What is IRis?

IRis is a digital archive that collects, manages, preserves, and shares the intellectual output and historical record of Northeastern University. It is a service of the University Libraries.

Who is it for?

- NU researchers and scholars who want to promote and preserve their intellectual output
- NU administrators who need to preserve important University records
- Anyone seeking the published research of NU faculty or documents and publications produced by the university

"We at CenSSIS believe that IRis will promote our research to a broader audience and preserve it without any action on our part."

- Michael Silevitch
Director of Bernard M. Gordon Center for
Subsurface Sensing & Imaging Systems
(CenSSIS) and IRis contributor

"With the latest enhancement to IRis, faculty now have a state-of-the-art service for storing their published work and making it openly accessible across the Web. That's great for them, great for Northeastern, and great for researchers and scholars worldwide!"

- Will Wakeling
Dean, University Libraries

Examples of IRis Content:

- Pre-print and post-print versions of published journal articles
- Research and technical papers
- Electronic dissertations and master's theses produced at NU
- Conference presentations
- Video and audio recordings of speeches and events
- Historical and contemporary publications produced by NU
- Data sets: statistical, geospatial, etc.
- Learning objects, such as interactive models and instructional portals

iris.lib.neu.edu

NU's flagship open-access journal, *Annals of Environmental Science,* has been operating in IRis since 2007

Why IRis?

Easy to use and highly functional:

- Make your work permanently available via the Internet

- Receive monthly e-mail reports on downloads of your work

Professional exposure:

- Allows others to quickly find, use, and cite your work

- Content is indexed by Google and readily accessible worldwide

- Showcases your scholarship to other researchers, funding sources, potential collaborators, and others

Also use IRis to:

- Organize your next conference, from registration setup to abstract submissions to published online proceedings

- Produce your open access journal, including online management of the submission and peer review process
