

# PlusOne Programs

## Master's Degree Programs for Northeastern Undergraduates

The PlusOne program allows students the opportunity to pursue both a bachelor's and master's degree successively in a condensed period of time.

For students pursuing a PlusOne degree, several courses/credits of undergraduate work are replaced by graduate coursework, thus permitting the completion of an undergraduate degree, as well as a full master's degree, in a shorter period of time than would be possible if students pursued each degree separately through the traditional route. In most programs, with appropriate academic progress, students receive the master's degree one year after completing the undergraduate degree.

Depending on the program, students have the opportunity to do additional co-ops, work on an independent research project, and participate in other experiential learning opportunities. These experiences sharpen their critical thinking and analysis skills, while providing additional professional experience, making them more competitive upon entering the workforce.

### When to Apply

Students should apply to enter the PlusOne program no earlier than their fifth academic semester and at least two semesters before expecting to earn the Bachelor of Science Degree.

### Application Deadlines:

Fall – August 1st

Spring – December 1st

### Graduate Admissions & Student Services

[gradcos@northeastern.edu](mailto:gradcos@northeastern.edu)

617-373-4275

**Note:** Any financial aid a student may have received from the university while an undergraduate will not continue once the student obtains graduate status. **PlusOne students are not eligible for the Double Husky Scholarship**

Northeastern University  
College of Science

## MS Bioinformatics

### Eligibility and Admission

**Students must be pursuing one of the following undergraduate degrees:**

- BS Behavioral Neuroscience
- BS Biology
- BS Computer Science and Behavioral Neuroscience
- BS Computer Science
- BS Computer Science and Biology
- BS Data Science and Behavioral Neuroscience
- BS Biochemistry
- BS Biochemistry and Data Science
- BS Cell and Molecular Biology

**A minimum cumulative 3.000 GPA is required**

### Course Prerequisites

#### **BS Computer Science & Behavioral Neuroscience**

#### **BS Data Science & Behavioral Neuroscience**

- Enrolled in or have completed
  - BIOL 2301/2302 Genetics and Molecular Biology
  - CHEM 2311/2312 Organic Chemistry 1
  - At least one Behavioral Neuroscience core course

#### **BS Behavioral Neuroscience**

- Enrolled in or have completed
  - BIOL 2301/2302 Genetics and Molecular Biology
  - CHEM 2313/2314 Organic Chemistry 2
  - At least one Behavioral Neuroscience core course

#### **BS Computer Science**

- Enrolled in or have completed BIOL 2301/2302 Genetics and Molecular Biology

#### **BS Biology**

#### **BS Biochemistry**

#### **BS Cell & Molecular Biology**

#### **BS Biochemistry & Data Science**

#### **BS Computer Science & Biology**

- Enrolled in or have completed
  - BIOL 2301/2302 Genetics and Molecular Biology
  - BIOL 3611/3612 Biochemistry

## Application Process

See Northeastern's College of Science website for more information and details on how to apply: <https://cos.northeastern.edu/admissions/graduate-programs/plusone-accelerated/>

## Curriculum Requirements

A maximum of 16 graduate credits completed as an undergraduate can be used toward the Master of Science degree.

### Required courses to complete as an undergraduate student

#### BS Behavioral Neuroscience

- BINF 6308 Bioinformatics Computational Methods 1 (4 SH) *in place of physics*
- BINF 6309 Bioinformatics Computational Methods 2 (4SH) *in place of one BNS core*
- BIOL 5587 Comparative Neurobiology (4 SH) *double counts as a BNS core and MS elective*
- 5000+ level BIOL course (4 SH) *double counts as an advanced biology course and MS elective*

#### BS Computer Science and Behavioral Neuroscience

##### BS Data Science and Behavioral Neuroscience

- BINF 6308 Bioinformatics Computational Methods 1 (4 SH) *in place of one integrative course*
- BINF 6309 Bioinformatics Computational Methods 2 4 SH) *in place of one integrative upper-division course*
- Two 5000+ level electives (choice of BIOL5587, BIOL5595, BIOL5601, or PT5410/5411) *double count as BNS foundation/core courses and MS electives*

#### BS Biochemistry

- BINF 6308 Bioinformatics Computational Methods 1 (4 SH) *in place of one general elective*
- BINF 6309 Bioinformatics Computational Methods 2 (4 SH) *in place of one general elective*
- CHEM 5620 Protein Chemistry (3 SH) and BIOL 5100 Biology Colloquium (1 SH) *in place of CHEM 4620 and double counts as MS electives*
- BIOL 6301 Molecular Cell Biology (4 SH) *in place of BIOL 4707 and double counts as MS elective*

#### BS Biochemistry and Data Science

- BINF 6308 Bioinformatics Computational Methods 1 (4 SH) *as integrative course*
- BINF 6309 Bioinformatics Computational Methods (4 SH) *as integrative course*
- CHEM 5620 Protein Chemistry (3 SH) and BIOL 5100 Biology Colloquium (1 SH) *in place of CHEM 4620 and double counts as MS electives*
- One DS or CS 5000+ level course listed under Khoury elective courses (4 SH) *double counts as BS and MS elective*

#### BS Biology

- BINF 6308 Bioinformatics Computational Methods 1 (4 SH) *in place of one general elective*
- BINF 6309 Bioinformatics Computational Methods 2 (4 SH) *in place of one general elective*
- Two BIOL/EEMB/ENVR 5000+ level courses *double counts as intermediate/advanced biology electives and two MS electives*

#### BS Cell and Molecular Biology

- BINF 6308 Bioinformatics Computational Methods 1 (4 SH) *in place of one general elective*
- BINF 6309 Bioinformatics Computational Methods 2 (4 SH) *in place of one general elective*
- BIOL 5591 Advanced Genomics (4 SH) *double counts as BS molecular biology requirement and MS elective*
- 5000+ level CMB elective course (4 SH) *double counts as intermediate/advanced CMB elective and MS elective*

### **BS Computer Science**

- BINF 6308 Bioinformatics Computational Methods 1 (4 SH) *in place of one general elective*
- BIOL 6309 Bioinformatics Computational Methods 2 (4 SH) *in place of one general elective*
- Two 5000+ level courses listed under computer science elective courses or graduate equivalent *double counts as two BS and MS electives*

### **BS Computer Science and Biology**

- BINF 6308 Bioinformatics Computational Methods 1 (4 SH) *as biology integrative course*
- BIOL 6309 Bioinformatics Computational Methods 2 (4 SH) *in place of intermediate/advanced biology elective*
- 5000+ level course listed under Khoury elective courses or graduate equivalent *double counts as BS and MS elective*
- 5000+ level course listed under Intermediate and advanced science courses *double counts as BS and MS elective*

### **Required courses to complete as a graduate student**

- BINF 6200 Bioinformatics Programming (4 SH)
- BIOT 5219 The Biotechnology Enterprise (2 SH)
- MATH 7340 Statistics for Bioinformatics (4 SH)
- BIOL 6381 Ethics in Biological Research (2 SH)
- Graduate Elective (4 SH)
- Co-op (0 SH)

BINF Courses are offered in Fall and Spring semesters only. Some graduate classes, research or thesis credits could be completed in the summer, depending on the availability of courses and individual student plans.
