

# Nanomedicine, Graduate Certificate

The Graduate Certificate in Nanomedicine is designed for scientists, engineers, and physicians to develop competency and practical skills in the application of nanotechnology to problems in medicine. This program is appropriate for those working in or seeking careers in biotechnology, pharmaceutical, biomedical, or clinical fields. Program participants receive advanced training in the fundamental and applied aspects of nanomedicine, as well as nanomedicine commercialization from bench to bedside. The curriculum includes a variety of activities for scientific and professional development, including lectures, case studies, journal readings, term projects, and close interactions with distinguished faculty and experts drawn from academia, hospitals, industry, and government.

The certificate consists of five nanomedicine (NNMD) courses, totaling 12 semester-hour credits. This is a part-time, 12-credit graduate program that can be completed in as little as two semesters.

## Program Requirements

Complete all requirements listed below unless otherwise indicated.

### Core Requirements

Code	Title	Hours
NNMD 5270	Introduction to Nanomedicine	3
NNMD 5272	Nanomedicine Seminar 1	1
NNMD 5274	Nanomedicine Seminar 2	1
NNMD 5470	Nano/Biomedical Commercialization: Concept to Market	3

### Electives

Code	Title	Hours
Complete NNMD 5370 or choose 4 semester hours of electives from the list.		4
Research Techniques		
NNMD 5370	Nanomedicine Research Techniques	
Or choose 4 semester hours of electives.		
BIOE 6100	Medical Physiology	
BIOL 5307	Biological Electron Microscopy	
BIOL 6381	Ethics in Biological Research	
BIOT 5145	Basic Biotechnology Lab Skills	
BIOT 5225	Managing and Leading a Biotechnology Company	
BIOT 5227	Launching Your Science: Biotechnology Entrepreneurship	
BIOT 5700	Molecular Interactions of Proteins in Biopharmaceutical Formulations	
BIOT 7245	Biotechnology Applications Laboratory	
CHEM 7247	Advances in Nanomaterials	
CHME 7350	Transport Phenomena	
PHSC 6212	Research Skills and Ethics	
PHSC 6216	Human Physiology and Pathophysiology	
PHSC 6290	Biophysical Methods in Drug Discovery	
PHYS 5260	Introduction to Nanoscience and Nanotechnology	
PHYS 7731	Biological Physics 1	
PMST 6252	Pharmacokinetics and Drug Metabolism	
PMST 6254	Advanced Drug Delivery Systems	

### Program Credit/GPA Requirements

12 total semester hours required

Minimum 3.000 GPA required
