The Office of Student Orientation and Family Programs connects families to university resources, helping you navigate and build networks within Northeastern University's global community. We support families throughout their Northeastern experience—including academic, administrative, and personal matters.

Each year, the office hosts several programs for family engagement including Husky 101 Family Orientation and Family & Friends Weekend, as well as timely communications on campus news and events through their website (<https://www.northeastern.edu/orientation/family-programs/>) and Facebook page (<https://www.facebook.com/nufamilyprograms/>).
