- You will leave the UK at the end of your visit;
- You must not intend to live in the UK for extended periods through frequent or successive visits. You must also not intend to make the UK your main home. The [visitor guidance](#) lists factors such as the number of visits that you have made over the last twelve months, including the length of stay on each occasion in assessing whether or not your visits to the UK are frequent and successive;
- You must be genuinely seeking to enter the UK for a purpose and activity permitted as a visitor;
- You must not undertake any of the prohibited activities for a visitor. See [Prohibited activities](#);
- You must have enough money to support yourself whilst you are in the UK. This includes the cost of your return or onward journey and any permitted activities that you have planned. You will not be able to work or access public funds in order to support yourself. In assessing this requirement, the [visitor guidance](#) states that your income and savings will be looked at minus any financial commitments that you have. The remaining sum must be sufficient to meet the likely costs that you will incur in the UK and also your reasonable expenditure. Please see [Prohibited activities](#) for further details. You can rely on another person to help you demonstrate that you have sufficient funds to cover your travel, maintenance and accommodation whilst in the UK. You must have a genuine professional or personal relationship with this person however, and they cannot be in breach of any immigration laws at the time the decision on your application is made or by the time you wish to enter the UK as a visitor. This person must also be able to support you for the duration of your visit;
- Any funds that you wish to rely upon must be held in a financial institution permitted under [FIN 2.1 in Appendix Finance](#)
