Husky 101 Student and Family Orientation (<https://www.northeastern.edu/orientation/>) gives you a taste of your new life as a Husky. This **mandatory program for newly enrolled first-year, transfer, and veteran undergraduate students** introduces you and your family to the university, as well as the campus resources and services that will support your transition into the Northeastern University community. Husky 101 will connect you with your classmates and academic advising team; engage you in student clubs and organizations; and provide you the platforms to begin charting your Northeastern path with global, research, and experiential opportunities and programs.

Once a student officially commits to the university by paying the enrollment fee, they will receive Husky Happenings email communications from the Office of Student Orientation and Family Programs with critical information and next steps in the Husky 101 Orientation process.
