in political science and economics offers students the opportunity to integrate the study of politics and government with the study of economics. Students complete the core courses in political science along with core courses in economics that cover both macroeconomic and microeconomic perspectives. This combined major highlights the important role that the economy plays in shaping politics and government.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Political Science Requirements

Code	Title	Hours
<b>Political Science Requirements</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
<b>Political Theory</b>		
Complete one of the following:		4
POLS 2330	American Political Thought	
POLS 2325	Ancient Philosophy and Political Thought	
POLS 2328	Modern Political Thought	
POLS 2332	Contemporary Political Thought	

### Political Science Electives

Complete four courses POLS2000 to POLS5999	16
--	----

### Political Science Concentrations (Optional)

If you are working toward one of the following concentrations, declare it with your advisor so that it may be added to your record. Requirements for the concentrations are listed below.

- American Political Institutions (p. 911)
- Campaigns and Elections (p. 911)
- Comparative Politics (p. 911)
- Identity, Culture, and Politics (p. 911)
- International Relations and Diplomacy (p. 912)
- Law and Legal Studies (p. 912)
- Public Policy (p. 912)
- Security Studies (p. 912)

### Economics Requirements for BA

Code	Title	Hours
<b>Breadth Courses</b>		
MATH 1231	Calculus for Business and Economics	4
or MATH 1241	Calculus 1	
or MATH 1245	Calculus with Applications	
or MATH 1251	Calculus and Differential Equations for Biology 1	
or MATH 1340	Intensive Calculus for Engineers	
or MATH 1341	Calculus 1 for Science and Engineering	
CS 1100	Computer Science and Its Applications	4
or DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
or MISM 2510	Fundamentals of Information Analytics	

### Required Economics Courses

ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 3520	History of Economic Thought	4

### Economics Electives

Complete 3 Economics elective courses that are found in the following ranges, with no more than 1 in the ECON 1200 to ECON 1999 range. Additionally, ECON 3520 may not be used as an Economics elective:

ECON 1200 to ECON 1999
ECON 3000 to ECON 4689
ECON 4900 to ECON 4999
ECON 5200 to ECON 5999

### Supporting Courses

Complete either of the statistics and departmental elective combinations listed below:

#### COMBINATION A

Code	Title	Hours
<b>Statistics</b>		
POLS 2400	Quantitative Techniques	4
<b>Economics</b>		

Complete one course within the following ranges, excluding ECON 3520. This course may not also be used as an Economics elective: 4

ECON 1200 to ECON 1999

ECON 3000 to ECON 4689

ECON 4900 to ECON 4999

ECON 5200 to ECON 5999

### COMBINATION B

Code	Title	Hours
------	-------	-------

#### Statistics

ECON 2350	Statistics	4
-----------	------------	---

#### Political Science

Complete one course in the following range: 4

POLS 2401 to POLS 5999

### Integrative Requirements

Code	Title	Hours
------	-------	-------

#### Senior Seminar/Capstone

Complete one of the following: 4

ECON 4692 Senior Economics Seminar

POLS 4701 Political Science Senior Capstone

POLS 4703 Senior Thesis

### Combined Major GPA/Credit Requirement

Grades in the following required Economics courses and in Quantitative Techniques (POLS 2400) or Statistics (ECON 2350) must average to a minimum of C (2.000):

Code	Title	Hours
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
or POLS 2400	Quantitative Techniques	

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

128 total semester hours required

## Concentrations

### CONCENTRATION IN AMERICAN POLITICAL INSTITUTIONS

Code	Title	Hours
------	-------	-------

Complete four of the following: 16

POLS 2350 State and Local Politics

POLS 3300 The U.S. Congress

POLS 3302 Judicial Process and Behavior

POLS 3307 Public Policy and Administration

POLS 3310 Public Opinion, Voting, and Elections

POLS 3160 Campaign Strategy

### CONCENTRATION IN CAMPAIGNS AND ELECTIONS

Code	Title	Hours
------	-------	-------

#### Required Courses

POLS 3160	Campaign Strategy	4
-----------	-------------------	---

POLS 3302	Judicial Process and Behavior	4
-----------	-------------------------------	---

#### Campaigns and Elections Electives

If POLS 4947 was replaced by a co-op or internship, an additional elective must be taken.

Complete two of the following: 8

POLS 2345 Urban Policies and Politics

POLS 2350 State and Local Politics

POLS 2355 Intergovernmental Relations

POLS 3310 Public Opinion, Voting, and Elections

POLS 3320 Politics and Mass Media

POLS 3304 Presidential Nominating Process

### CONCENTRATION IN COMPARATIVE POLITICS

Code	Title	Hours
------	-------	-------

#### Theoretical Requirement

Complete one of the following: 4

POLS 2370 Religion and Politics

POLS 3418 Nationalism

POLS 3430 Revolution, Civil War, and Insurrection

POLS 3487 Politics of Developing Nations

#### Regional Requirements

Complete two of the following: 8

POLS 3435 Politics and Governance of Europe and the European Union

POLS 3465 Government and Politics in the Middle East

POLS 3470 Arab-Israeli Conflict

#### Experiential/Practicum Requirement

Complete one of the following: 4

POLS 4915 Model Arab League

POLS 4918 Model NATO

POLS 4937 Dialogue of Civilizations: Government and Politics Abroad

### CONCENTRATION IN IDENTITY, CULTURE, AND POLITICS

Code	Title	Hours
------	-------	-------

#### Core Course

POLS 3418	Nationalism	4
-----------	-------------	---

#### Electives

Complete three of the following: 12

POLS 2368 Music and Politics in America and Abroad

POLS 2370 Religion and Politics

POLS 2375 Gender and Politics

POLS 3309 Lesbian, Gay, Bisexual, and Transgender Issues in Public Policy

POLS 3324 Law and Society

**CONCENTRATION IN INTERNATIONAL RELATIONS AND DIPLOMACY**

Code	Title	Hours
<b>Experiential/Practicum Requirement</b>		
Complete one of the following:		4
POLS 4910	Model United Nations	
POLS 4915	Model Arab League	
POLS 4938	Dialogue of Civilizations: International Politics Abroad	

<b>Core Courses</b>		
Complete three of the following:		12
POLS 3405	International Political Economy	
POLS 3406	International Law	
POLS 3408	International Security	
POLS 3435	Politics and Governance of Europe and the European Union	
POLS 3470	Arab-Israeli Conflict	

**CONCENTRATION IN LAW AND LEGAL STUDIES**

Code	Title	Hours
Complete four of the following:		16
POLS 2330	American Political Thought	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3324	Law and Society	
POLS 3406	International Law	
POLS 3409	Global Governance	
POLS 4500	U.S. Constitutional Law	
POLS 4505	U.S. Civil Liberties	

**CONCENTRATION IN PUBLIC POLICY**

Code	Title	Hours
<b>Core Requirement</b>		
POLS 3307	Public Policy and Administration	4
<b>Electives</b>		
Complete three of the following:		12
POLS 2335	Budgeting and Taxation	
POLS 2340	Business and Government	
POLS 2345	Urban Policies and Politics	
POLS 2350	State and Local Politics	
POLS 2357	Growth and Decline of Cities and Suburbs	
POLS 2390	Science, Technology, and Public Policy	
POLS 2395	Environmental Politics and Policy	
POLS 3425	U.S. Foreign Policy	

**CONCENTRATION IN SECURITY STUDIES**

Code	Title	Hours
Complete four of the following:		16
POLS 3408	International Security	
POLS 3420	U.S. National Security Policy	
POLS 3423	Terrorism and Counterterrorism	
POLS 3425	U.S. Foreign Policy	
POLS 3430	Revolution, Civil War, and Insurrection	

POLS 3470	Arab-Israeli Conflict
POLS 3487	Politics of Developing Nations

**Plan of Study**

**Four Years, Two Co-ops in Summer 2/Fall**

<b>Year 1</b>					
Fall	Hours	Spring	Hours	Summer 1	Hours

Total Hours: 128

## Economics, BS

The Bachelor of Science degree focuses attention on the use of mathematics in economic models in the six core courses and many of the required seven electives. The BS degree allows ample room to take courses such as economic development, game theory, and mathematical economics in addition to more supporting courses in the mathematics and computer science departments. Students considering future doctoral studies in economics are strongly encouraged to pursue a double major in economics (BS) and mathematics (BS) or to choose our combined economics/mathematics major.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### Economics Major Requirements for BS

Code	Title	Hours
<b>Required Economics Courses</b>		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4
<b>Senior Seminar</b>		
ECON 4692	Senior Economics Seminar	4

### Electives for BS in Economics

Code	Title	Hours
Complete seven courses found in the following ranges, with no more than two at the 1000 level: 28		
ECON 1200 to ECON 1999		
ECON 3000 to ECON 4689		
ECON 4900 to ECON 4999		
ECON 5200 to ECON 5999		

### Breadth Courses for Economics Major

Code	Title	Hours
<b>Calculus</b>		
MATH 1231	Calculus for Business and Economics	4
or MATH 1241	Calculus 1	
or MATH 1245	Calculus with Applications	
or MATH 1251	Calculus and Differential Equations for Biology 1	
or MATH 1340	Intensive Calculus for Engineers	
or MATH 1341	Calculus 1 for Science and Engineering	

### Computer Science

CS 1100	Computer Science and Its Applications	4
or DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
or MISM 2510	Fundamentals of Information Analytics	

### Economics Major GPA/Credit Requirement

Grades in the following 4 Economics courses must average to a minimum of C (2.000):

Code	Title	Hours
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4

Complete 64 semester hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

128 total semester hours required

### Plan of Study

## Computer Science and Economics, BS

The combined major in computer science and economics integrates fundamental economics courses with a strong programming foundation. Studying both the behavior of individuals and the collective behavior of industries and governments, students will utilize computing skills to address complex issues within the field.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200 or ECON 1000	First Year Seminar Economics at Northeastern	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
CS 2800 and CS 2801	Logic and Computation and Lab for CS 2800	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
IS 2000	Principles of Information Science	4

Choose one		4
IS 4200	Information Retrieval	
IS 4300	Human Computer Interaction	
<b>Khoury Elective</b>		
With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.		
Complete 8 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:		8
CS 2500 or higher, except CS 5010		
CY 2000 or higher, except CY 4930		
DS 2500 or higher, except DS 4900		
IS 2000 or higher, except IS 4900		

### Economics Requirements

Code	Title	Hours
<b>Required Economics Courses</b>		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4
<b>Economics Electives</b>		
Complete 4 Economics elective courses from the following ranges with no more than 2 at the ECON 1200 – ECON 1999 range:		16
ECON 1200 to ECON 1999		
ECON 3000 to ECON 4689		
ECON 4900 to ECON 4999		
ECON 5200 to ECON 5999		
<b>Economics Capstone</b>		
ECON 4692	Senior Economics Seminar	4

### Integrative Course Requirement

Code	Title	Hours
The following courses are used in other areas of the major:		
IS 2000	Principles of Information Science	4
ECON 2560	Applied Econometrics	4

### Supporting Courses

Code	Title	Hours
<b>Mathematics</b>		
MATH 1231 or MATH 1241	Calculus for Business and Economics Calculus 1	4
or MATH 1245	Calculus with Applications	
or MATH 1251	Calculus and Differential Equations for Biology 1	
or MATH 1340	Intensive Calculus for Engineers	
or MATH 1341	Calculus 1 for Science and Engineering	
<b>Computing and Social Issues</b>		
Complete one of the following:		4
AFAM 2600	Issues in Race, Science, and Technology	
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	

CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights
ENGL 2150	Literature and Digital Diversity
HIST 2220	History of Technology
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks
IS 1300 or PHIL 1300	Knowledge in a Digital World
PHIL 1145	Technology and Human Values
SOCL 1280	The Twenty-First-Century Workplace
SOCL 2485	Environment, Technology, and Society
SOCL 4528	Computers and Society

### Computer Science English Requirement

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111 or ENGW 1102	First-Year Writing First-Year Writing for Multilingual Writers	4

### Advanced Writing in the Disciplines

Complete one course from the following:		4
ENGW 3302	Advanced Writing in the Technical Professions	
ENGW 3308	Advanced Writing in the Social Sciences	
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

### Required General Electives

Code	Title	Hours
	Complete 24 credits of general electives.	24

### Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

### Economics GPA Requirement

Grades in the following required Economics courses must average to a minimum of C (2.000):

Code	Title	Hours
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4

### NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Exploring Creative Expression and Innovation
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major

- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

### Computer Science and Economics Major Credit Requirement

Minimum of 100 SH is required in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

134 total semester hours required

### Plan of Study

## Cybersecurity and Economics, BS

The cybersecurity and economics combined degree applies a multidisciplinary approach integrating fundamental economics courses with a strong programming foundation. Students will study both the behavior of individuals and the collective behavior of industries and governments, utilizing computing skills to ensure the reliability and security of cyberspace.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Cybersecurity Major Requirements

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200 or ECON 1000	First Year Seminar Economics at Northeastern	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamentals Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 3650	Computer Systems	4
CS 3700	Networks and Distributed Systems	4
<b>Cybersecurity Required Courses</b>		
CY 2550	Foundations of Cybersecurity	4
CY 3740	Systems Security	4

CY 4740	Network Security	4
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	4
or CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
<b>Cybersecurity Elective</b>		
Complete one of the following:		4
CS 2800	Logic and Computation	
CS 4710	Mobile and Wireless Systems	
CS 4400	Programming Languages	
CS 4500	Software Development	
CS 4240	Large-Scale Parallel Data Processing	
CY 4770	Cryptography	
DS 4300	Large-Scale Information Storage and Retrieval	
DS 4400	Machine Learning and Data Mining 1	
CY 5200	Security Risk Management and Assessment	
CY 5210	Information System Forensics	
CY 5770	Software Vulnerabilities and Security	
IS 4300	Human Computer Interaction	
EECE 2322 and EECE 2323	Fundamentals of Digital Design and Computer Organization and Lab for EECE 2322	
EECE 3324	Computer Architecture and Organization	
EECE 4534 and EECE 4535	Microprocessor-Based Design and Lab for EECE 4534	
MATH 3527	Number Theory 1	
MATH 4575	Introduction to Cryptography	
COMM 2551	Free Speech in Cyberspace	
CRIM 2340	Corporate Security: Securing the Private Sector	
CRIM 3030	Global Criminology	
CRIM 4040	Crime Prevention	
LPSC 1101	Introduction to Law	
LPSC 2301	Introduction to Law, Policy, and Society	
LPSC 3303	Topics in Law and Public Policy	
PHIL 1145	Technology and Human Values	
POLS 2390	Science, Technology, and Public Policy	
POLS 3307	Public Policy and Administration	
POLS 3324	Law and Society	
POLS 3406	International Law	
POLS 3408	International Security	
POLS 3420	U.S. National Security Policy	
POLS 3423	Terrorism and Counterterrorism	

### Supporting Course

Code	Title	Hours
MATH 1231 or MATH 1241 or MATH 1245 or MATH 1251 or MATH 1340 or MATH 1341	Calculus for Business and Economics Calculus 1 Calculus with Applications Calculus and Differential Equations for Biology 1 Intensive Calculus for Engineers Calculus 1 for Science and Engineering	4

**Computer Science Writing Requirement**

Code	Title	Hours
<b>College Writing</b>		
Complete one of the following:		4
ENGW 1111	First-Year Writing	
ENGW 1102	First-Year Writing for Multilingual Writers	
<b>Advanced Writing in the Disciplines</b>		
Complete one of the following:		4
ENGW 3302	Advanced Writing in the Technical Professions	
ENGW 3308	Advanced Writing in the Social Sciences	
ENGW 3311	Advanced Writing for Prelaw	
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines

## Economics and Business Administration, BS

Economics and business administration is our most popular combined major, integrating the underlying economic theories and models and their business applications. After satisfying the core courses in economics, there are over 40 electives from which to choose to complete this combined major.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Economics Requirements

Code	Title	Hours
<b>Introduction to College</b>		
ECON 1000 or BUSN 1102	Economics at Northeastern Personal Skill Development for Business	1
<b>Required Economics Courses</b>		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350 or MGSC 2301	Statistics Business Statistics	4
ECON 2560	Applied Econometrics	4
<b>Economics Electives</b>		
Complete four courses that are found in the following ranges, with no more than one at the introductory (1000) level:		16
ECON 1200 to ECON 1999		
ECON 3000 to ECON 4689		
ECON 4900 to ECON 4999		
ECON 5200 to ECON 5999		

### Business Requirements

Code	Title	Hours
<b>Accounting</b>		
ACCT 1201	Financial Accounting and Reporting	4
ACCT 2301	Managerial Accounting	4
<b>Finance</b>		
FINA 2201	Financial Management	4
<b>Marketing</b>		

MKTG 2201	Introduction to Marketing	4
<b>Organizational Behavior</b>		
ORGB 3201	Organizational Behavior	4
<b>International Business/Social Responsibility</b>		
INTB 1203	International Business and Global Social Responsibility	4

### Business Concentration

Complete one of the following business concentrations:

- Accounting (p. 290)
- Brand Management (p. 290)
- Business Analytics (p. 291)
- Corporate Innovation and Venture (p. 291)
- Entrepreneurial Startups (p. 291)
- Family Business (p. 292)
- Finance (p. 292)
- Fintech (p. 293)
- Healthcare Management and Consulting (p. 293)
- International Business (p. 294) (available only as a second concentration)
- Management (p. 294)
- Management Information Systems (p. 295)
- Marketing (p. 295)
- Marketing Analytics (p. 296)
- Social Innovation and Entrepreneurship (p. 296)
- Supply Chain Management (p. 297)

### Business Cooperative Education Requirement

Complete one six-month co-op experience.

### Supporting Courses

Code	Title	Hours
<b>Mathematics</b>		
MATH 1231 or MATH 1241 or MATH 1245 or MATH 1251 or MATH 1340 or MATH 1341	Calculus for Business and Economics Calculus 1 Calculus with Applications Calculus and Differential Equations for Biology 1 Intensive Calculus for Engineers Calculus 1 for Science and Engineering	4
<b>Computer Science</b>		
Complete one of the following:		4
CS 1100	Computer Science and Its Applications	
DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
MISM 2510	Fundamentals of Information Analytics	
<b>Co-op Preparation</b>		
BUSN 1103 or EESH 2000	Professional Development for Business Co-op Professional Development for Co-op	1
<b>Capstone Requirement</b>		
ECON 4692	Senior Economics Seminar	4
STRT 4501	Strategy in Action	4

## Economics GPA Requirement

Grades in the following four economics courses must average to a minimum of C (2.000):

Code	Title	Hours
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350 or MGSC 2301	Statistics Business Statistics	4
ECON 2560	Applied Econometrics	4

## Business GPA Requirement

Minimum 2.000 GPA required in business courses

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirement

128 total semester hours required

## Economics and Human Services, BS

This combined degree in human services and economics provides students with the opportunity to obtain the skills and knowledge related to each of these areas of study and an in-depth understanding of how these fields inform and impact each other. The study of economics provides students with an understanding of how individuals, firms, governments, and other organizations behave and interact with each other at both a macro and micro level. The study and practice of human services organizations focus on the impact of economic conditions on individuals, families, and communities. Human services organizations and policies use economic theory to inform responses to societal and economic challenges. Students will pair this knowledge with an understanding of how economics uses data and economic reasoning to help decision makers, businesses, and governments develop better public policy. This degree provides students with both the theoretical and practical curricula utilizing interdisciplinary thinking about inequality and nonprofit/government responses.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Overview and Co-op Courses

**Economics and Mathematics, BS**

Given the mathematical and graphical models used extensively in economics, economics and mathematics are natural partners. Our combined major with mathematics is designed for students who

want to further develop their mathematics skills to enhance their understanding and interest in economics. This combined major is strongly recommended for students with an interest in pursuing graduate studies in economics.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Economics Requirements**

Code	Title	Hours
<b>Introduction to College</b>		
ECON 1000	Economics at Northeastern	1
or MATH 1000	Mathematics at Northeastern	
<b>Required Economics</b>		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2560	Applied Econometrics	4
<b>Economics Electives</b>		
Complete 4 economics electives found in the following ranges, with no more than two in the ECON 1200 to ECON 1999 range:		16
ECON 1200 to ECON 1999		
ECON 3000 to ECON 4689		
ECON 4900 to ECON 4999		
ECON 5200 to ECON 5999		

**Mathematics Requirements**

Code	Title	Hours
<b>Required Mathematics</b>		
MATH 1365	Introduction to Mathematical Reasoning	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 2331	Linear Algebra	4
MATH 3081	Probability and Statistics	4

**Mathematics Electives**

Complete two courses in the following range:	8
MATH 3001 to MATH 4999	
The following courses are recommended:	

MATH 3150	Real Analysis
MATH 4581	Statistics and Stochastic Processes

**Breadth Course**

Code	Title	Hours
<b>Computer Science</b>		
Choose one of the following: 4		
CS 1100	Computer Science and Its Applications	
DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
MISM 2510	Fundamentals of Information Analytics	

**Integrative Requirements**

Code	Title	Hours
<b>Advanced Writing in the Disciplines</b>		
ENGW 3308	Advanced Writing in the Social Sciences	4
<b>Integrative Course</b>		
Complete one of the following: 4		
ECON 4692	Senior Economics Seminar	
MATH 4025	Applied Mathematics Capstone	
MATH 5131	Introduction to Mathematical Methods and Modeling	

**Combined Major GPA/Credit Requirement**

Code	Title	Hours
Grades in the following 4 Economics courses must average to a minimum of C (2.000):		
ECON 2315	Macroeconomic Theory	
ECON 2316	Microeconomic Theory	
ECON 2560	Applied Econometrics	
MATH 3081	Probability and Statistics	

A cumulative GPA of 2.000 is required in all math courses. A grade of C or higher is required in all math courses numbered MATH 2999 or below; grades below C will not count toward the degree.

**Economics and Mathematics Major Credit Requirement**

Complete 76 semester hours in the major.

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Program Requirement**

128 total semester hours required

**Economics and Philosophy, BS**

Both philosophy and economics are the disciplines of critical thinking —thinking in concrete and abstract terms to help put the world in perspective. The combined economics and philosophy major provides students with training to critically evaluate and assess policies and issues on both economic and ethical grounds, including issues such as globalization, immigration, environmental protections, the minimum wage, a fair and just tax, just working environments, and many more.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Overview and Supporting Courses

Code	Title	Hours
<b>Introduction to College</b>

MATH 1231	Calculus for Business and Economics	4
or MATH 1241	Calculus 1	
or MATH 1245	Calculus with Applications	
or MATH 1251	Calculus and Differential Equations for Biology 1	
or MATH 1340	Intensive Calculus for Engineers	
or MATH 1341	Calculus 1 for Science and Engineering	

## Economics Requirements

Code	Title	Hours
<b>Required Economics Courses</b>		

ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4
ECON 3520	History of Economic Thought	4

### Economics Electives

Complete 2 Economics elective courses from the following ranges with no more than 1 in the ECON 1200 to ECON 1999 range. Additionally, ECON 3520 may not be used as an Economics Elective.

ECON 1200 to ECON 1999

ECON 3000 to ECON 4689

ECON 4900 to ECON 4999

ECON 5200 to ECON 5999

## Philosophy Requirements

Code	Title	Hours
<b>Philosophy Required Courses</b>		

PHIL 1115	Introduction to Logic	4
PHIL 2325	Ancient Philosophy and Political Thought	4
PHIL 2330	Modern Philosophy	4

### Advanced Philosophy Elective

Complete one of the following:

PHIL 3100	The Religious Worlds of Boston: Faith and Devotion in Urban Life	4
PHIL 3343	Existentialism	
PHIL 3360	Scientific Approaches to Philosophy	
PHIL 3435	Moral Philosophy	

PHIL 3460	Philosophy and Literature
PHIL 4500	Theory of Knowledge
PHIL 4510	Philosophy of Science
PHIL 4515	Advanced Logic
PHIL 4535	Philosophy of Mind
PHIL 4555	Philosophy of Biology
PHIL 4903	Seminar in Religion
PHIL 5001	Global Justice
PHIL 5002	Ethics and Public Policy
PHIL 5005	Information Ethics
PHIL 5010	AI Ethics

### Additional Electives

Complete three additional electives in philosophy or religion. 12  
At least one must be numbered 2000 or above.

## Integrative Requirements

Code	Title	Hours
Complete PHIL 4550 and one of the other courses listed below that has not been used in above requirements:		
PHIL 4550	Philosophy of Economics	8

PHIL 4550	Philosophy of Economics
PHIL 3435	Moral Philosophy
PHIL 4500	Theory of Knowledge
PHIL 4510	Philosophy of Science
PHIL 5001	Global Justice
PHIL 5002	Ethics and Public Policy

## Major GPA/Credit Requirement

Grades in the following 4 Economics courses must average to a minimum of C (2.000):

Code	Title	Hours
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4

Complete 76 semester hours in the major.

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirement

128 total semester hours required

## Plan of Study

### Four Years, Two Co-ops in Summer 2/Fall

Year 1

## Economics and Psychology, BS

This combined major educates students in economics and psychology and the interface between the two disciplines. Economics courses provide a foundation in macroeconomics, microeconomics, and applied econometrics. The scope and sequence of psychology courses provide students with a foundation in the interdisciplinary science of psychology, including such topics as cognition, decision making, learning, and motivation. Students completing this program of study should be able to understand how the two fields jointly contribute to explaining the complexity of human behavior in an economic context.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Economics Requirements

Code	Title	Hours
<b>Required Courses</b>		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2560	Applied Econometrics	4
ECON 4692	Senior Economics Seminar	4

#### Economics Electives

Complete four ECON courses from the following ranges with no more than two at the ECON 1200–ECON 1999 range. The course used to satisfy the integrative course requirement may not be used as an economics elective:

ECON 1200–ECON 1999
ECON 3000–ECON 4689
ECON 4900–ECON 4999
ECON 5200–ECON 5999

### Psychology Requirements

Code	Title	Hours
<b>Required Courses</b>		
PSYC 1101	Foundations of Psychology	4
PSYC 2320	Statistics in Psychological Research	4
PSYC 3402	Social Psychology	4
PSYC 3450	Learning and Motivation	4
PSYC 3466	Cognition	4

#### Required Lab

Complete one of the following:		
PSYC 4600	Laboratory in Research Design	4
PSYC 4606	Laboratory in Biological Psychology	4
PSYC 4610	Laboratory in Psycholinguistics	4
PSYC 4612	Laboratory in Cognition	4
PSYC 4614	Laboratory in Social Psychology	4
PSYC 4616	Laboratory in Personality	4
PSYC 4622	Laboratory in Sensation and Perception	4
PSYC 4624	Laboratory in Affective Science	4
PSYC 4626	Laboratory in Life-Span Emotional Development	4
PSYC 4628	Laboratory in Developmental Psychology	4

#### Required Seminar

Complete one of the following:		
PSYC 4654	Seminar in Behavioral Modification	4
PSYC 4656	Seminar in Biological Psychology	4

PSYC 4658	Seminar in Psycholinguistics
PSYC 4660	Seminar in Cognition
PSYC 4662	Seminar in Personality
PSYC 4664	Seminar in Social Psychology
PSYC 4666	Seminar in Clinical Psychology
PSYC 4668	Seminar in Sensation and Perception
PSYC 4674	Seminar in Cognitive Neuroscience
PSYC 4676	Seminar in Developmental Psychology
PSYC 4678	Seminar in Social and Affective Neuroscience

**Psychology Electives**

Complete three PSYC courses not used to fulfill requirements above. 12

**Other Requirements Outside Major**

Code	Title	Hours
PSYC 1000 or ECON 1000	Psychology at Northeastern Economics at Northeastern	1

## Environmental and Sustainability Sciences and Economics, BS

Through this combined major, successful undergraduates will develop an awareness of the intrinsic connection between the environment and economics and understand how long-run economic growth is crucially dependent on policies that account for the sustainability and well-being of the environment and that are grounded on environmental science.

There are a number of interdisciplinary opportunities involving environmental and sustainability sciences. Due to curricular overlap, combinations of any environmental and sustainability sciences major, including combined majors, cannot occur with majors or minors in ecology and evolutionary biology or environmental studies or with the minor in geoscience.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Environmental and Sustainability Sciences Requirements

Code	Title	Hours
<b>Core Courses</b>		
ENVR 1400 and ENVR 1401	Foundations in Environmental and Sustainability Sciences and Lab for ENVR 1400	5
ENVR 2200 or ENVR 1200	Earth's Changing Cycles Dynamic Earth	4
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	5
ENVR 2515	Sustainable Development	4
Complete one of the following skills courses:		4-5
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	
EEMB 3555	Networks and Natural Systems	
Complete four courses from these lists:		16
<i>Earth Oceans and Environmental Change</i>		
ENVR 2310 and ENVR 2311	Earth Materials and Lab for ENVR 2310	
ENVR 3125	Global Oceanic Change	
ENVR 3600	Oceanography	

ENVR 4500 and ENVR 4501	Applied Hydrogeology and Lab for ENVR 4500
<i>Conservation, Restoration, and Management</i>	
EEMB 2400	Introduction to Evolution
EEMB 3460	Conservation Biology
EEMB 3465	Ecological and Conservation Genomics
EEMB 4001	Landscape and Restoration Ecology
<i>Sustainable Planning and Development</i>	
ENVR 3150	Food Security and Sustainability
ENVR 3200	Water Resources
ENVR 5150	Climate and Atmospheric Change
ENVR 5210	Environmental Planning
<i>Environment and Society</i>	
POLS 2395	Environmental Politics and Policy
PPUA 5260	Ecological Economics
PPUA 5268	International Environmental Policy
SOCL 2485	Environment, Technology, and Society

## History and Economics, BS

The Department of History and the Department of Economics offer an interdisciplinary combined major in history and economics. Students interested in the combined major integrate the study of economic systems and theories with the study and analysis of human history.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### History Requirements

Code	Title	Hours
<b>History Colloquium</b>		
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
<b>Introductory Level</b>		
Complete one history course from the 1000 level except from HIST 1200 and HIST 1201.		4
<b>History Seminar and Historical Writing</b>		
HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1
<b>Pre-1800 History Elective</b>		
Complete one of the following:		4
HIST 1185	Introduction to Middle Eastern History	
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1252	Japanese Literature and Culture	
HIST 1272	Europe in the Middle Ages, 500–1500	
HIST 1285	Introduction to Russian Civilization	
HIST 2330	Colonial and Revolutionary America	
HIST 2370	Renaissance to Enlightenment	
HIST 2375	The Tudors, the Stuarts, and the Birth of Modern Britain	
<b>Intermediate/Advanced History Courses</b>		
Complete four history courses numbered 2000 or above, excluding HIST 2301 and HIST 2302.		16
<b>Advanced History</b>		
Complete one history course at the 3000 level or above.		4
<b>Supplemental Course for History—Research Methods</b>		
Complete one of the following:		4
ECON 2350	Statistics	
ENVR 5260	Geographical Information Systems	
MATH 2280	Statistics and Software	
POLS 2400	Quantitative Techniques	

PSYC 2320	Statistics in Psychological Research
SOCL 2320	Statistical Analysis in Sociology

### Economics Requirements

Code	Title	Hours
<b>Introduction to College</b>		
ECON 1000 or HIST 1000	Economics at Northeastern History at Northeastern	1
<b>Required Economics Courses</b>

## Political Science and Economics, BS

The combined major in political science and economics offers students the opportunity to integrate the study of politics and government with the study of economics. Students complete the core courses in political science along with core courses in economics that cover both macroeconomic and microeconomic perspectives. This combined major highlights the important role that the economy plays in shaping politics and government.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Political Science Requirements

Code	Title	Hours
<b>Political Science Requirements</b>

POLS 2328	Modern Political Thought	
POLS 2330	American Political Thought	
POLS 2332	Contemporary Political Thought	

## Political Science Electives

Complete four courses from the following range, or complete a concentration as outlined below: 16  
 POLS 2000 to POLS 5999

### Political Science Concentrations (Optional)

If you are working toward one of the following concentrations, declare it with your advisor so that it may be added to your record. Requirements for the concentrations are listed below (p. ).

- American Political Institutions (p. 930)
- Campaigns and Elections (p. 930)
- Comparative Politics (p. 931)
- Identity, Culture, and Politics (p. 931)
- International Relations and Diplomacy (p. 931)
- Law and Legal Studies (p. 931)
- Public Policy (p. 931)
- Security Studies (p. 931)

### Economics Requirements for BS

Code	Title	Hours
<b>Breadth Courses</b>		
CS 1100 or DS 2000 and DS 2001 or MISM 2510	Computer Science and Its Applications Programming with Data and Data Science Programming Practicum Fundamentals of Information Analytics	4
MATH 1231 or MATH 1241 or MATH 1245 or MATH 1251 or MATH 1340 or MATH 1341	Calculus for Business and Economics Calculus 1 Calculus with Applications Calculus and Differential Equations for Biology 1 Intensive Calculus for Engineers Calculus 1 for Science and Engineering	4
<b>Required Economics Courses</b>		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2560	Applied Econometrics	4
<b>Economics Electives</b>		
Complete 3 Economics elective courses found in the following ranges, with no more than 1 in the ECON 1200 to ECON 1999 range:		12
ECON 1200 to ECON 1999		
ECON 3000 to ECON 4689		
ECON 4900 to ECON 4999		
ECON 5200 to ECON 5999		

### Supporting Courses

Complete either of the statistics and departmental elective combinations listed below:

#### COMBINATION A

Code	Title	Hours
<b>Statistics</b>		
POLS 2400	Quantitative Techniques	4
<b>Economics</b>		
Complete one course from the following ranges. This course may not also be used as an Economics elective:		4

ECON 1200 to ECON 1999  
 ECON 3000 to ECON 4689  
 ECON 4900 to ECON 4999  
 ECON 5200 to ECON 5999

#### COMBINATION B

Code	Title	Hours
<b>Statistics</b>		
ECON 2350	Statistics	4
<b>Political Science</b>		
Complete one course in the following range:		4
POLS 2401 to POLS 5999		

### Integrative Requirements

Code	Title	Hours
<b>Senior Seminar/Capstone</b>		
Complete one of the following:		4
ECON 4692	Senior Economics Seminar	
POLS 4701	Political Science Senior Capstone	
POLS 4703	Senior Thesis	

### Combined Major GPA/Credit Requirement:

Grades in the following required Economics courses and in Quantitative Techniques (POLS 2400) or Statistics (ECON 2350) must average to a minimum of C (2.000):

Code	Title	Hours
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
or POLS 2400	Quantitative Techniques	
ECON 2560	Applied Econometrics	4

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

128 total semester hours required.

#### CONCENTRATION IN AMERICAN POLITICAL INSTITUTIONS

Code	Title	Hours
Complete four of the following:		16
POLS 2350	State and Local Politics	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3307	Public Policy and Administration	
POLS 3310	Public Opinion, Voting, and Elections	
POLS 3160	Campaign Strategy	

#### CONCENTRATION IN CAMPAIGNS AND ELECTIONS

Code	Title	Hours
<b>Required Courses</b>		
POLS 3160	Campaign Strategy	4
POLS 3302	Judicial Process and Behavior	4

**Campaigns and Elections Electives**

If POLS 4947 was replaced by a co-op or internship, an additional elective must be taken.

Complete two of the following:	8
POLS 2345 Urban Policies and Politics	
POLS 2350 State and Local Politics	
POLS 2355 Intergovernmental Relations	
POLS 3310 Public Opinion, Voting, and Elections	
POLS 3320 Politics and Mass Media	
POLS 3304 Presidential Nominating Process	

**CONCENTRATION IN COMPARATIVE POLITICS**

Code	Title	Hours
<b>Theoretical Requirement</b>		
Complete one of the following:		4
POLS 2370 Religion and Politics		
POLS 3418 Nationalism		
POLS 3430 Revolution, Civil War, and Insurrection		
POLS 3487 Politics of Developing Nations		

**Regional Requirements**

Complete two of the following:	8
POLS 3435 Politics and Governance of Europe and the European Union	
POLS 3465 Government and Politics in the Middle East	
POLS 3470 Arab-Israeli Conflict	

**Experiential/Practicum Requirement**

Complete one of the following:	4
POLS 4915 Model Arab League	
POLS 4918 Model NATO	
POLS 4937 Dialogue of Civilizations: Government and Politics Abroad	

**CONCENTRATION IN IDENTITY, CULTURE, AND POLITICS**

Code	Title	Hours
<b>Core Course</b>		
POLS 3418 Nationalism		4

**Electives**

Complete three of the following:	12

**Politics, Philosophy, and Economics, BS**Website (<https://www.northeastern.edu/cssh/ppe/>)617.373.3636  
617.373.4359 (fax)

The PPE major at Northeastern University brings together three of the most important approaches to understanding the world around us: political science, philosophy, and economics. The PPE major is an interdisciplinary degree that not only provides students with the analytic tools from three different disciplines but also teaches students to make connections across disciplines and to keep multiple perspectives in mind when analyzing complex social phenomena. This interdisciplinary perspective and set of skills are indispensable in our increasingly interconnected world and are essential in addressing the kinds of complex global problems future leaders will need to tackle.

There are a number of varieties of the PPE major that students may choose from in accordance with their own backgrounds and interests. These include:

- environment and energy policy
- international political economy
- law and justice
- logic and game theory
- political philosophy
- public and economic policy

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Politics, Philosophy, and Economics Major Requirements**

Code	Title	Hours
<b>Foundation Course</b>		
PHIL 1160	Introduction to Economic Justice	4
<b>Core Courses</b>		
<i>Philosophy</i>

**Economics, Minor**

The minor in economics introduces students to fundamental concepts in economics such as market demand and supply, how firms compete with each other, household choice and behavior under scarcity constraints, government fiscal and monetary policy, inflation, unemployment, and growth and instability. Economics elective courses explore further topics such as international trade, development economics, food supply chain policy, the environmental costs of growth, the economic aspects of natural resources, poverty, healthcare markets, labor market discrimination, trade unions, crime, and government regulation, among others. Students are also exposed to historical perspectives and to international and comparative perspectives on these topics.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any prerequisites, corequisite labs, recitations, clinicals, or tools courses where specified.

## Required Courses

Code	Title	Hours
Take one of the following two-course sequences:		
ECON 1115 and ECON 2315	Principles of Macroeconomics and Macroeconomic Theory	8
ECON 1116 and ECON 2316	Principles of Microeconomics and Microeconomic Theory	

## Elective Courses

Code	Title	Hours
Complete three courses from the following ranges, with no more than one in the ECON 1200 to ECON 1999 range:		
ECON 1200 to ECON 1999		12
ECON 3000 to ECON 4689		
ECON 4900 to ECON 4999		
ECON 5200 to ECON 5999		

## GPA Requirement

Minimum of 2.000 GPA required in the minor

## English

Website (<http://www.northeastern.edu/english/>)

### Neal Lerner, EdD

Professor and Chair  
n.lerner@northeastern.edu

617.373.4540  
617.373.2509 (fax)

In the Department of English, we explore how literary expression and rhetorical action shape and are shaped by the worlds in which they were created. Literature, language, and rhetoric offer powerful tools for understanding the ideas and beliefs that construct our lives, including present and historical formations of aesthetics, race, gender, sexuality, disability, class, colonialism, health, and the environment across a wide variety of media.

Whether you choose an English major, combine the English major with another area of study, or opt to pursue a minor, in the Department of English at Northeastern you join a community in which you can:

- learn about the literatures and cultures of the United States, the United Kingdom, and the English-speaking world, past and present
- investigate the rhetorics and literacies of local and global communities by using a variety of methods, including community-based, historical, and justice-based approaches
- develop varieties of creative expression
- engage meaningfully and generously with others through writing and discussion in our classrooms, workplaces, and communities
- examine the power of language and rhetoric to effect action, shape knowledge and identity, and constitute communities
- uncover how language operates through the lens of linguistics
- explore Englishes and the way that language shapes our communities and ourselves

- discover how knowledge is produced through language and material forms, including digital forms
- hone critical and analytic strategies and skills
- balance theoretical perspectives with experiential practices
- undertake independent research

In addition to the English major (p. 936), we also offer several combined majors (<https://cssh.northeastern.edu/english/program/combined-majors/>), an English minor (p. 974), a minor in writing (p. 974), a minor in rhetoric (p. 186), and a minor in health, humanities, and society (p. 539).

## Academic Progression Standards

Same as university-wide standards described under "Academic Status (p. 27)."

## PlusOne Program (MA) in English

English majors at the end of their sophomore year or the beginning of their junior year may qualify for application to the PlusOne program that combines the BA with the master's degree in English. Students interested in this option should consult with the undergraduate program director in English by the end of the sophomore year.

## Programs

### Bachelor of Arts (BA)

- English (p. 936)
- English and Communication Studies (p. 139)
- English and Criminal Justice (p. 840)
- English and Cultural Anthropology (p. 948)
- English and Graphic and Information Design (p. 101)
- English and Philosophy (p. 952)
- English and Political Science (p. 954)
- English and Theatre (p. 246)
- History and English (p. 960)
- Journalism and English (p. 189)
- Linguistics and English (p. 687)
- Media and Screen Studies and English (p. 149)

### Bachelor of Science (BS)

- Architecture and English (p. 60)
- Biology and English (p. 650)
- Computer Science and English (p. 353)

### Minor

- English (p. 974)
- Rhetoric (p. 186)
- Writing (p. 974)

## Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. )

## English, BA

Students in the English major study the diverse historical, cultural, and aesthetic contexts of English, American, and other Anglophone literatures. They analyze writing practices and related media from the Middle Ages through the present, from the quill pen to code. They practice a variety of theoretical and methodological approaches to the study of language, rhetoric, writing, and literature.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## English Major Requirements

Code	Title	Hours
<b>Foundation Courses</b>		
ENGL 1000	English at Northeastern	1
ENGL 1400	Introduction to Literary Studies	4
ENGL 1160	Introduction to Rhetoric	4
or ENGL 1410	Introduction to Research on Writing	
ENGL 1700	Global Literatures 1	4
or ENGL 1701	Global Literatures 2	
<b>Literary Periods</b>		
<i>Early Literatures</i>		
Complete one of the following:		4
ENGL 1600	Introduction to Shakespeare	
ENGL 3101	Early Literatures	
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
or JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
<i>Seventeenth to Eighteenth Centuries</i>		
Complete one of the following:		4
ENGL 2250	18th-Century British Literature	
ENGL 2296	Early African-American Literature	
or AFAM 2296	Early African-American Literature	
ENGL 3120	17th- and 18th-Century Literatures	
ENGL 3618	Milton	
<i>Nineteenth Century</i>		
Complete one of the following:		4
ENGL 2330	The American Renaissance	
ENGL 3140	19th-Century Literatures	
ENGL 3619	Emerson and Thoreau	
ENGL 3720	19th-Century Major Figure	
<i>Twentieth to Twenty-First Centuries</i>		
Complete one of the following:		4
ENGL 2301	The Graphic Novel	
or ARTE 2301	The Graphic Novel	
ENGL 2440	The Modern Bestseller	
ENGL 2600	Irish Literary Culture (Abroad)	

ENGL 2610	Contemporary Israeli Literature and Art (Abroad)	
ENGL 3161	20th- and 21st-Century Literatures	
ENGL 3685	Modern and Contemporary Jewish Literature	
or JWSS 3685	Modern and Contemporary Jewish Literature	
ENGL 3730	20th- and 21st-Century Major Figure	
<b>Comparative Literature</b>		
Complete two of the following:		8
ENGL 1450	Reading and Writing in the Digital Age	
ENGL 1502	American Literature to 1865	
ENGL 2362	Modern and Contemporary African-American Literature	
ENGL 2420	Contemporary Poetry	
ENGL 2430	Contemporary Fiction	
ENGL 2451	Postcolonial Women Writers	
or WMNS 2451	Postcolonial Women Writers	
or CLTR 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
or AFAM 2455	American Women Writers	
or WMNS 2455	American Women Writers	
ENGL 2510	Horror Fiction	
ENGL 2520	Science Fiction	
ENGL 2530	Fantasy Literature	
ENGL 2620	What Is Nature?	
ENGL 2690	Boston in Literature	
or AFAM 2690	Boston in Literature	
ENGL 2695	Travel and Place-Based Writing	
ENGL 3487	Film and Text (Abroad)	
ENGL 3663	The African American Novel	
or AFAM 3663	The African American Novel	
<b>Theories and Methods</b>		
Complete one of the following:		4
ENGL 1140	Grammar: The Architecture of English	
ENGL 1160	Introduction to Rhetoric	
ENGL 1410	Introduction to Research on Writing	
ENGL 2150	Literature and Digital Diversity	
ENGL 2850	Writing for Social Media: Theory and Practice	
ENGL 3325	Rhetoric of Law	
ENGL 3340	Technologies of Text	
ENGL 3370	Writing Cultures	
ENGL 3381	The Practice and Theory of Teaching Writing	
ENGL 3400	Opening the Archive	
ENGL 3404	African American Rhetorical Traditions	
or AFAM 3404	African American Rhetorical Traditions	
ENGL 3700	Narrative Medicine	
ENGL 4410	Research in Rhetoric and Writing	
LING 1150	Introduction to Language and Linguistics	
LING 2350	Linguistic Analysis	
LING 3450	Syntax	
LING 3452	Semantics	

LING 3454	History of English	
LING 3456	Language and Gender	
LING 3458	Topics in Linguistics	

**Advanced Writing in the Disciplines**

Complete one of the following: 4

ENGW 3310	Advanced Writing in Literature
ENGW 3311	Advanced Writing for Prelaw

**Writing**

Complete two of the following: 8

ENGL 2695	Travel and Place-Based Writing
ENGL 2700	Creative Writing
ENGL 2710	Style and Editing
ENGL 2740	Writing and Community Engagement
ENGL 2760	Writing in Global Contexts
ENGL 2770	Writing to Heal
ENGL 2780	Visual Writing: Writing Visuals
ENGL 3375	Writing Boston
ENGL 3376	Creative Nonfiction
ENGL 3377	Poetry Workshop
ENGL 3378	Fiction Workshop
ENGL 3380	Writing Seminar
ENGL 3382	Publishing in the 21st Century
ENGL 3384	The Writer's Marketplace

**Capstone**

ENGL 4710 Capstone Seminar 4  
or ENGL 4720 Capstone Project

**Diversity**

Complete one of the following courses, which can also count toward another requirement in the major: 4

ENGL 2150	Literature and Digital Diversity
ENGL 2296	Early African-American Literature
or AFAM 2296	Early African-American Literature
ENGL 2362	Modern and Contemporary African-American Literature
ENGL 2451	Postcolonial Women Writers
or WMNS 2451	Postcolonial Women Writers
or CLTR 2451	Postcolonial Women Writers
ENGL 2455	American Women Writers
or AFAM 2455	American Women Writers
or WMNS 2455	American Women Writers
ENGL 2760	Writing in Global Contexts
ENGL 3404	African American Rhetorical Traditions
or AFAM 3404	African American Rhetorical Traditions
ENGL 3663	The African American Novel
or AFAM 3663	The African American Novel
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity
or JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity
or WMNS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity
ENGL 3685	Modern and Contemporary Jewish Literature
or JWSS 3685	Modern and Contemporary Jewish Literature

ENGL 3900	Gender and Black World Literatures
or AFRS 3900	Gender and Black World Literatures
or WMNS 3900	Gender and Black World Literatures

**Electives**

Complete any two ENGL courses, except for First-Year Writing and Advanced Writing in the Disciplines, that has not already been used to fulfill another requirement. The following courses may also be used as electives: 8

LING 1150	Introduction to Language and Linguistics
LING 2350	Linguistic Analysis
LING 3450	Syntax
LING 3452	Semantics
LING 3454	History of English
LING 3456	Language and Gender
LING 3458	Topics in Linguistics

**Experiential Learning Requirement**

Complete one course in experiential learning from the list below or any Dialogues of Civilization experience. (Other study-abroad programs may not be used.) This course can also count toward another requirement in the major.

Code	Title	Hours
------	-------	-------

**Experiential Learning Course Work**

ENGL 2690	Boston in Literature
or AFAM 2690	Boston in Literature
ENGL 2740	Writing and Community Engagement
ENGL 3340	Technologies of Text
ENGL 3370	Writing Cultures
ENGL 3375	Writing Boston
ENGL 3381	The Practice and Theory of Teaching Writing
ENGL 3382	Publishing in the 21st Century
ENGL 3400	Opening the Archive

**Dialogues of Civilization**

Complete one Dialogues of Civilization experience, including but not limited to those offered by the department. (Other study-abroad programs may not be used.)

ENGL 2600	Irish Literary Culture (Abroad)
ENGL 2610	Contemporary Israeli Literature and Art (Abroad)
ENGL 2620	What Is Nature?
ENGL 3487	Film and Text (Abroad)

**English Major Credit Requirement**

Complete 64 semester hours in the major.

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Program Requirement**

128 total semester hours required

## Plan of Study

## Computer Science and English, BS

The computer science and English combined major focuses on the increasingly interdisciplinary processes of creating, interpreting, and analyzing texts and programs. Students will combine communication and critical judgment, gaining the creativity and adaptability necessary to utilize technology in literary studies, and apply humanities skills to solve programming problems.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
<b>Computing Focus</b>		
Students are required to complete one of the following foci (two courses total):		8
<i>Focus 1: Natural Language Processing</i>		
CS 3800	Theory of Computation	
CS 4120	Natural Language Processing	

**Focus 2: Programming Languages**

CS 3800	Theory of Computation
CS 4400	Programming Languages

**Focus 3: Analytics**

DS 3000	Foundations of Data Science
DS 4200	Information Presentation and Visualization

**Computer Science/Information Science Elective Course**

Choose one: 4

IS 2000	Principles of Information Science
CS 4500	Software Development
or CS 4530	Fundamentals of Software Engineering

**Khoury Elective Courses**

With adviser approval, a directed study, project study, or appropriate graduate-level course may also be taken as an upper-division elective.

Complete 4 credits of CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges: 4

CS 2500 or higher, except CS 5010
CY 2000 or higher, except CY 4930
DS 2500 or higher, except DS 4900
IS 2000 or higher, except IS 4900

**English Requirements**

Code	Title	Hours
------	-------	-------

**English Course-Level Requirement**

In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.

**Introduction to College**

ENGL 1000	English at Northeastern	1
-----------	-------------------------	---

**Foundational Courses**

ENGL 1400	Introduction to Literary Studies	4
ENGL 1160	Introduction to Rhetoric	4
or ENGL 1410	Introduction to Research on Writing	

**Diversity**

Complete one of the following courses. This course may also be used to fulfill an additional English requirement below: 4

ENGL 2150	Literature and Digital Diversity
ENGL 2296	Early African-American Literature
ENGL 2451	Postcolonial Women Writers
ENGL 2455	American Women Writers
ENGL 2760	Writing in Global Contexts
ENGL 3663	The African American Novel
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity
ENGL 3685	Modern and Contemporary Jewish Literature
or JWSS 3685	Modern and Contemporary Jewish Literature

**Pre-Nineteenth-Century Literature**

Complete one of the following: 4

ENGL 1600	Introduction to Shakespeare
ENGL 1700	Global Literatures 1
ENGL 2296	Early African-American Literature

ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity
or JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity

ENGL 3101	Early Literatures
ENGL 3120	17th- and 18th-Century Literatures

**Nineteenth-, Twentieth-, and Twenty-First-Century Literature**

Complete one of the following: 4

ENGL 2330	The American Renaissance
ENGL 2301	The Graphic Novel
ENGL 2440	The Modern Bestseller
ENGL 2600	Irish Literary Culture (Abroad)
ENGL 2610	Contemporary Israeli Literature and Art (Abroad)
ENGL 3140	19th-Century Literatures
ENGL 3685	Modern and Contemporary Jewish Literature
or JWSS 3685	Modern and Contemporary Jewish Literature
ENGL 3720	19th-Century Major Figure
ENGL 3730	20th- and 21st-Century Major Figure

**Theories and Methods**

Complete one of the following: 4

ENGL 1140	Grammar: The Architecture of English
ENGL 1160	Introduction to Rhetoric
ENGL 1410	Introduction to Research on Writing
ENGL 2150	Literature and Digital Diversity
ENGL 3325	Rhetoric of Law
ENGL 3340	Technologies of Text
ENGL 3370	Writing Cultures
ENGL 3381	The Practice and Theory of Teaching Writing
ENGL 3400	Opening the Archive
ENGL 3700	Narrative Medicine
ENGL 4410	Research in Rhetoric and Writing
LING 1150	Introduction to Language and Linguistics
LING 2350	Linguistic Analysis
LING 3450	Syntax
LING 3452	Semantics
LING 3454	History of English
LING 3456	Language and Gender
LING 3458	Topics in Linguistics

**Comparative Literature**

Complete one of the following: 4

ENGL 1450	Reading and Writing in the Digital Age
ENGL 1502	American Literature to 1865
ENGL 2150	Literature and Digital Diversity
ENGL 2420	Contemporary Poetry
ENGL 2430	Contemporary Fiction
ENGL 2451	Postcolonial Women Writers
ENGL 2455	American Women Writers
ENGL 2510	Horror Fiction
ENGL 2520	Science Fiction
ENGL 2600	Irish Literary Culture (Abroad)

ENGL 2620	What Is Nature?
ENGL 2690	Boston in Literature
ENGL 3487	Film and Text (Abroad)
ENGL 3663	The African American Novel

**Writing**

Complete one of the following: 4

ENGL 2700	Creative Writing
ENGL 2710	Style and Editing
ENGL 2740	Writing and Community Engagement
ENGL 2760	Writing in Global Contexts
ENGL 2770	Writing to Heal
ENGL 2780	Visual Writing: Writing Visuals
ENGL 2850	Writing for Social Media: Theory and Practice
ENGL 3375	Writing Boston
ENGL 3376	Creative Nonfiction
ENGL 3377	Poetry Workshop
ENGL 3378	Fiction Workshop
ENGL 3380	Writing Seminar
ENGL 3382	Publishing in the 21st Century
ENGL 3384	The Writer's Marketplace

**Capstone**

ENGL 4710	Capstone Seminar	4
or ENGL 4720	Capstone Project	

**English Electives**

Complete two additional ENGL electives. 8

**Integrative Course Requirement**

This course will not be allowed to double-count in the Theories and Methods section above.

Code	Title	Hours
ENGL 3340	Technologies of Text	4

**Supporting Course**

Complete one of the following: 4

AFAM 2600	Issues in Race, Science, and Technology
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights
ENGL 2150	Literature and Digital Diversity
HIST 2220	History of Technology
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks
IS 1300	Knowledge in a Digital World
or PHIL 1300	Knowledge in a Digital World
PHIL 1145	Technology and Human Values
SOCL 1280	The Twenty-First-Century Workplace
SOCL 2485	Environment, Technology, and Society
SOCL 4528	Computers and Society

**Computer Science Writing Requirement**

Code	Title	Hours
------	-------	-------

**College Writing**

ENGW 1111	First-Year Writing	4
or ENGW 1102	First-Year Writing for Multilingual Writers	

**Advanced Writing in the Disciplines**

Complete one course from the following: 4

ENGW 3302	Advanced Writing in the Technical Professions
ENGW 3309	Advanced Writing in the Humanities
ENGW 3310	Advanced Writing in Literature
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines

**Required General Electives**

Code	Title	Hours
Complete 32 credits of general electives.		32

**Khoury College GPA Requirement**

Minimum 2.000 GPA required in all CS, CY, DS and IS courses

**NUpath Requirements Satisfied**

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Exploring Creative Expression and Innovation
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Program Requirement**

133 total semester hours required

**Plan of Study****Sample Patterns:****Four Years, Two Co-ops in Summer 2/Fall**

## English and Communication Studies, BA

The English department and the communication studies department offer an interdisciplinary combined major in English and communication studies. Broadly speaking, students in the combined major in English and communication studies at Northeastern integrate the study of literature and writing with studies of media, social, corporate, and political communications.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### English Requirements

Code	Title	Hours
<b>English Course-Level Requirement</b>		
In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.		
<b>Introduction to College</b>		
ENGL 1000	English at Northeastern	1
<b>Foundational Courses</b>		
ENGL 1400	Introduction to Literary Studies	4
ENGL 1160	Introduction to Rhetoric	4
or ENGL 1410	Introduction to Research on Writing	
<b>Diversity</b>		
Complete one of the following courses. This course may also be used to fulfill an additional English requirement below:		4
ENGL 2150	Literature and Digital Diversity	
ENGL 2296	Early African-American Literature	
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2760	Writing in Global Contexts	
ENGL 2470	Asian-American Literature	
ENGL 3663	The African American Novel

**English and Criminal Justice, BA**

The Department of English and School of Criminology and Criminal Justice offer a combined major in English and criminal justice. Criminal justice courses provide a foundation for understanding individual and

systemic aspects of criminology and criminal justice. English courses prepare students to analyze and interpret various representations of crime, criminality, the law, justice, and ethics in both literary and nonliterary texts as they study the diverse historical, cultural, and aesthetic contexts of English, American, and other Anglophone literatures; analyze writing practices and related media; and practice a variety of approaches to the study of language, rhetoric, writing, and literature.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**English Requirements**

Code	Title	Hours
------	-------	-------

**English Course-Level Requirement**

In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.

**Foundational Courses**

ENGL 1400	Introduction to Literary Studies	4
ENGL 1160 or ENGL 1410	Introduction to Rhetoric Introduction to Research on Writing	4

**Diversity**

Complete one of the following courses. This course may also be used to fulfill an additional English requirement below:

ENGL 2150	Literature and Digital Diversity	4
ENGL 2296	Early African-American Literature	
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2760	Writing in Global Contexts	
ENGL 2470	Asian-American Literature	
ENGL 3663	The African American Novel

ENGL 3377	Poetry Workshop
ENGL 3378	Fiction Workshop
ENGL 3380	Writing Seminar
ENGL 3382	Publishing in the 21st Century
ENGL 3384	The Writer's Marketplace

<b>English Electives</b>	
Complete two additional ENGL electives.	8

## Criminal Justice Requirements

Code	Title	Hours
<b>Introduction to Crime, Law, and the Justice System</b>		
What do we know about crime and justice? In these three courses successful students will develop a foundational understanding of three related phenomena: why crime exists, how our criminal justice system responds to crime, and the constitutional and legal oversight of this process.		
CRIM 1100	Introduction to Criminal Justice	4
CRIM 1110	Criminal Due Process	4
CRIM 1120	Criminology	4
<b>Current Crime and Justice Issues</b>		
These courses introduce students to topical issues related to crime and justice.		
Complete one of the following:		4
CRIM 1300	The Death Penalty	
CRIM 1400	Human Trafficking	
CRIM 1500	Corruption, Integrity, and Accountability	
CRIM 1700	Crime, Media, and Politics	
<b>Crime Problems and Criminal Justice Institutions</b>		
The 2000-level courses in this list ask how does justice work and for whom? These courses introduce students to the systems and institutions tasked with providing justice. Each includes experiential learning components in cooperation with local criminal justice institutions. The 3000-level courses in this list provide students a deeper look at a range of crime problems.		
Complete one of the following:		4

CRIM 2310	Courts: The Third Branch of Government
CRIM 2320	Youth Crime and Justice
CRIM 2330	Punishment in the Age of Mass Incarceration
CRIM 2340	Corporate Security: Securing the Private Sector
CRIM 2350	Policing a Democratic Society
CRIM 3010	Criminal Violence
CRIM 3030	Global Criminology
CRIM 3040	Psychology of Crime
CRIM 3050	Organized Crime
CRIM 3060	Political Crime and Terrorism
CRIM 3070	Corporate and White-Collar Crime
CRIM 3540	Addiction and Recovery

**Creating Knowledge about Crime and Justice**

How do we know what we know about crime and justice—and how do we develop new knowledge? Harnessing data to learn about issues, identify solutions, and advocate for change.

CRIM 3600	Criminal Justice Research Methods	4
CRIM 3700	Analyzing and Using Data on Crime and Justice	4

**Systemic Issues**

A consideration of systemic issues facing the criminal justice system.

Complete one of the following:		4
CRIM 3110	Gender, Crime, and Justice	
CRIM 3120	Race, Crime, and Justice	

**Criminal Justice Electives**

Rounding out knowledge of crime and justice.

Complete two additional criminal justice electives from the 3000, 4000, or 5000 level. 8

**Other Requirements**

Code	Title	Hours
<b>Introduction to College</b>		
Complete one of the following:		1
CRIM 1000	Criminal Justice at Northeastern	1
ENGL 1000	English at Northeastern	1

## English and Cultural Anthropology, BA

The English department and the sociology/anthropology department offer an interdisciplinary combined major in English and cultural anthropology. Broadly speaking, students in the combined major in English and cultural anthropology at Northeastern integrate the study of literature, language, and writing with the study of human culture and its intersections with structures of inequality (e.g., race, class, and gender) and contemporary global issues.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### English Requirements

Code	Title	Hours
<b>English Course-Level Requirement</b>		
In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.		
<b>Introduction to College</b>		
ENGL 1000	English at Northeastern	1
<b>Foundational Courses</b>		
ENGL 1400	Introduction to Literary Studies	4
ENGL 1160	Introduction to Rhetoric	4
or ENGL 1410	Introduction to Research on Writing	
<b>Diversity</b>		
Complete one of the following courses. This course may also be used to fulfill an additional English requirement below:		4
ENGL 2150	Literature and Digital Diversity	
ENGL 2296	Early African-American Literature	
ENGL 2450		
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers

## English and Theatre, BA

The Department of Theatre and Department of English offer an interdisciplinary combined major that integrates performance, design, production, and dramatic literature with literary studies, digital humanities, and creative writing. This combined major offers both classroom and experiential learning in making theatre, playwriting, and dramaturgy with the study of the diverse historical, cultural, and aesthetic contexts of literature. Students develop the capacity for interpreting a variety of texts through performance and writing to engage audiences.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## English Requirements

Code	Title	Hours
<b>English Course-Level Requirement</b>		
In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.		
<b>Introduction to College</b>		
ENGL 1000	English at Northeastern	1
<b>Foundational Courses</b>		
ENGL 1400	Introduction to Literary Studies	4
ENGL 1160	Introduction to Rhetoric	4
or ENGL 1410	Introduction to Research on Writing	
<b>Diversity</b>		
Complete one of the following courses. This course may also be used to fulfill an additional English requirement below:		4
ENGL 2150	Literature and Digital Diversity	
ENGL 2296	Early African-American Literature	
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2760	Writing in Global Contexts	
ENGL 2470	Asian-American Literature

ENGL 1700	Global Literatures 1	
ENGL 2296	Early African-American Literature	
ENGL 3101	Early Literatures	
ENGL 3120	17th- and 18th-Century Literatures	
ENGL 3618	Milton	
ENGL/JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
<b>Nineteenth-, Twentieth-, and Twenty-First-Century Literature</b>		
Complete one of the following:		4
ENGL 2301	The Graphic Novel	
ENGL 2330	The American Renaissance	
ENGL 2440	The Modern Bestseller	
ENGL 2600	Irish Literary Culture (Abroad)	
ENGL 2610	Contemporary Israeli Literature and Art (Abroad)	
ENGL 3140	19th-Century Literatures	
ENGL 3619	Emerson and Thoreau	
ENGL/JWSS 3685	Modern and Contemporary Jewish Literature	
ENGL 3720	19th-Century Major Figure	
ENGL 3730	20th- and 21st-Century Major Figure	
<b>Theories and Methods</b>		
Complete one of the following:		4
ENGL 1140	Grammar: The Architecture of English	
ENGL 1160	Introduction to Rhetoric	

ENGL 1410	Introduction to Research on Writing	
ENGL 2150	Literature and Digital Diversity	
ENGL 3325	Rhetoric of Law	
ENGL 3340	Technologies of Text	
ENGL 3370	Writing Cultures	
ENGL 3381	The Practice and Theory of Teaching Writing	
ENGL 3400	Opening the Archive	
ENGL 3700	Narrative Medicine	
ENGL 4410	Research in Rhetoric and Writing	
LING 1150	Introduction to Language and Linguistics	
LING 2350	Linguistic Analysis	
LING 3450	Syntax	
LING 3452	Semantics	
LING 3454	History of English	
LING 3456	Language and Gender	
LING 3458	Topics in Linguistics	
<b>Comparative Literature</b>		
Complete one of the following:		4
ENGL 1450	Reading and Writing in the Digital Age	
ENGL 1500	British Literature to 1800	
ENGL 1502	American Literature to 1865	
ENGL 2150	Literature and Digital Diversity	
ENGL 2420	Contemporary Poetry	
ENGL 2430	Contemporary Fiction	
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2470	Asian-American Literature	
ENGL 2510	Horror Fiction	
ENGL 2520	Science Fiction	
ENGL 2600	Irish Literary Culture (Abroad)	
ENGL 2620	What Is Nature?	
ENGL 2690	Boston in Literature	
ENGL 3487	Film and Text (Abroad)	
ENGL 3663	The African American Novel	
<b>Writing</b>		
Complete one of the following:		4
ENGL 2700	Creative Writing	
ENGL 2710	Style and Editing	
ENGL 2740	Writing and Community Engagement	
ENGL 2760	Writing in Global Contexts	
ENGL 2770	Writing to Heal	
ENGL 2780	Visual Writing: Writing Visuals	
ENGL 2850	Writing for Social Media: Theory and Practice	
ENGL 3375	Writing Boston	
ENGL 3376	Creative Nonfiction	
ENGL 3377	Poetry Workshop	
ENGL 3378	Fiction Workshop	
ENGL 3380	Writing Seminar	
ENGL 3382	Publishing in the 21st Century	
ENGL 3384	The Writer's Marketplace	
<b>Capstone</b>		

ENGL 4710	Capstone Seminar	4
or ENGL 4720	Capstone Project	

<b>English Electives</b>		
Complete two additional ENGL electives.		8

## Theatre Requirements

A minimum grade of C is required in all theatre courses.

Code	Title	Hours
<b>Foundational Stages</b>		
THTR 1000	Theatre at Northeastern	1
or ENGL 1000	English at Northeastern	
THTR 1101	Introduction to Theatre	4
THTR 1120	Acting 1	4
THTR 1131	Technical Theatre 1	4
THTR 1270	Introduction to Theatrical Design	4
THTR 2325	From Script to Stage	4
<b>Theatre Texts and Context</b>

## History and English, BA

The English department and the history department offer an interdisciplinary combined major in English and history. Students interested in the combined major in English and history integrate the study of literature and writing with the study and analysis of human history.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### History Requirements

Code	Title	Hours
<b>History Colloquium</b>		
HIST 1000	History at Northeastern	1
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
<b>Introductory Level</b>		
Complete one course from the 1000 level.		4
<b>History Seminar and Historical Writing</b>		
HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1
<b>Pre-1800 History Elective</b>		
Complete one of the following:		4

HIST 1185	Introduction to Middle Eastern History
HIST 1187	Introduction to Latin American History
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804
HIST 1252	Japanese Literature and Culture
HIST 1272	Europe in the Middle Ages, 500–1500
HIST 1285	Introduction to Russian Civilization
HIST 2370	Renaissance to Enlightenment
HIST 2330	Colonial and Revolutionary America
HIST 2375	The Tudors, the Stuarts, and the Birth of Modern Britain

**Intermediate/Advanced History Courses**

Complete four history courses numbered 2000 or above that have not been used to fulfill another requirement. 16

**Advanced History**

Complete one history course at the 3000 level or above that has not been used to fulfill another requirement. 4

**English Requirements**

Code	Title	Hours
------	-------	-------

**English Course-Level Requirement**

In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.

**Introduction to College**

ENGL 1000	English at Northeastern	1

## Journalism and English, BA

The School of Journalism and the English Department offer an interdisciplinary combined major in Journalism and English. Broadly speaking, students in the Combined Major in Journalism and English at Northeastern integrate the study of journalism with the study of language, literature and writing.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (EI), Societies and Institutions (SI), and Difference and Diversity (DD) are met through the major course requirements.

NUpath requirements Interpreting Culture (IC), Analyzing and Using Data (AD), and Ethical Reasoning (ER) may be met through electives in the major.

NUpath requirements Natural and Designed World (ND) and Formal and Quantitative Reasoning (FQ) must be met through general electives.

### Journalism Major Requirements

Code	Title	Hours
<b>Journalism Introductory Course</b>		
JRNL 1150	Understanding Today's News	4
<b>Journalism Foundations</b>		
Must receive a C or better in the following:		
JRNL 1101 and JRNL 1102	Journalism 1: Fundamentals of Reporting and Journalist's Toolbox	5
JRNL 2201	Journalism 2: Intermediate Reporting	4
JRNL 2301	Visual Storytelling in Journalism	4
JRNL 3610	Digital Storytelling and Social Media	4
<b>Law and Ethics</b>		
JRNL 3550 or JRNL 4650	The First Amendment and the Media Ethics and Issues in Journalism	4
<b>Journalism Electives</b>		
Take three JRNL courses		12

### English Requirements

Code	Title	Hours
<b>English Course-Level Requirement</b>		
In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.		
<b>Introduction to College</b>

**Linguistics and English, BA**

In the combined major in linguistics and English, students learn about the structures and analysis of human languages across multiple levels (sounds, words, phrases and sentences, meaning) and apply this knowledge to understanding how the English language works, its rhetorical forms, how it has changed over time, and its cultural context. Students hone their writing skills, develop substantial language-analysis skills, and apply them particularly to English.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUPath Requirements**

All undergraduate students are required to complete the NUPath Requirements (p. 46).

**Linguistics Requirements**

Code	Title	Hours
<b>Linguistics Requirements</b>		
LING 1150	Introduction to Language and Linguistics	4
LING 2350	Linguistic Analysis	4
LING 3412	Language and Culture	4
LING 3442	Sociolinguistics	4
<b>Linguistic Structure</b>		
Complete three of the following:		12
LING 3420	Phonetics	
LING 3422	Phonology	
LING 3424	Morphology	
LING 3450	Syntax	
LING 3452	Semantics	
<b>Linguistics Electives</b>		
Complete two courses (not used elsewhere) from the following:		8
DEAF 2700	ASL Linguistics	
LING 3420	Phonetics	
LING 3422	Phonology	
LING 3424	Morphology	
LING 3434	Bilingualism	
LING 3450	Syntax	
LING 3452	Semantics	
LING 3456	Language and Gender	
LING 3458	Topics in Linguistics	
LING 3460	Historical Linguistics	
LING 4654	Seminar in Linguistics	
LING 4891	Research Seminar in Linguistics	
or LING 4970	Junior/Senior Honors Project 1	
or LING 4971	Junior/Senior Honors Project 2	
or LING 4991	Directed Study Research	
LING 4993	Independent Study	
PHIL 1115	Introduction to Logic	
PSYC 3464	Psychology of Language	
PSYC 3466	Cognition	
PSYC 4520	Language and the Brain	
PSYC 4522	Psychology of Reading	
PSYC 4524	Cognitive Development	
PSYC 4610	Laboratory in Psycholinguistics	
PSYC 4612	Laboratory in Cognition	
PSYC 4658	Seminar in Psycholinguistics	
PSYC 4660	Seminar in Cognition	
PSYC 4674	Seminar in Cognitive Neuroscience	

**English Requirements**

Code	Title	Hours
<b>English Course-Level Requirement</b>		
At least two of the courses chosen from the English Requirements lists below must be numbered 3000–4999.		
<b>Foundational Courses</b>		
ENGL 1400	Introduction to Literary Studies	4
ENGL 1160	Introduction to Rhetoric	4

or ENGL 1410	Introduction to Research on Writing	
<b>Diversity</b>		
Complete one of the following courses:		4
ENGL 2150	Literature and Digital Diversity	
ENGL 2296	Early African-American Literature	
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2760	Writing in Global Contexts	
ENGL 3663	The African American Novel	
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
ENGL 3685	Modern and Contemporary Jewish Literature	
or JWSS 3685	Modern and Contemporary Jewish Literature	
<b>Pre-Nineteenth-Century Literature</b>		
Complete one of the following:		4
ENGL 1600	Introduction to Shakespeare	
ENGL 1700	Global Literatures 1	
ENGL 2296	Early African-American Literature	
ENGL 3618	Milton	
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
or JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
ENGL 3101	Early Literatures	
ENGL 3120	17th- and 18th-Century Literatures	
<b>Nineteenth-, Twentieth-, and Twenty-First-Century Literature</b>		
Complete one of the following:		4
ENGL 2330	The American Renaissance	
ENGL 3140	19th-Century Literatures	
ENGL 3619	Emerson and Thoreau	
ENGL 3720	19th-Century Major Figure	
ENGL 2301	The Graphic Novel	
ENGL 2440	The Modern Bestseller	
ENGL 2600	Irish Literary Culture (Abroad)	
ENGL 2610	Contemporary Israeli Literature and Art (Abroad)	
ENGL 3685	Modern and Contemporary Jewish Literature	
or JWSS 3685	Modern and Contemporary Jewish Literature	
ENGL 3730	20th- and 21st-Century Major Figure	
<b>Theories and Methods</b>		
Complete one of the following:		4
ENGL 1140	Grammar: The Architecture of English	
ENGL 1160	Introduction to Rhetoric	
ENGL 1410	Introduction to Research on Writing	
ENGL 2150	Literature and Digital Diversity	
ENGL 3325	Rhetoric of Law	
ENGL 3340	Technologies of Text	
ENGL 3370	Writing Cultures	
ENGL 3381	The Practice and Theory of Teaching Writing	
ENGL 3400	Opening the Archive	

ENGL 3700	Narrative Medicine	
ENGL 4410	Research in Rhetoric and Writing	
<b>Comparative Literature</b>		
Complete one of the following:		4
ENGL 1450	Reading and Writing in the Digital Age	
ENGL 1502	American Literature to 1865	
ENGL 2150	Literature and Digital Diversity	
ENGL 2420	Contemporary Poetry	
ENGL 2430	Contemporary Fiction	
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2510	Horror Fiction	
ENGL 2520	Science Fiction	
ENGL 2600	Irish Literary Culture (Abroad)	
ENGL 2620	What Is Nature?	
ENGL 2690	Boston in Literature	
ENGL 3487	Film and Text (Abroad)	
ENGL 3663	The African American Novel	
<b>Writing</b>		
Complete one of the following:		4
ENGL 2700	Creative Writing	
ENGL 2710	Style and Editing	
ENGL 2740	Writing and Community Engagement	
ENGL 2760	Writing in Global Contexts	
ENGL 2770	Writing to Heal	
ENGL 2780	Visual Writing: Writing Visuals	
ENGL 2850	Writing for Social Media: Theory and Practice	
ENGL 3375	Writing Boston	
ENGL 3376	Creative Nonfiction	
ENGL 3377	Poetry Workshop	
ENGL 3378	Fiction Workshop	
ENGL 3380	Writing Seminar	
ENGL 3382	Publishing in the 21st Century	
ENGL 3384	The Writer's Marketplace	
<b>Electives</b>		
Complete one additional ENGL elective at the 2000 level or higher.		4

### Linguistics/English Combined Major Requirements

Code	Title	Hours
<b>Integrative Course</b>		
LING 3454	History of English	4
<b>Junior/Senior Seminar</b>		
ENGL 4710	Capstone Seminar	4
or ENGL 4720	Capstone Project	
or LING 4654	Seminar in Linguistics	
<b>Experiential Learning</b>		
Complete one of the following options. Courses used to satisfy this requirement may simultaneously satisfy a requirement above.		0-8
Study Abroad (not a Dialogue)		
International Co-op		
LING 4891	Research Seminar in Linguistics	

LING 4970	Junior/Senior Honors Project 1
and LING 4971	and Junior/Senior Honors Project 2
LING 4991	Directed Study Research

## Linguistics/English Combined Major Credit Requirement

Complete 80 semester hours in the major.

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirement

128 total semester hours required

## Plan of Study

	0	16

Total Hours: 129

## Media and Screen Studies and English, BA

The media and screen studies program and the Department of English offer a combined major in media and screen studies and English. The combined major integrates the analysis, research, and production of traditional and emerging media along with the study of the diverse historical, cultural, and aesthetic contexts of English, American, and other Anglophone literatures. Majors become familiar with writing practices and media from the Middle Ages through the present, from the quill pen to computer code.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC) and Societies and Institutions (SI) are met through the major course requirements.

NUpath requirements Creative Expression/Innovation (EI), Analyzing and Using Data (AD), Difference and Diversity (DD), and Ethical Reasoning (ER) may be met through electives in the major.

NUpath requirements Natural and Designed World (ND) and Formal and Quantitative Reasoning (FQ) must be met through general electives.

## Media and Screen Studies Requirements

Code	Title	Hours
<b>Media and Screen Studies Common Requirements</b>		
MSCR 1220	Media, Culture, and Society	4
MSCR 1320	Media and Social Change	4
or MSCR 1420	Media History	
<b>Foundation Course</b>		
Complete one of the following:		4
MSCR 1230	Introduction to Film Production	
MSCR 2220	Understanding Media	
<b>Diversity or Globalization Course</b>		
Complete one of the following:		4
MSCR 3392	Gender and Film	
MSCR 2325	Global Media	
MSCR 2505	Digital Feminisms	
MSCR 3437	Media and Identity	
<b>Writing-Intensive</b>		
Complete two of the following:		8
MSCR 2505	Digital Feminisms	
MSCR 3600	Film Theory	
MSCR 3420	Digital Media Culture	
MSCR 3422	Media Audiences	
MSCR 3700	Queer Media	
MSCR 4208	TV History	

## Media and Screen Studies Electives

Code	Title	Hours
Complete three courses from MSCR or from the following:		12
ARTD 2380	Video Basics	
ARTD 3480	Video: Sound and Image	
ARTD 3485	Experimental Video	
COMM 1450	Sound Production for Digital Media	
COMM 2550	Television Field Production	
COMM 2655	Television Studio Production	
COMM 3655	Digital Editing for TV	
COMM 3750	Special Effects and Postproduction for Television	
COMM 4755	Production Capstone	

## English Requirements

Code	Title	Hours
<b>English Course-Level Requirement</b>		
In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.		
<b>Introduction to College</b>		
ENGL 1000	English at Northeastern	1
<b>Foundational Courses</b>		

ENGL 1400	Introduction to Literary Studies	4
ENGL 1160	Introduction to Rhetoric	4
or ENGL 1410	Introduction to Research on Writing	
<b>Diversity</b>		
Complete one of the following courses. This course may also be used to fulfill an additional English requirement below:		4
ENGL 2150	Literature and Digital Diversity	
ENGL 2296	Early African-American Literature	
ENGL 2451	Postcolonial Women Writers	
ENGL 2470	Asian-American Literature	
ENGL 2760	Writing in Global Contexts	
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
ENGL 3685	Modern and Contemporary Jewish Literature	
or JWSS 3685	Modern and Contemporary Jewish Literature	
<b>Pre-Nineteenth-Century Literature</b>		
Complete one of the following:		4
ENGL 1600	Introduction to Shakespeare	
ENGL 1700	Global Literatures 1	
ENGL 2296	Early African-American Literature	
ENGL 3101	Early Literatures	
ENGL 3120	17th- and 18th-Century Literatures	
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
or JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
<b>Nineteenth-, Twentieth-, and Twenty-First-Century Literature</b>		
Complete one of the following:		4
ENGL 2330	The American Renaissance	
ENGL 2301	The Graphic Novel	
ENGL 2440	The Modern Bestseller	
ENGL 2600	Irish Literary Culture (Abroad)	
ENGL 2610	Contemporary Israeli Literature and Art (Abroad)	
ENGL 3140	19th-Century Literatures	
ENGL 3685	Modern and Contemporary Jewish Literature	
or JWSS 3685	Modern and Contemporary Jewish Literature	
ENGL 3720	19th-Century Major Figure	
ENGL 3730	20th- and 21st-Century Major Figure	
<b>Theories and Methods</b>		
Complete one of the following:		4
ENGL 1140	Grammar: The Architecture of English	
ENGL 1160	Introduction to Rhetoric	
ENGL 1410	Introduction to Research on Writing	
ENGL 2150	Literature and Digital Diversity	
ENGL 3325	Rhetoric of Law	
ENGL 3340	Technologies of Text	
ENGL 3370	Writing Cultures	
ENGL 3381	The Practice and Theory of Teaching Writing	
ENGL 3400	Opening the Archive	

ENGL 3700	Narrative Medicine

## Biology and English, BS

In the combined biology and English degree, science courses lay the groundwork for strong basic training in mathematics, chemistry, and physics that are relevant to biology. In biology courses, students broadly explore the organization and processes of life—from molecules and cells through organs and organ systems to populations, ecosystems, and evolution. In English courses, students study the diverse historical, cultural, and aesthetic contexts of English, American, and other Anglophone literatures; analyze writing practices and related media; and practice a variety of approaches to the study of language, rhetoric, writing, and literature. The fields of biology and English are bridged with course work in different forms of science writing, as well as psychology and sociology courses exploring the acquisition of language and reading; the sociology of health and illness; and the environment, technology, and society.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Biology Requirements

## Chemistry

<i>General Chemistry</i>		
CHEM 1161 and CHEM 1162 and CHEM 1163	General Chemistry for Science Majors and Lab for CHEM 1161 and Recitation for CHEM 1161	5
<i>Organic Chemistry</i>		
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5
CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5
<b>Physics</b>		
<i>Physics 1</i>		
Complete one of the following lecture/lab pairs. PHYS 1145/PHYS 1146 is recommended:		5
PHYS 1145 and PHYS 1146	Physics for Life Sciences 1 and Lab for PHYS 1145	
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	
<i>Physics 2</i>		
Complete one of the following lecture/lab pairs. PHYS 1147/PHYS 1148 is recommended:		5
PHYS 1147 and PHYS 1148	Physics for Life Sciences 2 and Lab for PHYS 1147	
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	

## English Requirements

Code	Title	Hours
<b>English Course-Level Requirement</b>		
In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.		
<b>Introduction to College</b>		
ENGL 1000	English at Northeastern	1
<b>Foundational Courses</b>		
ENGL 1400	Introduction to Literary Studies	4
ENGL 1160 or ENGL 1410	Introduction to Rhetoric or Introduction to Research on Writing	4
<b>Diversity</b>		
Complete one of the following courses. This course may also be used to fulfill an additional English requirement below:		4
ENGL 2150	Literature and Digital Diversity	
ENGL 2296	Early African-American Literature	
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2760	Writing in Global Contexts	
ENGL 3663	The African American Novel	
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	

ENGL 3685	Modern and Contemporary Jewish Literature	
or JWSS 3685	Modern and Contemporary Jewish Literature	
<b>Pre-Nineteenth-Century Literature</b>		
Complete one of the following:		4
ENGL 1600	Introduction to Shakespeare	
ENGL 1700	Global Literatures 1	
ENGL 2296	Early African-American Literature	
ENGL 3101	Early Literatures	
ENGL 3120	17th- and 18th-Century Literatures	
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
or JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
<b>Nineteenth-, Twentieth-, and Twenty-First-Century Literature</b>		
Complete one of the following:		4
ENGL 2330	The American Renaissance	
ENGL 2301	The Graphic Novel	
ENGL 2440	The Modern Bestseller	
ENGL 2600	Irish Literary Culture (Abroad)	
ENGL 2610	Contemporary Israeli Literature and Art (Abroad)	
ENGL 3140	19th-Century Literatures	
ENGL 3685	Modern and Contemporary Jewish Literature	
or JWSS 3685	Modern and Contemporary Jewish Literature	
ENGL 3720	19th-Century Major Figure	
ENGL 3730	20th- and 21st-Century Major Figure	
<b>Theories and Methods</b>		
Complete one of the following:		4
ENGL 1140	Grammar: The Architecture of English	
ENGL 1160	Introduction to Rhetoric	
ENGL 1410	Introduction to Research on Writing	
ENGL 2150	Literature and Digital Diversity	
ENGL 3325	Rhetoric of Law	
ENGL 3340	Technologies of Text	
ENGL 3370	Writing Cultures	
ENGL 3381	The Practice and Theory of Teaching Writing	
ENGL 3400	Opening the Archive	
ENGL 3700	Narrative Medicine	
ENGL 4410	Research in Rhetoric and Writing	
LING 1150	Introduction to Language and Linguistics	
LING 2350	Linguistic Analysis	
LING 3450	Syntax	
LING 3452	Semantics	
LING 3454	History of English	
LING 3456	Language and Gender	
LING 3458	Topics in Linguistics	
<b>Comparative Literature</b>		
Complete one of the following:		4
ENGL 1450	Reading and Writing in the Digital Age	
ENGL 1502	American Literature to 1865	

ENGL 2150	Literature and Digital Diversity
ENGL 2420	Contemporary Poetry
ENGL 2430	Contemporary Fiction
ENGL 2451	Postcolonial Women Writers
ENGL 2455	American Women Writers
ENGL 2510	Horror Fiction
ENGL 2520	Science Fiction
ENGL 2600	Irish Literary Culture (Abroad)
ENGL 2620	What Is Nature?
ENGL 2690	Boston in Literature
ENGL 3487	Film and Text (Abroad)
ENGL 3663	The African American Novel

**Writing**

Complete one of the following:		4
ENGL 2700	Creative Writing	
ENGL 2710	Style and Editing	
ENGL 2740	Writing and Community Engagement	
ENGL 2760	Writing in Global Contexts	
ENGL 2770	Writing to Heal	
ENGL 2780	Visual Writing: Writing Visuals	
ENGL 2850	Writing for Social Media: Theory and Practice	
ENGL 3375	Writing Boston	
ENGL 3376	Creative Nonfiction	
ENGL 3377	Poetry Workshop	
ENGL 3378	Fiction Workshop	
ENGL 3380	Writing Seminar	
ENGL 3382	Publishing in the 21st Century	
ENGL 3384	The Writer's Marketplace	

**English Electives**

Complete two additional ENGL electives.	8
---	---

**Integrative Courses**

Code	Title	Hours
<b>Integrative English Course</b>		
Complete one of the following:		4
ENGL 2770	Writing to Heal	
ENGL 3340	Technologies of Text	
<b>Integrative General Biological Sciences Course</b>		
Complete one of the following:		4
PSYC 3464	Psychology of Language	
PSYC 4520	Language and the Brain	

**Capstone Requirement**

Complete one of the following capstone options:

Code	Title	Hours
<b>Biology Capstone: complete one of the options to fulfill the capstone requirement in biology.</b>		1-4
BIOL 4701	Biology Capstone	
BIOL 4900	Biology Research Capstone (concurrent with BIOL 4991, which may be used toward Intermediate/Advanced Biology)	
BIOL 4971	Junior/Senior Honors Project 2	

**English Capstone**

ENGL 4710	Capstone Seminar	4
or ENGL 4720	Capstone Project	

### Biology and English Combined Major GPA Requirement

Minimum 2.000 GPA required in all BIOL courses  
Minimum 2.000 GPA required in all ENGL courses

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

128 total semester hours required

### English, Minor

The English minor offers students the opportunity to complement their major area with focused course work in any of the broad areas of English studies, such as writing practices, language, rhetoric, and literature.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Three of the four total courses must be taken at Northeastern.

*Note:* Courses taken to fulfill the first-year writing requirement and the Advanced Writing in the Disciplines requirements do not count toward this minor. A total of 16 semester hours is required for the English minor.

### Requirements

Code	Title	Hours
<b>Introductory Course</b>		
Complete one course in the following range:		4
ENGL 1001 to ENGL 1999		
<b>Electives</b>		
Complete three ENGL courses, two of which must be in the range ENGL 2000 to ENGL 4999.		12

### GPA Requirement

2.000 GPA required in the minor

### Rhetoric, Minor

The rhetoric minor appeals to students interested in history, theory, and the criticism of civic discourse and cultural practices. The minor integrates courses from the Department of Communication Studies and the Department of English that explore the nature and function of rhetoric in politics, the professions, and the media. The rhetoric minor offers students an opportunity to be better citizens, members of the community, and leaders in the workplace by learning how to use language strategically, to speak with integrity, and to appreciate the power of their own voice.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where indicated.

Students must complete a minimum of three courses exclusive to this minor beyond the courses required for the student's declared major(s) and additional minor(s).

### Foundational Course

Code	Title	Hours
Complete one of the following:		4
COMM 1210	Persuasion and Rhetoric	
ENGL 1160	Introduction to Rhetoric	

### Electives

Code	Title	Hours
Note: For English majors, only one course from the major may also count toward this elective section of the minor.		
Complete four of the following:		16
COMM 1331	Legal Argumentation, Advocacy, and Citizenship	
COMM 3414	Great Speakers and Speeches	
COMM 3415	Communication Criticism	
COMM 3501	Free Speech: Law and Practice	
COMM 4602	Contemporary Rhetorical Theory	
ENGL 3325	Rhetoric of Law	
ENGL 3381	The Practice and Theory of Teaching Writing	
ENGL 3404	African American Rhetorical Traditions	

### GPA Requirement

2.000 GPA required in the minor

### Writing, Minor

Students in the writing minor integrate theory with writing practice. Courses on writing for social media, writing in global contexts, and writing in a variety of creative genres provide students with opportunities to explore writing in diverse contexts.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Three of the four total classes must be taken at Northeastern.

### Writing Theories and Methods

Code	Title	Hours
Complete one of the following:		4
ENGL 1160	Introduction to Rhetoric	
ENGL 1410	Introduction to Research on Writing	
ENGL 3325	Rhetoric of Law	
ENGL 3381	The Practice and Theory of Teaching Writing	
ENGL 3404	African American Rhetorical Traditions	

### Writing Electives

Code	Title	Hours
Complete three of the following:		12
ENGL 1140	Grammar: The Architecture of English	
ENGL 1160	Introduction to Rhetoric	
ENGL 1410	Introduction to Research on Writing	
ENGL 1450	Reading and Writing in the Digital Age	
ENGL 2301	The Graphic Novel	
ENGL 2695	Travel and Place-Based Writing	
ENGL 2700	Creative Writing	
ENGL 2710	Style and Editing	

ENGL 2740	Writing and Community Engagement
ENGL 2760	Writing in Global Contexts
ENGL 2770	Writing to Heal
ENGL 2780	Visual Writing: Writing Visuals
ENGL 2850	Writing for Social Media: Theory and Practice
ENGL 3325	Rhetoric of Law
ENGL 3340	Technologies of Text
ENGL 3370	Writing Cultures
ENGL 3375	Writing Boston
ENGL 3376	Creative Nonfiction
ENGL 3377	Poetry Workshop
ENGL 3378	Fiction Workshop
ENGL 3380	Writing Seminar
ENGL 3381	The Practice and Theory of Teaching Writing
ENGL 3382	Publishing in the 21st Century
ENGL 3384	The Writer's Marketplace

## GPA Requirement

2.000 GPA required in the minor

## History

Website (<http://www.northeastern.edu/history/>)

### Timothy Brown, PhD

Professor and Chair

617.373.2660

617.373.2661 (fax)

History at Northeastern emphasizes the study of local and regional histories as well as of the global exchanges between nations, regions, and cultures. Knowledge of the past is also about building the future. In a world marked by increasing exchange between peoples, cultures, and societies, history is key to understanding contemporary issues such as the future of democracy, the nature of citizenship and rights, the origins and conduct of war, the foundations of racial and ethnic conflict and tolerance, and poverty and prosperity. At the same time, history teaches crucial skills in analytical thinking, research processes, writing, oral expression, and multimedia presentation.

History majors take three core seminars on historical research and choose from a broad range of courses in historical themes, periods, and regions. The program emphasizes undergraduate research in the major and trains students to conduct research in archives and primary sources and to write research papers. Honors study is strongly encouraged for eligible students, and students are encouraged to take advantage of numerous options for study abroad. Advanced undergraduates have the opportunity to participate in individual directed study with members of the faculty on topics of mutual interest.

Cooperative education placements, fieldwork, internships, and other experiential learning activities are also available. History majors have worked on co-op in law firms, an art auction house, the State Department, the Massachusetts State House, Newton Public Schools, and the Massachusetts State Archives, among many other institutions.

Undergraduates who plan to teach in public schools may combine history with education courses that can lead to state certification in

Massachusetts. History students are also encouraged to take Dialogue of Civilizations courses that engage students in short-term study abroad during the summer.

The Department of History offers a broad-based Bachelor of Arts major and two Bachelor of Science options. One BS option emphasizes training in disciplines outside history. It includes the study of research methods and a minor in fields such as English; economics; political science; sociology; cinema studies; East Asian studies; or women's, gender, and sexuality studies. The other BS option seeks to prepare students for public history fields such as museum administration, archival management, or historic preservation. The Department of History participates in numerous interdisciplinary programs, including East Asian studies; cinema studies; environmental studies; international affairs; Jewish studies; Latino/a, Latin American, and Caribbean studies; and women's, gender, and sexuality studies.

The Department of History offers qualified undergraduates the opportunity to pursue a BA/MA or BS/MA degree in five years, with the approval of the department. Students with a minimum 3.330 cumulative grade-point average (GPA) and minimum 3.500 GPA in required history courses may apply for admission to the PlusOne BA/MA or BS/MA program in history.

## Academic Progression Standards

Same as university-wide standards described under "Academic Status (p. 27)."

## PlusOne Program (MA) in History

History majors at the end of their sophomore year or the beginning of their junior year may qualify for application to the PlusOne program that combines the BA with the master's degree in history. Students interested in this option should consult with the graduate program director as soon as they think they might be interested in pursuing the master's degree.

## Programs

### Bachelor of Arts (BA)

- History (p. 976)
- History and Asian Studies (p. 837)
- History and Criminal Justice (p. 842)
- History and Cultural Anthropology (p. 982)
- History and Economics (p. 904)
- History and English (p. 960)
- History and Philosophy (p. 987)
- History and Political Science (p. 989)
- History and Religious Studies (p. 992)
- Environmental Studies and History (p. 717)
- International Affairs and History (p. 994)
- Media and Screen Studies and History (p. 151)

### Bachelor of Science (BS)

- History (p. 999)
- Computer Science and History (p. 361)
- History and Economics (p. 928)

### Bachelor of Science in Mechanical Engineering (BSME)

- Mechanical Engineering and History (p. 529)

## Minor

- History (p. 1008)

## Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. )

### History, BA

The Bachelor of Arts (BA) is a broadly based liberal arts degree in history. Students who pursue the BA degree must satisfy general requirements and take courses to satisfy Northeastern's university-wide core curriculum (NUpath (p. 46)), in addition to required and elective history courses. These requirements help students develop their historical knowledge and skills within the contexts of the arts, humanities, social sciences, and sciences that together comprise the disciplinary sources of historical knowledge. They enable historical understanding to be culturally and linguistically sensitive to the subjects of historical inquiry.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### History Major Requirements

Code	Title	Hours
<b>Introductory History</b>		
HIST 1000	History at Northeastern	1
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
Complete two of the following:		8
HIST 1100	Law and History	
HIST 1120	Public History, Public Memory	
HIST 1130	Introduction to the History of the United States	
HIST 1150	East Asian Studies	
HIST 1170	Europe: Empires, Revolutions, Wars, and Their Aftermath	
HIST 1185	Introduction to Middle Eastern History	
HIST 1190	Picturing Modernity: The Photographic Image in Culture and Society	
HIST 1215	Origins of Today: Historical Roots of Contemporary Issues	
HIST 1246	World War II in the Pacific	
WMNS 1103	Introduction to Women's, Gender, and Sexuality Studies	

### History Seminar and Historical Writing

HIST 2301 and HIST 2302	The History Seminar and Historical Writing	5
-------------------------	--	---

### Additional History Requirements

Code	Title	Hours
<b>Pre-1800 Course</b>		
Complete one of the following:		4
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1252	Japanese Literature and Culture	
HIST 1272	Europe in the Middle Ages, 500–1500	
HIST 1285	Introduction to Russian Civilization	
HIST 2330	Colonial and Revolutionary America	
HIST 2370	Renaissance to Enlightenment	
HIST 2375	The Tudors, the Stuarts, and the Birth of Modern Britain	
HIST 2376	Britain and the British Empire	
<b>History Outside the United States and Europe</b>		
Complete one of the following:		4
HIST 1150	East Asian Studies	
HIST 1180	African History	
HIST 1185	Introduction to Middle Eastern History	
HIST 1187	Introduction to Latin American History	
HIST 1206	Drug Trade and Drug War: History, Security, Culture	
HIST 1246	World War II in the Pacific	
HIST 1252	Japanese Literature and Culture	
HIST 1253	History of Vietnam Wars	
HIST 1290	Modern Middle East	
HIST 1500	Modern Chinese History and Culture	
HIST 2211	The World Since 1945	
HIST 2308	Law, Justice, and Society in Modern China	
HIST 2311	Colonialism/Imperialism	
HIST 2351	Modern Japan	

### Capstone or Project

Complete one of the following:		4
HIST 4701	Capstone Seminar	

### Intermediate/Advanced History Course Requirement

Code	Title	Hours
Complete four history courses numbered 2000 or above (excluding HIST 2301 and HIST 2302); one of these courses must be numbered 3000–4999.		16

### History Major Credit Requirement

Complete 46 semester hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirements

128 total semester hours required

## Environmental Studies and History, BA

Through this combined major, successful undergraduates will develop an awareness of the scientific, cultural, and political aspects of the world's environmental problems through historical perspectives and backgrounds.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Environmental Studies Requirements

Code	Title	Hours
<b>Science Requirements</b>		
ENVR 1101	Environmental Science	4
ENVR 1202 and ENVR 1203	History of Earth and Life and Interpreting Earth History	5
ENVR 1110	Global Climate Change	4
<b>Humanities Requirement</b>		
PHIL 1180	Environmental Ethics	4
<b>Social Science Requirements</b>		
ECON 1116	Principles of Microeconomics	4
POLS 1150 and POLS 1151	American Government and Recitation for POLS 1150	4

## History and Asian Studies, BA

History and Asian studies offers an interdisciplinary combined major. Students interested in the combined major in history and Asian studies integrate the exploration of human history with the rigorous study of Asian cultures, societies, languages, and economies.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### History Requirements

Code	Title	Hours
<b>History Colloquium</b>		
HIST 1000	History at Northeastern	1
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
<b>Introductory Level</b>		
	Choose one course from the 1000 level except HIST 1215, which is required by Asian studies.	4
<b>History Seminar and Historical Writing</b>		
HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1
<b>Pre-1800 History Elective</b>		
	Choose one course from the following:	4
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1252	Japanese Literature and Culture	
HIST 2370	Renaissance to Enlightenment	
HIST 1185	Introduction to Middle Eastern History	

HIST 1285	Introduction to Russian Civilization	
HIST 2330	Colonial and Revolutionary America	
<b>Advanced History</b>		
Complete one history course 3000 level or above		4

## History Cluster

In conjunction with your history advisor, define a history cluster by the first semester of your junior year of study. A cluster comprises four history courses with no more than two courses in the 1200–1299 range. These courses may double-count in the requirements above (except History Colloquium).

## Asian Studies Requirements

Code	Title	Hours
<b>Required Courses</b>		
ASNS 1150	East Asian Studies	4
HIST 1215	Origins of Today: Historical Roots of Contemporary Issues	4

### Asia in Global Context

Complete one of the following:		4
ECON 3290	History of the Global Economy	
INTL 2240	Global Population and Development	
POLS 3487	Politics of Developing Nations	

Complete a professional or academic experience abroad in consultation with your advisor.

## Language and Elective Requirements

Code	Title	Hours
<b>Language Courses</b>		
Complete the following courses in either Chinese or Japanese:		16
<i>Chinese</i>		
CHNS 1101	Elementary Chinese 1	
CHNS 1102	Elementary Chinese 2	
CHNS 2101	Intermediate Chinese 1	
or CHNS 2301	Intermediate Chinese Immersion 1	
CHNS 2102	Intermediate Chinese 2	
or CHNS 2302	Intermediate Chinese Immersion 2	
<i>Japanese</i>		
JPNS 1101	Elementary Japanese 1	
JPNS 1102	Elementary Japanese 2	
JPNS 2101	Intermediate Japanese 1	
or JPNS 2301	Intermediate Japanese Immersion 1	
JPNS 2102	Intermediate Japanese 2	
or JPNS 2302	Intermediate Japanese Immersion 2	

### Asian Studies Electives

Complete three courses from the following focus areas.		12
<i>Society and Politics Focus Area</i>		

ANTH 4350	Ethnography of Southeast Asia	
ANTH 4515	Culture and Politics in Modern India	
ASNS 2245	The Asian-American Experience	
INTB 2501	Competing to Win in Emerging Markets	
MKTG 4220	Marketing in Asia	
PHIL 1130	Ethics: East and West	
INTL 2240	Global Population and Development	
POLS 3487	Politics of Developing Nations	

<i>Language, Literature, and Culture Focus Area</i>		
CLTR 1260	Japanese Film	
CLTR 1700	Introduction to Japanese Pop Culture	
MUSC 2130	Music of Asia	
PHIL 1130	Ethics: East and West	

### Religious Studies Focus Area

PHIL 1275	Hinduism, Buddhism, and Beyond: Eastern Religions	
PHIL 1290	Chinese Philosophy and Religion	
PHIL 2395	Japanese Buddhism	

## Capstone

Code	Title	Hours
Complete one of the following:		4
HIST 4701	Capstone Seminar	
ASNS 4900	Asian Studies Capstone Directed Study	

## Integrative Requirement

Note: Public history concentrators satisfy this requirement within the concentration with Fieldwork in History 1 (HIST 4903).

Code	Title	Hours
HIST 2351	Modern Japan	4
or ASNS 2245	The Asian-American Experience	

## History and Asian Studies Major Credit Requirement

Complete 82 semester hours in the major.

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirements

128 total semester hours required

## History and Criminal Justice, BA

This combined major educates students in criminal justice and history, emphasizing the complementarity between these two disciplines. Students successfully completing this program will be able to critically evaluate and draw connections between past and present practices in law, punishment, incarceration, justice, and the social institutions and cultural contexts in which these systems operate.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## History Requirements

Code	Title	Hours
<b>History Colloquium</b>		
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
<b>Introductory Level</b>		
Complete one other course from HIST 1001 to HIST 1999 (excluding HIST 1100, HIST 1200, and HIST 1201).		4
<b>Intermediate/Advanced Level</b>		
Complete four HIST courses numbered 2000 or above (excluding HIST 2301 and HIST 2302).		16
<b>Advanced Level</b>		
Complete one HIST course numbered 3000 or above.		4
<b>Pre-1800 History Elective</b>		
Complete one of the following:		4
HIST 1185	Introduction to Middle Eastern History	
HIST 1389	History of Espionage 1: Antiquity to World War II	
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1252	Japanese Literature and Culture	
HIST 1272	Europe in the Middle Ages, 500–1500	
HIST 2311	Colonialism/Imperialism	
HIST 2330	Colonial and Revolutionary America	
HIST 2370	Renaissance to Enlightenment	

## Criminal Justice Requirements

Code	Title	Hours
<b>Introduction to Crime, Law, and the Justice System</b>		
What do we know about crime and justice? In these three courses successful students will develop a foundational understanding of three related phenomena: why crime exists, how our criminal justice system responds to crime, and the constitutional and legal oversight of this process.		
CRIM 1100	Introduction to Criminal Justice	4
CRIM 1110	Criminal Due Process	4
CRIM 1120	Criminology	4
<b>Current Crime and Justice Issues</b>		
These courses introduce students to topical issues related to crime and justice.		
Complete one of the following:		4
CRIM 1300	The Death Penalty	
CRIM 1400	Human Trafficking	
CRIM 1500	Corruption, Integrity, and Accountability	
CRIM 1700	Crime, Media, and Politics	
<b>Crime Problems and Criminal Justice Institutions</b>		
The 2000-level courses in this list ask how does justice work and for whom? These courses introduce students to the systems and institutions tasked with providing justice. Each includes experiential learning components in cooperation with local criminal justice institutions. The 3000-level courses in this list provide students a deeper look at a range of crime problems.		

Complete one of the following: 4

CRIM 2310	Courts: The Third Branch of Government	
CRIM 2320	Youth Crime and Justice	
CRIM 2330	Punishment in the Age of Mass Incarceration	
CRIM 2340	Corporate Security: Securing the Private Sector	
CRIM 2350	Policing a Democratic Society	
CRIM 3010	Criminal Violence	
CRIM 3030	Global Criminology	
CRIM 3040	Psychology of Crime	
CRIM 3050	Organized Crime	
CRIM 3060	Political Crime and Terrorism	
CRIM 3070	Corporate and White-Collar Crime	
CRIM 3540	Addiction and Recovery	

### Creating Knowledge about Crime and Justice

How do we know what we know about crime and justice—and how do we develop new knowledge? Harnessing data to learn about issues, identify solutions, and advocate for change.

CRIM 3700	Analyzing and Using Data on Crime and Justice	4
-----------	---	---

### Systemic Issues

A consideration of systemic issues facing the criminal justice system.

Complete one of the following: 4

CRIM 3110	Gender, Crime, and Justice	
CRIM 3120	Race, Crime, and Justice	

### Criminal Justice Electives

Rounding out knowledge of crime and justice.

Complete two additional criminal justice electives from the 3000, 4000 or 5000-level. 8

## Other Requirements

Code	Title	Hours
A minimum of one history course must be taken between the methods and capstone requirements.		
<b>Methods</b>		
Complete one of the following:		4
CRIM 3600	Criminal Justice Research Methods	
HIST 2301	The History Seminar	
<b>Capstone</b>		
Complete one of the following:		4
HIST 4701	Capstone Seminar	
CRIM 4949	Senior Capstone Seminar	
<b>Integrative Course</b>		
HIST 1100	Law and History	4

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirements

128 total semester hours required

## Plan of Study

### Example plan of study with One Co-op

#### Year 1

Fall	Hours	Spring	Hours
HIST 1200	1	HIST 1100	4

Total Hours: 128

## History and Cultural Anthropology, BA

History and cultural anthropology offer an interdisciplinary combined major. Students interested in the combined major in history and cultural anthropology integrate the exploration of human history with the rigorous study of human cultures.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### History Requirements

Code	Title	Hours
<b>History Colloquium</b>		
HIST 1000	History at Northeastern	1
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
<b>Introductory Level</b>		
Complete one history course from the 1000 level.		4
<b>History Seminar and Historical Writing</b>		
HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1
<b>Pre-1800 History Elective</b>		
Complete one course from the following:		4
HIST 1187	Introduction to Latin American History	
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1252	Japanese Literature and Culture	
HIST 1272	Europe in the Middle Ages, 500–1500	
HIST 1285	Introduction to Russian Civilization	
HIST 2330	Colonial and Revolutionary America	
HIST 2370	Renaissance to Enlightenment	
HIST 2375	The Tudors, the Stuarts, and the Birth of Modern Britain	

### Intermediate/Advanced History Cluster

Complete three history courses numbered 2303 or above. 12

### Advanced History

Complete one history course at the 3000 level or above. 4

### Cultural Anthropology Requirements

Code	Title	Hours
<b>Foundation Courses</b>		
ANTH 1101	Peoples and Cultures	4

ANTH 2305	Global Markets and Local Culture	4
ANTH 3421	Foundations of Anthropological Theory	4
ANTH 3410	Ethnographic Field Experience	4

**Area Courses**

Complete two courses from the following: 8

ANTH 4350	Ethnography of Southeast Asia
ANTH 4500	Latin American Society and Development
ANTH 4505	Native North Americans
ANTH 4510	Anthropology of Africa
ANTH 4515	Culture and Politics in Modern India

**Anthropology Electives**

Complete three courses in the following range. One study-abroad course may count toward this requirement. 12

ANTH 2001 to ANTH 4599

**Capstone Requirements**

**Code Title Hours**

Complete one of the following: 4

ANTH 4600	Senior Seminar
HIST 4701	Capstone Seminar

**Integrative Requirements**

ANTH courses below will double count as area courses.

**Code Title Hours**

ANTH 4350	Ethnography of Southeast Asia	4
ANTH 4510	Anthropology of Africa	4
HIST 2360	History of Capitalism in East Asia	4

Students taking Senior Seminar (ANTH 4600) must complete either a one-semester senior project, which they would do in the context of ANTH 4600, or a two-semester senior thesis, which would require them to also enroll in a fall-semester directed study.

**Anthropology Major Grade Requirement**

A GPA of 2.000 for major courses is required.

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Program Requirement**

128 total semester hours required

**Plan of Study**

Total Hours: 131

**History and Economics, BA**

The Department of History and the Department of Economics offer an interdisciplinary combined major in history and economics. Students

interested in the combined major integrate the study of economic systems and theories with the study and analysis of human history.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### History Requirements

Code	Title	Hours
<b>History Colloquium</b>		
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
<b>Introductory Level</b>		
Complete one history course from the 1000 level (except from HIST 1200 and HIST 1201).		4
<b>History Seminar and Historical Writing</b>		
HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1
<b>Pre-1800 History Elective</b>		
Complete one of the following:		4
HIST 1185	Introduction to Middle Eastern History	
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1252	Japanese Literature and Culture	
HIST 1272	Europe in the Middle Ages, 500–1500	
HIST 1285	Introduction to Russian Civilization	
HIST 2370	Renaissance to Enlightenment	
HIST 2375	The Tudors, the Stuarts, and the Birth of Modern Britain	
HIST 2330	Colonial and Revolutionary America	
<b>Intermediate/Advanced History Courses</b>		
Complete four history courses numbered 2000 or above, excluding HIST 2301 and HIST 2302.		16
<b>Advanced History</b>		
Complete one history course at the 3000 level or above.		4
<b>Economics Requirements</b>		
Code	Title	Hours
<b>Introduction to College</b>		
ECON 1000	Economics at Northeastern	1
or HIST 1000	History at Northeastern	
<b>Required Economics Courses</b>		
ECON 1115	Principles of Macroeconomics	4

ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4
ECON 3520	History of Economic Thought	4

### Economics Electives

Complete two economics elective courses that are found in the following ranges, with no more than one in the ECON 1200 to ECON 1999 range. Additionally, courses used to satisfy the integrative course requirement and ECON 3520 may not be used as economics electives:

ECON 1200 to ECON 1999

ECON 3000 to ECON 4689

ECON 4900 to ECON 4999

ECON 5200 to ECON 5999

### Supplemental Courses

CS 1100	Computer Science and Its Applications	4
or MISM 2510	Fundamentals of Information Analytics	
or DS 2000	Programming with Data	
and DS 2001	and Data Science Programming Practicum	
MATH 1231	Calculus for Business and Economics	4
or MATH 1241	Calculus 1	
or MATH 1245	Calculus with Applications	
or MATH 1251	Calculus and Differential Equations for Biology 1	
or MATH 1340	Intensive Calculus for Engineers	
or MATH 1341	Calculus 1 for Science and Engineering	

### Capstone Requirements

Code	Title	Hours
Complete one of the following options (Public History concentrations complete HIST 4903 and HIST 4904):		4
ECON 4692	Senior Economics Seminar	
HIST 4701	Capstone Seminar	

### Integrative Requirement

Code	Title	Hours
Complete one of the following:		4
ECON 3470	American Economic History	
ECON 1292	Economic History of the Middle East	
HIST 2360	History of Capitalism in East Asia	
HIST 2011	Capitalism and Business: A Global History	

### History and Economics Major GPA/Credit Requirement

Grades in the following four economics courses must average a minimum of C (2.000):

Code	Title	Hours
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4

Complete 92 semester hours in the major.

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirement

128 total semester hours required

## Plan of Study

## History and English, BA

The English department and the history department offer an interdisciplinary combined major in English and history. Students interested in the combined major in English and history integrate the study of literature and writing with the study and analysis of human history.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## History Requirements

Code	Title	Hours
<b>History Colloquium</b>		
HIST 1000	History at Northeastern	1
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
<b>Introductory Level</b>		
Complete one course from the 1000 level.		4
<b>History Seminar and Historical Writing</b>		
HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1
<b>Pre-1800 History Elective</b>		
Complete one of the following:		4
HIST 1185	Introduction to Middle Eastern History	
HIST 1187	Introduction to Latin American History	
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1252	Japanese Literature and Culture	
HIST 1272	Europe in the Middle Ages, 500–1500	
HIST 1285	Introduction to Russian Civilization	
HIST 2370	Renaissance to Enlightenment	

HIST 2330	Colonial and Revolutionary America	
HIST 2375	The Tudors, the Stuarts, and the Birth of Modern Britain	

**Intermediate/Advanced History Courses**

Complete four history courses numbered 2000 or above that have not been used to fulfill another requirement. 16

**Advanced History**

Complete one history course at the 3000 level or above that has not been used to fulfill another requirement. 4

**English Requirements**

Code	Title	Hours
------	-------	-------

**English Course-Level Requirement**

In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.

**Introduction to College**

ENGL 1000	English at Northeastern	1
-----------	-------------------------	---

**Foundational Courses**

ENGL 1400	Introduction to Literary Studies	4
ENGL 1160	Introduction to Rhetoric	4
or ENGL 1410	Introduction to Research on Writing	

**Diversity**

Complete one of the following courses. This course may also be used to fulfill an additional English requirement below. 4

ENGL 2150	Literature and Digital Diversity	
ENGL 2296	Early African-American Literature	
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2760	Writing in Global Contexts	
ENGL 2470	Asian-American Literature	
ENGL 3663	The African American Novel	
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
ENGL 3685	Modern and Contemporary Jewish Literature	
or JWSS 3685	Modern and Contemporary Jewish Literature	

**Pre-Nineteenth-Century Literature**

Complete one of the following: 4

ENGL 1600	Introduction to Shakespeare	
ENGL 1700	Global Literatures 1	
ENGL 2296	Early African-American Literature	
ENGL 3101	Early Literatures	
ENGL 3120	17th- and 18th-Century Literatures	
ENGL 3618	Milton	
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
or JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	

**Nineteenth-, Twentieth-, and Twenty-First-Century Literature**

Complete one of the following: 4

ENGL 2301	The Graphic Novel	
ENGL 2330	The American Renaissance

## International Affairs and History, BA

This combined major fosters an historically contingent awareness of global affairs and international policy issues since the early 20th century through diverse and cross-disciplinary theories of interstate relations, state-society relations, the future of democracy, the nature of citizenship and rights, the origins and conduct of war, the foundations of racial and ethnic conflict and tolerance, and poverty and prosperity. This combined major highlights the importance of understanding the intersection between global issues and local traditions and is designed to prepare students to be politically, culturally, historically, and linguistically sensitive to their interaction.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### International Affairs Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement.

Code	Title	Hours
<b>International Affairs/History at Northeastern</b>		
INTL 1000 or HIST 1000	International Affairs at Northeastern History at Northeastern	1

### International Affairs Required Courses

INTL 1101	Globalization and International Affairs	4
INTL 3400	International Conflict and Negotiation	4
ECON 1115	Principles of Macroeconomics	4
POLS 1160	International Relations	4
POLS 1155 or ANTH 1101	Comparative Politics Peoples and Cultures	4

### International Experiential Learning

Complete at least one "international semester" via study abroad, international internship, international co-op, or two short-term programs.

### International Affairs Elective

Code	Title	Hours
Complete one of the following:		4

Code	Title	Hours
INTL 2240	Global Population and Development

## International Affairs Foreign Language Requirement

Complete coursework in a language through at least intermediate-level two. *Note:* Completing this requirement satisfies the language requirement for the BA degree.

## History Major Requirements

Code	Title	Hours
<b>History Colloquium</b>		
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
<b>Introductory Level</b>		
Complete one course from HIST 1001 to HIST 1999 (excluding 1200/1201).		4

**Pre-1800 History Elective**

Complete one of the following:		4
HIST 1187	Introduction to Latin American History	
HIST 1389	History of Espionage 1: Antiquity to World War II	
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1252	Japanese Literature and Culture	
HIST 2311	Colonialism/Imperialism	
HIST 2330	Colonial and Revolutionary America	

**Intermediate History Cluster**

Complete four history courses numbered 2000 or above (excluding 2301, 2302, and 2330). 16

**Advanced History**

Complete one history course at the 3000 level or above. 4

**International Affairs and History Integrative Requirements**

**Code Title Hours**  
One course from the Research Methods and Capstone requirements must come from history.

**Research Methods**

Complete one of the following:		4 - 5
INTL 2718	Research Methods in International Affairs	
HIST 2301 and HIST 2302	The History Seminar and Historical Writing	

**Capstone**

INTL 4700	Senior Capstone Seminar in International Affairs	4
or HIST 4701	Capstone Seminar	

**Integrative Course**

HIST 2011	Capitalism and Business: A Global History	4
or HIST 2311	Colonialism/Imperialism	

**International Affairs and History Combined Major Credit Requirement**

Complete 76 semester hours in the major.

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Program Requirement**

128 total semester hours required

**Plan of Study**

**Media and Screen Studies and History, BA**

The Media and Screen Studies Program and the Department of History offer a combined major in media and screen studies and history. The combined major integrates the analysis, research, and production of traditional and emerging media along with the study of local and regional histories as well as of the global exchanges between nations, regions, and cultures.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC) and Societies and Institutions (SI) are met through the major course requirements.

NUpath requirements Creative Expression/Innovation (EI), Analyzing and Using Data (AD), Difference and Diversity (DD), and Ethical Reasoning (ER) may be met through electives in the major.

NUpath requirements Natural and Designed World (ND) and Formal and Quantitative Reasoning (FQ) must be met through general electives.

## Media and Screen Studies Requirements

Code	Title	Hours
<b>Media and Screen Studies Common Requirements</b>		
MSCR 1220	Media, Culture, and Society	4
MSCR 1320 or MSCR 1420	Media and Social Change Media History	4
<b>Foundation Course</b>		
Complete one of the following:		4
MSCR 1230	Introduction to Film Production	
MSCR 2220	Understanding Media	
<b>Diversity or Globalization Course</b>		
Complete one of the following:		4
MSCR 3392	Gender and Film	
MSCR 2325	Global Media	
MSCR 2505	Digital Feminisms	
MSCR 3437	Media and Identity	
<b>Writing-Intensive</b>		
Complete two of the following:		8
MSCR 2505	Digital Feminisms	
MSCR 3600	Film Theory	
MSCR 3420	Digital Media Culture

## History, BS

The Bachelor of Science (BS) degree emphasizes greater specialization in history, either in public history or in a minor field outside of history, and a course in statistics. These programs are designed for students interested in either public history or in quantitative analysis and the mastery of social science models and methods. Students who plan to

go to graduate school in history should consider the possibility of taking language courses as electives, since most graduate programs continue to require foreign language competence.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## History Major Requirements

Code	Title	Hours
<b>Introductory History</b>		
HIST 1000	History at Northeastern	1
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4

## Computer Science and History, BS

The computer science and history combined major offers students the opportunity to gain both historical knowledge and a broad range of related analytical skills in both the humanities and computer science. You'll define a history course cluster according to a thematic principle, with a focus on quantitative analysis in the field, complementing your foundation in programming.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
IS 2000	Principles of Information Science	4

### Khoury Elective Courses

With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 16 credits of upper-division CS, CY, DS, or IS courses that are not already required. Choose courses within the following ranges: 16

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

**History Courses**

Code	Title	Hours
------	-------	-------

**History Required Courses**

HIST 1200	Historical Research and Writing	1
-----------	---------------------------------	---

HIST 1201	First-Year Seminar	4
-----------	--------------------	---

HIST 2301	The History Seminar	4
-----------	---------------------	---

HIST 2302	Historical Writing	1
-----------	--------------------	---

**History Electives**

Complete one introductory course from the following: 4

ASNS 1150	East Asian Studies
-----------	--------------------

HIST 1120	Public History, Public Memory
-----------	-------------------------------

HIST 1130	Introduction to the History of the United States
-----------	--

HIST 1170	Europe: Empires, Revolutions, Wars, and Their Aftermath
-----------	---

HIST 1185	Introduction to Middle Eastern History
-----------	--

HIST 1190	Picturing Modernity: The Photographic Image in Culture and Society
-----------	--

WMNS 1103	Introduction to Women's, Gender, and Sexuality Studies
-----------	--

Complete one course from the following: 4

HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804
-----------	---

HIST 1252	Japanese Literature and Culture
-----------	---------------------------------

HIST 1285	Introduction to Russian Civilization
-----------	--------------------------------------

HIST 1389	History of Espionage 1: Antiquity to World War II
-----------	---

HIST 2330	Colonial and Revolutionary America
-----------	------------------------------------

Intermediate/Advanced History Cluster 12

Complete three HIST courses numbered 2303 or above. Cluster is subject to Department approval.

Complete one advanced-level course: 4

Select from any HIST course numbered 3000 or above.

**History Capstone Seminar or Senior Project**

Complete one capstone experience from the following: 4

HIST 4701	Capstone Seminar
-----------	------------------

Public history concentrators may also select from the following:

HIST 4903	Fieldwork in History 1
-----------	------------------------

**Integrative Course Requirement**

Code	Title	Hours
------	-------	-------

HIST 2211	The World Since 1945	4
-----------	----------------------	---

**Supporting Courses**

Code	Title	Hours
------	-------	-------

**Research Methods**

Complete one course from the following: 4

ECON 2350	Statistics
-----------	------------

ENVR 3300	Geographic Information Systems
-----------	--------------------------------

ENVR 5260	Geographical Information Systems
-----------	----------------------------------

POLS 2400	Quantitative Techniques
-----------	-------------------------

PSYC 2320	Statistics in Psychological Research
-----------	--------------------------------------

**Computing and Social Issues**

Complete one of the following: 4

AFAM 2600	Issues in Race, Science, and Technology
-----------	---

CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies
---------	--

CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights
---------	---

ENGL 2150	Literature and Digital Diversity
-----------	----------------------------------

HIST 2220	History of Technology
-----------	-----------------------

INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks
-----------	---

IS 1300	Knowledge in a Digital World
---------	------------------------------

or PHIL 1300	Knowledge in a Digital World
--------------	------------------------------

PHIL 1145	Technology and Human Values
-----------	-----------------------------

SOCL 1280	The Twenty-First-Century Workplace
-----------	------------------------------------

SOCL 2485	Environment, Technology, and Society
-----------	--------------------------------------

SOCL 4528	Computers and Society
-----------	-----------------------

**Computer Science Writing Requirement**

Code	Title	Hours
------	-------	-------

**College Writing**

ENGW 1111	First-Year Writing	4
-----------	--------------------	---

or ENGW 1102	First-Year Writing for Multilingual Writers
--------------	---

**Advanced Writing in the Disciplines**

This requirement is satisfied by HIST 2302 taken in conjunction with HIST 2301.

**Required General Electives**

Code	Title	Hours
------	-------	-------

Complete 32 credits of general electives. 32

**Khoury College GPA Requirement**

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

**Computer Science and History GPA/Credit Requirement**

Complete 98 semester hours in the major with a minimum 2.000 GPA

**NUpath Requirements Satisfied**

- Engaging with the Natural and Designed World

- Conducting Formal and Quantitative Reasoning

- Analyzing and Using Data

- Writing in the First Year

- Writing-Intensive in the Major

- Advanced Writing in the Disciplines

- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

135 total semester hours required

### Plan of Study

#### Sample Patterns:

#### Four Years, Two Co-ops in Summer 2/Fall

##### Year 1

Fall	Hours	Spring	Hours	Summer 1	Hours	Summer 2	Hours

## History and Economics, BS

The Department of History and the Department of Economics offer an interdisciplinary combined major in history and economics. Students interested in the combined major integrate the study of economic systems and theories with the study and analysis of human history.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### History Requirements

Code	Title	Hours
<b>History Colloquium</b>		
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
<b>Introductory Level</b>		
Complete one history course from the 1000 level except from HIST 1200 and HIST 1201.		4
<b>History Seminar and Historical Writing</b>		
HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1

### Pre-1800 History Elective

Complete one of the following:		4
HIST 1185	Introduction to Middle Eastern History	
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1252	Japanese Literature and Culture	
HIST 1272	Europe in the Middle Ages, 500–1500	
HIST 1285	Introduction to Russian Civilization	
HIST 2330	Colonial and Revolutionary America	
HIST 2370	Renaissance to Enlightenment	
HIST 2375	The Tudors, the Stuarts, and the Birth of Modern Britain	

### Intermediate/Advanced History Courses

Complete four history courses numbered 2000 or above, excluding HIST 2301 and HIST 2302. 16

### Advanced History

Complete one history course at the 3000 level or above. 4

### Supplemental Course for History—Research Methods

Complete one of the following:		4
ECON 2350	Statistics	
ENVR 5260	Geographical Information Systems	
MATH 2280	Statistics and Software	
POLS 2400	Quantitative Techniques	
PSYC 2320	Statistics in Psychological Research	
SOCL 2320	Statistical Analysis in Sociology	

### Economics Requirements

Code	Title	Hours
<b>Introduction to College</b>		
ECON 1000 or HIST 1000	Economics at Northeastern History at Northeastern	1
<b>Required Economics Courses</b>		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4

### Economics Electives

Complete four economics elective courses that are found in the following ranges, with no more than two in the ECON 1200 to ECON 1999 range. Additionally, courses used to satisfy the integrative course requirement may not be used as economics electives: 16

ECON 1200 to ECON 1999	
ECON 3000 to ECON 4689	
ECON 4900 to ECON 4999	
ECON 5200 to ECON 5999	

### Supplemental Courses

CS 1100	Computer Science and Its Applications	4
or MISM 2510	Fundamentals of Information Analytics	
or DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
MATH 1231 or MATH 1241	Calculus for Business and Economics Calculus 1	4

or MATH 1245	Calculus with Applications
or MATH 1251	Calculus and Differential Equations for Biology 1
or MATH 1340	Intensive Calculus for Engineers
or MATH 1341	Calculus 1 for Science and Engineering

### Capstone Requirements

Code	Title	Hours
Complete one of the following options (public history concentrations complete HIST 4903 and HIST 4904):		
ECON 4692	Senior Economics Seminar	4
HIST 4701	Capstone Seminar	

### Integrative Requirements

Code	Title	Hours
Complete one of the following:		
ECON 3470	American Economic History	4
ECON 1292	Economic History of the Middle East	
HIST 2360	History of Capitalism in East Asia	
HIST 2011	Capitalism and Business: A Global History	

### History and Economics Major GPA/Credit Requirement

Grades in the following four economics courses must average to a minimum of C (2.000):

Code	Title	Hours
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4

Complete 88 semester hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

128 total semester hours required

### Plan of Study

#### Four Years, Two Co-ops in Summer 2/Fall

	ECON 3470, HIST 2360, HIST 2011, or ECON 1292	4
	HIST elective 7	4
	Elective	4
	0	16

Total Hours: 131

### Mechanical Engineering and History, BSME

The combined history and mechanical engineering major is designed to help students develop skills across different intellectual domains. A solid grounding in history helps students better understand the political, cultural, and economic context in which technologies are developed and deployed. Indeed, history offers a myriad of case studies that highlight both the transformative potential and the unintended consequences of new technologies and technological processes. By studying different phases of the past and different societies in the past, students will gain a broad perspective that gives them the range and flexibility required in many work situations. History also provides a terrain for moral contemplation. Greater sensitivity to historical context also helps students see beyond commonly accepted narratives valorizing individual entrepreneurs and appreciate the different ways in which innovation, disruption, official support, and even contingency give rise to new technologies. Finally, by writing effective papers and engaging in productive discussions at the heart of history courses, students also cultivate skills in critical analysis and persuasive communication that could be employed in any future careers.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirement Interpreting Culture (IC) is not explicitly satisfied by required courses. Students are responsible for satisfying this requirement with electives.

## Engineering Requirements

Code	Title	Hours
<b>Required Engineering</b>		
ME 2340 and ME 2341	Introduction to Material Science and Lab for ME 2340	5
ME 2350	Statics	4
ME 2355 and ME 2356	Mechanics of Materials and Lab for ME 2355	5
ME 2380 and ME 2381	Thermodynamics and Recitation for ME 2380	4
ME 3455 and ME 3456	Dynamics and Lab for ME 3455	5
ME 3475 or ME 3480	Fluid Mechanics International Applications of Fluid Mechanics	4
ME 4505 and ME 4506	Measurement and Analysis with Thermal Science Application and Lab for ME 4505	5
<b>Senior Capstone Design Project</b>		
MEIE 4701	Capstone Design 1	1
MEIE 4702	Capstone Design 2	5
<b>Technical Electives</b>		
Complete two of the following:		8
ME 4508	Mechanical Engineering Computation and Design	
ME 4550	Mechanical Engineering Design	
ME 4555	System Analysis and Control	
ME 4570	Thermal Systems Analysis and Design	
<b>Supplemental Credit</b>		
2 semester hours from the following course count toward the engineering requirement:		2
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	
3 semester hours from the following course count toward the engineering requirement:		3
GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	

## History Requirements

Code	Title	Hours
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4

HIST 2220	History of Technology	4
<b>Research Methods</b>		
HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1
<b>Introductory History</b>		
Complete one course from HIST 1001 to HIST 1999 (excluding HIST 1200/1201).		4
<b>Pre-1800 History Elective</b>		
Complete one of the following:		4
HIST 1187	Introduction to Latin American History	
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1252	Japanese Literature and Culture	
HIST 1272	Europe in the Middle Ages, 500–1500	
HIST 1389	History of Espionage 1: Antiquity to World War II	
HIST 2000	Native American Resistance: Past and Present	
HIST 2311	Colonialism/Imperialism	
HIST 2330	Colonial and Revolutionary America	
HIST 2370	Renaissance to Enlightenment	
<b>Intermediate History</b>		
Complete four HIST courses numbered 2000 or above (except HIST 2301/2302).		16
<b>Advanced History</b>		
Complete one HIST course at the 3000 level or above.		4
<b>Supporting Courses: Mathematics/Science</b>		
Complete all mathematics/science courses with a minimum of 30 semester hours.		
<b>Code</b>	<b>Title</b>	<b>Hours</b>
<b>Required Mathematics/Science</b>		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	5
<b>Supplemental Credit</b>		
1 semester hour from the following course counts toward the mathematics/science requirement:		1
GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	

## Professional Development

Code	Title	Hours
<b>Professional Development</b>		
GE 1000	Introduction to the Study of Engineering	1

ENCP 2000	Introduction to Engineering Co-op Education	1
ENCP 3000	Professional Issues in Engineering	1

**Additional Required Courses**

1 semester hour from the following course counts toward the professional development requirement:

GE 1501	Cornerstone of Engineering 1 <sup>1</sup>	1
---------	---	---

1 semester hour from the following course counts toward the professional development requirement:

GE 1502	Cornerstone of Engineering 2 <sup>1</sup>	1
---------	---	---

**Writing Requirements**

Code	Title	Hours
------	-------	-------

A grade of C or higher is required in each course:

ENGW 1111	First-Year Writing	4
-----------	--------------------	---

ENGW 3302	Advanced Writing in the Technical Professions	4
-----------	---	---

or ENGW 3315 Interdisciplinary Advanced Writing in the Disciplines

**Integrative Courses**

Code	Title	Hours
------	-------	-------

This course is already required above and also fulfills the integrative requirement.

HIST 2220	History of Technology	
-----------	-----------------------	--

**Required General Elective**

Code	Title	Hours
------	-------	-------

Complete 4 semester hours of academic, nonremedial, nonrepetitive courses.

**Major GPA Requirement**

Minimum 2.000 GPA required in ME courses

Minimum 2.000 GPA required in all HIST courses

**Program Requirement**

141 total semester hours required

<sup>1</sup> Students can substitute GE 1110 and GE 1111 for GE 1501 and 1502 in approved situations.

**Plan of Study**

**Four Years, One Co-op in Spring/Summer 1**

History, Minor

The history minor is designed to be flexible so that students may focus on a tailored course of study. There are no prerequisites: Complete five history courses (20 semester hours), of which at least two must be at or above the 2000 level and must be taken at Northeastern. Students are encouraged to choose a cluster of courses around a particular theme. Existing themes include global conflict and war, ancient and early modern worlds, global cultural history, public history, commodities and capitalism, and global security. Students may also focus on particular areas such as the Americas, Europe, East Asia, and Africa.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

Complete five history courses, of which at least two must be taken at Northeastern and must be numbered HIST 2000 or higher. History minors must have a total of 20 semester hours in history.

GPA Requirement

2.000 GPA required in the minor

Human Services

Website (<https://cssh.northeastern.edu/humanservices/>)

The human services major prepares students for careers in social change by providing the theoretical and skill-based background necessary for practice and research. Successful students will develop a holistic understanding of preventative and reactive responses to social inequality and an understanding of how to impact change at individual and structural levels. Students engage in an integrated educational program that emphasizes experiential approaches to learning through service-learning, co-op, and internship opportunities. Upon completion of the degree, students apply professional skills in counseling roles, nonprofit management, political advocacy, or organizational and community development.

## Programs

### Bachelor of Arts (BA)

- Human Services (p. 1009)
- Human Services and Communication Studies (p. 142)
- Human Services and International Affairs (p. 1010)
- Human Services and Sociology (p. 1017)
- Political Science and Human Services (p. 1014)

### Bachelor of Science (BS)

- Human Services (p. 1019)
- Economics and Human Services (p. 919)
- Human Services and Criminal Justice (p. 866)
- Human Services and Sociology (p. 1027)
- American Sign Language and Human Services (p. 889)
- Political Science and Human Services (p. 1029)

### Minor

- Human Services (p. 1032)

### Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. )

### Human Services, BA

The human services major prepares students for careers in social change by providing the theoretical and skill-based background necessary for practice and research. Upon completion of the degree, students apply professional skills in counseling roles, nonprofit management, political advocacy, or organizational and community development. Students have an opportunity to develop a holistic understanding of preventative and reactive responses to social inequality and an understanding of how to impact change at individual and structural levels. Students engage in an integrated educational program that emphasizes experiential approaches to learning through service-learning, co-op, and internship opportunities. All students declare a specialization within the major that reflects their particular focus in the field.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Human Services Major Requirements

Code	Title	Hours
HUSV 1101	Social Change and Human Services	4

HUSV 2300	Counseling in Human Services	4
HUSV 2970	Research Methods for Human Services	4
HUSV 3570	The Nonprofit Sector, Philanthropy, and Social Change	4
HUSV 3900	Social Policy	4

### Human Services and Diverse Populations

Complete one of the following:			4
HUSV 2355	Race, Identity, Social Change, and Empowerment		
HUSV 2800	Sexual Orientation and Gender Expression		
HUSV 2960	Intercultural Studies through Human Services		

### Human Services Electives

Complete four HUSV courses. 16

### Senior Seminar and Internship

HUSV 4700	Senior Seminar in Human Services	4
HUSV 4994	Human Services Internship	6

### Human Services Major Credit Requirement

Complete 50 semester hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

130 total semester hours required

**Human Services and International Affairs, BA**

The combined human services and international affairs degree offers students an understanding of geopolitical realities paired with the practical skills and theory necessary to work in social services and non governmental organizations (NGOs) impacted by global issues. Students will have the opportunity to prepare for practice in international NGOs through co-ops and Dialogue of Civilization programs. This combined major will prepare students for positions within the nonprofit sector with an international focus.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Human Services Requirements**

Code	Title	Hours

**International Affairs Foreign Language Requirement**

Complete coursework in a language through at least intermediate-level two. Note: Completing this requirement satisfies the language requirement for the BA degree.

**Human Services/International Affairs Integrative Courses**

Complete Senior Seminar in Human Services (HUSV 4700) or Senior Capstone Seminar in International Affairs (INTL 4700) or both. Note, however, that students wishing to take HUSV 4700 but not INTL 4700 must meet with an INTL adviser to obtain approval for a substitute INTL course. Similarly, students wishing to take INTL 4700 but not HUSV 4700 must meet with an HUSV adviser to obtain approval for a substitute HUSV course. Substitute courses (HUSV or INTL) must be upper-division courses and must relate to the combined major.

Code	Title	Hours
<b>Human Services</b>		
HUSV 4700	Senior Seminar in Human Services	4
<b>International Affairs</b>		
INTL 4700	Senior Capstone Seminar in International Affairs	4

**Human Services and International Affairs Combined Major Credit Requirement**

Complete 84 semester hours in the major.

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Program Requirement**

128 total semester hours required

## Political Science and Human Services, BA

The combined degree is designed to prepare students with skills and tools to advocate for social issues at all levels of society. Human services program students prepare for fields in the social change arena (nongovernment organizations [NGOs], counseling, and political advocacy). Political science students prepare to change and shape the domestic and international political landscape in American politics, comparative politics, international relations, and public policy. Students engage in an integrated educational program that emphasizes experiential approaches to learning through service-learning, co-op, internship, and study-abroad opportunities. Upon completion of the degree, successful students apply professional skills in counseling roles, nonprofit management, political advocacy, or organizational and community development. Successful students are positioned to pursue law school, graduate school, careers in government and the nonprofit sector, as well as in teaching, journalism, legislative or lobbying positions, public relations activities, and work in international corporations and NGOs.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Political Science Requirements

Code	Title	Hours
<b>Core Courses in Political Science</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2400	Quantitative Techniques	4
<b>Political Thought</b>		
Complete one of the following:		4
POLS 2325	Ancient Philosophy and Political Thought	
POLS 2328	Modern Political Thought	
POLS 2330	American Political Thought	
POLS 2332	Contemporary Political Thought	

### Political Science Electives

Complete three courses in the following range: 12

POLS 2000 to POLS 5999

### Political Science Concentrations (Optional)

If you are working toward one of the following concentrations, declare it with your advisor so that it may be added to your record.

- American Political Institutions (p. 1015)
- Campaigns and Elections (p. 1015)
- Comparative Politics (p. 1016)
- Identity, Culture, and Politics (p. 1016)
- International Relations and Diplomacy (p. 1016)
- Law and Legal Studies (p. 1016)
- Public Policy (p. 1016)
- Security Studies (p. 1016)

### Supporting Course for Political Science

Code	Title	Hours
<b>Mathematics</b>		
Complete one of the following to fulfill the prerequisite for POLS 2400:		4
MATH 1213	Interactive Mathematics	
MATH 1215	Mathematical Thinking	
MATH 1231	Calculus for Business and Economics	
MATH 1241	Calculus 1	

### Human Services Requirements

Code	Title	Hours
<b>Required Courses</b>		
HUSV 1101	Social Change and Human Services	4
HUSV 2300	Counseling in Human Services	4
HUSV 3570	The Nonprofit Sector, Philanthropy, and Social Change	4
HUSV 4994	Human Services Internship	6
<b>Human Services and Diverse Populations</b>		
Complete one of the following:		4
HUSV 2355	Race, Identity, Social Change, and Empowerment	
HUSV 2800	Sexual Orientation and Gender Expression	
HUSV 2960	Intercultural Studies through Human Services	

### Human Services Electives

Complete three HUSV courses. 12

### Integrative Requirements

Code	Title	Hours
<b>Integrative Courses</b>		
POLS 3307	Public Policy and Administration	4
HUSV 3900	Social Policy	4
<b>Research Methods</b>		
Complete one of the following:		4
POLS 2399	Research Methods in Political Science	
HUSV 2970	Research Methods for Human Services	

### Capstone and Elective

Complete one of the following options: 8

#### Option A

Complete POLS 4701 or POLS 4703 and complete one additional human services course that has not been used in previous requirements:

POLS 4701 Political Science Senior Capstone  
or POLS 4703 Senior Thesis

HUSV 2000 to HUSV 5999

#### Option B

Complete HUSV 4700 and complete one additional political science course numbered 2300 or higher that has not been used in previous requirements:

HUSV 4700 Senior Seminar in Human Services

POLS 2300 to POLS 5999

### Political Science and Human Services Combined Major Credit Requirement

Complete 86 semester hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

128 total semester hours required

### Concentrations

#### CONCENTRATION IN AMERICAN POLITICAL INSTITUTIONS

Code	Title	Hours
Complete four of the following:		16
POLS 2350	State and Local Politics	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3307	Public Policy and Administration	
POLS 3310	Public Opinion, Voting, and Elections	
POLS 3160	Campaign Strategy	

#### CONCENTRATION IN CAMPAIGNS AND ELECTIONS

Code	Title	Hours
<b>Required Courses</b>		
POLS 3160	Campaign Strategy	4
POLS 3302	Judicial Process and Behavior	4

#### Campaigns and Elections Electives

If POLS 4947 was replaced by a co-op or internship, an additional elective must be taken.

Complete two of the following:		8
POLS 2345	Urban Policies and Politics	
POLS 2350	State and Local Politics	
POLS 2355	Intergovernmental Relations	
POLS 3310	Public Opinion, Voting, and Elections	
POLS 3320	Politics and Mass Media	
POLS 3304	Presidential Nominating Process	

**CONCENTRATION IN COMPARATIVE POLITICS**

Code	Title	Hours
<b>Theoretical Requirement</b>		
Complete one of the following:		4
POLS 2370	Religion and Politics	
POLS 3418	Nationalism

## Human Services and Sociology, BA

Students pursuing a combined degree in human services and sociology will integrate the theoretical understandings of these two fields to better understand organizational and group behavior and their implications for individuals and communities utilizing human services. The human services major prepares students for careers in social change by providing students with the theoretical and skill-based background necessary for practice and research. The sociology major prepares students to rigorously analyze the social, political, and economic spheres of society at the local and global levels. Students will develop a holistic understanding of preventative and reactive responses to social inequality and an understanding of how to impact change at the individual and structural levels. The combined major provides students with the conceptual and practical tools to understand how various features of society affect its members as well as how people create social change.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Human Services Requirements

Code	Title	Hours
<b>Required Human Services Courses</b>		
HUSV 1101	Social Change and Human Services	4
HUSV 2300	Counseling in Human Services	4
HUSV 3570	The Nonprofit Sector, Philanthropy, and Social Change	4
HUSV 3900	Social Policy	4
HUSV 4994	Human Services Internship	6

### Research Methods

Complete option A or option B: 4-8

#### Option A

Complete the following course:

HUSV 2970 Research Methods for Human Services

#### Option B

Complete the following and one additional HUSV course:

SOCL 2321 Research Methods in Sociology

### Human Services Elective

Complete three additional HUSV courses. 12

### Senior Capstone <sup>1</sup>

**Human Services, BS**

The human services major prepares students for careers in social change by providing the theoretical and skill-based background necessary for practice and research. Upon completion of the degree, students apply professional skills in counseling roles, nonprofit management, political advocacy, or organizational and community development. Students have an opportunity to develop a holistic understanding of preventative and reactive responses to social inequality and an understanding of how to impact change at individual and structural levels. Students engage in an integrated educational program that emphasizes experiential approaches to learning through service-learning, co-op, and internship opportunities.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**American Sign Language and Human Services, BS**

Website (<https://cssh.northeastern.edu/asl/>)

**Lori Whynot, PhD, CI, CT, SC: L, CoreCHI, NAATI**

Professor and Director, American Sign Language and Interpreting Education Program

L.whynot@northeastern.edu (l.whynot@northeastern.edu)

617.373.8425

857.366.4204 (Videophone)

American Sign Language (ASL) is estimated to be the third most used language in the United States and its visibility in society is on the rise in recent years. There are roughly 500,00 to 2,000,000 Deaf, DeafBlind, or hard of hearing people in the United States who use ASL as their primary language, and a large number of non-Deaf signers use or learn ASL as a second language. A disproportionate percentage of Deaf people experience socioeconomic disadvantage due to their dual status as members of both a cultural linguistic minority group and a disability group. As a result, there is a broad societal misunderstanding of Deaf, signing people's minority language and culture—their lived experience—which creates barriers to educational and economic opportunity. While state and federal legislation enables improved civic engagement by Deaf, hard of hearing, and DeafBlind individuals, there is continued need to elevate quality of life, equity, and the rich contributions of the diverse members of the American Deaf communities.

The Bachelor of Science in American Sign Language and Human Services is an integrated program of study dedicated to preparing individuals to interact in a positive and supportive manner with members of the American Deaf Community. The curriculum is designed to assist students in acquiring competence in ASL, developing an understanding of the diverse American Deaf communities and Deaf culture, and applying linguistic and sociocultural skills and knowledge to the discipline of human services, in order to contribute to civic engagement and social justice for Deaf people.

The combined major offers a wide array of courses as well as volunteer, internship, and practicum opportunities to learn from Deaf people's lived experiences through community and industry connections. The program provides opportunities that will allow students an opportunity to acquire the linguistic, cognitive, and ethical decision-making skills as well as the sociocultural knowledge necessary to work in Deaf Community, sign-language-related disciplines. Students pursuing a combined major in human services integrate their foundation in ASL and the Deaf Community with human service organizations.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## Economics and Human Services, BS

This combined degree in human services and economics provides students with the opportunity to obtain the skills and knowledge related to each of these areas of study and an in-depth understanding of how these fields inform and impact each other. The study of economics provides students with an understanding of how individuals, firms, governments, and other organizations behave and interact with each other at both a macro and micro level. The study and practice of human services organizations focus on the impact of economic conditions on individuals, families, and communities. Human services organizations and policies use economic theory to inform

responses to societal and economic challenges. Students will pair this knowledge with an understanding of how economics uses data and economic reasoning to help decision makers, businesses, and governments develop better public policy. This degree provides students with both the theoretical and practical curricula utilizing interdisciplinary thinking about inequality and nonprofit/government responses.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## Human Services and Communication Studies, BA

The intersection of communications studies and human services practices spans several domains. Nonprofit organizations depend on communications professionals to effectively represent their work to the community, partner organizations, and funders. Knowledge and skills developed in communications studies also service human services professionals working in the political realm as they seek to promote impactful social policies.

The human services major is designed to prepare students for careers in social change by providing them with the theoretical and skill-based background necessary for practice and research. Students will develop a holistic understanding of preventative and reactive responses to social inequality and an understanding of how to impact change at the individual and structural levels. Students engage in an integrated educational program that emphasizes experiential approaches to learning through service-learning, co-op, and internship opportunities.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Human Services and Criminal Justice, BS**

A combined major in human services and criminal justice appeals to students interested in the intersection of social and legal issues and institutions. The human services major prepares students for careers in social change by providing students with the theoretical and skill-based background necessary for practice and research. Students with criminal justice course work gain a rigorous interdisciplinary and experiential education in the causes and consequences of crime and the responses of criminal justice. The addition of human services course work complements a criminal justice perspective and considers the role of social services and community-based organizations to prevent, intervene, and treat the causes and consequences of crime. The degree allows students to combine interests in the justice system, political advocacy, and community development. Students engage in an integrated educational program that emphasizes experiential approaches to learning through service-learning, co-op, and internship opportunities.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Human Services Requirements**

Code	Title	Hours
<b>Required Human Services Courses</b>		
HUSV 1101	Social Change and Human Services	4
HUSV 2300	Counseling in Human Services	4
HUSV 3570	The Nonprofit Sector, Philanthropy, and Social Change	4
HUSV 3900	Social Policy	4
<b>Human Services Internship</b>		
HUSV 4994	Human Services Internship	6
<b>Human Services Electives</b>		
Complete four additional HUSV courses.		16

**Criminal Justice Requirements**

Code	Title	Hours
<b>Introduction to Crime, Law, and the Justice System</b>		
What do we know about crime and justice? In these three courses, students have an opportunity to develop a foundational understanding of three related phenomena: why crime exists, how our criminal justice system responds to crime, and the constitutional and legal oversight of this process.		
CRIM 1100	Introduction to Criminal Justice	4
CRIM 1110	Criminal Due Process	4
CRIM 1120	Criminology	4

**Current Crime and Justice Issues**

These courses introduce students to topical issues related to crime and justice.

Complete one of the following:		4
CRIM 1300	The Death Penalty	
CRIM 1400	Human Trafficking	
CRIM 1500	Corruption, Integrity, and Accountability	
CRIM 1700	Crime, Media, and Politics	

**Understanding and Experiencing Criminal Justice Institutions and Systems**

How does justice work and for whom? These courses introduce students to the systems and institutions tasked with providing justice. Each includes experiential learning components in cooperation with local criminal justice institutions.

Complete one of the following:		4
CRIM 2310	Courts: The Third Branch of Government	
CRIM 2320	Youth Crime and Justice	
CRIM 2330	Punishment in the Age of Mass Incarceration	

CRIM 2340	Corporate Security: Securing the Private Sector	
CRIM 2350	Policing a Democratic Society	

**Crime Problems**

The following courses offer students a deeper look at a range of crime problems.

Complete one of the following: 4

CRIM 3010	Criminal Violence	
CRIM 3030	Global Criminology	
CRIM 3040	Psychology of Crime	
CRIM 3050	Organized Crime	
CRIM 3060	Political Crime and Terrorism	
CRIM 3070	Corporate and White-Collar Crime	

**Creating Knowledge about Crime and Justice**

How do we know what we know about crime and justice—and how do we develop new knowledge? Harnessing data to learn about issues, identify solutions, and advocate for change.

CRIM 3700	Analyzing and Using Data on Crime and Justice	4
-----------	---	---

**Systemic Issues**

A consideration of systemic issues facing the criminal justice system.

Complete one of the following: 4

CRIM 3110	Gender, Crime, and Justice	
CRIM 3120	Race, Crime, and Justice	

**Digital Skills**

Successful students develop digital skills and master digital tools useful for careers related to crime and justice. Students choose one of two courses (each has a required lab). The computer science course introduces students to spreadsheets and databases. The data science course introduces students to programming with data.

Complete one of the following (and the appropriate lab): 4-5

CS 1100 and CS 1101	Computer Science and Its Applications and Lab for CS 1100	
DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum (Social Science practicum section)	

**Criminal Justice Electives**

Rounding out knowledge of crime and justice.

Complete two additional criminal justice electives. One must be from the 3000, 4000 or 5000-level 8

**Additional Courses**

Code	Title	Hours
CRIM 1000 or HUSV 1000	Criminal Justice at Northeastern Human Services at Northeastern	1

**Research Methods**

## Human Services and Sociology, BS

Students pursuing a combined degree in human services and sociology will integrate the theoretical understandings of these two fields to better understand organizational and group behavior and their implications for individuals and communities utilizing human services. The human services major prepares students for careers in social change by providing students with the theoretical and skill-based background necessary for practice and research. The sociology major prepares students to rigorously analyze the social, political, and economic spheres of society at the local and global levels. Students will develop a holistic understanding of preventative and reactive responses to social inequality and an understanding of how to impact change at the individual and structural levels. The combined major provides students with the conceptual and practical tools to understand how various features of society affect its members as well as how people create social change.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Political Science and Human Services, BS**

The combined degree seeks to prepare students with skills and tools to advocate for social issues at all levels of society. Human services program students are well positioned to pursue fields in the social change arena (nongovernment organizations, or NGOs; counseling; and political advocacy). Political science students are also well positioned to change and shape the domestic and international political landscape in American politics, comparative politics, international relations, and public policy. Students engage in an integrated educational program that emphasizes experiential approaches to learning through service-learning, co-op, internship, and study-abroad opportunities. Upon completion of the degree, students can apply professional skills in counseling roles, nonprofit management, political advocacy, or organizational and community development. Successful students are poised to pursue law school, graduate school, careers in government and the nonprofit sector, as well as in teaching, journalism, legislative or lobbying positions, public relations activities, and work in international corporations and NGOs.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUPath Requirements**

All undergraduate students are required to complete the NUPath Requirements (p. 46).

**Political Science Requirements**

Code	Title	Hours
<b>Core Courses in Political Science</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2400	Quantitative Techniques	4
<b>Political Thought</b>

Total Hours: 128

**Human Services, Minor**

The human services minor is designed to prepare students for careers in social change by providing the theoretical and skill-based background necessary for practice and research. Students have an opportunity to develop a holistic understanding of preventative and reactive responses to social inequality and an understanding of how to impact change at individual and structural levels. Students engage in an integrated educational program that emphasizes experiential approaches to learning through service-learning. The minor provides a nice complement to students who are interested in the role of social change through counseling, nonprofits interventions, or social policy as it relates to their major.

The minor in human services may help lead to careers in many diverse areas of social change or to graduate programs in social work, health, counseling, rehabilitation, and law. Human services professions are among the fastest-growing occupations in the nation. Society recognizes the necessity, value, and reward of dedicating time and energy to helping people and communities. Combining a human services minor with any major gives students the opportunity to learn about the individual, community, and political interventions for social change.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

**Required Course**

Code	Title	Hours
HUSV 1101	Social Change and Human Services	4

**Human Services Electives**

Code	Title	Hours
Complete four HUSV courses.		16
HUSV 2300	Counseling in Human Services	

HUSV 2340	Mindfulness in Mental Health
HUSV 2320	Techniques in Individual and Group Counseling
HUSV 2355	Race, Identity, Social Change, and Empowerment
HUSV 2401	Food Justice and Community Development
HUSV 2800	Sexual Orientation and Gender Expression
HUSV 2970	Research Methods for Human Services
HUSV 2960	Intercultural Studies through Human Services

HUSV 3590	Nonprofit Communications
HUSV 3900	Social Policy
HUSV 4994	Human Services Internship

**GPA Requirement**

2.000 GPA required in the minor

**International Affairs**

Website (<http://www.northeastern.edu/internationalaffairs/>)

International affairs is an interdisciplinary major in the College of Social Sciences and Humanities. The program is designed to prepare undergraduate students with the knowledge and skills needed to thrive and lead in a diverse world society while promoting global citizenship and social responsibility.

**Academic Progression Standards**

It is recommended that students majoring in international affairs maintain a minimum 3.000 grade-point average until the beginning of their international experience in order to be eligible for the majority of the study-abroad options.

**Cooperative Education**

Cooperative education is recommended for all students pursuing a major or combined major in international affairs.

**Programs**

**Bachelor of Arts (BA)**

- International Affairs (p. 1033)
- International Affairs with African Studies Concentration (p. 1036)
- International Affairs with Asian Studies Concentration (p. 1039)
- International Affairs with European Studies Concentration (p. 1041)
- International Affairs with Latin American Studies Concentration (p. 1044)
- International Affairs with Middle East Studies Concentration (p. 1046)
- Environmental Studies and International Affairs (p. 719)
- Human Services and International Affairs (p. 1010)
- International Affairs and Criminal Justice (p. 844)

- International Affairs and Cultural Anthropology (p. 1061)
- International Affairs and Economics (p. 906)
- International Affairs and History (p. 994)
- International Affairs and Religious Studies (p. 1074)
- Political Science and International Affairs (p. 1079)
- Sociology and International Affairs (p. 1084)
- Spanish and International Affairs (p. 881)

## Bachelor of Science (BS)

- International Affairs and International Business (p. 283)

## Minors

- International Affairs (p. 1092)
- Middle East and Mediterranean Studies (p. 1094)

## International Affairs, BA

The international affairs program provides a rigorous inter- and multidisciplinary curriculum while also giving students flexibility to select the courses and disciplines that interest them most. The curriculum fosters an awareness of global affairs and international issues since the early 20th century through diverse and cross-disciplinary theories of interstate relations: conflict, cooperation, hierarchies; civil society, transnational advocacy networks, global social movements; and state-society relations: democracy, authoritarianism, inequalities, citizenship.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## International Affairs Major Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. See department for additional courses.

Code	Title	Hours
<b>Required Courses</b>		
INTL 1101	Globalization and International Affairs	4

### International Affairs with African Studies Concentration, BA

This combined major fosters an awareness of global affairs related to Africa since the early 20th century through diverse and cross-disciplinary theories of interstate relations: conflict, cooperation, hierarchies; civil society, transnational advocacy networks, global social movements; and state-society relations: democracy, authoritarianism, inequalities, citizenship.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

*Note:* Students double majoring in international affairs and political science may only count two political science courses toward the international affairs major.

## International Affairs Major Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. See department for additional courses.

Code	Title	Hours
<b>Required Courses</b>		
AFRS 1101	Introduction to African Studies	4
ANTH 1101	Peoples and Cultures	4
ECON 1115	Principles of Macroeconomics	4
or ECON 1116	Principles of Microeconomics	
HIST 2211	The World Since 1945	4
or HIST 2311	Colonialism/Imperialism	
INTL 1101	Globalization and International Affairs	4
INTL 2718	Research Methods in International Affairs	4
INTL 3400	International Conflict and Negotiation	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4

### African Studies Regional Analysis Courses

Complete four of the following, at least two of which must be numbered 2000 or above: 16

INTL 2464	Natural Resources and Sustainable Development	
or AFRS 2464	Natural Resources and Sustainable Development	
INTL 2465	The Scope and Dynamics of Conflicts in Africa	
or AFRS 2465	The Scope and Dynamics of Conflicts in Africa	
AFRS 2307	Africa Today	
AFRS 2900	Swahili, Culture, and Politics in Kenya	
AFRS 3460	Contemporary Government and Politics in Africa	
AFRS 4939	Community Health, Culture, and Development in Kenya	
ANTH 4510	Anthropology of Africa	
ENTR 3308	Business Economic History of South Africa	

### Senior Seminar/Experiential Learning

INTL 4700	Senior Capstone Seminar in International Affairs	4
-----------	--	---

### International Experience in Africa

Complete at least one "international semester" via study abroad, international internship, two Dialogue of Civilizations programs, or international co-op. International students may be exempt from the semester abroad (subject to adviser approval). If they do not complete an international semester, they must participate in Model African Union.

## Foreign Language Requirement

Complete language coursework in Kiswahili, French, or Arabic through at least intermediate-level two. Note: Completing this requirement satisfies the language requirement for the BA degree.

## Global Dynamics Requirement

### International Affairs with Asian Studies Concentration, BA

This combined major fosters an awareness of global affairs related to Asia since the early 20th century through diverse and cross-disciplinary theories of interstate relations: conflict, cooperation, hierarchies; civil society, transnational advocacy networks, global social movements; and state-society relations: democracy, authoritarianism, inequalities, citizenship.

#### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

#### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

#### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

#### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

*Note:* Students double majoring in international affairs and political science may only count two political science courses toward the international affairs major.

### International Affairs Major Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics or regional analysis requirements. See department for additional courses.

Code	Title	Hours
<b>Required Courses</b>		
ANTH 1101	Peoples and Cultures	4
ASNS 1150	East Asian Studies	4
or HIST 1150	East Asian Studies	
ECON 1115	Principles of Macroeconomics	4
or ECON 1116	Principles of Microeconomics	
HIST 2211	The World Since 1945	4
or HIST 2311	Colonialism/Imperialism	
INTL 1101	Globalization and International Affairs	4
INTL 2718	Research Methods in International Affairs	4
INTL 3400	International Conflict and Negotiation	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4

#### Asian Studies Regional Analysis Courses

Select courses taken during a study abroad or specific Dialogue of Civilizations courses may count as regional analysis courses pending approval of the international affairs head faculty adviser. See department for additional courses.

Complete four of the following, at least two of which must be numbered 2000 or above: 16

ANTH 4350	Ethnography of Southeast Asia	
ASNS 1150	East Asian Studies	
or HIST 1150	East Asian Studies	
CLTR 1500	Modern Chinese History and Culture	
CLTR 1506	Introduction to Chinese Popular Culture	
CLTR 1700	Introduction to Japanese Pop Culture	
HIST 1246	World War II in the Pacific	
HIST 1252	Japanese Literature and Culture	
HIST 1253	History of Vietnam Wars	
HIST 1500	Modern Chinese History and Culture

## International Affairs with Latin American Studies Concentration, BA

This combined major fosters an awareness of global affairs related to Latin America since the early 20th century through diverse and cross-disciplinary theories of interstate relations: conflict, cooperation, hierarchies; civil society, transnational advocacy networks, global social movements; and state-society relations: democracy, authoritarianism, inequalities, citizenship.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

*Note:* Students double majoring in international affairs and political science may only count two political science courses toward the international affairs major.

### International Affairs Major Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. See department for additional courses.

Code	Title	Hours
<b>Required Courses</b>		
ANTH 1101	Peoples and Cultures	4

ECON 1115	Principles of Macroeconomics	4
or ECON 1116	Principles of Microeconomics	
HIST 2211	The World Since 1945	4
or HIST 2311	Colonialism/Imperialism	
INTL 1101	Globalization and International Affairs	4
INTL 2718	Research Methods in International Affairs	4
INTL 3400	International Conflict and Negotiation	4
LACS 1220	Latino, Latin American, and Caribbean Studies	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4

### Latin American Studies Regional Analysis Courses

Select courses taken during a study abroad or specific Dialogue of Civilizations courses may count as regional analysis courses pending approval of the international affairs head faculty adviser. See department for additional courses.

Complete four of the following, at least two of which must be numbered 2000 or above: 16

ANTH 4500	Latin American Society and Development	
CLTR 1240	Latin American Film	
CLTR 1261	Caribbean Literature and Culture	
CLTR 1505	Latin American Culture, History, and Politics	
CLTR 3715	New Narratives: Latin America after 1989	
CLTR 3720	Literature, Arts, and Poverty in Latin America

## Human Services and International Affairs, BA

The combined human services and international affairs degree offers students an understanding of geopolitical realities paired with the practical skills and theory necessary to work in social services and non governmental organizations (NGOs) impacted by global issues. Students will have the opportunity to prepare for practice in international NGOs through co-ops and Dialogue of Civilization programs. This combined major will prepare students for positions within the nonprofit sector with an international focus.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Human Services Requirements

Code	Title	Hours
<b>Required Courses</b>		
HUSV 1101	Social Change and Human Services	4
HUSV 2300	Counseling in Human Services	4
HUSV 2970	Research Methods for Human Services	4
or INTL 2718	Research Methods in International Affairs	
HUSV 3570	The Nonprofit Sector, Philanthropy, and Social Change	4
HUSV 3900	Social Policy	4
HUSV 4994	Human Services Internship	6

### Human Services Electives

Complete three HUSV courses. 12

### International Affairs Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. See department for additional courses.

### International Affairs Foreign Language Requirement

Complete coursework in a language through at least intermediate-level two. Note: Completing this requirement satisfies the language requirement for the BA degree.

### Human Services/International Affairs Integrative Courses

Complete Senior Seminar in Human Services (HUSV 4700) or Senior Capstone Seminar in International Affairs (INTL 4700) or both. Note, however, that students wishing to take HUSV 4700 but not INTL 4700 must meet with an INTL adviser to obtain approval for a substitute INTL course. Similarly, students wishing to take INTL 4700 but not HUSV 4700 must meet with an HUSV adviser to obtain approval for a substitute HUSV course. Substitute courses (HUSV or INTL) must be upper-division courses and must relate to the combined major.

Code	Title	Hours
<b>Human Services</b>		
HUSV 4700	Senior Seminar in Human Services	4
<b>International Affairs</b>		
INTL 4700	Senior Capstone Seminar in International Affairs	4

### Human Services and International Affairs Combined Major Credit Requirement

Complete 84 semester hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

128 total semester hours required

Total Hours: 132

**International Affairs and Criminal Justice, BA**

This combined major fosters an awareness of crime and justice issues within their international, transnational, and global contexts since the early 20th century. The scope and sequence of international affairs courses provide students with a foundation in topics such as interstate

relations (conflict, cooperation, hierarchies); civil society, transnational advocacy networks, global social movements; and state-society relations (democracy, authoritarianism, social justice and inequalities, citizenship). Criminal justice courses provide a foundation for understanding individual and systemic aspects of criminology and criminal justice. Upon graduation, students are equipped with the skills and knowledge needed to work across national cultures in fields that relate to understanding and addressing criminal behavior.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### International Affairs Requirements

Code	Title	Hours
<b>Required Courses</b>		
INTL 1101	Globalization and International Affairs	4
INTL 3400	International Conflict and Negotiation	4
POLS 1155	Comparative Politics	4
ANTH 1101	Peoples and Cultures	4
or HIST 2211	The World Since 1945	
or HIST 2311	Colonialism/Imperialism	
ECON 1115	Principles of Macroeconomics	4
or ECON 1116	Principles of Microeconomics	

### International Experiential Learning

Complete at least one "international semester" via study abroad, international internship, international co-op, or two short-term programs.

### International Affairs Foreign Language Requirement

Complete coursework in a language through at least intermediate-level two. Note: Completing this requirement satisfies the language requirement for the BA degree.

### International Affairs Elective

Code	Title	Hours
Complete one of the following: 4		
INTL 2240	Global Population and Development	
INTL 2480	Women and World Politics	
INTL 2500	Race and Global Human Mobility	
INTL 3200	Cities in a Global Context	
INTL 3430	Revolution, Civil War, and Insurrection	
INTL 3450	Security, Culture, Power	

INTL 3520	Global Political Economy
INTL 4100	Forced Migration: Refugees, Exiles, and Displaced Persons
INTL 5100	Climate and Development

### Global Dynamics

**Criminal Justice Requirements**

Code	Title	Hours
------	-------	-------

**Introduction to Crime, Law, and the Justice System**

What do we know about crime and justice? In these three courses, students have an opportunity to develop a foundational understanding of three related phenomena: why crime exists, how our criminal justice system responds to crime, and the constitutional and legal oversight of this process.

CRIM 1100	Introduction to Criminal Justice	4
CRIM 1110	Criminal Due Process	4
CRIM 1120	Criminology	4

**Current Crime and Justice Issues**

These courses introduce students to topical issues related to crime and justice.

Complete one of the following:		4
CRIM 1300	The Death Penalty	
CRIM 1400	Human Trafficking	
CRIM 1500	Corruption, Integrity, and Accountability	
CRIM 1700	Crime, Media, and Politics	

**Crime Problems and Criminal Justice Institutions**

The 2000-level courses in this list ask how does justice work and for whom? These courses introduce students to the systems and institutions tasked with providing justice. Each includes experiential learning components in cooperation with local criminal justice institutions. The 3000-level courses in this list provide students a deeper look at a range of crime problems.

Complete one of the following:		4
CRIM 2310	Courts: The Third Branch of Government	
CRIM 2320	Youth Crime and Justice	
CRIM 2330	Punishment in the Age of Mass Incarceration	
CRIM 2340	Corporate Security: Securing the Private Sector	
CRIM 2350	Policing a Democratic Society	
CRIM 3010	Criminal Violence	
CRIM 3040	Psychology of Crime	
CRIM 3050	Organized Crime	
CRIM 3060	Political Crime and Terrorism	
CRIM 3070	Corporate and White-Collar Crime	
CRIM 3540	Addiction and Recovery	

**Creating Knowledge about Crime and Justice**

How do we know what we know about crime and justice—and how do we develop new knowledge? Harnessing data to learn about issues, identify solutions, and advocate for change.

CRIM 3700	Analyzing and Using Data on Crime and Justice	4
-----------	---	---

**Systemic Issues**

A consideration of systemic issues facing the criminal justice system.

Complete one of the following:		4
--------------------------------	--	---

CRIM 3110	Gender, Crime, and Justice
CRIM 3120	Race, Crime, and Justice

**Criminal Justice Electives**

Rounding out knowledge of crime and justice.	
Complete two additional criminal justice electives from the 3000, 4000 or 5000-level.	8

**Introduction and Methods Options**

Code	Title	Hours
------	-------	-------

<b>Introduction</b>		
Complete one of the following:		1
INTL 1000	International Affairs at Northeastern	
CRIM 1000	Criminal Justice at Northeastern	

<b>Research Methods</b>		
Complete one of the following:		4
INTL 2718	Research Methods in International Affairs	
CRIM 3600	Criminal Justice Research Methods	

**Supporting Courses**

Code	Title	Hours

## International Affairs and Cultural Anthropology, BA

This combined major offers undergraduates the opportunity to develop an awareness of contemporary cultures within their international, transnational, and global contexts since the early 20th century. The combined major addresses diverse and cross-disciplinary theories of interstate relations (conflict, cooperation, hierarchies); civil society, transnational advocacy networks, global social movements; and state-society relations (democracy, authoritarianism, social justice and inequalities, citizenship).

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### International Affairs Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement.

Code	Title	Hours
<b>Required Courses</b>		
INTL 1101	Globalization and International Affairs	4
INTL 3400	International Conflict and Negotiation	4
POLS 1160	International Relations	4
ECON 1115	Principles of Macroeconomics	4
or HIST 2211	The World Since 1945	
or HIST 2311	Colonialism/Imperialism	

### International Experiential Learning

Complete at least one "international semester" via study abroad, international internship, international co-op, or two approved short-term programs abroad.

### International Affairs Elective

Code	Title	Hours
Please complete one of the following:		
		4

Code	Title	Hours
INTL 2240	Global Population and Development	
INTL 2480	Women and World Politics

POLS 3470	Arab-Israeli Conflict

POLS 4915	Model Arab League
<i>Russia</i>	
HIST 1285	Introduction to Russian Civilization
HIST 1286	History of the Soviet Union

**International Affairs Foreign Language Requirement**

Complete coursework in a language through at least intermediate-level two. *Note:* Completing this requirement satisfies the language requirement for the BA degree.

**Anthropology Major Requirements**

*Note:* At least nine anthropology courses must be taken to complete the international affairs and cultural anthropology program.

Code	Title	Hours
<b>Cultural Anthropology</b>		
ANTH 1101	Peoples and Cultures	4
ANTH 3421	Foundations of Anthropological Theory	4
<b>Anthropology Electives</b>		
Complete three courses in the following range, one of which must be numbered 4000 or above (one study-abroad course may also count toward this requirement with prior permission from the department):		12
ANTH 2300 to ANTH 4999		
<b>Advanced Area Courses</b>		
Complete two of the following:		8
ANTH 4500	Latin American Society and Development	
ANTH 4505	Native North Americans	
ANTH 4510	Anthropology of Africa	
ANTH 4515	Culture and Politics in Modern India	

**Integrative Requirements**

*Note:* If international affairs courses are taken in both the research methods and capstone areas, then an additional anthropology elective is required.

Code	Title	Hours
<b>Research Methods</b>		
INTL 2718	Research Methods in International Affairs	4
or ANTH 3410 Ethnographic Field Experience		
<b>Global Markets</b>		
ANTH 2305	Global Markets and Local Culture	4
<b>Capstone</b>		
ANTH 4600	Senior Seminar	4
or INTL 4700 Senior Capstone Seminar in International Affairs		

Students taking Senior Seminar (ANTH 4600) must complete either a one-semester senior project, which they would do in the context of ANTH 4600, or a two-semester senior thesis, which would require them to also enroll in a fall semester directed study.

**Anthropology Major Grade Requirement**

A GPA of 2.000 for major courses is required.

**International Affairs and Anthropology Combined Major Credit Requirement**

Complete 76 semester hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

128 total semester hours required

### International Affairs and Economics, BA

This combined major fosters an awareness of global affairs and international economic issues since the early 20th century through diverse and cross-disciplinary theories of economic development and growth; states, societies, and markets (the intersection of politics and economics); and the role of states, civil societies, and social

movements in crafting or addressing economic strategies, inequalities, and citizenship rights.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### International Affairs Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. See department for additional courses.

Code	Title	Hours

## International Affairs Foreign Language Requirement

Complete coursework in a language through at least intermediate-level two. *Note:* Completing this requirement satisfies the language requirement for the BA degree.

## Economics Requirements

Code	Title	Hours
<b>Required Economics Courses</b>		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 3520	History of Economic Thought	4

## Economics Electives

Code	Title	Hours
Complete 3 Economics elective courses from the following ranges with no more than 1 in the ECON 1200 to ECON 1999 range. Additionally, courses used to satisfy international affairs requirements, courses used to satisfy the integrative courses requirement, and ECON 3520 may not be used as Economics electives.		12
ECON 1200 to ECON 1999		
ECON 3000 to ECON 4689		
ECON 4900 to ECON 4999		
ECON 5200 to ECON 5999		

## Supporting Courses

Code	Title	Hours
<b>Calculus</b>		
MATH 1231	Calculus for Business and Economics	4
or MATH 1241	Calculus 1	
or MATH 1245	Calculus with Applications	
or MATH 1251	Calculus and Differential Equations for Biology 1	
or MATH 1340	Intensive Calculus for Engineers	
or MATH 1341	Calculus 1 for Science and Engineering	
<b>Methods</b>		
CS 1100	Computer Science and Its Applications	4
or INTL 2718	Research Methods in International Affairs	
or MISM 2510	Fundamentals of Information Analytics	
or DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	

## Integrative Requirements

Code	Title	Hours
<b>Development Economics</b>		
ECON 1291	Development Economics	4
<b>Senior Seminar</b>		
Complete one of the following with a thesis or project that integrates both international affairs and economics:		
ECON 4692	Senior Economics Seminar	4
or INTL 4700	Senior Capstone Seminar in International Affairs	

### International Affairs and Economics Combined-Major GPA

Grades in the following Economics courses must average to a minimum of C (2.000):

Code	Title	Hours
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4

### International Affairs and Economics Combined-Major Credit Requirement

Complete 88 semester hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

128 total semester hours required

### Plan of Study

### International Affairs and History, BA

This combined major fosters an historically contingent awareness of global affairs and international policy issues since the early 20th century through diverse and cross-disciplinary theories of interstate relations, state-society relations, the future of democracy, the nature of citizenship and rights, the origins and conduct of war, the foundations of racial and ethnic conflict and tolerance, and poverty and prosperity. This combined major highlights the importance of understanding the intersection between global issues and local traditions and is designed to prepare students to be politically, culturally, historically, and linguistically sensitive to their interaction.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### International Affairs Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement.

## International Affairs and International Business, BS

Students who pursue this combined major will have the opportunity to learn how international business practices influence and are influenced by state-society interactions such as labor rights, trade practices, climate and sustainability priorities, political implications, as well international institutions.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### International Affairs Requirements

Code	Title	Hours
<b>Introduction to College</b>		
Complete one of the following:		1
INTL 1000	International Affairs at Northeastern	
or BUSN 1102	Personal Skill Development for Business	

#### Required International Affairs Courses

A grade of C or higher is required for ECON courses.

ECON 1115	Principles of Macroeconomics	4
or ECON 1116	Principles of Microeconomics	
INTL 1101	Globalization and International Affairs	4
INTL 3400	International Conflict and Negotiation	4
INTL 4700	Senior Capstone Seminar in International Affairs	4

#### International Experiential Learning

Complete one of the following:

One semester of study-abroad experience
One co-op abroad experience
Two Dialogue of Civilizations (summer programs)
Two summer traditional study-abroad experiences
One N.U.in experience and one Dialogue of Civilizations or one summer traditional study-abroad experience
Two approved short-term programs abroad

### International Affairs Electives

Code	Title	Hours
Complete two of the following:		8

Code	Title	Hours
INTL 2240	Global Population and Development	
INTL 2480	Women and World Politics	
INTL 2500	Race and Global Human Mobility	
INTL 3200	Cities in a Global Context	
INTL 3430	Revolution, Civil War, and Insurrection	
INTL 3450	Security, Culture, Power	
INTL 3520	Global Political Economy	
INTL 4100	Forced Migration: Refugees, Exiles, and Displaced Persons	
INTL 5100	Climate and Development	

### Regional Analysis Requirement

Code	Title	Hours
Complete three of the following, two of which must be in one region. Select courses taken during a semester study abroad or specific Dialogue of Civilizations courses may count as regional analysis courses pending approval of the international affairs head faculty adviser. See department for additional courses:		12

Total Hours: 130

**International Affairs and Religious Studies, BA**

Introduces the interaction of religious views with institutions and cultures in national and international contexts since the early 20th century. The combined major addresses diverse and cross-disciplinary theories of interstate relations (conflict, cooperation, hierarchies); civil society, transnational advocacy networks, global social/religious movements; state-society relations (religion, democracy, authoritarianism, social justice and ethics, citizenship); comparative study of religious theology and praxis; and knowledge of particular religious traditions, including Buddhism, Christianity, Hinduism, Islam, and Judaism.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### International Affairs Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. See department for additional courses.

Code	Title	Hours
<b>Required Courses</b>		
INTL 1101	Globalization and International Affairs	4
INTL 3400	International Conflict and Negotiation	4

## Political Science and International Affairs, BA

Through this combined major, successful undergraduates will develop an awareness of global affairs and international relations since the early 20th century. The combined major addresses diverse and cross-disciplinary theories of interstate relations (conflict, cooperation, hierarchies); civil society, transnational advocacy networks, global social movements; political processes, institutions, and actors; and state-society relations (democracy, authoritarianism, inequalities, citizenship).

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Political Science Requirements

Code	Title	Hours
<b>Political Science Requirements</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2400	Quantitative Techniques	4

<b>Political Theory</b>		Hours
Complete one of the following:		4
POLS 2325	Ancient Philosophy and Political Thought	
POLS 2328	Modern Political Thought	
POLS 2330	American Political Thought	
POLS 2332	Contemporary Political Thought	

### Political Science Electives/Concentration for BA

Complete four upper-division political science electives, or complete one of the following concentrations. If you are working toward a concentration, declare it with your adviser in order for it to be added to your record.

Code	Title	Hours
<b>Political Science Electives</b>		
Complete four political science courses at or above POLS 2000.		16

- American Political Institutions (p. 1082)
- Campaigns and Elections (p. 1082)
- Comparative Politics (p. 1082)
- Identity, Culture, and Politics (p. 1082)
- International Relations and Diplomacy (p. 1082)
- Law and Legal Studies (p. 1083)
- Public Policy (p. 1083)
- Security Studies (p. 1083)

### International Affairs Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. See department for additional courses.

Code	Title	Hours
<b>Required Courses</b>		
INTL 1101	Globalization and International Affairs	4
INTL 3400	International Conflict and Negotiation	4
HIST 2211	The World Since 1945	4
or HIST 2311	Colonialism/Imperialism	
ECON 1115	Principles of Macroeconomics	4
or ECON 1116	Principles of Microeconomics	

### International Experiential Learning

Complete at least one "international semester" via study abroad, international internship, international co-op, or two short-term programs.

### International Relations Elective

Code	Title	Hours
Complete one of the following courses:		
INTL 2240	Global Population and Development	
INTL 2480	Women and World Politics	
INTL 2500	Race and Global Human Mobility	
INTL 3200	Cities in a Global Context	
INTL 3430	Revolution, Civil War, and Insurrection	
INTL 3450	Security, Culture, Power	
INTL 3520	Global Political Economy	

INTL 4100	Forced Migration: Refugees, Exiles, and Displaced Persons
INTL 5100	Climate and Development

### Global Dynamics Requirement

**Code**                      **Title**    **Hours**  
 Complete one of the following. Courses are divided into thematic groups to aid students in deciding which courses to take and have no bearing on major requirements.    4

**Code**                      **Title**    **Hours**  
*Environment*

ENVR 1110	Global Climate Change
ENVR 2515	Sustainable Development
INTL 5100	Climate and Development
INTL 5268	International Environmental Policy
or PPUA 5268	International Environmental Policy
SOCL 1246	Environment and Society

## Sociology and International Affairs, BA

Through this combined major, successful undergraduates develop an awareness of societies within their international, transnational, and global contexts since the early 20th century. The combined major addresses diverse and cross-disciplinary theories of interstate relations (conflict, cooperation, hierarchies); civil society, transnational advocacy networks, global social movements; and state-society relations (democracy, authoritarianism, social justice and inequalities, citizenship).

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Sociology Requirements

Code	Title	Hours
<b>Sociology Required Courses</b>		
ANTH 2305	Global Markets and Local Culture	4
SOCL 1101	Introduction to Sociology	4
SOCL 2320	Statistical Analysis in Sociology	4
SOCL 3300	Social Theory	4
SOCL 2321	Research Methods in Sociology	4
or INTL 2718	Research Methods in International Affairs	
<b>Sociology Electives A</b>		
Complete two courses in the following range:		8
SOCL 1000 to SOCL 2999		
<b>Sociology Electives B</b>		
Complete two courses in the following range:		8
SOCL 3000 to SOCL 5999		
<b>Capstone Requirement</b>		
SOCL 4600	Senior Seminar	4
or INTL 4700	Senior Capstone Seminar in International Affairs	

### International Affairs Major Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. See department for additional courses.

## Spanish and International Affairs, BA

This combined major offers undergraduates the opportunity to develop an awareness of global affairs and international issues since the 19th century through diverse and cross-disciplinary theories of: (1) Interstate relations: conflict, cooperation, hierarchies; (2) Civil society, transnational advocacy networks, global social movements; and (3) the politics of culture, linguistic and cultural diversity, religious and ideological divides; (4) State-society relations: democracy, authoritarianism, inequalities, citizenship.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Spanish Language Requirements**

Code	Title	Hours
<b>Spanish Language Requirements</b>

**International Affairs, Minor**

The minor in international affairs is an interdisciplinary program that exposes students to a variety of different perspectives on the field, while providing the flexibility to select the courses in the disciplines that interest them most. The minor provides an international lens to students' primary degree, preparing them for our globalized world and workplaces.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

**Required Course**

Code	Title	Hours
INTL 1101	Globalization and International Affairs	4

**Regional Analysis Elective Courses**

Code	Title	Hours
	Complete two of the following. Select courses taken during a semester study abroad or specific Dialogue of Civilizations courses may count as regional analysis courses pending approval of the international affairs head faculty adviser:	8

2.000 GPA required in the minor

**Middle East and Mediterranean Studies, Minor**

The minor in Middle East and Mediterranean studies is an inter- and cross-disciplinary program, drawing on courses from within the International Affairs Program as well as departments and units across the college. The program provides an in-depth study of the Middle East and North Africa (Arab world, Israel, Iran, and Turkey); its place within the broader Mediterranean region; and its relations with other world regions. As such, it seeks to enhance students' understanding of this culturally diverse and politically important region of the world. Students are encouraged to take advantage of the university's study-abroad and Dialogue of Civilizations programs (faculty-led summer programs) in Egypt, Morocco, Tunisia, Jordan, Turkey, Israel and Palestine, and other approved programs in the region.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

**Required Courses**

Code	Title	Hours
POLS 3465	Government and Politics in the Middle East	4
or POLS 3470	Arab-Israeli Conflict	
or INTL 3250	Democracy and Development in North Africa and the Mediterranean	
INTL 1150 or INTL 3250	The Mediterranean World: An Overview	4
INTL 1160 or HIST 1290	Middle East Studies	4
	Modern Middle East	

**Elective Courses**

Elective courses may include courses taken as part of an approved study-abroad program. *Note: Courses used as required courses (above) may not be used as elective courses.*

Code	Title	Hours
Complete two of the following:		
ARAB 1301	Elementary Arabic Immersion 1	8

POLS 4915	Model Arab League	

## GPA Requirement

2.000 GPA required in the minor

### Jewish Studies

Website (<http://www.northeastern.edu/jewishstudies/>)

Jewish studies offers the opportunity to explore Jewish history, religion, and cultures. Because of the geographic, ethnic, racial, and cultural diversity of the Jewish people, as well as the long timeline of Jewish history, Jewish studies provides students with rich possibilities for cross-cultural and comparative study. Jewish studies is an interdisciplinary program embracing history, music, literature, political science, international affairs, sociology, gender studies, religion, philosophy, Hebrew, and more. The program also explores the evolving interactions between Judaism and other religions and offers exciting courses in both Israel studies and the history and cultures of Diaspora Jewish communities around the world. A wide range of elective courses is available through the relevant departments.

The Jewish studies program offers both a minor and a preapproved template for a combined major. A unique feature of the minor is the Jewish studies module, in which students create an original project that brings an aspect of Jewish studies together with an aspect of their major field.

Jewish studies classes seek to help students develop a more critical and analytical understanding of the religious and secular world around them. They are designed to prepare students for any field that requires critical thinking and cross-cultural understanding, including careers in education, social services, politics, museums and archives, and Jewish communal organizations, as well as for graduate and professional studies.

Study abroad, either through the Dialogues of Civilization program in Israel, Germany, and/or Poland, or through traditional study-abroad programs, is a significant aspect of Jewish studies. Experiential learning in the Jewish studies program includes these study-abroad opportunities, as well as internships or co-ops at organizations such as the Jewish Community Relations Council, Facing History and Ourselves, the Jewish Women's Archive, the Arava Institute, and the Israeli Consulate. The Ruderman merit-based scholarship supports selected Jewish studies majors and minors; the Gideon Klein award supports a student in research on music and the Holocaust.

For more information, visit the department website (<http://www.northeastern.edu/jewishstudies/>).

## Academic Progression Standards

Same as university-wide standards described under "Academic Status (p. 27)."

## Programs

### Bachelor of Arts

- Jewish Studies and Religion (p. 1095)

### Minor

- Jewish Studies (p. 1097)

### Jewish Studies and Religion, BA

The combined major in Jewish studies and religion offers students an integrated program of study of two naturally complementary fields. Study of Judaism as a religion is greatly enhanced by broad familiarity with the

world's religious traditions; conversely, in-depth knowledge of Jewish history, identity, and cultures provides students of religion with valuable insight into the ways in which religion interacts with a wide variety of forces to shape the experiences of the adherents of a particular faith. The combined major is designed to enable students to understand the history, cultures, and religion of the Jewish people; analyze and apply theoretical understanding to the interaction between religious, social, and historical factors that have shaped the experiences of the Jewish people; and demonstrate fluency in understanding the major religious traditions of the world. The combined major in Jewish studies and religion is designed to prepare students for graduate work in Jewish studies, religion, or many of the other disciplines that make up Jewish studies or for work within the Jewish community or in communal organizations associated with other religions.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Jewish Studies, Minor

The Jewish studies minor provides an excellent broad-based introduction to the history, religion, and cultures of the Jewish people while also offering a unique opportunity to bring students' major fields of study to bear on Jewish studies topics. In our innovative 1-credit capstone Jewish studies module, minors integrate their work in Jewish studies into their major field—for example, bringing together Jewish studies and psychology through a service-learning project with Gateways, a nonprofit that offers Jewish educational resources for children with special needs, or combining Jewish studies and history through a research project on the role of Jewish women in the women's health movement.

### Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

### Required Courses

Code	Title	Hours
JWSS 4660	Jewish Studies Module	1
Complete one of the following:		4
JWSS 1285 or PHIL 1285	Jewish Religion and Culture	
JWSS 1294 or HIST 1294	History of the Jews in the Modern World	

### Elective Courses

Code	Title	Hours
Complete an additional four courses from the following lists. A maximum of two courses may be taken from the Affiliated Courses list below.		16

**Jewish Studies Courses**

ENGL 2610	Contemporary Israeli Literature and Art (Abroad)
HBRW 1101	Elementary Hebrew 1
HBRW 1102	Elementary Hebrew 2
HIST 2280	Hitler, Germany, and the Holocaust
INTL 2100	Modern Israel
JWSS 1120	Understanding the Bible
or PHIL 1120	Understanding the Bible
JWSS 1285	Jewish Religion and Culture
or PHIL 1285	Jewish Religion and Culture
JWSS 1294	History of the Jews in the Modern World
or HIST 1294	History of the Jews in the Modern World
JWSS 2282	The Holocaust and Comparative Genocide
or HIST 2282	The Holocaust and Comparative Genocide
JWSS 1990	Elective
JWSS 2285	America and the Holocaust
or HIST 2285	America and the Holocaust
JWSS 2430	Digital Histories of Ethnic Boston
JWSS 2990	Elective
JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity
or ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity
JWSS 3685	Modern and Contemporary Jewish Literature
or ENGL 3685	Modern and Contemporary Jewish Literature
JWSS 3990	Elective
JWSS 4992	Directed Study
<i>Affiliated Courses</i> <sup>1</sup>	
JRNL 3300	Covering Conflicts: Peace, War, and the Media
PHIL 1271	Sex in Judaism, Christianity, and Islam
POLS 2370	Religion and Politics
POLS 3470	Arab-Israeli Conflict
SOCL 3270	Race and Ethnic Relations

<sup>1</sup> Additional affiliated courses may be approved by the program director by semester.

**GPA Requirement**

2.000 GPA required in the minor

**Philosophy and Religion**

Philosophy addresses questions and theories related to morality, society, religion, and the natural and social sciences. Coursework in philosophy provides students with an understanding of the methods and traditions of philosophical thought, as well as with opportunities to critically and collaboratively reflect on the nature of the world and the human situation in it. Through readings, discussion, and writing, students examine questions concerning the validity of moral judgments, political ideas, and scientific theories, as well as questions about values and policy in such areas as law, medicine, environment, and technology. Coursework in philosophy significantly strengthens study in other areas. The major emphasizes development of analytic, reasoning, and communication abilities, and it is designed to enable students to tailor it to their particular interests.

Religious studies offers students the opportunity to acquire an understanding of religious experience within its social, historical, literary, and political context. Courses in religious studies examine specific religious traditions such as Judaism, Islam, and Hinduism, and using a comparative approach they explore themes across faith traditions. The religious studies major at Northeastern emphasizes the lived religious experience, or how religion permeates and impacts people's lives through everything from politics and economics to fashion, relationships, and music. Through the major, students have the opportunity to study a range of religions and a variety of methods of understanding the key dimensions of religious life.

Information on experiential learning opportunities, student life, and department faculty can be found at the department website (<http://www.northeastern.edu/cssh/philosophy/>).

**Academic Progression Standards**

A minimum cumulative grade-point average of 2.000 is required to remain in good standing in the major.

**Philosophy Major**

The department offers five ways to take the stand-alone major in philosophy: the standard major; the concentration in law and ethics; the concentration in ethics; the concentration in formal methods (e.g., game theory, social choice theory, and logic); and the concentration in religious studies. More information on these can be found on the program page.

**Religious Studies Major**

The religious studies major is designed to introduce students to a wide variety of religious experience and expression in the world. Through this major, students are exposed to the basic features of the world's religions and the ethical systems that accompany them. Students also have an opportunity to explore diverse methodological approaches to the study of religion.

**Combined Majors**

The analytical and critical skills gained from the study of philosophy are a valuable complement to any other area of study. So, too, is having an understanding of the history of ideas and of alternative world views and value systems. For this reason, the department offers combined majors with political science, economics, physics, environmental studies, history, English, computer science, behavioral neuroscience, criminal justice, sociology, anthropology, and media and screen studies. Details regarding these majors can be found on the program pages.

The combined majors in religious studies bring together knowledge of religious traditions, awareness of religious experience, and methods of understanding the key dimensions of religious life with other areas

in which religion plays a large role. The department currently offers combined majors in religious studies with history, international affairs, Africana studies, sociology, anthropology, and Jewish studies. More information on these majors can be found on the program pages.

## Minors

The Department of Philosophy and Religion offers minors in philosophy and religious studies, as well as popular minors in ethics and information ethics. Each of these minors is structured to be highly flexible and to complement study in other majors, while also providing depth of knowledge in philosophy, religion, and ethics. The department also collaborates with the Department of Applied Psychology on a minor in mindfulness studies. Information on these minors can be found on the program pages.

## Programs

### Bachelor of Arts (BA)

- Philosophy (p. 1099)
- Religious Studies (p. 1106)
- Cultural Anthropology and Philosophy (p. 1108)
- Cultural Anthropology and Religious Studies (p. 1109)
- English and Philosophy (p. 952)
- Environmental Studies and Philosophy (p. 723)
- History and Philosophy (p. 987)
- History and Religious Studies (p. 992)
- International Affairs and Religious Studies (p. 1074)
- Jewish Studies and Religion (p. 1095)
- Media and Screen Studies and Philosophy (p. 156)
- Political Science and Philosophy (p. 1127)
- Religious Studies and Africana Studies (p. 825)
- Sociology and Philosophy (p. 1131)
- Sociology and Religious Studies (p. 1133)

### Bachelor of Science (BS)

- Philosophy (p. 1134)
- Behavioral Neuroscience and Philosophy (p. 619)
- Computer Science and Philosophy (p. 376)
- Criminal Justice and Philosophy (p. 855)
- Economics and Philosophy (p. 922)
- Physics and Philosophy (p. 769)
- Political Science and Philosophy (p. 1151)
- Politics, Philosophy, and Economics (p. 821)

## Minors

- Information Ethics (p. 1157)
- Philosophy (p. 1157)
- Religious Studies (p. 1158)
- Ethics (p. 1158)

## Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. )

## Philosophy, BA

Philosophy is a basic field of inquiry. Its range encompasses ideas and issues in every domain of human experience, and its methods apply to problems of an unlimited variety. The major in philosophy can develop not only philosophical skill and sophistication but also critical thinking and

writing abilities that are readily applicable to pursuits in other academic areas, useful in careers far removed from philosophy, and valuable in everyday social and personal life. The study of philosophy can profoundly affect both the thinking one does and the kind of person one is.

There are varieties of concentrations of the philosophy major that students may choose from in accordance with their own backgrounds and interests. These include:

- **Philosophy generalist**

Offers students a maximum number of electives so they may choose in accordance with their own backgrounds and interests

- **Concentration in law and ethics**

Focuses elective course work in the areas of law, social and political philosophy, and applied ethics

- **Concentration in ethics**

Focuses elective course work in the areas of ethical theory, applied ethics, and social and political philosophy

- **Concentration in religious studies**

Uses electives to explore a variety of both religious expressions and methods of inquiry

- **Concentration in formal methods**

Focuses elective course work in areas of logic and formal methods.

- **Combined majors** in media and screen studies and philosophy, economics and philosophy, environmental studies and philosophy, political science and philosophy, English and philosophy, history and philosophy, computer science and philosophy, criminal justice and philosophy, and physics and philosophy.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Concentrations

Complete one of the following concentrations:

- Philosophy Generalist requirements (p. 1100)
- Concentration in Law and Ethics (p. 1100)
- Concentration in Ethics (p. 1101)

- Concentration in Religious Studies (p. 1102)
- Concentration in Formal Methods (p. 1102)

## Philosophy Major Credit Requirement

Complete 36 semester hours in the major.

## Upper-Division Electives

Complete three general electives at 3000 level or above that do not double-count with the major or NUPath.

## General Electives

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirements

128 total semester hours required

### PHILOSOPHY GENERALIST

Code	Title	Hours
<b>Philosophy Required Courses</b>		
PHIL 1115	Introduction to Logic	4
PHIL 2325	Ancient Philosophy and Political Thought	4
or POLS 2325	Ancient Philosophy and Political Thought	
PHIL 2330	Modern Philosophy	4
<b>Philosophy Advanced Elective/Seminar</b>		
Complete three of the following courses with one at the 4000 or 5000 level:		12
PHIL 3100	The Religious Worlds of Boston: Faith and Devotion in Urban Life	
PHIL 3343	Existentialism	
PHIL 3360	Scientific Approaches to Philosophy	
PHIL 3435	Moral Philosophy	
PHIL 3460	Philosophy and Literature	
PHIL 4500	Theory of Knowledge

PHIL 4550	Philosophy of Economics	
PHIL 4555	Philosophy of Biology	
PHIL 4903	Seminar in Religion	
PHIL 5001	Global Justice	
PHIL 5002	Ethics and Public Policy	
PHIL 5005	Information Ethics	
PHIL 5010	AI Ethics	

### Additional Electives

Complete three additional courses in philosophy and religion. 12

### CONCENTRATION IN LAW AND ETHICS

Code	Title	Hours
<b>Philosophy Required Courses</b>		
PHIL 1115	Introduction to Logic	4

PHIL 2301	Philosophical Problems of Law and Justice	4
PHIL 2325	Ancient Philosophy and Political Thought	4
or POLS 2325	Ancient Philosophy and Political Thought	
PHIL 2330	Modern Philosophy	4
PHIL 3435	Moral Philosophy	4
<b>Philosophy Advanced Elective/Seminar</b>		
Complete two of the following courses with one at the 4000 or 5000 level:		8
PHIL 3100	The Religious Worlds of Boston: Faith and Devotion in Urban Life	
PHIL 3343	Existentialism	
PHIL 3360	Scientific Approaches to Philosophy	
PHIL 3435	Moral Philosophy	
PHIL 3460	Philosophy and Literature	
PHIL 4500	Theory of Knowledge	
PHIL 4510	Philosophy of Science	
PHIL 4515	Advanced Logic	
PHIL 4535	Philosophy of Mind	
PHIL 4550	Philosophy of Economics	
PHIL 4555	Philosophy of Biology	
PHIL 4903	Seminar in Religion	
PHIL 5001	Global Justice	
PHIL 5002	Ethics and Public Policy	
PHIL 5005	Information Ethics	
PHIL 5010	AI Ethics	

### Ethics-Related Electives

Complete two of the following (not used to fulfill another requirement):		8
PHIL 1102	Introduction to Contemporary Moral Issues	
PHIL 1111	Introduction to World Religions	
PHIL 1112	Debating Ethical Controversies	
PHIL 1120	Understanding the Bible	
PHIL 1130	Ethics: East and West	
PHIL 1133	Selling Spirituality	
PHIL 1145	Technology and Human Values	
PHIL 1160	Introduction to Economic Justice	
PHIL 1162	Ethics and Philosophy through Sport	
PHIL 1165	Moral and Social Problems in Healthcare	
PHIL 1170	Business, Ethics, and Human Rights	
PHIL 1180	Environmental Ethics	
PHIL 1185	The Ethics of Food	
PHIL 1195	Research Ethics	
PHIL 1271	Sex in Judaism, Christianity, and Islam	
PHIL 1275	Hinduism, Buddhism, and Beyond: Eastern Religions	
PHIL 1280	Islam: Rituals, Traditions, and Debates	
PHIL 1290	Chinese Philosophy and Religion	
PHIL 1300	Knowledge in a Digital World	
PHIL 1666	The Problem of Evil in Film	
PHIL 1667	Science Fiction and Film: Moral Dilemmas and Ethical Analysis	

PHIL 2001	Ethics and Evolutionary Games
PHIL 2016	The Philosophy and Ethics of Lying and Deception
PHIL 2143	Philosophy for Children
PHIL 2155	Human Rights
PHIL 2303	Social and Political Philosophy
PHIL 2305	Philosophy of Emotions
PHIL 2325	Ancient Philosophy and Political Thought
PHIL 2395	Japanese Buddhism
PHIL 4550	Philosophy of Economics
PHIL 5001	Global Justice
PHIL 5002	Ethics and Public Policy
PHIL 5005	Information Ethics
PHIL 5010	AI Ethics

**Law-Related Electives**

Complete two courses from social science departments. 8  
These courses are to be chosen in consultation with the department:

AFAM 2360	Politics of Poverty
AFRS 3460	Contemporary Government and Politics in Africa
CRIM 1110	Criminal Due Process
CRIM 1120	Criminology
CRIM 2320	Youth Crime and Justice
CRIM 3060	Political Crime and Terrorism
CRIM 3110	Gender, Crime, and Justice
CRIM 3120	Race, Crime, and Justice
ECON 3440	Public Finance
ECON 3442	Money and Banking
ECON 3520	History of Economic Thought
ENGL 3325	Rhetoric of Law
INTL 1101	Globalization and International Affairs
INTL 3400	International Conflict and Negotiation
JRNL 3550	The First Amendment and the Media
LPSC 1101	Introduction to Law
POLS 2357	Growth and Decline of Cities and Suburbs
POLS 3302	Judicial Process and Behavior
POLS 3324	Law and Society
POLS 4500	U.S. Constitutional Law
POLS 4505	U.S. Civil Liberties
SOCL 1245	Sociology of Poverty
SOCL 1246	Environment and Society
SOCL 2358	Current Issues in Cities and Suburbs
SOCL 3241	Violence and Society
SOCL 4518	Law and Society in a Digital World

## Religious Studies, BA

The program in religious studies offers the opportunity to acquire an understanding of religion within various cultural, historical, and political contexts through comparative approaches and an engagement with religion in everyday life. The major in religious studies is designed to enable students to not only gain a breadth of knowledge across a variety of religious traditions but also to pursue in-depth mastery of particular traditions in their practical and cultural dimensions, including the various normative and ideological issues that arise out the manifestation of religion in human affairs. In addition to the study of particular religious traditions, religious studies majors will be expected to gain a general knowledge of the theoretical and methodological approaches employed in the academic study of religion. Through the major, a student will enhance the ability to think, interpret, and write critically about a range of religious traditions through diverse methodological approaches.

- **The standard religion major** offers students a maximum number of electives so they may choose in accordance with their own backgrounds and interests.
- **Combined majors** are offered in Jewish studies and religion, history and religious studies, religious studies and African-American studies, and international affairs and religious studies.
- **The half-major template** in religious studies can be used by students to create their own combined majors.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Religious Studies Major Requirements

Code	Title	Hours
<b>Required Foundational Course</b>		
PHIL 1110	Introduction to Religious Studies	4
<b>Lived Religion Elective</b>		
Complete one of the following that is not used to satisfy another requirement:		4

## Cultural Anthropology and Philosophy, BA

The Department of Sociology and Anthropology and the Department of Philosophy and Religion offer an interdisciplinary combined major in sociology and philosophy. Students in the combined major integrate the study of culture and social structures with the study of social and political philosophy, ethics, and the philosophy of science. The combined major enables students to understand and appreciate cultural differences in human interaction, ways of knowing, and systems of logic and human classification.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Anthropology Requirements

Code	Title	Hours
<b>Foundation Courses</b>		
ANTH 1101	Peoples and Cultures	4
ANTH 2305	Global Markets and Local Culture	4
ANTH 3410	Ethnographic Field Experience	4
ANTH 3421	Foundations of Anthropological Theory	4
<b>Area Courses</b>		
Additional area courses taken may count as anthropology electives. Complete two of the following:		8
ANTH 4350	Ethnography of Southeast Asia	
ANTH 4500	Latin American Society and Development	
ANTH 4505	Native North Americans	

ANTH 4510	Anthropology of Africa
ANTH 4515	Culture and Politics in Modern India

### Capstone

Students are expected to complete the following course in spring of their senior year:

ANTH 4600	Senior Seminar	4
-----------	----------------	---

### Electives

Complete three 4-semester-hour courses in addition to the above requirements. One study-abroad course may also count toward this requirement with prior permission from the department.

### Philosophy Requirements

Code	Title	Hours
------	-------	-------

#### Required Courses

PHIL 1115	Introduction to Logic	4
PHIL 2325	Ancient Philosophy and Political Thought	4
or POLS 2325	Ancient Philosophy and Political Thought	
PHIL 2330	Modern Philosophy	4

#### Foundational Philosophy of Science Elective

Complete one of the following:		4
PHIL 1105	Science and Pseudoscience	
PHIL 2001	Ethics and Evolutionary Games	
PHIL 3050	Information and Uncertainty	
PHIL 3360	Scientific Approaches to Philosophy	

#### Intermediate/Advanced Electives

Complete two of the following courses that are not used to satisfy another requirement:		8
PHIL 3343	Existentialism	
PHIL 3360	Scientific Approaches to Philosophy	
PHIL 3435	Moral Philosophy	
PHIL 3460	Philosophy and Literature	
PHIL 4500	Theory of Knowledge

## English and Philosophy, BA

The Department of English and the Department of Philosophy and Religion offer an interdisciplinary combined major in English and philosophy. Students in the combined major in English and philosophy integrate the study of literature and writing with the study of ethical and philosophical issues and problems.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### English Requirements

Code	Title	Hours
------	-------	-------

#### English Course-Level Requirement

In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.

#### Introduction to College

ENGL 1000	English at Northeastern	1
-----------	-------------------------	---

#### Foundational Courses

ENGL 1160	Introduction to Rhetoric	4
or ENGL 1410	Introduction to Research on Writing	
ENGL 1400	Introduction to Literary Studies	4

#### Diversity

Complete one of the following courses. This course may also be used to fulfill an additional English requirement below.

ENGL 2150	Literature and Digital Diversity	
ENGL 2296	Early African-American Literature	
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2470	Asian-American Literature	
ENGL 2760	Writing in Global Contexts	
ENGL 3663	The African American Novel	
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
ENGL 3685	Modern and Contemporary Jewish Literature	
or JWSS 3685	Modern and Contemporary Jewish Literature	

#### Pre-Nineteenth-Century Literature

Complete one of the following: 4

ENGL 1600	Introduction to Shakespeare	
ENGL 1700	Global Literatures 1	
ENGL 2296	Early African-American Literature	
ENGL 3101	Early Literatures	
ENGL 3120	17th- and 18th-Century Literatures	
ENGL 3618	Milton	
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
or JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	

#### Nineteenth-, Twentieth-, and Twenty-First-Century Literature

Complete one of the following: 4

ENGL 2301	The Graphic Novel
ENGL 2330	The American Renaissance
ENGL 2440	The Modern Bestseller
ENGL 2600	Irish Literary Culture (Abroad)
ENGL 2610	Contemporary Israeli Literature and Art (Abroad)
ENGL 3140	19th-Century Literatures
ENGL 3619	Emerson and Thoreau
ENGL 3685	Modern and Contemporary Jewish Literature
or JWSS 3685	Modern and Contemporary Jewish Literature
ENGL 3720	19th-Century Major Figure
ENGL 3730	20th- and 21st-Century Major Figure

**Theories and Methods**

Complete one of the following: 4

ENGL 1140	Grammar: The Architecture of English
ENGL 1160	Introduction to Rhetoric
ENGL 1410	Introduction to Research on Writing
ENGL 2150	Literature and Digital Diversity
ENGL 3325	Rhetoric of Law
ENGL 3340	Technologies of Text
ENGL 3370	Writing Cultures
ENGL 3381	The Practice and Theory of Teaching Writing
ENGL 3400	Opening the Archive
ENGL 3700	Narrative Medicine
LING 1150	Introduction to Language and Linguistics
LING 2350	Linguistic Analysis
LING 3450	Syntax
LING 3452	Semantics
LING 3454	History of English
LING 3456	Language and Gender
LING 3458	Topics in Linguistics

**Comparative Literature**

Complete one of the following: 4

ENGL 1450	Reading and Writing in the Digital Age
ENGL 1500	British Literature to 1800
ENGL 1502	American Literature to 1865
ENGL 2150	Literature and Digital Diversity
ENGL 2420	Contemporary Poetry
ENGL 2430	Contemporary Fiction
ENGL 2451	Postcolonial Women Writers
ENGL 2455	American Women Writers
ENGL 2470	Asian-American Literature
ENGL 2510	Horror Fiction
ENGL 2520	Science Fiction
ENGL 2600	Irish Literary Culture (Abroad)
ENGL 2620	What Is Nature?
ENGL 2690	Boston in Literature
ENGL 3487	Film and Text (Abroad)
ENGL 3663	The African American Novel

**Writing**

Complete one of the following: 4

ENGL 2700	Creative Writing
ENGL 2710	Style and Editing
ENGL 2740	Writing and Community Engagement
ENGL 2760	Writing in Global Contexts

## Environmental Studies and Philosophy, BA

Through this combined major, successful undergraduates will develop an awareness of the scientific, cultural, and political aspects of the world's environmental problems while considering the philosophical, moral, and ethical impacts that such decisions have on human-environment interactions. Due to overlap in course content, students majoring in Environmental Studies or any Environmental Studies combined majors may not complete a minor in Environmental and Sustainability Sciences.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

## Environmental Studies Requirements

Code	Title	Hours
<b>Introductory Courses</b>		
<i>Choose one introductory science course:</i>		4-5
ENVR 1101	Environmental Science	
ENVR 1200 and ENVR 1201	Dynamic Earth and Lab for ENVR 1200	
ENVR 1400 and ENVR 1401	Foundations in Environmental and Sustainability Sciences and Lab for ENVR 1400	
<i>Choose one introductory social science course:</i>		4
ANTH 1101	Peoples and Cultures	
ENVR 2401	Food Justice and Community Development	
PHIL 1180	Environmental Ethics	
SOCL 1246	Environment and Society	

**Scientific Foundations of Environmental Systems:**

Complete one of the following:	4
ENVR 1110 Global Climate Change	
ENVR 3150 Food Security and Sustainability	
ENVR 3200 Water Resources	

**Human Foundations of Environmental Systems:**

Complete one of the following:	4
ENVR 2515 Sustainable Development	
PHTH 2414 Environmental Health	
SOCL 4522 Environmental Justice	

**Skills Course:**

ENVR 3300 Geographic Information Systems and ENVR 3301 and Lab for ENVR 3300	5
--	---

**Electives:**

Complete four of the following, three of which must be at the 3000 level or higher:	16
ARTG 5110 Information Design History	
BUSN 1110 Fundamentals of Business	
BUSN 3110 The Consulting Environment	
CIVE 5280 Remote Sensing of the Environment	
COMM 3500 Environmental Issues, Communication, and the Media

### International Affairs and Religious Studies, BA

Introduces the interaction of religious views with institutions and cultures in national and international contexts since the early 20th century. The combined major addresses diverse and cross-disciplinary theories of interstate relations (conflict, cooperation, hierarchies); civil society, transnational advocacy networks, global social/religious movements; state-society relations (religion, democracy, authoritarianism, social justice and ethics, citizenship); comparative study of religious theology and praxis; and knowledge of particular religious traditions, including Buddhism, Christianity, Hinduism, Islam, and Judaism.

#### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

#### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

#### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

#### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

#### International Affairs Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. See department for additional courses.

Code	Title	Hours
<b>Required Courses</b>		
INTL 1101	Globalization and International Affairs	4

## Jewish Studies and Religion, BA

The combined major in Jewish studies and religion offers students an integrated program of study of two naturally complementary fields. Study of Judaism as a religion is greatly enhanced by broad familiarity with the world's religious traditions; conversely, in-depth knowledge of Jewish history, identity, and cultures provides students of religion with valuable insight into the ways in which religion interacts with a wide variety of forces to shape the experiences of the adherents of a particular faith. The combined major is designed to enable students to understand the history, cultures, and religion of the Jewish people; analyze and apply theoretical understanding to the interaction between religious, social, and historical factors that have shaped the experiences of the Jewish people; and demonstrate fluency in understanding the major religious traditions of the world. The combined major in Jewish studies and religion is designed to prepare students for graduate work in Jewish studies, religion, or many of the other disciplines that make up Jewish studies or for work within the Jewish community or in communal organizations associated with other religions.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Jewish Studies Requirements

Code	Title	Hours

**Media and Screen Studies and Philosophy, BA**

The Media and Screen Studies Program and the Department of Philosophy and Religion offer a combined major in media and screen studies and philosophy. The combined major integrates the analysis, research, and production of traditional and emerging media along with the study of questions and theories related to morality, society, religion, and the natural and social sciences.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Formal and Quantitative Reasoning (FQ), Societies and Institutions (SI), Analyzing and Using

Data (AD), and Ethical Reasoning (ER) are met through the major course requirements.

NUpath requirements Natural and Designed World (ND), Creative Expression/Innovation (EI), and Difference and Diversity (DD) may be met through electives in the major.

## Media and Screen Studies Requirements

Code	Title	Hours
<b>Media and Screen Studies Common Requirements</b>		
MSCR 1220	Media, Culture, and Society	4
MSCR 1320	Media and Social Change	4
or MSCR 1420	Media History	
<b>Foundation Course</b>		
Complete one of the following:		4
MSCR 1230	Introduction to Film Production	
MSCR 2220	Understanding Media	
<b>Diversity or Globalization Course</b>		
Complete one of the following:		4
MSCR 3392	Gender and Film	
MSCR 2325	Global Media	
MSCR 2505	Digital Feminisms	
MSCR 3437	Media and Identity	
<b>Writing-Intensive</b>		
Complete two of the following:		8
MSCR 2505	Digital Feminisms	
MSCR 3600	Film Theory	
MSCR 3420	Digital Media Culture	
MSCR 3422	Media Audiences

Total Hours: 130

## Political Science and Philosophy, BA

The combined major in political science and philosophy enables students to develop an integrated understanding of politics, political theory, ethical theory, and theories of justice. Successful students who complete the major will have the training to critically evaluate and assess public policies and social issues on both political and ethical grounds, including issues such as tax policy, immigration, environmental protection, trade policy, healthcare, education, defense policy, and much more.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Political Science Requirements**

Code	Title	Hours
<b>Core Courses in Political Science</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2400	Quantitative Techniques	4
POLS 2399	Research Methods in Political Science	4

**Political Thought**

Complete two of the following:	8
POLS 2325	Ancient Philosophy and Political Thought
POLS 2328	Modern Political Thought

**Philosophy, BS**

Philosophy is a basic field of inquiry. Its range encompasses ideas and issues in every domain of human experience, and its methods apply to problems of an unlimited variety. The major in philosophy can develop not only philosophical skill and sophistication but also critical thinking and writing abilities that are readily applicable to pursuits in other academic areas, useful in careers far removed from philosophy, and valuable in everyday social and personal life. The study of philosophy can profoundly affect both the thinking one does and the kind of person one is.

There are a variety of ways to major in philosophy that students may choose from in accordance with their own backgrounds and interests. These include:

- **Philosophy generalist**

Offers students a maximum number of electives so they may choose in accordance with their own backgrounds and interests

- **Concentration in law and ethics**

Focuses elective course work in the areas of law, social and political philosophy, and applied ethics

- **Concentration in ethics**

Focuses elective course work in the areas of ethical theory, applied ethics, and social and political philosophy

- **Concentration in religious studies**

Uses electives to explore a variety of both religious expressions and methods of inquiry

- **Concentration in formal methods**

Focuses elective course work in areas of logic and formal methods

- **Combined majors** in media and screen studies and philosophy, economics and philosophy, environmental studies and philosophy, political science and philosophy, English and philosophy, history and philosophy, criminal justice and philosophy, computer science and philosophy, and physics and philosophy.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Concentration

Complete one of the following concentrations:

- Philosophy Generalist (p. 1135)
- Concentration in Law and Ethics (p. 1135)
- Concentration in Ethics (p. 1136)
- Concentration in Religious Studies (p. 1137)
- Concentration in Formal Methods (p. 1137)

## Philosophy Major Credit Requirement

Complete 36 semester hours in the major.

## Upper-Division Electives

Complete three general electives at 3000 level or above that do not double-count with the major or NUpath.

## General Electives

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirements

128 total semester hours required

## Concentrations

### PHILOSOPHY GENERALIST

Code	Title	Hours
<b>Philosophy Required Courses</b>		
PHIL 1115	Introduction to Logic	4
PHIL 2325	Ancient Philosophy and Political Thought	4
or POLS 2325	Ancient Philosophy and Political Thought	
PHIL 2330	Modern Philosophy	4
<b>Philosophy Advanced Elective/Seminar</b>		
Complete three of the following courses with one at the 4000 or 5000 level:		12
PHIL 3343	Existentialism	
PHIL 3435	Moral Philosophy	
PHIL 3460	Philosophy and Literature	
PHIL 4500	Theory of Knowledge	
PHIL 4510	Philosophy of Science	
PHIL 4515	Advanced Logic	
PHIL 4535	Philosophy of Mind	
PHIL 4550	Philosophy of Economics	
PHIL 4903	Seminar in Religion	
PHIL 5001	Global Justice	
PHIL 5002	Ethics and Public Policy	

### Additional Electives

Complete three additional courses in philosophy and religion. 12

### CONCENTRATION IN LAW AND ETHICS

Code	Title	Hours
<b>Philosophy Required Courses</b>		
PHIL 1115	Introduction to Logic	4
PHIL 2325	Ancient Philosophy and Political Thought	4
or POLS 2325	Ancient Philosophy and Political Thought	
PHIL 2330	Modern Philosophy	4
PHIL 3435	Moral Philosophy	4
<b>Philosophy Advanced Elective/Seminar</b>		
Complete two of the following courses with one at the 4000 or 5000 level:		8
PHIL 3343	Existentialism	
PHIL 3435	Moral Philosophy	
PHIL 3460	Philosophy and Literature	
PHIL 4500	Theory of Knowledge	
PHIL 4510	Philosophy of Science	
PHIL 4515	Advanced Logic	
PHIL 4535	Philosophy of Mind	
PHIL 4550	Philosophy of Economics	
PHIL 4903	Seminar in Religion	
PHIL 5001	Global Justice	

### Ethics-Related Electives

Complete two of the following:		8
PHIL 1102	Introduction to Contemporary Moral Issues	
PHIL 1111	Introduction to World Religions	
PHIL 1112	Debating Ethical Controversies	

PHIL 1120	Understanding the Bible
PHIL 1130	Ethics: East and West
PHIL 1145	Technology and Human Values
PHIL 1160	Introduction to Economic Justice
PHIL 1165	Moral and Social Problems in Healthcare
PHIL 1170	Business, Ethics, and Human Rights
PHIL 1180	Environmental Ethics
PHIL 1185	The Ethics of Food
PHIL 1271	Sex in Judaism, Christianity, and Islam
PHIL 1275	Hinduism, Buddhism, and Beyond: Eastern Religions
PHIL 1280	Islam: Rituals, Traditions, and Debates
PHIL 1290	Chinese Philosophy and Religion
PHIL 1666	The Problem of Evil in Film
PHIL 1667	Science Fiction and Film: Moral Dilemmas and Ethical Analysis
PHIL 2001	Ethics and Evolutionary Games
PHIL 2301	Philosophical Problems of Law and Justice
PHIL 2303	Social and Political Philosophy
PHIL 2305	Philosophy of Emotions
PHIL 2325	Ancient Philosophy and Political Thought
PHIL 2395	Japanese Buddhism
PHIL 4550	Philosophy of Economics
PHIL 5001	Global Justice
PHIL 5002	Ethics and Public Policy

**Law-Related Electives**

Complete two courses from social science departments. 8  
These courses are to be chosen in consultation with the department:

AFAM 2360	Politics of Poverty
AFRS 3460	Contemporary Government and Politics in Africa
CRIM 1110	Criminal Due Process
CRIM 1120	Criminology
CRIM 2320	Youth Crime and Justice
CRIM 3060	Political Crime and Terrorism
CRIM 3110	Gender, Crime, and Justice
CRIM 3120	Race, Crime, and Justice
ECON 3440	Public Finance
ECON 3442	Money and Banking
ECON 3520	History of Economic Thought
ENGL 3325	Rhetoric of Law
INTL 1101	Globalization and International Affairs
INTL 3400	International Conflict and Negotiation
JRNL 3550	The First Amendment and the Media
LPSC 1101	Introduction to Law
POLS 2357	Growth and Decline of Cities and Suburbs
POLS 3302	Judicial Process and Behavior
POLS 3324	Law and Society
POLS 4500	U.S. Constitutional Law
POLS 4505	U.S. Civil Liberties

SOCL 1245	Sociology of Poverty
SOCL 1246	Environment and Society
SOCL 2358	Current Issues in Cities and Suburbs
SOCL 3241	Violence and Society
SOCL 4518	Law and Society in a Digital World

**CONCENTRATION IN ETHICS**

**Behavioral Neuroscience and Philosophy, BS**

The behavioral neuroscience and philosophy combined degree program engages students in the interdisciplinary study across the biology, psychology, and philosophy departments. The major provides rigorous training in both disciplines with a specific focus on understanding seminal questions concerning human nature and the mind. Courses in the basic sciences will lay a strong foundation in biology, chemistry, and data analytics that are relevant to neuroscience. In behavioral neuroscience core courses, students will examine the structure and function of the human nervous system in order to explore brain mechanisms that give rise to behavioral functions, including cognitive processes, as well as pathological states. In philosophy courses, successful students will develop core analytics skills, including ethical reasoning; learn to recognize and question deep theoretical assumptions at the heart of scientific theories and practice; and explore the social and ethical dimensions of neuroscience and scientific practice more broadly. The fields of behavioral neuroscience and philosophy are further bridged with course work that is designed to enable students to apply neuroscientific concepts to philosophical, moral, and ethical questions.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

## Behavioral Neuroscience Requirements

Code	Title	Hours
<b>Behavioral Neuroscience Overview</b>		
BNSC 1000	Behavioral Neuroscience at Northeastern <sup>1</sup>	1
EESC 2000	Professional Development for Co-op <sup>2</sup>	1
<b>COS Foundations</b>		
PSYC 1101	Foundations of Psychology	4
BIOL 1107 and BIOL 1108	Foundations of Biology and Lab for BIOL 1107	5
BIOL 2299	Inquiries in Biological Sciences	4
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
CHEM 1161 and CHEM 1162	General Chemistry for Science Majors and Lab for CHEM 1161	5
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5
<b>Mathematics Foundation</b>		
MATH 1251	Calculus and Differential Equations for Biology 1	4
or MATH 1341	Calculus 1 for Science and Engineering	
<b>Statistics Foundation</b>		
Complete one of the following:		4-5
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	
or PSYC 2320	Statistics in Psychological Research	
<b>Behavioral Neuroscience Foundation</b>		
PSYC 3200	Clinical Neuroanatomy	4
PSYC 3458	Biological Psychology	4
<b>Psychology Elective</b>		
Complete one of the following:		4
PSYC 1214	The Moral Mind: The Science Underlying Ethical Decision-Making and Virtuous Character	
PSYC 3404	Developmental Psychology	
PSYC 3406	Abnormal Psychology	
PSYC 3450	Learning and Motivation	
PSYC 3451	Learning Principles and Behavior Analysis	
PSYC 3452	Sensation and Perception	
PSYC 3464	Psychology of Language	
PSYC 3466	Cognition	

PSYC 4520	Language and the Brain	
PSYC 4524	Cognitive Development	
<b>Behavioral Neuroscience Core Courses</b>		
Complete two of the following:		8
BIOL 3403	Animal Behavior	
BIOL 3415	Current Topics in Behavioral Neuroscience	
BIOL 3601	Neural Systems and Behavior	
BIOL 3605	Developmental Neurobiology	
BIOL 4705	Neurobiology of Cognitive Decline	
BIOL 5595	Cell and Molecular Neuroscience	
BIOL 5601	Multidisciplinary Approaches in Motor Control	
PSYC 3506	Neuropsychology of Fear	
PSYC 3508	Behavioral Endocrinology	
PSYC 3510	Brain, Behavior, and Immunity	
PSYC 4510	Psychopharmacology	
PSYC 4512	Neuropsychology	
PSYC 4514	Clinical Neuroscience	
PSYC 4570	Behavioral Genetics	

### Upper-Division Elective

Complete one course that is not already taken as long as pre-requisites have been met:		4
BNSC 4970 or higher		
BIOL 3403 or higher		
PSYC 3404 or higher		

<sup>1</sup> Students entering through CSSH may take Philosophy at Northeastern (PHIL 1000).

<sup>2</sup> Students entering through CSSH may take Professional Development for Co-op (EESH 2000).

### Philosophy Requirements

Code	Title	Hours
<b>Philosophy Foundation</b>		
PHIL 1105	Science and Pseudoscience	4
or PHIL 3050	Information and Uncertainty	
PHIL 1115	Introduction to Logic	4

## Computer Science and Philosophy, BS

The computer science and philosophy combined major offers an opportunity to obtain a fluency in formal logic, including logical proofs and the ability to represent arguments clearly and evaluate them for cogency. Students will find that logic plays a fundamental role in computer science as they experience an in-depth programming foundation. The philosophy curriculum also focuses on oral and written communication, as well as ethical and social issues related to computing and information technologies.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Computer Science Courses

Code	Title	Hours
------	-------	-------

### Computer Science Overview

CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1

### Computer Science Fundamental Courses

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5

### Computer Science Required Courses

CS 2800 and CS 2801	Logic and Computation and Lab for CS 2800	5
CS 3000	Algorithms and Data	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
CS 3800	Theory of Computation	4
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	4

### Khoury Elective

With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken for upper-division electives.

Complete 8 credits of upper-division CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:	8
---	---

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

## Philosophy Courses

Code	Title	Hours
------	-------	-------

### Philosophy Required Courses

PHIL 1115	Introduction to Logic	4
PHIL 2325	Ancient Philosophy and Political Thought	4
or POLS 2325	Ancient Philosophy and Political Thought	
or PHIL 2330	Modern Philosophy	
PHIL 1145	Technology and Human Values	4

PHIL 4515	Advanced Logic	4
PHIL 5005 or PHIL 5010	Information Ethics AI Ethics	4

**Electives**

Take four additional PHIL courses, at least one of which is 4000 or above	16
---	----

**Integrative Course Requirement**

Code	Title	Hours
These courses will double count in other areas of your major:		
CS 3800	Theory of Computation	
PHIL 4515	Advanced Logic	

**Computer Science English Requirement**

Code	Title	Hours
<b>College Writing</b>		
ENGW 1111 or ENGW 1102	First-Year Writing First-Year Writing for Multilingual Writers	4
<b>Advanced Writing in the Disciplines</b>		
Complete one course from the following:		4
ENGW 3302	Advanced Writing in the Technical Professions	
ENGW 3309	Advanced Writing in the Humanities	
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

**Required General Electives**

Code	Title	Hours
Complete 44 credits of general electives.		44

**Khoury College GPA Requirement**

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

**NUpath Requirements Satisfied**

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing-Intensive in the Major
- Interpreting Culture
- Understanding Societies and Institutions
- Employing Ethical Reasoning
- Writing in the First Year
- Advanced Writing in the Disciplines
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Program Requirement**

133 total semester hours required

**Plan of Study**

## Criminal Justice and Philosophy, BS

The School of Criminology and Criminal Justice and the Department of Philosophy and Religion offer a combined major in criminal justice and philosophy. This combined major educates students in criminal justice and philosophy and in the interface between the two disciplines. The scope and sequence of philosophy courses provide students with a foundation in topics such as social and political philosophy, philosophy of law, and moral philosophy, while also developing robust analytical and evaluative skills. Criminal justice courses provide a foundation for understanding individual and systemic aspects of criminology and criminal justice. Students completing this program should have depth of knowledge with respect to analyzing and addressing criminal behavior, as well as with respect to the philosophical and ethical aspects of topics such as law, punishment, justice, and social institutions.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Criminal Justice Major Requirements

Code	Title	Hours
<b>Introduction to Crime, Law, and the Justice System</b>		
What do we know about crime and justice? In these three courses, students have an opportunity to develop a foundational understanding of three related phenomena: why crime exists, how our criminal justice system responds to crime, and the constitutional and legal oversight of this process.		
CRIM 1100	Introduction to Criminal Justice	4
CRIM 1110	Criminal Due Process	4
CRIM 1120	Criminology	4
<b>Current Crime and Justice Issues</b>		
These courses introduce students to topical issues related to crime and justice.		
Complete one of the following:		4
CRIM 1300	The Death Penalty	
CRIM 1400	Human Trafficking	
CRIM 1500	Corruption, Integrity, and Accountability	
CRIM 1700	Crime, Media, and Politics	

### Crime Problems and Criminal Justice Institutions

The 2000-level courses in this list ask how does justice work and for whom? These courses introduce students to the systems and institutions tasked with providing justice. Each includes experiential learning components in cooperation with local criminal justice institutions. The 3000-level courses in this list provide students with a deeper look at a range of crime problems.

Complete one of the following:

4

CRIM 2310	Courts: The Third Branch of Government
CRIM 2320	Youth Crime and Justice
CRIM 2330	Punishment in the Age of Mass Incarceration
CRIM 2340	Corporate Security: Securing the Private Sector
CRIM 2350	Policing a Democratic Society
CRIM 3010	Criminal Violence
CRIM 3030	Global Criminology
CRIM 3040	Psychology of Crime
CRIM 3050	Organized Crime
CRIM 3060	Political Crime and Terrorism
CRIM 3070	Corporate and White-Collar Crime
CRIM 3540	Addiction and Recovery

**Systemic Issues**

These courses consider systemic issues facing the criminal justice system.

Complete one of the following: 4

CRIM 3110	Gender, Crime, and Justice
CRIM 3120	Race, Crime, and Justice

**Creating Knowledge about Crime and Justice**

How do we know what we know about crime and justice—and how do we develop new knowledge? These courses study how to harness data to learn about issues, identify solutions, and advocate for change.

CRIM 3600	Criminal Justice Research Methods	4
CRIM 3700	Analyzing and Using Data on Crime and Justice	4

**Co-op Integration Seminars**

Co-op students should complete the seminars below. Non-co-op students should complete a 4-semester-hour CRIM elective.

Complete two of the following courses. CRIM 2000 and CRIM 3000 are required for the first co-op. CRIM 4000 is required if a second co-op is taken. 2-4

EESH 2000	Professional Development for Co-op
CRIM 3000	Co-op Integration Seminar 2
CRIM 4000	Co-op Integration Seminar 3

**Solutions and Reform**

How do we reinvent criminal justice institutions and their practice? The capstone experience is project-based and solution-oriented, drawing on knowledge gained in the classroom and through co-op and other experiences.

CRIM 4949	Senior Capstone Seminar	4
-----------	-------------------------	---

**Criminal Justice Elective**

These courses round out our knowledge of crime and justice.

Complete one additional criminal justice elective from the 3000, 4000, or 5000 level. 4

**Philosophy Requirements**

Code	Title	Hours
<b>Required Courses</b>		
PHIL 1115	Introduction to Logic	4
PHIL 2325	Ancient Philosophy and Political Thought	4

or POLS 2325	Ancient Philosophy and Political Thought	
PHIL 2303	Social and Political Philosophy	4
PHIL 2330	Modern Philosophy	4

**Intermediate/Advanced Electives**

Complete two of the following:

PHIL 3100	The Religious Worlds of Boston: Faith and Devotion in Urban Life
PHIL 3343	Existentialism
PHIL 3360	Scientific Approaches to Philosophy
PHIL 3435	Moral Philosophy
PHIL 3460	Philosophy and Literature
PHIL 4500	Theory of Knowledge
PHIL 4510	Philosophy of Science
PHIL 4515	Advanced Logic
PHIL 4535	Philosophy of Mind
PHIL 4550	Philosophy of Economics
PHIL 4555	Philosophy of Biology
PHIL 4903	Seminar in Religion
PHIL 5001	Global Justice
PHIL 5002	Ethics and Public Policy
PHIL 5005	Information Ethics
PHIL 5010	AI Ethics

**Philosophy 4000/5000 Elective**

Complete one of the following not used to satisfy previous requirements: 4

PHIL 4500	Theory of Knowledge
PHIL 4510	Philosophy of Science
PHIL 4515	Advanced Logic
PHIL 4535	Philosophy of Mind
PHIL 4550	Philosophy of Economics
PHIL 4555	Philosophy of Biology
PHIL 4903	Seminar in Religion
PHIL 5001	Global Justice
PHIL 5002	Ethics and Public Policy
PHIL 5005	Information Ethics
PHIL 5010	AI Ethics

**Philosophy Electives**

Complete two additional PHIL courses. 8

**Integrative Requirement**

Code	Title	Hours
<b>Philosophy Integrative Course</b>		
PHIL 2301	Philosophical Problems of Law and Justice	4
<b>Criminal Justice Integrative Course</b>		
CRIM 1400	Human Trafficking	4

**Criminal Justice and Philosophy Major Credit Requirement**

Complete 80 semester hours in the major.

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirement

128 total semester hours required

### Economics and Philosophy, BS

Both philosophy and economics are the disciplines of critical thinking—thinking in concrete and abstract terms to help put the world in perspective. The combined economics and philosophy major provides students with training to critically evaluate and assess policies and issues on both economic and ethical grounds, including issues such as globalization, immigration, environmental protections, the minimum wage, a fair and just tax, just working environments, and many more.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Overview and Supporting Courses

Code	Title	Hours
<b>Introduction to College</b>		
Complete one of the following:		
ECON 1000	Economics at Northeastern	1
or PHIL 1000	Philosophy at Northeastern	
<b>Supporting Courses</b>		
MATH 1231	Calculus for Business and Economics	4
or MATH 1241	Calculus 1	
or MATH 1245	Calculus with Applications	
or MATH 1251	Calculus and Differential Equations for Biology 1	
or MATH 1340	Intensive Calculus for Engineers	
or MATH 1341	Calculus 1 for Science and Engineering	

### Economics Requirements

Code	Title	Hours
<b>Required Economics Courses</b>		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4

ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4
ECON 3520	History of Economic Thought	4

**Economics Electives**

Complete 2 Economics elective courses from the following ranges with no more than 1 in the ECON 1200 to ECON 1999 range. Additionally, ECON 3520 may not be used as an Economics Elective. 8

ECON 1200 to ECON 1999

ECON 3000 to ECON 4689

ECON 4900 to ECON 4999

ECON 5200 to ECON 5999

**Philosophy Requirements**

Code	Title	Hours
------	-------	-------

**Philosophy Required Courses**

PHIL 1115	Introduction to Logic	4
PHIL 2325	Ancient Philosophy and Political Thought	4
PHIL 2330	Modern Philosophy	4

**Advanced Philosophy Elective**

Complete one of the following: 4

PHIL 3100	The Religious Worlds of Boston: Faith and Devotion in Urban Life	
PHIL 3343	Existentialism	
PHIL 3360	Scientific Approaches to Philosophy	
PHIL 3435	Moral Philosophy	
PHIL 3460	Philosophy and Literature	
PHIL 4500	Theory of Knowledge	
PHIL 4510	Philosophy of Science

PHIL 5001	Global Justice	
PHIL 5002	Ethics and Public Policy	
PHIL 5005	Information Ethics	
PHIL 5010	AI Ethics	

**Additional Electives**

Complete three additional electives in philosophy or religion. At least one must be numbered 2000 or above. 12

**Integrative Requirements**

Code	Title	Hours
------	-------	-------

Complete PHIL 4550 and one of the other courses listed below that has not been used in above requirements: 8

PHIL 4550	Philosophy of Economics	
PHIL 3435	Moral Philosophy	
PHIL 4500	Theory of Knowledge	
PHIL 4510	Philosophy of Science	
PHIL 5001	Global Justice	
PHIL 5002	Ethics and Public Policy	

**Major GPA/Credit Requirement**

Grades in the following 4 Economics courses must average to a minimum of C (2.000):

Code	Title	Hours
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4

Complete 76 semester hours in the major.

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Physics and Philosophy, BS

The combined major in physics and philosophy provides a strong foundation in classical and modern physics, including studies of the various physical phenomena including electromagnetism, dynamics, building blocks of matter, energy, and radiation. It also provides students with an understanding of the methods and traditions of philosophical thought, as well as with opportunities to critically and collaboratively reflect on the nature of the world and the human situation in it. Students will be able to describe the method by which physical "law" is made manifest in the sciences, how this knowledge compares with other epistemological models studied in other contexts, and philosophical views on the status and source of physical "law."

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Physics Major Requirements

Code	Title	Hours
<b>Introductory Physics</b>		
<i>Physics 1</i>		
Complete one of the following:		5
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
<i>Physics 2</i>		
Complete one of the following:		5
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	

PHYS 1155  
and PHYS 1156  
and PHYS 1157

Physics for Engineering 2  
and Lab for PHYS 1155  
and Interactive Learning Seminar for  
PHYS 1155

### Intermediate Physics

PHYS 2303	Modern Physics	4
PHYS 2371 and PHYS 2372	Electronics and Lab for PHYS 2371	4

### Advanced Physics

PHYS 3600	Advanced Physics Laboratory	4
PHYS 3602	Electricity and Magnetism 1	4
PHYS 4115	Quantum Mechanics	4
PHYS 4305	Thermodynamics and Statistical Mechanics	4

### Physics Elective

Complete one of the following:		4
MATH 4606	Mathematical and Computational Methods for Physics	
PHYS 5111	Astrophysics and Cosmology	
PHYS 5113	Particle Physics	
PHYS 5116	Complex Networks and Applications	
PHYS 5260	Introduction to Nanoscience and Nanotechnology	
PHYS 4621	Biological Physics 1	
PHYS 4623	Medical Physics	
PHYS 4651	Medical Physics Seminar 1	
PHYS 4652	Medical Physics Seminar 2	

### Philosophy Major Requirements

Code	Title	Hours
<b>Philosophy Required Courses</b>		
PHIL 1115	Introduction to Logic	4
PHIL 2325	Ancient Philosophy and Political Thought	4
or POLS 2325	Ancient Philosophy and Political Thought	
PHIL 2330	Modern Philosophy	4
PHIL 4500	Theory of Knowledge	4
or PHIL 3050	Information and Uncertainty	
<b>Philosophy Advanced Elective</b>		
Complete two of the following (not used to fulfill another requirement):		8
PHIL 3100	The Religious Worlds of Boston: Faith and Devotion in Urban Life	
PHIL 3343	Existentialism	
PHIL 3360	Scientific Approaches to Philosophy	
PHIL 3435	Moral Philosophy	
PHIL 3460	Philosophy and Literature	
PHIL 4500	Theory of Knowledge	
PHIL 4515	Advanced Logic	
PHIL 4535	Philosophy of Mind	
PHIL 4550	Philosophy of Economics	
PHIL 4555	Philosophy of Biology	
PHIL 4903	Seminar in Religion	
PHIL 5001	Global Justice	
PHIL 5002	Ethics and Public Policy	

PHIL 5005	Information Ethics	
PHIL 5010	AI Ethics	
<b>Additional Electives</b>		
Complete three PHIL courses.		12

### Physics/Philosophy Integrative Requirements

Code	Title	Hours
<b>Integrative Course Requirements</b>		
PHIL 4510	Philosophy of Science	4
PHYS 3601	Classical Dynamics	4

### Breadth Courses

Code	Title	Hours
<b>Mathematics</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4

### Physics and Philosophy Major Credit Requirement

Complete 98 semester hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

132 total semester hours required

### Plan of Study

#### Notes on Physics Plans of Study

Some required physics courses are offered in both fall and spring semesters, while other required courses are offered less frequently. Therefore, the suggested plan of study will vary from student to student, depending on the year of entry for that student.

See course offering schedule at the end of the plans of study.

Please contact your academic advisor for additional information and plans of study.

### Even-Numbered Year One

#### FIVE YEARS, THREE CO-OPS IN SUMMER 2/FALL

Year 1					
Fall	Hours	Spring	Hours	Summer 1	Hours
PHYS 1000	1	PHYS 1165	4	Vacation	0

Total Hours: 132

**OFFERING SCHEDULE (SUBJECT TO CHANGES)**

- PHYS 2303 offered every fall, spring, and summer 2
- PHYS 2371/2372 offered every fall
- PHYS 3600 offered every summer 1 and summer 2
- PHYS 3601 offered spring and fall (even years)
- PHYS 3602 offered every fall and spring
- PHYS 3603 offered fall (even years) and summer 1 (odd years)
- PHYS 4115 offered every fall and spring
- PHYS 4305 offered every spring and summer 2 (even years)
- PHYS 4621 offered spring (odd years) and fall (even years)
- PHYS 4623 offered summer 1 and fall (even years)
- PHYS 4651 offered spring and fall (odd years)
- PHYS 4652 offered every spring
- PHYS 5318 offered every spring

**Political Science and Philosophy, BS**

The combined major in political science and philosophy enables students to develop an integrated understanding of politics, political theory, ethical theory, and theories of justice. Students who complete the major will have the training to critically evaluate and assess public policies and social issues on both political and ethical grounds, including issues such as tax policy, immigration, environmental protection, trade policy, healthcare, education, defense policy, and much more.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Political Science Requirements**

Code	Title	Hours
<b>Core Courses in Political Science</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2400	Quantitative Techniques	4
POLS 2399	Research Methods in Political Science	4
<b>Political Thought</b>		
Complete two of the following:		8
POLS 2325	Ancient Philosophy and Political Thought	
POLS 2328	Modern Political Thought	
POLS 2330	American Political Thought	
POLS 2332	Contemporary Political Thought	

**Political Science Electives**

Complete four courses in the following range:	16
POLS 2000 to POLS 5999	

**Political Science Concentrations (Optional)**

If you are working toward one of the following concentrations, declare it with your adviser so that it may be added to your record.

- American Political Institutions (p. 1152)
- Campaigns and Elections (p. 1152)
- Comparative Politics (p. 1152)
- Identity, Culture, and Politics (p. 1152)
- International Relations and Diplomacy (p. 1152)
- Law and Legal Studies (p. 1152)
- Public Policy (p. 1153)
- Security Studies (p. 1153)

**Philosophy Requirements**

Code	Title	Hours
<b>Philosophy Required Courses</b>		
PHIL 1115	Introduction to Logic	4
PHIL 2303	Social and Political Philosophy	4
PHIL 2325	Ancient Philosophy and Political Thought	4
or POLS 2325	Ancient Philosophy and Political Thought	
PHIL 2330	Modern Philosophy	4
<b>Philosophy Restricted Electives</b>		
Complete two courses from the following with one course at the 4000 or 5000 level:		8
PHIL 3100	The Religious Worlds of Boston: Faith and Devotion in Urban Life	
PHIL 3343	Existentialism	
PHIL 3360	Scientific Approaches to Philosophy	
PHIL 3435	Moral Philosophy	
PHIL 3460	Philosophy and Literature	
PHIL 4500	Theory of Knowledge	
PHIL 4510	Philosophy of Science	
PHIL 4515	Advanced Logic	
PHIL 4535	Philosophy of Mind	
PHIL 4550	Philosophy of Economics	

PHIL 4555	Philosophy of Biology
PHIL 4903	Seminar in Religion
PHIL 5001	Global Justice
PHIL 5002	Ethics and Public Policy
PHIL 5005	Information Ethics
PHIL 5010	AI Ethics

**Additional Electives**

Complete three additional electives in philosophy or religion. 12

**Integrative Requirement**

Code	Title	Hours
Complete one of the following:		
PHIL 5001	Global Justice	4
or PHIL 5002	Ethics and Public Policy	

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Program Requirement**

128 semester hours required

**CONCENTRATION IN AMERICAN POLITICAL INSTITUTIONS**

Code	Title	Hours
Complete four of the following: 16		
POLS 2350	State and Local Politics	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3307	Public Policy and Administration	
POLS 3310	Public Opinion, Voting, and Elections	
POLS 3160	Campaign Strategy	

**CONCENTRATION IN CAMPAIGNS AND ELECTIONS**

Code	Title	Hours
<b>Required Courses</b>		
POLS 3160	Campaign Strategy	4
POLS 3302	Judicial Process and Behavior	4

**Campaigns and Elections Electives**

If POLS 4947 was replaced by a co-op or internship, an additional elective must be taken.

Complete two of the following: 8		
POLS 2345	Urban Policies and Politics	
POLS 2350	State and Local Politics	
POLS 2355	Intergovernmental Relations	
POLS 3310	Public Opinion, Voting, and Elections	
POLS 3320	Politics and Mass Media	
POLS 3304	Presidential Nominating Process	

**CONCENTRATION IN COMPARATIVE POLITICS**

Code	Title	Hours
<b>Theoretical Requirement</b>		
Complete one of the following: 4		
POLS 2370	Religion and Politics	

POLS 3418	Nationalism
POLS 3430	Revolution, Civil War, and Insurrection
POLS 3487	Politics of Developing Nations

**Regional Requirements**

Complete two of the following: 8		
POLS 3435	Politics and Governance of Europe and the European Union	
POLS 3465	Government and Politics in the Middle East	
POLS 3470	Arab-Israeli Conflict	

**Experiential/Practicum Requirement**

Complete one of the following: 4		
POLS 4915	Model Arab League	
POLS 4918	Model NATO	
POLS 4937	Dialogue of Civilizations: Government and Politics Abroad	

**CONCENTRATION IN IDENTITY, CULTURE, AND POLITICS**

Code	Title	Hours
<b>Core Course</b>		
POLS 3418	Nationalism	4
<b>Electives</b>		
Complete three of the following: 12		
POLS 2368	Music and Politics in America and Abroad	
POLS 2370	Religion and Politics	
POLS 2375	Gender and Politics	
POLS 3309	Lesbian, Gay, Bisexual, and Transgender Issues in Public Policy	
POLS 3324	Law and Society	

**CONCENTRATION IN INTERNATIONAL RELATIONS AND DIPLOMACY**

Code	Title	Hours
<b>Experiential/Practicum Requirement</b>		
Complete one of the following: 4		
POLS 4910	Model United Nations	
POLS 4915	Model Arab League	
POLS 4938	Dialogue of Civilizations: International Politics Abroad	

**Core Courses**

Complete three of the following: 12		
POLS 3405	International Political Economy	
POLS 3406	International Law	
POLS 3408	International Security	
POLS 3435	Politics and Governance of Europe and the European Union	
POLS 3470	Arab-Israeli Conflict	

**CONCENTRATION IN LAW AND LEGAL STUDIES**

Code	Title	Hours
Complete four of the following: 16		
POLS 2330	American Political Thought	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3324	Law and Society	
POLS 3406	International Law	

POLS 3409	Global Governance
POLS 4500	U.S. Constitutional Law
POLS 4505	U.S. Civil Liberties

**CONCENTRATION IN PUBLIC POLICY**

Code	Title	Hours
<b>Core Requirement</b>		
POLS 3307	Public Policy and Administration	4
<b>Electives</b>		
Complete three of the following:		12
POLS 2335	Budgeting and Taxation	
POLS 2340	Business and Government	
POLS 2345	Urban Policies and Politics	
POLS 2350	State and Local Politics	
POLS 2357	Growth and Decline of Cities and Suburbs	
POLS 2390	Science, Technology, and Public Policy	
POLS 2395	Environmental Politics and Policy	
POLS 3425	U.S. Foreign Policy	

**CONCENTRATION IN SECURITY STUDIES**

Code	Title	Hours
Complete four of the following:		
POLS 3408	International Security	16
POLS 3420	U.S. National Security Policy	
POLS 3423	Terrorism and Counterterrorism	
POLS 3425	U.S. Foreign Policy	
POLS 3430	Revolution, Civil War, and Insurrection	
POLS 3470	Arab-Israeli Conflict	
POLS 3487	Politics of Developing Nations

**Politics, Philosophy, and Economics, BS**

Website (<https://www.northeastern.edu/cssh/ppe/>)

617.373.3636  
617.373.4359 (fax)

The PPE major at Northeastern University brings together three of the most important approaches to understanding the world around us: political science, philosophy, and economics. The PPE major is an interdisciplinary degree that not only provides students with the analytic tools from three different disciplines but also teaches students to make connections across disciplines and to keep multiple perspectives in mind when analyzing complex social phenomena. This interdisciplinary perspective and set of skills are indispensable in our increasingly interconnected world and are essential in addressing the kinds of complex global problems future leaders will need to tackle.

There are a number of varieties of the PPE major that students may choose from in accordance with their own backgrounds and interests. These include:

- environment and energy policy
- international political economy

- law and justice
- logic and game theory
- political philosophy
- public and economic policy

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Politics, Philosophy, and Economics Major Requirements

Code	Title	Hours
<b>Foundation Course</b>		
PHIL 1160	Introduction to Economic Justice	4
<b>Core Courses</b>		
<i>Philosophy</i>		
PHIL 2303 or PHIL 3822	Social and Political Philosophy Philosophy of Race and Racism	4
PHIL 1115	Introduction to Logic	4
PHIL 3435 or PHIL 2325	Moral Philosophy Ancient Philosophy and Political Thought	4
<i>Political Science</i>		
POLS 1160	International Relations	4
POLS 3405	International Political Economy	4
POLS 1150 or POLS 1155	American Government Comparative Politics	4
<i>Economics</i>		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315 or ECON 2316	Macroeconomic Theory Microeconomic Theory	4
<b>Methods Course</b>		
PHIL 3000	Interdisciplinary Methods for Politics, Philosophy, and Economics	4
<b>Capstone</b>		
Complete one of the following:		4
ECON 4692	Senior Economics Seminar	
PHIL 4550	Philosophy of Economics	
PHIL 5001	Global Justice	
PHIL 5002	Ethics and Public Policy	
POLS 4701	Political Science Senior Capstone	
POLS 4703	Senior Thesis	

### Major Electives

Code	Title	Hours
Complete two of the following:		8
ECON 1200 to ECON 1999		
ECON 3000 to ECON 4689		
ECON 4900 to ECON 4999		
ECON 5200 to ECON 5999		
PHIL 2000 to PHIL 5999		
POLS 2000 to POLS 5999		

### Concentration

Complete one of the following concentrations:

- Environment and Energy Policy (p. )
- International Political Economy (p. )
- Law and Justice (p. )
- Logic and Game Theory (p. )
- Political Philosophy (p. )
- Public and Economic Policy (p. )

### Supporting Courses

Code	Title	Hours
<b>Racial or Gender Justice</b>		
Complete one of the following:		4
AFAM 1101	Introduction to African American and Africana Studies	
AFAM 2339	Analysis of American Racism	
AFAM 2355	Race, Identity, Social Change, and Empowerment	
AFAM 2360	Politics of Poverty	
ANTH 2302	Gender and Sexuality: A Cross-Cultural Perspective	
CRIM 3110	Gender, Crime, and Justice	
ECON 3412	Women's Labor and the Economy	
HIST 1225	Gender, Race, and Medicine	
HIST 2000	Native American Resistance: Past and Present	
PHIL 1271	Sex in Judaism, Christianity, and Islam	
PHIL 3500	Sexuality, Gender, and the Law	
POLS 3309	Lesbian, Gay, Bisexual, and Transgender Issues in Public Policy	
SOCL/WMNS 1260	Gender in a Changing Society	
SOCL 3270	Race and Ethnic Relations	
SOCL 4520	Race, Class, and Gender	
WMNS 1101	Sex, Gender, and Popular Culture	
WMNS 1103	Introduction to Women's, Gender, and Sexuality Studies	
WMNS 1441	Topics in Women's, Gender, and Sexuality Studies	
WMNS 2304	Communication and Gender	
WMNS/HIST 2373	Gender and Sexuality in World History	
WMNS/INTL 2480	Women and World Politics	
WMNS 2505	Digital Feminisms	
WMNS/HUSV 2800	Sexual Orientation and Gender Expression	

WMNS 3100	Gender, Social Justice, and Transnational Activism	
WMNS/COMM 3304	Communication and Inclusion	
WMNS 3500	Sexuality, Gender, and the Law	

**Statistics and Mathematics**

MATH 1231	Calculus for Business and Economics	4
or MATH 1241	Calculus 1	
or MATH 1245	Calculus with Applications	
or MATH 1251	Calculus and Differential Equations for Biology 1	
or MATH 1340	Intensive Calculus for Engineers	
or MATH 1341	Calculus 1 for Science and Engineering	
ECON 2350	Statistics	4
or POLS 2400	Quantitative Techniques	
or MATH 2280	Statistics and Software	

**Experiential Learning Requirement**

Complete one co-op, study abroad, qualifying Dialogue of Civilizations, or one of the following:		4
ECON 4991	Research	
ECON 4994	Internship	
ECON 4996	Experiential Education Directed Study	
POLS 4970	Junior/Senior Honors Project 1	
POLS 4971	Junior/Senior Honors Project 2	
POLS 4942	Internship in Politics	
POLS 4996	Experiential Education Directed Study	

**Major GPA/Credit Requirement**

Complete 68 semester hours in the major with a 3.000 GPA.

Code	Title	Hours
<b>Economics GPA Requirement:</b>		
Grades in the following courses must average to a minimum of C (2.000):		
ECON 2315	Macroeconomic Theory	
or ECON 2316	Microeconomic Theory	
ECON 2350	Statistics	
or POLS 2400	Quantitative Techniques	
or MATH 2280	Statistics and Software	

**Course Distribution Requirement**

Complete at least four courses in each of the following subject areas: ECON, PHIL, and POLS.

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Program Requirement**

128 total semester hours required

**Concentrations****CONCENTRATION IN ENVIRONMENT AND ENERGY POLICY**

Code	Title	Hours
Complete two of the following:		
ECON 1711	Economics of Sustainability	8

ECON 3423	Environmental Economics	
or ECON 3425	Energy Economics	
PHIL 1180	Environmental Ethics	
or PHIL 1185	The Ethics of Food	
POLS 2395	Environmental Politics and Policy	
Complete one of the following:		4
ECON 3423	Environmental Economics	
ECON 3425	Energy Economics	
PHIL 1180	Environmental Ethics	
PHIL 1185	The Ethics of Food	

**CONCENTRATION IN INTERNATIONAL POLITICAL ECONOMY**

Code	Title	Hours
Complete two of the following:		
ECON 1291	Development Economics	
ECON 2316	Microeconomic Theory	
ECON 3290	History of the Global Economy	
ECON 3404	International Food Policy	
ECON 4635	International Economics	
ECON 5200	Topics in Applied Economics	
PHIL 1185	The Ethics of Food	
PHIL 1170	Business, Ethics, and Human Rights	
POLS 3406	International Law	
POLS 3487	Politics of Developing Nations	
Complete one of the following:		4
ECON 1292	Economic History of the Middle East	
HIST 2360	History of Capitalism in East Asia	
POLS 3435	Politics and Governance of Europe and the European Union	
POLS 3465	Government and Politics in the Middle East	
HIST 2011	Capitalism and Business: A Global History	

**CONCENTRATION IN LAW AND JUSTICE**

Code	Title	Hours
Complete three of the following, only two of which may be POLS courses:		
ECON 3424	Law and Economics	
ECON 1240	Economics of Crime	
HIST 2308	Law, Justice, and Society in Modern China	
PHIL 2155	Human Rights	
PHIL 2301	Philosophical Problems of Law and Justice	
PHIL 3500	Sexuality, Gender, and the Law	
PHIL 5001	Global Justice	
PHIL 5002	Ethics and Public Policy	
POLS 3302	Judicial Process and Behavior	
POLS 3324	Law and Society

**Information Ethics, Minor**

This minor aims to help students: (1) develop in-depth knowledge of issues and topics in computing, data, and AI ethics; (2) build robust skills in ethical analysis, reasoning and evaluation. The minor is open to students from all majors.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

A minimum of three of the courses to fulfill the minor must carry the PHIL prefix. At least two courses must be at or above the 2000-level.

Code	Title	Hours
<b>Foundational Course</b>		
Complete one of the following:		4
PHIL 1145	Technology and Human Values	
PHIL 1300	Knowledge in a Digital World	
<b>Information Ethics Electives</b>		
Complete two courses from the following, not used above, one of which must be at or above the 4000 level:		8
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
PHIL 1145	Technology and Human Values	
PHIL 1300	Knowledge in a Digital World	
PHIL 2016	The Philosophy and Ethics of Lying and Deception	
PHIL 5005	Information Ethics	
PHIL 5010	AI Ethics	
<b>Ethics Electives</b>		

Complete one of the following courses not used above. 4

CHME 5185	Design of Experiments and Ethical Research (DOEER)
PHIL 1102	Introduction to Contemporary Moral Issues
PHIL 1112	Debating Ethical Controversies
PHIL 1130	Ethics: East and West
PHIL 1145	Technology and Human Values
PHIL 1160	Introduction to Economic Justice
PHIL 1162	Ethics and Philosophy through Sport
PHIL 1165	Moral and Social Problems in Healthcare
PHIL 1170	Business, Ethics, and Human Rights

PHIL 1185	The Ethics of Food
PHIL 1195	Research Ethics
PHIL 1300	Knowledge in a Digital World
PHIL 1667	Science Fiction and Film: Moral Dilemmas and Ethical Analysis
PHIL 2001	Ethics and Evolutionary Games
PHIL 2016	The Philosophy and Ethics of Lying and Deception
PHIL 2155	Human Rights
PHIL 2301	Philosophical Problems of Law and Justice
PHIL 2303	Social and Political Philosophy
PHIL 2325	Ancient Philosophy and Political Thought
PHIL 3435	Moral Philosophy
PHIL 5001	Global Justice
PHIL 5002	Ethics and Public Policy
PHIL 5005	Information Ethics
PHIL 5010	AI Ethics

**Philosophy, Minor**

Philosophy addresses questions and theories related to morality, society, religion, and the natural and social sciences. Course work in philosophy provides students with an understanding of the methods and traditions of philosophical thought, as well as opportunities to critically and collaboratively reflect on the nature of the world and the human situation in it. Through readings, discussion, and writing, students examine questions concerning the validity of moral judgments, political ideas, and scientific theories, as well as questions about values and social policy in such areas as law, medicine, and technology.

Course work in philosophy significantly strengthens study in other areas. Many students find that their studies in their major can be beneficially supplemented by pursuing studies in philosophy. Declaring a minor in philosophy will allow you to continue your philosophical studies throughout your time at Northeastern University.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

**Required Courses**

Code	Title	Hours
PHIL 2325	Ancient Philosophy and Political Thought	4
or POLS 2325	Ancient Philosophy and Political Thought	
PHIL 2330	Modern Philosophy	4

**Elective Courses**

Code	Title	Hours
Complete three courses in philosophy and religion.		12

**GPA Requirement**

2.000 GPA required in the minor

**Religious Studies, Minor**

The religious studies minor provides a short form of the religious studies major that can be tailored to the needs of the student.

The minor in religious studies offers the opportunity to acquire an understanding of religion within various contexts through comparative approaches and an engagement with religion in everyday life. Through the minor, a student will enhance their ability to think critically about a range of religious traditions through diverse methodological approaches.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated.

**Required Course**

Code	Title	Hours
PHIL 1110	Introduction to Religious Studies	4

**Electives**

Code	Title	Hours
Complete three of the following; at least one must be 2000-level or higher.		12

PHIL 1104	Goddesses, Witches, Saints, and Sinners: Women in Western Religions	
PHIL 1111	Introduction to World Religions	
PHIL 1133	Selling Spirituality	
PHIL 1120	Understanding the Bible	
PHIL 1220	The Meaning of Death	
PHIL 1260	Apocalypticism in Film	
PHIL 1271	Sex in Judaism, Christianity, and Islam	
PHIL 1275	Hinduism, Buddhism, and Beyond: Eastern Religions	
PHIL 1280	Islam: Rituals, Traditions, and Debates	
PHIL 1285	Jewish Religion and Culture	
PHIL 1290	Chinese Philosophy and Religion	
PHIL 1295	Religious Perspectives on Health and Healing	
PHIL 1666	The Problem of Evil in Film	
PHIL 1667	Science Fiction and Film: Moral Dilemmas and Ethical Analysis	
PHIL 2230	Music and Religion	
PHIL 2390	Cults and Sects	
PHIL 2395	Japanese Buddhism	

PHIL 2410	Possession, Sacrifice, and Divination in African Diasporic Religions
PHIL 3100	The Religious Worlds of Boston: Faith and Devotion in Urban Life
PHIL 4903	Seminar in Religion

**GPA Requirement**

2.000 GPA required in the minor

**Ethics, Minor**

The Department of Philosophy and Religion offers a minor in ethics for students who are interested in exploring the ethical dimensions of contemporary issues. From medicine and the environment to business and religion, the minor provides a range of courses that speak to issues you care about and provides you with the tools to explore them. The minor includes courses in ethical theory (e.g., moral philosophy, social and political philosophy, and philosophical problems of law and justice); applied ethics (e.g., environmental ethics, business ethics, moral and social problems in healthcare, and technology and human values); and religious ethics (e.g., ethics east and west and cults and sects). It emphasizes developing critical analytical and evaluative skills.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

**Required Courses**

Code	Title	Hours
Complete four courses from the following list, two of which must be at or above the 2000 level:		16
PHIL 1102	Introduction to Contemporary Moral Issues	
PHIL 1106	Ethics and Politics of Work	
PHIL 1111	Introduction to World Religions	
PHIL 1112	Debating Ethical Controversies	
PHIL 1120	Understanding the Bible	
PHIL 1130	Ethics: East and West	
PHIL 1133	Selling Spirituality	
PHIL 1145	Technology and Human Values	
PHIL 1160	Introduction to Economic Justice	
PHIL 1162	Ethics and Philosophy through Sport	
PHIL 1165	Moral and Social Problems in Healthcare	
PHIL 1170	Business, Ethics, and Human Rights	
PHIL 1180	Environmental Ethics	
PHIL 1185	The Ethics of Food	
PHIL 1195	Research Ethics	
PHIL 1220	The Meaning of Death	
PHIL 1271	Sex in Judaism, Christianity, and Islam	
PHIL 1275	Hinduism, Buddhism, and Beyond: Eastern Religions	
PHIL 1280	Islam: Rituals, Traditions, and Debates	
PHIL 1290	Chinese Philosophy and Religion	
PHIL 1295	Religious Perspectives on Health and Healing

## Political Science

Website (<http://www.northeastern.edu/polisci/>)

### Costas Panagopoulos, PhD

Professor and Chair

960A Renaissance Park  
617.373.2796  
617.373.5311 (fax)

Political science teaches the art and science of politics in the United States and throughout the world. Study leadership with a former U.S. presidential candidate. Spend seven weeks visiting the United Nations and other organizations in Geneva, Switzerland. Apply for the White House internship program or to the British Parliament. Develop aid programs in a Saharan village in Niger. Write opinion pieces for an outstanding student political journal. Compete to represent an Arab country as part of one of the top Model Arab League teams in the United States. Political science is a discipline and a subject of study that has worldwide applications and exciting and experiential job opportunities. Politics matter wherever there are groups of people trying to get things done.

Political science majors start their journey with core courses on American government, comparative politics, international relations, and research methods. After that, students choose from a wealth of courses on specific topics from international security to legal studies to public policy.

Political science co-ops include responsible positions in local, state, and federal government agencies; law firms; nonprofit institutions; and corporations. Many students complete either a co-op position or an internship with a congressional representative, a senator, a governor

or other elected public officials, or at an international organization or nonprofit.

Political science students are among the most active on campus through extracurricular programs designed to expand their leadership ability, including the Political Science Student Association, International Relations Council, Pi Sigma Alpha honor society, Model United Nations, Model Arab League, Model NATO, student government, College Democrats and Republicans, and other student groups. Students also may qualify for the University Honors Program. With these experiences on their resumés, students are prepared to succeed in law school, graduate school, careers in government and the nonprofit sector, as well as in teaching, journalism, legislative or lobbying positions, public relations activities, and work in international corporations and nongovernmental organizations (NGOs).

## Academic Progression Standards

Same as university-wide standards described under "Academic Status (p. 27)."

## PlusOne Program (MA) in Political Science

Political science majors at the end of their sophomore year or the beginning of their junior year may qualify for application to the PlusOne program that combines the BA with the master's degree in political science. Students interested in this option should consult with the departmental graduate coordinator.

## Programs

### Bachelor of Arts (BA)

- Political Science (p. 1160)
- Africana Studies and Political Science (p. 815)
- English and Political Science (p. 954)
- Environmental Studies and Political Science (p. 725)
- History and Political Science (p. 989)
- Journalism and Political Science (p. 191)
- Media and Screen Studies and Political Science (p. 157)
- Political Science and Communication Studies (p. 164)
- Political Science and Economics (p. 910)
- Political Science and Human Services (p. 1014)
- Political Science and International Affairs (p. 1079)
- Political Science and Philosophy (p. 1127)
- Sociology and Political Science (p. 1196)

### Bachelor of Science (BS)

- Political Science (p. 1198)
- Biology and Political Science (p. 653)
- Computer Science and Political Science (p. 381)
- Criminal Justice and Political Science (p. 857)
- Mathematics and Political Science (p. 748)
- Political Science and Business Administration (p. 287)
- Political Science and Communication Studies (p. 179)

- Political Science and Human Services (p. 1029)
- Political Science and Philosophy (p. 1151)
- Politics, Philosophy, and Economics (p. 821)

## Minors

- Political Science (p. 1226)
- American Political Institutions (p. 1226)
- International Security Studies (p. 1226)

## Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. )

### Political Science, BA

The Bachelor of Arts in Political Science provides a set of introductory courses to the discipline, followed by methodology courses, electives, and a capstone course. Students explore and analyze the many facets of American government, comparative politics, international relations, and political philosophy. With elective courses, students may choose from among a number of concentrations or follow their own curricular path. At the college level the Bachelor of Arts includes a foreign language requirement.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Introduction to College

Complete "Introduction to College" for your major.

## Political Science Major Requirements

Code	Title	Hours
<b>Political Science Requirements</b>

## Africana Studies and Political Science, BA

The combined major in Africana studies and political science offers students the opportunity to integrate their studies of both disciplines and explore the historical, practical, and theoretical relationships between the two disciplines. In addition to considering the significant points of contention, students explore the ways in which insights from Africana studies can be brought to bear on the disciplinary issues and questions of political science. Within the combined major, students may also choose to concentrate their studies on a range of topics related to political behaviors and institutional developments in the United States, the Americas, Europe, Africa, and across the global African diaspora.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Africana Studies Requirements

## English and Political Science, BA

The Department of English and the Department of Political Science offer an interdisciplinary combined major in English and political science. Students in the combined major in English and political science integrate the study of literature and writing with the study of political issues and problems.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### English Requirements

Code	Title	Hours
<b>Foundational Courses</b>		
ENGL 1400	Introduction to Literary Studies	4
ENGL 1160	Introduction to Rhetoric	4
or ENGL 1410	Introduction to Research on Writing	

### English Electives

Two of the courses chosen from the lists below must be at the 3000 or 4000 level.

Code	Title	Hours
<b>Diversity</b>		

Complete one of the following. You may reuse this course to fulfil an additional English requirement below: 4

ENGL 2150 Literature and Digital Diversity

ENGL 2296 Early African-American Literature

ENGL 2451 Postcolonial Women Writers

ENGL 2455 American Women Writers

ENGL 2760 Writing in Global Contexts

ENGL 2470 Asian-American Literature

ENGL 3663 The African American Novel

ENGL 3678 Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity

ENGL 3685 Modern and Contemporary Jewish Literature

### Pre-19th-Century Literature

Complete one of the following: 4

ENGL 1600 Introduction to Shakespeare

ENGL 1700 Global Literatures 1

ENGL 2296 Early African-American Literature

ENGL 3101 Early Literatures

ENGL 3120 17th- and 18th-Century Literatures

ENGL 3618 Milton

ENGL 3678 Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity

or JWSS 3678 Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity

### 19th-, 20th-, 21st-Century Literature

Complete one of the following: 4

#### 19th Century

ENGL 2330 The American Renaissance

#### 20th/21st Century

ENGL 2301 The Graphic Novel

ENGL 2440 The Modern Bestseller

ENGL 2600 Irish Literary Culture (Abroad)

ENGL 2610 Contemporary Israeli Literature and Art (Abroad)

ENGL 3140 19th-Century Literatures

ENGL 3619 Emerson and Thoreau

ENGL 3685 Modern and Contemporary Jewish Literature

or JWSS 3685 Modern and Contemporary Jewish Literature

ENGL 3720 19th-Century Major Figure

ENGL 3730 20th- and 21st-Century Major Figure

### Theories and Methods

Complete one of the following: 4

ENGL 1140 Grammar: The Architecture of English

ENGL 1160 Introduction to Rhetoric

ENGL 1410 Introduction to Research on Writing

ENGL 2150	Literature and Digital Diversity
ENGL 3325	Rhetoric of Law
ENGL 3340	Technologies of Text
ENGL 3370	Writing Cultures
ENGL 3381	The Practice and Theory of Teaching Writing
ENGL 3400	Opening the Archive
ENGL 3700	Narrative Medicine
ENGL 4410	Research in Rhetoric and Writing
LING 1150	Introduction to Language and Linguistics
LING 2350	Linguistic Analysis
LING 3450	Syntax
LING 3452	Semantics
LING 3454	History of English
LING 3456	Language and Gender
LING 3458	Topics in Linguistics

**Comparative Literature Course**

Complete one of the following: 4

ENGL 1450	Reading and Writing in the Digital Age
ENGL 1500	British Literature to 1800
ENGL 1502	American Literature to 1865
ENGL 2150	Literature and Digital Diversity
ENGL 2420	Contemporary Poetry
ENGL 2430	Contemporary Fiction
ENGL 2451	Postcolonial Women Writers
ENGL 2455	American Women Writers
ENGL 2470	Asian-American Literature
ENGL 2510	Horror Fiction
ENGL 2520	Science Fiction
ENGL 2600	Irish Literary Culture (Abroad)
ENGL 2620	What Is Nature?
ENGL 2690	Boston in Literature
ENGL 3487	Film and Text (Abroad)
ENGL 3663	The African American Novel

**Writing**

Complete one of the following: 4

ENGL 2700	Creative Writing
ENGL 2710	Style and Editing
ENGL 2740	Writing and Community Engagement
ENGL 2760	Writing in Global Contexts
ENGL 2770	Writing to Heal
ENGL 2780	Visual Writing: Writing Visuals
ENGL 2850	Writing for Social Media: Theory and Practice
ENGL 3375	Writing Boston
ENGL 3376	Creative Nonfiction
ENGL 3377	Poetry Workshop
ENGL 3378	Fiction Workshop
ENGL 3380	Writing Seminar
ENGL 3382	Publishing in the 21st Century
ENGL 3384	The Writer's Marketplace

**English Electives**

Complete two English courses not used above. 8

**Political Science Requirements**

Code	Title	Hours
<b>Foundational Courses</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4

**Environmental Studies and Political Science, BA**

In this combined major, successful undergraduates will develop an awareness of the scientific, cultural, societal, and political aspects of the world's environmental problems through the lens of geopolitical decisions, public policy, and environmental regulations. Due to overlap in course content, students majoring in Environmental Studies or any Environmental Studies combined majors may not complete a minor in Environmental and Sustainability Sciences.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses

where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Environmental Studies Requirements

<sup>1</sup> Earth and Environmental Science Capstone (ENVR 4900 (<https://northeastern-test.courseleaf.com/search/?P=ENVR%204900>)) is also an option to fulfill the capstone requirement of this program. Students who completes 1 SH ENVR 4900 must still complete a minimum of 128 SH to meet degree requirements.

**History and Political Science, BA**

The Department of History and the Department of Political Science offer an interdisciplinary combined major in history and political science. Students interested in the combined major integrate the study of political systems and theories with the study and analysis of human history.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**History Major Requirements**

Code	Title	Hours
<b>History Colloquium</b>		
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
<b>Introductory Level Course</b>		
Complete one course from HIST 1000 levels, excluding HIST 1200 and HIST 1201		4
<b>History Seminar and Historical Writing</b>		
HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1
<b>Pre-1800 History Elective</b>		
Complete one of the following:		4
HIST 1185	Introduction to Middle Eastern History

## Journalism and Political Science, BA

This interdisciplinary combined major offers students an opportunity to integrate the study and practice of journalism and political science. Successful students will gain a deep understanding of both disciplines,

allowing them to seek out areas such as political writing, campaigns, and law school.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Creative Expression/Innovation (CI), Interpreting Culture (IC), Understanding Societies and Institutions (SI), Analyzing and Using Data (AD), Engaging Difference and Diversity (DD), and Employing Ethical Reasoning (ER) are met through the major requirements. All other Nupath requirements must be met through electives.

## Journalism Major Requirements

Code	Title	Hours
<b>Journalism Introductory Course</b>		
JRNL 1150	Understanding Today's News	4
<b>Journalism Foundations</b>		
Must receive a C or better in the following:		
JRNL 1101 and JRNL 1102	Journalism 1: Fundamentals of Reporting and Journalist's Toolbox	5
JRNL 2201	Journalism 2: Intermediate Reporting	4
JRNL 2301	Visual Storytelling in Journalism	4
JRNL 3610	Digital Storytelling and Social Media	4
<b>Ethics</b>		
JRNL 4650	Ethics and Issues in Journalism	4
<b>Journalism Electives</b>		
Take three JRNL courses.		12

## Political Science Requirements

Code	Title	Hours
<b>Political Science Foundation Courses</b>		
POLS 1150	American Government	4

**Political Science and Communication Studies, BA**

The combined major in political science and communication studies offers students the opportunity to integrate the study of politics and government with different forms and mediums of communication. Students complete the core courses in political science along with core courses in communication studies that cover public speaking and persuasion. This combined major highlights the important role played by different forms of communication in shaping politics and government.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Political Science Requirements

Code	Title	Hours
<b>Core Courses in Political Science</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4

**Media and Screen Studies and Political Science, BA**

The Media and Screen Studies Program and the Department of Political Science offer a combined major in media and screen studies and political science. The combined major integrates the analysis, research, and production of traditional and emerging media along with courses on American government, comparative politics, international relations, and research methods.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), Analyzing and Using Data (AD), and Ethical Reasoning (ER) are met through the major course requirements.

NUpath requirements Creative Expression/Innovation (EI) and Difference and Diversity (DD) may be met through electives in the major.

NUpath requirements Natural and Designed World (ND) and Formal and Quantitative Reasoning (FQ) must be met through general electives.

## Media Studies Requirements

Code	Title	Hours
<b>Media and Screen Studies Common Requirements</b>		
MSCR 1220	Media, Culture, and Society	4
MSCR 1320	Media and Social Change	4
or MSCR 1420	Media History	
<b>Foundation Course</b>		
Complete one of the following:		4
MSCR 1230	Introduction to Film Production	
MSCR 2220	Understanding Media	
<b>Diversity or Globalization Course</b>		
Complete one of the following:		4
MSCR 2325	Global Media	
MSCR 2505	Digital Feminisms	
MSCR 3392	Gender and Film	
MSCR 3437	Media and Identity	
<b>Writing-Intensive</b>		
Complete two of the following:		8
MSCR 2505	Digital Feminisms	
MSCR 3420	Digital Media Culture	
MSCR 3422	Media Audiences	
MSCR 3600	Film Theory	
MSCR 3700	Queer Media	
MSCR 4208	TV History	

## Media and Screen Studies Electives

Code	Title	Hours
Complete three courses from MSCR or from the following (NUpath capstone recommendation: Complete MSCR 4623 as one of your MSCR electives if a political science capstone is not taken for a political science elective):		12
ARTD 2380	Video Basics	
ARTD 3480	Video: Sound and Image	
ARTD 3485	Experimental Video	
COMM 1450	Sound Production for Digital Media	
COMM 2550	Television Field Production	

COMM 2655	Television Studio Production
COMM 3655	Digital Editing for TV
COMM 3750	Special Effects and Postproduction for Television
COMM 4755	Production Capstone

## Political Science Requirements

Code	Title	Hours
<b>Required Courses</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2400	Quantitative Techniques	4
<b>Political Thought</b>		
Complete one of the following:		4
POLS 2325	Ancient Philosophy and Political Thought	
POLS 2328	Modern Political Thought	
POLS 2330	American Political Thought	
POLS 2332	Contemporary Political Thought	
<b>Politics in Media/Art</b>		
Complete two courses. Consult academic adviser for additional courses.		8
POLS 2368	Music and Politics in America and Abroad	

## Elective Courses

Complete two POLS courses or complete a concentration.	8
NUpath capstone recommendation: Complete a POLS capstone course as one of your POLS electives if MSCR 4623 is not taken for a MSCR elective.	

## Political Science Concentration (Optional)

If you are working toward one of the following concentrations, declare it with your adviser so that it may be added to your record.

- American Political Institutions (p. 159)
- Campaigns and Elections (p. 159)
- Comparative Politics (p. 159)
- Identity, Culture, and Politics (p. 159)
- International Relations and Diplomacy (p. 159)
- Law and Legal Studies (p. 159)
- Public Policy (p. 159)
- Security Studies (p. 160)

## Integrative Requirements

Code	Title	Hours
<b>Required Courses</b>		
MSCR 3437	Media and Identity	4
or COMM 3320	Political Communication	
POLS 3320	Politics and Mass Media	4

## Media and Screen Studies Grade Requirement

No more than two grades below a C in media and screen studies courses may be used to satisfy degree requirements

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Political Science and Economics, BA**

The combined major in political science and economics offers students the opportunity to integrate the study of politics and government with the study of economics. Students complete the core courses in political science along with core courses in economics that cover both macroeconomic and microeconomic perspectives. This combined major highlights the important role that the economy plays in shaping politics and government.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUPath Requirements**

All undergraduate students are required to complete the NUPath Requirements (p. 46).

**Political Science Requirements**

Code	Title	Hours
<b>Political Science Requirements</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
<b>Political Theory</b>		
Complete one of the following: 4		
POLS 2330	American Political Thought	
POLS 2325	Ancient Philosophy and Political Thought	
POLS 2328	Modern Political Thought	
POLS 2332	Contemporary Political Thought	
<b>Political Science Electives</b>		
Complete four courses POLS2000 to POLS5999		16

## Political Science Concentrations (Optional)

If you are working toward one of the following concentrations, declare it with your advisor so that it may be added to your record. Requirements for the concentrations are listed below.

- American Political Institutions (p. 911)
- Campaigns and Elections (p. 911)
- Comparative Politics (p. 911)
- Identity, Culture, and Politics (p. 911)
- International Relations and Diplomacy (p. 912)
- Law and Legal Studies (p. 912)
- Public Policy (p. 912)
- Security Studies (p. 912)

## Economics Requirements for BA

Code	Title	Hours
<b>Breadth Courses</b>		
MATH 1231 or MATH 1241 or MATH 1245 or MATH 1251 or MATH 1340 or MATH 1341	Calculus for Business and Economics Calculus 1 Calculus with Applications Calculus and Differential Equations for Biology 1 Intensive Calculus for Engineers Calculus 1 for Science and Engineering	4
CS 1100 or DS 2000 and DS 2001 or MISM 2510	Computer Science and Its Applications Programming with Data and Data Science Programming Practicum Fundamentals of Information Analytics	4

### Required Economics Courses

ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 3520	History of Economic Thought	4

### Economics Electives

Complete 3 Economics elective courses that are found in the following ranges, with no more than 1 in the ECON 1200 to ECON 1999 range. Additionally, ECON 3520 may not be used as an Economics elective:

ECON 1200 to ECON 1999
ECON 3000 to ECON 4689
ECON 4900 to ECON 4999
ECON 5200 to ECON 5999

## Supporting Courses

Complete either of the statistics and departmental elective combinations listed below:

### COMBINATION A

Code	Title	Hours
<b>Statistics</b>		
POLS 2400	Quantitative Techniques	4
<b>Economics</b>		
Complete one course within the following ranges, excluding ECON 3520. This course may not also be used as an Economics elective:		4
ECON 1200 to ECON 1999		
ECON 3000 to ECON 4689		

ECON 4900 to ECON 4999

ECON 5200 to ECON 5999

### COMBINATION B

Code	Title	Hours
<b>Statistics</b>		
ECON 2350	Statistics	4
<b>Political Science</b>		
Complete one course in the following range:		4
POLS 2401 to POLS 5999		

## Integrative Requirements

Code	Title	Hours
<b>Senior Seminar/Capstone</b>		
Complete one of the following:		4
ECON 4692	Senior Economics Seminar	
POLS 4701	Political Science Senior Capstone	
POLS 4703	Senior Thesis	

## Combined Major GPA/Credit Requirement

Grades in the following required Economics courses and in Quantitative Techniques (POLS 2400) or Statistics (ECON 2350) must average to a minimum of C (2.000):

Code	Title	Hours
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
or POLS 2400		Quantitative Techniques

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirement

128 total semester hours required

## Political Science and Human Services, BA

The combined degree is designed to prepare students with skills and tools to advocate for social issues at all levels of society. Human services program students prepare for fields in the social change arena (nongovernment organizations [NGOs], counseling, and political advocacy). Political science students prepare to change and shape the domestic and international political landscape in American politics, comparative politics, international relations, and public policy. Students engage in an integrated educational program that emphasizes experiential approaches to learning through service-learning, co-op,

internship, and study-abroad opportunities. Upon completion of the degree, successful students apply professional skills in counseling roles, nonprofit management, political advocacy, or organizational and community development. Successful students are positioned to pursue law school, graduate school, careers in government and the nonprofit sector, as well as in teaching, journalism, legislative or lobbying positions, public relations activities, and work in international corporations and NGOs.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Political Science Requirements

Code	Title	Hours
<b>Core Courses in Political Science</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2400	Quantitative Techniques	4
<b>Political Thought</b>		
Complete one of the following:		4
POLS 2325	Ancient Philosophy and Political Thought	
POLS 2328	Modern Political Thought	
POLS 2330	American Political Thought	
POLS 2332	Contemporary Political Thought	
<b>Political Science Electives</b>		
Complete three courses in the following range:		12
POLS 2000 to POLS 5999		

### Political Science Concentrations (Optional)

If you are working toward one of the following concentrations, declare it with your advisor so that it may be added to your record.

- American Political Institutions (p. 1015)
- Campaigns and Elections (p. 1015)
- Comparative Politics (p. 1016)
- Identity, Culture, and Politics (p. 1016)
- International Relations and Diplomacy (p. 1016)
- Law and Legal Studies (p. 1016)
- Public Policy (p. 1016)
- Security Studies (p. 1016)

**Supporting Course for Political Science**

Code	Title	Hours
<b>Mathematics</b>		
Complete one of the following to fulfill the prerequisite for POLS 2400:		4
MATH 1213	Interactive Mathematics	
MATH 1215	Mathematical Thinking	
MATH 1231	Calculus for Business and Economics	
MATH 1241	Calculus 1

## Political Science and International Affairs, BA

Through this combined major, successful undergraduates will develop an awareness of global affairs and international relations since the early 20th century. The combined major addresses diverse and cross-disciplinary theories of interstate relations (conflict, cooperation, hierarchies); civil society, transnational advocacy networks, global social movements; political processes, institutions, and actors; and state-society relations (democracy, authoritarianism, inequalities, citizenship).

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Political Science Requirements

Code	Title	Hours
<b>Political Science Requirements</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2400	Quantitative Techniques	4
<b>Political Theory</b>		
Complete one of the following:		4
POLS 2325	Ancient Philosophy and Political Thought	
POLS 2328	Modern Political Thought	
POLS 2330	American Political Thought	
POLS 2332	Contemporary Political Thought	

### Political Science Electives/Concentration for BA

Complete four upper-division political science electives, or complete one of the following concentrations. If you are working toward a concentration, declare it with your adviser in order for it to be added to your record.

Code	Title	Hours
<b>Political Science Electives</b>		
Complete four political science courses at or above POLS 2000.		16
<ul style="list-style-type: none"> <li>American Political Institutions (p. 1082)</li> <li>Campaigns and Elections (p. 1082)</li> <li>Comparative Politics (p. 1082)</li> <li>Identity, Culture, and Politics (p. 1082)</li> <li>International Relations and Diplomacy (p. 1082)</li> <li>Law and Legal Studies (p. 1083)</li> <li>Public Policy (p. 1083)</li> <li>Security Studies (p. 1083)</li> </ul>		

### International Affairs Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. See department for additional courses.

Code	Title	Hours
<b>Required Courses</b>		
INTL 1101	Globalization and International Affairs	4
INTL 3400	International Conflict and Negotiation	4
HIST 2211	The World Since 1945	4
or HIST 2311	Colonialism/Imperialism	
ECON 1115	Principles of Macroeconomics	4
or ECON 1116	Principles of Microeconomics	

### International Experiential Learning

Complete at least one "international semester" via study abroad, international internship, international co-op, or two short-term programs.

**International Relations Elective**

Code	Title	Hours
Complete one of the following courses:		4

Code	Title	Hours

**Political Science and Philosophy, BA**

The combined major in political science and philosophy enables students to develop an integrated understanding of politics, political theory, ethical theory, and theories of justice. Successful students who complete the major will have the training to critically evaluate and assess public policies and social issues on both political and ethical grounds, including issues such as tax policy, immigration, environmental protection, trade policy, healthcare, education, defense policy, and much more.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Political Science Requirements**

Code	Title	Hours
<b>Core Courses in Political Science</b>

**Sociology and Political Science, BA**

The combined major in sociology and political science offers students the opportunity to integrate the study of politics and government with an analysis of social systems. Students complete core courses in political science along with core courses in sociology that include social theory and an introduction to social systems. This combined major highlights the important intersection between social norms and organizations with the evolution of politics and government.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUPath Requirements**

All undergraduate students are required to complete the NUPath Requirements (p. 46).

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Sociology Requirements**

Code	Title	Hours
<b>Sociology Required Courses</b>		
SOCL 1101	Introduction to Sociology	4

Complete four of the following:		16
POLS 3408	International Security	
POLS 3420	U.S. National Security Policy	
POLS 3423	Terrorism and Counterterrorism	
POLS 3425	U.S. Foreign Policy	
POLS 3430	Revolution, Civil War, and Insurrection	
POLS 3470	Arab-Israeli Conflict	
POLS 3487	Politics of Developing Nations	

**Political Science, BS**

The Bachelor of Science in Political Science provides a set of introductory courses to the discipline, followed by methodology courses, electives, and a capstone course. Students explore and analyze the many facets of American government, comparative politics, international relations, and political philosophy. With elective courses, students may choose from among a number of concentrations or follow their own curricular path.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Introduction to College**

Complete "Introduction to College" for your major.

**Political Science Major Requirements**

Code	Title	Hours
<b>Political Science Requirements</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2399	Research Methods in Political Science	4
POLS 2400	Quantitative Techniques	4
<b>Political Theory</b>		
Complete one of the following:		4
POLS 2325	Ancient Philosophy and Political Thought	
POLS 2330	American Political Thought	
POLS 2328	Modern Political Thought	
POLS 2332	Contemporary Political Thought	
<b>Political Science Capstone</b>		
POLS 4701 or POLS 4703	Political Science Senior Capstone Senior Thesis	4

**Political Science Experiential Learning Requirement**

Code	Title	Hours
Note: Up to two credit-bearing courses count toward political science electives.		
Complete one course or experience from the following:		4
POLS 4910	Model United Nations	
POLS 4915	Model Arab League	
POLS 4918	Model NATO	
POLS 4942	Internship in Politics	
<b>Co-op or Study Abroad</b>		
Complete one cooperative education experience or one study-abroad experience.		4

**Political Science Electives**

Note: You may use four courses from the elective area to fulfill a concentration.

Code	Title	Hours
Complete eight political science electives with a minimum of six numbered 2000 or above.		32

**Political Science Concentrations (Optional)**

If you are working toward one of the following concentrations, declare it with your adviser so that it may be added to your record. Requirements for the concentrations are listed below (p. 1199).

- American Political Institutions (p. 1199)
- Campaigns and Elections (p. 1199)

- Comparative Politics (p. 1199)
- Identity, Culture, and Politics (p. 1199)
- International Relations and Diplomacy (p. 1199)
- Law and Legal Studies (p. 1199)
- Public Policy (p. 1200)
- Security Studies (p. 1200)

## Political Science Major Credit Requirement

Complete 60 semester hours in the major.

## Upper-Division Electives

Code	Title	Hours
Note: Courses used as upper-division electives do not count toward the major or the NU Core.		
Complete three general electives numbered 3000 or above.		12

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirements

128 total semester hours required

## Concentrations

### CONCENTRATION IN AMERICAN POLITICAL INSTITUTIONS

Code	Title	Hours
Complete four of the following:		
POLS 2350	State and Local Politics	16
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3307	Public Policy and Administration	
POLS 3310	Public Opinion, Voting, and Elections	
POLS 3160	Campaign Strategy	

### CONCENTRATION IN CAMPAIGNS AND ELECTIONS

Code	Title	Hours
<b>Required Courses</b>		
POLS 3160	Campaign Strategy	4
POLS 3302	Judicial Process and Behavior	4
<b>Campaigns and Elections Electives</b>		
If POLS 4947 was replaced by a co-op or internship, an additional elective must be taken.		
Complete two of the following:		8
POLS 2345	Urban Policies and Politics	
POLS 2350	State and Local Politics	
POLS 2355	Intergovernmental Relations	
POLS 3310	Public Opinion, Voting, and Elections	
POLS 3320	Politics and Mass Media	
POLS 3304	Presidential Nominating Process	

### CONCENTRATION IN COMPARATIVE POLITICS

Code	Title	Hours
<b>Theoretical Requirement</b>		
Complete one of the following:		4

POLS 2370	Religion and Politics
POLS 3418	Nationalism
POLS 3430	Revolution, Civil War, and Insurrection
POLS 3487	Politics of Developing Nations

### Regional Requirements

Complete two of the following:		8
POLS 3435	Politics and Governance of Europe and the European Union	
POLS 3465	Government and Politics in the Middle East	
POLS 3470	Arab-Israeli Conflict	

### Experiential/Practicum Requirement

Complete one of the following:		4
POLS 4915	Model Arab League	
POLS 4918	Model NATO	
POLS 4937	Dialogue of Civilizations: Government and Politics Abroad	

## CONCENTRATION IN IDENTITY, CULTURE, AND POLITICS

## Biology and Political Science, BS

In the BS, combined biology and political science degree program, science courses lay the groundwork for strong basic training in mathematics, chemistry, and physics that are relevant to biology. In biology courses, students broadly explore the organization and processes of life—from molecules and cells through organs and organ systems to populations, ecosystems, and evolution. In political science courses, students pursue core concepts of American government, comparative politics, international relations and political thought. Coursework in quantitative techniques is also required. Students choose from a range of advanced subject electives. An appreciation of the intersection of biology and political science is provided through advanced courses in science, technology and public policy, and in environmental politics and policy.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Biology Requirements

## Computer Science and Political Science, BS

The computer science and political science combined major offers both a strong computer science foundation and a deep understanding of global and societal needs. You will become an engaged citizen of the world, participating in interdisciplinary scholarship and translational research to address regional and global issues.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Computer Science Courses

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1
<b>Computer Science Fundamental Courses</b>		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
<b>Computer Science Required Courses</b>		
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
IS 2000	Principles of Information Science	4
<b>Khoury Elective Courses</b>		
With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.		
Complete 12 credits of upper-division CS, CY, DS, or IS courses that are not already required. Choose courses within the following ranges:		12
CS 2500 or higher, except CS 5010		
CY 2000 or higher, except CY 4930		
DS 2500 or higher, except DS 4900		
IS 2000 or higher, except IS 4900		

### Political Science Courses

Code	Title	Hours
<b>Political Science Requirements</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2399	Research Methods in Political Science	4
POLS 2400	Quantitative Techniques	4
<b>Political Theory</b>		
Complete one of the following:		4
POLS 2325	Ancient Philosophy and Political Thought	
POLS 2328	Modern Political Thought	
POLS 2330	American Political Thought	
POLS 2332	Contemporary Political Thought	
<b>Political Science Capstone</b>		
POLS 4701	Political Science Senior Capstone	4
<b>Political Science Electives</b>		
Complete four courses in the following range:		16
POLS 2000 to POLS 5999		

### Political Science Concentrations (Optional)

If you are working toward one of the following concentrations, declare it with your adviser so that it may be added to your record.

- American Political Institutions (p. 383)
- Campaigns and Elections (p. 383)
- Comparative Politics (p. 383)
- Identity, Culture, and Politics (p. 383)
- International Relations and Diplomacy (p. 383)
- Law and Legal Studies (p. 383)
- Public Policy (p. 384)
- Security Studies (p. 384)

### Integrative Requirement

Code	Title	Hours
<b>Integrative Requirement</b>		
Complete one of the following:		4
POLS 2390	Science, Technology, and Public Policy	
POLS 3405	International Political Economy	
POLS 3406	International Law	
POLS 3408	International Security	

### Supporting Courses

Code	Title	Hours
<b>Supporting Courses</b>		
Complete one of the following:		4
AFAM 2600	Issues in Race, Science, and Technology	
CY 4170	The Law, Ethics, and Policy of Data and Digital Technologies	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
ENGL 2150	Literature and Digital Diversity	
HIST 2220	History of Technology	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	

IS 1300	Knowledge in a Digital World
or PHIL 1300	Knowledge in a Digital World
PHIL 1145	Technology and Human Values
SOCL 1280	The Twenty-First-Century Workplace
SOCL 2485	Environment, Technology, and Society
SOCL 4528	Computers and Society

### Computer Science Writing Requirement

Code	Title	Hours
------	-------	-------

#### College Writing

ENGW 1111	First-Year Writing	4
or ENGW 1102	First-Year Writing for Multilingual Writers	

#### Advanced Writing in the Disciplines

Complete one of the following: 4

ENGW 3302	Advanced Writing in the Technical Professions	
ENGW 3308	Advanced Writing in the Social Sciences	
ENGW 3311	Advanced Writing for Prelaw	
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

### Required General Electives

Code	Title	Hours
Complete 28 credits of general electives.		28

### Khoury College GPA Requirement

Minimum 2.000 GPA required in all CS, CY, DS, and IS courses

### Computer Science and Political Science Major Credit Requirement

100 semester hours required in the major

### NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year
- Writing-Intensive in the Major
- Advanced Writing in the Disciplines
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

133 total semester hours required

### CONCENTRATION IN AMERICAN POLITICAL INSTITUTIONS

Code	Title	Hours
Complete four of the following: 16		
POLS 2350	State and Local Politics	
POLS 3300	The U.S. Congress

POLS 3307	Public Policy and Administration	
POLS 3310	Public Opinion, Voting, and Elections	
POLS 3160	Campaign Strategy	

### CONCENTRATION IN CAMPAIGNS AND ELECTIONS

Code	Title	Hours
<b>Required Courses</b>		
POLS 3160	Campaign Strategy	4
POLS 3302	Judicial Process and Behavior	4

#### Campaigns and Elections Electives

If POLS 4947 was replaced by a co-op or internship, an additional elective must be taken.

Code	Title	Hours
Complete two of the following: 8		
POLS 2345	Urban Policies and Politics	
POLS 2350	State and Local Politics	
POLS 2355	Intergovernmental Relations	
POLS 3310	Public Opinion, Voting, and Elections	
POLS 3320	Politics and Mass Media	
POLS 3304	Presidential Nominating Process	

### CONCENTRATION IN COMPARATIVE POLITICS

Code	Title	Hours
<b>Theoretical Requirement</b>		
Complete one of the following: 4		
POLS 2370	Religion and Politics	
POLS 3418	Nationalism	
POLS 3430	Revolution, Civil War, and Insurrection	
POLS 3487	Politics of Developing Nations	

#### Regional Requirements

Code	Title	Hours
Complete two of the following: 8		
POLS 3435	Politics and Governance of Europe and the European Union	
POLS 3465	Government and Politics in the Middle East	
POLS 3470	Arab-Israeli Conflict	

#### Experiential/Practicum Requirement

Code	Title	Hours
Complete one of the following: 4		
POLS 4915	Model Arab League	
POLS 4918	Model NATO	
POLS 4937	Dialogue of Civilizations: Government and Politics Abroad	

### CONCENTRATION IN IDENTITY, CULTURE, AND POLITICS

Code	Title	Hours
<b>Core Course</b>		
POLS 3418	Nationalism	4
<b>Electives</b>		
Complete three of the following: 12		

POLS 2368	Music and Politics in America and Abroad
POLS 2370	Religion and Politics
POLS 2375	Gender and Politics
POLS 3309	Lesbian, Gay, Bisexual, and Transgender Issues in Public Policy
POLS 3324	Law and Society

**CONCENTRATION IN INTERNATIONAL RELATIONS AND DIPLOMACY**

Code	Title	Hours
<b>Experiential/Practicum Requirement</b>		
Complete one of the following:		4
POLS 4910	Model United Nations	
POLS 4915	Model Arab League	
POLS 4938	Dialogue of Civilizations: International Politics Abroad	

**Core Courses**

Complete three of the following:		12
POLS 3405	International Political Economy	
POLS 3406	International Law	
POLS 3408	International Security	
POLS 3435	Politics and Governance of Europe and the European Union	
POLS 3470	Arab-Israeli Conflict	

**CONCENTRATION IN LAW AND LEGAL STUDIES**

Code	Title	Hours
Complete four of the following:		16
POLS 2330	American Political Thought	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3324	Law and Society	
POLS 3406	International Law	
POLS 3409	Global Governance	
POLS 4500	U.S. Constitutional Law	
POLS 4505	U.S. Civil Liberties	

**CONCENTRATION IN PUBLIC POLICY**

Code	Title	Hours
<b>Core Requirement</b>		
POLS 3307	Public Policy and Administration	4
<b>Electives</b>		
Complete three of the following:		12
POLS 2335	Budgeting and Taxation	
POLS 2340	Business and Government	
POLS 2345	Urban Policies and Politics	
POLS 2350	State and Local Politics	
POLS 2357	Growth and Decline of Cities and Suburbs

## Criminal Justice and Political Science, BS

This combined major educates students in criminal justice and political science and in the interface between the two disciplines. The scope and sequence of political science courses provide students with a foundation in topics such as American government, comparative politics, international relations, and security and resilience. Criminal justice courses provide a foundation for understanding individual and systemic aspects of criminology and criminal justice. Students completing this program should be able to understand the relationships between the fields as they relate to understanding and addressing criminal behavior.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Criminal Justice Requirements

Code	Title	Hours
<b>Introduction to Crime, Law, and the Justice System</b>		
	What do we know about crime and justice? In these three courses, students have an opportunity to develop a foundational understanding of three related phenomena: why crime exists, how our criminal justice system responds to crime, and the constitutional and legal oversight of this process.	
CRIM 1100	Introduction to Criminal Justice	4
CRIM 1110	Criminal Due Process	4
CRIM 1120	Criminology	4
<b>Current Crime and Justice Issues</b>		
	These courses introduce students to topical issues related to crime and justice.	
	Complete one of the following:	4

CRIM 1300	The Death Penalty
CRIM 1400	Human Trafficking
CRIM 1500	Corruption, Integrity, and Accountability
CRIM 1700	Crime, Media, and Politics

**Understanding and Experiencing Criminal Justice Institutions and Systems**

How does justice work and for whom? These courses introduce students to the systems and institutions tasked with providing justice. Each includes experiential learning components in cooperation with local criminal justice institutions.

Complete one of the following: 4

CRIM 2310	Courts: The Third Branch of Government
CRIM 2320	Youth Crime and Justice
CRIM 2330	Punishment in the Age of Mass Incarceration
CRIM 2340	Corporate Security: Securing the Private Sector
CRIM 2350	Policing a Democratic Society

**Crime Problems**

The following courses provide students a deeper look at a range of crime problems.

Complete one of the following: 4

CRIM 3010	Criminal Violence
CRIM 3030	Global Criminology
CRIM 3040	Psychology of Crime
CRIM 3050	Organized Crime
CRIM 3060	Political Crime and Terrorism
CRIM 3070	Corporate and White-Collar Crime
CRIM 3540	Addiction and Recovery

**Systemic Issues**

A consideration of systemic issues facing the criminal justice system.

Complete one of the following: 4

CRIM 3110	Gender, Crime, and Justice
CRIM 3120	Race, Crime, and Justice

**Digital Skills**

Successful students develop digital skills and master digital tools useful for careers related to crime and justice. Students choose one of two courses (each has a required lab). The computer science course introduces students to spreadsheets and databases. The data science course introduces students to programming with data.

Complete one of the following (and the appropriate lab): 4 or 5

CS 1100 and CS 1101	Computer Science and Its Applications and Lab for CS 1100
DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum ((Social Science Practicum section))

**Political Science Requirements**

Code	Title	Hours
<b>Political Science Requirements</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4

POLS 1160	International Relations	4
-----------	-------------------------	---

**Political Theory**

Complete one of the following: 4

POLS 2325	Ancient Philosophy and Political Thought
POLS 2328	Modern Political Thought
POLS 2330	American Political Thought
POLS 2332	Contemporary Political Thought

**Research Methods and Electives**

Complete Option A, Option B, or Option C, below. *Note:* These options enable the student to take research methods courses (including statistics/quantitative techniques) as either CRIM courses or as POLS courses.

**OPTION A**

Code	Title	Hours
<i>Research Methods</i>		
CRIM 3600	Criminal Justice Research Methods	4
CRIM 3700	Analyzing and Using Data on Crime and Justice	4

*Criminal Justice Electives*

Complete two additional courses in the following range: 8

CRIM 3001 to CRIM 5999

*Political Science Electives*

Complete five courses in the following range: 20

POLS 2000 to POLS 5999

**OPTION B**

Code	Title	Hours
<i>Research Methods</i>		
POLS 2399	Research Methods in Political Science	4
POLS 2400	Quantitative Techniques	4

*Criminal Justice Electives*

Complete three additional courses in the following range: 12

CRIM 3001 to CRIM 5999

*Political Science Electives*

Complete four courses in the following range: 20

POLS 2000 to POLS 5999

**OPTION C**

Code	Title	Hours
<i>Research Methods</i>		
Complete one of the following sequences: 8		
CRIM 3600 and POLS 2400	Criminal Justice Research Methods and Quantitative Techniques	
CRIM 3700 and POLS 2399	Analyzing and Using Data on Crime and Justice and Research Methods in Political Science	

*Criminal Justice Electives*

Complete two additional courses in the following range: 8

CRIM 3001 to CRIM 5999

*Political Science Electives*

Complete four courses in the following range: 20

POLS 2000 to POLS 5999

## Political Science Concentrations (Optional)

If you are working toward one of the following concentrations, declare it with your advisor so that it may be added to your record. Requirements for the concentrations are listed below (p. 859).

- American Political Institutions (p. 859)
- Campaigns and Elections (p. 859)
- Comparative Politics (p. 859)
- Identity, Culture, and Politics (p. 859)
- International Relations and Diplomacy (p. 860)
- Law and Legal Studies (p. 860)
- Public Policy (p. 860)
- Security Studies (p. 860)

## Integrative Requirement

Code	Title	Hours
<b>Senior Capstone Requirement</b>		
CRIM 4949	Senior Capstone Seminar	4
or POLS 4701	Political Science Senior Capstone	
<b>Due Process</b>		
CRIM 1110	Criminal Due Process	4
<b>Integrative Elective Courses</b>		
Complete two of the following:		8
CRIM 1700	Crime, Media, and Politics	
CRIM 2310	Courts: The Third Branch of Government	
CRIM 4120	Courts and Sentencing	
POLS 3302	Judicial Process and Behavior	
POLS 3324	Law and Society	
POLS 4500	U.S. Constitutional Law	
POLS 4505	U.S. Civil Liberties	

## Combined Major Credit Requirement

Complete 84 semester hours in the major.

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirement

128 total semester hours required

## Political Science Concentrations (Optional)

### CONCENTRATION IN AMERICAN POLITICAL INSTITUTIONS

Code	Title	Hours
Complete four of the following:		16
POLS 2350	State and Local Politics	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior

POLS 3425	U.S. Foreign Policy	
POLS 3430	Revolution, Civil War, and Insurrection	

POLS 3470	Arab-Israeli Conflict
POLS 3487	Politics of Developing Nations

**Mathematics and Political Science, BS****Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Mathematics Requirements**

Code	Title	Hours
<b>Problem Solving</b>		
MATH 1365	Introduction to Mathematical Reasoning	4
<b>Calculus</b>		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
<b>Intermediate and Advanced Mathematics</b>		
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 2331	Linear Algebra	4
MATH 3081	Probability and Statistics	4
<b>Math Electives</b>		
Complete two courses in the following range that are not required in the requirements above:		8
MATH 30001 to MATH 5999		

**Political Science Requirements**

Code	Title	Hours
<b>Political Science Required Courses</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2399	Research Methods in Political Science	4
POLS 2400	Quantitative Techniques	4
<b>Political Thought</b>		
POLS 2325	Ancient Philosophy and Political Thought	4
POLS 2328	Modern Political Thought	4
POLS 2330	American Political Thought	4
POLS 2332	Contemporary Political Thought	4
<b>Political Science Electives</b>		
Complete three POLS courses numbered 2000 and above.		12

## Political Science Concentrations (Optional)

If you are working toward one of the following concentrations, declare it with your advisor so that it may be added to your record. Requirements for the concentrations are listed below.

- American Political Institutions (p. 749)
- Campaigns and Elections (p. 749)
- Comparative Politics (p. 749)
- Identity, Culture, and Politics (p. 750)
- International Relations and Diplomacy (p. 750)
- Law and Legal Studies (p. 750)
- Public Policy (p. 750)
- Security Studies (p. 750)

## Integrative Requirement

Code	Title	Hours
POLS 3402		

## Mathematics and Political Science Combined-Major Credit Requirement

Complete 68 semester hours in the major.

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirement

128 total semester hours required

## Optional Political Science Concentrations

### CONCENTRATION IN AMERICAN POLITICAL INSTITUTIONS

**Political Science and Business Administration, BS**

The combined major in political science and business administration offers students the opportunity to integrate the study of politics and government with an analysis of business practices and organizations. Students complete core courses in political science along with core courses in business administration that cover accounting, finance, marketing, and organizational behavior. This combined major highlights the important intersection between business practices and the evolution of politics and government.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Political Science Requirements**

Code	Title	Hours
<b>Introduction to College</b>		
POLS 1000	Political Science at Northeastern	1
or BUSN 1102	Personal Skill Development for Business

## Political Science and Economics, BS

The combined major in political science and economics offers students the opportunity to integrate the study of politics and government with the study of economics. Students complete the core courses in political science along with core courses in economics that cover both macroeconomic and microeconomic perspectives. This combined major highlights the important role that the economy plays in shaping politics and government.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Political Science Requirements

Code	Title	Hours
<b>Political Science Requirements</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
<b>Political Theory</b>		
Complete one of the following:		4
POLS 2325	Ancient Philosophy and Political Thought	
POLS 2328	Modern Political Thought	
POLS 2330	American Political Thought	
POLS 2332	Contemporary Political Thought	
<b>Political Science Electives</b>		
Complete four courses from the following range, or complete a concentration as outlined below:		16
POLS 2000 to POLS 5999		

### Political Science Concentrations (Optional)

If you are working toward one of the following concentrations, declare it with your advisor so that it may be added to your record. Requirements for the concentrations are listed below (p. ).

- American Political Institutions (p. 930)
- Campaigns and Elections (p. 930)
- Comparative Politics (p. 931)
- Identity, Culture, and Politics (p. 931)
- International Relations and Diplomacy (p. 931)

- Law and Legal Studies (p. 931)
- Public Policy (p. 931)
- Security Studies (p. 931)

### Economics Requirements for BS

Code	Title	Hours
<b>Breadth Courses</b>		
CS 1100	Computer Science and Its Applications	4
or DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum	
or MISM 2510	Fundamentals of Information Analytics	
MATH 1231	Calculus for Business and Economics	4
or MATH 1241	Calculus 1	
or MATH 1245	Calculus with Applications	
or MATH 1251	Calculus and Differential Equations for Biology 1	
or MATH 1340	Intensive Calculus for Engineers	
or MATH 1341	Calculus 1 for Science and Engineering	
<b>Required Economics Courses</b>		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2560	Applied Econometrics	4
<b>Economics Electives</b>		
Complete 3 Economics elective courses found in the following ranges, with no more than 1 in the ECON 1200 to ECON 1999 range:		12
ECON 1200 to ECON 1999		
ECON 3000 to ECON 4689		
ECON 4900 to ECON 4999		
ECON 5200 to ECON 5999		

### Supporting Courses

Complete either of the statistics and departmental elective combinations listed below:

#### COMBINATION A

Code	Title	Hours
<b>Statistics</b>		
POLS 2400	Quantitative Techniques	4
<b>Economics</b>		
Complete one course from the following ranges. This course may not also be used as an Economics elective:		4
ECON 1200 to ECON 1999		
ECON 3000 to ECON 4689		
ECON 4900 to ECON 4999		
ECON 5200 to ECON 5999		

#### COMBINATION B

Code	Title	Hours
<b>Statistics</b>		
ECON 2350	Statistics	4
<b>Political Science</b>		
Complete one course in the following range:		4
POLS 2401 to POLS 5999		

**Integrative Requirements**

Code	Title	Hours
<b>Senior Seminar/Capstone</b>		
Complete one of the following:		4
ECON 4692	Senior Economics Seminar	
POLS 4701	Political Science Senior Capstone	
POLS 4703	Senior Thesis	

**Combined Major GPA/Credit Requirement:**

Grades in the following required Economics courses and in Quantitative Techniques (POLS 2400) or Statistics (ECON 2350) must average to a minimum of C (2.000):

Code	Title	Hours
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
or POLS 2400	Quantitative Techniques	
ECON 2560	Applied Econometrics	4

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Program Requirement**

128 total semester hours required.

**CONCENTRATION IN AMERICAN POLITICAL INSTITUTIONS**

Code	Title	Hours

**Political Science and Human Services, BS**

The combined degree seeks to prepare students with skills and tools to advocate for social issues at all levels of society. Human services program students are well positioned to pursue fields in the social change arena (nongovernment organizations, or NGOs; counseling; and political advocacy). Political science students are also well positioned to change and shape the domestic and international political landscape in American politics, comparative politics, international relations, and public policy. Students engage in an integrated educational program that emphasizes experiential approaches to learning through service-learning, co-op, internship, and study-abroad opportunities. Upon completion of the degree, students can apply professional skills in counseling roles, nonprofit management, political advocacy, or organizational and community development. Successful students are poised to pursue law school, graduate school, careers in government and the nonprofit sector, as well as in teaching, journalism, legislative or lobbying positions, public relations activities, and work in international corporations and NGOs.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Political Science Requirements

Code	Title	Hours
<b>Core Courses in Political Science</b>		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2400	Quantitative Techniques	4
<b>Political Thought</b>		
Complete one of the following:		4
POLS 2325	Ancient Philosophy and Political Thought	
POLS 2328	Modern Political Thought	
POLS 2330	American Political Thought	
POLS 2332	Contemporary Political Thought	
<b>Political Science Electives</b>		
Complete three courses in the following range:		12
POLS 2000 to POLS 5999		

## Political Science Concentrations (Optional)

If you are working toward one of the following concentrations, declare it with your advisor so that it may be added to your record:

- American Political Institutions (p. 1030)
- Campaigns and Elections (p. 1030)
- Comparative Politics (p. 1030)
- Identity, Culture, and Politics (p. 1030)
- International Relations and Diplomacy (p. 1031)
- Law and Legal Studies (p. 1031)
- Public Policy (p. 1031)
- Security Studies (p. 1031)

## Supporting Course for Political Science

Code	Title	Hours
<b>Mathematics</b>		
Complete one of the following to fulfill the prerequisite for POLS 2400:		4
MATH 1213	Interactive Mathematics	
MATH 1215	Mathematical Thinking	
MATH 1231	Calculus for Business and Economics	
MATH 1241	Calculus 1	

## Human Services Requirements

Code	Title	Hours

**Political Science and Philosophy, BS**

The combined major in political science and philosophy enables students to develop an integrated understanding of politics, political theory, ethical theory, and theories of justice. Students who complete the major will have the training to critically evaluate and assess public policies and social issues on both political and ethical grounds, including issues such as tax policy, immigration, environmental protection, trade policy, healthcare, education, defense policy, and much more.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

POLS 4505	U.S. Civil Liberties	

**GPA Requirement**

2.000 GPA required in the minor

**International Security Studies, Minor**

The international security studies minor introduces students to key concepts, practices, and perspectives in the study of international security. Students complete the introductory course in international relations as well as four other courses in political science that focus on various aspects of international security, including international law, international organizations, and U.S. security policy.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

*Note:* Political science majors and combined majors may not pursue the minor in international security studies.

**Required Core Courses**

Code	Title	Hours
POLS 1160	International Relations	4
POLS 3408	International Security	4
POLS 3420	U.S. National Security Policy	4

**Elective Courses**

Code	Title	Hours
Students may not count any of the courses toward more than one requirement.		
Complete two of the following:		8

ARMY 3503	American Military History
POLS 3406	International Law
POLS 3408	International Security
POLS 3420	U.S. National Security Policy
POLS 3425	U.S. Foreign Policy
POLS 3430	Revolution, Civil War, and Insurrection
POLS 3470	Arab-Israeli Conflict
POLS 3487	Politics of Developing Nations
POLS 4910	Model United Nations

## GPA Requirement

2.000 GPA required in the minor

## Sociology and Anthropology

Website (<http://www.northeastern.edu/socant/>)

### Liza Weinstein, PhD

Associate Professor of Sociology and Chair

[l.weinstein@northeastern.edu](mailto:l.weinstein@northeastern.edu)

### Department Information

900 Renaissance Park

617.373.2686

617.373.2688 (fax)

Sociology and cultural anthropology provide the critical perspective needed for studying the social and cultural arrangements in which people live, for understanding how societies function, for investigating the conditions under which people change their institutions, and for describing the modes and conditions of cooperation that make social life possible.

Courses in the program examine such areas as urbanization, the environment, health, globalization and human rights, gender and sexuality, social movements, the cultural underpinnings of science and technology, new media, and the comparative analysis of advanced capitalist societies. Many courses are directly relevant to majors in other fields, including economics, political science, philosophy, literature, criminal justice, and business.

The major in sociology or cultural anthropology seeks to prepare students for careers in public or private service, including such fields as law, teaching, social work, administration or management, and research.

Sociology and cultural anthropology both participate in a number of combined majors, which can be found listed under the Programs tab on this page.

## Academic Progression Standards

Same as university-wide standards described under "Academic Status (p. 27)."

## Programs

### Bachelor of Arts (BA)

- Sociology (p. 1227)
- Cultural Anthropology (p. 1229)
- Communication Studies and Sociology (p. 135)
- Cultural Anthropology and Philosophy (p. 1108)
- Cultural Anthropology and Religious Studies (p. 1109)
- Cultural Anthropology and Theatre (p. 244)

- English and Cultural Anthropology (p. 948)
- History and Cultural Anthropology (p. 982)
- Human Services and Sociology (p. 1017)
- International Affairs and Cultural Anthropology (p. 1061)
- Media and Screen Studies and Sociology (p. 160)
- Sociology and Cultural Anthropology (p. 1247)
- Sociology and Environmental Studies (p. 727)
- Sociology and International Affairs (p. 1084)
- Sociology and Philosophy (p. 1131)
- Sociology and Political Science (p. 1196)
- Sociology and Religious Studies (p. 1133)

## Bachelor of Science (BS)

- Sociology (p. 1259)
- Cultural Anthropology (p. 1261)
- Computer Science and Sociology (p. 385)
- Criminal Justice and Sociology (p. 861)
- Health Science and Sociology (p. 553)
- Human Services and Sociology (p. 1027)
- Linguistics and Cultural Anthropology (p. 679)
- Mathematics and Cultural Anthropology (p. 746)
- Mathematics and Sociology (p. 752)
- Sociology and Cultural Anthropology (p. 1274)

## Minors

- Cultural Anthropology (p. 1275)
- Science and Technology Studies (p. 1276)
- Sociology (p. 1276)

## Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. )

## Sociology, BA

Sociology is the scientific study of society. It begins with the premise that individuals are deeply affected by the social structures, institutions, and cultural milieus surrounding them. Sociology provides students with the conceptual tools to understand how various features of society, including inequalities based on race, class, or gender, affect its members. In so doing, sociology also provides conceptual tools that can be used to foster social change and the empowerment of historically marginalized groups.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Sociology Major Requirements

Code	Title	Hours
<b>Required Sociology</b>		
SOCL 1101	Introduction to Sociology	4
SOCL 2320	Statistical Analysis in Sociology	4
SOCL 2321	Research Methods in Sociology	4
SOCL 3300	Social Theory	4
<b>Cultural Anthropology</b>		
ANTH 2305	Global Markets and Local Culture	4

## Cultural Anthropology, BA

Anthropology is the holistic, cross-cultural study of humanity that explores the multiple ways humans live and create meaning in the world. At Northeastern University, the sociology and anthropology department specializes in **cultural anthropology** and **social anthropology**—the relationship of culture to the institutions, relationships, and practices of everyday life that make up social structures.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Cultural Anthropology Major Requirements

Code	Title	Hours
<b>Cultural Anthropology</b>		
ANTH 1101	Peoples and Cultures	4
ANTH 2305	Global Markets and Local Culture	4
ANTH 3421	Foundations of Anthropological Theory	4
ANTH 3410	Ethnographic Field Experience	4
ANTH 4600	Senior Seminar	4
SOCL 1101	Introduction to Sociology	4

#### Advanced Area Courses

Additional courses taken in this section may be used as electives.

Complete two of the following:	8	
ANTH 4350	Ethnography of Southeast Asia	
ANTH 4500	Latin American Society and Development	
ANTH 4505	Native North Americans	
ANTH 4510	Anthropology of Africa	
ANTH 4515	Culture and Politics in Modern India	

#### Anthropology Electives

Complete six ANTH courses. Two study-abroad courses may count toward this requirement with prior permission from the department. 24

#### Social Science Electives

Complete three social science courses from the following subject areas. Social science electives may not include music or art: AFRS, AFAM, CRIM, ECON, HUSV, HIST, INTL, LING, LPSC, POLS, PSYC, or SOCL. 12

<sup>1</sup> Students must choose between a one-semester senior project, which they would complete in the context of Senior Seminar (ANTH 4600), or a two-semester senior thesis, which would require them to also enroll in a fall-semester directed study.

### Cultural Anthropology Major Grade Requirement

A GPA of 2.000 across all major courses is required.

### Cultural Anthropology Major Credit Requirement

Complete 68 semester hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

128 total semester hours required

## Communication Studies and Sociology, BA

The communication studies department and the sociology department offer an interdisciplinary combined major in communication studies and sociology. The combined major integrates the study of communication skills and processes with the study of social behaviors.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Societies and Institutions (SI) and Ethical Reasoning (ER) are met through the major course requirements.

NUpath requirements Natural and Designed World (ND), Creative Expression/Innovation (EI), Interpreting Culture (IC), Formal and Quantitative Reasoning (FQ), Difference and Diversity (DD), and Analyzing and Using Data (AD) may be met through electives in the major.

## Communication Studies Requirements

## Cultural Anthropology and Philosophy, BA

The Department of Sociology and Anthropology and the Department of Philosophy and Religion offer an interdisciplinary combined major in sociology and philosophy. Students in the combined major integrate the study of culture and social structures with the study of social and political philosophy, ethics, and the philosophy of science. The combined major enables students to understand and appreciate cultural differences in human interaction, ways of knowing, and systems of logic and human classification.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Anthropology Requirements

Code	Title	Hours
<b>Foundation Courses</b>		
ANTH 1101	Peoples and Cultures	4
ANTH 2305	Global Markets and Local Culture	4
ANTH 3410	Ethnographic Field Experience	4
ANTH 3421	Foundations of Anthropological Theory	4
<b>Area Courses</b>		
Additional area courses taken may count as anthropology electives. Complete two of the following:		8
ANTH 4350	Ethnography of Southeast Asia	

ANTH 4500	Latin American Society and Development
ANTH 4505	Native North Americans
ANTH 4510	Anthropology of Africa
ANTH 4515	Culture and Politics in Modern India

**Capstone**

Students are expected to complete the following course in spring of their senior year:

ANTH 4600	Senior Seminar	4
-----------	----------------	---

**Electives**

Complete three 4-semester-hour courses in addition to the above requirements. One study-abroad course may also count toward this requirement with prior permission from the department. 12

**Philosophy Requirements**

Code	Title	Hours
<b>Required Courses</b>		
PHIL 1115	Introduction to Logic	4
PHIL 2325	Ancient Philosophy and Political Thought	4

**Cultural Anthropology and Religious Studies, BA**

The Department of Sociology and Anthropology and the Department of Philosophy and Religion offer an interdisciplinary combined major in anthropology and religious studies. Students in the combined major integrate the study of culture and social structures with the study of religious traditions and praxis.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Cultural Anthropology Requirements**

Code	Title	Hours
<b>Foundation Courses</b>		
ANTH 1101	Peoples and Cultures	4
ANTH 2305	Global Markets and Local Culture	4
ANTH 3410	Ethnographic Field Experience	4
ANTH 3421	Foundations of Anthropological Theory	4
<b>Area Courses</b>		

Additional area courses taken may count as anthropology electives. Complete two of the following: 8

ANTH 4350	Ethnography of Southeast Asia
ANTH 4500	Latin American Society and Development
ANTH 4505	Native North Americans
ANTH 4510	Anthropology of Africa
ANTH 4515	Culture and Politics in Modern India

**Capstone**

Students are expected to complete the following course in spring of their senior year:

ANTH 4600	Senior Seminar	4
-----------	----------------	---

**Electives**

Complete three 4-semester-hour courses in addition to the above requirements. One study-abroad course may also count toward this requirement with prior permission from the department. 12

**Religion Requirements**

Code	Title	Hours
<b>Required Foundational Course</b>		
PHIL 1110	Introduction to Religious Studies	4
<b>Lived Religion Electives</b>		
Complete one of the following courses that is not used to satisfy another requirement: 4		
PHIL 1133	Selling Spirituality	
PHIL 1220	The Meaning of Death	
PHIL 1260	Apocalypticism in Film	
PHIL 1271	Sex in Judaism, Christianity, and Islam

## Cultural Anthropology and Theatre, BA

This major is designed for students who want to combine a knowledge of the art of theatre, including performance, design, and production, with sociocultural theories and conceptual frameworks for understanding human behavior. It offers both classroom and experiential learning in the practice of making theatre and performance theories with cross-cultural approaches. Offers students the opportunity to develop an understanding of theatre's impact on past and present cultures, as well as a deeper awareness of the world in which they live.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Anthropology Requirements

Code	Title	Hours
<b>Foundation Courses</b>		
ANTH 1101	Peoples and Cultures	4
ANTH 2305	Global Markets and Local Culture	4
ANTH 3421	Foundations of Anthropological Theory	4
ANTH 3410	Ethnographic Field Experience	4
<b>Advanced Area Courses</b>		
Complete two of the following:		
ANTH 4350	Ethnography of Southeast Asia	
ANTH 4500	Latin American Society and Development	
ANTH 4505	Native North Americans	
ANTH 4510	Anthropology of Africa	
ANTH 4515	Culture and Politics in Modern India	

### Anthropology Electives

Complete three courses in the following range. Two study-abroad courses may count toward this requirement with prior permission from the department: 12

ANTH 2300 to ANTH 4999

### Social Science Electives

Complete three social science courses from the following subject areas: 12

AFRS, AFAM, CRIM, ECON, HUSV, HIST, INTL, LING, LPSC, POLS, PSYC, SOCL

## Theatre Requirements

A minimum grade of C is required in all theatre courses.

## English and Cultural Anthropology, BA

The English department and the sociology/anthropology department offer an interdisciplinary combined major in English and cultural anthropology. Broadly speaking, students in the combined major in English and cultural anthropology at Northeastern integrate the study of literature, language, and writing with the study of human culture and its

intersections with structures of inequality (e.g., race, class, and gender) and contemporary global issues.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### English Requirements

Code	Title	Hours
------	-------	-------

#### English Course-Level Requirement

In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.

#### Introduction to College

ENGL 1000	English at Northeastern	1
-----------	-------------------------	---

#### Foundational Courses

ENGL 1400	Introduction to Literary Studies	4
ENGL 1160	Introduction to Rhetoric	4
or ENGL 1410	Introduction to Research on Writing	

#### Diversity

Complete one of the following courses. This course may also be used to fulfill an additional English requirement below.

ENGL 2150	Literature and Digital Diversity	4
ENGL 2296	Early African-American Literature	
ENGL 2450		
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2460		
ENGL 2760	Writing in Global Contexts	
ENGL 3663	The African American Novel	
ENGL 3676		
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
ENGL/JWSS 3685	Modern and Contemporary Jewish Literature	

#### Pre-Nineteenth-Century Literature

Complete one of the following:		4
ENGL 1600	Introduction to Shakespeare	
ENGL 1700	Global Literatures 1	

ENGL 2240		
ENGL 2296	Early African-American Literature	
ENGL/JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
ENGL 4000		
ENGL 4020		
<b>Nineteenth-, Twentieth-, and Twenty-First-Century Literature</b>		
Complete one of the following:		4
ENGL 2330	The American Renaissance	
ENGL 3720	19th-Century Major Figure	
ENGL 4040		
ENGL 2301	The Graphic Novel	
ENGL 2440	The Modern Bestseller	
ENGL 2600	Irish Literary Culture (Abroad)	
ENGL 2610	Contemporary Israeli Literature and Art (Abroad)	
ENGL/JWSS 3685	Modern and Contemporary Jewish Literature	
ENGL 3730	20th- and 21st-Century Major Figure	
<b>Theories and Methods</b>		
Complete one of the following:		4
ENGL 1140	Grammar: The Architecture of English	
ENGL 1160	Introduction to Rhetoric	
ENGL 1410	Introduction to Research on Writing	
ENGL 2150	Literature and Digital Diversity	
ENGL 3325	Rhetoric of Law

LING 2350	Linguistic Analysis	
LING 3450	Syntax	
LING 3452	Semantics	
LING 3454	History of English	
LING 3456	Language and Gender	
LING 3458	Topics in Linguistics	
<b>Comparative Literature</b>		
Complete one of the following:		4
ENGL 1450	Reading and Writing in the Digital Age	
ENGL 1502	American Literature to 1865	
ENGL 1503		
ENGL 2150	Literature and Digital Diversity	
ENGL 2380		
ENGL 2420	Contemporary Poetry	
ENGL 2430	Contemporary Fiction	
ENGL 2450		
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	

ENGL 2460		
ENGL 2510	Horror Fiction	
ENGL 2520	Science Fiction	
ENGL 2600	Irish Literary Culture (Abroad)	
ENGL 2620	What Is Nature?	
ENGL 2690	Boston in Literature	
ENGL 3487	Film and Text (Abroad)	
ENGL 3582		
ENGL 3663	The African American Novel	
ENGL 3676		

**Writing**

Complete one of the following:		4
ENGL 2700	Creative Writing	
ENGL 2710	Style and Editing	
ENGL 2740	Writing and Community Engagement	
ENGL 2760	Writing in Global Contexts	
ENGL 2770	Writing to Heal	
ENGL 2780	Visual Writing: Writing Visuals	
ENGL 2850	Writing for Social Media: Theory and Practice	
ENGL 3375	Writing Boston	
ENGL 3376	Creative Nonfiction	
ENGL 3377	Poetry Workshop	
ENGL 3378	Fiction Workshop	
ENGL 3380	Writing Seminar	
ENGL 3382	Publishing in the 21st Century	
ENGL 3384	The Writer's Marketplace	

**Capstone**

ENGL 4710	Capstone Seminar	4
or ENGL 4720	Capstone Project	

**English Electives**

Complete two additional ENGL electives.		8
---	--	---

**Cultural Anthropology Requirements**

Code	Title	Hours
<b>Foundation Courses</b>		
ANTH 1101	Peoples and Cultures	4
ANTH 2305	Global Markets and Local Culture	4
ANTH 3410	Ethnographic Field Experience	4
ANTH 3421	Foundations of Anthropological Theory	4
<b>Area Courses</b>		
Additional "area courses" taken may count as anthropology electives.		
Complete two of the following:		8
ANTH 4350	Ethnography of Southeast Asia	
ANTH 4500	Latin American Society and Development	
ANTH 4505	Native North Americans	
ANTH 4510	Anthropology of Africa	
ANTH 4515	Culture and Politics in Modern India	

**Capstone**

Students are expected to complete the following course in spring of their senior year.

ANTH 4600	Senior Seminar	4
-----------	----------------	---

**Anthropology Electives**

Complete three 4-semester-hour courses in addition to the above requirements. One study-abroad course may also count toward this requirement with prior permission from the department. 12

**Integrative Requirements**

**Code Title Hours**  
One integrative course is required for each discipline. Courses taken as electives above may not be used as integrative courses.

**English Integrative Course**

ENGL 2450 4

**Cultural Anthropology Integrative Courses**

Complete one of the following: 4

ANTH 2300	Reading Culture through Ethnography
ANTH 3421	Foundations of Anthropological Theory

**Cultural Anthropology Major Grade Requirement**

A GPA of 2.000 for major courses is required.

**English and Cultural Anthropology Combined-Major Credit Requirement**

Complete 88 semester hours in the major.

**Program Requirement**

128 total semester hours required

**History and Cultural Anthropology, BA**

History and cultural anthropology offer an interdisciplinary combined major. Students interested in the combined major in history and cultural anthropology integrate the exploration of human history with the rigorous study of human cultures.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**History Requirements**

Code	Title	Hours
<b>History Colloquium</b>		
HIST 1000	History at Northeastern	1
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4

**Introductory Level**

Complete one history course from the 1000 level. 4

**History Seminar and Historical Writing**

HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1

**Pre-1800 History Elective**

Complete one course from the following: 4

HIST 1187	Introduction to Latin American History
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804
HIST 1252	Japanese Literature and Culture
HIST 1272	Europe in the Middle Ages, 500–1500
HIST 1285	Introduction to Russian Civilization
HIST 2330	Colonial and Revolutionary America
HIST 2370	Renaissance to Enlightenment
HIST 2375	The Tudors, the Stuarts, and the Birth of Modern Britain

**Intermediate/Advanced History Cluster**

Complete three history courses numbered 2303 or above. 12

**Advanced History**

Complete one history course at the 3000 level or above. 4

**Cultural Anthropology Requirements**

Code	Title	Hours
------	-------	-------

**Foundation Courses**

ANTH 1101	Peoples and Cultures	4
ANTH 2305	Global Markets and Local Culture	4
ANTH 3421	Foundations of Anthropological Theory	4
ANTH 3410	Ethnographic Field Experience	4

**Area Courses**

Complete two courses from the following: 8

ANTH 4350	Ethnography of Southeast Asia
ANTH 4500	Latin American Society and Development
ANTH 4505	Native North Americans
ANTH 4510	Anthropology of Africa
ANTH 4515	Culture and Politics in Modern India

**Anthropology Electives**

Complete three courses in the following range. One study-abroad course may count toward this requirement. 12

ANTH 2001 to ANTH 4599

**Capstone Requirements**

Code	Title	Hours
------	-------	-------

Complete one of the following: 4

ANTH 4600	Senior Seminar
HIST 4701	Capstone Seminar

**Integrative Requirements**

ANTH courses below will double count as area courses.

Code	Title	Hours
ANTH 4350	Ethnography of Southeast Asia	4
ANTH 4510	Anthropology of Africa	4
HIST 2360	History of Capitalism in East Asia	4

Students taking Senior Seminar (ANTH 4600) must complete either a one-semester senior project, which they would do in the context of ANTH 4600, or a two-semester senior thesis, which would require them to also enroll in a fall-semester directed study.

### Anthropology Major Grade Requirement

A GPA of 2.000 for major courses is required.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Human Services and Sociology, BA

Students pursuing a combined degree in human services and sociology will integrate the theoretical understandings of these two fields to better understand organizational and group behavior and their implications for individuals and communities utilizing human services. The human services major prepares students for careers in social change by providing students with the theoretical and skill-based background necessary for practice and research. The sociology major prepares students to rigorously analyze the social, political, and economic spheres of society at the local and global levels. Students will develop a holistic understanding of preventative and reactive responses to social inequality and an understanding of how to impact change at the individual and structural levels. The combined major provides students with the conceptual and practical tools to understand how various features of society affect its members as well as how people create social change.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

## NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

## Human Services Requirements

Code	Title	Hours
<b>Required Human Services Courses</b>		
HUSV 1101	Social Change and Human Services	4
HUSV 2300	Counseling in Human Services	4
HUSV 3570	The Nonprofit Sector, Philanthropy, and Social Change	4
HUSV 3900	Social Policy	4
HUSV 4994	Human Services Internship	6

### Research Methods

Complete option A or option B: 4-8

#### Option A

Complete the following course:

HUSV 2970	Research Methods for Human Services
-----------	-------------------------------------

#### Option B

Complete the following and one additional HUSV course:

SOCL 2321	Research Methods in Sociology
-----------	-------------------------------

### Human Services Elective

Complete three additional HUSV courses. 12

### Senior Capstone<sup>1</sup>

HUSV 4700	Senior Seminar in Human Services	4
-----------	----------------------------------	---

<sup>1</sup> With permission of human services, the student may complete sociology capstone Senior Seminar (SOCL 4600) and substitute one advanced human services elective for Senior Seminar in Human Services (HUSV 4700).

## Sociology Requirements

## International Affairs and Cultural Anthropology, BA

This combined major offers undergraduates the opportunity to develop an awareness of contemporary cultures within their international, transnational, and global contexts since the early 20th century. The combined major addresses diverse and cross-disciplinary theories of interstate relations (conflict, cooperation, hierarchies); civil society, transnational advocacy networks, global social movements; and state-society relations (democracy, authoritarianism, social justice and inequalities, citizenship).

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**International Affairs Requirements**

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement.

Code	Title	Hours
<b>Required Courses</b>		
INTL 1101	Globalization and International Affairs	4

**International Affairs Foreign Language Requirement**

Complete coursework in a language through at least intermediate-level two. *Note:* Completing this requirement satisfies the language requirement for the BA degree.

**Anthropology Major Requirements**

*Note:* At least nine anthropology courses must be taken to complete the international affairs and cultural anthropology program.

Code	Title	Hours
<b>Cultural Anthropology</b>		
ANTH 1101	Peoples and Cultures	4
ANTH 3421	Foundations of Anthropological Theory	4
<b>Anthropology Electives</b>		

Complete three courses in the following range, one of which must be numbered 4000 or above (one study-abroad course may also count toward this requirement with prior permission from the department):

ANTH 2300 to ANTH 4999		12
<b>Advanced Area Courses</b>		
Complete two of the following:		8
ANTH 4500	Latin American Society and Development	
ANTH 4505	Native North Americans	
ANTH 4510	Anthropology of Africa	
ANTH 4515	Culture and Politics in Modern India	

### Integrative Requirements

Note: If international affairs courses are taken in both the research methods and capstone areas, then an additional anthropology elective is required.

Code	Title	Hours
<b>Research Methods</b>		
INTL 2718	Research Methods in International Affairs	4
or ANTH 3410	Ethnographic Field Experience	
<b>Global Markets</b>		
ANTH 2305	Global Markets and Local Culture	4
<b>Capstone</b>		
ANTH 4600	Senior Seminar	4
or INTL 4700	Senior Capstone Seminar in International Affairs	

Students taking Senior Seminar (ANTH 4600) must complete either a one-semester senior project, which they would do in the context of ANTH 4600, or a two-semester senior thesis, which would require them to also enroll in a fall semester directed study.

### Anthropology Major Grade Requirement

A GPA of 2.000 for major courses is required.

### International Affairs and Anthropology Combined Major Credit Requirement

Complete 76 semester hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

128 total semester hours required

## Media and Screen Studies and Sociology, BA

The Media and Screen Studies Program and the Department of Sociology and Anthropology offer a combined major in media and screen studies and sociology. The combined major integrates the analysis, research, and production of traditional and emerging media along with the critical perspective needed for studying the social and cultural arrangements in which people live, for understanding how societies function, for investigating the conditions under which people change their institutions, and for describing the modes and conditions of cooperation that make social life possible.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Difference and Diversity (DD) are met through the major course requirements.

NUpath requirements Creative Expression/Innovation (EI), Analyzing and Using Data (AD), and Ethical Reasoning (ER) may be met through electives in the major.

NUpath requirements Natural and Designed World (ND) and Formal and Quantitative Reasoning (FQ) must be met through general electives.

### Media and Screen Studies Requirements

## Sociology and Cultural Anthropology, BA

The sociology/anthropology department at Northeastern University offers a combined major in sociology and anthropology. Students learn the disciplinary histories, practices, and methods of sociology and sociocultural anthropology, identify foundational and contemporary debates within and across these two disciplines, and evaluate their contributions to our understanding of local and global societies and cultures. The combined major offers students various opportunities for

community engagement, experiential learning, and for gaining research skills using quantitative and qualitative methods.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Sociology Major Requirements

Code	Title	Hours

<b>Cultural Anthropology</b>		
ANTH 1101	Peoples and Cultures	4
ANTH 3410	Ethnographic Field Experience	4
ANTH 3421	Foundations of Anthropological Theory	4
<b>Advanced Area Courses</b>		
Complete two of the following:		8
ANTH 4350	Ethnography of Southeast Asia	
ANTH 4500	Latin American Society and Development	
ANTH 4505	Native North Americans	
ANTH 4510	Anthropology of Africa	

ANTH 4515 Culture and Politics in Modern India

### Anthropology Electives

Complete four ANTH courses. One study-abroad course may also count toward this requirement with prior permission from the department. 16

### Integrative Requirement

Students must choose between a one-semester senior project, which they would complete in the context of Senior Seminar (ANTH 4600) or Senior Seminar (SOCL 4600), or a two-semester senior thesis, which would require them to also enroll in a fall-semester directed study.

Code	Title	Hours
<b>Required Course</b>		
ANTH 2305	Global Markets and Local Culture	4
<b>Capstone</b>		
SOCL 4600 or ANTH 4600	Senior Seminar	4

### Sociology and Cultural Anthropology Major Grade Requirement

A GPA of 2.000 across all major courses is required.

### Sociology and Cultural Anthropology Combined Major Credit Requirement

Complete 76 semester hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

128 total semester hours required

## Sociology and Environmental Studies, BA

This combined major will lead to undergraduates that have a broad awareness of the sociological and scientific foundations of environmental problem solving. They will have the opportunity to develop concrete skills in GIS and scientific communication that will facilitate student success. Due to overlap in course content, students majoring in environmental studies or any environmental studies combined majors may not complete a minor in environmental and sustainability sciences.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

**Year 2**

Total Hours: 130

**Sociology and International Affairs, BA**

Through this combined major, successful undergraduates develop an awareness of societies within their international, transnational, and global contexts since the early 20th century. The combined major addresses diverse and cross-disciplinary theories of interstate relations (conflict, cooperation, hierarchies); civil society, transnational advocacy networks, global social movements; and state-society relations (democracy, authoritarianism, social justice and inequalities, citizenship).

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**BA Language Requirements**

All BA students are required to complete the BA language requirements (p. 49).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Sociology Requirements**

## Sociology and Philosophy, BA

The Department of Sociology and Anthropology and the Department of Philosophy and Religion offer an interdisciplinary combined major in sociology and philosophy. Students in the combined major integrate the study of social structures and systems with the study of social and political philosophy, ethics, and the philosophy of science.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Sociology Requirements

Code	Title	Hours
<b>Sociology Required Courses</b>		
SOCL 1101	Introduction to Sociology	4
SOCL 2321	Research Methods in Sociology	4
SOCL 3300	Social Theory	4
SOCL 2320	Statistical Analysis in Sociology	4
ANTH 2305	Global Markets and Local Culture	4

#### Electives

One course can be taken at the 2000 level and three other courses at the 3000 level or higher. 16

#### Capstone

Students are expected to complete the following course in spring of their senior year. 4

SOCL 4600	Senior Seminar	
-----------	----------------	--

### Philosophy Requirements

Code	Title	Hours
------	-------	-------

#### Required Courses

PHIL 1115	Introduction to Logic	4
PHIL 2325	Ancient Philosophy and Political Thought	4
or POLS 2325	Ancient Philosophy and Political Thought	
PHIL 2330	Modern Philosophy	4

#### Foundational Philosophy of Science Elective

Complete one of the following: 4		
PHIL 1105	Science and Pseudoscience	
PHIL 2001	Ethics and Evolutionary Games	
PHIL 3050	Information and Uncertainty	
PHIL 3360	Scientific Approaches to Philosophy	

#### Intermediate/Advanced Electives

Complete two of the following courses that are not used to satisfy another requirement: 8

PHIL 3343	Existentialism	
PHIL 3360	Scientific Approaches to Philosophy	
PHIL 3435	Moral Philosophy	
PHIL 3460	Philosophy and Literature

### Sociology and Political Science, BA

The combined major in sociology and political science offers students the opportunity to integrate the study of politics and government with an analysis of social systems. Students complete core courses in political science along with core courses in sociology that include social theory and an introduction to social systems. This combined major highlights the important intersection between social norms and organizations with the evolution of politics and government.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Sociology and Religious Studies, BA

The Department of Sociology and Anthropology and the Department of Philosophy and Religion offer an interdisciplinary combined major in sociology and religious studies. Students in the combined major integrate the study of social structures and systems with the study of religious traditions and praxis.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### BA Language Requirements

All BA students are required to complete the BA language requirements (p. 49).

### NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

### Sociology Requirements

Code	Title	Hours
------	-------	-------

#### Sociology Required Courses

ANTH 2305	Global Markets and Local Culture	4
-----------	----------------------------------	---

SOCL 1101	Introduction to Sociology	4
-----------	---------------------------	---

SOCL 2320	Statistical Analysis in Sociology	4
-----------	-----------------------------------	---

SOCL 2321	Research Methods in Sociology	4
-----------	-------------------------------	---

SOCL 3300	Social Theory	4
-----------	---------------	---

#### Electives

One course can be taken at the 2000 level and three other courses at the 3000 level or higher.	16
--	----

#### Capstone

Students are expected to complete the following course in spring of their senior year:

SOCL 4600	Senior Seminar	4
-----------	----------------	---

**Religion Requirements**

Code	Title	Hours
------	-------	-------

**Required Foundational Course**

PHIL 1110	Introduction to Religious Studies	4
-----------	-----------------------------------	---

**Lived Religion Elective**

Complete one of the following courses that is not used to satisfy another requirement: 4

PHIL 1133	Selling Spirituality	
PHIL 1220	The Meaning of Death	
PHIL 1260	Apocalypticism in Film	
PHIL 1271	Sex in Judaism, Christianity, and Islam	
PHIL 1280	Islam: Rituals, Traditions, and Debates	
PHIL 1295	Religious Perspectives on Health and Healing	
PHIL 1667	Science Fiction and Film: Moral Dilemmas and Ethical Analysis	
PHIL 2230	Music and Religion	
PHIL 2390	Cults and Sects	
PHIL 2410	Possession, Sacrifice, and Divination in African Diasporic Religions	
PHIL 3100	The Religious Worlds of Boston: Faith and Devotion in Urban Life	

**Comparative Religion Elective**

Complete one of the following courses that is not used to satisfy another requirement: 4

PHIL 1111	Introduction to World Religions	
PHIL 1130	Ethics: East and West	
PHIL 1220	The Meaning of Death	
PHIL 1271	Sex in Judaism, Christianity, and Islam	
PHIL 1275	Hinduism, Buddhism, and Beyond: Eastern Religions	
PHIL 1290	Chinese Philosophy and Religion	
PHIL 1667	Science Fiction and Film: Moral Dilemmas and Ethical Analysis	
PHIL 2395	Japanese Buddhism	

**Electives**

Complete five of the following courses that have not been used to satisfy another requirement in the combined major. At least one must be at the 2000 level or above and at least one must be at the 3000 level or above: 20

PHIL 1104	Goddesses, Witches, Saints, and Sinners: Women in Western Religions	
PHIL 1111	Introduction to World Religions	
PHIL 1120	Understanding the Bible	
PHIL 1130	Ethics: East and West	
PHIL 1133	Selling Spirituality	
PHIL 1220	The Meaning of Death	
PHIL 1260	Apocalypticism in Film	
PHIL 1271	Sex in Judaism, Christianity, and Islam	
PHIL 1275	Hinduism, Buddhism, and Beyond: Eastern Religions	
PHIL 1280	Islam: Rituals, Traditions, and Debates	

PHIL 1285	Jewish Religion and Culture	
PHIL 1290	Chinese Philosophy and Religion	
PHIL 1295	Religious Perspectives on Health and Healing	
PHIL 1666	The Problem of Evil in Film	
PHIL 1667	Science Fiction and Film: Moral Dilemmas and Ethical Analysis	
PHIL 2230	Music and Religion	
PHIL 2390	Cults and Sects	
PHIL 2395	Japanese Buddhism	
PHIL 2410	Possession, Sacrifice, and Divination in African Diasporic Religions	
PHIL 3100	The Religious Worlds of Boston: Faith and Devotion in Urban Life	
PHIL 4903	Seminar in Religion	

**Seminar**

Complete the following course that is not used to satisfy another requirement:

PHIL 4903	Seminar in Religion	4
-----------	---------------------	---

**Integrative Requirements**

Code	Title	Hours
------	-------	-------

One integrative course is required for each discipline. Courses taken as electives above may not be used as integrative courses.

PHIL 3100	The Religious Worlds of Boston: Faith and Devotion in Urban Life	4
ANTH 2315	Religion and Modernity	4

**Major Credit Requirement**

Complete 84 semester hours in the major.

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Program Requirement**

128 total semester hours required

**Sociology, BS**

Sociology is the scientific study of society. It begins with the premise that individuals are affected by the social structures, institutions, and cultural milieus surrounding them. Sociology provides students with the conceptual tools to understand how various features of society affect its members as well as how people create and maintain those same features.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUPath Requirements**

All undergraduate students are required to complete the NUPath Requirements (p. 46).

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Sociology Major Requirements**

## Cultural Anthropology, BS

Anthropology is the holistic, cross-cultural study of humanity that explores the multiple ways humans live and create meaning in the world. The anthropology major at Northeastern exposes students to diverse cultural perspectives from past and present societies; fosters student engagement with key contemporary issues such as global inequality, development, urbanization, and cultural change; and provides greater appreciation for the complexities of the world in which they live.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Cultural Anthropology Major Requirements

Code	Title	Hours
<b>Cultural Anthropology</b>		
SOCL 1101	Introduction to Sociology	4
ANTH 1101	Peoples and Cultures	4
ANTH 2305	Global Markets and Local Culture	4
ANTH 3421	Foundations of Anthropological Theory	4
ANTH 3410	Ethnographic Field Experience	4
ANTH 4600	Senior Seminar	4
<b>Advanced Area Courses</b>		
Complete two of the following. Additional courses taken in this section may be used as electives.		8
ANTH 4350	Ethnography of Southeast Asia	
ANTH 4500	Latin American Society and Development	
ANTH 4505	Native North Americans	
ANTH 4510	Anthropology of Africa	
ANTH 4515	Culture and Politics in Modern India	

### Anthropology Electives

Complete eight ANTH courses. Two study-abroad courses may count toward this requirement with prior permission from the department. 32

### Social Science Electives

Complete three social science courses from the following subject areas. Social science electives may not include music or art: AFRS, AFAM, CRIM, ECON, HUSV, HIST, INTL, LING, LPSC, POLS, PSYC, or SOCL. 12

<sup>1</sup> Students must choose between a one-semester senior project, which they would complete in the context of Senior Seminar (ANTH 4600), or a two-semester senior thesis, which would require them to also enroll in a fall-semester directed study.

### Cultural Anthropology Major Grade Requirement

A cumulative GPA of 2.000 for all major courses is required.

### Cultural Anthropology Major Credit Requirement

Complete 76 semester hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

128 total semester hours required

**Computer Science and Sociology, BS**

The social aspects to computing continue to grow, primarily with respect to communication and the internet. The computer science and sociology combined major examines this significant impact on society and how people communicate and share culture. Students will have an opportunity to gain a solid programming foundation, as well as the practical and theoretical skills needed to address the complex social and cultural issues in a period of far-reaching social change.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Computer Science Courses**

Code	Title	Hours
<b>Computer Science Overview</b>		
CS 1200	First Year Seminar	1
CS 1210	Professional Development for Khoury Co-op	1

**Computer Science Fundamental Courses**

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5

**Computer Science Required Courses**

CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500 and CS 3501	Object-Oriented Design and Lab for CS 3500	5
IS 2000	Principles of Information Science	4

**Computer Science Writing-Intensive Requirement**

Complete one of the following:		4
CS 4500 or CS 4530	Software Development Fundamentals of Software Engineering	
IS 3500	Information System Design and Development	
DS 4200	Information Presentation and Visualization (Take DS 3000 either as a prerequisite of or concurrently with DS 4200.)	

**Khoury Elective Courses**

With adviser approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 12 credits of upper-division CS, CY, DS, or IS classes that are not already required. Choose courses within the following ranges:

CS 2500 or higher, except CS 5010

CY 2000 or higher, except CY 4930

DS 2500 or higher, except DS 4900

IS 2000 or higher, except IS 4900

**Required General Electives**

Code	Title	Hours
Complete 32 credits of general electives.		32

**Khoury College GPA Requirements**

Minimum 2.000 GPA required in all CS, CY, DS and IS courses

**Sociology GPA Requirements**

2.000 average GPA requirement across all sociology classes

**NUpath Requirements Satisfied**

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing-Intensive in the Major
- Writing in the First Year
- Advanced Writing in the Disciplines
- Interpreting Culture
- Understanding Societies and Institutions
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Program Requirement**

133 total semester hours required

**Plan of Study**

**Sample Patterns:**

**Four Years, Two Co-ops in Spring/Summer 1**

Year 1

**Criminal Justice and Sociology, BS**

This combined major educates students in criminal justice and sociology and in the interface between the two disciplines. The scope and sequence of sociology courses provide students with a foundation in social theory and social systems. Criminal justice courses provide

a foundation for understanding individual and systemic aspects of criminology and criminal justice. Students successfully completing this program should be able to understand the ways that crime and the justice system are situated in larger social systems and structures.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

## Criminal Justice Requirements

Code	Title	Hours
<b>Introduction to Crime, Law, and the Justice System</b>		
What do we know about crime and justice? In these three courses, students have an opportunity to develop a foundational understanding of three related phenomena: why crime exists, how our criminal justice system responds to crime, and the constitutional and legal oversight of this process.		
CRIM 1100	Introduction to Criminal Justice	4
CRIM 1110	Criminal Due Process	4
CRIM 1120	Criminology	4
<b>Current Crime and Justice Issues</b>		
These courses introduce students to topical issues related to crime and justice.		
Complete one of the following:		4
CRIM 1300	The Death Penalty	
CRIM 1400	Human Trafficking	
CRIM 1500	Corruption, Integrity, and Accountability	
CRIM 1700	Crime, Media, and Politics	
<b>Understanding and Experiencing Criminal Justice Institutions and Systems</b>		
How does justice work and for whom? These courses introduce students to the systems and institutions tasked with providing justice. Each includes experiential learning components in cooperation with local criminal justice institutions.		
Complete one of the following:		4
CRIM 2310	Courts: The Third Branch of Government	
CRIM 2320	Youth Crime and Justice	
CRIM 2330	Punishment in the Age of Mass Incarceration	
CRIM 2340	Corporate Security: Securing the Private Sector	
CRIM 2350	Policing a Democratic Society	
<b>Crime Problems</b>		
The following courses provide students with a deeper look at a range of crime problems.		

Complete one of the following:		4
CRIM 3010	Criminal Violence	
CRIM 3030	Global Criminology	
CRIM 3040	Psychology of Crime	
CRIM 3050	Organized Crime	
CRIM 3060	Political Crime and Terrorism	
CRIM 3070	Corporate and White-Collar Crime	
CRIM 3540	Addiction and Recovery	

## Criminal Justice Electives

These courses round out our knowledge of crime and justice.

Complete three additional criminal justice electives. Two must be from the 3000, 4000, or 5000 level. 12

## Sociology Requirements

Complete a minimum of nine courses in sociology from the requirements below.

Code	Title	Hours
<b>Sociology Requirements</b>		
SOCL 1101	Introduction to Sociology	4
SOCL 3300	Social Theory	4
<b>Sociology Introductory Electives</b>		
Complete two courses in the following range:		8
SOCL 1200 to SOCL 1999		
<b>Sociology Intermediate Electives</b>		
Complete two courses in the following range:		8
SOCL 2000 to SOCL 3999		
<b>Sociology Advanced Elective</b>		
Complete one course in the following range:		4
SOCL 4000 to SOCL 5999		

## Introduction, Methods, and Statistics

Code	Title	Hours
<b>Introduction</b>		
Complete one of the following:		1
CRIM 1000	Criminal Justice at Northeastern	
SOCL 1000	Sociology at Northeastern	
<b>Research Methods</b>		
SOCL 2321	Research Methods in Sociology	4
<b>Statistics</b>		
CRIM 3700	Analyzing and Using Data on Crime and Justice	4

## Supporting Courses

Code	Title	Hours
<b>Digital Skills</b>		
Successful students develop digital skills and master digital tools useful for careers related to crime and justice. Students choose one of two courses (each has a required lab). The computer science course introduces students to spreadsheets and databases. The data science course introduces students to programming with data.		
Complete one of the following (and the appropriate lab):		4 or 5
CS 1100 and CS 1101	Computer Science and Its Applications and Lab for CS 1100	

DS 2000 and DS 2001	Programming with Data and Data Science Programming Practicum ((Social Science Practicum section))
------------------------	--

<b>Co-op Integration Requirements</b>	
Complete before the first co-op:	1
EESH 2000	Professional Development for Co-op
Complete after the first co-op:	1
CRIM 3000	Co-op Integration Seminar 2
Complete after the second co-op:	1
CRIM 4000	Co-op Integration Seminar 3

**Integrative Requirement**

Code	Title	Hours
<b>Senior Capstone Requirement</b>		
CRIM 4949 or SOCL 4600	Senior Capstone Seminar Senior Seminar	4

<b>Integrative Elective Courses</b>		
Complete one of the following:		4
CRIM 3030	Global Criminology	
CRIM 3110	Gender, Crime, and Justice	
CRIM 3120	Race, Crime, and Justice	
Complete one of the following:		4
SOCL 1245	Sociology of Poverty	
SOCL 1228	Social Problems	

**Experiential Liberal Arts**

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

**Program Requirement**

**Health Science and Sociology, BS**

The combined Bachelor of Science in Health Science and Sociology integrates social scientific perspectives to the study of health, illness, and healthcare. Students explore basic sociological concepts relevant for the study of health and healthcare, such as social construction and medicalization. Students explore why, for instance, despite having the most expensive healthcare system, the United States ranks comparatively low in life expectancy and health and well-being outcomes. Provides students with an opportunity to explore the ways that societal factors such as race, class, and gender interplay with health, healthcare, and health disparities.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

## Health Science Requirements

Code	Title	Hours

## Human Services and Sociology, BS

Students pursuing a combined degree in human services and sociology will integrate the theoretical understandings of these two fields to better understand organizational and group behavior and their implications for individuals and communities utilizing human services. The human services major prepares students for careers in social change by providing students with the theoretical and skill-based background necessary for practice and research. The sociology major prepares students to rigorously analyze the social, political, and economic spheres of society at the local and global levels. Students will develop a holistic understanding of preventative and reactive responses to social inequality and an understanding of how to impact change at the individual and structural levels. The combined major provides students with the conceptual and practical tools to understand how various features of society affect its members as well as how people create social change.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Human Services Requirements

Code	Title	Hours
<b>Human Services Required Courses</b>		
HUSV 1101	Social Change and Human Services	4
HUSV 2300	Counseling in Human Services	4
HUSV 3570	The Nonprofit Sector, Philanthropy, and Social Change	4
HUSV 3900	Social Policy	4

### Linguistics and Cultural Anthropology, BS

The combined major in linguistics and cultural anthropology focuses on the relationship of culture to the institutions, interpersonal relations, and practices that make up their social structure while emphasizing the structure of human language and its involvement in social interaction and culture. Students examine how language both reflects and influences cultural phenomena and how it can be used as a tool to study those phenomena; and they apply their interests across a range of connected courses, co-op opportunities, and potential research projects.

### Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

### University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

### NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 46).

### Linguistics Major Language Requirement

Complete two courses in the same language with a grade of C or higher. Proficiency at elementary level 2 or higher is required.

### Linguistics Requirements

Note: A grade of C or higher is required for all courses in this section.

**Mathematics and Cultural Anthropology, BS**

In the BS combined mathematics and cultural anthropology degree program, anthropology and mathematics courses lay the groundwork for strong basic training that is designed to train the student to use mathematical models and methodologies for the study of problems in cultural anthropology.

**Program Requirements**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

**University-Wide Requirements**

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

**NUpath Requirements**

All undergraduate students are required to complete the NUpath Requirements (p. 46).

**Mathematics Requirements**

Code	Title	Hours
<b>Problem Solving</b>		
MATH 1365	Introduction to Mathematical Reasoning	4

**Calculus**

MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4

**Intermediate and Advanced Mathematics**

MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 2331	Linear Algebra	4
MATH 3081	Probability and Statistics	4

**Math Electives**

Complete two courses in the following range that are not required in the requirements above:	8
MATH 3001 to MATH 5999	

**Anthropology Requirements**

Code	Title	Hours
<b>Anthropology Required Courses</b>		

ANTH 1101	Peoples and Cultures	4
ANTH 3410	Ethnographic Field Experience	4
ANTH 3421	Foundations of Anthropological Theory	4
ANTH 2305	Global Markets and Local Culture	4

**Anthropology Area Courses**

Complete two of the following. Additional area courses may count as anthropology electives:

ANTH 4350	Ethnography of Southeast Asia
ANTH 4500	Latin American Society and Development
ANTH 4505	Native North Americans
ANTH 4510	Anthropology of Africa
ANTH 4515	Culture and Politics in Modern India

### Anthropology Electives

Complete three 4-semester-hour courses in addition to the requirements stated above. One study-abroad course may count toward this requirement with prior permission from the department. 12

ANTH 2000 to ANTH 4990

### Capstone Requirement

ANTH 4600 Senior Seminar 4

### Integrative Requirement

**Code Title Hours**

Complete one of the following: 4

MATH 4025 Applied Mathematics Capstone

MATH 5131 Introduction to Mathematical Methods and Modeling

Complete the following: 4

ANTH 3120 Consumer Cultures

Total Hours 8

### Mathematics and Anthropology Combined Major Credit Requirement

Complete 80 semester hours in the major.

### Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

### Program Requirement

128 total semester hours required

**Sociology and Cultural Anthropology, BS**

The sociology/anthropology department at Northeastern University offers a combined major in sociology and anthropology. Students learn the disciplinary histories, practices, and methods of sociology and sociocultural anthropology, identify foundational and contemporary debates within and across these two disciplines, and evaluate their contributions to our understanding of local and global societies and cultures. The combined major offers students various opportunities for

community engagement, experiential learning, and for gaining research skills using quantitative and qualitative methods.

## Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

## University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 52).

## NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 46).

## Sociology Major Requirements

Code	Title	Hours
<b>Required Sociology</b>		
SOCL 1101	Introduction to Sociology	4
SOCL 2321	Research Methods in Sociology	4
SOCL 3300	Social Theory	4

### Sociology Electives

#### Introductory Electives

Complete two courses in the following range: 8

SOCL 1110 to SOCL 1999

#### Intermediate Elective

Complete one course in the following range: 4

SOCL 2000 to SOCL 3999

#### Advanced Elective

Complete one course in the following range: 4

SOCL 4000 to SOCL 4999

### Experiential Learning

Complete one of the following courses, or complete a study abroad or a dialogue of civilizations: 4

SOCL 3487	Applied Sociology: Practice and Theory
COOP 3945	Co-op Work Experience
SOCL 4971	Junior/Senior Honors Project 2

## Anthropology Major Requirements

Code	Title	Hours
<b>Cultural Anthropology Core Courses</b>		
ANTH 1101	Peoples and Cultures	4
ANTH 3410	Ethnographic Field Experience	4
ANTH 3421	Foundations of Anthropological Theory	4

### Advanced Area Courses

Complete two of the following: 8

ANTH 4350	Ethnography of Southeast Asia
ANTH 4500	Latin American Society and Development
ANTH 4505	Native North Americans
ANTH 4510	Anthropology of Africa
ANTH 4515	Culture and Politics in Modern India

### Anthropology Electives

Complete four ANTH courses. One study-abroad course may also count toward this requirement with prior permission from the department. 16

## Integrative Requirement

Students must choose between a one-semester senior project, which they would complete in the context of Senior Seminar (ANTH 4600) or Senior Seminar (SOCL 4600), or a two-semester senior thesis, which would require them to also enroll in a fall-semester directed study.

Code	Title	Hours
<b>Required Course</b>		
ANTH 2305	Global Markets and Local Culture	4
<b>Capstone</b>		
SOCL 4600 or ANTH 4600	Senior Seminar	4

## Sociology and Cultural Anthropology Major Grade Requirement

A GPA average of 2.000 across all major courses is required.

## Sociology and Cultural Anthropology Combined Major Credit Requirement

Complete 76 semester hours in the major.

## Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 809).

## Program Requirement

128 total semester hours required

## Cultural Anthropology, Minor

The cultural anthropology minor at Northeastern focuses on the study of culture as it is located in issues of race, ethnicity, class, gender, history, and globalization. Students develop proficiencies in widely applicable skills and frameworks, such as cultural relativism, comparative analysis, cross-cultural communication, research design, and ethnographic field research. Students have the opportunity to work with faculty members with regional expertise in Latin America, Europe, Asia, Africa, and North America and who teach courses on contemporary issues such as globalization, digital technologies, consumerism, sports, gender and sexuality, tourism, and social movements. This minor can complement a wide range of majors throughout the university, providing students with regional expertise and a depth of cultural understanding.

## Minor Requirements

Students minoring in Cultural Anthropology must complete Peoples and Cultures (ANTH 1101), plus any three ANTH electives, at least one of which must be at the 3000 level or above.

## Required Courses

Code	Title	Hours
ANTH 1101	Peoples and Cultures	4

## Anthropology Electives

Code	Title	Hours
Complete three ANTH electives, one of which must be at the 3000 level or above.		12

## GPA Requirement

2.000 GPA required in the minor

### Science and Technology Studies, Minor

The science and technology studies (STS) minor offers an interdisciplinary program of study focused on the critical role of science and technology in contemporary societies. Rather than viewing science and technology as autonomous or self-generating domains, STS traces the complex interplay that exists between science and technology and the social, political, and cultural contexts in which they are formed. Combining coursework in such fields as sociology, history, philosophy, engineering, and the humanities, the STS program offers students an opportunity to obtain a deeper understanding of the norms, values, and beliefs that often lie hidden within scientific knowledge and engineering designs. In this way, the program is designed to equip students to anticipate and address the many ethical and policy dilemmas that scientific and engineering knowledge provoke, especially as these bear on health, the environment, and community life around the world.

The STS minor is relevant for students embarking on STEM careers as well as those majoring in social science or humanities fields. The curriculum is flexible, enabling students to customize their studies in accordance with their individual interests.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

## Required Course

Code	Title	Hours
SOCL 2485	Environment, Technology, and Society	4
or HIST 2220	History of Technology	

## STS Electives

Code	Title	Hours
------	-------	-------

### Foundational Requirement

Complete one 1000–2000-level course from the following: 4

CIVE 1200	How Cities Work: Experiencing Urban Infrastructure	
ENVR 1104	Natural Disasters and Catastrophes	
HIST 1225	Gender, Race, and Medicine	
HIST 2233	The History of Medicine in North America	
PHIL 1145	Technology and Human Values	
PHIL 3050	Information and Uncertainty	
POLS 2390	Science, Technology, and Public Policy	
SOCL 1280	The Twenty-First-Century Workplace	
WMNS 2505	Digital Feminisms	

### Advanced Electives

Complete two of the following: 8

ANTH 3418	Wired/Unwired: Cybercultures and Technopolitics	
-----------	---	--

ENGL 3340	Technologies of Text	
PHIL 4510	Philosophy of Science	
PPUA 5264	Energy Democracy and Climate Resilience: Technology, Policy, and Social Change	
SOCL 4528	Computers and Society	

## GPA Requirement

2.000 GPA required in the minor

### Sociology, Minor

The sociology minor at Northeastern helps students to understand how to apply empirical evidence to address a wide range of social problems. Sociology minors can take courses in quantitative and qualitative research methods and theoretical and empirical reasoning. Elective courses draw on our faculty's expertise in violence, family life, health and illness, the environment, technology, gender and sexuality, occupations and professions, social movements, the law, and social inequality. This minor can complement a wide range of majors throughout the university, providing students with a range of skills to better understand their place in complex social environments.

## Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

## Introduction to Sociology

Code	Title	Hours
SOCL 1101	Introduction to Sociology	4

## Electives

Code	Title	Hours
Complete three SOCL courses, at least one course must be from the 3000 level or above.		12

## GPA Requirement

2.000 GPA required in the minor

### Accelerated Bachelor/Graduate Degree Programs

The College of Social Sciences and Humanities offers a number of bachelor's/graduate degree programs that allow students to accelerate the attainment of the graduate degree by applying graduate credits taken as an undergraduate toward both the undergraduate and graduate degrees. Degrees are earned sequentially, with the bachelor's degree attainment followed by coursework to complete the graduate degree. See additional information on accelerated bachelor/graduate degree programs (<https://registrar.northeastern.edu/article/plusone-program-accelerated-bachelorgraduate-degree-programs/>).

### University Faculty

#### Ammar Aamer

Associate Teaching Professor, College of Professional Studies; University of Tennessee, Knoxville, PhD

**Anis Abdulle**

Assistant Cooperative Education Coordinator, Computer Sciences; Northeastern University, BA

**Mehdi Abedi**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Northeastern University, PhD

**Margot Abels**

Assistant Teaching Professor, Women's, Gender, and Sexuality Studies and Human Services; Northeastern University, PhD

**Emad Aboelela**

Associate Teaching Professor, Electrical and Computer Engineering; University of Miami, PhD

**Max Abrahms**

Associate Professor, Political Science; University of California, Los Angeles, PhD

**Ali Abur**

Professor, Electrical and Computer Engineering; Ohio State University, PhD

**Sunayan Acharya**

Senior Lecturer, Finance; University of Kentucky, PhD

**Daniel Adams**

Associate Professor, Architecture; Harvard University, MArch

**Libby Adler**

Professor, Law and Women's, Gender, and Sexuality Studies; Northeastern University, JD

**Laura Adrien**

Assistant Cooperative Education Coordinator, College of Engineering; University of Massachusetts, Boston, MA

**Jeffrey Agar**

Associate Professor, Chemistry and Chemical Biology and Pharmaceutical Sciences; University of Georgia, PhD

**Rajesh Aggarwal**

Professor, Finance; Harvard University, PhD

**Christina Agostinelli-Fucile**

Assistant Teaching Professor, World Languages Center; State University of New York, Buffalo, PhD

**Ruth Aguilera**

Darla and Frederick Brodsky Trustee Professor in Global Business, International Business and Strategy; Harvard University, PhD

**Michael Ahern**

Assistant Cooperative Education Coordinator, College of Engineering; Salem State University, MEd

**Amal Ahmed**

Associate Professor, Computer Sciences; Princeton University, PhD

**Jaehan Ahn**

Assistant Professor, Accounting; University of Oklahoma, PhD

**Laurel Ahnert**

Visiting Lecturer, Media and Screen Studies; Georgia State University, PhD

**Michal Aibin**

Visiting Associate Teaching Professor, Computer Sciences; Wroclaw University of Technology (Poland), PhD

**Sophia Ainslie**

Associate Teaching Professor, Art + Design; School of the Museum of Fine Arts/Tufts University, MFA

**Zeynep Aksehirli**

Associate Teaching Professor, Management and Organizational Development; University of California, Los Angeles, PhD

**Mohammad Alam**

Professor, Economics; University of Western Ontario (Canada), PhD

**Noor E. Alam**

Assistant Professor, Mechanical and Industrial Engineering; University of Alberta (Canada), PhD

**Brian Albrecht**

Associate Cooperative Education Coordinator, College of Engineering; Carnegie Mellon University, MS

**Daniel Aldrich**

Professor, Political Science and Public Policy and Urban Affairs; Harvard University, PhD

**Todd M. Alessandri**

Associate Professor, International Business and Strategy; University of North Carolina, Chapel Hill, PhD

**Jacques Alexis**

Associate Teaching Professor, College of Professional Studies; University of Maryland, PhD

**Nicole Aljoe**

Associate Professor, English and Cultures, Societies, and Global Studies; Tufts University, PhD

**Kristen Allison**

Assistant Professor, Communication Sciences and Disorders; University of Wisconsin, Madison, PhD

**Michael Allshouse**

Assistant Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Meryl Alper**

Assistant Professor, Communication Studies; University of Southern California, PhD

**Shannon Alpert**

Assistant Teaching Professor, College of Professional Studies; University of North Carolina, Charlotte, PhD

**Akram N. Alshawabkeh**

University Distinguished Professor, George A. Snell Professor of Engineering, Civil and Environmental Engineering; Louisiana State University, PhD

**Sari Altschuler**

Associate Professor, English; City University of New York, PhD

**Ismet B. Altunkaynak**

Assistant Teaching Professor, Physics; Northeastern University, PhD

**Christopher Amato**

Assistant Professor, Computer Sciences; University of Massachusetts, Amherst, PhD

Professor, Physics; University of California, Santa Cruz, PhD

**Sumner Barenberg**

Professor of the Practice, Bioengineering; Case Western Reserve University, PhD

**Christopher Barney**

Visiting Assistant Professor, Game Design; Azusa Pacific University, BS

**Cynthia Baron**

Senior Academic Specialist, College of Professional Studies; Northeastern University, MBA

**Timothy Barr**

Postdoctoral Teaching Associate, Communication Studies; University of Pittsburgh, PhD

**Amilcar Barreto**

Professor, Cultures, Societies, and Global Studies and International Affairs; State University of New York, Buffalo, PhD

**Lisa Barrett**

University Distinguished Professor, Psychology; University of Waterloo (Canada), PhD

**Margarita Barrios Ponce**

Assistant Teaching Professor, Art + Design; Yale University, MFA

**Carey Barry**

Assistant Clinical Professor, Physician Assistant Program; Quinnipiac University, MS

**Yakov Bart**

Associate Professor and Thomas E. Moore Faculty Fellow, Marketing; University of California, Berkeley, PhD

**Macayla Bartucca**

Assistant Clinical Professor, Pharmacy and Health Systems Sciences; University of Rhode Island, PhD

**Stefano Basagni**

Associate Professor, Electrical and Computer Engineering; University of Texas, Dallas, PhD

**Marla Baskerville**

Associate Professor, Management and Organizational Development; Tulane University, PhD

**John Basl**

Associate Professor, Philosophy and Religion; University of Wisconsin, Madison, PhD

**Maureen Basmajian**

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; Boston College, MBA

**Linnea Basu**

Associate Cooperative Education Coordinator, College of Social Sciences and Humanities; Northeastern University, MS

**Oleg Batishchev**

Professor of the Practice, Physics; Moscow Institute of Physics and Technology (Russia), PhD

**Allison Bauer**

Associate Teaching Professor, Health Sciences; University of Pennsylvania, PhD

**Christopher E. Beasley**

Associate Professor, Mathematics; Princeton University, PhD

**Nicholas Beauchamp**

Assistant Professor, Political Science; New York University, PhD

**Michael Beaudet**

Professor of the Practice, Journalism; Northeastern University, MA

**Laura Beerits**

Assistant Teaching Professor, English; University of Texas, Austin, PhD

**Gail S. Begley**

Teaching Professor, Biology; Boston University, PhD

**Mehdi Behroozi**

Assistant Professor, Mechanical and Industrial Engineering; University of Minnesota, PhD

**Edward Beighley**

Professor, Civil and Environmental Engineering; University of Maryland, PhD

**Leo Beletsky**

Professor, Law and Health Sciences; Temple University, JD

**Jonathan Bell**

Assistant Professor, Computer Sciences; Columbia University, PhD

**Chiara Bellini**

Assistant Professor, Bioengineering; University of Calgary (Canada), PhD

**Kylie Bemis**

Lecturer, Computer Sciences; Purdue University, PhD

**Sidi Bencherif**

Assistant Professor, Chemical Engineering; Carnegie Mellon University, PhD

**Jonathan Benda**

Associate Teaching Professor, Writing Program; Syracuse University, PhD

**Elisabeth Bennett**

Associate Teaching Professor, College of Professional Studies; University of Georgia, PhD

**James C. Benneyan**

Professor, Mechanical and Industrial Engineering; University of Massachusetts, Amherst, PhD

**Iris Berent**

Professor, Psychology; University of Pittsburgh, PhD

**Dionisio Bernal**

Professor, Civil and Environmental Engineering; University of Tennessee, PhD

**Elena Bernal Mor**

Assistant Teaching Professor, Electrical and Computer Engineering; Universitat Politècnica de València (Spain), PhD

**Eugene A. Bernstein**

Associate Teaching Professor, Pharmaceutical Sciences; Ivanovo Medical Institute (Russia), PhD

**Michael Bessette**

Assistant Clinical Professor, Physician Assistant Program; Sackler School of Medicine, PhD

**Craig T. Bettinson**

Director of Cooperative Education, College of Arts, Media and Design; Northeastern University, MEd

**Penny Beuning**

Professor, Chemistry and Chemical Biology; University of Minnesota, PhD

**Peter J. Bex**

Professor, Psychology; Cardiff University (United Kingdom), PhD

**Rahul Bhargava**

Assistant Professor, Journalism and Art + Design; Massachusetts Institute of Technology, MA

**Shawn Bhimani**

Assistant Professor, Supply Chain and Information Management; Duke University, PhD

**Adeel Bhutta**

Associate Teaching Professor, Computer Sciences; University of Central Florida, PhD

**Dapeng Bi**

Assistant Professor, Physics; Brandeis University, PhD

**Timothy Bickmore**

Professor, Computer Sciences; Massachusetts Institute of Technology, PhD

**Doug Bielmeier**

Associate Teaching Professor, Music; Argosy University, PhD

**Priyanka Bishnoi**

Assistant Cooperative Education Coordinator, Khoury College of Computer Sciences; University of Southern California, MS

**Scott Bishop**

Professor of the Practice, Architecture; University of Pennsylvania, MArch

**Nathan Blake**

Teaching Professor, Media and Screen Studies; University of California, PhD

**Samuel J. Blank**

Professor, Mathematics; Brandeis University, PhD

**Vance Blankers**

Zelevinsky Postdoctoral Researcher, Mathematics; Colorado State University, PhD

**Robert J. Blaser**

Associate Cooperative Education Coordinator, Pharmacy and Health Systems Sciences; Massachusetts College of Pharmacy, MS

**Jonathan Blazek**

Assistant Professor, Physics; University of California, Berkeley, PhD

**John Bleakney**

Assistant Cooperative Education Coordinator, Graduate School of Engineering; State University of New York, Albany, MA

**Francis Blessington**

Professor, English; Brown University, PhD

**Aaron Block**

Associate Teaching Professor, English; Emerson College, MFA

**Elizabeth M. Bloom**

Teaching Professor, Law; Georgetown University, JD

**Linda Blum**

Professor, Sociology and Anthropology; University of California, Berkeley, PhD

**Rhonda M. Board**

Associate Professor, Nursing; Ohio State University, PhD

**Erika Boeckeler**

Associate Professor, English; Harvard University, PhD

**Samantha Boehm**

Assistant Teaching Professor, Theatre; Brandeis University, MA

**Philip Bogden**

Associate Teaching Professor, Computer Sciences; University of California, San Diego, PhD

**Eric Bogert**

Assistant Teaching Professor, Supply Chain and Information Management; University of Georgia, PhD

**Charles Bognanni**

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MEd

**Christopher Bolick**

Assistant Teaching Professor, College of Professional Studies; Western Carolina University, MS

**Tamara Bonaci**

Lecturer, Computer Sciences; University of Washington, PhD

**Lorraine A. Book**

Associate Clinical Professor, Communication Sciences and Disorders; Florida State University, PhD

**Raymond G. Booth**

Professor, Pharmaceutical Sciences and Chemistry and Chemical Biology; University of California, San Francisco, PhD

**Monica Borgida**

Assistant Teaching Professor, College of Professional Studies; University of Pisa and Bologna (Italy), PhD

**Skylar Borgstrom**

Postgraduate Teaching Fellow, Art + Design; State University of New York, Buffalo, MA

**Michelle Borkin**

Assistant Professor, Computer Sciences; Harvard University, PhD

**Natalie Bormann**

Teaching Professor, Political Science; University of Newcastle upon Tyne (United Kingdom), PhD

**Jeffery A. Born**

Professor, Finance; University of North Carolina, Chapel Hill, PhD

**Jordon Bosse**

Assistant Professor, Nursing; University of Massachusetts, Amherst, PhD

**Christopher Bosso**

Professor, Public Policy and Urban Affairs; University of Pittsburgh, PhD

**Ekaterina Botchkovar**

Associate Professor, Criminology and Criminal Justice; North Carolina State University, PhD

**Kevin Boudreau**

Associate Professor, Entrepreneurship and Innovation; Massachusetts Institute of Technology, PhD

**Alma Bournazian**

Senior Academic Specialist, American Sign Language; Western Maryland College, MS

**Stacey Bourns**

Professor, World Languages Center; University of Texas, Austin, PhD

**Carla Bouwmeester**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; Massachusetts College of Pharmacy, PharmD

**Jennifer L. Bowen**

Associate Professor, Marine and Environmental Sciences; Boston University, PhD

**James Boyer**

Assistant Academic Specialist, Accounting; Northeastern University, MBA

**Nicole M. Boyson**

Professor, Finance; Ohio State University, PhD

**David Brady**

Teaching Professor, Electrical and Computer Engineering; Princeton University, PhD

**Anthony Braga**

Distinguished Professor, Criminology and Criminal Justice; Rutgers University, PhD

**Ontonye Braide-Moncoeur**

Associate Teaching Professor, Chemistry and Chemical Biology; University of Florida, PhD

**Steven Braun**

Visiting Assistant Professor, Art + Design; Yale University, MS

**Maxim Braverman**

Professor, Mathematics; Tel Aviv University (Israel), PhD

**Heather C. Brenhouse**

Associate Professor, Psychology; Northeastern University, PhD

**Becky A. Briesacher**

Associate Professor, Pharmacy and Health Systems Sciences; University of Maryland, Baltimore, PhD

**Amy M. Briesch**

Associate Professor, Applied Psychology; University of Connecticut, PhD

**Elizabeth Britt**

Professor, English; Rensselaer Polytechnic Institute, PhD

**Kevin Broadbelt**

Associate Teaching Professor, Biotechnology; City University of New York, PhD

**Mary E. Bronski**

Assistant Clinical Professor, Nursing; Northeastern University, PhD

**Dana H. Brooks**

Research Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Cammy Brothers**

Associate Professor, Architecture and Art + Design; Harvard University, PhD

**Adam Broughton**

Assistant Clinical Professor, Physician Assistant Program; Northeastern University, MS

**Colin Brown**

Assistant Teaching Professor, Political Science; Harvard University, PhD

**Nicholas Brown**

Associate Teaching Professor, Architecture and History; University of Illinois, Urbana-Champaign, PhD

**Nicholas Brown**

Assistant Teaching Professor, Graduate School of Engineering; University of California, Los Angeles, PhD

**Philip M. Brown**

University Distinguished Professor, Sociology and Anthropology and Health Sciences; Brandeis University, PhD

**Timothy Brown**

Professor, History; University of California, Berkeley, PhD

**Todd A. Brown**

Clinical Instructor, Pharmacy and Health Systems Sciences; Northeastern University, MHP

**Maria Brucato**

Assistant Teaching Professor, World Languages Center; University of Texas, PhD

**Rodney Brunson**

Thomas P. O'Neill Jr. Chair of Public Life, Criminology and Criminal Justice and Political Science; University of Illinois, Chicago, PhD

**Elizabeth Bucar**

Professor, Philosophy and Religion; University of Chicago, PhD

**David E. Budil**

Associate Professor, Chemistry and Chemical Biology; University of Chicago, PhD

**Jamie Bunce**

Assistant Teaching Professor, Biology; University of Connecticut, PhD

**Lucy Bunning**

Associate Teaching Professor, College of Professional Studies; Lesley University, PhD

**Jeffrey Burds**

Associate Professor, History; Yale University, PhD

**Cheryl A. Burke**

Assistant Clinical Professor, Nursing; Massachusetts General Hospital Institute of Health Professions, PhD

**Lynn H. Burke**

Senior Cooperative Education Coordinator, College of Arts, Media and Design; University of Massachusetts, Amherst, MED

**Margaret A. Burnham**

University Distinguished Professor, Law; University of Pennsylvania, LLB

**José Buscaglia**

Professor, Cultures, Societies, and Global Studies; University of Buffalo, PhD

**Jeremy Bushnell**

Associate Teaching Professor, Writing Program; University of Arizona, Tucson, MFA

**Ahmed A. Busnaina**

University Distinguished Professor, William Lincoln Smith Professor of Mechanical Engineering, Mechanical and Industrial Engineering; Oklahoma State University, PhD

**Bobette Buster**

Professor of the Practice, Journalism; Northwestern University, MFA

**Michael Butera**

Assistant Clinical Professor, Nursing; Northeastern University, MS

**Qinghong Cai**

Associate Teaching Professor, World Languages Center; University of Kansas, MS

**Victoria Cain**

Associate Professor, History; Columbia University, PhD

**Paula Caligiuri**

Distinguished Professor of Global Leadership, International Business and Strategy; Pennsylvania State University, PhD

**Lisa M. Campagnoni**

Associate Cooperative Education Coordinator, College of Science; Northeastern University, MA

**James Campasano**

Assistant Teaching Professor, Finance; University of Massachusetts, Amherst, PhD

**Octavia Camps**

Professor, Electrical and Computer Engineering; University of Washington, PhD

**Yanet Canavan**

Associate Academic Specialist, World Languages Center; Salem State College, MA

**Kristopher Cannon**

Associate Teaching Professor, Media and Screen Studies; Georgia State University, PhD

**Mira Cantor**

Professor, Art + Design; University of Illinois, Urbana-Champaign, MFA

**Greg Cantrell**

Associate Teaching Professor, Computer Sciences; Mississippi State University, PhD

**Jianfei Cao**

Assistant Professor, Economics; University of Chicago, PhD

**Justin Caouette**

Visiting Lecturer, Philosophy and Religion; University of Calgary (Canada), PhD

**Luca Caracoglia**

Associate Professor, Civil and Environmental Engineering; University of Trieste (Italy), PhD

**Benjamin Caras**

Assistant Teaching Professor, Art + Design; University of Massachusetts, Amherst, MFA

**Peter Cardillo**

Assistant Cooperative Education Coordinator, Graduate School of Engineering; Boston College, MS

**Alexa A. Carlson**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; Butler University, PharmD

**Mary Carney**

Senior Cooperative Education Coordinator, Bouvé College of Health Sciences; Boston College, MSN

**Heather Carpenter-Oliveira**

Associate Cooperative Education Coordinator, College of Engineering; Northeastern University, MS

**Jonathan Carr**

Associate Teaching Professor, Theatre; Columbia University, MFA

**Michelle Carr**

Senior Lecturer, Communication Studies; Kingston University (United Kingdom), MA

**Sara Carr**

Assistant Professor, Architecture; University of California, Berkeley, PhD

**Rebecca L. Carrier**

Professor, Chemical Engineering; Massachusetts Institute of Technology, PhD

**Matthew Carroll**

Professor of the Practice, Journalism; Northeastern University, BS

**Patricia Case**

Assistant Teaching Professor, Health Sciences; Harvard University, PhD

**Cristian Cassella**

Assistant Professor, Electrical and Computer Engineering; Carnegie Mellon University, PhD

**N. Fadeke Castor**

Assistant Professor, Philosophy and Religion and African and African-American Studies; University of Chicago, PhD

**Smajl Cenjic**

Assistant Cooperative Education Coordinator, Khoury College of Computer Sciences; Cambridge College, MA

**Jana Cephas**

Assistant Professor, Architecture; Harvard University, PhD

**Robert J. Cersosimo**

Associate Professor, Pharmacy and Health Systems Sciences; University of Utah, PharmD

**Christopher Cesario**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**Yunrong Chai**

Associate Professor, Biology; Cornell University, PhD

**Srirupa Chakraborty**

Assistant Professor, Chemical Engineering and Chemistry and Chemical Biology; State University of New York, Buffalo, PhD

**Paul M. Champion**

Professor, Physics; University of Illinois, Urbana-Champaign, PhD

**Chee Chan**

Associate Academic Specialist, Marketing; Michigan State University, PhD

**Katherine Chan**

Assistant Teaching Professor, Music; University of Minnesota, PhD

**Raman Chandrasekar**

Clinical Professor, Computer Sciences; Tata Institute of Fundamental Research/University of Bombay (India), PhD

**Chiu Chang**

Associate Teaching Professor, Marketing; Indiana University, PhD

**Hsiang Chang**

Zelevinsky Postdoctoral Researcher, Mathematics; Northwestern University, PhD

**Divya Chaudhary**

Assistant Teaching Professor, Computer Sciences; University of Delhi (India), PhD

**Heidi Cheerman**

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Massachusetts General Hospital Institute of Health Professions, DPT

**Changyan Chen**

Research Professor, Center for Drug Discovery; Columbia University, PhD

**Jingjing Chen**

Visiting Assistant Professor, Finance; Washington State University, PhD

**Qin Chen**

Professor, Civil and Environmental Engineering and Marine and Environmental Sciences; Old Dominion University, PhD

**Esther Chewning**

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; Suffolk University, MS

**Cherese Childers-McKee**

Assistant Teaching Professor, College of Professional Studies; University of North Carolina, Greensboro, PhD

**W. Paul Chiou**

Assistant Teaching Professor, Finance; Rutgers University, PhD

**David R. Choffnes**

Associate Professor, Computer Sciences; Northwestern University, PhD

**John Choi**

Assistant Cooperative Education Coordinator, Pharmaceutical Sciences; Harvard University, MS

**Chun-An Chou**

Assistant Professor, Mechanical and Industrial Engineering; Rutgers University, PhD

**Kaushik Roy Chowdhury**

Professor, Electrical and Computer Engineering; University of Cincinnati, MS

**Ken Y. Chung**

Assistant Teaching Professor, Chemistry and Chemical Biology; Michigan State University, PhD

**Myojung Chung**

Assistant Professor, Journalism; Syracuse University, PhD

**Samuel Chung**

Assistant Professor, Bioengineering; Harvard University, PhD

**Hillary Chute**

Distinguished Professor, English and Art + Design; Rutgers University, PhD

**Dawn M. Cisewski**

Associate Teaching Professor, Psychology; Indiana University of Pennsylvania, PsyD

**Paolo Ciucciarelli**

Professor, Art + Design; Politecnico de Milano (Italy), MARCH

**Sophine Clachar**

Assistant Teaching Professor, Computer Sciences; University of North Dakota, PhD

**Bruce H. Clark**

Associate Professor, Marketing; Stanford University, PhD

**Edmund L. Clark**

Associate Academic Specialist, Entrepreneurship and Innovation; Clark University, MBA

**Elisha Clark**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Boston University, MBA

**Heather Clark**

Professor, Bioengineering and Chemistry and Chemical Biology; University of Michigan, PhD

**Stephen B. Clark**

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**Paul Closas**

Assistant Professor, Electrical and Computer Engineering; Universitat Politècnica de Catalunya (Spain), PhD

**Emily Clough**

Assistant Professor, Political Science and International Affairs; Harvard University, PhD

**Monica Y. Coady**

Visiting Professor, Computer Sciences; University of British Columbia (Canada), PhD

**Robin Coddling**

Associate Professor, Applied Psychology; Syracuse University, PhD

**Mauricio Codesso**

Visiting Professor, Accounting; University of Santa Catarina (Brazil), PhD

**John D. Coley**

Associate Professor, Psychology; University of Michigan, PhD

**Greg Collier**

Professor of the Practice, Entrepreneurship and Innovation; Eastern Michigan University, MBA

**Randall C. Colvin**

Associate Professor, Psychology; University of Illinois, Urbana-Champaign, PhD

**Sally Conant**

Associate Cooperative Education Coordinator, College of Engineering; Salve Regina University, MA

**Michael Conley**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; Northeastern University, PharmD

**Richard Conley**

Associate Cooperative Education Coordinator, College of Social Sciences and Humanities; Boston University, JD

**Kelly Conn**

Associate Teaching Professor, College of Professional Studies; Boston University, PhD

**Thomas Consi**

Teaching Professor, Electrical and Computer Engineering; Columbia University, PhD

**Adam I. Cooper**

Associate Teaching Professor, Linguistics; Cornell University, PhD

**Seth Cooper**

Assistant Professor, Computer Sciences; University of Washington, PhD

**Gene D. Cooperman**

Professor, Computer Sciences; Brown University, PhD

**Ryan Cordell**

Associate Professor, English; University of Virginia, PhD

**Lino Coria Mendoza**

Associate Teaching Professor, Computer Sciences; University of British Columbia (Canada), PhD

**Marie B. Corkery**

Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**Patricia Corrigan**

Assistant Cooperative Education Coordinator, College of Science; Suffolk University, MA

**Felipe Cortes**

Assistant Professor, Finance; Washington University, St. Louis, PhD

**Ahmet Coskun**

Associate Teaching Professor, Mechanical and Industrial Engineering; Middle East Technical University (Turkey), PhD

**Xavier Costa**

Professor, Architecture; University of Pennsylvania, PhD

**Hugh G. Courtney**

Professor, International Business and Strategy; Massachusetts Institute of Technology, PhD

**Arthur J. Coury**

University Distinguished Professor, Chemical Engineering; University of Minnesota, PhD

**Erin J. Cram**

Professor, Biology; University of California, Berkeley, PhD

**Frederick Crane**

Senior Academic Specialist, Entrepreneurship and Innovation; Bradford University, PhD

**Justin D. Crane**

Assistant Professor, Biology; McMaster University (Canada), PhD

**Fiona Creed**

Associate Teaching Professor, College of Professional Studies; University College, Cork (United Kingdom), PhD

**William F. Crittenden**

Professor, International Business and Strategy; University of Arkansas, PhD

**Wendy Crocker**

Associate Teaching Professor, College of Professional Studies; University of Western Ontario (Canada), PhD

**Danielle Crooks**

Assistant Professor, Health Sciences and Sociology and Anthropology; Columbia University, PhD

**Peter Crooks**

Zelevinsky Postdoctoral Researcher, Mathematics; University of Toronto, PhD

**Maia Cross**

Professor, Political Science and International Affairs; Princeton University, PhD

**Robert Cross**

Assistant Teaching Professor, History; Princeton University, PhD

**Pedro Miguel Cruz**

Assistant Professor, Art + Design; Universidade de Coimbra (Portugal), PhD

**Daniel Cuenca**

Assistant Academic Specialist, World Languages Center; Boston College, PhD

**Alvaro Cuervo-Cazurra**

Professor and Lloyd Mullen Research Fellow, International Business and Strategy; Massachusetts Institute of Technology, PhD

**Carlos Cuevas**

Professor, Criminology and Criminal Justice; Alliant International University, PhD

**Meng Cui**

Research Associate Professor, Center for Drug Discovery; Jilin University (China), PhD

**Derek Curry**

Assistant Professor, Art + Design; University of California, Los Angeles, MFA

**Mary Ellen Cushman**

Professor, English; Rensselaer Polytechnic Institute, PhD

**Guohao Dai**

Associate Professor, Bioengineering; Massachusetts Institute of Technology, PhD

**Elise J. Dallimore**

Associate Professor, Communication Studies; University of Washington, PhD

**James Dana Jr.**

Professor, Economics and International Business and Strategy; Massachusetts Institute of Technology, PhD

**Dan Danielsen**

Professor, Law; Harvard University, JD

**Luis Dau**

Associate Professor and Robert and Denise DiCenso Endowed Professor, International Business and Strategy; University of South Carolina, PhD

**Juliet Davidow**

Assistant Professor, Psychology; Columbia University, PhD

**Duncan Davis**

Assistant Teaching Professor, Engineering; North Carolina State University, PhD

**Martha Davis**

Professor, Law; University of Chicago, JD

**Nicole Davis**

Assistant Clinical Professor, Applied Psychology; Simmons College, MS

**Patricia Davis**

Associate Professor, Communication Studies; University of California, San Diego, PhD

**Theo Davis**

Professor, English; Johns Hopkins University, PhD

**Alexander Dawson**

Postgraduate Teaching Fellow, Art + Design; Rhode Island School of Design, MS

**Tovah Day**

Assistant Professor, Biology; Boston University, PhD

**Richard Daynard**

University Distinguished Professor, Law; Massachusetts Institute of Technology, PhD; Harvard University, JD

**Anthony P. De Ritis**

Professor, Music; University of California, Berkeley, PhD

**Michael Dean**

Assistant Teaching Professor, College of Professional Studies; Columbia University, PhD

**Adenekan (Nick) Dedeke**

Senior Lecturer, Supply Chain and Information Management; Technische Universität Kaiserslautern (Germany), PhD

**Melissa DeGrandis**

Assistant Cooperative Education Coordinator, College of Engineering; Ball State University, MA

**Mohammad Dehghani**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Western New England University, PhD

**Adriana DelGizzi**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Johns Hopkins University, MEd

**Candice Delmas**

Associate Professor, Philosophy and Religion and Political Science; Boston University, PhD

**Emrecan Demirors**

Research Assistant Professor, Electrical and Computer Engineering; Northeastern University, PhD

**John Dencker**

Professor, Management and Organizational Development; Harvard University, PhD

**Jack Dennerlein**

Professor, Physical Therapy, Movement, and Rehabilitation Sciences; University of California, Berkeley, PhD

**Megan Denver**

Assistant Professor, Criminology and Criminal Justice; State University of New York, Albany, PhD

**Alexander DePaoli**

Assistant Teaching Professor, Marketing; Stanford University, PhD

**Joseph DePasquale**

Associate Teaching Professor, Chemistry and Chemical Biology; Drexel University, PhD

**Jacob Depue**

Assistant Teaching Professor, Communication Studies; University of Minnesota, PhD

**Leila F. Deravi**

Assistant Professor, Chemistry and Chemical Biology; Vanderbilt University, PhD

**Nate Derbinsky**

Associate Teaching Professor, Computer Sciences; University of Michigan, Ann Arbor, PhD

**Harm Derksen**

Professor, Mathematics; University of Basel (Switzerland), PhD

**Nishil Desai**

Associate Teaching Professor, Pharmaceutical Sciences; Mercer University, PhD

**Peter J. Desnoyers**

Associate Professor, Computer Sciences; University of Massachusetts, Amherst, PhD

**David A. DeSteno**

Professor, Psychology; Yale University, PhD

**H. William Detrich**

Professor, Marine and Environmental Sciences; Yale University, PhD

**Darin Detwiler**

Associate Teaching Professor, College of Professional Studies; Northeastern University, PhD

**John W. Devlin**

Professor, Pharmacy and Health Systems Sciences; University of Toronto (Canada), PharmD

**Janet Dewan**

Assistant Clinical Professor, Nursing; Northeastern University, PhD

**Christa Dhimo**

Professor of the Practice, Biotechnology; Northeastern University, MS

**Alessandra Di Credico**

Associate Teaching Professor, Physics; University of Rome (Italy), PhD

**Michele Di Piero**

Assistant Professor, Physics; University of Texas, Austin, PhD

**Panagoula Diamanti-Karanou**

Assistant Teaching Professor, International Affairs; Northeastern University, PhD

**Jacqueline Diani**

Senior Cooperative Education Coordinator, Bouvé College of Health Sciences; University of Virginia, MEd

**Martin Dias**

Associate Teaching Professor, Supply Chain and Information Management; Bentley University, PhD

**Amy DiBattista**

Associate Teaching Professor, Psychology; Northeastern University, PhD

**William Dickens**

Professor, Economics and Public Policy and Urban Affairs; Massachusetts Institute of Technology, PhD

**Elizabeth Dillon**

Professor, English; University of California, Berkeley, PhD

**Charles DiMarzio**

Associate Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Aidong A. Ding**

Associate Professor, Mathematics; Cornell University, PhD

**Kathleen C. Dioli**

Associate Cooperative Education Coordinator, Chemistry and Chemical Biology; Bowling Green State University, MA

**Brandon Dionne**

Assistant Clinical Professor, Pharmacy and Health Systems Sciences; University of New England, PharmD

**Daniel L. Distel**

Research Professor, Marine and Environmental Sciences; University of California, San Diego, PhD

**Benjamin Dittbrenner**

Associate Teaching Professor, Marine and Environmental Sciences; University of Washington, PhD

**Jenna DiTullio**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Boston University, MEd

**Margarita V. DiVall**

Clinical Professor, Pharmacy and Health Systems Sciences; Northeastern University, PharmD

**Mary Kate Dodgson**

Assistant Professor, Accounting; University of Massachusetts, Amherst, PhD

**Lisa Cantwell Doherty**

Associate Cooperative Education Coordinator, College of Social Sciences and Humanities; Northeastern University, MA

**Silvia Dominguez**

Associate Professor, Sociology and Anthropology; Boston University, PhD

**Olya Domoradova**

Postgraduate Teaching Fellow, Art + Design; ArtEZ University of Arts (Netherlands), MS

**Jason Donati**

Teaching Professor, Art + Design; Rochester Institute of Technology, MFA

**Hua Dong**

Senior Academic Specialist, World Languages Center; Emerson College, MA

**Sijia Dong**

Assistant Professor, Chemistry and Chemical Biology; California Institute of Technology, PhD

**Pamela Donlan**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, PhD

**Maeve Donnelly**

Assistant Clinical Professor, Applied Psychology; Western New England University, PhD

**Larisa Doroshenko**

Postdoctoral Teaching Associate, Communication Studies; University of Wisconsin, Madison, PhD

**Kristen Dorsey**

Associate Professor, Electrical and Computer Engineering and Physical Therapy, Movement, and Rehabilitation Sciences; Carnegie Mellon University, PhD

**Brenda Douglas**

Associate Clinical Professor, Nursing; Northeastern University, DNP

**Daniel C. Douglass**

Associate Teaching Professor, Marine and Environmental Sciences; University of Wisconsin, PhD

**Mark Douglass**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; University of Michigan, PharmD

**Kevin Drakulich**

Associate Professor, Criminology and Criminal Justice; University of Washington, PhD

**Timothy Dransfield**

Associate Teaching Professor, Chemistry and Chemical Biology; Harvard University, PhD

**Andrea Dropkin**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Bentley University, MBA

**Laura Dudley**

Associate Clinical Professor, Applied Psychology; Northeastern University, PhD

**Lisa Duffy**

Assistant Professor, Nursing; Boston College, DNP

**Tara Duffy**

Associate Teaching Professor, Marine and Environmental Sciences; State University of New York, Stony Brook, PhD

**Daniel M. Dulaski**

Teaching Professor, Civil and Environmental Engineering; University of Massachusetts, Amherst, PhD

**Evan Dummit**

Assistant Teaching Professor, Mathematics; University of Wisconsin, Madison, PhD

**Jill Dupree**

Assistant Teaching Professor, Economics; University of Colorado, Boulder, PhD

**Kathleen Durant**

Assistant Teaching Professor, Computer Sciences; Harvard University, PhD

**Avik Dutt**

Assistant Professor, Electrical and Computer Engineering; Cornell University, PhD

**Jennifer G. Dy**

Professor, Electrical and Computer Engineering; Purdue University, PhD

**Rashmi Dyal-Chand**

Professor, Law; Harvard University, JD

**Salvatore D'Oro**

Research Assistant Professor, Electrical and Computer Engineering; University of Catania (Italy), PhD

**Eno Ebong**

Associate Professor, Chemical Engineering; Rensselaer Polytechnic Institute, PhD

**Stephanie Eby**

Associate Teaching Professor, Marine and Environmental Sciences; Syracuse University, PhD

**Rajagopal Echambadi**

Professor, Entrepreneurship and Innovation; University of Houston, PhD

**Matthew Eckelman**

Associate Professor, Civil and Environmental Engineering; Yale University, PhD

**Kimberly Eddleston**

Professor, Entrepreneurship and Innovation; University of Connecticut, PhD

**Bethany R. Edmunds**

Teaching Professor, Computer Sciences; Rutgers University, PhD

**Laurie Edwards**

Teaching Professor, Writing Program; Emerson College, MFA

**Jessica Edwards George**

Associate Clinical Professor, Applied Psychology; Northeastern University, PhD

**Christopher L. Egan**

Assistant Cooperative Education Coordinator, College of Science; Boston University, MA

**Robert C. Eidson**

Assistant Teaching Professor, Psychology; Northeastern University, PhD

**Stanley J. Eigen**

Professor, Mathematics; McGill University (Canada), PhD

**Adam Ekenseair**

Associate Teaching Professor, Chemical Engineering; University of Texas, Austin, PhD

**Ehsan Elhamifar**

Assistant Professor, Computer Sciences; Johns Hopkins University, PhD

**Tina Eliassi-Rad**

Professor, Computer Sciences; University of Wisconsin, Madison, PhD

**Ryan Ellis**

Assistant Professor, Communication Studies; University of California, San Diego, PhD

**Constance Emerson**

Associate Teaching Professor, College of Professional Studies; Purdue University, West Lafayette, MS

**John R. Engen**

Distinguished Professor, Chemistry and Chemical Biology and Barnett Institute; University of Nebraska, Lincoln, PhD

**Christen Enos**

Associate Teaching Professor, Writing Program; Emerson College, MFA

**Michael Enright**

Pierre Choueiri Family Professor in Global Business, International Business and Strategy; Harvard University, PhD

**Slava S. Epstein**

Professor, Biology; Moscow State University (Russia), PhD

**Randall Erb**

Associate Professor, Mechanical and Industrial Engineering; Duke University, PhD

**Deniz Erdogmus**

Professor, Electrical and Computer Engineering; University of Florida, PhD

**Ozlem Ergun**

Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Cuneyt Eroglu**

Associate Professor, Supply Chain and Information Management; Ohio State University, PhD

**Bilge Erten**

Assistant Professor, International Affairs and Economics; University of Massachusetts, Amherst, PhD

**Rhea T. Eskew**

Professor, Psychology; Georgia Institute of Technology, PhD

**Jonathan Esole**

Associate Professor, Mathematics; Leiden University (Netherlands), PhD

**Abigail Evans**

Lecturer, Computer Sciences; University of Washington, PhD

**Sara Ewell**

Teaching Professor, College of Professional Studies; University of North Carolina, Chapel Hill, PhD

**William Ewell**

Associate Teaching Professor, College of Professional Studies; University of North Carolina, Chapel Hill, PhD

**Daniel Faber**

Professor, Sociology and Anthropology; University of California, Santa Cruz, PhD

**Mary Lynn Fahey**

Assistant Clinical Instructor, Nursing; Simmons College, MS

**Olubunmi Faleye**

Professor, Finance; University of Alberta (Canada), PhD

**Don Fallis**

Professor, Philosophy and Religion and Computer Sciences; University of California, Irvine, PhD

**Hui Fang**

Assistant Professor, Electrical and Computer Engineering; University of California, Berkeley, PhD

**Qianqian Fang**

Associate Professor, Bioengineering; Dartmouth College, PhD

**David Fannon**

Associate Professor, Architecture and Civil and Environmental Engineering; University of California, Berkeley, MS

**Nasser S. Fard**

Associate Professor, Mechanical and Industrial Engineering; University of Arizona, PhD

**Amir Farhat**

Associate Teaching Professor, Electrical and Computer Engineering; University of Pennsylvania, PhD

**Johanna E. Farkas**

Assistant Teaching Professor, Biology; Northeastern University, PhD

**Amy Farrell**

Professor, Criminology and Criminal Justice; Northeastern University, PhD

**Sina Fazelpour**

Assistant Professor, Philosophy and Religion and Computer Sciences; University of British Columbia (Canada), PhD

**Yunsi Fei**

Professor, Electrical and Computer Engineering; Princeton University, PhD

**Adrian E. Feiguin**

Associate Professor, Physics; Universidad Nacional de Rosario (Argentina), PhD

**Allen G. Feinstein**

Teaching Professor, Music; New England Conservatory of Music, MM

**Nathan I. Felde**

Professor, Art + Design; Massachusetts Institute of Technology, MS

**Matthias Felleisen**

Trustee Professor, Computer Sciences; Indiana University, PhD

**Carol Femia**

Clinical Instructor, Nursing; Massachusetts General Hospital Institute of Health Professions, MS

**Hicham Fenniri**

Professor, Chemical Engineering; Université de Strasbourg (France), PhD

**Loretta A. Fernandez**

Associate Professor, Civil and Environmental Engineering and Marine and Environmental Sciences; Massachusetts Institute of Technology, PhD

**Melissa Ferrick**

Professor of the Practice, Music; Harvard University, MA

**Lori Ferrins**

Research Assistant Professor, Chemistry and Chemical Biology; Monash University (Australia), PhD

**Craig F. Ferris**

Professor, Psychology and Pharmaceutical Sciences; New York Medical College, PhD

**Kirsten Fertuck**

Associate Teaching Professor, Biochemistry; Michigan State University, PhD

**Gregory A. Fiete**

Professor, Physics; Harvard University, PhD

**Susan F. Fine**

Assistant Clinical Professor, Communication Sciences and Disorders; New York University, MA

**Sarah Finn**

Associate Teaching Professor, Writing Program; University of Massachusetts, Amherst, PhD

**Jessica Fisher**

Assistant Cooperative Education Coordinator, College of Engineering; Bridgewater State University, MEd

**Branden Fitelson**

Distinguished Professor, Philosophy and Religion; California Institute of Technology, PhD

**Brian Fitzgerald**

Assistant Professor, Accounting; Texas AM University, PhD

**Joan Fitzgerald**

Professor, Public Policy and Urban Affairs; Pennsylvania State University, PhD

**Diane F. Fitzpatrick**

Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**Josephine Flanagan**

Assistant Cooperative Education Coordinator, College of Engineering; Suffolk University, JD

**Julia Flanders**

Professor of the Practice, English and Library Systems; Brown University, PhD

**Eric Folmar**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Quinnipiac University, MS

**Paul Fombelle**

Associate Professor and Thomas E. Moore Faculty Fellow, Marketing; Arizona State University, PhD

**Ellen Fontana**

Associate Teaching Professor, Communication Studies; University of California, Davis, MA

**Murray Forman**

Professor, Media and Screen Studies; McGill University (Canada), PhD

**Lisa M. Foster**

Assistant Cooperative Education Coordinator, Bouvé College of Health Sciences; Northeastern University, MS

**Charles F. Fountain**

Professor, Journalism; Columbia University, MS

**James Fox**

Lipman Family Professor of Criminology, Law, and Public Policy, Criminology and Criminal Justice and Law and Public Policy; University of Pennsylvania, PhD

**Erica P. Frank**

Assistant Teaching Professor, Biology; Baylor College of Medicine, PhD

**Debra L. Franko**

Professor, Applied Psychology; McGill University (Canada), PhD

**Peter Fraunholtz**

Assistant Teaching Professor, History and International Affairs; Boston College, PhD

**Julian M. Fray**

Associate Teaching Professor, Law; Columbia University, JD

**Susan Freeman**

Teaching Professor, Engineering; Northeastern University, PhD

**Clark Freifeld**

Assistant Teaching Professor, Computer Sciences; Boston University, PhD

**Michael Frenkel**

Associate Academic Specialist, Music; City University London (United Kingdom), PhD

**John H. Friar**

Senior Academic Specialist, Entrepreneurship and Innovation; Massachusetts Institute of Technology, PhD

**Alex Fronduto**

Assistant Teaching Professor, College of Professional Studies; MCPHS University, PhD

**Natasha Frost**

Professor, Criminology and Criminal Justice; City University of New York, PhD

**Yun (Raymond) Fu**

Professor, Electrical and Computer Engineering and Computer Sciences; University of Illinois, Urbana-Champaign, PhD

**Carolyn Fuchs**

Teaching Professor, World Languages Center; Justus-Liebig Universität Gießen (Germany), PhD

**Brian Fulton**

Associate Teaching Professor, Chemistry and Chemical Biology; Iowa State University, PhD

**Peter G. Furth**

Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, PhD

**Laurel Gabard-Durnam**

Assistant Professor, Psychology; Columbia University, PhD

**Timothy Gagnon**

Associate Academic Specialist, Accounting; Sacred Heart University, MBA

**Sean Gallagher**

Assistant Clinical Professor, College of Professional Studies; Northeastern University, EdD

**Susan Gallagher**

Clinical Instructor, Nursing; Massachusetts General Hospital Institute of Health Professions, MS

**Joshua Galloway**

William O. DiPietro Assistant Professor, Chemical Engineering; Columbia University, PhD

**Auroop Ganguly**

Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, PhD

**Denise Garcia**

Associate Professor, Political Science and International Affairs; University of Geneva (Switzerland), PhD

**Lori Gardinier**

Teaching Professor, Human Services; Northeastern University, PhD

**Julie Garey**

Assistant Teaching Professor, Political Science; Northeastern University, PhD

**Karen Garneau**

Teaching Professor, Writing Program; Northeastern University, PhD

**Julia Garrett**

Associate Teaching Professor, English; University of California, Santa Barbara, PhD

**Myles Garvey**

Assistant Teaching Professor, Marketing; Rutgers University, PhD

**Wolfgang Gatterbauer**

Associate Professor, Computer Sciences; Vienna University of Technology (Austria), PhD

**Edward Geisinger**

Assistant Professor, Biology; New York University, MD, PhD

**Prasanth George**

Associate Teaching Professor, Mathematics; State University of New York, Buffalo, PhD

**Francis Georges**

Assistant Teaching Professor, Economics; Boston College, PhD

**Siddhartha Ghosh**

Assistant Professor, Electrical and Computer Engineering; Carnegie Mellon University, PhD

**Joan Giblin**

Assistant Teaching Professor, College of Professional Studies; Old Dominion University, PhD

**Roger W. Giese**

Professor, Pharmaceutical Sciences; Massachusetts Institute of Technology, PhD

**Joseph M. Giglio**

Senior Academic Specialist, International Business and Strategy; Northeastern University, PhD

**Matthew Gin**

Visiting Assistant Teaching Professor, Architecture; Harvard University, PhD

**Laurance Ginsberg**

Assistant Academic Specialist, Accounting; Bentley University, MST

**Leonard J. Glick**

Senior Academic Specialist, Management and Organizational Development; Harvard University, EdD

**Elizabeth Glowacki**

Postdoctoral Teaching Associate, Communication Studies and Health Sciences; University of Texas, Austin, PhD

**Zoltan Gluck**

Assistant Professor, Sociology and Anthropology and International Affairs; City University of New York, PhD

**Daniel Godfrey**

Professor, Music; University of Iowa, PhD

**Veronica S. Godoy-Carter**

Associate Professor, Biology; Tufts University, PhD

**Kevin Gold**

Assistant Teaching Professor, Computer Sciences; Yale University, PhD

**Stephen Golden**

Associate Teaching Professor, Entrepreneurship and Innovation; Suffolk University, MBA

**William Goldman**

Senior Lecturer, Accounting; Northeastern University, MBA

**Ann C. Golub-Victor**

Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**Edgar D. Goluch**

Associate Professor, Chemical Engineering; University of Illinois, Urbana-Champaign, PhD

**Kathleen Gonso**

Teaching Professor, Writing Program; Emerson College, MFA

**Michael J. Gonyeau**

Clinical Professor, Pharmacy and Health Systems Sciences; Albany College of Pharmacy, PharmD

**Frankie Gonzalez**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, BS

**Gregory Goodale**

Associate Professor, Communication Studies; University of Illinois, Urbana-Champaign, PhD

**Teresa Goode**

Associate Teaching Professor, College of Professional Studies; Columbia University, EdD

**Patricia Goodman**

Associate Teaching Professor, College of Professional Studies; George Washington University, EdD

**Matthew Goodwin**

Associate Professor, Health Sciences and Computer Sciences; University of Rhode Island, PhD

**Mark Gooley**

Associate Teaching Professor, Finance; Northeastern University, PhD

**Samantha Gorman**

Assistant Professor, Art + Design; University of Southern California, PhD

**Ian Gorton**

Professor of the Practice, Computer Sciences; Sheffield Hallam University (United Kingdom), PhD

**Gary Goshgarian**

Professor, English; University of Wisconsin, Madison, PhD

**Tarik C. Gouhier**

Associate Professor, Marine and Environmental Sciences; McGill University (Canada), PhD

**Thomas Goulding**

Professor of the Practice, College of Professional Studies; University of Florida, PhD

**Andrew Gouldstone**

Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Jonathan H. Grabowski**

Professor, Marine and Environmental Sciences; University of North Carolina, Chapel Hill, PhD

**Susan Gracia**

Assistant Teaching Professor, College of Professional Studies; Boston College, PhD

**Jennifer Gradecki**

Assistant Professor, Art + Design; University of California, Los Angeles, MFA

**Anthony P. Graffeo**

Professor of the Practice, Biotechnology; Northeastern University, PhD

**Steven Granelli**

Assistant Teaching Professor, Communication Studies; Ohio University, PhD

**Laura Green**

Professor, English; University of California, Berkeley, PhD

**Kristin Curry Greenwood**

Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, EdD, DPT

**Brent Griffin**

Assistant Teaching Professor, College of Professional Studies; Northeastern University, PhD

**Jacqueline Griffin**

Associate Professor, Mechanical and Industrial Engineering; Georgia Institute of Technology, PhD

**Joseph Griffin**

Associate Teaching Professor, College of Professional Studies; Gordon Conwell Theological Seminary, PhD

**Mary J. Griffin**

Associate Clinical Professor, Nursing; University of North Carolina, PhD

**Joshua Griffiths**

Visiting Lecturer, World Languages Center; University of Texas, Austin, PhD

**Amir Grinstein**

Associate Professor and Thomas E. Moore Faculty Fellow, Marketing; Hebrew University of Jerusalem (Israel), PhD

**Francesca Grippa**

Teaching Professor, College of Professional Studies; University of Salento (Italy), PhD

**Stine Grodal**

D'Amore-McKim School of Business Distinguished Professor, Entrepreneurship and Innovation; Stanford University, PhD

**Tiantian Gu**

Associate Professor, Finance; University of Wisconsin, Madison, PhD

**John Alexis Guerra Gómez**

Assistant Teaching Professor, Computer Sciences; University of Maryland, College Park, PhD

**Arjun Guha**

Associate Professor, Computer Sciences; Brown University, PhD

**Jennifer Guillemin**

Senior Cooperative Education Coordinator, College of Arts, Media and Design; Boston University, MA

**Hemanth Gundavaram**

Clinical Professor, Law; Boston University, JD

**Jason J. Guo**

Research Associate Professor, Barnett Institute; University of Connecticut, PhD

**Surendra M. Gupta**

Professor, Mechanical and Industrial Engineering; Purdue University, PhD

**Andrei Guschin**

Assistant Teaching Professor, Graduate School of Engineering; Russian Academy of Sciences (Russian Federation), PhD

**Philip Gust**

Clinical Instructor, Computer Sciences; University of Arizona, MS

**Barbara Guthrie**

Professor, Nursing; New York University, PhD

**Kayoll Gyan**

Assistant Professor, Nursing; University of North Carolina, Chapel Hill, PhD

**Mohamed Habibullah**

Assistant Teaching Professor, Supply Chain and Information Management; University of Missouri, Columbia, PhD

**Katherine Haenschen**

Assistant Professor, Communication Studies and Political Science; University of Texas, Austin, PhD

**David Hagen**

Associate Teaching Professor, College of Professional Studies; New England School of Law, JD

**Michelle Hagopian**

Associate Cooperative Education Coordinator, College of Arts, Media and Design; University of Illinois, MS

**Margaret Hahn-Dupont**

Teaching Professor, Law; Georgetown University, JD

**Jerome F. Hajjar**

CDM Smith Professor in Civil Engineering, Civil and Environmental Engineering; Cornell University, PhD

**Golnoosh Hakimdavar**

Associate Teaching Professor, College of Professional Studies; University of Turin (Italy), PhD

**Iva Halacheva**

Zelevinsky Postdoctoral Researcher, Mathematics; University of Toronto (Canada), PhD

**Mary Hale**

Assistant Teaching Professor, Architecture; Massachusetts Institute of Technology, MArch

**Kristina Hals**

Assistant Cooperative Education Coordinator, College of Engineering; Cornell University, MS

**James Halverson**

Assistant Professor, Physics; University of Pennsylvania, PhD

**Paul Hand**

Assistant Professor, Mathematics and Computer Sciences; New York University, PhD

**Robert N. Hanson**

Matthews Distinguished University Professor, Chemistry and Chemical Biology; University of California, Berkeley, PhD

**Matan Harel**

Assistant Professor, Mathematics; Courant Institute, PhD

**Sharon Harlan**

Professor, Health Sciences and Sociology and Anthropology; Cornell University, PhD

**Kelly Harrington**

Associate Cooperative Education Coordinator, D'Amore-McKim School of Business; Suffolk University, MBA

**Shaunna Harrington**

Associate Teaching Professor, College of Professional Studies; Boston University, MA

**Vincent Harris**

University Distinguished Professor, William Lincoln Smith Professor of Electrical and Computer Engineering, Electrical and Computer Engineering; Northeastern University, PhD

**Vanecia Harrison**

Associate Cooperative Education Coordinator, College of Science; Emmanuel College, MA

**Casper Hartevelt**

Associate Professor, Game Design; Delft University of Technology (Netherlands), PhD

**Stephanie R. Hartung**

Teaching Professor, Law; Boston College, JD

**Woodrow N. Hartzog**

Professor, Law and Computer Sciences; University of North Carolina, Chapel Hill, PhD

**Sara Hashmi**

Assistant Professor, Chemical Engineering; Yale University, PhD

**Christopher Hasson**

Associate Professor, Physical Therapy, Movement, and Rehabilitation Sciences; University of Massachusetts, Amherst, PhD

**Stephen Hatfield**

Assistant Professor, Pharmaceutical Sciences; Northeastern University, PhD

**Heather Hauck**

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MS

**Claudia Haupt**

Associate Professor, Law and Political Science; University of Cologne (Germany), PhD; Columbia University, JSD

**Elizabeth Hawley**

Visiting Assistant Professor, Art + Design; City University of New York, PhD

**Fareed Hawwa**

Assistant Teaching Professor, College of Professional Studies; Louisiana State University, PhD

**Charles E. Haycock**

Assistant Cooperative Education Coordinator, Computer Sciences; Salem State University, MEd

**Lorna Hayward**

Associate Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Boston University, EdD

**Julia Hechtman**

Associate Teaching Professor, Art + Design; University of Illinois, Chicago, MFA

**Meghan Heckman**

Assistant Professor, Journalism; Northeastern University, MA

**Gretchen Heefner**

Associate Professor, History; Yale University, PhD

**Amy Helburn**

Assistant Teaching Professor, Health Sciences; University of Massachusetts, PhD

**Brian Helmuth**

Professor, Marine and Environmental Sciences and Public Policy and Urban Affairs; University of Washington, PhD

**Jason Hemann**

Lecturer, Computer Sciences; Indiana University, PhD

**Carlene Hempel**

Teaching Professor, Journalism; University of North Carolina, Chapel Hill, MA

**Jamie G. Henzy**

Associate Teaching Professor, Biology; Tufts University, PhD

**Dale Herbeck**

Professor, Communication Studies; University of Iowa, PhD

**David A. Herlihy**

Teaching Professor, Music; Boston College, JD

**Richard Herron**

Associate Teaching Professor, Finance; City University of New York, PhD

**Carie Hersh**

Associate Teaching Professor, Sociology and Anthropology; Duke University, JD

**Kelsey Hersh**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MS

**Joshua Hertz**

Associate Teaching Professor, Engineering; Massachusetts Institute of Technology, PhD

**Benjamin Hescott**

Teaching Professor, Computer Sciences; Boston University, PhD

**Ravit Heskiau**

Associate Teaching Professor, Management and Organizational Development; University of Toronto (Canada), PhD

**Kamber Hetrick**

Assistant Professor, Accounting; University of Illinois, Urbana-Champaign, PhD

**Caroline Hewitt**

Clinical Professor, Nursing; City University of New York, PhD

**Babak Heydari**

Associate Professor, Mechanical and Industrial Engineering; University of California, Berkeley, PhD

**Mary J. Hickey**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**Carlos Hidrovo Chavez**

Associate Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Matthew Higger**

Lecturer, Computer Sciences; Northeastern University, PhD

**Malcolm D. Hill**

Associate Professor, Marine and Environmental Sciences; University of California, Santa Cruz, PhD

**Charles H. Hillman**

Professor, Psychology and Health Sciences; University of Maryland, College Park, PhD

**Robin Hillyard**

Associate Teaching Professor, Graduate School of Engineering; Cambridge University (United Kingdom), PhD

**John Hinson**

Associate Teaching Professor, Theatre; Brandeis University, MFA

**Tad Hirsch**

Professor, Art + Design; Massachusetts Institute of Technology, PhD

**Hubert Ho**

Associate Teaching Professor, Music; University of California, Berkeley, PhD

**Marie Odile Hobeika**

Visiting Lecturer, Communication Studies; University of Pittsburgh, PhD

**Umesh Hodeghatta**

Assistant Teaching Professor, College of Professional Studies; Indian Institute of Technology (India), PhD

**Lynda Hodgson**

Associate Teaching Professor, College of Professional Studies; Virginia Commonwealth University, PhD

**Timothy Hoff**

Professor, Management and Organizational Development and Public Policy and Urban Affairs; State University of New York, Albany, PhD

**Jessica Hoffman**

Associate Professor, Applied Psychology; Lehigh University, PhD

**Matthew Hogencamp**

Assistant Professor, Mathematics; University of Virginia, PhD

**Uwe Hohgrawe**

Professor of the Practice, College of Professional Studies; University of Wuppertal (Germany), PhD

**Udi Hoitash**

Professor and Lillian L. and Harry A. Cowan Research Professor, Accounting; Rutgers University, PhD

**Wallace Holohan**

Senior Clinical Specialist, Law; Fitchburg State University, BA

**Trenton Honda**

Clinical Professor, Physician Assistant Program; Northeastern University, PhD

**Julia Hopkins**

Assistant Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, PhD

**Michael J. Hoppmann**

Associate Teaching Professor, Communication Studies; University of Tübingen (Germany), PhD

**Emily Hornsby**

Assistant Cooperative Education Coordinator, College of Arts, Media and Design; Bowling Green State University, MA

**Adam Hosein**

Associate Professor, Philosophy and Religion; Massachusetts Institute of Technology, PhD

**Richard Hoshino**

Associate Teaching Professor, Computer Sciences; Dalhousie University (Canada), PhD

**Jeffrey P. Howe**

Associate Professor, Journalism; Boston University, MFA

**Valerie Hower**

Associate Teaching Professor, Mathematics; University of Georgia, PhD

**Aileen Huang-Saad**

Associate Professor, Bioengineering; Johns Hopkins University, PhD

**Anne R. Hughes**

Associate Professor, Marine and Environmental Sciences; University of California, Davis, PhD

**Kaitlyn S. Hughes**

Associate Cooperative Education Coordinator, Computer Sciences; Northeastern University, MS

**Francisco Hung**

Associate Professor, Chemical Engineering; North Carolina State University, PhD

**Matthew Hunt**

Professor, Sociology and Anthropology; Indiana University, PhD

**Patrick Hurley**

Assistant Professor, Accounting; University of Wisconsin, Madison, PhD

**Mark Huselid**

Distinguished Professor of Workforce Analytics, International Business and Strategy; State University of New York, Buffalo, PhD

**Anthony Iarrobino**

Professor, Mathematics; Massachusetts Institute of Technology, PhD

**Patricia Illingworth**

Professor, Philosophy and Religion; University of California, San Diego, PhD; Boston University, JD

**Jennifer Ingemi**

Assistant Teaching Professor, Psychology; University of Massachusetts Medical School, PhD

**Vinay K. Ingle**

Associate Professor, Electrical and Computer Engineering; Rensselaer Polytechnic Institute, PhD

**Francesca Inglese**

Assistant Professor, Music; Brown University, PhD

**Rei Inouye**

Teaching Professor, World Languages Center; Temple University, PhD

**Stephen S. Intille**

Associate Professor, Computer Sciences and Health Sciences; Massachusetts Institute of Technology, PhD

**Efstratios Ioannidis**

Associate Professor, Electrical and Computer Engineering; University of Toronto (Canada), PhD

**Andreia Ionescu**

Assistant Professor, Biology; University of Rochester, PhD

**Roderick Ireland**

Distinguished Professor, Criminology and Criminal Justice; Harvard University, LL.M.; Northeastern University, PhD

**Derek M. Isaacowitz**

Professor, Psychology; University of Pennsylvania, PhD

**Jacqueline A. Isaacs**

Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Michelle L. Israel**

Senior Cooperative Education Coordinator, College of Science; Northeastern University, MS

**Nathan E. Israeloff**

Associate Professor, Physics; University of Illinois, Urbana-Champaign, PhD

**Alexander R. Ivanov**

Associate Professor, Chemistry and Chemical Biology; Russian Academy of Sciences (Russia), PhD

**Julia Ivy**

Associate Teaching Professor, International Business and Strategy; Lancaster University (United Kingdom), PhD

**Alden Jackson**

Associate Clinical Professor, Computer Sciences; University of Delaware, PhD

**Ellen Jackson**

Assistant Teaching Professor, Writing Program; Stanford University, MFA

**William J. Jackson**

Senior Cooperative Education Coordinator, College of Arts, Media and Design; University of Massachusetts, Boston, MEd

**Michelle Jacobs**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; University of California, San Francisco, PharmD

**Bruce Jacoby**

Associate Clinical Professor, Law; University of Connecticut, JD

**Beverly Jaeger-Helton**

Teaching Professor, Mechanical and Industrial Engineering; Northeastern University, PhD

**Michael Jaeggli**

Associate Teaching Professor, Bioengineering; Clemson University, PhD

**Safa Jamali**

Assistant Professor, Mechanical and Industrial Engineering; Case Western Reserve University, PhD

**Lindsay Jamieson**

Teaching Professor, Computer Sciences; Clemson University, PhD

**David Janero**

Visiting Professor, Pharmaceutical Sciences; Johns Hopkins University, PhD

**Caitlyn Jarvis**

Postdoctoral Teaching Associate, Communication Studies; Purdue University, PhD

**Solomon M. Jekel**

Associate Professor, Mathematics; Dartmouth College, PhD

**Mason Jenkins**

Visiting Assistant Professor, Marketing; Northeastern University, PhD

**Qingying Jia**

Research Associate Professor, Chemistry and Chemical Biology; Illinois Institute of Technology, PhD

**Huaizu Jiang**

Assistant Professor, Computer Sciences; University of Massachusetts, Amherst, PhD

**Holly Jimison**

Professor of the Practice, Computer Sciences and Health Sciences; Stanford University, PhD

**Xiaoning Jin**

Assistant Professor, Mechanical and Industrial Engineering; University of Michigan, PhD

**Xuemin Jin**

Associate Teaching Professor, Mechanical and Industrial Engineering; University of Maryland, PhD

**Donghee Jo**

Assistant Professor, Economics; Massachusetts Institute of Technology, PhD

**Dinesh John**

Associate Professor, Health Sciences; University of Tennessee, PhD

**Brooke Johnson**

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; Boston College, MEd

**Deborah L. Johnson**

Assistant Teaching Professor, Law; Northeastern University, JD

**Steven Johnson**

Assistant Cooperative Education Coordinator, College of Engineering; Suffolk University, MS

**Vanessa D. Johnson**

Associate Professor, Applied Psychology; Western Michigan University, PhD

**Dierdre Jordan**

Senior Cooperative Education Coordinator, Bouvé College of Health Sciences; Northeastern University, MS

**Josep Jornet**

Associate Professor, Electrical and Computer Engineering; Georgia Institute of Technology, PhD

**Tiffany Joseph**

Associate Professor, Sociology and Anthropology and International Affairs; University of Michigan, PhD

**Neel Joshi**

Associate Professor, Chemistry and Chemical Biology; University of California, Berkeley, PhD

**Jacqueline Josselyn**

Assistant Cooperative Education Coordinator, College of Engineering; Northeastern University, MS

**Alison Joyce**

Assistant Cooperative Education Coordinator, College of Engineering; Ohio University, MEd

**Maria Jump**

Associate Teaching Professor, Computer Sciences; University of Texas, Austin, PhD

**Yung Joon Jung**

Professor, Mechanical and Industrial Engineering; Rensselaer Polytechnic Institute, PhD

**David R. Kaeli**

College of Engineering Distinguished Professor, Electrical and Computer Engineering; Rutgers University, PhD

**Jonathan D. Kahn**

Professor, Law and Biology; Cornell University, PhD; University of California, Berkeley, JD

**Sallyann Kakas**

Associate Cooperative Education Coordinator, Finance; Northeastern University, BS

**Sagar V. Kamarthi**

Professor, Mechanical and Industrial Engineering; Pennsylvania State University, PhD

**John Kane**

Lecturer, Art + Design; Yale University, BA

**Mary M. Kane**

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; University of Massachusetts, Boston, MEd

**Michael Kane**

Assistant Professor, Civil and Environmental Engineering; University of Michigan, PhD

**Sarah Kanouse**

Associate Professor, Art + Design; University of Illinois, Urbana-Champaign, MFA

**Carla Kaplan**

Davis Distinguished Professor in American Literature, English and Women's, Gender, and Sexuality Studies; Northwestern University, PhD

**Swastik Kar**

Associate Professor, Physics; Indian Institute of Physics (India), PhD

**Ieshia Karasik**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Pine Manor College, MFA

**Samina Karim**

Professor, Entrepreneurship and Innovation; University of Michigan, PhD

**Yael Karlinsky Shichor**

Assistant Professor, Marketing; Columbia University, PhD

**Alain S. Karma**

College of Arts and Sciences Distinguished Professor, Physics; University of California, Santa Barbara, PhD

**Edward Katz**

Associate Teaching Professor, Computer Sciences; University of Louisiana, Lafayette, PhD

**Ralph Katz**

Professor, Entrepreneurship and Innovation; University of Pennsylvania, PhD

**Jonathan Kaufman**

Professor, Journalism; Harvard University, MA

**Kelsey Kaul**

Assistant Cooperative Education Coordinator, College of Engineering; Harvard University, MEd

**William Kay**

Associate Professor, Political Science; Indiana University, PhD

**Bret Keeling**

Teaching Professor, Writing Program; University of Washington, PhD

**Karen P. Kelley**

Senior Cooperative Education Coordinator, College of Engineering;  
Northeastern University, MEd

**Melvin Kelley**

Associate Professor, Law and Entrepreneurship and Innovation; Columbia  
University, JD

**Thomas M. Kelley**

Associate Teaching Professor, Physics; University of Minnesota, PhD

**Kathleen Kelly**

Professor, English; University of North Carolina, Chapel Hill, PhD

**Mary Kelting**

Associate Professor, Philosophy and Religion; University of Wisconsin,  
Madison, PhD

**Daniel D. Kennedy**

Professor, Journalism; Boston University, MLA

**Sarmann Kennedy**

Assistant Teaching Professor, College of Professional Studies; SKEMA  
Business School (France), PhD

**Kathryn Kennen**

Associate Teaching Professor, Architecture; Harvard University, MArch

**Aileen Kent Yates**

Assistant Cooperative Education Coordinator, Computer Sciences;  
University of Massachusetts, Amherst, BA

**Heidi Kevoe Feldman**

Associate Professor, Communication Studies; Rutgers University, PhD

**Leila Keyvani Someh**

Assistant Teaching Professor, Engineering; Northeastern University, PhD

**Ban-An Khaw**

Professor, Pharmaceutical Sciences; Boston College, PhD

**Konstantin Khrapko**

Professor, Biology and Pharmaceutical Sciences; Engelhardt Institute of  
Molecular Biology, Moscow (Russia), PhD

**Ilham Khuri-Makdisi**

Associate Professor, History; Harvard University, PhD

**Sheri Kiami**

Associate Clinical Professor, Physical Therapy, Movement, and  
Rehabilitation Sciences; Simmons College, DPT

**Angela Kilby**

Assistant Professor, Economics; Massachusetts Institute of Technology,  
PhD

**Daniel Kim**

Associate Professor, Health Sciences; University of Toronto (Canada),  
MD; Harvard University, PhD

**Eunsong Kim**

Assistant Professor, English; University of Texas, Austin, PhD

**Miso Kim**

Assistant Professor, Art + Design; Carnegie Mellon University, PhD

**Somy Kim**

Associate Teaching Professor, Writing Program; University of California,  
San Diego, PhD

**Tiffany Kim**

Assistant Clinical Professor, Nursing; University of Pennsylvania, PhD

**Yong-Bin Kim**

Professor, Electrical and Computer Engineering; Colorado State  
University, PhD

**John Kimani**

Associate Teaching Professor, Electrical and Computer Engineering;  
University of Wisconsin, Milwaukee, PhD

**David L. Kimbro**

Associate Professor, Marine and Environmental Sciences; University of  
California, Davis, PhD

**Nancy Kimelman**

Associate Teaching Professor, Economics; Brown University, PhD

**Christopher K. King**

Professor, Mathematics; Harvard University, PhD

**Stephanie Kirby**

Assistant Cooperative Education Coordinator, College of Engineering;  
Carnegie Mellon University, PhD

**Margaret Kirchoff**

Associate Teaching Professor, College of Professional Studies; George  
Washington University, EdD

**Engin Kirda**

Professor, Computer Sciences and Electrical and Computer Engineering;  
Technical University of Vienna (Austria), PhD

**Rein U. Kirss**

Associate Professor, Chemistry and Chemical Biology; University of  
Wisconsin, Madison, PhD

**Jennifer L. Kirwin**

Clinical Professor, Pharmacy and Health Systems Sciences; Northeastern  
University, PharmD

**Risa Kitagawa**

Assistant Professor, Political Science and International Affairs; Stanford  
University, PhD

**Carrie Klaphake**

Assistant Cooperative Education Coordinator, College of Engineering;  
Eastern Illinois University, MS

**Karl E. Klare**

Matthews Distinguished University Professor, Law; Harvard University, JD

**Kristian Kloeckl**

Associate Professor, Art + Design and Architecture; University of Venice  
(Italy), PhD

**Ben Knudsen**

Assistant Professor, Mathematics; Northwestern University, PhD

**Dami Ko**

Assistant Professor, Nursing; University of Wisconsin, Madison, PhD

**Thomas Koenig**

Professor, Sociology and Anthropology; University of California, Santa Barbara, PhD

**Mieczyslaw M. Kokar**

Professor, Electrical and Computer Engineering; University of Wroclaw (Poland), PhD

**Dan Koloski**

Professor of the Practice, College of Professional Studies; Harvard University, MS

**Tali Konry**

Associate Professor, Pharmaceutical Sciences; Ben Gurion University (Israel), PhD

**Constantin Konstantopoulos**

Associate Teaching Professor, Graduate School of Engineering; Boston University, PhD

**Abigail N. Koppes**

Assistant Professor, Chemical Engineering; Rensselaer Polytechnic Institute, PhD

**Ryan Koppes**

Assistant Professor, Chemical Engineering; Rensselaer Polytechnic Institute, PhD

**Ilka Kostka**

Associate Teaching Professor, College of Professional Studies; New York University, PhD

**Apoorva Koticha**

Associate Teaching Professor, Finance; New York University, PhD

**Dimitrios Koutsonikolas**

Associate Professor, Electrical and Computer Engineering; Purdue University, PhD

**Harilaos Koutsopoulos**

Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, PhD

**Linda Kowalcky**

Professor of the Practice, Public Policy and Urban Affairs; Johns Hopkins University, PhD

**Arthur F. Kramer**

Professor, Psychology; University of Illinois, PhD

**Sergey Kravchenko**

Professor, Physics; Institute of Solid State Physics (Russia), PhD

**Dmitri Krioukov**

Associate Professor, Physics; Old Dominion University, PhD

**Ganesh Krishnamoorthy**

Professor, Accounting; University of Southern California, PhD

**Karthik Krishnan**

Associate Professor, Finance; Boston College, PhD

**Laura Kuhl**

Assistant Professor, Public Policy and Urban Affairs and International Affairs; Tufts University, PhD

**Varsha Kulkarni**

Assistant Teaching Professor, College of Professional Studies; Indiana University, PhD

**Abhishek Kumar**

Assistant Teaching Professor, Mechanical and Industrial Engineering; University of Michigan, PhD

**Venkat Kuppaswamy**

Assistant Professor, Entrepreneurship and Innovation; Harvard University, DBA

**Jessica Kurr**

Postdoctoral Teaching Associate, Communication Studies; Pennsylvania State University, PhD

**Didem Kurt**

Visiting Associate Professor, Marketing; University of Pittsburgh, PhD

**Kristina Kutsukos**

Assistant Cooperative Education Coordinator, College of Engineering; Northeastern University, MS

**John Kwoka**

Neal F. Finnegan Distinguished Professor, Economics; University of Pennsylvania, PhD

**MiYoung Kwon**

Assistant Professor, Psychology; University of Minnesota, PhD

**Michelle Laboy**

Assistant Professor, Architecture; University of Michigan, MArch

**Jamie Ladje**

Associate Professor, Management and Organizational Development; Boston College, PhD

**Nicole Laffan**

Assistant Clinical Professor, Communication Sciences and Disorders; A.T. Still University, Arizona, PhD

**Jay Laird**

Assistant Teaching Professor, College of Professional Studies; Lesley University, MFA

**Charlotte Lam**

Assistant Cooperative Education Coordinator, College of Science; California State University, Sacramento, MA

**Joan LaMachia**

Senior Cooperative Education Coordinator, College of Social Sciences and Humanities; Boston College, MEd

**Anna Lamin**

Associate Professor, International Business and Strategy; University of Minnesota, PhD

**Jason Lancaster**

Clinical Professor, Pharmacy and Health Systems Sciences; Massachusetts College of Pharmacy, PharmD

**William Lancaster**

Principal Lecturer, Communication Studies; Michigan State University, MA

**Lucas J. Landherr**

Teaching Professor, Chemical Engineering; Cornell University, PhD

**Alexis Landry**

Assistant Clinical Professor, Physician Assistant Program; Northeastern University, MS

**Theodore Landsmark**

Distinguished Professor, Public Policy and Urban Affairs; Boston University, PhD

**David Lang**

Assistant Teaching Professor, Mathematics; Boston College, PhD; Northeastern University, PhD

**Timothy Lannin**

Assistant Teaching Professor, Bioengineering; Cornell University, PhD

**Amy Lantinga**

Teaching Professor, College of Professional Studies; University of Tennessee, EdD

**Philip Larese-Casanova**

Associate Professor, Civil and Environmental Engineering; University of Iowa, PhD

**Barbara Larson**

Associate Academic Specialist, Management and Organizational Development; Harvard University, DBA

**Elizabeth Larson**

Associate Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MBA

**Kimberly Larson**

Associate Teaching Professor, College of Professional Studies; Drexel University, PhD

**Felicia G. Lassk**

Associate Professor, Marketing; University of South Florida, PhD

**Amanda Reeser Lawrence**

Associate Professor, Architecture; Harvard University, PhD

**David M. Lazer**

University Distinguished Professor, Political Science and Computer Sciences; University of Michigan, Ann Arbor, PhD

**Joshua Lea**

Assistant Clinical Professor, Nursing; Akron University, PhD

**Stefanie E. Leahy**

Assistant Teaching Professor, Law; Pepperdine University, JD

**Sean Leavey**

Visiting Lecturer, Art + Design; Rutgers University, PhD

**Carol Lee**

Assistant Teaching Professor, Supply Chain and Information Management; University of Massachusetts, Boston, PhD

**Cynthia Lee**

Professor, Management and Organizational Development; University of Maryland, PhD

**Doreen Lee**

Associate Professor, Sociology and Anthropology; Cornell University, PhD

**Jung Lee**

Associate Professor, Philosophy and Religion; Brown University, PhD

**Kristen Lee**

Associate Teaching Professor, College of Professional Studies; Northeastern University, EdD

**Lee-Peng Lee**

Assistant Teaching Professor, Mathematics; Massachusetts Institute of Technology, PhD

**Matt Lee**

Teaching Professor, Human Services; University of Illinois, Urbana-Champaign, PhD

**Shun-Yang Lee**

Assistant Professor, Marketing; University of Texas, Austin, PhD

**Yang W. Lee**

Associate Professor, Supply Chain and Information Management; Massachusetts Institute of Technology, PhD

**Carolyn W. T. Lee-Parsons**

Associate Professor, Chemical Engineering and Chemistry and Chemical Biology; Cornell University, PhD

**Chad Lee-Stronach**

Assistant Professor, Philosophy and Religion; Australian National University, PhD

**Miriam E. Leeser**

Professor, Electrical and Computer Engineering; Cambridge University (United Kingdom), PhD

**Laurel Leff**

Professor, Journalism; Yale University, MA

**Lori Lefkowitz**

Ruderman Professor of Jewish Studies, Jewish Studies and English; Brown University, PhD

**Bradley M. Lehman**

Professor, Electrical and Computer Engineering; Georgia Institute of Technology, PhD

**Robert Lentz**

Associate Academic Specialist, Entrepreneurship and Innovation; Babson College, MBA

**Benjamin Lerner**

Assistant Teaching Professor, Computer Sciences; University of Washington, PhD

**Neal Lerner**

Professor, English; Boston University, EdD

**Laurent Lessard**

Associate Professor, Mechanical and Industrial Engineering; Stanford University, PhD

**Danielle Levac**

Assistant Professor, Physical Therapy, Movement, and Rehabilitation Sciences; McMaster University (Canada), PhD

**Tatyana Levchenko**

Research Assistant Professor, Pharmaceutical Sciences; Academy of Medical Sciences Moscow (Russia), PhD

**Yiannis A. Levendis**

College of Engineering Distinguished Professor, Mechanical and Industrial Engineering; California Institute of Technology, PhD

**Elinor Levine**

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; University of Massachusetts, Amherst, MEd

**Erel Levine**

Associate Professor, Bioengineering; Weizmann Institute of Science (Israel), PhD

**Herbert Levine**

University Distinguished Professor, Physics and Bioengineering; Princeton University, PhD

**Jonathan Lewis**

Assistant Teaching Professor, Communication Studies; University of Illinois, Urbana-Champaign, PhD

**Kim Lewis**

University Distinguished Professor, Biology; Moscow University (Russia), PhD

**Laura H. Lewis**

University Distinguished Professor, Cabot Professor, Chemical Engineering and Mechanical and Industrial Engineering; University of Texas, Austin, PhD

**Ang Li**

Assistant Professor, Architecture; Princeton University, MArch

**Chieh Li**

Associate Professor, Applied Psychology; University of Massachusetts, Amherst, EdD

**Jiahe Li**

Assistant Professor, Bioengineering; Cornell University, PhD

**Rui Li**

Associate Clinical Professor, Health Sciences; Baylor University, PhD

**Yaning Li**

Associate Professor, Mechanical and Industrial Engineering; University of Michigan, Ann Arbor, PhD

**Zhenyu Liao**

Assistant Professor, Management and Organizational Development; National University of Singapore (Singapore), PhD

**Elizabeth Libby**

Assistant Professor, Bioengineering; University of Pennsylvania, PhD

**Robert Lieb**

Professor, Supply Chain and Information Management; University of Maryland, DBA

**Karl J. Lieberherr**

Professor, Computer Sciences; Eidgenössische Technische Hochschule Zürich (Switzerland), PhD

**Karin N. Lifter**

Professor, Applied Psychology; Columbia University, PhD

**Dacheng Lin**

Research Associate Professor, Physics; Massachusetts Institute of Technology, PhD

**Enqiang Lin**

Research Assistant Professor, Mechanical and Industrial Engineering; Tsinghua University (China), PhD

**Xue Lin**

Assistant Professor, Electrical and Computer Engineering; University of Southern California, PhD

**Yingzi Lin**

Professor, Mechanical and Industrial Engineering; University of Saskatchewan (Canada), PhD

**Alisa K. Lincoln**

Professor, Sociology and Anthropology and Health Sciences; Columbia University, PhD

**Katherine Lind**

Postdoctoral Teaching Associate, Communication Studies; Indiana University, PhD

**Margo Lindauer**

Associate Clinical Professor, Law; Georgetown University, JD

**John J. Lindhe**

Associate Teaching Professor, Mathematics; Northeastern University, PhD

**Jessica Linker**

Assistant Professor, History; University of Connecticut, PhD

**Gabor P. Lippner**

Associate Professor, Mathematics; Eotvos University (Hungary), PhD

**Heather A. Littlefield**

Teaching Professor, Linguistics; Boston University, PhD

**Handan Liu**

Associate Teaching Professor, Graduate School of Engineering; Shanghai Jiao Tong University (China), PhD

**Kelvin Liu**

Associate Professor, Accounting; University of South Carolina, PhD

**Weiling Liu**

Assistant Professor, Finance; Harvard University, PhD

**Xiaoping Liu**

Assistant Teaching Professor, Supply Chain and Information Management; University of Massachusetts, Lowell, PhD

**Yang Liu**

Assistant Professor, Mechanical and Industrial Engineering; Columbia University, PhD

**Yongmin Liu**

Associate Professor, Mechanical and Industrial Engineering and Electrical and Computer Engineering; University of California, Berkeley, PhD

**Ioannis Livanis**

Teaching Professor, International Affairs and Political Science; University of Florida, PhD

**Carol Livermore**

Associate Professor, Mechanical and Industrial Engineering; Harvard University, PhD

**Martha Loftus**

Assistant Teaching Professor, College of Professional Studies; Harvard University, EdD

**Diomedes E. Logothetis**

Professor, Pharmaceutical Sciences; Harvard University, PhD

**Fabrizio Lombardi**

International Test Conference Professor, Electrical and Computer Engineering; University of London (United Kingdom), PhD

**Georgia Looney**

Assistant Cooperative Education Coordinator, College of Engineering; Boston College, MBA

**Alexandre Lopes**

Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; University of São Paulo (Brazil), PhD

**Melinda Lopez**

Professor of the Practice, Theatre; Boston University, MA

**Steven A. Lopez**

Assistant Professor, Chemistry and Chemical Biology; University of California, Los Angeles, PhD

**Sara Lopez-Pintado**

Associate Professor, Health Sciences; Universidad Carlos III de Madrid (Spain), PhD

**Connie Lorette**

Associate Clinical Professor, Nursing; Boston College, PhD

**Ralph H. Loring**

Associate Professor, Pharmaceutical Sciences; Cornell University, PhD

**Daniel Lothian**

Visiting Scholar, Journalism; American University, MA

**Kathleen E. Lotterhos**

Assistant Professor, Marine and Environmental Sciences; Florida State University, PhD

**Salim A. Lotuff III**

Teaching Professor, Communication Studies; Northeastern University, MA

**Deirdre Loughridge**

Associate Professor, Music; University of Pennsylvania, PhD

**Psyche Loui**

Assistant Professor, Music; University of California, Berkeley, PhD

**Jennifer O. Love**

Associate Academic Specialist, Engineering; University of Iowa, MS

**Timothy Love**

Associate Professor, Architecture; Harvard University, MArch

**William Lovely**

Associate Teaching Professor, International Business and Strategy; Northeastern University, DLP

**John Lowrey**

Assistant Professor, Supply Chain and Information Management and Health Sciences; Ohio State University, PhD

**Amy Shirong Lu**

Associate Professor, Communication Studies and Health Sciences; University of North Carolina, Chapel Hill, PhD

**Long Lu**

Assistant Professor, Computer Sciences; Georgia Institute of Technology, PhD

**Lucy Siying Lu**

Assistant Cooperative Education Coordinator, College of Engineering; Harvard University, MEd

**Mingyang Lu**

Assistant Professor, Bioengineering; Baylor College of Medicine, PhD

**Celsey Lumbra**

Assistant Cooperative Education Coordinator, Computer Sciences; Northeastern University, MS

**Razvan Lungeanu**

Assistant Professor, Entrepreneurship and Innovation; Northwestern University, PhD

**Katherine Luongo**

Associate Professor, History and International Affairs; University of Michigan, Ann Arbor, PhD

**Steven Lustig**

Associate Professor, Chemical Engineering; Purdue University, PhD

**David E. Luzzi**

Professor, Mechanical and Industrial Engineering; Northwestern University, PhD

**Vasiliki Lykourinou**

Assistant Teaching Professor, Chemistry and Chemical Biology; University of South Florida, PhD

**Jun Ma**

Professor, Economics; University of Washington, PhD

**Kayse Maass**

Assistant Professor, Mechanical and Industrial Engineering; University of Michigan, PhD

**Patricia A. Mabrouk**

Professor, Chemistry and Chemical Biology; Massachusetts Institute of Technology, PhD

**Robin MacIlroy**

Assistant Cooperative Education Coordinator, College of Engineering; Harvard University, MEd

**Andrew Mackie**

Associate Clinical Professor, Physician Assistant Program; University of Nebraska, MS

**Jeanne Madden**

Associate Professor, Pharmacy and Health Systems Sciences; Harvard University, PhD

**Kristin Madison**

Professor, Law and Health Sciences; Stanford University, PhD; Yale University, JD

**Meica Magnani**

Assistant Teaching Professor, Philosophy and Religion and Computer Sciences; Stanford University, PhD

**Bala Maheswaran**

Teaching Professor, Engineering; Northeastern University, PhD

**Debra Mahfouz**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; University of Rhode Island, PharmD

**Elizabeth Mahler**

Associate Teaching Professor, College of Professional Studies; George Washington University, EdD

**Luigia Maiellaro**

Teaching Professor, World Languages Center; Russian State University for the Humanities (Russia), PhD

**Jean Claude Makolo**

Assistant Teaching Professor, Finance; Brandeis University, PhD

**Lee Makowski**

Professor, Bioengineering and Chemistry and Chemical Biology; Massachusetts Institute of Technology, PhD

**Purnima Makris**

Professor, Electrical and Computer Engineering; Massachusetts Institute of Technology, PhD

**Alexandros Makriyannis**

George D. Behrakis Chair and Professor, Center for Drug Discovery and Chemistry and Chemical Biology; University of Kansas, PhD

**Michael Malamas**

Research Associate Professor, Center for Drug Discovery and Chemistry and Chemical Biology; University of Pennsylvania, PhD

**Mario Maletta**

Professor, Accounting; University of Massachusetts, Amherst, PhD

**Veronika Maliborska**

Associate Teaching Professor, College of Professional Studies; Purdue University, PhD

**Andrew Mall**

Assistant Professor, Music; University of Chicago, PhD

**Carol R. Mallory**

Teaching Professor, Law; Northeastern University, JD

**Craig E. Maloney**

Associate Professor, Mechanical and Industrial Engineering; University of California, Santa Barbara, PhD

**Roman Manetsch**

Associate Professor, Chemistry and Chemical Biology and Pharmaceutical Sciences; University of Basel (Switzerland), PhD

**Swapnil Maniar**

Professor of the Practice, Health Sciences; Johns Hopkins University, PhD

**Justin Manjourides**

Associate Professor, Health Sciences; Harvard University, PhD

**Emily Mann**

Teaching Professor, Human Services; University of Wisconsin, Madison, PhD

**Moira Mannix Votel**

Associate Cooperative Education Coordinator, Bouvé College of Health Sciences; Columbia University, MA

**Peter Manolios**

Professor, Computer Sciences; University of Texas, Austin, PhD

**Valentina Marano**

Associate Professor, International Business and Strategy; University of South Carolina, PhD

**Janice Maras**

Assistant Teaching Professor, Health Sciences; Northeastern University, EdD

**Krassimir Marchev**

Professor of the Practice, College of Professional Studies; Northeastern University, PhD

**Edwin Marengo Fuentes**

Associate Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Alina Marian**

Professor, Mathematics; Harvard University, PhD

**Tucker Marion**

Associate Professor, Entrepreneurship and Innovation; Pennsylvania State University, PhD

**Helen Markewich**

Assistant Teaching Professor, Bioengineering; Cornell University, PhD

**Robert S. Markiewicz**

Professor, Physics; University of California, Berkeley, PhD

**Alycia Markowski**

Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**Joseph Marks**

Associate Teaching Professor, Finance; University of Illinois, Urbana-Champaign, PhD

**Mindy Marks**

Associate Professor, Economics; Washington University, PhD

**Julius Marpaung**

Associate Teaching Professor, Electrical and Computer Engineering; Oklahoma State University, PhD

**Stacy Marsella**

Professor, Computer Sciences and Psychology; Rutgers University, PhD

**Ineke Marshall**

Professor, Sociology and Anthropology and Criminology and Criminal Justice; Bowling Green State University, PhD

**Elizabeth Martin**

Assistant Clinical Professor, Communication Sciences and Disorders; McGill University (Canada), MS

**Ramiro Martinez**

Professor, Criminology and Criminal Justice and Sociology and Anthropology; Ohio State University, PhD

**José Angel Martinez-Lorenzo**

Associate Professor, Mechanical and Industrial Engineering and Electrical and Computer Engineering; Universidad de Vigo (Spain), PhD

**Alexander Martsinkovsky**

Associate Professor, Mathematics; Brandeis University, PhD

**David Massey**

Professor, Mathematics; Duke University, PhD

**Marguerite Matherne**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Georgia Institute of Technology, MS

**Jude E. Mathews**

Associate Teaching Professor, Chemistry and Chemical Biology; Clemson University, PhD

**Kay Mathiesen**

Associate Professor, Philosophy and Religion; University of California, Irvine, PhD

**Kristen Mathieu Gonzalez**

Assistant Clinical Professor, Nursing; University of Phoenix, MS

**Daniele Mathras**

Associate Teaching Professor, Marketing; Arizona State University, PhD

**Thomas M. Matta**

Assistant Clinical Professor, Pharmacy and Health Systems Sciences; Xavier University of Louisiana, PharmD

**Jonathan Matthis**

Assistant Professor, Biology; Rensselaer Polytechnic University, PhD

**Carla Mattos**

Professor, Chemistry and Chemical Biology; Massachusetts Institute of Technology, PhD

**Lucy Maulsby**

Associate Professor, Architecture; Columbia University, PhD

**Ernest Mauristhene**

Associate Cooperative Education Coordinator, D'Amore-McKim School of Business; Hardin-Simmons University, MBA

**Bruce Maxwell**

Visiting Professor, Computer Sciences; Carnegie Mellon University, PhD

**Jessica Maxwell**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Boston University, PhD; Massachusetts General Hospital Institute of Health Professions, DPT

**William Mayer**

Professor, Political Science; Harvard University, PhD

**Mary Mayville**

Assistant Clinical Professor, Nursing; Northeastern University, DNP

**Laurie McCadden**

Clinical Instructor, Nursing; University of Massachusetts, Lowell, MSN

**Paulette McCarty**

Associate Teaching Professor, Management and Organizational Development; University of Tennessee, PhD

**Jane McCool**

Assistant Clinical Professor, Nursing; University of Rhode Island, PhD

**Victoria D. McCoy Dunkley**

Assistant Teaching Professor, Law; Vanderbilt University, JD

**John McDevitt**

Professor of the Practice, Criminology and Criminal Justice and College of Professional Studies; Northeastern University, PhD

**Eileen McDonagh**

Professor, Political Science; Harvard University, PhD

**Ann McDonald**

Associate Professor, Art + Design; Yale University, MFA

**Matthew McDonald**

Associate Professor, Music; Yale University, PhD

**Melissa McElligott**

Associate Teaching Professor, Biology; Northeastern University, PhD

**Kayla McEwen**

Associate Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MS

**Nicol E. McGruer**

Professor, Electrical and Computer Engineering; Michigan State University, PhD

**Jean McGuire**

Professor of the Practice, Health Sciences; Brandeis University, PhD

**Hugh McManus**

Associate Teaching Professor, Mechanical and Industrial Engineering; Stanford University, PhD

**Cristine McMartin-Miller**

Teaching Professor, College of Professional Studies; Purdue University, PhD

**Cassandra McMillan**

Assistant Professor, Sociology and Anthropology and Criminology and Criminal Justice; Pennsylvania State University, PhD

**Joseph McNabb**

Professor of the Practice, College of Professional Studies; Northeastern University, PhD

**Robert C. McOwen**

Professor, Mathematics; University of California, Berkeley, PhD

**Frances Nelson McSherry**

Teaching Professor, Theatre; New York University, MFA

**Daniel S. Medwed**

University Distinguished Professor, Law; Harvard University, JD

**Iraz Mehdi**

Associate Cooperative Education Coordinator, College of Engineering; California State University, Long Beach, MS

**Erin Meier**

Assistant Professor, Communication Sciences and Disorders; Boston University, PhD

**Emanuel S. Melachrinoudis**

Professor, Mechanical and Industrial Engineering; University of Massachusetts, Amherst, PhD

**Waleed Meleis**

Associate Professor, Electrical and Computer Engineering; University of Michigan, PhD

**Justin Melette**

Visiting Lecturer, English; Pennsylvania State University, PhD

**Susan L. Mello**

Assistant Professor, Communication Studies; University of Pennsylvania, PhD

**Tina J. Mello**

Associate Cooperative Education Coordinator, College of Science; Boston College, MA

**Alice Mello da Fonseca**

Assistant Teaching Professor, College of Professional Studies; Tufts University, PhD

**Richard H. Melloni Jr.**

Professor, Psychology; University of Massachusetts, PhD

**Tommaso Melodia**

William Lincoln Smith Professor of Electrical and Computer Engineering, Electrical and Computer Engineering; Georgia Institute of Technology, PhD

**Michael Meltsner**

Matthews Distinguished University Professor, Law; Yale University, JD

**Jose Menendez**

Visiting Assistant Professor, Art + Design; Rhode Island School of Design, MA

**Latika Menon**

Associate Professor, Physics; Tata Institute of Fundamental Research, Bombay (India), PhD

**Hameed Metghalchi**

Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, ScD

**Laura Meyer**

Assistant Cooperative Education Coordinator, Graduate School of Engineering; Cleveland State University, MEd

**Marc H. Meyer**

Robert J. Shillman Professor of Entrepreneurship and Matthews Distinguished University Professor, Entrepreneurship and Innovation; Massachusetts Institute of Technology, PhD

**Amy Meyers**

Assistant Cooperative Education Coordinator, Computer Sciences; Salem State University, MS

**Ningfang Mi**

Associate Professor, Electrical and Computer Engineering; University of Texas, Dallas, MS

**Sakib Miaz**

Assistant Teaching Professor, Computer Sciences; University of North Carolina, Charlotte, PhD

**Vidoje Mihajlovikj**

Lecturer, Computer Sciences; Clarkson University, PhD

**Lara Milane**

Assistant Teaching Professor, Pharmaceutical Sciences; Northeastern University, PhD

**Deborah Milbauer**

Senior Lecturer, Health Sciences; Boston University, MS

**William Miles**

Professor, Political Science; Tufts University, PhD

**Danielle M. Miller**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; Northeastern University, PharmD

**Edward Miller**

Associate Teaching Professor, College of Professional Studies; Boston College, PhD

**Emily Miller**

Assistant Cooperative Education Coordinator, College of Science; New York University, MA

**Matthew Miller**

Professor, Health Sciences; Yale University, MD; Harvard University, ScD

**Maura Miller**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Providence College, BS

**Renée Miller**

Distinguished Professor, Computer Sciences; University of Wisconsin, Madison, PhD

**Ennio Mingolla**

Professor, Communication Sciences and Disorders; University of Connecticut, PhD

**Mona Minkara**

Assistant Professor, Bioengineering; University of Florida, PhD

**Marilyn L. Minus**

Professor, Mechanical and Industrial Engineering; Georgia Institute of Technology, PhD

**Alan Mislove**

Professor, Computer Sciences; Rice University, PhD

**Sunil Mittal**

Assistant Professor, Electrical and Computer Engineering; University of Maryland, College Park, PhD

**Cheryl Mitteness**

Associate Academic Specialist, Entrepreneurship and Innovation; University of Louisville, PhD

**Nancy Mizzoni**

Assistant Clinical Professor, Nursing; Northeastern University, MS

**Sarah Mockler**

Assistant Cooperative Education Coordinator, College of Engineering; Boston College, MA

**Alicia Modestino**

Associate Professor, Public Policy and Urban Affairs and Economics; Harvard University, PhD

**Valentine Moghadam**

Professor, International Affairs; American University, PhD

**Mohsen Moghaddam**

Assistant Professor, Mechanical and Industrial Engineering; Purdue University, PhD

**Shan Mohammed**

Clinical Professor, Health Sciences; Case Western Reserve University, MD

**Shariq Mohammed**

Assistant Professor, Economics; University of Arizona, PhD

**Beth Molnar**

Associate Professor, Health Sciences; Harvard University, ScD

**James Monaghan**

Associate Professor, Biology; University of Kentucky, PhD

**Yasmil Montes**

Assistant Cooperative Education Coordinator, Khoury College of Computer Sciences; Cambridge College, MS

**Robert M. Mooradian**

Professor, Finance; University of Pennsylvania, PhD

**Elizabeth Moore**

Assistant Teaching Professor, International Business and Strategy; Northeastern University, PhD

**Rebekah Moore**

Assistant Professor, Music; Indiana University, PhD

**Silvio Moreira**

Assistant Professor, Computer Sciences; University of Lisbon (Portugal), PhD

**Enrique F. Moreno**

Associate Teaching Professor, Physics; Universidad Nacional de La Plata (Argentina), PhD

**Kimberly Moreno**

Professor, Accounting; University of Massachusetts, Amherst, PhD

**Joanne Morreale**

Associate Professor, Media and Screen Studies; Temple University, PhD

**Mounira Morris**

Assistant Teaching Professor, College of Professional Studies; University of Massachusetts, Amherst, EdD

**Kristen Morse**

Assistant Cooperative Education Coordinator, Bouvé College of Health Sciences; Ithaca College, DPT

**Hossein Mosallaei**

Professor, Electrical and Computer Engineering; University of California, Los Angeles, PhD

**Ab Mosca**

Assistant Teaching Professor, Computer Sciences; Tufts University, PhD

**Rashid Mosley**

Assistant Teaching Professor, College of Professional Studies; George Washington University, PhD

**Edward Moss**

Associate Teaching Professor, Writing Program; Emerson College, MFA

**Lorraine Ann Mountain**

Senior Cooperative Education Coordinator, College of Engineering; Tufts University, MS

**Amy Mueller**

Assistant Professor, Civil and Environmental Engineering and Marine and Environmental Sciences; Massachusetts Institute of Technology, PhD

**Dana Mueller**

Assistant Teaching Professor, Art + Design; Massachusetts College of Art, MFA

**Sinan Muftu**

Professor, Mechanical and Industrial Engineering; University of Rochester, PhD

**Tania Muino**

Associate Academic Specialist, World Languages Center; University of Barcelona (Spain), MA

**Constantine Mukasa**

Assistant Teaching Professor, Engineering; Florida Atlantic University, PhD

**Sanjeev Mukerjee**

Distinguished Professor, Chemistry and Chemical Biology; Texas AM University, PhD

**Saptarshi Mukherjee**

Assistant Professor, Finance; New York University, PhD

**Jay Mulki**

Associate Professor, Marketing; University of South Florida, PhD

**Anthony Mullen**

Associate Teaching Professor, Computer Sciences; University of Groningen (Netherlands), PhD

**Patrick Mullen**

Associate Professor, English; University of Pittsburgh, PhD

**Seth Mulliken**

Associate Teaching Professor, Media and Screen Studies; North Carolina State University, PhD

**Ufuk Muncuk**

Research Assistant Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Samuel E. Munoz**

Assistant Professor, Marine and Environmental Sciences and Civil and Environmental Engineering; University of Wisconsin, Madison, PhD

**Robert Murray**

Associate Academic Specialist, Supply Chain and Information Management; Harvard University, MBA

**Vincent Muscolino**

Lecturer, Finance; Babson College, MBA

**Hande Musdal Ondemir**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Northeastern University, PhD

**Cecelia Musselman**

Teaching Professor, Writing Program; Columbia University, PhD

**Shakir Mustafa**

Teaching Professor, World Languages Center; Boston University, PhD

**Mark Muzere**

Visiting Associate Professor, Finance; Washington University, St. Louis, PhD

**Felix Muzny**

Clinical Instructor, Computer Sciences; Stanford University, MS

**Jonathan Mwaura**

Associate Teaching Professor, Computer Sciences; University of Exeter (United Kingdom), PhD

**Andrew Myers**

Associate Professor, Civil and Environmental Engineering; Stanford University, PhD

**David Myers**

Associate Teaching Professor, Finance; University of Washington, PhD

**Laura Mylott**

Clinical Professor, Nursing; Boston College, PhD

**Yousof Naderi**

Research Assistant Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Thomas K. Nakayama**

Professor, Communication Studies; University of Iowa, PhD

**Laurie Nardone**

Teaching Professor, English; Emory University, PhD

**Tareq Nasralah**

Assistant Teaching Professor, Supply Chain and Information Management; Dakota State University, PhD

**Pran Nath**

Matthews Distinguished University Professor, Physics; Stanford University, PhD

**Hamid Nayeb-Hashemi**

Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Brent Nelson**

Professor, Physics; University of California, Berkeley, PhD

**Huy Nguyen**

Assistant Professor, Computer Sciences; Princeton University, PhD

**Julie Nguyen**

Assistant Cooperative Education Coordinator, College of Engineering; Columbia University, MA

**Jared Nicholson**

Associate Clinical Professor, Law; Harvard University, JD

**Sandy Nickel**

Assistant Teaching Professor, College of Professional Studies; University of Iowa, PhD

**Mark J. Niedre**

Professor, Bioengineering; University of Toronto (Canada), PhD

**Angel Nieves**

Professor, Cultures, Societies, and Global Studies and History; Cornell University, PhD

**Spyridon Nikas**

Research Associate Professor, Center for Drug Discovery; Aristotle University (Greece), PhD

**Matthew Nippins**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Massachusetts General Hospital Institute of Health Professions, DPT

**Matthew C. Nisbet**

Professor, Communication Studies; Cornell University, PhD

**Cristina Nita-Rotaru**

Professor, Computer Sciences; Johns Hopkins University, PhD

**Daniel Noemi Voionmaa**

Associate Professor, Cultures, Societies, and Global Studies; Yale University, PhD

**Alison Nogueira**

Senior Cooperative Education Coordinator, College of Engineering; Suffolk University, MEd

**David Nolan**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Massachusetts General Hospital Institute of Health Professions, DPT

**Kimberly Nolan**

Associate Teaching Professor, College of Professional Studies; University of Vermont, EdD

**Carey Noland**

Associate Professor, Communication Studies; Ohio University, PhD

**Ellen Noonan**

Teaching Professor, Writing Program; Emerson College, MFA

**Matthew Noonan**

Associate Teaching Professor, Writing Program; Massachusetts College of Art, MFA

**Farzad Noubary**

Associate Clinical Professor, Health Sciences; Harvard University, PhD

**Guevara Noubir**

Professor, Computer Sciences; Swiss Federal Institute of Technology, Lausanne (Switzerland), PhD

**Diogenes Nuñez**

Lecturer, Computer Sciences; Tufts University, PhD

**Gilbert Nyaga**

Associate Professor, Supply Chain and Information Management; Michigan State University, PhD

**Jessica Oakes**

Assistant Professor, Bioengineering; University of California, San Diego, PhD

**Antonio Ocampo-Guzman**

Associate Professor, Theatre; York University (Canada), MFA

**Abigail Ochengco**

Assistant Cooperative Education Coordinator, College of Engineering; Harvard University, MEd

**Curtis Odom**

Assistant Teaching Professor, Management and Organizational Development; Pepperdine University, EdD

**Mikhail Oet**

Associate Teaching Professor, College of Professional Studies; Case Western Reserve University, PhD

**Dietmar Offenhuber**

Associate Professor, Art + Design and Public Policy and Urban Affairs; Massachusetts Institute of Technology, PhD

**John Olawepo**

Assistant Clinical Professor, Health Sciences; University of Nevada, Las Vegas, PhD

**Marvin Onabajo**

Associate Professor, Electrical and Computer Engineering; Texas AM University, PhD

**Mary Jo Ondrechen**

Professor, Chemistry and Chemical Biology; Northwestern University, PhD

**Annalisa Onnis-Hayden**

Teaching Professor, Civil and Environmental Engineering; University of Cagliari (Italy), PhD

**Alina Oprea**

Associate Professor, Computer Sciences; Carnegie Mellon University, PhD

**Toyoko J. Orimoto**

Associate Professor, Physics; University of California, Berkeley, PhD

**Jessica Ormsby**

Associate Cooperative Education Coordinator, College of Engineering; University of Massachusetts, Boston, MEd

**Andrew Orr-Skirvin**

Clinical Professor, Pharmacy and Health Systems Sciences; University of Texas, Austin, PharmD

**Sarah Ostadabbas**

Assistant Professor, Electrical and Computer Engineering; University of Texas, Dallas, PhD

**Eileen Otis**

Associate Professor, Sociology and Anthropology; University of California, Davis, PhD

**Timothy Ouillette**

Associate Teaching Professor, Communication Studies; Art Institute of Boston, MFA

**Jane Owens**

Associate Professor, Pharmacy and Health Systems Sciences; Pennsylvania State University, PhD

**Oyindasola O. Oyelaran**

Teaching Professor, Chemistry and Chemical Biology; Harvard University, PhD

**Yusuf Ozbek**

Associate Teaching Professor, Graduate School of Engineering; Northeastern University, PhD

**Ozan Ozdemir**

Research Assistant Professor, Mechanical and Industrial Engineering; South Dakota School of Mines and Technology, PhD

**Daniel O'Brien**

Associate Professor, Public Policy and Urban Affairs and Criminology and Criminal Justice; Binghamton University, PhD

**Brian O'Connell**

Assistant Teaching Professor, Engineering; Tufts University, PhD

**Sean O'Connell**

Assistant Teaching Professor, College of Professional Studies; Northeastern University, PhD

**Catherine O'Connor**

Clinical Instructor, Nursing; Boston College, MS

**George A. O'Doherty**

Professor, Chemistry and Chemical Biology; Ohio State University, PhD

**Russ O'Haver**

Senior Academic Specialist, Accounting; University of New York, PhD

**Peggy L. O'Kelly**

Principal Lecturer, Accounting; University of Michigan, MBA

**Donald M. O'Malley**

Associate Professor, Biology; Harvard University, PhD

**Donica O'Malley**

Postdoctoral Teaching Associate, Communication Studies; University of Pittsburgh, PhD

**Therese M. O'Neil-Pirozzi**

Associate Professor, Communication Sciences and Disorders; Boston University, ScD

**Jahir Pabon**

Associate Teaching Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Taskin Padir**

Associate Professor, Electrical and Computer Engineering; Purdue University, PhD

**Robert K. Painter**

Associate Teaching Professor, Linguistics; State University of New York, Buffalo, PhD

**Himlona Palikhe**

Associate Teaching Professor, Graduate School of Engineering; Texas Tech University, PhD

**Costas Panagopoulos**

Professor, Political Science; New York University, PhD

**Kwamina Panford**

Associate Professor, Cultures, Societies, and Global Studies; Northeastern University, PhD

**Themis Papageorge**

Associate Clinical Professor, Computer Sciences; Massachusetts Institute of Technology, PhD

**Demetra Paparounas**

Lecturer, Supply Chain and Information Management; Northeastern University, PhD

**Harikrishnan Parameswaran**

Assistant Professor, Bioengineering; Boston University, PhD

**Serena Parekh McGushin**

Associate Professor, Philosophy and Religion; Boston College, PhD

**Jason Parente**

Assistant Clinical Professor, Physician Assistant Program; Northeastern University, MS

**Melissa Parenti**

Assistant Teaching Professor, College of Professional Studies; University of Southern California, EdD

**John Park**

Clinical Instructor, Computer Sciences; Stanford University, MS

**Kevin Parker**

Assistant Cooperative Education Coordinator, College of Engineering; Salem State University, MEd

**Quannah Parker-McGowan**

Assistant Teaching Professor, College of Professional Studies; University of Minnesota, PhD

**Wendy E. Parmet**

Matthews Distinguished University Professor, Law; Harvard University, JD

**Christopher Parsons**

Associate Professor, History; University of Toronto (Canada), PhD

**Nikos Passas**

Professor, Criminology and Criminal Justice; University of Edinburgh (Scotland), PhD

**Rupal Patel**

Professor, Communication Sciences and Disorders and Computer Sciences; University of Toronto (Canada), PhD

**Mark R. Patterson**

Professor, Marine and Environmental Sciences and Civil and Environmental Engineering; Harvard University, PhD

**Jeremy R. Paul**

Professor, Law; Harvard University, JD

**Koen Pauwels**

Distinguished Professor, Marketing; University of California, Los Angeles, PhD

**Michael Pavel**

Professor of the Practice, Computer Sciences and Health Sciences; New York University, PhD

**Spiro Pavlopoulos**

Research Associate Professor, Center for Drug Discovery; Victorian College of Pharmacy, Melbourne (Australia), PhD

**Virgiliu Pavlu**

Associate Teaching Professor, Computer Sciences; Northeastern University, PhD

**Kara Pavone**

Assistant Professor, Nursing; University of Pennsylvania, PhD

**Karen Pawelek**

Assistant Clinical Professor, Nursing; Northeastern University, PhD

**Nancy Pawlyshyn**

Associate Teaching Professor, College of Professional Studies; Capella University, PhD

**Sarah Peacock**

Assistant Teaching Professor, Biology; University of Missouri, PhD

**Celia Pearce**

Associate Professor, Game Design; University of the Arts London (United Kingdom), PhD

**Neal J. Pearlmutter**

Associate Professor, Psychology; Massachusetts Institute of Technology, PhD

**Melissa Pearson**

Assistant Teaching Professor, Writing Program; University of South Carolina, PhD

**Jinxiang Pei**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Northwestern University, PhD

**Lei Pei**

Assistant Professor, Marketing; University of California, Los Angeles, PhD

**Melissa Peiken**

Senior Cooperative Education Coordinator, Khoury College of Computer Sciences; Emerson College, MEd

**Matej Penciak**

Zelevinsky Postdoctoral Researcher, Mathematics; University of Illinois, Urbana-Champaign, PhD

**Russell Pensyl**

Professor, Art + Design; Western Michigan University, MFA

**Diane Perez**

Assistant Academic Specialist, College of Professional Studies; Salem State University, MEd

**Laura Perovich**

Assistant Professor, Art + Design; Massachusetts Institute of Technology, PhD

**Sharon Persons**

Associate Teaching Professor, Law; Stanford University, JD

**Ivan Petkov**

Assistant Professor, Economics; Boston College, PhD

**Courtney Pfluger**

Associate Teaching Professor, Chemical Engineering; Northeastern University, PhD

**David M. Phillips**

Professor, Law; Columbia University, JD

**Susan E. Picillo**

Principal Lecturer, Communication Studies; Cambridge College, MEd

**Kelsey Pieper**

Assistant Professor, Civil and Environmental Engineering; Virginia Polytechnic Institute and State University, PhD

**Maricla Pirozzi**

Assistant Cooperative Education Coordinator, Graduate School of Engineering; European School of Economics (Italy), MBA

**Leigh Plant**

Assistant Professor, Pharmaceutical Sciences; University of Leeds (United Kingdom), PhD

**Harlan D. Platt**

Professor, Finance; University of Michigan, PhD

**Marjorie Platt**

Professor, Accounting; University of Michigan, PhD

**Robert Platt Jr.**

Associate Professor, Computer Sciences; University of Massachusetts, Amherst, PhD

**Katherine Podgurski**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MS

**Mya Poe**

Associate Professor, English; University of Massachusetts, Amherst, PhD

**Hermine Poghosyan**

Assistant Professor, Nursing; University of Massachusetts, Boston, PhD

**Ann Polcari**

Associate Clinical Professor, Nursing; Boston College, PhD

**Stephanie Pollack**

Professor of the Practice, Public Policy and Urban Affairs; Harvard University, JD

**Michael P. Pollastri**

Professor, Chemistry and Chemical Biology; Brown University, PhD

**Marius Popescu**

Associate Teaching Professor, Finance; Virginia Polytechnic Institute and State University, PhD

**Hilary Poriss**

Associate Professor, Music; University of Chicago, PhD

**Gary Porter**

Assistant Teaching Professor, Finance; University of South Carolina, PhD

**Richard D. Porter**

Professor, Mathematics; Yale University, PhD

**Veronica L. Porter**

Associate Professor, Cooperative Education, College of Science; Northeastern University, MEd

**Lindsay Portnoy**

Associate Teaching Professor, College of Professional Studies; Fordham University, PhD

**John Portz**

Professor, Political Science; University of Wisconsin, Madison, PhD

**Brady Post**

Assistant Professor, Health Sciences; St. Olaf College, BAS

**Mary-Susan Potts-Santone**

Teaching Professor, Biology; University of New Hampshire, PhD

**Michael J. Power**

Senior Lecturer, Supply Chain and Information Management; Northeastern University, MBA

**Edward Powers**

Professor of the Practice, College of Professional Studies; Northeastern University, EdD

**Silvia Prina**

Associate Professor, Economics; Boston University, PhD

**Robert Prior**

Associate Teaching Professor, College of Professional Studies; Nova Southeastern University, EdD

**Mark Prokosch**

Associate Teaching Professor, Psychology; University of California, Davis, PhD

**Sheila M. Puffer**

Professor and University Distinguished Professor, International Business and Strategy; University of California, Berkeley, PhD

**Zhenyun Qian**

Research Assistant Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Karen Quigley**

Professor, Psychology; Ohio State University, PhD

**Simon Rabinovitch**

Associate Professor, History and Jewish Studies; Brandeis University, PhD

**Gordana Rabrenovic**

Associate Professor, Sociology and Anthropology; State University of New York, Albany, PhD

**John Rachlin**

Assistant Teaching Professor, Computer Sciences; Boston University, PhD

**Srinivasan Radhakrishnan**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Northeastern University, PhD

**Predrag Radivojac**

Professor, Computer Sciences; Temple University, PhD

**Rajmohan Rajaraman**

Professor, Computer Sciences; University of Texas, Austin, PhD

**Ravi Ramamurti**

University Distinguished Chair Professor, International Business and Strategy; Harvard University, DBA

**Valeria Ramdin**

Assistant Clinical Professor, Nursing; Northeastern University, DNSc

**Alireza Ramezani**

Assistant Professor, Electrical and Computer Engineering; University of Michigan, PhD

**Deborah A. Ramirez**

Professor, Law; Harvard University, JD

**Sumientra Rampersad**

Research Assistant Professor, Electrical and Computer Engineering;  
Radboud University (Netherlands), PhD

**Janet Randall**

Professor, English; University of Massachusetts, Amherst, PhD

**Aanjhan Ranganathan**

Assistant Professor, Computer Sciences; ETH Zurich (Switzerland), PhD

**Manish Ranjit**

Assistant Teaching Professor, Mechanical and Industrial Engineering;  
Texas Tech University, PhD

**Carey M. Rappaport**

College of Engineering Distinguished Professor, Electrical and Computer  
Engineering; Massachusetts Institute of Technology, ScD

**K.J. Rawson**

Associate Professor, English and Women's, Gender, and Sexuality Studies;  
Syracuse University, PhD

**Diviya Ray**

Assistant Teaching Professor, Biology; Indian Institute of Chemical  
Biology (India), PhD

**Andrea Raynor**

Teaching Professor, Art + Design; School of Visual Arts, MFA

**Desislava Raytcheva**

Associate Teaching Professor, Biology; Northeastern University, PhD

**Leena Razzaq**

Associate Teaching Professor, Computer Sciences; Worcester  
Polytechnic Institute, PhD

**Joseph Reagle**

Associate Professor, Communication Studies; New York University, PhD

**Lynn Reede**

Associate Clinical Professor, Nursing; Northeastern University, PhD

**Debra J. Reid**

Associate Clinical Professor, Pharmacy and Health Systems Sciences;  
Northeastern University, PharmD

**Imke Reimers**

Associate Professor, Economics; University of Minnesota, PhD

**Karen Reiss Medwed**

Associate Teaching Professor, College of Professional Studies; New York  
University, PhD

**Marketa Rejtar**

Associate Clinical Professor, Nursing; Massachusetts General Hospital  
Institute of Health Professions, PhD

**Francesco Restuccia**

Assistant Professor, Electrical and Computer Engineering; Missouri  
University of Science and Technology, PhD

**John R. Reynolds**

Professor, Pharmacy and Health Systems Sciences; Duquesne University,  
PharmD

**Lesley A. Ricci**

Associate Teaching Professor, Psychology; Northeastern University, PhD

**Rashida Richardson**

Assistant Professor, Law and Political Science; Northeastern University,  
JD

**Megan Richmond**

Senior Cooperative Education Coordinator, D'Amore-McKim School of  
Business; Boston College, MEd

**Vance Ricks**

Associate Teaching Professor, Philosophy and Religion and Computer  
Sciences; Stanford University, PhD

**Mirek Riedewald**

Associate Professor, Computer Sciences; University of California, Santa  
Barbara, PhD

**Christoph Riedl**

Associate Professor, Supply Chain and Information Management and  
Computer Sciences; Technische Universität München (Germany), PhD

**Justin B. Ries**

Professor, Marine and Environmental Sciences; Johns Hopkins University,  
PhD

**Matteo Rinaldi**

Professor, Electrical and Computer Engineering; University of  
Pennsylvania, PhD

**Christie Rizzo**

Associate Professor, Applied Psychology; University of Southern  
California, Los Angeles, PhD

**Christina Roberts**

Senior Cooperative Education Coordinator, College of Arts, Media and  
Design; Simmons University, MBA

**Christopher J. Robertson**

Professor, International Business and Strategy; Florida State University,  
PhD

**Craig M. Robertson**

Associate Professor, Media and Screen Studies; University of Illinois,  
Urbana-Champaign, PhD

**William Robertson**

Associate Professor, Computer Sciences and Electrical and Computer  
Engineering; University of California, Santa Barbara, PhD

**Hilary C. Robinson**

Associate Professor, Law and Sociology and Anthropology;  
Massachusetts Institute of Technology, PhD; Harvard University, JD

**Tracy L. Robinson-Wood**

Professor, Applied Psychology; Harvard University, EdD

**Brian Robison**

Assistant Teaching Professor, Music; Cornell University, DMA

**David Rochefort**

Distinguished Professor, Political Science; Brown University, PhD

**Rachel Rodgers**

Associate Professor, Applied Psychology; Université de Toulouse-Le  
Mirail (France), PhD

**Kirsten Rodine-Hardy**

Associate Professor, Political Science; University of California, Berkeley, PhD

**Rudy Rodsphon**

Zelevinsky Postdoctoral Researcher, Mathematics; Université Lyon 1 (France), PhD

**Sonia Rolland**

Professor, Law; Cambridge University (United Kingdom), PhD; University of Michigan, JD

**Bruce Ronkin**

Professor, Music; University of Maryland, DMA

**Tayla Rose**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; University of Connecticut, PharmD

**Rachel E. Rosenbloom**

Professor, Law; New York University, JD

**Rebeca B. Rosengaus**

Associate Professor, Marine and Environmental Sciences; Boston University, PhD

**James R. Ross**

Associate Professor, Journalism; American University, MA

**Aaron Roth**

Associate Teaching Professor, Biology; Northeastern University, PhD

**Alexandra Roth**

Associate Academic Specialist, International Business and Strategy; University of Frankfurt (Germany), PhD

**Sara Rouhanifard**

Assistant Professor, Bioengineering; Yeshiva University, PhD

**James V. Rowan**

Professor, Law; Duke University, JD

**Jeffrey W. Ruberti**

Professor, Bioengineering; Tulane University, PhD

**Michael Ruff**

Associate Teaching Professor, Accounting; Bentley University, PhD

**Michael Running Wolf**

Clinical Instructor, Computer Sciences; Montana State University, MS

**Timothy J. Rupert**

Professor, Accounting; Pennsylvania State University, PhD

**Ivan Rupnik**

Associate Professor, Architecture; Harvard University, PhD

**Elizabeth Russet**

Assistant Clinical Professor, Nursing; Northeastern University, PhD

**Youngbok Ryu**

Assistant Teaching Professor, College of Professional Studies; Pardee RAND Graduate School, PhD

**Hanai Sadaka**

Associate Teaching Professor, Mathematics; Northeastern University, PhD, PhD

**Keivan Sadeghzadeh**

Associate Teaching Professor, Supply Chain and Information Management; Northeastern University, PhD

**J. Timothy Sage**

Associate Professor, Physics; University of Illinois, Urbana-Champaign, PhD

**Bhawesh Sah**

Assistant Teaching Professor, Supply Chain and Information Management; State University of New York, Binghamton, PhD

**Vinod Sahney**

University Distinguished Professor, Mechanical and Industrial Engineering; University of Wisconsin, Madison, PhD

**Blaine Saito**

Assistant Professor, Law; Harvard University, JD

**Iman Salama**

Associate Teaching Professor, Electrical and Computer Engineering; Virginia Polytechnic Institute and State University, PhD

**Masoud Salehi**

Associate Professor, Electrical and Computer Engineering; Stanford University, PhD

**Carmel Salhi**

Assistant Professor, Health Sciences; Harvard University, PhD

**William Sanchez**

Associate Professor, Applied Psychology; Boston University, PhD

**Nada Sanders**

Distinguished Professor of Supply Chain Management, Supply Chain and Information Management; Ohio State University, PhD

**Tova Sanders**

Associate Teaching Professor, College of Professional Studies; George Washington University, EdD

**Ronald Sandler**

Professor, Philosophy and Religion; University of Wisconsin, Madison, PhD

**Erica Sands**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MS

**John Sangster**

Assistant Teaching Professor, Engineering; Virginia Polytechnic Institute and State University, PhD

**Claudia Santelices**

Research Assistant Professor, Institute of Health Equity and Social Justice Research Center; University of Connecticut, PhD

**Jody Santos**

Visiting Assistant Teaching Professor, Journalism; Northeastern University, MA

**Ravi Sarathy**

Professor, International Business and Strategy; University of Michigan, PhD

**Mehrdad Sasani**

Professor, Civil and Environmental Engineering; University of California, Berkeley, PhD

**Ajay B. Satpute**

Assistant Professor, Psychology; University of California, Los Angeles, PhD

**Behrooz (Barry) Satvat**

Teaching Professor, Chemical Engineering; Massachusetts Institute of Technology, ScD

**Saiph Savage**

Assistant Professor, Computer Sciences; University of California, Santa Barbara, PhD

**Stephen S. Savitsky**

Assistant Cooperative Education Coordinator, College of Science; Marquette University, MA

**Kevin Scanlon**

Professor of the Practice, Entrepreneurship and Innovation; University of London (United Kingdom), PhD

**Samuel V. Scarpino**

Assistant Professor, Marine and Environmental Sciences and Physics; University of Texas, Austin, PhD

**Carmen Sceppa**

Professor, Health Sciences; Francisco Marroquin University (Guatemala), MD; Tufts University, PhD

**Martin Schedlbauer**

Teaching Professor, Computer Sciences; University of Massachusetts, PhD

**Gunar Schirmer**

Associate Professor, Electrical and Computer Engineering; University of California, Irvine, PhD

**Ralf W. Schlosser**

Professor, Communication Sciences and Disorders; Purdue University, PhD

**Walter Schnyder**

Associate Teaching Professor, Computer Sciences; Swiss Federal Institute of Technology (Switzerland), PhD

**Egon Schulte**

Professor, Mathematics; University of Dortmund (Germany), PhD

**Kathryn Schulte Grahame**

Teaching Professor, Engineering; Columbia University, PhD

**Joseph Schwartz**

Associate Teaching Professor, Communication Studies; University of Iowa, PhD

**Martin Schwarz Jr.**

Associate Professor, Mathematics; Courant Institute, PhD

**Cody Scott**

Assistant Professor, Computer Sciences; University of Maryland, PhD

**Douglass Scott**

Associate Teaching Professor, Art + Design; Yale University, MFA

**Steven Scyphers**

Assistant Professor, Marine and Environmental Sciences; University of South Alabama, PhD

**Max Sederer**

Assistant Cooperative Education Coordinator, College of Engineering; Tufts University, MEd

**Ethan Selinger**

Assistant Cooperative Education Coordinator, Khoury College of Computer Sciences; University of Massachusetts, Lowell, MS

**Sarah Sellke**

Assistant Teaching Professor, Computer Sciences; Purdue University, PhD

**Shubhro Sen**

Visiting Professor, Marketing; University of California, Berkeley, PhD

**Laura Senier**

Associate Professor, Sociology and Anthropology and Health Sciences; Brown University, PhD

**Gapyuel Seo**

Visiting Assistant Teaching Professor, Art + Design; Sejong University (South Korea), PhD

**Sumi Seo**

Assistant Teaching Professor, Mathematics; University of Missouri, Columbia, PhD

**Bahram Shafai**

Professor, Electrical and Computer Engineering; George Washington University, ScD

**Michael Shah**

Lecturer, Computer Sciences; Tufts University, PhD

**Shahin Shahrapour**

Assistant Professor, Mechanical and Industrial Engineering; University of Pennsylvania, PhD

**Rebecca M. Shansky**

Associate Professor, Psychology; Yale University, PhD

**Harvey Shapiro**

Clinical Professor, College of Professional Studies; Hebrew Union College, PhD

**Ali Sharifkhani**

Assistant Professor, Finance; University of Toronto (Canada), PhD

**William T. Sharp**

Associate Teaching Professor, Psychology; Boston Graduate School of Psychoanalysis, PhD

**Gavin M. Shatkin**

Professor, Public Policy and Urban Affairs and Architecture; Rutgers University, PhD

**Dennis R. Shaughnessy**

Senior Academic Specialist, Entrepreneurship and Innovation; University of Maryland, JD

**Margaret Shea**

Associate Cooperative Education Coordinator, D'Amore-McKim School of Business; Boston University, BLS

**Thomas C. Sheahan**

Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, ScD

**Sandra Shefelbine**

Professor, Mechanical and Industrial Engineering and Bioengineering; Stanford University, PhD

**Abhi Shelat**

Associate Professor, Computer Sciences; Massachusetts Institute of Technology, PhD

**Paxton Sheldahl**

Assistant Teaching Professor, Architecture; Harvard University, MArch

**Aryn Sherman**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MEd

**H. David Sherman**

Professor, Accounting; Harvard University, DBA

**Amit Shesh**

Teaching Professor, Computer Sciences; University of Minnesota, Twin Cities, PhD

**Namratha Shetty**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; University of St. Thomas, St. Paul, MiM

**Shiaoming Shi**

Assistant Teaching Professor, Bioengineering; University of Pittsburgh, PhD

**Craig Shillaber**

Assistant Teaching Professor, Civil and Environmental Engineering; Virginia Polytechnic Institute and State University, MS

**Ji-Yong Shin**

Assistant Professor, Computer Sciences; Cornell University, PhD

**Olin Shivers**

Professor, Computer Sciences; Carnegie Mellon University, PhD

**Katy Shorey**

Assistant Teaching Professor, Philosophy and Religion; University of Missouri, PhD

**Catherine Showalter**

Assistant Teaching Professor, College of Professional Studies; University of Utah, PhD

**Aatmesh Shrivastava**

Assistant Professor, Electrical and Computer Engineering; University of Virginia, Charlottesville, PhD

**Milad Siami**

Assistant Professor, Electrical and Computer Engineering; Lehigh University, PhD

**Stephanie Sibicky**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; University of Rhode Island, PhD

**Brandon Sichling**

Assistant Teaching Professor, Art + Design; Emerson College, MFA

**Mary Lou Siefert**

Associate Clinical Professor, Nursing; Yale University, PhD

**Jose Sierra**

Associate Teaching Professor, Computer Sciences; Universidad Carlos III de Madrid (Spain), PhD

**Robert Sikes**

Associate Professor, Physical Therapy, Movement, and Rehabilitation Sciences; University of Texas, Houston, PhD

**Michael B. Silevitch**

Robert Black Professor of Engineering and College of Engineering Distinguished Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Robert A. Silversmith**

Zelevinsky Postdoctoral Researcher, Mathematics; University of Michigan, PhD

**Peter Simon**

Teaching Professor, Economics; Northern Illinois University, PhD

**Simon Singer**

Professor, Criminology and Criminal Justice; University of Pennsylvania, PhD

**Hanumant Singh**

Professor, Electrical and Computer Engineering and Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Rifat Sipahi**

Professor, Mechanical and Industrial Engineering; University of Connecticut, PhD

**Michail V. Sitkovsky**

Eleanor W. Black Chair in Immunophysiology and Pharmaceutical Biotechnology and Professor, Institute for Tissue Damage and Biology; Moscow State University (Russia), PhD

**Mark Sivak**

Associate Teaching Professor, Art + Design and Engineering; Northeastern University, PhD

**Hazel Sive**

Professor, Biology; Rockefeller University, PhD

**Louise A. Skinnari**

Assistant Professor, Physics; University of California, Berkeley, PhD

**Adrienne Slaughter**

Lecturer, Computer Sciences; University of Washington, PhD

**Nikolai Slavov**

Assistant Professor, Bioengineering; Princeton University, PhD

**Rory Smead**

Ronald L. and Linda A. Rossetti Professor for the Humanities, Philosophy and Religion; University of California, Irvine, PhD

**Daryl Smith**

Visiting Assistant Teaching Professor, Art + Design; Rhode Island School of Design, MFA

**David A. Smith**

Associate Professor, Computer Sciences; Johns Hopkins University, PhD

**Henry Smith**

Assistant Teaching Professor, Physics; Northeastern University, PhD

**Keith Smith**

Assistant Professor, Marketing; University of Georgia, PhD

**Matthew Smith**

Associate Professor, Philosophy and Religion; University of North Carolina, Chapel Hill, PhD

**Molly Smith**

Assistant Teaching Professor, College of Professional Studies; Boston College, PhD

**Ronald Bruce Smith**

Associate Professor, Music; University of California, Berkeley, PhD

**Wendy A. Smith**

College of Arts and Sciences Distinguished Professor, Biology; Duke University, PhD

**Eugene S. Smotkin**

Professor, Chemistry and Chemical Biology; University of Texas, Austin, PhD

**Bridget Smyser**

Teaching Professor, Mechanical and Industrial Engineering; Worcester Polytechnic Institute, PhD

**Nancy P. Snyder**

Associate Teaching Professor, Psychology; Harvard University, EdD

**Dani Snyder-Young**

Assistant Professor, Theatre; New State University, PhD

**Isabel Sobral Campos**

Assistant Teaching Professor, English; City University of New York, PhD

**Claudia Sokol**

Associate Teaching Professor, World Languages Center; University of Buenos Aires (Argentina), MD

**Eduardo Sontag**

University Distinguished Professor, Electrical and Computer Engineering and Bioengineering; University of Florida, PhD

**Maria Sorenson**

Visiting Clinical Instructor, Nursing; Northeastern University, MSN

**Julian Sosnick**

Assistant Teaching Professor, Biology; University of Massachusetts, Amherst, PhD

**Nikolaos S. Soukos**

Associate Teaching Professor, Physics and Biology; University of Munich (Germany), PhD

**Bert A. Spector**

Associate Professor, International Business and Strategy; University of Missouri, PhD

**Denise Spencer**

Senior Lecturer, Supply Chain and Information Management; Boston College, PhD

**Emily A. Spieler**

Edwin W. Hadley Professor, Law; Yale University, JD

**Karen M. Spikes**

Assistant Teaching Professor, Psychology; Cornell University, PhD

**Jay Spitulnik**

Associate Teaching Professor, Computer Sciences and Health Sciences; Walden University, PhD

**Bryan Q. Spring**

Assistant Professor, Physics; University of Illinois, Urbana-Champaign, PhD

**Shelia Springer**

Postdoctoral Teaching Associate, Communication Studies; University of Arizona, PhD

**Srinivas Sridhar**

University Distinguished Professor, Physics; California Institute of Technology, PhD

**Kuppuswamy Srikrishna**

Associate Teaching Professor, Entrepreneurship and Innovation; University of California, Berkeley, PhD

**Kandarp Srinivasan**

Assistant Professor, Finance; Washington University, St. Louis, PhD

**Thomas Starr**

Professor, Art + Design; Yale University, MFA

**Joshua Stefanik**

Assistant Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Boston University, PhD

**Mary Steffel**

Associate Professor, Marketing; Princeton University, PhD; University of Florida, PhD

**Leslie Stein**

Assistant Teaching Professor, College of Professional Studies; United States International University, EdD

**Armen B. Stepanyants**

Professor, Physics; University of Rhode Island, PhD

**Jennie Stephens**

Professor, Public Policy and Urban Affairs; California Institute of Technology, PhD

**Dagmar Sternad**

University Distinguished Professor, Biology and Electrical and Computer Engineering; University of Connecticut, PhD

**Paul Stevenson**

Assistant Professor, Physics; Massachusetts Institute of Technology, PhD

**Sebastian Stockman**

Associate Teaching Professor, Writing Program; Emerson College, MFA

**Milica Stojanovic**

Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Michael Stone**

Associate Teaching Professor, Economics; University of Connecticut, PhD

**Jacob Stowell**

Associate Professor, Criminology and Criminal Justice; State University of New York, Albany, PhD

**Laney Strange**

Associate Teaching Professor, Computer Sciences; Dartmouth College, PhD

**Heather Streets-Salter**

Professor, History; Duke University, PhD

**Aron P. Stubbins**

Associate Professor, Marine and Environmental Sciences and Civil and Environmental Engineering and Chemistry and Chemical Biology; Newcastle University (United Kingdom), PhD

**Jacob Stump**

Assistant Teaching Professor, Philosophy and Religion; University of Toronto (Canada), PhD

**Lili Su**

Assistant Professor, Electrical and Computer Engineering; University of Illinois, Urbana-Champaign, PhD

**Ming Su**

Professor, Chemical Engineering; Northwestern University, PhD

**Fernando Suarez**

Jean C. Tempel Professor, Entrepreneurship and Innovation; Massachusetts Institute of Technology, PhD

**Alexandru I. Suci**

Professor, Mathematics; Columbia University, PhD

**Annemarie C. Sullivan**

Senior Lecturer, Health Sciences; Northeastern University, MS

**Denis Sullivan**

Professor, Political Science and International Affairs; University of Michigan, PhD

**Fareena Sultan**

Professor, Marketing; Columbia University, PhD

**Hao Sun**

Assistant Professor, Civil and Environmental Engineering; Columbia University, PhD

**Hongwei Sun**

Professor, Mechanical and Industrial Engineering; Chinese Academy of Sciences (China), PhD

**Nian-Xiang Sun**

Professor, Electrical and Computer Engineering; Stanford University, PhD

**Ravi Sundaram**

Professor, Computer Sciences; Massachusetts Institute of Technology, PhD

**Daniel Sunderland**

Professor of the Practice, Accounting; University of Chicago, MBA

**Shanu Sushmita**

Assistant Teaching Professor, College of Professional Studies; University of Glasgow (United Kingdom), PhD

**Alexander Susienka**

Assistant Cooperative Education Coordinator, College of Science; Western Michigan University, MA

**Gloria Sutton**

Associate Professor, Art + Design; University of California, Los Angeles, PhD

**Kara Swanson**

Professor, Law; Harvard University, PhD; University of California, Berkeley, JD

**Richard S. Swasey Jr.**

Principal Lecturer, Finance; University of Virginia, MBA

**Jacqueline F. Sweeney**

Senior Cooperative Education Coordinator, College of Arts, Media and Design; Northeastern University, MS

**Meredith O. Sweeney**

Assistant Teaching Professor, Biology; Brandeis University, PhD

**Nina Sylvanus**

Associate Professor, Sociology and Anthropology; Ecole des Hautes Etudes en Sciences Sociales, Paris (France), PhD

**Balazs Szelenyi**

Associate Teaching Professor, College of Professional Studies; University of California, Los Angeles, PhD

**Mario Szaier**

Dennis Picard Trustee Professor, Electrical and Computer Engineering; University of Washington, PhD

**Srinivas Tadigadapa**

Professor, Electrical and Computer Engineering; Cambridge University (United Kingdom), PhD

**David Tamés**

Associate Teaching Professor, Art + Design; Massachusetts College of Art and Design, MFA

**Cheng Tan**

Assistant Professor, Computer Sciences; New York University, PhD

**Xiaoyu Tang**

Assistant Professor, Mechanical and Industrial Engineering; Princeton University, PhD

**Aysen Tanyeri-Abur**

Associate Teaching Professor, Economics; Texas AM University, PhD

**Peter Tarasewich**

Assistant Teaching Professor, Supply Chain and Information Management; University of Connecticut, PhD

**Mohammad E. Taslim**

Professor, Mechanical and Industrial Engineering; University of Arizona, PhD

**Tomasz R. Taylor**

Professor, Physics; University of Warsaw (Poland), PhD

**John Terpinas**

Professor of the Practice, College of Professional Studies; California Western School of Law, JD

**Kate Terrado**

Assistant Teaching Professor, Art + Design; Northeastern University, MFA

**Philip Thai**

Associate Professor, History; Stanford University, PhD

**Ganesh Thakur**

Associate Professor, Pharmaceutical Sciences; Institute of Chemical Technology (India), PhD

**Adam Thomas**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, PhD

**Corliss Thompson**

Associate Teaching Professor, College of Professional Studies; University of North Carolina, Chapel Hill, PhD

**Jamal Thorne**

Assistant Teaching Professor, Art + Design; Northeastern University, MFA

**Jonathan L. Tilly**

University Distinguished Professor, Biology; Rutgers University, PhD

**Jodi Tims**

Professor of the Practice, Computer Sciences; University of Pittsburgh, PhD

**Frank Tip**

Professor, Computer Sciences; University of Amsterdam (Netherlands), PhD

**Lisa J. Tison-Thomas**

Assistant Cooperative Education Coordinator, College of Science; Emmanuel College, MA

**Devesh Tiwari**

Assistant Professor, Electrical and Computer Engineering; North Carolina State University, PhD

**Yustianto Tjiptowidjojo**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Mississippi State University, PhD

**Alexandra A. To**

Assistant Professor, Game Design and Computer Sciences; Carnegie Mellon University, PhD

**Gordana G. Todorov**

Professor, Mathematics; Brandeis University, PhD

**Irina Todorova**

Visiting Clinical Professor, Bouvé College of Health Sciences; Sofia University (Bulgaria), PhD

**Alessio Tognetti**

Associate Academic Specialist, World Languages Center; University of Washington, MA

**Valerio Toledano Laredo**

Professor, Mathematics; University of Cambridge (United Kingdom), PhD

**Michael Tolley**

Associate Professor, Political Science; Johns Hopkins University, PhD

**Jacqueline Tolosko**

Assistant Clinical Professor, Nursing; Boston College, MSN

**Peter Y. Topalov**

Professor, Mathematics; Moscow State University (Russia), PhD

**Vladimir P. Torchilin**

University Distinguished Professor, Pharmaceutical Sciences; Moscow State University (Russia), PhD, DSc

**Ali Touran**

Professor, Civil and Environmental Engineering; Stanford University, PhD

**Emery A. Trahan**

Professor, Finance; State University of New York, Albany, PhD

**Robert Triest**

Professor, Economics; University of Wisconsin, Madison, PhD

**Stavros Tripakis**

Associate Professor, Computer Sciences; Joseph Fourier University (France), PhD

**Giovanni Troiano**

Visiting Assistant Professor, Game Design; University of Copenhagen (Denmark), PhD

**Andrew Trotman**

Assistant Professor, Accounting; Bond University (Australia), PhD

**Geoffrey C. Trussell**

Professor, Marine and Environmental Sciences; College of William and Mary, PhD

**Kumiko Tsuji**

Associate Teaching Professor, World Languages Center; Georgetown University, PhD

**Nathaniel Tuck**

Lecturer, Computer Sciences; University of Massachusetts, Lowell, PhD

**Lori D. Tully**

Associate Teaching Professor, Law; Boston College, JD

**Eugene Tunik**

Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Rutgers University, PhD

**Berna Turam**

Professor, International Affairs and Sociology and Anthropology; McGill University (Canada), PhD

**Esther Tutella-Chen**

Assistant Academic Specialist, College of Professional Studies; Vanderbilt University, MEd

**Jonathan Ullman**

Assistant Professor, Computer Sciences; Harvard University, PhD

**Annique Un**

Associate Professor, International Business and Strategy; Massachusetts Institute of Technology, PhD

**Christopher Unger**

Teaching Professor, College of Professional Studies; Harvard University, EdD

**Steven R. Untersee**

Associate Teaching Professor, Biology; Tufts University, PhD

**Moneesh Upmanyu**

Professor, Mechanical and Industrial Engineering; University of Michigan, PhD

**Scott Valcourt**

Associate Teaching Professor, Computer Sciences; University of New Hampshire, PhD

**Steven Vallas**

Professor, Sociology and Anthropology; Rutgers University, PhD

**Jenny A. Van Amburgh**

Clinical Professor, Pharmacy and Health Systems Sciences; Albany College of Pharmacy, PharmD

**Jan-Willem Van De Meent**

Assistant Professor, Computer Sciences; Leiden University (Netherlands), PhD

**Anne L. Van De Ven-Moloney**

Assistant Teaching Professor, Physics; Rice University, PhD

**Maria Van Pelt**

Clinical Professor, Nursing; Villanova University, DNSc

**Kathleen Vander Laan**

Associate Cooperative Education Coordinator, Khoury College of Computer Sciences; Salem State University, MBA

**Julia Varshavsky**

Assistant Professor, Health Sciences and Civil and Environmental Engineering; University of California, Berkeley, PhD

**Elaine Vejar**

Assistant Academic Specialist, College of Professional Studies; University of Massachusetts, Lowell, MS

**Oana Veliche**

Associate Teaching Professor, Mathematics; Purdue University, PhD

**Vivek Venkatachalam**

Assistant Professor, Physics; Harvard University, PhD

**Madhavi Venkatesan**

Assistant Teaching Professor, Economics; Vanderbilt University, PhD

**Anand Venkateswaran**

Associate Professor, Finance; Georgia State University, PhD

**Ferdinand Vesely**

Lecturer, Computer Sciences; Swansea University (United Kingdom), PhD

**Alessandro Vespignani**

Sternberg Family Distinguished University Professor, Physics and Health Sciences and Computer Sciences; University of Rome La Sapienza (Italy), PhD

**Gustavo Vicentini**

Associate Teaching Professor, Economics; Boston University, PhD

**Thomas Vicino**

Professor, Political Science and Public Policy and Urban Affairs; University of Maryland, PhD

**Ilya Vidrin**

Postdoctoral Teaching Associate, Theatre; Harvard University, MA

**Emanuele Viola**

Associate Professor, Computer Sciences; Harvard University, PhD

**Jan Vitek**

Professor, Computer Sciences; University of Geneva (Switzerland), PhD

**Olga Vitek**

Professor, Computer Sciences; Purdue University, PhD

**Steven V. Vollmer**

Associate Professor, Marine and Environmental Sciences; Harvard University, PhD

**Robert J. Volpe**

Professor, Applied Psychology; Lehigh University, PhD

**Sara Wadia-Fascetti**

Professor, Civil and Environmental Engineering; Stanford University, PhD

**Ari E. Waldman**

Professor, Law and Computer Sciences; Columbia University, PhD; Harvard University, JD

**Thomas E. Wales**

Research Associate Professor, Chemistry and Chemical Biology; Duke University, PhD

**Jacob Walker**

Associate Cooperative Education Coordinator, College of Engineering; Northeastern University, MS

**Louise Walker**

Associate Professor, History; Yale University, PhD

**Byron Wallace**

Assistant Professor, Computer Sciences; Tufts University, PhD

**Lisa Walsh**

Assistant Clinical Professor, Nursing; Endicott College, PhD

**Rachel Walsh**

Associate Cooperative Education Coordinator, College of Engineering; Suffolk University, MS

**Suzanna Walters**

Professor, Women's, Gender, and Sexuality Studies and Sociology and Anthropology; City University of New York, PhD

**Richard Wamai**

Associate Professor, Cultures, Societies, and Global Studies; University of Helsinki (Finland), PhD

**Kai-tak Wan**

Professor, Mechanical and Industrial Engineering; University of Maryland, College Park, PhD

**He Wang**

Assistant Teaching Professor, Mathematics; Northeastern University, PhD

**Ming Wang**

College of Engineering Distinguished Professor, Civil and Environmental Engineering; University of New Mexico, PhD

**Qi Wang**

Assistant Professor, Civil and Environmental Engineering; Virginia Polytechnic Institute and State University, PhD

**Ruixiang Wang**

Visiting Assistant Professor, Finance; University of Missouri, PhD

**Shuyang Wang**

Assistant Professor, Accounting; University of Illinois, Urbana-Champaign, PhD

**Yanzhi Wang**

Assistant Professor, Electrical and Computer Engineering; University of Southern California, PhD

**Meni Wanunu**

Associate Professor, Physics; Weizmann Institute of Science (Israel), PhD

**Robert J. Ward**

Lecturer, Music; University of California, San Diego, MA

**Oliver Wason**

Assistant Teaching Professor, Theatre; Yale University, MFA

**Gregory Wassall**

Associate Professor, Economics; Rutgers University, PhD

**Maureen Watkins**

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**Natalya Watson**

Associate Teaching Professor, College of Professional Studies; University of Colorado, Denver, PhD

**Thomas J. Webster**

Arthur W. Zafiropoulo Professor, Chemical Engineering; Rensselaer Polytechnic Institute, PhD

**Vanessa Wei**

Assistant Teaching Professor, World Languages Center; University of Pittsburgh, EdD

**Nikki Weickum**

Postdoctoral Teaching Associate, Communication Studies; University of Illinois, Urbana-Champaign, PhD

**Moira Weigel**

Assistant Professor, Communication Studies; Yale University, PhD

**Liza Weinstein**

Associate Professor, Sociology and Anthropology; University of Chicago, PhD

**Jonathan Weitsman**

Robert G. Stone Professor, Mathematics; Harvard University, PhD

**Brooke Welles**

Associate Professor, Communication Studies; Northwestern University, PhD

**Amanda Welsh**

Professor of the Practice, College of Professional Studies; Harvard University, PhD

**Brandon Welsh**

Professor, Criminology and Criminal Justice; University of Cambridge (United Kingdom), PhD

**Joshua Wen**

Zelevinsky Postdoctoral Researcher, Mathematics; University of Illinois, Urbana-Champaign, PhD

**Edward G. Wertheim**

Associate Professor, Management and Organizational Development; Yeshiva University, PhD

**Richard West**

Associate Professor, Chemical Engineering; University of Cambridge (United Kingdom), PhD

**Alan West-Durán**

Associate Professor, Cultures, Societies, and Global Studies; New York University, PhD

**Rebecca Westerling**

Associate Cooperative Education Coordinator, College of Social Sciences and Humanities; Boston College, MA

**Richard Whalen**

Teaching Professor, Engineering; Northeastern University, PhD

**Maggie Whitehead**

Assistant Cooperative Education Coordinator, Computer Sciences; Boston University, MEd

**Susan Whitfield-Gabrieli**

Professor, Psychology; University of California, Berkeley, PhD

**Paul C. Whitford**

Associate Professor, Physics; University of California, San Diego, PhD

**John Whitney**

Assistant Professor, Mechanical and Industrial Engineering; Harvard University, PhD

**Lori Whynot**

Teaching Professor, American Sign Language; Macquarie University, Sydney (Australia), PhD

**Daniel Wicks**

Associate Professor, Computer Sciences; New York University, PhD

**Peter H. Wiederspahn**

Associate Professor, Architecture; Harvard University, MArch

**John Wihbey**

Assistant Professor, Journalism; Columbia University, MS

**Ronald J. Willey**

Professor, Chemical Engineering; University of Massachusetts, Amherst, PhD

**Kristy H. Williams**

Associate Clinical Professor, Nursing; Gardner-Webb University, PhD

**Lucy A. Williams**

Professor, Law; University of Chicago, JD

**Mark C. Williams**

Professor, Physics; University of Minnesota, PhD

**Patricia J. Williams**

University Distinguished Professor, Law and Philosophy and Religion; Harvard University, JD

**Stephen Williams**

Associate Cooperative Education Coordinator, College of Social Sciences and Humanities; Suffolk University, JD

**Rebecca Willits**

Professor, Chemical Engineering; Cornell University, PhD

**Christo Wilson**

Associate Professor, Computer Sciences; University of California, Santa Barbara, PhD

**Sheila Winborne**

Associate Teaching Professor, Philosophy and Religion; Harvard University, PhD

**Raimond Winslow**

Professor, Bioengineering; Johns Hopkins University, PhD

**ElDante Winston**

Visiting Assistant Teaching Professor, Architecture; University of Virginia, March

**Eric Winter**

Assistant Cooperative Education Coordinator, College of Social Sciences and Humanities; Northeastern University, MS

**Pamela Wojnar**

Associate Teaching Professor, College of Professional Studies; United States Sports Academy, EdD

**John Wolfe**

Associate Teaching Professor, College of Professional Studies; Columbia University, EdD

**Lok Sang (Lawson) Wong**

Assistant Professor, Computer Sciences; Massachusetts Institute of Technology, PhD

**Margaret Y. Woo**

Professor, Law; New York University, JD

**Darien Wood**

Professor, Physics; University of California, Berkeley, PhD

**Dori C. Woods**

Associate Professor, Biology; University of Notre Dame, PhD

**Sarah Woodside**

Associate Teaching Professor, Management and Organizational Development; Boston College, PhD

**Adam Woolley**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; Massachusetts College of Pharmacy, PharmD

**Benjamin Woolston**

Assistant Professor, Chemical Engineering; Massachusetts Institute of Technology, PhD

**Lisa Worsh**

Senior Cooperative Education Coordinator, College of Social Sciences and Humanities; Bridgewater State College, MEd

**Shu-Shih Y. Wu**

Assistant Teaching Professor, Mathematics; Northeastern University, PhD

**Sara A. Wylie**

Associate Professor, Sociology and Anthropology and Health Sciences; Massachusetts Institute of Technology, PhD

**Xia Xiao**

Assistant Professor, Accounting; University of Arizona, PhD

**Wei Xie**

Assistant Professor, Mechanical and Industrial Engineering; Northwestern University, PhD

**Mofei Xu**

Assistant Cooperative Education Coordinator, College of Engineering; Northeastern University, MA

**Xiaolin Xu**

Assistant Professor, Electrical and Computer Engineering; University of Massachusetts, Amherst, PhD

**Milen Yakimov**

Professor, Mathematics; University of California, Berkeley, PhD

**Shiawee X. Yang**

Associate Professor, Finance; Pennsylvania State University, PhD

**Hideaki Yano**

Assistant Professor, Pharmaceutical Sciences; Columbia University, PhD

**Mohammad Abbas Yaseen**

Assistant Professor, Bioengineering; Rice University, PhD

**Lichuan Ye**

Associate Professor, Nursing; University of Pennsylvania, DNSc

**Mishac K. Yegian**

College of Engineering Distinguished Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, PhD

**Edmund Yeh**

Professor, Electrical and Computer Engineering; Massachusetts Institute of Technology, PhD

**Boris Yelin**

Assistant Teaching Professor, World Languages Center; Purdue University, PhD

**Benjamin Yelle**

Assistant Teaching Professor, Philosophy and Religion; University of Miami, PhD

**Sheng-Che Yen**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; New York University, PhD

**Caglar Yildirim**

Assistant Teaching Professor, Computer Sciences; Iowa State University, PhD

**George Yip**

Distinguished Visiting Professor, International Business and Strategy; Harvard University, DBA

**Moka Yoo-Jeong**

Assistant Professor, Nursing; Emory University, PhD

**Mark L. Yorra**

Senior Cooperative Education Coordinator, Pharmacy and Health Systems Sciences; Northeastern University, EdD

**Gary Young**

Professor, International Business and Strategy and Health Sciences; State University of New York, Buffalo, PhD

**Lydia Young**

Associate Teaching Professor, College of Professional Studies; Boston College, PhD

**Neal Young**

Teaching Professor, Computer Sciences; Princeton University, PhD

**Sarah C. Young-Hong**

Assistant Clinical Professor, Communication Sciences and Disorders;  
University of Pittsburgh, MA

**Shuishan Yu**

Associate Professor, Architecture; University of Washington, PhD

**Lua Yuille**

Professor, Law and Management and Organizational Development;  
Columbia University, JD

**Nizar Zaarour**

Assistant Teaching Professor, Supply Chain and Information  
Management; Northeastern University, PhD

**Adel Zadeh**

Associate Teaching Professor, College of Professional Studies; University  
of Cambridge (United Kingdom), PhD

**Michelle Zaff**

Associate Cooperative Education Coordinator, College of Social Sciences  
and Humanities; Suffolk University, JD

**Christos Zahopoulos**

Associate Professor, College of Professional Studies; Northeastern  
University, PhD

**Carl Zangerl**

Associate Teaching Professor, College of Professional Studies; University  
of Illinois, PhD

**Victor Zappi**

Assistant Professor, Music; Istituto Italiano di Tecnologia, Università degli  
studi di Genova (Italy), PhD

**Alan J. Zaremba**

Associate Professor, Communication Studies; State University of New  
York, Buffalo, PhD

**Daniel Zedek**

Professor of the Practice, Journalism; Columbia University, BA

**Ibrahim Zeid**

Professor, Mechanical and Industrial Engineering; University of Akron,  
PhD

**Moira Zellner**

Professor, Public Policy and Urban Affairs; University of Michigan, PhD

**David P. Zgarrick**

Professor, Pharmacy and Health Systems Sciences; Ohio State University,  
PhD

**Hongyang Zhang**

Assistant Professor, Computer Sciences; Stanford University, PhD

**Jie Zhang**

Assistant Teaching Professor, Mechanical and Industrial Engineering;  
Virginia Polytechnic Institute and State University, PhD

**Ke Zhang**

Associate Professor, Chemistry and Chemical Biology; Washington  
University, St. Louis, PhD

**Yang Zhang**

Professor, Civil and Environmental Engineering; University of Iowa, PhD

**Yue May Zhang**

Associate Professor, Accounting; University of Pittsburgh, PhD

**Qianqian Zhang-Wu**

Teaching Professor, English; Boston College, PhD

**Qing Zhao**

Assistant Professor, Chemical Engineering; Massachusetts Institute of  
Technology, PhD

**Kuncheng Zheng**

Assistant Professor, Finance; University of Michigan, PhD

**Yi Zheng**

Associate Professor, Mechanical and Industrial Engineering; Columbia  
University, PhD

**Lin Zhou**

Assistant Teaching Professor, College of Professional Studies; University  
of Hawai'i at Manoa, PhD

**Ting Zhou**

Associate Professor, Mathematics; University of Washington, PhD

**Xiaomu Zhou**

Associate Teaching Professor, College of Professional Studies; University  
of Michigan, PhD

**Zhaohui S. Zhou**

Professor, Chemistry and Chemical Biology; Scripps Research Institute,  
PhD

**Hongli Zhu**

Assistant Professor, Mechanical and Industrial Engineering; South China  
University of Technology (China), PhD

**Xuwen Zhu**

Assistant Professor, Mathematics; Massachusetts Institute of  
Technology, PhD

**Sali Ziane**

Teaching Professor, World Languages Center; University of Paris XIII  
(France), PhD

**Nathaniel Ziegler**

Associate Cooperative Education Coordinator, College of Engineering;  
Indiana University of Pennsylvania, MEd

**Emily Zimmerman**

Associate Professor, Communication Sciences and Disorders; University  
of Kansas, PhD

**Gregory Zimmerman**

Associate Professor, Criminology and Criminal Justice; State University of  
New York, Albany, PhD

**Kathrin Zippel**

Professor, Sociology and Anthropology; University of Wisconsin, Madison,  
PhD

**Steven Zoloth**

Professor, Health Sciences; University of Pennsylvania, PhD

**Rose Zoltek-Jick**

Associate Teaching Professor, Law; York University (Canada), LLB

**Elizabeth Zulick**

Associate Teaching Professor, College of Professional Studies; Boston University, PhD

**Ronald Zullo**

Senior Lecturer, Accounting; Bentley University, MS

**Günther K. H. Zupanc**

Professor, Biology; University of California, San Diego, PhD; University of Tübingen (Germany), Dr. rer. nat. habil.

**Alexander Zvonok**

Research Assistant Professor, Center for Drug Discovery; Belarusian State University (Belarus), PhD

**Nikolai Zvonok**

Research Assistant Professor, Center for Drug Discovery; Russian Academy of Sciences (Russia), PhD

### Statements of Accreditation and State Authorization

#### Accreditation

Northeastern University has maintained its status as a member in good standing of the New England Commission of Higher Education, Inc. (NECHE), previously New England Association of Schools and Colleges (NEASC), since it was awarded its initial accreditation in 1940. The university was last reviewed by NECHE in 2018 and will be reviewed again in fall 2028.

Northeastern University possesses degree-granting authority in Massachusetts, under the auspices of the Massachusetts Board of Higher Education.

## State Approvals, Authorizations, and Exemptions

Some states require that universities authorized to operate in their state make public disclosures. Please visit State Authorization Statements and Complaint Resolution (<https://www.northeastern.edu/graduate/state-authorization-statements-and-complaint-resolution/>) for up-to-date, state-prescribed regulatory information applicable to all degree levels.

### Major CIP Codes

The following is a list of Northeastern University majors for programs accepting new students during the 2021-2022 catalog year, along with each major's corresponding CIP code. "CIP" refers to the Classification of Instructional Programs published by the U.S. Department of Education's National Center for Education Statistics (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=56>).

### Resources

#### Online Resources

The following online resources supplement this catalog:

- Academic Calendars (<http://www.northeastern.edu/registrar/calendars.html>)
- Campus Maps (<http://www.northeastern.edu/campusmap/>)
- Class Schedules (<https://registrar.northeastern.edu/article/schedule-of-classes/>)
- University Events

### General Information

The *Northeastern University Catalog* contains the university's primary statements about approved academic programs and degree requirements, as authorized by the president or the Board of Trustees.

The *Northeastern University Catalog* contains current information about the university calendar, admissions, degree requirements, fees, and regulations; however, such information is not intended and should not be regarded to be contractual. Course information was current as of June 9, 2021. For updated course information, students and advisors should consult the Banner course catalog (<https://nubanner.neu.edu/StudentRegistrationSsb/ssb/term/termSelection/?mode=courseSearch>).

#### ACCREDITATION

Northeastern University is accredited by the New England Commission of Higher Education, Inc.

#### DELIVERY OF SERVICES

Northeastern University assumes no liability for delay or failure to provide educational or other services or facilities due to causes beyond its reasonable control. Causes include, without limitation, power failure, fire, strikes by university employees or others, damage by natural elements, and acts of public authorities. The university will, however, exert reasonable efforts, when it judges them to be appropriate, to provide comparable services, facilities, or performance; but its inability or failure to do so shall not subject the university to liability.

Northeastern University reserves the sole right to promulgate and change rules and regulations and to make changes of any nature in its program; calendar; admissions policies, procedures, and standards; degree requirements; fees; and academic schedule whenever necessary or desirable, including, without limitation, changes in course content and class schedule, the cancellation of scheduled classes and other academic activities, and the substitution of alternatives for scheduled classes and other academic activities. In any such case, the university will give whatever notice is reasonably practical.

Northeastern University will endeavor to make available to its students a fine education and a stimulating and congenial environment. However, the quality and rate of progress of an individual's academic career and professional advancement upon completion of a degree or program are largely dependent on his or her own abilities, commitment, and effort. In many professions and occupations, there are also requirements imposed by federal and state statutes and regulatory agencies for certification or entry into a particular field. These requirements may change while a student is enrolled in a program and may vary from state to state or country to country. Although the university stands ready to help its students find out about requirements and changes in them, it is the student's responsibility to initiate the inquiry.

#### FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT

In accordance with the Family Educational Rights and Privacy Act of 1974, Northeastern University permits its students to inspect their records wherever appropriate and to challenge specific parts of them when they feel it is necessary to do so. Specific details of the law as it applies to Northeastern are discussed in this section of the catalog (<http://catalog.northeastern.edu/graduate/academic-policies-procedures/ferpa/>).

#### PERSISTENCE RATES UNDER THE STUDENT RIGHT-TO-KNOW ACT

In the fall of 2020, the persistence rate for undergraduate students who entered in the fall 2019 cohort was 96.8 percent.

#### TUITION DEFAULT POLICY

In cases where the student defaults on his or her tuition, the student shall be liable for the outstanding tuition and all reasonable associated collection costs incurred by the university, including attorneys' fees.

#### NONDISCRIMINATION POLICIES

Northeastern University is committed to providing a living, learning, and working environment free from discrimination and harassment and does not discriminate on the basis of race, color, religion, genetic information, sex, gender, gender identity, sexual orientation, age, national origin, ancestry, disability, or veteran status in admission to, access to, treatment in, or employment in its programs and activities. The university will not tolerate any conduct that violates rights guaranteed by law, or any of the university policies that prohibit discrimination, including the Policy on Equal Opportunity ([https://www.northeastern.edu/policies/pdfs/Policy\\_on\\_Equal\\_Opportunity.pdf](https://www.northeastern.edu/policies/pdfs/Policy_on_Equal_Opportunity.pdf)), Policy Prohibiting Sexual and Gender-Based Harassment ([https://www.northeastern.edu/policies/pdfs/Policy\\_Prohibiting\\_Sexual\\_and\\_Gender-Based\\_Harassment.pdf](https://www.northeastern.edu/policies/pdfs/Policy_Prohibiting_Sexual_and_Gender-Based_Harassment.pdf)), Policy on Rights and Responsibilities

Under Title IX ([https://www.northeastern.edu/policies/pdfs/Policy\\_on\\_Rights\\_and\\_Responsibilities\\_Under\\_Title\\_IX.pdf](https://www.northeastern.edu/policies/pdfs/Policy_on_Rights_and_Responsibilities_Under_Title_IX.pdf)), and the Policy on Non-Fraternization ([https://www.northeastern.edu/policies/pdfs/Policy\\_on\\_Non-Fraternization.pdf](https://www.northeastern.edu/policies/pdfs/Policy_on_Non-Fraternization.pdf)). Furthermore, university policy also includes prohibitions of retaliation for filing complaints of discrimination with the Office for University Equity and Compliance (OUEC). Links to the university's nondiscrimination policies and its grievance procedures are available at the OUEC (<https://www.northeastern.edu/ouec/>). Inquiries regarding the university's nondiscrimination policies may be directed to:

Office for University Equity and Compliance (<https://www.northeastern.edu/ouec/>)  
125 Richards Hall  
Northeastern University  
Boston, Massachusetts 02115  
617.373.4644  
[ouec@northeastern.edu](mailto:ouec@northeastern.edu)

The university strongly encourages any person to report information relating to alleged discrimination or harassment to the OUEC (<https://www.northeastern.edu/ouec/>) by completing the form available at Reporting to OUEC ([https://cm.maxient.com/reportingform.php?NortheasternUniv&layout\\_id=7](https://cm.maxient.com/reportingform.php?NortheasternUniv&layout_id=7)) or through any of the contact options listed above. OUEC's policies, as well as other helpful information, can be found at the OUEC website (<https://www.northeastern.edu/ouec/>).

### **DISABILITY RESOURCE CENTER**

The Disability Resource Center provides a variety of disability-related services and accommodations to Northeastern University's students with disabilities.

Northeastern University's compliance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 are coordinated by the senior director of the Disability Resource Center. Persons requiring information regarding the Disability Resource Center should contact the center at 617.373.2675 or, if using TTY, via Relay 711.

### **CLERY ACT**

Northeastern is committed to assisting all members of the university community in providing for their own safety and security. Information regarding campus security and personal safety, including topics such as crime prevention, university police law enforcement authority, crime reporting policies, crime statistics for the most recent three-year period, and disciplinary procedures, is available in the Annual Security & Fire Safety Reports, located on the NUPD website (<https://nupd.northeastern.edu/annual-reports/>).

### **EMERGENCY INFORMATION**

The university is prepared to respond to emergencies and urgent situations that require immediate action with a trained team of police officers, EMTs, health and counseling experts, student affairs and residential life staff, and other professionals from a coordinated group that is able to manage a wide range of potential situations.

In case of emergency or crisis situations that require immediate notification, university officials will deploy the NU ALERT system, which sends email, voicemail, and text messages to students, faculty, and staff. NU ALERT is intended to communicate pertinent information and, when appropriate, provide directions to those in the affected area(s).

A record of past Timely Warnings and NU ALERT Emergency Notifications for our campus community can be found on the NUPD website (<https://nupd.northeastern.edu/safety-notifications/>).

Examples of crisis situations range from snow storms to national emergencies that have a local impact.

Additional information on the university's emergency information systems can be found on the university's (<https://www.northeastern.edu/emergency-information/>) *Emergency Information* website.
