NU-RES Admin Updates

COMING SOON: Updates to the AIR to AOS setup process. Some changes we plan to implement include:

- Congratulations email and AIR request email are being combined into one:
 - Will reduce number of emails RA generates for award setups.
 - RA will no longer fill out a transaction form for the AIR request, the request for the AIR will be embedded right in the email.
 - By cc'ing RF, they will have a better understanding of pending items, particularly if budget(s) are requested.
- Routing final award package to relevant stakeholders:
 - RA will no longer email final award package to RF asking "to process" it. Instead, we will be sending the final award package to all relevant stakeholders (PI, dept admin, RF, etc.) indicating that the compliance review of the package has been completed and attaching the package for their records.
 - At this point the award will be marked as complete on the RA tracking log.
 - If upon their final review, RF makes any changes to Banner, they will inform the relevant stakeholders once the changes are complete.

Affiliations/Attribution reporting

- If Institute or Center does not exist in Banner, it cannot be included in Golden reports
 - While we know within which college they are supported, Cognos uses the Banner DIVISIONS to join our data
 - If there is no match in Banner to what we provide, it will not show any dollars in the Golden Reports
- We are creating a stand-alone report of our Institutes and Centers, for both proposals and awards, and using the affiliation percentages to calculate an attributable amount

F&A Rates for Active Awards

- The rate that is awarded with your agreement/contract will remain the rate that is used
- We will not make a blanket increase across the whole portfolio, rate increases will be based on the agreements
- Rates will begin to change starting 7/1/2023 when new/incremental agreements come in
- Once the rates change on a fund, we will not go back to an older rate

Example:

Fund 500XXX Budget begins 3/1/2023, currently at 57%

Rate will flip to 59.5% on 3/1/2024, based on budget period start date

Expenses charged after 3/1/2024 will be charged the 59.5%

Cognos Paycheck Date Variance

- ITS working on a fix for "paycheck dates" that are showing up as "1/1/1900" in Payroll Distribution Reports.
- This impacts ~160 grants.
- While the paycheck dates are off, the employee information is correct and charges are for "Workday" pay periods in FY22 (Jan-June 2022).
