

**Pre-requisite Course Completion Form for
M.S. in Biotechnology (all concentrations)
and Graduate Certificates**

[4/21/21]

Name: _____

Date: _____

Applicants are required to have completed at least one course in biochemistry, organic chemistry, and advanced biology such as molecular biology or genetics or advanced physiology.

It is highly recommended that applicants complete at least one course in college-level calculus and one course in statistics.

1. Indicate (check) undergraduate-level courses taken.

Required

biochemistry

organic chemistry

advanced biology (example: molecular biology or genetics or advanced physiology)

Highly recommended

college-level calculus

statistics

2. If the subjects you have checked do not appear in the course titles on your undergraduate transcript you must provide

-a detailed explanation as to how the subjects were covered

-a course syllabus

3. For those courses not taken, indicate your plan for completing the pre-requisite(s):
