The University

Admission

ADMISSION POLICY AND ENTRANCE REQUIREMENTS

Admission to Northeastern is selective, and the complexity of the admission process is not one that can be defined through a formula. At Northeastern, we are shaping a community of students who bring a diversity of experiences and interests. Each year, approximately 2,800 new freshmen and 400 new transfer students enroll in September. In addition, approximately 450 new students enroll each January through The N.U.*in* Program. The N.U.*in* Program is an innovative first-year global experience during which admitted students begin their college studies at one of our partner institutions overseas while earning transfer credits in the fall semester* and start their studies on campus in Boston in the spring semester. See page 6 for additional information about The N.U.*in* Program.

In building a diverse and talented incoming class, the Admission Committee seeks to enroll students who have been successful academically and who have been actively involved in activities in their school and home communities.

Typically, students admitted to Northeastern have been extremely successful with a challenging course load. When considering applicants for freshman admission, the committee considers whether the applicant's high school transcript reflects the various academic opportunities offered such as honors, advanced placement, international baccalaureate, or college-level courses. Northeastern also seeks to enroll students who have positively contributed to their school and larger community.

When reviewing transfer students, the committee takes into consideration factors such as the candidate's academic transcript; letters of recommendation; resumé; essay; academic preparation for major of choice; and, in certain cases, high school GPA and standardized test scores as well as strength of character. Transfer applicants are encouraged to submit a completed application and all supporting materials well before the deadline, as the number of students admitted to each program is limited.

Northeastern accepts the Common Application. Students may apply online at www.commonapp.org.

*Throughout this catalog, the word semester refers both to full semesters and to half semesters, except in cases where there is a cost or timeline difference. In such cases, the terms "full semester" and "half semester" are used.

Deadlines and Decisions

Interested applicants may apply for entrance into either the fall or spring semester. For application deadlines, visit www.northeastern.edu/admissions.

- Northeastern offers a nonbinding Early Action application process and a binding Early Decision process for freshman applicants.
- Northeastern also offers a Regular Decision application process for freshman applicants.
- Transfer decisions are not released on a rolling basis, and all decisions are released by a given date.

Required Materials

The committee will begin to evaluate an applicant's candidacy for admission only when all application credentials have been received. Ensure that all appropriate identification information is on every piece of your application package (name, date of birth, and NU ID).

FRESHMAN APPLICANTS

More than 50,500 students apply for a space in the freshman class. As the vast majority of applicants are academically eligible for admission, the committee has the responsibility of selecting applicants for admission who it believes will contribute to Northeastern's diverse and vibrant community. The committee is particularly interested in applicants who have challenged themselves academically, are highly motivated, have a strong work ethic, or who have demonstrated qualities of leadership, creativity, diversity, engagement, global perspective, adaptability, and resiliency. Our students exhibit strong character, high ethical standards, and a commitment to involvement and to being a positive influence in their community and in the world. We encourage applicants to spend time to thoughtfully prepare their application in order to make sure their strengths and qualities resonate with the Admission Committee. **In addition to the Common Application, prospective freshmen must submit the following:**

- Official secondary school transcripts. Midyear senior grades should be sent when available. Admitted students planning to enroll are required to send final transcripts prior to matriculation. General Equivalency Diploma (GED) recipients should provide their official score reports as well as any official secondary school transcripts.

- Students who received high-school education at home should provide a list of all textbooks used. Home-schooled applicants must also provide proof they will have met, by the end of May of their year of graduation, all requirements for an official high school diploma and submit an official final transcript, a General Equivalency Diploma (GED), or a certificate of completion from their local school district or state board of education by the end of July of the year of matriculation. Home-schooled students must submit either the American College Testing Program (ACT) with Writing exam or the College Board's SAT (with Writing). In addition to the ACT or SAT, two SAT subject tests, including mathematics and an additional subject test of the student's choice, are required. Students who are applying for majors in the Bouvé College of Health Sciences, the College of Computer and Information Science, or the College of Science should take a science subject test as their second exam. Applicants to the College of Engineering should take the physics subject test unless they are applying for chemical engineering, in which case the chemistry subject test is required.
- Official transcripts for any college-level course work taken while a secondary school student.
- Portfolio. A portfolio is required for music composition and technology applicants and for studio art applicants and is welcomed from all applicants to the College of Arts, Media and Design. See "Admission Requirements for the College of Arts, Media and Design" on page 5 for more information.
- Secondary school report with a counselor recommendation, available on the Common Application website.
- One teacher recommendation, available on the Common Application website.
- Early Decision Agreement for students applying under the binding Early Decision process.
- Official results of the American College Testing Program (ACT) with Writing exam or the College Board's SAT (with Writing). Northeastern's College Board CEEB Code is 3667 and 1880 for ACT. For detailed testing requirements see www.northeastern.edu/admissions.
- For students applying from secondary schools located outside the United States, the SAT and ACT are not required and will not be considered for admission if submitted. Applicants are encouraged to submit results from nationally accredited exams that signify completion of secondary education and are required for entry into universities in their home country. Internationally accepted examinations such as AP and International Baccalaureate are also encouraged. Applicants from schools operated by the U.S. Department of Defense are excluded from this provision.
- Application fee.

For applicants whose first language is not English, see "Requirements for Applicants Whose Primary Language Is Not English" on page 5 for more information.

TRANSFER APPLICANTS

Each year we receive over 3,000 applications for transfer admission. Our most competitive candidates for transfer admission typically have a grade-point average of 3.300 or higher.

In addition to the application for admission, prospective transfer students must submit the following:

- Official college transcripts for all institutions attended.
- College Report, formerly known as Registrar Report, to be completed by the registrar's office or Dean of Students from current/previous school. Form is available through the Common Application.
- Academic evaluation (letter of recommendation) from an academic advisor, professor, or employer on official letterhead.
- Online submission through the Common Application.
- Official final high school transcript or an official GED score report and SAT/ACT scores for students who have completed less than 24 college credits (after high school) at the time of the application deadline. If a GED score report is submitted, the incomplete high school transcript must also be submitted. Standardized test scores are not required for students who completed high school outside the United States.
- Joint Service Transcript (JST) for all military veterans.
- Proof of English proficiency required for students whose native language is not English.
- Portfolio. A portfolio is required for music composition and technology applicants and for studio art applicants. See "Admission Requirements for the College of Arts, Media and Design" on page 5 for more information.

TRANSFER CREDIT

Students may transfer up to 60 semester hours of credit from a two-year college, or up to 80 semester hours from a four-year college, or a combination of the two types of colleges. If you have been admitted to the D'Amore-McKim School of Business and your college or university is not AACSB-accredited, the maximum number of credits that you can transfer to Northeastern is 60. See also "Residency Requirement" on page 25.

College courses completed with a grade of C or better are considered for transfer credit by faculty evaluators. Liberal arts course work taken more than ten years ago and math and science course work completed more than five years ago can be considered by faculty upon enrollment for transfer credit.

All transfer-credit documents should be received prior to matriculation and *must* be received within one semester of matriculation. These documents include, but are not limited to, Advanced Placement, International Baccalaureate, and National Education exam scores and official transcripts from colleges and universities. These documents should be submitted whether or not you wish to receive transfer credit from this work. Transfer credit *will not* be granted for work completed prior to matriculation if the official credential is received after the completion of the first semester. College course work completed at an international institution must be translated into English and evaluated by a recognized credential agency.

ADVANCED EXAMINATIONS

You may enter the university with advanced credit on the basis of your test scores on certain specific examinations (listed below) or on successful completion of accredited college-level courses that you took before you enrolled at Northeastern. For consideration, students should submit transcripts or test results before matriculation and must submit official score reports for credit evaluation within one semester of matriculation.

Current Northeastern University policy limits the number of advanced credits that students may apply toward undergraduate degrees to 32 semester hours. Advanced courses may be used to satisfy any appropriate explicit degree requirements without regard to the number of credits used.

Northeastern currently awards advanced credit for the following examinations:

- Advanced Placement
- British GCE A-Level Examination
- German Abitur
- French Baccalaureate
- International Baccalaureate
- Swiss Federal Maturita Diploma

Advanced Placement Evaluations

The university awards credit for test scores of 4 and 5. Visit www.northeastern.edu/admissions/application-information/transfer-credit for an up-to-date AP listing.

Credit awarded: 4–10 semester hours or up to two courses per exam (refer to AP listing). AP scores must be received by Northeastern prior to matriculating in order to receive credit.

British GCE A-Level Examination

The university awards credit for A-level courses with final exam grades of C or better.

German Abitur

The university awards credit for intensive subjects with scores of 7 or higher on a 15-point scale and 4 or higher on a 6-point scale only for subjects that required a written exam.

French Baccalaureate

The university awards credit for any series A–E on the Baccalaureate de l'Enseignement du Second Degré with a coefficient of 4 or above and a score of 10 or better on a 20-point scale.

International Baccalaureate

The university generally awards credit for exam scores of 5, 6, or 7 in higher-level courses only. Visit the Admissions website at www.northeastern.edu/admissions/apply/transfer_credit.html for an up-to-date IB listing.

Swiss Federal Maturita Diploma

The university awards credit for a final score of 4 or higher on a 6-point scale or 6 or higher on a 10-point scale.

INTERNATIONAL APPLICANTS

Northeastern accepts the Common Application. Students may apply online at www.commonapp.org.

International student applications are reviewed considering their performance in their particular academic environments. As a result, SAT or ACT scores are not required for international applicants who are studying at schools located outside the United States (Department of Defense school students are required to submit SAT or ACT scores). However, applicants who attend a high school in the United States or who are student-athletes who must meet National Collegiate Athletic Association eligibility requirements are required to submit test scores.

In order to maintain lawful student status in the United States, international students must be mindful of the rules and regulations that govern their nonimmigrant visa classification. Numerous U.S. federal mandates and regulations, including the Student and Exchange Visitor Information System (SEVIS), make it especially important for students in the “F” (student) and “J” (exchange visitor) categories to consult regularly with an international student advisor at the International Student and Scholar Institute (ISSI) before taking any action that might affect their immigration status and educational endeavors in the United States.

International students in F-1 and J-1 status must register as full-time students (minimum of 12 credits), on time (within the appropriate registration period) each term during the regular academic year. In addition, international students must not begin, extend, or resume any type of employment without first obtaining proper employment authorization or verification from the ISSI. Any exceptions to full-time registration requirements must be preapproved by the ISSI in accordance with specified federal regulations.

In order for prospective F-1 and J-1 students to start their undergraduate program here, they must obtain the certificate of eligibility from ISSI. For F-1 students, this document is called Form I-20, and for J-1 students, this document is called Form DS-2019. The international student will need to complete the e-form on the myISSI website and work with the undergraduate admissions office to meet all requirements needed for successful submission of the request for I-20 or DS-2019. Once the request is approved by the undergraduate admissions office, the ISSI will get a request for the student’s I-20 and will need ten business days to generate the student’s certificate of eligibility. Students then are able to apply for their F-1 or J-1 visas at a U.S. consulate overseas and, if the visa is granted, enter the United States no earlier than thirty days prior to the start date of their academic program to begin their studies here.

An international student may attend Northeastern in a nonimmigrant status other than F-1 or J-1 only if U.S. Immigration regulations allow for study in the United States under that specific nonimmigrant visa classification. Some international students must apply and be approved for a change of status (e.g., from F-2 to F-1) before beginning their program at Northeastern. For information on nonimmigrant visa statutes other than F-1 and J-1 (including eligibility to work in the United States or participate in co-op and other forms of experiential learning required by your academic program), contact the ISSI at issi@neu.edu. Not all visa

categories allow for internships, co-ops, international travel associated with an academic program, and/or other experiential learning opportunities. Note that some academic programs at Northeastern have experiential learning requirements (e.g., co-op or study abroad). Nonimmigrant visa statutes other than F-1/J-1 may not allow for those requirements to take place and, as such, may impede the successful completion of your program of study.

Requirements for Applicants Whose Primary Language Is Not English

Students whose native language is not English, regardless of their country of citizenship, are required to submit official results of the Test of English as a Foreign Language (TOEFL), the English Test of the International English Language Testing System (IELTS), or the Pearson Test of English (PTE). A list of accepted English proficiency examinations and the required minimum passing scores are available at www.northeastern.edu/admissions. Applicants must present the required minimum passing scores for admission.

College, Major, and Length of Program Selection

Applicants to Northeastern University apply to one of our seven undergraduate colleges or to the Program for Undeclared Students.

We encourage students to select a major that reflects their current academic interests and aspirations; however, the Program for Undeclared Students provides opportunities to explore our various disciplines and programs. Northeastern offers advisory programs for students interested in preprofessional programs, including medical, dental, law, and veterinary graduate school. Transfer students may not apply to the Program for Undeclared Students.

Northeastern University offers a broad and deep curriculum that is flexible, and the academic calendar allows students to maximize experiential learning opportunities, including research, study abroad, and our signature program, co-op. Students become architects of their own paths, charting their unique course that determines their time to degree. Students can build a program that is four years or five years and gain up to eighteen months of full-time experiential learning opportunities. Freshmen can participate in NUterm in Summer 1 of their freshman year, taking advantage of exciting and unique course offerings or regular classes during the May/June semester. Students are generally not required to make a decision about their time to degree until the end of the freshman year. By participating in NUterm, students take advantage of Northeastern's signature flexibility, beginning their sophomore year with an additional half term completed. Some specific programs require more than five years to complete. In general, these have been structured so that students are considered to be undergraduates for their first five years and then transition to graduate status within the program. See the detailed curricula in this catalog for more information.

Students who begin in the January term might not follow the same curricula sequence as those who start in the fall. Their schedule of courses may be affected based upon the semester of matriculation. Summer courses may be required to help students complete their degree requirements in a reasonable amount of time.

Early High School Graduates

Northeastern will review applications from early high school graduates who will complete high school in three years or less. Before enrolling at the university, all applicants for early admission must have completed all units required for high school graduation (including senior English) or must have earned the General Equivalency Diploma (GED). In addition to the required materials for freshman applicants, early high school graduate applicants must provide written endorsement from the school principal or guidance counselor, as well as parents. The endorsements should speak directly to the applicants' academic readiness and emotional maturity for college. An interview may also be required.

Admission Requirements for the College of Arts, Media and Design

GUIDELINES FOR PORTFOLIO SUBMISSION

All portfolios should be submitted electronically via SlideRoom (northeasternundergrad.slideroom.com). Hard-copy portfolios will not be accepted and cannot be reviewed. Only portfolios from applicants to the College of Arts, Media and Design are reviewed; there is no portfolio review process for other majors. Refer to the undergraduate admissions website (www.northeastern.edu/admissions) for additional portfolio submission guidelines.

CREATIVE LEADERS PROGRAM

Applicants interested in consideration for the Creative Leaders Program are welcome to submit a portfolio through SlideRoom (northeasternundergrad.slideroom.com) to be considered for admission to the program. For updated guidelines for admission and for creating a portfolio, go to the Creative Leaders website, www.northeastern.edu/camd/academics/undergraduate/creative-leaders.

STUDIO ART

Applicants for the studio art major, a joint program of Northeastern University and the School of the Museum of Fine Arts, Boston, are required to submit a portfolio through SlideRoom (northeasternundergrad.slideroom.com). This portfolio requires a minimum of fifteen individual images of original artwork. The portfolio may include work in a variety of media; no particular subject matter or style is required. Rather, students should select work that best shows their personal style, creativity, and commitment to innovation. Check the Department of Art + Design website, www.northeastern.edu/camd/artdesign, for more information.

MUSIC COMPOSITION AND TECHNOLOGY

For candidates applying for admission into the music composition and technology concentration, a portfolio submitted through SlideRoom (northeasternundergrad.slideroom.com) is required. The portfolio must include:

- Three representative examples of your creative work in a form that best represents the project, including lead sheets of original songs or printed scores of original compositions or arrangements in digital format. Audio recordings of compositions are highly recommended. Video recordings of live performances of your music are also acceptable.
- A short statement explaining your involvement in the creation of the work. The statement should note whether you are the sole creator or a collaborator; the composer, arranger, or remixer; and whether you are performing the work on the recording(s).
- A separate, one-page statement of your musical background, influences, and goals.

Should music composition and technology faculty determine that they would like additional information, they may arrange an interview with the applicant. Visit the following website for more information: www.northeastern.edu/camd/music/academic-programs/bs-in-music-composition-and-technology.

MUSIC PERFORMANCE

Once enrolled, students in any music concentration may also audition to pursue a minor in musical performance. This program is highly competitive and therefore requires evaluation by the Department of Music. To schedule an audition contact Professor Won Hee An, program director for music performance, via email at w.an@neu.edu. Auditions are typically scheduled during a student's first semester at Northeastern. For specific questions regarding the program or audition requirements, contact Professor An.

UNIVERSITY HONORS PROGRAM

Exceptionally motivated students who are seeking an opportunity to enhance their educational experience may be invited to join the University Honors Program. The honors community is an active group of intellectually engaged students who are committed to making a difference at home and in the world. They benefit from unique and challenging academic opportunities, personalized advising, stimulating events, and participation in the honors living and learning communities. Only the most highly accomplished and motivated applicants to Northeastern are invited into the University Honors Program. These students will be notified of their selection in their letter of admission. There is no separate application to the Honors Program. Only students admitted for the fall semester are eligible for consideration.

SPECIALIZED ENTRY PROGRAMS

Northeastern University provides innovative admission and enrollment programs and opportunities that advance the university's mission and help meet students' needs. Students who apply for admission to Northeastern, based on their credentials, may be automatically offered direct entry into some of these programs and, in some cases, may be referred for consideration into other programs. Northeastern is continually assessing our specialized entry programs and opportunities, and additional programs and opportunities may become available while existing programs and opportunities may be modified. For a complete list of our specialized programs and opportunities, visit www.northeastern.edu/admissions/academics/areasofstudy/specializedentryprograms.html.

The N.U.*in* Program

Northeastern enrolls selected new students in the spring semester through The N.U.*in* Program. During the fall semester, N.U.*in* participants study abroad at a partner institution earning transfer credits that will be valid at Northeastern and enroll in classes as part of the Northeastern community in the spring. These transfer credits earned may only be valid at Northeastern. Other institutions may not accept these credits. Participants have studied at partner institutions located in Australia, Costa Rica, England, Greece, Ireland, and Spain in past years.

General Studies Program

General Studies is a first-year program designed to help Northeastern students find academic success in their freshman year and beyond. General Studies students spend their freshman year immersed in a combination of first-year requirements, NU Core courses, and introductory courses for their intended major. See page 45 for additional information.

Foundation Year

This innovative first-year college program is designed for recent high school graduates and GED completers who would like to pursue a college education and would benefit from a more structured and supportive first year in order to be successful in the rest of their college career. Foundation Year offers students rigorous academic and career preparation as well as wraparound support services that include advising, tutoring, mentoring, social networking, and work-ready skills.

Torch Scholars Program

The Torch Scholars Program is a bold and innovative support program for first-generation college students. Torch Scholars are granted admission to the university and awarded a full-tuition, fees, and room and board scholarship for our Summer Immersion Program and eight subsequent semesters of undergraduate study.

The American Classroom Program

The American Classroom is an academic English-language program for motivated students who are interested in matriculating into an undergraduate degree program at Northeastern. Students in the program take classes to improve their English-language skills while also participating in credit-bearing academic courses offered through the College of Professional Studies. Service-learning is a defining characteristic of the American Classroom curriculum. Students in the program engage in weekly community service work, giving them an opportunity to engage in the Boston community, connect their studies to the real world, build experience for their resumé, and exercise their English-language skills. Students may apply directly to the program or they may be referred to the program through the undergraduate admission process. Students who are referred to the American Classroom Program have usually met all the necessary requirements for undergraduate admission but have not yet achieved sufficient English-language proficiency. The referral entails placement in one of three phases of the American Classroom Program and a conditional offer of admission to Northeastern upon successful completion of the program.

Global Pathways

Northeastern's Global Pathways Program, developed in partnership with Kaplan, combines English-language preparation with academic course work to prepare international students for undergraduate or graduate degree programs at Northeastern. Depending on English-language proficiency, students participate in the program for one, two, or three semesters, after which they matriculate into their target degree program.

U.S. Pathways Program

The U.S. Pathways Program (USPP) is a collaboration of the Consortium of North American Universities (CNAU) designed to offer academically qualified students from China and Nigeria an opportunity to pursue undergraduate studies in the United States. In addition to completing the fall and spring terms at USPP sites in China and Nigeria, successful students participate in a U.S.-based Summer Bridge program. Students successfully meeting all academic progression requirements and admissions criteria of their preferred consortium institution may enroll in an undergraduate degree program at one of the CNAU institutions.

MERIT SCHOLARSHIPS

Scholarships reward academic excellence. Northeastern has established several highly selective scholarship programs to reward and recognize outstanding academic achievement. You must apply by the regular deadline to be considered for these scholarships. No additional applications are necessary, as consideration for merit scholarships is automatic when the application is completed by the deadline.

National Merit Finalist, National Achievement Finalist, and National Hispanic Scholar Scholarships

Award: Up to a \$30,000 per year scholarship for admitted freshman applicants who are designated National Merit Finalists, National Achievement Finalists, or National Hispanic Recognition Program Scholars. Students who are National Achievement Finalists or National Hispanic Recognition Program Scholars must submit documentation to Northeastern by the posted deadline. National Merit Finalists must rank Northeastern as their school of choice by the posted listing deadline. Recipients who maintain normal progress toward a degree, with the minimum 3.000 grade-point average, may renew the award for the full eight-semester program.

Eligibility: Admitted freshman applicants who are designated National Merit/National Achievement Finalists by the National Merit Scholarship Corporation (NMSC) and students identified as National Hispanic Recognition Program Scholars.

Merit Scholarships

Awards: Partial tuition scholarships ranging from \$5,000 to \$25,000. Recipients who maintain normal progress toward a degree, with a minimum grade-point average of 3.000, may renew these awards.

Eligibility: The top 20 percent of freshman applicants may be considered for these highly selective awards.

University Scholars Program

Launched in fall 2012, the Northeastern University Scholars Program is a full tuition scholarship program offered to a limited number of students. Individuals invited to join this program have distinguished themselves academically; displayed an entrepreneurial approach to study, achievement, involvement, and life; and have demonstrated curiosity and creativity that extend far beyond the classroom to impact the world around them. The program is intended to meet the interests of students who demand to be challenged, are passionate about learning, and will innovate when given the freedom to explore. Students invited to join the University Scholars Program will be notified of their selection in their letter of admission. There is no separate application, and only students admitted to the fall semester are considered for this program.

Phi Theta Kappa Scholarships (Transfer Students Only)

Award: \$5,000 grant. Recipients who maintain normal progress toward a degree, with a minimum grade-point average of 3.000, may renew the award.

Eligibility: Applicants for fall transfer admission who have earned a 3.500 grade-point average in 32 semester hours or equivalent quarter hours or units of college-level course work. For eligibility, you must be a U.S. citizen or a permanent resident enrolling directly from a two-year institution of higher education.

Ujima Global Leaders Program

The Ujima Global Leaders Program is a scholarship program focused on developing leaders for tomorrow's diverse and complex world. Ujima Global Leaders from all academic disciplines will work collaboratively to develop intercultural competence and awareness by engaging with communities on campus, throughout Boston, and the world. Working with staff and faculty, Global Leaders may choose to make an impact based on their interests and goals via community service involvement, experiential opportunities, and research and global experiences. Committed to excellence, academic achievement, service, and diversity, Global Leaders will be prepared to meet the challenges of tomorrow. The Ujima Global Leaders Program seeks to enroll academically talented first-year students with demonstrated leadership skills, community involvement, and/or an interest in issues related to serving underrepresented and underserved populations. Scholars receive the Ujima Global Leadership Award, and those with demonstrated need will have their full need met. Scholars will also be expected to participate in Northeastern's Civic Engagement Program and complete fifty hours of community service each year.

The International Scholars Awards

Northeastern University does not offer need-based assistance to international students.

Awards: Merit-based scholarships ranging from \$5,000 to \$20,000. The scholarships reward the outstanding academic achievements of incoming freshman international students. They are awarded for a maximum of eight semesters as long as the student maintains a 3.000 GPA.

Eligibility: The top 10 to 15 percent of international freshman applicants may be considered for these awards.

Information for Entering Students

NEW STUDENT ORIENTATION

It is mandatory for all undergraduate students entering the university to participate in an orientation program. Students beginning in September will participate in sessions throughout the summer. Those starting in January will participate in a session that will precede the start of the semester. Students will meet their classmates and learn their way around campus and Boston. They will also prepare for the start of the academic year by exploring their college and major, meeting with an academic advisor, learning more about co-op, and experiencing what makes Northeastern unique. Students will also register for classes and get their Husky Card. Students who have paid their enrollment deposit will have the ability to register for orientation through the Admitted Student Portal. Contact the Office of New Student Orientation toll-free at 800.696.6516 or visit www.northeastern.edu/orientation for more information.

International students are required to participate in *both* New Student Orientation and the International Student and Scholar Institute (ISSI) International Student Online Check-In and International Student Orientation. New Student Orientation precedes the start of the semester.

ORIENTATION FOR INTERNATIONAL STUDENTS

The International Student and Scholar Institute (ISSI) organizes year-round orientation and acculturation programming throughout the year for newly arrived international students and U.S. citizens from abroad. ISSI's International Student Orientation provides a unique forum for intercultural interaction and learning, with activities that include an "airport welcome," cultural enrichment programming, information sessions, F-1 or J-1 international student advising, regional excursions, and educational seminars that bring a cross-cultural focus to topics such as academic success, student life, and the dynamics of diversity. ISSI's mandatory International Student Online Check-In process and orientation begin prior to the start of the fall and spring semesters, comprising several weeks of activities that provide international students (and others who have lived abroad) an opportunity to gain familiarity with Northeastern in a cross-cultural context while also serving to facilitate the formation of friendships across cultures.

International students holding an F-1 or J-1 visa should plan to arrive several days before the start of the semester as outlined in the ISSI orientation schedule in order to attend the scheduled International Student Orientation program and complete the International Student Online Check-In process. All matriculating international students will have access to a preliminary schedule

from the ISSI prior to their arrival in the United States. Immediately prior to the start of the semester, the Office of New Student Orientation organizes mandatory orientation and academic advising.

PARENT PROGRAMS AND SERVICES

The Office of Parent Programs and Services serves as a resource to parents and families of Northeastern University students. Through on-campus and off-campus events and programs, this office outlines its services and programs and begins to develop a relationship with the Northeastern parent and family population. Ongoing newsletters, online chats, parent message board, and programs keep parents and family members connected to the university and informed of deadlines, events, and services. The university also maintains a Parent Portal, which is a resource for news, dates, and important information related to the student's experience. With permission of the student, parents may create an account by visiting the myNEU Web Portal (www.myneu.neu.edu). During the academic year, parents and family members are invited to contact the office as they seek information or assistance in addressing concerns related to their student's enrollment.

Contact the Office of Parent Programs and Services toll-free at 800.696.6516, or visit www.northeastern.edu/parents for more information.

RESIDENTIAL LIFE

The Department of Residential Life strives to create a community for our residents by planning programs and activities that help students get to know others on their floor and in their residence hall. We also provide services that support our residents in accomplishing their academic and personal goals. Residential Life staff are trained in counseling, crisis intervention, and conflict

resolution, as well as interpersonal communications, in order to assist our students to achieve their aspirations.

Each hall is supervised by a professional residence director and student resident assistants, who work together to maintain close contact with students to help make their experience living on campus a positive one.

The university offers a variety of housing options tied to specific programs of study for first-year students known as Living Learning Communities (LLCs). The LLCs offer students a supportive, achievement-oriented environment with opportunities for friendship around common interests as well as continued learning and sharing outside the classroom. LLCs commonly feature tutoring, advising, and study groups as well as unique programs designed to promote student growth and advancement.

HEALTH REQUIREMENTS—UNIVERSITY HEALTH AND COUNSELING SERVICES (UHCS)

Prior to entering Northeastern, all enrolled students must complete and submit a Health Report to University Health and Counseling Services. It must be completed and returned by the stated deadline. The required record of immunity section is necessary for compliance with the Massachusetts Immunization Requirements for College-Age Students. Failure to meet the requirement will prevent future course registration. Additionally, further documentation of immunity is mandatory for students in Bouvé College of Health Sciences.

Visit www.northeastern.edu/uhcs to access the Health Report online.

ENGLISH-LANGUAGE TESTING

NU Global conducts English-language testing for international students who are referred for this service. The testing takes about two hours. The NU Global Test measures English composition, listening comprehension, grammar, vocabulary, and reading comprehension and is administered by the NU Global Office at Northeastern University.

Any department may refer students for testing. Students must arrive on time on designated test days. Referral forms and a schedule of test dates are available to departments by request. Departments should contact cpsadmissions@neu.edu for more information.

ACCOMMODATIONS FOR STUDENTS WITH DISABILITIES

Northeastern University and the Disability Resource Center (DRC) are committed to providing disability services that enable students who qualify under Section 504 of the Rehabilitation Act and the Americans with Disabilities Act Amendments Act (ADAAA) to participate fully in the activities of the university. To

receive accommodations through the DRC, students must provide appropriate documentation that demonstrates a current substantially limiting disability. Accommodations are provided based on an evaluation of the information provided by students and their clinicians, on a case-by-case basis. Students should provide documentation to the DRC at their earliest convenience to allow for sufficient time for review. After the documentation has been reviewed, a disability specialist will contact the student regarding appropriate next steps. For additional information on the DRC, visit their website at www.northeastern.edu/drc or contact staff at 617.373.2675.

WE CARE

We Care is a program that assists students experiencing unexpected challenges maintaining their academic progress. We Care works with the student to coordinate among university offices and to offer appropriate on- and off-campus referrals to support successfully resolving issues. College Expenses

Northeastern University is eager to assist you in developing a plan for financing a Northeastern education. Through a variety of options—financial aid, Northeastern’s Monthly Payment Plan, supplemental loans, and your own resources—a plan can be designed that will make your education costs affordable. Visit the Office of Student Financial Services on the Web at www.northeastern.edu/financialaid or call 617.373.3190.

FINANCIAL AID

For many families, financial aid is a major element in making Northeastern University affordable. The Office of Student Financial Services provides a full range of options that help students establish a comprehensive plan to finance their education. To take advantage of Northeastern’s financial aid programs, freshmen and transfer students must submit the Free Application for Federal Student Aid (FAFSA) and CSS Profile forms. Returning students must submit the FAFSA every year. Meeting priority filing dates will allow the review of your eligibility for all available financial aid programs. For information regarding your financial aid application, visit the myNEU Web Portal (www.myneu.neu.edu), click on the “Self-Service” tab, and select “My Financial Aid Status.”

Satisfactory Academic Progress (SAP)

QUALITATIVE

Student grade-point averages (GPAs) are reviewed annually at the end of spring semester. Freshmen students must have at least a 1.800 GPA by the end of their first academic year and a 2.000 GPA or better thereafter to retain financial aid eligibility. For students completing their sophomore year and beyond, a GPA of 2.000 is required to retain eligibility.

QUANTITATIVE

Students must also meet certain quantitative requirements. Completed credits are reviewed as a percentage of attempted credits after each academic year. Students must earn at least 67 percent of their cumulative attempted credits to maintain satisfactory academic progress.

APPEALS

Students who have lost their eligibility for aid due to failure to meet qualitative or quantitative SAP standards have the right to submit a letter of appeal to Student Financial Services. Approval of an appeal will be based on extenuating circumstances that had an impact on the student’s ability to achieve the minimum standards of SAP and the assurance that the circumstances that caused the deficiencies will not be

present going forward. If approved, appeals require a contractual agreement that must be signed by the student and a financial aid administrator.

Return of Title IV Aid

Northeastern is required by federal statute to recalculate federal financial aid eligibility for students who withdraw, drop out, are dismissed, or take a leave of absence prior to completing 60 percent of a term. Recalculation is based on the percentage of earned aid using the Federal Return of Title IV funds formula. Federal regulations require students to obtain at least an A, B, C, D, S, or F in at least one course for the term; students who receive all unsuccessful grades for a term (NE, W, I, U) will be considered unofficially withdrawn from the term. For unofficial withdrawals, the withdrawal date used for aid recalculation is the midpoint of the term.

Northeastern’s Monthly Payment Plan

All full-time students have the option to enroll in Northeastern’s Monthly Payment Plan. This plan allows students and families to spread their annual tuition costs over nine, ten, or eleven months. Short-term plans are also available. For additional information, visit www.northeastern.edu/financialaid/studentaccounts/payment.html.

STUDENT/PARENT LOANS

There are a number of attractive educational loan programs available to assist students in covering expenses over and above any financial aid that may be awarded from Student Financial Services. Most private lenders have credit and income requirements that students and/or parents must meet before being approved for these programs. Additional information regarding private loans is available on our website at www.northeastern.edu/financialaid/loans/supplemental.html. When researching the loan and lender that best meet your needs, make sure you take into consideration the interest rate, origination, disbursement, or repayment fees and the quality of customer service.

BILL PAYMENT

Full payment of tuition, residence hall fees, and other related charges are due prior to the start of the term as specified on the original bill. A past-due balance may result in late fees, prevention of registration, prevention of grade release, prevention of participation in international study programs, or withdrawal from

the university. For details on payment methods and E-bill, visit www.northeastern.edu/financialaid/studentaccounts/payment.html.

Discrepancies in a bill should be addressed in writing by the student to the Office of Student Accounts. Include name, NU ID, dollar amount in question, date of invoice, and any other information believed to be relevant. Address the correspondence to: Student Financial Services, Student Accounts, 354 Richards Hall, Northeastern University, 360 Huntington Ave., Boston, MA 02115 or email studentaccounts@neu.edu. If there is a billing problem, pay the undisputed portion of the bill to avoid responsibility for any late fees.

Tuition bills are generated electronically and are available via the myNEU Web Portal (www.myneu.neu.edu). Paper bills are not generated.

Overloads/Reduced Loads

Undergraduate day tuition is charged on a flat per-term basis that includes the cost of each student's normal academic curriculum requirements for that term.

Undergraduate full-time student financial adjustments for reduced loads are made only when the petition is approved by the academic department and the Office of the Registrar. International students who wish to drop below 12 credits during the semester must obtain authorization from the International Student and Scholar Institute (ISSI) and may be approved for a reduced course load of fewer than 12 credits but no fewer than 6 credits in accordance with federal regulations regarding approval of a reduced course load request. Adjustments will then be made if the course load falls below 12 credits during full semesters and 6 credits during summer half sessions (calculated at the per-credit-hour rate). To receive an adjustment, the Undergraduate Petition to Reduce Load must be submitted prior to the start of the term. No rebate or credit is granted when a student voluntarily drops a course.

Undergraduate full-time day student financial adjustments for course work greater than the prescribed curriculum for the term is calculated at the per-credit-hour rate. Students taking more than 8 credits (summer half session) or 16 credits (full semester) will be charged the per-credit-hour rate.

Undergraduate full-time day students registered for co-op and taking a class will be billed at the per-credit-hour rate for the course. The flat undergraduate tuition rate will be charged for students on co-op enrolled in 12 credits or more.

Visit www.northeastern.edu/financialaid/studentaccounts/tuition.html for a full listing of tuition rates. Also see "Overload Policy" and "Reduced Load Policies" on page 20.

Undergraduate full-time day students may register for one additional music ensemble course from the following list without added charge:

MUSC 1904	Chorus
MUSC 1905	Band
MUSC 1906	Orchestra
MUSC 1907	Wind Ensemble
MUSC 1911	Jazz Ensemble
MUSC 1912	Rock Ensemble
MUSC 1913	Blues/Rock Ensemble
MUSC 1914	Create Your Own Music
MUSC 1915	Chamber Ensemble
MUSC 1916	Contemporary Music Ensemble
MUSC 1917	Jazz Choir and Combo
MUSC 1918	World Music Ensemble
MUSC 1919	Fusion Ensemble
MUSC 1920	Pep Band
MUSC 1921	World Fusion Ensemble

Delinquent Balances

In cases of student default on tuition payments, the student may be withdrawn from the university and is liable for the outstanding tuition as well as for all reasonable collection costs and any legal fees incurred by the university during the collection process. Accounts may be subject to monthly interest charges. *Transcripts and other academic records will not be released until all financial obligations to the university have been met.*

Refunds on Credit Balances

To submit a request for a refund on a credit balance because of overpayment, the Student Refund Request must be submitted through the student's myNEU Web Portal (www.myneu.neu.edu) located under the "Self-Service" tab.

Visit www.northeastern.edu/financialaid/studentaccounts/refunds.html for additional tips on expediting the processing of a request.

Refund for Withdrawal—General Information

Tuition credits are granted based on the date of the official withdrawal processed by the Office of the Registrar. Nonattendance does not constitute official withdrawal. Credit policies vary according to the duration of the course. Typical tuition adjustments are made according to the schedules shown below.

The first week of class is the week containing the "classes begin" date listed in the online academic calendar at www.northeastern.edu/registrar/calendars.html.

Payment options and credit policies may vary for courses that follow a schedule different from the regular full or half-semester courses. If you are unsure about a course you are taking, contact the Office of Student Accounts.

Transcripts and other academic records will not be released until all financial obligations to the university have been met. All rates are subject to revision at the discretion of Northeastern University's Board of Trustees.

For information regarding policies that affect eligibility for federal grants and loans upon your withdrawal or adjustment to course enrollment, visit www.northeastern.edu/financialaid. Note that withdrawal policies vary for international study programs. For more information on study-abroad-related withdrawal policies, refer to the Global Experience Office and visit www.northeastern.edu/studyabroad.

Refunds for Course Withdrawals

Undergraduate day students should refer to “Overload Policy” and “Reduced Load Policies” on page 20 for information on adjustments for withdrawing from individual course(s). For withdrawals from a course after the third week of a full semester, contact studentaccounts@neu.edu.

Refunds for Complete Withdrawal from the University

Full semesters

Official withdrawal during the first week	100% refund
Official withdrawal during the second week	100% refund
Official withdrawal during the third week	100% refund
Official withdrawal during the fourth week	60% refund
Official withdrawal during the fifth week	40% refund
Official withdrawal after the fifth week	no refund

Summer half semesters

Official withdrawal during the first week	100% refund
Official withdrawal during the second week	100% refund
Official withdrawal during the third week	50% refund
Official withdrawal during the fourth week	25% refund
Official withdrawal after the fourth week	no refund

Disability Resource Center Adjustments

Students who are registered with Northeastern’s Disability Resource Center are eligible to petition the center for tuition adjustments directly related to their documented disability. Students who drop below 12 credit hours may be affected by the loss of full-time-student status. Further information is available from the Disability Resource Center.

TUITION, ROOM, BOARD, AND FEES PER SEMESTER 2015–2016 ACADEMIC YEAR

Full-time freshmen spend two semesters in classes and summer on vacation. Annual costs for upperclass students participating in co-op vary depending on their pattern of attendance. See “Patterns of Attendance” section below. The number of semesters a transfer student spends in school depends on the curriculum of the student’s college. You are advised to verify your curriculum with your student services office so that you may plan accordingly.

Total Costs

The total costs for students living in our residence halls and enrolled in the fifteen-meal plan are as follows:

Tuition and fees	Per full semester	Per summer half semester
Tuition	\$22,310	\$11,155
Student center fee	70	35
Student activities fee	124*	
Campus recreation fee	46	23
Undergraduate student fee	245	123
<i>Room, board, and fees per semester</i>		
Residence activity fee	32	16
Housing	range from 4,005–5,100**	approximately 1/2 of semester rate**
Fifteen-meal plan***	3,495	1,748

*Annual fee

**Rates vary depending on occupancy and assignment. Visit www.northeastern.edu/reslife for a detailed list of housing rates.

***See “Dining Services” on page 16 for additional meal plan options.

Undergraduate day students who take a graduate course as part of their undergraduate program will be charged the same rates that apply to undergraduate credits. (See “Overload Policy” and “Reduced Load Policies” on page 20.)

In addition to the expenses itemized above, families should plan on the normal costs of living that students incur for transportation, books, and personal expenses. These vary depending upon such things as lifestyle and distance from home, but for the purpose of approximating a student budget, the university estimates these items at \$2,800 per year.

Tuition rates, room and board charges, and fees are subject to revision by the Northeastern University Board of Trustees at any time.

Patterns of Attendance

To plan for tuition and fees better, students and parents should be aware that:

- Tuition is charged when a student is taking classes/earning academic credit. Tuition is not charged for co-op (although the student will pay room and board if he or she stays in a university residence hall while on co-op and will be assessed tuition if enrolled in a class); and
- Financial aid will be distributed to match the student’s academic program and tuition bills.

Northeastern University’s calendar enables students to participate in six-month co-op assignments. Each academic year has two full semesters (fall semester, September–December, and spring semester, January–April) and two half semesters of about 7 weeks each (summer 1, May–June, and summer 2, July–August). The six-month co-op assignments generally span either the spring plus summer 1 terms or the summer 2 plus fall terms.

The co-op schedule is flexible, but generally, students alternate periods in class with periods on co-op. All students are required to complete their program in the classroom, rather than on a co-op assignment, so their last semester will be in the classroom. For specific patterns of attendance for particular majors, consult the program plan for that major.

For students entering in September of 2015:

- All patterns of attendance require that students attend the first three full semesters (fall 2015, spring 2016, and fall 2016) before going on co-op.
- Students may choose to take classes during the summer half semesters between spring 2016 and fall 2016 but are not required to do so.
- Approximately half of the class entering in fall 2015 will go on co-op during the spring/summer 1 semesters of 2017 (January–June).
- The other half of that class will go on co-op during the summer 2/fall semesters (July–December).
- Most students will take classes during either summer 1 or summer 2 of 2017, during the time when they are not on co-op.

Fees Required of All Students

The following fees are required of all students:

APPLICATION FEE

A nonrefundable fee of \$75 must accompany an application for admission.

ENROLLMENT DEPOSITS

A nonrefundable enrollment deposit, which is applicable toward the first semester's bill, is due by January 15, 2015, from students accepted for Early Decision and by May 1, 2015, from all other accepted freshman students entering in September 2015. A \$250 international student fee is included in the enrollment deposit for international students. This fee supports programs and services provided by the International Student and Scholar Institute (ISSI) on campus. Housing is required for all first- and second-year students entering as freshmen. Students entering at other times of the year, and transfer students entering in September, should note the required deposit due date on their letter of admission.

UNDERGRADUATE STUDENT FEE

The mandatory undergraduate student fee supports enrollment-related services throughout the student's first year, including new student orientation and welcome week activities. Beyond the first year, the fee supports subsequent enrollment services and support in addition to costs related to ongoing communication to students and parents. The \$245 undergraduate student fee is assessed each in-class or study-abroad term for undergraduate students. During summer half semesters, the fee is prorated.

STUDENT FEES

Students pay a student center fee of \$70 per in-school full semester or \$35 per in-school summer half semester to support the Curry Student Center and an annual student activities fee of \$120 to support student clubs.

CAMPUS RECREATION FEE

All undergraduate students at Northeastern University will be assessed a campus recreation fee of \$46 per in-school full semester or \$23 per in-school summer half semester. This fee covers admission to home athletic events, use of the Marino Fitness Center, the SquashBusters athletic facility, and the Cabot Gym (fitness and pool). This fee will also support the future construction of athletic fields and facilities.

HUSKY CARD (PHOTO-IDENTIFICATION CARD)

This card is issued to new students at orientation and registration. Students must have a valid Husky Card to use at most university facilities. A replacement card costs \$25.

NORTHEASTERN UNIVERSITY STUDENT HEALTH PLAN (NUSHP)

Since September 1989, Massachusetts law (Massachusetts General Laws, Chapter 15A, Section 18) has required every full-time and part-time student enrolled in a Massachusetts institution of higher learning to participate in a student health insurance program (SHIP) or in a health benefit plan with comparable coverage. Students who have comparable health plan coverage may waive NUSHP by completing a waiver on the myNEU Web Portal (www.myneu.neu.edu) by the designated deadline date each academic year. For deadlines and additional information, visit www.northeastern.edu/nushp.

Additional Fees

Other fees may include the following:

HOUSING APPLICATION/DEPOSIT

New students must submit a nonrefundable \$600 enrollment deposit along with a completed housing application form to complete the housing application process. Housing is required for all first- and second-year students entering as freshmen. The upperclass housing deposit is \$200 for each full semester and for each summer half semester.

RESIDENCE HALL ACTIVITIES FEE

All students living in the residence hall system pay a full-semester \$32 fee or half-semester \$16 fee for activities sponsored by the Residence Student Association.

LATE FEES

All accounts not paid in full by the indicated due dates will be subject to a monthly late fee.

INTERNATIONAL STUDENT FEE

A one-time fee of \$250 is charged to new undergraduate international students. The fee supports programs and services available at the ISSI.

Room and Board

ROOM RATES PER SEMESTER, 2015–2016

Visit the Residential Life website, www.northeastern.edu/reslife, for a complete display of room rates and residence halls.

TERMINATION CHARGE AND ROOM RATE ADJUSTMENTS

The university provides on-campus and leased accommodations that are assigned each term. Students are billed at the beginning of each term and are obligated to pay the full charge for the term. The high demand for on-campus housing makes it necessary for Housing and Residential Life to enforce its cancellation policy strictly. It is imperative to note that a student whose Residence Hall and Dining License Agreement is revoked for disciplinary reasons is subject to the same financial assessments as outlined below.

Students who are suspended or expelled from the university will have their current and any active housing application(s) canceled effective the date of suspension. When suspension or expulsion is sanctioned, the student will be charged according to the “Termination Credit Policy for Official Withdrawal from the University” below. All housing deposits on file will be forfeited. Upon readmittance to the university, the student must reapply for housing and if capacity has been reached, the student will be placed on the housing wait list.

Students who withdraw from the university will have their meal plan charges prorated to the end of the week they complete the University Withdrawal Form in the Office of the Registrar. Students must also complete the official housing withdrawal form and check out properly with their resident director. Housing charges for students who withdraw from the university will be prorated only through the end of the fifth week of full semesters and through the end of the fourth week of summer half semesters.

Termination Credit Policy for Official Withdrawal from the University

Fall and Spring Semesters,
Official Withdrawal

from University	Room Charge Credited
Week 1	100 percent*
Week 2	90 percent*
Week 3	80 percent*
Week 4	60 percent*
Week 5	40 percent*
After week 5**	0 percent**

*This credit can also be based on the daily charges of time used.

**Students withdrawing after week 5 incur a 100 percent room charge for the term.

Summer Half Semesters,

Official Withdrawal

from University	Room Charge Credited
Week 1	100 percent*
Week 2	75 percent*
Week 3	50 percent*
Week 4	25 percent*
After week 4**	0 percent**

*This credit can also be based on the daily charges of time used.

**Students withdrawing after week 4 incur a 100 percent room charge for the term.

Termination Charge Policy for Cancellation from the Residence Halls for Matriculating Students

Failure to provide timely, written notification of cancellation of housing will result in a charge to students for their assigned space. For example, if you are assigned to a room for the fall semester with a rate of \$4,365 and you cancel your housing on June 20, 2015, you will be assessed 50 percent of your room rate, which is \$2,183—not 50 percent of your deposit for the fall term.

If you cancel your housing prior to receiving an assignment, you will be assessed a cancellation fee according to the cancellation schedule at the rate of a standard double room for freshmen or a standard double in an apartment for upperclass and graduate students. If the cancellation deadline has passed, students who can demonstrate a significant change in academic, co-op, or financial circumstances may petition for a waiver of this charge. See the following cancellation charge schedule:

Amount Charged	Notification Received			
	Fall 2015	Spring 2016	Summer 1 2016	Summer 2 2016
Deposit refunded; no charge	Before 5/15/15	Before 10/1/15	Before 3/1/16	Before 4/15/16
25 percent of term room charge*	After 5/15/15	After 10/1/15	After 3/1/16	After 4/15/16
50 percent of term room charge*	After 6/15/15	After 10/15/15	After 3/15/16	After 4/30/16
75 percent of term room charge*	After 7/15/15	After 11/1/15	After 4/1/16	After 5/15/16
100 percent of term room charge*	After 8/1/15	After 12/1/15	After 4/15/16	After 5/29/16

*The student's deposit for the term is applied to the cancellation charge assessed.

DINING SERVICES

All students living in university residence halls, that require students to have a meal plan, are required to participate in the 19-, 15-, or 10-meal plan operated by University Dining Services.

All freshmen (during their first two semesters as matriculated college students) living in university residence halls are required to have a traditional meal plan. They are required to have at least a 10-meal plan except for those living in university apartments with kitchen facilities. Freshmen living in university apartments with kitchen facilities are required to have at least a 5-meal plan.

Students living in a meal-plan-required residence hall are automatically billed for the 15-meal plan but can increase to a 19-meal plan or decrease to a 10-meal plan. All other students may choose to enroll in a meal plan via the Self-Service tab on the myNEU Web Portal (www.myneu.neu.edu).

Changes to the meal plan are made via the Self-Service tab on the myNEU Web Portal (www.myneu.neu.edu). Deadlines apply. Visit www.northeastern.edu/huskycard for details.

For information about menus and dining locations, visit www.nudining.com.

The traditional meal plan rates for 2014–2015 are shown below. For updated meal plan rates, visit www.northeastern.edu/financialaid/studentaccounts/fees.html.

Meals per week	Full semester	Summer half semester
19	\$3,495	\$1,748
15	3,230	1,615
10	2,795	1,398
05	1,430	715

PROFILER MEAL PLANS

The nonrefundable profiler meal plan is a block of meals that are provided in lump sum and can be used at the student's discretion. Profiler options are available to all students. However, these plans cannot take the place of a required, traditional meal plan.

Profiler meal plans end in August at the end of summer 2 semester. Students are advised to pay close attention to the end dates, as unused meals do not roll over and will not be refunded. Profiler meal plans for 2015–2016 are valid from August 30, 2015, through August 27, 2016, and may be used at Levine Marketplace, Stetson West, International Village, Outtakes, Rebecca's Café in Churchill Hall, and the West End in Curry Student Center. *Note:* Dining locations are limited during the summer.

The profiler rates for 2014–2015 are shown below. For updated rates, visit www.northeastern.edu/financialaid/studentaccounts/fees.html.

Meals	Cost
25	\$ 390
50	765
86	1,290
110	1,620

Profiler plans are nonrefundable and cannot be modified.

Husky Dollars

Students can deposit funds into a Husky Dollar account and access these funds using their Husky Card at many restaurants and retail locations on and off campus, including the university's bookstore.

Note that the account accrues no interest and cannot be used for cash withdrawals. Visit www.northeastern.edu/huskycard for additional information, including vendor locations and instructions on how to add funds to your account.

Academic Policies and Procedures

This section presents general information about what is expected of students and how progress toward graduation is measured. For specific details on individual degree programs, students should consult their academic advisors. The university assumes no liability for any delay in providing or failing to provide educational or related services or facilities due to causes beyond the reasonable control of the university. Causes include, but are not limited to, power failure, fire, strikes by university employees or others, weather damage, and acts of public authorities. However, when in its judgment it is appropriate to do so, the university will exert reasonable efforts to provide comparable or substantially equivalent services, facilities, or performance; but its inability or failure to do so shall not subject it to liability. No faculty member, administrator, or other representative of the university shall make any representations to, or enter into any agreements with, or act toward any student or other person in any manner that is not in conformity with established university policies, practices, and procedures as expressed in this or any other official university document.

ACADEMIC INTEGRITY POLICY

The following academic integrity policy was designed and approved by the Student Government Association and was also approved by the Faculty Senate.

Essential to the mission of Northeastern University is the commitment to the principles of intellectual integrity.

Academic integrity is important for two reasons. First, independent and original scholarship ensures that students derive the most from the educational experience and the pursuit of knowledge. Second, academic dishonesty violates the most fundamental values of an intellectual community and depreciates the achievements of the entire university.

Accordingly, Northeastern University views academic dishonesty as one of the most serious offenses that a student can commit while in college. Academic dishonesty includes cheating, fabrication, plagiarism, unauthorized collaboration, participation in academically dishonest activities, and facilitating academic dishonesty.

All members of the Northeastern University community—students, faculty, and staff—share the responsibility to bring forward known acts of apparent academic dishonesty. Any member of the academic community who witnesses an act of academic dishonesty should report it to the appropriate faculty member or to the director of the Office of Student Conduct and Conflict Resolution.

The charge will be investigated and if sufficient evidence is presented, the case will be referred to the Northeastern University Student Judicial Hearing Board.

Visit www.northeastern.edu/osccr for a full description of these policies and procedures.

Honor Code

The following honor code was designed and approved by the Student Government Association: On my honor, I pledge to uphold the values of honesty, integrity, and respect that are expected of me as a Northeastern student.

Code of Student Conduct

The Code of Student Conduct is online at www.northeastern.edu/osccr/code-of-student-conduct.

ACCOMMODATIONS FOR STUDENTS WITH DISABILITIES

Northeastern University and the Disability Resource Center (DRC) are committed to providing disability services that enable students who qualify under Section 504 of the Rehabilitation Act and the Americans with Disabilities Act Amendments Act (ADAAA) to participate fully in the activities of the university. To receive accommodations through the DRC, students must provide appropriate documentation that demonstrates a current substantially limiting disability. Accommodations are provided based on an evaluation of the information provided by students and their clinicians, on a case-by-case basis. Students should provide documentation to the DRC at their earliest convenience to allow sufficient time for review. After the documentation has been reviewed, a disability specialist will contact the student regarding appropriate next steps. For additional information on the DRC, visit their website at www.northeastern.edu/drc or contact staff at 617.373.2675.

ATTENDANCE REQUIREMENTS

The university expects students to meet attendance requirements in all courses to qualify for credit. Attendance requirements vary; it is the student's responsibility to ascertain what each instructor requires. Failure to meet attendance requirements may force a student to drop the applicable courses. Classes for day students are normally scheduled from 8:00 a.m. to 5:40 p.m., Monday through Friday. Students should not make conflicting commitments until the class schedules for each semester are final. Permission to make up work may be granted by instructors for reasonable cause. Requests

must be made immediately upon a student's return to class. Laboratory work can be made up only during the hours of regularly scheduled instruction.

Absence Because of University-Sponsored Activities

Participation in university-sponsored activities, where the students are representing their university, college, or department, may cause absences from class that qualify as excused absences. Excused absences, with appropriate prior arrangement, are not subject to penalty, and missed work may be satisfied through agreement between the student and the instructor. University-sponsored activities that may justify excused absences include athletic competition, performing arts events, and research or other presentations.

Students must discuss absence(s) with instructors at least two weeks in advance of the university-sponsored activity, or as soon as possible if the activity is at the beginning of the term or is the result of an unforeseen circumstance. Instructors may require a written statement from the administrator in charge of the activity. Instructors are expected to make reasonable accommodations for these class absences including administration of makeup assignments and exams whenever possible. It is expected that students seeking an excused absence will develop a plan and timetable to make up the missed course work with their instructor(s). Note, however, that the requirements of some courses or programs may preclude such accommodations.

Absence Because of Religious Beliefs

Any student who is unable, because of his/her religious beliefs, to attend classes or to participate in any examination, study, or work requirement should be provided with an opportunity to make up such examination, study, or work requirement that he/she may have missed because of such absence on any particular day; provided, however, that such make-up examination or work should not create an unreasonable burden upon such school. Students should make appropriate arrangements with the instructor in advance of the absence, preferably at least two weeks before the religious observance.

Absence Because of Jury Duty

Members of the university community are expected to fulfill their obligations to serve on a jury if called upon. A student selected for jury duty should inform his or her instructors. They will provide a reasonable substitute or compensatory opportunities for any required work missed. A student with such an absence will not be penalized in any way.

Absence Because of Military Deployment

The policy for military leave of absence is set forth on page 30.

Other Absences

Unforeseen events or circumstances, including illness, accident, catastrophic event such as fire, and bereavement, may cause a student to be absent from class. If such events occur, students should notify their academic advisor and instructors as soon as possible to apprise them of the circumstances leading to their absence, as well as how much time will be missed. Students should work with their instructors to develop a plan, with a timetable, to make up missed course work. Students may be asked to provide documentation that the class absence is warranted. Faculty and students should note that the University Health and Counseling Service does not provide sick notes or medical excuses except for long-term illness. One approach to documentation of short-term illness is that students themselves draft and sign absence notes to be provided to their instructors upon their return to class, with integrity in this process an expectation of the Northeastern Academic Integrity Policy. Instructors are expected to make reasonable accommodations for warranted class absences, including administration of makeup assignments and exams, whenever possible.

Extended Absences

A student who is absent from school for an extended period of time must inform his or her academic advisor by letter, email, or telephone. The expected length of the absence may determine whether the student should apply for a "Medical or Emergency Leave of Absence" (see page 30). It is strongly recommended that the student contact his or her academic advisor to discuss potential next steps, which could include incomplete grades; withdrawal from classes; or, in the event of an extended absence due to a chronic medical condition or disability, consultation with the Disability Resource Center to explore potential accommodation.

STUDENT EVALUATION OF COURSES (TRACE)

Students play a critical role in the university's commitment to quality teaching and academic excellence when they participate in the evaluation of courses through TRACE (Teacher Rating And Course Evaluation), a survey developed collaboratively by the Student Government Association and the Faculty Senate. TRACE data are important in the process of course design and improvement, as well as in the process of faculty evaluation. Students are expected to participate in TRACE with constructive feedback that is relevant to teaching and course content. TRACE results from previous terms can be found on the myNEU Web Portal (www.myneu.neu.edu).

REGISTRATION AND TAKING COURSES

Students are expected to register for classes during the published registration times in the academic calendar. Freshmen may be preregistered for some or all of the courses they need. Most

registration after the freshman year is accomplished through the myNEU Web Portal (www.myneu.neu.edu). Students must complete “I Am Here” registration just prior to the start of classes to remain enrolled. Class adds must be registered by the end of the seventh class day.

Course Numbering System

Every semester course number at Northeastern University consists of two parts:

- A two- or four-letter subject code
- A four-digit number

For example, in the course number ECON 1115, ECON is the subject code, and 1115 is the four-digit number.

The four-digit number indicates the level of the course as indicated below.

UNDERGRADUATE

0001–0999	Orientation and basic No degree credit
1000–1999	Introductory level (first year) Survey, foundation, and introductory courses, normally with no prerequisites and designed primarily for students with no prior background
2000–2999	Intermediate level (sophomore/junior year) Normally designed for sophomores and above, but in some cases open to freshman majors in the department
3000–3999	Upper intermediate level (junior year) Designed primarily as courses for juniors; prerequisites are normally required, and these courses are prerequisites for advanced courses
4000–4999	Advanced level (senior year) Designed primarily for juniors and seniors; also includes specialized courses such as research, capstone, and thesis

GRADUATE

0001–0999	Orientation and basic No degree credit
5000–5999	First-level graduate Courses primarily for graduate students and qualified undergraduate students with permission
6000–6999	Second-level graduate Generally for master’s and clinical doctorate only
7000–7999	Third-level graduate Master’s- and doctoral-level courses; includes master’s thesis
8000–8999	Clinical/research/readings Includes comprehensive exam preparation
9000–9999	Doctoral research and dissertation

Class Schedule

All classes start promptly according to the class schedule shown. Most classes at Northeastern are scheduled in the time periods listed.

Students are expected to be punctual. Students who are late for classes should attend for the balance of the class period. Instructors will not tolerate habitual tardiness.

Students may leave fifteen minutes past the scheduled opening of class if the instructor is not present. In such cases, students should notify the department in which the course is offered that the instructor was not present.

Any change of regularly scheduled classes or examinations must have the unanimous consent of the students involved unless other mutually acceptable arrangements for students to attend the alternative class or examination are worked out between the faculty member and the student(s) involved.

During the terms when they are teaching, faculty members are expected to provide sufficient conference time to meet the instructional and advising needs of their students.

Course Syllabus

Faculty members are expected to distribute a syllabus at the start of each course. The syllabus should also be placed on the course Blackboard site. The syllabus should include a schedule of topics, exam and assignment due dates, information on how to contact the faculty member, process for conference time, grading and attendance policies, and a reminder of the university's academic integrity policy.

Course Prerequisites

Students are expected to meet prerequisites as listed in the course description of each course in which they enroll. Grades of F, U, I, or W in prerequisite courses do not normally fulfill requirements. Exceptions must be authorized by the instructor teaching the course.

Overload Policy

An overload occurs when a student is enrolled in more courses than prescribed by the program's curriculum. To register for an overload, students are advised to consult their academic advisor. Students who enroll in overload courses will be billed at the per-credit-hour rate, 1/16 of the full-semester tuition for that semester per semester hour. Undergraduate full-time day students may register for an additional music ensemble course from the list of courses on page 12 without added charge as long as they are registered for a full course load.

Reduced Load Policies

Undergraduate full-time student adjustments for reduced loads are made only when the Undergraduate Petition to Reduce Load is approved by the academic advisor and by the Office of the Registrar. Adjustments will then be made if the course load falls below 12 semester hours during full semesters and 6 semester hours during summer half semesters (calculated at the per-credit-hour rate). To receive an adjustment, the Undergraduate Petition to Reduce Load must be submitted prior to the start of the term.

No rebate or credit is granted when a student voluntarily drops a course. A reduced load may impact the student's housing, financial aid, visa status, and health insurance. Students should consult applicable departments before committing to a reduced load. Students who take a reduced load will be billed at the per-

credit-hour rate, 1/16 of the full-semester tuition for that semester per semester hour.

International students must speak with an advisor at the International Student and Scholar Institute (ISSI) prior to dropping a course. Permission to drop below full-time status is restricted according to federal regulations.

Audit Policy

Full-time Northeastern students (16 credits at the undergraduate level and 8 credits at the graduate level, before the audit registration) may audit one class per term as an overload with no additional charge. Students are permitted to register from the end of the course-add period to the end of the third week of classes. Registration is based on the availability of a seat in the class. Students must obtain advisor approval and meet the prerequisites and any other required approvals for the class. Instructor permission as well as approval by the associate dean of the college offering the course is required. The course work required is at the discretion of the instructor. Once a student opts to audit a course, the audit status of the course cannot be changed. First-year students may not audit classes. A signed Petition to Audit (www.northeastern.edu/registrar/form-petition-to-audit.pdf) must be presented to the Office of the Registrar during the designated audit-add period. Excluded courses are co-op, labs, language courses, any off-campus course, any online course, and any course required for the major or degree. Audits carry no academic credit.

Taking a Course while on Co-op or on Summer Vacation

Students who wish to take a course while on co-op or on summer vacation must complete an appropriate form in their college academic student services office before the term begins. Students on co-op should complete the petition registration form, and students on summer vacation should complete the summer-only petition registration form. Students who do not file the appropriate form will be dropped from their preregistered courses. Students who take a course while on co-op will be billed the overload tuition rate. Students who take a course while on summer vacation will be billed at the underload tuition rate. (See "Overload Policy" and "Reduced Load Policies" above.)

Transfer Credits for Current Students

Once they matriculate, students are expected to complete all course work for their degree at Northeastern, or an entity in a formal contractual, consortial, or partnership relationship with Northeastern, or at an approved study-abroad program. In some cases, in order to clear a deficiency, to permit students access to courses deemed by their respective advisors and colleges to be important for their education but unavailable to them at Northeastern, or to remain on track for graduation, a student may petition their college for permission to take a course at another accredited institution.

With the approval of the college academic advisor and the graduate school offering the courses, students may take courses in Northeastern's graduate schools.

Students who wish to take courses at another institution and transfer the credit to Northeastern must obtain *prior* approval from the college academic advisor. The Office of the Registrar validates accredited institutions to ensure credit transferability. The student must earn a C (2.000) or better for a course to be considered for transfer. Students are responsible for providing documentation on the institution's accreditation, course grading, and course descriptions prior to approval.

Special Students

Students who are not enrolled at Northeastern University may petition the college academic student services office to take courses on a semester-by-semester basis. Approval is based on the student's academic qualifications and on the availability of class space. If the college academic student services office approves the course enrollment, the student pays the bill and then returns the completed forms to the Office of the Registrar.

Dropping Courses

Not attending class does not constitute withdrawal. Students receiving a grade of W or NE in any course are responsible for the costs associated with that course. Students must drop courses using processes described below:

IN FALL AND SPRING SEMESTERS

- Through the third week of the semester, students may withdraw without any grade being posted to the transcript. Courses may be dropped via the myNEU Web Portal (www.myneu.neu.edu).
- Between the fourth week and the last day of classes, course withdrawals are indicated by a W on the student's record. Courses may be dropped via the myNEU Web Portal (www.myneu.neu.edu). No financial adjustment is made for courses receiving a W grade.
- After the last day of classes, no withdrawals are accepted for any reason. A letter grade for the course will be posted on the transcript.
- Dropping below full-time enrollment (12 semester hours for fall and spring semesters) may affect financial aid, health insurance eligibility, and the maintenance of proper nonimmigrant visa status.

IN SUMMER HALF SEMESTERS

- Through the second week of the half semester, students may withdraw without any grade being posted to the transcript. Courses may be dropped via the myNEU Web Portal (www.myneu.neu.edu).
- Between the third week and the last day of classes, course withdrawals are indicated by a W on the student's record. Courses may be dropped via the myNEU Web Portal (www.myneu.neu.edu). No financial adjustment is made for courses receiving a W grade.

- After the last day of classes, no withdrawals are accepted for any reason. A letter grade for the course will be posted on the transcript.
- Dropping below full-time enrollment (8 semester hours for summer half semesters) may affect financial aid.

Late Admission to a Course

Students may petition to register for a course after the normal "class add" period, seven class days. Permission may be granted if seats are available and at the discretion of the instructor. If students are not already registered for a full course load, late admissions may jeopardize full-time status.

The Undergraduate Day Late Course Registration Form is available online at www.northeastern.edu/registrar/form-ugd-late-reg.pdf.

FINAL EXAMINATIONS AND RELATED POLICIES ON OTHER EXAMS AND FINAL TERM PAPERS/PROJECTS

- Final examinations are normally two hours in length and must be held when and where scheduled. Final exams are held during a designated final exam period at the end of the semester. An examination schedule is posted at the beginning of each semester at www.northeastern.edu/registrar/finexsched.html.
- Students are responsible for knowing the time and location of their examinations. Final exam schedules are available to students online via the myNEU Web Portal (www.myneu.neu.edu) under My Schedule in the Self-Service tab approximately the fourth week of the term.
- Students who have two examinations scheduled at the same time or three exams on the same day may complete and submit the "Final Exam Conflict Form" by the posted deadline. Forms are available at www.northeastern.edu/registrar/form-finex-conflict.pdf.
- Instructors may not give more than thirty total minutes of examinations during the eight calendar days prior to the start of the final exam period.
- Students who have concerns about exams scheduled during the eight calendar days prior to the start of the final exam period, rescheduling of final examinations, or conduct during an examination should report their concerns to their college academic student services office.
- All final examinations, term papers, or projects must be returned to the student or be retained by the department for a period of one year.

COURSE CREDIT GUIDELINES

Course credit hours (semester hours) are assigned to a course based on the established national educational standard that one credit hour is equal to approximately three hours of student learning time per week over a period of a semester. The Office of the Registrar, 271 Huntington Avenue, maintains the official record for all courses. In the event of error in any publication, the academic record will reflect the correct semester-hours applicable to any degree requirement.

On occasion, course titles change, while the course number remains the same. Despite such title changes, the course is still considered to be the same course. Students who have taken the course under the old title and then take the course again under the new title are considered to have repeated the course.

GRADING SYSTEM

Grades are officially recorded by letters, evaluated as follows.

Letter Grade	Numerical Equivalent	Explanation
A	4.000	Outstanding achievement
A–	3.667	
B+	3.333	
B	3.000	Good achievement
B–	2.667	
C+	2.333	
C	2.000	Satisfactory achievement
C–	1.667	
D+	1.333	
D	1.000	Poor achievement
D–	0.667	
F	0.000	Failure
I		Incomplete
IP		In progress
NE		Not enrolled
NG		Grade not reported by faculty
S		Satisfactory (pass/fail basis; counts toward total degree requirements)
U		Unsatisfactory (pass/fail basis)
X		Incomplete (pass/fail basis)
L		Audit (no credit given)
T		Transfer
W		Course withdrawal

An I, IP, or X grade shows that the student has not completed the course requirements.

The IP grade is intended for courses that extend over several semesters. The time restrictions on the incomplete grade do not apply to the IP grade. While the IP grade is left unchanged, it is not included in computing the grade-point average. If the IP grade is never changed, the course does not count toward graduation requirements.

Pass/Fail System

The individual schools and colleges state how and when the pass/fail system may be used. An outline of the general system follows.

- Any student not on academic probation may register for one pass/fail course per semester if permission is granted by the college in which the student is enrolled and if the course is offered on a pass/fail basis.
- Pass/fail courses are normally restricted to electives outside the major, minor, or NU Core requirements. The college faculty, however, may choose to adopt the pass/fail system of grading when it appears pedagogically sound for required courses within a major or minor.
- Before requesting a pass/fail grade from an instructor, students should meet with their academic advisor to determine whether doing so will disqualify the course from satisfying a program requirement or elective. In general, courses taken on a pass/fail basis can be used only to satisfy open electives.
- Individual faculty members may decide whether any of their courses may be taken on the pass/fail system of grading, except when uniformity is necessary. In such cases, the department and/or college faculty offering the course determine whether the pass/fail system is used.
- Grades recorded on the basis of the pass/fail system do not figure in the computation of the grade-point average. Satisfactory completion of all courses taken on the pass/fail system is designated on the student's permanent record by the letter S. Unsatisfactory work is designated by the letter U. Any unsatisfactory grade must be handled according to the existing policy of the college but must never be cleared through the election of the same course pass/fail, except when this system is the only one used by the college for grading the course.
- To use the pass/fail system, students must meet all prerequisites for the course and declare by the end of the second week of the semester their intention to receive a pass/fail grade. This deadline may be extended to the end of the eighth week of a full semester or the end of the fifth week of summer half semester at the option of the instructor.
- Students must submit a Petition to Elect Pass/Fail Grade, (www.northeastern.edu/registrar/form-passfail.pdf) signed by the faculty member.

Clearing an Incomplete or Changing Other Grades

An incomplete grade may be reported by the instructor when a student has failed to complete a major component of a required course, such as homework, a quiz or final examination, a term paper, or a laboratory project. Students may make up an incomplete grade by satisfying the requirements of the instructor or, if the instructor is absent, the chair of the department. Be aware that instructors' policies on the granting of incomplete grades may vary, and that the final decision on an incomplete grade is up to the instructor. The period for clearing an incomplete grade and for changing a grade other than an incomplete or failure (F or U) is

restricted to one calendar year from the date it is first recorded on the student's permanent record.

Freshmen with multiple course deficiencies, including incomplete grades, may be required by their college academic advisor to rectify the deficiencies within a period of time less than the normal year.

To clear an incomplete grade, a student must obtain an Incomplete-Grade Contract (www.northeastern.edu/registrar/form-inc-grade.pdf) on which the precise agreement for clearing an incomplete grade is specified and which is signed by the student and the instructor. The student must make an appointment with the instructor to arrange for clearing the incomplete grade. He or she must then complete the form, sign the agreement, and obtain the instructor's signature; leave a copy with the instructor, take one copy to the college academic student services office, and retain a copy as a personal receipt. Any exception to this policy on change of grades must be recommended by the Academic Standing Committee (ASC) of the college in which the course was offered and must be forwarded in writing by the ASC to the registrar for implementation. (Finishing the agreed-upon course work must be completed within one calendar year from the end of the semester in which the course was offered.)

Commencing with grades given in the fall quarter of 1986, the university policy is that any grade outstanding for twelve or more months cannot be changed.

Any exception to this policy on change of grades must be recommended by the ASC of the college in which the course was offered and must be forwarded in writing by the dean to the Office of the Registrar for implementation.

Repeating Courses

When the appropriate course is available, students may repeat a course to earn a better grade. In all cases, the most recent grade earned in a course is the one used in calculating the overall grade-point average; however, previous grades remain on the transcript followed by the word "Repeat." Consult your academic advisor before repeating a course. Students are required to pay normal tuition for all repeated course work.

Substituting Courses

In some cases, it may not be possible to repeat a course if a student wishes to do so. In unusual circumstances, students may petition to substitute one course for another they have already taken, as long as the subject matter of both courses is substantially alike. With the approval of the student's academic advisor and the agreement of the department that offered the first course taken, a grade received in the new course will be labeled "Substitute" on the transcript and will be treated in the grade-point average calculation as a "repeat" grade, as described above. The original grade will remain on the student's Northeastern transcript. Students should consult with their academic advisor before enrolling in any proposed substitute course. Students are required to pay normal tuition charges for all substitute course work.

Clearing an Academic Deficiency

An academic deficiency occurs when a student fails to complete a course with a satisfactory grade. The deficiency may occur because the student has failed the course or because the student has passed the course but with a grade that does not meet the minimum required by the student's program.

Students who have academic deficiencies may be required to clear them before progressing within the curriculum, especially if a given course is a prerequisite for future course work. Deficiencies may affect the student's expected year of graduation.

With the approval of the appropriate program faculty and/or academic advisor, students can clear deficiencies in the following ways:

1. Repeat the same course at one of Northeastern's colleges, which will result in a "repeat" grade (see "Repeating Courses" policy above).
2. Substitute a comparable course at one of Northeastern's colleges, which will result in a "repeat" grade (see "Substituting Courses" policy above).
3. Under special circumstances, a student may be advised to take a preapproved course at Northeastern's College of Professional Studies or at another institution outside Northeastern University. The original grade will remain on the student's Northeastern transcript and will still be used in the calculation of the grade-point average.

Appeal of Final Grades

Under certain circumstances, students have the right to appeal final grades given by either academic faculty or cooperative education coordinators. Criteria and procedures for such appeals can be found in the *Undergraduate Student Handbook*.

Grade-Point Average (GPA)

Numerical equivalents for scholastic averages are weighted according to the number of hours the course carries. For example, suppose a student receives a grade of B in a course carrying 4 semester hours and a grade of A in a course carrying 1 semester hour. The weightings for these example courses are as follows:

Grade	Numerical Equivalent	Semester Hours	Weight
B	3.000	4	12
A	4.000	<u>1</u>	<u>4</u>
Totals:		5	16

The GPA for both courses would then be the total weight (16) divided by the total semester hours (5), or 3.200. Grades of I, IP, S, U, and X are not included in the calculation of the grade-point average. See page 22 for a complete list of grades and numerical equivalents.

Grade Reports

Grades are available to students approximately three days after the end of each semester via the myNEU Web Portal (www.myneu.neu.edu). A missing grade means that none was received from the instructor. Grades received late from faculty are processed as they are received.

Transcripts

Currently enrolled students may obtain unofficial transcripts from the myNEU Web Portal (www.myneu.neu.edu) and may also order official transcripts through myNEU. For further information on transcript requests, visit www.northeastern.edu/registrar/trans_request.html. All questions concerning transcript requests should be directed to 617.373.2199, TTY 617.373.5360.

ACADEMIC HONORS

Dean's List

A dean's list, or honors list, is issued at the end of each fall and spring semester. Effective fall 2010, the requirements to be on the dean's list are a 3.500 grade-point average or higher with no incomplete grade or grade below C-. Students who are on any form of probation, who are enrolled in a course on a pass/fail basis (except where there is no alternative or where required by the program), or who are not carrying a full load as determined by their undergraduate college are not eligible. With a few exceptions as approved by the respective colleges, a full load for fall and spring semesters is considered to be a minimum of four courses or 16 semester hours.

Graduation with Honors

Graduation with honors and selection as the class marshal are reserved for undergraduates who have completed 60 semester hours in residence and meet the following GPA requirements to graduate with honors:

Grade-point average	Honor conferred
3.500–3.699	Graduate with honor (<i>cum laude</i>)
3.700–3.849	Graduate with high honor (<i>magna cum laude</i>)
3.850–4.000	Graduate with highest honor (<i>summa cum laude</i>)

Note: The university reserves the right to change these standards.

University Honors Program Distinction

University Honors Program Distinction is earned by those students who have completed six honors courses, including an Honors Interdisciplinary Seminar, and who have maintained a cumulative grade-point average of 3.500. The honors course requirement is adjusted for students who join the University Honors Program as second-semester first-year students (five honors courses) or as

rising sophomores (four honors courses). Entering first-year students are invited to join based on a combination of their high school academic preparation, SAT/ACT scores, and leadership/civic engagement record. See the program's website at www.northeastern.edu/honors for information about the guidelines on how continuing students may join.

Honors in the Discipline

Honors in the Discipline is earned by those students who successfully complete college-defined requirements, generally culminating in a Junior/Senior Honors Thesis or a Junior/Senior Honors Project. This distinction will appear on the transcript (for example, "Honors in Music" or "Honors in Chemistry"). Detailed information about Honors in the Discipline is provided at www.northeastern.edu/honors/academics/honors-in-the-discipline and under each college's website.

ACADEMIC PROGRESSION STANDARDS

Faculty Advisor Communication Tool (FACT)

FACT warns students and their advisors of difficulty in courses. This warning is important for students' success, especially for students with a cluster of academic problems. Faculty members are expected to submit warnings by the fifth week of the semester, early enough for correction of the performance or for withdrawal from the course, if appropriate. FACT warnings and/or progress reports for student-athletes are necessary for NCAA compliance.

Academic Status

Academic progress of all students is reviewed by academic advisors at the end of each semester. Students are notified soon after final grades are posted if there are concerns about academic progress in any or all of the following areas: (1) overall GPA; (2) semester hours successfully completed; and (3) failing or near-failing grades in courses that are required for progress in the major.

Students at Northeastern maintain good academic standing when they meet the following criteria: (1) have an overall GPA of 1.800 at the end of each semester of their freshman year and a minimum cumulative GPA of 2.000 at the end of each semester thereafter and (2) earn at least 12 semester hours in the semester just completed. Individual colleges may have additional requirements that are specified in each college section that follows.

In addition, many programs require that specific courses be successfully completed to progress to the next year. Students who do not make satisfactory progress will not graduate with their class and may be withdrawn. For more information about additional academic progression standards for each college, program, or major, refer to the curriculum guidelines that can be found in the college sections of this catalog. For financial aid implications, see "College Expenses" beginning on page 11.

Academic Probation

Full-time students who fail to meet the criteria for good standing described above will be placed on academic probation effective for the following semester. The action will appear on the internal record, but not on the transcript.

Academic Dismissal

Students who remain on probation after two full-term academic semesters may be dismissed from the university. This action may appear on the transcript at the end of the second probationary semester. In addition, students who have below a 1.000 GPA or fewer than 4 earned semester hours in any semester following their first semester or cumulatively may be dismissed at the discretion of their college. Students may appeal this decision to the Academic Standing Committee of their college (see following section). International students should consult with an advisor in the International Student and Scholar Institute (ISSI) to discuss the impact of an academic dismissal as it relates to nonimmigrant visa status.

Academic Standing Appeals

Students may appeal academic standing status if they can provide evidence and/or reasons supporting an appeal. Generally, a student on probation may be granted no more than one additional full-term academic semester to meet the criteria for good academic standing. Students may appeal to the Academic Standing Committee of their college to review probation and dismissal cases.

Academic Eligibility for Participating in Student Organizations and Athletics

All students must have a minimum 2.000 overall grade-point average to be eligible for an elected or appointed leadership position in any student organization. Athletes must adhere to NCAA standards.

Repeating Courses to Clear Deficiencies

See “Repeating Courses” and “Clearing an Academic Deficiency” on page 23.

Definition of Freshman, Sophomore, Junior, and Senior

For undergraduate day students, freshman, sophomore, junior, and senior standing are determined by earned semester hours:

Freshman:	Less than 32 semester hours
Sophomore:	At least 32 but less than 64 semester hours
Junior:	At least 64 but less than 96 semester hours
Senior:	At least 96 semester hours

GRADUATION REQUIREMENTS

To be eligible to receive degrees, graduating seniors must meet all academic and residency requirements. They must also clear all financial, experiential education, and disciplinary deficiencies.

University-wide academic degree requirements are:

- Minimum of 128 semester hours to graduate with bachelor’s degree. Some programs have higher semester-hour requirements.
- An overall GPA of 2.000.
- Satisfaction of the NU Core requirements.

In addition, each program of study has specific academic requirements. These are specified for each program under the various schools and colleges in this catalog.

Once they matriculate, students are expected to complete all course work for their degree at Northeastern, or an entity in a formal contractual, consortial, or partnership relationship with Northeastern, or at an approved Northeastern University study-abroad program. In some cases, in order to clear a deficiency, to permit students access to courses deemed by their respective advisors and colleges to be important for their educations but unavailable to them at Northeastern, or to remain on track for graduation, a student may petition their college for permission to take a course at another accredited institution. See also “Residency Requirement,” below.

Prior to completion of their program, students are expected to complete a graduation degree audit at their college’s academic student services office.

Note: Participation in study abroad in a student’s final semester may result in a delay in graduation due to calendar discrepancies across institutions.

Residency Requirement

In addition to meeting all degree and major requirements, students must earn a minimum of 64 Northeastern University semester hours to receive a bachelor’s degree. Established exchange programs, where students are earning two degrees, one from Northeastern University and one from another institution, require students to earn a minimum number of Northeastern University semester hours as specified by the exchange program. Specialized programs for students with preexisting credentials have specific residency requirements.

Commencement

Attendance at Commencement is optional. Information concerning Commencement is provided to all graduating seniors during the spring semester. Seniors who have been removed from the graduation list are notified if they fail to qualify for their degrees. No special notice is sent to students who do qualify.

DEGREES, MAJORS, AND MINORS

Declaring Majors and Minors

Undergraduate students may declare their majors upon admission to the university or may elect to join programs for undeclared students before declaring a major. Students must declare a major no later than the end of the sophomore year. Majors and concentrations are described under the various schools and colleges in this catalog; also see the “Directory of Academic Programs” at the beginning of the catalog.

Students should submit a petition form to earn a minor as early as possible and, generally, no later than the end of the junior year, by applying to the department offering the minor. Completion of the requirements of a major, minor, or concentration is noted on the transcript.

Changing Majors

Undergraduate students enrolled full-time in one or more of the university’s undergraduate schools or colleges may change their major if they meet one of the following transfer criteria:

- The student meets the criteria for immediate entry as defined by the receiving major.
- The student has a cumulative grade-point average (GPA) of 2.000 or greater and satisfactorily completes the transition criteria as defined by the receiving major. For GPA below 2.000, change of major is at the discretion of the receiving major.

Students who are considering a major change must discuss their change in person with an advisor in the receiving major. A list of advising offices is provided at www.northeastern.edu/registrar/changemajor-offices.html. The advisor will certify that the student meets the criteria for immediate entry to the major or will set up a transition term for the student to satisfy the change-of-major criteria. Advisors will discuss the student’s ability to succeed in the desired program given the current academic record as well as the influence of changing major on the student’s ability to obtain a degree in the desired program within the traditional eight-academic-term time frame.

Transition criteria are designed to help ensure that students who change major have a reasonable chance of academic success and program completion. A list of school and college transition criteria is maintained at www.northeastern.edu/registrar/changemajor-criteria.html. Students wishing to join some majors must also audition or submit a portfolio, as indicated on the aforementioned web page. Note also that some colleges have deadlines for applications to change major, also indicated on the aforementioned web page.

International students must inform the International Student and Scholar Institute (ISSI) of any change of major.

Programs for Undeclared Students

The central University Program for Undeclared Students provides support and guidance to first-year students who have not yet decided upon or officially declared a major. All students must declare a major no later than the end of the sophomore year. Undeclared students are strongly encouraged to declare a major by the beginning of their sophomore year if they are interested in highly structured programs or in maximizing their number of co-op placements within such a major. Admission to a particular major is dependent on the transfer criteria described above.

The D’Amore-McKim School of Business, the College of Engineering, and the College of Computer and Information Science also each provide resources to facilitate a major choice for students who enter their respective colleges with undeclared majors.

Double Major

Students may earn a double major by completing all requirements for two majors. Some courses may be used to satisfy both majors. However, at least sixteen distinct courses may not be double-counted (i.e., used to satisfy both majors). Students completing a double major receive one degree and one diploma. The two majors appear on the transcript. If the two majors are in different colleges, the degree is associated with the major in the home college. At the time a second major is declared, the student and advisor(s) will designate the home college in which he or she will be registered and from which he or she will be graduated. When the two components of the double major individually offer different degree designations, the student and advisor(s) will determine which degree designation will appear on the transcript and diploma.

Second Northeastern University Bachelor’s Degree

To earn a second bachelor’s degree from Northeastern University, a student must complete all the requirements for the degree and must complete 30 semester hours beyond the semester-hour requirement for the first bachelor’s degree. In order to be eligible for the second bachelor’s degree, the student must apply for admission to the second degree program, preferably by the end of the junior year. If the student is granted admission to the second program, then upon completion of all requirements for the first program and the award of the first degree, the student’s status will be changed to the second program. A second diploma will be awarded and the second degree will be noted on the transcript. International students must consult with an advisor at the ISSI to request updated documentation reflecting engagement in the second bachelor’s degree program.

Combined and Independent Majors

Students with academic interests not available in the context of existing majors, minors, and double majors may propose a combined or independent major. In these majors, students pursue in-depth study in areas that are supported and approved by the appropriate Northeastern faculty members.

COMBINED MAJORS

Combined majors include at least nine courses associated with each of two participating disciplines. There must be at least one course that acts as a bridge between the disciplines. No more than two courses may count for both disciplines, i.e., there must be at least sixteen courses in the combined major. The combined major should be declared by the end of the first semester of the junior year. It is generally advantageous to declare the combined major as early as possible, especially when highly structured disciplinary components are involved. There are three categories of combined majors:

1. A number of defined combined majors currently exist, where the curriculum is specific to each individual program; to see a list of current combined major program options, visit www.northeastern.edu/registrar/major-2.html.
2. A number of disciplines have preapproved template programs that may be paired in a variety of combinations to yield combined majors; to see a list of current preapproved template programs, visit www.northeastern.edu/registrar/major-2.html.
3. Disciplines will consider combined programs upon student request.

Currently Defined Combined Major

Students may request admission to a currently defined combined major by following the standard procedure for changing majors. A home college is designated, in which the student will be registered and from which he or she will be graduated. Students completing a combined major receive one degree and one diploma. The combined major and home college will appear on the transcript and diploma.

Student-Requested Combined Major

Students may request admission to a new combined major via the Combined Major Approval Form (www.northeastern.edu/registrar/form-maj-comb.pdf) that requires approval by both disciplines/colleges together with an approved curriculum. The request may be for a combined major comprised of preapproved template programs or for a new combined major to be considered by the participating disciplines. During the planning process, advisors from both disciplines will be designated, and one will be identified as the primary advisor. If the two disciplines partnering in the combined major are in different colleges, a home college will be designated, in which the student will be registered and from which he or she will be graduated. A meeting of the student and both advisors representing the two disciplines must be held to plan the combined major curriculum and to consider NU Core requirements. A list of discipline advisors and college contacts for new student-requested combined majors can be found at www.northeastern.edu/registrar/contacts-stu-req-combined.html.

Students completing a combined major receive one degree and one diploma. The combined major and home college will

appear on the transcript and diploma. When the two components of the combined major individually offer different degree designations, the degree designation that will appear on the transcript and diploma will be designated during the approval process.

INDEPENDENT MAJORS

In the rare cases when students have academic interests that fall within the expertise of Northeastern faculty members and that are not available in the large number of existing majors, minors, and combined majors, they may propose an independent major. Independent majors form an integrated program focusing on some issue, theme, or subject area not available within the context of existing curricula. These programs should be equivalent in depth and coherence to existing majors. A substantial project that integrates the curriculum pursued is required for the independent major. No student with less than a 3.250 grade-point average will be approved for an independent major. The proposal must be approved by the end of the first semester of the junior year. Proposals will not be considered before the end of the freshman year. For initial information and advice, interested students should consult the associate dean overseeing undergraduate studies in their current home college or the college most relevant to the proposed course of study.

The student assumes the initiative in formulating an independent major. High degrees of student initiative and self-reliance are also necessary for completion of this type of major. The student is responsible for securing the advice and approval of faculty mentors, at least one from each of the disciplines. These faculty mentors will help the student design the curriculum and will approve the required integrative project. The faculty mentors will guide the student's academic progress through the major. The student should select one of the faculty mentors as the primary mentor.

If the disciplines partnering in the independent major are in different colleges, the college of the primary mentor will be designated as the home college, in which the student will be registered and from which he or she will be graduated. Students completing an independent major receive one degree and one diploma. The independent major and home college will appear on the transcript and diploma. When the components of the independent major individually offer different degree designations, the degree designation that will appear on the transcript and diploma will be designated during the approval process.

The student, with the assistance of the faculty mentors, must formulate in writing and submit to the home college curriculum committee an Independent Major Approval Form (www.northeastern.edu/registrar/form-maj-ind.pdf) bearing the signatures of all faculty mentors and a proposal containing the following items:

- A statement of the central concept around which the independent major is organized and a rationale for the major, including a discussion of why existing programs are inadequate to the student's purpose and how the proposed major meets the student's educational, professional, or personal goals

- A list of courses, including names, numbers, prerequisites and frequency of offering (if known), and a breakdown of the introductory, intermediate, and advanced courses included in this list
- A statement of the manner in which the NU Core requirements are fulfilled (and, if applicable, BA Core requirements)
- A list of courses (including numbers, names, and grades) already taken that will apply to the major or to the NU Core (and BA Core, if applicable) requirements
- A statement of how the requirement for a substantial integrative project is to be fulfilled
- A student transcript
- A calendar for completion of the degree

A meeting of all faculty mentors and the student must be held before college approval of the major program. In accepting the proposal, the home college dean's office certifies that the rules established for the independent major have been followed, and it assumes administrative responsibility by assigning an academic advisor to monitor the student's progress and clear the student for graduation. Any changes in the curriculum must be approved by the primary faculty mentor, and the home college advisor must be informed.

PlusOne Bachelor's/Master's Programs

Northeastern University offers a number of PlusOne Bachelor's/Master's degree programs that allow students to accelerate the completion of the bachelor's degree by applying graduate credits taken as an undergraduate toward both the undergraduate and graduate degrees. Generally, both degrees may be earned in one more year than is the normal time allotted for completion of the bachelor's degree. Additional information on PlusOne Bachelor's/Master's programs is available at www.northeastern.edu/plusone.

Northeastern University School of Law also admits students from a small number of programs in the College of Social Sciences and Humanities to a 3+3 program that allows students to count their first year of law school toward their undergraduate degree.

Minors

Minors offer an opportunity for students to complement their major with intensive study in another area. A minor consists of a minimum of four courses defined by a department or an interdisciplinary program. In some cases, background courses are also required. Unless otherwise indicated, minors are generally open to all university students. Minors appear on the transcript only after completion of requirements has been certified and the degree has been awarded.

PERSONAL INFORMATION

Change of Name

Report all name changes to the Office of the Registrar immediately. This is especially important when students marry and wish to use a new name on university records.

Change of Address

Report all address changes via the myNEU Web Portal (www.myneu.neu.edu) or in person at the Office of the Registrar or Office of Student Accounts. Both the permanent home address and the local address are required. International students must report any changes of address within ten days in order to ensure compliance with SEVIS requirements.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)

FERPA for Students—General Information

FERPA is a federal law that applies to educational institutions. Under FERPA, schools must allow students who are 18 years or over or attending a postsecondary institution:

- Access to their education records
- An opportunity to seek to have the records amended (see the Student Handbook for this procedure)
- Some control over the disclosure of information from the records

FERPA General Guidance for Parental Disclosure

When a student turns eighteen years of age or attends a postsecondary institution, the student, and not the parent, may access, seek to amend, and consent to disclosures of his or her education records.

If you are an undergraduate day student and you choose not to share information with your parents, Northeastern will, if asked, indicate that you have restricted access to your records.

Release of Directory Information

The primary purpose of directory information is to allow Northeastern University to confirm attendance for employers, health insurance companies, and loan agencies. Northeastern may disclose appropriately designated "directory information" without written consent, unless you have advised the university to the contrary in accordance with the procedures below. If you choose not to release directory information, all communications with all third parties and agencies will need to be done through your written request to the university or in person.

Northeastern Directory Information:

- College and major
- Dean's List or other recognition lists
- Graduation degree(s) and honors
- Dates of attendance
- Sports activity participation, such as for soccer, showing weight and height of team members
- A playbill, showing your role in a drama or music production

If Northeastern currently has permission to release data and you do not want the university to disclose directory information without your prior written consent, you must notify the university via the Office of the Registrar, 271 Huntington Avenue.

Notification of Rights under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records.

These rights are:

1. The right to inspect and review the student's education records within forty-five days of the day the university receives a request for access. Students should submit to the registrar, dean, or head of the academic department (or appropriate official) written requests that identify the record(s) they wish to inspect. The university official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the university official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
2. The right to request the amendment of the student's education record that the student believes is inaccurate or misleading. Students may ask the university to amend a record that they believe is inaccurate or misleading. They should write the university official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the university decides not to amend the record as requested by the student, the university will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interest. A school official is defined as a person employed by the university in an administrative, supervisory, academic, or support staff position (including law enforcement unit and health staff); a person or company with whom the university has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a person assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the university to comply with the requirements of FERPA. At Northeastern, the Office of the University Registrar, 271 Huntington Avenue, administers FERPA.
5. Information concerning the following items about individual students is public and the offices listed below have the most accurate and up-to-date information:
 - **Office of the Registrar**
(271 Huntington Avenue)
Full name, major field of study, dates of attendance, class year, degrees and awards received, most recent previous educational institution attended
 - **Department of Athletics**
(219 Cabot Physical Education Center)
Participation in formally recognized university athletics, weight and height of members of athletic teams
 - **Campus Activities**
(434 Curry Student Center)
Participation in officially recognized university activities and student organizations

FERPA and the USA Patriot Act

The USA Patriot Act preempts FERPA, described above. The act provides federal law enforcement agencies access to otherwise confidential student records upon the presentation of specified authority. The act also says that the university cannot notify the individual whose records or information is being sought that the request has been made. All requests for student information made under the authority of the USA Patriot Act are handled by the Office of University Counsel, 115 Churchill Hall.

STUDENT RIGHT-TO-KNOW ACT

For information about the Student Right-to-Know Act, visit www.northeastern.edu/registrar/right-to-know.html.

LEAVES OF ABSENCE AND UNIVERSITY WITHDRAWAL

General Policy

Students who wish to take a leave of absence are encouraged to apply for the leave by submitting a petition through the myNEU Web Portal (www.myneu.neu.edu) one month prior to the start of the effective semester. The usual limit for a leave of absence is for one or one-and-a-half academic semesters (a semester plus a half semester). A leave of absence (general, medical, or emergency), if approved, will take into account the following conditions:

- Students who do not return at the end of the leave will be withdrawn and must submit a petition for subsequent readmission to the program.
- Students must return to classes, not co-op.
- Students must be currently enrolled in academic courses or co-op. If a student is withdrawn for any reason, a request for a leave of absence cannot be considered until the withdrawal is resolved.
- Students who receive financial aid should meet with a financial aid counselor before going on a leave.
- Students in university housing should refer to the Department of Housing and Residential Life for policy information.
- Students' enrollment status cannot include more than one academic year of consecutive nonclass enrollments.

International students must make an appointment with the International Student and Scholar Institute (ISSI) to discuss leave of absence procedures in accordance with federal regulations.

Students returning from an approved leave of absence must submit a notification of intent to return to their college academic student services office no later than one month prior to the start of the semester in which they intend to return. Students are required to preregister for courses upon returning from a leave of absence.

Medical or Emergency Leave of Absence

Medical leave is an option available to those Northeastern students who develop a major medical condition that precludes class attendance, completion of requirements, and/or co-op. Medical leave petitions must be initiated at University Health and Counseling Services (UHCS). Students are not allowed to take courses for credit toward their degree at Northeastern while on medical leave of absence. Students can petition their college for an exception to take courses elsewhere based on extenuating circumstances.

Students who wish to reenter the university following a medical leave must contact UHCS. Reentry from a medical leave requires receipt of all documentation delivered to UHCS on or around one month prior to the planned reentry to classes. Once all documentation is received by UHCS, it will be reviewed and the student will be notified of the decision. Students must attend classes on the Northeastern campus for the semester they wish to return from medical leave of absence.

More specific information about the reentry process, along with the application for leave, can be found at www.northeastern.edu/uahcs/access.

Emergency leaves may be granted when a student cannot continue attending class after the start of the term due to life-changing situations beyond the student's control. Students can access the application and submit their request for an Emergency Leave of Absence online by going to the myNEU Web Portal (www.myneu.neu.edu), clicking on the "Self-Service" tab, and selecting "Registrar Forms."

The university's medical leave of absence and emergency leave policy states that all *tuition* charged for the term in which the leave has been granted will be held by the university and applied toward future tuition charges in the same academic program. This does not include housing and other fees. Outstanding balances (including unpaid balances) for the academic term in which the leave is taken are still due the university. Tuition adjustments are made depending on the timing of the leave. The adjustments would follow the same schedule as the Official Withdrawal adjustments. See page 13 for the schedule for "Refunds for Complete Withdrawal from the University." Financial aid recipients must contact their financial aid counselor to understand the effects on aid received.

If the leave extends more than six months, student loans may go into repayment. Students enrolled in the Northeastern University Student Health Plan (NUSHP) will remain enrolled in the plan for the plan year, ending August 31.

For both medical and emergency leaves:

- Students who do not return at the end of the leave will be withdrawn and must submit a petition for subsequent readmission to the program.
- Students must return to classes, not co-op.
- Students must be currently enrolled in academic courses or co-op. If a student is withdrawn for any reason, a request for a leave of absence cannot be considered until the withdrawal is resolved.
- Students who receive financial aid should meet with a financial aid counselor before going on a leave.
- Students in university housing should refer to the Department of Housing and Residential Life for policy information.
- Students' enrollment status cannot include more than one academic year of consecutive nonclass enrollments.

Leave of Absence Due to Military Deployment

When a student in the U.S. Reserves or in the National Guard is called to active duty or when an international student is called to active duty in his or her home country, the student must notify his or her college academic student services office and provide proof of deployment prior to being deployed. The proof may be faxed, mailed, or hand-carried to the college academic student services office, which will ensure that the information is conveyed to the registrar's office. It may take the form of general orders cut by the company commander.

When a student is activated during the semester, the university will:

- Excuse tuition for that semester. Any payment made will be credited to the student's account.
- Post a leave of absence for the semester to hold a place for the student when he or she returns.

If a student is called to active duty near the end of the semester, the student and faculty members may determine that incomplete (I) grades are more appropriate. In this case, tuition will not be waived.

When a student returns to the university after completion of the tour of duty, he or she will notify the college academic student services office, which will in turn notify the registrar's office. The college academic student services office will assist the student with reentry and registration.

International students who must take a leave of absence to engage in military service in their home country must fill out a form for leave of absence with the ISSI as well as with their college.

Leave of Absence for International Students

International students should discuss maintenance of proper U.S. immigration status with an advisor at the ISSI before requesting any type of leave of absence.

University Withdrawal

Students seeking to withdraw from the university for any reason should contact the student academic services office of their college.

Students may be withdrawn from the university for financial, disciplinary, academic, or health reasons. In the last case, the vice president for student affairs will review the recommendations of the director of health services to determine whether the student should withdraw. Withdrawals are made only when it is determined that the student is a danger to himself or herself or to other members of the university community, or when the student has demonstrated behavior detrimental to the educational mission of the university.

Note that withdrawal from the university will impact an international student's immigration status. Thus, international students should discuss the means to maintain proper U.S. nonimmigrant status with an advisor at the ISSI before requesting or after having been placed on withdrawal.

Academic Programs and Curriculum Guide

NU CORE

The NU Core is Northeastern University's set of institution-wide general education requirements for all students in all majors. The goal of the NU Core is to develop in our students the knowledge and skills to be lifelong learners with success in many careers, thoughtful global citizens, and fulfilled human beings. The NU Core is required for all freshmen who entered in fall 2007 and later. It does not apply to students already admitted with a different set of core requirements or to transfer students whose entry year was earlier than the fall of 2008.

NU CORE REQUIREMENTS

The NU Core requirements are as follows:

- **First-Year Learning Communities**
A first-year experience
- **Knowledge Domains**
Four courses
- **Writing-Intensive Instruction**
Four courses
- **Mathematical/Analytical Thinking**
Two courses
- **Comparative Study of Cultures**
One course
- **Integrated Experiential Learning**
One course or approved activity
- **Capstone**
One course

Description of NU Core Requirements

The entry-level NU Core courses (comparative cultures, level 1 knowledge domains, first-year writing, and level 1 mathematical/analytical thinking) and the experiential learning requirement involve exploring broad, new ways of thinking. To ensure the intended breadth, double counting of core requirements is not allowed among those domains. Some courses fit more than one of the entry-level categories, e.g., a knowledge domain category as well as the comparative study of cultures category. These courses are listed in both appropriate NU Core categories to give students more flexibility in how they select courses to meet requirements. However, a student cannot fulfill two of the entry-level NU Core requirements by taking a single course.

The intermediate and advanced NU Core requirements involve more focused, in-depth experiences that sometimes can be combined effectively in one course, e.g., many capstone courses also satisfy the writing-intensive requirement, some level 2 mathematical/analytical thinking courses also satisfy the writing-intensive requirement, some intermediate/advanced courses outside the major might also satisfy the comparative cultures requirement.

The following sections describe in greater detail the specific NU Core requirements:

FIRST-YEAR LEARNING COMMUNITY

Freshmen are cohort-registered in a linked set of two or more courses in the same semester to provide integration of subject matter and an opportunity for students and faculty with similar interests to become acquainted.

KNOWLEDGE DOMAINS

Complete an approved introductory-level course in each of three level 1 knowledge domains listed below and a level 2 intermediate or advanced course outside the major department. Generally, one of the introductory-level courses also satisfies a requirement for the major.

Arts/Humanities Level 1

Complete one approved course in arts level 1 *or* one approved course in humanities level 1. Visit www.northeastern.edu/registrar/nucore.html for a list of current offerings.

Social Science Level 1

Complete one approved course in social science level 1. Visit www.northeastern.edu/registrar/nucore.html for a list of current offerings.

Science/Technology Level 1

Complete one approved course in science/technology level 1. Visit www.northeastern.edu/registrar/nucore.html for a list of current offerings.

Level 2 Elective

Complete one intermediate or upper-level course (generally numbered 2000 or above) outside your major.

COMPARATIVE STUDY OF CULTURES

Complete one approved course in comparative study of cultures or another approved approach, including traditional and short-term faculty-led study-abroad programs. Visit www.northeastern.edu/registrar/nucore.html for a list of current offerings, or see the "Global Experience" section on page 38 for further information on using study abroad to satisfy this requirement.

MATHEMATICAL/ANALYTICAL THINKING

Complete an approved introductory-level course in mathematical thinking and its application to posing and solving problems and an approved intermediate-level course in modes of thought that allow abstraction, application, and synthesis of information.

Level 1

Complete one approved course in mathematical/analytical thinking level 1. Visit www.northeastern.edu/registrar/nucore.html for a list of current offerings.

Level 2

Complete one approved course in mathematical/analytical thinking level 2. Visit www.northeastern.edu/registrar/nucore.html for a list of current offerings.

WRITING-INTENSIVE COURSES

Complete a first-year writing course and an advanced writing course provided by the Department of English and two approved writing-intensive courses in the major, as described in greater detail below. Usually, the capstone course serves as one of the major-specific writing courses.

CAPSTONE

Complete one approved capstone course within your major in the final semesters. This course acts as a final integrator of the major, general education, and experiential aspects of the student's education. Generally, this course also includes writing-intensive work and research or creative activity, and, in most cases, the second writing-intensive-in-the-major requirement is satisfied by the capstone course. Visit www.northeastern.edu/registrar/nucore.html for a list of current offerings.

EXPERIENTIAL LEARNING

Complete one approved experiential learning activity with a reflective component, as described in greater detail in the sections below ("Experiential Learning," "Cooperative Education," "Research and Creative Activity," "Service-Learning," and "Global Experience"). Experiential learning opportunities are dispersed throughout each student's undergraduate education to encourage the development of seeing connections between course work and experiential learning. Students should consult their college or their major department for advice on approved activities.

ADDITIONAL REQUIREMENTS FOR BA STUDENTS

In addition to successfully completing the university requirements of the NU Core (see above), students pursuing a Bachelor of Arts (BA) degree must fulfill the BA core requirements as outlined below.

KNOWLEDGE DOMAIN REQUIREMENT FOR BA STUDENTS

In the NU Core Knowledge Domain category, students pursuing a BA will complete one approved course in arts level 1 *and* one approved course in humanities level 1 (for a total of two arts/humanities level 1 core courses).

LANGUAGE REQUIREMENT FOR BA STUDENTS

Each BA student must complete the language requirement by demonstrating proficiency at the elementary level and satisfying an intermediate-level requirement as described below.

Elementary-Level Proficiency

Satisfy one of the following requirements:

- Complete elementary-level two (course number 1102) of a language with grades of C or better in all course work (pass/fail grades cannot be used to satisfy this proficiency requirement).

- Earn a 4 or 5 score on an Advanced Placement (AP) exam in one of the languages offered or receive transfer credit for the equivalent of elementary-level two (course number 1102). Students who have AP or transfer credit must also receive a satisfactory rating in a language-specific interview administered by the World Languages Center upon matriculation.
- Receive a satisfactory score (as determined by the World Languages Center) on a standardized placement exam and a satisfactory rating in a language-specific interview administered by the World Languages Center upon matriculation.

Intermediate-Level Requirement

Satisfy one of the following requirements:

- Complete a course at the intermediate level (course number 2101 or higher) in the language taken at the elementary level.
- Complete a course in which the subject matter focuses on some aspect of the culture, history, or society of a part of the world where the language taken at the elementary level is spoken or used by a significant portion of the population. For a course list, visit the myNEU Web Portal (www.myneu.neu.edu), click on the "Self-Service" tab, then on "My Degree Audit."
- Demonstrate conversational proficiency by successfully completing a proficiency interview (scheduled through the World Languages Center). This option is available only for heritage speakers of a language or for students who have completed the elementary-level language requirement through (b) advanced placement or (c) standardized placement exam as outlined above.

WRITING-INTENSIVE COURSES

The faculty expects all students to become effective writers. To this end, students are given opportunities to improve their writing throughout their curriculum.

First-Year Writing Requirement

All first-year students must satisfy a first-year writing requirement in one of the following ways:

- ENGW 1111, First-Year Writing
- ENGW 1110, Introductory First-Year Writing *plus* ENGW 1111
- ENGW 1102, First-Year Writing for Speakers of Other Languages
- ENGW 1101, Introductory First-Year Writing for Speakers of Other Languages, *plus* ENGW 1102

Depending on performance in ENGW 1110 or ENGW 1101, the second half of the two-course sequence may be waived, as determined by the Department of English. Students must earn a C

or better in the required writing course to satisfy the first-year writing requirement.

The First-Year Writing Program conducts a version of “guided self-placement” and requires students bring an essay to the first class meeting; see www.northeastern.edu/writing/first-year-writing/course-placement for details.

For more information about the Writing Program, visit www.northeastern.edu/writing.

Note: ENGW 1101 and ENGW 1110 are not credited toward graduation in the College of Engineering.

Advanced Writing Requirement

Advanced Writing in the Disciplines (AWD) is the second course of the university-wide requirement. Students are eligible to enroll in AWD once they satisfy the first-year requirement, earn a minimum of 64 semester hours of academic credit (this number includes the semester in which students enroll in AWD), and have at least junior or senior standing. Students are encouraged to take AWD before they have accrued 96 semester hours. A variety of AWD sections are offered, including Advanced Writing in the Technical Professions, Advanced Writing in the Sciences, and Advanced Writing in the Health Professions, among others. A small number of online sections and sections for non-native speakers of English are also offered. Students should consult with their advisors to choose the section that best suits their needs. Transfer credit cannot be used to satisfy this requirement. Students must earn a C or better to satisfy the advanced writing requirement.

For more information about the Writing Program, visit www.northeastern.edu/writing.

Writing-Intensive Courses in the Major

Each major includes at least two additional writing-intensive courses. These courses are characterized by frequent and regular writing, assessment and revision of student work, and the opportunity for students to improve their work.

EXPERIENTIAL LEARNING

www.northeastern.edu/experiential-learning

Experiential learning offers the opportunity for an education that is richer and more meaningful, providing students with experiences that add depth to their classroom studies and enable them to explore and transform their lives. Experiential learning is tightly integrated with our course curriculum and is supported by advising in the majors as well as advising in the experiential learning group.

The primary ways in which the experiential learning requirement may be satisfied are:

- Cooperative education
- Research or creative activity
- Service-learning
- Global experience

Only one learning experience outside the classroom is required for the NU Core. However, students have many additional opportunities for further experiential learning.

Integration of course work and experiential learning occurs in the required capstone course, as well as in earlier guided opportunities linking concepts from major courses, NU Core courses, and experiential learning.

COOPERATIVE EDUCATION

www.northeastern.edu/coop

Cooperative education (co-op) is the cornerstone of Northeastern University’s experiential learning approach, in which on-campus study is enhanced by real-world experience. Through co-op, students alternate periods of academic courses with periods of employment in positions related to their academic or career interests. This combination provides an integrated learning experience that enhances both in-class studies and career development.

Northeastern’s cooperative education is a full-time employment experience outside the classroom supporting the concept of experiential learning. Students use the full-time experience to reflect on areas of study and academic interest. Cooperative education experiences are recalled throughout the student’s academic career in classes and capstone papers. Students on co-op are required to maintain the same health insurance coverage (either through a private provider or through the university program) as they would while attending classes. In addition, those who wish to do so may live on campus while on co-op. International students must obtain proper authorization from the International Student and Scholar Institute (ISSI) before engaging in or extending any period of co-op.

Co-op Scheduling Options

Northeastern provides the flexibility to pursue co-op and other experiential opportunities in a way that fits individual educational goals. Full-time undergraduates may complete up to three six-month co-ops in five years and as many as two six-month co-ops in four years at Northeastern. The design of some programs, such as pharmacy and theatre, requires four-month co-ops.

All co-op patterns share four semesters when students attend classes on a full-time basis: fall and spring terms of the first year, fall term of the second year, and final term of the senior year. In the first three terms, students have an opportunity to develop academic expertise as well as professional development skills. In the last term, students have an opportunity to integrate their in-class and experiential activities in a capstone course. Generally, half of the required course credit will be completed in these four terms.

The remaining half of the required course credit may be arranged in a variety of schedules that incorporate six-month co-op periods and full-time classes in full semesters and summer

half semesters. Students may also elect to take courses (on-campus or online) during co-op periods or to complete extra course credit in some terms. Advisors assist students in developing plans of study that best fit the students' experiential learning goals and the requirements of majors/minors.

Some sample schedules for the class entering in fall semester 2015 are shown below. Note that there are multiple possible schedules and not all entering students will follow these particular examples. In all cases, however, the students will attend class on a full-time basis in fall semester 2015, spring semester 2016, fall semester 2016, and the final spring semester, either 2019 or 2020 in the schedules shown below.

Sample schedule—five-year, three-co-op program:

- Co-op in July–December of 2017, 2018, and 2019
- Full-time classes in spring semester of 2017, 2018, and 2019
- Full-time classes in summer 1 half semester of 2017 and 2018

Sample schedule—four-year, two-co-op program:

- Co-op in July–December of 2017 and 2018
- Full-time classes in spring semester of 2017 and 2018
- Full-time classes in summer 1 half semester of years 2017 and 2018
- 16 credits distributed among courses taken on co-op (on campus or online), heavier course loads in full-time terms, courses in summer 2016 and/or AP credit

Sample schedule—four-year, one-co-op program:

- Co-op in July–December of 2018
- Full-time classes in fall semester of 2017 and spring semester of 2018 and 2019
- Full-time classes in summer 1 half semester of years 2017 and 2018

For better financial planning, students and parents should be aware that:

- a. Tuition is charged when a student is taking classes/earning academic credit. No tuition is charged while a student is on co-op only (although the student will pay room and board if he or she stays in the dorm while on co-op and will be assessed tuition if enrolled in a class).
- b. Financial aid will be distributed to match the student's academic program and tuition bills.

Co-op Eligibility

Every student must meet specific eligibility requirements to participate in co-op. These are general requirements for all students; however, students must work closely with their cooperative education coordinator to ensure that they meet any college- or major-specific requirements and are aware of major-specific logistics, deadlines, and required paperwork. In accordance with U.S. federal regulations, international students must not begin, extend, or resume any co-op experience without first receiving employment authorization from the ISSI.

GENERAL REQUIREMENTS

Students must:

- Take and pass a preparatory course before starting co-op.
- Satisfactorily complete the requirements and deadlines set by their specific co-op program.
- Register for co-op, either through their pattern of attendance or through a change in pattern of attendance, which must be approved by their cooperative education coordinator and academic advisor.
- Have received a Satisfactory (S) grade and have resolved any outstanding Incomplete (X or I) grades for previous co-ops. Students who have received an Unsatisfactory (U) grade must work with their cooperative education coordinator to reestablish eligibility in accordance with the policies and requirements of their program.
- Resolve any previous disciplinary or academic probation issues, or have their cooperative education coordinator approve a plan to resolve these issues, prior to being referred to co-op jobs.
- Have any self-developed co-op approved by their cooperative education coordinator before accepting the position.
- Comply with any preemployment checks required by the employer, such as drug testing, credit checks, physical examinations, security clearance, and criminal record checks.
- Participate in Title IX training, as required.

ACADEMIC REQUIREMENTS

Students must:

- Be making satisfactory progress toward their degree as defined by the university, their colleges, and the curricula in their major programs.
- Have a cumulative 2.000 GPA to be eligible to go on domestic co-op.

TRANSFER STUDENTS

Transfer students from other universities must have met the same requirements in their major's co-op program as nontransfers and must have completed at least one semester of classes before starting co-op. Students transferring from one major to another within Northeastern must have completed the requisite courses and requirements as defined by their current major's co-op program.

APPEALS PROCESS

If students do not meet the co-op eligibility requirements and/or their cooperative education coordinator has determined they are ineligible to go on co-op, they may appeal to the director of cooperative education for their college. If the matter cannot be resolved informally, they may appeal the decision to the college academic standing committee.

Registering for Co-op

Students register for co-op during the semester prior to the one when they plan to be on co-op. Just as for an academic course, they can register through the myNEU Web Portal (www.myneu.neu.edu). All co-op placements need to be approved by a co-op coordinator.

Co-op Documentation

Students who fully and successfully participate in co-op will receive a grade of Satisfactory; those who fail to complete their co-op assignment will receive a grade of Unsatisfactory. These grades will appear on the student's academic transcript. However, no academic credit is awarded for the completed co-op assignment.

Further Information

For more detailed information about co-op policies and procedures, see the *Cooperative Education Student Handbook*.

RESEARCH AND CREATIVE ACTIVITY

www.northeastern.edu/research

Pursuing research at the university level makes our students knowledge creators and develops their teamwork skills. The discipline of mind that research requires is one of the best ways to learn to think critically. With dozens of majors and minors, many interdisciplinary research centers and institutes, and more than six hundred full-time faculty engaged in active research and scholarship, Northeastern offers countless opportunities for students to apply their classroom learning to the process of discovery.

Undergraduate students can participate in research and creative activity in a variety of formats, including the following: research courses, which generally fulfill major elective requirements; research co-ops or internships; community-based research; research-based activity as the option for work-study work; research as a volunteer activity; and junior/senior honors research projects.

Undergraduate students can apply for funding to support their research projects through the university-wide Provost Undergraduate Research and Creative Endeavor Program and from a number of other offices and programs. They often present their research findings at Northeastern's annual Research Expo, as well as at academic conferences and in scholarly journals.

SERVICE-LEARNING

Community service is part of Northeastern's urban mission. But more than good works, community service through structured service-learning programs on our campus is an academically rigorous educational experience that allows students to broaden

their knowledge and skills through service that supports our partnerships with Boston schools, neighborhood agencies, health clinics, and nonprofit organizations.

Students participate in organized service projects, coordinated by their professors and/or program directors, which meet needs identified by the community. Before, during, and after their service, students also engage in structured reflection to help them gain further insight into course or program content, a broader appreciation of their academic disciplines, and a greater sense of civic responsibility.

Northeastern University strongly endorses global experience as an important dimension of learning. To foster this, it maintains a Global Experience Office that has developed a series of programs tailored to the interests and needs of Northeastern University students.

International Study

While studying abroad in a Northeastern-sponsored program, students maintain full-time Northeastern status and earn Northeastern credits. In all cases and upon successful completion of a program, grades are calculated in the student's GPA. The requirements for participation are at least two completed terms at Northeastern, one of which may be a summer term; a GPA of at least 2.500; and no registration-blocking holds. Students must also meet the requirements of the host institution abroad. Application deadlines are posted on the Global Experience Office (GEO) website (www.northeastern.edu/studyabroad).

Students who wish to study abroad should start by researching program opportunities at www.northeastern.edu/studyabroad or by making an appointment with a study-abroad advisor. After choosing a program, students should also consult with their departmental or college advisors. Information sessions are offered regularly by GEO, and a schedule of these sessions is available on the website (www.northeastern.edu/studyabroad). Advisors in GEO provide the final planning assistance. Schedules for walk-in hours for advising are posted online and in the GEO office. International students should also consult with the International Student and Scholar Institute (ISSI) to determine if an updated I-20 for reentry may be needed. Note that study abroad

in a student's final semester may result in a delay in graduation due to calendar discrepancies across institutions.

Types of Programs

Northeastern University offers four types of study-abroad programs, although not all types are appropriate for some majors:

1. **Semester.** Students are based at a host institution where they attend classes, participate in student activities, and organize their extracurricular schedules just as they do on campus at Northeastern. Some examples include Monash University in Melbourne, Australia; University of Edinburgh in Scotland, U.K.; London School of Economics in England, U.K.; and Meiji University in Tokyo, Japan.
2. **Faculty-Led Summer Programs/Dialogue of Civilizations Programs.** Open to Northeastern University students of any major, the Dialogue of Civilizations Programs are faculty-led study-abroad programs that include “global student exchanges” between students at Northeastern University and students around the world. The goals of each program are to connect Northeastern students with their peers in different national, cultural, political, and social environments and to provide Northeastern students with a “global experience” that builds upon and enhances their academic studies and training in Boston.
3. **Internship.** These programs offer a combination of classes and related work experience for which students earn academic credit. For example, students have interned with a member of the Australian Parliament in Canberra, the European Parliament in Brussels, the British Parliament in London, and the Irish Parliament in Dublin.
4. **International Research.** The focus of a student's time abroad is on an independent research project. In most cases, the study-abroad program organizes small group seminars and field trips that are designed to help students learn about their international environment and focus on a research topic. Students spend three to four weeks toward the end of the semester working on their individual projects. An example could be studying tropical biology in Costa Rica, history and culture in Vietnam, and oceanography while sailing in the Atlantic/Pacific Cruise Track of the SEA Semester Program.

Visit www.northeastern.edu/studyabroad to see a complete list of program options.

International Co-op

GEO also administers the International Cooperative Education Program, which provides students with opportunities to explore global career options, develop intercultural and political sensitivity, and utilize and strengthen foreign language skills. Northeastern students co-op on all seven continents with foreign and multinational employers, U.S. employers doing business abroad, and other international organizations. Students may apply for existing positions or work with a co-op counselor to develop their own. All majors are welcome to apply. International students

participating in co-op abroad should consult with the ISSI in advance of departure to ensure reentry to the United States in proper nonimmigrant visa status. The Presidential Global Scholars Program provides financial support for international co-op (www.northeastern.edu/globalscholars).

NU Core and Major Requirements

A Northeastern-sponsored study-abroad experience (e.g., traditional term at a host institution, short-term global experience, faculty-led program, or N.U.*in* term) may fulfill the NU Core requirement for comparative study of cultures or experiential learning. A student cannot fulfill both the comparative study of cultures requirement and any other NU Core requirement by taking a single course (or completing a single global experience). Thus, each student successfully completing an approved program could elect to use it to satisfy either the comparative cultures or experiential learning NU Core requirement but could not satisfy both requirements with one experience. Some majors have additional requirements for global experience, as described in the curriculum guides for specific majors presented later in this catalog.

WORLD LANGUAGES CENTER

DENNIS R. COKELY, PhD
Director

225B Renaissance Park
617.373.3064
617.373.3065 (fax)
Dennis R. Cokely, *Director*, d.cokely@neu.edu

The primary goal of the World Languages Center (WLC) is to offer an expanding array of languages in a variety of instructional formats for Northeastern students and to ensure that students will be able to take at least two years of instruction (four semesters) in any language offered by the WLC and up to three years of instruction (six semesters) in many of the languages offered.

Placement Assessment

Students with prior experience in French, German, or Spanish must take the online written placement exam if they wish to enroll in a French, German, or Spanish language class. The link for this exam can be found on the WLC or the Languages, Literatures, and Cultures website. Students with prior experience in any other language must contact the WLC to make an appointment for a placement assessment interview. Results of a student's online placement or interview assessments are valid for one year only.

Any student with prior experience in a language who registers for a language course without taking the WLC online placement test or a WLC placement assessment will not receive a letter grade for the course.

Attendance in Language Classes

The development of competence in a language requires regular and structured interaction opportunities. Thus, the WLC takes attendance in language classes very seriously. Each missed class will have specific consequences, including a negative impact on a student's final grade. Classes missed as a result of registering late for a class will count as unexcused absences; if students believe they have been inappropriately placed in a language class, they should contact the WLC immediately.

Auditing Language Classes

Auditing language classes is not permitted. Students who are not on the official roster of a class may not sit in on the class.

Immersion Language Classes

The WLC offers off-campus language immersion classes in a variety of languages. These immersion classes are numbered 1301, 1302, 2301, 2302, 3301, and 3302 and are designed to be part of a faculty-led study trip. Typically, these classes are offered during summer 1 and summer 2 terms. These courses will count toward fulfillment of the BA language requirement, assuming a student receives a grade of C or better.

Study-Away/Abroad Classes

The WLC will authenticate credit-bearing language classes taken in study-away/abroad programs at accredited institutions in fulfillment of and as equivalent to WLC language classes numbered 1101, 1102, 2101, or 2102. Students must receive approval of language course equivalence from the WLC before embarking on a study-away/abroad program. Failure to do so may mean that the courses taken away/abroad will not be accepted in lieu of on-site Northeastern language courses and thus may not satisfy the language requirement. Credit is granted only for successful completion of the course.

BSIB Language Classes

The Bachelor of Science in International Business program is offered through the D'Amore-McKim School of Business. Because of the intensive expectations of the program (one semester in classes abroad, one semester international co-op), the WLC offers classes that are restricted to BSIB students only. These courses are numbered 1201, 1202, 2201, 2202, 3201, 3202, 4201, and 4202. Only BSIB majors may enroll in these BSIB-designated courses.

universitiescholars@neu.edu

Launched in fall 2012, the Northeastern University Scholars Program is a full-tuition scholarship program offered to a limited number of students. Individuals invited to join this program have distinguished themselves academically; displayed an entrepreneurial approach to study, achievement, involvement, and life; and have demonstrated curiosity and creativity that extend far beyond the classroom to impact the world around them. The program is intended to meet the interests of students who demand to be challenged, are passionate about learning, and will innovate when given the freedom to explore.

617.373.5300 (fax)
honors@neu.edu

Exceptionally motivated students who are seeking an opportunity to enhance their educational experience may be invited to join the University Honors Program. The honors community is an active group of intellectually engaged students who are committed to making a difference at home and in the world. They benefit from unique and challenging academic opportunities, personalized advising, stimulating events, and participation in the honors living and learning communities. Only the most highly accomplished and motivated applicants to Northeastern are invited into the University Honors Program.

PROGRAM FOR UNDECLARED STUDENTS

www.northeastern.edu/undeclared

Kim Irmiter, MA
Director

1 Meserve Hall
617.373.2306

The Program for Undeclared Students introduces entering students who have not decided on a major to a broad range of academic disciplines while maintaining flexibility to maximize each student's own exploration. Personalized advising is a major element of the program; staff and faculty from the program, the assigned academic advisor, a co-op coordinator, and a peer mentor create a rich blend of guided support and advice. Learning communities and customized co-curricular programming related to academic and personal exploration constitute additional opportunities for identification of individual passions. Students may declare a major at any time but are expected to do so by the end of the sophomore year. Admission to a particular major is dependent on satisfying the criteria described under "Changing Majors" on page 26.

Undeclared students have access to a wide range of courses offered in all of the colleges across the university. Taking introductory courses in majors of possible interest is a powerful way to begin to explore the disciplines, while taking advantage of the richness of Northeastern's varied curricula. Many of these courses also satisfy requirements of the NU Core curriculum. The program offers inquiry courses that have been specifically designed to give students opportunities early in their academic studies to work closely with faculty and other students, and to both ask and answer the questions that matter in today's world. In so doing, students are able to explore interests that may translate into academic majors or areas of study.

PREMEDICAL AND OTHER PREPROFESSIONAL HEALTH CAREER PREPARATION

www.northeastern.edu/prehealth

Prehealth Studies

Because medical schools place a priority on well-rounded achievement, the prehealth course requirements can be integrated into any major at Northeastern. Medical school admission committees generally give no preference to any particular undergraduate major. As such, students should focus on meeting the course requirements of their chosen field of study, together with the prehealth professions requirements, with demonstrated academic rigor and excellence. For some majors it may be necessary to complete additional credit hours of course work, with associated tuition, to fulfill all prehealth requirements. Prehealth students should research requirements and plan a program of study

as early as possible in consultation with both major and prehealth advisors to ensure that requirements will be completed in a timely fashion.

The PreHealth Advising Program provides support for Northeastern students who are planning to pursue doctoral-level training in medicine, including allopathic medicine (MD), dentistry, optometry, osteopathic medicine, podiatric medicine, and veterinary medicine.

Prerequisite Courses

Most health professional schools require a common set of courses. The following program meets the minimum requirements of most health professional programs. Students should work with prehealth advisors to review their course selections. *Note:* Corequisite laboratories are required for most science courses.

BIOLOGY

Introductory biology (typically two semesters)

The following course work is required or recommended by many programs and necessary for MCAT preparation:

Genetics and molecular biology

Biochemistry

Additional biology courses are required or recommended by many programs and may be helpful for admission exam preparation.

CHEMISTRY

General chemistry

Organic chemistry

PHYSICS

Two semesters

MATHEMATICS

Two semesters of calculus and/or statistics

ENGLISH

Two semesters

Some programs require both writing and literature courses.

BEHAVIORAL SCIENCES

The following course work is required or recommended by many programs and necessary for MCAT preparation:

One semester each of psychology and sociology

Additional courses may be required or recommended by individual schools or programs. Students should refer to school websites as well as the appropriate official admission guidebooks for up-to-date information: *ADEA Official Guide to Dental Schools* (www.adea.org); *College Information Book* (www.aacom.org); *Colleges of Podiatric Medicine Admissions Requirements* (www.aacpm.org); *Medical School Admissions Requirements* (www.aamc.org); *Schools and Colleges of Optometry Admissions Requirements* (www.opted.org); or *Veterinary Medical School Admissions Requirements* (www.aavmc.org).

PRELAW PREPARATION

www.northeastern.edu/prelaw

Northeastern University adopts in full the statement of the American Bar Association on the “Preparing for Law School” page of its website (www.abanet.org/legaled/prelaw/prep.html). Most law school admission committees give no preference to any particular undergraduate major.

The primary goal of the Prelaw Program at Northeastern is to assist current students, staff, and alumni in navigating the law school application process. This includes identifying and researching a variety of law schools to which the person may want to apply. For current Northeastern students, the Prelaw Program provides academic advising that guides course selection and activities aimed at maximizing the student’s chance of being admitted to law school. These courses must have at least one, and preferably more, core skill and values such as: analytic/problem-solving skills, critical reading, writing skills, oral communication/listening abilities, general research skills, task organization/management skills, public service, and promotion of justice.

Students in the education program may select from several program options. They may pursue a minor in elementary education or a minor plus Massachusetts Department of Elementary and Secondary Education endorsement for licensure (minor plus student teaching). Students who pursue an education minor with elementary licensure must also meet the Massachusetts Department of Elementary and Secondary Education content requirements, which may be completed through their major and the NU Core requirements.

Undergraduate students interested in teaching careers should contact the Graduate School of Education in 20 Belvidere for information on how to apply. To qualify for admission students must:

- Successfully complete EDUC 1111, “Education in the Community,” including the 30-hour community field placement in one of our community partner agencies.
- Be enrolled in an appropriate major in the College of Arts, Media and Design; the College of Science; or the College of Social Sciences and Humanities. For a minor in elementary education, all majors in these colleges are acceptable except human services and American Sign Language. (These majors do not match the Massachusetts Department of Elementary and Secondary Education requirements.)
- Have a GPA of 2.750 or higher.

To be eligible for student teaching (a licensure requirement), a student must:

- Pass all required Massachusetts Tests for Educators Licensure.
- Maintain a 2.750 GPA and earn a C or better in all education courses.
- Earn satisfactory evaluations from three previous field experiences.
- Complete all education courses required for licensure.
- Apply for student teaching at least one semester in advance.

Minor in Elementary Education

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

MAT PlusOne Program

The Master of Arts in Teaching (MAT) PlusOne program provides an alternate route for undergraduate students with a major in science, technology, engineering, or mathematics (STEM) who aspire to teach science at the elementary- or secondary-school level. This program is aligned with the School of Education and offers a pathway to teaching with many attractive benefits. In consultation with their advisor, undergraduates may complete up to 16 semester hours of MAT course work and apply these credits toward their bachelor's degree. They can then earn a Master of Arts in Teaching degree with only one additional year of study.

ARMY, AIR FORCE, AND NAVY RESERVE OFFICERS' TRAINING CORPS (ROTC) PROGRAMS**Army ROTC Program**

MAJOR TIMOTHY J. FERGUSON, MS

Professor and Chair, Department of Military Science

335A Huntington Avenue

617.373.2375

617.373.8677 (fax)

www.rotc.neu.edu

Sheila Hutchins, *ROTC Staff Assistant*, s.hutchins@neu.edu

The Department of Military Science offers the Army Reserve Officers' Training Corps (ROTC) program. The goal of the program is to develop leadership potential in men and women and to prepare them for an officer's commission in the Active Army, Army Reserve, or Army National Guard. The curriculum teaches principles of leadership and personnel management and seeks to develop leadership traits such as teamwork, responsibility, initiative, self-confidence, and discipline.

The Army ROTC program is conducted at Northeastern University. For more information, write the Department of Military Science, Northeastern University, 335A Huntington Avenue, Boston, MA 02115, or call 617.373.2375.

Completion of the Army ROTC program will lead to a commission as a second lieutenant in the United States Army, Army Reserve, or the Army National Guard. The program consists of the basic course (freshman and sophomore years) and advanced course (middles through senior years). The program does not conflict with co-op schedules.

Enrollment in the basic course is voluntary and is open to all full-time students. However, only cadets formally enrolled in ROTC may participate in leadership labs, physical training, and practical field exercises. Students in the basic course do not incur a military obligation. Check with your academic department to ensure credits are accepted.

The advanced course is open to all qualified students who have basic course credit or equivalent military experience, as well as meet the Army's physical, medical, and age requirements. Contracted students (advanced course and/or scholarship) receive a monthly cash stipend while in school. Scholarship students also receive full tuition and fees as well as \$1,200 per year for books. Scholarships are merit based and are awarded as four-year, three-year, or two-year benefit packages.

Army Nurse Corps ROTC Program

ROTC provides an opportunity for college nursing students to receive practical, hands-on leadership experience. The courses provide a chance for students to develop management, communication, and decision-making skills. ROTC also provides nursing cadets an opportunity to participate in the Nurse Summer Training Program (NSTP). NSTP is a paid, three-to-four-week, hands-on clinical elective for Army ROTC nurse cadets. This elective is conducted at more than twenty Army hospitals in the continental United States, Hawaii, and Germany. During the NSTP clinical elective, the cadet receives experience under the direct supervision of a preceptor—an Army Nurse Corps officer who works with the cadet one-on-one. Scholarship nurse cadets receive a monthly cash stipend while in school as well as full tuition and fees and \$1,200 per year for books.

Navy ROTC Program

The Boston Navy ROTC unit is a six-school consortium that includes students from Boston University, Boston College, Northeastern, Tufts, Harvard, and MIT. All Navy ROTC scholarships are for nursing only and cover full tuition, mandatory fees, a \$375 per semester book stipend, and a \$250 per month living stipend that increases by \$50 each year up to \$400. Room and board are not included in the scholarship. For students on Northeastern's five-year program, the Navy grants "Fifth Year Benefits," which mirror those of the fourth year. Upon graduation, there is a four-year active-duty commitment.

NROTC nursing students are required to take four naval science classes, in addition to their regular course work, and attend a leadership laboratory once a week. All classes, labs, and group workouts are conducted at Boston University. Students typically spend a total of six to eight hours per week participating in NROTC-related activities. Additionally, Navy

nurses complete two summer cruises, or training sessions, prior to graduation, each of which lasts approximately four weeks. They spend one session with a medical unit at sea (on a Navy ship) and one session at a land-based Navy hospital. All lodging, transportation, meals, and uniforms are paid for by the Navy during summer training sessions. For more information, contact the recruiting officer at 617.358.3470 or navyrotc@bu.edu.

Air Force ROTC Program

Air Force ROTC is an educational and leadership program designed to give men and women the opportunity to become an Air Force officer while completing a bachelor's degree.

Through a cross-enrolled program with Boston University, interested Northeastern University students may participate in the Air Force Reserve Officer Training Corps Program. The requirements include aerospace studies classes, leadership laboratory classes, and physical fitness training. The mandatory weekly commitments range from five to seven hours per week.

In addition to the leadership and management training that cadets receive, they also benefit from several scholarship programs. *High school seniors* can apply for four-year scholarships. The scholarships range from full tuition, \$18,000 per year, and \$9,000 per year. Scholarship winners will also receive a monthly stipend, a book allowance, and uniforms. Applications for scholarships are due by December 1 of senior year. Apply at AFROTC.com.

Freshmen and sophomores already in college can compete for three or three-and-a-half-year scholarships, some of which cover full tuition, while others cover \$18,000 per academic year. All scholarship winners will receive a monthly stipend, a book allowance, and uniforms.

However, students do not need a scholarship to commission through Air Force ROTC. For more information, call 617.353.6316 or 617.353.4705.

GENERAL STUDIES PROGRAM

www.northeastern.edu/gsp

Lynn Dornink, MA
Director

1 Meserve Hall
617.373.2306

The General Studies Program (GSP) is a full-year program for entering freshmen, offering a unique learning environment where faculty, advisors, and peer leaders provide guidance and support to ensure the students' academic success. The GSP curriculum satisfies first-year academic requirements and is geared to students' academic and career goals. Program benefits include a low student-advisor ratio, fall and spring critical-thinking seminars taught by the student's GSP advisor, a learning community

organizational model, a writing-intensive curriculum, and access to a nationally certified peer tutoring program. All majors have defined entrance requirements; therefore, beginning in September, GSP advisors work closely with students to guide them toward their intended majors' requirements. Following the successful completion of the General Studies year, and the meeting of the major requirements, students enter one of the university's seven undergraduate colleges with sophomore status in a specified major. Students may also choose to enter the Program for Undeclared Students with sophomore status. GSP students who have not met the academic progression standards for transitioning by the end of two semesters may continue in the GSP for an additional semester.

Academic Progression Standards

GSP students must meet the following criteria to successfully transition to sophomore standing:

1. 2.000 GPA (individual program entrance requirements vary)
2. 28 semester hours of credit (32 recommended)
3. Successful completion of college/major transition requirements

For more details about transitioning to individual colleges, see below.

Transitioning to Major

For information about transitioning to majors across the university, see "Changing Majors" on page 26.

Academic Probation

Same as university standards.

University Withdrawal, Low Scholastic Performance

Same as university standards.

In today's global economy, the disciplines within the College of Arts, Media and Design are powerful drivers of growth and innovation. Creative fields and evolving technology make it possible to connect people and ideas as never before, serving as strong catalysts for change and expanding the understanding of our shared humanity.

The college integrates programs of study in architecture, art and design, communication studies, game design, journalism, media and screen studies, music, and theatre with meaningful experiential learning opportunities, enabling students to explore their passions and prepare for postgraduate opportunities in their chosen fields.

The college offers Bachelor of Arts, Bachelor of Science, and Bachelor of Fine Arts degrees in a number of majors, as well as interdisciplinary programs, and emphasizes general education through the NU Core. Opportunities available to students in the College of Arts, Media and Design include national and international programs for study and experience; programs in field settings, both local and abroad; and programs involving affiliations in such areas as professional performing arts organizations and media organizations. The college also emphasizes experiential learning through cooperative education; service-learning; and other kinds of internships, student-faculty research collaborations, and study abroad.

Students may choose a four- or five-year experiential learning plan in most programs. Either plan offers co-op opportunities, typically in an area related to the student's chosen

academic area. Students are normally eligible to participate in co-op as early as the second semester of their sophomore year.

Many programs are flexible enough to allow students to pursue a double major, a major and a minor, or one of the college's combined majors. The college also offers students the opportunity to create an independent major in cases where their interests and goals are not met by an existing major program.

Academic Advising

The College of Arts, Media and Design has an academic advising system that consists of academic advisors located in the Academic Advising and Cooperative Education (AACE) office in 100 Meserve Hall and faculty mentors located in the college's departments and program offices. Detailed advising information is available on the college website: www.northeastern.edu/camd. Prelaw advising (www.northeastern.edu/prelaw) and premedical/pre dental advising (www.northeastern.edu/prehealth) are also available.

Academic Progression Standards

The College of Arts, Media and Design adheres to the university-wide academic progression standards described in the beginning of the catalog. Some majors have additional specific requirements in order to progress from year to year (see major requirements in departmental listings).

Graduation Clearance Process

Students in the College of Arts, Media and Design are required to meet with an academic advisor in the AACE office in 100 Meserve Hall to determine their remaining graduation requirements. Some departments also require a meeting with a faculty mentor in their major/program. This should be completed in the junior year to facilitate planning of all remaining requirements.

College Requirements

All students in the College of Arts, Media and Design must successfully complete the university requirements of the NU Core (see page 34). In addition, students pursuing a Bachelor of Arts degree (BA) must fulfill the BA requirements (see page 35).

Architecture and urban landscape are the context for civic life. In an age of increasingly rapid technological and social change, these fields forge connections between our past and our future. This involves critical thinking about many complex contemporary issues, such as the relationship of public and private life, the interaction between formal and political ideas in cities, and the role of technology in the design, construction, and management of contemporary spaces. Because the process of design involves the synthesis of disparate elements, it can also translate into strategies for approaching a wide range of other problems not traditionally understood to be “architecture.” At Northeastern, we connect specific problem solving inherent to architectural and landscape architectural understanding with the larger context of contemporary cities.

The curriculum teaches students to conceptualize, synthesize, and represent complex architectural, urban, and environmental issues. The program focuses on core skills and critical thinking as preparation for both professional practice and advanced study. The curriculum in the design studio encompasses two major themes: First, the studio projects focus on the art of building and environmental performance, and second, the projects explore how designed environments—from buildings to regional infrastructures—affect urban conditions. The art of building includes the study of construction and technology, as well as the cultural messages created by the expression of material, structure, and form. Environmental performance includes imagining how we can live more sustainably by developing innovative design solutions for synthesizing natural and urban conditions. The contemporary city is our laboratory. This urban focus requires that students integrate their own creative impulses with the future of the society of which they will be a part. By building on the practical and technical training afforded by co-op to develop core professional skills, the curriculum focuses on architecture and landscape architecture’s fundamental aesthetic, technological, social, and political aspects.

With the effective synthesis of the art of building and environmental performance with urban issues, Northeastern’s programs in architecture and urban landscape are becoming a leader in identifying opportunities for civic representation, urban development, and neighborhood design. Northeastern’s students are in demand because of their combination of professional competence

and fluency in urban architectural and environmental design issues. There are opportunities for interdisciplinary cooperation in urban-oriented research and creative work in areas such as the economics of urban redevelopment; the design and planning of resilient food, water, energy, transit, and industrial systems; urban public policy; and new forms of spatial and visual communication. Additionally, Northeastern’s urban focus is applied globally in the semester abroad.

External Transfers

Full-time architecture faculty members may evaluate nonstudio courses for conformity with NU requirements using transcripts and course descriptions. Any student seeking studio course credit (drawing, technology, or design) must present a portfolio for review and evaluation.

There is no portfolio requirement for freshman applicants.

Academic Progression Standards

A minimum GPA of 2.500 is required to remain in the major. Students below this average will not be allowed to continue in the major.

To graduate, a student must have a 2.500 GPA in architecture or urban landscape.

Preapproved Template Programs in Architecture and in Urban Landscape

The School of Architecture offers preapproved template programs in architecture and in urban landscape. Each template program may be paired with another preapproved template program to create a combined major; to see a list of current preapproved template programs, visit www.northeastern.edu/registrar/major-2.html.

Students may request admission to such a combined major via the Combined Major Approval Form (www.northeastern.edu/registrar/form-maj-comb.pdf), which requires approval by both disciplines/colleges together with an approved curriculum. For additional information on preapproved template programs, see “Student-Requested Combined Major” on page 27. For template program requirements, visit the myNEU Web Portal (www.myneu.neu.edu), click on the “Self-Service” tab, then on “My Degree Audit.”

Art makes life meaningful. Design makes life possible. Together they make life wonderful. The work of artists and designers informs and forms cultures, benefits society, and empowers the global marketplace of ideas. The faculty in the Department of Art + Design seeks to prepare students for a rich and rewarding life making a significant difference in the lives of others. We study the fundamentals of knowing, thinking, making, and doing; you have an opportunity to learn to use ideas and influences, tools and techniques, and principles and processes of art and design. We provide a faculty, format, and facilities for a great experiential education in art and design within a major urban research university. You pursue your curiosity about, intentions toward, and obligations to the evolving world. Summer programs in Iceland, Ireland, Venice, Rome, London, Berlin, and Cuba offer intensive studio experiences to augment your study with travel and creative work in the context of other cultures.

We seek to cultivate your talents as a creative source of original ideas and expressions of an inner life, using classical, current, and emerging media. You are inspired and challenged to critique and create works of art and design. You will gain visual literacy and fluency with form in the context of a liberal arts education and professional art and design practices. Understanding form is essential to understanding anything. Experimenting with form is essential to understanding form. Artists and designers experiment with form. You can be transformed into a creative force, ready to realize your potential and create cultural value and social benefit.

BA in Art

A studio-based program that offers you a broad and deep exploration of what it means to be culturally aware, skilled, and productive, the BA in art balances studio courses in drawing/painting and digital media with art history and visual studies. We also offer the courses of this program in Ireland, where you can have an intensive and immersive experience in Ireland, a cultural treasure-house amid natural splendor. There you make art in your own studio in an art school equipped with all the tools and resources an artist requires.

Your education, experience, and training in understanding cultural practices take full advantage of the remarkable scope of the College of Arts, Media and Design. Your focus of obtaining a

well-rounded liberal arts education, within a broad study of the arts and humanities, is complemented by the study of a language and its cultural context and knowledge in the natural, physical, and social sciences. Pursuing either a focus in fine art or visual studies, media and design practices, as well as select courses in the studios of the adjacent School of the Museum of Fine Arts, Boston (SMFA), permit you to discover new talents and interests. Most important, your ample elective choices include our study-abroad programs and span the complete range of offerings of our college.

The BA in art is offered with a concentration in visual studies that incorporates art and design history with a cultural study of seeing. Understanding vision to be as much a product of lived culture and a phenomenon that is as dynamic, creative, and social as it is physical and biological, we explore differing ways to interpret the visible world that surrounds us. You are exposed to the history and theory of the visual arts and visual experience as we address connections between topics as wide-ranging as Leonardo da Vinci's *Mona Lisa* and the computer interface used in Apple's *iLisa*. Visual studies seeks to develop your critical insight into, and understanding of, what we see that you may be equipped for a life of rich and deep cultural experiences as our human civilization is expressed and continues to evolve.

The BA in art is offered with the following concentration options:

- Without concentration
- With a concentration in visual studies

BFA in Media Arts

The continuing revolution in digital computing and global communications has produced a rapidly evolving field for artists who create experiences of image and form with computer screens, intelligent devices, and new materials; artists who also invent tools for exploring, creating, and distributing their ideas and works. We offer concentrations in media practices of animation, photography, and video art, with more variations yet to be invented by you.

Courses in imaginative and narrative arts, required for professional work in documentary films, game art and promotion, visualization, motion graphics, interactive art, illustration, and short animated film are offered. An intensive studio program, this curriculum seeks to provide you with knowledge, experience, and techniques of media arts informed by theory, experimentation, and critique. Extensive digital imaging and interactive media editing and production facilities afford you the opportunity to become highly proficient in the current skills and emerging practices necessary for remarkable work. The media arts are evolving and expanding their reach into culture and society in daily life and global experience. The revolutions in 3D printing, embedded devices, and robotics are changing the landscape in which the media artist will operate. This degree seeks to prepare you to meet the challenges of continuous change with adaptive ingenuity.

The BFA in media arts is offered with the following concentration options:

- Without concentration
- With a concentration in animation
- With a concentration in photography
- With a concentration in video art

BFA in Design

Design is the practice-based discipline raising important questions about—and providing significant answers to—how we live. Designers are needed when we don't know what is needed. Designers propose alternative futures and create new choices using design principles and processes to create, compose, and construct meaning in diverse knowledge fields. Designers seek a broad understanding of principles and systems of perception, communication, and action. We offer concentrations in design practices of graphic and information design, interaction design, and experience design.

Graphic design makes messages and meaning using visual form and the integration of text and image. It often has a persuasive intention and uses rules of visual composition, form, and pattern to enable storytelling or to create attention and an ambience for consideration. Information design focuses on visualizing concepts and data to enhance human understanding of complex and vital knowledge.

Interaction design focuses on the creation of navigable interfaces and systems that allow audiences to achieve meaningful goals, connecting people to people and people to information and environments.

Experience design is a holistic systems approach to human and natural environments for life, liberty, and the pursuit of happiness. It seeks to improve the various human contexts in which we eat, sleep, travel, work, play, organize, and enjoy life.

As intensive studio programs, these curricula balance design history and theory with studio projects in all media. As a design analyst, inventor, interpreter, curator, and producer of information, interaction, and experience, you can integrate many facets of your university and liberal arts education.

The BFA in design is offered with the following concentration options:

- Without concentration
- With a concentration in graphic and information design
- With a concentration in interaction design
- With a concentration in experience design

BFA in Studio Art

Our BFA in studio art is offered in partnership with the School of the Museum of Fine Arts, Boston (SMFA), across Huntington Avenue from our campus. In this major your studio art classes are taken at the SMFA, which permits you to explore a wide range of artistic media including ceramics, drawing, film, glasswork, metal-smith, painting, performance, print and paper, sculpture, and sound in their extensive studio environments. Your art and design

history courses are taken in our department, and you have access to all the elective courses, co-op, and study-abroad programs; student resources; and activities that Northeastern students experience.

The BFA in studio art degree is awarded by Northeastern.

Combined Majors

The Department of Art + Design also offers the following combined majors:

- Game design combined major: For specific requirements and electives, see “BFA in Digital Art and Game Design” beginning on page 73.
- Interactive media combined major: For specific requirements and electives, see “BS in Business Administration and Interactive Media” beginning on page 67.
- Computer science combined majors: For specific requirements and electives, see “BS in Computer Science and Digital Art” beginning on page 70 and “BS in Computer Science and Interactive Media” beginning on page 71.

Minors

The Department of Art + Design offers the following minors:

- Animation
- Art
- Art history
- Experience design
- Game art
- Graphic and information design
- Interaction design
- Photography
- Video art

Preapproved Template Programs

The Department of Art + Design offers preapproved template programs in the following areas:

- Graphic and information design
- Interaction design
- Media arts
- Visual studies

Each template program may be paired with another preapproved template program to create a combined major; to see a list of current preapproved template programs, visit www.northeastern.edu/registrar/major-2.html.

Students may request admission to such a combined major via the Combined Major Approval Form (www.northeastern.edu/registrar/form-maj-comb.pdf), which requires approval by both disciplines/colleges together with an approved curriculum. For additional information on preapproved template programs, see “Student-Requested Combined Major” on page 27. For template program requirements, visit the myNEU Web Portal (www.myneu.neu.edu), click on the “Self-Service” tab, then on “My Degree Audit.”

Admission Requirements for Art + Design

There are specific admissions criteria for students entering majors in the Department of Art + Design. See “Admission Requirements for the College of Arts, Media and Design” in the Admission section of this catalog, page 5.

Angela Chin, *Administrative Officer*, commstudies@neu.edu

The Department of Communication Studies is committed to providing students with both the communication skills and the understanding of the communication process required to thrive in a complex and changing society. Majors are required to demonstrate a mastery of the fundamentals of effective communication, to learn the fundamentals of communication theory and practice, and to develop a distinct area of emphasis. Some of the more popular areas include argumentation and advocacy, organizational and health communication, international and intercultural communication, digital communication and social media, and media production. The curriculum is designed to enhance the understanding of human communication in a variety of contexts, to empower students to become informed and engaged citizens, and to provide the knowledge and skills required to live a rich personal and professional life.

Academic Progression Standards

Departmental probation will result from a cumulative GPA below 2.000. No more than two grades below a C in communication studies courses can be used to fulfill degree requirements. Dismissal from the major may occur as a result of two consecutive semesters on departmental probation.

Preapproved Template Program in Communication Studies

The Department of Communication Studies offers a preapproved template program that may be paired with another preapproved template program to create a combined major; to see a list of current preapproved template programs, visit www.northeastern.edu/registrar/major-2.html.

Students may request admission to such a combined major via the Combined Major Approval Form (www.northeastern.edu/registrar/form-maj-comb.pdf), which requires approval by both disciplines/colleges together with an approved curriculum. For additional information on preapproved template programs, see “Student-Requested Combined Major” on page 27. For template program requirements, visit the myNEU Web Portal (www.myneu.neu.edu), click on the “Self-Service” tab, then on “My Degree Audit.”

Games are now an important part of popular culture that have grown into the largest segment of the global entertainment industry. No longer constrained to computers and consoles, they have become ubiquitous across every facet of the media landscape. The industry has evolved from being dominated by large commercial studios, to a wider variety of scales and styles of game maker, and has expanded beyond entertainment to all areas of society from fine arts, to education, to government, to health, to science. The growth of digital games has generated renewed interest in physical and board games, as well as hybrid “transmedia” games that integrate a variety of different media platforms. The ability to think literally “outside the box” of conventional game platforms has become essential to surviving in this new games ecosystem. Games at Northeastern, a multicollege program spanning the College of Arts, Media and Design and the College of Computer and Information Science, is pushing the boundaries of innovation in games through multidisciplinary collaborations bridging design and research engaging a broad array of fields including psychology, computing, anthropology, humanities, social science, engineering, and emerging disciplines such as health informatics, network science, and digital humanities.

The multidisciplinary nature of games will both attract and produce students with varied interests in arts, expression, and the science of games to collaboratively explore the potential of games across media through critical making and research. Through shared and discipline-specific courses, undergraduates enroll in the BFA—which emphasizes creativity, design, and expression in games, or the BS—which focuses on realizing vision and innovation through technical implementation. The program also introduces students to the wide array of game genres and applications, from independent and art games, to serious documentary and activist games, to games for health, as well as research disciplines such as analytics and ethnography, human-computer interaction, and user testing. Students will push the boundaries of games, creating alternative gameplay, exploring new experiential and visual aesthetics, examining how people play and interact with games, or building the technological underpinnings to make it all work.

Each of the game degrees foster experiential learning opportunities utilizing diverse intersections of skills that merge theory and practice, art, and expression blended with technology.

They focus on establishing core skills that engage critical thinking as excellent preparation for professional practice in game creation and research or moving on to advanced study. Students will have an opportunity to develop tools to succeed, eagerness to innovate, and skills to become next-generation entrepreneurs in an ever-changing games landscape. Practical and technical experiential training will be offered via Northeastern's world-renowned co-op program.

Games at Northeastern currently offers three undergraduate degree programs: BFA in games, BS in computer science and game development, and BFA in digital art and game design. The program also offers an MS in game science and design as well as a certificate program in game analytics.

Entering the Major or Combined Majors

Students interested in games are encouraged to inquire and apply. Incoming freshmen may select any of our degree offerings directly upon application.

The curriculum shares a set of foundational courses, and each degree also has its own discipline-specific courses targeted to its own set of subdisciplines. Students interested in game design, specifically the creation of game mechanics and gameplay, as well as integration of game elements, would chose the BFA in games; those interested in visual arts as applied to games would take the BFA in digital art and game design; and those interested in computing and game development, implementing games through coding, and building underlying technologies, such as game engines, would take the BS in computer science and game development.

The BS in computer science and game development is inherently interdisciplinary and exposes students to both faculty and students from both CCIS and CAMD. The focus of the BS in computer science and game development is to learn the software development side of game implementation. In this degree, students have an opportunity to learn how to build high-quality software and games. They interact and collaborate with students in other game degrees through common courses they take together, which are project-oriented courses geared toward developing games for students' portfolios and resumé. Students will have a home college in the College of Computer and Information Science, but they will have a minimum of four interdisciplinary courses where they interact and work together with students in the BFA degrees. The BS is offered in both four- and five-year options.

The BFA in games curriculum seeks to give students the skills to communicate ideas and emotions through interactive media. The focus of the BFA degree is to explore games as an aesthetic and expressive form through critical analysis and creative, reflective practice. To reflect emerging trends in the video game industry, including broader platforms and audiences and more distribution channels, students will be oriented toward developing games and playful media in an independent creative context, preparing graduates to become leaders within a growing segment of the game industry. Curriculum is geared to cultivating the students' own unique creative voice through

courses that apply theory analysis to game-making practice across a wide range of media. Students are exposed to a wide variety of genres and contexts, as well as different ways of thinking about games content, platforms, and production. The program emphasizes experiential learning throughout the degree by collaborating with art practitioners, faculty, and researchers. Students are highly encouraged to seek summer co-ops in their sophomore/junior and junior/senior year. Students will have a home college in the College of Arts, Media and Design, but they will have a minimum of four interdisciplinary courses where they interact and work together with students in the BS degree. The BFA is completed in four years with two optional (but highly encouraged) summer co-ops.

The BFA in digital art and game design combined major offers students an opportunity to develop skills in the visual arts within games, while focusing on the depth of knowledge required to be successful in a highly competitive industry. The continuing revolution in digital computing and animation has produced a rapidly evolving field for artists who create aesthetics, characters, and environments for games. The combined majors encourage students to think and work collaboratively in multidisciplinary teams. The collaborative approach helps all team members to understand the context in which their asset contributions are used and to develop visual design skills in the service of larger experiential goals. Students have many opportunities to collaborate with their peers and work with students in all game design combined majors, culminating in a two-semester senior capstone. Students will have a home college in the College of Arts, Media and Design, but they will have a minimum of four interdisciplinary courses where they interact and work together with students in the BS degree. The BFA is completed in five years.

All degree offerings come together in several courses, including the following:

GAME 1110	Games and Society	4 SH
GAME 3700	Rapid Idea Prototyping for Games	4 SH
GAME 3800	Game Concept Development and Production	4 SH
GAME 4700	Game Design Capstone 1	4 SH
GAME 4701	Game Design Capstone 2	4 SH

The student's senior year in the program is devoted to integrating these components in a capstone project. Students work as interdisciplinary teams, drawing on their accumulated knowledge to develop and deliver a single original project.

Complete all courses listed below unless otherwise indicated.

Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

NU CORE REQUIREMENTS

See page 34 for requirement list.

COMPUTER SCIENCE COURSES**Computer Science Overview**

CS 1200	Computer Science/Information Science Overview 1	1 SH
CS 1210	Computer Science/Information Science Overview 2: Co-op Preparation	1 SH

Computer Science Fundamental Courses

A grade of C– or higher is required in each course:

CS 1800	Discrete Structures	4 SH
with CS 1801	Recitation for CS 1800	0 SH
CS 2500	Fundamentals of Computer Science 1	4 SH
with CS 2501	Lab for CS 2500	1 SH
CS 2510	Fundamentals of Computer Science 2	4 SH
with CS 2511	Lab for CS 2510	1 SH
CS 2800	Logic and Computation	4 SH
with CS 2801	Lab for CS 2800	1 SH

Upper-Level Computer Science Courses

CS 3500	Object-Oriented Design	4 SH
CS 3520	Programming in C++	4 SH
CS 3540	Game Programming	4 SH
CS 3650	Computer Systems	4 SH
CS 3700	Networks and Distributed Systems	4 SH
CS 4300	Computer Graphics	4 SH
CS 4500	Software Development	4 SH
CS 4800	Algorithms and Data	4 SH
CS 4850	Building Game Engines	4 SH

Computer Science Elective Course

Complete one of the following courses:

CS 4150	Game Artificial Intelligence	4 SH
IS 4300	Human Computer Interaction	4 SH

Computer Science Senior Seminar

CS 4000	Senior Seminar	1 SH
---------	----------------	------

GAME DESIGN COURSES**Game Design**

GAME 1110	Games and Society	4 SH
GAME 2010	The Business of Games	4 SH
GAME 2500	Foundations of Game Design	4 SH
GAME 3700	Rapid Idea Prototyping for Games	4 SH
GAME 3800	Game Concept Development and Production	4 SH
GAME 4700	Game Design Capstone 1	4 SH
GAME 4701	Game Design Capstone 2	4 SH

Game Design Elective

Complete one GAME course other than GAME 2150, GAME 3150, or GAME 3250.

Computer Science/Game-Related Electives

Complete two courses from the following list:

Any course in the GAME subject area other than GAME 2150, GAME 3150, or GAME 3250

Any course in the IM, ARTD, ARTE, ARTF, ARTG, ARTH, and ARTS subject areas

CS 2600 to CS 5999 but not CS 5010

IS 2000 to IS 5999 but not IS 4900

PHYS 2101	Physics Principles for Games	4 SH
MATH 1342	Calculus 2 for Science and Engineering	4 SH
ECON 2350	Statistics	4 SH
or PSYC 2320	Statistics in Psychological Research	4 SH

INTEGRATIVE REQUIREMENT

The integrative courses below are completed as part of the major requirements:

CS 3520	Programming in C++	4 SH
CS 3540	Game Programming	4 SH
CS 4150	Game Artificial Intelligence	4 SH
CS 4300	Computer Graphics	4 SH
CS 4850	Building Game Engines	4 SH
IS 4300	Human Computer Interaction	4 SH
MATH 1260	Math Fundamentals for Games	4 SH

GENERAL REQUIREMENTS**Psychology**

PSYC 1101	Foundations of Psychology	4 SH
-----------	---------------------------	------

Mathematics

A grade of C– or higher is required:

MATH 1260	Math Fundamentals for Games	4 SH
MATH 1341	Calculus 1 for Science and Engineering	4 SH

COMPUTER SCIENCE ENGLISH REQUIREMENT**College Writing**

ENGW 1111	First-Year Writing	4 SH
-----------	--------------------	------

Advanced Writing in the Disciplines

Complete one of the following courses. Students are strongly

encouraged to take ENGW 3302 but may substitute ENGW 3315:

ENGW 3302	Advanced Writing in the Technical Professions	4 SH
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	4 SH

REQUIRED GENERAL ELECTIVES

Complete three general electives. If the NU Core comparative study of cultures requirement is to be satisfied by taking a course, then it must be one of the general electives.

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION**RESIDENCY REQUIREMENT**

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

133 total semester hours required

Minimum 2.000 GPA required

BFA in Digital Art and Game Design

Complete all courses listed below unless otherwise indicated.

Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

NU CORE REQUIREMENTS

See page 34 for requirement list.

DIGITAL ART COURSES**Art and Design Learning Community**

ARTF 1000	Art and Design at Northeastern	1 SH

JONATHAN KAUFMAN, MA
Professor and Director

102 Lake Hall
617.373.3236
617.373.8773 (fax)
Susan Conover, *Academic Coordinator*, s.conover@neu.edu

The School of Journalism seeks to prepare students for careers in news and related communication fields. The program prepares future journalists and professional communicators in writing, editing, digital and social media, photography, video and audio production, design, and public relations. These skills have broad applications. Graduates of the program also go on to work in government, business, law, and teaching.

Students may enroll in a four- or five-year cooperative education program or a four-year program without co-op. The school strongly advises students to obtain cooperative education experience. The program offers some of the best co-ops and internships anywhere.

Graduates work for some of the world's best newspapers and magazines, radio and television stations, online publications, wire services, public relations departments, and advertising agencies.

Academic Progression Standards

Journalism majors and minors must be in good standing in accordance with university-wide requirements to remain in the major or minor.

BA in Journalism

Complete all courses listed below unless otherwise indicated.
Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

NU CORE REQUIREMENTS

See page 34 for requirement list.

REQUIREMENTS FOR BA

See page 35 for requirement list.

JOURNALISM MAJOR REQUIREMENTS

Students transferring from outside institutions must complete a minimum of five four-credit journalism courses at Northeastern, and these must include JRNL 2201, JRNL 2301, and JRNL 4650.

Journalism Courses

A grade of C or higher is required:

JRNL 1101	Journalism 1: Fundamentals of Reporting	4 SH
JRNL 2201	Journalism 2: Intermediate Reporting	4 SH

JRNL 2301	Visual Storytelling in Journalism	4 SH
JRNL 3610	Digital Storytelling in Journalism	4 SH

Required Journalism

JRNL 1150	Interpreting the Day's News	4 SH
JRNL 2350	History of Journalism	4 SH
JRNL 3550	Law of the Press	4 SH
JRNL 4650	Journalism Ethics and Issues	4 SH

Journalism Electives

Media and Screen Studies Program*

Media and screen studies educates students in the analysis and production of media. Taught from a liberal arts perspective, a media and screen studies degree seeks to give students the ability to think critically about the continually changing media industry and the complex world in which it exists and to apply that knowledge to media production. MSCR is a challenging degree that is not limited to what is traditionally offered at a film school or in a visual and performing arts degree. It gives students the tools to become engaged citizens equipped to meet the challenges of living in a global culture defined by technological and social change.

The BA in media and screen studies offers courses in analysis and practice. Required courses offer students an opportunity to obtain the critical thinking skills necessary to better understand media content, media technology, and media production. Students then decide how many production and analysis courses they want to take. Choosing from a broad range of electives, students can take more than half their major in media and film production courses, can take a majority of courses that critically examine media content and technology, or can combine courses in other ways.

Students may pursue a BA in media and screen studies or may enroll in one of the preexistent media and screen studies combined majors. Media and screen studies has combined majors with communication studies, English, journalism, political science, sociology, and theatre. Students may also petition for new combinations, making use of the half-major template in media and screen studies.

Academic Progression Standards

For media and screen studies, majors must maintain at least a 2.500 GPA in their overall program of studies and a minimum of 3.000 in the following two required courses:

MSCR 1220	Media, Culture, and Society	4 SH
MSCR 2220	Understanding Media and Film	4 SH

Preapproved Template Program in Media and Screen Studies

Media and screen studies offers a preapproved template program that may be paired with another preapproved template program to create a combined major; to see a list of current preapproved template programs, visit www.northeastern.edu/registrar/major-2.html.

Students may request admission to such a combined major via the Combined Major Approval Form (www.northeastern.edu/registrar/form-maj-comb.pdf), which requires approval by both disciplines/colleges together with an approved curriculum. For additional information on preapproved template programs, see “Student-Requested Combined Major” on page 27. For template program requirements, visit the myNEU Web Portal (www.myneu.neu.edu), click on the “Self-Service” tab, then on “My Degree Audit.”

The Department of Music approaches the study of music from a global, multicultural, and multifaceted perspective. The department offers three concentrations in the context of a broad liberal arts program.

The music industry concentration is the first such undergraduate program in Boston. It is designed for students with an interest in fields such as artist management, the music products industry, the record industry, arts administration, contracting and legal issues, the recording process, and studio techniques. Developed in collaboration with Northeastern's D'Amore-McKim School of Business, the music industry concentration leads to a Bachelor of Science degree.

The music history and analysis concentration includes courses in Western classical music, American music, world music, music theory, and ear training. Students may combine this concentration with the minor in music performance, which entails an audition, private lessons, ensemble performance, and two recitals. They may also combine this concentration with a minor in music industry, ethnomusicology, or musical theatre. The music history and analysis concentration leads to a Bachelor of Arts degree.

The music composition and technology concentration focuses on music composition. Rooted in the Western art music tradition, students study composition for both acoustic and electronic instruments and explore ways in which electronic and computer-based technologies continue to challenge and enhance our notion of music composition and performance. Creative works that focus on sound synthesis, processed recordings, and/or the interaction between live instruments and electronic sounds are just some of the exciting interests that students pursue. The concentration seeks to provide students with a thorough background in music, including theory and history, as well as skills in sound design, synthesis, and production.

Through an exchange program, students may attend classes at the New England Conservatory of Music. Students also share an array of high-tech and multimedia equipment.

While some music courses are designed for music majors, the department also offers elective survey courses. Several of these courses fulfill the university's core curriculum requirement.

An extensive concert series offers a variety of performances by students, faculty, and guest artists. Students also have the opportunity to participate in active choral groups, bands, chamber ensembles, and the university orchestra.

Academic Progression Standards

Students must maintain at least a B– average in all major courses. Students must complete all required music courses with grades of at least C. Students who fail to meet the above standards will be placed on departmental probation. Students who remain on probation for two consecutive semesters will be dropped from the major.

Preapproved Template Programs in Music and in Music Industry

The Department of Music offers preapproved template programs in music and in music industry. Each template program may be paired with another preapproved template program to create a combined major; to see a list of current preapproved template programs, visit www.northeastern.edu/registrar/major-2.html.

Students may request admission to such a combined major via the Combined Major Approval Form (www.northeastern.edu/registrar/form-maj-comb.pdf), which requires approval by both disciplines/colleges together with an approved curriculum. For additional information on preapproved template programs, see “Student-Requested Combined Major” on page 27. For template program requirements, visit the myNEU Web Portal (www.myneu.neu.edu), click on the “Self-Service” tab, then on “My Degree Audit.”

NEC/NU Joint Certificate Programs in Music Performance

The School of Continuing Education at the New England Conservatory (NEC) and the Department of Music at Northeastern University (NU) jointly offer a General Certificate of Merit in Music Performance (24 credits) and a Professional Studies Certificate in Music Performance (48 credits). These programs are geared toward NU undergraduate and graduate students who are interested in improving their abilities to perform on an instrument or voice in the classical or jazz styles.

The certificate in music performance is *in addition to* the student’s NU undergraduate or graduate degree—it is an entirely separate and distinct credential. Credits for courses toward the music performance certificate are accumulated and billed separately from credits toward NU undergraduate or graduate degree programs and are not eligible for financial aid. However, NU courses taken for major, minor, or elective credit in undergraduate degree programs may also be applied toward the performance certificate.

Courses are offered at NEC (predominantly related to music performance) and at NU (predominantly related to music history and music theory). NEC courses are scheduled during evenings and weekends.

The Northeastern Department of Theatre is a community dedicated to creativity, collaboration, and excellence in the pursuit of innovative ways to see, to investigate, and to make theatre for a new generation. We offer students a transformative education by aligning performance and production with academic inquiry and professional experiential learning. Our curriculum embraces diverse techniques, philosophies, and measures of success.

Connecting classroom experiences to the stage, we produce a diverse season of plays and musicals, ranging from classical theatre to world premieres. Nearly fifty performances take place annually in the Studio Theatre, where students collaborate with faculty and professional guest artists to achieve the highest standard of professionalism. With more than thirty co-op partners around the globe, students can unite the career elements of a conservatory program with the comprehensive education of a liberal arts degree.

Our multidimensional students develop a unique understanding of creative entrepreneurship. They are actors, directors, designers, technicians, playwrights, stage managers, producers, and administrators. With generosity, integrity, respect, and rigor, we explore theatre as a living art that engages with our global society and the moment in which we live.

Academic Progression Standards

Students must receive a minimum grade of 2.000 in major courses. The following courses must be taken by the end of the fourth semester (third semester for transfer students):

THTR 1101	Introduction to Theatre	4 SH
THTR 1120	Acting 1	4 SH
THTR 1131	Technical Theatre 1	4 SH

Preapproved Template Program in Theatre

The Department of Theatre offers a preapproved template program that may be paired with another preapproved template program to

create a combined major; to see a list of current preapproved template programs, visit www.northeastern.edu/registrar/major-2.html.

Students may request admission to such a combined major via the Combined Major Approval Form (www.northeastern.edu/registrar/form-maj-comb.pdf), which requires approval by both disciplines/colleges together with an approved curriculum. For additional information on preapproved template programs, see “Student-Requested Combined Major” on page 27. For template program requirements, visit the myNEU Web Portal (www.myneu.neu.edu), click on the “Self-Service” tab, then on “My Degree Audit.”

Modern business faces many opportunities and challenges due to increasing globalization of economies; political change; and the effects of foreign policy, technological advances, regulatory policies, and economic policies. The result is increased demand for highly trained individuals equipped to analyze and address this changing environment.

Programs in the D'Amore-McKim School of Business are designed for students who are preparing to take on managerial responsibility. These programs seek to help students develop the ability to recognize and solve business and organizational problems and understand the role of business in the community, the nation, and the world. The school's goals are to help students develop ideals that are ethically sound and socially desirable; cultivate an awareness of the social, political, and economic developments to which businesses must adapt; develop sound judgment and effective communication skills; and develop their individual interests and talents.

The school offers Bachelor of Science degrees in international business and in business administration with concentrations in accounting, entrepreneurship and innovation, finance, management, information management, supply chain management, and marketing. The business curriculum is enhanced by courses in the sciences, humanities, and social sciences. In addition to their academic courses, all students are required to complete a cooperative education plan.

Co-op provides a learning experience beyond the classroom. Textbook examples come to life in real-world business settings where business theories are applied to actual business problems. In turn, these experiences serve to stimulate inquiry and discussion back in the classroom. This interaction between college studies and cooperative education sets the stage for a lifetime of learning.

The undergraduate program of the D'Amore-McKim School of Business meets the standards of the American Assembly of Collegiate Schools of Business for faculty and student quality, curriculum design, and overall university support.

After graduation, students may obtain jobs in all aspects of business, both domestically and internationally, as well as in nonprofits and government.

Academic Progression Standards

In addition to meeting the university progression standards, students must achieve a 2.000 GPA in business courses.

Freshmen must complete at least 32 semester hours (SH) in order to progress to sophomore status. Freshmen who earn fewer than 32 SH must make up the difference prior to graduation. Students beyond the freshman year must complete at least 16 SH each in-school (not on co-op) full semester and 8 SH each in-school summer half semester in order to progress to the next class standing.

Students who do not meet academic progression standards will be placed on academic probation and may be subject to dismissal from the university.

Pass/Fail Option

D'Amore-McKim School of Business students may opt to take courses on a pass/fail basis in accordance with university policy but should be aware that this policy applies to nonbusiness courses that will count as open electives only. Business courses may not be taken pass/fail under any circumstance.

Taking Courses While on Co-op

It is D'Amore-McKim School of Business policy that, with permission of their academic advisor, co-op coordinator, and employer, students may take a maximum of one class while on co-op during the fall, spring, or summer term. Students should initiate this process by filling out the appropriate paperwork with their co-op coordinator.

External Transfer to the D'Amore-McKim School of Business

External transfer students are accepted from other academic institutions during the fall and spring terms. Applications and accompanying materials are submitted directly to the Admissions Office.

The D'Amore-McKim School of Business at Northeastern University is accredited by the Association for the Advancement of Collegiate Schools of Business (AACSB) and as such complies with the following regulations governing the transferring of credit:

Courses from an AACSB-accredited institution:

Students may transfer a maximum of 80 SH of credit. A combination of 60 SH of nonbusiness courses and/or 28 SH of business courses will be accepted; 64 SH may be applied as credits toward the degree.

Courses from a non-AACSB-accredited institution:

Students may transfer a maximum of 60 SH of credit. A combination of 52 SH of nonbusiness courses and/or 20 SH of business courses will be accepted.

Some courses are not eligible for transfer. Check with the Office of Undergraduate Admissions for more details.

Graduation Requirements

The school reserves the right to amend programs, courses, and degree requirements to fulfill its educational responsibility to respond to relevant changes in the field.

Bachelor of Science degree candidates must complete all prescribed work of the curriculum in which they seek to qualify, currently 128 SH. The degree not only represents the formal completion of selected courses, but also indicates professional study in the major or concentration. A GPA of 2.000 and a C average in all business courses are required for graduation. Students must be enrolled in a full program of studies in the D'Amore-McKim School of Business during the final four semesters preceding graduation (64 SH).

INTERDISCIPLINARY MINORS

Students who wish to enter one of the minor programs listed below should sign up in the Undergraduate Business Programs Office, 250 Dodge Hall. Students who complete all five courses successfully and have earned at least a C (2.000) average in them will be awarded the minor at graduation.

Business Administration

The minor in business administration introduces nonbusiness students to the key functional areas in business, providing a broad overview of the business world. The minor is available to nonbusiness students only.

Entrepreneurship

The Center for Entrepreneurship Education is a university-wide resource that integrates entrepreneurship and innovation courses, entrepreneurial co-ops in early stage companies, venture incubation through the on-campus IDEA program, and venture launch by helping entrepreneurs raise startup funds from the local angel and venture capital community.

One of the flagship programs of the center is a minor in entrepreneurship. The minor introduces students to the challenges and opportunities associated with starting and growing their own business. Students are exposed to innovation, marketing, and business modeling skills and have an opportunity to develop prototypes for their new ideas. They will then work in interdisciplinary teams to develop business plans suitable for their ventures. Support is provided to help students advance their

ventures through IDEA, the venture incubator. Students are also encouraged to participate in the nationally recognized Entrepreneurs Club.

The minor in entrepreneurship allows nonbusiness students to explore their major discipline through a completely different lens and to potentially launch a new venture. Business students should pursue a concentration or dual concentration in entrepreneurship and innovation.

For more information, contact the program coordinator, Dr. Gordon Adomdza, in 218C Hayden Hall, at 617.373.6028, or at g.adomdza@neu.edu. Also visit the program website, www.northeastern.edu/entrepreneurship.

A concentration in accounting aims to prepare the graduate for entry into public accounting or private industry in a highly valued career. Accounting is a dynamic profession that requires people to possess sound technical knowledge, critical thinking skills, superior interpersonal skills, and the ability to communicate effectively. Accountants hold senior management positions in private companies in business or industry, public accounting firms, and government agencies.

To prepare for an accounting career, students take courses in financial reporting, managerial accounting, and intermediate accounting, with additional elective courses available for more specialized studies in strategic cost analysis, auditing and other assurance services, income tax planning, and accounting information systems. Students wishing to sit for the CPA exam may combine the BSBA with a concentration in accounting with the Master of Science in Accounting (five-year BSBA/MSA program).

Marc H. Meyer, *Robert J. Shillman Professor of Entrepreneurship, Matthews Distinguished Professor, and Group Coordinator*, ma.meyer@neu.edu

Entrepreneurship and innovation offers a dynamic set of courses for students considering career paths as either startup entrepreneurs or corporate innovators. In addition to the general concentration, we also offer three specific tracks of study: technology entrepreneurship, family business entrepreneurship, and social entrepreneurship. We also offer exciting co-op jobs in a broad range of early stage firms as well as more established companies, including family businesses. Teaching you are professors who have also been entrepreneurs and innovators in their own careers and who are now accomplished researchers. This makes our courses both cutting edge and “real world.”

There are also specialized field study programs abroad called Dialogues of Civilization in places such as South Africa, India, and Ireland. By taking one of these dialogues, a student has an opportunity to earn the right to use the global designation on his or her resumé, i.e., global technology entrepreneurship, global family business entrepreneurship, or global social entrepreneurship.

The Northeastern Center for Entrepreneurship Education (NUCEE) is a university-wide program that helps undergraduate and graduate students, as well as alumni, start new companies. This is a system of experiential entrepreneurship education: Classroom education and co-ops are the first step. The next step is incubating new ventures right on campus in the student-led organization, IDEA. With our support, many of these ventures launch as funded and self-sustaining companies in the field. The Entrepreneurship and Innovation Group is the platform for many of these activities (www.northeastern.edu/entrepreneurship).

In addition to NUCEE, the Entrepreneurship and Innovation Group provides leadership with the Center for Family Business and the globally recognized Social Enterprise Institute (SEI). The Center for Family Business runs local programs that offer members advice and guidance on the many different aspects of running a family business, while SEI provides microfinance and small-business consulting field trips abroad.

Whether you wish to concentrate in entrepreneurship and innovation or use it as a dual concentration (such as with finance or marketing), these courses are important components of business education in today’s economy. Even if you don’t wish to start your own company, *entrepreneurial thinking* is a valued attribute of every executive in companies of all sizes and in all industries.

The role of people trained in finance is expanding rapidly within the business world. Changes on the financial scene—rising securities prices, fluctuating inflation, currency values and interest rates, and globalization of markets—have created an awareness that financial knowledge is essential to the effective management of business firms and many other types of organizations.

Finance is the management of real and monetary assets for businesses, financial institutions, nonprofit organizations, governments, and individuals. Finance courses draw on accounting principles, economic theory, and quantitative methods. These courses develop methods to direct the way capital is acquired and managed. Students are exposed to economic and financial systems and how they operate. They also are given an opportunity to analyze economic trends and indicators and how to apply this analysis to financial decision making.

Students may specialize in one or more of the following areas: corporate finance, investment management and analysis, risk management, and real estate. The program is designed to prepare students for careers in corporate financial management, security analysis, investment management, security or insurance brokerage, credit management, and risk management with corporations, banks, insurance companies, and other financial institutions.

In the global information age, success for individuals and for companies requires the ability to manage information effectively. To that end, the goal of the information management concentration is to teach future managers how to use information systems and information technology to help organizations and individuals perform more efficiently and effectively. This can lead the student in two career directions:

- To become a professional in the information systems function of a company or in an IS consulting company.
- To accelerate and enhance a career in another functional area such as accounting, finance, marketing, etc.

Understanding how to get the right information in the right form and format to the right people at the right time is essential in today's business world, especially when companies and the individuals that do this well are achieving significant competitive advantage. Students have an opportunity to develop new, cutting-edge approaches that allow them to use the powerful resource of information to its greatest advantage. They also have the opportunity to develop technical and problem-solving skills that are in high demand by employers.

Managers in the information-systems function need to interact frequently with other managers throughout an organization. Therefore, students are encouraged to complete a dual concentration in information management and another area of business. Graduates of this program have a wide range of career paths that suit their particular interests. Professional options include business/systems analyst, database designer and administrator, webmaster, software help-desk expert, project specialist, consultant, network administrator, and IT specialist within other departments, such as financial services, accounting, marketing, or manufacturing.

Christopher J. Robertson, *Professor and Group Coordinator*,
c.robertson@neu.edu

Globalization of the world economy, the growth of multinational firms, and international trade have created an increasing demand for managers who are equipped to address the complexities of international business. The D'Amore-McKim School of Business offers the Bachelor of Science in International Business (BSIB) to meet the needs of the highly motivated student who plans a career in international business whether abroad or in the United States. This program, the first of its kind in the United States, was initiated in 1994.

The primary purpose of the BSIB is to simulate an expatriate assignment opportunity that any manager may encounter during his or her career. To achieve this goal, the D'Amore-McKim School of Business partners with a group of business schools around the world that have a similar philosophy of preparing globally minded managers. The BSIB has been designed for the student to complete the first three years of study and work in the United States. Then, the student completes the final two years of course work overseas at one of our partner institutions. During this time, the student must complete a cooperative education work assignment in the host country. After successfully completing his or her course work and cooperative education assignment, the student earns both the Northeastern University BSIB and the partner university's undergraduate degree. A student may opt to complete only one academic year of overseas study that includes the cooperative education work assignment. In this case, the student will return to Boston and complete the BSIB program and earn only the Northeastern University BSIB.

All students in the BSIB program must take the degree's required courses in international business administration and must choose a concentration from other business areas such as accounting, entrepreneurship, finance, marketing, management, information management, and supply chain management.

The BSIB student has two program options. The first leads to proficiency in a foreign language; the second focuses on international affairs or East Asian studies.

- a. Students who opt for the BSIB with a foreign language emphasis are admitted to a Chinese, French, German, Italian, Japanese, Portuguese (Brazil), or Spanish (Spain or Mexico) track. They are expected to develop proficiency in their chosen language and study the culture of the country or countries where that language is spoken. While abroad, students are required to study courses in their business curriculum and complete their work assignment in the language of the partner

university. This immersion in the local culture is designed to sharpen their language proficiency, their cross-cultural capabilities, and their business skills. At the end of their overseas experience, they will earn a minor in their chosen language. For students who study in China and Japan, course work is conducted in English. However, the program requires a strong language preparation that is essential to function in daily life and to broaden the student's options for securing a cooperative education assignment. The option of earning two degrees is not available for the Chinese or Japanese track.

b. Students may opt for the BSIB with an emphasis leading to a minor in international affairs and study in England or Ireland. As with students in the language tracks, they must complete one six-month cooperative education work assignment in the host country in order to sharpen their cross-cultural capabilities and business skills. The international affairs option has a foreign language requirement.

Managing people, projects, and programs requires a considerable range of knowledge and skills. Effective managers must understand the business, be interpersonally competent, behave ethically, and diagnose and deal with human and organizational dynamics. The aim of the management concentration is both to increase knowledge of management so that students have a strong substantive “core” and to increase management skills. This includes studying the principles of motivation, leadership, negotiation, conflict resolution, project management, managing teams, organizational change, and their impact on business results. In addition, students have the opportunity to improve their managing skills.

The curriculum offers courses in a range of relevant management topics. Some of the courses, including the required core course, are primarily skills-oriented; they teach “how to.” Others are more content-oriented; they teach “about management.”

According to the American Marketing Association, marketing is “an organizational function and a set of processes for creating, communicating, and delivering value to customers, and for managing customer relationships in ways that benefit the organization and its stakeholders.” Create something people want, tell them about it, and deliver it to them in a way so that everyone benefits.

The concentration in marketing offers students an opportunity to develop an understanding of the role of the marketing function in the organization as well as detailed insight into various aspects of marketing processes, including strategy, buyer behavior, market research and analytics, digital and mobile media, marketing communications, sales, services, and new product development. Students prepare for possible careers in areas such as brand and product management, digital marketing, marketing research, marketing communications, and sales and account management.

From the *Fortune* 500 manufacturer to the small firm that produces, sells, or distributes products, all companies have a supply chain function that must be effectively managed if they are to be competitive. A supply chain manager is typically involved in making critical decisions about such matters as the modes of transportation used to move the company's materials and products, inventory policies, warehousing needs, customer service standards, and the location of facilities.

As companies become increasingly involved in global markets as both buyers and sellers, supply chain managers play a major role not only in assessing the feasibility of international activity but also in developing supply and distribution networks to support that involvement.

Because supply chain managers frequently interact with those involved in other areas of management, many supply chain management students have chosen to complete a second concentration in such areas as marketing, information management, finance, or international business.

In addition to finding career opportunities with manufacturers, retailers, and distributors, supply chain management students may find similar opportunities with companies that sell supply chain services or transportation services in the marketplace. Consulting firms and government agencies at the federal, state, and local levels provide other career options.

Computing has transformed the way people work and live, and its applications are limitless. Today, an understanding of computing is critical in business, healthcare, science, digital art, and other areas of our information-driven society. Computing knowledge and computing technology also contribute to resolving major issues in an increasingly complex world.

The College of Computer and Information Science offers undergraduate programs that combine a strong foundation in computing with the opportunity to acquire a deep knowledge of another discipline in which computing plays a critical role. The college offers undergraduate degree programs in computer science (BS and BA) and information science (BS); combined majors with business administration, cognitive psychology, biology, mathematics, physics, environmental science, game design, interactive media, digital art, music technology, and journalism; and a combined major in computer science and information science. The BS in computer science emphasizes strong technical competence in computer science, mathematics, science, and electrical engineering. The BA in computer science combines computer science with a broad-based liberal arts education. The BS in information science integrates studies in computer science, behavioral science, business, and social science. The BS in computer science with concentration in cyber operations extends the regular BS in computer science by requiring a significant number of courses in security and in networks both wired and wireless. This program is one of the initial four programs selected in 2012 by the National Security Agency as a National Center of Academic Excellence in Cyber Operations Program.

Academic Progression Standards

The following are the minimum requirements for freshmen to achieve sophomore status.

- At least 25 semester hours of credit
- A minimum overall GPA of 1.800
- A minimum computer science GPA of 1.800
- Successful completion of the following required courses:
 - CS 1800 and CS 2500, each with a grade of at least C–
 - ENGW 1111 or equivalent ENGW 1102

The minimum overall GPA values required for students to advance to the next rank and to graduate are:

Middler	2.000
Junior	2.000
Senior	2.000
To graduate	2.000

In addition, students must achieve a minimum overall GPA of 2.000 and a minimum overall GPA in CS/IS courses of 2.000 for graduation.

Program Length

The College of Computer and Information Science prides itself on flexibility and a very supportive advising staff. Depending upon the number of entry-level/transfer credits, the academic program, and student planning, it is possible to complete the program within four years with at least one experiential experience and usually with two such experiences.

COMPUTER SCIENCE

Computer science involves the application of theoretical concepts in the context of software development to the solution of problems that arise in almost every human endeavor. Computer science as a discipline draws its inspiration from mathematics, logic, science, and engineering. From these roots, computer science has fashioned paradigms for program structures, algorithms, data representations, efficient use of computational resources, robustness and security, and communication within computers and across networks. The ability to frame problems, select computational models, design program structures, and develop efficient algorithms is as important in computer science as software implementation skill. Computer science is concerned with bringing together all of the intellectual resources needed to enable the rapid and effective development of software to meet the needs of business, research, and end users.

The goal of the undergraduate program in computer science is to teach students the conceptual and practical skills that will enable them to contribute to the development of computational principles and to play a productive role in the software community. To that end, the undergraduate program focuses on the fundamentals of program design including object-oriented design, software development, computer organization, systems and networks, theory of computation, principles of languages, and advanced algorithms and data. The program also offers a variety of electives at the upper undergraduate and beginning graduate levels ranging from more theoretical courses to those that focus on important applications.

The BS in computer science with concentration in cyber operations is one of the initial four programs selected in 2012 by the National Security Agency as a National Center of Academic Excellence in Cyber Operations Program.

BSCS—Bachelor of Science in Computer Science

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

NU CORE REQUIREMENTS

COMPUTER SCIENCE MAJOR REQUIREMENTS

Computer Science Overview

CS 1200	Computer Science/Information Science Overview 1	1 SH
CS 1210	Computer Science/Information Science Overview 2: Co-op Preparation	1 SH

Computer Science Fundamental Courses

A grade of C– or higher is required in each course:

CS 1800	Discrete Structures	4 SH
with CS 1801	Recitation for CS 1800	0 SH

CS 2500	Fundamentals of Computer Science 1	4 SH
with CS 2501	Lab for CS 2500	1 SH
CS 2510	Fundamentals of Computer Science 2	4 SH
with CS 2511	Lab for CS 2510	1 SH
CS 2800	Logic and Computation	4 SH
with CS 2801	Lab for CS 2800	1 SH

Computer Science Required Courses

CS 3500	Object-Oriented Design	4 SH
CS 3650	Computer Systems	4 SH
or CS 3600	Systems and Networks	4 SH
CS 3700	Networks and Distributed Systems	4 SH
or CS 2600	Computer Organization	4 SH
CS 3800	Theory of Computation	4 SH
CS 4400	Programming Languages	4 SH
CS 4500	Software Development	4 SH
CS 4800	Algorithms and Data	4 SH

Computer Science Senior Seminar

CS 4000	Senior Seminar	1 SH
---------	----------------	------

Computer Science Capstone

Complete one of the following courses:

CS 4100	Artificial Intelligence	4 SH
CS 4300	Computer Graphics	4 SH
CS 4410	Compilers	4 SH
CS 4150	Game Artificial Intelligence	4 SH
CS 4550	Web Development	4 SH
CS 4650	High Performance Computing	4 SH

CS 4991	Research	4 SH
IS 4900	Information Science Senior Project	5 SH
IS 4991	Research	4 SH

Computer Science Upper-Division Electives

Complete two courses in the following ranges. With advisor approval, directed study, project study, and appropriate graduate-level courses may also be taken as upper-division electives:

CS 2500 to CS 7999 but not CS 5010

IS 2000 to IS 7999 but not IS 4900

ADDITIONAL COURSES FOR BS

Mathematics Courses

A grade of C– or higher is required in MATH 1341 and MATH 1342:

MATH 1341	Calculus 1 for Science and Engineering	4 SH
MATH 1342	Calculus 2 for Science and Engineering	4 SH
MATH 2331	Linear Algebra	4 SH
MATH 3081	Probability and Statistics	4 SH

Computing and Social Issues

Complete one of the following courses:

SOCL 4528	Computers and Society	4 SH
SOCL 3485	Environment, Technology, and Society	4 SH
ANTH 3418	Wired/Unwired: Cybercultures and Technopolitics	4 SH
IA 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	4 SH

Science Requirement

Complete two courses for one of the following sciences:

BIOLOGY

Complete the “Biology 1” section, and complete one course from the “Additional Biology” section:

BIOLOGY 1

BIOL 1111	General Biology 1	4 SH
with BIOL 1112	Lab for BIOL 1111	1 SH

ADDITIONAL BIOLOGY

BIOL 1113	General Biology 2	4 SH
with BIOL 1114	Lab for BIOL 1113	1 SH
BIOL 2301	Genetics and Molecular Biology	4 SH
with BIOL 2302	Lab for BIOL 2301	1 SH

CHEMISTRY

CHEM 1211	General Chemistry 1	4 SH

with ENVR 1201	Lab for ENVR 1200	1 SH
ENVR 1202	History of Earth and Life	4 SH
with ENVR 1203	Interpreting Earth History	1 SH

GEOLOGY/ENVIRONMENTAL SCIENCE (OPTION 2)

Complete ENVR 1200, ENVR 1201, and one additional course from the following list:

ENVR 1200	Dynamic Earth	4 SH
ENVR 1201	Lab for ENVR 1200	1 SH
ENVR 2310	Earth Materials	4 SH
with ENVR 2311	Lab for ENVR 2310	1 SH
ENVR 2340	Earth Landforms and Processes	4 SH
with ENVR 2341	Lab for ENVR 2340	1 SH
ENVR 3300	Geographic Information Systems	4 SH
with ENVR 3301	Lab for ENVR 3300	1 SH
ENVR 4106	Coastal Processes	4 SH
with ENVR 4107	Lab for ENVR 4106	1 SH
ENVR 4500	Applied Hydrogeology	4 SH
with ENVR 4501	Lab for ENVR 4500	1 SH
ENVR 5244	Sedimentation	4 SH
with ENVR 5245	Lab for ENVR 5244	1 SH

GEOLOGY/ENVIRONMENTAL SCIENCE (OPTION 3)

ENVR 1202	History of Earth and Life	4 SH
with ENVR 1203	Interpreting Earth History	1 SH
ENVR 5242	Ancient Marine Life	4 SH
with ENVR 5243	Lab for ENVR 5242	1 SH

PHYSICS

Complete one of the following sequences:

SEQUENCE A

PHYS 1145	Physics for Life Sciences 1	4 SH
with PHYS 1146	Lab for PHYS 1145	1 SH
PHYS 1147	Physics for Life Sciences 2	4 SH

COMPUTER SCIENCE ENGLISH REQUIREMENT**College Writing**

ENGW 1111	First-Year Writing	4 SH
-----------	--------------------	------

Advanced Writing in the Disciplines

Complete one of the following courses. Students are strongly encouraged to take ENGW 3302 but may substitute ENGW 3315:

ENGW 3302	Advanced Writing in the Technical Professions	4 SH
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	4 SH

REQUIRED GENERAL ELECTIVES

Complete eight general electives. One of these electives must be used to satisfy the NU Core arts/humanities level 1 requirement, and one must be used to satisfy the NU Core social science level 1 requirement. If the NU Core comparative study of cultures requirement is to be satisfied by taking a course, then it must also be one of the general electives.

MAJOR GPA REQUIREMENT

Minimum 2.000 GPA required in all CS and IS courses

COMPUTER SCIENCE CREDIT REQUIREMENTS

Complete 60 semester hours in the major. Acceptable courses for this requirement include all CS courses and any courses from the following list:

IS 4200	Information Retrieval	4 SH
IS 4300	Human Computer Interaction	4 SH
with MATH 2310	Discrete Mathematics	4 SH

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION**RESIDENCY REQUIREMENT**

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

135 total semester hours required
Minimum 2.000 GPA required

ENGW 1111	First-Year Writing	4 SH
-----------	--------------------	------

Advanced Writing in the Disciplines

Complete one of the following courses. Students are strongly encouraged to take ENGW 3302 but may substitute ENGW 3315:

ENGW 3302	Advanced Writing in the Technical Professions	4 SH
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	4 SH

REQUIRED GENERAL ELECTIVES

Complete five general electives. One of these electives must be used to satisfy the NU Core arts/humanities level 1 requirement, and one must be used to satisfy the NU Core social science level 1 requirement. If the NU Core comparative study of cultures requirement is to be satisfied by taking a course, then it must also be one of the general electives.

MAJOR GPA REQUIREMENT

Minimum 2.000 GPA required in all CS and IS courses

COMPUTER SCIENCE CREDIT REQUIREMENT

Complete 60 semester hours in the major. Acceptable courses for this requirement include all CS courses and any courses from the following list:

IS 4200	Information Retrieval	4 SH
IS 4300	Human Computer Interaction	4 SH
MATH 2310	Discrete Mathematics	4 SH

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION**RESIDENCY REQUIREMENT**

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

135 total semester hours required
Minimum 2.000 GPA required

BACS—Bachelor of Arts in Computer Science

Complete all courses listed below unless otherwise indicated.
Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

2.000 GPA required in the minor

INFORMATION SCIENCE

Unlocking the full potential of information technology—ensuring that it serves the goals and needs of users, clients, and society—is a tremendous challenge, one that requires a unique blend of knowledge and skills. The field of information science (IS) focuses on the relationship between computers, the people who use them, and the contexts in which they operate. IS seeks to further our understanding of: (1) information itself: where it comes from, how it is organized, and how it is used; (2) the design of computer applications that are usable, socially acceptable, and achieve the goals for which they were created; (3) the impact of information technology (IT) on human life and work; and (4) how the nature of the information, the goals of the users, and the relevant social policies and laws both influence and are influenced by the technical aspects of computer systems.

Information science majors have an opportunity to acquire a strong technical foundation by taking classes in mathematics, logic, and computer science and to acquire a strong foundation in behavioral science by taking classes in cognitive psychology, economics, and statistics. A course in the principles of information science introduces students to important intellectual frameworks such as decision theory, general systems theory, and social informatics, and to topics of current importance such as digital copyright, trusted systems, and Internet privacy policy. Building on these foundations, the IS core develops expertise in the design, development, management, maintenance, and evaluation of large-scale information technology systems. Elective courses cover topics such as software project management, text/hypertext retrieval and data mining, social information systems, health informatics, ubiquitous computing, artificial intelligence, information security, and e-commerce.

BSIS—Bachelor of Science in Information Science

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

INFORMATION SCIENCE ELECTIVES

Complete two of the following courses:

IS 2000 to IS 4989		
CS 3200	Database Design	4 SH

GPA REQUIREMENT

2.000 GPA required in the minor

COMPUTER AND INFORMATION SCIENCE COMBINED MAJORS

The college offers combined majors with business administration, cognitive psychology, biology, mathematics, physics, environmental science, game design, interactive media, digital art, music technology, and journalism, as well as a combined major in computer science and information science. Each of the combined majors offers the opportunity for intense study in two disciplines with appropriate breadth in the liberal arts. Students take nine to thirteen courses in each discipline (or a related discipline) and at least one integrative course that binds the disciplines together. These programs offer an excellent educational opportunity for the ambitious student.

BS in Computer Science and Information Science

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

NU CORE REQUIREMENTS

See page 34 for requirement list.

COMPUTER SCIENCE COURSES

Computer Science Overview

CS 1200	Computer Science/Information Science Overview 1	1 SH
CS 1210	Computer Science/Information Science Overview 2: Co-op Preparation	1 SH

Computer Science Fundamental Courses

A grade of C– or higher is required in each course:

CS 1800	Discrete Structures	4 SH
with CS 1801	Recitation for CS 1800	0 SH
CS 2500	Fundamentals of Computer Science 1	4 SH
with CS 2501	Lab for CS 2500	1 SH
CS 2510	Fundamentals of Computer Science 2	4 SH
with CS 2511	Lab for CS 2510	1 SH
CS 2800	Logic and Computation	4 SH
with CS 2801	Lab for CS 2800	1 SH

Computer Science Required Courses

CS 3200	Database Design	4 SH
CS 3500	Object-Oriented Design	4 SH
CS 3650	Computer Systems	4 SH
CS 3700	Networks and Distributed Systems	4 SH
CS 3800	Theory of Computation	4 SH
CS 4400	Programming Languages	4 SH
CS 4500	Software Development	4 SH
CS 4800	Algorithms and Data	4 SH

INFORMATION SCIENCE COURSES

Required Courses in Information Science

IS 2000	Principles of Information Science	4 SH
IS 3500	Information System Design and Development	4 SH
IS 4300	Human Computer Interaction	4 SH
IS 4800	Empirical Research Methods	4 SH
IS 4900	Information Science Senior Project	5 SH

Computing and Social Issues

Complete one of the following courses:

SOCL 3485	Environment, Technology, and Society	4 SH
SOCL 4528	Computers and Society	4 SH
ANTH 3418	Wired/Unwired: Cybercultures and Technopolitics	4 SH
IA 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	4 SH

MAJOR GPA REQUIREMENT

Minimum 2.000 GPA required in all CS and IS courses

PSYCHOLOGY

PSYC 1101	Foundations of Psychology	4 SH
-----------	---------------------------	------

MATHEMATICS AND STATISTICS REQUIREMENTS

Calculus

A grade of C– or higher is required in MATH 1341:

MATH 1341	Calculus 1 for Science and Engineering	4 SH
MATH 1342	Calculus 2 for Science and Engineering	4 SH
MATH 2331	Linear Algebra	4 SH

Statistics

Complete one of the following courses:

PSYC 2320	Statistics in Psychological Research	4 SH
ECON 2350	Statistics	4 SH

COMPUTER SCIENCE ENGLISH REQUIREMENT

College Writing

ENGW 1111	First-Year Writing	4 SH
-----------	--------------------	------

Advanced Writing in the Disciplines

Complete one of the following courses. Students are strongly encouraged to take ENGW 3302 but may substitute ENGW 3315:

ENGW 3302	Advanced Writing in the Technical Professions	4 SH
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	4 SH

REQUIRED GENERAL ELECTIVES

Science Elective

One general elective must be a science course chosen from the NU Core science/technology level 1 domain. This course may not be a technology course. The following subject areas are not allowed: GE, CS, and IS.

Additional General Electives

Complete six additional general electives. One of these electives must be used to satisfy the NU Core arts/humanities level 1 requirement. If the NU Core comparative study of cultures requirement is to be satisfied by taking a course, then it must also be one of the general electives.

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION**RESIDENCY REQUIREMENT**

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

133 total semester hours required

Minimum 2.000 GPA required

BSCompE in Computer Engineering and Computer Science

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

NU CORE REQUIREMENTS

See page 34 for requirement list.

MAJOR GPA REQUIREMENT

2.000 minimum GPA in EECE courses

MATHEMATICS/SCIENCE REQUIREMENT

Complete 35 semester hours in mathematics and science as indicated below.

Required Mathematics/Science

CHEM 1151	General Chemistry for Engineers	4 SH
CS 1800	Discrete Structures	4 SH
with CS 1801	Recitation for CS 1800	0 SH
MATH 1341	Calculus 1 for Science and Engineering	4 SH
MATH 1342	Calculus 2 for Science and Engineering	4 SH
MATH 2341	Differential Equations and Linear Algebra for Engineering	4 SH
MATH 3081	Probability and Statistics	4 SH
PHYS 1151	Physics for Engineering 1	3 SH
PHYS 1152	Lab for PHYS 1151	1 SH
PHYS 1153	Interactive Learning Seminar for PHYS 1151	1 SH
PHYS 1155	Physics for Engineering 2	3 SH
PHYS 1156	Lab for PHYS 1155	1 SH
PHYS 1157	Interactive Learning Seminar for PHYS 1155	1 SH

Supplemental Credit

Partial credit from the following course counts toward the mathematics/science requirement:

GE 1111	Engineering Problem Solving and Computation	4 SH
---------	---	------

ENGINEERING

Complete 48 semester hours in engineering as indicated below.

Required Courses

EECE 2150	Circuits and Signals: Biomedical Applications	4 SH
with EECE 2151	Lab for EECE 2150	1 SH
EECE 2160	Embedded Design Enabling Robotics	3 SH
with EECE 2161	Lab for EECE 2160	1 SH

Capstone Courses

EECE 4790	Electrical and Computer Engineering Capstone 1	4 SH
EECE 4792	Electrical and Computer Engineering Capstone 2	4 SH

EECE Technical Elective

Complete one of the following courses:

EECE 4993	Independent Study	4 SH
EECE 2412	Fundamentals of Electronics	4 SH
with EECE 2413	Lab for EECE 2412	1 SH
EECE 2520	Fundamentals of Linear Systems	4 SH
EECE 2530	Fundamentals of Electromagnetics	4 SH
with EECE 2531	Lab for EECE 2530	1 SH
EECE 2750	Enabling Engineering	4 SH
EECE 3392 to EECE 4626		
EECE 4630 to EECE 4698		
EECE 5576 to EECE 5698		
ENGR 4608	Nanotechnology in Engineering	4 SH
ENGR 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage	4 SH

EECE/CS/IS Technical Elective

Complete one of the following courses:

EECE 4993	Independent Study	4 SH
EECE 2412	Fundamentals of Electronics	4 SH
with EECE 2413	Lab for EECE 2412	1 SH
EECE 2520	Fundamentals of Linear Systems	4 SH

EECE 2530	Fundamentals of Electromagnetics	4 SH
with EECE 2531	Lab for EECE 2530	1 SH
EECE 2750	Enabling Engineering	4 SH
EECE 3392 to EECE 4626		
EECE 4630 to EECE 4698

CS 4650	High Performance Computing	4 SH
IS 4200	Information Retrieval	4 SH
IS 4300	Human Computer Interaction	4 SH
IS 4700	Social Information Systems	4 SH

Supplemental Credit

Partial credit from the following courses counts toward the engineering requirement:

GE 1110	Engineering Design	4 SH
GE 1111	Engineering Problem Solving and Computation	4 SH

COMPUTER SCIENCE REQUIREMENTS**Computer Science Introductory Courses**

CS 2500	Fundamentals of Computer Science 1	4 SH
with CS 2501	Lab for CS 2500	1 SH
CS 2510	Fundamentals of Computer Science 2	4 SH
with CS 2511	Lab for CS 2510	1 SH
CS 2800	Logic and Computation	4 SH
with CS 2801	Lab for CS 2800	1 SH

Computer Science Upper-Level Courses

CS 3500	Object-Oriented Design	4 SH
CS 3650	Computer Systems	4 SH
CS 3700	Networks and Distributed Systems	4 SH
CS 4500	Software Development	4 SH
CS 4800	Algorithms and Data	4 SH

PROFESSIONAL DEVELOPMENT**Required Professional Development**

GE 1000	Introduction to the Study of Engineering	1 SH
EECE 2000	Introduction to Engineering Co-op Education	1 SH
EECE 3000	Professional Issues in Engineering	1 SH

Additional Required Courses

Partial credit for the following courses counts toward requirements above:

GE 1110	Engineering Design	4 SH
GE 1111	Engineering Problem Solving and Computation	4 SH

ADDITIONAL NU CORE COURSES**Writing**

A grade of C or higher is required:

ENGW 1111	First-Year Writing	4 SH
ENGW 3302	Advanced Writing in the Technical Professions	4 SH
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	4 SH

Arts/Humanities Level 1

Complete one course from the NU Core arts/humanities level 1 domain, as described on page 34.

Social Science Level 1

Complete one course from the NU Core social science level 1 domain, as described on page 34.

INTEGRATIVE COURSES

The following courses are taken in the major and count toward the integrative requirement:

MATH 1341	Calculus 1 for Science and Engineering	4 SH
MATH 1342	Calculus 2 for Science and Engineering	4 SH
MATH 3081	Probability and Statistics	4 SH
CS 1800	Discrete Structures	4 SH
PHYS 1151	Physics for Engineering 1	3 SH
with PHYS 1152	Lab for PHYS 1151	1 SH
EECE 4790	Electrical and Computer Engineering Capstone 1	4 SH
EECE 4792	Electrical and Computer Engineering Capstone 2	4 SH

COURSE WORK THAT DOES NOT COUNT TOWARD THE ENGINEERING DEGREE

Students in engineering are allowed to count a maximum of two pass/fail courses toward their degree program. Only general electives outside the College of Engineering may be taken on a pass/fail grading basis. A maximum of one pass/fail course is allowed per semester.

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION**RESIDENCY REQUIREMENT**

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

138 total semester hours required

Minimum 2.000 GPA required

BS in Computer Science and Biology

Complete all courses listed below unless otherwise indicated.

Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

NU CORE REQUIREMENTS

See page 34 for requirement list.

COMPUTER SCIENCE COURSES**Computer Science Overview**

Complete one of the following sets. *Note:* Students entering this program through the Department of Biology may use the biology courses listed below:

CS 1200	Computer Science/Information Science Overview 1	1 SH
with CS 1210	Computer Science/Information Science Overview 2: Co-op Preparation	1 SH
BIOL 1000	Biology at Northeastern	1 SH
with BIOL 1106	Introduction to Experiential Education	1 SH

Computer Science Fundamental Courses

A grade of C– or higher is required in each course:

CS 1800	Discrete Structures	4 SH
with CS 1801	Recitation for CS 1800	0 SH
CS 2500	Fundamentals of Computer Science 1	4 SH
with CS 2501	Lab for CS 2500	1 SH

with BIOL 2324	Lab for BIOL 2323	1 SH
BIOL 2325	Marine Biology	4 SH
with BIOL 2326	Lab for BIOL 2325	1 SH

The additional course (4–5 semester hours) must be from the following list:

BIOL 2311 to BIOL 4989		
ENVR 2400	Introduction to Evolution	4 SH

MAJOR GPA REQUIREMENT

Minimum 2.000 GPA required in all CS and IS courses

MATHEMATICS REQUIREMENTS

Complete two calculus courses with a grade of C– or higher, and complete one probability and statistics course:

Calculus

MATH 1251	Calculus and Differential Equations for Biology 1	4 SH
MATH 1252	Calculus and Differential Equations for Biology 2	4 SH

Probability and Statistics

MATH 3081	Probability and Statistics	4 SH
or ENVR 2500	Biostatistics	4 SH

MGSC 2301	Business Statistics	4 SH
STRT 4501	Strategy in Action	4 SH

BUSINESS CONCENTRATION

Complete a four-course business concentration from the following list:

Concentration in Accounting**REQUIRED COURSES**

ACCT 3401	Financial Reporting and Analysis 1	4 SH
ACCT 4501	Financial Reporting and Analysis 2	4 SH

ELECTIVES

Complete two courses from the following list:

ACCT 3403	Accounting Information Systems	4 SH
ACCT 3416	Strategic Cost Analysis for Decision Making	4 SH
ACCT 4412	Auditing and Other Assurance Services	4 SH
ACCT 4414	Income Tax Determination and Planning	4 SH

Concentration in Entrepreneurship and Innovation**INTRODUCTORY COURSE**

ENTR 2301	Innovation!	4 SH
or ENTR 2303	Entrepreneurial Marketing and Selling	4 SH

CAPSTONE COURSE

ENTR 4501	Business Planning for Technology Ventures	4 SH
or ENTR 4503	Business Planning for Small and Medium Enterprises	4 SH
or ENTR 4506	Advanced Studies in Social Enterprise	4 SH

ELECTIVES

Complete two courses from the following list. *Note:* The following courses do not count toward this concentration:

ENTR 1201, ENTR 3308, ENTR 3318, ENTR 3328, ENTR 3338, ENTR 3346, ENTR 4510, and ENTR 4514:

FINA 4604	Fixed-Income Securities	4 SH
FINA 4608	Advanced Financial Strategy	4 SH
FINA 4610	Entrepreneurial Finance, Innovation Valuation, and Private Equity	4 SH

Concentration in Management**REQUIRED COURSE**

MGMT 4501	Skills for Managerial Success	4 SH
-----------	-------------------------------	------

ELECTIVES

Complete three courses from the following list:

MGMT 3302	Negotiating in Business	4 SH
MGMT 3330	Developing Leaders for Global Sustainability	4 SH
MGMT 3340	Managing Healthcare Organizations: Critical Challenges and New Approaches	4 SH
MGMT 3420	Managing Human Capital	4 SH
MGMT 3435	Social Networks and Organizations	4 SH
MGMT 3510	Managing Global Teams Virtually and Locally	4 SH
MGMT 4310	The Management Practices of Great Organizations	4 SH
MGMT 4603	Leadership Seminar	4 SH
ENTR 2215	Understanding Family Enterprise	4 SH

Concentration in Marketing**REQUIRED COURSES**

MKTG 3301	Marketing Management	4 SH
MKTG 3401	Marketing Research	4 SH

ELECTIVES

Complete two courses from the following list:

MKTG 4310	Retailing	4 SH
MKTG 4420	Sales Management	4 SH
MKTG 4502	Marketing in the Service Sector	4 SH
MKTG 4504	Advertising and Brand Promotion	4 SH

encouraged to take ENGW 3302 but may substitute ENGW 3315:

ENGW 3302	Advanced Writing in the Technical Professions	4 SH
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	4 SH

REQUIRED GENERAL ELECTIVES

Complete three general electives. One of these electives must be used to satisfy the NU Core arts/humanities level 1 requirement. If the NU Core comparative study of cultures requirement is to be satisfied by taking a course, then it must also be one of the general electives. *Note:* Students pursuing the computer science/business administration combined major may satisfy the latter requirement by completing the following course:

INTB 1203	International Business and Global Social Responsibility	4 SH
-----------	--	------

BUSINESS COOPERATIVE EDUCATION REQUIREMENT

Complete one six-month co-op experience.

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION**RESIDENCY REQUIREMENT**

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

133 total semester hours required
Minimum 2.000 GPA required

BS in Computer Science and Cognitive Psychology

Complete all courses listed below unless otherwise indicated.
Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

NU CORE REQUIREMENTS

See page 34 for requirement list.

COMPUTER SCIENCE COURSES**Computer Science Overview**

CS 1200	Computer Science/Information Science Overview 1	1 SH
CS 1210	Computer Science/Information Science Overview 2: Co-op Preparation	1 SH

Computer Science Fundamental Courses

A grade of C– or higher is required:

CS 1800	Discrete Structures	4 SH
with CS 1801	Recitation for CS 1800	0 SH
CS 2500	Fundamentals of Computer Science 1	4 SH
with CS 2501	Lab for CS 2500	1 SH
CS 2510	Fundamentals of Computer Science 2	4 SH
with CS 2511	Lab for CS 2510	1 SH
CS 2800	Logic and Computation	4 SH
with CS 2801	Lab for CS 2800	1 SH

Computer Science Required Courses

CS 3500	Object-Oriented Design	4 SH
CS 4100	Artificial Intelligence	4 SH
CS 4500	Software Development	4 SH
CS 4800	Algorithms and Data	4 SH
IS 4300	Human Computer Interaction	4 SH

Computer Science Senior Seminar

CS 4000	Senior Seminar	1 SH
---------	----------------	------

Computer Science Elective Courses

Complete two courses in the following ranges. With advisor approval, directed study, project study, and appropriate graduate-level courses may also be taken as computer science electives:

CS 2600 to CS 7999 but not CS 5010

IS 2000 to IS 7999 but not IS 4900

PSYCHOLOGY COURSES**Required Courses**

PSYC 1101	Foundations of Psychology	4 SH
PSYC 2320	Statistics in Psychological Research	4 SH
PSYC 3464	Psychology of Language	4 SH
PSYC 3466	Cognition	4 SH

Advanced Psychology

Complete one of the following courses:

PSYC 3452	Sensation and Perception	4 SH
PSYC 3458	Biological Psychology	4 SH

Laboratory in Psychology

Complete one of the following courses:

PSYC 4610	Laboratory in Psycholinguistics	4 SH
PSYC 4612	Laboratory in Cognition	4 SH
PSYC 4622	Laboratory in Sensation and Perception	4 SH

Seminar in Psychology

Complete one of the following courses:

PSYC 4658	Seminar in Psycholinguistics	4 SH
PSYC 4660	Seminar in Cognition	4 SH
PSYC 4668	Seminar in Sensation and Perception	4 SH
PSYC 4674	Seminar in Cognitive Neuroscience	4 SH

Psychology Electives

Complete two of the following courses. *Note:* Courses satisfying the categories above cannot be reused:

PSYC 3402	Social Psychology	4 SH
PSYC 3450	Learning and Motivation	4 SH
PSYC 3451	Learning Principles and Behavior Analysis	4 SH
PSYC 3452	Sensation and Perception	4 SH
PSYC 3458	Biological Psychology	4 SH
PSYC 4512	Neuropsychology	4 SH
PSYC 4520	Language and the Brain	4 SH
PSYC 4522	Psychology of Reading	4 SH
PSYC 4524	Cognitive Development	4 SH
PSYC 4526	Categorization and Reasoning	4 SH
PSYC 4610	Laboratory in Psycholinguistics	4 SH
PSYC 4612	Laboratory in Cognition	4 SH
PSYC 4622	Laboratory in Sensation and Perception	4 SH
PSYC 4652	Seminar in Ethics in Psychology	4 SH
PSYC 4658	Seminar in Psycholinguistics	4 SH
PSYC 4660	Seminar in Cognition	4 SH
PSYC 4668	Seminar in Sensation and Perception	4 SH
The following courses may be used with prior approval:		
PSYC 4970	Junior/Senior Honors Project 1	4 SH
with PSYC 4971	Junior/Senior Honors Project 2	4 SH
with PSYC 4991	Directed Study Research	4 SH

ADDITIONAL REQUIREMENT**Calculus**

MATH 1341	Calculus 1 for Science and Engineering	4 SH
-----------	--	------

COMPUTING AND SOCIAL ISSUES

Complete one of the following courses:

SOCL 3485	Environment, Technology, and Society	4 SH
SOCL 4528	Computers and Society	4 SH
ANTH 3418	Wired/Unwired: Cybercultures and Technopolitics	4 SH
IA 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	4 SH

COMPUTER SCIENCE ENGLISH REQUIREMENT**College Writing**

ENGW 1111	First-Year Writing	4 SH
-----------	--------------------	------

Advanced Writing in the Disciplines

Complete one of the following courses. Students are strongly encouraged to take ENGW 3302 but may substitute ENGW 3315:

ENGW 3302	Advanced Writing in the Technical Professions	4 SH
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	4 SH

REQUIRED GENERAL ELECTIVES

Complete eight general electives. One of these electives must be used to satisfy the NU Core arts/humanities level 1 requirement. If the NU Core comparative study of cultures requirement is to be satisfied by taking a course, then it must also be one of the general electives.

MAJOR GPA REQUIREMENT

Minimum 2.000 GPA required in all CS and IS courses

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION**RESIDENCY REQUIREMENT**

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

133 total semester hours required
Minimum 2.000 GPA required

BS in Computer Science and Communication Studies

Complete all courses listed below unless otherwise indicated.

Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Computer Science Elective Courses

Complete two courses in the following ranges:

IS 2000 to IS 5999 but not IS 4900
CS 2600 to CS 5999 but not CS 5010

Co-op Preparation

CS 1210	Computer Science/Information Science Overview 2: Co-op Preparation	1 SH
or EEAM 2000	Professional Development for Co-op	1 SH

Computing and Social Issues

Complete one of the following courses:

SOCL 4528	Computers and Society	4 SH
SOCL 3485	Environment, Technology, and Society	4 SH
ANTH 3418	Wired/Unwired: Cybercultures and Technopolitics	4 SH

COMMUNICATION STUDIES COURSES**Communications Studies Common Requirements**

Complete COMM 1101 and either COMM 1112 or COMM 2301:

COMM 1101	Introduction to Communication Studies	4 SH
COMM 1112	Public Speaking	4 SH
COMM 2301	Methods and Research in Communication	4 SH

Foundation Course

Complete one of the following courses:

COMM 1210	Persuasion and Rhetoric	4 SH
COMM 1225	Communication Theory	4 SH
COMM 1231	Principles of Organizational Communication	4 SH
COMM 1255	Communication in a Digital Age	4 SH
COMM 1310	Classical Rhetorical Theory	4 SH

Cluster Course

Complete one of the following courses:

COMM 1131	Sex, Relationships, and Communication	4 SH
COMM 2303	Global and Intercultural Communication	4 SH
COMM 2304	Communication and Gender	4 SH
COMM 2501	Communication Law	4 SH

ENVIRONMENTAL SCIENCE COURSES*Environmental Science Required Courses*

ENVR 1200	Dynamic Earth	4 SH
with ENVR 1201	Lab for ENVR 1200	1 SH
ENVR 1202	History of Earth and Life	4 SH
with ENVR 1203	Interpreting Earth History	1 SH
or ENVR 2310	Earth Materials	4 SH
with ENVR 2311	Lab for ENVR 2310	1 SH

ENVR 5210	Environmental Planning	4 SH
or ENVR 5250	Geology and Land-Use Planning	4 SH
ENVR 4900	Earth and Environmental Science Capstone	1 SH

Environmental Science Integrative Courses

Complete at least two of the following courses:

ENVR 3300	Geographic Information Systems	4 SH
with ENVR 3301	Lab for ENVR 3300	1 SH
ENVR 3302	Introduction to Remote Sensing	4 SH
with ENVR 3303	Lab for ENVR 3302	1 SH
ENVR 3418	Geophysics	4 SH
ENVR 4500	Applied Hydrogeology	4 SH
with ENVR 4501	Lab for ENVR 4500	1 SH
ENVR 5280	Groundwater Modeling	4 SH

Environmental Science Electives

Complete four of the following courses. If you complete more than two environmental science integrative courses (above), they will count as environmental science electives:

ENVR 1101	Environmental Science	4 SH
ENVR 2340	Earth Landforms and Processes	4 SH
with ENVR 2341	Lab for ENVR 2340	1 SH
ENVR 3400	Field Geology	4 SH
ENVR 3410	Environmental Geochemistry	4 SH
ENVR 4106	Coastal Processes	4 SH
with ENVR 4107	Lab for ENVR 4106	1 SH
ENVR 4504	Environmental Pollution	4 SH
ENVR 4505	Wetlands	4 SH
ENVR 4563	Advanced Spatial Analysis	4 SH
ENVR 5190	Soil Science	4 SH
ENVR 5202	Environmental Science Field Seminar Abroad	4 SH
ENVR 5230	Structural Geology	4 SH
with ENVR 5231	Lab for ENVR 5230	1 SH
ENVR 5240	Sedimentary Basin Analysis	4 SH
with ENVR 5241	Lab for ENVR 5240	1 SH
ENVR 5242	Ancient Marine Life	4 SH
with ENVR 5243	Lab for ENVR 5242	1 SH
ENVR 5244	Sedimentation	4 SH
ENVR 5248	Marine Geology	4 SH
ENVR 5270	Glacial and Quaternary History	4 SH
with ENVR 5271	Lab for ENVR 5270	1 SH
ENVR 5282	Groundwater Geochemistry	4 SH

ADDITIONAL REQUIREMENTS*Calculus*

MATH 1251	Calculus and Differential Equations for Biology 1	4 SH
or MATH 1341	Calculus 1 for Science and Engineering	4 SH
MATH 1252	Calculus and Differential Equations for Biology 2	4 SH
or MATH 1342	Calculus 2 for Science and Engineering	4 SH
MATH 3081	Probability and Statistics	4 SH

Chemistry

CHEM 1211	General Chemistry 1	4 SH
with CHEM 1212	Lab for CHEM 1211	1 SH
CHEM 1214	General Chemistry 2	4 SH
with CHEM 1215	Lab for CHEM 1214	1 SH

COMPUTING AND SOCIAL ISSUES

Complete one of the following courses:

SOCL 3485	Environment, Technology, and Society	4 SH
SOCL 4528	Computers and Society	4 SH
ANTH 3418	Wired/Unwired: Cybercultures and Technopolitics	4 SH

GAME 4701	Game Design Capstone 2	4 SH

Game Design Elective

Complete one GAME course other than GAME 2150, GAME 3150, or GAME 3250.

Computer Science/Game-Related Electives

Complete two courses from the following list:

Any course in the GAME subject area other than GAME 2150, GAME 3150, or GAME 3250

Any course in the IM, ARTD, ARTE, ARTF, ARTG, ARTH, and ARTS subject areas

CS 2600 to CS 5999 but not CS 5010

IS 2000 to IS 5999 but not IS 4900

PHYS 2101 Physics Principles for Games 4 SH

MATH 1342 Calculus 2 for Science and Engineering 4 SH

ECON 2350 Statistics 4 SH

or PSYC 2320 Statistics in Psychological Research 4 SH

INTEGRATIVE REQUIREMENT

The integrative courses below are completed as part of the major requirements:

CS 3520 Programming in C++ 4 SH

CS 3540 Game Programming 4 SH

CS 4150 Game Artificial Intelligence 4 SH

CS 4300 Computer Graphics 4 SH

CS 4850 Building Game Engines 4 SH

IS 4300 Human Computer Interaction 4 SH

MATH 1260 Math Fundamentals for Games 4 SH

GENERAL REQUIREMENTS**Psychology**

PSYC 1101 Foundations of Psychology 4 SH

Mathematics

A grade of C– or higher is required:

MATH 1260 Math Fundamentals for Games 4 SH

MATH 1341 Calculus 1 for Science and Engineering 4 SH

COMPUTER SCIENCE ENGLISH REQUIREMENT**College Writing**

ENGW 1111 First-Year Writing 4 SH

Advanced Writing in the Disciplines

Complete one of the following courses. Students are strongly encouraged to take ENGW 3302 but may substitute ENGW 3315:

ENGW 3302 Advanced Writing in the Technical Professions 4 SH

ENGW 3315 Interdisciplinary Advanced Writing in the Disciplines 4 SH

REQUIRED GENERAL ELECTIVES

Complete three general electives. If the NU Core comparative study of cultures requirement is to be satisfied by taking a course, then it must be one of the general electives.

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION**RESIDENCY REQUIREMENT**

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

133 total semester hours required

Minimum 2.000 GPA required

BS in Computer Science and Interactive Media

Complete all courses listed below unless otherwise indicated.

Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

NU CORE REQUIREMENTS

See page 34 for requirement list.

MATH 2321	Calculus 3 for Science and Engineering	4 SH
MATH 2331	Linear Algebra	4 SH
MATH 3081	Probability and Statistics	4 SH

The following course:

MATH 2341	Differential Equations and Linear Algebra for Engineering	4 SH
-----------	---	------

may also be used as a creative industries elective, with restrictions—consult your advisor.

COMPUTER SCIENCE ENGLISH REQUIREMENT**College Writing**

ENGW 1111	First-Year Writing	4 SH
-----------	--------------------	------

Advanced Writing in the Disciplines

Complete one of the following courses. Students are strongly encouraged to take ENGW 3302 but may substitute ENGW 3315:

ENGW 3302	Advanced Writing in the Technical Professions	4 SH
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	4 SH

REQUIRED GENERAL ELECTIVES

Complete five general electives. If the NU Core comparative study of cultures requirement is to be satisfied by taking a course, then it must be one of the general electives.

MAJOR GPA AND GRADE REQUIREMENTS

Minimum 2.000 GPA required in all CS and IS courses

Minimum 2.000 GPA required in all IM courses

A grade of C or higher is required in all major courses.

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION**RESIDENCY REQUIREMENT**

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

136 total semester hours required

Minimum 2.000 GPA required

BS in Computer Science and Journalism

Complete all courses listed below unless otherwise indicated.

Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

NU CORE REQUIREMENTS

See page 34 for requirement list.

COMPUTER SCIENCE COURSES**Computer Science Overview**

CS 1200	Computer Science/Information Science Overview 1	1 SH
CS 1210	Computer Science/Information Science Overview 2: Co-op Preparation	1 SH

Computer Science Fundamental Courses

A grade of C– or higher is required in each course:

CS 1800	Discrete Structures	4 SH
with CS 1801	Recitation for CS 1800	0 SH
CS 2500	Fundamentals of Computer Science 1	4 SH
with CS 2501	Lab for CS 2500	1 SH
CS 2510	Fundamentals of Computer Science 2	4 SH
with CS 2511	Lab for CS 2510	1 SH
CS 2800	Logic and Computation	4 SH
with CS 2801	Lab for CS 2800	1 SH

Computer Science Required Courses

CS 3200	Database Design	4 SH
CS 3500	Object-Oriented Design	4 SH
CS 4500	Software Development	4 SH
CS 4800	Algorithms and Data	4 SH

Computer Science Senior Seminar

CS 4000	Senior Seminar	1 SH
---------	----------------	------

Computer Science Elective Courses

Complete three courses in the following ranges:

CS 2600 to CS 7999 but not CS 5010

IS 2000 to IS 7999 but not IS 4900

At least one of these three courses must be from the following list:

IS 4200	Information Retrieval	4 SH
IS 4300	Human Computer Interaction	4 SH
IS 4700	Social Information Systems	4 SH

JOURNALISM MAJOR REQUIREMENTS

Students transferring from outside institutions must complete a minimum of five four-credit journalism courses at Northeastern, and these must include JRNL 2201, JRNL 2301, and JRNL 4650.

Journalism Courses

A grade of C or higher is required:

JRNL 1101	Journalism 1: Fundamentals of Reporting	4 SH
JRNL 2201	Journalism 2: Intermediate Reporting	4 SH
JRNL 2301	Visual Storytelling in Journalism	4 SH
JRNL 3610	Digital Storytelling in Journalism	4 SH

Required Journalism

JRNL 1150	Interpreting the Day's News	4 SH
JRNL 2350	History of Journalism	4 SH
JRNL 3550	Law of the Press	4 SH
JRNL 4650	Journalism Ethics and Issues	4 SH

Journalism Electives

Complete two JRNL courses.

-----------	-----------------------------------	------

REQUIRED GENERAL ELECTIVES

Complete seven general electives. If the NU Core comparative study of cultures requirement is to be satisfied by taking a course, then it must be one of the general electives; in particular, the following course may be taken as an elective and satisfies the NU Core comparative study of cultures requirement:

JRNL 5360	Global Reporting	4 SH
-----------	------------------	------

MAJOR GPA REQUIREMENT

Minimum 2.000 GPA required in all CS, IS, and JRNL courses

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION**RESIDENCY REQUIREMENT**

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

133 total semester hours required
Minimum 2.000 GPA required

BS in Computer Science and Linguistics

Complete all courses listed below unless otherwise indicated.

Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

NU CORE REQUIREMENTS

See page 34 for requirement list.

The mission of the College of Engineering is to provide a teaching, learning, and research environment that results in the highest-quality education for our students. Consistent with this goal, while providing a practice-oriented program, the College of Engineering seeks to prepare students to contribute to the accumulation and application of technical knowledge. The college further seeks to help students master the fundamental mathematical and scientific principles underlying a particular branch of engineering; develop and demonstrate competence in analysis and design appropriate to an engineering specialization; reason clearly and communicate effectively; and recognize the need to continue professional development.

Through laboratory exercises, senior design projects, professional association activities, and cooperative work assignments, students put theory into practice and clarify their professional goals.

The college offers a Bachelor of Science degree with specializations in chemical, civil, computer, electrical, industrial, and mechanical engineering. Five-year and four-year options are available to complete the Bachelor of Science degree program. The five-year option includes eighteen months of cooperative education work experience, and the four-year option includes twelve months of cooperative education experience. Customized four-year programs without co-op experience are also available. It is anticipated that both bachelor's and master's degrees in the

Department of Bioengineering will be offered starting in the fall of 2015.

The college encourages students to study the arts, sciences, business, and other areas outside engineering to allow for an increased awareness of the social, economic, political, aesthetic, and philosophical influences that shape the world in which graduates will practice their professions. Students may complete a minor in different areas such as business, computer science, biomedical engineering, math, or music. In many cases, the minor can be completed without course overloads.

The college also offers an array of international educational experiences, including a number of study-abroad options, international cooperative educational experiences, and Dialogue of Civilizations classes (offering a four- to six-week opportunity to study engineering or a related field in the context of an international experience).

In addition to a full array of university services, special advising and other support services (including tutoring) are provided. Students in the University Honors Program may participate in honors sections of many courses. Active student chapters of many national professional engineering organizations and honor societies are supported by the college as an enriching addition to academic studies and co-op experience.

The Bachelor of Science programs in chemical engineering, civil engineering, computer engineering, electrical engineering, industrial engineering, and mechanical engineering are accredited by the Engineering Accreditation Commission of ABET, www.abet.org.

Bachelor of Science/Master of Science PlusOne Program

The Departments of Chemical Engineering, Civil and Environmental Engineering, Electrical and Computer Engineering, and Mechanical and Industrial Engineering offer programs leading to both the bachelor's and master's degrees in five years. All students begin with the common first-year engineering program. Upon successful completion, students may petition to enter a BS/MS program. Degree candidates must maintain a 3.400 cumulative GPA, carry extra courses, and reduce the number of cooperative education semesters to complete the course requirements.

Academic Standards

ACADEMIC PROGRESSION STANDARDS

In addition to meeting university progression standards, it is expected that full-time engineering students enroll in four courses with appropriate labs and recitations and successfully complete at least 12 semester hours each academic semester with an acceptable GPA as noted below. Any exceptions to the course load requirement must be approved by the student's academic advisor, in writing, prior to the start of each semester. Only general electives taken outside the College of Engineering may be taken on a pass/fail grading basis.

GPA REQUIREMENTS FOR GRADUATION

A minimum cumulative GPA requirement of 2.000 in major (department) courses and a minimum cumulative GPA requirement of 2.000 overall is required for graduation.

CRITERIA FOR ACADEMIC PROBATION

Full-time students in the College of Engineering will be placed on academic probation effective for the following academic semester for any of the reasons noted below:

First-year Students:

- Not maintaining a semester GPA of at least a 1.800 at the end of each full-term semester (fall, spring) of the first-year curriculum
- Not earning at least 12 semester hours at the end of each semester of the first-year curriculum
- Not earning at least 24 semester hours at the end of the two full-term semesters (fall, spring) of the first-year curriculum

Upperclass and Transfer Students:

- Not earning at least 12 semester hours in the academic full-term semester just completed
- Not maintaining an overall cumulative GPA of at least 2.000 at the end of each full academic semester (fall, spring)
- Not maintaining a GPA of at least a 2.000 in the major at the end of the fourth academic full-term semester of the curriculum and at the end of each full-term academic semester (fall, spring) thereafter
- Accumulating three outstanding course deficiencies (grades of F, I, W, NE, U, or missing grades)
- Earning a full-term semester (fall, spring) GPA of 1.800 or lower
- Not following a program of study approved by the student's academic advisor

A notation of the academic probation action will appear on the internal record, but not on the permanent transcript.

CRITERIA FOR ACADEMIC DISMISSAL

Students who have below a 1.000 GPA in any academic term following their first semester or cumulatively may be dismissed, regardless of their prior academic status, at the discretion of the college.

Full-time students on probation in the College of Engineering are eligible for academic dismissal from the university for any of the reasons noted below:

- Earning less than a 1.800 GPA in a current term (fall, spring, summer 1, or summer 2)
- Completing fewer than 12 semester hours in a full term (fall, spring) academic semester
- Not following a program of study approved by the student's academic advisor
- Remaining on academic probation after two full-term academic semesters

Notation of this academic dismissal will appear on the permanent transcript.

GRADUATION REQUIREMENTS

The college reserves the right to amend programs, courses, and degree requirements to fulfill its educational responsibility to respond to relevant changes in the field.

Students must complete all of the requirements in the degree program in which they are candidates. Degree requirements are based upon the year of graduation, determined by the date of entry or reentry into the College of Engineering. Degree requirements and the year of graduation for a degree candidate who fails to make normal academic progress will be subject to review and possible change.

INTERDISCIPLINARY MINORS

Materials Science and Engineering

The study of materials science and engineering has spurred breakthroughs in applications ranging from artificial limbs and organs, to space travel vehicles, to personal MP3 players. For example, the discovery of buckyballs and carbon nanotubes has led to the development of an unprecedented reduction in size of prototype electronic components, and points the way to tomorrow's electronic technologies. Porous nanostructures of biocompatible materials are studied for targeted drug delivery within the body. The integration of polymers and semiconductors is used to create efficient, usable solar cells to reduce our dependence on fossil fuels. There are many more examples of both existing technologies and current research areas involving materials science and engineering that impact everyday life both today and in the future.

The minor in materials science and engineering is open to all students of the College of Engineering whose science and technical interests involve the design, processing, and optimization of engineering materials. Since the materials interests may vary across the engineering disciplines, the minor is composed of an interdisciplinary selection of courses that offer a high degree of flexibility to the student. The fundamental goals of the program are to offer the student a broad interdisciplinary program that includes a basic background in the relevant aspects of materials science and the engineering applications of materials. The objectives are to serve the needs of the chemical, civil, electrical, and mechanical engineering departments in providing a vehicle to expose students to materials science and engineering. Particular focus areas include: electronic materials and processing for device applications; strength, wear, and corrosion-resistant coatings; molecular-level design of thin films and nanostructures; polymers and biomedical applications; and steels, concretes, and space-based structures.

Minor in Materials Science and Engineering

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

REQUIRED COURSES

Complete ME 2340 and one additional course from the following list:

The Department of Bioengineering offers students a broad education built on fundamentals in science, mathematics, and engineering, with a focus on the biological applications of engineering. The program is designed to provide a rigorous engineering training along with a comprehensive understanding of the biological constraints intrinsic to designing artificial systems to interface with, augment, replace, repair, or monitor living systems. These constraints depend on the properties of the biological system involved and the functionality that is being created. The living system may be the human body; an ecosystem; or, more broadly, a bioreactor, tissue culture system, or any system with living components. The presence of naturally occurring biological tissue places special constraints on the design and implementation of artificial constructs and their interface to living systems. Bioengineers are engineers with comprehensive understanding of the engineering requirements intrinsic to working within a biological context.

Bioengineering is a relatively new field driven by the recognition that engineering of biological systems or systems that interface with living systems requires a multidisciplinary approach that takes into account the mechanical, electrical, chemical, and materials properties of the biological system. With that in mind, the bioengineering program has been designed to provide a rigorous engineering education that endows a broad understanding of the quantitative analysis of biological systems and a deep expertise in one of four areas of engineering. The curriculum is structured around a core of six courses that quantitatively analyze biological systems from multiple points of view. The core provides the fundamentals of quantitative physiology, electrical engineering in the context of excitable tissues; basics of mechanical engineering in the context of the musculoskeletal system; and thermodynamics, heat transfer, and fluids mechanics within the context of physiological systems. On completion of the core, students choose one of four concentrations (bioimaging and signal processing, cell and tissue engineering, biomechanics, or biomedical devices) that provides the opportunity to develop a deep level of expertise in an important area of bioengineering. The curriculum culminates with a two-semester capstone course to provide experience in design and implementation of a novel bioengineering project.

The program is committed to providing a multidisciplinary education, making connections from the classroom and laboratory to research, co-op, and co-curricular experiences. The curriculum provides fundamentals in mathematics, physical sciences, and

engineering science; laboratory experiences; as well as an emphasis on the special considerations intrinsic to design within a biological context. Through the university's general educational requirements, students gain awareness of the impact of engineering decisions in a broader societal and ethical context. The department encourages professional development through active participation and leadership in student organizations, societies, and departmental activities. As a result, the bioengineering program prepares students for success in industrial careers; graduate programs; or professional medical, law, and business schools.

The bioengineering program seeks to enable students to apply knowledge of mathematics, science, and engineering to design of novel systems interfacing, replacing, augmenting, or repairing living systems; to conduct bioengineering experiments, as well as to analyze and interpret data; to design a system, component, or biological process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, safety, manufacturability, and sustainability; to function on teams, including multidisciplinary teams; to identify, formulate, and solve bioengineering problems; to understand professional and ethical responsibility, including protecting the public and the environment by performing work in a safe and environmentally conscious manner; to communicate effectively; to understand the impact of engineering solutions in a global and societal context; to recognize the need for and the ability to engage in lifelong learning; to understand professional behavior, culture, expectations, and contemporary issues; and to use the techniques, skills, and modern engineering tools intrinsic to bioengineering practice.

The bioengineering curriculum shown below is an innovative plan that is continuously and carefully assessed and evaluated to ensure that graduates of the program are fully prepared for success as professional bioengineers and are prepared for graduate or professional school.

The chemical engineering program offers students a broad education built on fundamentals in science, mathematics, and engineering, which are then applied to a variety of contemporary problems using modern tools, such as computational software and computer-aided design. Chemical engineers have traditionally been employed in chemical, petrochemical, agricultural chemical, pulp and paper, plastics, cosmetics, and textiles industries, and in consulting and design firms. Today, chemical engineers also play an integral role in emerging biological and advanced materials fields, including nanotechnology. For example, chemical engineers are creating new materials needed for space exploration, alternative energy sources, and faster, self-powered computer chips. In biotechnology and bioengineering, chemical engineers are working to understand human diseases, developing new therapies and drug delivery systems, and producing new medicines through cell culture techniques. Chemical engineers employ nanotechnology to revolutionize sensors, security systems, and medical diagnostics and treatments. In addition to creating important products, chemical engineers are also involved in protecting our environment by exploring ways to reduce acid rain and smog, to recycle and reduce wastes, to develop new sources of environmentally clean energy, and to design inherently safe, efficient, and “green” processes. The role of chemical engineering is to develop new products and to design processes while reducing costs, increasing production, and improving the quality and safety of new products.

The program educational objectives are as follows. Within a few years after graduation, graduates of the chemical engineering program are expected to obtain the ability to (1) function successfully in a variety of fields in chemical engineering or in advanced study that uses the problem-solving skills taught in chemical engineering; (2) identify problems, collect necessary information, and analyze data to draw appropriate conclusions and to make informed decisions; (3) function effectively in a diverse workplace using interpersonal and communicative skills gained from their chemical engineering training; (4) recognize an economic, environmental, health and safety, or sustainability situation in need of improvement, then make suggestions that improve this situation.

The faculty of the chemical engineering program is committed to providing a practice-oriented education through active learning and by drawing connections between classroom learning and co-op experiences. The educational curriculum provides fundamentals in mathematics, physical sciences, and engineering science as well as real-world design and laboratory experiences. Through the university’s general education requirements, students gain awareness of the impact of engineering decisions in a broader societal and ethical context. Cooperative education offers students the opportunity to integrate practical workplace knowledge with classroom learning so the educational experiences are synergistic and deepen the learning process. The chemical engineering community encourages professional development through active participation and leadership in student organizations, professional societies, and departmental activities. As a result, the chemical engineering program prepares successful students for industrial careers, graduate programs, or professional medical, law, and business schools.

Through faculty expertise and scholarship, a rigorous set of academic courses, and real-world cooperative education experiences, the chemical engineering program seeks to enable students to: apply knowledge of mathematics, science, and engineering in the general field of chemical engineering; design and conduct engineering experiments, as well as analyze and interpret data; design a system, component, or chemical process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability; function on teams, including multidisciplinary teams; identify, formulate, and solve chemical engineering problems; understand professional and ethical responsibility, including protecting the public and the environment by performing work in a safe and environmentally conscious manner; communicate effectively; understand the impact of engineering solutions in a global and societal context; recognize the need for and the ability to engage in lifelong learning; understand professional behavior, culture, expectations, and contemporary issues; and use the techniques, skills, and modern engineering tools necessary to chemical engineering practice.

The chemical engineering curriculum shown below is periodically evaluated and revised to ensure that graduates of the program are given every opportunity for future success as professional chemical engineers and are prepared for graduate or professional school.

CIVIL AND ENVIRONMENTAL ENGINEERING

www.civ.neu.edu

JEROME F. HAJJAR, PhD, PE
CDM Smith Professor and Chair

400 Snell Engineering Center
 617.373.2444
 617.373.4419 (fax)

Civil engineers judiciously apply their knowledge of mathematics and physical sciences to improve and protect the environment and to provide facilities and structures for community living, industry, and transportation. Civil engineering encompasses several disciplines, including structural engineering, environmental engineering, transportation planning and engineering, and geotechnical engineering. Civil engineers supervise the construction of bridges, tunnels, buildings, dams, and aqueducts. They also plan, design, construct, and manage highways, railroads, canals, and airports; regulate rivers and control floods; and design and build systems for water distribution, wastewater treatment, waste disposal, and environmental remediation.

The civil engineering program at Northeastern University seeks to prepare students to contribute to society as civil engineers and in other professions that benefit from a technical education. Our goal is to graduate students who will be technically competent, creative, critical thinkers, and skilled as communicators. Their educational background qualifies them to seek licensure as professional engineers and/or to pursue graduate study in civil engineering. They have an opportunity to obtain a broad knowledge base in science, engineering, and general studies that allows them flexibility in career development and graduate education. At the same time, our graduates should be responsible and scientifically educated citizens, prepared to contribute personally as well as professionally to an educated, democratic society.

By participating in our cooperative education program, our graduates will have an opportunity to explore what career objectives fit their own skills and interests. The goal of this program is to offer students valuable professional experience and contacts that will help get them started in their professional career, as well as the development of career management skills.

The program educational objectives are as follows. The civil engineering program at Northeastern University prepares graduates to contribute to society as civil engineers and in other professions that benefit from a technical education. Within a few years of graduation, many of our graduates will be working in responsible engineering positions that will qualify them to take the PE exam, and they will be prepared to successfully pursue advanced study in civil engineering and other fields.

The civil engineering program is designed to provide students with a broad education appropriate for a variety of career choices

and lifelong learning. Experience tells us that civil engineering graduates will enter almost every field imaginable. The knowledge and skills acquired—understanding science, critical thinking, effective communication, and understanding the social context, among them—form an excellent foundation for a host of careers, as well as for a fulfilling life outside the world of work. The civil engineering program has been designed with five general electives that permit students to explore or acquire further depth in other fields of interest. Students can use these electives to earn a minor in business, architectural history, music, computer science, or any number of other fields.

The co-op program parallels the academic program in level of responsibility and sophistication. A beginning job might involve layout at a construction site or laboratory testing; in senior-level co-op assignments, students are often working alongside engineers on design teams.

ELECTRICAL AND COMPUTER ENGINEERING

The Department of Electrical and Computer Engineering offers two distinct Bachelor of Science programs: Bachelor of Science in electrical engineering (BSEE) and Bachelor of Science in computer engineering (BSCompE). A combined major is available in electrical and computer engineering for students who complete the requirements of both majors. In addition, a minor in electrical engineering, a minor in computer engineering, and a minor in biomedical engineering are available to qualified students throughout the university, including majors within the department.

Successful engineers need to organize and adapt information to solve problems. They also must work effectively in teams and communicate well. Therefore, the goal of the electrical engineering and computer engineering programs is to help students develop these skills and provide the appropriate technical background for a successful career. The program educational objectives of the Bachelor of Science programs are that graduates should (1) obtain successful careers in electrical and computer engineering and related disciplines through substantial technical contributions, continued employment, professional recognition, advancement in responsibilities, a professional network, and personal satisfaction; and (2) pursue advanced study such as graduate study in engineering or related disciplines, if desired.

The curricula are continuously assessed to ensure that graduates can achieve these goals and go on to succeed as professional electrical or computer engineers. The Bachelor of Science programs allow students sufficient flexibility within the standard eight academic semesters to earn a minor in nearly any department in the university. Typical minors might include electrical engineering, computer engineering, physics, math, computer science, or business, but students might also organize their course of study to earn a minor in economics, English, or music.

The academic program is supported by extensive laboratory facilities for study and experimentation in computing, circuit analysis, electronics, digital systems, microwaves, control systems, semiconductor processing, very large-scale integration (VLSI) design, and digital signal processing. Students have access to state-of-the-art computing facilities, including numerous Linux-based workstations and Windows-based personal computers, all connected to the Internet. Many courses are taught in one of the four computer-based teaching

classrooms, where students work online and practice the theory presented in lecture while still in the classroom.

More than 90 percent of department undergraduates take advantage of the cooperative education program. During the cooperative work phase of the program, the students' levels of responsibility grow as they gain theoretical and technical knowledge through academic work. A sophomore might begin cooperative work experience as an engineering assistant and progress by the senior year to a position with responsibilities similar to those of entry-level engineers.

A senior-year design course caps the education by drawing on everything learned previously. Teams of students propose, design, and build a functioning electrical or computer engineering system—just as they might in actual practice.

Electrical Engineering

The components of the Information Age—global communication systems, computers and computer chips, and the software that runs them, as well as pacemakers, magnetic resonance imaging, and interplanetary space missions—are possible because of the efforts of electrical engineers. Today, electrical engineers are developing concepts and working to translate these ideas into the next generation of products, from computers and safe, energy-efficient vehicles, to radar that can detect unexploded land mines from the air, to microrobots that diagnose disease from inside the body.

Many electrical engineers work in the traditional areas of communications, computation, and control, and components required to realize such systems. They are involved in design and product development, testing and quality control, sales and marketing, and manufacturing. Others use their problem-solving skills in diverse areas such as bioengineering, healthcare, electronic music, meteorology, and experimental psychology. Some graduates draw on their electrical engineering backgrounds to launch successful careers as physicians, financial analysts, attorneys, and entrepreneurs.

As specified below, the BSEE degree requires a sequence of core courses and advanced study in one or more technical elective areas: electronic circuits and devices; signals and systems; fields, waves, and optics; power engineering; or computer engineering. General electives and electives in the arts and humanities and social sciences are also required.

Electrical Engineering Minor

A minor in electrical engineering is open to all students in the university with the prerequisite calculus and physics background. The minor is designed for students who would like a coherent background in the theory and laboratory practice of electrical engineering, particularly for majors in math, science, computer engineering, or other engineering departments. The completion of a minor in electrical engineering will be recognized by a notation on the student's transcript.

Minor in Electrical Engineering

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Note: Students must file a petition with the coordinator of undergraduate services in 404 Dana to declare the minor prior to taking any course work. A minimum GPA of 2.000 is required. This minor is not open to students in the Department of Electrical and Computer Engineering because of overlap with the majors.

Computer Engineering

The use of computer technology is exploding, driven by applications in wireless communications, multimedia, portable devices, and Internet computing. At the core of these technological advances are computer engineers who research, design, and develop hardware and software. With a degree in computer engineering you might develop a full-featured multimedia phone, design the next-generation microprocessor, program computer-guided cameras to inspect nanomanufacturing facilities, or start your own software company.

The computer engineering major acquires a strong foundation in engineering principles and the physical sciences in addition to a powerful mix of theory and practice in hardware and software design. The core of the computer engineering curriculum comprises courses in computer organization and architecture, computer networks, computer-aided design, programming languages, optimization theory, and software design.

As specified below, the BSCompE degree requires a sequence of core courses, technical electives, general electives, and electives in the arts and humanities and social sciences.

BSCompE—Bachelor of Science in Computer Engineering

Complete all courses listed below unless otherwise indicated.

Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

NU CORE REQUIREMENTS

See page 34 for requirement list.

MAJOR GPA REQUIREMENT

2.000 minimum GPA required in EECE courses

MATHEMATICS/SCIENCE REQUIREMENT

Complete 35 semester hours in mathematics and science as indicated below.

Required Mathematics/Science

CHEM 1151	General Chemistry for Engineers	4 SH
CS 1800	Discrete Structures	4 SH
with CS 1801	Recitation for CS 1800	0 SH
MATH 1341	Calculus 1 for Science and Engineering	4 SH

Arts/Humanities Level 1

Complete one course from the NU Core arts/humanities level 1 domain, as described on page 34.

Social Science Level 1

Complete one course from the NU Core social science level 1 domain, as described on page 34.

REQUIRED GENERAL ELECTIVES

Complete five academic, nonremedial, nonrepetitive courses, each equivalent to 4 semester hours.

COURSE WORK THAT DOES NOT COUNT TOWARD THE ENGINEERING DEGREE

Students in engineering are allowed to count a maximum of two pass/fail courses toward their degree program. Only general electives outside the College of Engineering may be taken on a pass/fail grading basis. A maximum of one pass/fail course is allowed per semester.

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION**RESIDENCY REQUIREMENT**

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

131 total semester hours required
Minimum 2.000 GPA required

Computer Engineering Minor

The minor in computer engineering is open to all students in the university. The minor is designed for students who would like a coherent background in the theory and laboratory practice of computer engineering. The completion of a minor in computer engineering will be recognized by a notation on the student's transcript.

Minor in Computer Engineering

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Note: Students must file a petition with the coordinator of undergraduate services in 404 Dana to declare the minor prior to taking any course work. A minimum GPA of 2.000 is required. This minor is not open to students in the Department of Electrical and Computer Engineering.

Biomedical Engineering Minor

Medical imaging and biomedical electronics are important areas of biomedical engineering that are within the province of electrical engineering. The minor in biomedical engineering is open to all students in the university with the prerequisite calculus and physics background. The minor is particularly designed for majors in electrical or computer engineering, biology, health science fields, or other engineering departments who would like a background in relevant aspects of biology and electrical engineering, with the opportunity to complete an interdisciplinary biomedical engineering capstone design project. Course work in anatomy and physiology and other health science topics is combined with technical engineering courses related to biomedical imaging and instrumentation. Specific curriculum information about the biomedical engineering minor may be obtained from the Department of Electrical and Computer Engineering office, 411 Dana Research Center, from the department website, or by calling 617.373.2165.

Minor in Biomedical Engineering

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Note: Students must file a petition with the coordinator of undergraduate services in 404 Dana to declare the minor prior to taking any course work. A minimum GPA of 2.000 is required.

Combined Major in Electrical and Computer Engineering

Students may choose to major in both electrical and computer engineering by following the combined-major program leading to a Bachelor of Science in Electrical Engineering or Bachelor of Science in Computer Engineering. Students take the required courses for both majors along with technical electives distributed among the areas of computer engineering; fields, waves, and optics; signals and systems; power engineering; and electronic circuits and devices. A general elective and electives in the arts and humanities and social sciences are also required.

BSEE or BSCompE—Bachelor of Science in Electrical/Computer Engineering

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Combined Major in Electrical Engineering and Physics

This intercollege combined major serves students who would like to explore their interest in physics while earning the benefit of an accredited Bachelor of Science degree in engineering. The major combines a major in physics from the Department of Physics in the College of Science with the Bachelor of Science in Electrical Engineering degree from the Department of Electrical and Computer Engineering.

Because of the large body of shared knowledge between electrical engineering and physics, a combined major between these two disciplines is a logical course of study and can be accomplished within a student's usual five-year program (including three co-op placements) without requiring course overloading in any semester. A student graduating from this program will have studied both the physical fundamentals and the applications of electronic devices and systems. The program is a particularly appropriate course of study for students who wish to pursue a career in solid-state devices, microelectromechanical systems, or nanotechnology.

Students interested in this program should contact the Department of Electrical and Computer Engineering or the Department of Physics as early as possible, preferably prior to registering for freshman courses.

BSEE in Electrical Engineering and Physics

ENGINEERING

Complete 48 semester hours in engineering as indicated below.

Required Courses

EECE 2150	Circuits and Signals: Biomedical Applications	4 SH
with EECE 2151	Lab for EECE 2150	1 SH
EECE 2160	Embedded Design Enabling Robotics	3 SH
with EECE 2161	Lab for EECE 2160	1 SH

Computer Engineering Fundamentals

EECE 2322	Fundamentals of Digital Design and Computer Organization	4 SH
with EECE 2323	Lab for EECE 2322	1 SH
EECE 2540	Fundamentals of Networks	4 SH
EECE 2560	Fundamentals of Engineering Algorithms	4 SH

Electrical Engineering Fundamentals

Complete one of the following courses. If more than one electrical engineering fundamentals course is taken, it can count as a technical elective:

EECE 2412	Fundamentals of Electronics	4 SH
with EECE 2413	Lab for EECE 2412	1 SH
or EECE 2520	Fundamentals of Linear Systems	4 SH
or EECE 2530	Fundamentals of Electromagnetics	4 SH
with EECE 2531	Lab for EECE 2530	1 SH

Capstone Courses

EECE 4790	Electrical and Computer Engineering Capstone 1	4 SH
EECE 4792	Electrical and Computer Engineering Capstone 2	4 SH

Computer Engineering Technical Electives

Complete two of the following courses. Only one course may be in CS:

EECE 4993	Independent Study	4 SH
EECE 2412	Fundamentals of Electronics	4 SH
with EECE 2413	Lab for EECE 2412	1 SH
EECE 2520	Fundamentals of Linear Systems	4 SH
EECE 2530	Fundamentals of Electromagnetics	4 SH
with EECE 2531	Lab for EECE 2530	1 SH
EECE 2750	Enabling Engineering	4 SH
EECE 3392 to EECE 4626		
EECE 4630 to EECE 4698

The Department of Mechanical and Industrial Engineering offers two accredited programs leading to a Bachelor of Science in industrial engineering and a Bachelor of Science in mechanical engineering. Five-year Bachelor of Science/Master of Science PlusOne programs in the above two disciplines are also available. In addition, the department offers the following minors: (a) minor in industrial engineering, (b) minor in mechanical engineering, and (c) minor in biomechanical engineering.

Our mission is to educate persons for professional and technical excellence; to perform research to advance the science and practice of engineering; to engage in service activities that advance the department, the university, and the profession; and to instill in ourselves and our students habits and attitudes that promote ethical behavior, professional responsibility, and careers that advance the well-being of society.

The program educational objectives for the mechanical engineering and industrial engineering programs are as follows. Graduates from our undergraduate programs will demonstrate technical excellence in their chosen fields, anticipate and respond to societal changes and develop careers with depth and flexibility, while retaining a professional and intellectual thrust throughout. Specifically, (1) graduates will contribute to the advancement of the mechanical or industrial engineering field, while satisfying the expectations of their employers and displaying leadership in the larger community; and (2) graduates will engage in activities that promote professional development and personal growth.

Industrial Engineering

Industrial engineering involves the design and analysis of systems that include people, equipment, and materials and their interactions and performance in the workplace. An industrial engineer collects this information and evaluates alternatives to make decisions that best advance the goals of the enterprise.

The program in industrial engineering offers students a base of traditional engineering courses, such as work design, human-machine systems, probability, statistics, and engineering economy, while emphasizing such contemporary areas as simulation modeling, engineering database systems, quality assurance, logistics and supply chain management, operations research, and facilities planning. Students integrate the knowledge acquired in these courses in a two-semester capstone design project.

Industrial engineers work in manufacturing firms, hospitals, banks, public utilities, transportation, government agencies, insurance companies, and construction firms. Among the projects they undertake are design and implementation of a computer-integrated manufacturing system, facilities planning for a variety of industries, design of a robotics system in a manufacturing environment, long-range corporate planning, development and implementation of a quality-control system, simulation analyses to improve processes and make operational decisions, design of workstations to enhance worker safety and productivity, and development of computer systems for information control.

More than 90 percent of department undergraduate students take advantage of the cooperative education program. Cooperative education assignments generally increase in level of responsibility as students gain theoretical and technical knowledge through their academic work. A sophomore might begin as a computer analyst evaluating the performance of a manufacturing system and progress to designing manufacturing engineering workstations by the senior year.

Complete one academic, nonremedial, nonrepetitive course, equivalent to 4 semester hours.

COURSE WORK THAT DOES NOT COUNT TOWARD THE ENGINEERING DEGREE

Students in engineering are allowed to count a maximum of two pass/fail courses toward their degree program. Only general electives outside the College of Engineering may be taken on a pass/fail grading basis. A maximum of one pass/fail course is allowed per semester.

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION**RESIDENCY REQUIREMENT**

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

137 total semester hours required for the bachelor's degree
Minimum 2.000 GPA required for undergraduate courses
Minimum 3.000 GPA required in all graduate courses

**BSIE—Bachelor of Science in Industrial Engineering/
MS in Engineering Management**

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Note: This curriculum reflects only course work to be taken as an undergraduate student. For additional course work to be taken as a graduate student, see the graduate program in the *Northeastern University Graduate Catalog*.

NU CORE REQUIREMENTS

See page 34 for requirement list.

MAJOR GPA REQUIREMENT

2.000 minimum GPA required in IE and MEIE courses

MATHEMATICS/SCIENCE REQUIREMENT

Complete 39 semester hours in mathematics and science as indicated below.

Required Mathematics/Science

CHEM 1151	General Chemistry for Engineers	4 SH

Mechanical Engineering

Mechanical engineering involves the design, development, and manufacture of machinery and devices to transmit power or to convert energy from thermal to mechanical form in order to power the modern world and its machines. Its current practice has been heavily influenced by recent advances in computer hardware and software.

Mechanical engineers use computers to formulate preliminary and final designs of systems or devices, to perform calculations that predict the behavior of the design, and to collect and analyze performance data from system testing or operation.

Traditionally, mechanical engineers have designed and tested devices, such as heating and air-conditioning systems, machine tools, internal-combustion engines, and steam power plants. Today they also play primary roles in the development of new technologies in a variety of fields—energy conversion, solar energy utilization, environmental control, prosthetics, transportation, manufacturing, and new-materials development.

The curriculum in mechanical engineering focuses on four areas: applied mechanics, thermofluids engineering, materials science, and controls. Applied mechanics is the study of the motion and deformation of structural elements acted on by forces in devices that range from rotating industrial dynamos to dentists' drills. Thermofluids engineering deals with the motion of fluids and the transfer of energy, as in the cooling of electronic components or the design of gas turbine engines. Materials science is concerned with the relationship between the structure and properties of materials and with the control of structure, through processing, to achieve desired properties. Practical applications are in the development of composite materials, metallurgical process industries, and advanced functional materials. Controls are critical to any engineered system in which sensors and actuators of several types communicate and function.

Courses in each area form the foundation for advanced analytical and creative design courses that culminate in a two-semester capstone design project. Faculty encourages students throughout the curriculum to use computer-aided design tools and high-performance computer workstations.

More than 90 percent of department undergraduate students take advantage of the cooperative education program. Cooperative education assignments increase in responsibility and technical challenge as students progress through the program. Initial positions may involve computer-intensive CAD/CAM

assignments or programming tasks, while more advanced jobs will place students in charge of design, quality-control systems, and performance testing of equipment.

The programs in Bouvé College of Health Sciences combine experiential and cooperative education opportunities with highly innovative academic curricula that are designed to meet the demand for well-educated health professionals, nurses, and pharmacists. The college seeks to prepare students to become effective professional practitioners and leaders, enter graduate schools, and work in many areas responsible for the delivery of healthcare.

There are three schools within the Bouvé College of Health Sciences: the School of Nursing, the School of Pharmacy, and the School of Health Professions, which comprises the following majors: health science, physical therapy, and speech-language pathology and audiology. The college offers students a healthcare education that features a curriculum of highly relevant and closely integrated basic courses in the physical, biological, behavioral, and social and administrative sciences; on-site involvement in clinical patient care, including introductory and advanced practice experiences in pharmacy and clinical experiences in nursing, physical therapy, and other health professions; integrated

experiential education opportunities in the form of the university's signature cooperative education work program; and a commitment to the search for and advancement of new and progressive concepts, ideas, and philosophies of education and professional practice.

Each of the programs offered by the college is accredited by the appropriate professional group. The college is a member of the American Association of Colleges of Nursing, the American Association of Colleges of Pharmacy, and the American Council of Academic Physical Therapy.

Academic Requirements

Students are responsible for following the curriculum plan for their respective major, pattern of attendance, and graduation year. Students are responsible for monitoring their own progress through the curriculum by registering for the courses stipulated by their curriculum plan, abiding by course prerequisites, regularly checking their degree audits, and knowing the consequences for unsatisfactory academic progress. Any exceptions to a student's curriculum plan must be approved by his or her academic advisor.

COLLEGE ACADEMIC STANDARDS— PROFESSIONAL COURSES

Students must receive a grade of C or better in professional courses.

Professional courses are those required courses taught within the major/college as identified by course subject code: CAEP, EXSC, HLTH, HSCI, NRSG, PHMD, PHSC, PHTH, PT, SLPA.

Courses in the above-listed subjects that are taken as electives are exempt from the C or better rule and the university's minimum satisfactory grade will be accepted.

COLLEGE ACADEMIC STANDARDS— PROFESSIONAL PREREQUISITES

Major	Professional Prerequisite Designation	Minimum Passing Grade
Health Science	BIOL, CHEM, MATH	C–
Nursing	BIOL, CHEM, MATH PSYC 3404	C C
Pharmacy	BIOL, CHEM, MATH, PHYS	C
Physical Therapy	BIOL, EXSC, PHYS, PSYC CHEM, MATH	C C–
Speech-Language Pathology and Audiology	BIOL, MATH, PHYS PSYC 1101	C– C–

Courses in the above-listed subjects that are taken as electives are exempt from the C– or higher rule and the university’s minimum satisfactory grade will be accepted.

COLLEGE ACADEMIC STANDARDS—ALL OTHER COURSES

The university’s minimum passing grade for the course will be accepted. *Note:* The university requires a minimum grade of C for ENGW 1111 and ENGW 3306.

PROGRESSION WITHIN BOUVÉ

- First-year students must complete at least 27 semester hours and meet all major prerequisite course requirements to progress to sophomore status. First-year students who earn fewer than the semester hours stipulated by the curriculum plan for their major must make up the difference prior to graduation.
- To progress into the subsequent year of professional courses, students must have completed all professional prerequisites with the required minimum passing grade as noted in the chart above.
- To progress into the subsequent semester of professional courses, students must have completed all professional courses with a grade of C or better.
- Doctor of Pharmacy students must receive grades of C or better in all professional prerequisites, have satisfactorily completed all courses in year one (freshman year) and year two (sophomore year) of the curriculum, and have a minimum GPA of 3.000 at the completion of the spring semester of the sophomore year to progress into the first professional year of the program. Pharmacy students who are admitted as freshmen in the fall of 2016 and thereafter will be required to meet the above criteria and have an overall GPA of 3.000 or higher in professional prerequisites and professional courses (see earlier chart) at the completion of the spring semester of the sophomore year to progress into the first professional year of the program. In addition, students must demonstrate, through a personal interview, good verbal and written communication skills, understanding of the pharmacy profession, and commitment to patient care, based on criteria set by the Doctor of Pharmacy program. Students must maintain an overall GPA of 3.000 or higher during the graduate phase of the Doctor of Pharmacy program.
- For Doctor of Pharmacy students, failure to earn a satisfactory grade (S) in a co-op will be counted as a professional course failure.
- Students interested in earning the Bachelor of Science in Pharmaceutical Sciences degree must be fully matriculated Northeastern University students at the time of application. See “Changing Majors” on page 26 for more information.
- Physical therapy students must receive the minimum passing grade as noted in the chart above for all professional prerequisites, have satisfactorily completed all courses in the preprofessional phase of the curriculum, and have an overall GPA of 3.000 or higher to progress into the professional phase of the physical therapy program. Students who are

admitted to the physical therapy program in the fall of 2013 and thereafter will be required to complete a minor or its equivalent prior to entering the professional phase of the program. This requirement is intended to provide students with a robust foundation in the humanities, social sciences, and natural sciences that is required for successful completion of the doctoral program in physical therapy. To progress into the subsequent academic semester in the professional phase of the physical therapy program, students must successfully pass all professional courses (EXSC, HLTH, PHSC, PT), including lecture and lab, with a grade of C or better and have an overall GPA of 3.000 or higher.

- Students who incur an incomplete grade in a prerequisite course must obtain approval from their academic advisor, upon consultation with the department faculty, prior to progression into the subsequent course(s).

CRITERIA FOR UNIVERSITY ACADEMIC PROBATION

Note: Notation of academic probation will appear on internal records but not on permanent transcripts.

Students in the Bouvé College of Health Sciences will be placed on academic probation effective the following academic semester for any of the reasons noted below:

First-year Students

Students who fail to attain an overall GPA of 1.800 at the end of each semester of their freshman year and/or fail to earn at least 12 semester hours in the semester just completed will be placed on academic probation effective for the following semester.

Upperclass and Transfer Students

Students who fail to attain a minimum cumulative GPA of 2.000 at the end of each semester and/or fail to earn at least 12 semester hours in the semester just completed and/or fail to meet the requirements for good academic standing for their major will be placed on academic probation.

ACADEMIC DISMISSAL FROM MAJOR

Students in the Bouvé College of Health Sciences will be dismissed from their major effective the following academic semester for any of the reasons noted below:

- Failure to earn a grade of C or better in three professional courses, regardless of remediation. Lecture and clinical/lab components for the same class are considered as *one* professional course failure. Within the physical therapy and Doctor of Pharmacy programs, each specific professional course (with separate registration number) will be counted as a separate failure even if content is related.
- For nursing students, failure to earn a grade of C or better in two professional and/or clinical courses, regardless of remediation.
- For prelicensure nursing students, the expected graduation date may not be changed more than once.
- Failure to earn the minimum required grade in the same course twice.

- For physical therapy students, failure to achieve an overall 3.000 GPA at the point of progressing into the professional phase of the program or failure to maintain the required overall 3.000 GPA at any point in the professional phase of the program.
- For physical therapy and Doctor of Pharmacy students, the expected graduation date may not be changed more than twice.
- The physical therapy and Doctor of Pharmacy programs monitor and promote the development of professional behaviors in their students in order to ensure appropriate professionalism in the classroom, local and global communities, and clinical settings. Breach of adherence to these standards may result in dismissal from the student's respective program.

Note: Students dismissed from their major but who are otherwise in good standing with the university are allowed to remain at Northeastern University for up to two semesters as a provisional Bouvé student, by the end of which the student is expected to move into a new major. Otherwise, the student will be dismissed from the university.

ACADEMIC DISMISSAL FROM UNIVERSITY

Students who remain on probation after two academic semesters may be dismissed from the university. Notation of this academic dismissal action will appear on the permanent transcript.

ACADEMIC APPEALS

Students who believe that they were erroneously, capriciously, or otherwise unfairly treated in an academic or cooperative education decision may petition to appeal the decision. Refer to the *Bouvé Undergraduate Student Manual*, which details the Bouvé College of Health Sciences Appeals Process, and the *Northeastern University Student Handbook*, which details the University Undergraduate Student Academic Appeals Procedures.

Speech-language pathologists and audiologists are involved with the evaluation and treatment of, and counseling and research in, human communication and its disorders. The speech-language pathology and audiology program is designed to help students develop entry-level competencies that will enable them to function in a preprofessional capacity in educational settings, medical and rehabilitation centers, and private practice clinics. Students will be exposed to a wide variety of communication disorders through observation and participation in activities at the Northeastern University Speech-Language and Hearing Center. This is a state-of-the-art facility in the Behrakis Health Sciences building. Alongside their graduate student mentors, students are introduced to the basics of clinical practice and research. Co-ops in schools, hospitals, or other relevant settings are designed to broaden students' exposure and help prepare them for graduate study or employment. Students may also broaden their knowledge of healthcare practice by taking interdisciplinary courses with their colleagues in disciplines such as physical therapy, nursing, and pharmacy.

Speech-language pathologists and audiologists provide clinical services to a full range of communicatively impaired individuals, from infants through geriatrics. Speech-language pathologists treat disorders such as developmental language and articulation disorders; voice and resonance problems; stuttering; pediatric and adult swallowing disorders; and language and cognitive impairments due to stroke, head injury, and progressive neurological diseases. Audiologists specialize in the prevention, identification, assessment, and rehabilitation of hearing disorders. Individuals with congenital and acquired hearing impairments are seen for services by audiologists. They prescribe and dispense hearing aids and instruct individuals in the use of amplification. Undergraduate students take courses in both speech-language pathology and audiology in preparation for advanced training and specialization at the graduate level.

The Bachelor of Science degree program in speech-language pathology and audiology includes an experiential learning component, a broad-based academic core, and the scientific and clinical course work necessary for understanding normal and disordered communication. The degree offers preprofessional training for individuals who want to pursue graduate education in speech-language pathology and audiology. Alternatively, graduates may be hired as speech and hearing assistants in a

variety of clinical settings, or they may pursue other career paths in healthcare and education.

The speech-language pathology and audiology curriculum is designed to facilitate critical thinking, information literacy, and oral and written communication skills. In addition to course work in the basic communication sciences, course work is required in education, allied health, computer literacy, ethics, multicultural/diversity issues, and psychology. The curriculum provides a solid foundation in speech-language pathology and audiology and basic sciences, and it is sufficiently flexible to provide students with the opportunity to minor in an area of related interest. By taking five courses in the standard curriculum, students may earn a minor in psychology.

A unique aspect of the speech-language pathology and audiology program is a five-year accelerated program. Students who have maintained an overall GPA of 3.350 or better and a C or better in all SLPA courses, who have satisfied all graduate program admissions requirements, and who have access to a car and/or utilization of public transportation to get to and from all clinic assignments, may seek admission to this program in their third year. Students will, if successful, earn both a BS in speech-language pathology and audiology and an MS in speech-language pathology at the end of the program and meet national certification requirements. The accelerated program is selective because of the intensity of the combined program.

The department also offers an AuD PlusThree program. Students are eligible to apply to this program in their junior year if they have maintained a GPA of 3.250 or better and a C or better in all SLPA courses. If successful, students will receive a BS degree in speech-language pathology and audiology at the end of the fourth year and a Doctor of Audiology (AuD) at the end of the seventh year. Students will also meet national certification requirements at the end of the program.

Academic Progression Standards

In order to progress from the freshman to sophomore year, the student must have a GPA of at least 1.800 and have completed 27 semester hours. In order to progress into the subsequent year of professional courses, the student must have a grade of C or better in all professional courses.

The Department of Health Sciences offers a BS degree program in health science, BS in health science/MPH, and minors in exercise science and in health science.

Health Science

The health science major is designed to provide students with an integrated understanding of the natural and social sciences, critical reasoning, and the determinants of global and population health. The competencies that students acquire over their tenure in the Department of Health Sciences provide a solid foundation that prepares students to enter graduate and professional programs in medicine, dentistry, law, veterinary medicine, physician assistant, exercise science, social work, and public health. Health science students also distinguish themselves as particularly well prepared to enter the workforce in many health-related areas because they understand the critical importance of the context in which healthcare is delivered. Health science graduates can be found in leadership roles in various health-related organizations, including hospitals, government and other public health agencies, community-based organizations, and in the pharmaceutical and insurance industries.

The health science curriculum integrates learning in the natural sciences, social sciences, and the liberal arts. All health science students have the option to complete the program with or without a co-op experience. Health science students take courses that introduce them to social determinants of health and wellness and to the ways in which healthcare systems and policies foster—or impede—health and wellness. Our curriculum offers students an opportunity to develop an understanding of public health, health policy and administration, quality-of-care improvement, research methods, and evidence-based healthcare. The curriculum includes electives designed to enrich students' intellectual lives and an opportunity to identify specific areas of interest. Students may use electives to explore a formal minor that complements their health science studies. The entire academic experience culminates in a capstone project during the senior year, intended to provide students with a structured opportunity to integrate the knowledge and skills acquired in prior courses, research, and experiential activities.

Health Science Minor

The minor in health sciences is designed for undergraduate students from any discipline across the university who wish to expand and apply their understanding in key areas of public health. The minor is comprised of five courses, two of which are required (PHTH 1260 and PHTH 2350), to equal 20 semester hours in total. Health science faculty consult with students to assist with elective selections relevant to their interests.

Exercise Science Minor

The minor in exercise science is for undergraduate students from any discipline wishing to expand their understanding in this area. Exercise science is a discipline that examines the short- and long-term responses to exercise and benefits of exercise training for healthy persons as well as persons with chronic diseases such as heart disease, pulmonary diseases, diabetes, and obesity. Through this minor, undergraduate students have an opportunity to broaden their understanding of exercise and physical activity in health promotion, disease prevention, and management. Students who elect a minor in exercise science may then apply to the MS in exercise science upon graduation.

BS in Health Science

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Note: Students pursuing premed track should consult advisor for additional guidance.

Health Science/Public Health

The Department of Health Sciences offers a combined undergraduate BS in health science and a master of public health in urban health. This program allows up to five students each year to complete both degrees in a shorter amount of time than it would take to do each program separately. Students in the combined degree program will meet the core curriculum requirements for both a BS and an MPH degree. Fifteen credits of the MPH degree are taken during the final undergraduate year, and the MPH degree is completed over one additional year.

BS in Health Science/MPH—Master of Public Health

Undergraduate students apply to the PlusOne bachelor's/master's program through the graduate school. Once admitted, students may count a maximum of 16 semester hours of graduate credit toward the undergraduate degree. Consult the department for information on this program.

Minor in Health Science

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

physicaltherapy@neu.edu

The physical therapy program has a long and rich history as one of the oldest accredited programs in the United States, with origins dating back to World War I reconstruction aides. Our mission is to impact the health and well-being of the global community by developing leaders in physical therapy, movement, and rehabilitation sciences through interprofessional experiential education, translational research, and excellence in clinical practice. The cornerstone of our program is experiential learning, which includes cooperative education, simulated patient interactions, engagement with consumer clients, service-learning, clinical research, and international humanitarian opportunities. Through this unique, multifaceted approach to learning we:

- Educate skilled, autonomous doctors of physical therapy who embrace evidence-based practice, are culturally competent, and are equipped to work in a complex global healthcare environment.
- Promote professionalism, humanistic values, resourcefulness and innovation, and a commitment to lifelong learning.
- Advance scholarship in areas related to physical therapist education and clinical practice to meet the changing needs of a global and technologically advancing world.

Features of the Doctor of Physical Therapy Program

The program in physical therapy has three admission points: freshman, internal transfer, or as a graduate student with a baccalaureate degree in any field. The duration of the program is six years for freshman entry, four years for transfer or postbaccalaureate entry. The terminal degree is the Doctor of Physical Therapy (DPT). Our entry-level Doctor of Physical Therapy program is one of the few freshman entry programs in the country. Undergraduate students earn a BS in rehabilitation science and progress into the Doctor of Physical Therapy phase of the program. Students do not need to reapply to the DPT phase of the program, provided they meet the academic standards.

Emphasis on Experiential Learning

Our DPT program provides freshman entry students with one year of experiential learning (six months for graduate entry

students) in addition to the required clinical affiliations necessary for licensure. Through cooperative education, the hallmark of Northeastern University, students are able to integrate semesters of academic study with semesters of cooperative education experiences in hospitals and clinics throughout the country and around the globe. Students may be employed as physical therapy co-ops with increasing responsibilities commensurate with their academic studies or perform other health-related duties.

The curriculum also includes thirty-six weeks of clinical education under the direct supervision of a licensed physical therapist. We are affiliated with world-class medical centers and clinical sites throughout the United States, providing students with access to master clinicians and clinical scholars. Every effort is made to accommodate individual circumstances, but students should be prepared to travel out of state for two of the three clinical placements. Availability of a car may be required, as most sites are not accessible by public transportation. All expenses associated with clinical education, including travel and housing, are the responsibility of the student.

Graduate Student Research

Graduate research opportunities are integrated into the curriculum. Students also have the opportunity to work with faculty to conduct ongoing research in world-renowned medical centers, in one of the ten Department of Physical Therapy, Movement, and Rehabilitation Science's labs and centers (e.g., Virtual Reality Center, Biomotion Lab, Ergonomics Lab, Neurocognitive Research Lab, Neuroscience Wet Lab, Cancer Survivorship Center, and Rehabilitation and Epidemiology Trainee Program), and to participate in community service-learning.

Global Outreach

Students have multiple opportunities to enrich their education through global outreach and education. Physical therapy students can elect to go abroad for a cooperative education experience. To date, physical therapy students have worked in Nepal, Peru, Costa Rica, and South Africa. In the latter portion of the curriculum, students can participate in short cultural immersion experiences abroad whereby they engage in community service projects under the direction of a physical therapy faculty member or on physical therapy academic exchanges with partner academic institutions.

Ability to Minor in Another Field

Physical therapy undergraduate students work with their academic advisor to develop a schedule to complete a minor in another field such as psychology, exercise science, or a foreign language.

Progression in the Program

To progress in the program, students must maintain acceptable standards of scholarship and academic performance as stated in the academic requirements section of this catalog. Students must develop appropriate motor skills, professional behaviors, and

emotional maturity. The program in physical therapy is accredited by the Commission on Accreditation in Physical Therapy Education of the American Physical Therapy Association.

Graduates of the Doctor of Physical Therapy program are eligible to sit for the Physical Therapy Licensure Examination.

Bachelor of Science in Rehabilitation Studies

The Department of Physical Therapy, Movement, and Rehabilitation Sciences offers a four-year degree program leading to the Bachelor of Science in Rehabilitation Studies (BSRS). The program is designed to prepare students for careers in entry-level positions in the healthcare industry or to prepare graduates for admission into advanced degree (MS, PhD, PA, DPT) programs in the healthcare field. The BSRS does not qualify or prepare the graduate to sit for the physical therapy licensure exam. This program is open to students already enrolled in the Doctorate of Physical Therapy (DPT) program at Northeastern University who choose to opt out of pursuing licensure for direct patient care in the practice of physical therapy, for a future career that is grounded in healthcare. The transition of a student from the DPT program to the BSRS program is seamless because the course work for the first three years of the six-year DPT curriculum is identical to the BSRS curriculum. See "Changing Majors" on page 26 for more information.

The School of Nursing offers a Bachelor of Science and an Accelerated Bachelor of Science (ABSN) in nursing programs designed to prepare students to become professional nurses by providing them with the knowledge, skills, and professional values needed for successful practice in a variety of healthcare settings. The school aims to provide all students—including those with diverse backgrounds and changing career goals—with a broad-based education that will foster ongoing personal and professional growth.

The mission of the Northeastern University School of Nursing is to educate our students to provide evidence-based, culturally and linguistically competent, ethical healthcare that is high quality, safe, and accessible to diverse local, national, and global communities. Our programs prepare students to become leaders as nurse clinicians, educators, scholars, and researchers.

Nursing is both a science-based profession and a caring art. The curriculum draws on basic and behavioral sciences, the arts and humanities, and the art and science of nursing to help students understand the complexities of health and illness across the life span.

The goal of the School of Nursing is to prepare students to think critically and to practice nursing competently and compassionately in rapidly changing practice environments. All efforts are designed to build nursing knowledge, enhance nursing practice and patient safety, foster professional integrity, and ultimately improve the health outcomes of patients, families, and communities across the continuum of care. This approach requires

knowledge, skills, and attitudes that demonstrate leadership, quality care, critical thinking and clinical reasoning, cultural and linguistic competence, interprofessional collaboration, evidence-based practice, and integration of informatics and technology.

The clinical program takes place in the community where people live as well as in hospitals, rehabilitation centers, and long-term-care facilities. The curriculum is capped by courses that enable students to put leadership and management skills into action and to synthesize the complete role of the professional nurse in a clinical practicum.

In addition to completing academic course work, students must meet the cooperative education requirement, which gives them the opportunity to integrate the theory and practice of nursing in selected settings. Numerous community and institutional healthcare agencies in Greater Boston and across the country offer students an opportunity to gain experience in providing nursing care to a variety of patients and families and to understand that nurses have major roles in wellness and health promotion, acute care, and long-term care. Students in the program are strongly encouraged to participate in research activity and in global educational opportunities that can all be a part of the program.

The program is accredited by the Commission on Collegiate Nursing Education (CCNE) and is approved by the Board of Registration in Nursing of the Commonwealth of Massachusetts (BORN). Accreditation and approval indicate that the program meets educational standards for faculty, curriculum design, student quality, and overall university support. The School of Nursing has been designated as a National League for Nursing Center of Excellence in Nursing Education for its commitment to creating environments that enhance student learning and professional development. The School of Nursing has also been designated as a National Hartford Center of Gerontological Nursing Excellence for its contributions in the area of geriatric nursing and research. The school subscribes to the standards established by the American Association of Colleges of Nursing (AACN), of which it is a member.

Special Requirements

All students must receive a health clearance from University Health and Counseling Services (UHCS). Health clearance is based on specific documentation of immunity from infectious disease and a physical examination (this may be done by the student's own healthcare provider). In addition, nursing students need a clinical clearance in order to participate in clinical courses. Clinical clearance, managed by the School of Nursing's Clinical Placement Office, includes verification of certification in cardiopulmonary resuscitation (CPR); recent negative tuberculosis screening (PPD); positive titres for MMR, varicella, and hepatitis B; vaccines including TDAP and influenza; and additional health screenings as may be required by the program. It is the responsibility of the student to stay current and to provide documentation required for clinical clearance throughout the entire nursing program.

Clinical settings also require us to run a criminal background check. Additionally, international students require curricular practical training (CPT) clearance to meet federal requirements for all clinical and co-op experiences.

Students enrolled in the clinical courses may need access to a car to travel to assigned agencies. Students are responsible for their own transportation costs.

During academic semesters, students in the School of Nursing are required to wear the approved school uniform to their clinical site and in some clinical laboratory areas. Students are responsible for purchasing these uniforms, badges, and a lab supply pack.

In Massachusetts, and several other states, the registering board requires that graduates taking the National Council Licensing Examination (NCLEX-RN) meet standards of "good moral character" (GMC). Students may review the GMC requirement specified at Massachusetts General Laws Chapter 112, sections 74, 74A, and 76; Licensure Policy No. 00-01 under "Rules & Regulations" on the Massachusetts BORN website; or they can similarly investigate the requirements in the state where they expect to practice.

RN to BSN Hybrid Option

The Bouvé College of Health Sciences School of Nursing allows qualified individuals to take the next step in their career toward becoming a baccalaureate-prepared registered nurse. The RN to BSN program offers a comprehensive clinical curriculum where students are exposed to all nursing specialties and aspects of nursing leadership. Program participation may be completed on a part-time or a full-time basis depending on preference. For more information, contact the School of Nursing program call center at 888.206.6004.

Accelerated BSN for Second-Degree Students

The Accelerated Bachelor of Science in Nursing (ABSN) hybrid program, which comprises 16 months of full-time study, combines online didactic coursework and hands-on learning involving both clinical placements and experience in the skills laboratory. The program offers students an opportunity to work closely with nursing faculty to master the core skills necessary to excel in their nursing career. The program also seeks to prepare students to successfully take and pass the National Council Licensure Examination for Registered Nurses (NCLEX-RN) and earn an RN license.

The ABSN curriculum includes 67 credits of undergraduate courses with online learning modules incorporating lectures and learning activities. The majority of these credits are completed online through an e-learning platform that allows students to listen to lectures, submit assignments, complete interactive learning modules, and engage in discussion with faculty and classmates.

The Bouvé College of Health Sciences School of Nursing has an extensive network of clinical affiliations at health centers, major teaching hospitals, and community hospitals that allow students to engage in clinical experiences covering a wide range of nursing specialties that include adult health, OB-GYN, pediatrics,

behavioral and mental health, acute care, public health, health education, and management/leadership.

The School of Pharmacy is dedicated to excellence in pharmacy-related education, research, and service, including the provision of patient care. We prepare students with knowledge, skills, and values for careers in pharmacy practice and the pharmaceutical sciences. Our programs promote intellectual growth, professionalism, and lifelong learning. Through the generation and dissemination of new knowledge and through scholarship and community service, the school contributes to improved individual and population health.

The six-year (two years of preprofessional and four years of professional courses) program at Northeastern University leading to the professional Doctor of Pharmacy degree (PharmD) offers a unique program that fully integrates campus-based learning with experiential learning, including the university's signature cooperative education (co-op) program, to provide students with the skills and abilities necessary to succeed in the pharmacy profession. Our students promote and ensure the safe and effective use of drugs and provide medication therapy management services. In addition to preparing and dispensing prescribed medications, our students provide information to patients about medications and their uses; advise physicians, other prescribers, and other healthcare practitioners on medication selection, dosages, interactions, and adverse effects; and monitor patient responses to drug therapy.

Our students are well equipped to provide patient care services in a variety of settings. Most of our graduates work in community pharmacies or in healthcare facilities such as hospitals and ambulatory clinics. Additional practice opportunities exist in health maintenance organizations, private practice groups, long-term-care facilities, home healthcare, the Public Health Service, the armed services, and law enforcement agencies such as the Federal Drug Enforcement Administration. Graduates may also find employment in drug development, marketing and research within the pharmaceutical industry, colleges of pharmacy, and

professional association management. In addition, many of our graduates go on to pharmacy practice residencies, fellowships, and leading graduate programs.

Doctor of Pharmacy students are admitted with the expectation that by working with faculty, staff, and each other, they will develop the knowledge, skills, and attitudes necessary for academic and professional success. Students follow academic progression plans for their respective years of graduation. Any deviation from the prescribed curriculum will require faculty/staff permission and an approved plan of study from the School of Pharmacy (SOP) Academic Affairs Committee.

The pharmacy curriculum includes introductory (cooperative education) and advanced pharmacy practice experiences. These pharmacy practice experiences are provided primarily under the direct supervision of qualified pharmacist preceptors and occasionally with other qualified healthcare professionals. The school is affiliated with many world-class practice sites throughout the United States, providing students with access to experienced clinicians and scholars. Although every effort is made to accommodate individual circumstances and requests, students should be prepared to travel outside the Boston area to complete some of their pharmacy practice experiences. Availability of a car may be required, as some sites are not accessible by public transportation. All expenses associated with pharmacy practice experiences, including travel and housing, are the responsibility of the student.

Introductory pharmacy practice experiences (IPPEs) are competitive placements that are based on job availability in a geographic region. The placements are facilitated by SOP cooperative education coordinators. Students are required to complete one IPPE in a community setting and one IPPE in an institutional/hospital practice setting.

Advanced pharmacy practice experience (APPE) placements are provided based on site/preceptor availability and the final approval of the SOP Office of Experiential Education (OEE). Students may be able to petition the OEE for out-of-system APPEs; however, availability for such requests is limited.

To be eligible for a Doctor of Pharmacy degree (PharmD), a student must successfully complete all courses in the curriculum including the introductory (co-op) and advanced pharmacy practice experiences; meet the academic progression standards of the program; meet the technical standards of the program; and satisfy all other requirements as stated in the *Bouvé College of Health Sciences Undergraduate Student Information Manual*. The pharmacy program, which is fully accredited by the Accreditation Council for Pharmacy Education (info@acpe-accredit.org), subscribes to the standards established by ACPE and the American Association of Colleges of Pharmacy.

Students enrolled in the Doctor of Pharmacy program will be awarded a Bachelor of Science in Pharmacy Studies after successful completion of all didactic and laboratory courses in semesters 1 through 10 of the pharmacy curriculum with an overall GPA of 2.000 or greater. To earn the Doctor of Pharmacy degree, students must complete an additional 36 semester hours of

Advanced Pharmacy Practice Experience (APPE) (see “Requirements for the Doctor of Pharmacy Advanced Pharmacy Practice Experiences” below) with an overall GPA of 3.000 or greater in the Bouvé College of Health Sciences Graduate Program.

Pharmacy graduates must meet specific requirements to qualify for professional licensure in the state where they plan to practice as a registered pharmacist. These requirements include graduating from an accredited school of pharmacy, passing national and state board examinations, and completing internship hours. The internship is a period of practical experience conducted under the supervision of a registered pharmacist. Massachusetts requires 1,740 internship hours, all of which are satisfied through the introductory (co-op) and APPEs.

The School of Pharmacy offers a four-year degree program leading to the Bachelor of Science in Pharmaceutical Sciences (BSPS). The program is designed to prepare students for careers in entry-level positions in the pharmaceutical, biomedical, biotechnology, drug discovery, and development industries or to prepare graduates for admission into advanced degree (MS, PhD) programs in the pharmaceutical sciences. The BSPS does not qualify or prepare graduates to apply for licensure for the practice of pharmacy. This program will be open primarily to students already enrolled in the PharmD degree at Northeastern University who choose to opt out of pursuing licensure for direct patient care in the practice of pharmacy for a future career that is grounded in the pharmaceutical sciences. Courses for the BSPS curriculum parallel the Doctor of Pharmacy curriculum so credits are readily transferable. The BSPS degree requires a minimum of four years of study and provides for at least one co-op period. The total number of semester hours (134–143) meets the university minimum of 128 semester hours for a BS degree.

Requirements for the Doctor of Pharmacy Advanced Pharmacy Practice Experiences

1. Successful completion of all required and elective didactic course work in the pharmacy curriculum and conferral of the Bachelor of Science in Pharmacy Studies degree.
2. Successful completion of the APPE preparatory courses (PHMD 6438 and PHMD 6439).
3. Evidence of health clearance from University Health and Counseling Services before placements at any APPE site.
4. Satisfactory completion of any additional site-specific requirements including, but not limited to, criminal record information (CORI) and verification of immunization status. All fees associated with these requirements are the responsibility of the student.
5. Adherence to the university’s code of conduct policies while off-campus.
6. Successful completion of six, six-week APPEs: four required APPEs (i.e., ambulatory care, community, internal/general medicine, and one health system experience); and two electives that may be patient-care or non-patient-care focused.

7. Maintenance of sufficient knowledge of site-specific requirements (via site descriptions) and completion of site requests within specified deadlines. Failure to complete these requirements as directed will likely result in delay of graduation.
8. Maintenance of an APPE portfolio throughout the APPE year and completion of all portfolio submission requirements within specified deadlines.
9. Attendance at scheduled on-campus APPE meetings during the APPE year: (1) fall semester: midpoint APPE meeting; and (2) spring semester: exit meeting.

Technical Standards for the Doctor of Pharmacy Program

The Doctor of Pharmacy program at Northeastern University is a rigorous and challenging academic program that requires students to possess specific characteristics and abilities within the cognitive, affective, and psychomotor domains, referred to here as technical standards. To successfully progress in and ultimately complete the didactic, laboratory, and experiential components of the Doctor of Pharmacy program, students must meet the standards described below.

INTELLECTUAL ABILITIES

Students must have well-developed problem-solving and critical-thinking skills. Cognitive function must be appropriate to integrate, evaluate, and apply information gained through measurement, analysis, calculation, and reasoning. Students must have the capacity to learn efficiently in classroom, laboratory, small group and experiential settings, and through independent study. Students are required to demonstrate the ability to integrate course content knowledge with clinical practice applications to optimize medication therapy management.

COMMUNICATION SKILLS

Students must be able to communicate effectively with colleagues, professors, patients, families, and healthcare providers. This includes efficiently comprehending, speaking, reading, and writing in English. Students must be able to process and use appropriate nonverbal cues and be proficient in the use of electronic communication media.

BEHAVIORAL AND SOCIAL ATTRIBUTES

Students must demonstrate maturity, integrity, honesty, compassion, and respect when relating to others. Students must have sufficient mental and emotional health to complete work and responsibilities using good judgment. Students must be able to tolerate and adapt to stressful workloads and situations and modify behavior based on constructive criticism. Students must be able to function in accordance with the legal and ethical standards of practice.

OBSERVATION AND MOTOR SKILLS

Students must have functional use of visual, auditory, and tactile senses. Students must be able to observe and perform experiments, physical assessments, patient interviews, and medication order

processing. Students must be able to distinguish physical characteristics of medications by inspection. Students must have coordination of gross and fine muscular movements sufficient to perform pharmacy-related tasks including compounding and dispensing medications, administering medications, and using computers and other technology necessary for learning and professional practice.

PharmD—Doctor of Pharmacy

Complete all courses listed below unless otherwise indicated.

Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

NU CORE REQUIREMENTS

See page 34 for requirement list.

PHARMACY MAJOR GRADE REQUIREMENT

A grade of C or higher is required in all PHMD and PHSC courses.

The College of Science (COS) offers instructional programs that are at the forefront of discovery, invention, and innovation in the physical sciences, life sciences, linguistics, and mathematics. Our programs are designed to give students a deep understanding and hands-on experience in traditional and emerging interdisciplinary fields such as chemical biology, cognition and neuroscience, marine science, biochemistry, nanoscience, and network science.

The college places a strong emphasis on the experiential learning model and seeks to provide students with a wide array of opportunities to explore innovative, interdisciplinary collaborations through cooperative educational work assignments, service-learning, undergraduate research, internships, study-abroad programs, and active participation in our award-winning student chapters of professional associations. The college seeks to provide students with the best possible foundation for achieving their goals, whether they seek to attend graduate school, professional school, or immediately pursue a career upon graduation.

The college offers Bachelor of Arts, Bachelor of Science, and Bachelor of Science/Master of Science (PlusOne programs) degrees in a number of majors, as well as a Bachelor of Science/Doctor of Philosophy in physics and many interdisciplinary programs, and emphasizes the value of a solid general education through the NU Core. Students may choose a four- or five-year experiential learning plan in most programs. Either plan offers co-op opportunities, often in an area related to the student's

chosen academic area. Students are normally eligible to participate in co-op in the second semester of their sophomore year.

Many programs are flexible enough to allow students to pursue a double major, a major and a minor, or one of the college's specific combined majors. The college also offers students the opportunity to create an independent major in cases where their interests and goals are not met by a specific major program.

PlusOne Programs

Many programs and departments such as biochemistry, biology, chemistry and chemical biology, mathematics, and physics offer academically strong students the option of obtaining their BS and MS degree in five years.

Academic Advising

The College of Science has an academic advising system that consists of professional advisors located in the College of Science Student Services Office in 206 Mugar Hall and faculty advisors located in the college's department and program offices. Detailed advising information is available on the college website: www.northeastern.edu/cos. Prelaw advising (www.northeastern.edu/prelaw) and prehealth advising (www.northeastern.edu/prehealth) are also available.

Academic Progression Standards

The College of Science adheres to the university-wide academic progression standards described in the beginning of the catalog. Some majors have additional specific requirements in order to progress from year to year (see major requirements in departmental listings).

Graduation Clearance Process

Students in the College of Science are required to meet with an academic advisor in the College of Science Student Services Office in 206 Mugar Hall to determine their remaining graduation requirements. Some departments also require a meeting with a faculty advisor in their major/program. This should be completed in the junior year to ensure ample time to complete any outstanding requirements.

College Requirements

All students in the College of Science must successfully complete the university requirements of the NU Core (see page 34). In addition, students pursuing a Bachelor of Arts degree (BA) must fulfill the BA requirements (see page 35).

The behavioral neuroscience major is an interdepartmental program for undergraduates, supported by neuroscience faculty across the College of Science. The field of neuroscience focuses on brain mechanisms and how they give rise to behavioral functions in humans and animals. Behavioral neuroscience combines the disciplines of biology and psychology with a strong background in basic physical sciences and mathematics. The goal is to achieve an understanding of anatomy and physiology of nerve cells, chemical transmission, simple neural circuits, fundamental biological processes such as inheritance and development, and then to see how these biological events give rise to normal and pathological behavior. The primary objective of the neuroscience major is to draw together faculty and students who are interested in this interdisciplinary topic and to provide undergraduates with an education in the field. This major also seeks to prepare students for advancement to graduate programs in the field of neuroscience or in biology or psychology programs with an emphasis in neurobiology. An additional objective of this major is to prepare its students for admission to medical school, although there are additional science courses that should be taken as electives. Finally, the goal of the curriculum is to prepare students for employment in clinical settings or in allied fields such as the biotech industry.

Note: Due to overlap in course content, double majoring in behavioral neuroscience and psychology or behavioral neuroscience and biology is not permitted. Since the behavioral neuroscience major is already an interdisciplinary program of study, combined or independent majors with behavioral neuroscience are not permitted.

Academic Progression Standards

After four semesters in the major, students must have a GPA of at least 2.000 in all science and math courses and have completed at least six of the following courses:

BIOL 1101	Principles of Biology 1	4 SH
with BIOL 1102	Lab for BIOL 1101	1 SH
or BIOL 1107	Foundations of Biology	4 SH
with BIOL 1108	Lab for BIOL 1107	1 SH

BIOL 1103	Principles of Biology 2	4 SH
with BIOL 1104	Lab for BIOL 1103	1 SH
or BIOL 2299	Inquiries in Cell and Molecular Biology	4 SH
BIOL 2301	Genetics and Molecular Biology	4 SH

MATH 1252	Calculus and Differential Equations for Biology 2	4 SH
PSYC 3458	Biological Psychology	4 SH
BIOL 3405	Neurobiology	4 SH

Students who transfer into the behavioral neuroscience major will be allowed two semesters after entering the major to meet the minimum standards for their class. Students must maintain a minimum GPA of 2.000 to remain in this program. Students who fail to meet the above standards will be placed on probation. Two consecutive semesters on probation will result in dismissal from the major.

Behavioral Neuroscience Minor

The behavioral neuroscience minor consists of five courses requiring a minimum of 20 semester hours of study. Students are required to take one intermediate-level survey course and four behavioral neuroscience core courses, two from each of the parent departments of the discipline (i.e., psychology and biology). Students majoring in psychology and biology may minor in behavioral neuroscience.

BS in Behavioral Neuroscience

Complete all courses listed below unless otherwise indicated.

Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Biochemistry includes nearly the entire spectrum of science—from physics and chemistry to biology and medicine. The biochemistry major, sponsored jointly by the Departments of Biology and Chemistry and Chemical Biology, provides a strong foundation in mathematics and the physical sciences as well as thorough training in biochemistry, biology, and chemistry. In addition to formal class work, opportunities are available for participation in faculty research programs on an individual basis or through the Honors Program. The large number of biotechnology companies and biomedical facilities in the Boston area provides a rich source of opportunities through Northeastern's program of cooperative education. A BS in biochemistry/MS in biotechnology program is also available.

A Bachelor of Science degree in biochemistry allows students to enter the job market directly or go on to graduate, medical, veterinary, dental, law, or business school. Students may find positions in biotechnology companies, pharmaceutical companies, or government agencies, working in laboratory or clinical research, quality control, production, information systems, marketing, or technical sales. Students may also pursue graduate study in biochemistry, molecular biology, cell biology, biophysics, genetics, toxicology, biotechnology, clinical chemistry, animal science, nutrition, plant science, or other biomedical sciences.

Students who are interested in attending medical, dental, or veterinary school following graduation are urged to consult with the preprofessional advisory committee early in their careers at Northeastern.

Academic Progression Standards

After four semesters in the major, students must have a GPA of at least 2.000 in all science and math courses and have completed at least six of the following courses:

BIOL 1107	Foundations of Biology	4 SH
with BIOL 1108	Lab for BIOL 1107	1 SH
and BIOL 2299	Inquiries in Cell and Molecular Biology	4 SH
BIOL 2301	Genetics and Molecular Biology	4 SH
with BIOL 2302	Lab for BIOL 2301	1 SH

CHEM 1211	General Chemistry 1	4 SH
with CHEM 1212	Lab for CHEM 1211	1 SH
and CHEM 1214	General Chemistry 2	4 SH
with CHEM 1215	Lab for CHEM 1214	1 SH
CHEM 2311	Organic Chemistry 1	4 SH
with CHEM 2312	Lab for CHEM 2311	1 SH
and CHEM 2313	Organic Chemistry 2	4 SH
with CHEM 2314	Lab for CHEM 2313	1 SH
MATH 1251	Calculus and Differential Equations for Biology 1	4 SH
and MATH 1252	Calculus and Differential Equations for Biology 2	4 SH

Students who transfer into the biochemistry major will be allowed two semesters after entering the major to meet the minimum standards for their class. Students who fail to meet the above standards will be placed on departmental probation. Two consecutive semesters on departmental probation will result in dismissal from the major.

To graduate with a major in biochemistry, a student must have a cumulative GPA of 2.000 for all science and mathematics courses required for the major.

No double majors are offered in biochemistry and biology, in biochemistry and chemistry, or in biochemistry and behavioral neuroscience due to similarity in course curricula. Students must maintain a minimum grade-point average of 2.000 to remain in this program.

By majoring in biology, students are exposed to the organization and the processes of life, from molecules and cells through organs and organ systems to populations, species, ecosystems, and evolution. The major offers the mathematical, chemical, and physical background necessary for understanding biology and the practical scientific skills associated with each of these areas. It allows students to begin to specialize in a subdiscipline of biology such as cell biology, molecular biology, genetics, developmental and stem cell biology, biochemistry, microbiology, or physiology. Numerous opportunities for relevant positions are available through Northeastern's program of cooperative education.

There are several interdisciplinary opportunities involving biology: BS in biochemistry; BS in behavioral neuroscience; BS in computer science and biology; BS in biology and geology; and BS in biology/MS in biotechnology. The undergraduate biology major seeks to prepare students for careers in the life sciences, including medical, dental, and other health-related fields. Students may find employment in federal, state, industrial, hospital, or university laboratories or in industries involved in the manufacture and distribution of pharmaceuticals, biological products, food, or scientific equipment. Biologists also work in fisheries, forestry services, county and state agencies, museums, aquariums, research vessels, and marine stations. Graduate study culminating in a master's or doctoral degree can lead to careers in upper-level teaching or research in any of the life sciences.

Premedical, predoctoral, and other preprofessional students are urged to consult with the prehealth advising program early in their careers at Northeastern.

The Department of Biology strongly encourages undergraduate research by providing opportunities and support through a number of departmental programs, including research co-ops and internships, course credit for research in faculty labs, honors theses, and work-study research positions. Undergraduates are encouraged to present their findings at Northeastern's annual Scholarship and Technology Expo, as well as at external research conferences and in scholarly journals.

and MATH 1252	Calculus and Differential Equations for Biology 2	4 SH

Students who transfer into the biology major will be allowed two semesters after entering the major to meet the minimum standards for their class. Students who fail to meet the above standards will be placed on departmental probation. Two consecutive semesters on departmental probation will result in dismissal from the major.

To graduate with a major in biology, a student must have a cumulative GPA of 2.000 for all science and mathematics courses required for the major. No double majors are offered in biology and biochemistry, in biology and marine biology, or in biology and behavioral neuroscience due to similarity in course curricula.

BS in Biology

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

See page 34 for requirement list.

COMPUTER SCIENCE COURSES

Computer Science Overview

Complete one of the following sets. *Note:* Students entering this program through the Department of Biology may use the biology courses listed below:

CS 1200	Computer Science/Information Science Overview 1	1 SH
with CS 1210	Computer Science/Information Science Overview 2: Co-op Preparation	1 SH
BIOL 1000	Biology at Northeastern	1 SH
with BIOL 1106	Introduction to Experiential Education	1 SH

Computer Science Fundamental Courses

A grade of C– or higher is required in each course:

CS 1800	Discrete Structures	4 SH
with CS 1801	Recitation for CS 1800	0 SH
CS 2500	Fundamentals of Computer Science 1	4 SH
with CS 2501	Lab for CS 2500	1 SH

BIOL 5581	Biological Imaging	4 SH
BIOL 5587	Comparative Neurobiology	4 SH
BIOL 6308	Bioinformatics Computational Methods 1	4 SH

Intermediate and Advanced Biology Electives

Complete two biology courses (with corequisite labs, if offered, 9–10 semester hours total) numbered 2311 or above. One of these two courses (with corequisite lab, 5 semester hours total) must be from the following list:

BIOL 2311	Ecology	4 SH
with BIOL 2312	Lab for BIOL 2311	1 SH
BIOL 2313	Plant Biology	4 SH
with BIOL 2314	Lab for BIOL 2313	1 SH
BIOL 2315	Invertebrate Zoology	4 SH

with BIOL 2324	Lab for BIOL 2323	1 SH
BIOL 2325	Marine Biology	4 SH
with BIOL 2326	Lab for BIOL 2325	1 SH

The additional course (4–5 semester hours) must be from the following list:

BIOL 2311 to BIOL 4989		
ENVR 2400	Introduction to Evolution	4 SH

MAJOR GPA REQUIREMENT

Minimum 2.000 GPA required in all CS and IS courses

MATHEMATICS REQUIREMENTS

Complete two calculus courses with a grade of C– or higher, and complete one probability and statistics course:

Calculus

MATH 1251	Calculus and Differential Equations for Biology 1	4 SH
MATH 1252	Calculus and Differential Equations for Biology 2	4 SH

Probability and Statistics

MATH 3081	Probability and Statistics	4 SH
or ENVR 2500	Biostatistics	4 SH
with ENVR 2501	Lab for ENVR 2500	1 SH

COMPUTING AND SOCIAL ISSUES

Complete one of the following courses:

SOCL 3485	Environment, Technology, and Society	4 SH
SOCL 4528	Computers and Society	4 SH
ANTH 3418	Wired/Unwired: Cybercultures and Technopolitics	4 SH
IA 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	4 SH

COMPUTER SCIENCE ENGLISH REQUIREMENT

College Writing

ENGW 1111	First-Year Writing	4 SH
-----------	--------------------	------

Advanced Writing in the Disciplines

Complete one of the following courses. Students are strongly encouraged to take ENGW 3302 but may substitute ENGW 3315:

ENGW 3302	Advanced Writing in the Technical Professions	4 SH
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	4 SH

REQUIRED GENERAL ELECTIVES

Complete six general electives. One of these electives must be used to satisfy the NU Core arts/humanities level 1 requirement, and one must be used to satisfy the NU Core social science level 1 requirement. If the NU Core comparative study of cultures requirement is to be satisfied by taking a course, then it must also be one of the general electives.

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION

RESIDENCY REQUIREMENT

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

140 total semester hours required

Minimum 2.000 GPA required

BS in Biology/MS in Biotechnology

Complete all courses listed below unless otherwise indicated.

Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Note: This curriculum reflects only course work to be taken as an undergraduate student. For additional course work to be taken as a graduate student, see the graduate program in the *Northeastern University Graduate Catalog*.

NU CORE REQUIREMENTS

See page 34 for requirement list.

APPLICATION PROCEDURES

Students should apply for the BS/MS PlusOne program during their fifth academic semester. Before applying, students must have completed 80 semester hours and one co-op experience.

Experiential Learning

An activity related to biology and approved by the experiential learning advisor must be completed before the capstone. Among the possibilities are co-op experience, junior/senior honors thesis, research project in a faculty lab, study abroad with submission of a paper, 120 hours of supervised volunteer work in a biology-related area, participation in the Three Seas Program with submission of a project paper, or other approved experiences.

Biology Capstone

BIOL 4701	Biology Capstone	4 SH

GRADUATE COURSE WORK TO BE TAKEN AS AN UNDERGRADUATE STUDENT

Minimum 3.500 GPA required in all graduate courses

Electives

Complete two courses (at least 8 semester hours) in the following range:

BIOL 5000 to BIOL 9999

BIOLOGY MAJOR CREDIT/GPA REQUIREMENTS

Complete 81 semester hours in the major with a cumulative GPA of 2.000.

Due to overlap in course content, double majoring in biology and biochemistry or biology and behavioral neuroscience is not permitted.

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION

If elected

RESIDENCY REQUIREMENT

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

136 total semester hours required for the bachelor's degree
Minimum 2.000 GPA required for undergraduate courses
Minimum 3.500 GPA required in all graduate courses`

Minor in Biology

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

RESTRICTIONS

This minor is not available for students who major in biology, biochemistry, behavioral neuroscience, marine biology, or any combined major that involves biology.

REQUIRED BIOLOGY COURSES

Complete five biology courses for a total of at least 23 semester hours. Three courses must be intermediate or advanced. Three of the five courses must contain a lab corequisite:

BIOL 2297	Inquiries in Behavioral and Evolutionary Biology	4 SH
BIOL 2299	Inquiries in Cell and Molecular Biology	4 SH
BIOL 2301 TO BIOL 5999		

SCIENCE COURSE

Complete one course in the BIOL, CHEM, ENVR, or PHYS subject areas or from the following list:

PSYC 3458	Biological Psychology	4 SH
PSYC 4510	Psychopharmacology	4 SH

GPA REQUIREMENT

2.000 GPA required in the minor

Minor in Marine Biology

The minor in marine biology is offered by the Department of Marine and Environmental Sciences. See page 361 for details.

The Department of Chemistry and Chemical Biology provides education in basic chemistry and modern chemistry-related disciplines. The department offers an American Chemical Society–certified program leading to a Bachelor of Science in Chemistry, and also offers a Bachelor of Science in Biochemistry jointly with the Department of Biology. The overall objective of the Bachelor of Science in Chemistry major program is to provide the fundamental scientific background and practical training for students as they prepare for chemically related careers or advanced study in fields including the traditional chemical specialties, as well as biochemistry, materials science, forensic science, medicine, education, law, and other endeavors that may draw upon an understanding of the chemical basis of the world around us.

Key general objectives are the development of qualitative and quantitative problem-solving skills and effective communication skills. Specific learning objectives for the chemistry major include to develop conceptual understanding and problem-solving abilities in the fundamental chemical subfields of analytical chemistry, biochemistry, inorganic chemistry, organic chemistry, and physical chemistry; gain a foundation of physics and mathematics and integrate these areas with chemical principles; perform quantitative measurements; synthesize and characterize compounds; learn proper laboratory practices, including safety; develop proficiency with modern instruments and computers for data acquisition and analysis; and learn the relevance of chemistry to biology, pharmacology, medicine, manufactured and natural materials, and the environment.

Most of our chemistry majors participate in the cooperative education program and thereby gain invaluable professional experience to augment their classroom and laboratory work. Not only does that experience add immensely to the overall education received, it also has the potential to provide contacts and references for later employment or graduate school admissions. Chemistry majors also undertake a research project for at least one semester under the supervision of a faculty member. Sufficient electives are available in the program either to take more advanced courses or research within the department, or to add courses in an area of special interest, such as criminal justice in the case of an interest in forensic science. Qualified students may also participate in a five-year BS/MS program.

Academic Progression Standards

Students who began as freshman chemistry majors must, after four semesters, have completed 64 semester hours and the following courses with grades of C or better:

CHEM 1217	General Chemistry 1 for Chemical Science Majors	4 SH
with CHEM 1218	Lab for CHEM 1217	2 SH
CHEM 1220	General Chemistry 2 for Chemical Science Majors	4 SH
with CHEM 1221	Lab for CHEM 1220	2 SH

with CHEM 2318	Lab for CHEM 2317	2 SH
CHEM 2331	Bioanalytical Chemistry	4 SH
with CHEM 2332	Lab for CHEM 2331	1 SH

Students who transferred into the major must, after two semesters in the major, have completed 64 semester hours and the following courses with grades of C or better:

CHEM 1211	General Chemistry 1	4 SH
with CHEM 1212	Lab for CHEM 1211	1 SH
CHEM 1214	General Chemistry 2	4 SH
with CHEM 1215	Lab for CHEM 1214	1 SH

or equivalent courses.

The Bachelor of Arts in Environmental Studies degree is designed to provide a flexible platform for students whose primary interest is in the area of environmental policy. In their first two years, all environmental studies majors complete introductory courses in the sciences (biology, chemistry, geology), as well as introductory- to intermediate-level course work in economics, political science, philosophy, and sociology. Students then work with a faculty advisor to select a cluster composed of intermediate- to upper-level courses in an area appropriate to the student's career objectives. These cluster areas include sustainability, urban environmental issues, water issues, international affairs, public policy, and marine studies. A senior thesis is required in the environmental studies major. (Students who are interested in studying environmental issues from a science-based perspective should read the description of the environmental science major beginning on page 351.)

A number of combined-major programs are offered; these can help focus a student's course choices along avenues that faculty feel are particularly appropriate.

Students in the environmental studies program are prepared to work in environmental planning, regulation, policy, or compliance. These broad-based programs also aim to prepare students to go into environmental education or law. Co-op experiences in environmental planning may include government internships or work in environmental compliance offices.

Academic Progression Standards

Same as college standards.

Environmental Studies Minor

The minor in environmental studies is designed to provide a flexible platform for students interested in the environment. Students in the environmental studies minor have an opportunity to develop skills and knowledge in such areas as planning, regulation, policy, and compliance, depending on the upper-level course choices they make.

Linguistics is the scientific study of human language. A growing and exciting field, it has links to diverse fields including cognitive psychology, philosophy, neuroscience, computer science, artificial intelligence, sociology, language teaching, anthropology, and education. Linguistics is a key component of the field of cognitive science, the study of the structure and functioning of human cognitive processes.

How do children learn to speak? How is language represented in the mind? What do all languages, including sign languages, have in common? How is language different from the communication systems used by whales, bees, and chimpanzees? What linguistic information do computers need in order for us to converse with them? What are the neurological tie-ins of language disorders such as aphasia or Williams Syndrome and what can such impairments tell us about the brain mechanisms for language? These scientific and technological questions lead us to ask other questions about language and society: How might we think about linguistic controversies, including debates about official languages, Black English, gender bias, and bilingualism in education? Linguistics attempts to answer each of these questions and covers a surprisingly broad range of topics related to language and communication. Cutting-edge work in cognitive science investigates how natural languages are learned and processed. Grammar checkers and translation programs use language parsers; search engines, browsers, and editors apply the results of linguistic theory and computational linguistics. Linguistics is behind every application that recognizes or synthesizes speech. To work in a field that involves language in any way, you will need to know how language works, the core of the field of linguistics.

Linguistics is an interdisciplinary program at Northeastern, offering courses in the theory and structure of language (such as phonology, morphology, syntax, and semantics); the sociocultural nature of language (such as language and culture, language and gender, and sociolinguistics); the psychology of language (offered by the Department of Psychology); and applications to related domains (such as language acquisition, language change, and historical linguistics) that cross into the humanities and social sciences.

Students can pursue a major in linguistics as well as four combined majors—linguistics and psychology, linguistics and cultural anthropology, linguistics and English, and computer science and linguistics. A minor in linguistics is also available.

Linguistics offers a variety of co-ops, including positions at local and national companies involved in speech recognition and production, as well as at Northeastern's own speech perception and language processing labs in the Department of Psychology. Linguistics majors can also participate in international co-ops—for example, working with research teams at the University of Kaiserslautern in Germany.

Students with backgrounds in linguistics have pursued advanced degrees in fields including law, cognitive science, education, English, interpreting, business, speech pathology, computer science, developmental psychology, sociology, and linguistics itself. Other graduates have gone on to work in neurological research, computational linguistics, translation, language software, education, dictionary publishing, robotics, and criminal justice.

The Department of Marine and Environmental Sciences' programs are designed to help students develop an in-depth understanding of the processes that affect the earth's surface and that have the greatest impacts on society. Graduates of such programs contribute to the solution of environmental problems such as soil or groundwater contamination, flooding, slope stability, shore erosion related to changing land use, or coping with the impact of sea-level rise or changing weather patterns related to global warming. Commonly, environmental professionals are expected to work effectively as part of a multidisciplinary team containing scientists, engineers, and professionals who can evaluate the legal, economic, political, and social ramifications of complex environmental problems. Northeastern's emphasis on experiential, off-campus learning in addition to classroom learning is designed to help our students to become well grounded in their field of study and to work effectively with others to study and address real problems, as part of their undergraduate program.

Our Bachelor of Science in Environmental Science degree is organized for students who seek a comprehensive understanding of the scientific implications of environmental issues and the ways that environmental scientists from a range of disciplines can approach their solution. Every student has an opportunity to develop core knowledge in geology, biology, chemistry, and mathematics early in the program. Students then select one of three concentrations—marine science; conservation science; or geoscience—as a program focus for their upper-level course work. We also provide an independent track for students whose interests do not fall into one of these four areas. Students who elect this option work with a faculty advisor to identify a group of five mid-to upper-level science courses that are aligned with the student's career interests. (Students who are interested in studying environmental issues from a policy-based perspective should read the description of the BA in Environmental Studies on page 335.)

Our Bachelor of Science in Marine Biology degree is designed to provide a strong foundation in marine biology and

related disciplines. This major is offered through Northeastern University's Marine Science Center in Nahant.

A number of combined-major programs are offered; these can help focus a student's course choices along avenues that faculty feel are particularly appropriate.

Fieldwork is a valued component of training in our programs, and many of our courses use field sites throughout New England to demonstrate environmental processes or problems in their full complexity. In addition to sponsoring local trips, we have taken students on one longer field excursion each year to Iceland, the Cascade Mountains of Washington, the island of San Salvador in the Bahamas, or the Grand Canyon. Students also have the option to complete undergraduate research experiences with a faculty member. Undergraduate research projects can involve fieldwork and/or lab work completed under the guidance of faculty.

Many of our recent graduates work for environmental or geotechnical firms or continue their studies in graduate school. Students who participate in the co-op program typically work with local engineering or environmental consulting companies or with government agencies. These jobs often involve assessing building sites, evaluating land use, and studying problems concerned with groundwater contamination and remediation.

Three Seas Program

The Three Seas Program allows advanced undergraduate and beginning graduate students in biology and related areas to spend a year of field study in three diverse marine environments.

The program begins in the spring semester at Northeastern University's Marine Science Center in Nahant, twelve miles north of the main campus. Courses the following fall are conducted at the University of Washington's Friday Harbor Laboratories on San Juan Island, which is seventy miles north of Seattle and part of an archipelago that lies between the mainland and Vancouver Island, and at the Smithsonian Tropical Research Institute in Bocas del Toro, Panama, where students engage in tropical biology research. For more information, contact Mark Patterson at 781.581.7370 (ext. 313), or visit the Three Seas Program website at www.northeastern.edu/threeseas.

Marine Studies Minor

The marine studies minor is designed to provide a structured program for students with an interest in the marine environment. The program allows an emphasis in either the scientific or the social science/humanistic study of the oceans.

The program draws on courses throughout the university and is affiliated with several outstanding, specialized marine programs. These include the SEA Semester Program run by the Sea Education Association, which provides a rigorous program in marine sciences at Woods Hole, Massachusetts, and aboard one of its tall ships for training cruises in the Caribbean, Pacific, or Labrador Sea. In addition to the cruises designed to explore the broad range of aspects of marine science and culture, there are specialized cruises that add a focus on Caribbean studies, Pacific island culture, and marine environmental issues. Students may

also take specialized courses in marine topics through the Marine Studies Consortium.

For more information, contact the director of marine studies, Professor Peter S. Rosen (14 Holmes Hall), at 617.373.4380 or at p.rosen@neu.edu.

Massachusetts Bay Marine Studies Consortium

Northeastern University students may take classes at the Massachusetts Bay Marine Studies Consortium. The consortium's course offerings are interdisciplinary and seek to bridge academic disciplines and current concerns in the marine world. For more information, contact the marine studies program director, Professor Peter S. Rosen, at 617.373.4380 or at p.rosen@neu.edu.

Sea Education Association

SEA Semester is an interdisciplinary program focusing on the sea, in which students undertake course work ashore followed by a practical component at sea. The program combines intensive research in the areas of oceanography, maritime studies, and nautical science with hands-on experience aboard a traditional sailing ship. Piloting, celestial navigation, and practical seamanship are learned together with oceanographic sampling techniques and marine laboratory procedures during a six-week voyage on a ship sailing either on the Atlantic or Pacific Oceans. Critical thinking, problem-solving, team-building, and leadership skills are emphasized throughout the program. Some cruises focus on specialized topics including oceans and climate, Caribbean studies, or Polynesian studies. Through our affiliation with the Sea Education Association, SEA Semester courses earn Northeastern credit. The program is appropriate for students in biology, environmental and physical sciences, environmental studies, American studies, and most other areas within the liberal arts and sciences. For more information, contact the faculty advisor for marine biology, Professor Mark Patterson (Marine Science Center), at 781.581.7370, extension 313, or at m.patterson@neu.edu.

Marine Science Center Summer Program in Marine Biology

The summer program allows students to participate in intensive courses at the Marine Science Center (MSC). Students conduct independent research at the MSC laboratory throughout the year. Graduate students from other universities are encouraged to use the laboratory and field sites for thesis research.

EXPERIENTIAL LEARNING REQUIREMENT

Complete one course in experiential learning. See department for approved courses.

ENVIRONMENTAL SCIENCE MAJOR CREDIT REQUIREMENT

Complete 77 semester hours in the major.

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION

If elected

RESIDENCY REQUIREMENT

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

128 total semester hours required

Minimum 2.000 GPA required

BS in Marine Biology

Complete all courses listed below unless otherwise indicated.

Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

NU CORE REQUIREMENTS

See page 34 for requirement list.

Biology Capstone

Complete one of the following courses:

BIOL 4701	Biology Capstone	4 SH
ENVR 4900	Earth and Environmental Science Capstone	1 SH
ENVR 4997	Senior Thesis	4 SH

MARINE BIOLOGY MAJOR CREDIT/GPA REQUIREMENTS

Complete 74 semester hours in the major with a cumulative GPA of 2.000.

Due to overlap in course content, double majoring in biology and biochemistry or biology and behavioral neuroscience is not permitted.

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION

If elected

RESIDENCY REQUIREMENT

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

ENVR 5270	Glacial and Quaternary History	4 SH
with ENVR 5271	Lab for ENVR 5270	1 SH
ENVR 5282	Groundwater Geochemistry	4 SH

ADDITIONAL REQUIREMENTS**Calculus**

MATH 1251	Calculus and Differential Equations for Biology 1	4 SH
or MATH 1341	Calculus 1 for Science and Engineering	4 SH
MATH 1252	Calculus and Differential Equations for Biology 2	4 SH
or MATH 1342	Calculus 2 for Science and Engineering	4 SH
MATH 3081	Probability and Statistics	4 SH

Chemistry

CHEM 1211	General Chemistry 1	4 SH
with CHEM 1212	Lab for CHEM 1211	1 SH
CHEM 1214	General Chemistry 2	4 SH
with CHEM 1215	Lab for CHEM 1214	1 SH

COMPUTING AND SOCIAL ISSUES

Complete one of the following courses:

SOCL 3485	Environment, Technology, and Society	4 SH
SOCL 4528	Computers and Society	4 SH
ANTH 3418	Wired/Unwired: Cybercultures and Technopolitics	4 SH
IA 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	4 SH

COMPUTER SCIENCE ENGLISH REQUIREMENT**College Writing**

ENGW 1111	First-Year Writing	4 SH
-----------	--------------------	------

Advanced Writing in the Disciplines

Complete one of the following courses. Students are strongly encouraged to take ENGW 3302 but may substitute ENGW 3315:

ENGW 3302	Advanced Writing in the Technical Professions	4 SH
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	4 SH

REQUIRED GENERAL ELECTIVES

Complete six general electives. One of these electives must be used to satisfy the NU Core arts/humanities level 1 requirement and one must be used to satisfy the NU Core social science level 1 requirement. If the NU Core comparative study of cultures requirement is to be satisfied by taking a course, then it must also be one of the general electives.

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION**RESIDENCY REQUIREMENT**

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

SOCL 4528	Computers and Society	4 SH
ANTH 3418	Wired/Unwired: Cybercultures and Technopolitics	4 SH
IA 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	4 SH

COMPUTER SCIENCE ENGLISH REQUIREMENT**College Writing**

ENGW 1111	First-Year Writing	4 SH
-----------	--------------------	------

Advanced Writing in the Disciplines

Complete one of the following courses. Students are strongly encouraged to take ENGW 3302 but may substitute ENGW 3315:

ENGW 3302	Advanced Writing in the Technical Professions	4 SH
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	4 SH

REQUIRED GENERAL ELECTIVES

Complete five general electives. If the NU Core comparative study of cultures requirement is to be satisfied by taking a course, then it must be one of the general electives.

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION**RESIDENCY REQUIREMENT**

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

135 total semester hours required
Minimum 2.000 GPA required

Minor in Environmental Science

Complete all courses listed below unless otherwise indicated.
Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

COURSE WORK

Introductory Course Work

Complete one of the following courses:

BIOL 1121	Basic Microbiology	4 SH
with BIOL 1122	Lab for BIOL 1121	1 SH
ENVR 1101	Environmental Science	4 SH

Science or Engineering

Complete one of the following courses based on your major:

ENGINEERING MAJORS

CHEM 1214	General Chemistry 2	4 SH
with CHEM 1215	Lab for CHEM 1214	1 SH

OTHER MAJORS

CIVE 2334	Environmental Engineering 1	4 SH
CHEM 2311	Organic Chemistry 1	4 SH
with CHEM 2312	Lab for CHEM 2311	1 SH
CHEM 2321	Analytical Chemistry	4 SH
with CHEM 2322	Lab for CHEM 2321	1 SH

Social Sciences

Complete one of the following courses:

ECON 3423	Environmental Economics	4 SH
PHIL 1180	Environmental Ethics	4 SH
POLS 2395	Environmental Politics	4 SH
SOCL 1246	Environment and Society	4 SH
SOCL 3485	Environment, Technology, and Society	4 SH

ELECTIVES

Complete any two courses from the following list. Only one of the courses may be in the 1000–1999 range. Only one course may be selected from a group:

Physics Group

For nonengineering/nonscience majors only:

PHYS 1132	Energy, Environment, and Society	4 SH
-----------	----------------------------------	------

Biology Group

BIOL 2311	Ecology	4 SH
BIOL 2317	Vertebrate Zoology	4 SH
BIOL 5559	Entomology	4 SH
BIOL 5561	Herpetology	4 SH
BIOL 5563	Ornithology	4 SH
BIOL 5565	Mammalogy	4 SH
BIOL 5567	Wildlife Biology	4 SH

Environmental Planning Group

ENVR 5210	Environmental Planning	4 SH
ENVR 5250	Geology and Land-Use Planning	4 SH

Geology Group

ENVR 5190	Soil Science	4 SH
ENVR 2340	Earth Landforms and Processes	4 SH
with ENVR 2341	Lab for ENVR 2340	1 SH
ENVR 4504	Environmental Pollution	4 SH

Hydrogeology Group

ENVR 4500	Applied Hydrogeology	4 SH
with ENVR 4501	Lab for ENVR 4500	1 SH
ENVR 5280	Groundwater Modeling	4 SH
ENVR 5282	Groundwater Geochemistry	4 SH

Geographic Information Systems Group

ENVR 3300	Geographic Information Systems	4 SH
with ENVR 3301	Lab for ENVR 3300	1 SH

Civil Engineering Group

CIVE 4534	Environmental Engineering 2	3 SH
CIVE 5536	Hydrologic Engineering	4 SH

INTERDISCIPLINARY WORK

Complete the independent project, the applied experience, or the environmental safety program.

Independent Project

See program advisor for approval before embarking on the project.

Applied Experience

See program advisor for details.

Environmental Safety Program

See program advisor for details.

GPA REQUIREMENT

2.000 GPA required in the minor

Minor in Environmental Geology

Complete all courses listed below unless otherwise indicated.

Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

REQUIRED COURSES

ENVR 1200	Dynamic Earth	4 SH
with ENVR 1201	Lab for ENVR 1200	1 SH
ENVR 1202	History of Earth and Life	4 SH

Complete one ENVR course.

GPA REQUIREMENT

2.000 GPA required in the minor

Minor in Marine Biology

Complete all courses listed below unless otherwise indicated.

Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

RESTRICTIONS

This minor is not available for students who major in biology or any combined major that involves biology. Biology majors interested in marine biology should consider the major in marine biology.

REQUIRED COURSES

BIOL 1101	Principles of Biology 1	4 SH
with BIOL 1102	Lab for BIOL 1101	1 SH
or BIOL 1111	General Biology 1	4 SH
with BIOL 1112	Lab for BIOL 1111	1 SH
BIOL 1103	Principles of Biology 2	4 SH
with BIOL 1104	Lab for BIOL 1103	1 SH
or BIOL 1113	General Biology 2	4 SH
with BIOL 1114	Lab for BIOL 1113	1 SH

ELECTIVE COURSES

Complete three of the following courses:

BIOL 2315	Invertebrate Zoology	4 SH
with BIOL 2316	Lab for BIOL 2315	1 SH
BIOL 2325	Marine Biology	4 SH
with BIOL 2326	Lab for BIOL 2325	1 SH
BIOL 5501	Marine Botany	4 SH
with BIOL 5502	Lab for BIOL 5501	1 SH
BIOL 5503	Marine Invertebrate Zoology	4 SH
with BIOL 5504	Lab for BIOL 5503	1 SH
BIOL 5505	Biology of Corals	3 SH
BIOL 5507	Biology and Ecology of Fishes	3 SH
BIOL 5509	Marine Birds and Mammals	2 SH
with BIOL 5510	Lab for BIOL 5509	1 SH
BIOL 5515	Marine Ecology	4 SH

BIOL 5517	Oceanography	2 SH
with BIOL 5518	Lab for BIOL 5517	1 SH
BIOL 5519	Ocean and Coastal Processes	2 SH
BIOL 5521	Experimental Design Marine Ecology	4 SH

BIOL 5527	Marine Conservation Biology	3 SH
BIOL 5529	Physiological and Molecular Marine Ecology	3 SH
BIOL 5589	Diving Research Methods	2 SH

BREADTH COURSE—SCIENCE

To provide breadth of knowledge, complete one additional science course in the BIOL, CHEM, ENVR, or PHYS subject areas or from the following list:

PSYC 3458	Biological Psychology	4 SH
PSYC 4510	Psychopharmacology	4 SH

GPA REQUIREMENT

2.000 GPA required in the minor

Minor in Marine Studies

Complete all courses listed below unless otherwise indicated.

Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

REQUIRED COURSES

Complete four courses from the following lists. Two courses must be above the introductory level:

Humanities

ENVR 3102	Maritime Studies	3 SH
ENVR 2941	Ocean Science and Public Policy	4 SH
ENVR 2942	Maritime History and Culture: The Caribbean	4 SH
ENVR 2943	Marine Environmental History: The Caribbean	4 SH
HIST 2232	History of Boston	4 SH
MARS 3305	Maritime History of New England	4 SH
MARS 3310	Water Resources Policy and Management	4 SH

Sciences

BIOL 1151	Introduction to Marine Biology	4 SH
BIOL 2315	Invertebrate Zoology	4 SH
BIOL 5501	Marine Botany	4 SH
BIOL 5503	Marine Invertebrate Zoology	4 SH
BIOL 5505	Biology of Corals	3 SH
BIOL 5507	Biology and Ecology of Fishes	3 SH
BIOL 5509	Marine Birds and Mammals	2 SH
BIOL 5515	Marine Ecology	4 SH
BIOL 5517	Oceanography	2 SH
BIOL 5519	Ocean and Coastal Processes	2 SH

MARS 3325	Coastal Zone Management	4 SH
MARS 3425	Biology of Fishes	4 SH
MARS 3430	Biology of Whales	4 SH
MARS 4500	Advanced Seminar in Marine Studies	4 SH

MARINE-RELATED SKILL

This requirement may be satisfied by completion of the following course:

ENVR 3101	Nautical Science	3 SH
-----------	------------------	------

or by certification in a skill such as scuba, by a Merchant Marine license, or by a comparable level of achievement determined by the marine studies advisor.

MARINE-RELATED INDEPENDENT STUDY

This requirement may be satisfied by producing a research product on a marine-related topic, either as part of another course or independently. Acceptance of product is at the discretion of the marine studies advisor.

GPA REQUIREMENT

2.000 GPA required in the minor

Mathematics is of ever-increasing importance to our society and everyday life. It has long been the language of science and technology, and provides a rich source of methods for analyzing and solving problems encountered in the physical world. Today, mathematics is essential in virtually all fields of human endeavor, including business, the arts, and the social sciences.

The Bachelor of Arts degree requires at least eleven mathematics courses and two physics courses, in addition to the study of a foreign language; this program is appropriate for students who wish a broader liberal arts education. The Bachelor of Science degree requires at least fourteen mathematics courses and two physics courses but no foreign language study; it is more specialized, and it is recommended for those strongly interested in mathematics and science. The department also offers a minor degree in mathematics.

The major programs provide flexibility with elective courses. Students may take advantage of a range of interdisciplinary programs and may join a major in mathematics with one in such fields as computer science, physics, and biology.

Exceptional students are accepted into the Honors Program, and have the option to enroll in honors sections of several of their mathematics courses. All math majors may benefit from co-op opportunities in the scientific and business communities in Boston and elsewhere.

Many of the mathematics courses that we offer use computers for visualization, modeling, and numerical approximation.

Students planning to teach secondary-school mathematics must major in mathematics and take a specific minor in education, which includes course work and student teaching.

Mathematical training may lead to opportunities in applied research (natural sciences, engineering, economics, management, computer science) as well as in mathematical research, teaching, or industry.

Academic Progression Standards

Students who begin as freshman mathematics majors must, after the fourth semester, satisfy the following: (a) have completed at least six of their required mathematics and physics courses; (b) have a grade average of C or better in the following courses:

MATH 1365	Introduction to Mathematical Reasoning	4 SH
MATH 1341	Calculus 1 for Science and Engineering	4 SH
MATH 1342	Calculus 2 for Science and Engineering	4 SH
MATH 2321	Calculus 3 for Science and Engineering	4 SH
MATH 2331	Linear Algebra	4 SH

and (c) have a GPA of at least 2.000 in all required mathematics and physics courses.

Students who transfer to the major must, after two semesters in the major, satisfy the following: (a) have completed at least four of their required mathematics and physics courses; (b) have a GPA of at least 2.000 in all required mathematics and physics courses; and (c) have grades of C or better in the following courses (if already taken):

MATH 1365	Introduction to Mathematical Reasoning	4 SH
MATH 1341	Calculus 1 for Science and Engineering	4 SH
MATH 1342	Calculus 2 for Science and Engineering	4 SH
MATH 2321	Calculus 3 for Science and Engineering	4 SH
MATH 2331	Linear Algebra	4 SH

Students who fail to achieve the above conditions will be placed on departmental probation. Students who remain two consecutive semesters on departmental probation will be dismissed from the major.

BA in Mathematics

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

MATHEMATICS COURSES**Calculus Courses**

A grade of C– or higher is required in MATH 1341 and MATH 1342:

MATH 1341	Calculus 1 for Science and Engineering	4 SH
MATH 1342	Calculus 2 for Science and Engineering	4 SH
MATH 2321	Calculus 3 for Science and Engineering	4 SH

Mathematics Courses

MATH 2331	Linear Algebra	4 SH
MATH 2341	Differential Equations and Linear Algebra for Engineering	4 SH
MATH 3081	Probability and Statistics	4 SH
MATH 3175	Group Theory	4 SH
MATH 3527	Number Theory	4 SH

Co-op Seminar

Complete course after first co-op is completed:

MATH 3000	Co-op and Experiential Learning Reflection Seminar I	1 SH
-----------	--	------

Mathematics Electives

Complete three courses in the following range:

MATH 3001 to MATH 4999 but not MATH 4000

MAJOR GPA REQUIREMENT

Minimum 2.000 GPA required in all CS and IS courses

COMPUTING AND SOCIAL ISSUES

Complete one of the following courses:

SOCL 3485	Environment, Technology, and Society	4 SH
SOCL 4528	Computers and Society	4 SH
ANTH 3418	Wired/Unwired: Cybercultures and Technopolitics	4 SH
IA 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	4 SH

COMPUTER SCIENCE ENGLISH REQUIREMENT**College Writing**

ENGW 1111	First-Year Writing	4 SH
-----------	--------------------	------

Advanced Writing in the Disciplines

Complete one of the following courses. Students are strongly encouraged to take ENGW 3302 but may substitute ENGW 3315:

ENGW 3302	Advanced Writing in the Technical Professions	4 SH
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	4 SH

REQUIRED GENERAL ELECTIVES

Complete seven general electives. One of these electives must be used to satisfy the NU Core arts/humanities level 1 requirement, and one must be used to satisfy the NU Core social science level 1 requirement. If the NU Core comparative study of cultures requirement is to be satisfied by taking a course, then it must also be one of the general electives.

MAJOR GPA REQUIREMENT

Minimum 2.000 GPA required in all CS and IS courses

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION**RESIDENCY REQUIREMENT**

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

134 total semester hours required
Minimum 2.000 GPA required

BS in Economics and Mathematics

Complete all courses listed below unless otherwise indicated.
Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

NU CORE REQUIREMENTS

See page 34 for requirement list.

ECONOMICS REQUIREMENTS**Introduction to College**

Complete one of the following courses:

ECON 1000	Economics at Northeastern	1 SH
MATH 1000	Mathematics at Northeastern	1 SH

Required Economics

ECON 1115	Principles of Macroeconomics	4 SH
ECON 1116	Principles of Microeconomics	4 SH
ECON 2315	Macroeconomic Theory	4 SH
ECON 2316	Microeconomic Theory	4 SH
ECON 3560	Applied Econometrics	4 SH

Economics Electives

Complete four economics electives with not more than two at the introductory level:

INTRODUCTORY

ECON 1200 to ECON 1990

INTERMEDIATE/ADVANCED

ECON 2990 to ECON 3499

ECON 3915	Intermediate Selected Topics in Macroeconomics	4 SH
ECON 3916	Intermediate Selected Topics in Microeconomics	4 SH
ECON 3990	Elective	4 SH
ECON 4600 to ECON 4681		
ECON 4915 to ECON 4916		
ECON 4965	Undergraduate Teaching Experience 1	4 SH
ECON 4970 to ECON 4990		
ECON 4992	Directed Study	4 SH
ECON 4994	Internship	4 SH

MATHEMATICS REQUIREMENTS**Required Mathematics**

MATH 1365	Introduction to Mathematical Reasoning	4 SH
MATH 1341	Calculus 1 for Science and Engineering	4 SH

MATH 1342	Calculus 2 for Science and Engineering	4 SH
MATH 2321	Calculus 3 for Science and Engineering	4 SH
MATH 2341	Differential Equations and Linear Algebra for Engineering	4 SH
MATH 2331	Linear Algebra	4 SH
MATH 3081	Probability and Statistics	4 SH

Mathematics Electives

Complete two courses in the following range:

MATH 3001 to MATH 4999

The following courses are recommended:

MATH 3150	Real Analysis	4 SH
MATH 4581	Statistics and Stochastic Processes	4 SH

BREADTH COURSE**Computer Science**

CS 1100	Computer Science and Its Applications	4 SH
---------	---------------------------------------	------

Integrative Course

Complete one of the following courses:

ECON 4692	Senior Economics Seminar	4 SH
MATH 4025	Applied Mathematics Capstone	4 SH
or MATH 5131	Introduction to Mathematical Methods and Modeling	4 SH

COMBINED-MAJOR GPA/CREDIT REQUIREMENT

A GPA of 2.000 is required in the following six courses:

ECON 1115, ECON 1116, ECON 2315, ECON 2316, ECON 3560, and MATH 3081.

A cumulative GPA of 2.000 is required in all math courses.

A grade of C or higher is required in all math courses numbered 2999 or below; grades below C will not count toward the degree.

Complete 76 semester hours in the major.

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION

If elected

RESIDENCY REQUIREMENT

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

128 total semester hours required
Minimum 2.000 GPA required

BS in Environmental Geology and Mathematics

MATH 1341	Calculus 1 for Science and Engineering	4 SH
MATH 1342	Calculus 2 for Science and Engineering	4 SH
MATH 1365	Introduction to Mathematical Reasoning	4 SH
MATH 3081	Probability and Statistics	4 SH

Calculus and Linear Algebra (Required) and Differential Equations (Recommended)

Complete either option 1 or option 2 below:

OPTION 1 (RECOMMENDED)

MATH 2321	Calculus 3 for Science and Engineering	4 SH
MATH 2341	Differential Equations and Linear Algebra for Engineering	4 SH

OPTION 2

MATH 2321	Calculus 3 for Science and Engineering	4 SH
MATH 2331	Linear Algebra	4 SH

Co-op Reflections

Complete one of the following courses:

MATH 3000	Co-op and Experiential Learning Reflection Seminar 1	1 SH
MATH 4000	Co-op and Experiential Learning Reflection Seminar 2	1 SH

Mathematics Electives

Complete three courses in the range MATH 3001 to MATH 5999.

The following courses are recommended:

MATH 4681	Probability and Risks	4 SH
MATH 4682	Theory of Interest and Basics of Life Insurance	4 SH
MATH 4581	Statistics and Stochastic Processes	4 SH

SECOND BUSINESS CONCENTRATION (OPTIONAL)

A second business concentration is optional and may be chosen from the following list:

Concentration in Accounting

REQUIRED COURSES

ACCT 3401	Financial Reporting and Analysis 1	4 SH
ACCT 4501	Financial Reporting and Analysis 2	4 SH

ELECTIVES

Complete two courses from the following list:

ACCT 3403	Accounting Information Systems	4 SH
ACCT 3416	Strategic Cost Analysis for Decision Making	4 SH
ACCT 4412	Auditing and Other Assurance Services	4 SH
ACCT 4414	Income Tax Determination and Planning	4 SH

Concentration in Entrepreneurship and Innovation

INTRODUCTORY COURSE

ENTR 2301	Innovation!	4 SH
or ENTR 2303	Entrepreneurial Marketing and Selling	4 SH

CAPSTONE COURSE

ENTR 4501	Business Planning for Technology Ventures	4 SH
or ENTR 4503	Business Planning for Small and Medium Enterprises	4 SH
or ENTR 4506	Advanced Studies in Social Enterprise	4 SH

ELECTIVES

Complete two courses from the following list. *Note:* The following courses do not count toward this concentration:

ENTR 1201, ENTR 3308, ENTR 3318, ENTR 3328, ENTR 3338, ENTR 3346, ENTR 4510, and ENTR 4514:

Physics examines the fundamental principles that govern natural phenomena, ranging in scale from collisions of subatomic particles, through the behavior of solids, liquids, and biomolecules, to exploding stars and colliding galaxies. The program aims to help students experience the intellectual stimulation of studying physics and the excitement of frontline research; understand the basic principles and techniques of physics-related careers; and prepare for graduate study in physics or related fields.

Programs

The department offers several degree programs: BS in physics, applied physics, or biomedical physics; BS in applied physics/MS in electrical engineering; MS and PhD in physics. Four levels of courses are offered: descriptive courses for nonscience majors with limited mathematical background; general survey courses for students in scientific and engineering fields; advanced courses primarily intended for physics, biomedical physics, and applied physics majors; and highly advanced courses primarily intended for prospective graduate students.

A BS, MS, or a PhD degree in physics offers many career opportunities in industrial, government, and academic high-technology laboratories as scientists or engineers.

BS IN PHYSICS

The physics program provides a strong foundation in classical and modern physics, including studies of the various physical phenomena including electromagnetism, dynamics, building blocks of matter, energy, and radiation.

BS IN BIOMEDICAL PHYSICS

The biomedical physics program seeks to understand the role of physical processes occurring on molecular, cellular, or macroscopic scales, in vital biological functions, ranging from the interaction of chemicals with DNA, to the extraction of oxygen from red blood cells, to the generation of complex electrical signals in the brain and nervous system, and physical principles of medical devices. The biomedical physics program also offers a premed (prehealth) specialized track.

BS IN APPLIED PHYSICS

The applied physics BS degree is a flexible, interdisciplinary-oriented program designed to provide students with a solid background in basic physics, in conjunction with the opportunity to sample courses from a wide range of disciplines, including engineering, biology, chemistry, math, environmental studies, and computer science. This program seeks to enable students to prepare for a variety of careers in, for example, nanotechnology, a medical field, environmental research, or even finance.

BS/MS IN APPLIED PHYSICS AND ENGINEERING

Offered jointly by the Department of Physics and the Department of Electrical and Computer Engineering (ECE), the program provides strong interdisciplinary training in physics, math, and electrical engineering to achieve a BS degree in applied physics and take graduate courses in ECE in the fourth and fifth years that lead directly to an MS degree in electrical engineering.

BS/PHD IN PHYSICS

The physics BS/PhD program allows Northeastern undergraduate physics majors to continue on to a PhD in physics. The program uses undergraduate course sharing to enter the research phase of the PhD program approximately one year early relative to the traditional entering PhD students. Undergraduate students who have completed a research co-op in the department may also choose to continue that research, allowing them to effectively start their PhD research while undergraduates.

COMBINED MAJORS

Students also have the opportunity to combine physics with another discipline through a combined major. Current combined majors with physics include chemical engineering, computer engineering, electrical engineering, mechanical engineering, computer science, environmental geology, geology, mathematics, and philosophy.

RESEARCH OPPORTUNITIES FOR UNDERGRADUATES

Students are encouraged to participate in the excitement of cutting-edge research in particle physics, biophysics, and nanotechnology with world-renowned faculty.

Academic Progression Standards

Students may not continue as physics majors beyond the end of the sophomore year unless the following courses are successfully completed:

PHYS 1161	Physics 1	4 SH
with PHYS 1162	Lab for PHYS 1161	1 SH
PHYS 1165	Physics 2	4 SH
with PHYS 1166	Lab for PHYS 1165	1 SH
PHYS 2303	Modern Physics	4 SH
PHYS 2305	Thermodynamics and Statistical Mechanics	4 SH
PHYS 2371	Electronics	3 SH

MATH 1341	Calculus 1 for Science and Engineering	4 SH
MATH 1342	Calculus 2 for Science and Engineering	4 SH
MATH 2321	Calculus 3 for Science and Engineering	4 SH
MATH 2341	Differential Equations and Linear Algebra for Engineering	4 SH

or equivalent courses. *Note:* The following courses may be taken in place of PHYS 1161, PHYS 1162, PHYS 1165, and PHYS 1166:

PHYS 1151	Physics for Engineering 1	3 SH
with PHYS 1152	Lab for PHYS 1151	1 SH
with PHYS 1153	Interactive Learning Seminar for PHYS 1151	1 SH
PHYS 1155	Physics for Engineering 2	3 SH
with PHYS 1156	Lab for PHYS 1155	1 SH
with PHYS 1157	Interactive Learning Seminar for PHYS 1155	1 SH

A minimum GPA of 2.500 must be achieved in these courses to remain in the major.

Students may not graduate from the physics program unless all required physics, math, and science courses are passed with a GPA of 2.500 or more. Further, no more than two grades of D+ or lower may be counted toward the graduation requirements.

BS in Physics

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Advanced Engineering Elective

Complete one course numbered between 4000 and 5999 in any of the following subject areas:

CHME, CIVE, EECE, ME, IE, MEIE, and ENGR.

Supplemental Credit

Partial credit from the following courses counts toward the engineering requirement:

GE 1110	Engineering Design	4 SH
GE 1111	Engineering Problem Solving and Computation	4 SH

PROFESSIONAL DEVELOPMENT**Professional Development**

GE 1000	Introduction to the Study of Engineering	1 SH
CHME 2000	Introduction to Engineering Co-op Education	1 SH
CHME 3000	Professional Issues in Engineering	1 SH

Additional Required Courses

Partial credit for the following courses counts toward requirements above:

GE 1110	Engineering Design	4 SH
GE 1111	Engineering Problem Solving and Computation	4 SH

ADDITIONAL NU CORE COURSES**Writing**

A grade of C or higher is required:

ENGW 1111	First-Year Writing	4 SH
ENGW 3302	Advanced Writing in the Technical Professions	4 SH
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	4 SH

Arts/Humanities Level 1

Complete one course from the NU Core arts/humanities level 1 domain, as described on page 34.

Social Science Level 1

Complete one course from the NU Core social science level 1 domain, as described on page 34.

COURSE WORK THAT DOES NOT COUNT TOWARD THE ENGINEERING DEGREE

Students in engineering are allowed to count a maximum of two pass/fail courses toward their degree program. Only general electives outside the College of Engineering may be taken on a pass/fail grading basis. A maximum of one pass/fail course is allowed per semester.

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION**RESIDENCY REQUIREMENT**

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

136 total semester hours required

Minimum 2.000 GPA required

BSCompE in Computer Engineering and Physics

Complete all courses listed below unless otherwise indicated.

Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

NU CORE REQUIREMENTS

See page 34 for requirement list.

MAJOR GPA REQUIREMENT

2.000 minimum GPA required in EECE courses

MATHEMATICS/SCIENCE REQUIREMENT

Complete 63 semester hours in mathematics and science as indicated below.

Required Mathematics/Science

CHEM 1151	General Chemistry for Engineers	4 SH
CS 1800	Discrete Structures	4 SH

Computer Science Elective

Complete one course in the following ranges. The computer science elective is not required if the student has completed the computer science capstone (above). With advisor approval, a directed study, project study, or appropriate graduate-level course may be taken as a computer science elective:

CS 2600 to CS 7999 but not CS 5010

IS 2000 to IS 7999 but not IS 4900

Physics Elective

Complete two courses in the following range. Only one physics elective is required if the student has completed the physics capstone (above):

PHYS 3000 to PHYS 5999

MATHEMATICS INTEGRATIVE COURSES**Calculus**

A grade of C– or higher is required in MATH 1341 and MATH 1342:

MATH 1341	Calculus 1 for Science and Engineering	4 SH
MATH 1342	Calculus 2 for Science and Engineering	4 SH
MATH 2321	Calculus 3 for Science and Engineering	4 SH

Additional Mathematics Requirements

MATH 2341	Differential Equations and Linear Algebra for Engineering	4 SH
MATH 4525	Applied Analysis	4 SH

COMPUTING AND SOCIAL ISSUES

Complete one of the following courses:

SOCL 3485	Environment, Technology, and Society	4 SH
SOCL 4528	Computers and Society	4 SH
ANTH 3418	Wired/Unwired: Cybercultures and Technopolitics	4 SH
IA 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	4 SH

COMPUTER SCIENCE ENGLISH REQUIREMENT**College Writing**

ENGW 1111	First-Year Writing	4 SH
-----------	--------------------	------

Advanced Writing in the Disciplines

Complete one of the following courses. Students are strongly encouraged to take ENGW 3302 but may substitute ENGW 3315:

ENGW 3302	Advanced Writing in the Technical Professions	4 SH
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	4 SH

REQUIRED GENERAL ELECTIVES

Complete six general electives. One of these electives must be used to satisfy the NU Core arts/humanities level 1 requirement, and one must be used to satisfy the NU Core social science level 1 requirement. If the NU Core comparative study of

cultures requirement is to be satisfied by taking a course, then it must also be one of the general electives.

MAJOR GPA REQUIREMENT

Minimum 2.000 GPA required in all CS and IS courses

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION**RESIDENCY REQUIREMENT**

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

135 total semester hours required

Minimum 2.000 GPA required

BSEE in Electrical Engineering and Physics

Complete all courses listed below unless otherwise indicated.

Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

NU CORE REQUIREMENTS

See page 34 for requirement list.

MAJOR GPA REQUIREMENT

2.000 minimum GPA required in EECE courses

MATHEMATICS/SCIENCE REQUIREMENT

Complete 57 semester hours in mathematics and science as indicated below.

Required Mathematics/Science

CHEM 1151	General Chemistry for Engineers	4 SH
MATH 1341	Calculus 1 for Science and Engineering	4 SH
MATH 1342	Calculus 2 for Science and Engineering	4 SH
MATH 2321	Calculus 3 for Science and Engineering	4 SH
MATH 2341	Differential Equations and Linear Algebra for Engineering	4 SH
PHYS 1151	Physics for Engineering 1	3 SH
with PHYS 1152	Lab for PHYS 1151	1 SH
with PHYS 1153	Interactive Learning Seminar for PHYS 1151	1 SH
or PHYS 1161	Physics 1	4 SH
with PHYS 1162	Lab for PHYS 1161	1 SH
PHYS 1155	Physics for Engineering 2	3 SH
with PHYS 1156	Lab for PHYS 1155	1 SH
with PHYS 1157	Interactive Learning Seminar for PHYS 1155	1 SH
or PHYS 1165	Physics 2	4 SH
with PHYS 1166	Lab for PHYS 1165	1 SH
PHYS 2303	Modern Physics	4 SH

PHYS 2305	Thermodynamics and Statistical Mechanics	4 SH
PHYS 3600	Advanced Physics Laboratory	4 SH
PHYS 3602	Electricity and Magnetism	4 SH
PHYS 5115	Quantum Mechanics	4 SH

Advanced Physics Elective

Complete one of the following courses:

MATH 4606	Mathematical and Computational Methods for Physics	4 SH
-----------	--	------

PHYS 3600 to PHYS 7999

Supplemental Credit

Partial credit from the following courses counts toward the mathematics/science requirement:

EECE 3468	Noise and Stochastic Processes	4 SH
GE 1111	Engineering Problem Solving and Computation	4 SH

ENGINEERING REQUIREMENT

Complete 51 semester hours in engineering as indicated below.

Required Courses

EECE 2150	Circuits and Signals: Biomedical Applications	4 SH
with EECE 2151	Lab for EECE 2150	1 SH
EECE 2160	Embedded Design Enabling Robotics	3 SH
with EECE 2161	Lab for EECE 2160	1 SH

Electrical Engineering Fundamentals

EECE 2412	Fundamentals of Electronics	4 SH
with EECE 2413	Lab for EECE 2412	1 SH
EECE 2520	Fundamentals of Linear Systems	4 SH
EECE 2530	Fundamentals of Electromagnetics	4 SH
with EECE 2531	Lab for EECE 2530	1 SH

Computer Engineering Fundamentals

Complete one of the following courses. If more than one computer engineering fundamentals course is taken, it can count as a technical elective:

EECE 2322	Fundamentals of Digital Design and Computer Organization	4 SH
with EECE 2323	Lab for EECE 2322	1 SH
EECE 2540	Fundamentals of Networks	4 SH
EECE 2560	Fundamentals of Engineering Algorithms	4 SH

Capstone Courses

EECE 4790	Electrical and Computer Engineering Capstone 1	4 SH
EECE 4792	Electrical and Computer Engineering Capstone 2	4 SH

EECE Technical Electives

Complete two of the following courses:

EECE 2322	Fundamentals of Digital Design and Computer Organization	4 SH
with EECE 2323	Lab for EECE 2322	1 SH
EECE 2540	Fundamentals of Networks	4 SH

EECE 2560	Fundamentals of Engineering Algorithms	4 SH
EECE 3324 to EECE 3392		
EECE 4512 to EECE 4534		
EECE 4574 to EECE 4698		
EECE 4993	Independent Study	4 SH
EECE 5576 to EECE 5698		
ENGR 4608	Nanotechnology in Engineering	4 SH
ENGR 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage	4 SH

Supplemental Credit

Partial credit from the following courses counts toward the engineering requirement:

EECE 3468	Noise and Stochastic Processes	4 SH
GE 1110	Engineering Design	4 SH
GE 1111	Engineering Problem Solving and Computation	4 SH

PROFESSIONAL DEVELOPMENT**Required Professional Development**

GE 1000	Introduction to the Study of Engineering	1 SH
EECE 2000	Introduction to Engineering Co-op Education	1 SH
EECE 3000	Professional Issues in Engineering	1 SH

Additional Required Courses

Partial credit from the following courses counts toward requirements above:

GE 1110	Engineering Design	4 SH
GE 1111	Engineering Problem Solving and Computation	4 SH
EECE 3468	Noise and Stochastic Processes	4 SH

ADDITIONAL NU CORE COURSES**Writing**

A grade of C or higher is required:

ENGW 1111	First-Year Writing	4 SH
ENGW 3302	Advanced Writing in the Technical Professions	4 SH
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	4 SH

Arts/Humanities Level 1

Complete one course from the NU Core arts/humanities level 1 domain, as described on page 34.

Social Science Level 1

Complete one course from the NU Core social science level 1 domain, as described on page 34.

REQUIRED GENERAL ELECTIVES

Complete one academic, nonremedial, nonrepetitive course, equivalent to 4 semester hours.

COURSE WORK THAT DOES NOT COUNT TOWARD THE ENGINEERING DEGREE

Students in engineering are allowed to count a maximum of two pass/fail courses toward their degree program. Only general electives outside the College of Engineering may be taken on a pass/fail grading basis. A maximum of one pass/fail course is allowed per semester.

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION

RESIDENCY REQUIREMENT

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

132 total semester hours required
Minimum 2.000 GPA required

BS in Environmental Geology and Physics

For degree requirements, visit the myNEU Web Portal (www.myneu.neu.edu), click on the "Self-Service" tab, then on "My Degree Audit."

BS in Geology and Physics

For degree requirements, visit the myNEU Web Portal (www.myneu.neu.edu), click on the "Self-Service" tab, then on "My Degree Audit."

BS in Mathematics and Physics

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

NU CORE REQUIREMENTS

See page 34 for requirement list.

MATHEMATICS REQUIREMENTS

Calculus

A grade of C or higher is required:

MATH 1341	Calculus 1 for Science and Engineering	4 SH
MATH 1342	Calculus 2 for Science and Engineering	4 SH
MATH 2321	Calculus 3 for Science and Engineering	4 SH

Intermediate and Advanced Math

MATH 2341	Differential Equations and Linear Algebra for Engineering	4 SH
MATH 2331	Linear Algebra	4 SH
MATH 3081	Probability and Statistics	4 SH
MATH 3150	Real Analysis	4 SH
MATH 3175	Group Theory	4 SH

Co-op Reflections

Complete one of the following courses:

MATH 3000	Co-op and Experiential Learning Reflection Seminar 1	1 SH
MATH 4000	Co-op and Experiential Learning Reflection Seminar 2	1 SH

Mathematics Electives

Complete one course in the following range:
MATH 3101 to MATH 4899

PHYSICS REQUIREMENTS

Physics 1

PHYS 1161	Physics 1	4 SH
with PHYS 1162	Lab for PHYS 1161	1 SH
or PHYS 1151	Physics for Engineering 1	3 SH
with PHYS 1152	Lab for PHYS 1151	1 SH
with PHYS 1153	Interactive Learning Seminar for PHYS 1151	1 SH

Physics 2

PHYS 1165	Physics 2	4 SH
with PHYS 1166	Lab for PHYS 1165	1 SH
or PHYS 1155	Physics for Engineering 2	3 SH
with PHYS 1156	Lab for PHYS 1155	1 SH
with PHYS 1157	Interactive Learning Seminar for PHYS 1155	1 SH

Intermediate Physics

PHYS 2303	Modern Physics	4 SH
PHYS 2305	Thermodynamics and Statistical Mechanics	4 SH
PHYS 2371	Electronics	3 SH
with PHYS 2372	Lab for PHYS 2371	1 SH

Advanced Physics

PHYS 3600	Advanced Physics Laboratory	4 SH
PHYS 3602	Electricity and Magnetism	4 SH

Elective Courses

Complete two courses in the following range:
PHYS 3000 to PHYS 7999

INTEGRATIVE COURSES

PHYS 3601	Classical Dynamics	4 SH
MATH 4545	Fourier Series and PDEs	4 SH
or MATH 4525	Applied Analysis	4 SH

COMBINED-MAJOR CREDIT REQUIREMENT

Complete 83 semester hours in the major.

GENERAL ELECTIVES

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

COOPERATIVE EDUCATION

If elected

RESIDENCY REQUIREMENT

Students must earn a minimum of 64 Northeastern University semester hours in order to receive a bachelor's degree.

UNIVERSITY-WIDE REQUIREMENTS

128 total semester hours required

Minimum 2.000 GPA required

BSME in Mechanical Engineering and Physics

Complete all courses listed below unless otherwise indicated.

Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

NU CORE REQUIREMENTS

See page 34 for requirement list.

MAJOR GPA REQUIREMENT

2.000 minimum GPA required in IE, ME, and MEIE courses

MATHEMATICS/SCIENCE REQUIREMENT

Complete 58 semester hours in mathematics and science as indicated below:

Required Mathematics/Science

CHEM 1151	General Chemistry for Engineers	4 SH
MATH 1341	Calculus 1 for Science and Engineering	4 SH
MATH 1342	Calculus 2 for Science and Engineering	4 SH
MATH 2321	Calculus 3 for Science and Engineering	4 SH
MATH 2341	Differential Equations and Linear Algebra for Engineering	4 SH
PHYS 1161	Physics 1	4 SH
PHYS 1162	Lab for PHYS 1161	1 SH
PHYS 1165	Physics 2	4 SH
PHYS 1166	Lab for PHYS 1165	1 SH
PHYS 2303	Modern Physics	4 SH
PHYS 2371	Electronics	3 SH
with PHYS 2372	Lab for PHYS 2371	1 SH
PHYS 3602	Electricity and Magnetism	4 SH
PHYS 3600	Advanced Physics Laboratory	4 SH
PHYS 3601	Classical Dynamics	4 SH
PHYS 5318	Principles of Experimental Physics	4 SH

Advanced Physics Elective

Complete one 4-semester-hour course in the following range:

PHYS 3600 to PHYS 5999

ENGINEERING REQUIREMENT

Complete 54 semester hours in engineering as indicated below:

Required Engineering

ME 2340	Introduction to Material Science	4 SH
ME 2341	Lab for ME 2340	1 SH
ME 2350	Engineering Mechanics and Design	4 SH
ME 2355	Mechanics of Materials	4 SH
ME 2356	Lab for ME 2355	1 SH
ME 2380	Thermodynamics	4 SH

ME 3455	Dynamics and Vibrations	4 SH
ME 3456	Lab for ME 3455	1 SH
ME 3475	Fluid Mechanics	4 SH
or ME 3480	International Applications of Fluid Mechanics	4 SH
ME 4505	Measurement and Analysis with Thermal Science Application	4 SH
ME 4506	Lab for ME 4505	1 SH
ME 4508	Mechanical Engineering Computation and Design	4 SH
ME 4550	Mechanical Engineering Design	4 SH
ME 4555	System Analysis and Control	4 SH
ME 4570	Thermal Systems Analysis and Design	4 SH
MEIE 4701	Capstone Design 1	1 SH
MEIE 4702	Capstone Design 2	5 SH

PROFESSIONAL DEVELOPMENT REQUIREMENT**Professional Development**

GE 1000	Introduction to the Study of Engineering	1 SH
MEIE 2000	Introduction to Engineering Co-op Education	1 SH
MEIE 3000	Professional Issues in Engineering	1 SH

Additional Required Courses

Partial credit for the following courses counts toward requirements above:

GE 1110	Engineering Design	4 SH
GE 1111	Engineering Problem Solving and Computation	4 SH

ADDITIONAL NU CORE COURSES**Writing**

A grade of C or higher is required in each course:

ENGW 1111	First-Year Writing	4 SH
ENGW 3302	Advanced Writing in the Technical Professions	4 SH
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	4 SH

Arts/Humanities Level 1

Complete one course from the NU Core arts/humanities level 1 domain, as described on page 34.

Social Science Level 1

Complete one course from the NU Core social science level 1 domain, as described on page 34.

INTEGRATIVE REQUIREMENT

The following course, which is part of the mathematics/science requirement above, is an integrative course:

PHYS 5318	Principles of Experimental Physics	4 SH
-----------	------------------------------------	------

COURSE WORK THAT DOES NOT COUNT TOWARD THE ENGINEERING DEGREE

Students in engineering are allowed to count a maximum of two pass/fail courses toward their degree program. Only general electives outside the College of Engineering may be taken on a

Studies in modern psychology focus on mind, brain, and behavior. Based on empirical research with both humans and animals, psychologists investigate and seek explanations for the behavior and mental life of individuals and develop assessment tools and treatment options for addressing clinical problems.

The psychology curriculum explores such topics as how brain function determines behavior; how we see, hear, and learn; what constitutes normal and abnormal personality; the nature of language and cognitive processing; how emotions affect behavior; and how individuals work in groups. Through laboratory practice and experimentation, individual research projects, and small-group seminars, the program provides the opportunity for critical evaluation and in-depth exploration across the diverse topic areas that constitute modern psychology.

Students are eligible for directed study courses, which are individualized research experiences under the supervision of a faculty member. The department also offers honors sections of various courses. Co-op placements are varied and include both community (often mental health) and laboratory settings, depending on a student's interests.

A solid scientific background in psychology helps prepare students for academic careers in teaching and research, as well as professional careers in business, public and social services, education, mental health, law, and medicine. It also provides a strong foundation for graduate study in all areas of psychology, including clinical programs.

Note: A double major in psychology and behavioral neuroscience is not offered due to the similarity in the course curricula of these majors.

Academic Progression Standards

Students who fail to maintain a minimum GPA of 2.000 will be placed on probation. Three consecutive academic terms on probation will result in dismissal from the major.

BS in Psychology

Complete all courses listed below unless otherwise indicated.

Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

The College of Social Sciences and Humanities combines the best of the liberal arts and experiential learning. Students deepen their understandings of culture, society, history, politics, language, and more through the integration of focused academic study and a wide range of experiential opportunities. They use familiar methods and new tools to hone their skills in close reading, interpretation, analysis, oral communication, and critical thinking.

By exploring society's most pressing challenges, students gain a broad understanding of the relationships among peoples and nations; global economics and politics; the diversity of languages, literatures, religions, and cultures; and multiple perspectives in urban affairs, public policy, law, criminal justice, and the ethical dimensions of human behavior.

The college offers a wide variety of undergraduate programs, including 16 different majors as well as a diverse set of combined-major options, concentrations, minors, and five-year bachelor's/master's degree PlusOne programs. The college also

offers students the opportunity to create an independent major in cases where their interests and goals are not met by existing majors. Students in the college take classes in the NU Core to complement their chosen area of study and earn either a Bachelor of Arts or a Bachelor of Science degree.

All students in the college integrate experiential learning into their education—many students pursue multiple opportunities. Students may choose to conduct original student research, either independently or with a faculty member; to immerse themselves in communities and cultures either locally or around the world; to enhance their classroom learning through the co-op experience in a variety of fields; or to build more flexibility into their academic path with a Dialogue of Civilizations trip with a faculty member over the summer.

Students may choose a four- or five-year learning plan in all programs. Both plans offer co-op opportunities in an area related to the student's chosen academic interests. Students are normally eligible to participate in co-op in the second semester of their sophomore year.

Programs in the college offer the flexibility for students to customize their academic experience around their intellectual and professional interests. A support system of department advisors, college advisors, co-op coordinators, and peer mentors helps students explore their options and shape their plan.

Academic Advising

The College of Social Sciences and Humanities has an academic advising system that consists of academic advisors located in the Office of Student Academic Affairs in 180 Renaissance Park and faculty advisors located in the college's departments and program offices. Detailed advising information is available on the college website: www.northeastern.edu/cssh. Prelaw advising (www.northeastern.edu/prelaw) and premedical/pre dental advising (www.northeastern.edu/prehealth) are also available.

Academic Progression Standards

The College of Social Sciences and Humanities adheres to the university-wide academic progression standards described in the beginning of the catalog. Some majors have additional specific requirements in order to progress from year to year (see major requirements in departmental listings).

Graduation Clearance Process

Students in the College of Social Sciences and Humanities are required to meet with an academic advisor in the Office of Student Academic Affairs in 180 Renaissance Park to determine their remaining graduation requirements. Some departments also

require a meeting with a faculty advisor in their major or program. This should be completed in the junior year to ensure ample time to complete any outstanding requirements.

College Requirements

All students in the College of Social Sciences and Humanities must successfully complete the university requirements of the NU Core (see page 34). In addition, students pursuing a Bachelor of Arts degree (BA) must fulfill the BA requirements (see page 35).

INTERDISCIPLINARY MINORS

Food Systems Sustainability, Health, and Equity

The minor in food systems sustainability, health, and equity is an interdisciplinary exploration of the contemporary food system, with particular attention to how the system evolved; its diverse societal, health, and environmental impacts; and ideas for making the food system more sustainable, healthy, and equitable for all.

For more information, contact the program director, Professor Christopher J. Bosso, in 360K Renaissance Park or at c.bosso@neu.edu.

Law and Public Policy

The law and public policy minor offers students an opportunity to obtain a thorough understanding of the U.S. legal system and to use that knowledge to examine current law and policy debates. In the LPP minor core courses, students have the opportunity to watch a criminal and/or civil trial, participate in a moot court before a panel of “judges,” and listen to speakers from both the public and private sector (for example, a superior court judge and assistant attorney general). While the minor is well-suited for students interested in pursuing a career in law and/or policy, it is invaluable for students in any field of practice, as law affects all professions and facets of everyday life.

For more information, contact the program director, Professor Joan Fitzgerald, in 310 Renaissance Park, at 617.373.3644, or at jo.fitzgerald@neu.edu.

Urban Studies

The urban studies minor offers students interested in cities an opportunity to take advantage of the resources of an urban university situated in a major metropolitan area. The minor seeks to equip students with an understanding of the dynamics of urban growth and development and includes the study of urban social and political institutions. Many courses cover climate change, sustainability, housing, and the urban economy. The minor complements many social science majors as well as architecture, business, and engineering. The minor is designed to provide a solid background for graduate study and professional careers in urban planning and policy, social work, and related fields.

For more information, contact the program director, Professor Joan Fitzgerald, in 310 Renaissance Park, at 617.373.3644, or at jo.fitzgerald@neu.edu.

Women's, Gender, and Sexuality Studies

Northeastern offers an interdisciplinary minor for undergraduate students and a certificate for graduate students who wish to explore gender and sexuality and its relation to other axes of power and identity, including race, class, and ethnicity. Women's, gender, and sexuality studies (WGSS) covers a wide variety of theoretical and empirical scholarship both within traditional disciplines and in cutting-edge, interdisciplinary frames. WGSS students have an opportunity to:

- Learn about approaches to gender and sexuality in the social sciences and humanities and through frameworks that bridge traditional fields.
- Explore gender and sexuality in the global community by dipping into disciplines ranging throughout the social sciences, arts, humanities, and physical sciences.
- Study politics and pop culture, sociology and psychology, writing and religion, and much more.
- Open up new ways of thinking, bringing gender and sexuality studies to bear on important social and intellectual questions.

For more information, visit the WGSS website at www.northeastern.edu/wgss, or contact the program coordinator in 263 Holmes Hall, at 617.373.4984, or at wgss@neu.edu.

AMERICAN SIGN LANGUAGE—ENGLISH INTERPRETING

American Sign Language (ASL) is a language used by large numbers of people in the United States and Canada. By mastering ASL, students gain both access to the culture of Deaf America and insights into features of spoken language that are often taken for granted. Learning a modally different language gives students a new sense of the power of language and an appreciation of how it shapes their world. In this way, the mastery of ASL sharpens critical-thinking skills.

The goal of the program is to provide a firm foundation in language, linguistics, culture, and interpreting, plus a broad-based liberal arts education. American Sign Language courses are integral to degrees in human services with a specialization in Deaf studies and in linguistics with a focus on ASL.

Opportunities for ASL–English interpreters continue to increase, due to federal and state legislation. Graduates work as interpreters in such diverse areas as higher education, business, social service agencies, advanced technology, and theatre.

Northeastern's National and Regional Interpreter Education Centers seek to enhance the skills of interpreters currently working in the field and to increase the supply of competent interpreters throughout the United States.

Academic Progression Standards

A minimum cumulative GPA of 2.500 overall, a 2.750 GPA in all ASL courses, and no grade lower than a C in AMSL, DEAF, and INTLP courses are required to remain in good standing in the major.

The Asian studies major at Northeastern offers undergraduates a broad liberal arts education in the histories, politics, cultures, and societies of Asia. It is designed to promote a cosmopolitan understanding of the regional, national, and local cultures in the fastest growing continent in the world. Asian studies students are asked to complete two years of an Asian language in addition to pursuing a rigorous course of study covering a number of disciplines and national traditions. Our interdisciplinary program is based on an excellent core of faculty who are drawn from a range of departments (including languages, literatures, and cultures; English; history; music; political science; philosophy and religion; public policy; and sociology and anthropology) and the World Languages Center. Our students are strongly encouraged to accelerate their language acquisition process and gain firsthand knowledge of Asian cultures and societies through participation in a university-sponsored study-abroad program, an international co-op, a Dialogue of Civilizations program, or an experiential learning experience. Students can also take advantage of the outstanding Asian cultural resources available in the Boston metropolitan area, particularly at the Museum of Fine Arts and the Peabody Essex Museum in Salem.

Academic Progression Standards

Same as university-wide standards described under “Academic Status” on page 24.

Preapproved Template Program in Asian Studies

Asian studies offers a preapproved template program that may be paired with another preapproved template program to create a combined major; to see a list of current preapproved template programs, visit www.northeastern.edu/registrar/major-2.html.

Students may request admission to such a combined major via the Combined Major Approval Form (www.northeastern.edu/registrar/form-maj-comb.pdf), which requires approval by both disciplines/colleges together with an approved curriculum. For additional information on preapproved template programs, see “Student-Requested Combined Major” on page 27. For template program requirements, visit the myNEU Web Portal (www.myneu.neu.edu), click on the “Self-Service” tab, then on “My Degree Audit.”

The School of Criminology and Criminal Justice was established in 1967 as one of the first schools of its kind devoted to matters of crime and justice. The school is a leading force in education, research, and policymaking in both the public and the private sectors of the criminal justice field.

The School of Criminology and Criminal Justice seeks to prepare students for professional and research careers in criminology, criminal justice, and related fields by applying multidisciplinary and comparative social science to understand, predict, and explain crime as well as to contribute to the development of public policy on crime and justice issues. The school seeks to develop its students intellectually and ethically, while providing them with a keen appreciation of the complexities of crime and of the public and private efforts to make communities safer and to ensure justice.

The world of criminal justice is much more than police officers, corrections officials, criminal defense lawyers, or security and loss prevention personnel. At the School of Criminology and Criminal Justice, the boundaries of criminal justice have expanded beyond traditional views of the field to include emphases on law and justice, organizations and leadership, global criminology, and crime policy. Criminal justice education today is about more than the criminal; it involves understanding the victim and the community: repairing harm, reducing fear, rebuilding safe communities, and assuring justice in spirit and act.

The School of Criminology and Criminal Justice has had a long-standing attachment and commitment to improving a wide range of justice system agencies. The school actively engages external partners in an ongoing conversation about research, community service, and salient policy questions. Part of this dialogue is supported by an ongoing program of applied and social science research. Much of this research focuses on evaluating existing government crime-control programs and policies to determine whether they work, as well as inquiries about the etiology and prevention of crime. In addition, much of our research examines

the unintended consequences of policy: institutionalized racism, differential impact of justice policy on certain groups, and the like. Research conducted at Northeastern on these topics is approached with ethical sensitivity and scientific rigor.

Criminology and criminal justice, as a social science, began in the early part of the twentieth century. Nearly one hundred years old, the field has blossomed in large part through the ingenuity of several notable scholars. The School of Criminology and Criminal Justice is pleased to be home to many of the country's preeminent contemporary scholars. School of Criminology and Criminal Justice faculty members regularly present at scholarly conferences, national and international seminars, and to policymakers worldwide.

Economics is the study of how societies produce and exchange goods and services to satisfy material needs. Undergraduates may study economics as part of a broad interest in the social sciences to develop specialized skills useful in today's complex labor market. The major in economics is also a good foundation for graduate studies in advanced economics, public policy, law, or business.

Macroeconomics, which focuses on the overall economy, deals with such problems as inflation, unemployment, growth and instability, economic development, and governmental monetary and fiscal policies.

Microeconomics examines the economic behavior of individuals, households, firms, industries, and trade among countries. It seeks to assess the economic effects of market power and environmental damage and analyzes the economic aspects of natural resources, poverty, health, income distribution, trade unions, crime, and government regulation.

Courses in economics cover international trade; the behavior of families, firms, and industries in the market economy; the environmental costs of growth; and the economic aspects of natural resources, poverty, health, labor market discrimination, trade unions, crime, and governmental oversight. International and comparative perspectives are emphasized, most directly in courses in the economic development of the developing world and economic history.

Students may pursue a BA, a BS, or a minor in economics. Additionally, economics majors in their junior year may qualify for admission to the PlusOne program that combines the BA or BS with a master's degree in economics (requires an additional 16 semester hours of course work). The department also offers combined majors with business administration, environmental studies, international affairs, mathematics, philosophy, and political science.

Graduates may find jobs in major corporations; financial institutions; nonprofits; NGOs; or federal, state, and local governments. Their work may involve planning and forecasting, assessing labor needs, and undertaking financial studies. They may estimate consumer demand for new products, conduct research, teach, or provide specialized consulting services.

Academic Progression Standards

The following are the requirements to progress in the major:

- The following three core courses should be completed first:

ECON 1115	Principles of Macroeconomics	4 SH
ECON 1116	Principles of Microeconomics	4 SH
MATH 1231	Calculus for Business and Economics	4 SH
- Within two semesters of completing the above courses, the following three core courses should be completed:

ECON 2315	Macroeconomic Theory	4 SH
ECON 2316	Microeconomic Theory	4 SH
ECON 2350	Statistics	4 SH
- Within two semesters of completing the above three courses, one of the following two core courses should be completed:

ECON 3520	History of Economic Thought	4 SH	(for BA students)
or ECON 3560	Applied Econometrics	4 SH	(for BS students)

For BS majors, grades earned in the six core courses (ECON 1115, ECON 1116, ECON 2315, ECON 2316, ECON 2350, and ECON 3560) must average to a 2.000 GPA or better.

For BA majors, grades earned in the six core courses (ECON 1115, ECON 1116, ECON 2315, ECON 2316, ECON 2350, and ECON 3520) must average to a 2.000 GPA or better.

After admission to the major, all required economics courses must be taken in the day college.

PlusOne Program (MA) in Economics

The PlusOne Program in Economics offers an opportunity for the best of Northeastern's undergraduate economics majors to complete both the undergraduate degree program (BS or BA) and the professional program (MA) in economics in less time than if the programs were completed sequentially. Students apply no later than junior year, after all core economics classes have been completed, and begin taking master's course work in their senior year. One additional year of graduate study is required to complete the master's program. Students interested in this option should consult with the departmental advisor.

BA in Economics

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

English studies at Northeastern comprise a range of fields: literary studies, rhetoric and composition, linguistics, film, digital humanities, and creative writing. The Department of English offers a major and three minors, as well as several combined majors.

Students in the English major study the historical, cultural, and aesthetic contexts of English, American, and other Anglophone literatures, writing practices, and related media (such as film) from the Middle Ages through the present, from the quill pen to the digital age. They practice a variety of theoretical and methodological approaches to the study of language, rhetoric, writing, and literature.

The minors offer concise engagements with several areas of English studies. The minor in English introduces the materials and methods of the field as a whole. The minor in writing encourages students to develop expertise in creative, professional, and public writing as well as rhetorical theory. The interdisciplinary minor in rhetoric draws on courses in communication studies as well as English.

Course work in English seeks to develop skills of reading, analysis, and expression in great demand in the workplace and in graduate study: the ability to interpret and evaluate a variety of texts, to evaluate and produce arguments, and to engage diverse audiences. The major and minors are particularly suitable for students preparing for careers or graduate school in teaching and research, writing and publishing, media and communications, and any field that demands analytical ability and well-honed writing skills, such as law or business.

Academic Progression Standards

All majors must have at least a 2.500 GPA in their English courses by the end of their sophomore year.

Preapproved Template Program in English

The Department of English offers a preapproved template program that may be paired with another preapproved template program to create a combined major; to see a list of current preapproved template programs, visit www.northeastern.edu/registrar/major-2.html.

Students may request admission to such a combined major via the Combined Major Approval Form (www.northeastern.edu/registrar/form-maj-comb.pdf), which requires approval by both disciplines/colleges together with an approved curriculum. For additional information on preapproved template programs, see “Student-Requested Combined Major” on page 27. For template program requirements, visit the myNEU Web Portal (www.myneu.neu.edu), click on the “Self-Service” tab, then on “My Degree Audit.”

PlusOne Program (MA) in English

English majors at the end of their sophomore year or the beginning of their junior year may qualify for application to the PlusOne program that combines the BA with the master’s degree in English. Students interested in this option should consult with the departmental advisor by the end of the sophomore year.

History at Northeastern emphasizes the study of local and regional histories as well as of the global exchanges between nations, regions, and cultures. Knowledge of the past is also about building the future. In a world marked by increasing exchange between peoples, cultures, and societies, history is key to understanding contemporary issues such as the future of democracy, the nature of citizenship and rights, the origins and conduct of war, the foundations of racial and ethnic conflict and tolerance, and poverty and prosperity. At the same time, history teaches crucial skills in analytical thinking, research processes, writing, oral expression, and multimedia presentation.

History majors take three core seminars on historical research and choose from a broad range of courses in historical themes, periods, and regions. Students focus their studies by establishing a cluster of four courses in a particular geographical area, time period, or theme. The program emphasizes undergraduate research in the major and trains students to conduct research in archives and primary sources and to write research papers. Honors study is strongly encouraged for eligible students, and students are encouraged to take advantage of numerous options for study abroad. Advanced undergraduates have the opportunity to participate in individual directed study with members of the faculty on topics of mutual interest.

Cooperative education placements, fieldwork, internships, and other experiential learning activities are also available. History majors have worked on co-op in law firms, an art auction house, the State Department, the Massachusetts State House, Newton Public Schools, and the Massachusetts State Archives among many other institutions.

Undergraduates who plan to teach in public schools may combine history with education courses that can lead to state certification in Massachusetts. History students are also encouraged to take Dialogue of Civilizations courses that engage students in short-term study abroad during the summer.

The Department of History offers a broad-based Bachelor of Arts major and two Bachelor of Science options. One BS option emphasizes training in disciplines outside history. It includes the study of research methods and a minor in fields such as English; economics; political science; sociology; cinema studies; East Asian studies; or women's, gender, and sexuality studies. The other BS option seeks to prepare students for public history fields such as museum administration, archival management, or historic

preservation. The Department of History participates in numerous interdisciplinary programs, including East Asian studies; cinema studies; environmental studies; international affairs; Jewish studies; Latino/a, Latin American, and Caribbean studies; and women's, gender, and sexuality studies.

The Department of History offers qualified undergraduates the opportunity to pursue a BA/MA or BS/MA degree in five years, with the approval of the department. Students with a minimum 3.330 cumulative GPA and minimum 3.500 GPA in required history courses may apply for admission to the PlusOne BA/MA or BS/MA program in history.

Academic Progression Standards

Same as university-wide standards described under "Academic Status" on page 24.

Preapproved Template Program in History

The Department of History offers a preapproved template program that may be paired with another preapproved template program to create a combined major; to see a list of current preapproved template programs, visit www.northeastern.edu/registrar/major-2.html.

Students may request admission to such a combined major via the Combined Major Approval Form (www.northeastern.edu/registrar/form-maj-comb.pdf), which requires approval by both disciplines/colleges together with an approved curriculum. For additional information on preapproved template programs, see "Student-Requested Combined Major" on page 27. For template program requirements, visit the myNEU Web Portal (www.myneu.neu.edu), click on the "Self-Service" tab, then on "My Degree Audit."

PlusOne Program (MA) in History

History majors at the end of their sophomore year or the beginning of their junior year may qualify for application to the PlusOne program that combines the BA with the master's degree in history. Students interested in this option should consult with the departmental advisor by the end of the sophomore year.

Lori Gardinier, *Director*, l.gardinier@neu.edu

The human services major prepares students for careers in social change by providing students with the theoretical and skill-based background necessary for practice and research.

Students take academically rigorous courses relevant to the field while honing their skills through our extensive experiential educational opportunities. Through courses, service-learning, co-op, and internships, students have an opportunity to acquire professional skills related to counseling, nonprofit management, political advocacy, and organizational and community development. Students who major in human services select a specialization in an area that they wish to pursue further.

Alumni have gone on to work as leaders and practitioners in nonprofit, legal services, and government. Many have pursued graduate degrees in a broad range of fields associated with health and human services, including social work, public health, education, and law.

Prepared Specializations

- Applied behavior analysis
- Deaf studies
- Family and children's services
- Identity and social change
- Psychology/counseling psychology
- Social justice and social policy
- Customized specialization

Academic Progression Standards

After four semesters, students must maintain a minimum 2.000 GPA, have earned at least 64 semester hours, and should have completed the following courses:

HUSV 1101	Human Services Professions	4 SH
HUSV 2300	Counseling in Human Services	4 SH
HUSV 3700	Research Methods for Human Services	4 SH
HUSV 3900	Introduction to Social Policy	4 SH

an approved organizations course
and at least one specialization course (see advisor).

In order to take the following course:

HUSV 4994	Human Services Internship	6 SH
-----------	---------------------------	------

students must have permission from the internship coordinator at least one semester *prior* to the semester they wish to take the internship course. Internship should be taken either the spring semester of a student's junior year or the fall semester of a student's senior year.

Human Services Minor

The minor in human services may help lead to careers in many diverse areas of social change or to graduate programs in social work, health, counseling, rehabilitation, and law. Human services professions are among the fastest-growing occupations in the nation. Society recognizes the necessity, value, and reward of dedicating time and energy to helping people. Combining a human services minor with any major gives students the opportunity to learn about the individual community and political interventions for social change.

International affairs is an interdisciplinary major in the College of Social Sciences and Humanities. The program is designed to prepare undergraduate students with the knowledge and skills needed to thrive and lead in a diverse world society while promoting global citizenship and social responsibility.

Academic Progression Standards

It is recommended that students majoring in international affairs maintain a minimum 3.000 GPA until the beginning of their international experience in order to be eligible for the majority of the study-abroad options.

Cooperative Education

Cooperative education is recommended for all students pursuing a major or combined major in international affairs.

GPA REQUIREMENT

2.000 GPA required in the minor

Middle East Studies

The minor in Middle East studies is an interdisciplinary program, drawing on courses in international affairs; political science; history; philosophy; religion; economics; anthropology; and languages, literatures, and cultures. The program provides an in-depth study of the Middle East (Arab world, Israel, Iran, and Turkey) and aims to enhance students’ understanding of this culturally diverse and politically important region of the world. Students are encouraged to take advantage of the university’s study-abroad programs and the Dialogue of Civilizations programs (faculty-led summer programs) in Egypt, Morocco, Tunisia, Jordan, Turkey, Israel and Palestine, and other approved programs in the region.

Minor in Middle East Studies

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Jewish studies offers the opportunity to explore Jewish history, religion, and cultures. Because of the geographic, ethnic, racial, and cultural diversity of the Jewish people, as well as the long timeline of Jewish history, Jewish studies provides students with rich possibilities for cross-cultural and comparative study. Jewish studies is an interdisciplinary program embracing history, music, literature, political science, international affairs, sociology, gender studies, religion, philosophy, Hebrew, and more. The program also explores the evolving interactions between Judaism and other religions and offers exciting courses in both Israel studies and the history and cultures of Diaspora Jewish communities around the world.

The Jewish studies program offers both a minor and a pre-approved template for a combined major. A unique feature of the minor is the Jewish studies module, in which students create an original project that brings an aspect of Jewish studies together with an aspect of their major.

Jewish studies classes seek to help students develop a more critical and analytical understanding of the religious and secular world around them. They are designed to prepare students for any field that requires critical thinking and cross-cultural understanding, including careers in education, social services, politics, museums and archives, and Jewish communal organizations, as well as for graduate and professional studies. A partnership between Northeastern University and Hebrew College allows for tuition-free cross-registration.

Study abroad, either through the Dialogues of Civilization program in Israel, Germany, and/or Poland or through traditional study-abroad programs, is a significant aspect of Jewish studies. Experiential learning in the Jewish studies program includes these study-abroad opportunities, as well as internships or co-ops at organizations such as the Jewish Community Relations Council, Facing History and Ourselves, the Jewish Women's Archive, and the Israeli Consulate. Ruderman and Brudnick merit-based scholarships support selected Jewish studies majors and minors; the Gideon Klein award supports a student in research on the arts and the Holocaust.

For more information, visit www.northeastern.edu/jewishstudies.

Academic Progression Standards

Same as university-wide standards described under “Academic Status” on page 24.

Preapproved Template Program in Jewish Studies

Jewish studies offers a preapproved template program that may be paired with another preapproved template program to create a combined major; to see a list of current preapproved template programs, visit www.northeastern.edu/registrar/major-2.html.

Students may request admission to such a combined major via the Combined Major Approval Form (www.northeastern.edu/registrar/form-maj-comb.pdf), which requires approval by both disciplines/colleges together with an approved curriculum. For additional information on preapproved template programs, see “Student-Requested Combined Major” on page 27. For template program requirements, visit the myNEU Web Portal (www.myneu.neu.edu), click on the “Self-Service” tab, then on “My Degree Audit.”

The study of languages can benefit all students, regardless of their majors. The multicultural world in which we live requires increased communication among varied and often divergent cultures. Learning a new language and its culture enables students to cross cultural barriers and to achieve a more cosmopolitan, open-minded, and sensitive view of the world.

The major seeks to ensure that students become as fluent as possible in a given language and introduces them to the relevant culture of that language. For this reason, the students take a number of language classes as well as literature, cinema, and general civilization courses. In addition, students are required to participate in study abroad and are urged to consider participating in international co-op, which prepares students to function on an everyday level in a foreign country.

The major is currently available in Spanish. It is possible to minor in Arabic, Chinese, French, Italian, Japanese, Portuguese, Russian, or Spanish.

A major in a language can form the basis for careers in teaching at the elementary, secondary, or college level; international business relations; high-tech fields; government service; journalism; library science; world affairs; travel; and community service, especially in Spanish-speaking areas.

Philosophy addresses questions and theories related to morality, society, religion, and the natural and social sciences. The study of philosophy challenges students to examine, through critical reflection, their beliefs in many areas.

Courses aim to provide students with an understanding of the methods and traditions of philosophical and religious thought. Through readings, discussion, and writing, students examine questions concerning the nature and validity of religious beliefs, moral judgments, political ideas, and scientific theories, as well as questions about values and social policy in such areas as law, medicine, and technology. Course work in philosophy can strengthen the student's work in other areas.

The program in religion offers students the opportunity to acquire an understanding of religious experience within its social, historical, literary, and political context. Students study specific religious traditions such as Judaism, Islam, and Hinduism, and using a comparative approach they explore themes across faith traditions. Through the major, a student has the opportunity to study a range of religions and a variety of methods of understanding the key dimensions of religious life.

Academic Progression Standards

A minimum cumulative GPA of 2.000 is required to remain in good standing in the major.

Preapproved Template Programs in Philosophy and in Religious Studies

The Department of Philosophy and Religion offers preapproved template programs in philosophy and in religious studies. Each template program may be paired with another preapproved template program to create a combined major; to see a list of current preapproved template programs, visit www.northeastern.edu/registrar/major-2.html.

Students may request admission to such a combined major via the Combined Major Approval Form (www.northeastern.edu/registrar/form-maj-comb.pdf), which requires approval by both disciplines/colleges together with an approved curriculum. For additional information on preapproved template programs, see "Student-Requested Combined Major" on page 27. For template program requirements, visit the myNEU Web Portal

(www.myneu.neu.edu), click on the "Self-Service" tab, then on "My Degree Audit."

The Philosophy Major

Philosophy majors enter diverse careers, ranging from college-level teaching to law and business. The program strives to help students sharpen their critical abilities. The department offers three ways to major in philosophy: the standard major, the concentration in law and ethics, and the concentration in religious studies.

BA in Philosophy

Combined Major in Jewish Studies and Religion

The combined major in Jewish studies and religion offers students an integrated program of study of two naturally complementary fields. Study of Judaism as a religion, which forms an important core of the interdisciplinary field of Jewish studies, is greatly enhanced by broad familiarity with the world's religious traditions; conversely, in-depth knowledge of Jewish history, identity, and culture provides students of religion with valuable insight into the ways in which religion interacts with a wide variety of forces to shape the experiences of the adherents of a particular faith. The combined major is designed to enable students to understand the history, culture, and religion of the Jewish people; analyze and apply theoretical understanding to the interaction between religious, social, and historical factors that have shaped the experiences of the Jewish people; and demonstrate fluency in understanding the major religious traditions of the world.

Students in the combined major receive an interdisciplinary introduction to the field of Jewish studies, followed by courses in Jewish religion and thought, Jewish history, and Jewish arts and culture; electives allow for exploration of Northeastern's Jewish studies offerings, which focus particularly on modern Jewish life and identity. Religion course work provides a grounding in the Bible, central to understanding Judaism and other Western religions, followed by broader course work in world religion and upper-level thematic courses. Capstone courses bring the two fields closely together by integrating the study of Judaism into the broader study of religion or the study of religion into the study of the broader Jewish experience. Students fulfill their language requirement with Hebrew, and they are encouraged to fulfill their experiential education requirement through study abroad or an internship or co-op in a Jewish organization.

The combined major in Jewish studies and religion is designed to prepare students for graduate work in Jewish studies, religion, or many of the other disciplines that make up Jewish studies or for work within the Jewish community or in communal organizations associated with other religions. It is an ideal foundation for the integrative five-year program through which students can earn a BA from Northeastern and an MA or MJED from Hebrew College.

Political science teaches the art and science of politics in the United States and throughout the world. Study leadership with a former U.S. presidential candidate. Spend seven weeks visiting the United Nations and other organizations in Geneva, Switzerland. Apply for the White House internship program or to the British parliament. Develop aid programs in a Saharan village in Niger. Write opinion pieces for an outstanding student political journal. Compete to represent an Arab country as part of one of the top Model Arab League teams in the United States. Political science is a discipline and a subject of study that has worldwide applications and exciting and experiential job opportunities. Politics matter wherever there are groups of people trying to get things done.

Political science majors start their journey with core courses on American government, comparative politics, international relations, and research methods. After that, students choose from a wealth of courses on specific topics from international security to legal studies to public policy.

Political science co-ops include responsible positions in local, state, and federal government agencies; law firms; nonprofit institutions; and corporations. Many students complete either a co-op position or an internship with a congressional representative, a senator, a governor, or other elected public officials, or at an international organization or nonprofit.

Political science students are among the most active on campus through extracurricular programs designed to expand their leadership ability, including the Political Science Student Association, International Relations Council, Pi Sigma Alpha honor society, Model United Nations, Model Arab League, Model NATO, student government, College Democrats and Republicans, and other student groups. Students also may qualify for the University Honors Program. With these experiences on their resumés, students are prepared to succeed in law school, graduate school, careers in government and the nonprofit sector, as well as in teaching, journalism, legislative or lobbying positions, public relations activities, and work in international corporations and nongovernmental organizations (NGOs).

Academic Progression Standards

Same as university-wide standards described under “Academic Status” on page 24.

PlusOne Program (MA) in Political Science

Political science majors at the end of their sophomore year or the beginning of their junior year may qualify for application to the PlusOne program that combines the BA with the master's degree in political science. Students interested in this option should consult with the departmental graduate coordinator.

Sociology and cultural anthropology provide the critical perspective needed for studying the social and cultural arrangements in which people live, for understanding how societies function, for investigating the conditions under which people change their institutions, and for describing the modes and conditions of cooperation that make social life possible.

Courses in the program examine such areas as urbanization, the environment, health, globalization and human rights, gender and sexuality, social movements, the cultural underpinnings of science and technology, new media, and the comparative analysis of advanced capitalist societies. Many courses are directly relevant to majors in other fields, including economics, political science, philosophy, literature, criminal justice, and business.

The major in sociology or cultural anthropology seeks to prepare students for careers in public or private service, including such fields as law, teaching, social work, administration or management, and research.

Academic Progression Standards

Same as university-wide standards described under “Academic Status” on page 24.

**Preapproved Template Program
in Cultural Anthropology**

The Department of Sociology and Anthropology offers a preapproved template program in cultural anthropology. The template program may be paired with another preapproved template program to create a combined major; to see a list of current preapproved template programs, visit www.northeastern.edu/registrar/major-2.html.

Students may request admission to such a combined major via the Combined Major Approval Form (www.northeastern.edu/registrar/form-maj-comb.pdf), which requires approval by both disciplines/colleges together with an approved curriculum. For additional information on preapproved template programs, see “Student-Requested Combined Major” on page 27. For template program requirements, visit the myNEU Web Portal (www.myneu.neu.edu), click on the “Self-Service” tab, then on “My Degree Audit.”

The *Northeastern University Undergraduate Catalog (Full-Time Day Programs)* contains the university's primary statements about these academic programs and degree requirements, as authorized by the president or the Board of Trustees. For information about other academic policies and procedures; student responsibilities; student academic and cocurricular life; faculty rights and responsibilities; or general personnel policies, benefits, and services, please refer to the *Undergraduate Student Handbook*, *Graduate Catalog*, *Cooperative Education Student Handbook*, *Faculty Handbook*, and related procedural guides, as appropriate.

Accreditation. Northeastern University is accredited by the New England Association of Schools and Colleges, Inc.

Delivery of Services. Northeastern University assumes no liability for delay or failure to provide educational or other services or facilities due to causes beyond its reasonable control. Causes include, without limitation, power failure, fire, strikes by university employees or others, damage by natural elements, and acts of public authorities. The university will, however, exert reasonable efforts, when it judges them to be appropriate, to provide comparable services, facilities, or performance; but its inability or failure to do so shall not subject the university to liability.

The *Northeastern University Undergraduate Catalog* contains current information about the university calendar, admissions, degree requirements, fees, and regulations; however, such information is not intended and should not be regarded to be contractual.

Northeastern University reserves the sole right to promulgate and change rules and regulations and to make changes of any nature in its program; calendar; admissions policies, procedures, and standards; degree requirements; fees; and academic schedule whenever necessary or desirable, including, without limitation, changes in course content and class schedule, the cancellation of scheduled classes and other academic activities, and the substitution of alternatives for scheduled classes and other academic activities. In any such case, the university will give whatever notice is reasonably practical.

Northeastern University will endeavor to make available to its students a fine education and a stimulating and congenial environment. However, the quality and rate of progress of an individual's academic career and professional advancement upon completion of a degree or program are largely dependent on his or her own abilities, commitment, and effort. In many professions and occupations, there are also requirements imposed by federal and state statutes and regulatory agencies for certification or entry into a particular field. These requirements may change while a student is enrolled in a program and may vary from state to state or country to country. Although the university stands ready to help its students find out about requirements and changes in them, it is the student's responsibility to initiate the inquiry.

Tuition Default Policy. In cases where the student defaults on his/her tuition, the student shall be liable for the outstanding tuition and all reasonable associated collection costs incurred by the university, including attorneys' fees.

Emergency Closing of the University. Northeastern University posts emergency announcements, including news of weather-related closings, on its homepage, at www.northeastern.edu, and notifies members of the community individually through the NU ALERT system. In addition, the university has made arrangements to notify students, faculty, and staff by radio and television when it becomes necessary to cancel classes because of extremely inclement weather. AM stations WBZ (1030), WILD (1090), and WRKO (680), and FM station WBUR (90.9) are the radio stations authorized to announce the university's decision to close. Television stations WBZ-TV4, WCVB-TV5, and WHDH-TV7 will also report cancellations. Since instructional television courses originate from live or broadcast facilities at the university, neither the classes nor the courier service operates when the university is closed. Please listen to the radio or television to determine whether the university will be closed.

If a storm occurs at night, the announcement of university closing is given to the radio stations at approximately 6 a.m. Classes are generally canceled for that entire day and evening at all campus locations unless stated otherwise. When a storm begins late in the day, cancellations of evening classes may be announced. This announcement is usually made between 2 and 3 p.m.

Equal Opportunity Policy. Northeastern University does not discriminate on the basis of race, color, religion, sex, sexual orientation, age, national origin, disability, or veteran status in admission to, access to, treatment in, or employment in its programs and activities. In addition, Northeastern University will not condone any form of sexual harassment. Handbooks containing the university's nondiscrimination policies and its grievance procedures are available in the Office of Institutional Diversity and Inclusion, 125 Richards Hall. Inquiries regarding the university's nondiscrimination policies may be directed to:
