NSF Updates

Research.Gov Implementation Update: *Notice No. 147*

- NSF is now taking proactive steps to incrementally move the preparation and submission of all proposals from FastLane to Research.gov with a tentative target date for completion by 2022.
- NSF will begin making changes to specific funding opportunities to **require the use of Research.gov** for the preparation and submission of proposals to NSF.¹
 - The Directorate for Biological Sciences (BIO) will soon require the use of Research.gov for the preparation and submission of proposals in response to its core programs that do not have deadline dates.
 - NSF funding opportunities will clearly specify whether submission via Research.gov is available or required.

NSF Updates

Updates to the [Research Performance Progress Report](#) (RPPR) - Effective October 5th

New Question for Project Reports with Active Other Support Changes

- *Has there been a change in the active other support of the PI/PD(s) since the last reporting period?* If Principal Investigators (PIs)/Project Directors (PDs) and co-PIs/co-PDs select “Yes,” they will be required to upload their most up-to-date Current and Pending Support document in an NSF-approved format to notify NSF that active other support has changed since the award was made or since the most recent annual report.
- Current and Pending Support documents not in an NSF-approved format will trigger a compliance error preventing document upload and submission of the annual or final project report.
- The NSF-approved formats for Current and Pending Support are [SciENCv: Science Experts Network Curriculum Vitae](#) and an [NSF fillable PDF](#).
- The NSF [Current and Pending Support](#) website includes additional information as well as links to system-related Frequently Asked Questions (FAQs) for both NSF-approved formats. A set of policy-related [FAQs related to current and pending support](#) is also available.

NSF Updates

Updates to the [Research Performance Progress Report](#) (RPPR) - Effective October 5th

Additional New Questions from the Revised RPPR to the "Impact" and "Changes/Problems" tabs:

What was the impact on teaching and educational experiences? (*Impact tab*);

What percentage of the award's budget was spent in a foreign country? (*Impact tab*); and

Has there been a change in primary performance site location from that originally proposed? (*Changes/Problems tab*).

The complete lists of FastLane and Research.gov automated proposal compliance checks effective October 5, 2020, are available on the [Automated Compliance Checking of NSF Proposals website](#).

NIH Updates

NIH Regional Seminars on Program Funding and Grants Administration: October 27-30, 2020

Friendlier Approach for Cross-Referencing Notices of Special Interests (NOSIs) in FOAs Used for Submission

Reminder: The use of hypertext (e.g. hyperlinks and URLs) in NIH applications is restricted. There is **no change** in the NIH policy on the use of hyperlinks. [NIH Policy on Use of Hypertext in NIH Grant Applications](#).
