

## *PHRGE Statement on Ukraine*

*March 2, 2022*

On 24 February 2022, the military of Russia invaded the sovereign nation of Ukraine. This move has drawn a united and justified condemnation of the government of Russia from all parts of the world, and particularly the legal world.

PHRGE has an abiding commitment to the rule of law and human rights. We stand with all colleagues, including those in countries that are in the war, who believe in the rule of law, mutual trust, and peace.

We condemn this invasion as unprovoked and contrary to the nonviolent and legal resolution of international disputes.

We express our firm solidarity with our Ukrainian colleagues and the people of Ukraine against the violence they face. We further support the fundamental rights of racial minorities and condemn the mistreatment and discrimination currently being faced by migrants in Ukraine.
