

Art - Media Arts (ARTD)

ARTD 1990. Elective. (1-4 Hours)

Offers elective credit for courses taken at other academic institutions. May be repeated without limit.

ARTD 2000. Introduction to Immersive Media. (4 Hours)

Introduces three forms of immersive media—augmented reality, 360 video, and virtual reality—through engagement in content creation, the fundamentals of software tools, development methodologies, and production techniques. Offers students an opportunity to produce basic immersive sequences, read literature, play games, and experience contemporary projects that highlight the uniqueness of immersive media.

ARTD 2100. Narrative Basics. (4 Hours)

Explores narrative sequence and story development in a variety of story architectures and media combinations, including text, video, music, audio, and design. Uses lectures, in-class workshops, and collaborative projects to expose students to the critical role of narrative in society and interactive media, including games. Offers students an opportunity to develop an interactive media design document over the second half of the semester.

Prerequisite(s): ENGW 1111 with a minimum grade of C or ENGW 1102 with a minimum grade of C or ENGL 1111 with a minimum grade of C or ENGL 1102 with a minimum grade of C

Attribute(s): NUpath Writing Intensive

ARTD 2340. Introduction to Computational Creative Practice. (4 Hours)

Examines concepts of computational creative practices, focusing on the use of computational processes for the creation of interactive and generative experiences. Includes computational procedures and concepts for creative purposes such as automation, recursion, and data processing. Students use data and mathematical procedures to generate images, express ideas, and create meaning. Offers students an opportunity to gain practice-based experience with the benefits and limitations of using computational processes; make creative computational projects using code and/or other media such as photography, video, performance installation, etc.; and reflect on what computers can and cannot do well.

ARTD 2350. Photo Basics for Nonmajors. (4 Hours)

Offers a basic photography course that introduces students to the use of camera controls, computer-based image and file management systems, lighting, and final printing. Additionally, books on demand, slide shows, and image archiving are demonstrated and then explored by students. No previous experience is necessary. Does not fulfill major or minor requirements for students within the Department of Art + Design.

ARTD 2360. Introduction to Photography. (4 Hours)

Introduces creative photography, exploring techniques and processes starting with the basic principles of camera controls, lens and lens functions, digital image presentation basics, as well as photographic seeing and visual thinking. Evaluates and expands technical and conceptual knowledge of the medium. Beyond the technical foundation of digital image making, analyzes various theories and understanding of ways of seeing photographically. Culminates in a final project and presentation designed to demonstrate the importance of technical expertise, editing, sequence, layout, and presentation of ideas.

Corequisite(s): ARTD 2361

ARTD 2361. Photo Tools. (1 Hour)

Introduces students to the creative possibilities of photographic image editing and management with Adobe Bridge, Camera Raw, and Photoshop. Offers students an opportunity to establish a professional digital workflow, acquire industry-standard creative techniques for photographic image editing, and gain an understanding of the importance of high-quality postproduction output.

Corequisite(s): ARTD 2360

ARTD 2370. Animation Basics. (4 Hours)

Offers an introductory studio course that explores the creative potential of animation. Exposes students to a variety of traditional animation processes and techniques through lectures, demonstrations, and hands-on assignments. Provides an historical survey of animation art through the twentieth century. Emphasizes using the computer to develop concepts creatively while learning the fundamental skills of constructing animated images and forms.

Prerequisite(s): ARTF 2220 with a minimum grade of D-

Corequisite(s): ARTD 2371

Attribute(s): NUpath Creative Express/Innov

ARTD 2371. Animation Tools. (1 Hour)

Introduces intermediate skills and software used in creating 3D animation. Explores modeling, surfacing, lighting, key framing, and rigging in this technology workshop.

Corequisite(s): ARTD 2370

ARTD 2380. Video Basics. (4 Hours)

Offers an introductory exploration into the moving image as an art form. Covers the fundamental technical and aesthetic aspects of contemporary video production. Emphasizes personal, experimental works from an individual point of view. Analysis of projects is directed toward the development of a personal voice.

Prerequisite(s): ARTF 2220 with a minimum grade of D-

Corequisite(s): ARTD 2381

ARTD 2381. Video Tools. (1 Hour)

Introduces intermediate skills and software used in capturing, manipulating, and editing video and audio in this technology workshop.

Corequisite(s): ARTD 2380

ARTD 2990. Elective. (1-4 Hours)

Offers elective credit for courses taken at other academic institutions. May be repeated without limit.

ARTD 3000. Topics in Media Arts. (1-4 Hours)

Explores a variety of intermediate-level thematic topics in media arts, including photography, video arts, animation, immersive media, and computational media. Taught by faculty according to their research interests and expertise. Students who do not meet course restrictions may seek permission of instructor or program coordinator.

Prerequisite(s): ARTD 2000 with a minimum grade of C or ARTD 2360 with a minimum grade of C or ARTD 2370 with a minimum grade of C or ARTD 2380 with a minimum grade of C

ARTD 3460. Photography: Concept + Process. (4 Hours)

Explores how process informs concept and vice versa, with a focus on making and photographic practice. Emphasizes creative projects, readings on contemporary photography, and the responses and presentations on the ideas brought forth by our investigations. Constructive critiques, which include investigation of the nuances of the medium and its uses, encourage confidence of creative abilities, vision, and independent thinking. Students use photographic concepts and creative techniques for the development, coordination, and completion of a final photographic body of work. Considers the politics of representation and contextual references and seeks to answer: Who is it of? Who is it for? What does it do? Who does it serve? This is an intermediate photography seminar.

Prerequisite(s): ARTD 2350 with a minimum grade of D- or ARTD 2360 with a minimum grade of D-

Attribute(s): NUpath Creative Express/Innov

ARTD 3470. Animation 1. (4 Hours)

Introduces the fundamentals of three-dimensional computer animation. Class lectures and demonstrations are followed by substantial hands-on exploration. Students gain fundamental skills for modeling, surfacing, and animating. Projects progress from creating simple geometric objects to realistic organic characters. Basic systems for animating are introduced and explored.

Prerequisite(s): ARTD 2370 with a minimum grade of D-

ARTD 3471. Virtual Environment Design. (4 Hours)

Utilizes elements of story and game play in the design of both 2D and 3D environments, integrating architecture, landscape, and set dressing. Introduces real-time procedurally generated terrain and flora, asset optimization, and nonlinear path finding. Explores content ranging from historically accurate and contemporary hyperrealistic to stylized and fanciful.

Prerequisite(s): ARTF 1120 with a minimum grade of D- ; ARTD 2370 with a minimum grade of D-

ARTD 3472. Character Design for Animation. (4 Hours)

Focuses on the development of characters as they relate to game design and animation. Explores, through treatments and synopsis, theme-based character back story, rationale, and visual design. Integrates learning objectives of both 2D and 3D, optimized rigging, movement study, and accessory and prop design.

Prerequisite(s): ARTF 1120 with a minimum grade of D- ; ARTD 2370 with a minimum grade of D-

ARTD 3473. Animation for Games. (4 Hours)

Explores all areas of 3D game asset creation—animation, modeling, shading, effects, and their integration. Working in small groups, students have an opportunity to learn how to construct animated assets that work efficiently within a game programming environment. Encourages students to specialize in at least one area of asset creation.

Prerequisite(s): ARTD 3470 with a minimum grade of D-

ARTD 3480. Video: Sound and Image. (4 Hours)

Continues the study of video as an art form. Focuses on the dynamic relationship between sound and the moving image. Begins with audio exercises exploring various aspects of sound design that are integrated into an in-depth video production. Emphasizes the production of innovative video art with powerful visual imagery, complex editing rhythms, and creative sound design.

Prerequisite(s): ARTD 2380 with a minimum grade of D- or MSCR 1230 with a minimum grade of D-

ARTD 3485. Experimental Video. (4 Hours)

Constitutes an advanced video production and analysis course. Emphasizes the development of personal vision and building a working knowledge of contemporary experimental video art techniques. Offers students an opportunity to expand conceptual ideas and visual language skills by interrogating concepts of time, movement, light, and space within their exploratory working process. Visual research and discussion supplement the studio work.

Prerequisite(s): ARTD 2380 with a minimum grade of D- or MSCR 1230 with a minimum grade of D-

ARTD 3990. Elective. (1-4 Hours)

Offers elective credit for courses taken at other academic institutions. May be repeated without limit.

ARTD 4530. Media Arts Degree Project. (4 Hours)

Offers students an opportunity to develop a refined, process-driven media art project that combines personal vision, research, and scholarship. Centers on the creation of a comprehensive capstone project that highlights a specific area of interest and supplements a body of work that has been accumulated through the media arts curriculum. The course structure is based on weekly goals and reviews that are partially determined by the specific and unique aesthetic and technical demands of an individual student's capstone project. A well-planned project statement serves as the method for contextualizing and articulating the unique goals of the capstone project. This advanced studio course provides preparation for graduating students in their careers as professional artists and creative practitioners.

Attribute(s): NUpath Capstone Experience

ARTD 4565. Photography: Visual Strategies + Context. (4 Hours)

Emphasizes combining students' personal aesthetic choices with refined technical skills in this advanced photography seminar. Students integrate personal vision, historical research, and well-defined concepts in their work. Through lectures on contemporary topics and artist studio and museum visits, students situate their own ideas and processes to historical and cultural forces. Focuses on the relevance of contemporary models in which the still image is used, specifically interdisciplinary approaches.

Prerequisite(s): ARTD 3460 with a minimum grade of D-

ARTD 4570. Animation 2. (4 Hours)

Continues ARTD 3470. Focuses on seamless integration of animated three-dimensional models with digital photographic backgrounds. Continued emphasis on building comprehensive modeling, surfacing, and animation skills. Students develop original content based on course objectives. Complex systems for creating realistic movement are introduced. Exposes students to compositing and animation processes through lectures, demonstrations, and hands-on assignments.

Prerequisite(s): ARTD 3470 with a minimum grade of D-

ARTD 4575. Animation 3. (4 Hours)

Continues ARTD 4570. Focuses on building comprehensive modeling, animation, and compositing skills in this advanced studio course. Students explore creating special effects through seamless mixture of computer-generated imagery and digital video footage. Advanced compositing and lighting techniques are introduced and explored. Students create original characters using organic modeling and surfacing techniques. Exposes students to animation and compositing processes through lectures, demonstrations, and hands-on assignments.

Prerequisite(s): ARTD 4570 with a minimum grade of D-

ARTD 4660. Studio Photography. (4 Hours)

Examines studio practices and lighting techniques. Offers students an opportunity to obtain a thorough understanding and working knowledge of contemporary practice in the photography studio. Includes comprehensive exercises and assignments with various types of lighting equipment.

Prerequisite(s): ARTD 2360 with a minimum grade of D-

ARTD 4661. Photography: Experimental Processes. (4 Hours)

Offers a studio/lab course in which students study the history of photographic processes and contemporary approaches of the medium while creating their own photographs in the darkroom. Explores 19-century techniques such as camera obscura, photograms, cyanotypes, tintypes, kallitypes, cliché verre, and others. Investigates the use of analog film photography and digital photography in combination with alternative processes. The structure of the course is designed to present exciting ways of thinking about technical questions, materials, subject matter, and aesthetic approaches through experimentation.

Prerequisite(s): ARTD 2350 with a minimum grade of D- or ARTD 2360 with a minimum grade of D-

ARTD 4990. Elective. (1-4 Hours)

Offers elective credit for courses taken at other academic institutions. May be repeated without limit.
